Concerning the Kikkoman brand (p. 59): In 1838, Mogi Saheji petitioned for and received registration for the brand name Kikkoman by the central government of Japan. Although this Mogi family has produced other shoyu brands, Kikkoman was the pride of the family, its private label. When written longhand in Japanese characters, the brand is composed of three characters: *ki*, for "tortoise," meaning good luck and longevity in Chinese and Japanese folklore; *ko* means "first-rate"; and *man* suggests "ten thousand" or forever. *Kikko* also means octagon, so the brand name is often written as an octagon with the character for "ten thousand" or *man* written inside the octagon.

"In 1872 and 1873, shortly after the Meiji Restoration of 1868, Mogi Saheiji entered Kikkoman in two world's fairs, the first held in Amsterdam and the second in Austria. Kikkoman was awarded a letter of commendation for excellence at the Austrian fair, and following this, Mogi Saheiji redoubled his efforts to promote the brand. In 1877 Kikkoman received a second-place medal at the All-Japan Industry Promotion Fair, and in 1879 it was registered in California as a legally recognized brand name, a move that predated the same legal protection in Japan by six years!"

Prof. Alfred D. Chandler, Jr. of the Harvard Business School worked closely with Fruin as he was researching and writing this book during nearly two years at Harvard. His scholarship, wisdom, friendship, and encouragement contributed greatly. Address: Prof. of History, California State Univ., Hayward.

6409. Fujimori, Ikuo. 1983. Daizu. Shizen kindaabukku [Soybeans. Natural children's book]. Tokyo: Fureberu-kan K.K. 30 p. Illust. by Akira SETO. 26 cm. [Jap]
• ***Summary:*** A children's book with superb color illustrations. Shows how to make natto, tofu, and soy sprouts at home. A large color photo (p. 10-11; 2-page spread), titled "All made from soybeans," shows kinako, miso, shoyu, soymilk, yuba in a bowl of clear soup, ganmodoki, abura-age, cooked whole soybeans (*nimamé*), okara sauteed with vegetables, dengaku (made with tofu and miso), and atsu-agé. Address: Daizu kairyo no dai-ichi ninsha [President, Takeya Miso Co., Nagano, Japan].

6410. Goldbeck, Nikki; Goldbeck, David. 1983. American wholefoods cuisine: Over 1300 meatless, wholesome recipes from short order to gourmet. New York, NY: New American Library. viii + 580 p. Illust. Index. 23 cm. [65* ref]
• ***Summary:*** This is the best of the Goldbeck's many good books on food. Contains many recipes for tofu (regular and frozen, p. 166-73) and tempeh (p. 173-75), and some for soynuts, whole soybeans, and soy flour. Although its subtitles says it is a meatless cookbook, pages 15-16 discuss the value of adding small amount of meats, fish, and poultry to other dishes, and page 478 contains details on storing six different types of meats, plus poultry and fish. Address: Woodstock, New York.

[100+* ref]
• ***Summary:*** In the chapter on "Shopping for food," the section titled "Shopping for protein" states that the five foods that provide the most protein for the money are all legumes–soybeans, lentils, split peas, kidney beans, and chick peas. More important, soybeans are used to make tofu.

In the same chapter, under "Mail-order shopping" is an entry (p. 44) for: "Manna Foods, 112 Crockford Rd., Scarborough, Ontario, Canada M1R 3C3. Small, high-quality wholesaler. Catalog free." Also listed: Shiloh Farms (Sulphur Springs, Arizona). Starflower (Eugene, Oregon). Stow Mills (Greenfield, Massachusetts). Walnut Acres (Penns Creek, Pennsylvania). Deer Valley Farms, Inc. (Guilford, New York).

6413. Herrmann, Karl. 1983. Exotische Lebensmittel. Inhaltsstoffe und Verwendung [Exotic foods. Ingredients and uses]. Berlin, Heidelberg, & New York: Springer-Verlag. x + 175 p. Illust. 21 cm. See p. 111-19. Sojabohnenprodukte. [18 ref. Ger]
• ***Summary:*** The chapter on legumes contains brief introductions to soybeans, green vegetable soybeans (*unreife Sojabohnen*), soy sprouts (*Sojabohnensprossen, Sojabohnenkeimlinge*), soymilk (*Sojamilch*), tofu (*Tofu, Sojaquark*), soy sauce (*Sojasosse, Shoyu*), miso (*Miso, Sojapaste*), tempeh (*Tempeh*), fermented tofu (*Sufu, chinesischer Sojabohnen-Käse*), and natto (*Natto, fermentierte ganze Sojabohnen*). Tables shows the nutritional composition of tofu, deep-fried tofu pouches (*Aburage*), dried-frozen tofu (*Kori-Tofu*), yuba (*Yuba*), roasted soy flour (*Kinako*), and miso, plus defatted soybean meal (*entfettetes Sojabohnenmehl;* 51% protein), and soybean concentrate (*Sojabohnen Konzentrat;* 64.9% protein). Address: West Germany.

6414. Jaffrey, Madhur. 1983. Eastern vegetarian cookery. London: Jonathan Cape. xii + 531 p. Illust. by Susan Gaber. Index. 24 cm.
• ***Summary:*** This is an expanded version of *Madhur Jaffrey's World-of-the-East vegetarian cookery* (1981, New York). The author of this creative book, a woman, was born in British India on 13 Aug. 1933. She first became known as an actress in India, but later found fame as a food writer. She has lived in America for more than 20 years. She presents 21 recipes for bean curd (tofu), 7 for tempeh, and some for yuba and miso. Soy-related recipes include: Aubergine slices with white miso (Japan, p. 4-5). Green beans with soy sauce (Japan, p. 20), Cabbage with miso (Japan, p. 29). Lotus root with soy-sauce dressing (Korea / Japan / Hong Kong, p. 46-47). Yellow pumpkin cooked with soy sauce (Japan, p. 74-75). Fresh soy beans, steamed (China, p. 76, with "fresh green soy beans in their pods"). Yien Koo's Spinach with fermented bean curd (China, p. 78-79). Pecel (Vegetable salad with spicy peanut sauce, plus tofu and tempeh; Indonesia, p. 87). Tempura (with tofu; Japan, p. 89-92). Soy bean sprouts (how to grow, p. 119). Soy-bean and mung-bean sprouts seasoned with sesame oil (Korea, p. 123-24). Tempeh, Fried tempeh, Fried, pre-seasoned tempeh, Sambal goreng tempeh kering (Sweet and sour tempeh), Tempeh cooked in coconut milk (Indonesia, p. 127-30). Thai fried rice (with red fermented tofu, p. 176).

Chapter 4 (p. 187-221), titled "Soy milk, bean curd, and wheat gluten," contains the following: Introduction to each ingredient. Soy milk (making your own at home). Making your own bean curd. Udofu (Yudofu, simmering bean curd with seasonings, Japan). Bean curd with watercress (Singapore Chinese). Bean curd with fresh coriander (Taiwan). Korean-style bean curd in a hot water bath. *Hiya-yakko* (Chilled bean curd, Japan). Bean curd with broccoli (Hong Kong). Cabbage cooked with bean curd (Japan). Bean curd with a deliciously spicy sauce (China). Carrots and beans with a bean-curd dressing (Japan). Bean curd, mushrooms, and peanuts in hoisin sauce (Chinese style). Sautéed bean curd (Korea). Tofu dengaku (Toasted bean curd with a miso topping, Japan). Fried bean-curd cubes (Most of East Asia). Soy-bean sprouts sautéed with fried bean curd (China). Fried bean curd with a sweet-and-sour sauce (China). Fried bean curd cakes with a mustard surprise (Japan). Inari-zushi ("Bags" of fried bean curd stuffed with sushi rice, Japan). Pressed bean curd with cabbage (China). Salad of pressed bean curd, mung-bean sprouts, and agar-agar (China). How to make fried and baked wheat-gluten balls. Stew of baked wheat gluten, potato, turnip, carrot, and cabbage rolls (Japan, p. 215). Fried wheat gluten with broccoli, carrot, and mushrooms (China). Fried wheat gluten and potato stew (Indian style). Shredded wheat gluten and Cabbage with fennel seeds (Indian style). Buddha's delight (A mixed Chinese stew, Hong Kong; with yuba, fried tofu, and fried wheat gluten balls).

Chawanmushi (Steamed savory custards, with tofu; Japan, p. 223-26). Omelette with bean curd (Japan, p. 230-31). Soy-sauce eggs (Thailand / China, p. 245). Paneer (Fresh cheese from cow's milk; India, p. 277-78). Hot or cold noodles with a soy-sauce dressing (China, p. 288). Noodles with a hot-and-sour bean sauce (China, p. 290). Vegetarian mee krob (Crisp noodles with pressed bean curd and eggs; Thailand, p. 296-97). Noodles with quail eggs, mushrooms, spinach, and yuba (Japan; p. 298-99). Hoppers (yeast pancakes; Sri Lanka, p. 315). Roti (Flat whole-wheat bread; India, p. 320). Delicious stock made with soy-bean sprouts (p. 340). Clear soup with mushrooms, bean curd skins [yuba], and spinach (Japan, p. 346). Clear soup with soft bean curd and Chinese leaves (p. 346). Miso soup with bean curd (Japan, p. 357). Miso soup with carrots and mushrooms (Japan, p. 358). Fried, munchable soy beans [soynuts] (China, p. 373). Potato and tempeh patties (Indonesia, p. 394). Dipping sauces (with soy sauce, p. 414-17, incl. kochu chang–Korean soy sauce). Kombu relish

© Copyright Soyinfo Center 2013

(with soy sauce; Japan, p. 435). Shoyu daikon (White radish pickled in soy sauce; Japan, p. 436). Ginger quick-pickled soy sauce (China, p. 436). Aomidaikon (Quick pickled small white radishes, with slightly sweet yellow miso; Japan, p. 438-39). Chinese-style jellied bean-curd sweetmeat with a peanut topping (Singapore, p. 462-63).

General information [like a glossary] (p. 481-506): See: Bean curd (regular, fried, fermented {*fu-ju, nam-ye, tao-hoo-yee,* red bean curd}, pressed {*doufu kan*}, pressed seasoned {*pai doufu kan*}, dried bean-curd skin or yuba). Beans (azuki, soy). Bean sauce (made from fermented soy beans). Chilli paste with soy bean (and garlic). Hoisin sauce. Miso. Nam yee (see Bean curd, fermented). Nigari. Soy beans, fresh. Soy-bean sprouts. Soy milk. Soy sauce (incl. Japanese, Chinese dark and light, Japanese usukuchi, Indonesian ketjap manis). Tao Hoo Yee (see Bean curd, fermented). Tempeh. Yuba. Sources (of ingredients; p. 507-10). Address: New York City, NY.

6415. Joshi Eiyo Daigaku. 1983. Tôfu kukkingu [Tofu cooking]. Tokyo: JED Shuppan-bu. Kyo no Okazu No. 9. 128 p. Illust. Index. 19 cm. [Jap]

• ***Summary:*** Contents: From tofu in Japanese to tofu in English: Modern thoughts on tofu. Ikuko Hisamatsu's healthy tofu menu: Homemade tofu, western style tofu recipes, second generation tofu products and recipes, okara, natto, soymilk. Fujiko Sakami's Japanese style recipes: Homemade second generation tofu products taste better, Japanese style tofu recipes, okara. Seiko Osato's Chinese-style recipes: Introducing the taste of the homeland of tofu in China, Chinese second generation tofu products. Other comments: The history of tofu, the roots of tofu, the challenge of homemade tofu, tricks of Western style tofu recipes, European and American tofu cooking. Note: A color photo accompanies each recipe. Address: Tokyo, Japan.

6416. Konishi, Kiyoko. 1983. Japanese cooking for health and fitness. Tokyo: Gakken Co. Ltd. 120 p. Introduction by Susan F. Stirn (U.S. Embassy, Tokyo). Illust. (color photos). No index. 27 cm. Produced in conjunction with Kikkoman. [Eng]

• ***Summary:*** This attractive book, with many large color photos on glossy paper is crippled by lack of an index. Soy-related recipes include: Miso soups (p. 23, 25). Photos (p. 26) show small packets of Kikkoman's Instant Miso Soup. The photo of sukiyaki includes a bottle of Kikkoman Sukiyaki Sauce (which contains soy sauce); the Sukiyaki recipe includes "1 block tofu." A large photo (p. 39) includes a Kikkoman soy sauce dispenser. Grilled salmon with teriyaki sauce (the sauce contains sugar, sake or dry wine, mirin and soy sauce, p. 60). Tempura (the dipping sauce contains dashi, mirin, and soy sauce, p. 64). Salmon-tofu balls (with "1 block tofu," p. 69). Salad of tuna and wakame with soy sauce dressing (p. 72). Salad of short-necked clams with miso dressing (p. 73). Soybeans cooked with chicken wings (with "10 ounces {300 gm}, or about 2 cups dried soybeans," p. 85).

The section titled "Tofu and other dishes" (p. 89-97) includes Fresh tofu with condiments (*Hiyayakko,* p. 92; a photo, p. 90, shows a Kikkoman soy sauce dispenser). Sauteed tofu topped with shrimp and vegetables (p. 92). Tofu sauteed with ground chicken and vegetables (p. 93). Boiled vegetables with tofu dressing (p. 93). A glossary each (hard to use) covers fish and shellfish; vegetables, grains, seaweed varieties, and processed foods; seasonings, spices and seeds. One full-page photo (p. 102) shows processed foods, including: Thin, deep-fried tofu (*abura-age*). Thick, deep-fried tofu (*atsu-age*). Bean curd (*tofu*). A second full-page photo (p. 103) shows seasonings, spices and seeds, including: Five forms of Kikkoman regular soy sauce (*shoyu*)–dispenser, 150 ml glass bottle, 250 ml plastic bottle, and low-salt (green label, 500 and 250 ml). Two varieties of soybean paste (*miso*). Bottles of Kikkoman soup base for noodles and tempura (*memmi* [*menmi*]), sukiyaki sauce, teriyaki sauce, extract of bonito (*katsuo-dashi*), and extract of kelp (*konbu-dashi*). Japanese horseradish (fresh *wasabi*). White sesame seeds, black sesame seeds, and sesame oil (*goma-abura*).

A full page (p. 106) titled "Japanese cooking and soy sauce" discusses: Kikkoman soy sauce–a long history (it was first made in 1630). How does Kikkoman soy sauce gain is flavor, color, taste and aroma. Why is Kikkoman called the "liquid spice"? How to preserve the fine quality of Kikkoman. Address: Tokyo, Japan.

6417. Kushi, Michio; Jack, Alex. 1983. The cancer prevention diet: Michio Kushi's nutritional blueprint for the relief and prevention of disease. New York, NY: St. Martin's Press. xi + 460 p. Index. 22 cm. [32 ref]

• ***Summary:*** In this book, cancer preventing effects are attributed to miso (p. 50-51, 220-21, 304-06), and to soybeans (p. 51, 154-55, 293, 306). Natto, soymilk, tamari, tempeh, and tofu are also discussed.

Pages 50-51 note: "A ten-year study completed in 1981 by the National Cancer Center of Japan reported that people who ate miso soup daily were 33 percent less likely to contract stomach cancer than those who never ate miso soup. The study also found that miso was effective in preventing heart and liver diseases...

"Soybeans, a major source of protein in the macrobiotic diet, have been singled out as especially effective in reducing tumors. The active ingredient in soybeans is called a protease inhibitor. Laboratory tests show that soybeans and certain other beans and seeds containing this factor added to the diet prevent the development of breast, stomach, and skin tumors. Whole soybeans and soy products, including miso, tamari soy sauce, tofu, tempeh, and natto are staples of the macrobiotic diet... At St. Luke's Hospital in Nagasaki, a

© Copyright Soyinfo Center 2013

group of macrobiotic doctors and patients who had survived the atomic bombing on August 9, 1945 subsequently protected themselves against potentially lethal doses of radiation on a diet of brown rice, miso soup, sea vegetables, and sea salt."

Pages 220-21 contain a long excerpt from the account of Dr. Tatsuichiro Akizuki, director of internal medicine at St. Francis's Hospital in Nagasaki. He survived the world's first atomic bomb attack on 9 Aug. 1945. He believed that the main reason that neither he nor any of his co-workers at the hospital suffered or died from radiation was because of their diet, based on miso, brown rice, and sea vegetables.

Pages 293, and 304-06 summarize a number of publications which seem to show that consumption of soybeans, miso, or soymilk may prevent cancer. Pages 391-99 contain soyfoods recipes. Address: Boston, Massachusetts.

6421. Migliaccio, Janice Cook. 1983. Follow Your Heart's vegetarian soup cookbook. Santa Barbara, California: Woodbridge Press. 128 p. Illust. 24 cm.
• ***Summary:*** Contains more than 50 delicious vegetarian soups developed by the author and other creative soupmakers at Follow Your Heart's famous natural foods restaurants–and served to more than 1 million customers. Follow Your Heart began in 1970, founded by Michael Besancon, as a small vegetarian lunch counter in the corner of a natural foods store in Canoga Park, California. In 1973, Follow Your Heart grew to include the store as well. In 1976 it expanded and moved to a much larger store a few blocks away. In Sept. 1982 it opened a second store (without a restaurant) in Santa Barbara, California. Today Follow Your Heart employs about 100 people, all vegetarians. The head store is at 21825 Sherman Way, Canoga Park, California 91303.

The seasonings tamari and Dr. Bronner's "Balanced Protein Seasoning" (p. 17-18) and the "special food items" Bakon Bits, miso, textured vegetable protein (TVP, p. 24-25) are described and used in a number of recipes. Soy-related recipes include: Miso vegetable soup (with miso and tofu, p. 97). Oriental vegetable soup (with tofu and tamari, p. 103-05). Sweet and Sour Oriental Vegetable (with tofu and tamari, p. 120-21). Address: Southern California.

6422. Okamoto, Nobuhiro. 1983. Shin, tôfu no ryôri [Fresh, new tofu cookery]. Tokyo: Gurafusha. 64 p. Illust. (chiefly color). 26 cm. Mylife series no. 173. [Jap]*
Address: Iiyamachi, Nagano-ken, Japan.

6423. Ornish, Dean. 1983. Stress, diet, and your heart. New York, NY: Holt, Rinehart and Winston. xxi + 392 p. Illust. Printed in 1983 by New American Library (Signet Books). 24 cm. [224+ ref]
• ***Summary:*** The title page states: "With a Foreword by Alexander Leaf, MD. Original recipes by Martha Rose Shulman." This is Dean Ornish's first book on the benefits of diet, stress reduction, and exercise in reducing heart disease. Grains and legumes are the staples in this low-fat, vegetarian diet. Dairy products (such as milk and yogurt) are used sparingly. Soy-related recipes and information include: Soy flakes (p. 161). Brief descriptions of azuki beans, soybeans, soy flakes, and soy grits (p. 175-76). Instant soy milk (such as Fearn or Jolly Joan), Tofu (p. 181). Recipe for Brown rice, barley, soy grits (p. 182). Very simple cooked soybeans (p. 185). Cooked soy flakes (p. 188). Roasted soybeans (dry roasted = baked, p. 239-40). Deep-dish vegetable pie (with cooked soy flakes, p. 252-54). Eggplant and rice casserole (with soy grits, p. 257-58). Sprouts, tomato, and white bean spread sandwich (with dry roasted soybeans cracked in a blender, p. 260). Tofu banana cream pie (p. 266). Brown rice salad (with dry roasted soybeans, p. 279). Buckwheat noodle salad with hot and sour dressing (and dry roasted soybeans, p. 282-83). Pasta with vegetables (and dry roasted soybeans, p. 296). Pasta with vegetables (and dry roasted soybeans, p. 296). Grated zucchini casserole with eggplant sauce (and dry roasted soybeans, p. 301-02). Soybean-grains casserole (with cooked soybeans or soy flakes, p. 325-26).

Tofu is mentioned on these pages: 163, 181, 201, 207-09, 236-37, 266-67, 269-70, 272-73, 285, 287, 298-99.

For information on a vegetarian diet, see p. 3, 144-50. Address: M.D., Sausalito, California.

6424. Otsuka, Shigeru. 1983. Encyclopedia of Japan: Tôfu. San Francisco and Tokyo: Kodansha International. See vol. 8, p. 35. [Eng]
• ***Summary:*** (bean curd). Tofu is said to have been first made by the Chinese 2,000 years ago and introduced to Japan in the 7th century. Describes briefly how tofu is made and the different types of tofu. Aburaage and namaage are made by frying tofu from which excess water has been pressed.

© Copyright Soyinfo Center 2013

Gammodoki is made the same way, with bits of carrot and sesame seeds added. Koridofu is made by freezing and drying tofu. Okara, the substance left after extracting the liquid *tônyû*, has a unique texture and flavor. Yakidofu is made by toasting squares of bean curd made firm by extracting excess water. The *Tofu Hyakuchin*, a cookbook written during the Edo period (1600-1868) lists 100 methods of cooking tofu. It can be used in soups or sukiyaki. As yudofu, it is kept warm in a pot of hot water and seasoned with a dipping sauce of soy sauce, minced scallion, and spices. As hiyayakko, it is eaten the same way but chilled. As dengaku tofu, it is covered with a miso mixture and broiled. Address: Japan.

6425. Pearson, A.M. 1983. Soy proteins. *Developments in Food Proteins* 2:67-108. Chap. 2. (B.J.F. Hudson, ed. London and Englewood, New Jersey: Applied Science Publishers). [108 ref]
• ***Summary:*** Contents: Summary. Introduction. Soybean production (worldwide). Structure of the soybean. Chemical composition of the soybean: Soy proteins (solubility, characterization, transformation of the 7S and 11S globulins), biologically active components (enzymes, protease inhibitors, hemagglutinins, goitrogens, estrogens, phytates, oligosaccharides, other substances, allergenic compounds, lysinoalanine). Nutritional value of soy proteins: Protein, vitamins, minerals, energy, soy protein and atherosclerosis. Processing of the soybean: Extraction of oil, processing of soybean meal, edible soy flour and grit production, soy concentrates and isolates, spun soy proteins, textured soy products. Food uses of soy protein products: Cereal grain foods, dairy-type foods, snack foods and soups, meat, poultry and fish products, Oriental soy proteins (soy sauce, tofu). Address: Prof., Dep. of Food Science & Human Nutrition, Michigan State Univ., East Lansing, Michigan 48827.

6426. Pemberton, Cindy; Brown, Marcia. 1983. The creative eater's handbook: Better nutrition through vegetarian eating. American Heart Assoc., Alameda County Chapter, 11200 Golf Links Rd., Oakland, CA 94605. 36 p. 23 x 21 cm. [9 ref]
• ***Summary:*** This booklet was developed by and is available at the Student Health Service, University of California, Berkeley. It "provides practical guidelines to ensure a tasty, nutritionally sound vegetarian diet whether you choose to limit meat in your diet, or eliminate all meat protein entirely." Soyfoods listed as good sources of vitamins and minerals include: Calcium (tofu, soybeans), iron (soybeans, tofu). A recipe is given for Tofu quiche. Address: 1. MPH, RD; 2. MPH. Both: Univ. of California.

6427. Plenty International. 1983. Caribbean islands: Another rotten day in Paradise (Leaflet). Summertown, Tennessee. 1 p. Front and back. 3 panels each side. Undated. Illust. 28 cm.
• ***Summary:*** A map shows the proposed voyage of the ship *Fri* (rhymes with "Free"), a 105-foot sailing ship, from northern Florida, through the Caribbean, then back to home port. They plan to visit St. Vincent, St. Lucia, Dominica, Antigua, and Haiti. "And in the long run: Food self-sufficiency can happen on these islands. Plenty soy technicians will stay to help local farmers grow and process soybeans into protein-rich foods such as soy milk, tofu and soy ice cream. This will help fill the need for protein in their diet."

A postcard, printed with blue ink on white, requests donations for: Caribbean project. Guatemalan refugee fund. Wherever needed. "$5 included to mail me–Guatemala: A Commentary on Human Rights."

Note: This cruise stirred up considerable controversy concerning appropriate use of limited funds. Address: Summertown, Tennessee.

• ***Summary:*** This book describes how to make tofu, tempeh, and soy sprouts, and how to build a tempeh incubator (bio-box) at home. Flora Yap (4/92) notes that the author has demonstrated tempeh making before 1988. Address: Germany.

6429. Quong Hop & Co. 1983. Welcome to the Soy Deli, that corner of your grocery store devoted to the new food of the 80's...TOFU and other soyfoods products (Leaflet). South San Francisco, California. 5 panels each side. Each panel: 13 x 8 cm.
• ***Summary:*** Contents: Facts. New ideas. 14 recipes. Address: 161 Beacon St., South San Francisco, California 94080.

6430. Rohé, Fred. 1983. The complete book of natural foods. Boulder, Colorado: Shambhala. xvi + 491 p. Illust. Index. 26 cm. [120 ref]
• ***Summary:*** This book is about "The New American Diet," which is an "omnivarian" diet including some fish and meat. Chapter 14, titled "New and future natural foods," contains a section titled "Soy foods" (p. 162-65) including tofu, tempeh, miso, soy sauce, soy milk, and other soy products (yuba and sufu). The work of William Shurtleff and Aoyagi, and their Soyfoods Center, is mentioned 2-3 times. Toward the back of the book are many soyfoods recipes.

The Prologue tells Rohe's life story and pioneering work with natural foods. In 1964, at the ripe old age of 27, he didn't feel good, didn't look good, and didn't like it–the result of years of smoking, drinking, eating bad food and "burning the candle at both ends." "It was time to do something about it. Adelle Davis became my guru and Thom Hamilton–the health foods store owner who sold me

Quality Foods from Quong Hop & Company since 1906

Welcome to the Soy Deli

that corner of your grocery store devoted to the new food of the 80's...TOFU and other soyfood products.

Contents: Facts, new ideas, and delightful recipes

DISCOVER todays miracle protein! Tofu is a pleasant tasting food well known for it's nutritional benefits. Tofu has a higher percentage of usable protein by weight than meat or dairy products. It is easily digested, making it an excellent source of protein for infants and young childen.

The SOY DELI features tofu from Quong Hop & Company in a variety of textures, varying from a soft to very firm. Each type has its own special uses. Tofu can be blended with fruits or vegetables as a base for soups, baby foods, dressings, and sauces.

THE DIFFERENCE IS QUALITY!

Quong Hop tofu contains more food value—up to 50% more protein—than other brands. This is because the water is pressed out to create a firmer product. Vacuum packed tofu is our firmest product and has the highest food value.

NUTRITIONAL FEATURES

- **No cholesterol**
- **Low in calories**
- **No sugar**
- **No chemical residues**
- **Nothing artificial**
- **Low sodium**
- **Free of meat or dairy**

ALL SOY DELI PRODUCTS ARE MADE FRESH AND DELIVERED FRESH.

At the SOY DELI you will also find many wonderful ready-to-eat treats. We offer delicious desserts, salads, flavored soy milk beverages, and new foods to sample, such as tempeh, and savory baked tofu.

Following are recipes that can be prepared quickly and easily with various SOY DELI products. Remember, tofu adapts to all your favorite recipes. For more delicious recipe ideas we suggest *Tofu Cookery* by L. Hagler. For your copy, send a money order for $7.95 (includes shipping) to:

Quong Hop and Company
161 Beacon Street So. San Francisco, California 94080

This $10.00 value is beautifully illustrated in color with over 100 recipes.

RECIPES:

1. Delicious Soy Milk

Quong Hop Soy Milk is a wonderful substitute for whole milk. Soy milk is recommended for people with dairy related allergies and it contains *no* animal fat. It can be used just as you would use milk in cereals, cooking, as a recipe base, or just plain drinking. Varieties include: Carob, Honey and Plain.

2. Strawberry—Tofu

5. Pop n' Serve Tofu Burgers

Just pop in a toaster or broiler, cook for 2–5 minutes and serve with your favorite condiments. One patty (3.5 oz.) is 17 grams of protein and 212 calories.

BBQ Tofu Burgers

1 New Leaf Tofu Burger
1 hamburger bun

[her book] *Let's Eat Right to Keep Fit* became my mentor." Within a few months he was feeling much better. "So in 1965 I bought a small health food store in the Sunset district of San Francisco." It was named Sunset Health Foods." He discarded most of the dietetic foods on the shelves and replaced them with "old-fashioned groceries–basic stuff, traditional, simple, whole food... What was evolving was a modern version of an old-fashioned grocery store." He would provide information instead of hype, bulk retail foods sold out of barrels, crocks, jars, and drawers instead of packaged products, food instead of food supplements. He renamed the store "New Age Natural Foods."

"My career ended in 1973, after eight years. New Age Natural Foods had served as a model for what were called in those days 'hippie food stores.' It is credited as being the prototype natural foods store, as distinct from a health food store." Since 1973 Fred continued to work in the natural foods industry. In 1979, in his capacity as a consultant, he met the people of Sunburst Farms, who are his collaborators on this book. "Sunburst is the realization of a vision experienced in 1951 by its founder Norm Paulsen, while he was living as a student monk studying yoga at the Self-Realization Fellowship in Los Angeles. He moved to the Santa Barbara area, and while operating a construction business in 1968 established Sunburst Farms as a group of people living communally under spiritual principles on 160 acres of land in the mountains above Santa Barbara. The community-owned business, Sunburst Natural Foods, grew foods organically and flourished. In 1970 they opened a natural foods retail store in Santa Barbara. The community grew to include a second ranch and a total membership of over 200 people. "The business came to include manufacturing and wholesaling as well as retailing. There are now five Sunburst Farmer's Markets, two of them–in Goleta and Ventura–large, complete, natural foods supermarkets. Sunburst also owns and operates a natural foods restaurant, 'The Farmer and the Fisherman,' 35 miles north of Santa Barbara along the coastal highway." Then Norm envisioned a new direction and everything changed. They traded their 6,000 acre coastal ranch for land in northeastern Nevada totaling over 500,000 acres. "It could hardly have been a more radical change. But the soil is rich in minerals and there is abundant water from artesian wells. They are responding strongly to the challenge of, as they say, 'making the desert bloom as a rose.'"

"Appendix eight: Recommended reading list" (p. 470-78) includes a section titled "Soyfoods."

This book was Re-published in 1986 as *Nature's Kitchen* by Garden Way in Brattleboro, Vermont.

Interview with Fred Rohe. 1988. Nov. 3. Fred bought Sunset Health Foods in 1965 and transformed it into New Age Natural Foods at 1326 Ninth Ave. in San Francisco. Address: 4014 Lincoln Way, San Francisco, California 94122. Phone: 415-564-7024.

6431. Santa Maria, Jack. 1983. Chinese vegetarian cookery. London: Rider & Hutchinson Publishing Group. 159 p. Illust. by Kate Simunek. Index. 23 cm.
• ***Summary:*** A 1987 edition was published in the USA by CRCS Publications, P.O. Box 20850, Reno, Nevada 89515. The recipes fall into 12 categories, one of which is "Bean Curd" (Dòufu, p. 51-66, 30 recipes). There are also many tofu recipes in other chapters, plus recipes using soy beans, "bean curd sheets" and "bean curd sticks" [yuba], "salted black beans" [fermented black soybeans] "Black soya beans fermented with malt [sic, mold], salt and flour are obtained in an almost dry form. They are particularly good for enriching the flavor of a bean curd dish."

All recipes have both their English and Chinese names, with the latter written in pinyin with the four tonal marks (very useful). The author notes that "Since 1958, Pinyin ('phonetic transcription') has been the officially endorsed romanization of Chinese, although the West has taken some time to abandon the confusing Wade-Giles system. Pinyin gives a more accurate rendering of spoken Chinese."

6434. Soy Power Co. 1983. Everything you wanted to know about tofu–But were afraid to ask (Leaflet). Santa Monica, California. 2 panels each side. Each panel: 14 x 11 cm.
• ***Summary:*** Contains basic information about tofu, 6 recipes, and a list of Soy Power products: Silken tofu, Chinese tofu, Pressed tofu, Savory baked tofu, Whatta salad, Fiesta salad, Hi-Pro tempeh burger, and Non-dairy soymilk (Plain, Carob & honey). Printed with purple ink on light gray paper. Soy Power's logo is a pyramid. Address: 2811-A Ocean Park Blvd., Santa Monica, California 90405.

6435. Soyana. 1983. Tofu, die Einladung ins Schlaraffenland [Tofu, invitation to the land of plenty (Leaflet)]. Zurich, Switzerland. 5 panels each side. Each panel: 19 x 5.5 cm. Color. [1 ref. Ger]
• ***Summary:*** Contains 6 recipes: Greek tofu salad. Tofu curry. Quiche. Filets. Chocolate cream cake. Whipped cream. Invitation to tofu cooking class.

Next to the Soyana logo is the simpler Biona logo. Address: Postfach 8039, Zurich, Switzerland.

6436. Swaminathan, Mahadeva. 1983. Oilseed and nut proteins. In: Miloslav Rechcigl, ed. 1983. CRC Handbook of Nutritional Supplements. Vol. I. Human Use. Boca Raton, FL: CRC Press. 564 p. See p. 3-27. [147* ref]
• ***Summary:*** Contents: Introduction. Production: Soybeans, cottonseed, sesame seed, copra, sunflower seed. The chemical composition and nutritive value of the proteins of certain oilseeds and nuts: Chemical composition, essential amino acid composition and nutritive value of proteins, amino acid supplementation of the proteins of oilseeds and nuts. Deleterious constituents present in oilseeds and legumes. Effect of processing on the nutritive value. Processed foods based on oilseeds and their meals: Preparation of edible meals, protein isolates from oilseeds and nuts. Infant foods and milk substitutes from oilseeds and nuts: Infant foods and milk substitutes from soybeans (soy milk, dried soybean milk, large-scale production), nutritive value of soybean milk and soybean milk proteins (animal experiments, treatment of protein malnutrition in children), feeding experiments with infants and children, milk substitutes and infant foods from peanuts, nutritive value of peanut milk and its proteins, feeding trials with infants and children, coconut milk and products based on coconut milk. Milk substitutes based on other nuts and oilseeds: Almond milk, cashewnut milk. Protein foods based on oilseed meals and isolates: Supplements based on soybean meal, on peanut meal, on cottonseed flour, on sesame flour, on coconut meal, on sunflower seed meal. Other processed products based on oilseeds and nuts and their meals: Products based on peanut and peanut flour, enriched tapioca flour and macaroni products, products based on soybean and soybean meal (baked products, macaroni products, tofu, natto, tempeh), foods based on protein isolates from peanut and soybean, products based on peanut protein isolate, products based on soy protein isolate (infant foods, textured food products). Conclusion.

Table 13 (p. 18) lists "Supplementary foods for weaned infants and preschool children." The following contain soya (usually defatted soy flour): Protein Food I and II (India). Fortifex (Brazil). Cerealina (Brazil; with full-fat soy flour). Multipurpose Food, CSM, WSB (USA). Pronutro (South Africa).

Note: On pages 156-57 is a brief description of quark, a non-fermented edible milk protein product widely used in Germany. It is a fresh, uncured cheese, usually sold in bulk form. Versatile and easy to use, it is made by coagulating the milk exactly like cottage cheese, "but instead of cutting, cooking, and washing the curd particles, the whole coagulum is passed through a specially designed centrifuge" to separate the whey from the solidified protein curd, which is then cooled and packaged in bulk. When made under sanitary conditions, the quark has a good shelf life under refrigeration. Some 30-40 different food products based on quark (such as spreads, dips, and desserts) are now sold in western and eastern Europe. A survey concluded that quark has considerable potential in the USA if (like yogurt, the most newly accepted dairy food in the USA) it is well advertised and promoted. Address: Retired, Applied Nutrition and Dietetics Discipline, and Emeritus Scientist, CFTRI, Mysore, India.

6443. Walford, Roy L. 1983. Maximum life span. New York and London: W.W. Norton. xiv + 256 p. Illust. 22 cm. [189* ref]

• ***Summary:*** This book and research traces its roots back to the work of Dr. Clive McCay of Cornell University, Ithaca, New York. In Chapter 5, "Undernutrition now" (p. 98-101), Dr. Wolford discusses McCay's work: "Clive McCay's classic undernutrition experiments, performed at Cornell University in the mid 1930s, in some instances approximately doubled both 50 percent survivals and maximum life span of rats. The undernutrition regimes could almost certainly be adapted to human use. Notice carefully here the word *undernutrition* here rather than *malnutrition.* In an undernutrition regime, the total intake of calories is sharply limited but there's no lack of critical nutrients such as vitamins, essential amino acids, fatty acids, and minerals. 'Undernutrition without malnutrition' is the key concept in dietary modulation of the life span" (p. 98).

Dr. McCay initiated "his long and famous series of studies by feeding experimental rats, on a daily basis and beginning at weaning, about 60 percent of the caloric intake of rats allowed to eat as much as they wanted. The restricted diet was supplemented with extra vitamins and minerals. On this 60 percent regimen the animals' growth rate was greatly retarded although in other ways they were super healthy. They could be held in a growth-retarded state for up to 1,000 days, by which time all the normally fed rats had died. When the retarded rats were allowed a full diet, they began to grow again. They were also sexually active and could reproduce at a far more advanced age than normally fed rats" (p. 99-100).

In Appendix B: Menus and recipes, Dr. Walford includes soybeans (p. 227) and soybean curd [tofu] (p. 231).

Dr. Walford also discusses "how functional age may differ from chronological age" and asks: "Are you biologically younger or older than your actual years?" Other factors include food supplements (such as vitamins and antioxidants) and lots of regular, vigorous activity.

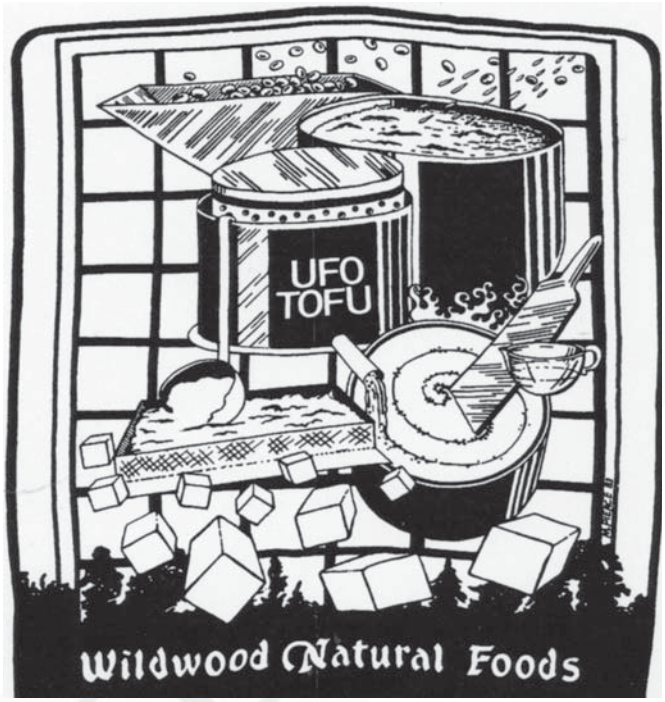
6446. Wildwood Natural Foods. 1983. Wildwood Natural Foods, and UFO Tofu (T-shirt). 135 Bolinas Rd., Fairfax, CA 94930.
• ***Summary:*** Photocopy (black-and-white) of front of UFO Tofu T-shirt. 1983. This ingenious illustration (with "M. Pierce 83") written in small letters on the right side, shows in one Escher-like drawing how tofu is made. Soybeans are flying, as from outer space, into the rectangular hopper above the grinder, and drops of water are flying into the cauldron. From the circular, perforated mechanical press (on the front of which is written "UFO Tofu"), soymilk is flowing into the curding barrel, where it is being stirred in a spiral by a paddle as nigari is poured in from a cup. The curds are ladled into a forming box, then cubes of tofu are flying off into outer space. Across the bottom is written "Wildwood Natural Foods."



Talk with Billy Bramblett of Wildwood. 1998. Aug. 6. This T-shirt was introduced in about 1982-83. Several different Wildwood T-shirts were produced in the early 1980s. Michael Pierce, besides being an incredible character, is a great graphic artist. He designed the original Wildwood logo, then he produced some silk screens and made various T-shirts. Some of them just had "Wildwood Natural Foods" and the logo on them; with some it was on the back and with others on the front. But he made one that was really incredible. It showed graphically how tofu was made at Wildwood in 1983 (see above). Billy has a picture and a photocopy of that T-shirt, and he still has several of the original T-shirts at home–which are printed green on white. In 1983 Wildwood hand-ladled the ground soybeans into the cauldron, which was full of nearly boiling water. Then they hand-scooped it into a cylindrical, perforated press that was lined with a cloth bag. Michael is a native of Georgia and speaks with a strong Southern accent. He used to be a "roadie" for Billy's cousin in Georgia; he carried the band's equipment when they traveled and did gigs. He came to California, started out making sandwiches for Paul Duchesne, then worked for Wildwood for a number of years. Peter Wiegand, from Germany, came to Wildwood. He was taught how to make tofu and he worked at Wildwood for about a year. Then Peter and Michael went to Germany and worked together on starting an early tofu shop. Peter's family had been in the cheese business for years. Then Michael met a crew of filmmakers, and traveled with them in Europe

and the USA. Now he is back in Georgia at P.O. Box 238, Farmington, GA 30638. Phone: 706-769-0558. Address: Fairfax, California. Phone: 415-459-3919.

6447. Women's Auxiliary to the Alumni Association, Loma Linda University, School of Medicine. 1983. An apple a day: Vegetarian cookery by doctors' wives. Vol. II. Loma Linda, California: WAAA. 240 p. Index. 23 cm. [8 ref]
• ***Summary:*** A Seventh-day Adventist lacto-ovo vegetarian cookbook. The Cookbook Committee editor is Mrs. Georgia E. Hodgkin, M.S., R.D., Asst. Professor, Dep. of Nutrition and Dietetics, School of Allied Health Professions, Loma Linda Univ. Soy-related recipes include: Soy milk shake (p. 11). Spring rolls (with FriChik Soyameat, p. 15). Soy chicken salad (with canned soy chicken, p. 33, 34). Soya chick fruit salad (p. 35). Soyannaise (p. 43). Tofu cornbread (p. 49). "Tuna" burgers (with canned chicken-style Soyameat, p. 60). Savory soybean burgers (with whole soybeans, p. 61). Chicken-style spread (with canned chicken-style Soyameat, p. 62). Mild sloppy Joes (with Vegeburger, p. 64). Soy chicken spread (with Worthington's fried-style Soy chicken, p. 65). Tofu, peanut butter, and banana spread (p. 67). Whole wheat-soy waffles (with soy flour, p. 70). Crunchy granola (with soy flour, p. 74).

Many of the entrees (p. 77-143) call for canned, frozen, or dry soy-based meatlike products. McKay's seasoning (chicken-style) and G. Washington broth, Vegex, Sovex, and Savita are also widely used. The following is but a sampler: Tofu roast (p. 81). Soy bean loaf (p. 82). Soy cheese loaf (with tofu, p. 82). Chicken loaf (with chicken-style soyameat, p. 85). Soyameat broccoli casserole (chicken-style, p. 86). Onion tofu (p. 93). Easy tofu casserole (p. 94). Tofu casserole (p. 94). Lasagne (with textured vegetable protein, p. 95). Soy bean patties (p. 110). Tofu balls (p. 113). Soy beans, southern style (p. 115). Delicious baked soybeans (p. 116). Stir fry vegetables with tofu (p. 127). Tofu quiche (p. 133). Soybean soufflé (p. 138).

Tofu fruit whip (p. 171). There is a chapter titled "Foods for Fifty" (p. 185-201) including: Curried rice with soyameat (p. 195). Address: Loma Linda Univ., School of Medicine, 11136-A Anderson St., Loma Linda, California 92354.

6448. World of God, Inc. 1983. The cookbook for people who love animals. 2nd ed. Umatilla, Florida. 192 p. Edited by Butterflies. Illust. and cover design by Flowers. No index. 26 cm.
• ***Summary:*** This vegan cookbook is only slightly different from the 1981 edition by the same title, but is 16 pages longer. Recipes with soyfood terms in the title are the same and on the same pages as those in the 1981 edition, except the following recipes added at the back of the book: Avocado-tofu dinner (p. 166). Stuffed avocado with tofu (p. 178). Spaghetti and tofu. Baked macaroni and tofu (p. 180). Tofu omelette (p. 181). Tofu cutlets (p. 182).

The book is interspersed with most of the same nice quotations about vegetarianism, veganism, and animal rights from great thinkers found in the 1981 edition. Address: P.O. Box 1418, Umatilla, Florida 32784.

6449. **Product Name:** [Tofu Dip].
Manufacturer's Name: Les Aliments Multisoya.
Manufacturer's Address: 1925 Route 139, Roxton-Sud, QUE, J0H 1Z0, Canada.
Date of Introduction: 1983?

6450. Northern Soy. 1983? Soyboy Tofu (T-shirt). Rochester, New York. Undated.
• ***Summary:*** This yellow T-shirt is 100% cotton. On the front are the words "Soyboy Tofu" in roundish uppercase letter. Between the words is a bunch of 3 green soybean pods and leaves, plus one white flower. One pod is open, showing three white soybean seeds. Address: Rochester, New York.

6451. Paradise Distributors. 1983? The latest scoop. . . Tofutti. Its a natural beauty. All natural nondairy tofu frozen dessert. 5 luscious flavors (Leaflet). Torrance, California. 2 panels each side. Each panel: 22 x 14 cm. Undated.
• ***Summary:*** "Tofutti's light, rich taste comes from mixing tofu, soy milk, fresh fruits and pure wild honey into a completely natural frozen dessert." The product is said to contain only 128 calories per 4 oz. serving. Ingredients are listed as "Pasteurized tofu dessert base (water, high fructose corn sweetener, honey, soybean oil, tofu isolated soy protein), all natural flavorings (if chocolate, cocoa is added), soy lecithin, vegetable gums (guar seed, carob bean, carrogeenan [sic, carrageenan]), salt." The use of the term "tofu isolated soy protein" is deceptive, perhaps illegal.

This leaflet was being passed out by Paradise employees at the Natural Foods Merchandiser trade show at Anaheim, California, March, 1984. Address: 18655 Western Ave. (P.O. Box 6396), Torrance, California 90504.

6452. **Product Name:** [Tofu, Tofu Pickled in Miso, Tofu Pâté, Terrine with Tofu].
Foreign Name: Tofu, Tofu Mariné, Pâté de Tofu, Terrine de Tofu.
Manufacturer's Name: Tofu Kuehn.
Manufacturer's Address: La Tuiliere, 26560 Montfroc, France. Phone: 92 62 02 76.
Date of Introduction: 1983?
Ingredients: Tofu: Whole French-grown soybeans, spring water, nigari. Pickled: Tofu, miso, onion, ginger, orange. Pâté: Tofu, whole wheat bread, mushrooms, onions, spices. Terrine: Tofu, vegetables, onions, spices, leeks, carrots, wheat flakes, tahini, mushrooms.
How Stored: Refrigerated.
New Product–Documentation: Form filled out by Anthony Marrese. 1989. Nov. The company is run by Yves Kuehn and

© Copyright Soyinfo Center 2013

John Marc. These products were introduced in the "early 1980s." Production and weights are presently as follows: Tofu (250 gm) 30-50 kg/week. Tofu Pickled in Miso 20 kg/week. Tofu Pâté (150 gm) 10 kg/week. Terrine (150 gm). Anthony writes: "I met this group at an organic fair. It is a small group of 5 or so people making tofu really as a meditation. They produce it in small quantities of 5-10 kg through a mechanical hand grinder, then the paté and pickled tofu are made in a small kitchen.

Leaflet. 1989. In French. Shows labels of the products and briefly outlines Mr. Kuehn's philosophy that we must move from an animal-based to a plant-based diet.

Note: Emprésurage is the action of adding a curding agent or coagulant to milk in the process of making cheese. The "présure" is the coagulant.

6453. **Product Name:** Mided's Touch Tofu: Soy Bean Cake.
Manufacturer's Name: Unknown. Packed for S&M Produce, Inc.
Manufacturer's Address: Chicago, IL 60608.
Date of Introduction: 1983?
Ingredients: Soy bean, water, calcium sulfate, food grade lime, palm oil.
Wt/Vol., Packaging, Price: 16 oz packed in water in molded plastic tray with heat-sealed, peel-off plastic film lid.
How Stored: Refrigerated.
New Product–Documentation: Label. 1983, received. 5 by 4.5 inches. Plastic film. Blue, green, and yellow on white. Illustration of a yellow hand with one finger pointing against a green background. "Keep refrigerated. No preservative added."

6454. Wildwood Natural Foods. 1983? Wildwood Natural Foods (Ad–Point of purchase cards). Fairfax, California. 2 p. Undated.
• ***Summary:*** Each of these two point-of-purchase (POP) cards is 4 by 6 inches, dark green on white, showing a silhouette of woods with birds. On the first card, under the words "Fresh daily," are written the names of seven Wildwood products: BRT–Brown Rice & Tofu Sandwich, Curry BRT, Mustard BRT, Tofunofish Sandwich, Tofu Steak Sandwich, Avo-Steak Sandwich, and Supreme Bean Tempeh Burger.

On the other card, under the words "Ready-To-Eat Foods, Naturally," are written the names of five more Wildwood products: Potato Salad, Tofu-Vegetable Salad (Curry-Tofu Salad, Tofu-Dill Salad), Hummus, Tabouli, and Good Puddin'. Under each product on this card is more information about that product. For example: "Good Puddin'. Couscous, apples and raisins cooked in apple juice with a creamy carob-tofu topping. Sweetened with apple juice." Address: 135 Bolinas Rd., Fairfax, California 94930. Phone: 415-459-3919.

6455. Fiering, Steve. 1984. Re: Steve is negotiating with Larry Needleman to acquire partial ownership of Bean Machines Inc. (BMI). Letter to William Shurtleff at Soyfoods Center, Jan. 6. 2 p. Typed, with signature. [1 ref]
• ***Summary:*** The negotiations are making slow progress, and Fiering is writing to open discussions with Shurtleff regarding his ownership and involvement in the restructured BMI. The new company will not be primarily marketing Takai equipment, but will develop its own American-made equipment. Wally Rogaczewski Rogers, a long-time friend with an MBA from the Univ. of Michigan and extensive experience in commercial real estate, will also be involved. Steve is presently a graduate student in microbiology at Eastern Michigan University; he expects to earn a master's degree in Dec. 1984. He then plans to move to the Bay Area to work more closely with BMI and begin a doctorate program in microbial genetics. Address: 6637 W. Joy Rd., Dexter, Michigan 48130.

6456. Brody, Jane E. 1984. Lowering cholesterol in blood: Adhering to a diet low in saturated fats is one key. *New York Times.* Jan. 18. p. C1.
• ***Summary:*** "The American Heart Association has long recommended that cholesterol intake be limited to 300 milligrams a day and that fats represent no more than 30 percent of total calories, with only one-third of them from saturated fat. Some experts say these levels are still too high, and that a major reduction in premature heart disease requires a 150-milligram limit on cholesterol and a total fat intake of only 20 percent of calories or less.

"Cholesterol is a waxy alcohol that is found only in animal foods. No foods derived from plants contain cholesterol. In general, the more cholesterol you consume, the higher your blood cholesterol level is likely to be. Foods that are especially high in cholesterol include egg yolks (the yolk of one large egg has 252 milligrams of cholesterol) and organ meats like liver and kidneys...

"Perhaps more important than the actual amount of cholesterol in the diet may be the amount of saturated fats that are consumed. Saturated fats actually raise the cholesterol level in your blood, regardless of how little cholesterol you may consume. Saturated fats are those that are hard at room temperature...

"Certain types of dietary fiber help to lower blood cholesterol levels. Fiber is found *only* in plant foods. Especially effective in lowering cholesterol are the fibers in carrots; oats; apples and other fruits, and soybeans, chickpeas and probably other beans..." The author recommends substituting tofu for meat in some main dishes. Regular exercise raises the body's level of HDL-cholesterol, the beneficial type.

6457. **Product Name:** Tofu Spreads [Tofu Olive, Tofu Avocado, Tofu Danish, Tofu Greek, Tofu Cheddar].

© Copyright Soyinfo Center 2013

Manufacturer's Name: Blue Twine Farm.
Manufacturer's Address: Polly Dan Road, Burlington, CT 06013. Phone: 203-589-3593.
Date of Introduction: 1984. January.
Ingredients: Tofu Avocado: Tofu, avocado, cream cheese, mayonnaise, lemon juice, onion, horseradish, garlic, sea salt, spices.
New Product–Documentation: Talk with Cipah Shapiro. 1988. Dec. 28. She has been an organic gardener for many years. She started this business making these products in the fall (Nov.) of 1983. Most contain cheeses [such as cream cheese]. All labels contain a calorie count per ounce.

Letter with Labels sent by Cipah Shapiro. 1988. Dec. 29. Gives the date that each product was introduced. In January 1984: Tofu Olive, Tofu Avocado. In April 1984: Tofu Danish. In July 1984: Tofu Greek. In Fall 1984: Tofu Cheddar.

"By early 1986 I made the Tofu Vegetable available *without salt* (enough people had asked for something without salt to make it feasible).–strangely enough, when I first started making my spread, I was very loathe to use salt since neither my husband nor I use salt in our food. I finally gave it to 'popular demand' by using minimal amounts and, for my conscience, sea salt instead of regular table salt."

6458. **Product Name:** Chocolate Lite Mousse (Fresh Tofu Pudding).
Manufacturer's Name: Brightsong Light Foods.
Manufacturer's Address: 100-A Poultry St. (P.O. Box 2536), Petaluma, CA 94953.
Date of Introduction: 1984. January.
Ingredients: Tofu, honey, natural cocoa (with no alkali or additives), pure vanilla, lecithin, orange oil.
Wt/Vol., Packaging, Price: 4 oz plastic deli container.
How Stored: Refrigerated.
New Product–Documentation: Label. 1984. 2 inch diameter. Self adhesive. Black on yellow. Spot showing Label in Whole Foods. 1984. Jan. p. 39. "New Brightsong Desserts."

6459. **Product Name:** Tofu.
Manufacturer's Name: China Trading.
Manufacturer's Address: Rue Jules van Praet 16, 1000 Brussels, Belgium.
Date of Introduction: 1984. January.
New Product–Documentation: Letter from C. Martinez, Secretary for American Soybean Assoc. in Brussels. 1984. Jan. 9. This is a small Chinese tofu shop in Brussels.

6460. Fantastic Foods. 1984. Tofu Burger: The most fantastic way to enjoy tofu (Ad). *Natural Foods Merchandiser.* Jan. p. 9 (unnumbered) of 12-page color advertising insert. Soyfoods Pavilion '84. Marketing soyfoods in America. • ***Summary:*** This 5 inch square black-and-white ad begins: "Fantastic Foods' Tofu Burger Mix makes it so easy to enjoy tofu. Just mash one pound of tofu and combine with our mix, shape into patties, and cook. In just minutes you will be enjoying delicious and nutritious tofu burgers. We make our Tofu Burger Mix from the finest all natural, all vegetarian ingredients like brown rice, sesame seeds and miso." An illustration shows the front of a package of Tofu Burger Mix. Address: 106 Galli Drive, Novato, California 94947. Phone: (415) 883-7718.

6461. **Product Name:** [Tonic Burger {Tofu Burger}].
Manufacturer's Name: Gestion Resto France. Subsidiary of Comptoirs Modernes.
Manufacturer's Address: 25 rue Quentin Bourchart, 75008 Paris, France.
Date of Introduction: 1984. January.
New Product–Documentation: Soya Foods. 1984. July. p. 4. Interview with Michel Minard, General Director of Comptoirs Modernes. The product was launched 6 months ago and is doing well.

6462. **Product Name:** Eden's Orchard Tofu-Zert (Non-dairy Frozen Dessert; Formerly Named Tofutini) [Banana, Vanilla, Rum-Raisin, Maple-Walnut, Chocolate, Strawberry, or Almond].
Manufacturer's Name: Heller Enterprises.
Manufacturer's Address: 395 Atlantic Ave., East Rockaway, NY 11518.
Date of Introduction: 1984. January.
Wt/Vol., Packaging, Price: Pints, sundaes, dixie cups, and 2.5 gallon bulk packs.
How Stored: Frozen.
New Product–Documentation: Talk with Carl Tropper of Heller Enterprises. 1985. Jan. 17 and 25. Shurtleff & Aoyagi. 1985. Tofutti & Other Soy Ice Creams. p. 50-51. David Mintz's Tofutti and Carl Tropper's Tofutini were both launched in New York retail stores in the spring of 1982. Mintz threatened to sue for trademark infringement and his lawyer got a cease and desist order. Tropper changed the name to Tofu-Zert. See Also Tofutini Dessert, launched by American Food Lines in Merrick, NY, Dec. 1982.

6463. Henderson, Sybil. 1984. Sybil's guide to tofu the American way. Henderson Associates, 6057 Melrose Ave., Los Angeles, CA 90038. 32 p. Jan. Illust. No index. 16 cm. • ***Summary:*** Contents: Introduction. What is tofu? How to buy and store? Basic preparation. Deep-fried tofu. Recipes–Salads and dressings. Main dishes. Drinks. Desserts. An attractive color photo on the cover of this booklet shows 8 tofu dishes: Tropical fruit compote. California pudding or drink. Triple threat cheese cake. Salad. Green goddess dressing. Ole' Mexican dressing. Dill dressing. Tofu mushroom tarts. Address: 6057 Melrose Ave., Los Angeles, California.

6471. **Product Name:** Tofu Missing Egg Salad.
Manufacturer's Name: Soycraft.
Manufacturer's Address: P.O. Box 420, Woollahra (near Sydney), NSW 2025, Australia. Phone: (02) 32 0716.
Date of Introduction: 1984. January.
Ingredients: Tofu, fresh vegetables, herbs and spices, shoyu, vegetable oil, mustard, apple cider vinegar, honey, sea salt.
Wt/Vol., Packaging, Price: 200 gm.
New Product–Documentation: Letter and Label sent by Ralph and Volli Henderson, founders of Soycraft. 1984. Jan. 17. The letter is on Klinica letterhead. "We have been so busy that nobody has yet staggered to the printer to collect Soycraft letterheads. I think Volli and her small crew sometimes wish it had never happened...

"We make tofu, and then use all of our tofu to make secondary products. At the present time we don't think there is market support for tofu, which would justify another firm in that line of business; it will be a year or two before Australians may wean away from their meat based diets. The local Chinese community makes and uses a lot of tofu, but it is really only the health food shops (about 230 in Sydney) that sell tofu. About 30% of these health food shops are still vitamin supply people and unaware of what it is all about anyway. Our tofu is made via the cauldron method–laborious, tedious, etc. We will consider buying the Takai W30A system towards the end of this year."

Label. 2.5 by 3 inches. Green on white. "All natural ingredients–No preservatives."

6472. **Product Name:** Tofu Paté.
Manufacturer's Name: Soycraft.
Manufacturer's Address: P.O. Box 420, Woollahra (near Sydney), NSW 2025, Australia. Phone: (02) 32 0716.
Date of Introduction: 1984. January.
Ingredients: Tofu, soybean concentrate, sesame seeds, herbs & spices.
Wt/Vol., Packaging, Price: 200 gm.
New Product–Documentation: Letter and Label sent by

Ralph and Volli Henderson, founders of Soycraft. 1984. Jan. 17. Label. 2.5 by 3 inches. Black on white. "All natural ingredients–No preservatives."

6473. **Product Name:** Tangy Tofu "Cottage Cheese."
Manufacturer's Name: Soycraft.
Manufacturer's Address: P.O. Box 420, Woollahra (near Sydney), NSW 2025, Australia. Phone: (02) 32 0716.
Date of Introduction: 1984. January.
Ingredients: Tofu, lemon juice, apple cider vinegar, sea salt, shoyu, vegetable oil, honey, natural herbs and spices.
Wt/Vol., Packaging, Price: 200 gm.
New Product–Documentation: Letter and Label sent by Ralph and Volli Henderson, founders of Soycraft. 1984. Jan. 17. Label. 2.5 by 3 inches. Orange on white. "All natural ingredients–No preservatives."

6474. Soyfoods Assoc. of America. 1984. Soyfoods Pavilion '84. Marketing soyfoods in America (Ad). *Natural Foods Merchandiser.* Jan. 12-page color advertising insert.
• ***Summary:*** Contains large color ads by Legume Inc. (6 frozen tofu entrees), Erewhon, Inc. (shoyu tamari), Vitasoy (USA), Inc. (natural and coconut soy drink, sweetened with maple syrup), San-J International, Inc. (tamari, teriyaki sauce, tamari crackers, teriyaki crackers), Tofu-Time, Inc. (Tofutti "nondairy tofu frozen dessert"), Eden Foods, Inc. (Edensoy soy beverage in plain and carob flavors, retort pouch), and Westbrae Natural Foods (natural ramen in 100% whole-wheat, buckwheat, brown rice, mushroom, seaweed, miso, 5-spice, and curry flavors).

Contains black-and-white ads by Westbrae Natural Foods (shoyu, tamari, and soy sauce), Chico-San, Inc. (imported miso and soysauce), Fantastic Foods, Inc. (tofu burger mix), Penguino's, Inc. (dairy-free frozen dessert), Nasoya Foods (Firm Style Tofu, Soft Style Tofu, Marinated & Broiled Tofu, Tofu Burgers, Tempeh, Tempeh Burgers, Tofu Vegi-Dip [Creamy Dill, Soyannaise, Bleu Cheese, Onion, Creamy Garlic], Corn Cakes [Plain with Bran, Blueberry, Cranberry]; Non-soy products in the "Oriental Cuisine" line include Fresh Noodles, Wonton Skins, Egg Roll Wrappers), Hinode Tofu Co. and Azumaya, Inc. ("The #1 and #2 tofu producers in America").

The only article, whose author is not given, is titled "Soyfoods Pavilion debuts at Natural Foods Expo '84." On the front cover of the insert is a list of members of the Soyfoods Association of America (formed in Feb. 1983) that participated in Natural Foods Expo '84. In addition to the advertisers mentioned above, they include: Farm Foods, Laughing Moon Food Co., Paradise Distributors, Inc., Soyfoods Magazine, Tempeh Works, Inc., and White Wave, Inc. Address: 526 East 20th St., New York, NY 10009.

6475. **Product Name:** Furama Tofu Noodles [Spiced, or Plain].
Manufacturer's Name: Soyfoods of America.
Manufacturer's Address: 1091 E. Hamilton Rd., Duarte, CA 91010. Phone: 213-681-5393.
Date of Introduction: 1984. January.
Ingredients: Spiced: Soybeans, water, soy sauce, spices, calcium sulfate.
Wt/Vol., Packaging, Price: 6 oz poly bag.
How Stored: Refrigerated.
New Product–Documentation: Ad in Soyfoods. 1984. Summer. p. 3. "In 8 oz poly bag with 2-week shelf life refrigerated or 6-month shelf life frozen. Available vacuum packed with 6-week shelf life." Talk with Ken Lee. 1988. Aug. 29. The spiced product was launched in Jan. 1984. But Mrs. Lee recalls the two dates to be Jan. 1985 and July 1985. Labels. 1985. 5.5 by 2.5 inches. Paper.

6476. **Product Name:** Furama Spiced Tofu Loaf.
Manufacturer's Name: Soyfoods of America.
Manufacturer's Address: 1091 E. Hamilton Rd., Duarte, CA 91010. Phone: 213-681-5393.
Date of Introduction: 1984. January.
Ingredients: Soybeans, water, soy sauce, spices, calcium sulfate.
Wt/Vol., Packaging, Price: 8 oz.
How Stored: Refrigerated.
New Product–Documentation: Ad in Soyfoods. 1984. Summer. p. 3. "In 8 oz poly bag with 2 week refrigerated shelf life. Soon available vacuum packed with 6-week shelf life." Talk with Ken Lee. 1988. Aug. 29. This product was launched in Jan. 1984. Mrs. Lee recalls the date to be Jan. 1985. Label. 5.5 by 2 inches. Black on orange paper.

6477. **Product Name:** Sproutburgers.
Manufacturer's Name: Sprout Delights.
Manufacturer's Address: 13090 N.W. 7th Ave., North Miami, FL 33168. Phone: 305-687-5880.
Date of Introduction: 1984. January.
Ingredients: Incl. sprouted wheat, tofu, carrots, okara, onions, walnuts, sunflower seeds, lemon-tamari, garlic.
Wt/Vol., Packaging, Price: 4 burgers in a 12 oz poly bag.
How Stored: Frozen.
New Product–Documentation: Talk with Steve Bern of Sprout Delights. 1992. July 11. Since 1982 he has run this bakery, which specializes in breads made of sprouts, like the early breads made by Essene, but also makes a host of other innovative natural-food products. This product was introduced in about Jan. 1984.

6478. Yasuda, Masaaki; Hokama, Ikuo. 1984. Tofuyo seizo ni kansuru kenkyu. VI. Tôfuyô seizô ni mochiiru genryô tôfu no seizô [Studies on the manufacture of Okinawan fermented tofu (*tofuyo*). VI. 31(1):19-23. [7 ref. Jap; eng]
• ***Summary:*** "Tofuyo is a traditional food in Okinawa, and is made from soybean curd with koji, salt, and awamori (distilled liquor)." It was found that the texture of the tofu affects the quality of the tofuyo. The texture is, in turn, affected by the type of coagulant and its concentration, and the pressure under which the curds were pressed to make tofu. The best conditions were as follows: Final concentration of the calcium sulfate coagulant: 20 mM. Final pressure on the curds: 38 gm per square centimeter. Hardness of the curd: 110,000 to 110,000 dynes per square centimeter. Final moisture of the curd: about 76%.

The best quality of Tofuyo was obtained when tofu of hardness 200,000 to 300,000 dynes per square centimeter was gradually dehydrated at room temperature (25ºC). Hardness of the finished tofuyo: 14-18 dynes per square centimeter. Address: Dep. of Agricultural Chemistry, University of the Ryukyus.

6479. Gillingham, Karen. 1984. Turning tofu into tasty meal. *Los Angeles Times.* Feb. 2, Part 8. p. 2, 9, 12.
Address: Times staff writer, Los Angeles.

• ***Summary:*** Details of the processes are given.

6481. Margarida, Jose. 1984. Re: Interest in making tofu and soymilk commercially in Puerto Rico. Letter to William Shurtleff at Soyfoods Center, Feb. 8. 1 p. Typed, with signature on letterhead.
• ***Summary:*** "I am very interested in starting a tofu and soymilk facility to serve Puerto Rico, Latin America, and the Caribbean.

"Many of these Caribbean islands represent an ideal showcase to demonstrate the versatility and logic of soyfoods to solve the world hunger problem and the malnutrition-poverty trap. It's an ideal showcase because many of these islands are not dominated by U.S. food industry interests and therefore you don't have to "fight" the powerful meat and dairy lobbies to introduce new alternatives."

He then asks four questions. William Shurtleff replied and sent him a list of 51 names connected with soyfoods and soybeans in the Caribbean. It is not known if he ever started a commercial business / shop. Address: Compostela 1804, College Park, Rio Piedras, Puerto Rico 00921. Phone: (809) 758-4983.

6482. Blaine, Charley; Chu, P.; Fox, J.; Nelson, T. 1984. N.Y. caterer cashes in on USA's tofu craze: Nutritious ice cream. *USA Today.* Feb. 13. p. 2B.
• ***Summary:*** "David Mintz... used to close his kitchen at night by telling his employees, 'Its tofu time.' Little did they know what he meant. Mintz says he spent about ten years [i.e. from about 1974], from 10 p.m. to 4 a.m. experimenting with tofu. Today, Mintz is cashing in on the USA's tofu craze as president of Tofu Time Inc., a company that went public in December at 5 3/4 a share and now is priced between 10 and 11¼... His sales grew from $23,847 in 1982, his first year of business, to $329,171 in 1983 (a loss of $33,370 the first year to a profit of $92,634 the following year). What's next on the corporate drawing board? 'Franchises and tofu burgers, tofu sauces and dressings, tofu pies and tofu egg rolls,' Mintz says." Note: This is the earliest article on soy seen (Aug. 2002) in *USA Today,* the national newspaper.

6483. Hesseltine, C.W. 1984. Re: Three current projects at the Fermentation Laboratory. Letter to William Shurtleff at Soyfoods Center, Feb. 17. 1 p. Typed, with signature on letterhead.
• ***Summary:*** They are: (1) A review of what is known about natto. (2) Project on mixed culture fermentations and the starter culture business in China and Indonesia. "We have discovered that all the starter mold cultures in ragi, etc. are capable of anaerobic growth which is not the situation in nearly all other fungi." (3) Dr. Hesseltine is preparing an hour lecture on the history of research on fermented foods in the USDA, and particularly at the Peoria laboratory. "I have been honored by being selected to give the Annual Lecture of the Mycological Society of America at their annual meeting next August at Colorado State University.

"Professor Doyle at the Food Research Institute informs me that he is now preparing a paper on his studies on the tofu safety situation." Address: Chief, Fermentation Lab., USDA/NRRL, Peoria, Illinois.

6484. Calvert, Francis E. 1984. Work with Ford and Drackett on soybeans (Interview). Conducted by William Shurtleff of Soyfoods Center, Feb. 19. 3 p. transcript.
• ***Summary:*** Francis (Frank) Calvert was first introduced to soybeans after he went to Detroit. In about 1931, Ford arrived at the Chemical Plant in Greenfield Village (also a lab and a pilot plant), with a 20 pound sack of soybeans. He threw them on the workbench and said, "More people eat these than anything else. There must be something awfully good about them. Why don't you fellows find out what it is." They were already doing research on agricultural wastes and chemurgy, on almost every crop you could think of.

Their first problem was getting soybeans. There were none available. Within the next year or two they planted thousands of acres themselves. Ford plowed up a big field and planted quarter acre plots with different varieties. It was an enormous quantity. Even though they didn't know what to do with them, it was Ford's style. He did nothing small. They raised hundreds of quarter acre plots, testing different varieties.

© Copyright Soyinfo Center 2013

Dr. Edsel Ruddiman, after whom Edsel Ford was named, was a nutritionist and pharmacologist. He ran the food laboratory and made lots of the foods served in the Ford cafeteria to Ford employees. They were first sold as samples, but didn't sell well because of the flavor. From about 1932-33, the products included soy milk, soy cheeses, and soy ice cream and sherbets. Soynuts were also made in a counter-current fryer in rectangular buckets on a chain. The employees ate most of the products and tourists consumed some. Food was also served from the kitchen at the Wayside Inn in the village. Products were provided as a snack, but most were given as samples, and a few were sold.

Both Atkinson and Calvert, research chemists, reported to Boyer. Calvert left Ford in 1938 and went to Drackett. Boyer and Atkinson left later to do work on soy-based plastics.

ADM bought The Drackett soybean crushing plant in about 1957. Calvert went with ADM for about 5 years, until 1960-61. From 1962-74, he worked for Ralston Purina. In December 1958 Ralston purchased Procter & Gamble's plant in Louisville, Kentucky, and were already somewhat involved with isolates; they began working with foods after 1962.

Ralston went into dietary products and infant formulas in about 1963-64, supplying soy protein isolates to most of the infant formula manufacturers such as Miles and Wyeth Labs. Ralston, Loma Linda and Worthington were the biggest suppliers of infant formula from 1962-74.

Don Walker, Vice President of Ralston Purina, took a strong interest in soy protein. Ralston took the lead primarily because of the strong interest and leadership of Hal Dean, then Chairman of the Board and CEO. Dean was the key motivating force from the early 1960s. He firmly believed in and supported soy protein development.

Ford was the father of the soybean industry in the U.S. He had an impact just through his interest in soybeans. He planted soybeans and promoted and merchandised them in the same way he promoted the industrial barn at the World's Fair in Chicago. Ford set up an extraction plant and actually extracted oil and molded gearshift balls at the Industrial Barn at the Fair. People couldn't believe their eyes! Ford was the single largest soybean grower in the U.S. at that time.

Note: Frank Calvert passed away in about 1986. Address: 1513 Northlin, Kirkwood, Missouri 63122. Phone: 314-822-3187.

6485. Levin, Gary M. 1984. Cleveland Tofu Co. must educate the market. *Crain's Cleveland Business Weekly.* Feb. 19.
• ***Summary:*** The 5-year old company, owned by Brooks Jones, has just moved into a dairy on White Avenue. His 9 employees make 7,000 pounds of tofu a week.

6486. Stop & Shop. 1984. Its time to stop & shop (Ad). *Hartford Courant* (*Connecticut*). Feb. 19. p. T10.
• ***Summary:*** "Don't be afraid to try–Tofu Soy Bean Cake–99¢. Can be fried like cutlets, used as a ground beef substitute, added to soups or dressings. Dozens of uses! 1 pound package."

6487. **Product Name:** Tofu.
Manufacturer's Name: Deep Forest Tofu Co.
Manufacturer's Address: P.O. Box 373, Dillard, OR 97432. Phone: 503-679-6621.
Date of Introduction: 1984. February.
New Product–Documentation: Letter from David Frazer. Late 1983 or early 1984. He plans to produce 1,000 lb/month for his local community.

6488. **Product Name:** [Tofu].
Foreign Name: Tofu.
Manufacturer's Name: Fernost Markt Nippon Ya, Kondo GmbH.
Manufacturer's Address: Faulmanngasse 5, A-1040 Vienna, Austria.
Date of Introduction: 1984. February.
New Product–Documentation: Letter from C. Martinez, Secretary for American Soybean Assoc. in Brussels, Belgium. 1984. Jan. 9. This is a tofu shop in Vienna. Soyfoods Center Computerized Mailing List. 1984. Feb. 7. Talk with Guenter Ebner of Sojarei Ebner-Prosl. 1990. May 28. He is not aware of this company.

6489. Johnson, Lamar D.; Wilson, L.A. 1984. Influence of soybean variety and the method of processing in tofu manufacturing: Comparison of methods for measuring soluble solids in soymilk. *J. of Food Science* 49(1):202-04. Jan/Feb. [11 ref]
• ***Summary:*** The percentage solids in soymilk was measured using three methods: light scattering, refractive index, and hydrometry. Light scattering was found to be the most accurate.

The soybean varieties Vinton, Amsoy 71 and Weber were hydrated then used to make soymilk by grinding in (A) 20-25ºC water, (B) 100ºC (boiling) water and holding the slurry above 90ºC for 10 minutes, and (C) soaking the soybeans in 45ºC 15% ethanol solution for 12 hours and grinding in 20-25ºC water. Address: Food Technology Dep., Iowa State Univ.

6490. **Product Name:** Tofu.
Manufacturer's Name: LEASA Investments.
Manufacturer's Address: 6103 N.W. 6th Ct., Miami, FL 33127. Phone: 305-756-8636.
Date of Introduction: 1984. February.
New Product–Documentation: Soyfoods Center Computerized Mailing List. 1984. Feb. 7. Owners: George Yap and Bob Heartsong.

© Copyright Soyinfo Center 2013

Talk with Livingston George Yap, founder and owner. 1998. March 11. His official company name is LEASA Industries Company Inc., presently located at 2450 N.W. 76th St., Miami, Florida 33147. Phone: 305-696-0651. LEASA, written with all capital letters, is an acronym formed from the first letter of the first name of each of the people in his family: His first name is Livingston. His wife's is Einez. His sons are Andrew and Sean, and his daughter is Allison. His ancestry is Chinese. Livingston was born in Jamaica (he still speaks with a Jamaican accent), but his father was born in China. The first food made by his company was bean sprouts. He bought tofu from Swan Foods [sic, Swan Gardens owned by Richard & Jocelyn McIntyre] and from Heartsong Tofu and distributed this tofu with his sprouts. Then in early 1984, when Heartsong Tofu (run by Bob and Toni Heartsong in Miami) went out of business, Livingston bought their equipment; he did not buy their company. He hired Bob Heartsong as his tofu maker and–for the first time–began to make tofu in Feb. 1984. He learned how to make tofu from Bob Heartsong and from the book *Tofu & Soymilk Production* by Shurtleff and Aoyagi. In about 1989 he started to make soy sprouts, but his market for soy sprouts was always small, and he no longer makes soy sprouts. Now he also makes lentil, wheat, azuki, etc.–about ten different types of sprouts. His company focus on the mainstream American market (grocery store chains, foodservice, cruise lines, etc.) much more than the ethnic Chinese market. However at Chinese New Year each year he does a big promotion in supermarkets; this last year he did the promotion with Kikkoman and Winn Dixie. Now people are aware that tofu is good for them and good for menopause, cancer, etc.

6491. Legume Inc. 1984. Legume–Light & natural tofu entrées. Under 300 calories (Ad). *Natural Foods Merchandiser.* Feb. p. 43.
• ***Summary:*** Color photos show the front of the following frozen entrée cartons: Tofu Bourguignon, Sesame Ginger Stir-Fry, Stuffed Shells Provençale, Cannelloni Florentine, Vegetable Lasagna, Tofu Tetrazzini. "All natural. Cholesterol free. Delicious. Introducing a new milestone in frozen food." Address: P.O. Box 288, Caldwell, New Jersey 07006. Phone: 201-228-9466.

6492. Nagasawa, Taro; Miyakawa, H.; Mizuguchi, K.; Kato, R.; Shimamura, S.; Kuwahara, K.; Kawashima, T.; Okonogi, S. 1984. Tônyû no kanetsu shori ga tôfu no iro, kôdo tokuni hozonsei ni oyobosu eikyô [Effect of heat treatment of soymilk on color, consistency and particularly keeping quality of tofu]. *Nippon Shokuhin Kogyo Gakkaishi* (*J. of the Japanese Society for Food Science and Technology*) 31(2):92-103. [21 ref. Jap; eng]
• ***Summary:*** Tofu made from soymilk thermally processed by the newly-developed HGU method had a better flavor and kept fresh longer than tofu made from typical UHT processed soymilk. By allowing spore-forming microorganisms to germinate before the final heat treatment, the latter can be conducted at 125ºC, rather than the typical 130ºC. Address: 1. Faculty of Agriculture, Tamagawa Univ., 6-1-1 Tamagawagakuen, Machida-shi, Tokyo 194; 2; 2-6,8. Central Research Lab., Morinaga Milk Indsutry Co. Ltd., 4-4-22 Meguro, Meguro-ku, Tokyo 153, Japan.

6493. **Product Name:** [Tofu].
Foreign Name: Tofu.
Manufacturer's Name: Naturkostladen.
Manufacturer's Address: Deutschgasse 9, A-2700 Wiener Neustadt, Austria.
Date of Introduction: 1984. February.
New Product–Documentation: Soyfoods Center Computerized Mailing List. 1984. Feb. 7. Owner: Isabella Lorenz. Later Walter Kobald, a macrobiotic, worked there.

Talk with Guenter Ebner of Sojarei Ebner-Prosl. 1990. May 28. This company is now the same as SoyVita. They were never different. They only changed the name and the structure of the company. This one is not making tofu now.

6494. **Product Name:** Harvest Light Tofu (Made with Natural Calcium Chloride as a Curding Agent).
Manufacturer's Name: Northern Soy.
Manufacturer's Address: 30 Somerton St., Rochester, NY 14607. Phone: 716-442-1213.
Date of Introduction: 1984. February.
Ingredients: Filtered water, organically grown soybeans, natural calcium chloride nigari (a naturally occurring mineral coagulant, not a preservative).
Wt/Vol., Packaging, Price: 1 lb vacuum packed.
How Stored: Refrigerated, 28 day shelf life.
Nutrition: Per 4 oz.: Calories 120, protein 13 gm, carbohydrate 3 gm, fat 6 gm (saturated fat 0.8 gm, polyunsaturated fat 3.5 gm), cholesterol 0 mg, sodium 9 mg. [Calcium 145 mg, not listed on label].
New Product–Documentation: Manufacturer's catalog. 1987. Oct. Talk with Andy Schecter. 1988. Feb. 17. This is the brand for their vacuum packed (non-pasteurized) tofu. Before this product was introduced, all of their tofu had been unpackaged, fresh in bulk.

Talk with Andy Schecter. 1991. Feb. 5. Lab tests show that this tofu contains 175 mg of calcium per 4 oz., although it is not listed on the label. Major nutrients as a percentage of the USRDA are: Calcium 20%, protein 20%, iron 10%. Northern Soy began using natural calcium chloride as a coagulant in about Sept. 1983. The first tofu product they coagulated with this natural calcium chloride was their Soyboy bulk tofu, followed by this Harvest Light Tofu. As far as Andy knows, no other tofu manufacturers in America are coagulating their tofu with natural calcium chloride, which is made by pumping water underground and bring

© Copyright Soyinfo Center 2013

up a solution of several minerals, then crystallizing out the calcium chloride.

6495. Seligco Food Corp. [Frusen Gladje]. 1984. Gloria Vanderbilt and Frusen Gladje in new tofu frozen dessert blend (News release). 424 East John St., Lindenhurst, New York 11757 [Frusen Gladje]. 3 p. Feb.
• ***Summary:*** "Gloria Vanderbilt and the makers of Frusen Gladje Natural Ice Creams have blended together their talents and fashioned an elegant new frozen dessert. The culmination of more than two years of research and development, Gloria Vanderbilt Glacé is a tofu-based premium frozen dessert with the taste and texture of the finest ice creams. What it does *not* share with its dairy-based counterparts are cholesterol, high calories and high saturated fat level... It will be available at better supermarkets in the South Florida area" in 9-10 flavors.

"As mentioned, Gloria Vanderbilt Glacé is made from tofu, a highly nutritious soy derivative." Address: Lindenhurst, New York.

6496. Shim, Chung-shil. 1984. Korean recipes. Seoul, Korea: Seoul International Tourist Publishing Co. 79 p. Feb. Illust. (color photos by Edward B. Adams). Index. 26 cm.
• ***Summary:*** Recipes include: Five grain rice (*-kok pap,* with ½ cup each red [azuki] beans and black [soy] beans). Rice with soy bean sprouts (*Kong namul pap*). Mixed vegetables on rice (*Pibim pap,* with 100 gm soy bean sprouts, soy sauce, and red pepper paste). Dumplings (*Mandu kuk,* with 150 gm beancurd [tofu]). Seaweed soup (*Miyok kuk,* with 50 gm brown seaweed {*Miyok*} and 2 tablespoons soy sauce). Soy bean sprout soup (*Kong namul kuk*). Soy bean paste stew (*Toinchang ch'igye* [*doenjang*], with 2 tablespoons soy bean paste and 200 gm beancurd). Beancurd with beef (*Tubu chorim,* plus 3 tablespoons soy sauce). Curd with vegetables (*T'angp'yong Ch'ae,* with 250 gm mung bean curd, 200 gm soy bean sprouts, and 2 tablespoons soy sauce). Bean pancake (*Pindae tok,* with 50 gm soy bean sprouts and 4 tablespoons soy sauce).

Each recipe is accompanied by a large color photo. About the author: She is a publisher, artist, and wife of Edward B. Adams, Headmaster of Seoul International School. She has developed a keen interest in Korean cooking, and has chosen here the simple dishes that are most popular among foreigners. She was educated in California, where she married. A color photo shows Shim Chung-shil. Address: Founder, Seoul International Publishing House.

6497. Shurtleff, William; Aoyagi, Akiko. 1984. Soymilk industry and market: Worldwide and country-by-country analysis. 2 vols. Lafayette, California: Soyfoods Center. Vol. 1, 199 p. Vol. 2, 100 p. Feb. 28 cm. [165 ref]
• ***Summary:*** A comprehensive overview, worldwide, with extensive historical information. The first study of its type, with many statistics, graphs, and tables. Volume 1 is the market study, and Volume 2 is black-and-white copies of soymilk labels and other graphics. Contents: 1. Introduction. 2. Directory of soymilk manufacturers and related companies worldwide. 3. Definitions and varieties of soymilk. 4. Overview of world soymilk industry and market, and future outlook. 5. United States soymilk industry and market. 6. Japan. 7. Korea. 8. China. 9. Taiwan. 10. Hong Kong. 11. Singapore and Malaysia. 12. Southeast and South Asia: (13. Vietnam. 14. Thailand. 15. Philippines. 16. Indonesia. 17. India. 18. Sri Lanka). 19. Europe (Incl. Plamil Foods in England, Tetra Pak Group in Sweden, Alfa-Laval and John Wilson in Sweden, Danish Turnkey Dairies–DTD and Soya Technology Systems (STS), Alpro/Vandemoortele in Belgium, Nestle, F. de Selliers in Belgium, Dansk Soyakagefabrik in Denmark, Lima Andiran in France, Galactina in Belp, Switzerland, and Semper A.B. in Sweden).

20. Latin America. 21. Africa. 22. History of Vitasoy in Hong Kong. 23. Two modern soymilk manufacturing processes: Marusan and Alfa-Laval. 24. Etymology of the word "soymilk" worldwide. 25. Analysis of ingredients in 49 popular Japanese soymilk products. 26. Bibliography. 27. About the Soyfoods Center. A table on p. 12 gives an overview of world soymilk production in 1983 ranked in descending order of annual per capita consumption. These statistics do not include China (PRC) or soy-based infant formulas, usually made from soy protein isolate. 1. Taiwan, 210 million liters, 11.1 liters/capita, growing at 30% per year. 2. Hong Kong, 39.1 million liters, 7.5 liters/capita, growing at 10% per year. 3. Singapore, 11.2 million liters, 4.7 liters/capita, growing at 15% per year. 4. South Korea, 67.0 million liters, 1.60 liters/capita, growing at 60% per year. 5. Malaysia, 21.4 million liters, 1.53 liters/capita. 6. Japan, 131.8 million liters, 1,10 liters/capita, growing at 101% per year. 7. Thailand, 50.0 million liters, 1.00 liters/capita. 8. USA, 9.6 million liters, 0.04 liters/capita. Total world production: 548.3 million liters.

Page 36 gives an overview of the U.S. market for soy-based infant formulas and adult soymilk. Production of soy-based infant formulas (on a ready to serve basis) in 1983 was as follows: Ross Laboratories made 14,720,000 gallons of Isomil (i). Mead Johnson made 14,080,000 gallons of Prosobee. Loma Linda made 2,240,000 gallons of Soyalac. And Wyeth Labs made 960,000 gallons of Nursoy. Thus 32,000,000 gallons of soy-based infant formula were made in the USA in 1983.

Also in 1983, consumption of soymilk by adults in the USA was as follows: 1,743,000 gallons were made by specialized soymilk manufacturers in the USA (Loma Linda Soyagen 1,000,000 gallons; Worthington Soyamel 670,000 gallons, Miller's Soy (private label) 73,000 gallons). 690,000 gallons were imported (328,000 gallons of Vitasoy by Vitasoy USA, 254,000 gallons of Yeo's by YHS, 50,000 gallons of Edensoy by Eden Foods, 25,000

© Copyright Soyinfo Center 2013

gallons of President by President, 25,000 gallons of Kibun by Kibun, 8,000 gallons of To-Neu by San-J International). 250,000 gallons were made fresh by tofu companies (45,000 gallons by Mighty Soy, 41,000 gallons by Victor Foods [Scarborough, Ontario, Canada], 39,000 gallons by Quong Hop & Co., 35,000 gallons by Wy Ky, and 90,000 gallons by others).

Yield. 1 ton of raw soybeans yields approximately 4,320 gallons of soymilk. Conversion: 3.785 liters = 1 gallon.

On page 56 is a table of "Large natural food distributors in the US" with the dollar figure being estimated annual sales in millions of dollars."

1. Rainbow Distributing (Denver, Colorado) $13.
2. Arrowhead Mills (Hereford, Texas) $12.
3. Eden Foods (Clinton, Michigan) $10.
4. Rock Island Foods (Ignacio, California) $10.
5. Westbrae Natural Foods (Emeryville, California) $9.
6. Pacific Rim (Seattle, Washington) $7.
7. Cornucopia Natural Foods (Coventry, Rhode Island) $7.

Total estimated sales for the top 7 distributors: $68 million a year. Address: Soyfoods Center, P.O. Box 234, Lafayette, California 94549.

6498. Shurtleff, William; Aoyagi, Akiko. 1984. Brief history of Alfa-Laval's work with soymilk worldwide (Document part). In: Shurtleff and Aoyagi. 1984. Soymilk Industry and Market: Worldwide and Country by Country Analysis. Vol. 1. 177 p. See p. 120-22.

• ***Summary:*** "Alfa-Laval, the world's largest supplier of dairy plants and systems, with some 10,000 employees, celebrated its hundredth anniversary in Sweden in 1983. It was a pioneer in the development of UHT (ultra high temperature) sterilization plants for dairy milk in the early 1960s. Continuous process UHT, guaranteeing milk and juices a shelf life of a month or more without refrigeration, and giving milk a much better flavor than autoclaved sterilized milk, caught on rapidly in Europe and many developing countries. By 1978 UHT milk, which slowly replaced pasteurized and refrigerated milk, had about 40% of the market in Europe. Alfa-Laval made UHT systems based on both direct heating (injection of high pressure steam into the milk flow to bring the temperature up to 135–140ºC) and indirect heating (in a plate heater, to 140ºC for 4 seconds). Alfa-Laval's direct system was called VTIS (Vacu-Therm Instant Sterilizer) and their indirect system, considered the more advanced and economical of the two, was called Steritherm.

"Starting in the early 1960s Alfa-Laval began to sell soymilk system components to soymilk manufacturers in East Asia. The UHT VTIS system was found to work very well, since the vacuum stripped off beany flavors. Alfa installed a VTIS for Yeo Hiap Seng in 1967 and one for Hong Kong Soya Bean Products Co. (makers of Vitasoy) in 1974.

"A key man behind Alfa-Laval's growing interest in soymilk is John Wilson, who got involved with soymilk in 1967, as technical manager for the Cold Storage Group (CSG) in Singapore and Malaysia. His background was in dairy technology. To help CSG launch a soymilk product, he studied traditional tofu processes in Singapore, then mechanized them. He set up CSG's first soymilk line in Petaling Jaya, a suburb of Kuala Lumpur, Malaysia, in 1969, and then another in Singapore later that year.

"In 1971 Wilson joined Alfa-Laval and started developing complete process lines for soymilk, based on a suspended (unfiltered) product made from full-fat enzyme-active soy flour. But only one plant for making suspended soymilk was ever sold (to Africa in 1982). In 1978 soymilk technology R&D was centered under John Wilson in Alfa-Laval, at Lund, Sweden. Systems for making clarified (filtered) soymilk with low bean flavor were developed.

"Alfa-Laval sold complete soymilk lines to Lam Soon (Ace Canning) in Kuala Lumpur, Malaysia (operation started in December 1979) and Kickapoo, in Bangkok, Thailand (from Feb. 1981). By early 1984 they had sold equipment or entire plants to at least twelve soymilk manufacturers in East Asia, including many of the largest (Hong Kong Soya Bean Product Co., Kibun, Dong Bang, President, Siam Food Prods., etc.).

"In 1981-82 Alfa stepped up its soymilk activities dramatically. It published attractive and informative 10-to-15-page large-format booklets on soymilk and its production in English, Chinese, and French, and began heavy promotion worldwide. Alfa-Laval went after the China market in a big way. They offered to install a soymilk plant in Beijing for the Ministry of Light Industry to use for one year, free of charge on a trial basis. Their 12-page brochure in Chinese on soymilk (*Douru*) was widely circulated. During a 3-month period in 1983 they sent five soymilk delegations to China, and began to set up an office in Hong Kong, run by a China trader with ten years experience, to focus on the China market.

"In late 1982 Alfa-Laval and Kibun (in Japan) formed a powerful alliance by signing an important, interesting, and unorthodox agreement. Alfa-Laval supplied Kibun with some of Kibun's original soymilk equipment, but eventually Kibun had to modify it extensively. Now, when Alfa-Laval finds a new equipment client, they tell the client, according to the agreement, that Kibun is their preferred supplier of the soymilk process. Kibun then signs a separate contract with the client for technical assistance, including product formulation and quality control. This could be a joint venture, a license for Kibun patents and technology, and/or purchase of actual patented equipment made by Kibun's food engineering company. Likewise, when Kibun licenses others to use its process, it often asks Alfa-Laval to supply the plant. There are no kickbacks between Alfa-Laval and Kibun. The

© Copyright Soyinfo Center 2013

arrangement works nicely since Alfa-Laval is strong in plant design, while Kibun is strong in processing technology and formulation. Yet Kibun holds no soymilk patents.

"Alfa-Laval has made a major contribution to soymilk production by being the world's first company to develop and sell an automated soymilk system. Their system is based on their UHT sterilizer, and incorporates an automated clean-in-place cleanup system. By inactivating the soybean enzymes at the bean stage, before grinding, the system produces a good-tasting soymilk. The economical plant size has a capacity of 2,000 liters/hr, with 1,500 liters/hr the economical minimum." Address: Soyfoods Center, P.O. Box 234, Lafayette, California 94549.

6499. **Product Name:** [La Vie Claire Tofu Burgers (Garlic & Fines Herbes, or Mushrooms)].
Foreign Name: La Vie Claire Galettes de Tofu (Ail et Fines Herbes, Champignons).
Manufacturer's Name: Société Française d'Alimentation Saine (SFAS) (Marketer). Made in France by Société Soy.
Manufacturer's Address: B.P. 77, 70 Avenue de la Republique, 94703, Maisons-Alfort Cedex, France. Phone: 43.78.11.32.
Date of Introduction: 1984. February.
Ingredients: Burgers with Garlic: Tofu (water, soybeans), oat flakes*, tamari (soy sauce), sunflowerseed oil, garlic 3.8%, spices and aromatics. * = Organically grown.
Wt/Vol., Packaging, Price: 200 gm.
How Stored: Refrigerated.
New Product–Documentation: Label. Received from Bernard Storup of Société Soy. 1989. March. 2.5 by 5.5 inches. Self adhesive. Green and red (or brown for mushroom) on white. "A food preparation based on soya and cereals. Made without artificial colors or preservatives." Logo of flying bird. Illustration of garlic (or mushrooms) with green herbs against cross-hatch background.

Letter (fax) from Bernard Storup. 1990. March 10. "We made the burgers for 'La Vie Claire' under their brand from Feb. 1984 to Oct. 1987. Since that date, they have sold all their burgers (same varieties) under our 'Soy' brand name." The company name is Société Française d'Alimentation Saine (SFAS). They make no soyfoods. They sell those made by Société Soy and soymilk made by Cacoja. In the mushroom burgers, the ingredients are: Tofu (water, soybeans), oat flakes*, mushrooms from Paris 14%, tamari (soy sauce), sunflowerseed oil, garlic 3.8%, spices and aromatics. * = organically grown.

6500. **Product Name:** [La Vie Claire Tofu].
Foreign Name: La Vie Claire Tofu.
Manufacturer's Name: Société Française d'Alimentation Saine (SFAS) (Marketer). Made in France by Société Soy.
Manufacturer's Address: B.P. 77, 70 Avenue de la Republique, 94703, Maisons-Alfort Cedex, France. Phone: 43.78.11.32.
Date of Introduction: 1984. February.
Ingredients: Water, soybeans*, sea salt. * = Organically grown.
Wt/Vol., Packaging, Price: 250 gm.
How Stored: Refrigerated.
New Product–Documentation: Label. Received from Bernard Storup of Société Soy. 1989. March. 4 by 2.75 inches. Self adhesive. Red and orange on white. "A food preparation based on soya and cereals." Logo of flying bird. Illustration of open soybean pods on a vine against a cross-hatch background.

Letter (fax) from Bernard Storup. 1990. March 10. "We made this product for 'La Vie Claire' under their brand." The company name is Société Française d'Alimentation Saine (SFAS).

6501. *Soyanews* (*Sri Lanka*). 1984. The Indonesian art of making soyafoods. 6(6):4-5, 9. Feb. [1 ref]
• ***Summary:*** "Recently the UNDP invited the Soyabean Foods Research Centre in Gannoruwa to send a team of food technicians to study the Indonesian experience. They have now returned to Sri Lanka after a two-month study tour which helped to acquaint them with the home and cottage level processing of soyafoods."

Fermented foods are highly developed and very important in Indonesia. "The only fermented preparation Sri Lankans are perhaps acquainted with is with the making of hoppers, thosai [dosai], and iddli [idli in south India]."

Those who took part in the two-month study course were: Miss Ellen Jayawardene, Miss H.M. Lalitha Padmini, Mrs. J.M.K. Jayaratna, Mrs. K.G.S. Ariyaratna and Mrs. Soma Weerasuriya.

Five large photos show soyfoods being made in Indonesia on a cottage level. The foods are tempeh, tofu, yuba, and soya sauce; one photo shows a shop that makes both tofu and tempeh. At least one person appears in each photo.

6502. *Soyanews* (*Sri Lanka*). 1984. Consumer guide: Tofu, soya mash and soya milk. 6(6):6, 8. Feb. [1 ref]
• ***Summary:*** These three soya foods "are being produced by Sri Lanka's only tofu shop at 123 Kitulwatta Gardens off Elvitigala Mawatha, Borella, Colombo 8." In this full page article the name "Soya House" is never mentioned. A photo shows a man carrying bottles of sterilised soyamilk in a metal rack. On the white wall next to him is a large sign that reads: "Soya House Specials. Soya Milk (substitute for coconut milk). Soya bean curd [tofu]. Soya mash [okara]." On the right side of the sign is a large cartoon illustration of a smiling soya bean with a collar and necktie. To the left of the bean we read: "I come from Soya House: Better known for quality."

Note: It appears that the name of Sri Lanka's only tofu

© Copyright Soyinfo Center 2013

shop is "Soya House." But why does the article not make this clear?

6503. **Product Name:** [Tofu].
Foreign Name: Tofu.
Manufacturer's Name: Soyarei Wallner Ebner.
Manufacturer's Address: Augasse 2, Baden bei Wien (Vienna), Austria.
Date of Introduction: 1984. February.
New Product–Documentation: Soyfoods Center Computerized Mailing List. 1984. Feb. 7. This company was formed by the merger of two smaller tofu companies: (1) Soyarei–Erich Wallner Tofu in Trumau, and (2) Tofurei Ebner in Berndorf. They make 150 kg/week of tofu and 1,000 okara burgers. By 1988 this company was named Sojarei Ebner-Prosl.

Talk with Guenter Ebner of Sojarei Ebner-Prosl. 1990. May 28. Erich Wallner was a member of Sojarei Ebner-Prosl, but he left the company in 1987. He is now working in his former profession as a waiter.

6504. Tsumura, Takashi; Tsuruta, Shizuka; Inoue, Mamehiko. 1984. Kenko-shoku tôfu [Tofu, the health food]. Tokyo: Nobunkyo (Nosan Gyoson Bunka Kyokai). 236 p. Tezukuri Nihonshoku Shirizu (Handmade Japanese Foods Series). [27 ref. Jap]
• ***Summary:*** The third author, Mr. Inoue, opened his tofu shop in 1981 and is making tofu coagulated with natural nigari. The second author, Ms. Tsuruta, translated *The Farm Vegetarian Cookbook* into Japanese. This book is not vegetarian. Contents: Part I. Japanese tofu cookery. Chinese and Korean tofu cookery. Futuristic tofu cookery. Part II. The real face of tofu. How tofu is made. How to make tofu by yourself. History of Japanese and Chinese tofu. Part III. One statement from a tofu maker. Aiming for traditional tofu production.

This book contains numerous old illustrations (line drawings) of tofu in Japan. Page 208 shows a tofu vendor carrying two tubs of tofu at the ends of a shoulder pole (tenbin). He is wearing a straw hat, Japanese kimono, and high wooden clogs (geta). It is from the book "Illustrated Edo Period Food Life Dictionary" (Zusetsu Edo Jidai Shoku Seikatsu Jiten), compiled by the Society for the Study of the History of Japanese Customs (Nihon Fuzoku Shigaku-kai).

Page 209 shows the interior of a tofu shop from the Edo period. It adjoins the family home. A woman with a child on her back is grinding the soybeans in a hand-turned stone mill. A man is sitting on the end of a lever press, pressing the soymilk out of the okara. It is from the book "Illustrations of Edo Period Occupations" (Edo Shobai Zue), illustrated by Kazuma MITANI.

Page 210 shows a tofu makers wife cutting tofu above a cooling tank. It is from a book on Japanese occupations (Shokunin Zokushi Hokkugo), with illustrations by Yui Nashimoto. Address: 1. Freelance writer; 2. Author, vegetarian cooking specialist, co-owner of a natural foods restaurant, and translator of the Farm Vegetarian Cookbook; 3. Owner of tofu shop Shonan Mamehiko in Shonan, Kanagawa-ken.

6505. **Product Name:** Tofu.
Manufacturer's Name: Yat Sun Food Products Ltd.
Manufacturer's Address: 12531–126 Street, Edmonton, ALB, T5L 0X3, Canada. Phone: 455-8787.
Date of Introduction: 1984. February.
New Product–Documentation: Letter from Kenson Quan. 1984. March 20. They started production in Feb. 1984. Kenson is a younger member of the family. His uncle is Kenneth Quan. The family has made bean sprouts for years. Still active in May 1991.

6506. Knoblauch, Mark. 1984. Restaurants: Kotobuki's creative Japanese dishes as pretty as a picture. *Chicago Tribune.* March 4. p. K10.
• ***Summary:*** This is a review of the Japanese three-star restaurant in Chicago. The restaurant features sushi and sashimi. "*Inari sushi* ($5.25 for 7 pieces), popular in Japan, doesn't show up often on this side of the Pacific. This type wraps sushi's mounds of vinegared rice in pockets of deep-fried bean curd." It never contains any fish, so some like to order it with raw tuna as a side dish. An unusual version of teriyaki is pork *miso-zukeyaki*, which is pork marinated in miso, then cooked teriyaki style.

6507. Shurtleff, William; Aoyagi, Akiko. 1984. History of soy protein concentrates, isolates, and textured soy protein products. Soyfoods Center, P.O. Box 234, Lafayette, CA 94549. 25 p. March 4. Unpublished typescript. Available online at www.soyinfocenter.com.
• ***Summary:*** A comprehensive history of the subject. Contents: Definition of types of products. Part I: History of modern soy protein products from origin to 1964. Soy protein isolate: Tofu, Nagel in New York 1903, Beltzer in 1911, Ajinomoto in 1919, Cone and Brown patent in 1928, Glidden (first plant in U.S. for production of industrial grade soy protein isolate) in 1935, first study of use of soy isolates in food (Woodruff at University of Illinois, 1938), Glidden first company in the West to produce a soy protein isolate for use in food (1939, enzyme-modified), Glidden first with large-scale production of non-enzyme modified isolates (1957), Worthington Foods introduced Soyamel in 1952 (first soymilk based on isolate). Soy protein concentrates: First developed and introduced in Germany in 1925, first commercial food-grade concentrates and first patent from Griffith Laboratories in 1959. Textured soy protein products: Developed in China 1,000 years ago, made from tofu or yuba, earliest Western meat analogs developed by John Harvey Kellogg about 1896 (without soy), first

© Copyright Soyinfo Center 2013

synthetic industrial protein fiber (Lanital, made from casein) introduced in Italy 1936, first industrial (non-food) soy protein fibers in 1938 from Robert Boyer of Ford Motor Co. (used for upholstery), Boyer got patent for use in food (1951), rights purchased by Worthington, Dr. Harry Miller's soya loaf in 1939, Worthington first to produce a meat analog based on spun soy protein fibers in 1960, textured soy flour (TSP or TVP) introduced as food ingredient in U.S. in 1964.

Part II: History of modern soy protein products in the U.S. from 1965 to 1981. 1964 Belden report from Harvard Business School *Protein Paradox.* Commercial Protein Foods Studies Program of the U.S. Agency for International Development (AID) encouraged U.S. firms to develop protein foods for the Third World in 1967. General Mills Bac-O's test marketed 1966. Producers. February 1971 breakthrough when USDA authorized use of TVP in school lunch programs. 1972 *Soybeans. Chemistry and Technology,* edited by Smith and Circle, contained all the research on nutrition and processing up to that time. 1973 high beef prices led to beef-soy retail blends. Appearance of TSP cookbooks, starting in 1971. First World Soy Protein Conference held in Munich, Germany, in 1973. In 1974 Miles Laboratories/Worthington Foods introduced Morningstar Farms meat analogs, the first soy protein meat analog entrees marketed to mainstream America. Textured soy concentrates and other concentrate developments. New developments with isolates. New flavorings. New textured soy flour development. 1978 Keystone Conference on soy protein and human nutrition sponsored by Ralston Purina. Problems with government regulation.

Part III: History of modern soy protein products outside the U.S. and Europe (1960-1981): Japan. China. Other Asia: Philippines, India, Sri Lanka. Latin America: Colombia, Mexico. Address: Lafayette, California. Phone: 415-283-2991.

6508. Halter, Fran. 1984. A committed tofu true-believer spreads the word about the curd. *Gazette* (*The*) (*Quebec*). March 5. [Eng]

• ***Summary:*** Norbert Argiles, age 43, of Unisoya in Quebec "is philosophically dedicated to placing tofu in every household refrigerator." A native of Catalonia, a region in Spain, he has been preaching the nutritive value of tofu since the 1960s. "In 1978, Argiles decided to quit talking and start acting on the value of the high-protein food. He left a job in quality control at a major Montreal aircraft-engine manufacturer and invested a total of $7,000 to open the first Quebec-based business to produce tofu on a large scale.

"'When I first started, I used to go to stores and people looked at me like I was selling moon rocks,' said the 43-year-old businessman... 'But patience and a strenuous sales effort have convinced them of the value of tofu.'

"Unisoya Inc.'s plant, nestled in the picturesque Laurentian community of Prevost, 75 kilometers north of Montreal, is a converted warehouse and the simple executive office is housed in a trailer." To finance his fledgling operation, Argiles sold granola bars and unsweetened canned fruit on the side. "Unisoya is now producing an average of 5,000 pounds of tofu a week, up from 200 pounds a week at the start of the operation five years ago. The tofu wholesales at $1 a pound in 15-pound pails, or slightly more in prepackaged pound blocks.

"Sales for fiscal 1983 ended May 31 were $200,000. Argiles projects that the figure will increase 30 to 60 per cent in fiscal 1984 as Unisoya develops new markets in the province and begins to sell to a major grocery chain with stores across Quebec... Argiles estimates Unisoya's market share might be as high as 40 per cent, but competition from several new Quebec tofu producers, which have recently entered the market, has left him with little profit... Argiles spent $15,000 last year to promote tofu and said he hopes that once he makes 'a breakthrough' in public awareness, tofu will become a dietary staple."

Each week Argiles uses 3,500 lb of locally grown soybeans that have not been treated with chemicals. His water comes from a well drilled below his tofu factory. Address: Canada.

6509. Jones, Irmarie. 1984. Tofu's time has come: Local soy dairy turns out 45,000 pounds a week. *Recorder* (*Greenfield, Massachusetts*). March 7. p. 15.

• ***Summary:*** "Tomsun Tofu is now making an herb tofu, to use in Italian and French dishes and a spicy tofu for Oriental and Mexican dishes. The herb tofu has tarragon, thyme, oregano and basil already in it, giving it a sweet, light taste. In the spicy tofu you'll find cumin and coriander, giving it a heartier taste... We have also added calcium... Now four ounces of firm Tomsun Tofu contains the equivalent of eight ounces of cow's milk, without the cholesterol." Contains two tofu recipes: Oriental Tofu omelet, and Tofu sloppy joes. A photo shows Madeline Fox and her daughter. Address: Staff reporter.

6510. Robert-Stolow, Johanne B. 1984. Ingredient listing for tofu ["Soymilk" acceptable term for use in Canada]. Manufactured Foods Div., Consumer Products Branch, Hull, Quebec, Canada. 1 p. March 21. Unpublished manuscript.

• ***Summary:*** "To: Regional Managers Attention: Regional Food Specialists in Halifax, Toronto, Winnipeg, Vancouver.

"Subject: Ingredient listing for TOFU. At a recent meeting with Agriculture Canada, it was agreed that the term, 'soymilk' would be the acceptable designation for the aqueous extract of soybeans used in the manufacturing of TOFU. This decision was based on a review of the research literature where the term 'soymilk' has been in use for 60 years or more. It can therefore be argued, as in the case of cocoanut milk, that the common name 'soymilk' is well established within this particular trade, thus barring any

© Copyright Soyinfo Center 2013

objection from the dairy industry.

"'Soymilk' is obtained via the following process... (A flowchart is given). The soymilk is then processed further to produce the TOFU.

"Please be advised that we will be recommending the use of this name and of its French equivalent "jus de soya" (MAPAQ) for labelling. For the sake of uniformity, we would appreciate your doing likewise. We thank you in advance for your cooperation in this matter."

Note: Victor Food Products of Toronto petitioned the government to legalize use of the word "soymilk" in labeling tofu. Address: Manufactured Food Div., Consumer Products Branch, Government of Canada, Hull, Quebec.

6511. Cicero, L. 1984. Totally tofu! *Miami Herald.* March 22. Food section.
Address: Florida.

6512. Hesseltine, C.W. 1984. Re: Research on natto. Interest in letters of Frank N. Meyer concerning fermented foods and soybeans. Letter to William Shurtleff at Soyfoods Center, March 22. 1 p. Typed, with signature on letterhead.
• ***Summary:*** "It will be some time before we get a review of natto published since our emphasis just now is to do as much laboratory work as possible. Our interest currently is a study of the genetic stability of *Bacillus natto* which, under many conditions, runs down rapidly. Secondly, we are looking at whether *B. natto* is a separate species from *B. subtilis.*

"Your comments on the letters of the USDA Plant Explorer, Frank N. Meyer, are especially interesting. Where can I see the letters that deal with fermented foods or even soybeans? Next summer I am preparing a lecture on the involvement of USDA in soybean fermented products. I knew there was a man by the name of Meyer associated with soybean exploration, but I was not aware of his description of any soybean foods. I would like to mention these letters since the first scientific paper from USDA was a paper by Church on angkak [red fermented rice] in 1920.

"Thank you also for the information on soy milk and your proposed terminology and standard for tofu. This should be circulated to people in the industry to get their reaction and suggestions as to whether they can live with the standards." Address: Chief, Fermentation Lab., USDA/NRRL, Peoria, Illinois.

6513. Storup, Bernard. 1984. Re: New developments at Société Soy. Letter to William Shurtleff at Soyfoods Center, March 22. 3 p. Typed, with signature on letterhead (photocopy). [Eng]
• ***Summary:*** "A brief history of Société Soy: Oct. 1981–Sept. 1982. Search for a place to settle near Paris, choose and install equipment. The company's first commercial production began in June 1982.

"Oct. 1982–May 1983. Production of tofu (firm for the natural food market and soft for the Japanese community–30,000 Japanese living in Paris); distribution by our own means in Paris only.

"From May 1983. Nationwide distribution of firm tofu–vacuum packed, 24 day shelf-life–and tofuburgers (called 'Croque Tofou') by Paris based distributors (actually, from Rungis, which is the biggest market of its kind in the world, and a key point for fresh products for western Europe).

"We carry 5 types of burgers (see labels), with 26 day shelf-life (we could put 2 months, according to a strict microbiological survey we ran, but prefer to shorten it in order to have a more regular rotation).

"This week have begun a nationwide advertising promotion for 'tonic burgers' (in Paris subway, on the national radio); it is run by a fast food chain that wants to promote a more dietetic way of eating. We make the burgers.

"We should double our production within the next 6 months; We don't really have time to develop new products, at least for this year.

"We are presently making 2,500 kg/week of tofu, including 1,400 kg/week of burgers; one year ago we were making 1,000 kg/week.

"Some news from Europe: Several types of soymilk have recently been put on the market: Lima Soya Drink, Sojal, and Soyo.

"I think the biggest tofu manufacturer in Europe is Vanka-Kawat in Rijswijk, Holland. They sell about 30,000 pieces of tofu (250 gm and 450 gm) per week, mostly for the Asian (Indonesian) community. They also make sprouts and tempeh. They have an automatic plant with only European equipment; there is no way to visit it.

"The French dairy lobby (France is the world's leader in cheese consumption) has recently clearly defined its new priorities: fight by all means against all kinds of substitutes for dairy products–above all soymilk." Address: Société Soy, Plateau de l'Ardennais, 91590 Cerny, France. Phone: (6) 457 52 01.

6514. Vansickle, Janice. 1984. Bean worth weight in gold. *Windsor Star* (*Essex County, Ontario, Canada*). March 26. p. B1-B2.
• ***Summary:*** Soybeans are now Essex County's major field crop and the third largest cash crop in Ontario province (with a value of more than $203 million in 1982), but few people know what happens to the golden nuggets after they leave the farm. Most of the soybeans are crushed in Canada to make soybean oil and meal. Last week the Ontario Soya-Bean Growers' Marketing Board held a symposium in Toronto titled "Ontario soybeans–A journey into the next century." Sheldon Hauck, vice-president of the Soy Protein Council in the USA and one of the speakers estimated that soy protein is an ingredient in over 2,500 readily available grocery store items. Contains a nice history of the soybean in Canada. Ontario now exports soybeans to 20 countries,

© Copyright Soyinfo Center 2013

"including major shipments to Japan, which buys only top quality soybeans and turns them into soyamilk, soyaflour, tofu, miso–a soyapaste for soup–and natto–a fermented soybean used as an appetizer." Speaker after speaker confirmed a bright future for soybean exports. Moreover, all supermarkets in Windsor now carry tofu, a soya curd. Soy oil is found in margarine and cooking oils. Soy protein appears in soya sauce, simulated bacon bits, and infant formulas. The H.J. Heinz Company in Leamington has been working with the marketing board to develop a line of processed soybean products for the retail market.

Ontario's three soybean crushing plants are experiencing hard times, in part due to competition from canola oil (which enjoys subsidized freight rates); they are operating at 62% of capacity and could be forced to shut down. Photos show: A pair of cupped hands holding soybeans. Peter Epp, chairman of the Ontario Soybean Growers Marketing Board.

Note: This is the earliest English-language document seen (March 2009) that uses the term "soyapaste" to refer to miso. Address: Star agriculture reporter.

6515. Bhatnagar, P.S. 1984. Soybean in India–Retrospective and perspective. *Tropical Agriculture Research Series* No. 17. p. 11-22. March. International Symposium on Soybean in the Tropics and Subtropics. [22 ref]
• ***Summary:*** Contents: Introduction. Soybean in India. A fallacy. Soybean development. Research in India. Seed production. Production technology. Microbiology. Plant protection. Product development, utilization and production economics. Constraints to rapid expansion of soybean.

Table 1 shows imports of soybeans and soy oil to India from 1970-71 to 1979-80. Imports of soybeans were zero or insignificant except for 516 tons in 1978-79. Imports of soy oil fluctuated widely, from 78,956 tons in 1970-71, to only 3,509 tons in 1975-76, reaching a peak of 350,617 tons in 1978-79. Address: Project Coordinator, All-India Coordinated Research Project on Soybean, ICAR, G.B. Pant Univ. of Agriculture and Technology, Pantnagar 263145, U.P., India.

6516. Caty, Thérèse. 1984. Dossier: Le soja [Dossier on soyfoods in France]. *France Dietetique.* Feb/March. p. 24-31. [Fre]
• ***Summary:*** This extremely interesting article gives an introduction to the various soyfoods, then list all known soyfoods products sold in France, complete with the brand, product name, ingredients, nutritional composition, weight or volume, and packaging. The last half of the paper is a French translation of a paper titled "The American boom in traditional soy products," presented by Richard Leviton on 11 Oct. 1983 at a conference in Parma, Italy.

The following products, manufacturers/marketers (and brands) are listed: 1. Whole soybeans and flour: Lima (Organic soybeans, organic whole soy flour). 2. Textured soya: Charusse, Soyavit. 3. Convenience prepared foods for vegetarians: Pural (Frika Vita, Sojafleisch, Pasta Chuta, Sojavite, Soja Mignon, Sojanelles, Sojanelles épicées), Hera (Croq Meal, Herameal, Végémeal, Potage), Fritini (Aux herbes). 4. Liquid soymilk: Celnat (Soyo), Lima, Pural (Sojlactis), Sapov (Sojal), Provamel (Soya Drink, Soya dessert choco [a pudding, made by Alpro in Belgium]), Naturvit (Soyalet, Soyalet sans sucre). 5. Tofu: Le Bol en Bois (Koya-dofu), Soy (Tofu, Croque Tofu [6 types]). 6. Tempeh: Traditions du Grain. 7. Miso: Celnat (Brown rice miso imported from Japan, Barley miso), Lima (Hatcho miso, barley miso). 8. Soy sauce: Celnat (Shoyou), Lima (Tamari, Tamari Shoyu). Address: France.

consumption: demand and supply, utilization. Methods of cultivation currently applied: cultural practices (planting time, land preparation and planting, fertilizer application, management, harvesting and processing, marketing and procurement, cropping patterns, competitive power), varieties and their distribution, major diseases and pests, problems in farm cultivation. Soybean research and extension service. Government participation in and support for soybean production. Future prospects of soybean production and main constraints. Discussion.

In Korea, soybeans rank third among all food grain crops, in both the area planted and in production, after rice and barley. Soybean "products such as soy paste [doenjang], soy sauce [kanjang], beancurd [tofu] and beansprouts are the primary side dishes in conventional daily Korean meals." The area planted to soybeans has steadily decreased from about 300,000 acres average in 1967-1971 to only 183,000 acres in 1982.

Tables: (1) Area planted and production of major food crops in Korea. (2) Production, yield and import of soybeans by year in Korea. (3) Regional distribution of soybean production in Korea. (4) Demand and supply of soybeans in Korea. (5) Utilization of soybean in Korea. (6) Regional distribution of soybean planting times in Korea. (7) Results of sample investigation for the application of herbicides on soybean in Korea. (8) change of cropping systems in the central part of Korea. (9) Farm income derived from major summer crops in Korea. (10) Characteristics of main soybean varieties currently recommended and their geographical distribution in Korea. (11) Research institutions, location and number researchers related to soybeans in Korea. (12) Amounts, area planted, and production for every class of soybean seeds in Korea in 1982. (11) research institutions, location and number of researchers related to soybeans in Korea. (12) Amounts, area planted, and production for every class of soybean seeds in Korea in 1982. (13) The amount and purchasing prices of soybean by the government and the prices of imported soybeans by year in Korea. Figures: (1) Marketing channels for soybean in Korea. (2) Flow chart of soybean research and extension services in Korea. Address: Crop Exp. Station, Office of Rural Development, Suwon 170, South Korea.

6520. Howell, R.W. 1984. Contribution of soybeans to the agriculture of the USA. *Tropical Agriculture Research Series* No. 17. p. 127-32. March. International Symposium on Soybean in the Tropics and Subtropics.

• ***Summary:*** An excellent historical overview. "Perhaps the most important person in soybean history in the United States was William J. Morse, who was appointed in 1907 to be in charge of soybean research in the US Department of Agriculture." Morse "led the development of the cooperative research program of the USDA and the State Agricultural Experiment Stations until 1949. This cooperation, which Mr. Morse had encouraged for many years, was formalized by an agreement between USDA and several stations in 1936. The cooperative program continues in its essentials, but is vastly expanded at the present time. Mr. Morse died in 1959."

1920–Dr. Clyde Melvin Woodworth, a geneticist, joined the faculty of the University of Illinois at Urbana. He was the first breeder / geneticist with primary responsibility for soybeans at this university. He constructed the first chromosome map for soybeans [1933]. He developed the varieties Illini and Chief, and made the cross which led to the variety Lincoln. In 1943 Lincoln was released jointly by the University of Illinois, USDA, and several other universities. It "was the first variety to be developed from a purposeful hybridization and was the first to be cooperatively released under the agreement of 1936.

"A contemporary and colleague of Dr. Woodworth was Professor Jay Courtland Hackleman, a crops extension specialist at the University of Illinois. Professor Hackleman was an ardent promoter of soybeans. He and his extension colleagues in other states appreciated the potential of soybeans and strongly encouraged farmers to try them on their farms."

1921-1951–Professor William Leonidas Burlison was head of the department of Agronomy at the University of Illinois. Along with Woodworth and Hackleman, he was instrumental in the establishment of soybeans in Illinois agriculture.

"These people had counterparts in many states who were equally enthusiastic and effective in encouraging farmers to grow soybeans."

1928–J.L. Cartter, a graduate student at the University of Wisconsin, was hired by the USDA as a soybean agronomist. In 1936, when the US Regional Soybean Industrial Products Laboratory was established, Mr. Cartter moved to Urbana, Illinois, to lead the production research at the Laboratory. He continued at that position until his retirement in 1965.

"Plant breeders were employed by USDA and stationed at Iowa State and Purdue [West Lafayette, Indiana] Universities, at later at Stoneville, Mississippi, North Carolina State Univ., and the Universities of Florida, Missouri, and Minnesota, in addition to Illinois."

1949–After the retirement of W.J. Morse, Dr. Weiss took over his position as leader of Soybean Investigations at USDA; he served in that position from 1949 to 1953. "Under Weiss' leadership the soybean germplasm collection was formalized and facilities established at Urbana, Illinois, and Stoneville, Mississippi, for preservation and management of the collection." Weiss was followed by Herbert W. Johnson (1954-1964), who next to Morse probably had the greatest influence on the development of soybean research.

Before 1965, the only U.S. company "with a soybean development was the Coker's Pedigreed Seed Co. of South Carolina, where Henry Webb was the soybean breeder. In 1965 a group of midwestern seed companies joined

© Copyright Soyinfo Center 2013

to form the Soybean Research Foundation, Inc. (S.R.F.), and employed A.L. Matson of Missouri as a soybean breeder. During the 1970s many companies established soybean variety development groups following enactment by Congress of the Plant Variety Protection Act of 1970. Consequently the number of varieties available to farmers has increased manyfold. In 1983 it is estimated that at least 300 different varieties were offered for sale in Illinois alone."

Also discusses protecting soybeans from diseases, insects, nematodes and weeds, as well as plant physiologists who worked on soybeans (he pioneering work being done by Garner and Allard on photoperiodism). The Northern Regional Research Center at Peoria, Illinois; since 1942 soybean utilization research as been based here. International programs including INTSOY. Growing interest in food uses of soybeans (tofu, soymilk) including the Soycrafters Association. Rise of the soybean processing industry. The American Soybean Association. Address: Emeritus Prof., Former Head, Dep. of Agronomy, Univ. of Illinois, Urbana, IL.

• ***Summary:*** The average person that she talked to had a "vague notion that soybeans were nutritious but, except for health enthusiasts, generally had no idea how to incorporate soybeans into their diet. This is true not only of typical consumers but also of farmer's wives, even though soybeans were a major source of income for their families. Since realizing this in 1977, the Ontario Soya-Bean Growers' Marketing Board hired a full-time home economist to promote soybeans and distributed at least 50,000 copies of a soybean recipe book. A joint project was entered into with the H.J. Heinz Company to develop new soybean products in 1981 and, in 1982, Faye Clack Inc. conducted an independent survey of consumer reaction to soybean products.

During a recent visit to supermarkets and a health food store in Windsor, Ontario, the author found "that all of the supermarkets now carry tofu due to the increased number of Asian immigrants who had been asking for it, and also the relatively new Canadian interest in Oriental cooking." Address: Consumers' Assoc. of Canada, Windsor, Ontario.

6528. Rehberger, T.G.; Wilson, L.A.; Glatz, B.A. 1984. Microbiological quality of commercial tofu. *J. of Food Protection* 47(3):177-81. March. [8 ref]
• ***Summary:*** "A study was done to investigate the microbiological quality of commercial tofu available in local retail outlets. A sampling method was first developed to obtain accurate and representative microbial counts of individual pieces of tofu. Plate count determination of total aerobic organisms, psychrotrophs [bacteria that can grow at temperatures not far above freezing], coliforms, sporeformers, yeasts and molds, and staphylococci were made on 60 tofu samples (representing 3 lots each of 4 different brands) obtained within 24 hours after delivery to the retail store. In addition, for 2 brands that provided manufacturer's pull dates, the same microbial counts were obtained for samples stored in the laboratory at 10ºC until the pull date. Of the tofu sampled immediately after purchase, 83% of the lots tested had total counts greater than 1,000,000 colony-forming units (CFU)/gm and psychrotrophic counts greater than 10,000 CFU/gm. In addition, 67% of the lots tested had confirmed coliform counts greater than 1,000 CFU/gm. Very low levels (less than 10 CFU/gm) of all other microbial groups tested for were found in the majority of lots. Samples held until the manufacturer's pull date contained higher total and psychrotrophic counts but lower or stable counts of other organisms compared with samples tested immediately after purchase. To improve the microbiological quality of tofu, processors need to reduce initial loads by improving sanitation and processing techniques, and retailers should provide more consistent and colder refrigerated storage."

"In the present study, the manufacturer's pull date did not indicate accurately the shelf-life of the tofu." Address: Dep. of Food Technology, Iowa State Univ., Ames, IA, 50011.

6529. Rennie, J. Clare. 1984. A look at the progress of soybeans [in Canada] in the last decade. In: Ontario Soya-Bean Growers' Marketing Board. ed. 1984. Ontario Soybean Symposium. Chatham, Ontario, Canada: OSGMB. 319 p. See p. 22-35.
• ***Summary:*** "In 1893, Professor C.A. Zavitz, crop specialist at the Ontario Agricultural College, grew probably the first field of soybeans, as a replacement for cow peas which had failed, and set in motion a 30-year variety testing program for Ontario farmers. Canada's first new variety, OAC 211, was introduced in 1923; this was followed in the 1930's by three early maturing ones, A.K., Mandarin, and Capital, introduced by Dr. Dimmock of the Harrow Dominion Experimental Station. A colleague, Dr. Cass Owen, was the originator of Harosoy, introduced in 1951. It quickly became a leading Ontario variety as well as the main one grown in the American soybean belt for many years...

"However, soybeans were not a major crop in Ontario, or for that matter in the USA, until the Second World War. What was grown was largely for green manure and forage. The statistics on soybeans in Ontario were not even given separately until 1942. The predominance of linseed meal and cottonseed meal and oil was too strong to be easily overcome by another crop. The wartime demand for an easily available source of vegetable oil and protein gave soybean production its first big boost...

"In Ontario, the production figures for the last decade show... sharp increases. Aside from demand which made it economically attractive for farmers to grow soybeans, this increase has been made possible by a breeding and management research program to extend Ontario's soybean area and to maintain yields at competitive levels. Until the late 1970's, virtually all of the province's soybeans were grown in Essex, Kent, Lambton, Middlesex, and Elgin Counties. With new early maturing, high-yielding varieties adapted to the growing conditions in Central, Western and Eastern Ontario, production in these areas is increasing rapidly. The number of hectares planted has risen from 4,010 ha in 1972 to 61,500 ha in 1982...

"The Ontario breeding program has emphasized not only early maturity and high yields, but also resistance to disease and to pod shattering, and good nodulation capabilities. Under the direction, since 1976, of Dr. Wally Beversdorf... the program is rapidly coming of age. Maple Arrow, a high-yielding variety adapted to 2,600 heat unit areas, was developed at the Central Experimental Farm, Ottawa. Its introduction in 1976 was the shot in the arm needed to

© Copyright Soyinfo Center 2013

expand the soybean-growing area, and the OMAF/Guelph program is aimed at continuing this expansion...

"In the last decade, we have largely overcome nodulation problems, with the introduction of granular inoculants in the mid-1970's. These inoculants, which have proven particularly effective in first-time soybean fields...

"The introduction of a flexible floating cutterbar has further cut harvest losses, which had been as high as 30 percent with rigid cutterbars and conventional combines...

"With the establishment of the [Maple Leaf Monarch] crushing facility at Windsor [in July 1979], the province's daily crushing capacity has increased by 300 tonnes per day, and the three crushing plants at Toronto, Hamilton, and Windsor are crushing about 35 million bushels of soybeans each year."

Table 4 shows that in 1972 only 9,909 acres (2.5% of the total Ontario province planting) took place outside the traditional five-county region. By 1982 this had increased to 151,964 acres (17% of the total planting)–largely due to the development of new short-season varieties in the "Maple" series, which matured in 100-108 days at 2200 to 2550 heat units. Address: Asst. Deputy Minister of Technology and Field Services, Ontario Ministry of Agriculture and Food (OMAF).

• ***Summary:*** The author grows 500 acres of soybeans in Ontario. Soybean production in Canada is subsidized by the federal government. "Until 1973, the only export of any consequence was to the United Kingdom, mainly because of the preferential trade benefit. This was phased out in the early 1970s and export sales greatly diminished. In 1973, after years of frustration, the Soybean Board subsidized a shipment of about 30,000 bushels to Japan for the human consumption market, mainly miso and tofu. Since then, the quality of Ontario soybeans has become so renown in the Pacific Rim countries that 1982 exports to this area accounted for 2.2 million bushels. The potential of this market is almost unlimited...

"In summary, I would like to say that I am excited about our soy production. It is like a new lease on life to grow something other than corn. We'll probably never get rich at it, but we'll enjoy trying." Address: Farmer, Moore township, Lambton County, ONT, Canada.

6532. Somaatmadja, Sadikin. 1984. Development of soybean culture in Indonesia. *Tropical Agriculture Research Series* No. 17. p. 23-36. March. International Symposium on Soybean in the Tropics and Subtropics. [3 ref]
• ***Summary:*** Contents: Abstract. Area and production: Share in national food production, national soybean production, producing centers, soybean area. Supply and demand situation: Export and import, future demand and production, utilization. Methods of cultivation: Cropping system, cultivation, pests, diseases and other problems. Research and CRIFC: Research program and activities. Support for soybean production. Further prospects and main constraints. Discussion (questions and answers).

Utilization (p. 28): "1. Side-dish with rice: Tempe (fermented soybean cake), tahu (soybean cake), tauco (soybean paste), tauge (soybean sprout), kecap (soy sauce) and goreng kedelai (fried soybeans). Of these, tempe and tahu are very important in the diet of the people.

"2. Snacks: Roasted soybeans, kerupuk tahu (tahu chips), boiled young soybean pods" [edamame].

Sumatra), Banjarmasin (S. Kalimantan), Maros (S. Sulawesi), and Malang (E. Java). Address: Central Research Inst. of Food Crops, JL Merdeka 99, Bogor, Indonesia.

6533. *Soya Foods* (*ASA, Europe*). 1984. Tofu in Europe: Ready for take-off? No. 1. p. 1-2. March.
• ***Summary:*** Tofu consumption in Europe is estimated at 5 million kg a year. The greatest consumption is in France and the Netherlands, due to larger Asian populations there.

6534. *Soya Foods* (*ASA, Europe*). 1984. Soyfoods in Belgium: An interview with Pauline Six-Chan. No. 1. p. 8. March.
• ***Summary:*** "Pauline Six-Chan was born in Singapore. She is a graduate in food science from Michigan State University (U.S.). During her study she met her husband, who is Belgian. In 1978, after finishing her studies at Michigan State, she came with her fiancé to Belgium, and got married. Being a major in food science, Pauline started then looking for a job in the food area. It was very hard to find an appropriate job in a Belgian food company. So she decided to start her own business in 1980. An ethnic shop and production of soysprouts!

"Pauline, of Asian origin and brought up with soyproducts, is aware of the versatility and nutritional value of these products. She is very interested in soyproducts as they have a lot of potential–they are so easy to use. Soyproducts also have an economic advantage–they are less expensive than other food products with the same nutritional value.

Q: "What soyproducts are currently available to Belgian consumers? Pauline: Soydrink, soypudding, tofu, tempeh, bean-curd sheets, miso (bean paste), soy sauce, soysprouts, soyflour, soymilk, soy oil. Soydrink and soypudding you can get in reformhouses but tofu, tempeh, miso etc you can only buy in the ethnic stores.

Q: "Who buys soyfoods? Pauline: There are people who want a more balanced diet, more vegetable protein and less cholesterol. In general, there is no specific age group or people with a certain lifestyle who buy soyfoods. I know a lot of older people in their 60s, who are conscious about a healthy diet and who do want to use more vegetable proteins. People knowing e.g. soy oil–a healthy natural product, cholesterol free–sometimes make the relationship to other soy products, and are very keen on using them.

"People who know the products will buy them–Asians as well as Belgians. Asians do buy more soyproducts because it is a part of their daily diet. Also, most of the vegetarians know these products and buy them. However, the general public has to be taught through cooking demonstrations and info leaflets.

Q: "What do Belgian consumers know about tofu?

"Pauline: Belgian consumers know very little about soyproducts because these products are originally not a part of their daily diet and they are not commonly available everywhere at the moment.

Q: "What are you doing to tell Belgian consumers about soyfoods?

"Pauline: My primary goal is to introduce soyproducts to Belgian consumers and to teach them how to use these healthy products in their daily diet.

"We demonstrate to Belgian consumers how to use the soyproducts and this through demos in various small supermarkets, institutions, hospitals, schools, housewife organizations, doctors,... I am also organizing demos in my own shop every first Saturday of the month. l distribute recipes–provide people with background information on where soyproducts come from, on the nutritional value of the products, on how easily soyproducts can be used in the daily diet, how soyproducts can be incorporated with the vegetables and meat that people eat normally every day." Address: Premier Foods, Diestsestr. 197, 3000 Leuven, Belgium.

6535. Soyfoods Association of America, Standards Committee. 1984. Tofu standards. First draft. Lafayette, California: Compiled by William Shurtleff of Soyfoods Center. 15 p. March 29. [11 ref]
• ***Summary:*** In this first draft, the term "second generation" is first applied to soyfoods in the section titled "Naming Second Generation Commercial Food Products Containing Tofu." Address: Lafayette, California and Greenfield, Massachusetts.

6536. Suzuki, Steven. 1984. Pacific Rim potential for edible soybeans. In: Ontario Soya-Bean Growers' Marketing Board. ed. 1984. Ontario Soybean Symposium. Chatham, Ontario, Canada: OSGMB. 319 p. See p. 224-41.
• ***Summary:*** Soybeans were first exported from Canada about 12 years ago when a Japanese house approached the Ontario Soybean Grower's Marketing Board for a trial shipment to Japan. The trial worked out very well and in a short time Ontario's soybean exports became a multi-million dollar business. Ontario soybeans are very clean, the quality is comparable to Japanese and Chinese soybeans, and the supply is consistent. However the price is high in relation to Chinese and U.S. soybeans. As a result, Ontario soybeans are sold in high-priced markets, as for making premium quality miso or soyamilk. The supply of Chinese soybeans is irregular. Address: Manager, Grain Trading Section, Okura & Co. America Ltd., New York, NY.

6537. Wang, Hwa L. 1984. Tofu and tempeh as potential protein sources in the Western diet. *J. of the American Oil Chemists' Society* 61(3):528-34. March. [22 ref]
• ***Summary:*** Contents: Abstract (uses the word "soybean foods" several times). Introduction. Traditional soybean foods. Trends in market growth for tofu and tempeh (based on statistics gathered by Shurtleff & Aoyagi of The Soyfoods Center in California, 1983). Tofu. Tempeh.

Traditional soybean foods can be classified as either nonfermented or fermented. Tables show: (1) Oriental nonfermented soybean foods (gives food name, local names, description, uses): Fresh green soybeans (local names: mao-tou, edamame). Soybean sprouts (huang-tou-ya, daizu no moyashi). Soybean milk (tou-chiang). Protein-lipid film (tou-fu-pi, yuba). Soybean curd (tofu, tou-fu, tubu, tahoo, touhu, tau-foo, dou-fu, dau-fu). Soybean flour (tou-fen, kinako) (Wang 1983).

(2) Oriental fermented soybean foods (gives food name, local names, microorganisms used, substrate, nature of product): Soy sauce (local names: chiang-yu, shoyu, toyo, kanjang, ketjap, see-iu). Miso (chiang, doenjang, soybean paste). Hamanatto [fermented black soybeans] (tou-shih, tao-si, tao-tjo [sic]). Sufu (fu-ru, fu-ju, tou-fu-ju, bean cake, Chinese cheese). Tempeh (tempe kedelee). Natto.

(3) Tofu industry in the United States (No. of manufacturers and annual production in 1975, 1979, 1981, 1982, and 1983).

(4) Soybean solids and proteins in soybean soak water as affected by soaking conditions (temperature vs. time; Lowry protein / Lowry's protein). (5) Ratio of protein to oil content of tofu and soy milk as affected by protein content of soybeans (for different soybean varieties; the highest ratios come from the varieties Wase-Kogane, Vinton, Toyosuzu, and Coles).

Figures: (1) Flow diagram for the preparation of tofu. (2) Graph: In vitro digestibility of soybean milk as affected by the duration of boiling. Best digestibility is 12-14 minutes. (3) Four graphs: Relationship of concentration and type of coagulant to the yield of tofu. Coagulants are calcium sulfate, calcium chloride, magnesium sulfate, and magnesium chloride. The 4 graphs are: Gross weight of tofu. Moisture content. Total solids recovery. Nitrogen recovery. Calcium sulfate gives the highest values on all four graphs. (4) Four graphs: Relationship of concentration and type of coagulant to the texture characteristics of tofu. Same coagulants. The four graphs are: Hardness. Brittleness. Cohesiveness. Elasticity. (5) Flow diagram for tempeh fermentation. Address: NRRC, ARS, USDA, Peoria, Illinois 61604.

6538. Wernham, Les. 1984. Exports–Problems and opportunities [for Canadian soybeans]. In: Ontario Soya-Bean Growers' Marketing Board. ed. 1984. Ontario Soybean Symposium. Chatham, Ontario, Canada: OSGMB. 319 p. See p. 246-53.
• ***Summary:*** Soybean exports from Ontario have expanded dramatically during the past 10 years; in 1982 they reached a high of 132,000 tonnes worth $44 million. The East Asian market including Japan, Korea, Hong Kong, and Malaysia accounted for 81% of Ontario's export soybean sales in 1983, with an additional 8% going to Europe. The main buyers in 1982 were: Japan 47,414 tonnes, Netherlands 19,545 tonnes, Singapore 18,039 tonnes, Indonesia 16,652 tonnes, Hong Kong 15,234 tonnes.

Most of these soybeans are sold for human consumption. "For example, one of Sweden's foremost pharmaceutical manufacturers has in the past years been that country's largest single importer of Canadian soybeans. Taking about 3,000 tons annually, this company produced a patented intravenous nourishment called Intralipid." Tiny soybeans (5 mm diameter or less) are used to make bean sprouts and natto. For soybean exports, freight constitutes an average 21% of the net delivered cost to the buyer in his country. They are shipped in bagged or bulk (20 or 40 foot) containers. The main focus of breeding should be to develop varieties that do not carry a common bitterness or beany flavor. Address: Grain Manager, King Grain, Chatham, ONT, Canada.

6539. White Wave Inc. 1984. Order form and list of products. 1990 North 57th Court, Boulder, CO 80301. 1 p. March.
• ***Summary:*** Soyfoods include: Bulk tofu (hard or soft). Packaged tofu (hard or soft). Savory baked tofu. Soysage (1 lb. or ½ lb.). Tempeh burgers (bulk or packaged). Tempeh (soy, soy rice, or five grain). Polar bean (soy ice cream, 1 pint; carob mint, strawberry, chocolate, vanilla, and mocha).

The company also makes various nut and seed butters. Address: Boulder, Colorado. Phone: (303) 443-3470 or 3485.

6540. **Product Name:** [Tofu].
Foreign Name: Tofu (Proteina Vegetal de Soja) or Requeson de Soja.
Manufacturer's Name: Zuaitzo.
Manufacturer's Address: Calle Diputacion 5* Piso, Calle Correria 39 Bajo, 01001 Vitoria-Gasteiz, Spain. Phone: 945/28 86 30.
Date of Introduction: 1984. March.
Ingredients: Spanish-grown soybeans [habas de soja], water, and magnesium from the sea [magnesio marino].
New Product–Documentation: Dear clients. 1985. May 1. Letter from Zuaitzo to clients introducing tofu and seitan. Soya Bluebook. 1985. p. 83, 101. Letter from Javier Arocena on letterhead. 1986. Sept. 10. "I've been working in the last four years making tofu, seitan, and tempeh, in a craftsman way, in the north of Spain, in the Basque country." Label. 1984, undated. 4.75 by 2.5 inches. Self adhesive. Green, yellow, and black on white. Illustration of birds

• ***Summary:*** Contains 5 recipes from the New England Soy Dairy.

6542. Miller, Jim. 1984. Soy Deli cases in Raley's and Safeway. Fermented tofu must be refrigerated (Interview). *SoyaScan Notes*. April 11. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** The first soy deli cases went into Raley's supers in Reno, Nevada, and Sacramento, California, on 16-17 May 1983. Raley's has now dropped the coolers, but integrated the soyfoods in with their other products in the natural foods section of the store. Safeway is keeping the coolers. A new area of interest is high-volume natural foods stores and co-ops. In March the Puget Consumers Co-op in Seattle, Washington, and the Arcata Co-op in Arcata, California, each took a cooler.

Quong Hop's fermented tofu now retails for $1.75 per pint (16 oz.).

Starting about a year ago, the California state Board of Health required Quong Hop to ship and sell all of its fermented tofu refrigerated. This ruling applies to any fermented tofu made in the USA because the manufacturing process does not conform to cannery standards which are designed to prevent botulism; under extreme conditions botulism spores grew out on furu. Yet imported fermented tofu is not under this regulation because, it is believed, that its overall medium of salt and alcohol acts to prevent botulism.

Miller estimates that 500,000 lb/year is imported. The imported product retails on average for $1.30/lb. Address: V.P. Marketing & Personnel, Quong Hop & Co., 161 Beacon St., South San Francisco, California 94080. Phone: 415-873-4444 or 761-2022.

6543. Simpson, Rita J. 1984. Re: 1982 statistics on production of soybean-based products in Tetra Brik packages. Letter to William Shurtleff at Soyfoods Center, April 18. 1 p. Typed, with signature on letterhead.
• ***Summary:*** The products include plain and flavored soybean milk, plus tofu (million liters): Japan 51.0, Hong Kong 15.0, Malaysia 11.5, Korea 7.0, Thailand 4.0, Singapore 2.5.

"Our international office is aware of your need for the 1983 statistics and I will forward them when received." Address: Vice President, Information, Brik Pak Inc., P.O. Box 802605, Dallas, Texas 75380. Phone: 214 934-0338.

• ***Summary:*** "In 1972, while searching for a milk substitute for desserts, pastries, pies and sauces, David Mintz 'discovered' the soy bean product [tofu]." In September 1981 Tofu Time Inc. was founded and on 8 December 1983 it went public. Apparently Tofu Time's first news release. Address: New York.

6545. Lewis, Joseph. 1984. Soymilk and soyfoods in Canada (Interview). *SoyaScan Notes*. April 27. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Use of the word "soymilk" has been legalized in Canada, but users are not allowed to state that it is free of cholesterol or lactose. Joe will send details in a letter.

The key to getting permission from the Canadian government was to show that the word "soymilk" existed before 1922. Joe will send soymilk patents issued before 1922.

Dr. John Demann is one of the world's foremost authorities on soyfoods. He works closely with Victory Foods and was the keynote speaker at a recent soy symposium in London, Ontario.

In March 1984 there was a super soybean symposium in Canada; Joe will photocopy and send the proceedings.

The single best source of historical material on soy in Canada is the National Archives in Ottawa. It is all on computer going back to the 1920s. He thinks one could find 50 pounds of historical material.

Tofu Products International in Markham, Canada, makes very dirty [unsanitary] tofu; many cakes are also underweight. Its a bad company, is ruining the tofu industry in Canada, and seems to exist only for quick profits. Address:

6546. Richard-Jackson, Jerri. 1984. Re: Introducing Soyplant's new management. Letter to "Dear customer," April 27. 1 p. Typed, without signature on letterhead.
• ***Summary:*** "I'd like to take this opportunity to introduce our new management staff: Jerri Richards-Jackson–General manager. Darcy Clift-Coon–Office coordinator. Kim Spector–Accounts payable/receivable. Dan Ecclestone–Sales and marketing representative.

Note: The top two people are women. Address: The Soyplant, 711 Airport Blvd., Suite #1, Ann Arbor, Michigan 48104. Phone: (313) 663-8638.

6547. Rubenstein (Howard J.) Associates, Inc. 1984. Tofutti: The guilt-free 'ice cream' (News release). New York. 1 p. April 27.
• ***Summary:*** "Tofutti, the nondairy frozen dessert, is made with tofu and has no cholesterol, no milk, no butterfat and only 32 calories per ounce... Tofutti consists of pasteurized tofu dessert base (water, high fructose, corn sweeteners [sic], honey, soybean oil, tofu and isolated soy protein), assorted natural flavorings, and vegetable gums... It comes in six flavors." Address: New York.

6548. Rubenstein (Howard J.) Associates, Inc. 1984. Tofutti in bulk-pack available nationwide (News release). New York. 2 p. April 27.
• ***Summary:*** "Tofutti, the nondairy soy-based frozen dessert, is now available hard-frozen in 2½ gallon bulk pack containers to restaurants and food service establishments nationwide... The first five bulk pack flavors are Vanilla Almond Bark, Chocolate Supreme, Maple Walnut and Wildberry Supreme.

"Tofutti, which is made with tofu, is similar to ice cream but contains no cholesterol, no lactose and no butterfat. Its ingredients are water, high fructose, corn sweeteners [sic], honey, corn oil, tofu, isolated soy protein, assorted natural flavors and vegetable gums.

"Tofutti has been available in soft-serve form since 1981 through distributors in New York, Hawaii, California, Florida, Washington, D.C., Oregon, Washington, Idaho, Arizona, New Mexico, Texas, Nevada, Utah and Canada.

"Sold in a liquid mix, retailers then dispense it through a soft-serve frozen dessert machine in any one of six soft-serve flavors: Vanilla, Chocolate, Strawberry, Maple Walnut, Banana Pecan and Peanut Butter."

Then discusses the effects of cholesterol on heart disease, and lactose intolerance–which afflicts approximately 40 million Americans. Address: New York.

6549. **Product Name:** Bean Supreme Tofu [Bulk, or Vacuum Pack].
Manufacturer's Name: Bean Supreme Soyfoods.
Manufacturer's Address: P.O. Box 78-084, 1 Wallingford St., Grey Lynn, Auckland, New Zealand. Phone: 09-764-988.
Date of Introduction: 1984. April.
Ingredients: Whole soybeans, water, natural coagulant.
Wt/Vol., Packaging, Price: Bulk, or 250 gm vacuum pack.
How Stored: Refrigerated.
Nutrition: Per 100 gm: Calories 121, moisture 76.9 gm, protein 12.0 gm, carbohydrate 3.4 gm, fat 6.7 gm, ash 1 gm, sodium 3.3 mg, calcium 170 mg.
New Product–Documentation: Poster. 1986. Letter from Alan Tam. 1986. Nov. 18. Bean Supreme makes about 1,000 to 1,500 lb/week of tofu. Form filled out by Trevor Johnston, Marketing Director. 1989. April. The company started producing soyfoods in April 1984, and fresh bulk tofu was their first product. In Aug. 1984 they started vacuum pack tofu. They presently make 3,000 lb/month of the former and 7,000 lb/month of the latter. "Tofu is still growing, albeit slowly." The company is now Bean Supreme Ltd., Hugo Johnson Drive (P.O. Box 78-084), Penrose, Auckland, New Zealand. Phone: (09) 590 592. They are also involved with Bio Farm, Ro Quark, Spiral Foods, and Musashi. They also distribute other small manufacturers' products and import from Muso-Osaka.

Label for Bean Supreme Tofu, Firm Style. 1989. 6 by 7 inches. Purple and white on clear plastic bag. "High protein. Cholesterol and lactose free." Suggested uses: "Mash with seasoning to resemble cottage cheese. As a base for blended dressings or dips. Slice and marinate to fry or broil. Add to casseroles or savoury loaf, low calorie fruit whip, homemade ice cream or cheesecake. For recipe leaflet send stamped envelop to address below."

In about Feb. 1990 the company changed its name from "Bean Supreme" to "Down to Earth Natural Products Ltd." Bean Supreme will remain as a brand name for their existing and expanding range of traditional soy products.

6550. Cusumano, Camille. 1984. Tofu, tempeh, & other soy delights: Enjoying traditional Oriental soyfoods in American-style cuisine. Emmaus, Pennsylvania: Rodale Press. x + 261 p. Illust. Index. April. 23 x 20 cm.
• ***Summary:*** Each chapter on a specific food describes (with illustrations and nutritional information) how to prepare that food at home, followed by many recipes. Contents: 1. The coming age of soyfoods cuisine. 2. Tofu 3. Tempeh. 4. Soymilk. 5. Japanese soyfoods. 6. Whole dry soybeans. 7. Fresh green soybeans. 8. Soy sprouts. 9. Soy flour and soy grits. 10. Soy sauces. 11. The soyfoods pantry.

Scattered throughout the books are 1-page descriptions of various American soyfoods companies, each accompanied by a black-and-white photo. Photos show: Greg Weaver and two other workers at The Lotus Cafe, Rochester, New York (p. 83). Sharon Rose of Brightsong Light Foods, Petaluma,

California (p. 142). Steve and Sara Yurman of The Soy Shop, Atlanta, Georgia (p. 169). A craftsman cutting tofu at Tomsun Foods, Greenfield, Massachusetts (p. 195). Toby Alves of Blair Island Natural Foods Restaurant, Eugene, Oregon. A worker making brown rice and tofu sandwiches at Wildwood Natural Foods, Fairfax, California (p. 235). The company is owned by Bill Bramblett, Paul Orbuch, and Frank Rosenmayer.

Note: As of Sept. 1989 some 25,688 copies of this book had been sold by Rodale Press. It was sold out and will not be reprinted. Address: Rodale Press, Emmaus, Pennsylvania.

6551. Leviton, Richard. 1984. Japanese soyfoods. In: Camille Cusumano. 1984. Tofu, Tempeh, & Other Soy Delights. Emmaus, Pennsylvania: Rodale Press. x + 261 p. See p. 144-49.
• ***Summary:*** Contents: Brief biography of Leviton and introduction. Deep-fried and grilled tofu treats: age, atsuage, ganmo, yaki-dofu, doufu-gan. Tofu haute cuisine (at 280-year-old Sasa-no-Yuki in Tokyo, dried-frozen tofu, wine-fermented tofu). Delights of soymilk and yuba (incl. Yuba Han). Natto, miso, and savory soy condiments (incl. Hamanatto or "savory fermented black soybeans," thua nao from Thailand, and natto miso). And still more: Cooked soybeans with wakame, "soy sprouts packed in a sausagelike clear tube, green soybeans in the pods, *kinako* powder (a flour made from dry roasted soybeans, used as a basis for confections or nut butters), freeze-dried instant miso soup powder, instant silken tofu powder (just add water and stir), and dry meat sauces for tofu." Address: 100 Heath Rd., Colrain, Massachusetts 01340. Phone: 413-624-5591.

6552. Shurtleff, William; Aoyagi, Akiko. 1984. Soyfoods industry and market: Directory and databook 1984. 4th ed. Lafayette, California: Soyfoods Center. 203 p. April. 28 cm. [325 ref]
• ***Summary:*** Traditional soyfoods, which include tofu, tempeh, soymilk. miso, soy sprouts, soynuts and soy sauce accounted for $465 million in annual domestic retail sales. High-tech, modern soy protein foods, which include soy flour and grits, soy protein isolates and concentrates, extrusion textured soy flour and meat analogs, totaled $501 million. When the two sectors are tallied together, Americans spent $966 million in 1984 for soyfoods... not including soy oil or exported products. Address: Soyfoods Center, P.O. Box 234, Lafayette, California 94549.

6553. **Product Name:** [Tofu: Pressed Soya Protein].
Foreign Name: Tofu: Gepresstes Sojaeiweiss.
Manufacturer's Name: Sojarei Ebner-Prosl.
Manufacturer's Address: Augasse 2, A-2500 Baden bei Wien, Austria. Phone: 02252/85101.
Date of Introduction: 1984. April.
Ingredients: Soybeans (from controlled cultivation), water, nigari as a coagulant (Bittersalz als Gerinnungsmittel).
How Stored: Refrigerated.
New Product–Documentation: Letters from Norbert Brunthaler of Sojvita. 1988. Jan. 4 and Feb. 2. Brochure, received 1989. Oct. 12. "Tofu aus der Sojarei." The company sells many fresh soy products, mostly made from tofu. Label, received 1989. Oct. Red, black, green, and white on yellowish orange. 1.75 by 3.75 inches. For frying, baking, or grilling in soups, sauces or sandwiches. Made purely from plants (rein pflanzlich), of high quality. Without chemical preservatives, artificial colorings or flavorings. Logo is a green soybean plant against a white circular background.

In the company's Jan. 1989 catalog this product is called Tofu Natur, is made from organically grown soybeans (With Erntedank certification from Purity Foods, Okemos, Michigan), and sells retail in 250 gm, 500 gm, and 100 gm weights. It is also sold to food processors in 1 kg, 30 kg, 60 kg, 100 kg, and 200 kg weights.

6554. **Product Name:** [Marinated Tofu: Pressed soy protein in a seasoned marinade].
Foreign Name: Tofu Mariniert (gepresstes Sojaeiweiss in pikanter Marinade).
Manufacturer's Name: Sojarei Ebner-Prosl.
Manufacturer's Address: Augasse 2, A-2500 Baden bei Wien, Austria. Phone: 02252/85101.
Date of Introduction: 1984. April.
Ingredients: Soybeans (from controlled cultivation), water, tamari (natural soy sauce), herbs, spices.
How Stored: Refrigerated.
New Product–Documentation: Brochure sent by Sojarei Ebner-Prosl. 1989. Oct. 12. "Fresh products." Label, received 1989. Oct. Red, black, green, and white on yellowish orange. 1.75 by 3.75 inches. For frying, baking, or grilling in soups, sauces or sandwiches. Made purely from plants (rein pflanzlich), of high quality. Without chemical preservatives, artificial colorings or flavorings. Logo is a green soybean plant against a white circular background. The term "aus kontrolliertem Anbau" (from controlled cultivation) refers to a loosely defined type of organically grown crop.

In the company's Jan. 1989 catalog this product is called Tofu Mariniert, is precooked, and sells retail in 150 gm, or 1,000 gm, weights. Each piece weighs about 80 gm. It is also sold to food processors in 1 kg, 30 kg, 60 kg, 100 kg, and 200 kg weights.

6555. **Product Name:** [Tofu & Vegetable Patty].
Foreign Name: Soja-Getreide-Laibchen.
Manufacturer's Name: Sojarei Ebner-Prosl.
Manufacturer's Address: Augasse 2, A-2500 Baden bei Wien, Austria. Phone: 02252/85101.
Date of Introduction: 1984. April.
Ingredients: Soybeans, millet, rolled oats (from controlled

© Copyright Soyinfo Center 2013

cultivation), whole wheat flour, vegetables, herbal salt, herbs, spices.
How Stored: Refrigerated.
New Product–Documentation: Label, received 1989. Oct. Red, black, green, and white on yellowish orange. 1.75 by 3.75 inches. Made purely from plants (rein pflanzlich), of high quality. Without chemical preservatives, artificial colorings or flavorings. Logo is a green soybean plant against a white circular background. Note that ingredients are the same as for the Tofu Burger.

Talk with woman at Austrian consulate. 1989. Nov. 6. Laibchen is a uniquely Austrian term that means "patty." Most laibchen, called *Faschiertes Laibchen*, are made with ground beef, ground pork, fried onions and parsley, 1 egg, marjoram, thyme, salt and pepper. Add bread crumbs until firm, shape into a patty, score the top in a crisscross pattern with a knife, and pan-fry in oil on both sides. Potato laibchen are also quite popular.

Talk with Guenter Ebner of Sojarei Ebner-Prosl. 1990. May 28. These patties are made with tofu. At the time they were introduced "tofu" was not a legitimate term to use in ingredient listings.

6556. **Product Name:** [Herb Tofu: Spread with Herbs].
Foreign Name: Kraeuter-Tofu: Aufstrich mit Kraeutern.
Manufacturer's Name: Sojarei Ebner-Prosl.
Manufacturer's Address: Augasse 2, A-2500 Baden bei Wien, Austria. Phone: 02252/85101.
Date of Introduction: 1984. April.
Ingredients: Tofu, Reform margarine, salt, spices, seasonal cooking herbs, yeast.
Wt/Vol., Packaging, Price: 125 gm.
How Stored: Refrigerated.
New Product–Documentation: Label, received 1989. Oct. Red, black, green, and white on yellowish orange. 3.5 by 3 inches. Self adhesive. Logo is a green soybean plant against a white circular background. In the company's Jan. 1989 catalog this product is called Tofu-Kräuteraufstrich, is described as mild fresh spread for bread with fresh herbs, and sells retail in 125 gm, or 1,000 gm weights.

• ***Summary:*** New York–This is about fashion model Connie Cook, who is always on the go. Starting at 9:20 in the morning, her day ended at 11:30 p.m. with a fitting session at Arnold Scaasi's studio on Fifth Avenue.

"'Once I get there he doesn't let me stop for food,' Cook said over a Japanese dinner of grilled bean curd, sushi and two Kirin beers, before the Scaasi appointment."

6561. Mjeda, Luka. 1984. Soyfoods and vegetarianism in Yugoslavia (Interview). *SoyaScan Notes.* May 6. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Luka, who is a vegetarian, has arranged for a translation of *The Book of Tofu* by Shurtleff and Aoyagi into Yugoslavian. There is a good book on vegetarian cooking in Yugoslavia written by Ljubo Grubor of Zagreb. About the only soy products available in Yugoslavian food stores are whole soybeans. There are about 120 natural food stores in the country, mostly in the western part. They sell herbs, cheeses, milk, and honey. He has never heard of TVP, or of the use of soy flour in bread. Yugoslavia is the most liberal and capitalistic country in Eastern Europe. There is a lot of self-management. In 1951 the first factory was given to the workers and in 1953 all factories were given to the workers. Address: Photographer-Journalist, Skokov Prilaz 2, 41020 Zagreb, Yugoslavia. Phone: 041/672-393.

6563. Brown, Paul B. 1984. Mixing *fleishig* and Tofutti. *Forbes* 133:82. May 7.
• ***Summary:*** The story of Tofutti and David Mintz. His contract dairy in Long Valley, New Jersey, fills 2,000 one-gallon containers an hour, five days a week. Mintz says it took him ten years to perfect Tofutti. He watched thousands of batches go down the drain. "I am personally responsible for clogging up the sewers of New York." He formed Tofu Time Inc. in August 1981. It went public in December 1983 at 5 3/4 a share and recently traded at 12 5/8. Mintz owns 61% of the 1,714,700 outstanding shares.

"Tofu has no particular taste of its own and, in Asian dishes, its gelatin-like texture offends many Westerners." Yet the market for tofu in America is growing rapidly. "Consultants for Frost & Sullivan project that the market for tofu in the U.S., $55 million in 1981, will reach $98 million by 1987. But others a re aware of the fast-growing popularity of tofu too. Del Monte, a subsidiary of R.J. Reynolds, Beatrice Foods, Dannon, and Kraft are all reportedly looking at the market." Mintz is not concerned.

A photo shows Tofu Time chairman David Mintz with a Tofutti ice cream cone. The caption: "Is America ready for tofu-based dessert?"

6568. Singh, Minu. 1984. Kinema and other soyfoods in Nepal (Interview). Conducted by William Shurtleff of Soyfoods Center, May 25. 2 p. transcript.
• ***Summary:*** The name of this fermented soyfood is kinema or kinima (not kenima); it is usually pronounced kee-NAY-muh. The food is most widely consumed in Darjeeling which is now in West Bengal, India (but was formerly part of Nepal) and in southern Nepal. Typical Nepalis who speak Hindi do not know this food, nor is it known in Kathmandu. It is used mostly by non-Brahmins and it has a very strong flavor and smell; she did not like it. She knows how to make kinema because a friend used to make it at her home. Boil soybeans for about 2 hours (in Nepal mostly black soybeans, and in Darjeeling some yellow soybeans are used). Pour the cooked soybeans into banana leaves, cover very tightly, put into a paper bag, then put in a warm place for 5 days. No inoculant was used and at the end of the 5 days she recalls that it "smelled terrible." Wash the kinema then cook it with tomatoes, ginger and garlic. After cooking it did not smell so bad.

Note: This is the earliest document seen (Oct. 2010) that uses the word "kinima" to refer to kinema, a fermented soyfood from Nepal and a close relative of Nepalese kinema and Japanese natto.

In Nepal, green vegetable soybeans are called *hariyo bhatmas* (*hariyo* means "green" and *bhatmas* is the Nepali word for soybean). They are consumed all over Nepal, boiled in the pods, then the green beans are removed and eaten as is with a little salt as a snack; sometimes they are seasoned with black pepper or hot chili, and sometimes they are used in a curry with potatoes. Whole dry soybeans are soaked overnight then cooked with potatoes.

She worked with the Peace Corps for 9 years as a language coordinator. In about 1980 she worked on a project with the Peace Corps making roasted soy flour at a Nepal maternity home. They called it Poshilo Bito ("Nutrition Flour"). They would mix dry soybeans with some corn, barley and wheat. Roast the mixture, grind it, put it in packets, and distribute it free of charge to the poor and to hospitals. She also taught these people how to make it. To prepare: Mix the flour with boiling milk or water. Address: 2708 Virginia St., Berkeley, California 94709. Phone: 415-848-1481.

in Japan (Interview). Conducted by William Shurtleff of Soyfoods Center, May 25. 4 p. transcript.
• ***Summary:*** This interview, conducted during a visit by Mrs. Torii to Soyfoods Center in Lafayette, California, discusses: Marukin Shokuhin Kogyo in Kumamoto city, Japan, Mr. Goro Kanasugi, the recent start of production of tempeh starter in Japan, tempeh made by Takashin / Takato, René Breuls, sales outlets for tempeh in Japan, Marusan-Ai in Okazaki, update on Torigoe, soybeans in Indonesia, symposium at Tsukuba (Japan) on tempeh and natto, Japan Tempeh Research Society (*Tenpe Kenkyukai*, Korin Shuppan KK, Iriya 1-27-4, Taito-ku, Tokyo), Okinawa fermented tofu (*tofuyo*), Yamagata no Shojin Bushi (dried tofu that is shaved like katsuobushi). Address: Kamitsuchidana 324, Ayase-shi, Kanagawa-ken 252, Japan. Phone: 0467-76-0811.

6570. Hamlin, Suzanne. 1984. Tofu is a food for the health-minded. *Hartford Courant* (*Connecticut*). May 27. p. P15, or Q15.
• ***Summary:*** A charming, humorous, perceptive article. "In China not knowing tofu would be comparable to not knowing Chinese." The delicate white curd is pressed into cakes which look like big bars of Ivory soap. In American it is also called bean curd; the Chinese name is dow foo. "Tofu is about as healthy as you can get without signing up for an aerobics course." The definitive book on the tofu (pronounced TOE-foo) is *The Book of Tofu*, by William Shurtleff and Akiko Aoyagi. It is "earnest, elaborate and scholarly. The Shurtleffs, who are Californians, are the gurus of tofu."

6571. **Product Name:** [Smoked Tofu].
Foreign Name: Tofu–Geraeuchert.
Manufacturer's Name: Albert Hess Tofuhaus Rittersheim.
Manufacturer's Address: Hauptstrasse, D-6719 Rittersheim, West Germany. Phone: 06351-43718.
Date of Introduction: 1984. May.
Ingredients: Tofu, soy sauce, sea salt.
Wt/Vol., Packaging, Price: 250 gm vacuum pack.
How Stored: Refrigerated.
New Product–Documentation: Form filled out by Albert Hess. 1988. Jan. 25. Production began June 1983. He makes 1,000 kg/month of the smoked tofu. Leaflet. 1988. "Tofu is marinated for about 8 hours in soy sauce ("Shoyusauce") and then cold smoked for 12 hours. For smoking, we use only natural beech wood and herbs." Form filled out by Albert Hess. 1988. Dec. 1. This product was introduced in May 1984. Label. 1988, received. 2.5 by 3.5 inches. Self adhesive. Black on green.

Label brought by Albert Hess of Albert's Tofuhaus. 1995. March 11. 2.5 by 4 inches. White and black on green. An illustration shows a large personified cake of tofu, with smiling face and arms held out.

6573. Frost & Sullivan Inc. 1984. Imitation and substitute foods. 106 Fulton St., New York, NY 10038. 291 p. $1,400. *
• ***Summary:*** Review in Chain Marketing & Management Newsletter: "Another item expected to grow substantially in the coming years is tofu–soybean curd. Until recently tofu was sold only in health food stores but now it has appeared in supermarket chains. In the last two years it has been used to formulate an ice cream substitute which has attracted the attention of several major food processors. Its health benefits and ease of cooking, along with its low cost should help tofu sales grow from $50 million at retail in 1982 to about $200 million by 1988. The report speculates that the growth of tofu in the coming years will be comparable to the growth yogurt experienced a number of years ago." Address: New York. Phone: 212-233-1080.

• ***Summary:*** "An expanded version of the following letter was sent recently to Jim Henson, creator of the Muppets at the Children's Television Workshop:

"Dear Sesame Street family–As a physician practicing preventive health care, it has become evident to me that many people, and especially children, could do much to improve their present health and their future prospect for a long and illness-free life, by changing their dietary habits. Since Sesame Street has achieved such marvelous success in facilitation of learning basic skills in a medium filled with humor, gentleness, and love, it would indeed be a wondrous accomplishment to also help young people to learn principles of food selection based on caring for themselves and others,

© Copyright Soyinfo Center 2013

rather than merely on taste gratification and advertising pressures.

"Introduction of foods, such as tofu and tahini, that can serve as healthful and humane alternatives to animal foods, could probably be more effectively done by Big Bird or Bert or Ernie than by any dietitian (or doctor). Since many of your characters are animals themselves, sparing the lives of other animals would be a cause for rejoicing. The health advantages of a vegetarian diet, including reduced risk of vascular disease and cancer, are well documented, but I would be more than happy to assist you and/or advise your staff on any scientific or medical matters related to this project." Address: M.D., Umatilla, Florida.

Analytical methods: Density and weight of one thousand seeds, determination of chemical composition, isolation and identification of protein fractions, determination of bean curd yield. Results. Discussion. Address: 1-2. Xian Oils and Fats Science Research Inst., Ministry of Commerce; 3-4. Academia Sinica.

6577. Obis, Paul. 1984. Getting physical: Hollywood hopeful leaves the high life behind. *Vegetarian Times.* May. p. 31-34.
• ***Summary:*** A cover story about Marcelyn Anne [Spice] Williams, age 31, who is a vegan. Contains a good life history. At age 19, the victim of a car accident, she began taking analgesics (pain relievers) to ease her physical pain. At the time she was working in a hospital and drugs were easy to get. Later, when her career as a singer took off, she found herself on the road, where recreational drugs became part of the scene. With her twin sister, Jackie, she performed in the popular group "Sugar and Spice." It was life in the fast lane, fueled by fast food, hard drugs, and alcohol. She almost died three times, and several friends of her *did* die. One day, to try to relieve her chronic headaches and back pain, she went to see Dr. Armand Gilbo, a practicing chiropractor and kinesiologist. After 14 visits, the chronic pains were gone. Then he recommended a detoxification program for her, called the Sonnes' program. It was a 7-day fast with herbs and a colonic (a sort of enema). She tried it and felt great afterwards. She began to notice bodily improvements. Her hair became fuller and her eyes and skin noticeably clearer. She had more energy and felt better. The switch to a vegetarian diet soon followed. Then she decided to end her career as a singer on the road. She decided to pursue a career in acting and moved to Los Angeles, California. To support herself, she worked as a song writer for 20th Century Records. Meanwhile, she continued to work out at a gym near her home. Soon she became a wrestler and was given a role (doing her own stunts) in *The Devlin Connection,* with Rock Hudson. Now she also has a sideline career as a nutrition and exercise counselor. She believes in food combining and likes tofu for dinner.

• ***Summary:*** "Healthy foods" include amaranth, soybean products (like tofu and miso), and yogurt.

6579. Schmidt, R.H.; Morris, H.A. 1984. Gelation properties of milk proteins, soy proteins, and blended protein systems. *Food Technology* 38(5):85-88, 90, 92-94, 96. May. [91 ref]
• ***Summary:*** Special attention is given to the chemistry of soy proteins and gelation reactions involving them for the production of tofu, sufu, cheese analogs, and yogurt-type products. Address: 1. Dep. of Food Science & Human Nutrition, Univ. of Florida, Gainesville, FL 32611; 2. Dep. of Food Science & Nutrition, Univ. of Minnesota, St. Paul, MN 55108.

6580. Soyfoods Center. 1984. Tempeh production in the USA (color slide show). P.O. Box 234, Lafayette, CA 94549. 77 slides. Narration with each set.
• ***Summary:*** Slide show (#5). A. The Soyfoods Center presents... B. Basic types of tempeh shops. C. Temperate climate dry dehull tempeh method. D. Temperate climate wet dehull tempeh method.

1. This sequence shows The Tempeh Works in Greenfield, Massachusetts, April 1980. The soybeans are dry dehulled without preheating or pre-grading. 2. Overview of the shop interior. 3. Ditto, with soaking vats in use. 4. Cooking soybeans in a steam-jacketed cooker. 5. Skimming off the hulls. 6. Running soybeans from cooker into sack in centrifuge. 7. Beans in sack in centrifuge. 8. Preparing to centrifuge beans. 9. Transferring centrifuges soybeans into inoculation container. 10. Inoculating the soybeans.

11. Mixing in inoculum by hand. 12. Scooping inoculated beans into pre-perforated polyethylene bags. 13. Weighing bags. 14. Another view of filling area. 15. Heat-sealing the bags. 16. Compacting beans and flattening bags. 17. Transferring bags on rolling rack into incubation room. 18. Bags on racks in incubation room. 19. Pressure steaming tempeh in bags; tempeh is distributed refrigerated, not frozen. 20. Wall mounted sanitation unit.

21. Making tempeh at Island Spring in Vashon, Washington state. The weighed soybeans are transferred into a used (inoperative) steam jacketed kettle used as a wash and rinse tank. 22. After washing and rinsing (but without soaking), the beans are dehulled in a tofu shop stone mill. 23. Then cooked and skim-dehulled in a steam jacketed kettle. 24. After being drained in the screen-bottom kettle, they are dewatered in a centrifuge. 25. Then put in a mixer

© Copyright Soyinfo Center 2013

with inoculum and mixed well. 26. The inoculated beans are placed 8 ounces at a time in polyethylene tofu tubs, packed by hand with a tamp.

27. Then placed on trays in a rolling rack in the tubs. 28. The mouth of each tub is covered with plastic film using a tofu packaging machine, perforated with an attachment on the machine. 29. As shown here. 30. The tubs filled with inoculated beans are placed on trays in a rolling rack and rolled into an 8-foot-cube incubation room. 31. After incubation the perforated top of each tub is covered with a label to close the perforations. 32. The finished tempeh and its package look like this.

33. Now we will visit Surata Soyfoods in Eugene, Oregon. The tempeh maker is Benjamin Hills. The soy beans are precooked in a large pot over a gas burner. 34. Then dehulled in a tofu shop stone mill. 35. After a second cooking they are drained in the pressing sack of a tofu hydraulic press, then pressed to dewater them. 36. Inoculated with starter. 37. Mixed well by hand. 38. Scooped in 8-ounce quantities into perforated Ziploc-type bags. 39. Which are placed on bread racks. 40. And incubated in a large incubation room. 40A. Examining the finished tempeh. 40B. Freezing the tempeh for long distance distribution.

41. Tempeh Enterprises in Toronto, Ontario, Canada. The soaked beans are dehulled in a meat grinder with a special extruder blade attachment. 42. The cooker, specially designed, places the cooking pot on the stove then carries it later to the draining sink. 43. The hulls are skimmed off during cooking. 44. Ziploc-type bags are perforated using a sharpened screwdriver and a special grid set over an opened drawer.

45. The beans are weighed into perforated bags in 16-ounce quantities. 46. Tamped firm. 47. And placed overhead on racks in an incubation room. 48. Each cake is cut into fourths. 49. For freezing, the cakes are placed between perforated racks to ensure air circulation. 50. These Coleman refrigerators, used to distributed refrigerated or frozen tempeh, plug into the cigarette lighter of a car.

51. At Northern Soy in Rochester, New York, the tempeh is frozen on these racks. 52. Finished tempeh made in a metal tray, from The Tempeh Works. 53. Tray tempeh being cut. 54. Freezing this tempeh. 55. A low-technology dry dehuller developed at the University of Illinois. 56. Another view. 57. Gale Randall's home tempeh incubator in Nebraska. 58. Bag tempeh. 59. Tray tempeh.

60. Making tempeh starter at Island Spring. A positive pressure hood with the hood down. 61. Inoculating rice (already pressure cooked in a Mason jar) under the hood. 62. Overview of positive pressure hood. 63. Pulverizing the starter in a blender. 64. Drawings of Rhizopus oligosporus by the Japanese scientist, Kendo SAITO, who named it in 1905. 65. The Rhizopus mycelium. 66. The Rhizopus sporangia. 67. Rhizopus after sporulation.

68. Living tempeh starter, made by GEM Cultures on nutrient agar in a petri dish. 69. Method for doing a viable spore count on tempeh starter (or transferring a pure culture). Pipetting a spore suspension or dilution into petri dish. 70. Adding nutrient agar. 71. Shaking all together. Address: Lafayette, California.

6581. **Product Name:** [Tofu].
Foreign Name: Tofu.
Manufacturer's Name: Tofukost-Werk TKW GmbH.
Manufacturer's Address: Siemensweg 1, D-4724 Wadersloh-Diestedde, West Germany. Phone: 02520-1300.
Date of Introduction: 1984. May.
Ingredients: Water, soybeans, calcium sulfate.
Wt/Vol., Packaging, Price: 250 gm vacuum packed in a colorful box (12 packs per 3 kg case), or 2,500 gm, vacuum packed.
How Stored: Refrigerated, 42 day shelf life at 8ºC.
Nutrition: Protein 12.1%, water 78.0%, fat 3.6%, pH 5.9, ash 0.6%, carbohydrate 0.7%, energy 83.4 calories/100 gm.
New Product–Documentation: Interview with Bernd Drosihn of Soyastern. 1987. Nov. 30. They make about 3,500 kg/week of tofu. Form filled out by Hermann Berief, owner. 1988. Jan. Lists 4 products. TKW color catalog. 1988. April. Note that they make a large weight, 5.5 lb/cake. The 250 gm box Label is shown. It is green, red, black, white, and yellow.

This 17-page catalog is one of the best seen to date for tofu products, and is unquestionably the most innovative in introducing tofu to foodservice organizations. On the color cover is a chef standing on a tofu rocket named "flat trajectory" but headed sharply upward. The cover text reads: "Neutral in taste. Low in Calories. Easily digested. Made purely from plants. Independent / self-reliant in taste. The delicious variety in a new food trend. You already know more about tofu."

Each product is given a full page, on which there is a color photo of the product, and the following information presented systematically: Product name, shelf life at a selected temperature, product weight, units per case, case weight, ingredients, product description and suggested uses, description of packaging, and nutritional analysis. Tofu companies, take note!

Label sent by TKW. 1988. Oct. 31. Introduction date given as May 1984. They must have bought this tofu from another company, then started to make their own in Oct. 1985. It is a stiff paper box. 4 by 4 by 2 inches deep. Green, yellow, red, and black with color photos on front (of cut tofu) and back (or 6 prepared recipes). Vacuum packed. Contains 4 recipes printed on sides.

Recipe booklet "Eine neue Esskultur." 1988, received. 6 panels. Green on yellow. Contains 8 recipes.

Letter from Anthony Marrese. 1990. March 22. Christian Nagel says they make calcium sulfate tofu and may be in trouble due to lower than expected sales.

Note: This is the earliest record seen (April 2001)

concerning TKW of West Germany.

6582. Toumbi, Bienvenu; Gomes, Joaquim Vincente. 1984. Etat de la question de l'implantation, du développement et de l'amélioration de la culture du soja en Afrique noire [State of the question of implantation, development, and improvement of soybean cultivation in black Africa]. Paris: Club de Dakar. 101 p. [148 ref. Fre]

• ***Summary:*** Contents: Acknowledgments. Outline of the report. Introduction: The world's major soybean producers 1979-1984 with production, area and yields (USA, Brazil, China, Argentina, Mexico), major soybean producers in Europe (USSR, Romania, Yugoslavia, Bulgaria). Part I: The implantation of soybean cultivation in black Africa. Zones of production: Nigeria, Zimbabwe. Zones of experimentation: Senegal, Cameroon (since 1924), Madagascar, Cote d'Ivoire (since 1974), Togo (since 1969), Benin (since 1969), Ghana (from 1909), Rwanda (from 1930), Upper Volta, Mali (from 1977), Gabon, Other (Guinea-Bissau, Central African Republic, Congo, Guinea, Ethiopia).

Part II: Development and improvement of soybean culture. Improvement–Contribution of the research centers and institutes (IRAT, IRHO, GERDAT): Localization of the regions adapted to soybean cultivation, varietal selection and inoculation. Development: Popularization of cultivation, products derived from soya, mechanization of cultivation (planting, harvest).

Part III: Socioeconomic aspects of the future of soy projects in Africa. The problems of supply: The peasants, the public powers. The markets for soya: For grain, for cake and meal, for oil, the world market for soy proteins (flours, soy concentrates, soy isolates, textured soy protein products), African markets for soya. Conclusion.

Appendixes. I. General information about soya: Cultivation, requirements of the plant (climate, water, soil, photoperiod), good for use in crop rotations. II. Techniques of inoculation. III. Products derived from soya. IV. Consumption of soya in traditional products: In Africa (Sumbala, faros or to de Soja, tofu, soy bread, soy as a condiment, roasted soya used as coffee in Madagascar), in Asia. V. Initials and abbreviations. Bibliography (extensive but incomplete references; country by country as follows): General (52 references). Africa (general; 3). Cameroun (24). Central Africa (1). Cote d'Ivoire (16). Gabon (3). Upper Volta [Burkina Faso] (4). Ethiopia (2). Madagascar (13). Mali (4). Senegal (20). Togo (6).

A map of Africa (p. 15) shows 4 types of nations: (1) Those now producing soybeans (mainly English-speaking countries such as Egypt, Nigeria, Zaire, Uganda, Burundi, Tanzania, Zambia, Zimbabwe, and South Africa); (2) Those now producing and experimenting with soybeans (Senegal, Guinea-Bissau, Cote d'Ivoire, Upper Volta, Cameroon, Gabon, Rwanda, etc.); (3) Those only experimenting with soybean cultivation (Mali, Guinea, Ghana, Togo, Benin, Ethiopia, Central Africa Republic, and Madagascar); and (4) Those apparently not either producing or experimenting with soybeans (Morocco, Algeria, Tunisia, Libya, Mauritania, Sierra Leone, Niger, Chad, Sudan, Djibouti, Somalia, Kenya, Malawi, Mozambique, Angola, Namibia, Botswana). Address: Université Paris X., Nanterre, France.

6583. **Product Name:** Tofu.
Manufacturer's Name: Traditional Foods Cooperative.
Manufacturer's Address: Route 1, Gays Mills, WI 54631.
Date of Introduction: 1984. May.
Wt/Vol., Packaging, Price: Bulk.
How Stored: Refrigerated.
New Product–Documentation: Talk with Liz Coleman of Traditional Foods. 1991. Nov. 25. This company was started as a home business by Bob Mandel and Cindy Wiar. Bob Ribbens has been with the cooperative since it started. They used to make tempeh, but it was not profitable. The company is now located in a bakery at P.O. Box 92 (Corner of Grove and North Railroad Streets), Gays Mills, WI 54631. Phone: 608-735-4711.

Talk with Mary Ruth of Traditional Foods. 1991. Nov. 25. The people who started the business named Traditional Foods, Bob and Cindy, started making and selling tempeh and tofu out of their home (located just outside of Gays Mills) in about 1984. They only sold the foods through their local co-op, The Kickapoo Exchange, in the little rural town of Gays Mills. In April 1989 Traditional Foods was formally incorporated into a cooperative (a legal form of corporation in Wisconsin) with the same name. Bob and Cindy put up a sign at the local co-op (where Cindy was manager) inviting interested people to a meeting; a group of co-op members formed and began to have meetings. Then, in Sept. 1989, the group found and bought a local commercial bakery named Wheat Heart Bakery, and moved the business out of Bob and Cindy's home into the bakery. Before this time, tempeh and tofu had been discontinued.

Talk with Cindy Wiar. 1991. Nov. 25 and 28, then 1992. Jan. 12. She and Bob started in about April 1984 making tofu at their home located on Route 1 outside of Gays Mills. They didn't have a phone, and they had no business name until the fall of 1986, when they started making tempeh and seitan. At that time they started calling their business "Traditional Foods" but it was not official or incorporated. They learned how to make the tofu from books by Shurtleff and Aoyagi. They made the tofu by hand, grinding the beans in a Corona hand mill and cooking on the kitchen stove. They sold the tofu in bulk (in a 5-gallon plastic pail without a label) to two retail stores: Oriental Market in La Crosse, Wisconsin, and to their local co-op, the Kickapoo Exchange in Gays Mills. They made about 150 cakes a week. They phased out tofu in the summer of 1989, after the new cooperative had been formed, because of their very low profit margins and time pressures to make the more profitable seitan and miso–which

© Copyright Soyinfo Center 2013

were being sold to warehouses and larger places. They intended to continue the tofu and tempeh later, but it has not yet happened.

Cindy is no longer associated with Traditional Foods; Bob works there 1 day a week making koji. After Bob passes on his knowledge of making koji, he plans to leave too. He now works the rest of the time on other people's farms. It was their dream to form a cooperative making these foods, but it didn't work out. The quality of the foods declined and the other members of the cooperative often just wanted a job, rather wanting to be owners of the business. There were endless problems and meetings. Cindy and Bob were put in a position of being the bosses, which they didn't want to be. By the summer of 1991 they realized they wanted to get out–but it still hurts.

Talk with Bob Mandel. 1992. Jan. 11. In Dec. 1988 there was meeting called to establish a co-op. In April 1989 they incorporated as a co-operative. In Aug. 1989 they purchased a commercial bakery.

6584. U.S. Food and Drug Administration, Center for Food Safety and Applied Nutrition, Retail Food Protection Branch. 1984. Definitions–Soy protein products considered to be potentially hazardous foods (Leaflet). In: Retail Food Protection: Program Information Manual. Washington, DC. Part 6–Inspection. Chap. 01–Code Interpretations. Number 1-102(q). 23 May 1984. [11 ref]
• ***Summary:*** "Question: Are tofu and other moist soy protein products considered to be 'potentially hazardous foods.' Discussion... In a recent survey of 60 tofu samples collected from retail stores, some samples had total counts of 10 million Colony Forming Units per gram (CFU/g) and psychrotrophic (cold-stimulated microorganism) counts of 10,000 CFU/g. Some samples also had coliform counts greater than 1000 CFU/g. Staphylococci were also isolated from tofu, but were not of the type commonly associated with foodborne illness (coagulase positive). Tofu has been implicated as the vehicle in one known outbreak of foodborne illness. In that instance, the pathogen was *Yersinia enterocolitica* which is known to grow even at refrigeration temperatures. Other studies clearly establish that moist soy protein products can support the rapid and progressive growth of *Clostridium perfrigens* and *Staphylococcus aureus.*"

Note: The applicable codes or sections to which the above interpretation applies are Section 1-102(q) of the 1982 Food Store Code (FST), and of the 1978 Food Vending Code (FVD) and of the 1976 Food Service Sanitation Code (FSV). Address: 200 C Street S.W., HFF-342, Washington, DC 20204. Phone: 202-485-0140.

6586. Worthington Foods, Inc. 1984. Worthington Foods has announced the launching of Natural Touch, an all new, all natural product line with "The taste nobody can touch" (News release). Worthington, Ohio. 2 p. May.
• ***Summary:*** Announces launch of Tofu Garden Patties and Okara Patties at Natural Foods Expo in Anaheim, California, in March. Address: Worthington, Ohio.

6587. Condé Nast. 1984. Tutti-frutti or tofu? The Condé Nast Package (Ad). *New York Times.* June 7. p. D21.
• ***Summary:*** Condé Nast is a worldwide magazine publishing company. This ad invites advertisements in fashion and lifestyle magazines (such as *Vogue, Glamour, Mademoiselle, Self*) published by Condé Nast. The ad reads:

"Although you may think of it as a side dish to a Japanese meal, tofu is becoming one of the hottest frozen desserts. Blended with fresh fruit juices, honey, and enriched with soy protein, tofu could give frozen yogurt some healthy competition. Especially since it is free of cholesterol and lactose, has no preservatives, and amounts to 32 calories per ounce.

"Who has a taste for frozen yogurt? The 26 million women whose food tastes are the most adventurous and experimental. The women of the Condé Nast Package."

6588. Gillingham, Karen. 1984. Tofu: Americanization of a soy food. *Los Angeles Times.* June 7. Food section (Part VIII). p. 1, 21, 22, 24. Thursday.
• ***Summary:*** A nice photo shows the inside of the Hinode plant, which turns out 130,000 lb/week of tofu using 180 bushels/day of soybeans in the state-of-the-art plant. Hinode was started here 35 years ago by Shoan Yamauchi and his wife, Shizuko. It merged earlier this year with a large Japanese-based food company. About 2 years ago pasteurization was introduced.

6589. Hansen, Barbara. 1984. Tofu. *Los Angeles Times.* June 7. Food section (Part VIII). p. 1, 9, 12, 14. Thursday.
• ***Summary:*** Don Bushman, American Soybean Assoc. director in Singapore, notes that the Asian soybean market is growing rapidly. "Indonesians consume about 1 million tons of soybeans annually, 60% to 65% of them in the form of tofu, and 35% to 40% as *tempe.* The fifth-largest nation in the world in terms of population, Indonesia imports 400,000 tons of soybeans a year, about 90% of them from the United States. Some 25,000 to 30,000 tons of soybeans

© Copyright Soyinfo Center 2013

are used annually for food in Malaysia, and 15,000 to 20,000 tons are imported to Singapore for food use, Bushman said. In Singapore and Malaysia, most of the tofu is made with Canadian beans, he added, explaining that Canada is able to deliver the beans at a lower cost. Thailand produces all of its food beans domestically and does not import additional supplies, Bushman said. However, the United States sends soy meal for animal feed to this and other Asian countries."

6590. Kira, Motoo. 1984. Re: History of Marukin Shokuhin's work with tempeh. Letter to William Shurtleff at Soyfoods Center, June 8. 5 p. Handwritten, with signature. [Jap; eng+]
• ***Summary:*** Marukin Foods: The first natto company to start large-scale production of tempeh in Japan was Marukin Shokuhin (Marukin Foods Industry Co. Ltd.). Located in Kumamoto, Kyushu (Japan's southernmost main island), they were (in 1984) one of Japan's Big Five natto manufacturers, and they also made several other foods such as roasted soy flour (kinako), tofu, and konnyaku. In about 1964 Mr. Hayashi of the Japanese-American Soybean Institute suggested that Marukin start to study tempeh. At that time Marukin was looking for a new product, so Mr. Haruo Kato (the brother of Marukin's president and chief of natto production, research, and development) began with great interest to collect material and investigate this little-known fermented soyfood. Kato obtained tempeh culture from an unknown source in 1964 and was soon making small batches of tempeh. However the company eventually came to believe (incorrectly) that tempeh culture could interfere with the natto fermentation, and taste tests of tempeh led Kato to feel that it might be difficult to introduce tempeh into Westernized diets in Japan. So interest in tempeh waned. In July 1982 Marukin and eleven other small- to medium-sized soyfoods manufacturers from throughout Kyushu joined to establish the Kyushu Soyfoods Industry Association (*Kyushu Daizu Shokuhin Kogyo Kumiai*). Marusan's president, Itsuo Kira, became head of the cooperative Association. To help them compete with larger companies, and supported by Japanese government aid, they built a large and modern factory (6,600 square meters), with a daily capacity of 15 tonnes of natto and 6 tonnes of kinako and soy soup base (*gojiru no moto*). In April 1983, this new natto factory, the largest in Japan, started production, employing 85 workers. Marukin decided to use its former natto factory to make tempeh, since there was a growing interest in soyfoods and healthful foods, and since they already had extensive experience in making fermented soyfoods. In November 1983 Marukin Foods launched SunSeed brand tempeh. An article on the product in the 1 December 1983 issue of the *Japan Food News* (*Nihon Shokuryo Shimbun / Shinbun*) was headlined "nonsticky natto" and by May 1984 they were selling 1,500 packs of 200 gm each (300 kg) daily, about 4,620 lb (2,100 kg) a week or 9,150 kg a month. They were also developing secondary tempeh products, including snack foods, paste-type foods, and fried foods. The person in charge of tempeh production and sales was Moto-o Kira, eldest son of the president, Itsuo Kira, and next to top man in the company. Marukin sold its tempeh in department stores and in supermarkets at their own in-store booths. To promote tempeh, the company employed two professional nutritionists to do demonstrations and lectures at cooking classes. Marukin soon hopes to sell tempeh to school lunch programs. Address: Manager, tempeh production, 380 Yoyasu-machi Kumamoto-shi 860, Japan. Phone: 096-325-3232.

6591. Stinchecum, Amanda Mayer. 1984. Okinawa: Chinese influence. *New York Times.* June 10. p. XX6. Sunday.
• ***Summary:*** Urizun, a restaurant in Naha (Asato 388-5), the capital of Okinawa Prefecture, is a "rare combination of superb food and ambiance." It was started 12 years ago by Tsuchiya Saneyuki, because of his passion for awamori, "the Okinawan liquor distilled from Thai rice and aged like whiskey." Its flavor resembles that of shochu, which is distilled from potatoes in southern Kyushu.

Urizun serves Tofuyo ($1.30), Okinawa-style fermented tofu with a sharp taste. Another popular dish has a dressing of miso and vinegar. Another Okinawan standard is a "creamy white tofu made of peanuts."

Note: The colorful paper wrapper for Urizun's tofuyo looks like this. The text (in Japanese) on the label reads like this.

6592. Geist, William E. 1984. About New York: High hopes for pushcart sales of frozen tofu. *New York Times.* June 20. p. B3 (N.Y. ed.). Wednesday.
• ***Summary:*** Begins by describing how David Mintz, a Brooklyn restaurateur age 53, invented and developed Tofutti. His wife urged him (as he would get up in the middle of the night) to give up his hopeless quest, but Mintz believed that the world was out there "just waiting for a soybean- curd-based frozen dessert. He could not, would not, rest until Tofutti was invented."

In the process, Mintz made sour cream from tofu, then used it to invent *kosher beef stroganoff!*–"which was like defying gravity." Then came tofu cheesecake. Customers, who were sure he was violating kosher law, "threw down their napkins and walked out. Others called him a fool," or asked him if he'd lost his religion.

"Yesterday Mr. Mintz was tasting vindication and Cappuccino Tofutti as he watched 50 young men and women in a training session in midtown, preparing to take to the streets of Manhattan today with their Tofutti carts." Tofutti will be available in five flavors and retail for $1.25 per 5-ounce serving. A photo shows a push cart under a huge umbrella, with the word "Tofutti" on each panel. Mintz and two young ladies wearing white "Tofutti" uniforms and caps are standing under the umbrella, sampling some Tofutti, the

© Copyright Soyinfo Center 2013

frozen dessert "based on soy bean curd." Mintz spoke of how he was making history. In Paris, Tofutti was making an appearance at the Salon International d'Alimentation, a food show.

In New York City, street vendors sell all kinds of foods from pushcarts. Venders need to overcome an "anti-tofu sentiment." One trainee noted that she hates tofu. Another said she found it scary, foreign, and weird. Yet both agreed that Tofutti isn't at all like tofu.

David Mintz grew up in the Williamsburg section of Brooklyn and now lives in Sheepshead Bay. Locals recall lines outside his kosher restaurant on Church Avenue in Brooklyn; it was famous for employing Jewish grandmothers in the kitchen. His company went public in Dec. 1983.

Note: This is the earliest document seen (March 2007) that uses the term "frozen tofu" in the title as a generic term to describe soy ice creams alleged to contain tofu. Address: New York.

6593. **Product Name:** New York Soy Deli Tofu Spread.
Manufacturer's Name: Appropriate Foods, Inc.
Manufacturer's Address: 137 New Hyde Park Rd., Franklin Square, Long Island, NY 11010.
Date of Introduction: 1984. June.
Ingredients: Organic tofu, onion, umeboshi [salt plum], tahini, tamari, herbs.
Wt/Vol., Packaging, Price: 7 oz.
How Stored: Refrigerated.
New Product–Documentation: Label. 1984. New York Soy Deli Brand. 1.5 by 3 inches. Black on blue. Interview with Robert Werz. 1987. Sept. 9.

6594. **Product Name:** New York Soy Deli Tofu Pie [Pineapple, or Coconut Custard].
Manufacturer's Name: Appropriate Foods, Inc.
Manufacturer's Address: 137 New Hyde Park Rd., Franklin Square, Long Island, NY 11010.
Date of Introduction: 1984. June.
Ingredients: Coconut Custard: Organic tofu, coconut, honey, tahini, soy oil, arrowroot, lemon, vanilla.
Wt/Vol., Packaging, Price: 4 oz.
How Stored: Refrigerated or frozen.
New Product–Documentation: Label. 1984. June. 1.5 by 3 inches. One color on one color.

6595. **Product Name:** New York Soy Deli Tofu Knish [Apple Raisin, Blueberry, or Spinach].
Manufacturer's Name: Appropriate Foods, Inc.
Manufacturer's Address: 137 New Hyde Park Rd., Franklin Square, Long Island, NY 11010.
Date of Introduction: 1984. June.
Ingredients: Spinach: Dough: Whole wheat flour, durum flour, water, soybean oil, sea salt. Filling: Tofu, spinach, durum flour, soy oil, onions, lemon juice, herbs, spices.
Wt/Vol., Packaging, Price: 5 oz.
How Stored: Refrigerated or frozen.
New Product–Documentation: Three Labels. 1984. June. 1.5 by 3 inches. One color on one color.

6596. **Product Name:** New York Soy Deli Tofu Walnut Spread.
Manufacturer's Name: Appropriate Foods, Inc.
Manufacturer's Address: 137 New Hyde Park Rd., Franklin Square, Long Island, NY 11010.
Date of Introduction: 1984. June.
New Product–Documentation: Labels. 1984. June. 1.5 by 3 inches. Black on yellow.

6597. Appropriate Foods, Inc. 1984. Eat Appropriately! Summer catalog '84. 137 New Hyde Park Rd, Franklin, NY 11010.
• ***Summary:*** The following lines are carried and distributed: Appropriate Foods (tempeh, soymilk), New York Soy Deli, Grainaissance (amazake and mochi), Garden of Eatin', McZand Products, N.Y. Miso, Nasoya, Nutri-Gest, The Soy Source, Sister Shorter, Swan Gardens, Sprout Delights, Willow Run Margarine, Great Eastern Sun (all of their products). Address: Franklin Park, New York.

6598. Chandrasiri, Vasina. 1984. Assessment of protein quality in soybean processed foods: Available lysine contents. *J. of the National Research Council of Thailand* 16(1):35-50. Jan/June. [18 ref. Eng; tha]
• ***Summary:*** Available lysine contents of soybeans and 10 soyfoods was determined as follows: raw soybeans 6.62 g/16 g nitrogen, cooked soybeans 6.12, white tofu 5.64, yellow tofu 6.24, soft curd tofu 5.63, tube tofu 6.17, yuba 8.13, soymilk 4.43, soy sprouts 3.79 (each g/16g N).

Values for fermented soyfoods were as follows: white soybean paste [miso] 4.72, black soybean paste 3.72, fermented curdcake (okara) 5.35. 30 minutes of boiling did not reduce the available lysine significantly. The study concluded that there was no reduction in available lysine content of soybeans before they were made into fermented or non-fermented soyfoods. There was no change in the amount of available lysine in the non-fermented soyfoods, but there was a small, statistically significant reduction in fermented soyfoods. Address: School of Home Economics, Sukothaithammatirat Univ., Thailand.

6599. **Product Name:** [Natural Tofu].
Foreign Name: Tofu Nature.
Manufacturer's Name: Conserves Estavayer S.A. Sold at Migros supermarkets.
Manufacturer's Address: Case Postale 29, CH-1470 Estavayer le Lac, Switzerland. Phone: 037 63 91 11.
Date of Introduction: 1984. June.
Wt/Vol., Packaging, Price: 250 gm or 1 kg, fresh,

© Copyright Soyinfo Center 2013

unpasteurized in plastic tubs.
How Stored: Refrigerated.
New Product–Documentation: Richard Leviton. 1983. Report of soyfoods research and speaking trip to Europe with American Soybean Assoc., Oct. 8–Nov. 15, 1983; Advertisement. 1984. For Migros tofu and diced tofu with cream. Full page. Shows a plate with a tofu recipe and a fork. Also advertises an 88 page book of tofu recipes for FR 4.80 from Migros, Case Postale 402, CH-8034, Zurich, Switzerland; Conserves Estavayer S.A. 1987. This is a 10-page color introduction to the company, located on the shores of Lac de Neuchatel. Founded in about 1955, they sell 97,000 tonnes/year of processed foods, 82% of which are dairy products and employ 560 people. Annual report of the Federation of Migros Cooperatives Zurich, for 1986. 64 p. Published by FMC, Limmatsstrasse 152, 8031 Zurich, Switzerland. Their turnover for the year was 3,165.8 million Swiss francs, with net income of 40.0 million This is Migros' 61st year of operation. They have 12 regional cooperatives with about 1.4 million members and comprise 15% of Swiss retail trade. 36% of their sales are food and 33% non-food. Note that Conserves Estavayer is a Migros company.

Letter from M. Jaccard and A. Dillier of Conserves Estavayer. 1988. June 27. Label. 1988. 3 inches square. Self adhesive. Black and green on yellow. Drawing of soybeans and leaves. This is an ingenious, sophisticated label, unlike any we have ever seen in the USA. Between the label surface and its self-adhesive backing is a "built-in" recipe leaflet with 3 color photos and 3 recipes (each in German, French, and Italian) plus a brief description of the benefits of tofu. At the lower edge of the label is a small drawing of scissors and the words "open here." This leaflet was still being used in Aug. 1993.

Letter (fax) from Verena Krieger. 1990. May 31. Migros now makes 4,650 kg/week of tofu. They are introducing Silken Tofu.

6600. Farm Foods. 1984. Soyfoods a hit at American Booksellers Assoc. Convention (News release). P.O. Box 37, Summertown, TN 38483. 1 p. June.
• ***Summary:*** Farm foods and its sister company, The Book Publishing Company, served samples of Tofu Cheesecake, Tofu Onion Dip, and Deep-Fried Tempeh to nearly 20,000 convention attendees in Washington, DC. This helped to promote their books *Tofu Cookery* and *Tempeh Cookery.* Address: Summertown, Tennessee.

Address: National Food Research Inst., Ministry of Agriculture & Forestry, Shiohama-1, Koto-ku, Tokyo, Japan.

6604. Huberman Margaretten & Straus. 1984. Legume, Inc. Prospectus. Miami, Florida: HM&S. 50 p. June 5.
• ***Summary:*** Legume was incorporated in New Jersey on 23 Jan. 1981 and commenced operations at that time. It was reincorporated in Delaware on 9 July 1982. The company's executive offices are located at 170 Change Bridge Rd. Legume proposes to sell 6,000,000 units of stock, with par value of $0.0001 per share. For the fiscal year ended 30 June 1982 Legume had revenues of $117,995 with a net loss of $18,465. For the fiscal year ended 30 June 1982 Legume had revenues of $117,995 with a net loss of $18,465. For the 9 months ended 31 March 1984 Legume had revenues of $278,256 with a net loss of $364,883 [equivalent to a net loss of $486,510 for the full year]. Total liabilities are presently

© Copyright Soyinfo Center 2013

$327,140. “Liquidity and capital resources: The Company has incurred operating losses since formation and at March 31, 1984 has an accumulated deficit [has incurred aggregate losses] of $709,733 and a working capital deficiency of $44,069. The company’s primary source of capital to date has been from the sales of its Common Stock in various private transaction and from a public offering... which was consummated in October 1982. In addition, in February 1984, the company borrowed $200,000 from two parties, one of whom is a principal stockholder in the company.”

Products: “The company began to market its entrees with a line of ‘Italian’ foods and in December 1983 expanded its product line by introducing an international gourmet line.

“The Company presently distributes eight different tofu-based entrees: Tofu Tetrazzini, Cannelloni Florentine, Vegetable Lasagna, Tofu Bourguignon, Sesame Ginger Stir-fry, Stuffed Shells Provencale, Tofu Manicotti and Tofu Lasagna.

“The frozen tofu entrees produced by the Company contain only natural ingredients and no additives, preservatives or added sugar...”

Approximately 85% of total revenues comes from sales to health food stores; most of the rest comes from supermarkets. The Company’s frozen food tofu-based entrees are produced to its specifications by Celentano, Inc. Current production requirements are about 2,500 cases/week, which is less than 3% of Celentano’s total capacity on a single shift basis. Legume employs 7 persons, including its 2 executive officers, on a full-time basis. Gary Barat earns $27,000/year cash and Dyanne Chandri Barat earns $26,550 cash. Address: Miami, Florida.

6605. Kuishimbo (The Glutton). 1984. June. New soyfoods restaurant or deli. Kuishimbo, Hagiwara 3-13-5, Oita-shi, Oita, Japan.
• ***Summary:*** Toyo Shinpo. 1988. June 1. p. 9. “Sato Shokuhin Kogyo Company has a tofu restaurant called ‘The Glutton’ in Oita which serves appetizing tofu and fish dishes.” Mr. Junichi Sato, president of Sato Shokuhin Kogyo is the owner of the company and restaurant. In addition to being a tofu shop, they also have a fish menu. They are open from 5-12 P.M. every night, except the 1st and 3rd Sundays of each month. They opened for business four years ago.

6606. Leneman, Leah. 1984. The foods that are soya good. *Vegetarian* (*The*). May/June. p. 12.
• ***Summary:*** “Soya foods are playing an increasingly important role in the American health food movement, a positive trend which hopefully will be echoed in the U.K. By soya foods I do not mean TVP (which has never really caught on in a big way in the States), but tofu (soya bean curd) and tempeh. These are low-cost, low-technology products simple enough to make in your kitchen.” In America the movement away from dairy products is for reasons of health rather than ethics. In Britain, ethics come first. Cholesterol is the real bugbear to Americans. In New York the author tasted a soft-serve tofu ice cream with a “creamy texture I would not have believed possible in a dairyless product.”

6607. **Product Name:** [L’Herberie Smoked Tofu Fume].
Foreign Name: L’Herberie Smoked Tofu Fume.
Manufacturer’s Name: L’Herberie.
Manufacturer’s Address: Rue de St. Viateur, Montreal, QUE, Canada.
Date of Introduction: 1984. June.
How Stored: Refrigerated.
New Product–Documentation: Talk with Yvon Tremblay and Richard Milon. 1987. Dec. 11.

6608. **Product Name:** Soyboy Tofu Not Dogs: Natural Meatless Links.
Manufacturer’s Name: Northern Soy.
Manufacturer’s Address: 30 Somerton St., Rochester, NY 14607.
Date of Introduction: 1984. June.
Ingredients: Tofu, filtered water, isolated soy protein, cold pressed safflower oil and corn oil, herbs and spices, honey, sea salt, guar gum, carrageenan.
Wt/Vol., Packaging, Price: 12 oz vacuum packed.
How Stored: Refrigerated, 35 day shelf life. Or frozen.
New Product–Documentation: Label. 1986, undated. 4 by 8 inches. Green, orange, and black on yellow. “No nitrates. No cholesterol. Half the salt of regular hot dogs.” Manufacturer’s catalog. 1987. Lists ingredients. Talk with Andy Schecter. 1988. Oct. 10. This product was launched in June 1984. East West Journal. 1988. Oct. p. 72. “Special awards: Best fake not dog: SoyBoy Tofu Not Dogs by Northern Soy of Rochester, NY. Nice smoky flavor and smooth texture, almost as good as the real things.”

Product with Label purchased at Open Sesame in Lafayette, California. 1992. May. The product is now named simply Not Dogs. 7 by 4.5 inches. Plastic film. Red, green, and black on yellow. Illustration of a dog in a circle with a diagonal line drawn through it. “America’s best-tasting vegetarian hot dog. 50% less salt. 35% less fat than regular hot dogs. No nitrates. No cholesterol.” “Ingredients: Organic tofu (filtered water, organically grown soybeans, natural calcium chloride nigari–a mineral coagulant, not a preservative), corn oil, isolated soy protein, tapioca flour, yeast extract, herb and spices, honey, natural flavoring, vegetable gum, sea salt. No preservatives and nothing artificial.” 12 oz. retails for $3.39.

Product with Label purchased at Fresh Fields, Rockville Pike, Maryland. 1992. July 20. Copyright 1991. New label. The product is now named Soyboy Not Dogs. 8.5 by 6.5 inches. Plastic film. Red, yellow, black, and green on white. The word “Dogs” is written in rounded red letters as if

© Copyright Soyinfo Center 2013

formed by bending a long hot dog. “America’s best-tasting vegetarian hot dog. All natural. No cholesterol. Wheat and dairy free. Made with organic tofu. No preservatives & nothing artificial.” The ingredients are basically unchanged. “Keep refrigerated or frozen. May be sold frozen for 1 year after date on package.” UPC indicia. 12 oz. retails for $3.29.

6609. **Product Name:** SoyBoy Tofu [Regular, or Silken].
Manufacturer’s Name: Regular Tofu Company Ltd.
Manufacturer’s Address: 16 The Halcroft, Syston, Leicester, England LE7 8LD.
Date of Introduction: 1984. June.
New Product–Documentation: Ad in The Vegetarian (England). May/June. p. 12.

6610. **Product Name:** SoyBoy Tofu Burger [Savoury, or Chili Flavour].
Manufacturer’s Name: Regular Tofu Company Ltd.
Manufacturer’s Address: 16 The Halcroft, Syston, Leicester, England LE7 8LD.
Date of Introduction: 1984. June.
New Product–Documentation: Ad in The Vegetarian (England). May/June. p. 12.

• ***Summary:*** Contents: 1. Introduction and overview. 2. Directory of soyfoods delis, cafes and restaurants. Secondary soyfoods manufacturer-distributors. Soyfoods marketer-distributors. 3. Chronology of opening (Farm Food Company in San Rafael, California, was first in Aug. 1976). 4. Names of recipes served at each soy deli and ranking of the best-selling of these recipes. 5. Names of recipes produced by second generation soyfoods manufacturer-distributors. 6. Names of recipes produced by soyfoods marketer-distributors. 7. Individual bulk recipes for tofu and tempeh dishes. 8. Alphabetical listing of recipes given above. 9. Articles published about soyfoods restaurants, delis, and cafeterias. 10. Menus, posters, and promotional materials. 11. Conclusion and summary. Address: Soyfoods Center, P.O. Box 234, Lafayette, California 94549.

6612. **Product Name:** [Tofu, Seitan].
Foreign Name: Tofu, Seitan.
Manufacturer’s Name: Sojvita Produktions GmbH.
Manufacturer’s Address: Hauptplatz 1, 2493 Lichtenwoerth, Austria. Phone: 02622/75494.
Date of Introduction: 1984. June.
Ingredients: Sojabohnen, Gerinnungsmittel (Nigari), Wasser.
Wt/Vol., Packaging, Price: 250 gm.
How Stored: Refrigerated.
Nutrition: 87 calories per 100 gm.
New Product–Documentation: Letter from Norbert Brunthaler 1983. May 11. “In our last letter we informed you of our intention to start a soyfood company. We have set up a company named SoyVita Austria (Herrengasse 30, A-5020 Salzburg, Austria. Phone: 0662 43 09 85). We produce tofu, tempeh, and have also put up small amounts if miso. In the future we’ll try to produce soysauce. For all of our products we use Austrian soybeans, ecologically grown.

Letter from Norbert Brunthaler. 1988. Jan. 4. Gives date of introduction as starting date of company, June 1984. What happened to SoyVita Austria that existed in May 1983? “We also produce rice-wafers, seitan, gomashio [sesame salt], and mochi.” Label. 1987. 2.5 by 3 inches. Dark green, light green, orange, and black on white. “Gepressetes Sojaeiweiss. Tofu ist eine naturliche, pflanzliche Eiweissquelle und geeignet sich zum Kochen, Braten, Bachen oder für Sussspeisen. Tofu ist frei von Cholesterin und enthaelt 4,3 g Fett, davon 3,5 g ungesaettigte Fettsaeuren/100 g.”

Note: The small town of Lichtenwörth is located southwest of Vienna in the district of Wiener Neustadt.

6613. **Product Name:** [Marinated and Baked Tofu].
Foreign Name: Tofu mariniert und gebacken.
Manufacturer’s Name: Sojvita Produktions GmbH.
Manufacturer’s Address: Hauptplatz 1, 2493 Lichtenwoerth, Austria. Phone: 02622/75494.
Date of Introduction: 1984. June.
Ingredients: Tofu in seasoned marinade.
Wt/Vol., Packaging, Price: 150 gm.
How Stored: Refrigerated.
Nutrition: 87 calories/100 gm.
New Product–Documentation: Letter from Norbert Brunthaler. 1988. Jan. 4. Gives date of introduction as starting date of company, June 1984. Label. 1987. 2.5 by 3 inches. Dark green, light green, orange, and black on white. “Ein Fertiggericht für Schnellimbisse. Tofu ist frei von Cholesterin und enthält 4,3 g Fett, davon 3,5 g ungesättigte Fettsäuren/100 g.”

6614. **Product Name:** [Tofu Burger].
Foreign Name: Tofu-Burger.
Manufacturer’s Name: Sojvita Produktions GmbH.
Manufacturer’s Address: Hauptplatz 1, 2493 Lichtenwoerth, Austria. Phone: 02622/75494.
Date of Introduction: 1984. June.
Ingredients: Tofu, onions, spices (Gewuerze), salt.
How Stored: Refrigerated.
New Product–Documentation: Letter from Norbert Brunthaler. 1988. Jan. 4. Gives date of introduction as starting date of company, June 1984. Label. 1987. 3.5 by 1.5 inches. Self adhesive. Black typed letters on white.

6615. **Product Name:** [Soyanaise with Herbs (Soy Mayonnaise)].
Foreign Name: Sojanaise mit Kraeutern.
Manufacturer's Name: Sojvita Produktions GmbH.
Manufacturer's Address: Hauptplatz 1, 2493 Lichtenwoerth, Austria. Phone: 02622/75494.
Date of Introduction: 1984. June.
Ingredients: Nigari tofu, 15% cold-pressed corn oil, mustard, cornstarch, soy lecithin, vinegar, salt, and herbs.
Wt/Vol., Packaging, Price: 180 gm glass jar.
How Stored: Refrigerated, 4 week shelf life.
Nutrition: 350 cal/100 gm.
New Product–Documentation: Label. 1984. 8.5 by 1.25 inches. Self adhesive. Dark green, light green and yellow on white. Label. 1986. 9.25 by 1.25 inches. Green, gold, and black on white. Letter from Norbert Brunthaler. 1988. Jan. 4. Gives date of introduction as starting date of company, June 1984. The product is a remoulade made in a continuous colloid mill, and filled into glass jars with a pneumatic filler.

6616. **Product Name:** BBQ Tofu.
Manufacturer's Name: Swan Gardens.
Manufacturer's Address: Miami, Florida 33127.
Date of Introduction: 1984. June.
Ingredients: Tofu, tomato sauce, honey, onion, mustard, nutritional yeast, molasses, soy oil, soy sauce, herbs and spices.
Wt/Vol., Packaging, Price: 10 oz.
How Stored: Refrigerated.
New Product–Documentation: Label. 1983. 3 by 4 inches. Self adhesive. Red, black, and white on silver. Swan surrounded by flowers and lotus illustration. "No preservatives." Appropriate Foods Catalog. 1984. Summer.

6617. **Product Name:** Yeasted Baked Tofu.
Manufacturer's Name: Swan Gardens.
Manufacturer's Address: Miami, Florida.
Date of Introduction: 1984. June.
Ingredients: Tofu, nutritional yeast, soy sauce, spices.
Wt/Vol., Packaging, Price: 8 oz.
How Stored: Refrigerated.
New Product–Documentation: Label. 1984. 2.5 by 3.75 inches. Self adhesive. Red, green, black, and white on tan. Swan surrounded by flowers and lotus illustration. "No preservatives." Address on label: Swan Gardens, Inc., Decatur, Georgia 30030. Appropriate Foods Catalog. 1984. Summer.

6618. Szilard, Paula. 1984. Toothsome tofu pies. *Mother Earth News* No. 87. p. 42-44. May/June.
• ***Summary:*** Gives recipes for: Apricot tofu pie. Banana-coconut tofu pie. Orange tofu pie. Carob-almond tofu pie. "At a time when almost everyone seems to be borrowing ideas from Japan, is it possible that the people of that nation could learn something from us? You *bet* it is!... In less than a decade, Americans have adapted tofu to the Western palate. . . and Occidental cooks have really pioneered the development of a number of tofu desserts. The creations include a mouth watering array of pies, cheesecakes, puddings, cakes, cookies, delicate pastries, and even ice creams!"

6619. **Product Name:** Tofutti (Soy Ice Cream) [Hard Pack: Chocolate Supreme, Vanilla Almond Bark, Maple Walnut, or Wildberry Supreme].
Manufacturer's Name: Tofu Time, Inc. (Marketer).
Manufacturer's Address: 1638–63rd St., Brooklyn, NY 11204.
Date of Introduction: 1984. June.
Ingredients: Wildberry Supreme: Water, high fructose corn sweeteners, corn oil, tofu, raspberries, blackberries, strawberries, blueberries, natural flavorings, isolated soy protein, soy lecithin, guar seed gum, cellulose gum, carrageenan, carob bean gum, natural beet extract, salt.
Wt/Vol., Packaging, Price: Pint carton.
How Stored: Frozen.
Nutrition: Per 4 fl oz.: Calories 170, protein 3 gm, carbohydrate 19 gm, fat 9 gm.
New Product–Documentation: Labels. 1984, undated. Shurtleff & Aoyagi. 1985. Tofutti & Other Soy Ice Creams. p. 66, 131. "At last–a frozen dessert that tastes deliciously creamy yet contains no cream, butterfat or other dairy products." Lists all ingredients and nutritional information.

6620. Watanabe, Tokuji; Kishi, Asako. 1984. The book of soybeans: Nature's miracle protein. New York, NY: Japan Publications. 191 p. June. Illust. General index. Recipe index. 26 cm. [21 ref]
• ***Summary:*** Contents: Introduction. Part 1. General information: 1. Characteristic traits: Agronomic and other biological characteristics, physical properties, chemical properties, soybean protein, properties of soybeans as food material. 2. Current ways of using and processing soybeans: Throughout the world, traditional ways of using and processing, new soybean food products. 3. Tofu and other nonfermented soybean food products: Tofu (Cotton or regular tofu, silken tofu {*kinugoshi*} and soft tofu, packaged tofu, new equipment), deep-fried tofu, dried-frozen tofu (*Kôri-dôfu*), soy milk, yuba, roasted soy flour (*kinako*), soybean sprouts.

Note 1. This is the earliest English-language document seen (April 2013) that uses the term *Kôri-dôfu* to refer to dried-frozen tofu.

4. Miso and other fermented soybean products: Miso, natto, Hama-natto (tera-nattô), soy sauce, sufu, tempeh. 5. Other ways of eating soybeans–Simple traditional Japanese foods: Parched soybeans, boiled soybeans (*budo-mame; hitasahi mame*), beaten and mashed [or ground] soybeans

© Copyright Soyinfo Center 2013

(*go*, or (from edamamé) *zunda or jinda*), molded soybean mash (*jinta-dôfu*), molded mashed soybeans and rice flour (*shitogi*), soybean soybean-mash paste. 6. New soybean protein products.

Note 2. This is the earliest document seen (Nov. 2008) that mentions *zunda*. The text (p. 84) reads: "When fresh green soybeans (edamame) are used in cooking, they are boiled for from ten to twenty minutes; ground; and flavored with salt, sugar, and soy sauce. The resulting dish is called *zunda* or *jinda."*

Note 3. Zunda is a healthy and tasty snack or treat made from mashed edamamé. It is sweet, rich in protein, high in fiber and emerald green. It is said to have originated hundreds of years ago in Japan in Miyagi prefecture. In and around Sendai (capital of Miyagi prefecture) one can find many shops and booths that sell zunda cakes, zunda mochi treats, and zunda shakes, all made from edamamé (green vegetable soybeans). One well-known company in Japan that markets delicious zunda products is Zunda Saryo.

Part 2. Cooking with soybean food products: Tofu, yaki-dôfu (toasted tofu), kôri-dôfu (dried-frozen tofu), nama-agè, abura-agè, gammodoki, yuba (soy-milk film), nattô, miso, soy milk, soybeans, bean sprouts. Afterword. Bibliography.

In the chapter on tofu, pages 43-44 discuss okara or *unohana* (the residue remaining after soy milk production); a photo shows it in a glass bowl. "Though it formerly appeared on many Japanese tables seasoned and cooked with vegetables, today it is most often fed to animals. As the number of animals raised in urban and suburban areas decreases, however, tofu manufacturers are finding it harder to dispose of residue."

Page 99 notes of tofu: "At a certain temple in Kyoto is a plaque bearing the following inscription, which, while comparing this food to religious faith, clearly shows the esteem in which the Japanese people hold tofu. 'Religious faith should be like tofu: it is good under any circumstances. It is good boiled, grilled, or fried. Raw, chilled, served with soy sauce and other seasonings, it is good with steamed rice. Simmered in hot water and flavored, it is good with sake. Because it is soft, old people and sick people welcome it, but children and young people like it too. Men like it, women like it; poor and rich both like it. Though common, it has elegance enough to find a place in the upper class.

"'It cuts clean and well for use in clear broths. It is good in the meatless diets of religious training. It can be crushed for use in miso soup. It is used all the time and in all seasons. It is inexpensive yet numbered among the delicious treats. It is welcomed everywhere, in mountains as well as in big cities. It is well received at dinners for dignitaries and guests yet is convenient enough for college students who do their own cooking. Women especially should be like tofu. The mature and cultivated person should be tender, yet firm, like tofu. Though apparently tasteless, it is delicious. Though apparently ordinary, it is extraordinary.'"

Other ways of eating soybeans (p. 83-84): (1) Parched– "Parched gently in unglazed ceramic dishes made for the purpose," then tossed by people at Setsubun in February around their houses as they chant "'Demon out! Good luck in!' Then they pick up the beans and eat them. Parched soybeans are included in some varieties of *mochi* (glutinous rice cake) and in *okoshi* a confection made of puffed rice bound together with sugar syrup. In the past they were eaten with salt, miso, or soy sauce."

Note 4. In the USA, parched soybeans are called "dry roasted soynuts."

Tables show: (1) World production of soybeans (1977-1982). (2) Price trends in dollars per ton for wheat, soybeans, and corn (1970-1981). (3) Soybean yields in the USA and Japan (1974-1981). (4) Chemical composition of soyfoods: Tofu, abura-agè, kôri-dôfu, yuba, kinako, soybean sprouts, nattô, miso (dark yellow), soy sauce (common), soybean (Japanese). (5) Statistics on production of modern soybean products in Japan (1975-1981). (6) Annual production and prices of modern soy protein products in the USA (May 1983).

Japan once produced a million tonnes (metric tons) of soybeans annually. This figure decreased dramatically during World War II. After the war, as soybean imports from the United States steadily increased, Japan's domestic crop gradually fell to the level of no more than 100,000 tonnes. In 1977 it was 111,000 tonnes, yet by 1982 it had jumped to 226,000 tonnes as rice acreage was reduced.

All photos are black and white. Figures show: (2) Line drawing of soybean plant with flowers and leaves. (2) Cross section of soybean seed-coat and cotyledon. (3) Graph of protein solubility (NSI) of defatted soybean meal at different pH values. (4) Graph of protein solubility (NSI) of defatted soybean meal at different concentrations of calcium chloride. (5) Graph of relationship between time and temperature of soaking soybeans in water (colder water temperature requires longer soak time). (6) Flow sheet for making regular tofu. (42) Line drawing of a mashing machine for miso. (43) Photo of natto in rice straw wrapper and polystyrene tray. (44) Cross sectional view of pressure cooker for soybeans. (45) Line drawing of rotating mixer to combine cooked soybeans with pure-cultured *Bacillus natto.* (46) Photo of soy sauce table dispenser. (47) Flow sheet for making Japanese soy sauce (shoyu). (48) Transparent view of crusher (roller) for roasted wheat in making soy sauce. (49) Photo of modern stainless steel fermentation tanks / vats (indoors). (50) Photo of a jar and a cup of sufu [fermented tofu]. (51) Diagram showing relationships between modern soy protein foods.

Note 5. Surprisingly, edamamé, one of the most popular soyfoods in Japan, is mentioned only once, in passing (p. 84) in this book.

Photos on the rear cover show Tokuji Watanabe and Asako Kishi. A brief biography of each is given.

Tokuji Watanabe: Born in 1917 in Tokyo, he graduated from the Faculty of Agriculture of Tokyo University in 1941, with Doctor of Agriculture. In 1945 he entered the National Food Research Institute (NFRI), of which he became director in 1971. In 1977 he resigned that position and became a professor at the Kyoritsu Women's University, where he now teaches. Address: 1. D. Agr., Kyoritsu Women's Univ., Tokyo.

6621. Wilson, John C. 1984. The manufacture of soymilk which is not contaminated with undesirable "beany flavor," resulting from enzyme induced oxidation of fats. Paper presented at the Singapore Inst. of Food Science & Technology Symposium. 19 p. Held June 14-15 at the Hyatt Hotel, Singapore. [8 ref]

• ***Summary:*** Introduction: "This paper anticipates a series of questions and tries to inform the reason for things pertaining to our topic according to the perspective from which we see things in 1984." Who are the real giants? Shall we not give tribute?" 1. What is the interest in the world regions for a soymilk without the traditional 'beany flavour'? What need creates an interest, creates a demand of such proportions? China, South East Asia, North East Asia, North America, hippies, vegetarians, tofu, *The Book of Tofu*, by Shurtleff and Aoyagi.

2. What is the history behind the long delayed but sudden phenomenal development of this product? Dr. Harry W. Miller in Shanghai (1936), K.S. Lo in Hong Kong [1941], in-bottle sterilizing by K.S. Lo, development of UHT processing and aseptic packaging by Yeo Hiap Seng in Kuala Lumpur, Malaysia (1967), the advent of the brick shaped aseptic carton. The traditional soymilk process: "Filtering off the fibrous material,... one is left with the basic soymilk extract or soybase to which some sugar is added" (p. 8). Improvements in soymilk flavor: Cornell hot-grind process. University of Illinois hot water blanch method "is the basis of most modern soymilk processing." Developments in Japan since the mid-1970s, which have grown "out of the Illinois process but overcoming the 'chalkiness' by a filtration step using a decanter or some form of continuous filtration." The quality is excellent but the yield of protein is unfortunately only about half compared to the almost 100% achieved by the original Illinois method."

3. What are the developments in the market areas? Soyfoods industry and market statistics published annually by Shurtleff. Trends in: Japan, South East Asia, Indian Subcontinent, Mid East [Middle East], Europe (Flavor is not as good as in Japan. "There is also a political impediment. It would be suicidal to set up a soymilk industry as a 'substitute cow's milk...' considering today's ailing European dairy industry and the militant stand of the European dairy farmer. But as surely as margarine has come and been accepted, a prime quality soymilk will come to Europe. It is a matter of time"). Africa (financing troubles, the good work of IITA in Ibadan, Nigeria). South America ("A market spoilt! Take Brazil–the world's 2nd largest producer and exporter [of soybeans]. People have had inferior quality product almost forced down their mouth"). North America.

4. What is the state of the art in the manufacturing technique for a "bean free" tasting soymilk? (Contains a flow chart with 13 steps, of which No. 10 states: "Blend ingredients: Blend into the soybase the ingredients necessary to a particular formulation, e.g., sugar, vegetable fat, emulsifier–stabilizer, flavouring–aromas," p. 16)

This paper deals with the phenomenal growth of the soymilk industry in northeast Asia, and the likeliness that its influence will spread worldwide in the near future.

Note: This is the earliest English-language document seen (May 2006) that uses the word "soybase" to refer to a concentrated form of soymilk. However, no definition of the degree of concentration or total solids content is given. Address: Soya Process Product Manager, Alfa-Laval, Box 1008, S-221 03, Lund, Sweden.

6622. Worthington Foods, Inc. 1984. Introducing all new,

© Copyright Soyinfo Center 2013

all natural, Natural Touch: The taste nobody can touch (Ad). *Natural Foods Merchandiser.* June. p. 18-19.
• ***Summary:*** This large-format, two-page color ad shows packages and prepared dishes for Natural Touch Tofu Garden Patties, Okara Patties, Harvest Bake Lentil Rice Loaf, and Kaffree Tea. Okara is described as "the protein-rich, high-fiber pulp from cooked soybeans."

This 2-page ad also ran in the July issue (p. 23-24). Address: Worthington, Ohio 43085.

6623. Praskin, Laurie. 1984. Work with soyfoods on The Farm in Tennessee. Luci Morren working with soyfoods in Mexico (Interview). *SoyaScan Notes.* July 1. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** The Farm Soy Dairy had a centrifuge for making soymilk and dewatering soypulp in 1975. Laurie started working in the soy dairy in late 1974 or early 1975. Alexander was still there. There was a centrifuge there before that. All the tempeh at that time was okara tempeh. She does not recall if they used the centrifuge to dewater whole soybeans for tempeh.

Suzie and Chris Jenkins. Utah. 801-532-4289. Suzie made tempeh before she went to Guatemala.

Luci Morren is a woman working in Mexico with refugees from Guatemala. She went to the World Soy Conference. To make tortillas, add soybeans with corn to boiling lime water (cauldron cuts cooking time a lot), soak over night, then rinse, grind, form and cook tortillas.

Also using soybeans with local black beans, 1:5. Soak over night to do away with some SBTI [soybean trypsin inhibitor]. Also cook with rice. People don't use enough wood to cook things longer. Suzi utilizes everything when she does her demos. The whey is drunk with sugar and limes; refreshing. The pulp [okara] used in *masa,* and fried. Luci is a Belgian woman, who got turned onto soy in Mexico. She went to Nicaragua right after the revolution and started a big soy program. Nicaragua has classified soy as one of its protein sources. For 3 years, she worked closely with women; she also has a program with 5 farmers growing soybeans.

Laurie will try to get me Luci's address. Its sickening to see the poor kids. Mexicans do not want to help too much. Foreigners aren't allowed into camps. Including Luci. She works out of San Cristobal in her office, training Mexican promoters, but not all are as dedicated as she. Another student of hers is making tofu in her house to sell to tourists. Laurie taught her to make tofu cheesecakes.

Plenty is funding Luci to do this soy project in Guatemala. Do they buy beans in Tapachala? Are any Chinese in Guatemala making soyfoods?

6624. Browning, Machael. 1984. China tells peasants it's OK now to get rich. *Miami Herald.* July 5.
• ***Summary:*** Rich peasants include the "tofu king." Peasant markets are flourishing. Zhao Ziyang is urging peasants to become rich.

6625. Reed, J.D. 1984. Its trendy, tasty and Tofutti: This summer's hot frozen dessert is no-cream ice cream. *Time* 124:81. July 9.
• ***Summary:*** This two-thirds page article represents the biggest print media coverage for Tofutti to date. "Americans are licking up 40,000 gal. a week of this chilly concoction. Production has nearly doubled in the past month. Move over Frusen Glädjé and frozen yogurt; this is the summer of Tofutti. A photo shows smiling "Tofu tycoon David Mintz and his chic chiller."

Mintz is experimenting with tofu-based drinks and a vegetable salad. His next obsession is a nonmeat burger... It is made of tofu and has the taste and smell of a beefburger. Says the tycoon of tofu: 'I am close to this tremendous breakthrough. It is made of tofu and has the taste and smell of a beefburger.' Given his marketing skills, it may not be long before Tofutti addicts sit down to the main course: a Big MacFutti."

6626. Yang, A.A.; Vander Zanden, R.J. Assignors to Ralston Purina Company. 1984. Basal material for the preparation of tofu. *U.S. Patent* 4,460,613. July 17. 6 p. Application filed 1 Nov. 1982. [6 ref]
Address: Ralston Purina.

6627. *Hartford Courant* (*Connecticut*). 1984. Tofu source of calcium, protein: Ask a dietitian. July 18. p. E3.
• ***Summary:*** A reader is curious about tofu; wants to know what it is and some ways to use it. A registered dietitian answers: "Tofu, or soybean curd, is made by solidifying soy milk. As a soybean product, its protein quality surpasses all other vegetable sources and approaches that of eggs and meat. As a protein source, tofu is unique–it also contributes considerable calcium but negligible amounts of saturated fats and sodium, and contains no cholesterol. It is an excellent alternate protein source in a varied diet.

Contains two recipes from *The Book of Tofu,* by Shurtleff and Aoyagi–for Hot and sour tofu, and Tofu vinaigrette.

6628. Gillingham, Karen. 1984. Desserts to please the strictest vegetarians: The choices widen for those diets restricted to a lower-at regimen. *Los Angeles Times.* July 19. p. K33, 35-37. [1 ref]
• ***Summary:*** One key to such recipes is the use of tofu. Two of the following recipes are adapted from *The Book of Tofu,* by William Shurtleff and Akiko Aoyagi. The recipes are: Plum orchard sherbet. Fruit tart. Tofu cheesecake. Tofu rice pudding. Apricot mallow whip. Bananas flambe. Address: Times staff writer.

• ***Summary:*** Vegetarian cookery, featuring tofu and tempeh, has gone gourmet at The Lotus Cafe (686 Monroe Ave.) in Rochester, New York. A large photo shows Greg Weaver with a blackboard menu.

6631. **Product Name:** LeTofu (Non-Dairy Soy Ice Cream in Hard Pack and Soft Serve. Later written Le Tofu) [Dutch-Chocolate, Vanilla-Almond, California Strawberry, French Vanilla, Carob, Maple, Plain, or Coffee].
Manufacturer's Name: Brightsong Light Foods.
Manufacturer's Address: 100-A Poultry St. (P.O. Box 2536), Petaluma, CA 94953.
Date of Introduction: 1984. July.
Ingredients: French Vanilla: Water, tofu (water, organically grown soybeans, pure calcium sulfate coagulant), high fructose corn sweetener, soy oil, corn syrup solids, honey, pure vanilla extract, crystalline fructose, natural flavors, cellulose gum, lecithin, guar gum, Irish moss, carob bean gum, annatto for color, salt.
Wt/Vol., Packaging, Price: Soft serve pints, 5 oz cups, or 3 gallon dipping tubs.
How Stored: Frozen.
Nutrition: Per 3.2 fl. oz. Vanilla: Calories 100, protein 1 gm, carbohydrates 13 gm, fat 5 gm, sodium 21 mg.
New Product–Documentation: Labels. 1985, dated. "Naturally delicious. Le Tofu... an exciting frozen dessert for today's lifestyle. A wonderful food for people watching calories, fat, cholesterol, and sodium without compromising enjoyment. Light and natural, Le Tofu is a deliciously rich and creamy healthy treat... for those who care!" Brightsong Foods. 1985. Brightsong debuts tofu frozen dessert (News Release). The product, Le Tofu, has a suggested retail price of $1.99/gallon. Flavors are Dutch Chocolate, French Vanilla, and California Strawberry. Curtis & Tompkins, Ltd., Analytical Laboratories, San Francisco. Phone: 861-1863. Analyses of Le Tofu (Chocolate, Vanilla, Strawberry, Plain) and of Yodolo (Peach), Tofutti (Wildberry, Soft Serve). Brightsong Foods. 1985. What is Le Tofu? It contains 15% organic Brightsong Tofu. Sweetened with fructose and honey, it is kosher and pareve. Spot in Food Engineering. 1984. July.

Shurtleff & Aoyagi. 1985. Tofutti & Other Soy Ice Creams. p. 79. A Tofutti-style product containing soy protein isolates; In Business. 1985. Nov/Dec. p. 25. "It is different from all other soy-based frozen desserts because it contains 15% real, organic tofu instead of the more commonly used processed soy powder. The suggested retail price is $1.99 per pint." Spot in Whole Foods. 1986. Jan. "Frozen Tofu." A photo shows the product (California Strawberry flavor). Letter from Richard Rose. 1987. Aug. 29. The main ingredient was fresh tofu. It contained no soymilk.

6632. **Product Name:** Colombo Tofu (Non-Dairy Soy Ice Cream) [Honey-Vanilla, Chocolate, Maple Walnut, Honey Almond, Wildberry, or Peanut Butter].
Manufacturer's Name: Colombo, Inc.
Manufacturer's Address: Danton Dr., Methuen, MA 01844.
Date of Introduction: 1984. July.
How Stored: Frozen.
New Product–Documentation: Interview with Bob Brooks of Colombo. 1985. Jan. 2. Colombo Tofu was officially introduced in mid-July 1984. Colombo is a family business, started in 1923. Yogurt is the only product they ever made.

Shurtleff & Aoyagi. 1985. Tofutti & Other Soy Ice Creams. p. 81. Deceptively named, since the product contains no tofu. Renamed Tofree by April 1985.

6633. **Product Name:** Lite Chef Tofu Mixer [California Burger, Rancheros Fiesta, Mandarin Almond Stir-Fry, or Pasta Italiano].
Manufacturer's Name: Essential Foods, Inc.
Manufacturer's Address: P.O. 8462, Emeryville, California. Phone: 314-832-7575.
Date of Introduction: 1984. July.
Wt/Vol., Packaging, Price: 3.8 oz to 5.9 oz plastic laminated envelope. Retails for $1.69 to $2.09.
How Stored: Shelf stable.
New Product–Documentation: Spot in Soyfoods. 1984. Summer. p. 45. "No Roly-Polies." In foil pouched versions. Talk with Craig Ramsell. 1989. March 14. Phone: 415-655-8662. John Beckley started Essential Foods in August 1982. Craig Ramsell and Gary Whitney joined as principals in 1983. When they developed the 4 products described above, the first product, The First Great Tofuburger Mix, was discontinued. In Oct. 1985 Essential Foods sold all 4 products to Sunfield. Now Craig has the rights back and is looking for a buyer.

Ad in Natural Food Merchandiser. 1984. "The tofu promise comes to light! Lite Chef tofu mixers."

6634. **Product Name:** Firm Nigari Tofu, Soymilk, and Soysage.
Manufacturer's Name: Maritime Soycraft.
Manufacturer's Address: R.R. 4, Antigonish Harbor, NS,

© Copyright Soyinfo Center 2013

B2G 2L2, Canada. Phone: 902-863-2903.
Date of Introduction: 1984. July.
New Product–Documentation: Form filled out by Sian McLean (a woman), ca. 1984. They started on 1 July 1984 and now make firm nigari tofu, soymilk, and soysage. The business has no name yet. "Small word-of-mouth operation so far." They use 60 lb/week of soybeans.

Letter from Sam Weinreb. 1988. Jan. 14. He just talked with Hugh and Sian McLean. Talk with Sian McLean. 1988. Feb. 15. They started making tofu July 1984. His company is now named Maritime Soycraft, R.R. 2, Heatherton, NS, B0H 1R0, Canada. Phone: 902-386-2474. Says he started making soysage in 1986, but it is shown on his 1984 form. Call from Sian. 1991. Nov. 18. They make mostly tofu, plus some soymilk. They no longer make soysage. They make about 500 lb/week of tofu. There is a nice little steady market and people really like Maritime tofu. Her first name is Welsh.

Letter from Sian McLean. 1994. July 16. Maritime Soycraft is now located at Keppoch Mountain, R.R. #1, Antigonish, Nova Scotia B2G 2K8, Canada. Phone: 902-863-3978. This is a new tofu shop she built. She presently makes only fresh bulk tofu. She left her former marriage with Hugh and has a new partner who wants to do tofu production.

Talk with lady who works with Sian. 1995. May 15. Sian now has a vacuum packaging machine for her tofu, and she can get a shelf life of two weeks before the product turns yellow. This vacuum-packed tofu is not yet on the market.

Talk with Rick Turner of Maritime Soycraft. 1999. Dec. 2. They moved 1½ to 2 years ago to R.R. #4, Antigonish, NS B2G 2L2. Their phone number has not changed. They are now a partnership with 3 partners, Sian, Rick, and one other full-time person. They make about 1,000 lb/week of tofu, but have to expand to take on a new chain. So their business is growing and they are looking for new equipment.

6635. Marson, Alan. 1984. Tofu: A new health food from Japan. *Bakers' Review* (*Watford, England*). July. p. 31, 34.
• ***Summary:*** "Are bakers in this country missing out on potentially lucrative markets by ignoring some of the current trends in our eating habits?... The consumer is now looking for healthy ingredients in everything that he eats."

"Whether we like it or not, it is a fact that in the U.K. we have a tendency to follow closely on the heels of the Americans when it comes to innovation. This time however, they have got it right, because they have latched on to an ingredient that fulfills many of the criteria for healthier bakery lines. It is called tofu... Tofu is extremely high in protein and yet low in calories. An ideal extender for the health-conscious."

"In the US, the use of tofu is estimated to be growing at the rate of 25-35% per year. There are now 150 plants producing well over 45 million pounds of the food, which in monetary terms means about £25 million worth."

"According to Paul Jones, managing director of Paul's Tofu, suppliers of baked products to Holland & Barratt, he is successfully using tofu in the manufacture of quiches, savoury pasties and cheese cakes: 'I also use it for icing and toppings,' he said. 'It is white, delicate and blends well."

"A domestic version of Tofu is already being sold in this country through Sunwheel Foods–part of the Holgran Group of companies. Roy Harris, the company's sales and marketing director reports that sales last year were up over 35 per cent on the previous year."

"We have already seen the rise of the Vegeburger, and following closely behind is the Tofuburger. Now is the time for bakers to be seeking ways of cashing in on this relatively new–but nevertheless enthusiastic–search by the British housewife to find foods that she knows will at least do her family no harm–if not a great deal of good."

"As there would appear to be no cost differential between choosing eggs or tofu as an ingredient, perhaps it would be worthwhile to do a little experimenting on a limited scale, by producing something in the take-away snack line–which in itself is an expanding market and ripe for further growth. Don't be put off by its bland flavour for its is this very blandness which makes it usable for so many different types of dishes. There is no reason why tofu–although a basic food in itself–should not be utilised to a high degree of sophistication, even to gourmet levels."

A large photo shows a package of Morinaga Ever-Fresh Silken Tofu. Address: Holgran Malt Products, England.

6636. **Product Name:** Tofu Burgers (Mushroom and Onion Flavored).
Manufacturer's Name: Nasoya Foods.
Manufacturer's Address: Mechanic St. Ext. (P.O. Box 841), Leominster, MA 01453.
Date of Introduction: 1984. July.
New Product–Documentation: Ad in Soyfoods. 1984. Summer. p. 3. Vacuum packed. Letter from John Paino. 1989. Nov. 12. This product was never sold.

6637. *Natural Foods Merchandiser.* 1984. Macrobiotics: Varied trends boost sales. July. p. 1, 85-86, 88, 90, 93-94.
• ***Summary:*** There is a definite upward trend in sales of macrobiotic foods. Macrobiotics is both a diet and a philosophy. "The basic foods are whole grains, miso, soy sauce, tofu, seaweed, pasta, fresh vegetables, and various types of pickled vegetables. Dairy products, honey, and most animal foods are not used or are used minimally."

6638. Shurtleff, William; Aoyagi, Akiko. 1984. History of tempeh: A fermented soyfood from Indonesia. Lafayette, California: Soyfoods Center. 81 p. July 17. No index. 28 cm. 2nd ed. 1985. 91 p. [375 ref]
• ***Summary:*** Contents: 1. Introduction. 2. Etymology. 3. World Overview. 4-8. History of Tempeh in Indonesia–

© Copyright Soyinfo Center 2013

discusses (for the first time) the world's earliest known reference to tempeh in the *Serat Centini* [also spelled *Serat Centhini*] manuscript, which was probably written in about A.D. 1815. 9-11. History of Tempeh in Europe and Australia. 12-15. History of Tempeh in the United States and Canada. 16-18. History of Tempeh in Japan. 19-23. History of Tempeh in Asia (China, Taiwan, Southeast Asia, India, Sri Lanka). 24. History of Tempeh in Latin America. 25. History of Tempeh in Africa. 27. International Interest. 28. U.S. and Third World Problems.

The world's largest tempeh manufacturers are as follows:

Company name, Country, Year Started, Avg. Weekly Production

1. Marusan-Ai, Japan, 1983, makes 15,148 lb/week = 6,885 kg/week

2. Tempe Production Inc., Netherlands, 1969, makes 13,200 lb/week = 6,000 kg/week

3. Quong Hop/Pacific Tempeh, USA/CA, 1980, makes 7,000 lb/week = 3,182 kg/week

4. White Wave, USA/CO, 1979, makes 5,850 lb/week = 2,659 kg/week

5. Soyfoods Unlimited, USA/CA, 1981, makes 5,800 lb/week = 2,636 kg/week

6. Torigoe Flour Milling, Japan, 1983, makes 5,770 lb/week = 2,623 kg/week

7. The Tempeh Works, USA/MA, 1979, makes 5,500 lb/week = 2,500 kg/week

8. Marukin Foods, Japan, 1983, makes 4,620 lb/week = 2,100 kg/week. Address: Soyfoods Center, P.O. Box 234, Lafayette, California 94549.

6639. **Product Name:** Homestyle Tofu "No Egg" Salad.
Manufacturer's Name: Sonoma Specialty Foods.
Manufacturer's Address: 2317 Bluebell Dr., Santa Rosa, CA 95403. Phone: 707-525-8822.
Date of Introduction: 1984. July.
Ingredients: Tofu (organic soybeans*, water, nigari), soy oil, soy milk, celery, relish, tamari, mustard, vinegar, nutritional yeast, natural herbs and spices, sea salt, and honey. * Grown in accordance with CA H&S Code 26569.11.
Wt/Vol., Packaging, Price: 8 oz or 15 oz plastic tub.
How Stored: Refrigerated.
Nutrition: Per 2.66 oz.: Calories 105, protein 8.1 gm, carbohydrates 1 gm, fat 6.5 gm, fiber 1.3 gm, sodium 0.80 gm, cholesterol 0.
New Product–Documentation: Label. 1987. 4.5 inches diameter. Black, green and yellow on white plastic lid. 15 oz. "Improved! Non-Dairy. Cholesterol Free. Ready to Eat on Sandwiches, as a Dip & in Salads. Natural. No Preservatives. Nutritious. Delicious. Kosher." Illustration of a cottage in front of a picket fence.

6640. *Soya Foods* (*ASA, Europe*). 1984. Effect of soybean varieties on tofu quality. No. 2. p. 3-4. July.
• ***Summary:*** In the midwestern USA, Prize and Vinton are the preferred soybean varieties for making tofu. Cole is also recommended.

6641. **Product Name:** Nature's Spring Tofu [Japanese Regular Style, or Chinese Firm Style].
Manufacturer's Name: Soyfoods of America.
Manufacturer's Address: 1091 E. Hamilton Rd., Duarte, CA 91010. Phone: 213-681-5393.
Date of Introduction: 1984. July.
Ingredients: Organic soybeans, water, natural calcium sulfate.
Wt/Vol., Packaging, Price: 12 oz.
How Stored: Refrigerated.
Nutrition: Per 4 oz. Chinese style: Calories 90, protein 10 gm, carbohydrates 1 gm, fat 5 gm, sodium 6 mg.
New Product–Documentation: Ad in Soyfoods. 1984. Summer. p. 3. "12 oz. pasteurized, 4 week shelf life." Mrs. Lee recalls introduction date to be Sept. 1981. Label. Red, orange, brown, blue and white.

6642. *Vegetarian Times.* 1984. Japan's big-league vegetarian champs. July. p. 6.
• ***Summary:*** The manager of a Japanese baseball team, the Seibu Lions, which climbed from the cellar to first place, says he attributes the success of his team to the players' switch to a vegetarian, macrobiotic diet. In October 1981, when Tatsuro Hirooka took over as manager of the Lions, he prescribed a dietary change for his players, who had finished in last place the previous season. He limited their meat intake and banned polished rice and sugar. Instead he said his players would eat brown rice (unpolished), tofu, fish, and soymilk. The following spring he cut out the fish. They won the Pacific League championship and the Japan Series in 1983.

6643. Hansen, Barbara. 1984. Satay's nod to the games: Let's eat out. *Los Angeles Times.* Aug. 2. p. I29.
• ***Summary:*** The spirit of the Olympic Games in Los Angeles has even touched an Indonesian restaurant in Alhambra. "Through Aug. 31 the Indonesia Satay House [208 E. Valley Blvd.] will serve all customers a dish of *cendol* (pronounced chendol) in recognition of the Games."

Under new management, the restaurant's menu has a Sumatran flavor, which means the dishes are less sweet than in Java.

The chicken dishes are memorable; "*ayam panggang kecap* is chicken mildly seasoned with sweet Indonesian soy sauce [perhaps kecap manis?].

The Javanese *ketoprak* contains "puffy squares of fried tofu and crumbled *krupuk* (Indonesian style chips)."

"*Tahu goreng* (fried tofu) features crisp, fried tofu

• ***Summary:*** About Legume, Inc. Photo of Gary and Chandri Barat, and Brother Ron Pickarski.

6645. Viavant, Suzy Jenkins. 1984. Re: Work with soyfoods Sri Lanka and Guatemala. Making tempe at The Farm in Tennessee. Letter to William Shurtleff at Soyfoods Center, Aug. 13–in reply to inquiry. 1 p. Typed, with signature.
• ***Summary:*** Suzy has been "extremely busy getting ready for a soy development tour in Sri Lanka due to happen on the 27th of August through the end of September. I am being sub-contracted by CIDA thru Plenty as a Soy Development Consultant. We will be investigating opportunities for an in-depth soy development project in Sri Lanka. Accompanying me will be the director of Plenty Canada, his wife and a member of the Sarvodaya movement."

"I started making tempe [tempeh, at The Farm in Summertown, Tennessee] in Sept. of 1976 at which time I took over production so Cynthia [Bates] could go full time into making spores [for tempeh]. At this time I was the first one to try using the centrifuge to dewater the soybeans after cooking, although I think it was originally Cynthia's idea. I made tempe until July 1977 when I went to Guatemala."

In Guatemala the "escalation of the political violence made it impossible for our extension workers to hold classes without being looked upon as subversives by the government. Because the dairy [soy dairy at Solola] was just a business it never really threatened the government so it was able to run for a few years. Now the dairy is closed for economic as well as political reasons. We hope to return if it [the political situation] cools down. Our latest report from Guatemala is that people in Itzapa are still growing soybeans and their wives are still making tofu and soymilk. I don't know if the people in Solola are still growing them because we never quite isolated the best variety for their altitude." Address: Utah.

Address: San Francisco.

6647. *Chicago Tribune.* 1984. Fresh plums plus versatile tofu equals a teriyaki treat. Aug. 16. p. G11A.
• ***Summary:*** "Tofu (soybean curd) is as versatile as a black suit. Its neutral flavor will absorb others, its firm though custardlike texture can be skewered or crumbled." Gives a recipe for Plum teriyaki with tofu or chicken. A large photo shows the prepared dish.

6648. Word of Nutrition. 1984. The most complete, unique and attractive: More than a health food store in the country (Ad). *Hartford Courant* (*Connecticut*). Aug. 16. p. H13.
• ***Summary:*** This half-page ad appears on the page titled "Spotlighting: Newton." "Come in and let us 'show off' our wares from A-Z. Atmosphere (par excellence)... Herbs (bulk–enormous selection)... Kombu,... Macrobiotic selection (very extensive)... Peanut butter (made fresh by us)...Soy milk... Tofu (fresh)... Tofu entrees... Vegetarian foods..." Address: 194-200 Market Square, Newington, Hartford County, Connecticut.

6649. Six-Chan, Pauline. 1984. Work with soyfoods in Belgium (Interview). *SoyaScan Notes.* Aug. 18. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Pauline (age 41) earned a MSc degree in food science from Michigan State Univ. (East Lansing) in 1979. In 1982 she started Premier Foods to focus on foods that were international, fresh, and healthy. Since Oct. 1983 the company as been very active in presenting tofu and tofu products to the Belgian public and to buyers at supermarkets, cafeterias, etc. Once a month she gives free tofu cooking demonstrations to the general public. She is the most active person in Belgium with soyfoods, and she would like to start a Soyfoods Center there. She prompted the American Soybean Assoc. to hold the forthcoming soyfoods seminar, but they are charging a lot for it, so she fears that few people will come. She dislikes ASA; they are only interested in animal feeds. She also dislikes macros; they are not interested in soyfoods for the general public, and they insist that she sell "organic (biological) tofu." She makes mung bean sprouts. She buys all of her tofu from Heuschen in the Netherlands, and has an exclusive distribution contract for Belgium with him. She is most interested in developing second generation tofu products. She already has a tofu tart/cheesecake/pie, and she wants to demo U.S. second generation tofu products at the ASA seminar. Her literature about tofu and tempeh is in Flemish.

Heuschen Products started making tofu on a small scale many years ago. They automated and got big about a year ago. Now they cannot sell nearly as much as they can make. Address: Manager & owner, Premier Foods p.v.b.a., Dietstraat 197, 3000 Leuven, Belgium. Phone: 016.23.31.48.

6650. Pande, Nawin. 1984. Re: Plans to establish a solvent extraction plant and refinery. Letter to Richard Leviton, Soyfoods Association of North America, Sunrise Farm, Heath Rd., Colrain, MA, Aug. 28. 1 p. Typed, with signature on letterhead.
• ***Summary:*** The company is establishing a 300 MTPD [metric tons per day] Soybean Solvent Extraction Plant and a 55 MTPD Refinery in the heartland of India's soybean

© Copyright Soyinfo Center 2013

country. They also plan to process solvent extracted soymeal into various human food products for which India provides a vast market. "Our efforts are geared to establish Soybean in India firmly and to educate the masses about its nutritional value." They also want to establish facilities for extraction of other by-products such as Lecithin, Deodorizer distillates, Soap stocks and other minor chemicals. They also plan to go into production of dairylike soy products (such milk and cheese [tofu]) and industrial products.

"Since you are one of the leaders in Soyfoods and industrial products, we request you to kindly mail us per return the samples of all soya products being manufactured and marketed by you, different packagings used and other technical literature. Please also indicate what help you can extend to us in achieving the target set forth in para [the paragraph] above."

The company's two logos are shown in black at the left and right near the top of the brown and black letterhead. Address: United Soya Products Ltd. (A United Group Venture), E-1/177, Arera Colony, Bhopal, Madhya Pradesh, India. Phone: 62970.

6651. Rogers, Wally. 1984. Re: Bean Machines Inc. Letter to William Shurtleff at Soyfoods Center, Aug. 28. 1 p. Typed, without signature on letterhead.
• ***Summary:*** Wally is currently running the day to day operations of BMI. He and Steve Fiering are taking a closer look at the opportunity of investing in BMI. Address: Operations Officer, Bean Machines Inc., 390 Liberty St., #2, San Francisco, California 94114. Phone: 415-285-9411.

6652. Bean Machines, Inc. 1984. Manufacturers and distributors of fine quality tofu & soymilk equipment (Ad). *Soyfoods.* Summer. p. 29.
• ***Summary:*** "Individual pieces or complete systems. Our own American-made equipment. Strong. Sanitary. Economical. Bean Machines disintegrators. The world's finest all stainless steel soybean grinders. BMI continuous pressurized slurry cooker.

Photos show: (1) BMI 300 Disintegrator. (2) An imported Takai W30C whole system, makes over 2,000 pounds of tofu per 8-hour shift. Costs under $20,000. Address: P.O. Box 1145, Sebastopol, California 95472.

6653. Bean Machines Inc. 1984. Bean Machines disintegrators: Stainless steel soybean grinders (Brochure). San Francisco, California. 4 p. Aug. 28 cm.
• ***Summary:*** On the front cover is the silhouette of a disintegrator in two shades of blue on a gray background. The text: Manufacturers and distributors of tofu and soymilk equipment. The world's finest soybean mills. Strong. Sanitary. Economical. Cable: BMITofu, San Francisco." On the inside left page is a black-and-white photo of the opened disintegrator, with all parts and functions labeled. A table gives specifications for the three models (300, 600, and 1000). The inside right page explains that the disintegrator has only one moving part; the rotor literally mashes the beans through as screen. Photos show options and extras: Hoppers (2), rolling stand, and pedestal.

On the rear cover is a photo on a light blue background of the company's new economy model–the BMI 150 disintegrator (or Mini Mite II). Capacity: 150 lb/hour of dry soybeans. At the bottom of the page is a warranty and a brief history of the company, which was founded in 1977 by William Shurtleff and Larry Needleman. Address: 390 Liberty St., #2, San Francisco, California 94114. Phone: 415-285-9411.

• ***Summary:*** Brother Ron Pickarski, a 34-year-old Franciscan friar from Miami, Florida, is a world class vegetarian chef, who won a bronze medal in the 1980 Culinary Olympics, and who likes to use tofu in his creations. At this year's Olympics in October in Frankfurt, Germany, he will prepare Tofu Sushi with Mikado Sauce and Seitan Moutard Bitard (a vegetarian steak). A consultant for Legume, Inc. he has created such sumptuous dishes as Tofu Bourguignon and Tofu Tetrazzini for them. Contains an illustration and biography of Pickarski. An illustration shows Brother Ron. Address: Brookline, Massachusetts.

6656. **Product Name:** [Natural Organic Nigari Tofu].
Foreign Name: Tofu Natur.
Manufacturer's Name: Christian Nagel Tofumanufaktur.
Manufacturer's Address: Oelkersallee 14a, D-2000 Hamburg 50, West Germany. Phone: 040/89 49 37.
Date of Introduction: 1984. August.
Ingredients: Organically grown soybeans (*Sojabohnen aus kontr. biol. Anbau*), water, nigari (MgCl).
Wt/Vol., Packaging, Price: 250 gm, 400 gm, or 1000 gm.
How Stored: Refrigerated.
Nutrition: Per 100 gm: 72 calories, protein 8.5 gm, fat 4.5 gm, carbohydrate 1.5 gm.
New Product–Documentation: Interview with Bernd Drosihn of Soyastern. 1987. Nov. 30. Christian Nagel makes about 1,000 kg/week of tofu. Letter from Harry Whitford of Soyastern. 1987. Dec. 14. He makes about 900 kg/week of organic nigari tofu. Form filled out by Christian Nagel. 1988. Jan. Their tofu was introduced in August 1984. They are now making 1200-1500 kg/month. Label. Inhalt: 1000 gm. 1988. 2.5 by 3 inches. Blue or black on white.

Manufacturer's brochure. 1989? "Nagel's Tofu." 4

© Copyright Soyinfo Center 2013

panels. Black on blue. The company name seems to be Tofu-Manufaktur Christian Nagel GmbH. Discusses: The essential merits/advantages of tofu (Rich in high quality protein, protein complementarity, low in calories, free of cholesterol, rich in vitamins and minerals, easily digestible, versatile in the kitchen). Includes 8 tofu recipes, plus a graph showing the number of kilograms of protein obtainable from one hectare of land using various protein sources.

Poster. 1989. "Nagel's Tofu." 23 by 16 inches. Dark blue, green, black and light blue on white.

Report of visit to Christian Nagel's tofu company in Hamburg, by Anthony Marrese 1989. Dec. Marrese enclosed two leaflets, a post card and a progression of four tofu labels, over 5½ years; the oldest on the top left and the current one on the lower right.

Talk with Christian Nagel. 1990. May 4. The company name was Christian Nagel Tofumanufaktur until 1 Jan. 1989, when it was changed to Tofumanufaktur Christian Nagel GmbH. The original address was Oelkersallee 14a, D-2000 Hamburg 50, West Germany. He moved to his present address on 1 Aug. 1986. His first product was called Tofu Natur.

Note: This is the earliest known commercial soy product made by Christian Nagel.

6657. Del Valle, F.R.; Alba, E. de; Mariscal, G.; Jimenez, P.G.; Arellanes, J.A.; et al. 1984. Simultaneous curdling of soy/cow's milk blends with rennet and calcium or magnesium sulfate, utilizing soymilk prepared from soybeans or full-fat soy flour. *J. of Food Science* 49(4):1046-52. July/Aug. [11 ref]

• ***Summary:*** The method produced curds of similar characteristics (yield and compactness) regardless of whether the soymilk was made from whole soybeans or full-fat soy flour. Address: 1. President, Fundacion de Estudios Alimentarios y Nutricionales, A.C., Apartado Postal 1545, Sucursal O, Chihuahua, Chihuahua, Mexico; and Prof. of Food Science, Facultad de Ciencias Quimicas, Univ. 6658. **Product Name:** Tofu Blend Dressing [Blue Cheese, Creamy Ranch, Creamy Italian, or Thousand Island].
Manufacturer's Name: Eastern Foods Corp.
Manufacturer's Address: 3225 E. Hennepin Ave., Minneapolis, MN 55413.
Date of Introduction: 1984. August.
Wt/Vol., Packaging, Price: 12 oz plastic cup.
How Stored: Refrigerated.
New Product–Documentation: Regulatory Letter from FDA. 1984. Aug. 27. Labels (lids) shown in color brochure titled "Eastern Foods." "Naturally Low Calorie. ½ the calories of regular dressing. Stir before using." Talk with Mr. Lee. 1987. Nov. 11. This product had excellent taste and 6 week shelf life. Discontinued because of shelf life problems. The products were made at his plant.

6659. **Product Name:** Tofu Blend Dip [French Onion, or Jalapeno].
Manufacturer's Name: Eastern Foods Corp.
Manufacturer's Address: 3225 E. Hennepin Ave., Minneapolis, MN 55413.
Date of Introduction: 1984. August.
Wt/Vol., Packaging, Price: 8 oz jar.
How Stored: Refrigerated.
New Product–Documentation: Regulatory Letter from FDA. 1984. Aug. 27. The product does not contain jalapeno peppers. Labels (lids) shown in color brochure titled "Eastern Foods." "Naturally Low Calorie. ½ Calories of Regular Dip." Letter from Tom Menie. The product was introduced in 1985, made at the Eastern Foods Plant, and sold in 8 oz jars.

6660. **Product Name:** Soy Milk.
Manufacturer's Name: Eastern Foods Corp.
Manufacturer's Address: 3225 E. Hennepin Ave., Minneapolis, MN 55413.
Date of Introduction: 1984. August.
New Product–Documentation: Regulatory Letter from FDA. 1984. Aug. 27. The term "Eastern Flavor" should be deleted from the label of the company's "Soy Milk."

6661. **Product Name:** Tofruit (Tofu-based Yogurt with Fruit) [Orange, Raspberry, Black Cherry, Strawberry, or

© Copyright Soyinfo Center 2013

Blueberry].
Manufacturer's Name: Eastern Foods Corp.
Manufacturer's Address: 3225 E. Hennepin Ave., Minneapolis, MN 55413.
Date of Introduction: 1984. August.
New Product–Documentation: Regulatory Letter from FDA. 1984. Aug. 27. Color photo of product in brochure titled "Eastern Foods." It is sold in 8 oz plastic cups like yogurt. Looks like a tofu-fruit blend, parfait, or non-fermented yogurt; Ostman. 1985. Public acquires a taste for tofu. Morning Pioneer News Dispatch (St. Paul, Minnesota). Sept. 15. p. 1G, 3G. "The company now has Tofruit (resembling yogurt)..." Talk with Mr. Lee. 1987. Nov. 11. This product was sold for several years in Minneapolis. Discontinued because of shelf life problems. Letter from Tom Menie. 1988. June. Introduced in March 1985. Not fermented.

6662. Estella, Mary. 1984. Spotlight: Restaurant. The Five Seasons, Jamaica Plain, Massachusetts. *Soyfoods.* Summer. p. 8.

6663. Finley, David; Goldberg, Ray. 1984. Kikkoman Corporation. Unpublished Harvard Business School Report. 33 p. No. 9-585-102. [10 ref]
• ***Summary:*** A ten year update on the original 1974 Harvard Case Study of Kikkoman and one of the best insights available into Kikkoman's history and operations (although some of the data has been disguised for competitive reasons). Kikkoman sales in 1982 were about $547 million.

Contents: Early diversification–The wine industry. Company history. Soy sauce production. The soy sauce industry. Structural change. Kikkoman strategy. Expanding soy sauce sales in Japan. Diversifying into other food products (Kikko Foods was established in 1961). Development of the U.S. market. New businesses (Restaurant, health food, and leisure). Technological innovation. Final considerations.

Exhibits. 1. 30 top Japanese food companies in FY (Fiscal Year) 1982, with sales. (1) Kirin Brewery, (2) Suntory, (5) Yuki-jirishi / Snow Brand Milk Products, (6) Ajinomoto, (8) Meiji Milk Products, (9) Nisshin Flour Milling, (10) Morinaga Milk, (19) Showa Sangyo, (20) Nisshin Oil, (23) House Food, (25) Kikkoman.

3. Quantity of soy sauce produced and market share of major Japanese manufacturers. 1982 soy sauce market share was Kikkoman 30.4%, Yamasa 8.9%, Higashimaru 4.6%, Higeta 3.0%, and Marukin 2.5%. Thus the top 5 had 49.4% of the market. 5. Change in per capita food intake (1975-79). 6. Kikkoman financial data. 8. List of main products. 9. World per capita wine consumption by country. France is tops with 90 liters/person/year. 11. Growth through diversification. In 1964 soy sauce accounted for 87% of Kikkoman's sales, in 1983 for 59%. 12. 1980 Asian population of the U.S. by state. Total: California 1,253,987. Hawaii 583,660. New York 310,531. Illinois 159,551. Texas 120,306. New Jersey 103,842. Washington state 102,503.

Oriental immigrants to the USA 1972-81. Total. 1,794,682. From Philippines 375,517. Korea 290,322. Vietnam 233,274. China and Taiwan 213,908. Address: 1. Research Associate; Prof., Harvard Business School, Boston, Massachusetts 02163.

6664. Fiske, Doug. 1984. Soyfoods in the supers [supermarkets]. *Soyfoods.* Summer. p. 18-23. Cover story.
• ***Summary:*** Gives an in-depth look (see next page) at the marketing strategies of Legume Inc., Tomsun Foods, Eden Foods, Vitasoy, Tempehworks, Nasoya, Eden Foods, Soyfoods of America (Furama and Naturespring brands), White Wave, Hinode Tofu Co., Tofu Time (Tofutti), and Nasoya.

Eden Foods of Clinton, Michigan, has been involved with natural foods for 15 years, but only within the past year have they been able to establish a beachhead in supermarkets with their miso, soymilk, and soy sauce products. They are presently selling through 5 chains representing about 50 individual stores. Supermarket sales now account for about 10% of their $7.5 million yearly sales.

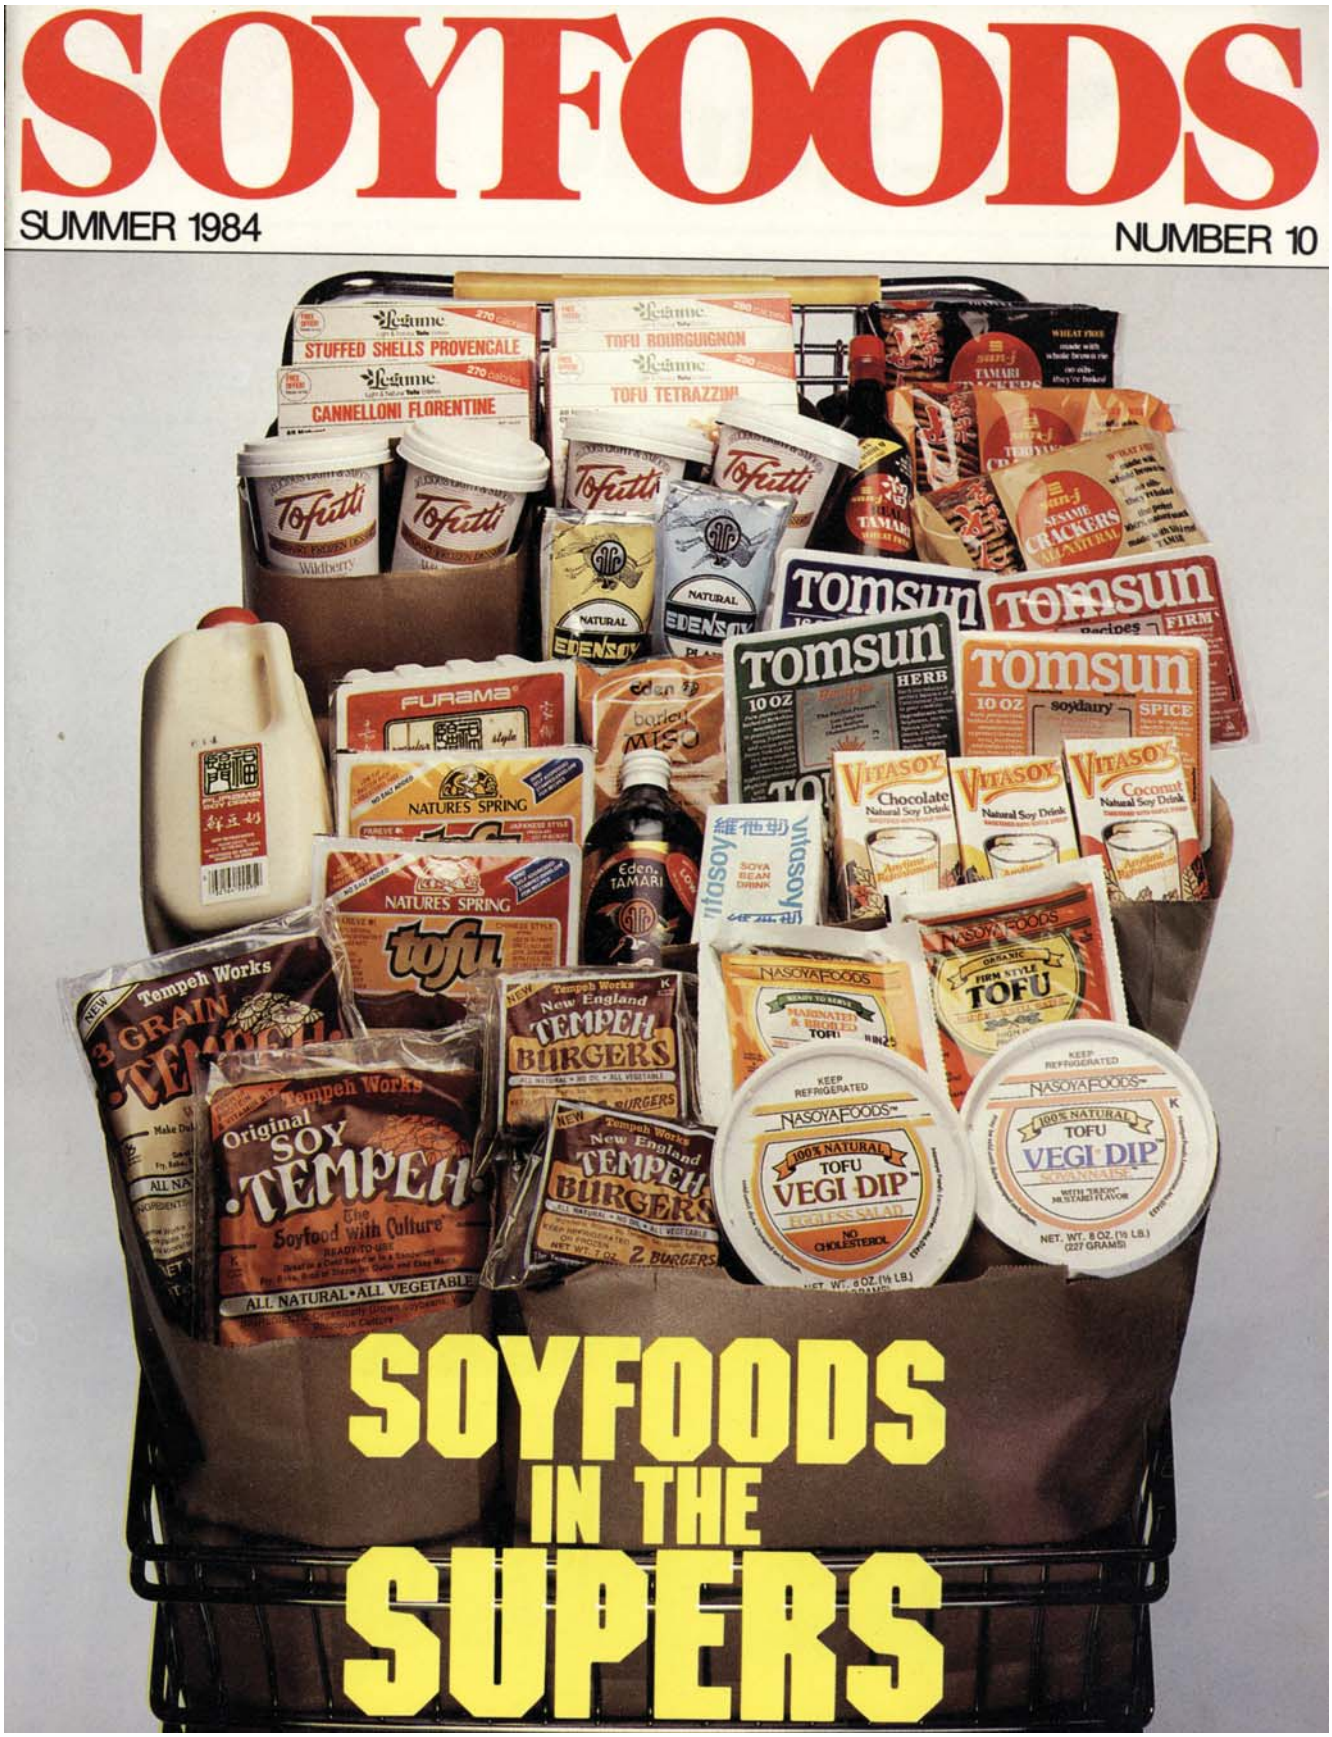
6665. *Food Engineering.* 1984. Vegetable proteins: Topics from nutrition to cancer prevention to dietary fiber were presented by soy protein suppliers at the IFT [Institute of Food Technologists] show. 56(8):116, 119. Aug.
• ***Summary:*** A.E. Staley makes Textured Procon, textured soy protein concentrates. Central Soya makes Response, structured soy concentrate. Cargill makes Textratein, textured soy flours in 3 particle sizes used as partial ground meat replacers. "Among the ingredients from Kikkoman International were dehydrated miso and dehydrated tofu from soy, and dehydrated HVP (hydrolyzed vegetable protein) from soybean meal and corn gluten." Hercules highlighted its standard and Luxor lines of HVPs for mild and beef-like flavors, and its capacity to customize HVPs to customer need. A brief summary is given of research indicating that miso may prevent cancer.

6666. House, S.L. 1984. Spotlight: Institutional foodservice. Alive Polarity, Murrieta, California. *Soyfoods.* Summer. p. 6.
• ***Summary:*** "Northeast of San Diego and southeast of Los Angeles lies a peaceful place where people can go for a day, a week, a month to experience spiritual renewal and better health practices. Among other diverse activities, Alive Polarity's Murrieta Hot Springs offers mudbaths, marriage counseling and superb vegetarian cooking."

"The lacto-vegetarian diet offered at Alive Polarity emphasizes purifying, health-building and gourmet dishes. Soyfoods make up a large part of the menu.

"'More than 50 percent of our meals contain soy

© Copyright Soyinfo Center 2013



© Copyright Soyinfo Center 2013

products,' says Breese English, kitchen manager. Tofu is by far the soyfood used most often because it's so receptive; it adds little flavor of its own yet takes on the flavor of ingredients used with it. 'I'd say we consume at least 70 pounds a day."

"Alive Polarity's restaurant serves breakfast, lunch and dinner buffet style, totaling about 1000 meals daily."

"While tofu is a primary ingredient in many of the recipes, other soy products are used extensively as well. Bragg's Liquid Aminos and tempeh are two products that have found a place in Alive Polarity's kitchen.

"Bragg's is a liquid mineral soy bouillon often used instead of soy sauce or tamari. Its slightly less salty flavor had made it a popular item for the cooks as Mary Ann Beauchamp attests. 'I use it in almost everything, sauces, salad dressings, soups.' About 25 gallons of Bragg's Liquid Aminos are consumed weekly.

"Tempeh is the third most popular soy product used. Tempeh is a complete protein food with a texture that lends itself to hearty foods and entrees. Used in place of hamburger for summer barbecues, tempeh burgers are very popular. The kitchen staff estimates they use about 400 tempeh patties a week.

"Two soyfoods recently introduced at Alive Polarity include soymilk and Tofutti. Given that almost 20 gallons of soymilk are consumed weekly, it appears it's already gained acceptance among the clientele."

"Mary Ann Beauchamp, whose mother is Japanese explains, 'My mother is amazed with the things we do with tofu. The Japanese use tofu in traditional ways for specific purposes. I don't feel that they experiment or work with it as we do.' For example, Beauchamp explains a favorite recipe, Tofu Tidbits. 'You take cubes of tofu and bread them in a mixture of flour, nutritional yeast, herbs and spices. Then layer the cubes in a pan with a small amount of oil. Bake for an hour at 500º. Serve with tartar sauce and lemon wedges, it's fantastic. People just love it.'"

A photo shows the staff: Jane Buck, Breese English, Mary Ann Beauchanp, and Diane Luzzi. Contains a "favorite recipe" for Tofu french toast.

6667. Kawanishi Shoko Co. Ltd. 1984. An industry leader in tofu & soymilk processing and packaging equipment (Ad). *Soyfoods.* Summer. Rear cover.
• ***Summary:*** "Over 100 customers in the USA alone. Competitive prices, wide selection of equipment, unbeatable service." Address: Mike Haraguchi, 4713 Levelside Ave., Lakewood, California 90712.

6668. Kovats, Susan K.; Doyle, M.P.; Tanaka, N. 1984. Evaluation of the microbiological safety of tofu. *J. of Food Protection* 47(8):618-22. Aug. [21 ref]
• ***Summary:*** A key study of major practical importance to tofu makers. Fresh tofu was made using accepted production methods, inoculated with four bacterial pathogens, and held at different temperatures. The tofu was packaged both in sterile plastic tubs filled with sterile water, and vacuum packed in Saran-coated Mylar pouches.

Clostridium botulinum toxin (which causes botulism) was produced in water packed tofu held at 15ºC (59ºF) within 3 weeks. Toxin was not produced at either 4ºC (39ºF) or 10ºC (50ºF) within 6 weeks. *Staphylococcus aureus* and *Salmonella typhimurium* grew in tofu at 10ºC (50ºF) and above, but it did not grow, rather it decreased in number during storage at 5ºC (41ºF). *Yersinia enterocolitica* (which is psychrotrophic, preferring low temperatures) grew in all tofu at all temperatures evaluated.

The study showed that there was no significant difference in microbiological growth between water packed and vacuum packed tofu. Hence, tofu manufacturers, distributors, retailers, and consumers should store tofu at 5ºC (41ºF) or less. The study concludes that "the potential microbiological hazards of tofu produced under insanitary conditions and/or improperly stored are great... Results of these studies substantiate the need for: (a) implementing a high level of sanitary practices during tofu production and packaging, (b) pasteurizing tofu after packaging, and (c) refrigerating tofu after packaging and during storage and display." Address: Food Research Inst., Univ. of Wisconsin, Madison, WI 53706.

6680. Wu, H.M.; Peng, A.C. 1984. Textural properties of Ohio curd. *Ohio Agricultural Research and Development Center, Research Circular* No. 282. p. 3-6. Aug. [10 ref]
• ***Summary:*** Ohio curd was prepared by adding whey protein concentrate (WPC) at 3, 4.5, 5.25 and 6% (w/v) to soymilk, mixing with 0.6% (w/v) dried glucono-delta lactone, heating at 85ºC for 215 minutes, cooling under a running cold tap for 25 minutes, then refrigerating. Textural properties of the curd (stiffness, firmness, bioyield point [force required to rupture the curd surface], relaxation, plasticity) were studied. The first three properties all increased as WPC concentration increased from 3 to 6%. Address: Dep. of Horticulture and Ohio Agricultural Research & Development Center, Ohio State Univ., Wooster, Ohio 44691.

6681. **Product Name:** [Yoshikawa Nigari {For Making Tofu}].
Manufacturer's Name: Yoshikawa Shoji Co.
Manufacturer's Address: Honmachi Wako Building, 2-50 Kita-Kyuhoji-machi, Higashi-ku, Osaka, Japan.
Date of Introduction: 1984. August.
New Product–Documentation: Ad in Soyfoods. 1984. Summer. p. 46. "Since 1861. We've been making high-quality nigari for 5 generations. Factory in Okayama. U.S. Agent: Island Spring."

6682. Nordquist, Ted. 1984. Re: New developments with tofu at Aros in Sweden. Letter to William Shurtleff at Soyfoods Center, Sept. 6. 1 p. Typed, with signature on letterhead.
• ***Summary:*** "The company continues to expand, sales have doubled each year since we started in 1980. We now have steam injected cooking and pasteurization with a 30 day shelflife on all six products: Tofu (12% protein, made with nigari), tofu (8% protein, made with calcium sulfate), tofuburgers, tofulindstrom (red beets), Indian curry and marinated tofu. We will soon introduce tempeh, deep fried and marinated. We also plan to introduce a sandwich spread much like liverwurst in consistency before the end of this year.

"We produce about 108 kg of tofu per hour now and between 1.5 and 2 tons of products per week. I will be attending the first European Soyfoods Workshop, Sept. 27-28 in Amsterdam...

"Would you please write a short resume about your work so I can submit it to the right people for the Alternative Nobel Prize" [Right Livelihood award].

Across the top of this handsome letterhead are three logos: (1) Left: aros sojaprodukter örsundsbro shows a little blue Viking with a horned helmet and big red heart. (2) Center: Aros. (3) Right: A Soyfoods Center, Sweden, with the California Soyfoods Center logo in all blue.

Enclosed with the letter: (1) Eight-panel brochure of "What is tofu?" and tofu recipes. (2) Aros mail order catalog (1 sheet, 8½ x 12 inches, blue on beige, 3 panels each side), with 8 books, a tofu kit, nigari, tempeh starter, and koji for making miso or amazake. Address: President, Aros Sojaprodukter, Bergsvagen 1, S-190 63 Orsundsbro, Sweden. Phone: 0171-604 56.

6684. Carroll, Maurice; Rimer, Sara. 1984. New York day by day: Tofu on the mind. *New York Times.* Sept. 14. p. B3.
• ***Summary:*** "Some might say that David Mintz, the Brooklyn man who invented the nondairy frozen tofu dessert known as Tofutti, is obsessed with tofu."

The founder of Tofu-Time Inc., Mr. Mintz dreams of tofu. "He spends hours in the kitchen concocting Tofutti flavors and recipes with the product made from fermented soybean curd such as tofu beef stroganoff and tofu brownies.

He married last year and his wedding cake was made of tofu.

And now, just in time for the Jewish New Year (Rosh Hashanah), Mr. Mintz has developed three special nondairy recipes: Tofu matzoh balls, Tofu noodle pudding (recipe given, calling for 1 pound tofu), and Tofu honey cake.

Note: Neither Tofutti nor any of the other dishes mentioned above is made with "fermented soybean curd" [fermented tofu]. The stroganoff and brownies are made with regular tofu–which is not fermented. The cake probably had icing / frosting, including layers, made of sweetened, blended tofu.

Chajuss Ltd." is a limited or incorporated company that was jointly owned by Daniel and his father. Daniel Chajuss attended this Soyfoods Workshop as a "delegate" of E.M. Chajuss Ltd. company.

Note 3. This is the earliest document seen (July 2006) that mentions Wessanen of the Netherlands. Address: Brussels, Belgium.

6688. **Product Name:** New York Soy Deli Tofu Cheddar Spread.
Manufacturer's Name: Appropriate Foods, Inc.
Manufacturer's Address: 137 New Hyde Park Rd., Franklin Square, Long Island, NY 11010.
Date of Introduction: 1984. September.
Ingredients: Cheddar: Organic tofu, carrots, tahini, miso, umeboshi, black olives, pimentos, onions, sea salt.
Wt/Vol., Packaging, Price: 7 oz.
How Stored: Refrigerated.
New Product–Documentation: Label. 1984. New York Soy Deli Brand. 1.5 by 3 inches. Black on orange. Interview with Robert Werz. 1987. Sept. 9.

6689. **Product Name:** New York Soy Deli Tofu Salad [Deviled, or Garden Chive].
Manufacturer's Name: Appropriate Foods, Inc.
Manufacturer's Address: 137 New Hyde Park Rd., Franklin Square, Long Island, NY 11010.
Date of Introduction: 1984. September.
Ingredients: Chive: Organic tofu, tahini, umeboshi, lemon, chives, radish, carrots, brown rice, vinegar, sea salt.
Wt/Vol., Packaging, Price: 7 oz.

© Copyright Soyinfo Center 2013

How Stored: Refrigerated.

6690. **Product Name:** New York Soy Deli Tofu Ricotta.
Manufacturer's Name: Appropriate Foods, Inc.
Manufacturer's Address: 137 New Hyde Park Rd., Franklin Square, Long Island, NY 11010.
Date of Introduction: 1984. September.
Ingredients: Organic tofu, tahini, miso, umeboshi vinegar, tamari, herbs.
Wt/Vol., Packaging, Price: 7 oz.
How Stored: Refrigerated.
New Product–Documentation: Label. 1984. New York Soy Deli Brand. 1.5 by 3 inches. Brown on yellow. Interview with Robert Werz. 1987. Sept. 9.

6691. **Product Name:** Oregon Baked Tofu, and Curry Baked Tofu.
Manufacturer's Name: Ashland Soy Works.
Manufacturer's Address: 280 Helman St., Ashland, OR 97520. Phone: 503-482-1865.
Date of Introduction: 1984. September.
Ingredients: Oregon: Tofu (water, organically grown soybeans, natural magnesium chloride or nigari: a derivative of seawater), soy sauce, oil, garlic, honey, spices. Curry: Tofu, soy sauce, oil, peanut butter, honey, onion powder, spices.
Wt/Vol., Packaging, Price: 8 oz.
How Stored: Refrigerated.
New Product–Documentation: Label. 1987. 4 by 3 inches. Self adhesive. Orange or yellow and brown on white. Talk with Diana Muhs. 1988. Feb. 10.

6692. Berry, Linden. 1984. The soy of cooking. *Women's Sports* 6:40-41. Sept.
• ***Summary:*** A brief introduction, without recipes, to tofu, tempeh, miso, and shoyu. "You don't have to be a vegetarian to eat and enjoy soy foods... Look for cookbooks with recipes for using these soy foods at your local bookstore. There are lots of delicious and healthful alternatives to meat that await you."

6693. Beversdorf, W.D. 1984. Development of new soybean varieties for soy foods [in Canada]. In: Ontario Ministry of Agriculture and Food, Market Development Branch. 1984. Workshop on Export Markets for Ontario Soybeans: Edited Proceedings. 45 p. See p. 18-20. Held 5 Sept. 1984 at Wheels Motor Inn, Chatham, ONT, Canada. 28 cm.
• ***Summary:*** "Historically, soybean breeding efforts in Canada have been directed toward improving yields, increasing the area of adaptation (to shorter season and cooler geographic areas) and improving pest tolerance. As soybean production has increased toward domestic self-sufficiency, the industry has placed more emphasis on development, production, and marketing of special quality beans for specific non-oil export markets...

"In Canada, yield of soybeans per unit land area has remained a primary consideration in soybean breeding (except for natto-type beans) because of licensing requirements for pedigreed seed production and marketing. Among high yielding breeding lines, large seed size, white or yellow hilum colour and high seed quality (resistance to discolouration and cracking) are common selection criteria associated with tofu and miso export potential."

Canadian soybean breeders are generally aware of the characteristics defined during the 1982 "Soybean Export Mission to South East Asia" for various soyfood uses. These desired soybean characteristics are shown in Table 1 for natto, miso, tofu, soymilk, and soy sprouts. Address: Assoc. Prof., Univ. of Guelph, Guelph, ONT, Canada.

6694. Chan, Fred. 1984. General uses of soybeans in Hong Kong and competition from Chinese soybeans. In: Ontario Ministry of Agriculture and Food, Market Development Branch. 1984. Workshop on Export Markets for Ontario Soybeans: Edited Proceedings. 45 p. See p. 15-17. Held 5 Sept. 1984 at Wheels Motor Inn, Chatham, ONT, Canada. 28 cm.
• ***Summary:*** Tofu: The two major types of tofu in Hong Kong are soft tofu (which is displayed in water to maintain its form) and mild tofu (which is firmer, is displayed on wooden planks, and is the most common type). Chinese soybeans are preferred to Canadian soybeans because after a maximum of 5 hours on display in the open market, water will start to weep from the tofu made from Canadian soybeans. In 1983, about 6,000 tonnes of imported soybeans were used to make tofu in Hong Kong; this was about 33% of the total soybeans imported.

Bean curd sheets and bean curd sticks [yuba] are very common snacks and dishes in Hong Kong. "Canadian soybeans have an advantage in this market because they produce whiter soymilk which in turn will produce whiter colour products. However, the bigger size of the Chinese soybean results in a higher yield... Manufacturers will normally mix 60% of Canadian soybeans with 40% of Chinese soybeans in order to achieve a higher output of whiter sheets... Total utilization was around 4,000 tonnes in 1983, with Canadian soybeans representing 78%.

Soy sauce and bean paste: The market is dominated by Chinese soybeans because bigger beans produce more sauce and paste. In 1983 approximately 6,000 tons of soybeans were used to make soy sauce and bean paste, with Chinese soybeans representing 75%, Vietnamese 14%, and Canadian 11%.

Soymilk: In 1983 about 1,800 tonnes of soybeans were used to make soymilk in Hong Kong, mostly by Vitasoy.

© Copyright Soyinfo Center 2013

Chinese and Canadian soybeans each share about 50% of the market.

Discusses various reasons that Chinese soybeans are very competitive in Hong Kong. The Chinese Oil, Cereal and Foodstuff Company in Hong Kong has an office in Hong Kong. Under this national organization are two agents specializing in Chinese soybeans. Transport time from China to Hong Kong is 7 days versus 32 days from Canada. Address: Director, Chung Hing Co., Hong Kong.

6695. Chen, Steve. 1984. Soyfoods in the Far East and USA: Products, markets, trends. In: American Soybean Assoc., ed. 1984. First European Soyfoods Workshop, Proceedings. Brussels, Belgium: ASA. 36 p. See p. C1-C38. Held Sept. 27-28 at Amsterdam, Netherlands. [11 ref]

• ***Summary:*** Contents: Summary. 1. Introduction: Ten reasons why soybeans will be a key protein source for the future. 1. Soyfood products. A. Non-fermented soyfoods: Fresh green soybeans, soybean sprouts, soynuts, soymilk, soy flour, yuba or soy protein film, tofu. B. Fermented soyfoods: Soy sauce, miso, tempeh, natto, fermented tofu, fermented black soybeans (tou-shih, hamanatto). 3. Soyfoods markets and trends in the Far East: Taiwan, China, Japan, South Korea, Indonesia, Malaysia, Singapore, Thailand, Philippines. 4. Soyfoods markets and trends in the U.S. 5. References. Plus 15 tables and 8 figures.

"It is our [American Soybean Association's] strong intention that marketing and consumption of soy protein should not in any way deter the expansion of the production and sale of as much animal protein as the world can be expected to produce in the years ahead. Soy protein foods are being intentionally brought to the market to complement and not necessarily to replace animal protein products."

"Taiwan imported 1.41 million tonnes (metric tons) of soybeans in 1983 and used about 250,000 tonnes as soyfoods for direct human consumption, which made Taiwan one of the highest in per capita consumption of soyfoods (13.2 kg or 29 lb) in the world. In the past 10 years (1974-1983), the consumption of traditional soyfoods showed an average increase of 3% per year as compared to 12% and 8.1% for poultry and soy oil, respectively. The market for packaged soymilk, soy pudding and tofu has also been expanding rapidly in recent years in Taiwan." Table 7 shows the production of soymilk in Taiwan, which grew from 103,600 tonnes in 1974 to 210,000 tonnes in 1983, for an average growth rate of 8.2% a year.

China produces about 9 million tones of soybeans a year, and about half of these are consumed as soyfoods, giving a per capita consumption of 4.5 kg of soyfoods. "An improvement in the general economy and soyfood technology and equipment will bring a sharp increase in soybean demand and more soyfoods consumption."

In South Korea soymilk consumption has increased more than seven-fold in the last 4 years. Currently about 10,000 tonnes of soybeans are used to make 70,000 tonnes of soymilk. "It is projected that soymilk production in Korea will double in 1984 as compared to the previous year."

Indonesia continues to be Southeast Asia's largest consumer of soybeans as food. In 1982/83 soybean consumption was 6.7 kg per capita. Indonesia consumes about 1 million tonnes of soybeans annually, 60-65% of them in the form of tofu and 35 to 40% as tempeh.

Malaysia consumes only about 30,000 tonnes of soybeans per year as food. In Singapore, more than 75% of the population of 2.5 million are Chinese. Therefore tofu, soysauce, and soymilk are the predominant traditional soyfoods consumed.

Thailand consumes about 40,000 tonnes of soybeans a year as food, mainly in the form of tofu. The Philippines uses only 5,000 tonnes of soybeans annually for food, mainly as tofu.

To summarize (Table 6), annual per capita consumption of soybeans in various East Asian countries, in descending order of the amount consumed, is as follows: Taiwan 13.2 kg (population 19 million); Japan 8.3 kg (population 120 million); South Korea 7.5 kg (population 40 million); Indonesia 6.7 kg (population 150 million); Singapore 6.25 kg (population 2.4 million); China 4.5 kg (population 1,000 million); Malaysia 2.1 kg (population 14 million); Thailand 0.8 kg (population 50 million); Philippines 0.3 kg (population 15 million). Address: Director, American Soybean Assoc., Room 603, Kwang-Wu Building, No. 386, Tun Hua South Road, Taipei, Taiwan.

Workshop on Export Markets for Ontario Soybeans: Edited Proceedings. 45 p. See p. 42-45. Held 5 Sept. 1984 at Wheels Motor Inn, Chatham, ONT, Canada. 28 cm.

• ***Summary:*** In 1954 Ontario soybean growers began to seek export markets when the Ontario Soybean Growers' Marketing Board organized the first export of Canadian soybeans to the United Kingdom.

In the late 1960s, samples of Canadian soybeans were forwarded to Pacific Rim countries to try to determine whether Canadian varieties were acceptable to the tofu and miso markets of those countries.

The replies indicated that Japanese food manufacturers preferred U.S. varieties such as Kanrich, Amsoy, Corsoy, Ohio, and I.O.M. (Indiana, Ohio, Michigan) soybeans.

In 1970 an export promotion booklet titled "Cansoy" was introduced to 52 foreign countries promoting the story of Canadian soybeans.

"Ontario soybean samples continued to be forwarded annually but received no support or interest until the spring of 1972. At that time the C. Itoh people in Toronto indicated the Harwood variety, produced by the Harrow Research

© Copyright Soyinfo Center 2013

Station, possessed qualities favorable to the manufacture of tofu and miso. C. Itoh was willing to purchase a shipment of 750 tons for further testing by some of their customers. The soybean board made several important decisions: (1) To include a letter with the soybeans from the Canadian Grain Commission stating that the shipment consisted of 85-90% Harwood variety soybeans. In other words, the identity of the Harwood variety had been preserved or maintained, and not mixed with other varieties. This marks the start of Canada's identity preserved (IP) program and a strong commitment to providing the soybean characteristics that Asian food products wanted. (2) To pay $6,920 of the total freight and stevedoring costs to Japan.

In Feb. 1982 the OSGMB sponsored its first export mission to Asia–to Japan, South Korea, Hong Kong, Singapore, and Malaysia.

Since the Harwood variety, Dr. Buzzel of the Harrow Research Station has devoted a great deal of time breeding soybean varieties suitable for the edible market. Address: Chairman, Ontario Soya-Bean Growers' Marketing Board, Chatham, ONT, Canada.

6697. Hayashi, Nobu. 1984. Users' requirements [of soybean varieties] for natto and tofu. In: Ontario Ministry of Agriculture and Food, Market Development Branch. 1984. Workshop on Export Markets for Ontario Soybeans: Edited Proceedings. 45 p. See p. 12-14. Held 5 Sept. 1984 at Wheels Motor Inn, Chatham, ONT, Canada. 28 cm.
• ***Summary:*** From January to June 1984 soybeans imported to Japan from the USA had the lowest CIF price (US$331.31 per tonne), followed by soybeans from China ($350.16), with Canadian soybeans being the most expensive ($408.62).

The preferred characteristics of soybeans for natto are: Small in size, round in shape, and clear hilum. Beans should have a firm skin (seed coat) free of cracks. High sugar and amino acid contents. High carbohydrate and low calcium contents. "However the real suitability of the soybeans is determined by the taste of the natto."

The preferred characteristics of soybeans for tofu are: High protein and low oil contents, especially a high nitrogen solubility index (NSI) which affects the yield of tofu. The larger the seed size the better. Hilum color is not a big problem but a light-colored hilum is preferred since it may give a whiter tofu. A thin and firm skin (seed coat) which reduces the soaking time required. "Like natto, the real suitability is known only when the tofu is tasted." For all soybeans, it is very important that the price be competitive. Address: Gomei Shoji Co., Tokyo, Japan.

6698. Jones, Paul. 1984. Tofu in the European diet–Fashion or foodstuff? Lecture presented at the First European Soyfoods Workshop. Held 27-28 Sept. 1984 at Amsterdam, The Netherlands. *
• ***Summary:*** Note: According to a letter from Bernard Storup dated 22 March 1984, Paul's Tofu had moved to this new address by that date. But he planned to move again. Address: Paul's Tofu, The Old Brewery, Wheathampstead House, Wheathampstead St. Albans, Hertfordshire, England. Phone: 058 283 42 41.

6699. Kooij, J.A. van; de Boer, E. 1984. Microbiological aspects of soyfoods. In: American Soybean Assoc., ed. 1984. First European Soyfoods Workshop, Proceedings. Brussels, Belgium: ASA. 131 p. See p. I1-I15. Held Sept. 27-28 at Amsterdam, Netherlands. [20 ref]
• ***Summary:*** "To learn more about the microbiological quality and safety of tempeh and tofu a survey was carried out by the working party 'Fungi in Foods' in the summer and autumn of 1983. The products were sampled in stores, restaurants and production places throughout the Netherlands and analyzed by using standard microbiological procedures...

In 110 samples of tempeh: "About 10% of the samples contained *Staphylococcus aureus* and *Bacillus cereus* in numbers which may cause food intoxication. However, the *S. aureus* strains isolated in this survey proved to be non-enterotoxigenic. *Yersinia enterocolitica* (non-pathogenic serotypes) was found in 6 samples. *Salmonella* was not isolated from any of the samples tested...

"In 154 samples of tofu: 2.1% had more than 100 counts/gm of *Staphylococcus aureus;* 11.2% had more than 100 counts/gm of *Bacillus cereus.* And 36.3% had more than 100 counts/gm of *Escherichia coli.* "About 95% of the samples appeared to have an aerobic count over 1,000,000 colony forming units (cfu) per gram. This means that there is a very great proliferation of bacteria after the production, for immediately after the production the aerobic plate count is usually below 10,000 cfu/g. This indicates that the tofu had been stored improperly or for too long. The average pH of tofu immediately after production was about 6.5, but at the time of sampling it averaged 5.2. But 5% of the samples had a pH of less than 4.5, and 16% has a pH of 4.5 to 4.9. These low pH values indicate sour/acidic products caused by large numbers of lactic acid bacteria. "In 0.7% of the tofu samples *Bacillus cereus* and *Staphylococcus aureus* were present in numbers that may cause food intoxication. The presence of *B. cereus* was probably caused by an outgrowth of the spores which survived the heat treatment. This indicates that the tofu must have been stored at too high a temperature during a long period (12–48 hours).

"The presence of *S. aureus* can be explained by a bad hygienic practice during production, after the heat treatment step. *Salmonella* was not found in any of the tofu samples." Address: Food Inspection Services, Netherlands.

6700. Loh, Michael. 1984. An overview of export markets for edible soybeans. In: Ontario Ministry of Agriculture and Food, Market Development Branch. 1984. Workshop on Export Markets for Ontario Soybeans: Edited Proceedings.

© Copyright Soyinfo Center 2013

45 p. See p. 1-9. Held 5 Sept. 1984 at Wheels Motor Inn, Chatham, ONT, Canada. 28 cm.
• ***Summary:*** "Ontario first exported edible soybeans in 1972 and over 12 years have built it into a $40 million business. 1981 was our best year when exports totalled $46 million... The bulk of Ontario's soybean exports are sold to the Far East [East Asia]–Japan ($8 million in 1983), Singapore ($6 million), Hong Kong ($3.5 million), Malaysia ($1 million), Indonesia, and Korea." In these countries soybeans are consumed in the daily diet of the people. In Japan, for example, they are made into miso, tofu, natto, soymilk and shoyu. Korea also makes soy sprouts, Indonesia makes tempeh, and Singapore, Malaysia, and Hong Kong make dried yuba. In addition, sales to the Netherlands, United Kingdom, and France are quite significant.

Concerning Ontario's market share of soybean imports for food use: Japan imports 877,300 tonnes, of which 27,000 tonnes or 3.1% is from Ontario. Singapore and Malaysia import 36,000 tonnes, of which 20,000 tonnes or 55.0% is from Ontario. Hong Kong imports 20,000 tonnes, of which 10,000 tonnes or 50.0% is from Ontario.

Japan's sources of its 877,300 tonnes of imported soybeans are as follows: USA 570,000 tonnes (65%), China 280,000 (32%), Canada 27,000, South America 300.

Japan uses its 877,300 tonnes of imported soybeans as follows: tofu 485,000 tonnes (55.3%), miso 180,000, natto 185,000, soymilk 25,000, cooked soybeans 10,000, shoyu 6,500, other 85,800. Within these figures, Ontario's soybeans are used as follows: Miso 20,000 tonnes (11.1% of the total), natto 5,000 tonnes (5.9%), and tofu 2,000 tonnes (0.4%). Address: Export Development Specialist, Ontario Ministry of Agriculture and Food, Toronto, Canada.

6701. Martin, Michael. 1984. World supply and demand for soybeans with special reference to soyfoods. In: American Soybean Assoc., ed. 1984. First European Soyfoods Workshop, Proceedings. Brussels, Belgium: ASA. 131 p. See p. B1-B32. Held Sept. 27-28 at Amsterdam, Netherlands.
• ***Summary:*** The author estimates that European soymilk consumption is about 9-10 million liters / year, which is very small compared to European cow's milk consumption of 22,000 million liters/year. European tofu consumption is estimated at 5-6 million kg/year, which is about one-fourth of U.S. tofu consumption. Other estimates for Europe consumption are: Miso 250,000 to 300,000 kg/year; Soy protein products (probably mostly isolates and concentrates) 40,000,000 kg/year; soy oil 1,700,000 tonnes/year. Europe has a fairly small ethnic population, about 1,000,000 people compared to 3,500,000 in the USA. Europe presently has some 20-25 tempeh companies producing an estimated 400,000 to 500,000 kg/year compared to 900,000 kg/year in the USA. Europe, and especially the Netherlands, are moving ahead quickly with tempeh.

The European food market is more fragmented, diverse, and conservative than its American counterpart. "The European consumer expects freshness and quality as a matter of course, and does not expect to pay a premium for these."

"It is well known that the European healthy foods market is booming. It is part of a much wider social trend which involves ecology and politics, real environmental concerns, alternative medicine and coping with unemployment, an aging population, and a minimum growth economy. It places emphasis on quality of life, individualism and cooperation. It does not exclude any age group.

"Soyfoods will increasingly find a place in our daily diets, but not without significant changes in the existing soyfoods industry, with above all greater attention to product quality and product marketing."

Appendix 1 (p. B-12) lists 9 U.S. "suppliers of food-grade soybeans in small quantities suitable for" tofu manufacturers.

Pages B15 to B32 contain numerous other tables, 8 of them reprinted without permission from *Soyfoods Industry and Market: Directory and Databook*, by Shurtleff & Aoyagi. Address: American Soybean Assoc., Centre International Rogier, Bte 521, 1000 Brussels, Belgium.

6702. **Product Name:** Soft Tofu, Firm Tofu, Extra Firm Tofu, Yellow Tofu, Tofu Triangles, Five-Spice Tofu, Tofu Hwa (Curds).
Manufacturer's Name: Mei Shun Tofu Products Co.
Manufacturer's Address: 523 West 26th St., Chicago, IL 60616. Phone: 312-842-7000.
Date of Introduction: 1984. September.
New Product–Documentation: Talk with Louis Hong, company founder and owner. 1991. March 12. He is a Chinese-American. He started the company in Sept. 1984.

6703. Mwangi, -. 1984. The Jamaica nutrition project. *Yard Roots Reports* (*Oakland, California*). Sept. p. 4-5.
• ***Summary:*** The author is working to raise $100,000 to develop a soy dairy in Jamaica to make tofu, soy-burgers, tempeh, soy milk, ice cream, mayonnaise and other products from soy beans. The Afrobean Foundation in Kingston is also interested in this idea. Two groups in Jamaica will find soy products useful in their diet. First, the more than 100,000 Rastafarians, most of whom are attempting to pursue a vegetarian diet. Second, Jamaicans of Chinese descent who have traditionally used soy products. "Most of the imported soybeans today are mainly used for making oil and for poultry and pig feed." Readers are asked to send donations to Caribbean Media and Community Resources, Inc. in Oakland, California. Address: Caribbean Media and Community Resources, Inc., 314 17th Street #188, Oakland, California 94612. Phone: (415) 536-3031.

Address: Société Soy, Plateau d'Ardennes, 91590 Cerny, France.

6706. **Product Name:** [Organic Nigari Tofu].
Foreign Name: Tofu natur.
Manufacturer's Name: Sojatopf. Renamed Soto in April 1989.
Manufacturer's Address: Friedrich-Ebert-Str. 40, D-8323 Trostberg, West Germany. Phone: 08621-62538.
Date of Introduction: 1984. September.
Wt/Vol., Packaging, Price: 300 gm vacuum pack.
How Stored: Refrigerated.
New Product–Documentation: Letter from Thomas Karas of Soyastern. 1989. April 21. List of members of new Organic Soyfoods Assoc. The owners are Prabuddha (Rolf Barthof) and Prembudda (G. Schramm).

Note: This company seems to be the same as Sojatopf, Friedrich-Ebert-Strasse 40, D-8223 Trostberg, W. Germany. Phone 08621-62538. Founded by Stefan Zauner prior to Jan. 1988.

Letter from Bernd Drosihn. 1990. May 10. This company, owned by Barthof and Schramm, is now located at Wolfsbergerstr. 47, D-8211 Breitbrunn, West Germany. Phone: 08054/1283.

Talk with Harry Whitford of West Germany. 1990. May 20. He knows Soto well and will send more info. They are a small company but are growing rapidly; they have some very good products. They moved recently to Breitbrunn, where they have a very nice, clean production room, with excellent possibilities for expansion. Sojatopf was their former name. Harry is a close friend of Prembuddha, because they are both students of the same spiritual teacher. They see one another often.

Letter (fax) from Harry Whitford. 1990. May 30. Gives full details on product based on interview with Gerhard (Oskar) Schramm. The company's original name and address are shown above. The original owner was Rolf Barthof (Prabuddha). From Oct. 1985 until July 1988 Stefan Zauner was also an owner. Then Oskar Schramm (Prembuddha) from July 1988 until the present. So the current owners are Barthof and Schramm. On 1 Jan. 1990 the company moved to Wolfbergerstr. 47, D-8211 Breitbrunn am Chiemsee, West Germany. Phone: 08054/1283. All their tofu is vacuum packed, which is the usual packaging method for tofu in Europe. Current production is 700 kg/week.

6707. **Product Name:** [Tofuburger].
Foreign Name: Tofuburger.
Manufacturer's Name: Sojatopf. Renamed Soto in April 1989.
Manufacturer's Address: Friedrich-Ebert-Str. 40, D-8323 Trostberg, West Germany. Phone: 08621-62538.
Date of Introduction: 1984. September.
Ingredients: Incl. tofu, vegetables, oatmeal, spices.
Wt/Vol., Packaging, Price: 100 gm vacuum pack.
New Product–Documentation: Letter (fax) from Harry Whitford. 1990. May 30. Gives full details on product based on interview with Gerhard (Oskar) Schramm. On 1 Jan. 1990 the company moved to Wolfbergerstr. 47, D-8211 Breitbrunn am Chiemsee, West Germany.

6709. *Yard Roots Reports* (*Oakland, California*). 1984. Plenty in Jamaica. Sept. p. 6-7.
• ***Summary:*** In the summer of 1982 the author (whose name is not given) went to Jamaica armed with a package of information on soy beans. "My dream then was to develop a soy-dairy in St. Ann's Bay, Jamaica, to produce tofu, soy milk, and ice bean [soymilk ice cream]." There was little interest among Jamaican Rastafarians (Rastas).

After returning to California, in March 1984 he met David and Joan Dixon of Oakland, California. They told him about Plenty, a relief organization run by The Farm in Tennessee, and their work with Plenty to introduce soyfoods to Jamaica. Plenty is now attempting to establish a soy dairy in the rural town of St. Ann's Bay. Plenty has tried to grow soybeans on the old Richmond Landowvery sugar estate but without much success. Joan has done soybean cookery demonstrations. Address: Caribbean Media and Community Resources, Inc., 314 17th Street #188, Oakland, California 94612. Phone: (415) 536-3031.

6710. Taj Majal Hotel (The). 1984. It all started with a tree house... Yes. Today we are happy to be able to offer you so many different ways to pamper your palate (Ad). *Times of India* (*The*) (*Bombay*). Oct. 3. p. 9.
• ***Summary:*** One of the five restaurants in the hotel is the House of Ming, which features: "The magical crispness of Jumbo Prawns. The flavourful wonder of creations like Jade Chicken, Dry Lamb in Chilli Sauce, Bean Curd with Oyster Sauce, Eggplant in Hot Garlic Sauce..." Address: Number One Mansingh Road, New Delhi 110 001, India.

6711. Vaidehi, M.P. 1984. Re: Request for tempeh culture and studies on tempeh in Bangalore. Letter to William Shurtleff at Soyfoods Center, Oct. 5. 1 p. Typed, with

signature on letterhead.
• ***Summary:*** She requests a packet of tempeh starter culture for some consumer acceptability studies. "I was one of your students at M.F.M." [Meals for Millions, in Santa Monica, California] and hope you will help me in encouraging tempeh use in Indian villages.

"In one of my studies I found that when tempeh curry and chips were served to 100 villagers and 100 urban consumers in India, the results were very promising. The consumers liked tempeh, tofu, and nutri nuggets (TVP); they liked soya curds the least." Address: Assoc. Prof. & Head, Dep. of Rural Home Science, The Univ. of Agricultural Sciences, Hebbal, Bangalore–560 024, India.

6712. Wagner, Martha. 1984. Get your tasty tofu right here, folks. *USA Today.* Oct. 5.

6713. Cohen, Richard L. 1984. Tofutti: An alternative to ice cream. *San Francisco Business Journal.* Oct. 8. p. 9.
• ***Summary:*** As a result of the success of Tofutti, Brightsong Light Foods in Petaluma, California, is planning to introduce LeTofu in soft serve and hard pack. Essentially, says Rose, Brightsong has been developing new products ever since he and his wife bought the company in 1980. They have test marketed more than 90 products. The company grossed $100,000 in 1983 expects to gross $150,000 this year. Presently about 80% of Brightsong's sales are in "secondary tofu products." The rest are in its raw tofu and marinated tofu. Quong Hop, with sales of well over 1 million a year, sells mostly basic tofu. Their Soy Deli merchandising concept is now in 13 Safeways in the Bay Area and will soon be going into the Co-op markets. But "the concept has been less than successful." A spokesperson for Safeway stated: "Only a few of the soy delis were successful. It was a good merchandising idea, but the products didn't move. There wasn't enough customer demand. The concept was ahead of its time."

A photo shows youthful Sharon and Richard Rose of Brightsong Foods.

6714. Torii, Yasuko. 1984. Re: New developments with tempeh in Japan. Tofuyo now sold in Tokyo. Letter to William Shurtleff at Soyfoods Center, Oct. 16. 2 p. transcript. Handwritten on lined paper. [Jap; eng+]
• ***Summary:*** Mrs. Torii thinks that tempeh will spread and become popular in Japan. It is now rapidly growing in popularity.

Mr. Kanasugi's restaurant Mame-no-ko opened in March 1976. He makes the tempeh in a walled-off room in his natto factory.

Takashin tempeh is served as tempeh cutlets at Alicia's in Shimokitazawa, where it is a popular entree.

The first tempeh discussion group (*Danwa-kai*) in Japan was at Kyushu University, Fukuoka, on 30 July 1984. The Japanese-language program is enclosed. The next will be in Tokyo on 9 Nov. 1984. The one after that will be in Osaka. At the first discussion group (as the program shows) the activities were speeches, discussion of winged bean tempeh, tempeh cookery, tempeh in Indonesia, and future activities. Membership is ¥3,000. Watanabe Tadao is in charge.

Preparations are now underway for the international tempeh and natto symposium (Non-Salted Soybean Foods).

Natural House sells tempeh in four places: Aoyama, Shimokitazawa, Kichijoji & Akasaka. The tempeh is made by Kanehara Shoten. Natural House also sells nigari tofu.

Mr. Kanasugi's method makes good, firm, tasty tempeh, with no dewatering. Prof. Watanabe and Mrs. Torii have both visited him and both praised the method. His tempeh miso is very delicious. She gives the recipe. Like Namé Miso it is good on sliced cucumber or with ginger.

Mrs. Torii (whose mother is Okinawan) has found Okinawan fermented tofu (*tofuyo*) sold in Tokyo; she includes a label: Tofu maker: Mr. Y. Yamada. K.K. Maruyama (also known as Okinawa Dento Shokuhin-jigyo Kyôdo Kumiai). Eight pieces in a glass jar retailed for ¥2,000. She found this product sold at two department stores in Tokyo: (1) Seibu Department Store, in Yûrakucho. (2) Matsukakaya, in Ginza. 2-10-26 Matsuo, Naha-shi, Okinawa-ken 900, Japan. Phone: (0988) 63-0236.

Mrs. Torii says tofuyo is like Chinese-style fermented tofu (*doufu-ru*) except milder and more expensive. She finds it to be delicious. It is sold in a plastic bag inside a book-sized box. It is made by Urizun, a restaurant in Naha, Okinawa. Molded tofu is immersed in a brining liquor of Ryukyu Awamori, which is clear shochu spirits.

Note: Mrs. Torii brought a small sample of *tofuyo* to Soyfoods Center in 1984 during one of her many visits. Shurtleff and Aoyagi both tasted it straight (as is) and found it the most delicious fermented tofu they have ever tasted. It would make a delicious spread on crackers. Address: Kamitsuchidana 324, Ayase-shi, Kanagawa-ken 252, Japan. Phone: 0467-76-0811.

6715. Flinders, Carol. 1984. Soy food business grows in U.S., Japan. *Hartford Courant* (*Connecticut*). Oct. 17. p. E11. [3 ref]
• ***Summary:*** "I first met Bill Shurtleff 16 years ago at the Tassajara Zen Center in Big Sur, California. Clear-eyed, slender and very thoughtful, he struck me as one of the most self-disciplined and idealistic people I'd ever met."

"And he hasn't changed a bit.

"Bill and his wife Akiko Aoyagi wrote 'The Book of Tofu' in 1979 [sic, 1975], and followed it up with 'The Book of Tempeh,' 'The Book of Miso,' and a spate of books for people in the soy foods business, the most recent being a yearly update called 'The Soyfoods Industry and Market: Directory and Databook.'

"Shurtleff and Aoyagi have probably done more than

© Copyright Soyinfo Center 2013

anyone in this country to popularize soyfoods and encourage their commercial production.

"I called them recently and they had nothing but good news. The soy foods industry has greatly benefited from the concern with too much cholesterol, and business is booming, not only in the country, but also in the part of the world where the soybean has long been king.

"Last January, the couple traveled to East Asia, where they discovered that demand for soy milk is growing faster in every country there than for any other food product. In Japan, production has doubled annually for the past five years. All the major milk companies in Japan have begun to market soy milk. They are convinced it doesn't interfere with dairy sales, that in fact it expands their overall market 'reach' and enhances their corporate image by giving the impression of being up to date and health-conscious.

"The term vegetable protein apparently has extremely positive connotations for the modern Japanese. Beef and dairy product consumption has risen enormously since World War II, but so has incidence of cardiovascular disease and cancer. The term plant protein is associated with the traditional, grain-based diet that prevailed when such ailments were rarer.

"The real driving force of the soymilk takeoff, says Bill, has to do with the technological breakthroughs made at Cornell University [Geneva, New York] and the University of Illinois that have made it possible to produce soy milk that does not taste 'beany.' Popularity of this soy milk is not confined to Japan or Indonesia, Bill's itinerary last winter included visits to four provinces in the People's Republic of China, where he gave intensive workshops in soy milk manufacturing. In the United States, seven companies have introduced it this past year, each with major promotional campaigns."

Includes a recipe for tempeh rice salad. Address: Petaluma, California.

6716. Kantha, Sharmila. 1984. Beancurd and Baratanatyam: A dancer's life seems to be a hard one, specially when on tour. When the dance troupe from Kalakshetra passed through Chengdu during its China tour,... *Times of India* (*The*) (*Bombay*). Oct. 21. p. A5.
• ***Summary:*** Note: "Kalakshetra is a cultural academy dedicated to the preservation of traditional values in Indian art, especially in the field of Bharatanatyam dance and Gandharvaveda music" (Source: Wikipedia Sept. 2010). It was founded in 1936 at Adyar, Chennai [named Madras until 1996], by Rukmini Devi Arundale, along with her husband, Dr. George Arundale.

The Indian dance company was well received in China. It asked for vegetarian meals. Meals of 15 dishes (not including rice, curds, and noodles) were not uncommon. "Beancurd and mushroom, prepared in an extraordinary variety of ways, were practically staple servings." Address: Number One Mansingh Road, New Delhi 110 001, India.

6717. Sugarman, Carole. 1984. When dietitians convene: Facing a day-long blitz of workshops and exhibits, issues and aerobics. *Washington Post.* Oct. 21. p. G1, G4. Food section.
• ***Summary:*** More than 13,000 members of the ADA (American Dietetic Assoc.)–the nation's largest association of nutrition professionals–attended the annual ADA convention at the Washington Convention Center. Close to 700 manufacturers, trade associations, and organizations promoted their wares.

"If the exhibits are any indication, our future is in soybeans." Soybean oil. Soybean ice cream. Soybean meat. Legume "light and natural tofu entrees." Colombo. Checkerboard Farms. Address: Washington Post staff writer.

6718. Yoshimura, Sam. 1984. Re: Update on work with soyfoods. Letter to William Shurtleff at Soyfoods Center, Oct. 21–in reply to inquiry. 1 p.
• ***Summary:*** Shurtleff writes: "I just read a little blurb about you, written by your wife, that was in the *Madison Survey.* It indicated that you were now in Canada and again making soyfoods. Could I ask a few questions for use in the Adventist chapter of our history book?

1. What is your present address and postal code. Ans: See above.

2. When did you leave Worthington Foods? Ans: Sept. 30, 1981 (Retired).

3. Could you please tell me a little about your new business? When did you start selling products? Are you working alone or with another company? What products do you make? Can you send me some descriptive or promotional literature on your products?

Ans: "Name of company: MGM Brans. I am a technical consultant of the above company. We started selling products in January 1982.

"Our main product is meat analogs–franks, sausages, sandwich slices, chicken nuggets & burgers. Currently we are developing tofu-based meat alternates [alternatives] & other products."

Note: Sam does not send any labels or descriptive literature. Address: Home: 19 Masedale Cres., Willowdale, ONT M2J 3A3 Canada; Plant: MGM Brans, 59-F Howden Rd., Scarborough, ONT M1R 3C7. Phone: 416-473-9254 or 416-752-6600.

6719. Welters, Sjon. 1984. Early history of tempeh in the Netherlands (Interview). *SoyaScan Notes.* Oct. 25. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Cees van Rest, a friend of Sjon's and the owner and president of Wittewonder, visited Mrs. Duson, owner of ENTI, and asked her the list of questions Shurtleff had written her twice but she did not answer.

Note: Firma ENTI was founded in about 1946-1948.

© Copyright Soyinfo Center 2013

A Dutch couple whose last name was Wedding lived in Indonesia and made tempeh there. They took a 100 year old culture to Holland in a wooden box, along with their tempeh recipe. In Holland they started to make tempeh on a home scale for friends and relatives. They kept the culture going and used it to inoculate Indonesian soybeans with the help of blankets and lamps. It gradually grew into a commercial operation.

The business did well and by the early 1970s they were making 2,000 lb/day of tempeh. Mrs. Duson bought the company in about 1974, Apparently (?) the couple was growing old.

ENTI went out of business in January 1984 and the original Indonesian culture was deliberately destroyed. They sold all the equipment to a used equipment dealer, rather than to a person to continue the business.

Firma Lembeker is now the oldest existing tempeh company in Holland–approximately 25 years old.

Prospects for the future of tempeh in Holland look bad. Mrs. Duson felt extremely sad; she didn't think the health food industry would take over sales of the tempeh for lack of tradition and craftsmanship. She is older. Sjon says the Indonesians in Holland are no longer prospering. After World War II they were prospering with tofu and tempeh. But that stopped in the 1970s, in part because of cultural assimilation. Their population in Holland is diminishing, as some went back to independent Indonesia. Ketjap [soy sauce] is still very popular in Holland.

Sjon knows another company that has just started to make tempeh, and is now making 1,500 lb/week. He thinks it is the best quality he has seen. It is sponsored by a multinational–but Sjon cannot say who it is. Address: Netherlands.

6720. Welters, Sjon. 1984. Wittewonder in the Netherlands (Interview). *SoyaScan Notes.* Oct. 25. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Cees van Rest, a friend of Sjon's, is the owner and president of Wittewonder–which is doing great now. It is incorporated. They make 2,000 lb of tofu a day. They also make a tofu pastie. plus 2,000 units of spreads and 1,200 units of tofu in sauce in a jar [probably per week]. Their products are now going into supermarkets. Cees can help Shurtleff's research a lot in the future; thank him and stay in touch. Address: Netherlands.

Address: Legume, New Jersey.

6722. Barber, Linda; Lampert, Junko. 1984. The tofu gourmet. Tokyo: Shufunotomo Co. 129 p. Oct. Illust. Index. 27 cm. [Eng]
• ***Summary:*** A beautiful book, packed with superb color photos. Contents. Preface. Preparing, buying, and storing tofu. Recipes–1. Dips, sauces, main dishes. 2. Desserts. On the inside back dust jacket are biographies of Linda Lee Barber and Junko Lampert.

The color dust jacket of the first printing (1984) shows sculpted green kiwis atop a refrigerator tofu cheesecake, whereas that of the second printing (1989) shows a layered "Man's cake" topped with delicate alfalfa sprouts, thinly sliced red radishes, and slivered carrots.

The book was published in London, England in 1986 by Portland House/Windward. Address: Japan.

6723. **Product Name:** [Tofu Snack with Spices, and Diced Tofu with Cream].
Foreign Name: Tofu Snack, Tofu Emince.
Manufacturer's Name: Conserves Estavayer S.A. Sold at Migros supermarkets.
Manufacturer's Address: Case Postale 29, CH-1470 Estavayer le Lac, Switzerland. Phone: 037 63 91 11.
Date of Introduction: 1984. October.
Wt/Vol., Packaging, Price: Snack in 195 gm can and Dice in 420 gm can.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Letter from M. Jaccard and A. Dillier of Conserves Estavayer. 1988. June 27. These two products were launched in 1984 (Oct. 26) and discontinued in 1986.

6724. **Product Name:** [Spicy Tofu Sandwich Spread].
Foreign Name: Tofu Crème Sandwich à la Provençale.
Manufacturer's Name: Conserves Estavayer S.A. Sold at Migros supermarkets.
Manufacturer's Address: Case Postale 29, CH-1470 Estavayer le Lac, Switzerland. Phone: 037 63 91 11.
Date of Introduction: 1984. October.
Ingredients: Tofu, water, vegetable oil, yeast, shallots, vegetable extracts, seasonings, herbs, casein (milk protein), sea salt, binding agents.
Wt/Vol., Packaging, Price: 190 gm tube.
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Per 100 gm: Protein 9 gm, fat 25 gm, carbohydrate 6 gm, 287 calories.
New Product–Documentation: Letter from Peter Speck of Galactina. 1988. March 11. "Migros is still on the market with natural tofu, a flavored tofu, tofu spreads, and canned tofu with gravy. Their tofu products are made by Conserves Estavayer. You could probably contact Mr. A. Dillier there." Letter from M. Jaccard and A. Dillier of Conserves Estavayer. 1988. June 27. Label. 1988. 7 by 5 inches foil tube resembling a toothpaste tube. Beige/yellow, brown, green, pea green and black on white. Drawing of soybeans and leaves. "New! Ideal for Canapés, hors d'oeuvres (Vorspeisen, antipasti), etc."

6725. **Product Name:** [Tofu Bolognaise (with Tomatoes)].
Foreign Name: Tofu-Bolognaise / Tofu alla Bolognese.
Manufacturer's Name: Conserves Estavayer S.A. Sold at Migros supermarkets.
Manufacturer's Address: Case Postale 29, CH-1470 Estavayer le Lac, Switzerland. Phone: 037 63 91 11.
Date of Introduction: 1984. October.
Ingredients: Water, tomato puree, tofu, onions, carrots, seasonings, aromas, starch.
Wt/Vol., Packaging, Price: 195 gm can. Retails for FR 1.70.
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Per 100 gm: Protein 5 gm, fat 6 gm, carbohydrate 6 gm, 1.1 gm salt, 100 calories.
New Product–Documentation: Letter from M. Jaccard and A. Dillier of Conserves Estavayer. 1988. June 27. This product was launched on 26 Oct. 1984 and discontinued in 1988. Label. 1988. 9.5 by 2 inches paper. Black, pea green and orange on brown. Photo of the product atop a dish of spaghetti.

6726. **Product Name:** [Soyastern Tofu-Burger].
Foreign Name: Soyastern Tofu-Burger.
Manufacturer's Name: Debrecini-Drosihn-Karas. Renamed Soyastern Naturkost GmbH in Dec. 1985.
Manufacturer's Address: Roonstr. 38, D-5200 Siegburg, West Germany.
Date of Introduction: 1984. October.
Ingredients: Rice, Tofu (Water, soybeans*), seasonal vegetables* (carrots, celery, leeks, onions), sunflower seeds, sesame, vegetable oil, spices, sea salt. * = Organically grown; Soyabohnen aus kontr. biologischer Anbau.
Wt/Vol., Packaging, Price: 6 x 8.5 inch plastic bag.
New Product–Documentation: Interview with Bernd Drosihn of Soyastern. 1987. Nov. 30. He is business manager at Soyastern. This deep-fried patty is the company's best seller among its ready to eat "Frischeprodukte." It is sold on the counter, and is not refrigerated. Label. 1987. 5.5 by 2 inches. Black on green. Printed on plastic bag.

Letter (fax) from Harry Whitford. 1990. May 11. Byodo started to fry Tofu Burgers in the fall of 1984. Lukas Kelterborn's last service to the company was to establish the tie to Soyastern, which was unable to fry burgers due to complaints by the neighbors. We started buying tofu from Soyastern in Cologne to make burgers for them–at a distance of 400 miles!

Note: This is the earliest document seen (Feb. 2003) concerning Bernd Drosihn, part-owner of Soyastern. A soyfoods pioneer in Germany, he founded Viana in 1989.

6727. *J. of the American Oil Chemists' Society.* 1984. New soy crushing facility [in Indonesia]. 61(10):1521, 1523. Oct.
• ***Summary:*** "Indonesia's first soybean crushing facility is expected to be operational in late 1985 or early 1986, reducing that nation's dependence on imported soybean meal for its poultry industry and increasing the volume of soybean imports.

"The plant capacity is estimated at 300,000 tonnes annually, which should produce about 240,000 tonnes of meal. That is about the volume of soybean meal imported from the U.S. during 1984. Domestically produced soybeans are used almost exclusively for human foods such as tempeh and tofu.

"Oil palm and coconut are the major sources of vegetable oil in Indonesia, with palm, palm kernel and coconut oils accounting for 99% of Indonesia's 1.8 million tonne production."

6728. Jacobs, Martha. 1984. Is tofu taking over this town? *Atlanta Magazine.* Oct. p. 22.
• ***Summary:*** The Soy Shop, started in about 1979 by former herb sellers Sara and Steve Yurman, now makes about 7,000 lb/week of tofu. Some goes to the soup kitchens of Atlanta. Calco, run by Jim Wang, who expanded into tofu from [mung] bean sprouts, makes another 3,000 lb/week; Calco's production of tofu has doubled in less than a year. Eat Your Vegetables restaurant serves some 120 lb/week of tofu to both appreciative and unsuspecting customers. A photo shows Steve and Sarah Yurman. Address: Georgia.

6729. **Product Name:** Tofu Pumpkin Pie.
Manufacturer's Name: Simple Soyman.
Manufacturer's Address: 3015 N. Buffum St., Milwaukee, WI 53212. Phone: 414-765-3733.
Date of Introduction: 1984. October.
New Product–Documentation: Talk with R. Jay Gruenwald. 1989. June 12. This was the company's second product, launched in Sept. or Oct. of 1984. It was produced only seasonally.

6730. *SoyaScan Notes.* 1984. Europe's largest tofu manufacturers in 1983-84 (Overview). Oct. Soyfoods Center Survey. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** The following are ranked in descending order of the amount of tofu produced.

Heuschen Products, Netherlands. Started 1964, 12,000 kg/week of tofu.

Vanka-Kawat, Netherlands. Started 1958, 10,500 kg/week.

Dragon & Phoenix, England. Started 1966, 10,000 kg/week.

Soyana, Switzerland. Started 1982, 6,000 kg/week.

Paul's Tofu, England (2 plants). Started 1981(?), 3,000 kg/week.

Société Soy, France. Started 1982, 2,500 kg/week.

Witte Wonder, Netherlands. Started 1981, 2,400 kg/week.

Soyastern, West Germany. Started 1982, 2,000 kg/week.

© Copyright Soyinfo Center 2013

Jonathan, Belgium. Started 1981(?), 2,000 kg/week(?).

Lima Foods, Belgium. Started 1982(?), 2,000 kg/week(?).

Cauldron Foods, England. Started 1981, 1,500 kg/week.

Manna, Netherlands. Started 1978, 1,300 kg/week.

Klaus Steinberg Tofu, West Germany. Started 1984, 1,300 kg/week.

Yamato Tofuhaus, West Germany. Started 1983, 800 kg/week.

Aros Sojaprodukter, Sweden. Started 1981, 800 kg/week.

Total 58,100 kg/week or 29,000,000 kg/year (50 weeks/year).

6731. **Product Name:** Tofu, and Kinu Tofu.
Manufacturer's Name: Sumiyoshi-ya.
Manufacturer's Address: San Pedro St., Carson, CA 90745-6.
Date of Introduction: 1984. October.
How Stored: Refrigerated.
New Product–Documentation: Talk with Seizo "Bob" Tanibata. 1989. Feb. 22. Bob was an engineer who worked with Douglas Aircraft for 21 years. Then he was laid off, so he was looking for work. A friend put him in contact with a guy from Sumiyoshi-ya in Japan who came to America in late 1984 with all the equipment to start a tofu company. The guy needed an American who spoke English to help him out. So Bob began to work with him. He told Bob he was an expert tofu maker, but he wasn't. They started to make and sell tofu in Oct. 1984 at the New Meiji Kitchen. Things didn't work out, so Bob quit in December. Shortly after that the company went bankrupt, so Bob offered to buy him out in Jan. 1985. But for the next 18 months Bob had to look for a new location. In Oct. 1986, having renamed the company Sumiyoshi-ya Foods USA, he started to make tofu at his new location in Gardena.

Talk with Margaret Endo of Los Angeles. 1997. March 12. Seizo Tanibata is her uncle. She just talked with him about the history of this tofu shop. He said he took it over from a Mr. Yoshi.

Form filled out by Bob Tanibata. 1998. July 2. His company, Sumiyoshiya Foods USA is now located at 1429 W. 134th St., Gardena, California 90249. Phone: 310-538-2626. This same name and address is stamped on the envelope. He encloses a Label for Kinu–Hand made Japanese tofu, but on the label is written "Sumiyoshi-Ya U.S.A., Gardena, CA 90247." Talk with Bob Tanibata. This company has made both regular (momen) and kinu (silken) tofu since it started in 1984. He was there making tofu in 1984. He started to make tofu alone in Jan. 1986, and that year he moved to his present address.

6732. Taira, Harue. 1984. Kokusan daizu no hinshitsu. VI. Zenkoku-san daizu no hinshitsu, seibun, kakô tekisei no hendô to chiikikan, hinshukan sai [Quality of soybean seeds grown in Japan. VI. Regional and varietal differences in the physical properties, chemical composition, and suitability for food processing]. *Shokuhin Sogo Kenkyujo Kenkyu Hokoku* (*Report of the National Food Research Institute*) No. 45. p. 55-62. Oct. [9 ref. Jap; eng]
Address: National Food Research Inst. (Shokuhin Sogo Kenkyujo), Kannon-dai 2-1-2, Yatabe-machi, Tsukuba-gun, Ibaraki-ken 305, Japan; 3-4. Hokkaido Prefectural Central Agric. Exp. Station, Naganuma, Hokkaido.

6733. *Trinidad and Tobago Review.* 1984. The "noble bean" in the Caribbean. Oct. p. 27.
• ***Summary:*** "On the main road about 1 mile south of the heart of Roseau between Dominica's western slopes and the shoreline is the Plenty Canada Soya Shop (a photo of which is shown). After only a week opening in Newtown, this unusual take-away outlet sells out of accras and [soy] ice-cream nearly every day." Each morning the staff prepares batches of soyamilk. which is "used to make ice-cream and Tofu (soyabean cheese) and some is reserved to be sold as milk while the presscake [okara] is combined with tofu, wholewheat flour and seasonings to prepare the delicious and popular fried accras. The shop opens at one o'clock and serves a steady stream of customers until eight, unless stocks run out."

Plenty Canada's representatives arrived on Dominica in response to requests from local people. "With the co-operation of the government they have demonstrated simple home-scale soyafoods preparation in local areas and conducted soyabean seed trials. The initial interest in soyafoods was enough to encourage them to set up shop in central Roseau, grinding the beans at first by hand in a cocoa mill. As the business grew they needed more production space and more contact with local people on a 'grass roots' level as the shop was intended primarily as a training situation. Since the move to Newtown a Dominican couple are planning to re-open the original premises as a second soya shop, Creole-style.

"Plenty's soya project is staffed by three volunteers from Canada and the USA, who receive only subsistence, and five wage-earning Dominicans who are learning to manage the shop. They have requests for soya shops in other parts of the island...

"Plenty brought in an initial supply of soyabeans from North America and are now supplying seed to two groups of local farmers who are keen to grow for the shop... The shop is beginning production of Tempeh, a cultured soya food from Indonesia."

Note: This is the earliest English-language document seen (Aug. 2002) that uses the term "Noble Bean" in the title to refer to the soybean.

6734. **Product Name:** Westbrae Natural Malted's [Carob

© Copyright Soyinfo Center 2013

Malted, Vanilla Malted, Cocoa-Mint Malted, Almond Malted, or Caffeine-free Java Malted].
Manufacturer's Name: Westbrae Natural Foods (Importer). Made in Japan by San-iku Foods.
Manufacturer's Address: 4240 Hollis St., Emeryville, CA 94608. Phone: (415) 658-7521.
Date of Introduction: 1984. October.
Ingredients: Cocoa-Mint: Soybeans, malted barley, expeller-pressed corn oil (less than 5%), cocoa, sea salt, peppermint.
Wt/Vol., Packaging, Price: 6 fluid oz.
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Cocoa-Mint: Per 6 oz.: Calories 250, protein 6 gm, carbohydrate 50 gm, fat 3 gm. Carob: Calories 230, carbohydrate 44 gm. Vanilla: Calories 250, carbohydrate 46, fat 5 gm.
New Product–Documentation: This is soymilk with a thick and rich milk shake-like consistency. Ad in East West Journal. 1984. Sept. Inside front cover. "Westbrae Natural Malted's. [Note spelling, with apostrophe]. Vanilla, Carob, Cocoa-Mint. Thick and rich non-dairy soy delights. 'Did you make this out of ice-cream?' Ryan Garvy, age 7. All the fun, half the fat of milk shakes. No refined sugar, no preservatives, no cholesterol."

Labels. 1984. 4 by 6.25 inches. Plastic retort pouches. Brown, yellow, white. Cocoa-Mint on mint green background. Carob on cherry background. Vanilla on orange background. All have soda fountain picture with glass of malted with straw. "Shake well. Serve chilled. No refined sugar or cholesterol. No preservatives." Reprinted in Soyfoods Marketing. Lafayette, CA: Soyfoods Center. Shurtleff & Aoyagi. 1984. Soymilk Industry and Market, Update. Thick soymilk from whole soybeans (no soy protein isolates) plus malt and 2.65% oil are used to give this product its thickness. Sales of Westsoy and Malteds for 1984 were roughly $700,000 or 1.67 million units at $0.42 each FOB.

Natural Foods Merchandiser. 1985. May. p. 48-49. Gold medal in 6th annual merchandising contest. Poster. 1986. June. "The Cadillac of Soydrinks." Talk with Martin Roth. 1989. Aug. 17. "Gordon Bennett gave me the assignment to develop a soymilk product for Westbrae. He recognized that Westbrae had already missed the boat on soy drinks, with Edensoy, Vitasoy, Ah Soy, and Health Valley already on the market. I said 'Great. How can you make a soy drink that isn't a soy drink.' Then the Malteds idea flashed into my mind, and I said 'Maybe we can do a thicker, richer, creamy one and make it a dessert.' I designed the graphic idea and developed the name and formula."

As of about Feb. 1995 this product was made by Cathay Industrial, owned by John Yamauchi, in Los Angeles. Prior to that, it was made by House Foods & Yamauchi in Los Angeles.

6735. Wheelan, Carol. 1984. The mass marketing of tofu: Growth stems from introducing value-added products. *Food & Beverage Marketing.* Oct.
• ***Summary:*** According to John Paino, president of Nasoya Foods in Leominster, Massachusetts, "there are now 161 tofu producers in the United States. Tofu is now sold to produce departments in its unadulterated [plain] form, and as a value-added item to supermarkets and health food stores across the country. Ten years ago, he says, it was sold in bulk form, primarily to restaurants, as an additive for dishes such as bean curd soup.

"The growth of tofu stems from the 'Americanization' of the product, according to Paino... Tofu caught on in the natural food market, in 1975, as a result of *The Book of Tofu.* The book's author, William Shurtleff, touted tofu as 'the protein food of the '80s.'"

"One of the companies that has made an impact on the mass marketing of value-added tofu is Legume... Barat touts his Legume line as a 'natural Lean Cuisine.'" A list of Legume's line of frozen tofu entrees is given. Photos show Gary Barat and Chandri Barat.

Note: This is the earliest document seen (Aug. 2000) with the term "value added" in the title, in connection with soybeans or soyfoods. In the document itself, the term "value added" is used–not in connection with a tax–to refer to products such soy ice cream, which is made from tofu and adds value to it.

6736. Arcure, Catherine. 1984. Festive vegetarian dishes make delightful holiday treats. *Ann Arbor News* (*Michigan*). Nov. 7. p. F3. [1 ref]
• ***Summary:*** This fall the Soyplant ran a "made in Michigan" promotion. Annette Howells of the Soyplant staff says her company takes pride in making high-quality health foods from Michigan products. She contributes two recipes made with tofu, the company's best-selling food: Soyplant's Creamy tofu pies, and Soyplant's stuffed bread. A photo shows Annette Howells serving a slice of Creamy tofu pie to Ute Arnhold. Address: News food columnist, Ann Arbor, Michigan.

6737. Hamlin, Suzanne. 1984. New, convenient packaged meals high in nutrition. *Daily News* (*New York*). Nov. 14.
• ***Summary:*** "Legume has done the almost impossible–made tofu sexy. These frozen entrees, which are sold in supermarkets at an average $2.79 apiece, are the brainchild of Chandri and Gary Barat, entrepreneurial vegetarians who describe themselves as 'quintessential Yuppies and proud of it.'" Address: New York.

6738. Seaman, Debbie. 1984. A line to evoke a class by itself. *Adweek* (*Eastern Edition*). Nov. 19. Vol. 25, No. 51.
• ***Summary:*** Legume's new line of tofu entrees, sold frozen. The design was by Mr. Quarrell.

6739. *USA Today.* 1984. Healthy tofu now comes in frozen dinner [From Legume, Inc.]. Nov. 28. Good Living section.

6740. *New Chronicle. The Conscience of the Nation* (*Dominica, West Indies*). 1984. Soy foods available. Nov. 30.
• ***Summary:*** Today Nathalie Andrew is opening "Soy Kweyol," a take away health oriented catering service in the heart of Roseau, Dominica. All of her foods are made from soybeans, and are homemade. A photo shows Nathalie serving a beverage from her shop window. "Soy beans, it has been discovered, can now be grown locally. Farmers in areas like La Plaine have successfully produced their first crop of beans and have already begun preparations for planting a second crop. The seeds which take three months to grow can be obtained from the 'Plenty' Office in Victoria Street, New Town." Address: Dominica.

6741. *Dairy Record.* 1984. Frusen Glädjé takes on tofu: Designer Gloria Vanderbilt lends name, recipe to frozen dessert. Nov. p. 34.
• ***Summary:*** Randall Stuart, sales and marketing director of Frusen Gladje in Lindenhurst, New York, says that Gloria Vanderbilt's agent claims the new non-dairy frozen dessert will receive at least $1 million in free publicity because of its fashionable backer. "Most food marketing experts will agree that tofu has a long way to go before it's integrated into the diet of mainstream America." But promoters of this new product hope that "Vanderbilt's name will attract not only health-conscious city dwellers, but consumers who have no idea what tofu is but are hooked by Vanderbilt's high-class image." Print ads will feature the theme "no regrets."

6742. *Food Engineering.* 1984. All-natural dairy-type products with a difference: They're dairyless. %6(11):87. Nov.

6743. *Food Engineering.* 1984. 30 million people can now enjoy lactose-reduced foods. 56(11):80-81. Nov.
• ***Summary:*** "Whether for health, dietary, or religious reasons, there's a vast market in America for lactose-reduced foods as well as substitute products." In all its forms, lactose intolerance affects an estimated 30 million Americans. Soymilks include Vitasoy (color photo shown) and Health Valley Soy Moo (which has been on the market for over 6 years). Ice creams include Tofutti (which was discovered in 1981 by David Mintz). Entrees include Legume Cannelloni Florentine (color photo shown).

6744. **Product Name:** Tofu (Bulk).
Manufacturer's Name: Fresh Tofu Inc.
Manufacturer's Address: 900 Line St. (P.O. Box 1125), Easton, PA 18042. Phone: 215-258-0883.
Date of Introduction: 1984. November.
Ingredients: Water, organically grown soybeans, water.
New Product–Documentation: Talk with Gary Abramowitz. 1989. Aug. 21. This company was founded by Jeff Connerton, Incorporated in 1983, it began operation in Nov. 1984. The first product was bulk tofu. The company address has not changed since the beginning and the tofu has always been made with nigari and organically grown soybeans. Gary bought in as an equal partner in March 1985, and in Oct. 1988 he bought out Connerton to become the sole owner and president. Now the company is doing very well. Gary doubled his production space in April 1989 and expanded his system, yet now he is operating a full capacity, unable to produce any more. They have never advertised; the growth has some solely from word of mouth from satisfied customers. Production has doubled each of the past 2 years. He now makes about 7,500 lb/week of fresh tofu, of which about 60% is used in second generation products. The location, midway between Manhattan [New York] and Philadelphia [Pennsylvania] is excellent. He is trying not to grow too fast, and so far it is working well. His basic philosophy is "Fresh." The company does basically all of its own distribution, and he wants to keep it that way. He has talked with Wally Rogers repeatedly about buying a bigger system but each time it decides not to.

The only article ever written about the company was written a long time ago when they sold only tofu. It was not very well written and he doesn't think he can find a copy.

Talk with Cathy Kobayashi. 1995. June 1. She is a student at Pennsylvania State University, and is now working on a project for Fresh Tofu in Easton. The company is alive and well.

6745. **Product Name:** [Galactina Tofu].
Foreign Name: Galactina Tofu.
Manufacturer's Name: Galactina Ltd.
Manufacturer's Address: Birkenwej 1-6, CH-3123 Belp, Switzerland.
Date of Introduction: 1984. November.
New Product–Documentation: R. Leviton. 1983. Report on trip to Europe with American Soybean Assoc. Oct-Nov. p. 20. "Galactina is a large Swiss specialty food company that makes baby food, dietetique foods, etc. and is already using soybeans. Verena Krieger has asked them to expand their soymilk line."

Talk with Peter Speck. 1983. In Nov. 1984 Galactina, a Swiss manufacturer of soymilk since 1969, started test marketing tofu in Swiss supermarkets. The tofu is pasteurized for a 6-week shelf life and an attractive recipe booklet is attached to each packet. Soya Bluebook. 1985. p. 101.

6746. Johnson, Gil. 1984. Natural foods and American history: A ten year perspective. *Vegetarian Times.* Nov. p. 33-34, 66-67. [2 ref]

• ***Summary:*** A good 10-year history of the natural foods movement in America. Address: Executive editor of *Natural Foods Merchandiser* magazine, Oregon.

6747. Slater, Deborah M. 1984. Selling soyfoods: An education for success. *Whole Foods.* Nov. p. 47-50.

6748. *Soya Foods* (*ASA, Europe*). 1984. The Netherlands: Frank-Soya and Serimpie tofu coagulant. Nov. p. 2.
• ***Summary:*** "Since 1826 Frank-Soya (Twello, the Netherlands) has been a producer of raw materials for the food industry. Since 1953 F.A. Frank has specialized in the production of soyflour, soy lecithine, soyprotein and other related products including raw materials for tofu production.

"F.A. Frank is an associated company of the F.A. WED.W. Miedendorp, which was founded in 1753 and which specializes in the production of raw materials for the bakery industry.

"In the 1950s F.A. Frank launched a curdling product on the market for the production of tofu/tahoe. This product is on the market under the name 'Serimpie stremming/batu-tjina.' This product provides a regular curdling with big flakes occurring during the curdling, and also assures that during eventual baking of the tofu, the tofu swells instead of shrinks. The tofu remains nicely dry and does not become slimy by using batu-tjina.

"Those who want more information on this product should contact: Frank-Soya, Mr. Miedendorp de Bie, P.B. 46, 7390 AA Twello, the Netherlands, Phone: 05712-2141 or 2131; Tx 49350."

6749. *SoyaScan Notes.* 1984. Early tofu manufacturers in Europe, listed chronologically by country (Overview). Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** All of the following started making tofu before 1985. Countries with the earliest tofu manufacturing are listed first. The month production started, when known, is given after a slash following the year. Thus 1977/09 is Sept. 1979.

France: Usine de la Caséo-Sojaine (run by Li Yu-ying) 1911/05, Two or three tofu shops in and around Paris, including 1-2 at Colombes 1964/03. Alimentation Japonais Osaka 1972, Le Bol en Bois 1975/12, La Rousselie 1978/02, Institut Tenryu 1981/01, SOY (Société Soy) 1982/06, Les Sept Marches 1982/09, Sojatour Tofu Shop 1982/09, Ets. Co-Lu 1983/06, Lagadec Tofu 1983/06, Soja d'Oc 1983/10, Nyingma Dzong 1983/11, Tofu Kuehn 1983?, Sojagral Ouest 1984/12.

Netherlands: Vanka-Kawat 1958, FA. L.I. Frank: Frank Soya 1959?, Heuschen B.V. 1964, Firma Post & Teekman 1965, Stichting Natuurvoeding Amsterdam (renamed Manna Natuurvoeding B.V. in 1982) 1977/09, Hwergelmir: Foundation for a Natural Life 1979/07, Firma Ergepe 1981/01, Stichting Oost West Centrum 1981/01, Michel Horemaus Tofu 1981/01, Witte Wonder Products 1981/04, De Morgenstond 1981/12, Soy-Lin or F.M. Lin 1982/09. Jakso: Center for Agriculture & Craftsmanship (later called Yakso) 1983/06, Vuurdoop 1983/07.

England, UK: Dragon & Phoenix Co. 1966, Wong Chung 1975 or before, Lung Kee 1975 or before, Full of Beans Wholefoods 1978/08, Paul's Tofu & Tempeh 1981/01, Yu's Tofu Shop 1981/01, Cauldron Foods Ltd. 1981/09, The Regular Tofu Co. Ltd. 1981/12, Bean Machine (Wales) 1982, Hong Kong Supermarket 1982/09, Stewart Batchelder Tofu 1983/06.

Belgium: Etablissements Takanami (Takanami Tofu Shop) 1976, Jonathan P.V.B.A. 1977/01, De Brandnetel 1979/07, Unimave Tofu 1980, Aversano Tofu Shop 1981/01, Alternatur 1981/01, Seven Arrows Tofu 1982/04, 1983/10, Vajra 1983/11.

Switzerland: La Moisson 1978, Le Grain d'Or 1981/01, Genossenschaft Sojalade (later renamed Genossenschaftstofurei) 1981/09, Soyana 1982/02, Soy Joy 1982/04, Restaurant Sesam 1982/04, Opplinger Tofu 1982/09, Natural Products Promo Carouge 1982/09, Joya 1982/09, Centre Macrobiotique de Lausanne 1982, Osoja: La Maison du Tofu (later renamed Tofushop Centanin SA) 1983, Tofurei Pfannenstiel 1983/11, Thieu's Soja Spezialitaet 1983/11, Conserves Estavayer S.A. (Sold at Migros Supermarkets) 1984/06, Galactina Ltd. 1984/11, Berner Tofurei 1984?

Italy: Roland A. di Centa 1978, Gilberto Bianchini of Centro Macrobiotico ed Alimentazione Organica (Community Food). Renamed Centro Macrobiotico Tofu 1978/11, Ohnichi Intl. Foods Co. Lotizzazione Industries 1982/09, Circolo L'Aratro 1982/09, C.D.S. Pianetta Terra Soc. Coop. A.R.L. 1982/12, Aldo Fortis Tofu 1983/06, Fondazione Est-Ouest 1983/06.

Address: Montville, New Jersey.

6756. Reed, M.H. 1984. Shanghai regional cooking. *New York Times.* Dec. 16. p. WC37.
• ***Summary:*** This is a restaurant review of Shanghai City, 152 South Hudson Ave. (Route 9A), Croton-on-Hudson, New York. Recommended dishes include: Watercress with beancurd soup. Beancurd house style. Beancake with black mushrooms.

"The kitchen's delicate frying technique was nowhere better illustrated than with fried roll fish with beancurd sheet [yuba]. This essentially bland fish wrapped with a beancurd 'skin,' took on flavor as one dipped the small bundles of fish into an accompanying mound of peppered salt."

6757. Medoff, Marc. 1984. Survey of Tofutti consumers' attitudes toward the product. New York. 3 p. Dec. 23. Unpublished manuscript.
• ***Summary:*** A landmark study. In mid-December, about a month after this Tofutti Shop opened, Medoff and a research assistant stood outside the shop on the sidewalk for about 6 six hours and asked the customers, as they exited, the same 4-5 standardized questions. No one was coached. People did not realize how little tofu is contained in Tofutti.

6758. *SoyaScan Notes.* 1984. Chronology of soybeans, soyfoods and natural foods in the United States 1984 (Overview). Dec. 31. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** Jan. A highly influential 10-year, $150 million study released by the National Heart, Lung, and Blood Institute in Washington, D.C. proves for the first time a direct relationship between high blood cholesterol and the risk of heart attack, the nation's number one killer.

Jan. Legume, Inc. launches an all-natural line of cholesterol-free low-calorie Italian and international gourmet tofu-based frozen entrees in stylish full-color packages: Tofu Tetrazzini, Cannelloni Florentine, Vegetable Lasagna, Tofu Bourguignon, Sesame Ginger Stir-fry, Stuffed Shells Provencale, Tofu Manicotti, and Tofu Lasagna. Jan. Eden Foods becomes the sole import agent for Muso Shokuhin in the United States.

Feb. 25. *Soymilk Industry and Market: Worldwide and Country-By-Country Analysis*, by Shurtleff and Aoyagi published by Soyfoods Center. 177 pages, 640 references. $350.

© Copyright Soyinfo Center 2013

Feb. Marusan-Ai, Japan's second largest soymilk maker and one of the five largest miso makers, starts to market tempeh. They publish a 27-page tempeh booklet and by May are producing 30 tonnes (66,000 lb.) of tempeh a month, making them the largest tempeh manufacturer in the world. During 1984 at least five Japanese food companies are making tempeh, leading to a mini-boom of this soyfood which was first sold commercially in Japan in 1983.

March 2. Based on responses to his Oct. 1983 survey, Tom Timmins drafts preliminary 3-page tofu standards (2 pages of which are microbiological standards) that he circulates to the Soyfoods Standards Committee, inviting comments. On March 6 Wm. Shurtleff of Soyfoods Center expands these, keys them into the Center's word processor, and returns them to Timmins.

March 2. Problems start between Eden Foods and the U.S. Food and Drug Administration (FDA). FDA sends Eden a strongly worded letter citing eleven claims in Eden's brochures that the agency considers erroneous, including the company's apparent endorsement of Edensoy as an infant formula. FDA asks Eden to recall the brochure in which Edensoy is promoted as "Good for Babies." An infant became ill due to copper deficiency on an Edensoy diet.

March 8. Soyfoods Association of America members have 12 pages of impressive color advertisements and information about soyfoods and the Association in Natural Foods Merchandiser, in preparation for the NFM Anaheim Natural Foods Expo in March. Full-page color ads by Legume, Erewhon shoyu, Vitasoy, San-J, Tofutti, Edensoy, and Pure & Simple soy sauce.

March 11-13. At the Natural Foods Expo at Anaheim, the Soyfoods Association organizes the first Soyfoods Pavilion, a 16-booth cluster of soyfoods companies and products, which is the hit of the Expo and a show of strength for the industry. Lots of delicious free food draws throngs from the 9,000 Expo attendees.

March 11. At Anaheim, Vitasoy launches its first designed-for-America soymilk, in natural, coconut, and chocolate flavors, each sweetened with maple syrup, and imported from Hong Kong. Many subsequent eye-catching, health-oriented full-page color ads are run in national health magazines.

March. American Soybean Association's Belgium Office publishes the first issue of *Soya Foods*, a 6-page newsletter edited by Michael Martin, Protein Market Development Manager. It will be issued three times a year in English, French, Dutch, and Italian. This is a completely new direction for ASA in the Western world... but it doesn't last long.

March 29. First draft of the Tofu Standards, 15 pages double spaced, is compiled by Shurtleff. Timmins allocates $2,000 to retain two Washington, DC, attorneys who are specialists in foods and regulations to assist the committee in developing professional standards. The draft is circulated to 38 people who are asked to respond to a poll on 14 key issues.

March 29. The term "second generation" products is first applied to soyfoods by Wm. Shurtleff in the new tofu standards. A computer-related term indicating one step more advanced, it quickly replaces the term "secondary," which has a slightly negative connotation.

April 7. *Soyfoods Industry and Market: Directory and Databook 1984* (4th ed.) by Shurtleff and Aoyagi published by Soyfoods Center. 215 pages, $95.

April 13. Richard Leviton resigns as co-director of *Soyfoods* magazine and decides to discontinue his active involvement in the U.S. soyfoods movement. He plans to go to England to write a novel about King Arthur; he leaves in late April.

April 20. *Tofu, Tempeh, & Other Soy Delights*, by Camille Cusumano published by Rodale Press. It is widely and positively reviewed by national media.

April 27. The term "soymilk" is legalized for use in Canada, after a lengthy and expensive court battle by Victor Food Products. The court ruled that this is the "common and ordinary term" for the product, used since about 1918 in scientific articles and commerce. Thus it cannot be squelched by dairy interests.

April. New England Soy Dairy, America's largest Caucasian-run tofu manufacturer, changes its name to Tomsun Foods, Inc.

May. *Nutritional Cooking* with Tofu by Christine Liu published by Graphique Publishing in Michigan.

May. American Natural Foods (formed in Jan. 1984 by John Troy, creator of miso-containing Hot Stuff) has a private stock offering that raises $150,000. In October ANF debuts a line mainstream American sauces and seasonings, each featuring miso, that are delicious and beautifully marketed.

May. *Die Tofu Kueche* (The Tofu Kitchen), by Verena Krieger, Swiss soyfoods pioneer, published by Tanner + Staehelin Verlag in Zurich. 171 pages with many photos.

June 7. "Tofu" by Barbara Hansen and "Tofu: Americanization of a Soy Food" by Karen Gillingham published in the *Los Angeles Times.*

June. Landstrom Distributing Co. of San Francisco, files for Chapter XI bankruptcy. Keene Distributors of Texas, and Collegedale of Tennessee, both profitable, well-run companies, are also pulled under, innocent victims of the Landstrom collapse. All three units were owned by Nutritional Foods, Inc. and all were major natural / health foods distributors. These bankruptcies seriously hurt the natural foods industry as well as many individual companies; sales and confidence plummeted nationwide. In late 1984 Fillmore Foods purchased Landstrom, and Balanced Foods purchased Collegedale and Keene.

June. Migros, Switzerland's largest supermarket chain, launches Tofu Nature, its own brand of tofu, made at

© Copyright Soyinfo Center 2013

Conserves Estavayer S.A., with widespread publicity and excellent product information on both tofu and soybeans. It is marketed together with dairy products and eggs. The launch was considered a great success; supply was not able to catch up with demand until late December.

June. *The Book of Soybeans,* by Tokuji Watanabe and Asako Kishi published by Japan Publications. 191 p.

July. Kikkoman completes its second major shoyu (Japanese-style soy sauce) plant outside Japan, in Singapore. The 18,000 square meter factory, with a capacity of 3,000 kl (792,500 gallons) a year and 40 employees, costs $14 million. It will make shoyu and teriyaki sauce. Official opening ceremony was Nov. 21.

July. The requirement in effect since 1965 that isolated soy protein used as an ingredient in meat and poultry products must contain titanium dioxide as a tracer, is removed from federal meat and poultry products inspection regulations, following a petition by ADM, Grain Processing Corp., and Ralston Purina.

July 9. "Its Trendy, Tasty and Tofutti" (2/3 page) by J.D. Reed published in *Time* magazine (U.S. circulation 4.3 million). Probably the biggest media coverage for tofu in U.S. history. Tofutti hits the big time!

July 17. *History of Tempeh,* by Shurtleff and Aoyagi published by Soyfoods Center. 102 pages, including 375 references. Continued.

6759. *SoyaScan Notes.* 1984. Chronology of soybeans, soyfoods and natural foods in the United States 1984 (Continued–Part II) (Overview). Dec. 31. Compiled by William Shurtleff of Soyfoods Center.

• ***Summary:*** Continued. July 26. At the NNFA (National Nutritional Foods Association) show in Atlanta, Great Eastern Sun rolls out Ah Soy, its new line of soymilk imported from Saniku Foods in Japan, in vanilla, chocolate, and plain flavors, in foil retort pouches. After the show, the Soyfoods Association board meets. Steve Snyder replaces Michael Austin as director of SAA. The next day, SAA directors Snyder, Burke, and Barat travel to St. Louis to meet with the staff of the American Soybean Association to discuss possible areas of mutual interest. ASA appears friendly and open minded, and offers to discuss specific future joint projects. A potential line of communication is opened.

July 30. *People* magazine (circulation 2.8 million) article on Tofutti titled (ineptly) "A Happy Zealot Turns Curd (Yuck!) into a Creamy Treat."

July. "The Soyfoods Industry: Growing Like a Beanstalk" by B. Bialick published in *Whole Life Times.*

Aug. 9. *Soyfoods* magazine No. 10 (color cover) published by Doug Fiske. 7,000 copies printed at a cost of $11,200. Magazine's focus has been changed from production to marketing of soyfoods. This is the last issue of this pioneering magazine.

Aug. 12-17. World Soybean Research Conference III held at Iowa State University. Heavy emphasis on soybean production and agronomy; relatively little new material on soyfoods. Soyfoods movement is not represented.

Aug. 20. Ralston Purina introduces Checkerboard Farms TenderLean, America's first branded ground beef product consisting of 75% ground lean beef and 25% textured soy protein isolate. Some meat journals are harshly critical and many meat departments refuse to carry it. Ralston withdraws the product.

Aug. 24. Westbrae Natural launches WestSoy Natural, a plain soymilk similar to Ah Soy but lower in price and made with organic ingredients. Imported in a foil pouch from Saniku Foods in Japan, it is the company's first soymilk.

Aug. 31. San-J International Inc. announces that it will construct a soy sauce plant (44,000 square foot, $5 million) in Virginia on a 27-acre site just north of Colonial Heights.

Sept. Chico-san, Inc. introduces unpasteurized miso in a revolutionary "Pressure Release Package," a plastic bag with a one-way valve that allows the escape of the carbon dioxide produced naturally during fermentation.

Sept. 9-14. Gloria Vanderbilt announces that she, in conjunction with Dolly Madison and Frusen Gladje, will launch a tofu ice cream.

Sept. 27-28. First European Soyfoods Workshop held in Amsterdam, The Netherlands, at the Grand Hotel Krasnapolski, organized by the American Soybean Association's Belgium office. ASA reports attendance as 105 people from 14 countries, but participants report a maximum of 50 participants. Talks on tofu, soymilk, tempeh, distribution, and microbiological standards, all later published in the Proceedings. There is a large Expo with soymilk equipment from Alfa Laval and Soya Technology Systems prominently featured. A very successful event, and another ASA first!

Oct. *The Tofu Gourmet* by Linda Barber and Junko Lampert published by Kodansha in Menlo Park, CA. 129 p. Many color photos.

Oct. 15. "Here Tofutti, There Tofutti," a full-page, very positive article with 2 color photos published in *Newsweek* magazine (circulation 3 million).

Oct. 23. The joint managing directors of the International Food Information Service, owners of Food Science and Technology Abstracts (FSTA, the world's largest, oldest, and most widely used food-related computerized database) visit William Shurtleff at The Soyfoods Center to discuss putting the 6,500 bibliographic records in The Soyfoods Center Library into FSTA, thus making this information available worldwide. Both parties are very interested in the project but technical problems remain to be solved.

Oct. Westbrae Natural Foods launches Malted's, billed as "thick and rich non-dairy soy delights." Marketed like a milkshake and imported from Japan in a foil pouch, they

© Copyright Soyinfo Center 2013

come in three flavors: vanilla, carob, and cocoa-mint.

Oct. Three member team from PLENTY Canada spends one month in Sri Lanka, funded by the Canadian International Development Agency, studying the country's soyfoods program. They learn, teach, and introduce tofu ice cream.

Nov. 13. A.E. Staley Manufacturing Company, America's oldest existing soybean crusher, announces that its soybean crushing operations are for sale.

Nov. 20. Tofu Time's first Tofutti Shop opens in uptown Manhattan, New York. A fast-food retail outlet with a slick, red-and-white plastic, almost gaudy, decor.

Nov. 16. Chico-san Inc. is purchased by H.J. Heinz Co., largely for its rice cake business.

Nov. 21. After years of searching, William Shurtleff, with help from Nancy Florida in Java, discovers an 1815 reference to tempeh in the *Serat Centini*, from the Court in Solo, Java. This pushes the earliest reference to tempeh back 60 years and has it originating in Indonesian rather than in Dutch culture.

Nov. 30. America's first Tofu Standards are issued by the Soyfoods Association's Tofu Standards Committee, in part to help stem the rising tide of products bearing the name "tofu" that contain little or no tofu.

Nov. Galactina, a Swiss manufacturer of soymilks since 1969 (they make Vita Drink / Enteroform, a soymilk sold to in vanilla, chocolate, and strawberry flavors to the dietetic and pharmaceutical markets for tube feeding), starts test marketing tofu in Swiss supermarkets. Attractive recipe booklet attached to each packet, which is pasteurized for a 6-week shelf life.

Dec. Excellent, 19-page cover story on "Soymilk and Soyfoods," published in the prestigious *Journal of the American Oil Chemists' Society.* 1984 is the Society's 75th anniversary.

Dec. Ralston Purina, in its 1984 annual report, notes: "The Company has entered into preliminary agreement with Cargill, Inc., to sell six of the Company's seven soybean [crushing] plants." It also reported strong, steady growth in sales of soy protein products, from about $98 million in 1980 to $152 million in 1984, for an 11.5% compound annual growth rate (but only 4.5% after adjusting for inflation).

Dec. Gloria Vanderbilt's Glace, a soy-based nondairy ice cream, starts being test marketed in Los Angeles, in nine flavors.

Dec. A poll of readers by *Vegetarian Times* magazine finds that 53.1% of readers used tofu one or more times during the past 7 days; 29.4% used it 3 or more times.

Dec. 31. Brightsong Light Foods in Petaluma, California, receives the first funds of a $500,000 equity investment from a Hong Kong investor, who had seen an article praising Brightsong in Venture magazine. Brightsong greatly expands its product development and promotion.

* American Soybean Assoc. phases out its Human Nutrition Dept., headed for years by Judy Trujillo.

* Chicago Board of Trade starts trading options contracts on soybean futures. Continued.

6760. *SoyaScan Notes.* 1984. Chronology of soybeans, soyfoods and natural foods in the United States 1984 (Continued–Part III) (Overview). Dec. 31. Compiled by William Shurtleff of Soyfoods Center.

• ***Summary:*** Continued. 1984 New Trends: Growing Awareness of Dangers of Excess Cholesterol and Fat Consumption. Since cholesterol became a public health issue in the mid-1950s, the medical profession has been uncertain about the degree of its dangers, largely due to lack of medical evidence from long-term human studies. Yet for years the American Heart Association, United States Dept. of Agriculture, and the Soyfoods Association have been urging Americans to lower their blood cholesterol levels by eating less of the foods rich in cholesterol and saturated fats. In Jan. 1984 the long-awaited medical evidence was finally released, dramatically and extremely visibly. There were repercussions throughout the entire food and health care industries. The public started to pay serious attention.

Then on March 26 *Time* magazine ran a landmark cover story on the dangers of cholesterol. On 13 December *The New York Times* ran a major front-page report titled "Panel Suggests Many in U.S. Need to Reduce Cholesterol" containing the "the most far-reaching health recommendations yet made on cholesterol and heart disease" by an expert panel, convened by the National Institutes of Health. Numerous prestigious groups lowered their recommended safe cholesterol intake levels. These developments made soyfoods (which, like all non-animal products are free of cholesterol) look better than ever nutritionally, and increased their consumption significantly.

It has been known for several decades that consumption of polyunsaturated fatty acids (such as those found abundantly in soybeans) reduces serum cholesterol. During the 1970s Americans were encouraged to reduce consumption of saturated fats and cholesterol and increase consumption of polyunsaturates. Now this advice is changing. The new message is to "Reduce the intake of dietary fat." All fat, including polyunsaturated. In fact, these very words now appear as the first of four dietary guidelines on the letterhead of the prestigious American Institute for Cancer Research.

Continued Drop in U.S. Beef and Red Meat Consumption. From a high of 94.4 lb per capita in 1976, beef consumption has steadily declined, falling to 77.3 lb in 1982, a drop of 18.1% in only 6 years. During the same period, total red meat consumption (including pork, lamb, mutton and veal) fell from 163.6 lb to 148.0 lb, a drop of 9.5%. Many consumers switched to lower priced, lower cholesterol chicken, which rose from 42.7 to 52.9 lb per capita. Still, total annual U.S. meat and poultry consumption increased by

© Copyright Soyinfo Center 2013

over 4 pounds during his period (Stucker and Parham 1984).

Rise and Decline of the Soyfoods Association. The Soyfoods Association of America (SAA) got off to a promising start in 1984 with a successful fund raising drive. Then in March, soyfoods companies took 16 adjoining booths to form the Soyfoods Pavilion, capturing the spotlight at the Natural Foods Expo in Anaheim. It looked like the "soyfoods movement" was maturing into the "soyfoods industry." But for the rest of the year the Association was largely inactive. This was disappointment to many, since interest in soyfoods in America had never been higher.

Prior to the founding of SAA in 1983, its active forerunner SANA (Soyfoods Association of North America) had six major ongoing activities: (1) Publication of Soyfoods magazine, a quarterly that actually came out about twice a year; (2) Publication of the monthly Soyfoods Newsletter, a key source of communication within the industry between issues of the magazine; (3) An annual summer Soyfoods Conference and Expo, drawing participants from around the world; (4) Periodic press releases; (5) Writing a steady stream of excellent articles on soyfoods for publication in national magazines; (6) An association phone and mail service to respond to outside enquiries for information.

The person primarily responsible for initiating and carrying out all these activities was Richard Leviton. Though funding was hard to obtain, he worked hard, wasted nothing, and made many personal and financial sacrifices for a cause he believed in. Leviton's many and diverse talents, and especially his talents as a careful researcher and outstanding popular writer, were of tremendous aid to the incipient soyfoods movement. In late April, after 5 years of devoted effort and feeling a bit "burned out," he left the soyfoods movement and moved to England to pursue his long-cherished career as a novelist. Leviton, more than any other person, was responsible for the rapid rise and visibility of the soyfoods movement in America. His departure was a major loss to both the association and the magazine. He and his creative efforts will be sorely missed.

Only the last of the six major activities initiated by Leviton has been continued by the "new" Soyfoods Association. However it did initiate the excellent Soyfoods Pavilion at the annual Natural Foods Expo and it started subscribing to the valuable Luce Clipping Service. There were board meetings in June 1984 and Jan. 1985. By summer of 1984 the Association was looking for a replacement for Executive Director Michael Austin, who was also "burned out." In August he was temporarily replaced by Steve Snyder, former marketing director for Hinode Tofu, but shortly thereafter Snyder was hired as national sales manager by Vitasoy USA. After that there was no executive director. Despite relatively large initial pledges, the Association's balance was always low which meant that, lacking Leviton, activity largely came to a stop. The only significant new activity was the development of tofu standards by the Association's Standards Committee.

Unlike the original Soyfoods Association, the "new" one took little interest in small soyfoods companies, arguing that they had no money. The "new" association was therefore composed mainly of larger companies with regional or national distribution and not truly representative of the industry.

Rapid Rise in Soymilk Imports. The boom in soymilk imports, started during the past two years by Vitasoy and Edensoy, accelerated during 1984. New products included Vitasoy's new American flavors, Westbrae Natural's Malteds, and Great Eastern Sun's Ah Soy. All three were very widely advertised in eye-catching color ads. Most of the adult soymilk beverages sold in America are still imported from Japan. Strangely this dramatic development has gone largely unnoticed by the media, which has been focusing its attention on Tofutti.

Two new companies and products were mentioned only briefly by Shurtleff and Aoyagi in their two-volume book *Soymilk Industry and Market: Worldwide and Country-by-Country Analysis,* published in Feb. 1984. The first of these was Westbrae's Malteds and Westsoy. Although Westsoy was launched in August and Malteds in October, sales of both for 1984 were roughly $700,000 or 1.67 million units. They quickly became the best-selling products in the company's history.

From late July when Great Eastern Sun launched Ah Soy, the product was a "fantastic success." During the period from 1 Nov. 1984 to 25 Jan. 1985 (just under one fiscal quarter) 525,000 unit packs of four flavors were sold. By March 1985 Ah Soy accounted for 15-20% of GES's total sales.

Big Food Companies Increasingly Interested in Tofu. Those studying tofu for use in foods include Quaker Oats, CPC International, International Multifoods in Minneapolis, Pillsbury, and Campbell's Soup.

6761. Brownridge, Eleanor. 1984. Tofu: Hospital food of the '80s? *Foodservice & Hospitality.* Dec. p. 22.
• ***Summary:*** Victor Food Products Ltd. makes Hi-Pro Tofu, containing 14.7% protein. Curded with calcium sulfate, it is rich source of calcium.

6762. **Product Name:** Pureharvest Organic Soy Drink [Natural, Vanilla, Barley Malt plus Other Flavors].
Manufacturer's Name: Ceres Natural Foods Pty. Ltd. (Importer & Distributor). Made in Japan.
Manufacturer's Address: East Bentleigh, Victoria, Australia.
Date of Introduction: 1984. December.
Wt/Vol., Packaging, Price: 500 ml Doypack stand-up retort pouch.
How Stored: Refrigerate after opening.
New Product–Documentation: Australian Dairy Foods.

© Copyright Soyinfo Center 2013

1985. Feb. p. 51. "Soy report." Over the past year sales have increased greatly. Also distributing Morinaga Tofu. Don Lazzaro is director of this company.

STS. 1985. Containers for Soymilk. Shows color photo of package. Brown, yellow, and orange.

Australian Dairy Foods. 1986. Feb. p. 84. Shows two sizes of Tetra Brik cartons, each vanilla flavor.

Letter (fax) from Don Lazzaro of Ceres Natural Foods. 1995. June 15. In Dec. 1984 they introduced Pureharvest soymilk in vanilla and natural flavors, in 500 ml Tetra Brik cartons, made by and imported from Kibun in Japan.

Letter (fax) from Daniel Hannaford of Ceres Natural Foods Pty. Ltd. The company's brand is Pureharvest. They apparently import soymilk from Mitoku. The address is now 18 Ardena Court, P.O. Box 187, East Bentleigh, Victoria 3165, Australia. Phone: (03) 579 3422.

6763. **Product Name:** Tofait (Non-Dairy Soy Ice Cream) [Soft Serve Mix: Wild Berry Delight, Strawberry Lisse, Swiss Chocolate Silk, French Velvet Vanilla, Peanut Butter, or Cappuccino].
Manufacturer's Name: Hawthorn Mellody.
Manufacturer's Address: 1827 Walden Office Square, Schaumburg, IL 60195.
Date of Introduction: 1984. December.
How Stored: Shelf stable.
New Product–Documentation: News release sent by Chuck Chase of Hawthorn Mellody. 1985. April 9. "Hawthorn Mellody's new "good for you" Tofait: Provides real health benefits from real tofu." Dairy Record. 1985. May. p. 29-30. Tofait is said to contain 15-20% real tofu. Available in both soft serve and hard pack. Hawthorn Mellody is a subsidiary of Custom Creamery System; Product Alert. 1985. Aug. 19. "Tofait contains approximately 20% real tofu." Przybyla. 1985. Prepared Foods. Sept. p. 146.

Leaflets. 1986, undated. 8½ by 11 inches. Full color, both sides. Label reads: "Light & Creamy Tofait. 100% all natural. Made with real tofu. Cholesterol and lactose free."

Dairy Foods. 1987. March. "A terrific time for tofu." Kingma. 1987. Soya Newsletter. 1(3):11. "The company markets seven hard-pack and six soft-serve flavors, distributed in the Mid-Atlantic states."

Note 1. *Webster's Dictionary* defines cappuccino (derived from Italian, literally Capuchin, from the likeness of its color to that of a Capuchin's habit), a word first used in 1948, as "espresso coffee mixed with frothed hot milk or cream and often flavored with cinnamon." Note 2. This is the earliest record seen that uses the word "cappuccino" in connection with soy.

6764. **Product Name:** Frozen Tofu (Soy Ice Cream Soft Serve Mix) [Honey Vanilla, Maple Walnut, Chocolate Fudge, Banana Pecan, Hazelnut Amaretto, Wildberry, Almond Mocha].
Manufacturer's Name: Honey Hill Farms.
Manufacturer's Address: 3810 Delta Fair Blvd., Antioch, CA 94509.
Date of Introduction: 1984. December.
Ingredients: Incl. pureed tofu and soy protein isolates.
How Stored: Frozen.
New Product–Documentation: Talk with John Murphy of Honey Hill Farms. 1985. Jan. 29. Their "Frozen Tofu" non-dairy frozen dessert soft serve mix was launched in Dec. 1984. It contains pureed tofu and soy protein isolates. Shurtleff & Aoyagi. 1985. Tofutti & Other Soy Ice Creams. p. 81. The product comes in seven flavors.

Note: This is the earliest commercial product seen (March 2007) that contains the term "frozen tofu" in the product name, used as a generic term to describe soy ice creams alleged to contain tofu.

6765. *J. of the American Oil Chemists' Society.* 1984. Tomsun: Largest East Coast soyfood factory. 61(12):1806-07. Dec.
• ***Summary:*** Tomsun makes an average of 45,000 lb/week of tofu. Its primary market is Boston and New England–chiefly Caucasian–where it does 50% of its business. Another 40% of its sales come from metropolitan New York, with the remaining 10% centered in Philadelphia (Pennsylvania) and Buffalo (New York). The company's products are now in most of the large supermarket chains from Buffalo to Philadelphia. Tom Timmins credits his company's growth to a changing publicity campaign. They have gone through three different programs: In 1981-82 they emphasized the use of tofu in American diets. During 1982-83 they promoted tofu as an Oriental food, Now in 1984 they are emphasizing the nutritional and health benefits of tofu: No cholesterol, no sugar, no salt. Tomsun is the only tofu company in the USA with an in-house quality-control laboratory.

6766. *J. of the American Oil Chemists' Society.* 1984. Soyfoods entering mainstream U.S. diet. 61(12):1800-02, 1804. Dec. [1 ref]
• ***Summary:*** One relegated mainly to small natural foods outlets, soyfoods are now found in regular supermarket chains throughout the USA. The most widely available are soy sauce and tofu. Contains a discussion of the soyfoods market in the USA. One of the most popular new products is Tofutti, a non-dairy frozen dessert.

6767. Liebman, Bonnie. 1984. Tofu tales. *Nutrition Action* 11(10):11. Dec.
• ***Summary:*** Tofu is used in commercial frozen entrees and desserts. The nutritional value of tofu relative to cheddar and part-skim ricotta cheeses as a lower calorie substitute is illustrated.

6768. **Product Name:** Panda Brand Tofu Cheesecake [Strawberry, Blueberry, Cherry].
Manufacturer's Name: Michigan Soy Products Co., Inc.
Manufacturer's Address: 1213 N. Main St., Royal Oak, MI 48067. Phone: 313-544-7742.
Date of Introduction: 1984. December.
Ingredients: Blueberry: Filling: Tofu, soymilk, honey, maple syrup, soy margarine, lemon juice, tahini, vanilla, sea salt. Crust: Honey grahams, whole wheat pastry flour, soy margarine, honey. Topping: Blueberry, maple syrup, arrowroot.
Wt/Vol., Packaging, Price: 5 oz.
How Stored: Refrigerated.
New Product–Documentation: Talk with Dorothy Hwang. 1988. Feb. 18. 3 Labels. 1987. 4 x 2.25 inches, semi-circle. Self adhesive. Black and yellow on white. "Keep refrigerated. No cholesterol. No refined sugar."

6769. **Product Name:** Tofu Creme Pie (Tofu Cheesecakes) [Carob, Almond, Chocolate].
Manufacturer's Name: Michigan Soy Products Co., Inc.
Manufacturer's Address: 1213 N. Main St., Royal Oak, MI 48067. Phone: 313-544-7742.
Date of Introduction: 1984. December.
Ingredients: Chocolate: Filling: Tofu, soymilk, unsweetened cocoa, maple syrup, honey, safflower oil, tahini, vanilla, sea salt. Crust: Whole wheat pastry flour, corn oil, water, sea salt. Topping: Roasted almonds. Carob: Filling: Carob, tahini, grain coffee. Top: Roasted walnuts. Almond: Almond butter. Top: Roasted almonds.
Wt/Vol., Packaging, Price: 5 oz.
How Stored: Refrigerated.
New Product–Documentation: Talk with Dorothy Hwang. 1988. Feb. 18. 3 Labels. 1987. 4 x 2.25 inches, semi-circle. Self adhesive. Black and yellow on white. "Keep refrigerated. No cholesterol. No refined sugar."

6770. **Product Name:** Cake (Non-Dairy, No-Egg, Made with Soymilk and Tofu Frosting) [Blueberry, Banana, Black Forest, Carrot, German Carob, Poppyseed-Rice].
Manufacturer's Name: Michigan Soy Products Co., Inc.
Manufacturer's Address: 1213 N. Main St., Royal Oak, MI 48067. Phone: 313-544-7742.
Date of Introduction: 1984. December.
Ingredients: Whole wheat flour, walnut, carrots, cinnamon, nutmeg, clove, corn oil, soy margarine, honey, barley malt, soy milk, ginger, lemon juice, vanilla, baking powder, baking soda, and salt. With tofu almond butter frosting.
How Stored: Refrigerated.
New Product–Documentation: Talk with Dorothy Hwang. 1988. Feb. 18. Label. 1987. Dot matrix printed on white.

• ***Summary:*** Linda Burum. 1987. Los Angeles Times. May 31. p. 95-96. Try the Pestoburger or Tofuburger. Address: Venice, California. Phone: 213-450-9169.

6774. **Product Name:** [Tofu].
Foreign Name: Tofu.
Manufacturer's Name: Sojagral Ouest.
Manufacturer's Address: Place de la Mairie, St. Sylvain d'Anjou 49480, France. Phone: (41) 765500.
Date of Introduction: 1984. December.
New Product–Documentation: Louis le Metier. 1984. Le Courrier de l'Ouest. Dec. Describes the company newly founded by Patrick Colin and Alain Peyrieux, with a photo of one of the founders cutting tofu.

Letter from Patrick Roger of Arts. 1985. June 12. Patrick Colin and Alain Peyrieux now make tofu.

Letter from Bernard Storup of Société Soy. 1989. March 3. Sojagral S.A.R.L. was founded in the summer of 1984 by two young agricultural engineers, Alain Peyrieux and Patrick Colin at 49480 St. Sylvain d'Anjou. They made traditional tofu, with an estimated maximum production of 100 kg/week, sold regionally in the health food network. The company lasted about 2 years, then went out of business at the end of 1986.

6775. *SoyaScan Notes.* 1984. Chronology of events during 1984 concerning *Soyfoods* magazine, Doug Fiske, Richard Leviton, and William Shurtleff (Overview). Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** Jan. 30–Fiske, owner of *Soyfoods* magazine in Encinitas, California, writes William Shurtleff of Soyfoods

© Copyright Soyinfo Center 2013

Center. This letter is written on a new *Soyfoods* letterhead with a new matching envelope.

Feb. 15–Fiske mails a letter to "Dear Reader," the many people receiving *Soyfoods* magazine free of charge. "In the face of the economic realities of magazine publishing, *Soyfoods* is converting its circulation from mostly free to mostly paid... On January 1, 1984 a one-year subscription to soyfoods went from $15 to $20." But, by responding now, you can save $5.00 on your subscription. A coupon is enclosed.

April 13–Leviton writes Fiske to explain that he does not want to continue working with *Soyfoods* magazine. He finds his soy sauce book project stimulating.

March–Fisk writes subscribers apologizing for the delay in publishing. Issue No. 10 is scheduled to be published June 29, 1984.

April 17–Gary Barat, president of the Soyfoods Association, writes a letter on his Legume letterhead to all Soyfoods Association members, urging them to take advantage (as he plans to) "of the Ad / Cover Proposal / Editorial proposal which Doug Fiske of *Soyfoods Magazine* outlines in his enclosed letter... Six of our members have already committed to the cover;..."

April 19–Fiske sends a letter to soyfoods producers asking for help with the magazine, and a sheet of mechanical specs and advertising rates.

May 7–Fiske sends Shurtleff a check to cover the cost of making 422 ads, changes, and deletes to the magazine's mailing list. Also his edited version of an article on tempeh in Japan.

June 11–Shurtleff writes Leviton in Glastonbury / Avalon, England, asking if he would be willing (as a consultant) to visit a tofu plant near London.

Aug. 17–Fiske writes Shurtleff 2 letters concerning details of publishing *Soyfoods* magazine, and responding to Shurtleff's comments on the last issue (full-color cover published summer 1984).

Sept. 5–Leviton writes Shurtleff from Somerset, England; responds to questions written him by Mark Fruin concerning the seriousness of his commitment to writing the soy sauce book with Shurtleff and Fruin. He will honor his agreement but is disappointed that a publisher for the book has not yet been found.

Oct.–Fiske writes a letter to readers (300-350 domestic producers), encouraging them to advertise and enclosing rates. Sends a personal, handwritten letter to Shurtleff with the form letter.

Oct. 21–Shurtleff writes Fiske concerning the annual Soyfoods Year in Review he has written jointly with Leviton for the past 3 years.

Nov. 4–Fiske writes Shurtleff. A small publishing company nearby has shown interest in *Soyfoods* magazine. They want numbers. Doug is cautiously optimistic.

Nov. 28–Leviton writes Shurtleff from Massachusetts. He is back in the USA for a few months and will be in California to visit in December and January. He has finished his book (not related to soy), 1250 pages. He is pleased with it, and will send the manuscript to a literary agent in New York City next week. He will pick up his boxes of personal belongings in the Shurtleffs' garage when he visits.

6776. Soyplant (The). 1984. "Soy" to the world! (Greeting card). Ann Arbor, Michigan. 2 p. Front and back.
• ***Summary:*** On the front of this 5½ by 3½ tan postcard are eight little soybean cartoon characters standing close together in a row. Each has stick arms and legs, and each is wearing a warm pull-down hat, on the front of which is written one big letter. Those letters read: "Soyplant." The title, "Soy" to the world! appears above them amidst falling snowflakes.

On the back is a typed note to "Dear customer" explaining that the Soyplant will be closed for the holiday from December 22 through January 1. Address: 711 Airport Blvd., Suite #1, Ann Arbor, Michigan 48104. Phone: 313-663-8638.

6777. **Product Name:** Hi-Pro Tofu.
Manufacturer's Name: Victor Food Products, Ltd.
Manufacturer's Address: 102 Hymus Rd., Scarborough, ONT, M1L 2C9, Canada. Phone: 416-752-0161.
Date of Introduction: 1984. December.
Ingredients: Curded with calcium sulfate.
Nutrition: Contains 14.7% protein.
New Product–Documentation: Eleanor Brownridge. 1984. Foodservice and Hospitality. Dec. p. 22. "Tofu: Hospital Food of the '80s?"

6778. **Product Name:** [Tofu Sandwich Spread (Horseradish)].
Foreign Name: Tofu-Brotaufstrich (Meerrettisch).
Manufacturer's Name: Albert Hess Tofuhaus Rittersheim.
Manufacturer's Address: Hauptstrasse, D-6719 Rittersheim, West Germany. Phone: 06-352-3473.
Date of Introduction: 1984.
Ingredients: Horseradish: Smoked tofu, tofu, horseradish, thistle oil? (Disteloel), vegetable broth, and sea salt.
Wt/Vol., Packaging, Price: 180 gm glass.
How Stored: Refrigerated.
New Product–Documentation: Talk with Albert Hess of Albert's Tofuhaus. 1995. March 12.

6779. **Product Name:** [Smoked Tofu Sandwich Spread (Horseradish)].
Foreign Name: Rauchtofu-Brotaufstrich (Meerrettich).
Manufacturer's Name: Albert Hess Tofuhaus Rittersheim.
Manufacturer's Address: Hauptstrasse, D-6719 Rittersheim, West Germany. Phone: 06-352-3473.
Date of Introduction: 1984.
Ingredients: Smoked tofu, tofu, horseradish, thistle oil?

© Copyright Soyinfo Center 2013

(*Disteloel*), vegetable broth, and sea salt.
Wt/Vol., Packaging, Price: 180 gm glass.
How Stored: Refrigerated.
New Product–Documentation: Label brought by (and talk with) Albert Hess of Albert's Tofuhaus. 1995. March 11. 5.5 by 1.3 inches. Black, red, and white on light yellow. The product name is now "Tofu-Brotaufstrich–Meerrettich," The word "smoked" has been omitted, but the first ingredient is still smoked tofu (from organic soybeans).

6780. **Product Name:** [Tofu with Mung Bean Sprouts].
Foreign Name: Sprossen Tofu.
Manufacturer's Name: Albert Hess Tofuhaus Rittersheim.
Manufacturer's Address: Hauptstrasse, D-6719 Rittersheim, West Germany. Phone: 06-352-3473.
Date of Introduction: 1984.
Wt/Vol., Packaging, Price: 180 gm glass.
How Stored: Refrigerated.
New Product–Documentation: Label brought by (and talk with) Albert Hess of Albert's Tofuhaus. 1995. 1995. March 11. 2.5 by 4 inches. White and purple on yellowish green. An illustration shows a large personified cake of tofu, with smiling face and arms held out. The product name is now simply "Tofu mit Sprossen" (Tofu with sprouts), and the sprouts are mung bean sprouts.

6781. *AOK Magazin* (*Germany*). 1984. Soja: (2) ein Tausendsassa! [Soya: The bean of a thousand forms!]. 25(4):15. [Ger]
• ***Summary:*** A brief introduction to the many foods made from the soybean, including soy sauce, soymilk, tofu, and miso. Note: This is the major health insurance magazine in Germany, with a huge circulation.

6782. **Product Name:** Tasty Tofu (Herb Tofu–Marinated and Baked).
Manufacturer's Name: Bountiful Bean Plant. Baked at Nature's Bakery.
Manufacturer's Address: 2049 1/2 Atwood Ave., Madison, WI 53704.
Date of Introduction: 1984.
Ingredients: Herb Tofu (water, organic soybeans, calcium sulfate, magnesium chloride, herbs and spices), baked with shoyu soy sauce and oil at Nature's Bakery.
Wt/Vol., Packaging, Price: 4 oz. or 8 oz.
How Stored: Refrigerated.
New Product–Documentation: Interview with Deborah Bachmann. 1987. Dec. 29. This is an herb tofu that is marinated with shoyu, baked, and vacuum packed. It is ready to eat. Ad. 1987. Spring. "Whee! Pop me into your toaster. Ready to eat. Serve Tasty Tofu hot or cold for snacks, hors d'oeuvres, in salads, sandwiches, or cubed in stir fries." Label. 1985. 4 by 3.25 inches. Self adhesive. Maroon and green on white. "Ready to eat. Serve Tasty Tofu hot or cold for snacks, sandwiches, salads, hors d'oeuvres, or as a main course. No preservatives. Pareve."

Labels sent by Elizabeth Hanson of Bountiful Bean. 1991. Nov. 12. 4 oz. and 8 oz. Same labels as above, but company is now located in Ridgeway, Wisconsin 53582.

Leaflet sent by Paul Olson, new owner of Bountiful Bean Soyfoods. 1993. Nov. 19. "Tasty Tofu: This handy snack is simply our Herb Tofu block, pressed, basted with shoyu soy sauce, and baked in a medium oven for two hours."

6783. **Product Name:** Hummus with Tofu.
Manufacturer's Name: Bountiful Bean Plant.
Manufacturer's Address: 2049 1/2 Atwood Ave., Madison, WI 53704.
Date of Introduction: 1984.
Ingredients: Garbanzo beans, tofu, lemon juice, tahini, shoyu soy sauce, parsley, garlic.
Wt/Vol., Packaging, Price: 8 oz. or 12 oz.
How Stored: Refrigerated.
New Product–Documentation: Interview with Deborah Bachmann. 1987. Dec. 29. Ad. 1986-87. 3 by 5 inches. "Our favorite dip! Dip and sandwich spread." Label. 1985. 3.5 inch diameter. Self adhesive. Blue on white. "Chip dip & sandwich spread."

Label sent by Elizabeth Hanson of Bountiful Bean. 1991. Nov. 12. Same label as above, but company is now located in Ridgeway, Wisconsin 53582.

Leaflet sent by Paul Olson, new owner of Bountiful Bean Soyfoods. 1993. Nov. 19. The company's Hummus still contains tofu and soy sauce.

6784. **Product Name:** Tofu Skinny Dip (with Dill).
Manufacturer's Name: Bountiful Bean Plant.
Manufacturer's Address: 2049 1/2 Atwood Ave., Madison, WI 53704.
Date of Introduction: 1984.
Ingredients: Tofu, lemon juice, mellow white miso, shoyu soy sauce, garlic powder, dill weed, onion powder, dry mustard, dried chives, celery seed.
Wt/Vol., Packaging, Price: 8 oz.
How Stored: Refrigerated.
New Product–Documentation: Interview with Deborah Bachmann. 1987. Dec. 29. James Lubbe. 1988. March. Abbreviated History of the Bountiful Bean. Label. 1985. 3.5 inches diameter. Self adhesive. Light blue on white. "Non-dairy dip and dressing."

6785. Branthaver, Beth. 1984. Report on visits to tofu and soy sauce plants in Beijing, China, Jan. 7. Beijing, China: American Soybean Assoc. 4 p. Unpublished typescript. [Eng]
• ***Summary:*** At this medium-sized plant (5,88 square meters, 270 employees) the raw material is 60% defatted soybean meal and 40% wheat starch. The fermentation takes 25 days

at 48-49ºC. Four grades of soy sauce are produced. Address: Beijing, China.

6786. **Product Name:** Mix Plus+ (Liquid Mix to Make Tofu Frozen Desserts).
Manufacturer's Name: Brightsong Light Foods.
Manufacturer's Address: 100-A Poultry St. (P.O. Box 2536), Petaluma, CA 94953.
Date of Introduction: 1984.
New Product–Documentation: Brightsong Foods. 1985. Industrial Tofu and Frozen Desserts Offered (News Release). "Brightsong Foods, the oldest tofu development company in the U.S., announces the introduction of its new industrial products: Tofu Plus+, Concentrate Plus+, and Mix Plus+." Dairy Foods. 1986. April. p. 81. "Brightsong Foods has offered Liquid Mix Plus since 1984."

6787. **Product Name:** [Smoked Tofu].
Foreign Name: Raeucher Tofu.
Manufacturer's Name: Cafe Restaurant Zollhaeusle.
Manufacturer's Address: 7730 VS-Zollhaus, Germany. Phone: 07721/21289.
Date of Introduction: 1984.
How Stored: Refrigerated.
New Product–Documentation: Leaflet (6 panels, undated) sent by Flora Yap. 1992. June. States that the Zollhäusle has made smoked tofu for 8 years. Explains what it is and gives 5 recipes.

Label sent by Flora Yap. 2001? Tofu "geräuchert." Zollhäusle Naturkost. Harmut Hauser. 78052 VS Zollhaus. Tel.: 07721/2 12 89. Fax: 07721/2 25 92.

6788. **Product Name:** Calco Doufu-gan (Tofu Cake; Very Firm Tofu).
Manufacturer's Name: Calco of Atlanta.
Manufacturer's Address: 2059 Manchester St., N.E., Atlanta, GA 30324. Phone: 404-874-3650.
Date of Introduction: 1984.
Ingredients: Organically grown soybeans, water, calcium sulfate (a natural mineral).
Wt/Vol., Packaging, Price: 16 oz packed in water in molded plastic tray with heat-sealed, peel-off plastic film lid.
How Stored: Refrigerated.
Nutrition: Per 4 oz.: Calories 70, protein 10 gm, carbohydrates 7 gm, fat 0.5 gm.
New Product–Documentation: Talk with Jimmy Wang. 1989. Nov. 9. This product was introduced in 1984.

6789. **Product Name:** Calco Tofu (Many Kinds), and Soymilk.
Manufacturer's Name: Calco of Houston.
Manufacturer's Address: 2400 Dallas St., Houston, TX 77003. Phone: 713-236-8668 or 713-699-4420.
Date of Introduction: 1984.
New Product–Documentation: List of Tofu and Sprout Manufacturers. 1989. Kent Wang, owner. Talk with Kent Wang. 1989. Nov. 13. He began to make tofu and soymilk at this address in 1984.

6790. **Product Name:** Chilli Style Tofu Burgers.
Manufacturer's Name: Cauldron Foods Ltd.
Manufacturer's Address: 4, Conduit Place, Lower Ashley Rd., St. Paul's, Bristol BS2 9RL, England.
Date of Introduction: 1984.
Ingredients: Tofu (Soybean curd), brown rice, textured soy flour, tomato puree, shoyu (soybeans, wheat, water, salt), herbs, chilli [chili] spices, sea salt, soy oil, yeast extract, onion, extract, dried garlic. citric acid.
Wt/Vol., Packaging, Price: 150 gm poly bag, 2 burgers per bag.
How Stored: Refrigerated.
Nutrition: Per 100 gm: Calories 209, protein 15.95 gm, fat 12.05 gm, carbohydrates 6.6 gm.
New Product–Documentation: Label. 1986, code dated. Red, yellow, brown and white. "Pre-Cooked–Eat cold or warm under grill. Contains no meat, dairy products or artificial additives."

Letter (fax) from Philip Marshall. 1990. July 9. This product was introduced in 1984. It is basically the same thing as the original Bristol Chilli Burger launched in 1982.

Label for "2 Chilli Flavour Tofu Burgers" sent by David Greenslade. 1994. Oct.

6791. **Product Name:** Original Tofu.
Manufacturer's Name: Cauldron Foods Ltd.
Manufacturer's Address: 4, Conduit Place, Lower Ashley Rd., St. Paul's, Bristol BS2 9RL, England.
Date of Introduction: 1984.
Ingredients: Whole soya beans, water, calcium sulphate (natural coagulant).
Wt/Vol., Packaging, Price: 283.5 gm (10 oz) vacuum pack inside paperboard box.
How Stored: Refrigerated.
Nutrition: Per 100 gm.: 90 calories, 11.5 gm protein, 4.5 gm fat, 1 gm carbohydrates, 220 mg calcium.
New Product–Documentation: Label. 1986, code dated. Brown, green, red and brown on white. "The Versatile Food Ingredient. A complete vegetable protein. Soya Bean Curd." Four recipes on back panel: Chilli Con Tofu, Banana Whip, Scrambled Tofu, Frozen Tofu. Soya Bluebook. 1986. p. 107. Address: 149A Liberty Lane, Ashton Vale, Bristol, England. Contact: D. Marshall.

Letter from Philip Marshall. 1989. Dec. 5. "Specification for Original Tofu." Physical properties: Weight (Minimum when packed, kg): 0.285 or 2.5 (bulk). Packaging: Vacuum packed with minimal air voids. Some leaching off whey from the product is to be expected. Microbiological: Aerobic TVC (colony forming units/gm) < 1000. Coliforms cfu/gm < 10.

© Copyright Soyinfo Center 2013

Yeasts and moulds < 10. Salmonella in 25 gm = Nil. Listeria in 25 gm = Nil. Store at +2-4ºC. Shelf life: Retail–4 weeks minimum. Bulk packed–4 weeks from date of manufacture. [Note: Product is pasteurized in the pack].

Letter (fax) from Philip Marshall. 1990. July 9. This product was introduced in 1984. It was similar to the company's first product, "Tofu: Soy Bean Curd," but with new name and packaging at a new address.

6792. **Product Name:** Tofu Burgers [Savoury, Peanut, Nut, or Chilli].
Manufacturer's Name: Cauldron Foods Ltd.
Manufacturer's Address: 4, Conduit Place, Lower Ashley Rd., St. Paul's, Bristol BS2 9RL, England.
Date of Introduction: 1984.
Ingredients: Savoury: Tofu (soya bean curd), brown rice, water, textured soy flour, tomato puree, shoyu (soya beans, wheat, salt, water), herbs, sea salt, soya oil, yeast extract, dried onion, dried garlic, citric acid.
Wt/Vol., Packaging, Price: 150 gm paperboard box, two vacuum packed burgers per box. Retails for 60 pence.
How Stored: Refrigerated or frozen. Do not refreeze.
Nutrition: Per 100 gm.: calories 200, protein 17 gm, fat 11 gm, carbohydrate 7 gm.
New Product–Documentation: Label. 1986, code dated. Paperboard box. Brown, green, red and black on white. "Just heat to eat. Contains no meat, dairy products, or artificial additives. Do not freeze." Letter (fax) from Philip Marshall. 1990. July 9. This product was introduced in 1984.

6793. **Product Name:** Naturally Smoked Tofu.
Manufacturer's Name: Cauldron Foods Ltd.
Manufacturer's Address: 4, Conduit Place, Lower Ashley Rd., St. Paul's, Bristol BS2 9RL, England.
Date of Introduction: 1984.
Ingredients: Whole soya beans, water, calcium sulphate (natural coagulate), salt. Naturally smoked with English hardwoods.
Wt/Vol., Packaging, Price: 8 oz paperboard box. Vacuum packed. Retails for 99 pence.
How Stored: Refrigerated.
Nutrition: Per 100 gm (avg.): Fat 6.08 gm, protein 14.8 gm, CH (carbohydrate) 0.75 gm, calcium 280 mg, sodium 420 mg, calories 116.
New Product–Documentation: Richard Leviton. 1983. Trip to Europe with American Soybean Assoc. Oct/Nov. Unpublished manuscript. p. 28. They plan to make a vacuum packed smoked tofu from their regular tofu. Hope to get a 4-6 weeks shelf life.

Ad in The Vegetarian. 1985. July/Aug. p. 22. 8 oz. Ad in

The Vegan. 1986. Summer. p. 4. "Cooking with tofu? Look for the mark of quality. Tofu and smoked tofu." Listed on label of tofu burgers. Label. 1987. Best before 01 Jan. 1988. Paperboard box. 5 by 4 by 1 inch deep. Reddish brown and black on white with color illustrations of tofu by a knife on a cutting board and vegetables. "The versatile food ingredient. A complete vegetable protein. Soya bean curd." Address is now Cauldron Foods, 149 South Liberty Lane, Bristol B53 2TL, England. Recipes on back for Celery Soup, Sandwich Suggestions, Taco Filling, Spanish Salad.

L. Leneman. 1988. Soya foods cookery. p. 68. "At time of writing, smoked tofu is produced by only one manufacturer in the UK (Cauldron Foods, 4 Conduit Place, Lower Ashley Rd., St. Paul's, Bristol) but it is widely available at health food stores here and in the USA and has been such a great success that I have felt no hesitation about including it in this book."

Letter (fax) from Philip Marshall. 1990. July 9. This product was introduced in 1984.

6794. **Product Name:** Vegetable Pâté (Smoked Tofu, Vegetable, Tomato and Red Pepper, Savoury Vegetable, Mushroom). Renamed simply Paté in 1990.
Manufacturer's Name: Cauldron Foods Ltd.
Manufacturer's Address: 4, Conduit Place, Lower Ashley Rd., St. Paul's, Bristol BS2 9RL, England. Phone: (0272) 632835.
Date of Introduction: 1984.
Ingredients: Smoked Tofu: Water, smoked tofu, ground soya beans, onion, vegetable oil, modified maize starch, yeast extract, salt, fructose, hydrolysed vegetable protein, garlic spices.
Wt/Vol., Packaging, Price: 100 gm paperboard box.
How Stored: Refrigerated.
Nutrition: Per 100 gm.: calories 142, protein 6.8 gm, fat 10.45 gm, carbohydrate 4.95 gm, fibre 1.7 gm.
New Product–Documentation: Ad in The Vegetarian. 1985. July/Aug. p. 22. Cauldron Foods "Vegetable Pâté is

© Copyright Soyinfo Center 2013

ideal on toast or a great addition to any picnic hamper." 100 gm.

Label. 1989, sent by Philip Marshall. Paperboard box. Brown, green, red and black on white. Color illustration of pate on bread surrounded by sliced vegetables on front. "New variety." Package bears the green "V" symbol "Suitable for vegetarians."

Letter (fax) from Philip Marshall. 1990. July 9. This product was introduced in 1984 [as Vegetable Paté]. The labels have been redesigned and just launched.

6795. **Product Name:** Soyanaise (Non-Dairy Tofu-Based Mayonnaise).
Manufacturer's Name: Cauldron Foods Ltd.
Manufacturer's Address: 4, Conduit Place, Lower Ashley Rd., St. Paul's, Bristol BS2 9RL, England.
Date of Introduction: 1984.
Ingredients: Incl. Tofu.
New Product–Documentation: Letter from Simon Bailey. 1988. Sept. 29. "Rayner Burges Ltd. is producing a Soyanaise in conjunction with Cauldron Foods, of which company they are the new owners. This company holds the legal rights to the name Soyanaise in Great Britain."

Letter (fax) from Philip Marshall. 1990. July 9. This product was introduced by Cauldron Foods in 1984. It did not sell well and was "delisted" (discontinued) within a year after it was launched. It was too expensive to make. When Rayners (Rayner Burgess Ltd.) acquired Cauldron Foods in Sept. 1987 they also acquired the trademark to this product name. Rayner Burgess, being a manufacturer of mayonnaises, now makes Soyanaise containing tofu made by Cauldron Foods Ltd., but it is not a Cauldron Foods product. No label is presently available.

6796. **Product Name:** Cottage Tofu (Non-Dairy Cottage Cheese), and No Egg Tofu.
Manufacturer's Name: Cedarlane Foods.
Manufacturer's Address: 4928 Hollywood Blvd., Los Angeles, CA 90027.
Date of Introduction: 1984.
New Product–Documentation: Talk with Robert Atallah, president of Cedarlane. 1988. Feb. 5. He makes and currently sells only these two tofu products. He buys the tofu from San Diego Soy Dairy. The Tofu Luau and Marinara were discontinued because they were not feasible. Retailing for $1.99, they did not sell. Yet everybody who tasted them liked them.

Talk with Gary Young of Health in Motion. 1991. Dec. 2. His company, which is in the same large building as Cedarlane (1862 E. 22nd St., Los Angeles) makes a number of tofu products for Cedarlane, such as Tofu Stroganoff, Tofu Luau, and Tofu Cottage Salad.

6797. **Product Name:** Masoso Soy Crackers.
Manufacturer's Name: Centre Olame.
Manufacturer's Address: Bukavu, Zaire.
Date of Introduction: 1984.
New Product–Documentation: Letter from Mr. Johnny Kashama of Tofu-Rwanda. 1993. Nov. 9. He is now in Rwanda working at a tofu company but he lives in Bukavu, Zaire, where many children die of hunger and suffer from kwashiorkor. There is an NGO (non-governmental organization; Anti-Kwashiorkor Committee) which is working there but kwashiorkor is still persisting. There is a little factory that makes soy crackers using maize, sorghum, and soya. The blend the three ingredients and make what they call "Masoso." The name is taken from the first two letters of each ingredient. The way it is done is different from what they do in Tofu-Rwanda, where he is working as an apprentice.

Letter from Johnny Kashama. 1993. Dec. 21. The little factory in Bukavu was created by a center called Centre Olame in 1984. A little history: In 1976 the idea was first conceived of making crackers in a little factory. In 1981 they tried making recipes from soybeans as a weaning food for infants. At this time Masoso was prepared experimentally for the first time. In 1984 the center was given five grinders for making soy flour, which started to be produced. At this time, the little company was founded by Centre Olame, and Masoso started to be made and sold. It is packaged in a plastic container.

Note: This is the earliest known commercial soy product made in Zaire.

6798. **Product Name:** Tofu.
Manufacturer's Name: Country Cottage Foods.
Manufacturer's Address: R.R. 1, Ohaton, ALB, T0B 3P0, Canada.
Date of Introduction: 1984.
New Product–Documentation: Soya Bluebook. 1984. p. 78.

6799. **Product Name:** Eden Dried Tofu.
Manufacturer's Name: Eden Foods, Inc. (Importer). Made in Japan.
Manufacturer's Address: Clinton, MI 49236.
Date of Introduction: 1984.
Wt/Vol., Packaging, Price: 5.8 oz retails for $5.49 (8/88).
New Product–Documentation: On sale in Berkeley. 1988. Aug. 30. This is actually dried-frozen tofu.

Talk with Ron Roller of American Soy Products (formerly of Eden Foods) in Saline, Michigan. 1991. Nov. 27. When he went to Japan in 1984, he picked up 30 new items, including this product.

6800. **Product Name:** [Sashimi Tofu].
Manufacturer's Name: Fuji Oil Co. Ltd.
Manufacturer's Address: Nissei Midosuji Hachiman-cho

© Copyright Soyinfo Center 2013

Building, 6-1 Hachiman-cho, Minami-ku, Osaka 542, Japan.
Date of Introduction: 1984.
New Product–Documentation: Soya Bluebook. 1984. p. 78.

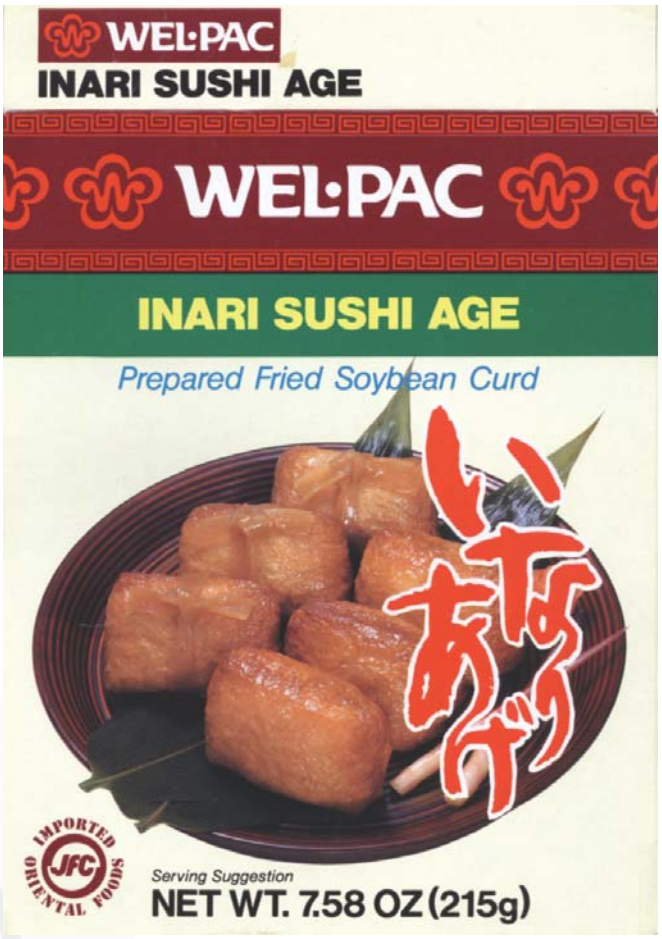
6801. Hall, Carol. 1984. Marketing tries to take the tofu out of Tofutti. *Ad Forum.* p. 57-59.

6802. **Product Name:** Tofu.
Manufacturer's Name: Island Style Soybean Products Inc.
Manufacturer's Address: 2661 Puninoni St., Wahiawa, Oahu, Hawaii.
Date of Introduction: 1984.
New Product–Documentation: Directory of Manufacturers. 1983-84. p. 11.

6803. **Product Name:** Tofu.
Manufacturer's Name: Jeon's Natural Foods.
Manufacturer's Address: Springfield, Missouri. Phone: 417-NL.
Date of Introduction: 1984.
New Product–Documentation: Talk with John Kaiser. 1989. March 2. John has been making tofu for 7 years, starting at The Farm in Tennessee, and then in Cleveland. A company named Jeon's Natural Foods in Springfield, Missouri, has made tofu for 5 years and sprouts for 13 years but stopped 2 months ago. They have a pressure cooker system. The founder came from Korea and is now running a restaurant and leasing out the sprout operation. John wants to lease his tofu business.

6804. **Product Name:** Tofu.
Manufacturer's Name: Jeon's Natural Foods.
Manufacturer's Address: Route 1, Box 139, Republic, MO 65738. Phone: 417-732-2507.
Date of Introduction: 1984.
New Product–Documentation: Talk with John Kaiser. 1989. June 30. A Korean man named B.K. Jeon started this company near Springfield, and started making tofu and mung bean sprouts about 5 years ago. He sold it to a lady named Sadie. She is too busy with the sprouts to do tofu, so she wants John to come and make the tofu on a profit sharing arrangement.

6805. **Product Name:** Wel-Pac Inari Sushi Age: Prepared Fried Soybean Curd.
Manufacturer's Name: JFC International (Importer-Distributor). Made in Japan.
Manufacturer's Address: S. San Francisco, California.
Date of Introduction: 1984.
Ingredients: Fried soybean curd (soybeans, water, soybean oil, salt, calcium sulfate), soy sauce (water, soybeans, wheat, salt), sugar, sorbitol, sweet cooking rice wine, monosodium glutamate.



Wt/Vol., Packaging, Price: 7.58 oz (215 gm).
How Stored: Shelf stable.
New Product–Documentation: Label. 1983. 75.5 by 7 by 1 inches. Paperboard box. Red, dark red, green, yellow, blue and black on white. On the front panel is a color photo of six ready-to-eat Inarizushi on a plate.

6806. Jones, Russell. 1984. Loan-words in Indonesian. *Nusa* (*Jakarta, Indonesia*) 19:vi-ix, 1-38. [2 ref]*
• ***Summary:*** Soybean sprouts are known in Indonesian as *taoge* from Hokkien *tâu* 'beans' and *gê* 'sprout.' For soya bean sauce Indonesian uses *taocio* from Hokkien *tâu-chiu* 'a thick salt sauce made from pulse.' An interesting example is the word for 'bean curd' *tahu;* this is from Hokkien *tâu-hû* 'bean-curd shaped, but not yet pressed,' and we should expect the word to appear in Indonesian (as it does in Malay) as *tauhu;* now the word happens to be one of the earliest of the foreign loans recorded in an Indonesian language, occurring in a list of words served at a banquet mentioned in an Old Javanese inscription of the 10th century (The Watu Kura A [Watukura] inscription, plate 5A, lines 4-5, see Antoinette M. Jones 1976, p. 90-91) indicating the antiquity of its adoption and suggesting that the Indonesian form comes via the old Javanese, which is also *tahu.* Address: Dep. of South East Asia and the Islands, School of Oriental

6807. Legume, Inc. 1984. A natural born loser (Poster). Montville, New Jersey. 1 p. 28 x 22 cm. Reprinted in Soyfoods Marketing. Lafayette, CA: Soyfoods Center. Address: Montville, New Jersey.

6808. Lim, B.S. 1984. Effect of using chemical preservatives to extend the shelf life of soybean curd. MSc thesis, Kansas State University. *
Address: Kansas.

6809. **Product Name:** Local Tofu Salad (With Tahini).
Manufacturer's Name: Local Tofu.
Manufacturer's Address: 307 Route 59, West Nyack, NY 10994. Phone: 914-358-2309.
Date of Introduction: 1984.
Ingredients: Local Tofu, tahini, safflower oil, tamari sauce, umeboshi paste, lemon juice, carrot, onion, celery.
Wt/Vol., Packaging, Price: 8 oz.
How Stored: Refrigerated.
New Product–Documentation: Talk with Sam Weinreb. 1987. Dec. 29. Company started in 1979-80. Label. 1987. 3 by 1.6 inches. Purple on white. This product was first made in West Nyack, New York 10994.

6810. **Product Name:** [Manna Herb Tofu].
Manufacturer's Name: Manna Natuurvoeding B.V.
Manufacturer's Address: Weerenweg 28, 1161AJ Zwanenburg, Netherlands.
Date of Introduction: 1984.
New Product–Documentation: Soya Bluebook. 1987. p. 96. Letter from Sjon Welters. 1989. Aug. 10. This product may have been introduced in about 1984. Sjon is not sure that Manna ever made it. It is not on the market now and he does not recall its Dutch name.

6811. **Product Name:** Eggless Tofu Salad (in a Sandwich).
Manufacturer's Name: Martha's Sandwiches.
Manufacturer's Address: Putney Rd., Brattleboro, VT 05301. Phone: 802-254-4778.
Date of Introduction: 1984.
Wt/Vol., Packaging, Price: 8 oz.
How Stored: Unrefrigerated and perishable.
New Product–Documentation: Talk with Bari Madwin. June 29 and Aug. 28. Susan Quinn sells tofu and tempeh sandwiches in Brattleboro, Vermont. She bought an existing company in 1988. She uses about 12 lb/week of tofu.
Talk with Susan Quinn. 1988. Aug. 30. She bought this company from Martha Brown in Aug. 1987. It was named Martha's Sandwiches, and at the time, Martha had a line of sandwiches, including Eggless Tofu Salad (in a sandwich, 8 oz) and BLT with Fakin' Bacon (made from tempeh).

Talk with Martha Brown. 1988. Aug. 31. She was asked in 1982 by Llama, Toucan & Crow, where she was employed, to make sandwiches for their store. That was the only place she ever sold them. She bought her tofu from the store, which bought it from Tomsun. She learned the recipe out of a little book.

Note: This is the earliest known commercial soy product made in Vermont.

6812. **Product Name:** Tofu, Tempeh, and Soya Milk.
Manufacturer's Name: Molly Turner Tofu & Tempeh.
Manufacturer's Address: Malahide, County Dublin, Ireland. Phone: 01-8453853.
Date of Introduction: 1984.
New Product–Documentation: Letter concerning an interview with Molly Turner and her mother and helper (Laura Turner) conducted by Anthony Marrese. 1993. March. Molly is the owner of this small company. She started selling commercially in 1984. She started because of her interest in diet and in supplying other interested people. She is macrobiotic. Although they have sold in various ways (through private sales, health shops, etc.) now they sell only through the local whole-food co-op once every 2 weeks. Presently tempeh sales are 3-5 kg every 2 weeks and tofu sales are 5-10 kg every two weeks. They also sell a small quantity of soya milk (3 liters every 2 weeks). They make their own tempeh starter. They also supply fresh herbs and plants, and books about macrobiotics and gardening at the co-op. They have no present plans for changes except to meet the growth in demand at the food co-op.

6813. Morinaga Milk Industry Co., Ltd. 1984. Morinaga Ever-Fresh Silken Angel Tofu. The favorite new food for Western tastes. Recipes: Shells Italiano, Mini Meat Loaves, Jogger's Energy Shake, Savory Party Dips, Salad Dressings Galore, Sunny Brunch Eggs (Leaflet). Tokyo, Japan. 6 panels each side. Each panel: 11 x 6 cm.
Address: 5-33-1 Shiba, Minato-ku, Tokyo 108, Japan.

6814. **Product Name:** Tofu.
Manufacturer's Name: Nakasone Foods.
Manufacturer's Address: 1510-C 31st Street, North, Lethbridge, ALB, T1H 5J8, Canada. Phone: 403-328-4817.
Date of Introduction: 1984.
New Product–Documentation: Talk with Gene Arizono. 1987. He bought the company from Mark Nakasone in about 1986. Talk with Gene's wife. 1988. Sept. 27. The company has been renamed Sansei Foods. It will reopen in the spring of 1989 at Box 500, Coalhurst, ALB, T0L 0V0, Canada. Mark Nakasone started tofu production in 1984.

6815. **Product Name:** Aburagé (Deep-Fried Tofu Pouches), and Atsu-Agé (Deep-Fried Tofu Cutlets).
Manufacturer's Name: Nakasone Foods.

© Copyright Soyinfo Center 2013

Manufacturer's Address: 1510-C 31st Street, North, Lethbridge, ALB, T1H 5J8, Canada. Phone: 403-328-4817.
Date of Introduction: 1984.
New Product–Documentation: Talk with Gene Arizono's wife. 1988. Oct. 17. Mark Nakasone made two types of agé when the Arizono's bought the company in 1986. He started making tofu in 1984.

6816. **Product Name:** Blended Tofu.
Manufacturer's Name: Nasoya Foods.
Manufacturer's Address: Mechanic St. Ext. (P.O. Box 841), Leominster, MA 01453. Phone: 617-537-0713.
Date of Introduction: 1984.
Wt/Vol., Packaging, Price: Bulk.
How Stored: Refrigerated.
New Product–Documentation: Kingma. 1987. Soya Newsletter. March/April. p. 3, 11. Nasoya is the first manufacturer of traditional tofu to start making Tofu Slurry, a promising new product. Soya Bluebook. 1987. p. 95. Talk with John Paino. The product is doing quite well. Ad in Soya Newsletter. 1988. Feb. p. 5. Talk with Sjon Welters. 1988. March 10. This product was introduced in about 1984. Tofutti bought their tofu in this form initially, but has now switched to using powder. The fresh slurry has a better flavor than the spray dried powder, but it is more perishable and more expensive to ship. Letter from John Paino. 1989. Nov. 12. He prefers to call the product Blended Tofu rather than Tofu Slurry.

6817. **Product Name:** Soymilk, Tofu, Soy Ice Cream, Fried Accras, or Tempeh.
Manufacturer's Name: Plenty Canada Soya Shop. Renamed Soy Development Center by 1987.
Manufacturer's Address: Roseau, Dominica.
Date of Introduction: 1984.
How Stored: Frozen.
New Product–Documentation: Trinidad and Tobago Review. 1984. Oct. p. 27. "The 'noble bean' in the Caribbean. Accras (fritters), a traditional local food, are now made by mixing tofu and okara with wholewheat flour and seasonings, then frying.

Plenty Bulletin. 1987. Fall. p. 4. Note: This is the earliest known commercial soy product made in Dominica.

6818. **Product Name:** [Tofu, Soymilk, and Soy Sprouts].
Manufacturer's Name: Próvida Lda.
Manufacturer's Address: Rua 28 de Setembro 12–Cortegaça, 2715 Sintra, Portugal. Phone: (1) 927.05.40.
Date of Introduction: 1984.
New Product–Documentation: Letter from Miguel Azguime, owner of Miso Producoes. 1989. Nov. 30. This company started making soyfoods in Portugal in 1984 and is currently in operation.

Article in SoyaFoods (ASA, Europe). 1991. 2(2):4-5. The executive director of Provida is now Mr. Alcino Rodrigues de Sousa. The company is now located at Quinta dos Linhais, Cortegaca, 2715 Pero Pinheiro. It is said to be the only tofu manufacturer in Portugal, and it makes 2,000 kg/month of tofu. "Provida also packs textured soya protein (meat extender) and would like to produce soya milk as well."

Address: Bandung, Indonesia.

6826. **Product Name:** [Tofu, Miso, Seitan].
Manufacturer's Name: Sunfood.
Manufacturer's Address: Mlynska 659, 51081 Dobruska, Czechoslovakia. Phone: 42 443 94325 or 443 21578.
Date of Introduction: 1984.
New Product–Documentation: Talk with Bernd Drosihn of Viana Naturkost GmbH, Cologne, Germany. 1991. Aug. 25. At a recent trade show, Bernd met a "very curious visitor," a macrobiotic man from Czechoslovakia who has been making tofu, miso, and seitan for 8 years. He has a large line of products, which he sells mostly in Czechoslovakia. He speaks a little English, and is about 40-45 years old. He now wants to start making tempeh. He buys his soybeans from China. He has great difficulty in obtaining nigari for use as a coagulant. His address is: Sunfood, Mlymska 659, 51081 Dobruska, Czechoslovakia. Phone: 011 + 42 443 94325 or 443 21578.

Letter from Dr. Kamil Bersky, M.D., for The Macrobiotic Centre of Czechoslovakia, Mlynska 659, 51 801 Dobruska, Czechoslovakia. Phone or fax: 011 + 42 443 21578. 1993. July 30. "We are now producing 5 varieties of seitan, 5 varieties of tempeh, amasake, tofu, and we can offer barley malt. Our plan is to start koji and miso production, open a macrobiotic center with a year-round program, a kindergarten, and a small restaurant with a shop."

Talk with Sladjan Randjelovic of Serbia, Yugoslavia. 1993. Dec. 29. His friend named Vacek runs Sunfood in Dobruska, Czechoslovakia (about 75 miles east northeast of Prague near the border with Poland), and his friend is also an agent for Mitoku Macrobiotic Foods.

Note: This is the earliest known commercial soy product made in the Czech Republic.

6827. **Product Name:** Tofu [Moderately Firm].
Manufacturer's Name: Sunrise Market Ltd.
Manufacturer's Address: 729 Powell St., Vancouver, BC, V6A 1H5, Canada.
Date of Introduction: 1984.
How Stored: Refrigerated.
New Product–Documentation: Label. 1984. 6 x 5 inches. Plastic film for tub. Red and orange. In English and French. Moderately firm. Coagulated with calcium sulphate. 16 oz. "Pasteurized. No preservative." Two packets of tofu recipes. "News break from Sunrise." 1987. "Look what we're doing to sell tofu! Sunrise sponsors popular consumer contest in October '87 issue of Women to Women Magazine. Grand Prize: All expenses paid 7-days trip for 2 to a gorgeous Palm Springs Health Resort." second spots. Form filled out by Peter Joe. 1988. May 20. Gives date.

6828. **Product Name:** [Soft Tofu].
Foreign Name: Tofu Doux.
Manufacturer's Name: Sunrise Market Ltd.
Manufacturer's Address: 729 Powell St., Vancouver, BC, V6A 1H5, Canada.
Date of Introduction: 1984.
Ingredients: Water, soybeans, magnesium chloride (extracted from nigari), glucono-delta-lactone.
Wt/Vol., Packaging, Price: 10 oz (300 gm).
How Stored: Refrigerated.
New Product–Documentation: Label. 5.5 by 3.5 inches. Blue and white with color photo in middle of tofu cubes in a salad with lettuce, tomatoes, and cucumbers. "Pasteurized. No preservative." Product name also written in Chinese. Form filled out by Peter Joe. 1988. May 20. Gives date.

6829. **Product Name:** Tempeh Burger/Cutlet, Mild Italian Soysage.
Manufacturer's Name: Swan Gardens, Inc.
Manufacturer's Address: 1111 N.W. 22nd., Miami, FL 33127.
Date of Introduction: 1984.
Ingredients: Tempeh (cultured soybeans), purified water, soy sauce, herbs.
Wt/Vol., Packaging, Price: 8 oz. Burger/Cutlet retails for $1.11. Soysage retails for $0.79.
How Stored: Refrigerated or frozen.
New Product–Documentation: Labels. 1984, undated. 3 by 4 inches. Red, white, blue, yellow, and black. "Fast food. Easily cooked. No preservatives. All natural."

6830. Watanabe, Y.; Tada, M.; Kawamoto, K.; Oozumi, G.; Kajiwara, Y.; et al. 1984. [A case-control study of cancer of the rectum and colon]. *Nippon Shokakibyo Gakkai Zasshi* (*J. of the Japanese Society of Gastroenterology*) 81:185-94. [Jap]*
• ***Summary:*** Subjects who consumed whole soybeans and tofu had an 80% lower risk of rectal cancer. Specifically, the authors, in a study involving 65 rectal cancer cases and controls, and 138 colon caner cases and controls, found that the consumption of soybeans and tofu both one to two times a week and three or more times a week, compared with nonconsumption of these foods, was associated with lower rectal cancer risk (Relative Risk = 0.15 and 0.12 respectively). They did not find a significantly decreased risk of colon cancer (Relative Risk = 0.63).

6831. **Product Name:** [Tofu with Mung Bean Sprouts].
Foreign Name: Sprossen Tofu.
Manufacturer's Name: Yamato Tofuhaus Sojaprodukte GmbH.
Manufacturer's Address: Moessingerstr. 41, D-7406 Moessingen 2-Belsen, West Germany. Phone: 07071-71094 or 95.
Date of Introduction: 1984.
Ingredients: Incl. water, soybeans, mung bean sprouts, calcium sulfate coagulant.
How Stored: Refrigerated.
New Product–Documentation: Talk with Klaus Gaiser. 1990. March 12 and June 27. This tofu was launched in about 1984. They still make this product quite successfully. It has always been called Sprossen Tofu. It is made as follows: "We blanch mung bean sprouts, then add them to the [soymilk] curds just before pressing the tofu into cakes. The sprouts give the tofu a nice texture and a more refreshing taste."

6832. **Product Name:** [Tofu Burger with Sprouts].
Foreign Name: Sprossen Tofuletten.
Manufacturer's Name: Yamato Tofuhaus Sojaprodukte GmbH.
Manufacturer's Address: Moessingerstr. 41, 7406 Moessingen 2-Belsen, West Germany. Phone: 07071-71094 or 95.
Date of Introduction: 1984.
How Stored: Refrigerated.
New Product–Documentation: Talk with Klaus Gaiser. 1990. March 12. This product was launched in about 1984. Letter from Klaus Gaiser. 1996. Oct. 8. This product was made with mung bean, sunflower, radish, alfalfa, and mustard seed sprouts–no soy sprouts; these burgers were deep fried.

6833. ADM Co. 1984. Dairy products update. Decatur: Illinois: Archer Daniels Midland. 24 p.
• ***Summary:*** On the cover are two colorful scoops of ice cream on top of a cone which is an ear of corn. It's called an "Ice cream corn."

Contents (soy related): The use of corn sweeteners and soy protein in dairy products... The use of soy protein in fluid and frozen products. The use of soy protein in cheese substitutes and cheese-like products. Characteristics and use of Ardex brand isolated soy protein (90% protein)... Additional brochures available.

"Field performance of soft serve mixes is critical. The product must be dry and stiff to remain on cones." "Frozen yogurt is likened to something between ice milk and sherbet. Lactic fermentation provides tartness, which is highly compatible with fruit flavors."

Various types of yogurt include: Regular or unflavored, Swiss style, sundae style, and liquid yogurt.

Ardex F is dispersible isolated soy protein. TVP can be used to add protein and "crunch." "Ardex isolated soy proteins [F] can be used effectively to produce tofu-like products" (p. 19).

© Copyright Soyinfo Center 2013

A table (p. 20) gives formulas for "Yogurt" soft curd. "Tofu" firm curd. "Tofu" from dry mix. Chocolate dessert.

Ardex F is dispersible; used for dairy foods. Ardex SP-6 is dispersible; used primarily for injected whole muscle meat products. Ardex R is used where special functionality is required, e.g. coffee whitener, liqueur, cheese, etc. Ardex D is an emulsion stabilizer for use in meat systems,... Ardex DHV is a water and fat binder and adhesive agent. Address: Illinois.

• ***Summary:*** A vegetarian cookbook scattered with quotes on vegetarianism and historical anecdotes. Filled with lovely, creative illustrations.

Soy-related recipes include: Chinese vegetable miso soup (p. 29). White bean dip (with soybeans, p. 50 & 179). Peanut sauce (with soy sauce or tamari, p. 52). Tofu "mayonnaise" (p. 52). Tofu sesame dressing or sauce (p. 53). Eggs and tofu in peanut sauce (p. 62). Peanut rice and tofu (p. 81). Mushrooms and tofu in wine (p. 119). Stir-fried vegetables with tofu (p. 132). Address: New Paltz, New York.

6835. Bhumiratana, Amara. 1984. ASEAN Protein Project, 1974-1984. Bangkok, Thailand: ASEAN Subcommittee on Protein. 111 p. Illust. 29 cm. [Eng]

• ***Summary:*** The ASEAN nations are Indonesia, Malaysia, the Philippines, Singapore, and Thailand. Contents: 1. Malnutrition problems in ASEAN countries (incl. Soy-based products as a solution to malnutrition). 2. Administration of the ASEAN Protein Project. 3. Objectives. 4. Methodology. 5. Results of ASEAN member country research: Soy products developed (high-protein, low-cost foods for infants and children, soy milk and soy milk powder, full-fat soy flour), fermentation products developed (tempe: from shophouse business to modern factory, oncom chips and flour, soy sauce, the ASEAN culture collection), other related projects, exchange of information (incl. details on the 15 ASEAN protein workshops held between July 1975 and Oct. 1984, and the publications resulting from each). 6. New ASEAN projects. 7. Conclusion.

This book, which contains many color photos and focuses on soybeans, describes one of the most successful ASEAN programs, emphasizing cooperation among the ASEAN nations in an attempt to solve the problem of malnutrition common to the region. The project, conceived in Aug. 1971, receives major funding and technical assistance from the Australian government. In May 1978 the ASEAN Full-Fat Soy Flour (FFSF) Factory in Chiang Rai, Thailand, was completely installed and has been producing continuously since then. It has a capacity of 100 tons/month. Numerous photos of the facility are shown. A pilot plant has produced up to 50 tons/month of Kaset Infant Food, which has been well accepted in 573 health centers throughout Thailand and is being evaluated in other ASEAN countries. A photo of the package (plastic bag) is shown. Address: Bangkok, Thailand.

6836. Bloodroot Collective; Beaven, Betsey; Furie, Noel; Miriam, Selma. 1984. The second seasonal political palate: A feminist vegetarian cookbook. Bridgeport, Connecticut: Sanguinara Publishing. xli + 242 p. Illust. Index. 23 cm. [35 ref]

• ***Summary:*** An excellent book and cookbook with a crystal clear explanation of why feminists should also be ethical vegetarians. The "Prefatory material" includes sections on "Feminism in the eighties," "Ethical vegetarianism," "Soyfoods," and "On collectivity and work."

The glossary includes brown rice, hoisin, koji, queso blanco, shiro miso, shoyu (the correct name for tamari), tahini, and tofu.

The index contains 27 entries for tofu, 19 for miso, 10 for tempeh, 4 for soymilk, and 1 each for okara and soysage. Address: 85 Ferris St., Bridgeport, Connecticut 06605. Phone: 203-576-9168.

6837. Brassel, Helen. 1984. The natural foods recipe book: 800 low-calorie dishes to help you loose weight. New York, NY: Arco Publishing, Inc. xiii + 305 p. Foreword by William P. Castelli, M.D., Medical Director, Framingham Heart Study. Index. 27 cm. [7 ref]

• ***Summary:*** This non-vegetarian cookbook contains many soy-based recipes: Tofu tuna bites (p. 15). Soy spread Italian (with soybeans, p. 16). Tofu spread (p. 17). Tofu sour cream (p. 18). Soybean soup (p. 37). Tofu vegetable soup (p. 37). Soy bean salad (p. 51). Tofu sprout salad (with mung bean sprouts, p. 60). Tofu salad with tomatoes (p. 60). Soybean bake (p. 84). Soy muffins (with full fat soy flour, p. 103). Vegetable wheat casserole (with soybeans, p. 105). Soybean pie with sesame salt (p. 164). To cook soybeans. Soy spaghetti made with Soy pasta (with soy flour, p. 178). Soybean noodles (with full-fat soy flour, p. 179). Soybean casserole (p. 183). Chili soybeans (p. 184).

Chapter 11 is titled "Tofu" (p. 168-76). It contains recipes for homemade Tofu (from whole soybeans or soy flour). Tofu mayonnaise. "Egg" salad. Japanese omelet. Tofu stroganoff. Tofu with chicken. Lasagna. Broiled tofu. Okara croquettes. "Sausage" (from okara). Tofu meatloaf. Sauced tofu. Tofu shish kebabs. Low-calorie pancakes. Tuna tofu soufflé. Tofu tuna bake. Tofu with crabmeat. Tofu blintzes.

"Call it bean curd, call it soy cheese, or call it tofu... You can also call it an ideal meat substitute, a dieter's dream, and a budget stretcher. What's it made of? Soybeans, the best vegetable protein available, as it is the only bean containing all eight of the essential amino acids...

© Copyright Soyinfo Center 2013

"Though bland, tofu takes on the flavor of foods and sauces it is combined with. Though smooth in texture, once frozen, it has a surprisingly chewy consistency. Though it has no real taste of its own, when broiled it is transformed into a dish with a definite meatlike flavor. It can also replace cream cheese, sour cream, and eggs in most dishes, thus reducing cholesterol as well as calories. It can be used instead of meat in casserole dishes, instead of mayonnaise in salads, and instead of ricotta in lasagna. In fact, it can replace meats, fish, poultry, and cheese in virtually any treasured favorite recipe."

6838. Bray, Francesca. 1984. Legumes (Document part). In: F. Bray. 1984. Science and Civilisation in China. Vol. 6, Biology and Biological Technology. Part II: Agriculture. Joseph Needham series. Cambridge, England: Cambridge University Press. xxvii + 724 p. See p. 510-14. [49 ref]
• ***Summary:*** Note: Chinese characters are given for all italicized Chinese words or terms. Although legumes were among the earliest plants to be domesticated in West Asia and the Americas*, there is no solid evidence that legumes were cultivated in China in prehistoric times, even though several species were native to China, and even though legumes played a very important role in Chinese agriculture from the late Chou [ca. 722 B.C.] onwards.

* Footnote: In the Near East and Europe carbonised peas and lentils, assumed to be domesticated, have been identified at farming sites dating as far back as 7000 B.C. Various species of *Phaseolus* beans seem to have been domesticated in Peru and Mexico by the 6th millennium B.C. And groundnuts are believed to have been domesticated in the upper Amazon regions, in South Bolivia and North Argentina well before 3000 B.C.

"Though remains of leguminous species have been found in one or two Chinese neolithic sites, they have been identified as broad beans (*Vicia faba*) and groundnuts (*Arachis hypogaea*); since the former is believed to have been introduced to China from Western Asia in Han times [220 B.C.–220 A.D.] and the latter is a native American species, the authenticity of these identifications is doubtful, to say the least" (Footnote: K.C. Chang. 1977. *The Archaeology of Ancient China,* 3rd revised ed.).

"There are apparently no references to legumes in the Shang oracle records, and the earliest uncontested evidence for the cultivation of leguminous plants in China is found in Chou bronze inscriptions and in the *Shih Ching.* Both these sources refer to a crop called *shu* (Chinese characters given), and the early form of the character clearly depicts the nodules on the roots of the plants (Fig. 237). The term *shu,* though also used to refer to legumes in general, is primarily associated with the soybean, *Glycine max* (L.) Merrill, and its presence in these writings is usually taken to signify the domestication of this crop" (Footnote: Hu Tao-Ching {1963} in fact postulates a much earlier domestication [it must have been domesticated and well known long before it appeared in inscriptions on bronze vessels in 1024 B.C.]; Ping-To Ho {1975, p. 70} believes that domestication occurred about 1000 B.C.)

"In later lexicographical texts the term *shu* is usually qualified when soybeans are referred to: *jung shu, jen shu,* and *ta shu* are mentioned (Footnote: In the *Erh Ya* and its commentary for example), and this does suggest that even in pre-Han times *shu* was used as a generic term for legumes rather than a specific term for soybeans. The modern term for soybean is *ta tou,* 'greater bean,' a term which first appears in the -1st century *Fan Sheng-Chih Shu.* In classical times the term *tou* was applied only to a type of 'wooden vessel or dish containing flesh sauces at sacrifices or feasts' (Bretschneider 1882, vol. II, p. 162), but by Han times it seems that it was also used as a general term for pulse crops, as it still is today.

"Whether or not the unqualified term *shu* in early texts and inscriptions should be understood to refer to soybeans or to legumes in general, there is no doubt that the soybean was domesticated in China some time around the beginning of the Chou, for texts describing -7th-century events refer to soybeans (*jung shu*) as novel introductions to the Central States, whereas by the time of Mencius [Meng tzu, c. 371-c. 289 B.C.] they had already become a staple food of the common people (Footnote: P.T. Ho 1975, p. 79).

"The presumed wild ancestor of the soybean, *Glycine ussuriensis* Regel & Maack or *G. soja* L. is native to northeast China and the adjacent areas of Manchuria, Korea, and Japan (Footnote: Hymowitz 1970, 1976), and it may be significant that the cultivated soybean was called *jung shu* for Jung was the name commonly given to the Tungusic tribes of Northeast China in Chou times. The *Kuan Tzu* states that in the -7th century Duke Huan of Ch'i (Footnote: Ch'i covered most of modern Shantung) led an expedition to the territory of the Mountain Jung and brought back 'winter onions and soybeans (*jung shu*) for dissemination throughout the various states' (P.T. Ho 1975, p. 78)."

An alternative interpretation of *jung* and of its (then) homophone *jen* is that it simply meant large and luxuriant (Bretschneider 1882, vol. 2, p. 164), for the soybean is a large, bushy plant which grows up to 6 feet tall. Its modern name of *ta tou* can be attributed to its growth habit, and not to the size of its beans which are only about as big as a lentil. Fig. 238 (*Shou Shih T'ung K'ao,* 1742) shows an illustration of a soy bean plant.

"The soybean's rapid conquest of Chou China is a tribute to its superior qualities, qualities so outstanding that they frequently provoke outbursts of surprising lyricism in modern writers: 'that miracle, that noblest of crops, that wondrous plant, the soybean' (Anderson & Anderson 1977, p. 346)." The ancient Chinese were more moderate in their praise, perhaps because they were unaware of the benefits of modern nutritional analysis. The chief virtues of the soybean for the ancient Chinese "were that it produced

© Copyright Soyinfo Center 2013

good crops even on poor land, that it did not deplete the soil, and that it guaranteed yields even in poor years, so that it made a useful famine crop." It gave 3-4 times the yield of millet. The *Fan Sheng-Chih Shu* says that in former times (presumably the late Chou) it was customary for peasants to plant 5 *mu* per capita of soybeans to guard against famine. Soybeans were widely grown in China from Chou times on, "but they were not held in high esteem for their gastronomic qualities." The Chinese appreciated soybeans most when they were fermented to make sauces (*jiang*) or relishes (*shi*), or transformed into beancurd (*doufu*). These foods were generally made from yellow soybeans, although the *Qimin Yaoshu* (+544) recommends black soybeans. The various fermentation processes were discovered in early times; they improved the soybean's palatability and its nutritional properties. Address: Research Fellow, East Asian History of Science Library, Cambridge, England.

6839. Brennan, Jennifer. 1984. The cuisines of Asia: nine great oriental cuisines by technique. New York, NY: St. Martin's Press. ix + 542 p. Illust. (line drawings). Index. 24 cm.

• ***Summary:*** The "Nine great Oriental cuisines" are those of "China, India, Indonesia, Japan, Korea, Malaysia, The Philippines, Thailand, Vietnam" (as stated on the book's cover). The book contains many recipes, yet it is largely organized into chapters by cooking techniques: barbecuing, steaming, stir-frying / using a wok, deep-frying, etc.

The chapter on "Japan" discusses soybeans, miso, tofu, and shoyu on pages 44-45. Soyfoods are said to be the 2nd largest source of protein in the Japanese diet.

The section on "Soybeans" (p. 97-104) includes a discussion of the names of various soyfoods in different Asian languages and countries. For example: "The basic bean curd is called *tau-fu* in Cantonese, *tau-hu* in Hokkien, and *tofu* in Japanese." Or consider this (p. 99): "During the basic process of making bean curd, at the stage where the bean and water mixture is boiled, a skin or residue forms on the top. This skin [yuba] is skimmed off and dried. It is commercially available in sheets... and in the form of sticks that bear the picturesque name of 'second bamboo' [dried yuba sticks] in Chinese, meaning that they are the second residue from the curd."

There follows a 3-page table titled "Soybean products" (p. 101-03) which has four columns: Description, Chinese name [Cantonese], Japanese name, comments.

Note: Before proceeding, we believe that the design of this table is fundamentally flawed. (1) Why are the names of the basic soyfoods not given in the other languages with which this book is concerned, including Mandarin Chinese, Korean, Indonesian, Vietnamese, Filipino, etc.? (3) Why is no English name given for each basic soyfood product? Sometimes the description is the English name, yet that name is rarely the name a person would use if they were selling the product in an English-speaking country. (3) Why are so many common "soybean products" omitted from this table, such as the various basic other types of Japanese miso and of Japanese shoyu (besides koikuchi shoyu), fermented black soybeans (douchi, dow see), soymilk, soy sprouts, roasted soy flour, whole soy flour, soybean oil, textured vegetable protein, etc. These problems are easily solved with alternate table designs. For example, have one table for each language, with the name of each soyfood product given first in English and then in the language of that country. Put the description and comments in a glossary to avoid repetition. Or, have a glossary entry for each soyfood, with the English name, description, comments.

The table is divided into four basic types of soybean products. After each, we will give the Cantonese name and then the Japanese name, and we will indicate disagreements using [sic]. NL = Not listed.

(1) Bean curd: Tau fu fu [sic] = kinugoshi tofu. Tau fu = momen tofu. NL = yaki tofu [sic, yaki-dofu]. NL = koya tofu or kori tofu [sic, koya-dofu or kori-dofu]. Tau fu pok = abura age. Fu chu = yuba [sic, fu chu is dried yuba sticks. Yuba in Mandarin is doufu pi]. fu joke [sic, fu jook] (bean curd sticks) = NL. Tim joke [sic, tiem jook] (sweet bean curd sticks) = NL. tau fu kon [Mandarin: doufu gan; pressed tofu].

(2) Soy sauce: Light = chan ch'an or sang chu = usu kuchi shoyu [sic, not the same]. Dark, medium = see yu chan yan = shoyu [sic, see yu is soy nugget sauce, not made in Japan. Japanese shoyu is not traditionally made in China]. Dark, heavy, sweet = chu yan = NL.

(3) Fermented bean pastes and cheeses. Black bean paste = dau see tau ch'ih = NL. Sweet, white bean paste = NL = shiro miso. White soy cheese [fermented tofu, should be classified under tofu] = pai doufu-ru or foo yee or foo yu = NL. Red soybean paste = NL = aka miso. Red soy cheese or spiced red bean curd = hung doufu-ru or nom yee or nam yu.

(3) Miscellaneous soybean productions. Soy jam = yun shi jeung = NL. Whole fermented soybeans = NL = nato [sic, natto]. Red bean sauce = saang see jeung = NL. Soybeans and malted rice = NL = moromi miso. Hoisin sauce = hoisin = NL.

In the "Basic recipes" section is a recipe for Indonesian dark sweet soy sauce (*ketjap manis*).

The Glossary (p. 499-515) contains the following soy-related entries: "Bean Curd (*tofu*, Japanese; *tao foo*, Chinese; *tahu*, Indonesian and Thai; *tokwa*, Philippines): A curdled, soft, cheeselike preparation made from soybean milk. Used as a source of protein in Asian cooking. Available loose or in packages."

Bean paste, red sweet [from azuki beans]. "Substitute Chinese sweet red bean paste, p. 132."

Bean paste, yellow (Chinese).

"Beans, black salted fermented. (Called dow see in Chinese) These are very salty soybeans, sold in cans in Chinese markets. Used with garlic as a flavoring for fish

© Copyright Soyinfo Center 2013

and pork dishes. substitute: Soybeans, cooked until soft and seasoned with plenty of soy sauce."

Bean sprouts: Usually refers to mung bean sprouts, "although alfalfa and soybean sprouts are also used."

Hoisin sauce: Soybeans are a major ingredient, along with garlic, chili peppers, and various other spices and ingredients.

Miso. Oyster sauce: "A Chinese sauce, made from oysters cooked in soy sauce and brine." Used as a seasoning with cooked foods and as a table sauce. See recipe p. 146.

Red bean sauce: "A strong table sauce made from mashed soybeans." Available in cans from Chinese stores.

Soy sauce

Also contains entries for: Kombu. Monosodium glutamate (MSG; "I do not use it nor do I recommend its use"). Mung beans.

The index contains 28 entries for soybean, 22 for soy sauce, 14 for miso, 6 for bean paste, oyster sauce, teriyaki, 4 for bean curd–deep fried, hoisin sauce, vegetarian dishes, 2 for ketjap, and 1 each for beans–black salted fermented, bean curd–fermented, jam–soy, jang (see miso), milk–soybean, ragi, shoyu (see soy sauce), soybean oil, sukiyaki, tahu, tau-fu or tau-hu (see bean curd), tempe [tempeh], textured vegetable protein (TVP), tofu (see bean curd), tou shih [fermented black soybeans],

About the author (from the rear cover): "Jennifer Brennan grew up in Pakistan and India and has spent many years in Southeast Asia. She is the author of *The Original Thai Cookbook."* She is "Winner of the IACP [International Association of Culinary Professionals] Award for the Best Literary Food Writing."

6840. Clergeaud, Chantal; Clergeaud, Lionel. 1984. Mystères et secrets du soja [Mysteries and secrets of soya]. Paris: Editions La Vie Claire. 134 p. Illust. 21 cm. [Fre]
• ***Summary:*** Contents: 1. A little history, the properties of soya, soybean culture, soya and animal feeding, recipes based on whole soybeans (*fèves de soja*). 2. Soy flour, soy proteins, recipes based on soy flour and soy proteins. 3. Soy sprouts, recipes based on soy sprouts. 4. Soy oil, recipes based on soy oil. 5. Soymilk, recipes based on soymilk. 6. Tofu, recipes based on tofu. 7. Fermented soy products: miso, recipes based on miso, tamari, tamari-shoyu, recipes based on tamari and tamari shoyu, tempeh, recipes based on tempeh. 8. Other [fermented] soy-based products consumed in the world: Chee fan (fermented tofu), Hamanatto, ketjap (Indonesian soy sauce), Meitauza (fermented okara tempeh), Sufu (fermented tofu). Address: Naturopathes–Ostéopathes, France.

6841. GEM Cultures. 1984. Food cultures from around the world / and more [Mail order catalog]. 30301 Sherwood Rd., Fort Bragg, CA 95437. 4 p. [4 ref]
• ***Summary:*** Contents: 1. Powdered cultures for soycrafters: Powdered starter cultures for tempeh, miso, amazake, shoyu, and tamari. In home and commercial sizes. Rice koji. 2. Koji starter kits. 2. Fresh self-renewing cultures: Viili starter, sourdough starter, kefir grains, natto starter, living tempeh starter. 3. Coagulants for tofu making (nigari, Terra Alba calcium sulfate in 1 lb or 5 lb bags).

4. Some helpful books. 5. Sea vegetables from the Mendocino Sea Vegetable Co. Our purpose. How to order. Address: Fort Bragg, California. Phone: 707-964-2922.

6842. Gerras, Charles. ed. 1984. Rodale's basic natural foods cookbook. Emmaus, Pennsylvania: Rodale Press. xi + 899 p. Illust. Index. 24 x 20 cm.
• ***Summary:*** This book, containing over 1,500 recipes, does not use salt or white sugar, but does use meats, poultry, and fish. It was also published by Simon & Schuster as "A Fireside Book." It contains extensive information on and many recipes for soyfoods, including whole dry soybeans, tofu, soy ice cream, soy flour and grits, miso, soymilk, soy oil, okara (soy pulp), soy sauce, tamari, and soy sprouts. Address: Pennsylvania.

6843. Greenwood, Sadja. 1984. Menopause, naturally: Preparing for the second half of life. San Francisco, and Volcano, California: Volcano Press. 201 p. Illust. by Marcia Quackenbush. 23 cm. [36 ref]
• ***Summary:*** This is a pioneering, wonderful book on menopause. Chapter 10, titled "Estrogen replacement therapy: The pros, cons, and unknowns" states (p. 89) that when estrogen was first isolated in the 1920s, it was used for women who had lost their ovaries through surgery and for women with severe problems after natural menopause. "However, its use was not widespread until the 1960s, when a book entitled *Feminine Forever,* by Robert Wilson, popularized estrogen use for all women who wanted to retard aging and retain their feminine allure. The use of 'estrogen replacement therapy,' or ERT, spread widely among middle- and upper-class women treated by private physicians."

Chapter 15, titled "Nutrition: All about eating and drinking" (p. 147-76) advocates a diet low in meat and high in whole grains, beans, vegetables, and fruits. Beans are excellent foods; they are high in protein, low in fat, and a good source of fiber. If gas is a problem, cook the beans well and serve small portions. "Fresh green beans and peas, bean sprouts, and soybean foods like tofu rarely give you gas." An illustration (line drawing) shows sacks and boxes of various types of beans (not including soybeans) and a cake of tofu. People who get much of their protein from beans and grains are also helping to make most efficient use of world food resources–an idea developed in *Diet for a Small Planet.* Sprouts are a delicious food, high in nutrients. Anyone can make bean sprouts in the kitchen from lentils, aduki beans, mung beans, etc. Sea vegetables are excellent; avoid canned veggies.

© Copyright Soyinfo Center 2013

Concerning meat fish and poultry: Try to cut back, replacing them with a combination of whole grains and beans–which provides high-quality protein without added fat. "You can eliminate entirely and be healthy! Vegetarians have good health records, with lower rates of heart disease and cancer than meat-eaters." Nonfat or low-fat milk, yogurt, and cheese are good foods for mid-life women because of they are high in calcium. But some adults lack the ability to digest milk sugar (lactose), and experience cramping, gas, and diarrhea after consuming milk products. "Soy 'milk' can be used, especially in cooking, as a milk substitute." A table shows common foods that are high in calcium, including "tofu (soybean curd)." 4 oz. contains 150 mg of calcium. Note: This is the earliest English-language document seen (Oct. 2003) that contains the term "Soy 'milk.'"

Cut down on fats, sugar, salt, alcohol, and caffeine. A table titled "Suggestions for healthy breakfast foods" (p. 171) includes "Tofu (bean curd): Eat steamed, scrambled, or grilled with onions, curry, soy sauce, or other flavorings." Tofu is high in calcium. Suggestions for a healthy lunch include mashed tofu as a filling in sandwiches made from whole grain bread. Suggestions for healthy snack foods include slices of raw vegetables with tofu or cottage-cheese dip. Suggestions for a healthy dinner (p. 173) include brown rice with stir-fried vegetables and tofu. On p. 175 are recipe suggestions for Stir-fried vegetable dishes with tofu, meat, or fish.

On the rear cover is a photo of Sadja Greenwood, M.D., M.P.H., and a biographical sketch. She is age 53, "mother of two grown sons, a vegetarian, a slow jogger, looking for the truths about life and the joy in every day." A general practitioner, she has long been associated with women's health programs. "She is Medical Director of Min An Health Center, which utilizes Eastern and Western medical treatments, and is Assistant Clinical Professor at the University of California Medical Center, San Francisco."

Note: In 1984 the phytochemicals in soybeans and their possible benefits for menopause were largely unknown.

Note: This is the earliest document seen (Sept. 1999) in which soy is mentioned in connection with relief of menopausal symptoms. Address: M.D., MPH, San Francisco, California.

6844. Hapgood, Fred. 1984. Log of soyfoods research in Japan, Sri Lanka, and China, Oct/Nov., for *National Geographic* magazine (Log–unpublished). 85 p. Unpublished log.

• ***Summary:*** Fred was researching an article about the soybean for *National Geographic* magazine. This handwritten log is filed in Soyinfo Center file cabinets by country keyword. Thus, the portion concerning Sri Lanka (p. 13-43, 57-64) is filed with the documents concerning South Asia (AsSo) in 1984. The first person he met in Sri Lanka was Mr. S. Pathiravitana, editor, *Soyanews.*

• ***Summary:*** Foreword. Everything about soy (*Soja*). Basic soy recipes (How to make at home): Soy grits. soy sprouts, light soybean pulp (cooked ground soybeans), dark soybean pulp, cooked soybeans, sweet cooked soybeans, cooked azuki beans, soymilk, tofu–Soya quark or soya cheese (*Sojaquark oder Sojakäse*), sokar.

Soups and one-pot dishes. Refines ragouts. Delicate meatballs or rissoles. Pies, pastries and spreads. Hearty vegetable dishes. Special salads. Side dishes, garnishes, and entrements. Fine sauces. Soya for those in a hurry. Desserts and confections. Drinks and energy-spenders. Delicious spreads for breads. Bread, cakes, pastries (*kuchen*) and baked goods. Appendix: Glossary, books and addresses: gomashio (sesame salt), graham flour, Indonesian soy sauce, margarine, miso, nigari, soy oil, tahini (*sessamus*), defatted soy flour, whole (full-fat) soy flour, soy sauce, tofu mayonnaise, Worcestershire sauce. Address: West Germany.

6853. Leung, Albert Y. 1984. Chinese herbal remedies. New York, NY: Universe Books. 192 p. Illust. (drawings by Bing Fun Leung). Index. 21 cm. [48 ref]
• ***Summary:*** The book is arranged by plant- or food type. Each entry has all or most of the following subcategories: General information, effects on the body, traditional uses, modern uses, home remedies (and specific conditions it is used to treat), availability. Entries include:

Bean curd [tofu] (p. 33-35). Types include "dried bean cake" [pressed tofu], fried bean cake [fried tofu] and fermented bean cake [fermented tofu]–"all derived from bean curd." Bean curd is said to have cooling properties. Since it does not have much taste of its own, "it can be made to taste like anything–hence its popularity in vegetarian dishes." "Bean-cake residue" has traditionally been used therapeutically "mainly for skin conditions, such as ulcers and sores, for which both the uncooked and cooked (baked) forms are made into patties and applied directly onto the affected skin." A common use for bean curd in Canton is for treating the common cold. It was made into a soup with green onions; optional ingredients include mint leaves, ginger, and fermented black beans. The exact recipe used by the author's grandmother is given.

Garlic (p. 67-70). Ginger (p. 71-74). "To treat coughing, wheezing, and excessive phlegm due to colds, a popular Cantonese remedy combines the use of ginger and black beans" [fermented black soybeans].

"If one has accidentally ingested an unknown poison which cannot be treated with a specific antidote, a decoction of 31 gm. (1.1 oz.) each of licorice and black soybeans [fermented black soybeans] or mung beans can be used" (p. 94-95).

Mung bean (p. 105-07): Used as a home remedy to "prevent heat rash or prickly heat."

Soybean (soya) (p. 142-45). "Two varieties of soybean are used in Chinese medicine–black soybean and yellow soybean" (*hei da dou* and *huang da dou*). Black soybean skin [hull, seedcoat], when used medicinally, is known as *hei da dou pi*. Traditional food products derived from the soybean include "bean cake [tofu], soybean milk, soy sauce, soybean oil, and bean sprouts." Plus "fermented black beans."

"Traditional uses: The recorded use of black soybean in Chinese medicine preceded that of yellow soybean. The

© Copyright Soyinfo Center 2013

former dates back at least 2,000 years, being listed in the Shennong Herbal, while the latter dates back to only around A.D. 1330."

Black soybean skins are prepared as follows. Black soybeans are soaked in water until they germinate / sprout, or until the skins / hulls / seedcoats separate easily. The latter are then removed and sun-dried, then stored in a dry place. The earliest known medical use of black soybean skins dates from the middle of the 8th century [mid-700s] during the Tang Dynasty [618-906]. They are said "to nourish the blood, clear one's vision, and drive away disease-causing factors." They are also "used in treating excessive sweating, night sweat [night sweats], dizziness, headache, and rheumatoid arthritis." They are usually taken in the form of a decoction, with a typical daily dose of 9-16 gm (0.3 to 0.6 oz).

There are two types of fermented black soybeans (*dou chi* in Chinese)–unsalted and salted. "Although the only difference between the two is the added salt, the former is more commonly used in Chinese medicine." In making fermented black soybeans, black soybeans are soaked in a water extract of white mulberry leaves and a wormwood herb (such as *Artemesia annua*) followed by steam cooking and fermentation. Other herbs, such as licorice and *Ephedra sinica* (*ma huang*, in which ephedrine [a stimulant] was first discovered) are also used.

The earliest known use of fermented black soybeans in Chinese medicine dates from the early 6th century (early 500s) during the Liang dynasty (502-557). It is said to have a bitter taste "and is said to be good for treating illnesses that affect the lungs and the digestive system. It is used in treating colds, fevers, typhoid, headache, and discomforts in the chest." For these illnesses it is consumed as a decoction, with a daily dose of 6-12 gm (0.2 to 0.4 oz). Many other medicinal uses are given.

"Availability: Yellow soybeans are available in health food stores, groceries, Chinese groceries, and some supermarkets. Black soybeans, fermented black beans, and yellow soybean sprouts are available in Chinese groceries."

6854. Liu, Christine Y.C. 1984. Nutritional cooking with tofu. Ann Arbor, Michigan: Graphique Publishing. 166 p. Illust. Index. 22 cm. [15 ref]

• ***Summary:*** Contents. Introduction. 1. Tips on keeping and using tofu. Recipes–2. Soup. 3. Main dishes–with a small amount of meat. 4. Main dishes–vegetarian. 5. A meal in itself. 6. Desserts and snacks. 7. Dips, spreads, and dressings. 8. Making tofu [at home]: Regular tofu, fried tofu. and tofu gan (pressed tofu). 9. Ingredients, seasonings, storage, and substitutes. References. About the author (autobiographical). A color photo on the cover and various black-and-white photos throughout the book show Christine Liu. Address: M.P.H., P.O. Box 1332, Ann Arbor, Michigan.

6855. Liu, Chiung-Pi; Shanmugasundaram, S. 1984. Frozen vegetable soybean industry in Taiwan. In: Proceedings of the Symposium on Vegetables and Ornamentals in the Tropics. See p. 199-212. Held 27-28 Oct. 1982 at Universiti Pertanian Malaysia, Malaysia. [Eng; mal]

• ***Summary:*** The term "vegetable soybean" refers to "immature green soybeans, either in pods or as shelled beans." Vegetable soybean varieties were introduced into Taiwan in about 1967 by Japanese trading companies. Frozen soybeans now constitute about 45% of all frozen vegetables exported from Japan, making them the most important and profitable frozen vegetable exported from Taiwan. Approximately 60% of Taiwan's frozen soybeans are exported through Japanese trading firms, especially C. Itoh Co. Ltd., Mitsui Bussan Co. Ltd., Mitsubishi Co. Ltd., Marubeni Co. Ltd., and Toshoku Co. Ltd. In 1981 Taiwan exported 25,000 tons of frozen vegetable soybean pods worth US$21 million to Japan. These frozen exports have been rising steadily since 1975, as shown in Fig. 1.

Although new varieties of vegetable soybeans are now being tested, 95% of the vegetable soybean area in Taiwan is planted with the variety Tsurunoko ("Child of the crane"), known to Taiwanese farmers as #205. In Taiwan an estimated 4,600 ha were planted to vegetable soybeans in 1980, increasing to 5,300 ha in 1981. Most of this area is concentrated in Pintung and Kaohsiung counties in southern Taiwan (just below the Tropic of Cancer), but significant amounts are also planted to the northwest in Changhwa and Taichung counties. The primary cropping season is autumn.

Table 6 shows expenditures (in US dollars per year) on selected foods in Taipei, Taiwan, from 1977 to 1981. The figures 1977–1981 for various soy-related foods are: Soybean curd (tofu) 7.9–7.1. Soybean curd cake (okara) 9.3–8.4. Soybean milk 3.0 (1978)–5.0. Vegetable soybean without pod 2.5–2.6. Soybean 0.5–0.6. Address: AVRDC, Tainan, Taiwan.

6856. Miller, Marcia. 1984. The best little tofu cookbook from Marjon. Tampa, Florida: Depot Press. 67 p. Illust. No index. 23 cm. Spiral bound.

• ***Summary:*** This book is entirely hand-written with many illustrations (line drawings). Contents: What is tofu? Nutrient content of tofu and other common foods. Recipes–Dips (3 recipes). Sandwiches (3). Breads (3). Main dishes (45). Desserts (9 recipes). Six color photos on the front cover show tofu dishes. A black-and-white portrait photo on the rear cover shows John and Marcia Miller, who started Marjon Specialty Foods in 1972 as business partners. The word Marjon was created by combining "Marcia" and "John." Marcia has taught vegetarian cooking classes, given television demonstrations, and created all the recipes for Marjon. Address: Marjon Specialty Foods, 3508 Sydney Road, Plant City, Florida 33566.

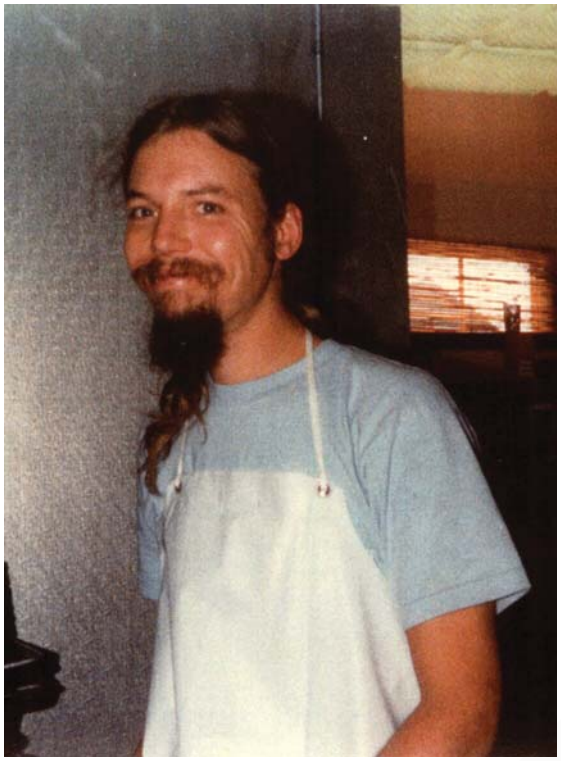
6857. Photographs of the Arcata Tofu Shop in Arcata, California (1980-1984). 1984. Arcata, California.



• ***Summary:*** Twenty-two color photos (most 4 by 5 inches), numbered with captions, were sent to Soyfoods Center on 24 Sept. 2002 by Matthew Schmit, founder and owner of the Arcata Tofu Shop. They were taken in Arcata between 1980 and 1984. Nos. 3-12 were taken in Dec. 1980. They show: (1) Oct. 1980–Inside of building in Arcata during complete remodeling of previous insurance offices (1,000 square feet). (2) Oct. 1980–Outside of same building at 768 18th St. Lease just signed. Newspapers in windows in preparation for remodeling. (3) Open for business. Large wooden sign above door reads "The Tofu Shop: Soy Deli and Whole Grain Bakery." (4) Putting up sign over door. All people standing on sidewalk or ladder have their backs to the camera. Bottom left (standing on sidewalk): Paul Kusterman, who loaned money to help shop open; a truck driver for United Naturals, he had been selling tempeh burgers at local fairs since 1978. On ladder: Matthew Schmit. Bottom right (standing on sidewalk): Jackson Hollomon and wife Valerie. Jackson gave Matthew Schmit his first taste of tofu in the winter of 1973-74. In 2001 Jackson finished 3-year Buddhist retreat. On roof holding sign–On left: Man who created the sign. On right: Daniel Schmit (Matthew's brother). (5) Grocery section inside The Tofu Shop, with bottles of sauces, packages of Miso Cup, and an issue of *Soyfoods* magazine on wooden shelves, with a "What is Tofu?" pamphlet on the wall. (6) Suzanne Kosciolek Schmit stocking specialty grocery shelves. A Learning Tree Tofu Kit is now visible. (7) Suzanne Kosciolek Schmit holding The Tofu Shop's tiled logo (a writhing blue dragon on four white tiles in a wooden frame) next to the first shipment from United Naturals: Soybeans (from Arrowhead Mills), nigari, barley malt, natto miso, sea vegetables, etc. (8) Looking in the front door of The Tofu Shop; six shelves of special groceries, tempeh kits, etc. (9) Matthew Schmit dressed in white apron with "first batch grin." Deli store front counter area is in the background. (10) Back wall of shop with supplies and custom forming box table with adapted "load bar" presses (idea from *Soyfoods* magazine). (11) Cutting first batch of tofu in stainless steel sink. (12) Close-up of The Tofu Shop's first printed tofu labels in Arcata atop a deli take-out carton. Color and design are similar to those from Telluride–Blue on white, with a dragon in a circle. (13) 1981–Steve Rhine setting presses on metal forming boxes. (14) 1981–Matthew Schmit ladling *gô* from cooking pots to hand-screw apple-cider press used as a soymilk press. (15) 1982–Workers sitting on brick bench in front of shop. Left to right: Matthew Schmit. Stephen Lyons, tofu maker. Amy Pujanawski, deli worker. Tom Nawrocki, maker of tofu and tempeh. Rob Earhardt, tofu maker. John Hendricks, tofu maker. (16) 1982–Matthew Schmit packing tofu in take-out boxes on shelf of shop's back wall. (17) 1983–Linda Redfield behind Tofu Shop table, promoting soyfoods at Arcata Co-op event. (18) 1983–Deli worker Jeannie Penn behind Tofu Shop table World Food Day at Arcata Co-op. Jeannie was one of the few female tofu makers ever employed by the shop. (19) 1982–Tofu Shop booth at Gemini Distributors Food Show,

6859. Robertson, Laurel; Flinders, Carol; Godfrey, Bronwen. 1984. The Laurel's Kitchen breadbook. A guide to whole-grain breadmaking. New York, NY: Random House. 448 p. * Address: Ramagiri, Blue Mountain Center of Meditation, Petaluma, California.

6860. Rosengarten, Frederic, Jr. 1984. The book of edible nuts. New York, NY: Walker and Company. xxv + 384 p. See p. 324-27. Illust. Index. 26 cm. [330* ref]
• ***Summary:*** The chapter titled "Soybeans" (p. 324-27) contains a brief discussion of soybean oil, soybean meal, tofu, miso, tempeh, and soy sauce, plus more detailed information on soynuts, which are attractive nut substitutes. Soynuts are whole soybeans that have been processed to look and taste like nuts, and be used like nuts. With a crunchy texture and no cholesterol, they have more than twice the protein content of most tree nuts and are relatively inexpensive. The author explains that large-seeded vegetable-type soybeans are used for soynuts. He describes how they are processed and the different flavors and brands that are available.

One major reason for the vast increase in soybean production in the USA is the ease with which the crop can be fully mechanized. Address: Associate in Economic Botany, Botanical Museum, Harvard Univ. [Massachusetts].

6861. Saito, Akio. 1984. [Chronology of soybeans in Japan, 1970 to 1984] (Document part). In: Akio Saito. 1985. Daizu Geppo (Soybean Monthly News). Feb. p. 16-18. [Jap]
• ***Summary:*** 1970–Soybean cultivation area in Japan drops to 95,500 ha, falling below 100,000 ha for the first time. Soybean cultivation area in Japan is nearly 10% of total cultivation area for all crops.

1970–Soybean imports rise to 3,243,790 tonnes, passing 3 million tonnes for the first time.

1972–Production of defatted soybean meal reaches 2,035,000 tonnes, topping 2 million tonnes for the first time. Production has risen 2.8 fold during the past decade.

1972–Production of deep-fried tofu pouches (*aburage*) reaches 200,000 tonnes.

1973–Soybean imports reach 3,635,000 tonnes, up 7% over last year despite U.S. export regulations.

1973–Some 2,740,000 tonnes of soybeans, representing about 80% of all soybeans in Japan, are crushed to make soy oil. 1973 Jan. 27–An extraordinary Cabinet meeting is held and the decision is made to import soybeans from the USA urgently. The price of soybeans in late 1972 was 3,000 yen per 60 kg sack but now it has become very difficult to get them even if you pay 15,000 yen per 60 kg. Soybeans are called "yellow diamonds."

1973 June 27–President Richard Nixon sets new regulations for U.S. soybean exports. These give the Japanese tofu, miso, and soy oil industries a big "shock."

1973 July 6–The Japanese government passes a new law that forbids soybean brokers or sellers in Japan from buying up and selling at inflated prices 16 important items–including soybeans.

1973 July 12–The Japanese Department of Commerce announces that it permits the export of soybeans for special food uses, such as tofu and high-quality misos, which were planted under previous contracts.

1973 Sept. 7–The U.S. Department of Agriculture removes all regulations that concern exports of agricultural products.

1973 Oct. 17–OPEC nations decide to regulate the production and supply of crude petroleum. This leads to huge price increases in petroleum products–known in Japan as the "oil shock." Japanese buy up toilet paper and wash detergents causing much confusion.

1974–Good quality miso now retails on average for 251 yen/kg, up 22.4% from last year. The average retail price of shoyu in Tokyo is 434 yen for 3 liters, up 33.5% from last year.

1974 Feb.–The Japanese Ministry of Agriculture and Forestry asks manufacturers of tofu, natto, deep-fried tofu pouches, and dried-frozen tofu to reduce the retail prices of their products to the levels they were at in November 1973.

1974 July 30–In order to get rid of AF2 (a preservative widely used in tofu), the City of Tokyo decides to make a public announcement of all foods which may contain AF2 and announces that food inspections will start immediately,

© Copyright Soyinfo Center 2013

on August 1.

1974 Aug.–The Japanese Ministry of Public Welfare forbids the usage of AF2.

1974 Oct.–The JAS food certification system, formerly applied to widely distributed foods, is applied to tofu, natto, konnyaku, etc., which are foods that are distributed over a small area.

1975–The typical price of Tofu in Tokyo is 60-70 yen per 300 gm. Yet in supermarkets it averages 50 yen, and some sell it for as little as 25 yen.

1976–Soybean production in Japan drops to 109,500 tonnes, the lowest level since 1878 when production statistics started to be recorded.

1978–The soybean cultivation area reaches 127,000 ha, topping 100,000 ha for the first time in 9 years.

1978–Soybean imports rise to 4,260,000 tonnes, topping 4 million tonnes for the first time. This is 4.5 times as much soybean imports as 20 years ago.

1978 Aug.–Unbranded generic foods, such as shoyu, miso, and salad oil, start to be sold. They retail for about 30% less than major branded products.

1979–Tofu production continues to rise, reaching 1,114,000 tonnes, an topping 1.1 million tonnes for the first time.

1980–Production of natto reaches 153,000 tonnes, up 33% compared with 10 years ago (when it was 115,000 tonnes).

1981–The area occupied by registered soybean varieties rises to more than 60% of total soybean area.

1981 Per capita consumption of miso drops below 6 kg/year to 5.9 kg/year, down 30% compared with 20 years ago (when it was 8.4 kg) This is a reflection of the health food movement in Japan.

1981 Sept.–Dr. Hirayama of the National Cancer Center announces that miso soup has some effect on lowering the death rate from stomach cancer, stroke, and sclerosis of the liver.

1981 Nov.–The Ministry of Agriculture and Forestry announces JAS (Japanese Agricultural Standards) for soymilk. The soymilk boom starts. The total yen value of the soymilk by all major Japanese manufacturers is 5,000 million yen.

1982–There are now 77 registered varieties of soybeans cultivated in Japan. Two of these (Norin 1-go and Norin 5-go) have a Norin [Ministry of Agriculture] number, and 25 have various place names.

1982–Production of soybeans in Japan this year is 226,300 tonnes, and soybean imports are 4,344,000 tonnes–which is only 5% self sufficiency.

1982–Per capita consumption of soy oil rises to 5.1 kg, topping 5 kg for the first time. It is 3 times higher than it was 3 years ago.

1982–Production of defatted soybean meal reaches 2,800,000 tonnes–up 38% over the last 10 years.

1983–Production of soymilk in Japan rises to 116,724 tonnes, topping 100,000 tonnes for the first time. It has risen 71% during the past year.

1983–Per capita consumption of soybeans in Japan is 5.8 kg, up 3.6% during the past year.

1984–The use of soymilk as a beverage is declining in Japan. The movement to use more soymilk as an ingredient in foods (such as noodles, breads, ice creams, and creamy soups) is becoming more active.

1984–Soybean yields in Japan reach 1,770 kg/ha, an all-time record. The old record was 1,540 kg/ha in 1982. Address: Norin Suisansho, Tokei Johobu, Norin Tokeika Kacho Hosa.

6862. Shanghai Cultural Publishing House. 1984. Touring metropolitan Shanghai. Translated by Ou Yamei. Shanghai, China: Shanghai Cultural Publishing House. 291 p. Illust. (some color). No index. 19 cm.

• ***Summary:*** The chapter titled "Famous cuisine and snacks of local flavour" (p. 212-28) contains much information about restaurants.

Restaurants of the Jiangsu style in Shanghai have on their menus "braised pork in preserved bean-curd sauce" and "stewed bean-curd with shrimp and ginger sauce." "The celebrated Yangzhou Restaurant of Huai-Yang style serves, among its best-known dishes, boiled dry bean-curd slices" (p. 216-17).

Vegetarian restaurants (p. 219-20). The names of famous vegetarian restaurants in Shanghai are given. "The Gong De Lin Restaurant specializes in preparing vegetarian food in the way meat dishes are cooked. The restaurant makes its own bean-curd, gluten and spongy bean-curd. Its famous dishes are spongy bean-curd in thick sauce, vegetarian ham, vegetarian shrimps and vegetarian eels. The vegetarian restaurant in the Jade Buddha Temple treats diners with famous dishes like bamboo shoots in the shape of Buddha's fingers,... All these are distinctive is colour, smell, flavour, and appearance, and well received, especially by the elderly people.

Note: This is the earliest English-language document seen (April 2013) that contains the term "spongy bean-curd." Could it be frozen tofu? Address: Shanghai, China.

• ***Summary:*** This attractive, hardcover book, printed on glossy paper and containing many excellent color photos of dishes, has a lengthy section on soya (Soja; p. 291-307). It gives descriptions of and recipes for using (or making) whole dry soybeans, soymilk, tofu, and miso. Address: Zagreb, Yugoslavia.

6870. Wu, Olivia. 1984. Grand wok cookbook. Woodbury, New York, London, Toronto, Sydney: Barron's. vi + 218 p. Plus 36 unnumbered pages of color plates. Illust. (color). Index. 25 cm.
• ***Summary:*** The section titled "Ingredients" (p. 25-37) includes: Soy sauce: "The French translate this term with more success: *essence de soja.* There's nothing about this extract of soy beans that is remotely like a sauce." "Dark soy is sometimes labeled 'mushroom soy sauce' or 'shrimp soy sauce' because additional flavors are added to it. These flavors are subtle... Finally there is an extremely thick and dark soy sauce, sold as 'double-dark soy sauce' or 'thick soy sauce'" (p. 28-29).

Note: This is the earliest (and only) document seen (April 2012) that contains the term "shrimp soy sauce" or the French term *essence de soja.*

"Tofu: Also called bean curd,..." Use only fresh tofu. Bean sauce, which contains naturally fermented soybeans, is known as miso in Japan. Hoisin sauce is also a bean-based sauce. Oyster sauce (which in French is called *essence des huitres,* or "essence of oysters)."

Soy related recipes include: Miso omelette (p. 79). Tofu and bean sprouts with spicy peanut sauce (p. 160). Crabmeat over tofu (p. 171).

Note: Concerning "essence de soja," it is not listed in our *Cassell's French Dictionary* (1978) under "essence" or "soja." A Google search for the term *essence de soja* (15 July 2011) gets about 259 results, some of which are duplicates. Here are some examples: (1) On the menu of the Eiffel Tower restaurant in Las Vegas, under "A La Carte Menu–Fish, Seafood" is "Loin of Ahi Tuna." The French-language description of the dish includes "Essence de Soja et d'Agrumes" [citrus fruit]. (2) A website selling "Soja Coffee" in cartons of 100 states (in French): *La base de notre 'Soja Coffee' est un grain pur arabica enrichi d'un extrait de*

© Copyright Soyinfo Center 2013

soja. Découvrez l'alliance du café occidental et de l'essence de soja, plante traditionnelle en Asie. The sense used here does not seem to refer to soy sauce, but to soy coffee (powdered or spray dried). (3) The restaurant "Le Divin Caprice" in Brussels / Bruxelles, Belgium, offers *Essence de Soja & Miel d'Acacia.* (4) The Restaurant "Le Sarment de Vigne" offers one dish which contains an unspecified amount of "essence de Soja." Address: Cooking instructor, born in Shanghai.

6871. Yeh, Sing-Wood. 1984. Gelation characteristics of Illinois soybean beverage base. PhD thesis, Dep. of Food Science, University of Illinois, Champaign, Illinois. 131 p. Page 1985 in volume 45/07-B of Dissertation Abstracts International. 6 black and white pictures. No index. 28 cm. [130 ref]

• ***Summary:*** Contents of the "Literature Review" section: Soybeans: Historical, soybean protein, problems of utilization (lipoxygenase enzyme induced off-flavor, trypsin inhibitors, flatulence). Methods of soymilk manufacture: Traditional methods, modified methods (hot water extraction, acid extraction, alkaline extraction), defatted soymeal method, protein isolate method, lipid-protein concentrate, whole bean methods. Soybean curds: Historical, regular tofu manufacture in the traditional way, factors affecting the quality of soybean curds (variety of soybean, composition of soybean milk, heat treatment, coagulants, others). Texture profile analysis.

Describes the characteristics of tofu made from Illinois beverage base (soymilk made by the Illinois method). "There was no difference in the textural data between the Illinois curd and the Oriental tofu. The total solids and protein recoveries in the Illinois curd were 82.2 and 94.9% which were much higher than 57.2 and 69.4%, respectively, in the Oriental tofu. The best curd from Illinois soybean base was obtained by blanching cotyledons in tap water without bicarbonate, grinding with water to 10% total solids, homogenizing at 82º with 5000 psi pressure on the first stage, coagulating with 0.5% calcium sulfate at 75ºC and pressing as usual. This curd was somewhat grainy so the mouth-feel was not quite as good as that for tofu. However, it compared favorably with tofu in all other respects while showing a large advantage in protein recovery." Address: Urbana, Illinois.

6872. Yntema, Sharon K. 1984. Vegetarian baby: A sensible guide for parents. 2nd ed. Ithaca, New York: McBooks Press. 224 p. Illust. by Tom Parker. Index. 22 cm. [105 ref]

• ***Summary:*** Text on cover: "A complete and valuable source book for vegetarian parents. Gives you the confidence to bring up your child on a meatless diet." A good handbook for vegetarian as well as vegan parents. Contains nutrition facts as well as good tips for feeding babies, plus special recipes for babies. Covers babies up to two years of age. Contains extensive, positive information about soyfoods, especially tofu and soymilk, including the nutritional value, specific uses in infant nutrition, and how to make each food at home. Tofu may be introduced to an infant's diet at age 8-9 months. Appendix B contains brief reviews of baby food cookbooks, most published after 1970. The author was born in 1951. Address: Ithaca, New York.

6873. **Product Name:** Cookies (with Tofu and Vegetables).
Manufacturer's Name: Aloha Tofu Factory.
Manufacturer's Address: 961 Akepo Lane, Honolulu, Oahu, Hawaii. Phone: 808-845-2669.
Date of Introduction: 1984?

6874. *Caribbean Contact.* 1984? Canadians experiment with soybean in Jamaica.

• ***Summary:*** In Jamaica, Plenty Canada is "conducting an integrated soy foods programme involving the growing of soybeans and other food crops and the introduction of soyfoods such tofu, soy milk, and tempeh to householders. The project, which began in Sept. 1983, is currently assisting over 40 farmers in the growing of soybeans... and has produced soy foods at nearly 30 demonstrations to well over a thousand Jamaicans." Plenty has conducted variety trials for over 200 varieties of soybeans with the Hillside Farmers Association. "Plenty is working with six schools in St. Ann parish to supply materials and training for establishing school gardens. The produce from these gardens will be used in the school lunch programmes...

"Generally, two types of demonstrations are provided. First the people are shown how to cook with tofu and soy milk and are given samples of the foods prepared. In the second demonstration, the actual production of these products is shown, and instruction sheets provided...

"Plenty Canada is currently seeking funding from the Canadian International Development Agency for a three year extension of the project in Jamaica. During this time, a small production facility for soy foods will be set up, nutritional study and training undertaken, and further school lunch programmes developed...

"Plenty Canada is also conducting projects in Antigua, Dominica, St. Lucia, and St. Vincent in the Caribbean and Lesotho in Southern Africa."

6875. Eastern Foods Corp. 1984? Eastern Foods (Brochure). 3235 Hennepin Ave., Minneapolis, MN 55413. 4 p. Undated. 28 cm.

• ***Summary:*** On the cover of this full-color brochure is a vertical photo of black, yellow, and red soybeans. Inside are four shots of tofu being made inside the plant, and three shots of the companies various products, including about 16 tofu products, plus egg roll and won ton skins/wrappers. The bold green headings read: "Quality is Eastern. Crops from the field, to Eastern Foods processing, to finished packaged

product."

On the rear cover are three photos of the packaging line in the plant and two views of the outside of the plant in the snow. Address: Minneapolis, Minnesota.

6876. **Product Name:** Tofu.
Manufacturer's Name: L.S. Foods, Ltd.
Manufacturer's Address: Manchester, England.
Date of Introduction: 1984?
New Product–Documentation: Talk with George Long, owner, who called from England. 1998 Feb. 12. George is a second generation Englishman of Chinese origin who speaks fluent King's English. This company (Mr. Lau) started making tofu 12-15 years ago, but at a different address in Manchester. The name and address are now: L.S. Foods, Ltd., No. 14 Birch Lane, Longsight, Manchester M13 0NN, England, UK. Phone: 161-225-3098. The product labels are written entirely in English. His company dominates the ethnic Chinese tofu market in central northwest England. An estimated 70-80% of the tofu is sold to Chinese-Brits; the rest is sold to Caucasian Brits. They used to make soybean milk, but they have discontinued it to focus on tofu.

6877. **Product Name:** Hard Tofu: Soy Bean Curd.
Manufacturer's Name: Mon Soon Food Products, Inc.
Manufacturer's Address: 154 Mott St., New York, NY 10013. Phone: (212) 226-7600.
Date of Introduction: 1984?
Ingredients: Soybeans, water, calcium sulfate.
Wt/Vol., Packaging, Price: 16 oz (1 lb) 454 gm.
How Stored: Refrigerated.
New Product–Documentation: Label. Undated. 5.25 by 4.25 inches. Printed red on clear film. Chinese and Korean characters also on label.

6878. Parker & Heart. 1984? The wizard of id (Cartoon). Undated. * • ***Summary:*** A man is sitting in a bank. He says: "I want to open up a restaurant." The banker asks: "What are you gonna make there?" Man: "Everything." Banker: "What you gonna call this restaurant." Man: "McSoybeans."

6879. **Product Name:** [Smoked Tofu (With Red Wine, Mushrooms, or Sea Vegetables)].
Foreign Name: Raeucher Tofu (Rotwein, mit Pilzen, Algen).
Manufacturer's Name: Svadesha R. Urban.
Manufacturer's Address: Das Werkhaus, Leonrodstr. 19, D-8000 Munich 19, West Germany. Phone: 089 / 93 90 05.
Date of Introduction: 1984?
Ingredients: Red wine: Tofu*, red wine, provincial herbs, sea salt, smoke from juniper wood and herbs. * = Organically grown (*aus kontrolliert biologischem Anbau*).
Wt/Vol., Packaging, Price: 200 gm.
How Stored: Refrigerated.
New Product–Documentation: Label sent by Anthony Marrese. 1990. March 22. 4 by 1.5 inches. Red, black, or green on white. Logo of sun behind breaking wave. The company's brochure titled "Svadesha Tofurei" states that the mushroom variety contains Egerlingen mushrooms, parsley, and diced leeks. The sea vegetable once contains hijiki and arame. The ingredients are mixed into the curds before the tofu is pressed. They are fried, drained, and then smoked with a mixture of birch and juniper woods, plus herbs. When sliced, the specks of ingredients are clearly visible.

Talk with Svadesha R. Urban, company founder. 1990. June 13. This product was introduced while the company was located in Das Werkhaus on Leonrodstrasse in Munich. He thinks it was the first smoked tofu in Germany. It is now the company's third best-selling product.

6880. **Product Name:** [Tofu Spread].
Foreign Name: Tofu Pastete.
Manufacturer's Name: Svadesha R. Urban.
Manufacturer's Address: Das Werkhaus, Leonrodstr. 19, D-8000 Munich 19, West Germany. Phone: 089 / 93 90 05.
Date of Introduction:

1984?
Ingredients: Tofu*, fresh Egerlinge mushrooms, olive oil*, wheat*, carrots*, shoyu*, arrowroot, balsam vinegar, finely minced vegetables, sea salt. * = Organically grown (*aus kontrolliert biologischem Anbau*).
Wt/Vol., Packaging, Price: 150 gm.
How Stored: Refrigerated.
New Product–Documentation: Label sent by Anthony Marrese. 1990. March 22. 4 by 1.5 inches. Green on white. Logo of sun behind breaking wave. The company's brochure titled "Svadesha Tofurei" states: "As simple as herb tofu, so varied are the ingredients and so extravagant and lavish is the production of these Pastete. A dough is prepared from tofu, fresh carrots and onions, organic olive oil, shoyu, balsam vinegar, and a unique mixture of fine vegetables. Pastry forms are filled with this dough and boiled in water." Talk with Svadesha R. Urban, company founder. 1990. June 13. This product was introduced on Leonrodstr. in Munich. After moving to Ostpreussenstr., he introduced new versions of the product, one with herbs and one with tempeh.

6881. Thomas, Patrick. 1984? Early work with soyfoods on The Farm in Summertown, Tennessee (Interview). *SoyaScan Notes.* Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Patrick founded the milling operations on The Farm in the spring of 1972. He made various types of flour, including soy flour, which was used to make soymilk and tofu. His mill was a large, commercial steel-roller corn mill driven by a 7.5–10 horsepower motor. In about 1977 The Farm started to sell its soy flour and split soybeans that could be used for making tempeh. Address: Historian, The Farm, Summertown, Tennessee.

6882. *Toyo Shinpo* (*Soyfoods News*). 1985. Ninki no aru tôfu ryôri-ten [Popular new tofu restaurants in Japan]. Jan. 1. p. 48. [Jap; eng+]

6883. Wei, Zheng. 1985. For the lover of doufu. *China Daily.* Jan. 2. p. 6. [Eng]
• ***Summary:*** Describes the new breed of tofu entrepreneurs in China. Southern tofu has a different flavor from northern tofu, and is softer or more tender. One maker of southern tofu who sells it in Beijing for 20 fen/500 gm noted that he uses calcium sulfate as a coagulate because "bittern can damage the kidneys." His income from selling tofu is 300-400 yuan/month. The State producers cannot supply all of Beijing's demand. The closing line reads: "You enjoy my bean curd thanks to Deng Xiaoping. Without him, you wouldn't have it." Address: China.

6884. Bertolami, S. 1985. Tofu: Bald auf jedem schweizer Tisch? [Tofu: Soon on every Swiss table?]. *Tages Anzeiger Magazin.* Jan. 5. p. 24-26. [Ger]
Address: Zurich, Switzerland.

6885. Fabricant, Florence. 1985. Sushi to go takes off in New York. *New York Times.* Jan. 6. p. C3.
• ***Summary:*** "Japanese restaurants with sushi bars have become commonplace throughout New York City, but now people can have sushi to go, delivered to the door or for pickup."

Review's four restaurants offering such sushi, including Obento Delight (152 Seventh Ave. South). "Inari sushi, consisting of deep-fried bean curd wrappers enclosing vinegared rice, is an interesting change of pace."

6886. Nordquist, Ted. 1985. The ASA soyfoods conference in Amsterdam. New developments with soyfoods in Europe (Interview). *SoyaScan Notes.* Jan. 7. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** During the 3-day conference 30-50 people were actively involved, not 120. Alfa-Laval and STS had exhibits in the expo hall. Why did the American Soybean Assoc. (ASA) organize this conference? To sell more soybeans. They were very forthright about this. Big drop in sales of soybean meal in Europe due to strong dollar and more use of European oilseeds? The conference was very professional. Amsterdam is definitely the European center of soyfoods. Nutana buys 4 million liters a year of aseptic soymilk from Alpro and sells it through their 7th day Adventist distribution network generally under the brand GranoVita. Nutana claims that when they started soymilk they were responsible for half of Alpro's production. They started distributing it 3 years ago. Alpro was making 3-4,000 liters/hour of milk. A new factory just opened with a capacity of 40,000 liters/hour. Milk from the new plant tastes better. Reliable sources have told Ted that last year 10 million liters of soymilk were sold in Europe, and that 80% of that was made by Alpro.

At least half of the attendees were from big businesses in either the dairy or soy technology areas. There were also about 12-13 soyfoods manufacturers. The smallest soymilk plant from Alfa-Laval or STS is 2,000 liters/hour. A full-scale plant is 20,000 to 40,000 liters/hour. Address: President, Aros Sojaprodukter, Bergsvagen 1, S-190 63 Orsundsbro, Sweden. Phone: 0171-604 56.

6887. Sierra, Edward. 1985. Re: Plenty's work with soybeans in the Caribbean. Letter to William Shurtleff & Akiko Aoyagi at Soyfoods Center, Jan. 11. 2 p. Typed, without signature on Plenty letterhead.
• ***Summary:*** Thanks for joining Plenty with a kind donation. Plenty was founded in Oct. 1974. PAS stands for Plenty Ambulance Service.

On page 8 of the Tenth Anniversary Newsletter [about Oct. 1984] the top photo shows our soy tech and a rasta friend looking over *The Book of Tofu.* We have taken to heart your suggestion for spelling "soyfoods" as one word–an appropriate industry standard.

© Copyright Soyinfo Center 2013

Plenty's work with soybeans and soyfoods in the Caribbean is going well. On Jamaica, Plenty Canada is funding some agricultural work with variety trials of soybeans and other vegetables.

"On St. Lucia, as a result of our work last year, there are 135 farmers now growing soybeans and plans call for setting up a "Soy Shop" [to sell soyfoods] there soon. The first Soy Shop is on the island of Dominica where Plenty volunteers Sara [sic, Sarah] & Norman Ayerst have launched an integrated soy program (agriculture, variety trials, soy demonstrations, etc.) which, last year, flowered into the Soy Shop. Sara, who did the soy demonstrations on Dominica, found that there was a popular and tasty food called "rootis" (pronounced 'roadie'), which are sauce & meat wrapped in dough and fried. She whipped together a tasty tofu recipe and popped that in, and they're a great success! I quote to you from Norman's most recent letter:

"'The soya shop is still doing quite well. We sell about 800 accras (fritters) per day (25 cents ea.). We're open Mon. thru Fri.–can't handle the weekends yet. Ice cream is also a big seller and when we get our own machine we have requests for wholesale lots of the ice cream. We recently put tempeh on the market and it sells slowly (but steadily), at this point–along with the tofu and bottled soymilk. We are planning for some promotion of these last three products–milkshakes, sandwiches, etc. Once the folks taste some appetizing dishes they're much more willing to take the product home in its raw form. There are a lot of vegetarians here and people interested in health, and everyone seems to have a great love of good food.

"'We're operating out of a big house in the Newton district of Roseau... A friend of ours has reopened our old shop under the name of "Soy Kweyole". The new shop is its own entity [self owned by the local folks, which was one of our original goals for the project... ed.] but we have provided backup in many ways and we supply the basic raw materials for the soyfoods they sell. They're going into baked goods–high protein breads, cakes, pies, etc. It looks like they are going to do very well.

"'We are just gearing up to go into soyflour production and sales–it's probably going to be a big seller, judging from our initial marketing survey. Soy fever has definitely hit these parts...It seems as though people are starting to see the economic benefits to soy (not to mention nutritional value) and our project has gotten its feet on the ground. People want to help move things in a positive direction.'

"One of the heart connections that has come of our work with soy in the Caribbean, is with the rastas. Many of them have long ago vowed to "not eat no flesh mon!" stick with "Ital"–godfood, pure stuff. Many were into soy but had none. One fellow, Ras Bongo on St. Vincent, had been given four soybean seeds by one on another island. Ras Bonga planted them, and carefully saved the seed each year, until he could afford to try some. Meanwhile, he asked around for soy, how to use it, recipes, ideas for growing them, but found little. When we showed up we were able to supply him with more seeds and show him how to cook soyfoods. This is one of the intangible rewards that come with the work." Address: Plenty USA, P.O. Box 90, Summertown, Tennessee 38483. Phone: (615) 964-3992.

6888. Lewis, Stephen. 1985. Outdoor dining a la cart: New York loves its food vendors. *Chicago Tribune.* Jan. 13. p. K3.
• ***Summary:*** New York–On a recent stroll down 5th Avenue, the writer counted 70 pushcarts selling food on corners in the 10 blocks between 59th and 49th Streets. He watched as New Yorkers bought "Italian ice cream, ice cream and frozen *tofu* [soft-serve soy ice cream], melons, nectarines, peaches, hard candy, dried apricots, almonds and pistachios by that pound, all washed down with gallons of ice-cold soda and fresh orange juice."

A large cartoon shows a food cart selling hot dogs.

6889. Fabricant, Florence. 1985. Biblical name and Japanese food: Dining out. *New York Times.* Jan. 20. p. L_I_19.
• ***Summary:*** This is a review of the two-star Japanese restaurant Naomi (Great Neck, New York). "The list of sushi preparations is one of the most complete you are likely to find and it includes some of the less typical items such as... inari sushi puffs of deep-fried beancurd filled with vinegared rice..."

Note: This is the earliest English-language document seen (April 2013) that contains the term "deep-fried beancurd" (regardless of hyphenation).

6890. Reichl, Ruth. 1985. Adding up the pluses and minuses at Abacus. *Los Angeles Times.* Jan. 20. p. T81.
• ***Summary:*** This is a review of the Chinese restaurant Abacus (11701 Wilshire Blvd., West Los Angeles). Crab in black bean sauce was mediocre. Catfish was overwhelmed with a messy black bean sauce. "Braised bean curd stuffed with meat was entirely undistinguished."

6891. *Fax* (*The*) (*Fairfax, California*). 1985. Fairfax Council lifts moratorium on downtown service businesses. 2(4):1, 6. Jan. 23.
• ***Summary:*** The change "came at the request of Wildwood Natural Foods owners Bill Bramblett and Paul Orbuch, who had attempted to file an application to move their business from 135 to 31 Bolinas Road and were refused. Wildwood is classified as a wholesale business–they make tofu and natural sandwiches which are sold from Mendocino to Santa Cruz."

"Wildwood, which has purchased the property that includes 31 Bolinas, now occupied by the Car Clinic, plans to remove the existing building and build another. The new building will include three storefronts on Bolinas and a back area where tofu and sandwiches will be made. The company will continue to occupy its current location across the street

• ***Summary:*** Contains tofu market statistics from William Shurtleff. Discusses Nasoya and Legume, inc. Gives 5 tofu recipes.

6893. Associated Press (AP). 1985. Peking paper says cheap tofu in short supply. *Toronto Star* (*Ontario, Canada*). Jan. 30. p. D8.
• ***Summary:*** For the Chinese, tofu (or soybean curd) is a staple food and a chief source of protein–although many westerners find it tasteless and spongy.

"Rationed by the state, the cheapest variety is in particularly short supply in Peking, the official English-language *China Daily* news reports."

Production of tofu cannot keep up with the demand of Peking's five million consumers, however there is no incentive to increase output since the state maintains tofu's traditional price (29 cents Canadian per kilogram) despite the rising costs of energy and raw materials–said the newspaper.

Last year, factories in Peking made 30.6 million kilograms (67 million pounds) of tofu, up 33% from 1979. But even with ration coupons, it is not always available at state grocery stores. Each resident of Peking is allowed 680 grams (24 ounces or 1½ pounds) a month of the most popular kind.

6894. Boyer, Robert A. 1985. Henry Ford, soymilk, soy ice cream, Bob Smith, Rex Diamond, and Rich Products (Interview). *SoyaScan Notes.* Jan. 30. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Soymilk and soy ice cream: "We made soy ice creams in the early 1930s, as a sort of by-product of our work with soymilk. We actually built quite a nice little production unit for making soymilk. It was a natural evolution to make soymilk from ice cream; we didn't learn the idea or the process from anyone. To make the ice cream, we coagulated the soymilk to make a curd, like fresh tofu, which we then dispersed (without drying it) in a colloid mill. We found we got a better product from the curd than from the soymilk itself. So you could call the final product a sort of tofu ice cream. The ice creams were made in the laboratories at Greenfield Village in Dearborn. We had 2-3 labs there. Henry Ford used to call it the Engineering Laboratory. The ice creams were served to special visitors. Mr. Ford would put on special press luncheons for journalists, food editors, etc. and soy ice cream was always on the menu. It was also served in the VIP lounge. It remained an experimental item that we and Mr. Ford would serve to impress people with the good taste and versatility of soy. We served it in the basic favorite American flavors: Chocolate, strawberry, and vanilla. I don't recall whether or not it was served at the 1934 World's Fair in Chicago [probably not], or whether it was served after the start of World War II.

"Later at Ralston Purina we made soy ice cream prototypes from soy protein isolates in order to show the potential and versatility of isolates. We served the ice creams to potential customers. I started to work with Purina in 1960 and our team (headed by Ralph Hoer and soon joined by Frank Calvert) started building an isolate plant in St. Louis, Missouri, shortly after that, so the first ice creams at Purina were probably made in about 1962-63.

"When I joined Ralston Purina, the company already had a commercial isolate plant in Louisville, Kentucky, that made industrial isolates for paper coatings. It was only after I arrived that Purina became involved in edible food-grade soy protein isolates, and these isolates are now a major, rapidly growing product line–which trace their origin back to Henry Ford.

Rich Products Corp. in Buffalo, New York got interested in soy via Rex Diamond, who worked for Henry Ford as Bob Smith's assistant. "Rex Diamond was the original spark plug for Rich. I'm not sure who had the original idea for whip toppings, coffee creamers, etc. Rex finally became the research director for Rich Products Corp. and that company developed the first good whipped topping and coffee whitener.

"When Bob Smith went out on his own to put out his own soymilk [sic, Delsoy whip topping], Rex went with him [though several years later]. After that, Rex left Bob Smith and eventually went with Rich Products. Later there were some hard feelings between Rich Products and Rex, but I don't know what that was all about. I once visited Rex in Buffalo, New York." Address: 632 Edgewater Dr., Apt. 731, Dunedin, Florida 33528. Phone: 813-734-2415.

6895. Mayer, Jean; Goldberg, Jeanne. 1985. Nutrition. *Washington Post.* Jan. 30. p. E3.
• ***Summary:*** Uses a question and answer format. Q: "A friend came to my house with a package of frozen dessert made from tofu (soybean curd) that was similar to ice cream. I was skeptical at first but found it quite tasty. The label said it contained no cholesterol. I am sending you the packaging from both the fruit and the chocolate flavors..." What do you think?

A: When evaluating the nutritional value of any new food, we should "look at two places on the label: the ingredients list and the nutrition information panel." Indeed this product contains no animal fat and no cholesterol; and their is no indication that the corn oil has been hydrogenated.

"In terms of total fat (and calories), however, this dessert does not seem to offer a significant advantage." Four ounces of "the fruit-flavored frozen tofu dessert" contains 9 grams of fat and 170 calories. That is more than regular dairy ice

© Copyright Soyinfo Center 2013

cream (10% fat) which contains 7 grams of fat and 135 calories.

The chocolate frozen tofu is even more of a problem. It contains 13 grams of fat and 210 calories per 4-ounce serving.

6896. **Product Name:** [Tofu Burger].
Foreign Name: Tofuburger.
Manufacturer's Name: Christian Nagel Tofumanufaktur.
Manufacturer's Address: Oelkersallee 14a, D-2000 Hamburg 50, West Germany. Phone: 040/89 49 37.
Date of Introduction: 1985. January.
New Product–Documentation: Form filled out by Christian Nagel. 1988. Product was introduced in Jan. 1985. They now make 280-320 kg/month.

6897. **Product Name:** Tofu, Tofu Cheesecake, Tofu Burger, and Soymilk.
Manufacturer's Name: Dragonfly.
Manufacturer's Address: 9, Moorashes, Totnes, South Devon, England. Phone: 86-4724.
Date of Introduction: 1985. January.
Ingredients: Tofu (11/91): Organically grown soya beans, filtered water, nigari.
New Product–Documentation: Owner: Sue Harker. Note from Simon Bailey. 1988. Oct. 10. Not operating at present. Business for sale. Future uncertain. Talk with Philip Marshall. 1990. March 29. This company now makes a small amount of organic tofu.

Letter from I.J. Mohammed of Oasis Wholefoods. 1991. Oct. 13. He worked for a while in about 1986 at Dragonfly as a partner. Since 1986 Dragonfly has been sold four times.

Letter and Labels from Simon and Dawn Boreham of Dragonfly Foods. 1991. Nov. 1. They are now located at 19A Riverside Buildings, Staverton Bridge Mill, Totnes, Devon, TQ9 6AQ, UK. Phone: 0803 865667. They first wrote on 9 Feb. 1990 to order books on tofu. Then Simon and his wife "purchased in June 1990 a small tofu factory in Devon called Dragonfly Foods. Together we regularly produce each week up to 200 kg of handmade organic nigari tofu, and 2,000 x 100 gm tofu burgers, with 4 different recipes, distributed and sold throughout the southern part of England. We are certified organic by the Soil Association and our products are approved by the Vegetarian Society." They are now developing a "business plan with a view to move to a larger site with greater production capacity." Label for Handmade Dragonfly Organic Tofu. 4 by 3 inches. Self adhesive. Green on white. "Soya bean cholesterol-free protein. Store below 4ºC. Once opened, refrigerate in a bowl of fresh water." The company is listed as "Dragonfly Kitchen, Staverton Bridge Mill, Totnes, Devon TQ9 6AQ. Phone: Staverton 0803 865667."

Handwritten letter from Simon Boreham in reply to typed questions from William Shurtleff. 1991. Dec. 2. Hard to read. "Dragonfly first began making tofu in 1984, with the organic status of tofu certified by the Soil Association in 1991. Dragonfly was founded by Sue Harker and Sarah Budd. Simon is trying to persuade the Polytechnic South West Plymouth Business School (Drake Circus, Plymouth, Devon PL4 8AA, UK) to conduct a market research project on tofu. He encloses a copy of a letter from this organization stating that they plan to conduct such a study to be completed by early December 1991.

Letter from I.J. Mohammed of Oasis Wholefoods in England. 1991. Dec. 16. Dragonfly (which was the company's official name) was probably founded at about the end of 1984 as a partnership by Sue Harker and Sarah Child. Their private home address was 9, Moorashes, Totnes, Devon, England. They started selling soyfoods (mainly tofu, tofu cheesecake, and tofu burgers) in early 1985. In Feb. 1985 Mr. Mohammed started to work with Dragonfly. Soon the business changed to a partnership between Sue Harker and himself. While he was there, the company made tofu (which he had learned how to make in Japan) and miso. He left the company in Oct. 1985. The company was then owned by Mark, and then by Linsey, who sold it to Simon and Dawn Boreham. Dragonfly Foods now makes tofu and tofu burgers.

Talk with Simon Boreham. 1999. Dec. 7. On 1 Jan. 1994 the company moved to its present address: 2A Mardle Way, Buckfastleigh, Devon TQ11 ONR, England. Phone: +44 1364 642700. When Simon and Dawn bought Dragonfly, the turnover (sales) was £25,000/year. Today it is £325,000/year. The company, which is growing nicely, now makes three types of tofu (natural, smoked, and deep-fried), and ten types of beanies (veggie burgers containing 45% okara). Simon has just registered to web domain names: beany.com (which will be a fun site) and tofu.co.uk (which will be a serious site).

Cinab), water, natural magnesium chloride.
Wt/Vol., Packaging, Price: 250 gm.
How Stored: Refrigerated.
New Product–Documentation: Letter from Patrick Roger of Arts. 1985. June 12. Patrick Wintzer makes tofu.

Le Compas. 1986. March-April. p. 32. Form filled out by Patrick Wintzer for Anthony Marrese. 1989. Nov. This company began production of two tofu products in Jan. 1985. They are a small craft-oriented shop (petit atelier artisanal) with only local distribution. They now make 500 kg/month of natural tofu.

Label. 1985 and 1989 editions. 1985 is blue on white. 1989 is green on white. The logo on both is a rayed sun rising behind a house and mountains. The location on both is Montrottier. "After opening the sachet, rinse and store refrigerated in a container filled with water." CINAB organic certification symbol.

6901. **Product Name:** [Vegetable Terrine with Tofu].
Foreign Name: Terrine Végétale: Tofu.
Manufacturer's Name: La Maison du Tofu.
Manufacturer's Address: Hameau de la Magdeleine, 69770 Montrottier, France. Phone: 74.70.11.38.
Date of Introduction: 1985. January.
Ingredients: Soya*, rolled oats*, sesame puree, onions*, parsley*, soy sauce, salt, nutmeg, carrots. * = Organically grown.
Wt/Vol., Packaging, Price: 160 gm.
How Stored: Refrigerated.
New Product–Documentation: Form filled out by Patrick Wintzer for Anthony Marrese. 1989. Nov. This company began production of two tofu products in Jan. 1985. They now make 120 kg/month of this product.

Label. 1989. Orange on white. The logo is a rayed sun rising behind a house and mountains.

Note: *Webster's Dictionary* defines terrine (a French term first used in about 1706) as "a mixture of chopped meat, fish, or vegetables cooked and served in a terrine."

6902. Legume, Inc. 1985. I'm winning with a loser! Enlightened Entrées with Tofu. Legume (T-shirt). 170 Change Bridge Rd., Montville, NJ 07045.
• ***Summary:*** This white T-shirt is 50% cotton and 50% polyester. On the front are the words "I'm winning with a loser!" in 1.25 inch high black letters. Below that are two bold horizontal lines. Below that is written "Enlightened Entrées with Tofu" in ¼ inch green letters. At the bottom is "Legume" in 2 inch high green letters.

On the back, near the top on a red triangular background, in white letters are "Under 300 calories." Below that, exactly as on the front is "Enlightened Entrées with Tofu. Legume." Finally, in bold, black letters: "The only low-calorie entrée that lost more than just the calories... We lost: the Preservatives, the Additives, the Cholesterol, the MSG, and ½ the sodium."

A real classy winner of a T-shirt. Address: Montville, New Jersey.

6903. Leviten, Peter. 1985. Soy products are on the move. *Health Foods Retailing.* Jan. p. 18-22.

6904. Leviton, Richard. 1985. Soyfoods year in review 1984. Colrain, Massachusetts: Soyfoods Magazine. 3 p. Unpublished typescript.
• ***Summary:*** A month by month chronology of important events in the soyfoods industry from January to December 1983, followed by a summary of ten important trends and key events. Address: 100 Heath Road, Colrain, Massachusetts 01340.

6905. Medoff, Marc. 1985. Miracle or myth: Debunking the Tofutti fad. Whole Life, 89 Fifth Ave., Suite 600, New York, NY 10003. 30 p. Jan. Unpublished manuscript.
• ***Summary:*** On 23 December 1984 Medoff and a research assistant stood for 5½ freezing hours outside the Tofutti Shop in uptown Manhattan administering a questionnaire a simple questionnaire to 132 customers as they left the shop. When asked "How much tofu is in Tofutti?" those polled could respond with any percentage estimate they liked. The results showed that 39% of those responding thought Tofutti contained 50% or more tofu, and only 8% answered correctly that it contained less than 15% tofu. The conclusion was clear: The great majority of the people thought that tofutti contained much more tofu than it actually did. Medoff thought that this was proof of misbranding. The follow-up question was "Would you buy Tofutti if you knew what was really in it?" It was explained that the three main ingredients were water, fructose, and oil. Over 61% said they would either stop buying it, or would be discouraged from buying it again or as often. The remaining 39% said they would continue to consume it regardless. Address: New York.

6906. Mwale, J.M.; Luhgu, E.M.; Mutinta, M.; Mabusya, S. 1985. The state of soyabean utilization in Zambia: A brief summary. In: 1985. Sri Lanka Soybean Utilization Training Program and Workshop: Proceedings. See p. 458.
• ***Summary:*** "Soyabean Utilization in Zambia dates back to 1971 when a Netherlands team conducted seminars in various provinces in the country to demonstrate and popularise the various products that can be made from Soyabeans. Agriculture production started around 1975 when about 500 tons of soyabeans were grown." Since then soyabean "growing has increased steadily and at present 1984/85 projected yields are estimated at 15–20,000 tonnes."

In recent years soyabeans are "reported to be used in bread, and breakfast and cereal preparations. At the National Council for Scientific Research (NCSR), it is used in experimental formulations in preparation of weaning foods in

© Copyright Soyinfo Center 2013

which maize flour, full fat soya flour and other nutrients are incorporated... It is also used in the preparation of biscuits by the country's Dairy Product Board (DPB)."

"Although traditional dishes do not normally incorporate soyabeans there is sufficient justification to believe... that dishes such as soyamilk, tofu, tempeh, etc., would find acceptability in the country..." Address: Zambia.

6907. **Product Name:** Tofu, Tofu Products, and Tempeh.
Manufacturer's Name: Nutrisoy Pty. Ltd.
Manufacturer's Address: 255 Forest Road, Arncliffe 2205, NSW, Australia. Phone: +61 2 597-4120.
Date of Introduction: 1985. January.
New Product–Documentation: Communication from Tony Wondal of Nutrisoy. 1987. May. He started Jan. 1985. Total production is 900 lb/week.

Soya Bluebook '94. p. 66. Contact Tony Wondal, managing director. The company makes simulated meat products (analogs); soyfoods, tempeh, tofu & tofu products, other soy-based foods. Exporter: Whole soybeans; split, dehulled. Importer: Organic soybeans.

6908. **Product Name:** Tofu.
Manufacturer's Name: Rekhi Soya Food Products.
Manufacturer's Address: Factory: C-153, Phase-VII, Industrial Area, Mohali; Office: 431-L, Model Town, Jalandhar–144 003. Both: Punjab, India.
Date of Introduction: 1985. January.
New Product–Documentation: Letter (typed with signature, on letterhead) from Mrs. Jagdish Rekhi. 1986. July 30. "We have gone through *The Book of Tofu* (both volumes) published by you. The books contain exhaustive and useful information about soya foods. We find these books a prized piece of information in our collection.

"We have been manufacturing Tofu on a small scale in the state of Punjab for the last year and a half. Now we are planning to set up an automatic pressure cooker type plant in Chandigarh [a union territory of India, that serves as the capital of two states, Punjab and Haryana]. The proposed plant is expected to start tofu production by the end of this year based on a 30 kg/hour soybean processing unit manufactured by Takai (WC-30(G)) [in Japan]. We also propose to open a Soy foods research centre in the Silvan surroundings of Chandigarh. For this purpose we acquired a one acre plot.

"We would like to be supported by your organisation in propagating the soy food culture in the Indian Sub-continent, for mutual benefit. Kindly send up information on setting up a soy foods centre and an application form."

Person in charge: Major MBS Rekhi, M. Tech., MBA, C. Engg, 1984. Average production at present: 200 lb per day of tofu.

6909. Saito, Akio. 1985. Daizu bunka-shi nenpyô [Chronology of soybeans, 122 B.C. to 1984]. *Daizu Geppo* (*Soybean Monthly News*). Jan. p. 12-16; Feb. p. 10-18. 28 cm. [Jap; eng+]
• ***Summary:*** This very interesting, well-researched, and detailed chronology, which is full of new information, focuses on the development of soybeans and soyfoods in Japan. We have divided the contents of the chronology into 9 separate records; the date of each corresponds to the last year in that part of the chronology: 1292, 1599, 1699, 1868, 1899, 1926, 1949, 1969, and 1984. Address: Norin Suisansho, Tokei Johobu, Norin Tokeika Kacho Hosa.

6910. **Product Name:** Gloria Vanderbilt's Glace Tofu Frozen Dessert [Ten Flavors].
Manufacturer's Name: Seligco Food Co. Frusen Gladje Ltd.
Manufacturer's Address: 424 E. John St., Lindenhurst, NY 11757.
Date of Introduction: 1985. January.
Ingredients: Water, sucrose, high fructose corn sweetener, soy oil, cocoa, chocolate chips, tofu, soy protein, mono and diglycerides, cellulose gum, dipotassium phosphate, salt, polysorbate 80.
How Stored: Frozen.
New Product–Documentation: Interview with Randy Stuart of Frusen Gladje. 1985. Jan. 16. He will send a news release on the product. Talk again on Feb. 27. They will soon have a big press conference to announce their product. He does not know whether or not it contains any tofu. The theme will be "Ice cream with no regrets."

Shurtleff & Aoyagi. 1985. Tofutti & Other Soy Ice Creams. p. 82-83. This product was off the market by mid-1986.

6911. Shirakawa, Takeshi. 1985. Tôfu no hozonsei no kôjô ni kansuru kenkyû. I. Tôfu no hensei henpai ni tsuite [Studies on improving the storability of tofu. I. On the slimy spoilage of tofu (soybean curd)]. *Nippon Shokuhin Kogyo Gakkaishi* (*J. of the Japanese Society for Food Science and Technology*) 32(1):1-6. Jan. [8 ref. Jap; eng]
• ***Summary:*** *Acinetobacter calcoaceticus* was isolated as the causative organism, secreting viscous polypeptides into the water surrounding the tofu. Address: Takamatsu Branch, Kagawa Prefectural Fermentation & Food Exp. Station, Gohto-cho 587-1, Takamatsu-shi, Kagawa 761, Japan.

6912. **Product Name:** Tofu Creme Pie (Non-Dairy Cheesecakes) [Carob-Coconut, Banana-Almond, or Mint Carob Chip; Topped with Unsweetened Blueberry, Raspberry, or Strawberry Preserves].
Manufacturer's Name: Soy Delites, Inc.
Manufacturer's Address: P.O. Box 56, Matawan, NJ 07747. Phone: 201-229-5799.
Date of Introduction: 1985. January.

© Copyright Soyinfo Center 2013

Ingredients: Filling: Organic tofu, honey, sesame tahini, pure soy oil, lemon juice, natural vanilla flavor. Crust: organic whole wheat flour, pure soy oil, honey. Flavor or unsweetened fruit topping: As noted.
Wt/Vol., Packaging, Price: 5 oz slices or 20 oz pies. $1.50/slice or $4.50 a pie.
How Stored: Refrigerated or frozen.
New Product–Documentation: Whole Life Times. 1985. June. Whole foods in the news. Whole Life. 1986. April. p. 52-61. "A guide to the best tofu cheesecakes in New York. Louis Fellman at Soy Delites makes the best commercially available tofu cheesecake we've seen." Form filled out by Louis Fellman. 1987. Nov. Started 1/85. Address is now 568 Broadway, Long Branch, New Jersey 07740. They now make 1,100 lb/month. Label. 1987. 2.5 inch diameter. Self adhesive. Blue on yellow background. "Non-dairy, no cholesterol, no added salt, no sugar."

6913. **Product Name:** Furama Deep Fried Tofu.
Manufacturer's Name: Soyfoods of America.
Manufacturer's Address: 1091 E. Hamilton Rd., Duarte, CA 91010. Phone: 213-681-5393.
Date of Introduction: 1985. January.
Ingredients: Soybeans, water, soy oil, calcium sulfate.
Wt/Vol., Packaging, Price: 4 oz.
How Stored: Refrigerated.
New Product–Documentation: Label. 1985. 5.5 by 2 inches. Black on green paper. Contains no preservatives. 100% natural. Genuine country flavor. Fried gently home style in small batches in woks. Ready to use–in soups, stews, stir-fry dishes, Mongolian Hot Pot, & for the major ingredient for Buddha's Delight. Mrs. Lee estimates date to be Jan. 1985.

6914. **Product Name:** Tofruzen (Non-Dairy Soft Serve Soy Ice Cream) [Multiberry, Strawberry, Dutch Chocolate, Orange Coconut Custard, Vanilla Almond, or Peach Melba, Mountain Berry, Tropical Sunshine, Chocolate Peanut Crunch].
Manufacturer's Name: Tofu Today (Marketer). Made in Boulder, Colorado, by White Wave, Inc.
Manufacturer's Address: 333 W. Hampden, Suite 1010, Denver, CO 80110.
Date of Introduction: 1985. January.
Ingredients: Incl. tofu.
Wt/Vol., Packaging, Price: Pints, soft serve, 3.5 oz cups, or bulk. Pint hard pack costs $2.49.
How Stored: Frozen.
Nutrition: 4 oz. has less than 130 calories.
New Product–Documentation: Shurtleff & Aoyagi. 1985. Feb. Tofutti & Other Soy Ice Creams. p. 81. Made with tofu and isolated soy proteins. Private labeled for Tofu Today in Denver; Spot in Product Alert. 1985. May 27. Vanilla, chocolate, and strawberry flavors available. Company is in Englewood, Colorado. Product Alert. 1985. Sept. 23. A new variety is Orange Coconut Custard, in pint cartons for $2.49. "Tofu Today, Inc., located in Denver, Colorado, is the manufacturer [sic].

Spot in Natural Foods Merchandiser. 1985. Oct. Six flavors. Spot in Food & Beverage Marketing. 1985. Nov. "Tofu Heads for Rockies." The product is being introduced into the Denver area. Jason Bois is president of Boulder-based Tofu Today.

Sentinel (Lakewood, Colorado). 1986. Jan. 30. "Local Competition for Tofutti." It sells for a little over $2/pint at King Soopers. By Aug. 1986 Tofu Today Inc. was at 300 East Hampden, Suite 403, Englewood, CO 80110. Leaflet. 1987. March. 8½ by 11 inches, color. "Introducing the hottest new seller in frozen desserts... Tofruzen, Instead of Ice Cream. The frozen dessert with tofu that meets Soyfoods Association standards."

Talk with Steve Demos of White Wave. 1989. Nov. 1. Tofruzen is in very bad shape, largely from poor management. They want the fast buck. A market exists for their product. White Wave's sales to them were last year $800,000 last year but only $300,000 this year. Now they are starting to rise a bit. They greatly over-ordered last year and had huge inventories. Most of their sales are from hard pack. Sales of bars are small. Tofruzen Light, announced in Aug. 1987 (see Soya Newsletter. 1(3):11. Coming soon. To be made entirely without sugars), has not yet been launched.

6915. Welch, Connie. 1985. Tofu: The oldest, newest super food. *Parents* (*Bergenfield, New Jersey*) 60:92-94, 100. Jan.
• ***Summary:*** "High in protein, low in fat, and cholesterol free, this soybean product satisfies like meat, tastes great, and costs about a dollar a pound!" The article starts with a full-page color photo of four tofu recipes. After an introduction to tofu, the following recipes are given: Fried-noodle cakes with tofu chow mein. Tofu pizza. Tofu-herb dip. Cabbage rolls. Banana-tofu bread. Tofu-peanut-butter cookies. Strawberry-tofu pie.

6918. Liberatore, Paul. 1985. The Lady finally goes to sleep [Sleeping Lady Cafe in Fairfax]. *San Francisco Chronicle.* Feb. 4. p. 16.
• ***Summary:*** Fresh from the psychedelic 1960s, Bill Bramblett and 20 or so other young musicians, writers, poets, and artists opened the Sleeping Lady on 24 March 1972 in Fairfax, California. They wrote the bylaws for their

© Copyright Soyinfo Center 2013

cooperative venture on a place mat from a pizza joint and took over a struggling coffee house on Bolinas Road.

The Sleeping Lady was well known in the counterculture during the 1970s, serving vegetarian meals, and presenting live music and dancing seven nights a week. It may have been the only nightclub in world history to outlaw smoking, offering its customers "a completely smoke-free environment." "Young waiters and waitresses served veggie burgers, scrambled tofu,... and concoctions with names like Avocado Flip Out and the Basket Case."

It functioned as a cooperative, owned and operated by its employees. All decisions were group decisions and every worker, from the lowest to the highest, had a voice in company policy. But the Lady's de-facto patriarch for most of its 13-year existence was Bill Bramblett; he left the club in the early 1980s and moved up the street where he is a principal in Wildwood Natural Foods, which makes tofu, organic sandwiches, and healthy foods that are sold throughout the greater Bay Area. He has gone from hippie to yuppie, for Wildwood now employs 47 workers and grossed more than $1 million last year–something the Sleeping Lady never did. Bramblett adds that the Sleeping Lady was not for money. It was real and very beautiful, but the rewards were intangible. A large photo shows Bramblett, arms folded, standing at the door of the once-lively Sleeping Lady.

6919. Tremaine, Lew. 1985. Wildwood expansion approve. *Fax* (*The*) (*Fairfax, California*) 2(6):1, 3. Feb. 6.
• ***Summary:*** The Fairfax planning commission unanimously approved an application for a variance submitted by Wildwood Natural Foods to add a new facility at 31 Bolinas Road. They recently purchased that property and intend eventually to build a new 2-story building there. "The new site, which now houses The Car Clinic automotive repair shop, will be converted into a deli/restaurant, kitchen and bake shop. Wildwood's tofu and sandwich manufacturing plant will remain at 135 Bolinas Rd. The company distributes its products from Mendocino to Monterey. Some people credit Wildwood with putting Fairfax on the map.

"A commonly told story is that Councilmember Jo-Hanna Willmann, upon meeting then California Governor Jerry Brown, said she was from Fairfax and the Governor responded 'Fairfax, isn't that where they make tofu?'"

6920. Hatsuhana. 1985. Hasuhana (Ad). *New York Times.* Feb. 10. p. 735.
• ***Summary:*** A half-page ad for this Japanese restaurant at 17 East 48th St. Most of the ad is devoted to the menu, which is divided into appetizers and entrees. Appetizers include: "Soy bean [miso] soup. Geso yaki, broiled squid feet with butter, salt or soy bean paste / miso. Hiya yakko, cold soy bean curd [tofu]. Oshitashi [O-shitashi, O-hitashi], spinach prepared in a delicate sesame and soy sauce. Toro natto, chopped fatty tuna with aged soy beans in a cup.

Many of the entrees are nori-wrapped sushi.

6921. *Asahi Shinbun.* 1985. Nihon no daizu kakôgaku manabu. Nepaaru no Baideya-san. Kuni de gijutsu ikashitai. Kyô jôkyô. Hirogaru kaigai kyôryoku no wa [Mr. Vaidya of Nepal is studying soybean processing in Japan. Hoping to use the techniques at home, he arrived today in Tokyo, expanding international cooperation]. Feb. 14. [Jap]
• ***Summary:*** Mr. Vaidya was invited by the Rotary Club to come to Japan to learn how to make soyfoods. He will be learning about tofu, miso, and shoyu. A photo shows Mr. Vaidya making tofu at Senhachi [Senpachi?] tofu shop at Yajima-cho, Yamadera, Japan. Address: Japan.

6922. Hall, Trish. 1985. Tofu products may be in, but its fans wonder it there's tofu in the products. *Wall Street Journal.* Feb. 27. p. 33.
• ***Summary:*** Discusses the lack of tofu in Tofutti and Royal American's Tofu Mousses. In 1983 when David Mintz was raising money to expand his Tofutti business, his prospectus boasted that the non-dairy frozen dessert contained no butterfat, no cholesterol and no lactose. It failed to mention that the product also contained no tofu. Instead of tofu, the product used isolated soy protein.

But despite the initial disagreement, Mr. Mintz has emerged as something of a hero among those who long to see tofu accepted as a new food. "Thanks to the rapid success of Tofutti, tofu is a word that can now help sell a product rather than automatically drive customers away."

Gary Barat, president of the Soyfoods Association, states: "You have companies that want to say they're using tofu when they aren't because its a terrific marketing angle. Its a little misleading."

Another product with no tofu in it is "Colombo Frozen Tofu." Address: Staff reporter.

6923. *Australian Dairy Foods.* 1985. Soy report: Tofutti is tantalising U.S. tastebuds. Flavored soy drinks selling well. Feb. p. 51.
• ***Summary:*** "Americans are devouring 180,000 litres of Tofutti a week."

Ceres Natural Foods Pty. Ltd. in East Bentleigh, Victoria, Australia is currently distributing 7 varieties of soymilk plus a Tetra Pak tofu. Mr. Don Lazzaro is the company's director. Address: Australia.

6924. **Product Name:** Tofulite (Non-Dairy Soy Ice Cream–Parevine) [Vanilla, Chocolate, Strawberry, Banana-Pecan, Heavenly Hash, Peanut Butter Crunch, Cappuccino Almond, or Wildberry].
Manufacturer's Name: Barricini Foods Inc. (Marketer). Made in Tennessee by Farm Foods.
Manufacturer's Address: 68 West Main St., Oyster Bay, NY 11771.

© Copyright Soyinfo Center 2013

Date of Introduction: 1985. February.
Ingredients: Strawberry: Water, sugar, corn syrup, sunflower and/or coconut oil, strawberries, tofu, soy protein isolate, strawberry extract with other natural flavors, soy lecithin, carob bean, guar, salt.
Wt/Vol., Packaging, Price: Pint carton.
How Stored: Frozen.
Nutrition: Per 4 fl oz. strawberry: Calories 130, protein 1 gm, carbohydrates 20 gm, fat 5 gm, sodium 45 mg.
New Product–Documentation: Quick Frozen Foods. 1985. Feb. p. 56. Shurtleff & Aoyagi. 1985. Tofutti & Other Soy Ice Creams. p. 85. "During 1984 Barricini selected Farm Foods, Tennessee-based makers of Ice Bean, to develop with them, then to make and market for them, an all-natural non-dairy soy ice cream." Food Processing. 1985. April. p. 41-42.

Leaflet, 2 sides, color, 8½ by 11 inches. 1986. June. Tofulite. "As Rich and Delightful as Ice Cream, only Better for You." Made with 15% tofu. Frozen Food Age. 1987. April. p. 42. Adding three new flavors: Cappuccino Almond, Heavenly Hash, and Peanut Butter Crunch.

6925. **Product Name:** CR Brand Tofoodles (An Oriental Style Fresh Noodle Made Solely from Tofu and Buckwheat Flour).
Manufacturer's Name: C.R. Foods, Inc.
Manufacturer's Address: 4607 S. Main St., Los Angeles, CA 90037. Phone: 213-235-4222.
Date of Introduction: 1985. February.
Ingredients: Buckwheat flour (60%), tofu (40%).
Wt/Vol., Packaging, Price: 8 oz. and 14 oz.
How Stored: Refrigerated.
New Product–Documentation: Leaflet and ad. Leaflet is 8½ by 11 inches. Black and white. Reprinted in Soyfoods Marketing. Lafayette, CA: Soyfoods Center. "Introducing Tofoodles. High in protein! Wheat free! Salt free! Quick cooking! Can be frozen! 40% tofu!"

Label. 1985. 7 by 3.5 inches. Plastic. Red, black, and blue on clear film. Company now listed as "C.R. Food Inc." "Use like spaghetti. 100% natural. No preservatives, colorings, or chemicals added. To cook, add to boiling water and boil for 3-4 minutes. Keep refrigerated. Can be frozen."

6926. **Product Name:** Ice Bean Tofu Flavors (Non-Dairy Frozen Dessert) [Soft Serve: Tofu Vanilla, Strawberry, or Chocolate].
Manufacturer's Name: Farm Foods.
Manufacturer's Address: 156 Drakes Lane, Summertown, TN 38483.
Date of Introduction: 1985. February.
Ingredients: Incl. soy protein isolates, fresh soymilk, tofu, high fructose corn syrup, honey.
Wt/Vol., Packaging, Price: Half gallon cartons.
How Stored: Frozen.
New Product–Documentation: Talk with Robert Tepper of Farm Foods. 1984. March. Soy protein isolates give an ice cream that tastes better to most Americans and is considerably less expensive than that made from fresh soymilk. Farm Foods plans to introduce a product like this for institutional markets.

Poster (8½ by 14 inches, black and white). 1985, undated. "Sneak Preview. Opening Soon. Ice Bean's Tofu Flavors... with that sweet, creamy taste you'll love." Starting Feb. 15th, soft serve in half gallons, 3 flavors: Tofu vanilla, tofu strawberry, and tofu chocolate. Showtime March 1st, pints and 3 gallon tubs in 3 flavors: Tofu vanilla, tofu almond fudge, and tofu strawberry. Open April 1st, pints and 3 gallon tubs, in 4 more flavors: Tofu wildberry, tofu banana pecan, tofu rum raisin, and tofu peanut butter. New novelties by May 1st: Sandwiches, fudgsicles, creamsicles. "Ice Bean's original 8 flavors, made with soymilk and honey, remain unchanged." Address: Farm Foods, 632 Radcliffe Ave., Pacific Palisades, CA 90272. Phone: 213-459-9251. Note: This was the residence of Robert Tepper, vice president/sales for Farm Foods.

Shurtleff and Aoyagi. 1985. *Tofutti and Other Soy Ice Creams.* (p. 79-80). "Even good old, honest Ice Bean, the healthful granddaddy of natural foods ice creams was affected by Tofutti. First, Tofutti helped Ice Bean sales by expanding the market. More important, it led to the creation of a new line of Ice Beans and a new style of promotion. Since 1982 Farm Foods had been experimenting with the use of isolated soy proteins to replace soymilk in their Ice Bean. But the natural/health foods market was suspicious of isolates. In November 1984 Farm Foods began to test market a mainstream non-dairy ice cream in 3-gallon tubs to dipping stores in Southern California and Ohio. It contained isolates, fresh soymilk and tofu, and was sweetened by mixture of fructose (high fructose corn syrup) and honey. The line was billed as 'Ice Bean's Tofu Flavors.' A vanilla flavor, for example, would be called Tofu Vanilla. Tofu flavors? What could that possibly mean... unless it was a way of implying that the new products contained a significant amount of tofu, without actually saying that they did."

Spot in Natural Foods Merchandiser. 1985. Sept. p. 76. Made with a creamy tofu base and sweetened with fructose, in half gallon cartons. A photo shows the carton.

6927. **Product Name:** [Nigari Tofu, Tofu Spreads, Soymilk].
Manufacturer's Name: Fonte della Vita S.r.L. (La).
Manufacturer's Address: Via Matteoti, Fossano, Italy. Phone: (0172) 66 397.
Date of Introduction: 1985. February.
New Product–Documentation: Entry in SoyaScan Names database. 1987 Jan. 23. They are said to make tofu and soymilk.

Talk with Jean de Preneuf of Société Soy in France. 1990. July 13. He says this is the biggest tofu manufacturer

© Copyright Soyinfo Center 2013

in Italy. They are now located at Via Monviso 18, 12049 Trinita (CN), 50 miles south of Turin (Torino).

Talk with Michael Brenger, production manager at Fonte della Vita. 1990. July 18. This company started in Feb. 1985. Its first product was tofu. In April 1986 they moved to the following address: Via Circonvallazione 87, 12049 Trinita (Cuneo), Italy. They are now located in the same place but the address has changed: Via Monviso 18, 12049 Trinita.

6928. **Product Name:** [Natural Tofu, Herb Tofu, Smoked Tofu, Dried-frozen Tofu, Tofu with Toasted Nori, Seitan in Soy Sauce].
Foreign Name: Tofu Natur, Kraeuter-Tofu, Raeucher Tofu, Tofu-gefriergetrocknet, Tofu mit geroesteter Nori-Alge, Seitan in Sojasauce.
Manufacturer's Name: Geestland.
Manufacturer's Address: Burgermeisterschmidt Str. 212, D-2850 Bremerhaven, West Germany. Phone: (0471) 2 60 20.
Date of Introduction: 1985. February.
Ingredients: Natural Tofu: Water, soybeans*, nigari (MgCl). * = Organically grown.
Wt/Vol., Packaging, Price: 250 gm poly bag. Retails for DM 2.60.
How Stored: Refrigerated.
New Product–Documentation: Label sent by Anthony Marrese. 1989. Nov. 5 by 2 inches. Dark green, yellow, black, and light green on white. "Natural food and macrobiotic from organic agriculture. 100% vegetarian (*vegetabil*). Other tofu specialties from our house:..." An illustration of a green and yellow framed house is next to a round yin-yang (*t'ai chi*) symbol.

Talk with the founder and present owner of Geestland, Paul E. Bremer. 1990. April 25. The company was founded in Feb. 1985. It started in a natural food shop (*Bioladen*) at Burgermeisterschmidt Strasse 212, D-2850 Bremerhaven. There were four products from the beginning, as shown above. About 2 years ago the company moved to: Friedrichstrasse 19, D-2850 Bremerhaven.

Their smoked tofu is made by a special process. Ordinarily, smoking foods imparts benzopyrene (a chemical carcinogen), but they have developed a special smoking process after which no detectable benzopyrene can be found in the tofu.

6929. Honer, Clem. 1985. Keeping up with soy technology: Why soy protein isolates offer unique opportunities for dairies in fluid products and frozen desserts. *Dairy Record.* Feb. p. 62, 64.
• ***Summary:*** "recent research into the manufacture of all soy-based products using soy protein isolates has opened new opportunities for the small- to medium-volume dairy processor..." "Soy-based frozen desserts can be manufactured easily in any ice cream plant." The author explains how.

6930. Kikkoman International Inc. 1985. Analysis of Kikkoman Instant Soups. 50 California St., Suite 3600, San Francisco, CA 94111. 1 p. Unpublished manuscript. [1 ref]
• ***Summary:*** Gives a complete nutritional analysis for four packaged miso soups (aka miso, shiro miso, tofu, wakame), and Osuimono. They have a moisture content of 2.1–4.4%. Protein is 11.5–23.9%. Typically 10 gm of the dry soup is mixed with 2/3 cup water. Address: San Francisco, California. Phone: 415-956-7750.

6931. Krier, Mary. 1985. 'Ice cream' for the calorie and cholesterol counter: Experts say this frozen tofu-based dessert will open new doors for the ice cream marketer. *Dairy Record.* Feb. p. 60-61.
• ***Summary:*** Focuses on Tofutti. Two dairies are making the product for Tofu Time–Welsh Farms in Long Valley, New Jersey, and Penn Dairies in Lancaster, Pennsylvania. Haagen-Dazs, the pioneer of super-premium ice cream, is Tofutti's major distributor. "Another super-premium ice cream firm, Frusen Glädjé, has invested about $1 million in Glacé, a new frozen tofu-dessert sporting Gloria Vanderbilt's name and logo. Gold Star Ice Cream, Brooklyn, New York, has rolled out Gourmet Tofu by Riviera. And *Dairy Record* sources say that at least three other dairies have similar frozen desserts ready for the market... Tom Timmins, president of New England Soya Dairy, points out that many frozen tofu-desserts contain no more than five percent tofu. Even so, marketers use tofu as a buzzword to connote a healthful, cholesterol-free product."

6932. Langley-Danysz, Pernette. 1985. L'entrée discrète du soja en Europe [The discreet / cautious entry of soya into Europe]. *Revue Laitiere Francaise* No. 438. p. 16-20. Feb. [Fre]
• ***Summary:*** An illustration on the cover shows an American cowboy-like man, wearing a cowboy hat and cowboy boots, smoking a cigarette, and carrying a briefcase on which is written ASA. He appears to be emerging from a garbage can labeled "soya" and from his briefcase are flying several cartons of soymilk. The article begins: "Two soy products, milk and tofu, were at the center of a conference organized in September 1984 at Amsterdam [Netherlands] by the American Soybean Association (ASA)."

Gives data on the chemical composition and nutritive value of soy beverages, soymilks, and tofu. Discusses the products recently introduced in Europe. Consumption of soy products in the E.E.C., principally as soy protein concentrates or isolates, has never exceeded 40,000 tonnes/year. Consumption of traditional East Asian soyfoods such as tempeh, miso, sufu, and soy sauce, is still low in Europe, but consumption of tofu and soymilk is growing significantly. Nutritional composition of cow's milk and soymilk are compared, and various commercial soy products are

© Copyright Soyinfo Center 2013

discussed.

Soy ice creams (including Ice Bean and Tofutti) are discussed in detail on page 19, col. 1. The pioneer of these soy ice creams (*ces ice cream au soja*), named Ice Bean, was developed by Farm Foods in Tennessee. Today there are a dozen other brands of tofu ice cream (*glaces au tofu*). One of these ice creames (*ces crèmes glacées*), Tofutti, made by the company Tofu Time and presented at SIAL in 1984, took the first place last fall on the hit parade of dairy products from the United States." Note: This is the earliest French-language document seen (March 2007) that mentions soy ice cream which it calls *ice cream au soja,* or *glaces au tofu,* or *crèmes glacées.*

Photos show the following products, each in a Tetra Brik carton: Nestle Bonus Soya Bean Milk, Plamil Soya Milk Concentrated, Morinaga Ever-Fresh Silken Tofu, Yeo's Soya Bean Drink, Alpro Soya Drink. Address: France.

6933. **Product Name:** Legume Light & Natural Entrees: Tofu Enchiladas (With Corn Tortilla).
Manufacturer's Name: Legume, Inc.
Manufacturer's Address: 170 Change Bridge Rd., Montville, NJ 07045. Phone: (201) 882-9190.
Date of Introduction: 1985. February.
Wt/Vol., Packaging, Price: 11.5 oz package.
New Product–Documentation: Ad in New Age Journal. 1985. June. "The #1 frozen tofu entree goes international. Legume adds two exciting new entrees to their line–Tofu Enchiladas and Sweet and Sour Tofu."

6934. **Product Name:** Legume Light & Natural Entrees: Sweet and Sour Tofu with Ramen Noodles.
Manufacturer's Name: Legume, Inc.
Manufacturer's Address: 170 Change Bridge Rd., Montville, NJ 07045. Phone: (201) 882-9190.
Date of Introduction: 1985. February.
Wt/Vol., Packaging, Price: 11.5 oz package.
New Product–Documentation: Ad in New Age Journal. 1985. June. "The #1 frozen tofu entree goes international. Legume adds two exciting new entrees to their line–Tofu Enchiladas and Sweet and Sour Tofu." The ramen are made with whole wheat.

6935. MacDonald, Sandy. 1985. Designer beans: Soybeans aren't stuck down on the farm anymore. High-protein, low-calorie soyfoods have gone gourmet. *New Age Journal* (*Boston, Massachusetts*). Feb. p. 53-59. [2 ref]
• ***Summary:*** An excellent introduction to soyfoods and soyfoods companies in America today. Photos show Chandri and Gary Barat of Legume, Akiko Aoyagi and William Shurtleff "parents of the soy boom," and Tom Timmins president of Tomsun Foods.

Note: This is the earliest document seen (April 2011) that contains the term "designer beans." Though this interesting term is used in the title of this article, it does not appear in the body of the article itself. The author appears to mean that the soybean can be made into hundreds of "ingenious" and imaginative (often delicious) foods from ice cream to lasagna, from burgers to creamy dips and dressings–and industrial products, including spun soy protein fibers invented by Robert Boyer, a Ford Motor Company employee, and first put to use in the upholstery of Ford cars; they were later used to make bacon bits and meat alternatives. Address: Brighton, Massachusetts.

6936. **Product Name:** Tofreezi (New Name for Frozen Buddha Soy Ice Cream) [Mocha Royalle, Berry Banana, Amaretto, Pineapple Coconut, Chocolate Mint, or Maple Walnut].
Manufacturer's Name: Metta Tofu Products Ltd.
Manufacturer's Address: Wren Rd., Denman Island, BC, V0R 1T0, Canada.
Date of Introduction: 1985. February.
Ingredients: Incl. soymilk, tofu, honey, fruits, nuts, natural flavorings.
Wt/Vol., Packaging, Price: Half liter and full liter cartons.
How Stored: Frozen.
New Product–Documentation: Label. 1985, undated. Red and blue with black letters on white. Shurtleff & Aoyagi. 1985. Tofutti & Other Soy Ice Creams. p. 78. Product Alert. 1986. March 3. Lists flavors. "Tofreezi is 75% soymilk and tofu by volume." Leviton. 1986. East West. June. p. 37. Rated the highest of all soy ice creams in America.

6937. Prescott, Helen. 1985. Tofu: Press it, you'll like it. *Mother Earth News* No. 91. Jan/Feb. p. 70-71. [3 ref]
• ***Summary:*** Describes (with a photo and exploded diagram) how to build and use a tofu press made of pine lumber and plywood. Makes 5 pounds of tofu using 4 cups of dry soybeans and 2 tablespoons of nigari.

6938. *Quick Frozen Foods.* 1985. Tofu-based dessert called Tofulite is being introduced by Barricini Foods Inc. 47(7):56. Feb.
• ***Summary:*** The company claims the product tastes better than the richest ice cream while having a fraction of the calories (less than 33 per ounce). This non-dairy product is free of cholesterol and lactose. It is now sold in four flavors: Vanilla, chocolate, strawberry, and banana pecan. Wildberry and rum raisin flavors are due next month. Tofulite is sold in cartons of 8 half-gallon containers for soft serve machines, or hard-packed in 3 gallon tubs, pints, 3-ounce cups, or sandwiches.

Note: This is the earliest document seen (Oct. 2001) concerning Barricini Foods and soyfoods.

6939. Robeznieks, Andis. comp. 1985. Facts & figures. *Vegetarian Times.* Feb. p. 17.

© Copyright Soyinfo Center 2013

• ***Summary:*** $150 million: Total retail sales of American health food stores in 1973.

$2,800 million: Their retail sales in 1983.

53.1: Percentage of *Vegetarian Times* readers who use tofu at least once a week.

$32,000 million: The amount of money Americans spend on cigarettes each year.

$11,000 million: Amount of money Japanese government spent on defense in fiscal 1983.

49,275: Number of monkeys and apes used each year in the U.S. for research.

15 million: Number of dogs and cats killed by local humane societies.

6940. Shedlin, Michael. 1985. Tofu: That chameleon of the food world. *Monterey Life* (*Monterey, California*). Feb. p. 12.
• ***Summary:*** Buck and Leslie Patton, owners of Jack and the Beanstalk, make tofu in Carmel Valley Village. They do all the work themselves with the help of one part-time assistant. The Pattons bought the compact production facility in 1983 from the previous owner, who had studied with a Japanese tofu master and passed the techniques on to the new owners. The company has about 60 accounts, delivering to local Japanese restaurants, and to retail food shops and supermarkets, including Safeway. They also distribute in San Francisco, Big Sur, Salinas, Santa Cruz and Tassajara. They make 1,700 lb/week of nigari tofu. A nice 3.5 by 4.5 inch black-and-white photo shows Buck and Leslie Patton in their tofu shop in front of equipment (hydraulic press and pressure cooker), showing Pure-Pak type tofu cartons.

6941. Shurtleff, William; Aoyagi, Akiko. 1985. Tofutti & other soy ice creams: Non-dairy frozen dessert industry and market. 2 vols. Lafayette, California: Soyfoods Center. Vol. 1, 144 p. Vol. 2, 214 p. Index. Feb. 28 cm. [129 ref]
• ***Summary:*** The first study of the rapidly emerging soy ice cream market, based on historical principles. Contents: Volume I. 1. Introduction. 2. What are non-dairy frozen desserts? Standards, terminology, and labeling laws. 3. History of non-dairy frozen desserts. United States and Canada (1918–present), History of Tofu Time Inc. and Tofutti, East Asia (1936-), Europe (1946-), Third World countries (1970-), Australasia and the Middle East.

Pages 75-92, titled "The Tofutti Era and Tofutti Clones, contain histories and descriptions of four categories of non-dairy ice cream companies. Within each category, the companies are listed in the sequence that their products appeared: (1) Small soyfoods companies: Penguino's Inc. (New York), Green World (Idaho), Garden of Eatin' (California), Soy City Foods (Ontario, Canada), The Soy Shop (Georgia), Metta Tofu Co. (British Columbia, Canada), Island Spring (Washington state), Evolutionary Foods (Arizona), Midwest Tofu & Sprouts Co. (Nebraska), Cream of the Bean (Illinois). (2) Soyfoods companies that used a mixture of tofu or soymilk and soy protein isolates to make Tofutti-type products: Brightsong Light Foods (California), Farm Foods (Tennessee), White Wave (Colorado). (3) Dairy companies (or non-soyfoods companies) that launched Tofutti-style products: Presto Food Products (California), Colombo, Inc. (Massachusetts), Honey Hill Farms (California), Continental Yogurt (California), Gloria Vanderbilt / Frusen Gladje Ltd. (New York), Barricini Foods Inc. (New York), Parvelle Corp. (New York), Carvel Corp. (New York), Tuscan Dairy Farm (New Jersey), Golden Seal Riviera Ice Cream Co. (New York). (4) Innovative makers of non-dairy frozen desserts that are not soy-based: Olympus Industries (Washington, Yodolo), and Imagine Foods (Arkansas, Rice Dream).

4. The soy ice cream industry and market in the U.S. and worldwide. 5. Nutritional value of soy ice cream. 6. Directory of people, organizations, and publications connected with non-dairy frozen desserts. 7. Tofu standards and soy ice cream. 8. Technical information on soy ice cream production. Ingredients and sample ingredient listings; Formulas and processing techniques. 9. How to calculate the amount of tofu in a tofu ice cream. 10. Bibliography (129 entries). 11. Index. About The Soyfoods Center.

Volume II. Documents and Graphics Related to Soy Ice Cream. This volume contains early historical and current popular articles, product labels, posters, graphics, and corporate brochures. A rich source of information for marketing and product development, these also document the rapid growth of soy ice creams worldwide. The publication is not paginated. Contents: 12. Early history (1918-1969). 13. Farm Foods and Ice Bean (1974-). 14. Tofu Time and Tofutti (1980-). 15. Other Soy Ice Creams and General (1976-). 16. Technical information on soy ice cream production. This last section lists ingredients and recipes, and discusses regulations, labeling, production processes, and quality of soy-based frozen desserts–largely ice cream, but also popsicles, sherbets, custards, etc. Fermented or cultured soymilks are also discussed briefly.

As of Jan. 1998, both volumes are bound as one.

Note: This is the earliest document seen (Oct. 2001) that contains industry or market statistics for soy ice cream by geographical region. Address: Soyfoods Center, P.O. Box 234, Lafayette, California 94549.

6942. **Product Name:** [Smoked Tofu (Lightly Smoked)].
Foreign Name: Tofu Geraeuchert (Zart Geraeuchert).
Manufacturer's Name: Sojarei Ebner-Prosl.
Manufacturer's Address: Augasse 2, A-2500 Baden bei Wien, Austria. Phone: 02252/85101.
Date of Introduction: 1985. February.
Ingredients: Soybeans (from controlled cultivation), water, tamari (natural soy sauce), herbs, spices.
How Stored: Refrigerated.
New Product–Documentation: Brochure sent by Sojarei

© Copyright Soyinfo Center 2013

Ebner-Prosl. 1989. Oct. 12. "Fresh products." Label, received 1989. Oct. Red, black, green, and white on yellowish orange. 1.75 by 3.75 inches. For frying, baking, or grilling in soups, sauces or sandwiches. Made purely from plants (rein pflanzlich), of high quality. Without chemical preservatives, artificial colorings or flavorings. Logo is a green soybean plant against a white circular background.

In the company's Jan. 1989 catalog this product is called Tofu Geräuchert, is precooked, and sells retail in 150 gm, or 1,000 gm, weights. Each piece weighs about 80 gm. It is also sold to food processors in 1 kg, 30 kg, 60 kg, 100 kg, and 200 kg weights.

6943. **Product Name:** [Tofu Siddhartha Pie/Pastry with Fresh Mushrooms].
Foreign Name: Siddhartha Pastete.
Manufacturer's Name: Sojarei Ebner-Prosl.
Manufacturer's Address: Augasse 2, A-2500 Baden bei Wien, Austria. Phone: 02252/85101.
Date of Introduction: 1985. February.
Ingredients: Tofu, herbs, and mushrooms.
New Product–Documentation: Label, received 1989. Oct. Red, black, green, and white on chartreuse. 1.5 by 3.25 inches. Self adhesive. Black and white illustration of 6 uncut mushrooms. "5% fat. Low in calories. Exclusive from a recipe from Head chef Roman Rinke. Another high quality product from the Sojarei."

In the company's Jan. 1989 catalog this product is called Tofu-Pastete "Siddhartha," is described as a fresh vegetarian pastry/pie with fresh mushrooms, and sells retail in 125 gm, or 650 gm, weights.

6944. **Product Name:** Perfect Pasta Gourmet Spinach Tortellini with Tofu.
Manufacturer's Name: Soy Source, Inc. (Appropriate Foods, Inc.).
Manufacturer's Address: 137 New Hyde Park Rd., Franklin Square, Long Island, NY 11010.
Date of Introduction: 1985. February.
Ingredients: Pasta: Whole wheat pastry flour, durum wheat semolina, water, spinach powder. Filling: Tofu, herbs, spices, sea salt.
Wt/Vol., Packaging, Price: 12 oz.
How Stored: Frozen.
New Product–Documentation: Label. 1985. Feb. 15. 3 by 6 inches. Self adhesive. Brown on yellow. Interview with Robert Werz. 1987. Sept. 9. The tofu was purchased from Nasoya and the product made by a pasta maker.

6945. *Soya Foods* (*ASA, Europe*). 1985. France: First birthday of "ARTS" (Association Rural des Travailleurs de Soja). Feb. p. 1-2, 4.
• ***Summary:*** ARTS was founded in Dec. 1983.

6946. *Soya Foods* (*ASA, Europe*). 1985. France: An interview with Patrick Roger, Director of ARTS (Association Rural des Travailleurs de Soja). Feb. p. 1-2, 4.
• ***Summary:*** "At the basis of the association [ARTS] is the discovery of a recipe dating from many centuries ago which gave us the idea to conduct the whole process from the cultivation of the bean to the production, marketing and utilization of tofu. The experiment arouses the interest of other soybean farmers; this resulted in the creation of ARTS at the end of 1983... We provide the opportunity of sharing our experience in any field of human soyfoods nutrition by means of answering individually to all demands sent to us. We have three key words: contact, training, information, and one priority: demands coming from disadvantaged areas." Address: Presbytère de St. Paul de Mammiac, 81140 Penne par Castelnau, France.

6947. **Product Name:** Tofu Souffle [Corn, or Spinach].
Manufacturer's Name: Tumaro's Inc.
Manufacturer's Address: Los Angeles, California.
Date of Introduction: 1985. February.
Wt/Vol., Packaging, Price: 9 oz pouch retails for $2.29.
How Stored: Frozen.
New Product–Documentation: Food Report (Lehmann). 1985. Feb. Contain less than half the eggs of a regular souffle and less than 300 calories each.

6948. **Product Name:** Yves Tofu Wieners. Imitation Wiener (Meatless Hot Dogs).
Manufacturer's Name: Yves Natural Foods.
Manufacturer's Address: 1138 East George St., Vancouver, BC, V6A 2A8, Canada.
Date of Introduction: 1985. February.
Ingredients: Tofu, water, soybean oil, wheat gluten, egg albumen, wheat germ, nutritional yeast, sea salt, spices, hydrolized vegetable protein, natural hickory smoked flavor, beet powder, guar gum.
Wt/Vol., Packaging, Price: 8 wieners per 12 oz plastic pack. $2.89 retail.
How Stored: Refrigerated.
Nutrition: Per 1.6 oz wiener. calories 91, protein 7.8 gm, fat 9.8 gm, carbohydrate 3.0 gm, sodium 254 mg, cholesterol 0. 17% of protein RDA.
New Product–Documentation: Spot in Product Alert. 1986. March. Label. 1986, undated. "Soy product. Contains no meat." Ad in Natural Foods Merchandiser. 1987. March. p. 99. "Positively the best tasting tofu wieners you've ever tried. Made from fresh tofu and a special blend of fine natural ingredients." This ad (1/3 page, black and white) also appeared in East West Journal. 1987. June. p. 73. Leaflet. 1987. 8½ by 11 inches, color. Same title as ad. "Made from Fresh Tofu and a Special blend of Fine Natural Ingredients."

Label sent by Yves Fine Foods, comb-bound in "Yves Veggie Cuisine US Packaging." 1998. March.

© Copyright Soyinfo Center 2013

Talk with Tracy Wright, executive assistant to Yves Potvin. 1999. Nov. 24. This was the company's first product, launched in Feb. 1985.

Note: This is the earliest known commercial soy product made or sold by Yves. It is also the earliest record seen (Jan. 2010) concerning Yves.

6949. Bishop, Daphne. 1985. Tofu firm: New products may boost sales. *Recorder* (*Greenfield, Massachusetts*). March 2. p. 1.
• ***Summary:*** "In a move that ought to 'double the size of our business,' Tomsun Foods Inc. plans to introduce three new products in June," company president Tom Timmins said Friday, but he declined to say what types of products they would be. Tomsun will have help in its new marketing efforts from Juan Metzger and David Alan Hirsch, both of whom have sat on the company's board since 1983. Metzger, chairman and president of Dannon Yogurt until 1981, has been chairman of the Tomsun board since 1983. Kirsch, former president of No-Cal Corp., is Tomsun's senior vice president. To aid in testing, launching, and promoting the new products, Tomsun has hired the New York advertising firm of Calet Hirsch & Spector. Tomsun now sells 60,000 lb/week of tofu (sales have grown 30% in the last year) and employs 40 people. About 80% of the company's business is with supermarkets and the other 20% with health food stores and institutions, according to Madeline Fox, Tomsun's advertising and promotions director. Address: Staff reporter.

6950. Kilgour, Christine. 1985. Re: Work with soyfoods for Plenty Canada in St. Lucia. Letter to William Shurtleff at Soyfoods Center, March 6. 2 p. Handwritten on Plenty letterhead. With envelope from St. Lucia.
• ***Summary:*** "Having received my 'soy training' [at The Farm] in Tennessee, I'm out in the field now sharing the knowledge. My husband John and I are living in St. Lucia..., where Norman & Sarah Ayerst have been doing a soy project. I recently saw a couple of letters you exchanged with Edward Sierra on The Farm and wondered if we could get in on your offer of a book or two on soyfoods...

"Soy, or 'soya' as we say in the Caribbean, is catching on like wildfire. What would we do without our old copy of *The Book of Tofu* or our wonderful new copy of *Tofu & Soymilk Production!* Apart from the text, Akiko's drawings are great. I've always admired her sure, fine hand. I've enclosed my only U.S. dollar to help out with postage on a return letter–Sincerely, Christine Kilgour.

"P.S. We learned a new (to us) soyfood here from a Guyanese lady; she calls it tokara [tofu with the okara]. Curding the slurry all at once, then strain it. (No one wants to throw away the pulp or course.) This uses the whole bean, one less step than tofu. When seasoned up nicely, it can be fried, deep-fried, and is a tasty (similar in taste) replacement for what they call here an 'accra'–usually done with salt fish. How long would you say to boil the slurry before curding the whole thing–for good digestibility–remember it then gets fried after as well. We usually (boil) do it about 30 min. Sarah was doing it for an hour in Dominica, just to be sure. I'm interested in your opinion." Address: c/o Plenty, General Post Office, Castries, St. Lucia, West Indies.

6951. *Washington Post.* 1985. Tips from top teachers. March 6. p. KB17.
• ***Summary:*** The teachers are Nikki and David Goldbeck, authors of *American Wholefoods Cuisine.* "Frozen tofu: With tofu in your freezer at all times you will have the fixings of many fast meals. One of tofu's more amazing qualities is the wonderful textural changes that occur during freezing." Tofu, which is ordinarily very soft, becomes quite absorbent and chewy after freezing. In this form it can become the basis of many popular entrees. Immersed in a bowl of boiling water, frozen tofu defrosts in less than 10 minutes.

6952. Miller, Bryan. 1985. Restaurants: Sushi and tempura on Park Avenue. *New York Times.* March 8. p. C20.
• ***Summary:*** This is a review of Mitsukoshi, a Japanese restaurant at 465 Park Ave. (at 57th St.). The waitress saved the writer from embarrassment in front of friends. In a foolhardy show of bravado, he ordered something called natto sengyo ae, having no idea what it was.

"'Maybe you not like fish guts so much?' she warned discreetly." He left her a large tip.

The word "tofu" appears several times in the review, without its translation "bean curd."

6953. NHK of Japan. 1985. Tôfuyô [Tofuyo, Okinawan fermented tofu]. Television broadcast / documentary. Friday, March 8. [Jap; eng+]
• ***Summary:*** A person from NHK went to Okinawa on 19 Feb. 1985 and visited the market located in Makishi, near the center of Naha city. It was on the last day of the year, the day before New Year's day (*o-misoka*), as celebrated according to the ancient lunar calendar. The market was very crowded since many Okinawans still use the lunar calendar.

Cakes of Okinawan tofu are large and very firm. Tofu is called *rikuni agatta o-tofu,* which means "tofu landed on a shore."

There are about 300 shops in the market but only one shop, Saburô-ya, that sells tofuyo and only about 10% of the customers buy tofuyo. It is sold in a box. Its color is a pretty red. Red koji (*aka-koji, beni-koji*) is used to make it. It is very difficult and time consuming to make at home. Tofuyo is not the most popular food in Okinawa among regular people. In the old days, the royal family treasured it as a special delicacy (*chinmi*) that was largely reserved for them. During the Okinawa dynasty, the royal family lived in the city Shuri, which is today a district in the highlands of Naha, at the southern part of Okinawa island. It was formerly

© Copyright Soyinfo Center 2013

a separate city unto itself and the royal capital of the Ryukyu Kingdom, the site of Shuri Castle. It is believed that the idea for tofuyo came from Chinese fermented tofu. It is difficult to make good tofuyo, and the ageing process takes 3-4 months. Today there are very few people who can still make tofuyo–even in Shuri.

6954. *Times-Standard* (*Eureka, California*). 1985. The Tofu Shop. March 15.
• ***Summary:*** About The Tofu Shop in Arcata, California, and Matthew Schmit. A large photo shows an employee holding some food.

6955. Ballard, Bob. 1985. Ah-Soy! and Great Eastern Sun (Interview). *SoyaScan Notes*. March 21. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Ah-Soy was launched at the NNFA show in Atlanta, Georgia, in the summer of 1984. Initial flavors were vanilla, chocolate, and original (plain). It was made by Saniku Foods in Japan and imported via Mitoku. Carob flavor was introduced in the fall of 1984. Vanilla is now the best seller because it is the most unique. The product is a "fantastic success." The four flavors account for 15-20% of Great Eastern Sun's total sales from 1,100 products. GES only sells to distributors [i.e. it is a master distributor].

Sales reports for the period 1 Nov. 1984 to 25 Feb. 1985 show the following number of units sold (there are 30 units/per case): Vanilla 210,000 units. Original/plain 110,000. Carob 105,000. Chocolate 100,000.

Other GES soyfoods that sell well: Mellow white miso (made by American Miso Co.), 35 lb tub, #9 best seller by dollar volume. Onozaki rice miso, 11 lb tub, #20 best. Mellow white miso, 15 lb tub, #20 best. Instant miso soup from Japan (ranking unknown). This month's sales are annualized. The company is now doing $4 million/year in sales. They used to import freeze-dried tofu; the FDA forced them to change the name to "dried tofu." Shurtleff notes that he prefers the term "dried-frozen tofu."

Another best seller (about #3-5) is their White Cloud Rice Syrup It is made from rice with sprouted barley for malt. Address: Great Eastern Sun, 92 Macintosh Rd., Asheville, North Carolina 28806. Phone: 808-438-4730 or 704 252-3090.

6956. *Toyo Shinpo* (*Soyfoods News*). 1985. Atarashii tôfu gyôsha no atarashii shôhô [New marketing technique for tofu makers. Prefabricated compact capsule tofu shop]. March 21. p. 8. [Jap; eng+]

6957. Byrne, Maureen. 1985. The future for soyfoods. The first European Soyfoods Workshop was held in Amsterdam by the American Soybean Association, and papers covered subjects from marketing to microbiological standards. *Food Manufacture* (*London*) 60(3):49, 51, 53. March.
• ***Summary:*** This workshop was held on 27-28 Sept. 1984 at the Krasnapolski Hotel, Amsterdam, the Netherlands–organized by the American Soybean Association. Gives a brief summary of each paper presented.

Contains an interesting full-page table (p. 51) in which Oriental soyfoods are classified into two types: Non-fermented and fermented. For each non-fermented food is given the local names, description, and uses. The non-fermented soyfoods are: Fresh green soybeans, soybean sprouts (huang tou ya, Chinese), soynuts (hueh huang tou, Chinese; iri-mame, Japanese), soymilk (tou chiang or tounai, Chinese; tonyu, Japanese; kongkuk, Korean), [roasted] soy flour (huang tou fen, Chinese), soy protein-lipid film (yuba, tou-fu-pi), soybean curd (tofu).

For each fermented soyfood is given the local names, organisms used, description, and uses.

The fermented soyfoods are: Soy sauce, miso, tempeh, natto, fermented tofu, and fermented black soybeans.

Soy sauce includes chiang-yu from China, shoyu from Japan, ketjap from Indonesia, kanjang from Korea, toyo and see-ieu from Southeast Asia.

Fermented black soybeans include tau-shih from China, tao-si from the Philippines, tau-cheo from Malaysia, tauco from Indonesia, and Hamanatto from Japan.

6958. **Product Name:** [Tofu Tidbits {Tofu Burger Pieces}].
Foreign Name: Tofu Happen.
Manufacturer's Name: Christian Nagel Tofumanufaktur.
Manufacturer's Address: Oelkersallee 14a, D-2000 Hamburg 50, West Germany. Phone: 040/89 49 37.
Date of Introduction: 1985. March.
Ingredients: Tofu, rice, onions, carrots (*Moehren*), wheat groats (coarsely ground meal; *Weizenschrot*), soy sauce* (*Sojasauce**), arrowroot flour (*Pfeilwurzelmehl*), sea salt (*Meersalz*). * = Not organically grown (*aus nicht biolg. Anbau.*).
Wt/Vol., Packaging, Price: 70 gm.
How Stored: Refrigerated.
New Product–Documentation: Label. 1988. 4 by 3 inches. Black on brown. Handwritten. The company also makes Seitan, for which a label was sent. 250 gm.

Label sent by Anthony Marrese after visit to Christian Nagel in Hamburg. 1989. Dec. Black on yellow. Handwritten. 70 gm.

6959. **Product Name:** Amazake Rice Nectar [Toasted Almond, or Original].
Manufacturer's Name: Creative Kitchens, Inc.
Manufacturer's Address: 650 N.W. 71st St., Miami, FL 33150. Phone: 305-756-7638.
Date of Introduction: 1985. March.
Ingredients: Original: Purified water, organic brown rice, rice koji. Toasted almond: Purified water, organic brown rice, rice koji, toasted organic almonds, pure vanilla, sea salt.

© Copyright Soyinfo Center 2013

Nutrition: Per 8 oz. serving: 95 calories.
New Product–Documentation: Talk with Marc Corbett in Miami. 1987. Oct. 16. Creative Kitchens is run by an Israeli guy. Stuart Kerrigan from San Francisco taught them how to make Amazake. Letter from Frank Marrero/Allen of Grainaissance. 1987. Dec. 21. The company was started by some lady in West Palm Beach. They don't remember her name. Her company name was Price Rice and she had only local distribution. Company now owned by Yaron Yemini (a Hebrew name). The product is made with koji and organic rice, no commercial enzymes. Creative Kitchens also sells sandwiches and lots of macrobiotic dishes (kind of like Wildwood, in California).

Bob Schiering. 1988. Jan. 18. U.S. Amazake Manufacturers Update. Based on interviews with 8 companies. Company founded in 1981. Amazake first sold in Nov. 1983. Primary source of influence: Macrobiotics: Involved with Macrobiotic Foundation in Miami. Present products: Amazake (only koji, no commercial enzymes, and organic ingredients used): sandwiches, salads, desserts, puddings, cookies, organic muffins. 80% of their products are macrobiotic. Distribution: East Coast to Canada. Present production: about 480 gallons/week (120 gallons 3-5 times a week). Talk with Yaron Yemini. 1988. Jan. 28. They now make both the original drink and an Amazake Pie (launched 1987). He bought this company (formerly Price Rice) from Mary Lee, so the drink dates back to 1983.

6960. **Product Name:** House Hon Tofu Mix (Soybean Curd Mix).
Manufacturer's Name: Dr. Mins Health Lab. (Importer). Made in Japan.
Manufacturer's Address: P.O. Box 533, Danbury, CT 06810.
Date of Introduction: 1985. March.
New Product–Documentation: Spot in Whole Foods. 1985. March. p. 65. Retails for $3.95 per packet.

6961. **Product Name:** Ice Bean Tofu Flavors (Non-Dairy Frozen Dessert) [Hard-pack: Tofu Vanilla, Almond Fudge, Strawberry, Wildberry, Banana Pecan, Rum Raisin, Peanut Butter].
Manufacturer's Name: Farm Foods.
Manufacturer's Address: 156 Drakes Lane, Summertown, TN 38483.
Date of Introduction: 1985. March.
Wt/Vol., Packaging, Price: Pints and 3 gallon tubs.
How Stored: Frozen.
New Product–Documentation: Poster (8½ by 14 inches, black and white). 1985, undated. "Sneak Preview. Opening Soon. Ice Bean's Tofu Flavors... with that sweet, creamy taste you'll love." Starting Feb. 15th, soft serve in half gallons, 3 flavors: Tofu vanilla, tofu strawberry, and tofu chocolate. Showtime March 1st, pints and 3 gallon tubs in 3 flavors: Tofu vanilla, tofu almond fudge, and tofu strawberry. Open April 1st, pints and 3 gallon tubs, in 4 more flavors: Tofu wildberry, tofu banana pecan, tofu rum raisin, and tofu peanut butter. "Ice Bean's original 8 flavors, made with soymilk and honey, remain unchanged." Address: Farm Foods, 632 Radcliffe Ave., Pacific Palisades, California 90272. Phone: 213-459-9251.

6963. *Kenko* (*Health*). 1985. Yasukute, umai tôfu koso: Byôki taiji no taberu kusuri [Inexpensive, tasty tofu: Medicinal food for conquering sickness]. March. p. 43-71. [Jap]

6964. *Kyo no Ryori* (*Today's Food, NHK*). 1985. Tôfuyô [Tofuyo, Okinawan fermented tofu]. March. p. 84-85. Based on an NHK-TV documentary on tofu-yo, broadcast Friday, March 8. [Jap; eng+]
• ***Summary:*** Tofuyo. Even if you can imagine, from its name, that it is a food made from tofu, very few people know what tofuyo is. It tastes like a cheese and there is a similar product in China named *funyu* [fermented tofu]. It is a special delicacy in Okinawa, made from tofu which is fermented in red rice koji and *awamori* (millet brandy). However tofu made in Okinawa is firmer (it contains less water) than regular tofu (*momen-goshi*) made in Japan. And each cake of tofu is large, weighing about 900 gm. Also the method of selling the tofu is a little different; it is not immersed in water but a large piece (containing about 5 cakes) is placed on a wooden cutting board and covered with a kitchen cloth (*fukin*). The tofu seller cuts each cake of tofu according to the customer's desire.

Tofu is essential, as is pork, in the diet and food culture of Okinawans. The most popular dish prepared at home in Okinawa is *chanpurû* [*champuru*] which means "something mixed." It is made from tofu and seasonal vegetables stir fried (or sautéed) together, often with a little meat or fish. Tofuyo, by contrast, is a delicacy most suited for drinking with saké.

Photos show: (1) The inside of a Okinawan shop that makes the island's most popular distilled alcoholic beverage, awamori (millet brandy), in large earthenware vats. There are ten or more old makers of awamori in Naha city (formerly named Shuri). (2) The process for fermenting rice. (3) Freshly made tofu; it is carried to the store in a wooden frame. (4) Wooden presses with heavy weights on top. Soymilk curds are being pressed. (5) To make tofuyo, soak rice koji in awamori for about 10 days. After it becomes soft, grind it in a suribachi. If you have red koji (*beni-koji*), put it in too, and season with salt and sugar. Cut firm tofu into cubes about 3 cm on a side. Sprinkle salt over them. Dry them on a flat woven-bamboo tray in a shady place.

© Copyright Soyinfo Center 2013

When the tofu becomes yellowish, wash them in awamori 2-3 times. Place them in a jar of the seasoned sweet koji and cover. Place the jar in a refrigerator and allow to ferment for 3-6 months. (6) Tofuyo in the jar in which it is ripening. (7) Kôsetsu Shijo (huge indoor market) near Heiwa-dori in Naha city, Okinawa. It is regarded as "the kitchen of Okinawa." (8) In Okinawa, all parts of slaughtered pigs (intestines, ears, legs, etc.) are sold as food in Kosetsu market; nothing is wasted. (8) There are tofu shops in Kosetsu market. They cut tofu into one cake (*cho*) pieces at the request of customers. (9) For more information contact Naha-shi Kankô Kyôkai (Tourist's Bureau), Phone: 0988-68-4887. Senzaki 1-1, Naha city 900, Okinawa.

Note: The NHK TV broadcast on tofuyo was on Friday 8 March 1985.

Address: Lanark, ONT, Canada.

6966. **Product Name:** Tofu Light Loney (Meatless Bologna).
Manufacturer's Name: Light Foods Inc.
Manufacturer's Address: St. Louis, MO 63017.
Date of Introduction: 1985. March.
New Product–Documentation: Poster. 1986. 6 oz. Refrigerated. "No cholesterol, no MSG, no meat, no preservatives, no nitrites or nitrate."

6967. McCormick, Richard D. 1985. Methods for developing unique textured foods. *Prepared Foods.* March. p. 155-56.
• ***Summary:*** Four factors contribute to the acceptance of a novel food or beverage: color, aroma, flavor, and texture. The important basic role of food structure and texture, and ways of obtaining unique and inviting textures are discussed. These concepts are applied to the various types of tofu, dried-frozen tofu, and fermented tofu. For example, the use of GDL as a coagulant yields very soft tofu with a silken texture. Deep-frying yields a porous, elastic texture. Freezing creates a sponge-like texture.

6968. *Packaging Digest.* 1985. Redesign to redefine: Sophisticated new graphics (that didn't break the bank) prepare Legume's tofu-based frozen entrees for a battle with the nationally-known brands. 22(3):46-47. March.
• ***Summary:*** Legume Inc. recognized that it had an appealing product line, but recognized that it had to broaden its product base "Even before redesign, Legume had managed to sell its six-product line of frozen entrees made with tofu (bean curd) to more than 4,000 health foods stores nationally, as well as a handful of supermarkets on the Eastern Seaboard. And that distribution had been achieved in less than two years. Overall, acceptance was good." Gary Barat, Legume chairman, approached designers Quarrell & Co. in New York City. One problem was the packaging didn't match the quality of the product. "A second was that there are so many messages to be conveyed in such a small area that, apart from the product photographs on the main panel, they communicated confusion." A technical analysis of the new design is given along with a photos of Legume's new Tofu Sesame Ginger Stir-Fry, and Tofu Cannelloni Florentine. The copy line "Enlightened Entrees with Tofu" runs directly above the large Legume logotype. Retail prices range from $2.79 to $2.99. Legume's two main competitors are Weight Watchers and Stouffer Lean Cuisine.

Appendix B: "Tempeh makers in the West" has also been updated and expanded. Address: Soyfoods Center, P.O. Box 234, Lafayette, California 94549 USA.

6972. **Product Name:** [Tofu Burgers (Leek / Ginger, Basque Corn & Pepper, With Sea Vegetables)].
Foreign Name: Croque Tofou (Poireau / Gingembre, Basquaise, Océane).
Manufacturer's Name: SOY (Société Soy).
Manufacturer's Address: Plateau de l'Ardennais, 91590 Cerny, France. Phone: (6) 457.52.01.
Date of Introduction: 1985. March.
Ingredients: With Sea Vegetables: French-grown soybeans, rolled oats (organically grown), British sea vegetables, shrimps, soy sauce, sunflowerseed oil, spices.
Wt/Vol., Packaging, Price: 200 gm.
How Stored: Refrigerated.
Nutrition: Per 100 gm: Protein 14.8%, lipids 11.9%, carbohydrates 4.8%, calories 185.
New Product–Documentation: Letter from Bernard Storup. 1989. March 3. These 3 varieties were launched in March 1985 and discontinued in Sept. 1988. Label for Océane. 3.25 by 6.5 inches. Red, yellow, blue, green, and brown. Written in French, German, and Italian. Impressionistic drawing of sea vegetables. Contains 2 croquettes. Address is still Cerny.

Product (Basque / *à la basquaise*) with new Label brought by Taro Mikuriya of the Nutrition & Santé Group (Revel, France). 2011. Dec. 14. Paperboard box. 4 by 6 by 1.5 inches.

6973. Soyfoods Association of America, Standards Committee. 1985. Tofu standards. 7th draft. Lafayette, California: Compiled by William Shurtleff of Soyfoods Center. 18 p. March. 28 cm. [11 ref]
Address: Lafayette, California and Greenfield, Massachusetts.

6974. **Product Name:** Scrummi (Non-Dairy Soy Ice Cream) [Banana & Honey, or Apricot].
Manufacturer's Name: Vegetarian Feasts.
Manufacturer's Address: 21 Carnwath Rd., Fulham, London SW6, England.
Date of Introduction: 1985. March.
Ingredients: Incl. tofu, fruits.
How Stored: Frozen.
New Product–Documentation: Talk with Sonia Newhouse. 1988. March 13. Sonia developed this product for her daughter, who was allergic to dairy products. It debuted at the International Food Exhibition in London, this product received positive reviews mention in the London Evening Standard and at the show. She thinks it was one of the first tofu ice creams in England. But it was never commercialized because the ice cream equipment did not arrive before she sold the company. Her daughter, Suzanna Price, named the product (short for scrumptious) and her daughter owns the formula. Today she served us 5 flavors of her homemade tofu ice cream (pineapple, banana, raspberry, apricot, and chocolate) which are basically variations on Scrummi.

6975. **Product Name:** Ed & Andy's Original Tofu Teriyaki.
Manufacturer's Name: Walker and Wilks Tofoods.
Manufacturer's Address: P.O. Box 3763, Silver Spring, MD 20901.
Date of Introduction: 1985. March.
Wt/Vol., Packaging, Price: $3.98 in California.
How Stored: Shelf stable.
New Product–Documentation: Ad in Health Foods Business. 1985. Dec. p. 39. "Get something hot in your freezer: Ed & Andy's Original Tofu Teriyaki." Label. 5 by 7 inches. Full color with photo. Przybyla. 1987. Food Engineering. April. p. 74. "First introduced in 1985."

6976. **Product Name:** Tofu (Vacuum Packed in a Colorful Box).
Manufacturer's Name: White Wave, Inc.
Manufacturer's Address: 1990 North 57th Court, Boulder, CO 80301.
Date of Introduction: 1985. March.
Wt/Vol., Packaging, Price: Vacuum packed.
New Product–Documentation: Label. 1985, undated. 1987. Oct. Interview with Steve Demos. 1989. This product was introduced in about March 1985, shortly after Les Karplus was let go. They got their vacuum packer in May 1983. They went to a box because without a box the product looked awful, was leaking on the shelf, and (in the volume stores) it didn't stack properly.

6977. Belleme, John. 1985. New developments at American Miso Co. (Interview). *SoyaScan Notes.* April 2. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** In Feb. 1984 (actually 1 Oct. 1983) John sold his ownership in the American Miso Co. to Barry Evans. Originally, John, Sandy Pukel, and Barry each owned one-third of the business. Before that, it had 6-7 owners. First Sandy (under pressure from Barry) sold his one-third to Barry, which made Barry the majority shareholder. After that, Barry let John run the company, which is doing very well in terms of productivity and profitability. They are selling all the miso they can possibly make.

At the time John sold his stock, he set up a new corporation named Just In Foods, Inc. (named after his son, Justin) to make second-generation miso products. John recently sold Just In Foods (which makes Miso Master brand products) to Barry Evans, because John doesn't own a miso plant. John is now a paid consultant for American Miso Co.

Miso Master is a marketing company for miso and miso products, and also a brand name. Chick Peaso is a mellow

© Copyright Soyinfo Center 2013

miso made with chick-peas instead of soybeans; it contains no soy. Introduced in May 1984, it was first sold in bulk from Great Eastern Sun but is now sold in 1-pound plastic bags.

Two tofu-miso dips were introduced in Nov. 1984; they are made by Nasoya using John's miso. They are both selling well, under the Miso Master label. Another new product is a delicious spaghetti sauce produced by Ventrillos in New York; it is made with a very mellow miso, low in salt. John sells John Troy about 35,000 lb/year of mellow miso; that's all Troy uses but Belleme does not make much money on this. Troy's miso mustard has 3-month amakuchi miso in it. John first saw this product in Fukuoka, Japan, made by Toshi Shiroozu, a man who makes mellow white miso for Eden Foods; it was in 1-pound packages, exported by Muso Shokuhin. John had a product named Mellow Ebony Miso, made with black soybeans. It was delicious but the color was grotesque, so he phased it out.

Another new non-profit organization is the Institute for Fermented Foods. Its logo is a pickle barrel with a rock on it borrowed from the book *Miso Daigaku.*

Pretty soon John is going to stop making miso. He is now training Don DeBona, who Barry sent to be trained. After that, John plans to run Barry's Just In Foods full time. John's wife, Jan, is writing a book on Japanese foods. John plans to go back to Japan for a while. Address: North Carolina.

6978. Flinders, Carol. 1985. Tempeh replace meat in tasty way: Laurel's Kitchen, vegetarian cookery. *Mercury News* (*San Jose, California*). April 3. [3 ref]
• ***Summary:*** Contains an introduction to tempeh and vegetarianism, with two recipes: Tempeh a la king, and Tempeh cacciatore. Address: Co-author of 'Laurel's Kitchen,' a vegetarian cookbook, Petaluma, California.

6979. Nabben, Alexander. 1985. Re: New soy dairy making tofu and tempeh about to open at Dornhausen, West Germany. Letter to William Shurtleff at Soyfoods Center, April 3. 2 p. Typed, with signature. [Eng]
• ***Summary:*** Alexander and friends have moved from Munich 150 miles to the north of Bavaria and rented a farm in a small village. From the cow stable they are making a nice soy dairy. Very soon they will be "offering tofu, tempeh, and soy sprouts in different recipes and ways." An enclosed leaflet (single sided, in German) shows that he and friends are organizing a meeting for soyfoods makers. "In the last two years they went up to 10 or more, from around 4-5." Their idea is to cooperate more with one another "so that the soy-boom can get through easier." In Sept. of this year a good book publishing company will bring out Alexander's book about soyfoods.

The leaflet titled "Invitation" bears the logo of The Farm in Tennessee, and the organization in Dornhausen is named "Farm-Gemeinschaft e.V." (The Farm Community). The get-together is scheduled for 1-2 June 1985. There is an agenda of 11 items for the meeting. At the bottom of the leaflet is a list of the companies and individuals to whom the invitation is being sent: Sojaföderring, [Sojafoederring; means "Soy bringing forward association"], Sojaquelle, Sojastern, Svadesha, Jamato [Yamato]–Tofu-Haus, Garten Eden, Atlantis, Lukas Kelterborn, Rolf Badhoff [sic, Rolf Barthoff], Albert Hess, Fa. [Firma] Byodo, Fa. Morgenland, Hamburger Tofu-Manufaktur, Verein Freunde der Erde e.V., and Naturkost e.V. Address: Morgenland-Naturkost/Farm-Gemeinschaft e.V., 8821 Dornhausen 29, W. Germany.

6980. Soyfoods Center. 1985. Catalog: Publications & materials by William Shurtleff & Akiko Aoyagi [mail order]. P.O. Box 234, Lafayette, CA 94549. 20 panels. April 3.
• ***Summary:*** This catalog, folded like a road map, is printed with brown and rust (brownish pink) light blue ink on white paper. 10,000 copies were printed by Hunza in Berkeley. Address: Lafayette, California. Phone: 415-283-3161.

6981. Stechmeyer, Betty. 1985. Re: Thanks for book. New developments. Letter to William Shurtleff at Soyfoods Center, April 11. 1 p. Typed, with signature on letterhead. [2 ref]
• ***Summary:*** "Thanks so much for the new edition *Book of Tempeh*... Things are quiet here. Gordon is teaching microbiology at College of the Redwoods and we hope to teach the Soyfoods Workshop next semester. Penny Billiter of Star Soyfoods, Sandpoint, Idaho, was our student. Before the Workshop she hadn't even heard of tempeh, just tofu. She came over just before leaving town to spend a day of intense note taking and talking and a month later was selling tofu pudding to Safeway!

"I've enclosed our most recent catalog. Since we have 20+ of the first Book of Tempeh we'll keep with it for now.

"I'm now selling tempeh on a special order basis to local restaurants. Koji, rice and barley, goes to coops on the same basis. I even had a special order for natto!

"Hope all is well with you. You've obviously been very busy as always! Best regards,..." Address: GEM Cultures, 30301 Sherwood Rd., Fort Bragg, California 95437. Phone: 707-964-2922.

6982. Praskin, Laurie Sythe. 1985. New developments at The Farm and with Plenty (Interview). Conducted by William Shurtleff of Soyfoods Center, April 15. 3 p. transcript.
• ***Summary:*** Laurie has just returned from a Plenty Board of Directors meeting at The Farm in Tennessee. Only 300 people are living there now–it has a deserted feeling. But the Plenty meeting was good. Plenty is doing some excellent work with soyfoods in the Caribbean (especially on Dominica), and in Lesotho. There were color slides shows of each program. Their soy dairies there are selling soyfoods.

The Farm Soy Dairy in Tennessee is now run by Ron

© Copyright Soyinfo Center 2013

Maxen and Michael Lee. They sell 100 lb/week of tofu, half of it off The Farm in 1-gallon plastic bags that hold 5 cakes each, or in tubs. On The Farm it sells for $0.90/lb. Off The Farm it sells for $0.75/lb in bulk or $0.85 in tubs. Their yield averages 2 lb of firm tofu from 1 lb of soybeans. They do all their own distributing. They also make 150 gallons/week of soymilk sold as such plus another 4,500 to 5,000 gallons/month for ice bean (2 runs a month). Twice a month they load it into a milk truck and ship to an ice cream company near Memphis. Also 15-20 gallons/week of soy yogurt and 80-90 lb/week of tempeh is sold on The Farm.

The soy dairy in Lesotho is beautiful, housed in a traditional stone hut with a thatched roof. Inside are white walls, a concrete floor, and drains. It is making a little soymilk and soymilk ice cream. It has a nice little Okita stainless steel mill that runs off a generator and also a bicycle-powered mill. They are also growing some soybeans now. Address: 17969 Oak Dr., Los Gatos, California 95030.

6983. Shurtleff, William; Aoyagi, Akiko. 1985. History of soya and the soybean development program in Sri Lanka. Soyfoods Center, P.O. Box 234, Lafayette, CA 94549. 31 p. April 16. Unpublished typescript. Available online at www.soyinfocenter.com.

• ***Summary:*** www.soyinfocenter.com/HSS/ AsSoSriL1. A comprehensive history of the subject. Contents: Introduction. Demographic background. Early history of soya in Sri Lanka. Meals for Millions in Ceylon (1955-1972). Establishment of Sri Lanka soybean development program. A brief chronology of key events: 1973-. Activities of the soybean development program: summary. Soybean production project. Soyanews. The Soyabean Foods Research Center. Role of Sri Lankan government and Thriposha. Commercial production of soyfoods. Institutional use of soyfoods: hospitals, prisons. Ongoing training abroad. Future prospects for soybeans and soyfoods. Conclusion.

Note: By the year 2000 it was clear that the soybean programs that had been so active during the period from 1955 to 1990 had not succeeded in helping the soybean to take root permanently in Sri Lankan food culture and agriculture. We would suggest several reasons. (1) The Meals for Millions program ended up as basically a food giveaway program, which was unsustainable. (2) The program that involved the University of Illinois and INTSOY was conceived by the government with relatively little focus on starting new business in Sri Lanka. When the government lost interest or money, the program stalled and eventually fizzled out. (3) The Soyabean Foods Research Center used state of the art technology from the USA and Europe. But this technology was inappropriate in Sri Lanka except for potential large soyfood processing businesses. The Center would probably have been much more effective if it had been conceived as a center where people who wanted to start new businesses came to learn how to make soyfoods, such as tofu, soymilk, soy yogurt, roasted soy flour, etc. using relatively simple and inexpensive appropriate technology, then returned home with a small loan and with the necessary equipment, plus plenty of follow-up from the program. (4) The idea of making soyfoods at home has never worked anywhere in the world; it takes too much time. Making them on a village level will work if the village is large enough to support one person who makes the soyfoods or, equally good, if a group of people in the village forms a cooperative, individuals or small teams can make one or more soyfoods on a rotating basis. That way each member would get fresh soyfoods each day free of charge. (5) The program gave little emphasis to edamame / green vegetable soybeans as a new garden vegetable. (6) From about 1983 until 2009 there was a terrible civil war in Sri Lanka between the militant Tamil Tigers in the north and the government of Sri Lanka in the south. The Tigers fought to create an independent Tamil state named Tamil Eelam in the north and the east of the island. After a 30 year long military campaign, the Sri Lankan military defeated the Tamil Tigers in May 2009. But this war took the government's attention and resources away from many other worthwhile projects–including soybeans and soyfoods. Address: Lafayette, California. Phone: 415-283-2991.

6984. Chan, Gilbert. 1985. Business owner sings tofu's praises. *Marin Independent Journal* (*Novato, California*). April 27.

• ***Summary:*** Bill Bramblett, a former breakfast cook at the Sleeping Lady Cafe, a musician and owner of Wildwood Natural Foods in Fairfax, California, has written a song titled "Tofunction." The lyrics go: "White 'n' creamy / Hot 'n' steamy / Smooth 'n' dreamy / Soya beany. In less than 5 years, Wildwood has grown from about 12 workers and $52,000 in yearly sales to 47 employees and more than $1 million sales. Each day more than 1,300 people enjoy a Wildwood sandwich, and Wildwood is proud to be one of the first companies in America to make and sell a sandwich that contained tofu. The company distributes tofu, tofu sandwiches, and other healthy foods to about 100 stores in the Greater Bay Area from Mendocino in the north down to Santa Cruz in the south. Most of the stores are located in Marin County, San Francisco, the East Bay, and the Peninsula.

Bramblett, who sports a button reading "I've joined the tofu revolution," is a partner in the business with Paul Orbuch and Frank Rosenmayr. "Wildwood began in August 1980 in the kitchen of the Sleeping Lady Cafe [sic]. Brown rice and tofu sandwiches were prepared every morning for the Good Earth Natural Foods in Fairfax."

"The company later added salads, health snacks and soy milk to its line. Wildwood also distributes natural foods such as tacos and burritos for other health food companies."

Photos show: (1) Tofu maker Greg Whalen as he

pours soaked soybeans into the hopper of a grinder. (2) Bill Bramblett, seated at a desk with hands folded, wearing his Wildwood T-shirt and tofu revolution button.

6985. "I've joined the tofu revolution," (Memorabilia–Button with safety pin on back). 1985. *
• ***Summary:*** This metal button is meant to be worn on one's shirt. Billy Bramblett, an owner of Wildwood Natural Foods is wearing it in a photo in the following article: Chan, Gilbert. 1985. "Business owner sings tofu's praises. *Marin Independent Journal* (California). April 27.

Talk with Billy Bramblett. 1998. Aug. 5. This button is "long gone." He has moved six times since that photo was taken, and it got lost in the process. He was a button collector for many years, but he has no idea where he got this one, but he probably got it at about the time that the article was written–no more than a year before. It was definitely not created or produced by Wildwood.

Note: This is the earliest record seen (Aug. 2000) for a "Button with safety pin on back" related to soy. Address: Fairfax, California.

6986. Brightsong Foods. 1985. Tofu! (Ad). *Prepared Foods.* April. p. 135.
• ***Summary:*** A ¼-page black-and-white ad. "Brightsong now has ingredient Tofu for processors! Made to your specifications, this innovative product is available in many forms, including paste, liquid, chunk, curd, etc. The product is freeze-thaw stable, bland, sanitary, all-natural and Kosher Parve. It is packed in boxes, pails or drums, without packing water, for handling ease!

"Brightsong's ingredient Tofu is functional and has marketing advantages in products like frozen desserts, baked goods, yogurt, beverages, dressings, dips and spreads! Using Brightsong Tofu is the easiest, most reliable way of getting in on the fastest growing segment of the food market: tofu products! Applications and technical assistance available. Call us and put our 27,500 hours of tofu product development to work for you today!" Address: Richard Rose, P.O. Box 2536, Petaluma, California 94953. Phone: 707-778-8638.

6987. **Product Name:** Colombo Tofree (Non-Dairy Frozen Dessert Mix) [Honey-Vanilla, Chocolate, Maple Walnut, Honey Almond, Wildberry, or Peanut Butter].
Manufacturer's Name: Colombo Inc.
Manufacturer's Address: Danton Dr., Methuen, MA 01844.
Date of Introduction: 1985. April.
Ingredients: Tofu (water, isolated soy protein, lemon juice), sugar, corn syrup solids, cottonseed oil, cocoa powder, chocolate liqueur, cellulose gum, locust bean gum, carrageenan, salt.
Wt/Vol., Packaging, Price: 2 gallon tub.
How Stored: Frozen.
New Product–Documentation: Interview with Bob Brooks of Colombo. 1985. Jan. 2. This is the new name for Colombo Tofu, deceptively labeled, since the product contains no tofu. Dairy Record. 1985. April. p. 36. "Colombo Tofree Debuts... launched a soft-serve tofu-based dessert to the foodservice industry. Has one-third fewer calories than ice cream." Daily Record (Morristown, NJ). 1985. Aug. 7. Colombo began test marketing its Tofree in July 1984, and introduced it nationwide in June 1985. Food Management. 1985. Oct. "Softserve Tofu." Label. 1985, undated. 4.75 by 3 inches.

6988. Estella, Mary. 1985. Natural foods cookbook: Vegetarian dairy-free cuisine. Briarcliff Manor, NY, and Tokyo: Japan Publications. 250 p. April. Illust (color). Recipe index. Index. 26 cm. [22 ref]
• ***Summary:*** This macrobiotic cookbook, though free of dairy products, uses fish in many recipes. In the chapter titled "Getting Started" there is a section titled "Beans" (p. 25-26) which describes adzuki beans, black soybeans, chickpeas, lentils, mung beans, etc. Concerning black soybeans: "Distinct from our American black bean in shape, texture and taste, this is a type of soybean They are available in Oriental markets or at natural food stores. Black soybeans cooked with sweet brown rice is a special treat" (see p. 157 for the recipe).

On the same page, in the section on "Whole grains" is a description of seitan ("Wheat gluten, also known as 'wheat meat' in America... Making seitan at home is an easy but time-consuming process.").

There is also a section on "Soy Foods" (p. 26-27) which begins by stating that "Soybeans, the king of beans, are ironically not often eaten as whole beans, but instead are processed into miso, shoyu, tofu, tamari, and tempeh." Each of these foods are discussed briefly. Three types of soy sauce are defined: Shoyu, tamari, and commercial soy sauce (which is said to be artificially colored and processed). Chapter 7, titled "Whole grains, beans, tofu and tempeh" contains 7 tofu and 7 tempeh recipes. There are a large number of soy-related recipes throughout the book, including others tofu, tempeh, using miso and tamari.

6989. *Food Processing* (*Chicago*). 1985. Tofu-based non-dairy frozen desserts: Reduced calories, no cholesterol, no lactose are health implications. 46(4):41-42. April.
• ***Summary:*** Discusses the introduction and composition of Barricini Tofulite. "The first introductions were made in New York during the early part of February." The company also plans to introduce soy-based "cheesecake, frozen novelties, lasagna, frozen tofu burgers, frozen tofu enchiladas, soy-based yogurt, and soy milk."

6990. **Product Name:** Tofait (Non-Dairy Soy Ice Cream) [Hard Pack: Wild Berry Delight, Strawberry Lisse, Almond

Bark Supreme, California Pecan Creme, Swiss Chocolate Silk, Rum Raisin Rhapsody, or French Velvet Vanilla].
Manufacturer's Name: Hawthorn Mellody.
Manufacturer's Address: 1827 Walden Office Square, Schaumburg, IL 60195. Phone: 312-392-3825.
Date of Introduction: 1985. April.
Ingredients: Water, corn oil, sucrose, corn syrup, high fructose corn sweetener, tofu solids, microcrystalline cellulose, mono and diglycerides, cellulose gum, carrageenan, protein, and natural flavors.
Wt/Vol., Packaging, Price: Pint cartons.
How Stored: Frozen.
Nutrition: Per 4 oz.: Protein 2 gm., Calories (low of 160 for French Velvet Vanilla, high of 220 for California Pecan Creme), carbohydrates 20-24, fat 10-14 gm, sodium 90-130 mg.
New Product–Documentation: Interview with Charles Chase of Hawthorn Mellody. 1985. Nov. 11. This company is a dairy processor. Leaflets. 1986, undated. 8½ by 11 inches. Full color, both sides. Label reads: "Light & Creamy Tofait. 100% all natural. Made with real tofu. Cholesterol and lactose free." Dairy Record. 1985. May. p. 29-30. Tofait is said to contain 15-20% real tofu. Available in both soft serve and hard pack. Hawthorn Mellody is a subsidiary of Custom Creamery System; Prepared Foods. 1985. July. p. 17, 109. "Tofait contains an unusually high (15-20%) amount of real tofu." Przybyla. 1985. Prepared Foods. Sept. p. 146. Dairy Foods. 1987. March. "A terrific time for tofu." Kingma. 1987. Soya Newsletter. 1(3):11. "The company markets seven hard-pack and six soft-serve flavors, distributed in the Mid-Atlantic states."

6991. **Product Name:** Island Spring Tofu Frozen Dessert Mix (Soft Serve Non-Dairy Soy Ice Cream) [Chocolate and Vanilla].
Manufacturer's Name: Island Spring, Inc.
Manufacturer's Address: P.O. Box 747, Vashon, WA 98070.
Date of Introduction: 1985. April.
Ingredients: Water, tofu (water, soybeans, calcium sulfate), high fructose corn sweeteners, corn oil, all natural flavorings, soy lecithin, vegetable gums (guar gum, carrageenan), salt.
Wt/Vol., Packaging, Price: 1 gallon.
How Stored: Frozen.
New Product–Documentation: Label. 1985, undated. 5 inches square. Brown and white on pink, with faint sprig of plum blossoms, moon, mountains, and water in background. "All natural non-dairy. A Fitness Food from the Pacific Northwest, USA." Interview with Luke Lukoskie. 1985. March 20; Beachcomber (Vashon, Washington). 1986. Nov. 26. Sold in ½ gallon Pure-Pak cartons.

Key institutions working with soyfoods worldwide. 25. Measures, weights, and equivalents. 26. About the Soyfoods Center & soyfoods consulting services. 27. Bibliography.

In February 1977 a Gallup poll in America showed a remarkable shift in the public's awareness of and attitudes toward soyfoods. The sampling of 1,543 adults across the nation found that: 33% believe that soybeans will be the most important source of protein in the future–ahead of fish at 24% and meat at 21%. 55% believe that "soy products have a nutritional value equal or superior to that of meat." 54% reported that they "had eaten foods containing soy protein as a prime ingredient within the past 12 months." Younger age groups living in large cities and those with college or university educations had the most favorable attitudes toward soy protein, indicating that support for soyfoods is likely to grow in the future. Address: Soyfoods Center, P.O. Box 234, Lafayette, California 94549.

• ***Summary:*** All statistics in this chapter are based on original Soyfoods Center surveys of the tempeh industry. Contents: 1. Introduction. Historical. Market size and growth rate. Tables: (1) Number of tempeh companies by major countries and regions (1975-1985; not including Indonesia, Malaysia, and Singapore). In Europe and the United States, the number increased from 7 in 1975 to 93 in 1985, with

© Copyright Soyinfo Center 2013

55 of the latter in the USA, 21 in Western Europe, and 4 in Canada.

(2) Largest tempeh manufacturers in the United States. The columns are: Rank in 1984. Tank in 1983. Company name & state. Year started making tempeh. Average weekly production (lb/week) in May 1982, May 1983, and Jan. 1984. Of the 18 manufacturers listed, the top 5 are:

(2a) Quong Hop / Pacific Tempeh, CA, started 1980, 7,000 lb/week in Jan. 1984

(2b) White Wave, CO, started 1979, 5,850 lb/week.

(2c) Soyfoods Unlimited, CA, started 1981, 5,800 lb/week.

(2d) The Tempeh Works, MA, started 1979, 5,500 lb/week.

(2e) Appropriate Foods, New York, started 1981, 2,000 lb/week.

Largest tempeh manufacturers in Canada. Only one company, Thistledown Soyfoods, BC, is listed. They make 200 lb/week.

Detailed yearly analysis of the tempeh industry in the United States (1981, 1982, 1983).

Graph of number of tempeh manufacturers in the USA and the Western World.

Major market segments and retailing outlets. Varieties of tempeh and amounts produced: Regular soy tempeh, soy & grain tempehs, second generation tempeh products. Tempeh starter. Pricing. Packaging and refrigeration. Popular uses and recipes. Special distribution arrangements. Outlook and forecast: Second generation products, mainstream marketing with nutritional emphasis, institutions before supermarkets, watch Japan, with the Netherlands. Books on tempeh published in the United States (10 books from 1979-1984). U.S. Media coverage of tempeh (1971-1984). Address: Soyfoods Center, P.O. Box 234, Lafayette, California 94549.

6994. **Product Name:** Tofu, Soymilk, Tempeh.
Manufacturer's Name: Soy Shop, Inc.
Manufacturer's Address: 210 Laredo Dr., Decatur, GA 30030. Phone: 404-377-8433.
Date of Introduction: 1985. April.
New Product–Documentation: Talk with Mr. Kich Lam. 1989. Nov. 8. He bought this business from Steve and Sarah Yurman in April 1985, and moved it to Decatur. He now makes tofu, soymilk, and tempeh. He is Chinese.

• ***Summary:*** This article contains the following graphs: Soybean exports from Indonesia (1977-82); Soybean imports to Indonesia (1978-82); Production and consumption of soybeans and soyfoods in Indonesia (1971-82; soyfoods given for only 1978 and 1980); Per-capita consumption of soybeans, tofu, tempeh, and soy sauce (kecap) by province and total, 1978 and 1980. In 1980 the figures for Indonesia as a whole were soybeans 0.16 kg per capita, tofu 4.66 kg, tempeh 4.87 kg, soy sauce 1.61 bottles. The average consumption of tempeh for Indonesia as a whole was 11.6 grams/person/day in 1978 and 13.3 gm in 1980. Source: Central Bureau of Statistics. Address: Dr., Lembaga Demografi–UI.

6996. *Toyo Shinpo* (*Soyfoods News*). 1985. Tonyu o beesu ni–shin seihin [Tofu and soymilk dessert shop opens in Osaka]. May 1. p. 7. [Jap; eng+]
• ***Summary:*** A tofu and soymilk dessert specialty restaurant will open in April in the Kintetsu department store in eastern Osaka at Fuse city. It will be named Tofeez. It is connected with Furuichian Enterprises which owns the Tofu Kan restaurant. It will serve about 30 soyfoods including tofu ice cream, soymilk bread, tofu burgers, tofu pies, soy yogurt, etc.

On 1 April 1985 a popular Western-style tofu restaurant opened in Nagoya. Named Tcha-na-Time, it is located in the NBN Izumi Building, 1-23-36 Izumi, Higashi-ku, Nagoya, Japan, Phone: 052-951-1877. The owner is Ms. Ishiki. In addition to various soyfoods, they also serve meat and fish. Address: Kyoto.

6997. Shurtleff, William. 1985. Re: Recommending that the Library of Congress change its subject heading from "bean curd" to "tofu." Letter to the Library of Congress, Cataloging in Publication Div., Washington, DC 20540, May 4. 1 p. Typed, without signature.
• ***Summary:*** Gives three reasons for recommending the change: (1) "Since 1975, forty-three books on tofu (with the word 'Tofu' in the title or at least half of the book about tofu) have been published in the United States. Every one has used the word 'Tofu' in the title and throughout the text. Not one has used the term 'Bean Curd,' except perhaps once in the text to explain that it is the outdated/obsolete term for tofu. (2) There are presently 182 manufacturers of tofu in the United States. The largest has sales of about $5 million a year. Every one of these companies labels its products as 'Tofu.' Not one uses the term 'bean curd' as the main term on the front panel. (3) The Soyfoods Association of America and the Tofu Council (representing all U.S. tofu manufacturers) have adopted 'Tofu Standards,' which are 129 pages long (single spaced), which are now in their seventh revision, and which have been reviewed and accepted by the U.S. Food and Drug Administration. In these standards is the firm statement: 'The term "bean curd" should not be used on labels, in advertising, or at any other time when referring to

© Copyright Soyinfo Center 2013

tofu.'"

Note: On 28 June 1985 Mary K.D. Pietris (Chief, Subject Cataloging Div., Processing Services, Library of Congress) wrote William Shurtleff that the term "Bean curd" would be changed to "Tofu" in the Library of Congress Subject Headings. The change was finalized in July 1985. Address: Soyfoods Center, P.O. Box 234, Lafayette, California 94549. Phone: (415) 283-2991.

6998. Siriwardena, T.D.W. 1985. Re: Requesting visit. Letter to William Shurtleff at Soyfoods Center, May 9. 1 p. Typed, with signature on letterhead.

• ***Summary:*** Mrs. F. Hwavitharana, a research worker attached to his center, expects to visit Canada in early July, 1985. She holds B.Sc. and M.Sc. degrees and is a research bio-chemist who has 3 years experience as a research worker at the Soybean Center.

He is writing to Shurtleff to expedite possibilities for her to visit Soyfoods Center to learn about making tempeh, tofu, and soy beverage. He proposes that she spend about 2 weeks at Soyfoods Center. A few visits to tofu and tempeh manufacturing centers in California would also be useful. Address: Sri Lanka Soybean Project, Dep. of Agriculture, Soybean Foods Research Centre, Gannoruwa, Peradeniya, Sri Lanka.

6999. Ayerst, Norman. 1985. Re: Work with Plenty in Dominica and Central America. Letter to William Shurtleff at Soyfoods Center, May 16. 3 p. Typed, with signature.

• ***Summary:*** "I received your message from Maya Shearer and am glad to hear of your interest in our Caribbean projects. Actually my wife [Sarah] and myself worked mostly on the island of Dominica. We spent 18 months there and returned to Canada on the 18th of Feb. '85.

"We worked on an integrated soybean project similar to the program that Laurie Praskin was involved in in Guatemala. My wife and I spent 6 months in Guatemala during 1980 with Laurie and all. At that time, I was responsible for the administration of the Solola Soy Dairy from the Canadian end.

"In Dominica we carried out the INTSOY variety trials and then went on spacing trails, companion planting trials and various other trials to test the long-range capacity of soybean growth in Dominica. Some of these trials were undertaken with the Government, some with the cooperative farming groups and some with individual farmers. We were somewhat overwhelmed with the response of farmers eager to try out soybeans–Dominica is a very agrarian society, by the way, and most people grow a portion of their own food. They are especially eager to find any new crops that can be sold on the local market–it is, overall, a very poor society. We have identified a few varieties that seem to be well suited for Dominica–one is R315. We obtained the original seed through the Intsoy programme and their seed originated in Cuba. It's a very fast growing variety (90 days to harvest) and seems to dry out well in the field even under damp conditions. There is definitely more work to do to identify the exact varieties suited for Dominica but I think we have made a good start and many Dominicans are now participating in the program.

"We opened our initial Soya Shop in downtown Roseau (the Capital pop. 12,000) in May of 1984. Originally, we produced soymilk and tofu which we incorporated into popular local recipes. A fritter that was tofu/okara/bean based became a very big hit in town and surpassed our expectations of immediate interest in soyfoods. A sandwich spread based on tofu/okara and 50% local vegetables was also very popular–and of course the soy based ice cream (especially peanut flavour) is very popular.

"From the original shop, we moved to the edge of town–the most densely populated area of Dominica–to larger premises on the main road south–down the coast. Here we were able to expand our production facility and go more into training programs and wholesaling products. (We do continue with the retail outlet using soyfoods in local recipes.)

"A second soy shop has opened in Roseau called Soy Kweyol. This was opened by a woman who had previously worked with our program. Her name is Natalie Andrews and she has had a history of experimentation with soybeans/soyfoods in Dominica. We are currently working with Natalie to produce flours from local produce (Natalie initiated this project 5 yrs. ago)–cassava, banana, pumpkin, breadfruit etc. With these flours we are adding toasted soyflour to bring up the protein content and experimenting with tastes and recipes to see what the potential of soyflour is in Dominica.

"Through the Ministry of Education we have been able to set up a series of soyfoods preparation courses–for the home and small business. These courses are part of their adult education program and summer school program. There is some talk of the schools incorporating the preparation of soyfoods into their home economics courses.

"The Soya Shop has been purchasing any soybeans that farmers are growing, with most being resold or given away as seed stock. This is the cycle that we are working towards being self perpetuating in the hands of Dominicans. We are working towards a number of small-scale farmers growing enough soybeans to supply the local market.

"I think that I have touched on the basic outline of the soy aspects of the Dominican project–we also have been working on community development projects such as building an addition onto a small rural school, supplying a school with lighting, building a breakwater with a fishermen's group etc. -

"Plenty Canada has also undertaken an integrated soybean project in St. Lucia, Jamaica, and Antigua.

"I have enclosed some articles and part of a report on

© Copyright Soyinfo Center 2013

the Dominican project and hope that this gives you an idea of what we have been doing. I would appreciate receiving any comments or further queries from you. I have a high regard for your tofu books and we have used them often.

"My wife, Sarah, has become somewhat of an expert on soy cookery and nutrition over the past 15 years. She is very good at making soyfoods taste extremely delicious. The initial success of our Soya Shop in Dominica can be attributed, to a great degree, to Sarah's soy experience and the participation of some very enthusiastic Dominican women.

"As far as the slides go, I am currently working on duplicating my originals. I am also making prints from negatives. When I have this completed I will let you know and then perhaps we could make an arrangement whereby you can see them.

"Thanks again for your interest, wishing you all the best, Norman Ayerst."

The letter ends with two handwritten addresses on page 3: (1) Noble Bean, c/o Allan & Susan Brown, R.R. 4, MacDonald's Corners, Ontario, Canada. Sarah [Ayerst] has been working with Allan & Susan since we returned from Dominica. (2) Norman's home address.

Letter (e-mail) from Norman Ayerst. 2008. Aug. 3. "At the times we were working in Guatemala and Dominica, we were working for Plenty Canada–and Plenty Canada was in pretty close partnership with Plenty International on planning and executing the programs." Address: 64 Oxford St., Toronto, Ontario M5T 1P1, Canada. Phone: 416-920-2668.

• ***Summary:*** Aloha Tofu in Hawaii makes cookies with tofu and vegetables.

7001. Burros, Marian. 1985. Getting warmed up for healthful frozen desserts? Many are but others aren't. *New York Times.* May 22. p. C1, C8. Living section.
• ***Summary:*** About five years ago, when the term "eating healthy" started to become popular, frozen yogurt entered the market. Since then, the number of frozen desserts that claim to be healthful, "all natural," or better for us that old fashioned ice or sherbet, have increased dramatically.

"The newer frozen desserts are often what they seem to be. But sometimes they are not. Products with the word 'tofu' in their names, for example, have little if any bean curd in them." She calls such products "frozen tofu" or "soybean-based desserts." There is a long section on this category of products, which has grown significantly over the last two years. "Though they are cholesterol-free, these nondairy frozen desserts are not necessarily healthier than ice cream, since they are often high in fat" and calories. According to Gary Barat, president of the Soyfoods Association, of 30 frozen products that list tofu as an ingredient, "perhaps no more than three actually contain it, and then at levels of no more than 5 percent." The Soyfoods Association is now working to establish tofu standards.

An illustration shows a package of ice cream with the word "Tofu" in large letters on the front panel.

7002. **Product Name:** Boon Tofu.
Manufacturer's Name: Soy Food Centre. A Unit of Networks Pvt. Ltd.
Manufacturer's Address: Net House, Uptron Estate, Panki, Kanpur, Uttar Pradesh, 288-822, India. Phone: 244311.
Date of Introduction: 1985. May.
New Product–Documentation: Talk with Rajendra ("Raj") Gupta. 1985. July 21. On 23 May 1985 a company that Raj helped to establish started production of tofu in India in Kanpur (a city in northern India in southern Uttar Pradesh, on the Ganges River, 250 miles southeast of Delhi; Population 1.2 million). Last year he bought and imported a Takai W30B tofu system–which can actually process 50 kg/hour of soybeans. There is a big demand for his tofu; he can't keep up with it. One month ago he was making 500 kg/day of tofu, but soon, when his packaging improves, he will be making 1,500 kg/day.

Soya Bluebook. 1986. p. 105. States that this company is making Boon (soy beverages) and Boon (soy frozen desserts). But Raj Gupta writes (Nov. 1994) that these products were experimental only, and never commercialized.

Letter from T.N. Agarwal, Director. 1986. Oct. 3. "Being very small scale entrepreneurs, we have put all our efforts and money, though quite small, to achieve the goal. Then in the first stage, we got a tofu plant from Takai, Japan, and introduced tofu in the Industrial city of Kanpur at very, very low cost ($0.5 per kg). Initially we spent good amounts on sales promotion ($10,000/-) and dropped further publicity to keep the product cost low. The strategy has been that due to low cost the product will have mouth to mouth publicity and we shall be able to keep the price low. But this strategy did not work. We had high initial sales of 500 kg/day which gradually kept dropping and has come to 100 kg/day in the last 6-7 months. We are working now on a new sales strategy and would inform you of the result. In our first sales approach we focused on price and taste to get customers and did not stress the health factor much. Maybe we were wrong... This is our pilot plant. We are offering franchises all over the country to small scale entrepreneurs." Soya Bluebook. 1986. p. 107.

Ad to sell this company's tofu equipment in *The Times of India.* 1987. July 14. p. 12. When asked about the information in this ad, Raj Gupta replied in Sept. 2010 (which see).

Talk with Raj Gupta. 1994. Nov. 21. The tofu company

© Copyright Soyinfo Center 2013

he helped to start in India was named Soy Food Centre. It was located in Kanpur, and was part of another company named Networks Pvt. Ltd., which still manufactures electronic test equipment and parts cabinets. Raj had significant shareholdings in Networks Pvt., but he no longer has any ownership in the company. The tofu company ceased operating after 1½-2 years in late 1986 and sold their Takai equipment to a company in Madurai, which is now using ProSoya's SC-20 SoyaCow instead of the Takai system. The main problem was distribution; the tofu spoiled before it reached the consumer. From this experience he realized that Indian needs a system that will produce soymilk or tofu on demand at the place where the people consume it–as at a school or hospital.

Letter (e-mail) from Rajendra ("Raj") Gupta. 2010. Sept. 5 and 7. The company name and address in the 1987 ad are correct. The tofu, which was the only soyfood product made by this company, was sold under the brand name "Boon." "I do not remember using 'soya paneer' on the label. I believe we called it tofu. We did not want it to be seen as imitation paneer. A cooled 200 gm piece of cut tofu was inserted in a small plastic bag, filled with water as much as possible, and heat sealed, and the sealed bag was put in ice cold water. We sold it in almost all types of retail outlets, but catered mostly to the middle and upper middle classes. It was distributed solely by Indo ProSoya Foods in the Greater Kanpur area. Some was shipped to Delhi to bulk users. We were told there was a company that made tofu in Delhi area but was closed down before we started. However, we could never confirm this. We could never find any details." No soymilk was sold commercially as the flavor was too "beany" for Indian palates. They started manufacturing tofu with the Takai system.

Letter (e-mail) from Raj Gupta. 2010. Oct. 15. As far as I can remember, the name "Indo ProSoya Foods Ltd." was created when we intended to go public, but that never happened. The office address of that startup company was 113/121 Swaroop Nagar, Kanpur 208 002, Uttar Pradesh, India. The actual factory was in Panki, a Kanpur suburb.

7003. Miller, Bryan. 1985. Restaurants: American cuisine on the East Side. *New York Times.* May 31. p. C16.
• ***Summary:*** This is a review of the two-star restaurant Safari Grill (1115 Third Ave., near 65th St., in New York City).

"Grilled beancurd with assorted vegetables was an alluring and healthful idea gone awry–the seared slabs of beancurd were insipid."

Note: This is the earliest English-language document seen (April 2012) that contains the term "grilled beancurd;" it refers to grilled tofu.

7004. Andres, Cal. 1985. Tofu: A nutritious, healthful food gaining wide acceptance. *Food Processing* (*Chicago*) 46(5):46. May.
• ***Summary:*** Describes Instant Tofu Blend (one of four Specialty Blends from A.E. Staley Mfg. Co.) and TF-10 spray dried tofu (from Clofine Dairy Products Inc., Linwood, New Jersey). Address: Editorial director.

7005. **Product Name:** Concentrate Plus+ (LeTofu in Dry Powder Form. Powdered Blend of Spray-Dried Tofu, Solids, and Stabilizer for Industrial Manufacture of Tofu Ice Cream).
Manufacturer's Name: Brightsong Light Foods.
Manufacturer's Address: 100-A Poultry St. (P.O. Box 2536), Petaluma, CA 94953.
Date of Introduction: 1985. May.
Ingredients: Spray-dried tofu, corn syrup solids, vegetable gums.
Wt/Vol., Packaging, Price: Industrial packing.
How Stored: Shelf stable.
New Product–Documentation: Brightsong Foods. 1985. Industrial Tofu and Frozen Desserts Offered (News Release). "Brightsong Foods, the oldest tofu development company in the U.S., announces the introduction of its new industrial products: Tofu Plus+, Concentrate Plus+, and Mix Plus+."

Spot in Food Engineering. 1985. July. p. 32. "Introduces tofu frozen dessert concentrate." The all-natural concentrate contains real tofu, soy protein, etc. In Business. 1985. Nov/Dec. p. 25. Letter from Richard Rose. 1987. Aug. 29. Customer added sweetener, fat, flavor, and water to make a tofu frozen dessert. The main ingredient was Oberg's spray-dried tofu.

Note: This is the earliest record seen (April 2001) showing powdered tofu used as an ingredient in a commercial soy product.

7006. **Product Name:** Tofu Plus+ (Freeze-Dried Tofu Powder or Liquid Processed Curd for Industrial Use).
Manufacturer's Name: Brightsong Light Foods.
Manufacturer's Address: 100-A Poultry St. (P.O. Box 2536), Petaluma, CA 94953.
Date of Introduction: 1985. May.
New Product–Documentation: Brightsong Foods. 1985. Industrial Tofu and Frozen Desserts Offered (News Release). "Brightsong Foods, the oldest tofu development company in the U.S., announces the introduction of its new industrial products: Tofu Plus+, Concentrate Plus+, and Mix Plus+." Letter from Richard Rose. 1987. Aug. 29. Industrial packing, made to customer's specifications. The freeze-drying made it very expensive. It cost $3.50/lb to make and sold for $7.00/lb.

7008. **Product Name:** [Soyastern Provence Tofu with Herbs].
Foreign Name: Soyastern Tofu Provence.
Manufacturer's Name: Debrecini-Drosihn-Karas. Renamed Soyastern Naturkost GmbH in Dec. 1985.
Manufacturer's Address: Roonstr. 38, D-5200 Siegburg, West Germany.
Date of Introduction: 1985. May.
Ingredients: Water, soybeans*, herbs, spices, sea salt. * = Organically grown; Soyabohnen aus kontrolliertem biologischen Anbau.
Wt/Vol., Packaging, Price: 250 gm.
How Stored: Refrigerated.
Nutrition: Protein 11.3%, fat 7.2%, carbohydrate 1.9%, 118 kcal/100 gm.
New Product–Documentation: Interview with Bernd Drosihn of Soyastern. 1987. Nov. 30. He is business manager at Soyastern. This product is the company's #2 best seller. Label. 3 by 5.5 inches. Light green, dark green, red and white. "Soyastern traditional nigari tofu, made purely from plants (*rein pflanzlich*). A piquant seasoned soya specialty for use as an addition to salads or a crisp pan-food (*Eine pikant gewuerzte Soyaspezialität als Salatbeigabe oder knuspriges Pfannengericht*)."

Talk with Thomas Karas. 1990. March 14. He says this product was called Tofu Provence.

7009. **Product Name:** Dreamy Tofu (Non-Dairy Soy Ice Cream) [Chocolate, Mint Chocolate Swirl, Peanut Butter Swirl, or Wildberry Swirl].
Manufacturer's Name: Giant Food Inc.
Manufacturer's Address: 6300 Sheriff Rd., Landover, MD 20785.
Date of Introduction: 1985. May.
Ingredients: Chocolate: Water, sugar, corn syrup solids, cocoa and cocoa processed with alkali, soy oil, soy isolate, tofu, mono and diglycerides, guar and locust bean gums, polysorbate 80, vanillin, cellulose gum, xanthan gum.
Wt/Vol., Packaging, Price: ½ gallon.
How Stored: Frozen.
Nutrition: Chocolate: Per ½ cup. Calories 130, protein 1 gm, carbohydrate 22 gm, fat 4 gm, sodium 15 mg.
New Product–Documentation: Interview with Giant Food. 1985. Nov. 11. Product introduced about May 1985. Leaflet. 1985, dated. "A Dairy-Free Dream Come True." Gives ingredients and nutritional analyses for 4 flavors of Dreamy Tofu. It is made by Giant Food, sold only at the 134 Giant Food stores (in Virginia, Maryland, and DC), and is reasonably priced. Spot in Food Industry Skirmisher (Baltimore, MD). 1985. July. Dreamy Tofu is manufactured in Giant Food's own processing plant and is available in all 134 area Giant stores in half gallon ($2.59 retail) and pint ($0.99) containers.

Ad (full page) in *Washington Post* 1985. June 21. p. A15. Andres. 1985. *Food Processing.* Nov. p. 40. "Tofu-based frozen dessert is cholesterol and lactose free. Opens new marketing potentials" This product, which uses Frostline tofu mix from Grain Processing Corp. as its main soy ingredient, has not detracted from sales of their dairy ice creams.

Meyers. 1986. Advertising Age. April 28. p. S-4. "Giant Stocks up on Service, Vertical Integration... Last summer it launched a weekly full-page color ad focusing on specific products, such as Dreamy Tofu." Food Engineering. 1986. Aug. p. 91. "Sea and soy proteins spark analogs, blends." Dreamy Tofu from Giant Foods is the first hard-pack use of Frostline tofu mix. A photo shows two Dreamy Tofu cartons (mint chocolate swirl, and wildberry swirl).

Kingma. 1987. Soya Newsletter. 1(3):11. This is "one of the leading supermarket chains in the Mid-Atlantic region. Dreamy Tofu is the only soy-based nondairy frozen dessert presently marketed in half gallon cartons as well as in pints. Distributed to its 142 stores, the product is available in five flavors."

7010. **Product Name:** Gourmet Tofu by Riviera (Non-Dairy Soy Ice Cream) [Vanilla, Almond, Strawberry, Burnt Walnut, or Raspberry].
Manufacturer's Name: Gold Star Ice Cream Co. (Ingredient Systems Division of ITC).
Manufacturer's Address: 921 East New York Ave., Brooklyn, NY 11302.
Date of Introduction: 1985. May.
How Stored: Frozen.
New Product–Documentation: Shurtleff & Aoyagi. 1985. Tofutti & Other Soy Ice Creams. p. 88. Originally the company was planning to call this product "Tofu for You." Dairy Record. 1985. Sept. p. 86. Dairy Foods. 1985. Nov. p. 63; Food Processing. 1986. March; Food Engineering. 1986. Aug. p. 91. Interview with the company. 1987. Sept. Gold Seal is the selling arm of the company, Gold Star is the manufacturing. New brand is Way of Life.

7011. **Product Name:** Staley Instant Tofu Blend.
Manufacturer's Name: Gunther Products Div., A.E. Staley Manufacturing Co.
Manufacturer's Address: 2200 E. Eldorado St., Decatur, IL 62525.
Date of Introduction: 1985. May.
Wt/Vol., Packaging, Price: Sold in bulk.
How Stored: Shelf stable.
Nutrition: Protein 48%, fat 26%, carbohydrate 16%, and moisture 6%.
New Product–Documentation: Andres. 1985. Food Processing. May. p. 46. June. p. 26-27. Kingma. 1987. Soyatech. March/April. p. 11. "In 1984 the company first developed a spray-dried tofu powder prototype to replace egg and milk powders in baking systems."

7012. **Product Name:** [Tofu Drink].
Manufacturer's Name: Hika Shoten (Japan).
Manufacturer's Address: Japan.
Date of Introduction: 1985. May.
New Product–Documentation: Japanscan Food Industry Bulletin. 1985. 3(3):5. May. "Hika Shoten has found a way to blend orange juice with tofu successfully. The tofu is milled to particle size less than one micron and up to 30% orange juice is added. The resulting beverage is positioned as a yogurt beverage alternative."

7013. Hinman, Bobbie; Snyder, Millie. 1985. Lean and luscious. Charleston, West Virginia: Hinman-Snyder Productions. 452 p. May. 22 cm. Spiral bound.
• ***Summary:*** This book, copyrighted in 1984, was originally self-published by the authors in May 1985. A very similar edition was published in Jan. 1987 by Prima Publishing & Communications in Rocklin, California. The subtitle states: "Over 400 gourmet recipes that are low in calories, low in fat, and easy to prepare. Each recipe includes at-a-glance nutritional breakdown." The cover contains a color photo of a gourmet meal with a candle served on a white tablecloth. This low-calorie cookbook has a chapter titled "Legumes and Tofu," containing three soybean recipes and many tofu recipes: Soybean soufflé (p. 308). Bean stroganoff (with soybeans, p. 309). Mushroom soy loaf supreme (p. 310). Oriental tofu fish cakes (p. 320). Italian tofu "meatballs" (p. 321). Tofu cheddar squares (p. 322). Cauliflower tofu bake (p. 323). Tofu parmigiana (p. 324). Tofu rice pudding (p. 325). Tofu chocolate pudding (p. 326). Tofu banana fritters (p. 327). Tofu, peanut butter and banana spread (p. 328). Chocolate tofu cheese pie (p. 329). Tofu banana cream pie (p. 330).

The introduction to this chapter states: "Tofu is a little-known food that offers incredible variety. The curd from the soybean, tofu 'becomes' whatever it is placed with. In pancakes, cheesecakes, puddings, or 'meatballs,' tofu is prepared in ways that will teach you how really unique natural foods can be.

"It is important to note that legumes and tofu add protein to your diet without adding high levels of fat."

On rear cover, two photos show the authors. Address: 1. Maryland; 2. West Virginia. Phone: 916-624-5718.

7014. *Iowa Stater* (*Iowa State University*). 1985. Improving tofu is goal of project. May. p. 7. [2 ref]
• ***Summary:*** Lester Wilson (professor of food technology at Iowa State Univ.) and Jane Love (associate prof. of food and nutrition) are doing carefully controlled studies of tofu and its production. Patricia Murphy (asst. prof. of food technology) has joined the team in its latest project–enhancing the nutritional quality of tofu. A photo shows Wilson and Love.

7015. **Product Name:** Jason Natural Tofu Shampoo.
Manufacturer's Name: Jason Natural Cosmetics.
Manufacturer's Address: Culver City, California.
Date of Introduction: 1985. May.
Wt/Vol., Packaging, Price: 2 fluid oz or 12 fluid oz. Latter

retails for $3.00.
New Product–Documentation: Medoff. 1985. Whole Life Times. Mid-April/May #42. "Hey, where's the tofu?"

7016. Kushi, Michio; Jack, Alex. 1985. Diet for a healthy heart. *East West Journal*. May. p. 34-38. Cover story.
• ***Summary:*** "In the Middle Ages, the Black Death [bubonic plague] earned its reputation by killing about one-third of the population of Europe. Today, cardiovascular disease claims the lives of over 50 percent of the people in the United States and in many other advanced industrial societies... heart disease is more deadly than all other modern scourges combined, including cancer and loss of life from car accidents, crime, and war...

"One out of every five men in this country will have a heart attack by age sixty... This year, according to the American Heart Association, 1.5 million Americans will have a heart attack, and 550,000 of them will die."

According to Marstow and Page (1978. *National Food Review.* Dec. p. 28-33. "Nutrient content of national food supply), the fat in the American diet comes from the following sources:

43% cooking and baking fat, salad oils, butter, and margarine.

34% red meat, poultry, and fish.

12% dairy products, not including butter.

4% beans, peas, nuts, soy flour, grits.

4% grains, vegetables, fruits.

3% eggs.

The authors believe that a macrobiotic diet based on natural foods (including miso soup and tofu) can largely prevent heart disease.

A color cover photo, by Robert Kaufman, shows Michio Kushi, dressed in a white apron with a red heart on it, slicing a carrot in a kitchen.

7027. Roger, Patrick. 1985. [Re: New developments with soyfoods in France, and the Association Rurale des Travailleurs sur Soja]. Letter to William Shurtleff at Soyfoods Center, June 12. 3 p. Typed, with signature. [1 ref. Fre; eng+]
• ***Summary:*** "Many of the farmers in my region have told me that they grew soybeans during World War II. It seems that this was a sort of culture (tax or duty on which the farmers were owing/in debt), for the German occupants considered the soybean to be a strategic commodity.

"More recently, in 1974, it is under the impetus of Mr. Jean Claude Sabin, sometimes called 'Mr. Soja,' that the culture of soya has taken off again in France, starting with the Department of Tarn. Mr. Sabin is presently president of various organizations actively involved with popularizing soybean culture in France. I'd like to point out the little newsletter edited by l'ONIDOL (Office of Oilseed Development) titled *L'Inoculum.* It contains extensive useful information on the culture of soya in France. Subscriptions are free. Write: L'Inoculum, 17 rue Fleurance, 31400 Toulouse, France.

"Finally a little history of l'ARTS. Our association was officially created in December 1983 by Olivier Attie,

© Copyright Soyinfo Center 2013

who is today its president, by Jacques Isnard and Alain Lacombe, who manage SOJADOC, which makes tofu and tofu products, and by myself who am now director. The base of the association is now widened to include other members. Those in charge of businesses such as Mrs. Sakaguchi, Colin, Wintzer, Garcia; people working in public organizations; soy researchers; wholesalers. Presently the three of us most actively involved are (1) Olivier, who is most particularly interested in the development projects in Africa. (2) Anne Caderas de Kerleau, who is collecting important documents and writing a book on soya, and (3) me, who keeps people connected by publishing *La Lettre de l'ARTS* and does investigations as on markets, adapted varieties of soybeans, etc.

"By the way, we have a project to launch in the near future the idea of a European Soyfoods Manufacturers Assoc. (but there is no good equivalent for the word 'Soyfoods' in French). We are in the process of working out the laws but the divisive political and linguistic context in Europe makes these things very delicate. In this body we will try to work together to establish standards for production and labeling, to protect soyfoods from the attacks of the dairy lobbies, and to publish a 'Soyfoods Letter' in English and French...

"Here is a list of recent arrivals on the market in France: Sojadoc (fresh tofu and tofu cuisine), Sojagral Ouest (tofu), La Maison du Tofu (tofu), L'Athanor (tempeh), Sapov (soymilk, natural or deodorized)... It seems that 1986 will be the boom year for soy products in France...

"Our training session on tofu took place in November 1984 at Penne and Corbarieu. It has been followed by Mani Coulibali of Senegal, who has since been sent by AGROPOL [Association pour le Developpement International Agronomique et Industriel des Proteagineux et des Oléagineux] as a soya expert for Africa, and by Koffi Aquereburu, who is looking for partners/financiers for a tofu project in his country, Togo.

"I have previously set up a shorter session in the same way (at the same time) a dossier of study (in Spanish) for Hidegar Garcia of Venezuela in view of setting up an experimental shop in that country. I have had no news from him since then.

"The next stage, organized by Olivier Attie, will take place in July by a person from Burkina Faso (formerly Upper Volta) in view of implementing a low technology shop in his country." Address: Director: 1. La Guitarde, 82370 Corbarieu, France; or 2. ARTS (Association Rurale des Travailleurs sur Soja), Presbytere de Saint-Paul-de Mamiac, 81140 Penne du Tarn, France. Phone: 63/56 34 09.

7028. Wood, Deborah Leigh. 1985. Nothing timid in frozen tofu's calorie count. *Chicago Tribune.* June 13. Food section. p. 2.
• ***Summary:*** Note the use of the term "frozen tofu" in the title to apply to soy ice creams. "If you don't know much about tofu frozen desserts, you might assume they're nutrition packed. But if you give a lick about calories, you won't eat too much... Tofu frozen desserts have increased fourfold in the last few years since David Mintz created Tofutti..."

"Haagen-Dazs now sells Tofutti in its 28,000 shops throughout the country."

Robert Tepper, vice president of the Soyfoods Association of America and national sales manager for Farm Foods, says that no matter what you call them, they are still just desserts.

7029. Hillock, Lawrence. 1985. Soy food maker hopes to win over western palates [Stephen Yu and Victor Food Products Ltd. in Toronto]. *Globe & Mail* (*Toronto, ONT, Canada*). June 24. p. B7.
• ***Summary:*** Victor Food Products Ltd., Canada's largest tofu maker, produces 10 tons of soybean curd and related products each week. He sells these foods mostly to oriental enclaves, health food stores, and specialty sections of large supermarkets. Last year his gross sales were less than $1 million. Address: Canada.

7030. Hosaka, Yaoji. Assignor to Toyu Food Co-Operative Corp. (Saitama, Japan). 1985. Process for manufacturing flavored and patterned tofu. *U.S. Patent* 4,525,373. June 25. 6 p. Application filed 1 June 1983. 11 drawings. [5 ref]
• ***Summary:*** This is an invention for "tofu steak," which is a flavored and patterned cake of tofu. It is grilled on a steel plate like beefsteak. The pattern comes from the bottom of the forming box. Address: Yashio, Japan.

7031. Pietris, Mary K.D. 1985. Re: "Bean curd" will be changed to "Tofu" in the Library of Congress Subject Headings. Letter to William Shurtleff at Soyfoods Center, June 28. 1 p. Typed, with signature on letterhead.
• ***Summary:*** "Your letter set into motion a chain of investigation which will result in the approval, at the editorial meeting next Wednesday morning, of the change from Bean curd to Tofu.

"You may be interested in the history of this heading. We established the heading Tofu in 1965. In the mid-1970's disputes arose here about the proper form of romanization of that term. The dispute was resolved by the decision to use the common English term Bean curd instead. This decision was backed by the edition of Webster's dictionary that was then in print.

"With the passage of time, and as you indisputably pointed out, the use of the word Tofu has gained universal acceptance. It has since become the preferred term in the latest edition of *Webster's Dictionary.* We agree that it is time to change the subject heading back." Address: Chief, Subject Cataloging Div., Processing Services, Library of Congress, Washington, DC 20540. Phone: 202-707-5342.

7032. Bray, Franco. 1985. Un gelato vegetale a base di soia [Vegetable ice cream based on soya]. *Industrie Alimentari* 24(228):513-15. June. [12 ref. Ita]
• ***Summary:*** Discusses methods and procedures for making a bland tasting tofu for use in Tofutti, a non-dairy ice cream made in the USA. Tables compare the chemical composition of cow's milk and soymilk, the dry okara (*residuo secco*) from Amsoy, Vinton, and Weber soybean varieties as a function of the extraction method, and the amino acid composition of soy protein and milk proteins.

Note 1. This is the earliest Italian-language document seen (March 2007) that mentions soy ice cream, which it calls *Une gelato vegetale a base di soia.*

Note 2. This is the earliest Italian-language document seen (Oct. 2001) that mentions okara, which it calls *Il residuo secco* and *materiale insolubile.* Address: Via Crimea 21, 20147 Milan, Italy.

7033. **Product Name:** [Tofu with Mushrooms in Gravy (Canned)].
Foreign Name: Tofu Pastetefuellung / Farce pour vol-au-vent / Ripieno per vol-au vent.
Manufacturer's Name: Conserves Estavayer S.A. Sold at Migros supermarkets.
Manufacturer's Address: Case Postale 29, CH-1470 Estavayer le Lac, Switzerland. Phone: 037 63 91 11.
Date of Introduction: 1985. June.
Ingredients: Water, tofu, mushrooms (oyster mushrooms and Judas' ears), nonfat dry milk, milk protein (casein), vegetable oil, apple cider, starch, seasonings, cream, sea salt, binding agents.
Wt/Vol., Packaging, Price: 420 gm can. Retails for FR 2.60.
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Per 100 gm: Protein 8 gm, fat 5 gm, carbohydrate 8 gm, 1.3 gm salt, 110 calories.
New Product–Documentation: Letter from M. Jaccard and A. Dillier of Conserves Estavayer. 1988. June 27. This product was launched in 1985 and discontinued in 1988. Label. 1988. 9.5 by 4 inches paper. Black, pea green and orange on brown or dark beige. Motif of a twisted rope and green soybean leaves plus pods on top. Photo of the product in pastry shells.

Alfa-Laval. 1988, June. Soyfoods: Old traditions with new potentials. p. 9. A color photo of the front of the can shows the label.

7034. *Dairy Record.* 1985. New tofu concept for frozen desserts. June. p. 95.
• ***Summary:*** Frostline Tofu Dry Mix is made by the Frostline Food Service Dept. of Grain Processing Corp.

7035. *Dairy Record.* 1985. Tuscan Farms: Moving beyond dairy. Fired up by a new parent company, Tuscan Farms is out to break tradition. June. p. 11-12, 42.
• ***Summary:*** A new TV spot shows family members enjoying Tuscan's Tofu frozen novelties on a stick. Indeed Tuscan Dairy Farms of Union, New Jersey, has launched "Tofu Bars," a non-dairy, lactose- and cholesterol free frozen dessert on a stick. A photo (p. 42) shows "Tuscan's tofu on a stick."

• ***Summary:*** A brief, positive introduction with one recipe for Mariah's yummy tofu burgers. "The restaurant offering the most tofu dishes on its menu is the Oasis Buffet Dining Room at Alive Polarity's Murietta [sic, Murrieta] Hot Springs in (where else?) California."

7037. *Food Processing* (*Chicago*). 1985. 101 new food plants: Tofu, soymilk–Mighty Soy, Inc. June. p. 46.
• ***Summary:*** A color photo shows the front of Mighty Soy's new 8,000 square foot facility in Los Angeles, California. It began operation in Nov. 1984 and cost $250,000.

7038. **Product Name:** Tofu [Regular, or Firm].
Manufacturer's Name: Jerusalem Tofu.
Manufacturer's Address: Moshav Orah, Jerusalem 90880, Israel. Phone: 02-413-809.
Date of Introduction: 1985. June.
New Product–Documentation: Talk with Simcha Susan Ergas. 1986. Feb. She says they are the only tofu company in Israel. They have a contract with the Israeli army. Talk with Mike Geringer. 1988. Jan. 2. The company is still in existence. He is starting a new company to make a tofu-based meat analog.

Talk with Susan Ergas. 1989. May 1. She purchased this company from the couple that started it as Golden Jerusalem, then they left the country and are now living in the USA. She does not know when they started the company. She started making regular and firm tofu in about June 1985. The business is now growing, and making 3,000 to 4,000 kg/month of tofu.

Talk with Yoyam Getzler. 1989. June 29. He is a partner in this company with Simcha Susan Ergas. The company was started in 1983 by Susan Ergas and Karen Friedland. Getzler came in in 1989. They are small and undercapitalized. They now make 350 kg/week of fresh tofu, and are developing a new product, a Tofulafel (tofu felafel) in the shape of a ball. Also hope to do a tofu burger. Their phone is now 02-434-830.

Talk with Avraham Sand. 1990. Sept. 9. Simcha (that is her Hebrew name) used to have a tofu shop at Mt. Shasta, California. She now owns the main commercial tofu shop in Israel, Jerusalem Tofu. He saw her briefly about 3 weeks ago in Jerusalem. He got the feeling that things were not going as

© Copyright Soyinfo Center 2013

well as she had hoped they would. Its still a small shop. Her tofu is not sold in supermarkets.

7039. Kushi, Aveline; Jack, Alex. 1985. Aveline Kushi's complete guide to macrobiotic cooking: For health, harmony, and peace. New York, NY: Warner Books. xvii + 414 p. June. Illust. Index. 23 cm. [36 ref]
• ***Summary:*** Index entries include: Miso 61, Tofu 50, Tamari 19, Tempeh 17, Whole dry soybeans 6, Natto 3, Soymilk 3, Yuba 1. This book calls ganmodoki "Tofu Croquettes" and further states that "*Gan* means 'crane' and *modoki* means 'looks like.'" Among the 31 chapters are ones titled Beans (incl. basic black soybeans, and brown rice with black soybeans); Tofu, Tempeh, and Natto (including yuba); Sea Vegetables; Condiments and Garnishes (incl. miso), and Fish and Seafood.

Under "Black Soybeans" (p. 257) we read: "These nice shiny beans are also called Japanese black beans. They have a strong, delicious taste. Their juice is said to make the voice clear and beautiful. Throughout Japan, mothers prepare their children for music tests and singing lessons with this dish. Black soybeans are also used medicinally to help discharge animal toxins from the body." Note: This is the earliest macrobiotic cookbook seen that uses the term "Black soybeans" in a recipe title. All previous macrobiotic cookbooks called them "Black beans."

Contains recipes for homemade tofu, tempeh, and natto. Address: Brookline, Massachusetts.

7040. Mandoe, Bonnie. 1985. Tofu. The perfect summer food. *Bestways.* June. p. 40-41, 54.

7041. Medoff, Marc. 1985. Whole foods in the news: Soy Delites' Tofu Cheesecake, and Soy Mozzarella. *Whole Life.* June. p. 26-27.
• ***Summary:*** Its been a while since high-quality tofu cheesecakes have been available in retail shops in New York–sold either as whole pies or by the slice. The Sprucetree Baking Co. of Baltimore, Maryland, stopped making their tofu cheesecake some time ago, but now a company from New Jersey named Soy Delites' (run by Louis Fellman, a former president of Sprucetree) has launched a sinfully delicious Tofu Cream Pie that is a big hit in natural foods stores. Last February pies began to be sold in natural food stores in either one-slice servings or 4-slice mini-pies. At the same time a number of restaurants and natural food snack bars also started carrying them, and within weeks their sales had soared. The pies come in several flavors, including blueberry, strawberry, pineapple, coconut, and carob-coconut. One slice retails for about $1.50 and the 4-slice pie retails for about $4.50. The ingredients in this cheesecake are: Organic tofu, honey, tahini, lemon juice, vanilla & almond extracts, organic wholewheat flour, unrefined safflower oil, and then the appropriate topping for each flavor (Sorrell Ridge fruit conserves are used exclusively). The 5 ounce slices contain less than 200 calories and are certified Kosher-Pareve. "According to a report in *American Health* magazine a typical slice of cheesecake contains a whopping 641 calories–and that's in addition to being full of eggs, sugar and loads of fat." Fellman is now making nearly 200 tofu pies a week for natural food stores and restaurants–and even Bloomingdales. For more information, call Fellman at (212) 408-3116 or (201) 583-8907, or write P.O. Box 56, Matawan, New Jersey 07747. A photo shows Louis Fellman placing a tray of tofu pies into the oven at the New Jersey bakery.

Another new soy product, now being test marketed in the New York area is Soy Mozzarella. It "looks like, tastes like, and believe it or not even *melts* like the real stuff they put on pizzas. Made from soy milk, water, soy oil, vegetable gum, vegetable renin, salt, and nigari, Soy Mozzarella is sold in different sized chunks for about $4.79 a pound at a selected few natural foods stores in New York City, New Jersey and Philadelphia." The test marketing has been going on for about 10 weeks, however little information is available about the manufacturer or ingredients. Neshaminy Valley Natural Foods of Huntingdon Valley, Pennsylvania, has been distributing it in Manhattan, but Edward & Sons Inc. of Union, New Jersey is also involved in some aspect of its marketing. The author was told that "a young entrepreneur in Wisconsin had come up with the recipe." A photo shows Dr. Esther Starr of Clifton, New Jersey, holding a large brick (10-12 inches long) of Soy Mozzarella. Address: Editor and Publisher of Whole Life magazine, New York.

7042. Medoff, Marc. 1985. The best natural-foods restaurants in North America. *Whole Life Times.* June. p. 18.
• ***Summary:*** The Tofu Shop in Arcata, California, is listed under California. It bills itself as "an alternative fast food deli that uses ingredients people can trust." Address: Editor and Publisher of Whole Life magazine, New York.

7043. *Natural Foods Merchandiser.* 1985. Refrigerated/frozen foods get a blast from the past. June. p. 1, 54-59.
• ***Summary:*** Includes excellent discussions of tempeh, soymilk, and non-dairy frozen desserts including Tofutti, Ice Bean, and Rice Dream. One retailer says: "We've never had a product line like Tofutti, where customers practically tell us they'll bomb our store if we don't carry it." Tofutti continues to show strong sales, but it is facing competition from other soy-based frozen desserts (such as Ice Bean), as well as ice cream facsimiles made from fruit (such as Yodolo) or rice (such as Rice Dream).

On the same pages as the article are color ads for Rice Dream and Legume "Enlightened Entrees with Tofu."

7044. Plenty Canada. 1985. Plenty Canada project highlights (Brochure). Lanark, ONT, Canada. 6 p. June.

© Copyright Soyinfo Center 2013

• ***Summary:*** Includes discussions of Plenty Canada soy projects in Sri Lanka, the Caribbean (Dominica, St. Lucia, Jamaica), and Lesotho. On Dominica, within 6 months of Plenty Canada setting up a Soy shop, one other successful Soy Shop (named Soy Kweyol) has been opened by a local Dominican who happened to be the first wholesale customer of the Plenty Soy Shop. On St. Lucia, a group of farmers at La Pelle succeeded in growing approximately 10 acres of soyabeans. Denn Farm, a commercial farm, grew 5 acres of soyabeans.

On Jamaica, over 1,000 people received actual training in soybean processing over a 1-year period.

Note: In 1985 Plenty Canada sent Soyfoods Center a 4 by 6 inch color photo (taken recently) of the Lesotho Soy Dairy, part of the Village Technology Training Centre (VTTC), with solar panels on the thatched roof and two Plenty volunteers seated on the thatched roof. Address: Lanark, ONT, Canada.

7045. **Product Name:** Gloria Vanderbilt's Glace Tofu-Based Novelties.
Manufacturer's Name: Seligco Food Co. Frusen Gladje Ltd.
Manufacturer's Address: 424 E. John St., Lindenhurst, NY 11757.
Date of Introduction: 1985. June.
How Stored: Frozen.
New Product–Documentation: Dairy Record. 1985. Sept. p. 86. Przybyla. 1985. Sept. p. 146.

7046. **Product Name:** [Tofu Spreads (With Vegetables, Seitan, Green Rye, or Tunafish)].
Foreign Name: Tofu Aufstrich (Brotaufstrich aus Tofu und Gemuese), Pasetta (Tofu und Seitan), Gruenkern Pastete (Tofu und Gruenkern), Tarree (Tofu und Thunfisch).
Manufacturer's Name: Sojvita Produktions GmbH.
Manufacturer's Address: Hauptplatz 1, 2493 Lichtenwoerth, Austria. Phone: 02622/75494.
Date of Introduction: 1985. June.
Ingredients: 1. Tofu, parsley, celery, soy sauce, onions, vegetable oil, spices (Gewuerze), starch, lecithin. 2. Tofu, seitan (wheat gluten), soy sauce, vegetable oil, spices (Gewuerze), starch, lecithin.
Wt/Vol., Packaging, Price: 180 gm.
How Stored: Refrigerated.
New Product–Documentation: Letter from Norbert Brunthaler. 1988. Jan. 4. Gives date of introduction as September 1986. Label. 1987. 9.25 by 1.25 inches. Dark green, light green, orange, and black on white.

7047. **Product Name:** Tempeh Burgers, and Tofu Burgers.
Manufacturer's Name: Sooke Soy Foods Ltd.
Manufacturer's Address: 2625 Otter Point Rd., R.R. 2, Sooke, Vancouver Island, BC, V0S 1N0, Canada. Phone: 642-3263.
Date of Introduction: 1985. June.
Ingredients: Tofu (or tempeh), natural soy sauce, herbs and spices.
Wt/Vol., Packaging, Price: Tofu: 8 oz. Tempeh: 6 oz.
How Stored: Refrigerated.
New Product–Documentation: Labels. 1985. 3 inch diameter. Self adhesive. Brown (Tofu) or Green (Tempeh) on beige. "Ready to serve, or steam for 5 minutes. Meatless."

7048. **Product Name:** [Tofu].
Foreign Name: Tahoe.
Manufacturer's Name: Tempé Produkten B.V. in April 1983.
Manufacturer's Address: Tunnelweg 107, 6468 EJ Kerkrade, Netherlands. Phone: 045-455803.
Date of Introduction: 1985. June.
Ingredients: Water, soybeans, nigari (stremsel).
Wt/Vol., Packaging, Price: 500 gm vacuum pack. Retails for FL 1.99 (12/92, at Albert Heijn, Netherlands).
How Stored: Refrigerated.
Nutrition: Per 100 gm.: Calories (Kcal) 120 (490 kilojoules), fat 7 gm, protein 13 gm, carbohydrates 0.5 gm.
New Product–Documentation: Talk with Ike Van Gessel. 1991. Nov. 24. Tempé Produkten B.V. (Tempeh Products Inc.) now makes only two products: Soy tempeh and regular tofu. They started to make tofu in June 1985, shortly after they changed the company name. The interesting news is that they are now also the largest tofu manufacturer in the Netherlands, producing 10,000 cakes/week of tofu. Their tofu plant is totally automated; they developed a machine based on the design of one that is made in Japan, but better than it. Next year, Tempeh Products expects its tofu production to double because of a major contract they have with Albert Heijn, a very large food store chain in the Netherlands; that is where they now sell most of their tofu.

Letter and Labels from Ike Van Gessel. 1992. Dec. 20. The label for the product sold at Albert Heijn (starting in 1992) is 4 by 6 inches. Yellow, orange, blue, green, black, and white. Plastic film. 500 gm. The label for the regular tofu (introduced in June 1985) is the same size but red, yellow, and brown on white.

7049. **Product Name:** Tuscan Tôfü Bar (Non-Dairy Soy Ice Cream Novelty on a Stick) [Chocolate Coated Chocolate Royale, Chocolate Coated Vanilla Almond, or Uncoated Lemon Chiffon].
Manufacturer's Name: Tuscan Foods Inc. (Tuscan Dairy Farms).
Manufacturer's Address: 750 Union Ave., Union, NJ 07083.
Date of Introduction: 1985. June.
Ingredients: Chocolate Coated Vanilla Almond: Water, cane sugar, corn oil, corn syrup solids, tofu, salt, citric acid,

© Copyright Soyinfo Center 2013

sorbitol, glycerine, cellulose gel, soy protein, carrageenan, guar gum, locust bean gum, pure vanilla, natural flavors, polysorbate 80. Coating: coconut oil, chocolate liquor, sugar, soya lecithin, natural vanilla flavor.
Wt/Vol., Packaging, Price: 2.5 fluid oz bar, 6 per box. Retails for $1.99.
How Stored: Frozen.
New Product–Documentation: Interview with Tuscan Tofu. 1985. Feb. 6. The company will introduce Tuscan Tofu, a frozen stick novelty, in early March, 1985. For details, talk with Thomas Montagna. Tuscan is a 100-year-old fluid milk company, one of the biggest milk companies in New York state.

• ***Summary:*** Rural Indian consumers (mostly housewives, predominantly of middle and low income) preferred tempeh and tofu curries to Meal-Maker (textured soy flour) in appearance, flavor, aroma, and after taste, while urban consumers preferred Meal-Maker curry, followed by tempeh and tofu curries. Soy curd (like yogurt) was least preferred by both rural and urban consumers. Address: Univ. of Agricultural Sciences, Hebbal, Bangalore 560 024, India.

7051. **Product Name:** Westbrae Natural Tofu Ramen. Instant Asian-Style Whole-Wheat Noodles & Miso Flavor Broth.
Manufacturer's Name: Westbrae Natural Foods (Importer). Made in Japan.
Manufacturer's Address: 4240 Hollis St., Emeryville, CA 94608. Phone: (415) 658-7521.
Date of Introduction: 1985. June.
Ingredients: Asian style noodles: whole wheat flour, sifted wheat flour, and sea salt. Vegetable broth: powdered shoyu (soybeans, wheat and sea salt), dried tofu (soybeans, nigari bittern), shiitake mushroom powder, kombu seaweed powder, sea salt, dried onion, garlic, white pepper, dried ginger, green onion.
Wt/Vol., Packaging, Price: 3.1 oz (90 gm).
How Stored: Shelf stable.
New Product–Documentation: Label. 1986, undated. 10 by 7 inches. Plastic. Red, green, white, brown on yellow. Color picture of bowl of Tofu Ramen.

7052. **Product Name:** Soymilk [Maple, Honey-Vanilla, or Plain].
Manufacturer's Name: Wildwood Natural Foods of Santa Cruz, Inc.
Manufacturer's Address: 1560 Mansfield Ave., Suite D, Santa Cruz, CA 95062. Phone: 408-476-4448.
Date of Introduction: 1985. June.
Wt/Vol., Packaging, Price: Pints and quarts.
New Product–Documentation: Talk with Jeremiah Ridenour. 1988. Aug. 26. The company started production in June 1985, making tofu and soymilk.

7053. **Product Name:** Tofu Topper (Spread or Potato Topping) [Herbs & Spice Pate, Pepper & Onion Pate, or Spicy Mexican Pate].
Manufacturer's Name: Worthington Foods, Inc.
Manufacturer's Address: 900 Proprietors Rd., Worthington, OH 43085. Phone: (614) 885-9511.
Date of Introduction: 1985. June.
Wt/Vol., Packaging, Price: 10 oz metal can. Retails for $2.39.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Ad (full page, color) in Natural Foods Merchandiser. 1985. June. "Nothing tops Tofu Topper, on potatoes, sandwiches, canapes, vegetables... be creative."

7054. Worthington Foods, Inc. 1985. Nothing tops Tofu Topper, on potatoes, sandwiches, canapes, vegetables... and on your shelf (Ad). *Natural Foods Merchandiser.* June. p. 47.
• ***Summary:*** This full page color ad shows three cans of tofu topper on a wooden cutting board surrounded by vegetables and crackers. On top of one can is a baked potato, on top of the 2nd some chops and dip, and atop the third a veggie burger with Tofu Topper inside.

Note: Worthington Foods has created the Natural Touch brand for introducing its products into natural- and health food stores; for supermarkets it generally uses the Morningstar Farms brand. Address: Worthington, Ohio 43085.

7055. Sheraton, Mimi. 1985. International pot luck: Variety spices the country's rich culinary life. *Time* 126(1):98-99. July 8.
• ***Summary:*** This article is part of a special issue of *Time* magazine about immigrants. It notes that as Americans learn about new ethnic cuisines, they are also "busy naturalizing foreign ingredients into native dishes: tofu, the cheeselike

soybean curd, as the base for burgers and ice cream... Tempeh, the Oriental fermented soybean cake, is here formed and flavored to simulate bacon and pastrami."

"How long can it be before Benihana is joined by chains with names such as Tacorama, the Piteria, Dim-summery and even Tofusion."

A photo captioned "A sundae kind of love," notes that "there is not one drop of dairy product in the tofu-based "Ice cream." Developed for Jews who observe kosher laws and cannot combine dairy and meat products in the same meal, this creamy soybean-based frozen dessert also satisfies those on low-calorie diets."

Note: This is the earliest known article in *Time* magazine that mentions tempeh.

7056. Clofine Dairy Products Inc. 1985. Re: Sample request. Letter to Dr. Walter Wolf at Northern Regional Research Center, Peoria, Illinois 61604, July 10. 1 p. Typed, without signature on letterhead. [1 ref]
• ***Summary:*** Clofine fills out this form, sending one lb of Spray Dried Tofu #127 to Dr. Walter Wolf, with a "Request for evaluation." Accompanying the form is a 1-page product specifications sheet for "Spray Dry Tofu" typed on Clofine's letterhead which is printed with purple ink on beige paper. The product contains (on average) 25.5% fat, 53.5% protein, 4.5% ash (max), and 3% moisture (max). Address: 1407 New Road, P.O. Box 335, Linwood, New Jersey 08221. Phone: 609-653-1000.

7057. Gupta, Rajendra ("Raj"). 1985. Work with soymilk and tofu (Interview). *SoyaScan Notes.* July 21. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** On 23 May 1985 a company that Raj helped to establish started production of tofu in India in Kanpur (a city in northern India in southern Uttar Pradesh, on the Ganges River, 250 miles southeast of Delhi; Population 1.2 million). Last year he bought and imported a Takai W30B tofu system–which can actually process 50 kg/hour of soybeans. There is a big demand for his tofu; he can't keep up with it. One month ago he was making 500 kg/day of tofu, but soon, when his packaging improves, he will be making 1,500 kg/day.

For packaging, he uses a heat-sealed pouch, which is sealed with a Takai K-1020 sealer. He makes his own plastic containers. His larger plan is to establish franchises, and to manufacture tofu equipment in India.

He has applied for a process patent (not a machine patent) on a cold grind process for making soymilk with no beany flavor. He wants to license the patent. The concept sounds like a breakthrough. He has patented it in India, the USA, and internationally. It is based on a special machine which can be made inexpensively, in small shops.

Another tofu company in India is Tofu India Ltd. One company that was located near Delhi is no longer in business.

Note 1. This is the earliest document seen (Feb. 2010) concerning the work of Raj Gupta with soyfoods.

Note 2. Raj Gupta first met Bill and Akiko Shurtleff on 6 April 1984 when he visited Soyfoods Center in Lafayette, California. He was on his way to Japan, well before his Indian tofu company came into existence. Address: PhD, 627 Gaines Dr., Ottawa, ONT, K1J 7W7, Canada. Phone: 613-741-2558.

7058. *Toyo Shinpo* (*Soyfoods News*). 1985. Kyuto Bussan. Tôfu "Aisukuriimu." Seizô sôchi, "noohau" o kaihatsu. Shôwa Sangyo, Mitsubishi Jûkô ga kyôryoku [Kyuto Bussan Tofu Ice Cream. • ***Summary:*** This ice cream is made using soymilk. Kyuto Bussan is inviting large tofu manufacturers to start producing it in Kyushu. Raw materials are provided by Showa Sangyo, equipment by Mitsubishi Juko, marketing by Kyuto Bussan.

7059. Collins, Alf. 1985. Fresh Today: Busy days at Island Spring. *Seattle Times.* July 31. p. C-7.
• ***Summary:*** Island Spring's tofu-based frozen dessert comes in vanilla-almond, black cherry-amaretto, chocolate, peanut butter, and coffee. Tofu burgers, tofu-based sauces and spreads will soon be introduced. "Luke Lukoskie, Island Spring president, figures the new products will boost the firm's annual sales from $1 million to $30 million in 3 years. Then he can concentrate on building a new plant somewhere between here and Tacoma. He's putting together about $4.4 million in financing for the project." Address: Washington.

7060. Caderas de Kerleau, Anne. 1985. Le soja en Afrique [The soybean in Africa]. *Lettre de l'ARTS* No. 2. p. 1-2. Summer. [3 ref. Fre]
• ***Summary:*** Africa has had a long-term interest in the soybean. Most African countries have had or have–a soybean project. The early projects, generally oriented toward exporting the crop, were often not successful. Recent projects, aimed more at food self-sufficiency, and initiated by the governments concerned, seem to have a better chance of success.

Sources of information for article are cited, followed by a brief history of soya in Africa. Currently African countries can be divided into two types: Those that produce soybeans commercially and those that are experimenting with the crop. The main soybean producing countries are Zimbabwe (91,000 tonnes on 35,000 ha) and Nigeria (75,000 tonnes on 195,000 ha). Other producers are South Africa, Zaire, Uganda, Rwanda, Tanzania, Côte d'Ivoire, and Zambia.

Countries experimenting with soya include: Senegal: A project in the pre-popularization stage has an estimated potential of 1,000 tons. Cameroon: The soy project of

© Copyright Soyinfo Center 2013

1980, costing 255 million francs CFA, has a goal of 30,000 tons. Cote d'Ivoire: The soy project of 1977, costing 7,000 million francs CFA, is conducted in collaboration with the Brazilian group COCAPEC. The Brazilians withdrew for various reasons, leaving the plan inactive. Togo: Soy project of 1981. Goal: 10,000 ha, but discontinued for lack of finances. Benin: Experiments of 1969 show possibilities of good yields. Ghana: A study is in progress. Prospects look very favorable because of outlets of oil for food uses (10,000 tonnes) and huge needs for soybean cake or meal due to a new level of livestock. Rwanda: Five-year plan of 1977-81. Goal: 20,000 tons of soybeans and an oil mill of 60 tonnes/day. Burkina Faso (Upper Volta): Project for a soymilk plant, with soybeans produced by farmers under contract. Experimentation with tofu. Gabon: A soy project which is doing very well and feeds an industrial livestock ranch, giving good prices to soybean producers.

Other feasibility studies are underway. For example, the Cameroon project. Soya was introduced to Cameroon in 1924, In 1974 IRA at Dschang intensified research on this crop. Since 1981 the UCCAO soy project has actively popularized soybean culture among farmers and organized an active campaign on the utilization of soybeans for human food and livestock feeding. Financing is assured by the governments of Cameroon and France.

Soy has taken root in Africa because of 3 main reasons: National, economic, and agronomic interest. The crop, which has been shown to give good yields under proper African conditions, can promote food self sufficiency and provide local jobs. But there are obstacles. The soybean is not a traditional African crop, so farmers need to learn how to grown, food companies how to process it, and consumers how to prepare and eat it. The price received by producers is relatively low. The sales price is not competitive on the world market: An American farmer can obtain yields of 1,700 kg/ha with 14 hours work, but a Senegalese farmer obtains only 850 kg/ha with 450 hours work. Thus the success of soy projects in Africa depends largely, at least initially, on the political interest and funding of governments. Production of the crop for export seems to have less potential for success than for local use. Address: ARTS, 108 rue St. Honore, Paris, France.

7061. **Product Name:** Tofu.
Manufacturer's Name: Chenrezig Institute.
Manufacturer's Address: Eudlo P.O., QLD 4554, Australia.
Date of Introduction: 1985. July.
New Product–Documentation: Letter from Mark Gerhard of Chenrezig. 1985. July 23. "A group of us here in the hills of Queensland have just started making our own tofu (using your *Book of Tofu* as a guide) and it has proved very successful. We are swamped with orders from all the local health food shops."

Mark has also been interested in miso for the last three years. "Have just purchased your *Book of Miso* and am deeply impressed by it... You have given me the enthusiasm to seriously think about making our own miso and other related soy products, starting from growing our own beans." He enquires about ordering a copy of *Miso Production.*

"Please keep up the good work. Your far-sighted vision of overcoming (or at least helping) world hunger is highly commendable and very inspiring. May all your wishes be spontaneously fulfilled."

7062. Clofine Dairy and Food Products Inc. 1985. Clofine: Quality ingredients for industry (Leaflet). Linwood, New Jersey. 3 panels each side. Each panel: 17 x 10 cm.
• ***Summary:*** This leaflet is printed with purple ink on beige paper. On the cover panel is the company logo showing a cow in a box with curvy sides. "Our third generation providing quality products for the food and feed industries." On two of the inside panels are lists of the company's dairy products. The center panel is blank, but a flap that folds up from the bottom holds a business card (Edward A. Pedrick) and two small inserts describing additional products. Neither tofu nor soy products are mentioned. However the company does "custom spray drying."

Note: Clofine has apparently just added the words "and Food" to its name. Address: P.O. Box 335, Linwood, New Jersey 08221. Phone: 609-653-1000.

7063. Farah, Adelaide P. 1985. Food: Build a better burger. *Health* (*New York*) 17(7):36-38, 40-41. July.
• ***Summary:*** This article about making burgers from everything except red meat contains a recipe for "Bliss on a Bun" burger, made with tofu and mashed potatoes.

7064. Haumann, Barbara Fitch. 1985. Annual meeting report: Trends of processing, consumption around the world. *J. of the American Oil Chemists' Society* 62(7):1070-76. July.
• ***Summary:*** Based on an all-day session on trends in edible oil processing and consumption around the world held at the AOCS annual meeting. Contents: Supply and demand. Europe. Central America. Canada. Asia. South Asia. Southeast Asia. Far East [East Asia]. China.

Although soybeans are grown throughout China, they are grown most intensively in northeast China in the provinces of Liaoning, Jilin, and Heilongjiang. Dalian, an industrial city and seaport on the Yellow Sea, is reported to be China's main soybean crushing center.

Soybeans in China are consumed mostly as traditional foods such as tofu, soymilk, soy sprouts, soy sauce and soybean paste. "Only about 20% of the crop is crushed for oil and meal." Address: JAOCS.

7065. **Product Name:** Island Spring Tofu Dessert (Ice Cream) [Vanilla Almond, Cherry Amaretto, Chocolate,

© Copyright Soyinfo Center 2013

Peanut Butter, Coffee].
Manufacturer's Name: Island Spring, Inc.
Manufacturer's Address: P.O. Box 747, Vashon, WA 98070. Phone: 206-622-6448.
Date of Introduction: 1985. July.
Ingredients: Water, tofu (water soybeans, calcium sulfate), high fructose corn sweeteners, corn oil, all natural flavorings, soy lecithin, vegetable gums (guar gum, carrageenan).
Wt/Vol., Packaging, Price: Pints.
How Stored: Frozen.
Nutrition: Base mix analysis, per 4 fl. oz.: Calories 152 avg, protein 2 gm, carbohydrates 19 gm, vegetable fat 8 gm, sodium 7 mg. No cholesterol or lactose.
New Product–Documentation: Collins. 1985. Seattle Times. July 31. p. C-7. An all natural "Fitness Foods from the Pacific Northwest." Contains no lactose, cholesterol, sugar, or saturated fats. Beachcomber (Vashon, Washington). Nov. 26. Poster. 1985, undated. "Tofu Frozen Dessert." Food Report (Lehmann). 1986. March. Labels (side and top). 1986. Black and blue on salmon pink. Tops are 3.25 inches in diameter. "A fitness food from the Pacific Northwest, USA. No lactose. No cholesterol. No sucrose." Side says, "All natural, non-dairy."

• ***Summary:*** A full-page table (p. 39) lists all of the major Japanese soyfoods and gives a citation for the earliest Japanese-language document seen by the authors in which each of their names first appears. Address: 1. Nôgaku Hakase, Shusai, Ryori Genten Kenkyukai; 2. Daizu Geppo Staff.

7067. *Lettre de l'ARTS.* 1985. Du tofu au Rwanda [Tofu in Rwanda]. No. 2. p. 2-3. Summer. [Fre]
• ***Summary:*** During 1982, Stéphane Imbert, then doing work for the Club of Dakar, discovered the transformation of soya into tofu in the southwest through the help of l'ARTS. Fascinated by the product, he proposed to the Club of Dakar to study a project on soya in Africa.

Rwanda was chosen as the country for the study. Why Rwanda? Because soya has been cultivated here since 1960, and because the country's major problem is its food balance. Since 1972 soybean culture has been intensified, the government thinking of making it a cash crop. Today it is cultivated on 5,500 ha with yields of 1 to 1.2 tonnes/ha without inoculation. But its price was not competitive on the world market. Today the government of Rwanda, wanting above all to attain food self-sufficiency for its country, wants to promote agriculture and the transformation of agricultural products.

After a feasibility study conducted in June/July 1983, an agreement was signed in early 1984 between the Club of Dakar and the Minister of Agriculture of Rwanda establishing the conditions of the experiment for adding value to soya in this way. Stephen Imbert's work in Rwanda began with a study to determine the best region to produce soybeans for the project. Among the four main production zones, he found those of Kanombé and of Nygatoré best suited. Kigali, the capital of Rwanda, was chosen as the site for the tofu plant. Some of the equipment was sent from France and the rest was made by local craftsmen. A local technician, Mr. Amon Kalinijavo set up the system and from August to September tofu was made 60 times; 240 kg of Palmetto soybeans yielded 480 kg of tofu. Recipes adapted to local tastes were developed and nutritional analyses were conducted by a local nutritional institute (ISAR); pamphlets containing this information were printed and distributed to popularize tofu. Then a number of tests were conducted in which tofu was tasted by 4,000 people of all ages and social groups. Simultaneously a study was conducted on the different avenues for commercialization. The product was demonstrated at scientific and international days at the University of Butaré, attended by many health and nutrition professionals, who in turn requested demonstrations at their organizations. Trafipro is the main commercial cooperative in Rwanda. Test products and an exposition for popularization were set up at three branches; in each case success was reported. Tofu was also tested in kiosks, orphanages, schools and colleges, and the use of by-products as animal feed. The results were encouraging.

7068. **Product Name:** [Tofu].
Foreign Name: Tofu.
Manufacturer's Name: Life Food.
Manufacturer's Address: Wallstrasse 3, D-7800 Freiburg, West Germany. Phone: 0761/50 61 55.
Date of Introduction: 1985. July.
Ingredients: Water, soybeans (organically grown), calcium sulfate (Nigari-ko brand).
Wt/Vol., Packaging, Price: 400 gm vacuum packed or 1 kg for fresh sale.
How Stored: Refrigerated.
New Product–Documentation: Die Geschäftsidee. 1989. Dec. p. 32. In 1986 Klaus Kempff began his company Life Food in Freiburg. He built his first shop very simply in a cellar. He now has 6 workers and uses a 60 square meter plant in Freiburg. He sells direct and to distributors.

SoyaScan interview with Klaus Kempff. 1990. March 14. He started making tofu in July 1985.

Label sent by Anthony Marrese. 1990. March 22. 4 by 2.5 inches. Black, green, and yellow on white. Logo of orange circle. "Organic." Marrese notes that the company started making this product in Dec. 1985 and now makes 500 kg/week. Letter from Klaus Kempff. 1990. June. The original

© Copyright Soyinfo Center 2013

name of this product was just tofu. Later it was renamed Taifun Tofu.

Note: This is the earliest record seen (Feb. 2013) concerning Life Food of Freiburg, Germany.

7069. **Product Name:** Naturally Delicious Fried Rice Sandwich (With Tofu).
Manufacturer's Name: Naturally Delicious.
Manufacturer's Address: Asheville, North Carolina. Phone: 704-253-7656.
Date of Introduction: 1985. July.
Ingredients: Organic brown rice fried with scallions and soy sauce, wrapped in a whole wheat tortilla with steamed organic carrots, alfalfa sprouts, miso tahini sauce, tofu, green leaf lettuce.
Wt/Vol., Packaging, Price: 12 oz.
How Stored: Unrefrigerated and perishable.
New Product–Documentation: Label sent by Paul Duchesne. 1989. Aug. 11. Handwritten "Naturally delicious. Made fresh today. To eat; peel back wrapper from one end." Talk with Paul Duchesne. 1989. Aug. Barbara Svenning originally learned how to make this sandwich from Paul. She made it at the Natural Cafe in Santa Fe, New Mexico, with her husband Marty Roth. When she separated from Marty, she moved to Asheville, North Carolina, where Jack Garvey (a former husband) and her children were living. She made a line of at least 28 Fried Rice Sandwiches (many of which contain tofu) and whole meals, which she sold at various places.

Talk with Dinner for the Earth. 1989. Aug. 15. This is a natural food store and deli that has been in business for 13 years and has sold Barbara's line of sandwiches for 3-4 years. In April 1989 Barbara Svenning became manager of the Deli at Dinner for the Earth (160 Broadway St. Phone: 704-253-7656). She lives in Black Mountain, North Carolina.

Talk with Barbara Svenning. 1989. Aug. 21 and 23. It was a coincidence that Great Eastern Sun was established in Asheville. Barry Evans was partners with Sandy Pukel and Michio Kushi. They had a miso factory [American Miso Co.] in North Carolina and they wanted to establish GES near it. Marty suggested Asheville, since it was a good location and he could live their near his wife's children (Jack Garvey lived in Asheville). Barbara did not make her brown rice and tofu sandwiches while Marty was working at Great Eastern Sun. After Marty Roth had set up Great Eastern Sun in Asheville, North Carolina, he continued to live in nearby Black Mountain but worked for Chico-San for a while and set up the Ohsawa America mail order program for Bob Kennedy. Then he began working for Westbrae in California, where he and Barbara and her son relocated. After 2 years, in July 1985, when her son was age 3, she left Marty Roth (they had never been married), and returned by herself to Asheville, North Carolina to be with her two other children. In Asheville, she established a new company named Naturally Delicious. She ran it out of some else's kitchen and sold 12-15 sandwiches a day at only one store, Nothing But Natural, which promised to tell any health inspectors that the sandwich was made in their kitchen. During that time another woman, Barbara Hoffman, who now lives in Israel, sort of took over the sandwich business. When Nothing But Natural went out of business, she moved to Black Mountain (where she still lives), got her own kitchen, and sold the sandwich exclusively to Dinner for the Earth, where she now runs the deli. Yet she still owns the brown rice sandwich business. She makes them at home and sells them to Dinner for the Earth. "Its still my little baby, still an underground business. I make about 15 fresh each day and they are different every day. Only the chapati, fried rice, and lettuce are the same. I make a Mexican, and Indonesian, a Chinese, etc. Not all contain tofu. Sometimes its a tofu sauce, or barbecued or baked tofu. I guarantee the sale and take back any not sold that day. There is a profit of about $1 each. I also make another nice wheat-free tofu sandwich called Barbecued Tofu on Millet. It's on square slices of millet bread. It started it about 6 months ago."

7070. Oberg Foods Co. 1985. Isolated from the tofu market? Try a real solution. Soy Supreme (Ad). *Dairy Record* 86(7):29. July. Also in Dairy Field, July and Aug. 1985.
• ***Summary:*** A revolutionary new and potentially very important product. Address: General Sales Office, Oberg Foods Co., 1201 Broadway, Suite 203, Quincy, Illinois 62301. Phone: 217-224-8010.

7071. Plenty Canada. 1985. Sri Lanka Soy Utilization Project. R.R. #3, Lanark, ONT, K0G 1K0, Canada. 10 p. Unpublished manuscript.
• ***Summary:*** The 5-year project, aimed at increasing consumption of soyfoods in Sri Lanka, proposes to establish four soya nutrition centers in Kandy, Colombo, Vavuniya, and Tanamalwila. Each center will have equipment to make soymilk, tofu, soy ice cream, tempeh, and soy flour (to use to fortify wheat in rotti, pittu, etc.). Each center will conduct demonstrations and training classes to community groups. Address: Lanark, ONT, Canada. Phone: 613-278-2215.

7072. **Product Name:** Furama Tofu Pouches.
Manufacturer's Name: Soyfoods of America.
Manufacturer's Address: 1091 E. Hamilton Rd., Duarte, CA 91010. Phone: 213-681-5393.
Date of Introduction: 1985. July.
Ingredients: Soybeans, water, soy oil, calcium sulfate.
Wt/Vol., Packaging, Price: 4 oz.
How Stored: Refrigerated.
New Product–Documentation: Label. 1985. 5.5 by 2 inches. Black on chartreuse green paper. Contains no preservatives. 100% natural. Genuine country flavor. Fried

gently home style in small batches in woks. Ready to use–in soups, stews, stir-fry dishes, Mongolian Hot Pot, & for the major ingredient for Buddha's Delight. Mrs. Lee estimates date to be July 1985.

7073. **Product Name:** Soy Supreme [Spray-Dried Tofu Powder, or Liquid].
Manufacturer's Name: St. Peter Creamery, Inc., Oberg Foods Div.
Manufacturer's Address: 119 Front St., St. Peter, MN 56082. Phone: 507-931-3160.
Date of Introduction: 1985. July.
Ingredients: Soybeans, water, calcium sulfate.
Wt/Vol., Packaging, Price: 50 lb multi-wall paper bag.
How Stored: Shelf stable.
Nutrition: Protein 38%, fat 18%, carbohydrate 33%, moisture 5% (max). pH is 6.7 to 7.0% in a 10% solution.
New Product–Documentation: Ad in Dairy Record. 1985. July. p. 29. "Isolated from the Tofu Market? Try a Real Solution." Oberg Foods Co. 1985. July. "Soy Supreme Product Specifications." Made from whole soybeans by the unique Oberg "hot break" process. LaBelle. 1987. Food Processing. May. "The company uses a patented 'hot break' process that produces a very bland soymilk. The spray dried tofu powder is made from soymilk coagulated by adding calcium sulfate."

Kingma. 1987. Soya Newsletter. March/April. p. 11. Soya Newsletter. 1987. May/June. p. 2. "St. Peter Creamery began producing their spray-dried tofu powder during the summer of 1985."

Snack Food. 1987. Oct. "Tofu powder seen as ideal ingredient... Spray-dried tofu is soy milk processed into a curd with the addition of calcium sulfate as a coagulating agent."

7074. **Product Name:** Pita Pocket Sandwiches (Filled with a Tofu Spread & Tomatoes & Alfalfa Sprouts) [Exotic Tofu Spice, Tuna Curry, Seafood Delight, Hummus Lite, or Mexican Lite].
Manufacturer's Name: Street Natural.
Manufacturer's Address: 1148 Liberty Bell Dr., Cherry Hill, NJ 08003.
Date of Introduction: 1985. July.
Ingredients: Seafood Delight: Pita bread, tomatoes, alfalfa sprouts, shrimp, crab, tofu mayonnaise (self-made), celery, cabbage.
Wt/Vol., Packaging, Price: 6 oz. Retails for $2.85 to $3.35. Assembled on the spot, wrapped in waxed paper.
How Stored: Unrefrigerated and perishable.
Nutrition: Avg. 300 calories per sandwich.
New Product–Documentation: Interview with Scott Gordon. 1987. Oct. 13. These products sold for 4 months in summer of 1985 from an upscale pushcart (stained wood & hanging plants) in Philadelphia. Vendors wore tuxedo jackets. Calorie counts were advertised under each sandwich.

7075. Tofu Shop Specialty Grocery & Deli (The). 1985. Thank you Humboldt County (Leaflet). Arcata, California. 1 p. Single sided.
• ***Summary:*** Contains a quotation from *Whole Life Times* magazine, New York, June 1985. "The Tofu Shop is the delicatessen of the future... The quality of the food... is about as high as you'll find anywhere... This is without a doubt the best (natural foods) take-out eatery in the country."

Also: "Delicatessen items: Hot tofuburgers. Sandwiches. Salads. Desserts. Fresh coffee. Herb teas. Specialty groceries: Fresh tofu. Wholegrain baked goods. Fresh juices. Local foods. Macrobiotic supplies.

"As the Tofu Shop approaches its sixth year, it continues to offer the highest quality foods available for your eating pleasure and good health."

An illustration (lower left) shows a little tofu shop on stilts by the ocean, with an Oriental-style roof and a wind-blown tree arching overhead. Address: 768 18th St., Arcata, California 95521. Phone: Take out 822-7409.

7076. **Product Name:** Fried Tofu.
Manufacturer's Name: Vegetarian Restaurant.
Manufacturer's Address: Panajachel, Guatemala.
Date of Introduction: 1985. July.
Ingredients: Tofu, oil.
New Product–Documentation: Letter from Lorenz Stuber and Ellen Figueroa de Stuber. 1993. Aug. 20. Please see this letter for details on their work with soya, Soyane, and Comida Para Todos in Guatemala. Since 1985 they have known about the soy dairy (which Plenty Canada had helped to establish) in San Bartolo, Solola, Guatemala. In July 1985 they started buying tofu and soy ice cream from San Bartolo for their vegetarian restaurant in Panajachel. They fried the tofu and sold it at the restaurant.

7077. Yacoumba, Doulaye. 1985. Un Burkinabé à Penne du Tarn [A man from Burkina Faso in Penne du Tarn]. *Lettre de l'ARTS* No. 2. p. 2. Summer. [Fre]
• ***Summary:*** For some years soybeans have been cultivated in small amounts by the peasants of Burkina Faso. Up until now they have been used to make Soumbala [sumbala], a ball-shaped fermented soy product, that is an important source of protein used for seasoning sauces. In hopes of diversifying the uses of soya in his country, where soybean acreage for food use is growing, the author worked at St. Paul de Mamiac during 16-23 July 1985 where he learned how to make tofu. He hopes to introduce tofu to Burkina Faso.

A photo shows Mr. Yakoumba, sent by the Minister of Agriculture of Burkina-Faso, and M.P. Boyer, mayor of Penne.

Note 2. This is the earliest document seen (Jan. 2012)

© Copyright Soyinfo Center 2013

that uses the word *Soumbala* to refer to dawadawa, a condiment made from soybeans instead of the traditional *Parkia* seeds. Address: Ministry of Agriculture, Burkina Faso, Africa.

• ***Summary:*** The company was issued U.S. Patent 4,525,373, which is valid for 17 years.

7079. Associated Press (AP). 1985. Tofu takes off: AA [Ann Arbor] company churns out the most soybean curd in state. *Press* (*Ypsilanti, Michigan*). Aug. 4. p. 9B.
• ***Summary:*** This article is based on an Associated Press release by Frederick Standish. Tofu is growing in popularity in America. It used to be sold as "soybean curd" in a few Japanese or Chinese restaurants, and some health-food stores. But today it's on grocery store shelves and in kitchen refrigerators. The Soyplant, an Ann Arbor cooperative and the largest of three tofu makers in Michigan, is trying to keep up with the demand.

The company is located in southern Ann Arbor in a cluster of one-story buildings in an industrial park. The 10 co-op members work two or three shifts, four days a week. Last year the Soyplant had about $303,000 in sales, up from $250,000 the year before. A huge amount is sold to the Meijer's warehouse in Lansing.

The Soyplant uses organically grown soybeans produced in Ypsilanti on the farm of Mark Vreeland and his father. Each week they process about 130 bushels or 7,800 pounds.

A smaller tofu manufacturer is Oryana Soy Shop, managed by Michael Williams in Traverse City.

Discusses *The Book of Tofu*, by Shurtleff and Aoyagi. A large AP photo shows Mark Ducharme holding up two "tofu bricks" as he works at the Soyplant Co-op.

7080. *Investment Dealers Digest* (*New York, NY*). 1985. New sweet treats coming to market [Carl Tropper and La Delite Ltd.]. Aug. 5. See also Market Chronicle. Aug. 1.
• ***Summary:*** La Delite Ltd. (122 E. 42nd St., Suite 601, New York, NY) is scheduled to come to market this week with an offering of 200,000 units of common stock a $15 a unit. Patten Securities of Florham Park, New Jersey, is the underwriter. The initial proceeds will be used to buy the plant and equipment of the Mayflower Ice Cream Corp. (42-25 Vernon Blvd., Long Island City, New York), which has been in bankruptcy for 18 months. Carl Tropper, a pharmacist, will be president. Bernard Deutsch is a founder. The company will make a tofu frozen dessert and other non-dairy tofu-based products.

7081. Altaner, David. 1985. His passion flavors the blandest of foods. *Courier-News* (*Bridgewater, New Jersey*). Aug. 6. p. A8-A9.
• ***Summary:*** The company receptionist answers the phone "Tofutti-All-Rootie." "Thank God, I've been blessed with taste buds that like what the masses love." New products? "Next comes tofu jogger, an instant breakfast soy drink. In the future, consumers can expect to see soy-based chocolate and vanilla pudding, potato topping, onion dip, tofu cultured non-dairy yogurt, tofu whipped cream and pancakes... His personal Mount Everest is a tofu burger... To meet the competition Tofu Time is rolling out its first television commercial, which was unveiled last week. In it, the question, 'Has New York gone totally Tofutti?' causes a staid board of directors meeting to erupt into frenzied dancing to 'Tofutti-All-Rootie,' which sounds a lot like Little Richard's 1955 hit 'Tutti-Frutti.'"

7082. *Long Island Business* (*Plainview, New York*). 1985. Barricini wins right to 'Tofu Lite' name. Aug. 7.
• ***Summary:*** Barricini had been denied the use of the 'Tofu Lite' name by the U.S. Patent and Trademark Office, which thought it might cause confusion with Tofutti. Barricini appealed and won. While awaiting the hearing, Tofutti filed a suit against Barricini on 12 July 1985 in the U.S. District Court, Uniondale, New York. After a 1-day hearing, both parties agreed to a settlement. • ***Summary:*** Prof. Kazuo Murakami and Prof. Isao Kusakabe have found two special enzymes that works well in coagulating soymilk. Both have a molecular weight of about 24,000 and are proteins. The enzymes were found in soil bacteria on a small island near Shikoku. If you add this enzyme to soymilk heated to 70ºC, it coagulates into a yogurt-like product in about 2 minutes. This yogurt-like curd is mostly protein, does not have any sourness or bitterness, and has a smooth texture and mouthfeel–all of which make it well suited for use as a raw material in food manufacturing. The researchers hope to use the curds to make a fermented non-dairy soy cheese by removing excess water from the curd, adding lactic acid and salt, then letting it ferment. Address: Tsukuba Univ., Japan.

prefecture, Japan.

7085. Becker, Robert. 1985. Tofu is out, tempeh is in, she says. *Progress* (*Charlottesville, Virginia*). Aug. 22.
• ***Summary:*** A photo shows Eileen Judge, whose company, Kingdom Foods, makes tempeh. For the past two years, she has been making 300 lbs/week of tempeh in her Charlottesville, Virginia, warehouse. Ms. Judge first learned about tempeh while working in Washington, DC, for an agency for the U.S. State Department. She was doing some research for the *League for International Food Education.*

7086. Lindsley, Kathy. 1985. Frozen tofu is hot stuff [Penguino's]. *Times Union* (*Rochester, New York*). Aug. 27.
• ***Summary:*** A brief history of Penguino's (Rochester, New York) and description of the product. "According to a recent article in the Wall Street Journal, Carnation Co. entered the picture in April with a product called McQueen's."

Sales of Tofutti jumped from $30,000 in 1982 (the year it was launched) to $9 million in 1984. Haagen-Dazs, a subsidiary of Pillsbury Co., has taken over distribution of Tofutti, "which shows just how big time tofu has become."

It gained further momentum this year when celebrity Gloria Vanderbilt launched a "frozen tofu dessert" name Glace, which was developed with the assistance of another up-scale ice cream maker, Frusen Gladje, which is part of the Kraft Foods empire. A photo shows Miriam Phalen, president of Penguino's, serving up her tofu-based ice cream.

7087. Sugisawa, Ko; Matsumura, Y.; Taga, K.; et al. Assignors to House Food Industrial Company Ltd. (Osaka, Japan). 1985. Process for preparing retort tofu. *U.S. Patent* 4,537,789. Aug. 27. 6 p. Application filed 23 Nov. 1983. 1 drawing. Application also filed in Japan on 20 Oct. 1983. [5 ref]
Address: Higashi-Osaka, Japan.

7088. Brin, Herb. 1985. Grandma power and Rebbe are his recipe. Mintz's Tofutti is newest taste sensation. *Heritage* (*Los Angeles*). Aug. 30.
• ***Summary:*** Mintz is a devoted follower of the Lubavitcher Rebbe, who once advised him: "Drop the food business and concentrate on tofu desserts. You will be successful." Tofutti is now found in 36,000 supermarkets across America in 48 states. It is being sold in Hong Kong, Australia, and many parts of Europe.

Note: Rabbi Shneur Zalman of Liady (1748-1812) was a mystic who founded the Lubavitch sect. Address: Los Angeles, California.

7089. Barrett, Clare. 1985. A practical guide to soyfoods. *Vegetarian Times.* Aug. p. 33-40. No. 96. [14 ref]
• ***Summary:*** An overview of fresh green soybeans, whole dry soybeans, soynuts, soy sprouts, soy flour & soy grits, soy oil, soy protein isolates, soymilk, okara, tofu, tempeh, soy sauces, miso, natto. Concludes with a list of 14 recommended books on soyfoods.

7090. **Product Name:** Tofu Glacé (Soy Ice Cream) [Classic Vanilla, Southern Pecan, Chocolaty Chocolate, Fudgy Mocha, Amaretto Chocolate Almond, Really Rocky Road, Strawberry Strawberry, or Minty Chocolate Chip].
Manufacturer's Name: Cuisine Nature. Made in Pennsylvania, by Lehigh Valley Dairies.
Manufacturer's Address: Montreal, QUE, Canada.
Date of Introduction: 1985. August.
Ingredients: Incl. Tofu, corn sweeteners, sugar, unsaturated vegetable oil.
Wt/Vol., Packaging, Price: Pint.
How Stored: Frozen.
New Product–Documentation: Spot. 1986. "Tofu Glace, a new frozen dessert product previously available only in Canada. In northeastern Pennsylvania Tofu Glace is produced exclusively by Lehigh Valley Dairies." (Note: Directory assistance shows this company to be located in Schuylkill (pronounced SKOO-kul) Haven, PA 17972. Phone: 717-385-1884). It is a non-dairy product. Talk with Yvon Tremblay and Richard Milon. 1987. Dec. 11. They have a label. "This product, made by Bernie Clark of Cuisine Nature (he's rich) contains no tofu. His phone is 514-636-7916."

Soya Newsletter. 1988. July/Aug. p. 8. Address now given as 575 Lepine, Dorval, Quebec, Canada H9P 2R2. Contact Roland Cyr. Phone: 514-636-7916. Ingredients include tofu, soymilk, fresh fruits, nuts, and corn sweeteners. Flavors: Chocolate, Vanilla, Maple Walnut, Strawberry, Orange Mango, and Southern Pecan.

7091. Eckett, Alison. 1985. Beating the protein crunch: A growing number of people are discovering the range of soyfoods, both traditional and modern, that can be made from this bean. *Food Processing* (*UK*) 54(8):25-28. Aug.
• ***Summary:*** "The term 'soyfoods' is a recent generic expression that has been used to describe the complete range of soy products prepared for human consumption. It covers both high technology, modern products such as soy [protein] fibres, concentrates and isolates which are mainly used as ingredients by food manufacturers... and includes the traditional low technology products of soymilk, soy sauce, miso, natto, tofu, tempeh and soy sprouts that have formed part of the staple diet in East Asia for thousands of years."

Soyfoods are divided into non-fermented and fermented. Photos show: (1) Miso Dip (front of two packages). (2) Cubes of tofu under water. (3) Nasoya Tofu Vegi-Dip. (4) Sliced cakes of tempeh. (5) The front of four tempeh packages, made by The Tempeh Works. (5) White Wave tempeh, a tempeh burger, and a promotional piece. (6) A box of Tofu Lasagna, made by Legume, Inc. (7) The front of a

package of "6 All Natural Vanilla Ice Bean Sandwiches," made from Ice Bean by Farm Foods.

7092. Escueta, Elias E.; Bourne, Malcolm C.; Hood, Lamartine F. 1985. Effect of coconut cream addition on the composition, texture, and sensory properties of tofu. *J. of Food Science* 50(4):887-90. July/Aug. [13 ref]
• ***Summary:*** Coconut cream was added to soymilk at 0, 4.7, 9.0, 16.6, 33.3 and 50% levels before coagulation of the mixture with calcium sulfate. The acceptability at the different levels of added coconut milk was 4.6, 4.8, 4.9, 4.8, 4.8, and 4.6. Therefore the finished product was most acceptable when 9% coconut milk was added.

The coconut cream, which was purchased from a local "sari-sari" (variety) store, contained 77.2% moisture, 2.2% protein, and 17.3% fat.

With increasing levels of added coconut cream, the protein and moisture content of the tofu decreased while the fat content increased. "The percentage yield of tofu did not increase up to 4.7% added coconut cream, but increased significantly when 9.0% or more coconut cream was added to the soymilk." Address: 1&3. Cornell Univ., Ithaca, New York, NY, 14850; 2. Inst. of Food Science & Technology, Univ. of the Philippines at Los Baños, College, Laguna 3720, Philippines.

7093. *Food Processing* (*Chicago*). 1985. Tainted tofu? Aug. p. 28.
• ***Summary:*** According to Michael Dole of the University of Wisconsin-Madison's Food Research Institute, tofu can be deadly if harmful bacteria are present and the tofu is not stored properly. Doyle says that most tofu is quite safe when it leaves the factory; the problems arise in storage. Many grocers display tofu in the produce case, often next to the oriental vegetables, where temperatures are typically way above the safe storage level of 41ºF.

7094. Gipson, Beckilynn. 1985. Processed proteins: Markets, developments. Business Communications Co., Inc., 9 Viaduct Rd., P.O. Box 2070C, Stamford, CT 06906. 112 p. Aug. Report GA-043R. *

7095. Ichino, Naoko; Takei, Emiko. 1985. Highashi Ajia no tôfu-zukuri [Tofu-making in East Asia]. In: Ishige Naomichi, ed. 1985. Ronshi Higashi Ajia no Shokuji Bunka [Essays on Food Culture in East Asia]. Tokyo: Heibonsha Ltd. 646 p. See p. 117-47. Illust. No index. 22 cm. [17 ref. Jap]
• ***Summary:*** Includes a discussion (p. 141) of traditional Chinese cold-extraction of soymilk and more modern hot-extraction methods. In cold extraction, the mixture of ground soybeans and water (slurry) is poured into a filter sack, which is pressed in order to extract the cold soymilk. The okara remaining in the sack is often washed with water then pressed again to give a second extraction of soymilk. The two extractions of soymilk are mixed, then cooked in a caldron.

In hot extraction, the slurry is first cooked, then run into a filter sack, which is pressed to extract the hot soymilk. The okara in the sack is usually discarded. Hot extraction takes less time, probably gives soymilk with a less beany flavor (since the lipoxygenase enzymes are inactivated during cooking), and may give a slightly higher yield of soymilk. However the cold extraction probably uses less fuel to heat the soymilk.

Note: Ichino Naoko was born in 1957. Takei Emiko was born in 1955. Both authors are women. Address: Japan.

7096. Jacobi, Dana. 1985. Tofu: Its history, nutritional virtues, how to buy it and how to cook it. *Wok Talk* (*Great Neck, New York*) 9(4):4-8. July/Aug. [1 ref]
• ***Summary:*** Contains 4 recipes (including one for Lemon Tofu Cheesecake) and a description of how to make tofu at home. A table describes 13 brands of tofu purchased by Dana at Kam Man, a big retail store in New York; the manufacturers are Morinaga (Japan), Mandalay, Monsoon, and Orifood (New York), Tomsun, and Nasoya (Massachusetts), Bud (Maryland), The Bridge (Connecticut), and Kamé (Taiwan). Photos show: Tofu being cut with a Chinese cleaver on a kitchen cutting board. Many varieties of tofu and yuba sold in New York City.

Talk with Dana Jacobi. 2000. May 3. This was the first article Dana wrote about soy. This newsletter was published at 15 Barstow Rd., Great Neck, New York. Address: New York.

7097. Kulkarni, K.D.; Kulkarni, D.N.; Ingle, U.M. 1985. Effect of processing conditions on the quality of soybean pressed curd. *J. of Food Science and Technology* (*Mysore, India*) 22(4):288-90. Aug. [5 ref]
• ***Summary:*** Soymilk was heated for 3, 5, 7, and 10 minutes then coagulated using calcium chloride at 0.5, 1.0, 1.5 and 2.0% of the original soybean weight. The resulting curds were pressed in a wooden press, stored at 0ºC for 24 hours, thawed and drained thrice. The pressed curd contained 49% moisture, 34.1% crude protein, 6.0% crude fat and 9.9% carbohydrate. Heating for 7 or 10 minutes maximized yield of total solids and acceptability. Firmness and total solids yield increased with amount of coagulant used, and at 2% coagulant was comparable to that of tender meat. Address: Dep. of Food Science & Technology, Marathwada Agricultural Univ., Parbhani 431 402, India.

7098. Leneman, Leah. 1985. Tomorrow's world [soyfoods]. *Vegetarian* (*The*) (*England*). July/Aug. p. 21-24.
• ***Summary:*** There are now 8-9 brands of soya milk sold in Britain. "It is a shame that most people's introduction to tofu is in the form of Morinaga silken tofu which... is now found in most health food stores. Silken tofu is pleasant

© Copyright Soyinfo Center 2013

and nutritious, but is much softer than regular tofu and is therefore much less versatile. Following recipes meant for firm tofu with it can be frustrating.

"*Granose* is the first big-name health food manufacturer to feature a line of tofu-based products (imported from Denmark). Two of the three tinned convenience meals seem to me less than ideal. The tofu adds nothing special to either the Tofu and Tomato Sauce nor to the Tofu in a Savoury Bean Sauce; they might just as well have used tvp. However, the Chinese-Style Tofu is really excellent, with a nice balance of tastes and textures, including the cubes of tofu– just about the nicest tinned convenience meal around.

"The first national distributor of tofu (to the best of my knowledge) was *The Regular Tofu Company*... Like all other national distributors, their tofu is vacuum-packed, which considerably lengthens its shelf-life... *Paul's Tofu* (The Old Brewery, Wheathampstead House, Wheathampstead, St. Albans, Herts.) produces another vacuum-packed firm tofu, which is available in London and South-East England...

"*Bean Machine* (Station Road, Crymych, Dyfed) produces not only tofu but also a range of 'soysage' foods made from okara... They also make 'Soyannaize,' a dairy-free dressing. *Duchesse* All-Natural Tofu Dressing and Dip (made by St. Giles Foods Ltd, St. Giles House, Sandhurst Road, Sidcup, Kent DA15 7HL) is another mayonnaise-type product..."

She is writing The International Tofu Cookery Book for Routledge & Kegan Paul. Address: 19 Leamington Terrace, Edinburgh EH10 4JP, Scotland.

7099. *Natural Foods Merchandiser.* 1985. New products, changing diets propel soyfood sales. Aug. p. 1, 39-40, 42-44.
• ***Summary:*** "The soyfoods revolution is being fueled by several powerful trends... Many consumers are attracted to soyfoods because they are an excellent no-cholesterol 'replacement' for meat and dairy products. Soyfoods are also growing with the rising tide of macrobiotics, which promotes the use of various soy products. And there are now enough soyfoods on the market to create synergy within the category: consumers buying soymilk try tofu, and go from tofu to tempeh.

"Tofu is by far the best-selling product in the soyfoods category, according to figures provided by the Soyfoods Association [and Soyfoods Center]. An estimated $60 million worth of tofu is produced and sold in the U.S. annually, while frozen tofu desserts, entrees, and prepared products account for approximately $25 million. Soymilk sales have jumped from near zero a few years ago to $10 million today, while tempeh is an emerging growth category at 5 million in yearly sales." All of the retailers interviewed by NFM indicated that the soymilk category is experiencing major growth. Most of the growth has been in six-ounce aseptic individual serving packages supplied by such companies as Westbrae, Ah Soy, Vitasoy and Eden. Health Valley's Soy Moo has recently been repackaged in a 8.45-ounce package.

"Tempehworks produces approximately 7,000 pounds of tempeh a week during peak months, including that used in its processed tempeh products, such as Fakin' Bacon, New York Style Strami and Kansas City Barbecue."

Includes "A directory [sic, glossary] of soyfoods terminology" that defines tofu, tempeh, soybean, miso, soymilk, shoyu/tamari, TVP or TSP, soy protein isolate, defatted soy flour, and "secondary" soyfoods products.

7100. Ofusa, Tsuyoshi. 1985. Shii bejitaburu: Kenko no tame no kaisô dokuhon [Sea vegetables: A book for health]. Tokyo: Kodansha. 194 p. Aug. 20. Illust. No index. 18 cm. [Jap]
Address: Yamamoto Nori Co., Tokyo, Japan.

7101. **Product Name:** [Co-Op Silken Tofu (Made with Soy Protein Isolates)].
Foreign Name: Co-op Tofu.
Manufacturer's Name: PLL (Produits Laitiers Lausanne SA). Sold by Co-Op throughout Switzerland.
Manufacturer's Address: Case 3533, 1002 Lausanne, Switzerland. Phone: 021/634-2134.
Date of Introduction: 1985. August.
Ingredients: Water, soybeans [soy protein isolates], acidified with lactic acid bacteria.
Wt/Vol., Packaging, Price: 250 gm.
How Stored: Refrigerated.
Nutrition: Protein 8.2%, lipids 5.1%, carbohydrates 2.8%, 93 kcal/100 gm.
New Product–Documentation: Talk with, then letter (fax) from Didier Livron. 1989. Dec. 27. They make a semi-silken tofu, with soy protein isolates. The company is basically a manufacturer of dairy products. In the process, the soy protein powder is hydrated and mixed with melted oil and lecithin. The mixture is homogenized, pasteurized, then there is a ferment inoculation and acidification. The product is packed, coagulated for 4 hours, and cooled. As for ingredients, the label says "water, soybeans, acidified with lactic acid bacteria," but the actual ingredients are isolated soy protein, soy oil, soy lecithin, and acidifying ferments. Characteristics: Flavor acceptable to Swiss consumers. No anti-nutritional factors or indigestible carbohydrates. No soil sporulated microorganisms. Acidification with ferments gives better nutritional value through light proteolysis and better stability. Smooth texture. Fax: 21-635-9810.

Letter and Labels from Didier Livron. 1990. Jan. 5. The product name on the label is simply tofu, but there are 3 subtitles "aus Soja, de soja, and di soia," each meaning "from soybeans" in German, French, and Italian respectively. The company has two labels, each 3 inches square, self-adhesive: One (red and black on green) for the product sold in PLL's own stores, and the other (green and black on beige) for the

© Copyright Soyinfo Center 2013

product sold in Co-op supermarkets. A brand name may be added soon. This product was launched commercially in Aug. 1985. It is fermented and coagulated with a lactic culture added with the necessary carbohydrate nutrients for growth of the culture. The company does not make any other soy products, but they have the technology for several fruit flavored soja desserts. Since 1988 a French milk company, Laiteries Triballat, has been making and marketing this product in Germany, Great Britain, and Italy under license from PLL with great success. Talk with Verena Krieger in Switzerland. 1990. May 20. Co-op's so-called tofu is made with soy protein isolates, and always has been. They buy the isolates from a plant in Belgium. There was a little scandal about it on the radio. The plant where they make the tofu is somewhere in French Switzerland. She hasn't heard of any soy ice creams sold in Switzerland.

Letter (fax) from Verena Krieger. 1990. May 31. PLL makes about 1,000 kg/week of tofu. They make no soymilk or other tofu products. Triballat does not make silken tofu as such.

7102. San Diego Soy Dairy. 1985. Soycrafters Apprenticeship Program (Leaflet). San Diego, California. 1 p.
Address: 2965 Fifth Ave., San Diego, California 92103.

7103. **Product Name:** Tofu Spinach Raviolis (Filled with Tofu No-Egg Salad).
Manufacturer's Name: Sonoma Specialty Foods.
Manufacturer's Address: 2317 Bluebell Dr., Santa Rosa, CA 95401.
Date of Introduction: 1985. August.
New Product–Documentation: Interview with Benjamin Hills. 1987. Sept. 7. Interview with Dennis Hughes. 1988. Feb. 15. This product was first introduced in about August 1985. The new version of it, out in a month, is just Tofu Ravioli, and the filling is similar to the Cottage Salad.

7104. Soy City Foods. 1985. I love Soy City's vac pac soy foods: Tofu, Soy Pro, tempeh (Bumper sticker). 2849 Dundas St. W., Toronto, ONT, M6P 1Y6, Canada. 15 x 35 cm.
• ***Summary:*** This bumper sticker is green, red, orange, and yellow on white. A heart stands in place of the word "love."
Address: Ontario, Canada.

7105. *Soya Foods* (*ASA, Europe*). 1985. The Soyafoods Interview: Mr. Wil Puik, Heuschen B.V., Netherlands. Aug. p. 7-8.
• ***Summary:*** Heuschen started their activities in 1958 selling Oriental foods, including tofu (tahoe). They began to make their own tofu in 1964. By 1968 they were making 2,000 cakes of tofu a day. The present plant at Deurne started in 1982. Its automatic production line presently makes 10,000 cakes of tofu a day. The company employs 9 people. They distribute their products via the wholesale trade, and export to West Germany and Belgium. They believe the soyfoods industry has an excellent future. They would like to launch several convenience soyfoods such as tofunaise, soyaburgers, tofu dips, creams, and sauces. They sell to both the mainstream and Reform markets.

Note: Puik is pronounced "Powk"; the "Pow" rhymes with "How." Address: Heuschen B.V., Dr. Huub van Doorneweg 16, 5753 PM Deurne, Netherlands.

7106. **Product Name:** Sunrise Vegetarian Quarterpound Burgers (Made from Tofu or Soya Proteins) [Tandoori, Herbs & Spices, Tofu, or Mexican Chili].
Manufacturer's Name: Soya Health Foods, Ltd.
Manufacturer's Address: Unit 4, Guinness Rd., Trafford Park, Manchester M17 1UA, England.
Date of Introduction: 1985. August.
Ingredients: Herbs & Spices: Okara (soya fibre and protein), textured soya flour, hydrogenated vegetable oil, wholewheat rusk, soya flour, modified starch, stabiliser (of vegetable origin), hydrolysed vegetable protein, mixed vegetables, mixed herbs, mixed spices, tamari.
Wt/Vol., Packaging, Price: 1 lb paperboard box.
How Stored: Frozen.
Nutrition: Per 100 gm: Protein 11 gm, fat 14 gm, carbohydrate 12.6 gm, dietary fibre 5.2 gm.
New Product–Documentation: Natural Food Trader (UK). 1985. Sept. p. 25. The burgers are quarter pounders that come 4 in a pack. Michael Cole is director of this company. Poster. Sunrise–Be good to yourself! A photo shows a burger box.

Label. 1988. Paperboard box. 9 by 4.5 by 1.5 inches. Full color in red, green, and brown. Photo on front of open-face burger. "Free from animal fats. No artificial colours. Low in salt and high in fibre. No animal has suffered in the making of this product." Other products available from Soya Health Foods: Sunrise Soya Milk, Soya Milk Yogurt, Soya Ice Dream in 1 litre tubs.

7107. **Product Name:** Duchesse Tofu Dressing & Dip.
Manufacturer's Name: St. Giles Foods Ltd.
Manufacturer's Address: St. Giles House, Sandhurst Rd., Sidcup, Kent, DA15 7HL, England.
Date of Introduction: 1985. August.
Ingredients: Sunflower oil, cider vinegar, tofu (soybean curd), vegetable oil, onion, garlic, raw sugar, herbs, sea salt, whole spices, vegetable gums (guar and xanthan).
Wt/Vol., Packaging, Price: 200 ml.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: L. Leneman. 1985. The Vegetarian. July/Aug. p. 23 "Tomorrow's Food." This is a "mayonnaise-type product... It is superbly flavoured and remarkably rich and creamy–a fabulous egg-free, dairy-free dressing for salads and sandwiches... This company is also

© Copyright Soyinfo Center 2013

launching a tofu-based sandwich spread with dill pickles."

Label. 1987, undated. 1.5 by 7.5 inches. White and gold on black. "All-Natural. Low cholesterol. High in polyunsaturates. Without egg products. Suitable for Vegan Diets."

7108. *Sunset* (*Menlo Park, California*). 1985. Call it Tofulato. What happens when you introduce Oriental tofu to Italian gelato? A smooth, lean, delicious ice dessert. Aug. p. 64-65.

7114. Ostman, Eleanor. 1985. Public acquires a taste for tofu. Soybeans give business more than just desserts [Lee L. Lee, Tofulicious, and Eastern Foods Corp.]. *Morning Pioneer News Dispatch* (*St. Paul, Minnesota*). Sept. 15. p. 1G, 3G.
• ***Summary:*** Korean-born Lee L. Lee graduated in physics from Seoul National University and came to the Univ. of Minnesota to study accounting. He stayed to work for 11 years at Control Data Corporation's international accounting division, the last 5 as its manager. "He was clearly ahead of demand in 1978 when he started producing tofu in a tiny rented warehouse in Roseville [Minnesota]." During his years at CDC "he was also making tofu for First Oriental Foods in St. Paul, ultimately buying that company in 1982. His Eastern Foods Corp. began producing tofu part time a year before he left Control Data, with the assistance of venture capital investment from his former employer." CDC owns 30% of Eastern Foods. In 1979 he built his current quarters at 3235 E. Hennepin Ave.

"Though he kept producing tofu over the years while two other local competitors started and folded, Lee says he knew that 'I couldn't live and die with just one product.' His company began manufacturing won ton skins and egg roll wrappers. 'Within 18 months, we dominated the entire Midwest market for the skins,' said Lee.

© Copyright Soyinfo Center 2013

"'In tofu, we are the leader in Minnesota, Wisconsin, Iowa, Michigan and Illinois. Our sales were growing 10 to 15 percent annually, but the base was so small to being with. The Minnesota market uses 300 cases of tofu a week; that's under $10,000 a month.' Total production weekly of tofu, skins and related products is up to 36,000 pounds weekly...

"Steve Schellhaass, formerly with Safeway Stores, was hired last year as vice president of manufacturing and product development, with a directive to find 'value-added' uses for tofu and the skins. Tofulicious is one result and Tofruit, resembling yogurt with fruit, is another. Available in health food stores, it soon may be released to regular retail channels under a co-packing arrangement. The company also has tofu salad dressing ready...

"Lee plans to make Eastern Foods a national company in 1986 and perhaps to go public in 1987. To speed national distribution, his company has contracted with JFC International, the distribution arm of Kikkoman soy sauce and the largest Oriental specialty distributor in the country."

A photo shows Lee L. Lee, founder and president of Eastern Foods Corp., holding a pint of Tofulicious. Address: Minnesota.

• ***Summary:*** In the late 1970s Richard Rose discovered that his frequent respiratory illnesses were caused by a severe allergy to dairy products. He was a vegetarian and dairy products were a major component in his diet. Substituting tofu for dairy products eliminated all the illnesses he had suffered from since childhood. In 1980 the Roses brought Brightsong Tofu, in 1982 they moved it to Petaluma, and in late 1984 they received the backing of a venture capital firm. Since 1980 over 90 tofu products were developed and marketed by the company. Address: Petaluma, California.

7119. **Product Name:** Brightsong Tofu.
Manufacturer's Name: Brightsong Foods.
Manufacturer's Address: 100-A Poultry St. (P.O. Box 2536), Petaluma, CA 94953. Phone: 707-778-8638.
Date of Introduction: 1985. September.
New Product–Documentation: Brightsong Foods. 1985. Brightsong Introduces New Tofu Concept (News Release). "Brightsong has introduced a revolutionary new concept in merchandising tofu. It marks the first time tofu has been specifically designed for mainstream American consumers. The new Brightsong Tofu is vacuum-packed like cheese, and displayed in a colorful printed box, somewhat like how butter is sold. Enclosed in the box are recipes, coupons, and informational sheets. Other products compatible with tofu are cross-merchandised by including samples and coupons in the box, such as mixes, seasonings, etc."

7120. **Product Name:** [Organic Nigari Tofu].
Foreign Name: Tofu.
Manufacturer's Name: Byodo Naturkost GmbH.
Manufacturer's Address: Hirschbergstr. 9, D-8000 Munich 19, West Germany. Phone: (089) 16 85 70.
Date of Introduction: 1985. September.
Wt/Vol., Packaging, Price: Bulk: Immersed in water in buckets.
How Stored: Refrigerated.
New Product–Documentation: Interview with Bernd Drosihn of Soyastern. 1987. Nov. 30. They make about 400 kg/week of tofu. Letter from Harry Whitford of Soyastern. 1987. Dec. 14. They make 400 to 500 kg/week of organic nigari tofu.

Die Geschaeftsidee. 1989. Dec. p. 32. The third tofu maker in Munich, Byodo, was founded in 1985. The present owners, Bernd Steyers [sic, actually Steyer] and Michael Biedenbach, make about 400 kg/week of tofu, which is sold largely to distributors. They also make tempeh.

Letters (faxes) from Harry Whitford. 1990. May 11 and June 9. "Byodo Naturkost GmbH (Co. Ltd. in German) was founded on 2 July 1985. Michael Mossbacher entered the company at that time, and the base capital was used to move to Hirschbergstr. 9. In the fall of 1985 we started making tofu after a scandal: We had been buying tofu from Sapia to make our burgers for the Munich market. But he bought conventionally grown beans and sold the tofu as

bio [organic]! As far as I can recall, the product was simply called Tofu. It was sold immersed in water in buckets to bulk users only."

7121. **Product Name:** Soy Scream Ice Cream, Tofu, Soy Mayonnaise, Okara Burgers.
Manufacturer's Name: Country Farmhouse Project. Renamed Country Farmhouse Lifeline by Fall 1987. Renamed Country Farmhouse Soya Products by 1989. Renamed Country Farmhouse Soya Products Co. Ltd. by Aug. 1997.
Manufacturer's Address: Affiliate of the Country Farmhouse Lifeline, 12 Faulkner Ave., Duhaney Park, Kingston 20, Jamaica. Phone: 809-933-4617.
Date of Introduction: 1985. September.
New Product–Documentation: Plenty Bulletin (Summertown, Tennessee). 1986. Fall. p. 1-3. Jamaica Soy. The Country Farmhouse Project in Kingston, Jamaica is run with the help of two Jamaican young people, Rasino D'Aguilar and his wife, Mohi. This small-scale cottage industry, which has been in business for 1 year on a shoestring budget, makes soy ice cream, tofu, soy mayonnaise, and a variety of okara burgers. Some of their products are sold at a weekly market sponsored by the Jamaica Vegetarian Society.

Plenty Bulletin. 1987. Fall. p. 4. Two full time and two part time staff, working out of a tiny 5 x 30 foot shed on the back of a house, produce 150 lb of tofu a week for sale to restaurants and health food stores in Kingston. First listing in Soya Bluebook. 1989. Country Farmhouse Soya Products. Affiliate of The Country Farmhouse Lifeline. Same address shown above. Phone: 809-92-281 10-9. Products: Salads Delight salad dressing, soymilk, frozen desserts, tofu & tofu products, soy burgers, high protein soy bread, tofu soysage.

Plenty International. 1994. Jan. A Guide to Growing and Using Soybeans for Food. p. 30. This company, which makes fresh soyfoods, is now named Country Farmhouse Soy Products, located at 12 Faulkner Ave., Duhaney Park, Kingston 20, Jamaica. Phone: 809-933-4617.

Talk with Marlon D'Aguilar, owner. 1996. May 20 (which see).

Talk with then letter from Marlon D'Aguilar. 1997. Aug. The letterhead states that the company is now named "Country Farmhouse Soya Products Co. Ltd. Directors: Marlon D'Aguilar, Elaine Lawson, Mrs. Winsome D'Aguilar, Keith Brown."

7122. *Cultivar.* 1985. Le soja en alimentation humaine [Soya in human nutrition]. No. 186. p. 77-78. Sept. [Fre]
• ***Summary:*** A brief introduction to tofu, soymilk, soy sauce, tempeh, miso, soy flour, soy protein isolates, and concentrates. Address: France.

7123. **Product Name:** Tofulicious (Soy Ice Cream) [Dutch Chocolate Almond, Vanilla Almond Supreme, Piña Colada Royale, Triple Berry Delight, or Creamy Peanut Butter].
Manufacturer's Name: Eastern Foods Corp.
Manufacturer's Address: 3225 E. Hennepin Ave., Minneapolis, MN 55413.
Date of Introduction: 1985. September.
How Stored: Frozen.
Nutrition: Chocolate-Almond. Per 4 fl oz: Calories 160, carbohydrates 24 gm, protein 3 gm, fat 6 gm, sodium 50 mg.
New Product–Documentation: Dairy Record. 1985. Nov. p. 43. "A Taste of the Orient." Product development was partially supported by the Minnesota Soybean Growers Association. *Soybean Digest.* 1987. July. p. 4. Leaflet. 1986, undated. Tofulicious. Good taste that's good for you. Haumann. 1987. JAOCS. Oct. p. 1378. The product was developed by research coordinated by Univ. of Minnesota food scientist William Breene and funded by the Minnesota Soybean Research and Promotion Council; Calhoun Herald (Hardin, Illinois). 1988. Sept. 15. "Tofulicious available at Taviners." Midwest Gourmet Ventures, a new distributorship established by John and Caroll Bonn, is the exclusive distributor for Tofulicious, which is a kosher product and has an approved diabetic exchange of one and one half starches and one fat per 4 oz. serving.

7124. **Product Name:** Tofu Scrambler Mix (Egg Replacer).
Manufacturer's Name: Fantastic Foods, Inc.
Manufacturer's Address: 106 Galli Dr., Novato, CA 94947. Phone: 415-883-7718.
Date of Introduction: 1985. September.
Ingredients: Feb. 1991: Barley flour, dehydrated vegetables (potato, onion, parsley, garlic, green onion, chives), dried yeast (molasses grown), hydrolyzed vegetable protein, powdered soy sauce (soybeans, wheat, salt), spices, salt, turmeric.
Wt/Vol., Packaging, Price: 2.7 oz (77 gm). Two seasoning packets per package. Enough for 2 lb of tofu. Retail: $1.49.
How Stored: Shelf stable.
New Product–Documentation: Ad in Whole Foods. 1985. Jan. "When You Want the Scramble Without the Egg." The Mix is added to 1 lb fresh tofu and cooked / scrambled for a few minutes. Also in Natural Foods Merchandiser. 1985. Nov. p. 16.

Spot in Whole Foods. 1986. Jan. p. 52. "Eggless eggs." Product with Label purchased from Lucky supermarket in Lafayette, California. 1991. Feb. 18. 2.7 oz. package (copyright 1988) retails for $1.75. 4.5 by 6.5 by 1 inch paperboard box. Purple, red, green, and black on beige and orange. Color photo on front panel of the finished product, garnished with mushrooms and tomato bits, on a blue and white plate. "Contains 2 packets. Add each to 1 pound of tofu (to make five ½-cup servings). All vegetarian. All natural." In the box, with the 2 seasoning packets, is a 6-panel color brochure titled "Fantastic ideas for tofu scrambler." It gives

© Copyright Soyinfo Center 2013

recipes: for Tofu salad and sandwich spread. Scrambler stuffed peppers. Tofu quiche. There are ideas for: Scrambler rice stir fry. Tostadas. Potato boats. Pasta.

Product with Label purchased at Open Sesame in Lafayette, California. 1998. Jan. 10. Label design copyright 1995. Price: $1.79. In the box are two packets of dry mix; each serves 4 and is used with 1 lb tofu. Ingredients: Barley flour, dehydrated vegetables (potatoes, onions, garlic, red bell peppers, celery, chives, green onions), dried yeast, spices, soy sauce powder (wheat, soybeans, salt), sea salt, yeast extract, turmeric powder, soybean oil. Soyfoods Center product evaluation. 1998. Feb. 11. Overall score: 7. Taste: Too spicy. Texture: Somewhat too gummy. Package design: Excellent.

7125. *Florida Grocer* (*Miami, Florida*). 1985. Morinaga Tofu for U.S. market. Sept. Also in: Food Distributors Magazine (Sept.). Economic World (NY, Nov.).
• ***Summary:*** A photo shows a package of "Mori-Nu Fresh Regular Tofu."

"Morinaga Milk Industry Co., Japan's leading manufacturer of dairy products, has announced the creation of a U.S. subsidiary, Morinaga Nutritional Foods. The new company, headquartered in Los Angeles, will market Mori-Nu brand tofu in the United States."

"Unlike other tofu, Mori-Nu is manufactured by a patented process which assures freshness and long shelf life without the use of preservatives, the parent company says."

"Because Mori-Nu Tofu is actually made inside its hermetically-sealed aseptic package, no hands come in contact with the product. This exclusive packaging process permits the company to offer an unqualified guarantee of freshness to the consumer, Morinaga reports."

"Morinaga plans to introduce a 'regular' firmer style tofu to supplement the Soft Tofu which is currently being sold in limited areas."

"With worldwide sales of $1,300 million, Morinaga today markets tofu in more than 30 countries. The company's move into the U.S. coincides with expanding consumer interest in diet and health, according to Morinaga president, Akira Ohno. 'Our research tells us that there is an increasing trend towards health foods in general and a growing need for non-cholesterol products among U.S. consumers.' Mr. Ohno stated."

"The company's initial sales efforts will be directed to selected markets, beginning with Los Angeles and other West Cost cities, then expanding nationwide. Sales for the U.S. are projected at seven million packages in the first year."

"Morinaga sees the launching of Mori-Nu as the beginning of a "long-term involvement" in the U.S."

7126. Groom, Jon; Groom, Sarah. 1985. Bean Machine story. *Point Soja–Soyfoods.* Autumn. p. 8. [Eng; Fre]
• ***Summary:*** Jon and Zorah Groom started a business in 1982 making tofu, soysage, and Soyanaize (vegan mayonnaise) from their kitchen. They learned how to make tofu and soymilk while living in Eire [Ireland] with some people from Stephen Gaskin's Farm in Tennessee. With a co-op of 7 people (The Bean Machine Co-op Ltd.) they transformed an old car spares shop at Crymych into Wales' first soy dairy. It began operation in January 1984. A new product was Tofu Pasties. They are now building a new plant in Cardigan. Address: Crymych, Wales.

7127. *Health Foods Retailing.* 1985. Barricini, Farm Foods link revolves around tofu line. Sept. p. 8.
• ***Summary:*** Barricini Foods, which has had great success in producing a tofu-based frozen dessert, Tofulite, is seeking to expand in this growing field through a recent merger with Farm Foods. The distinguishing factor between the two product lines is in the sweetener used. Barricini's Tofulite is sweetened with sugar while Farm Foods' Ice Bean is sugar-free. Under the merger agreement Farm Foods will be able to market their product under the Barricini banner and make use of the Barricini distribution system, which now covers supermarkets, restaurants, convenience stores, and institutions.

7128. Kotzsch, Ronald E. 1985. Macrobiotics: Yesterday and today. Tokyo and New York: Japan Publications Inc. 292 p. Sept. Illust. Index. 26 cm. [144* ref]
• ***Summary:*** The best and most objective book available to date (April 2011) on the origins and history of macrobiotics, worldwide. Includes detailed information on central ideas and practices of macrobiotics, its leaders, organizations, applications, and aspirations. Carefully researched and well written.

Contents: 1. Ekken Kaibara: The grandfather of macrobiotics. 2. Sagen Ishizuka: The founder of modern macrobiotics. 3. George Ohsawa: The early years (1893-1929; Yukikazu Sakurazawa, later known as George Ohsawa was born on 18 Oct. 1893 in a western suburb of Kyoto, Japan, the family's eldest child). 4. George Ohsawa: The first sojourn in the west (1929-1936). 5. George Ohsawa: Return to Japan in crisis (1936-1939).

Photographic interlude for *Macrobiotics Yesterday.* Illustration (line drawing) of Ekken Kaibara. Photos of Ishizuka, Nishibata, Ohsawa's parents, George Ohsawa (many from 1901-1966). 6. George Ohsawa: The war years (1940-1945). 7. George Ohsawa: Hope for a new Japan and a new world (1945-1953). 8. George Ohsawa: The world journey of the penniless samurai (1953-1966; George and Lima visited India [Nov. 1953-July 1955]; Africa [Aug. 1955-Feb. 1956, incl. Kenya, and 3½ months with Albert Schweitzer at Lambarene, Gabon]; Paris, France and Brussels, Belgium; New York City, USA [late 1959-Oct. 1961]; France [around 1961 he met Louis Kervran]; Tokyo [most of 1963-64]; Vietnam 1965; Tokyo, where he died

© Copyright Soyinfo Center 2013

on 23 April 1966 [24 April Japan time], probably of filarial parasites contracted in Lambarene, and smoking). 9. George Ohsawa: The man and the legacy. 10. After the master: Part one: America.

Photographic interlude for *Macrobiotics Today.* Photos are given of Toshi Kawaguchi, Michi Ogawa, Hiroshi Maruyama, Kaoru Yoshimi, Francoise Riviere, Cecile Levin, Dr. Kikuo Chishima, Dr. Moriyasu Ushio, Michio and Aveline Kushi, Herman and Cornellia Aihara, the Kushis, Aiharas, and Shizuko Yamamoto, William Dufty, Bill Tara, Aveline Kushi and Wendy Esko, Alex Jack, Dr. Marc van Cauwenberghe, Edward Esko, Murray Snyder, Noboru Muramoto, Jacques and Yvette de Langre [DeLangre], Jerome Carty, Duncan Sim, Lima Ohsawa, Shuzo Okada, Hideo Ohmori, First European Congress of Macrobiotics in London, Nov. 1978, Lenk summer camp, Switzerland, July 1984, Jan Lansloot, Peter Doggen, Rik Vermuyten, Georges Van Wesenbeeck, Roland Keijser, Mayli Lao Shun, Tomio Kikuchi (in Brazil).

11. After the master: Part two: Japan. 12. After the master: Part three: Europe and elsewhere. 13. The gospel according to Kushi. 14. Macrobiotics in western culture. 15. Prospects for the future. Bibliography.

The author, an excellent historian and writer, with a delightful sense of humor and light touch, began his study and practice of macrobiotics under Michio Kushi in Boston in Jan. 1967. A photo of Ronald E. Kotzsch appears on the rear cover. This book is based on his doctoral dissertation titled "Georges Ohsawa and the Japanese Religious Tradition," submitted on 1 April 1981 for a PhD degree in History of Religions from Harvard University. Pages 185-86 discuss briefly the role of the macrobiotic movement in introducing soyfoods (especially miso, shoyu, and tofu) and natural foods to America. Address: PhD, Hanover, New Hampshire; The New North Church, Hingham, Massachusetts (18 Mar 1985).

7129. Kotzsch, Ronald E. 1985. The Morinaga Incident (Document part). In: R.E. Kotzsch. 1985. Macrobiotics: Yesterday and Today. Tokyo and New York: Japan Publications Inc. 292 p. See p. 213. 26 cm. [144* ref]
• ***Summary:*** "In 1953 Japan was shocked by the 'Morinaga Incident.' The Morinaga Milk Company was using arsenic in the production of dried milk, and a batch became lethally contaminated. One hundred and eighty-six infants died of poisoning. A furor arose and the company passed the incident off as a freak occurrence. [George] Ohsawa contacted his long time associate, Keishi Amano, a biologist then working in the research laboratory of the National Fisheries Ministry. He urged Amano to write a book exposing the company and the dangers inherent in its processing techniques. The scientist did so and later published other books on the dangers of food processing and of chemical additives." Address: The New North Church, Hingham, Massachusetts (18 Mar 1985).

7130. McSweeney, Daniel. 1985. Consumer survey 1985. *Whole Foods.* Sept. p. 23-27.
• ***Summary:*** The percentage of respondents who purchased a type of product at a natural foods during the past 12 months, in descending order of popularity: Tofu 64.5%. Miso 50%. Sea vegetables 37.9%. Non-dairy ice cream 37.9%. Frozen tofu entrees 21.7%. Note: The sample size is not given.

7131. Mitz, Bea. 1985. The joy of soy. *Total Health* (*California*). Sept. p. 55-56.
• ***Summary:*** An overview that contains photos of products made by Legume (Tofu Stuffed Shells Provencale), Loma Linda (Ocean Fillets, Griddle Steaks), Worthington Foods (Tofu Topper), Eden Foods (Edensoy), plus Tofutti and Tofulite (made by Barricini).

7132. Nasoya Foods, Ltd. 1985. Cooking with Nasoya tofu (Color videotape). P.O. Box 841, Leominster, MA 01453. 6 minutes. *
• ***Summary:*** According to the Nasoya Newsletter (No. 2, Sept. 1985): "Nasoya's Tofu is the star of a new video production featuring our talented chef Sarah Paino cooking up three delicious Tofu entrees: Broccoli-Almond-Tofu Stir Fry; Bar-B-Que Tofu; and Tofu Eggless Salad. And it's available for showing in your store!...

"Nasoya's Tofu TV will be ready for viewing later this fall. Tofu TV will really get your customers cooking tofu."

Note: This is the earliest known videotape concerning soyfoods, tofu, or soybeans–though Soyfoods Center does not own it and has never seen it.

Talk with John Paino, former founder and president of Nasoya Foods. 1997. April 7. Purity Supreme supermarkets asked Nasoya for some in-store material to market the tofu and educate consumers. This supermarket chain was just starting to use VCRs and TV screens in place of live demonstrators. John directed this video, and his wife, Sarah, developed and demonstrated the recipes. The production was done by a crew of friends who John hired and who shot the footage at the Paino's home kitchen. John no longer has any copies of this video. Address: Leominster, Massachusetts. Phone: 508-537-0713.

7133. Patni, Manmath. 1985. Soybean–Present situation and future possibilities. *Poultry Guide* (*India*) 22(9):53-62, 85-90. Sept.
• ***Summary:*** This paper was presented at the Zonal Agricultural Research Station, College of Agriculture, Indore. Contents: Miraculous tiny seed. Source of vital goodness. World leader soybean. Processing of soybean. Effect of heat treatment on nutritive value / functionality. Basic protein food from soybean. Soya protein concentrate. Soy protein isolate. Texturized protein product. Whole

© Copyright Soyinfo Center 2013

soybean products: Soya milk, tofu, tempeh. Full fat soya flour. Miracle crop of many uses. Present situation and future possibilities.

"For over 5,000 years this tiny seed has been the staple food of certain parts of the East, including North China, Japan, Korea and some areas of India. The ancient Yogis, who were among the world's first vegetarians, placed great faith in the soya bean as a supplement to their meatless diet. In fact it became known as, and is still in the Far East referred to as, 'The Meat of the Soil.'"

Note: In a letter to William Shurtleff of Soyfoods Center dated 21 May 1997, M. Patni states that the source of his information about ancient yogis and soybeans was a book titled *About Soya Beans,* by G.J. Binding (1970, p. 10).

"Source of Vital Goodness: Soybean is not new to India. Black soybean has been cultivated for ages in the low hills of Kumaon and Garhwal regions of U.P. [Uttar Pradesh] as well as on the foot hills of the Himalayas and in some scattered pockets of central India. However, strangely enough the crop has not so far become popular in the Indian sub continent and other tropical countries."

The Soybean Processors' Association of India is opening a Research & Development cum-Training Center at Indore. Address: Product Development Manager, Prestige Group of Industries, Indore.

7134. Przybyla, Ann. 1985. Frozen tofu desserts fill a special marketing niche. *Prepared Foods.* Sept. p. 146-48, 153.
• ***Summary:*** About Tuscan's Tofu Bar, Hawthorn Mellody's Tofait, and Gloria Vanderbilt's soy ice cream and many planned novelties: Fruit'N Creme Bar, Cookies'N Cream Bar, Peanut Butter Caramel Nut Bar, Vanilla Fudge Nut Bar, Cookies'N Creme Bar, Orange Creme Treat, Double Chocolate Bar, Chocolate Coated Wildberry Supreme Bar.

7135. **Product Name:** Slimmery Thin Ice (Soy Ice Cream).
Manufacturer's Name: Slimmery (Distributor).
Manufacturer's Address: St. Louis, Missouri.
Date of Introduction: 1985. September.
Wt/Vol., Packaging, Price: 16 fluid oz plastic container.
How Stored: Frozen.
New Product–Documentation: Viets. 1985. Post-Dispatch (St. Louis, Missouri). Aug. 6. "There's No Fu Like and Old Fu." Manfred Zettl, the chef who owns Slimmery, the national chain of low-cal gourmet food stores, asks for readers help to name his new "tofu frozen dessert." In 5 days readers sent in 602 names. Product Alert notes: "This product appears to be sold only in Slimmery retail outlets in St. Louis. Available in six different flavors."

7136. **Product Name:** Lightlife Meatless Tofu Pups (Meatless Hot Dogs).
Manufacturer's Name: Tempehworks (Product Developer/Marketer).
Manufacturer's Address: Greenfield, MA 01302.
Date of Introduction: 1985. September.
Ingredients: Tofu, water, soy oil, isolated soy protein, spices, nutritional yeast, sea salt, beet powder, paprika oil, natural liquid hickory smoke, guar gum. No nitrites.
Wt/Vol., Packaging, Price: 12 oz package.
How Stored: Refrigerated or frozen.
Nutrition: Per Pup: Calories 95, Protein 8.8 gm, sodium 204 mg, fat 7.5 gm carbohydrates 5 gm, cholesterol 0.
New Product–Documentation: Label. 1985, undated. 4.5 by 6 inches. Red and black on white. "Cholesterol free. The Uncommon Dog. No nitrates. Nothing artificial." Leaflets. 1985 (dated). Front and back, 8½ by 11 inches. "Cholesterol free. Tofu pups: The uncommon dog." Reprinted in Soyfoods Marketing. Lafayette, CA: Soyfoods Center. Organica. 1985. Autumn. p. 9. "Whatever happened to the American Hot Dog?" USA Today. 1985. Oct. 4. Life Section. Headline. "Hot dog! A new tofu treat called Tofu Pups. Tempehworks meatless hot dogs taste like the real thing and are high in protein, but have no cholesterol or nitrates. $2.79 for 10."

American Health. 1986. Feb. "Weenies of the New Age." Leaflet. 1986. "If you love the thought of a delicious, juicy hot dog... but hate the thought of what's in it, Read On! It has no cholesterol and no nitrates. It contains less than half the sodium of a meat frank and about half the fat."

Ad (1/3 page, black and white) in East West Journal. 1987. July. p. 77. "Simply the best tasting completely vegetarian hot dog available anywhere! Cholesterol free. Tofu Pups." Soya Newsletter. 1987. Sept/Oct. Party Pups and Tofu Pups Food Service Pack (three 40-pup vacuum packed packages per case) introduced. Ad in Natural Foods Merchandiser. 1987. Oct. p. 93. "The #1 Selling Tofu Hot Dog in America." Richard Rose review. 1987. Oct. 28. "Still the best tofu hot dog." Spot in Natural Foods Merchandiser. Feb. p. 58, and East West. 1988. March. "Fighting Hunger with Tofu Pups." Lightlife Foods is donating 5 cents from the sale of each specially marked package of Tofu Pups to American non-profit hunger relief organizations. Fifty percent of the proceeds will go directly to local community meal programs in western Massachusetts. Layton. 1988. Greenfield Recorder. May 20. p. 25. Tofu Pups cost more than their pork counterparts–$2.49 to $2.99 for a 16 oz package of 10 versus $1.49 to $2.39 for meat wieners.

7137. **Product Name:** [Tofu, and Marinated Tofu].
Foreign Name: Tofu.
Manufacturer's Name: Thomas Tempeh.
Manufacturer's Address: 167 Tagensvej, DK-2400 NV Copenhagen, Denmark.
Date of Introduction: 1985. September.
Ingredients: Incl. organic soybeans.
How Stored: Refrigerated.
New Product–Documentation: Talk with Thomas Andersen of Urten's Tofu. 1990. May 24. Followed by a

letter of June 23. He founded this company at this address in 1985. In 1985 he bought most of the tofu equipment from Dansk Tofu and started making tofu and marinated tofu in late 1985. On 1 Jan. 1986 he moved the business to Söndergade nr. 2 in the city of Toelloese, Denmark. The business was still named Thomas Tempeh.

7138. **Product Name:** Tofu Dream (Soy Ice Cream) [Vanilla, Chocolate, Strawberry, Maple Walnut, or Coffee].
Manufacturer's Name: Tofu Treats Ltd. (Marketer). Made in Canada by St. Clair Ice Cream Co.
Manufacturer's Address: 36 Rosevear Ave., Toronto, ONT, Canada. Phone: 416-699-1141.
Date of Introduction: 1985. September.
How Stored: Frozen.
New Product–Documentation: AdNews (Toronto, ONT). 1985. Aug. 6. "The Latest in Yuppie Food." Canadian Jewish News (Toronto, Ontario). 1985. Sept. 12. The product was developed by Arthur Herhold, former general manager of Farm Foods.

7139. **Product Name:** Tomsun Tofu Burgers.
Manufacturer's Name: Tomsun Foods Inc.
Manufacturer's Address: 305 Wells St., Greenfield, MA 01301.
Date of Introduction: 1985. September.

7140. **Product Name:** Tumaro's Tofu Enchilada Verde (Meatless Mexican Entree).
Manufacturer's Name: Tumaro's Inc.
Manufacturer's Address: 5300 Santa Monica Blvd., Los Angeles, CA 90029.
Date of Introduction: 1985. September.
Ingredients: Incl. tofu, green chilies, vegetables, corn tortilla, tomatillo, green chili sauce.
Wt/Vol., Packaging, Price: 10 oz, 6 per case.
New Product–Documentation: Food Report (Lehmann). 1985. Sept. "Dairyless Mexican entree wrapped in a corn tortilla with green tomato sauce." Spot in Natural Foods Merchandiser. 1987. March. p. 20; Leaflet. 1987, dated. 8½ by 11 inches. Brown and green on beige. "Order Tumaro's tasty Mexican entrees today! all under 200 calories!" Lists nine varieties. "A delicious, dairyless enchilada."

7141. **Product Name:** Croissant Cuisine: Tofu Mexicana (Whole Wheat Stuffed Croissants).
Manufacturer's Name: Tumaro's Inc.
Manufacturer's Address: 5300 Santa Monica Blvd., Los Angeles, CA 90029.
Date of Introduction: 1985. September.
Ingredients: Tofu, tomatoes, bell peppers, onions, celery, corn, serrano chilies, tamari, corn oil, spices, sea salt.
Wt/Vol., Packaging, Price: 6 x 6.5 oz.
New Product–Documentation: BLRF. 1985. Sept. Leaflet. 1987, undated. 8½ by 11 inches. Blue on beige. "A brand new line. Delicious! Unique! Exciting!"

7142. *Daily Leader* (*Stuttgart, Arkansas*). 1985. Far Eastern food market offers outlet for food-type soybeans. Oct. 2. p. 16C. Insert.
• ***Summary:*** Chris Hartz is manager of the Food Beans section of the Hartz Seed Company. He sells food-type soybeans in the USA and Far Eastern markets for use in making food products such as natto, tofu, bean sprouts, and soymilk. Hartz Seed Company has made a commitment to expanding its position in the soybean food markets and to taking a position as a leader in this field. A photo shows Chris Hartz, who is also involved in real estate.

7143. Kates, Joanne. 1985. Tofu for a small planet [Stephen Yu and Victor Foods in Toronto]. *Globe & Mail* (*Toronto, ONT, Canada*). Oct. 4.
• ***Summary:*** Stephen Yu grew up in Canton, then fled to Hong Kong in 1959 with his family when he was 12. In 1969 he went to Halifax, Nova Scotia, to help his older brother run a Chinese restaurant. He soon owned 2 restaurants in Halifax, then went to California to study engineering at Pasadena College. One day a visiting professor at his food science course lectured on soybeans, food of the future. Mr. Yu was fascinated. He learned to make tofu working for the largest tofu maker in Los Angeles. He sold his 2 restaurants and his house, took his life savings out of the bank, and opened Victor Foods in Scarborough in 1978. A big leap forward came in 1980, when he got his products into supermarkets. "But he never forgets his basic market. Tofu puffs (deep fried tofu) are made for Chinatown, even though nobody else wants them."

"Today Kathleen O'Bannon, his staff home economist, makes tofu chicken pie and tofu chicken salad. Neither has a hint of chicken, save the chicken stock used to marinate the tofu. Yet both, thanks to the stock, taste chicken-like."

Stephen Yu now makes 2 tons of tofu a day, and sells a million dollars worth of tofu a year. He is now introducing a new extra firm tofu called Hi-Pro. He dreams of tofu french fries, pudding, yogurt, and cereal, plus Tofu Cup-a-Soup.

A photo shows Stephen Yu. Address: Canada.

7144. Foote, C.F., Jr. 1985. Tofu business sprang from this hunch... [Willa Abramson and To-Fitness in Miami]. *Miami Herald.* Oct. 7. News section.
• ***Summary:*** In 1983 Willa Abramson discovered Tofutti on Third Avenue in New York. She persuaded David Mintz to give her newly formed company WRA Distributing (Willa Rose Abramson) an exclusive for soft serve Tofutti in Florida. In May 1984 the tiny distributor changed its name to To-Fitness and went public. Now it is a fast-growing marketer and developer of its own tofu-based and nutritional foods. In the first 6 months of 1985 To-Fitness had sales of

© Copyright Soyinfo Center 2013

$644,290 ($28,500 profit), up from $92,000 for the same period the year before. Address: Florida.

7145. *Republic* (*Fairfield, California*). 1985. Tofu makes hi protein smoothie. Oct. 9.
• ***Summary:*** A delicious smoothie, containing no eggs or milk, can be made with "smooth and creamy shelf-stable Kikkoman Tofu." The recipe is given. For more recipes "send a stamped, self-addressed envelope to: 'The Joy of Tofu,' Kikkoman International Inc., P.O. Box 784, San Francisco, California 94101."

7146. Flentge, Robert L. 1985. Tofu [a potentially hazardous food]. *Illinois Dept. of Public Health. Office of Health Regulations. Division of Food, Drugs and Dairies. Technical Release* No. 12. 1 p. Oct. 10.
• ***Summary:*** This release on tofu was sent by the Division. of Food, Drugs and Dairies, Office of Health Regulations, Illinois Dept. of Public Health to Food Sanitarians in Illinois. "Tofu, a jellied soy bean product that is the mainstay of many oriental diets, is gaining popularity in this country. Because tofu is such a nutritious food, it is also an excellent media for bacteria.

"Research has found that tofu will support bacteria that produce botulism, salmonellosis, and staphylococcal food poisoning if it is stored at a temperature above 41ºF. This is not a product in the orient where the product is consumed within a day or two of when it is made. However in the United States, it may be expected to have a shelf life of three weeks.

"Many times when tofu is displayed in a retail store, it is unrefrigerated and placed next to the oriental vegetables in the produce case.

"Tofu is a potentially hazardous food as defined in Section 760.20 of the Retail Food Store Sanitation Rules and Regulations; it must be handled accordingly."

Note: These rules and regulations are Illinois state regulations, not federal regulations. Address: Chief, Div. of Food, Drugs and Dairies, Office of Health Regulations.

7147. Tepper, Robert. 1985. Soy Supreme and Oberg's spray dried tofu (Interview). *SoyaScan Notes.* Oct. 10. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** The process uses whole soybeans to make a full-fiber soymilk. This can be either spray dried directly or made into calcium sulfate tofu, which is spray dried using large cheddar cheese spray driers. Paul Taylor is the active man. Mr. Oberg is not involved. Lou Osterbur in Quincy, Illinois is the sales and production manager. Address: Barricini Foods, Oyster Bay, New York.

7148. Gibbons, Barbara. 1985. How to cut back on your calorie intake by cooking with tofu. *Los Angeles Times.* Oct. 17. Widely syndicated. [1 ref]
• ***Summary:*** The article begins: "For food marketers, tofu has become the next yogurt or granola, an ingredient with a 'fitness' mystique.

Contains recipes for Tofu mayonnaise, Tofu tartar sauce, Tofu sour cream, Low-calorie tofu vegetable lasagna.

7149. Tofu Shop Specialty Grocery and Deli (The). 1985. Try an authentic Humboldt Tofu Burger "Hot with all the fixin's" (Ad). *Tri-City Weekly, Northern Humboldt edition.* Oct. 22. p. 19.
• ***Summary:*** This 5¼ inch square ad features a large illustration of the Specialty Grocery and Deli storefront done by Laurie Teske (a woman) in 1985. There is a bench by the front door, a planter in front of the windows, and a thatched roof. Hanging from the top of the doorway is a Japanese *noren* or composite cloth curtain with Japanese characters written vertically on each of the pieces of cloth.

"Just over the foot bridge from HSU" [Humboldt State University]. Buy 1 hot tofu burger and get the 2nd at ½ price with this ad. Plus–Hot turnovers. Unique salads. Delicious desserts. Specialty groceries, & more. Open daily 8-8."

Note 1. Letter (e-mail) from Matthew Schmit. 2009. April 6. The "cloth in the doorway did come from Japan. It was a gift from a neighbor who had been in the service in Japan and made regular trips back there. On one of these trips, I asked him to look for any appropriate tofu shop art, etc. He also brought back a jacket, of the style shown in your books worn by tofu makers, black with white logo on the back. For years, we used to display it at demos and fairs until a Japanese woman translated the figures as the name of a lawn service company! Anyway, I never found out what the figures in the doorway cloth translated as."

The "thatched" roof is actually "artistic license." The "roof" as shown is actually a canvas awning. The actual roof of the building is flat. The building is 1,000 square feet, 25 by 40 feet.

Note 2. Many shops (including tofu shops) in Japan have *noren* or curtains over their entrances. It generally bears the name and trademark of the shop in white on cotton cloth dyed in black, brown or grey. The *noren* is more than a sign; it symbolizes the reputation or standing of a shop. When a shop apprentice finished his long apprenticeship and became an expert in the trade, he was formally allowed to leave and start his own business, with permission to use the *noren* of his master-employer. This was called *noren-waké* or "dividing the noren." "This privilege was not given unless the apprentice was found able to keep up the tradition and reputation of his master's shop." This may be seen as a self-regulating system of quality control (Source: *Things Japanese,* by Mock Joya; 1960, p. 85-86).

Note 3. Letter (e-mail) from Matthew Schmit. 2012. May 18. "Our Tofu Burger was baked. If I remember correctly, the ingredients were based on a recipe we found for deep-fried 'Dragon Balls' made with ganmo. Our Tofu

© Copyright Soyinfo Center 2013

Burger has always been baked. We still offer this burger today." Address: 768 18th St., Arcata, California. Phone: Take out: 822-7409.

7150. Engel, Margaret. 1985. Relaxation and rice: Its mind over body at Natural Foods Expo. *Washington Post.* Oct. 27. p. G4.
• ***Summary:*** This Expo is a four-day gathering in Washington, DC, of 5,000 food manufacturers who are selling "everything from soy-burgers to no-sugar candy bars" and even "tofu hot dogs."

7151. **Product Name:** Tofu Burgers.
Manufacturer's Name: 21st Century Foods Inc.
Manufacturer's Address: 30A Germania St., Jamaica Plain, MA 02130. Phone: 617-522-7595.
Date of Introduction: 1985. October.
Ingredients: Organic tofu, sourdough bread crumbs, vegetables, roasted sesame seeds, herbs, spices.
Wt/Vol., Packaging, Price: 5.5 oz.
How Stored: Refrigerated.
New Product–Documentation: Label. 1987. 3 inches diameter. Red, green, black, orange, and white. "All natural. Organic. Gourmet. Ready to eat. Pareve." Howard Posner. 1987. 21st Century Whole Foods Cook Book. Inside rear cover. Talk with Rudy Canale. 1988. Sept. 13. The invoice for printing the labels for this product is dated Oct. 1985.

7152. **Product Name:** Tofu Nog (Non-Dairy Eggless Eggnog. Formerly Soynog).
Manufacturer's Name: Brightsong Foods.
Manufacturer's Address: 100-A Poultry St. (P.O. Box 2536), Petaluma, CA 94953.
Date of Introduction: 1985. October.
Ingredients: Water, tofu (water, soybeans, calcium sulfate), honey, soybean oil, natural flavors, spices, nutmeg, vegetable gums (guar gum, carrageenan, cellulose gum), lecithin, turmeric for color.
Wt/Vol., Packaging, Price: 15 fluid oz (444 ml) Pure Pak carton.
How Stored: Frozen or refrigerated.
New Product–Documentation: Label. 1985. Red on white. Pure Pak carton. "Tofu Nog is a special holiday treat! Made with tofu instead of milk and eggs, Tofu Nog is the delicious alternative to Egg Nog. Since 1980 Brightsong Foods has made this wonderful dairy-free drink for those who are concerned about their diet, but don't want to compromise flavor and quality. Compared to Egg Nog, Tofu Nog is low in fat, calories and sodium, high in calcium, and free of cholesterol and lactose."

Spot in Frozen Food Age. Nov.; Poster. 1986. "Tofu Nog... Is Back! Back for the holiday season for the fifth year in a row." One ingredient listing has: Water, tofu, fructose, honey, natural flavor, spices, natural vegetable gums, soy lecithin, annatto for color.

Associated Press news release in San Francisco Chronicle. 1986. Nov. 24. "Petaluma: The traditional holiday drink of egg nog will take on a new twist again this year." "Tofu Nog," made by Brightsong Foods, is non-dairy, free of eggs (it uses tofu instead), sweetened with honey, and free of cholesterol. Brightsong has been selling the product since 1981, when it was named "Soynog." Also available this year is Pumpkin Puddin,' a tofu-based dessert.

7153. Coudert, Guy. 1985. Le soja dans l'alimentation [Soyfoods]. *Point Soja–Soyfoods*. Autumn. p. 7. [Fre; Eng]
• ***Summary:*** A brief introduction to soyfoods, traditional products (Asia), modern products (Occidental), markets. Concerning modern products: "Isolates are expanding the fastest. The pet food market would be the biggest market for vegetable proteins. This market will remain highly specialized, to the difference of the one for traditional products, because it will save the agribusiness industry in priority." Address: Director of Marketing, ONIDOL.

7154. Eastern Foods Corp. 1985. Non-dairy frozen dessert comparisons (Leaflet). Minneapolis, Minnesota. 1 p. Single sided. 28 cm.
• ***Summary:*** Compares Tofulicious, Tofutti, Gloria Vanderbilt Glace, Tofait, Tofruzen, Tofulite, and Tofutti Hi-Lite (Vanilla or vanilla with nuts) for calories, protein, carbohydrates, fat, and sodium. All have no cholesterol. Address: 3235 E. Hennepin Ave., Minneapolis, Minnesota 55413.

7155. **Product Name:** Frostig (Non-Dairy Beverage) [Chocolate, Mountain Berry, Piña Colada, or Orange Juice].
Manufacturer's Name: Frostig Inc.
Manufacturer's Address: Incline Village, Nevada.
Date of Introduction: 1985. October.
Ingredients: Water, tofu, sucrose, corn sweetener, orange juice, pectin, natural flavors, citric acid, sodium citrate, annatto.
Wt/Vol., Packaging, Price: 32 fluid oz laminated milk-carton type container.
How Stored: Refrigerated.

7156. **Product Name:** Base #1250 (Tofu Base and Stabilizer for Non-Dairy Soy Ice Creams).
Manufacturer's Name: Germantown Manufacturing Co.
Manufacturer's Address: Broomall, Pennsylvania.
Date of Introduction: 1985. October.
How Stored: Shelf stable.
New Product–Documentation: Food Processing (Chicago). 1985. Oct. p. 125. "Tofu Base. Base #1250 supplies both stabilization and tofu to finished non-dairy frozen desserts. The product contains a specially processed dry tofu... By utilizing the base, frozen dessert processors can produce a non-dairy frozen dessert with tofu as easily as they can

produce ice cream."

7157. **Product Name:** Tempeh Delites [Mild Cutlets, or Sticks; Spicy Cutlets, or Sticks].
Manufacturer's Name: Harvest Earth Foods.
Manufacturer's Address: 2789 Steamboat Springs, Rochester, MI 48063.
Date of Introduction: 1985. October.
Ingredients: Tempeh. Batter and breading: Certified organically grown corn, hard red spring and winter whole wheat, brown rice, barley malt, tofu, soybean oil, bicarbonate of soda, rare herbs, imported spices.
Wt/Vol., Packaging, Price: 6 per 16 oz pack.
How Stored: Frozen.
New Product–Documentation: Spot in Natural Foods Merchandiser. 1985. Oct. Made from certified organically grown soybeans and whole grains. Leaflet. 1985, undated. "Create a main course or sandwich! Fully cooked–Just heat & serve."

Product Alert (Naples, WY). 1986. March 17. "16. Frozen misc. foods." Tempeh Delites from Harvest Earth Foods of Rochester, Michigan, comes in four varieties. Mild Cutlets and Spicy Cutlets with 6 per pack. Mild Sticks and Spicy Sticks with 9 per pack. All four are in 16 oz size.

Talk with Charles J. Leonardi, owner. 2001. May 18. Harvest Earth Foods is now located at P.O. Box 816, Sterling Heights, Michigan 48316. Phone: 810-469-1730. Charles bought the company from Dr. Jerry Skrocki, the founder.

7158. **Product Name:** Tofu Tortellini.
Manufacturer's Name: Ithaca Soy.
Manufacturer's Address: 403 N. Plain St., Ithaca, NY 14850.
Date of Introduction: 1985. October.
Ingredients: Dough mixture: Durum flour, semolina, water, tomatoes (red pasta), spinach (green pasta). Filling: Organically grown soybeans, water, rice miso, spices, tofu made with calcium sulfate.
Wt/Vol., Packaging, Price: 16 oz in clear plastic wrapper with a stick-on paper label.
How Stored: Refrigerated or frozen.
New Product–Documentation: Label. 1985. "Great hot with sauce and in soups! Delightful cold in marinated salads." Product Alert. 1985. Oct. New Product News. 1988. Dec. 9. "A 4 oz. package is sold nationally in health food stores." Soya Newsletter. 1988. Nov/Dec. Gives company name as Ithaca Soyfoods Co. Pasta is tri-colored: tomatoes color red and spinach colors green. Now sold frozen. Contact: David Scovronick.

Leaflet (8½ by 11 inch, glossy color, front and back) sent by Richard Rose from Natural Products Expo East. 1989. Sept. "Ithaca Soyfoods Tofu Tortellini."

7159. **Product Name:** Tofu-Kan (Very Firm Chinese-Style Tofu).
Manufacturer's Name: Ithaca Soy.
Manufacturer's Address: Ithaca, New York.
Date of Introduction: 1985. October.
Wt/Vol., Packaging, Price: 8 oz vacuum pack. Retails for $1.89 (10/85). Price had increased to $2.79 by Dec. 1988.
How Stored: Refrigerated.
New Product–Documentation: Product Alert. 1985. Oct. New Product News. 1988. Dec. 9. "Baked, marinated tofu that is ready to eat..." Soya Newsletter. 1988. Nov/Dec. Gives company name as Ithaca Soyfoods Co. "A baked and marinated, ready-to-eat tofu..."

7160. Kaderas de Kerleau, A. 1985. Association Européenne du Soja [Soyfoods European Association]. *Point Soja–Soyfoods.* Autumn. p. 1-2. [Fre; Eng]
• ***Summary:*** "To answer the desire expressed by many tofu and soyfoods makers, the ARTS in collaboration with ONIDOL CIS, will organize in Paris on 12-13 March 1986 the second European Soyfoods Workshop.

This workshop will provide the opportunity for giving a legal structure to the European Soyfoods Association (*l'Association Européenne du Soja*), announced at the first workshop, in Amsterdam [Netherlands] (Sept. 1984).

This workshop is for all people involved in the soyfoods industry: soyfoods makers, distributors, specific equipment manufacturers, farmers, nutritionists, medical doctors, consumers...

The program will discuss the specific problems of this new industry: Development of European standards, soybean cultivation and supply, distribution and marketing, specific equipment, nutritional aspects, tofu makers in Europe, etc. The detailed program will be sent to those who are interested, and return the following form." A clip-out reply form is enclosed.

Note: This is the earliest document seen (Jan. 2003) concerning a European Soyfoods Association. Address: ARTS, 108 rue St. Honore, Paris, France.

7161. **Product Name:** Mori-Nu Silken Tofu [Soft, Firm, or Regular].
Manufacturer's Name: Morinaga Nutritional Foods, Inc. (Importer). Made in Japan by Morinaga Nyugyo.
Manufacturer's Address: 5800 South Eastern Ave., Suite 270, Los Angeles, CA 90040.
Date of Introduction: 1985. October.
Ingredients: Water, soybeans, glucono delta-lactone, monoglycerides, calcium chloride.
Wt/Vol., Packaging, Price: 10.5 oz (297 gm) Tetra Brik carton.
How Stored: Shelf stable.
Nutrition: Soft: Per 5.25 oz (148 gm): Calories 80, protein 7 gm, carbohydrate 4 gm, fat 4 gm.
New Product–Documentation: Label. "No preservatives.

© Copyright Soyinfo Center 2013

Ready to serve. Guaranteed fresh. High in Protein, High in Polyunsaturates, No Cholesterol, Low in Calories/Fat/Sodium. U.S. Patent 4,000,326." This is a new Morinaga label, with the word "Tofu" written sideways in very large letters.

7162. *Organica.* 1985. What ever happened to the American hot dog? 4(5):9. Autumn.
• ***Summary:*** Praise for Lightlife Tofu Pups (meatless tofu-based hot dogs), seen at the Whole Life Expo in Boston, Massachusetts.

7163. *Plenty Canada News* (*Lanark, Ontario, Canada*). 1985. St. Lucia soy shop opens. Oct. p. 2.
• ***Summary:*** "Plenty's soy shop/training centre in Castries, on the Caribbean island of St. Lucia, opened in July [1985] and became a success almost overnight. The centre trains soy food technicians, develops recipes to fit traditional tastes, and wholesales soy products to retail soyfood outlets. It also provides a market for soybeans produced by local farmers.

"Products of the centre, such as tofu, accras (soy fritters), and soy flour, are rapidly gaining popularity in St. Lucia.

"The soy centre is part of an effort to introduce new sources of protein which are inexpensive and can be produced locally. At present St. Lucia imports most of its protein foods."

A photo shows trainee Glen Moses standing in front of a motorized mill, which is grinding soaked soybeans to make tofu. Address: Plenty Canada, R.R. 3, Lanark, ON K0G 1K0, Canada.

• ***Summary:*** This story first appeared in *La Lettre de l'ARTS* No. 2. p. 2-3. Summer–which see.

7165. *Point Soja–Soyfoods.* 1985. L'intérêt du Club de Dakar pour le soja [The Club of Dakar's interest in soybeans]. Autumn. p. 3. No. 3. [Fre; Eng]
• ***Summary:*** The Club of Dakar is a non-governmental organization, unique in the sense that it is composed of about 200 people from both inside and outside Africa. Their purpose is to develop efficient solutions in the fields of cooperation and development. Three years ago, when the Club got involved with the soybean and saw its real usefulness for African countries, it requested an overview of the situation. Two young Africans, M. Gomes and M. Toumbi, were asked to make the first survey of soybean cultivation in Africa and of information available regarding the development of soybeans in Africa. The main conclusions of the report are: Soya is not unknown in Africa, but it has undergone an uneven and discontinuous development. The only perspective that would allow the development and prosperity of Africa's soybean complex would be in cooperation with Europe. Also new soyfood products such as tofu, tempeh, and flavored soymilk must be tested in Africa. A great deal of work on soybean cultivation has been done by the IITA in Ibadan, Nigeria, and by various institutes in Senegal. For more information and to order publications on soy in Africa and on Biotechnics, contact The Club of Dakar, Administrative Secretary, 4 Avenue Hoche, 75008 Paris, France. Phone: 42-67-16-00.

7166. Roger, Patrick. 1985. Interview de Jean Claude Sabin, Président du CIS-ONIDOL [Interview with Jean Claude Sabin, President of CIS-ONIDOL]. *Point Soja–Soyfoods.* Autumn. p. 1-2. [Fre; Eng]
• ***Summary:*** Concerning the history of soybeans in France, cultivation on a national scale dates back to 1973 after CETIOM had done some research in the preceding years. Before that, soybeans were widely grown during World War II, sometimes even with strong pressure from the Vichy government. Soybeans used to be roasted to make coffee.

"During the 1960s experiments with soybean cultivation were conducted, one of them initiated by M. Dolfuss, who made an unsuccessful attempt at the time at being elected a deputy. He used a pamphlet together with a documentary film on soybean cultivation. But at the time there were no guidelines for growing soybeans, and no seeds were available. "I became interested in soybeans in 1965, because of the large amounts being imported for animal feed. Around the same time, heads of the French oil industry asked the Ministry of Agriculture to start a research program... So CETIOM conducted experiments in soybean cultivation and microbiological research on the inoculum. Without the 1973 American soybean embargo, there still would not be any soybeans grown in France. President Pompidou became angry in the middle of a Council of Ministers meeting, and a research mission was sent to the U.S.

"On the cultivation level, the pioneer areas [departments] were Tarn, Haute-Garonne, and Gers [all located in the southwest of France], with some experiments in Bas Rhône. Later the growing expanded northwards... Around 1965 the GATT accords were signed. The U.S. allowed corn to develop, but locked up soy growing. Since that time, there have been no custom duties on oilseed products in Europe. And until the embargo, none of the politicians ever noticed that fact! Then, after 1979, and the new soy *reglementation* [system with strict regulations for growing soybeans], this crop has been in steady expansion." Mr. Proudon has played a key role in this process.

France needs to reduce its surpluses of cereals (such as wheat), expand production of oilseeds, and use the two to balance crop rotations. "I am quite a believer in soyfoods. Our western food habits are out of balance. People are starting to look for a different way of feeding themselves... I do think that tofu and tempeh have very good prospects."

7170. **Product Name:** [Tofu Burgers].
Foreign Name: Tofu–Bratlinge.
Manufacturer's Name: Tofuhaus Tiefenthal.
Manufacturer's Address: Hauptstrasse, D-6719 Tiefenthal, West Germany. Phone: 06351-43718.
Date of Introduction: 1985. October.
Ingredients: Tofu, okara, brown rice, whole wheat flour, vegetables, sesame, flaxseeds, soy sauce, sea salt, and spices.
Wt/Vol., Packaging, Price: 2 pieces per 150 gm vacuum pack.
How Stored: Refrigerated.
New Product–Documentation: Leaflet. 1988. The ingredients are freshly prepared, fried, and packed after cooling. They make 5,000 to 7,000 pieces/month. Form filled out by Albert Hess. 1988. Dec. 1. This product was introduced in July 1986. Label. 1988, received. 5.5 by 4.25 inches. Black on tan.

Label brought by Albert Hess. 1995. March 11. 2.5 by 4 inches. White and green on orange. An illustration shows a large personified cake of tofu, with smiling face and arms held out. The product name is now simply "Tofu Bratlinge."

7171. **Product Name:** ["Samurai" Tofu Slices].
Foreign Name: Tofu Schnitte "Samurai".
Manufacturer's Name: Tofuhaus Tiefenthal.
Manufacturer's Address: Hauptstrasse, D-6719 Tiefenthal, West Germany. Phone: 06351-43718.
Date of Introduction: 1985. October.
Ingredients: Whole wheat flour (80%), freshly roasted soy flour (Sojamehl, 20%).
Wt/Vol., Packaging, Price: 500 gm bag.
How Stored: Shelf stable.
New Product–Documentation: Label brought by (and talk with) Albert Hess of Albert's Tofuhaus. 1995. March 11. 2.5 by 4 inches. Green, black, and white on red. An illustration shows a large personified cake of tofu, with smiling face and arms held out. The product name is now "Tofu Samurai–mild geräuchert" (mildly smoked).

7172. **Product Name:** [Tofu "Croquettes"].
Foreign Name: Tofu–Kroketten.
Manufacturer's Name: Tofuhaus Tiefenthal.
Manufacturer's Address: Hauptstrasse, D-6719 Tiefenthal, West Germany. Phone: 06351-43718.
Date of Introduction: 1985. October.
Ingredients: Tofu, okara, brown rice, whole wheat flour, vegetables, sesame, flaxseeds, soy sauce, sea salt, and spices.
Wt/Vol., Packaging, Price: 2 pieces per 150 gm vacuum pack.
How Stored: Refrigerated.
New Product–Documentation: Talk with Albert Hess of Albert's Tofuhaus. 1995. March 12.

7173. **Product Name:** Lamp-Lite Tofu Entrees [Stuffed Shells Florentine, Stuffed Cheese Shells, Carrot Pasta Manicotti, Carrot Pasta Lasagna, Lasagna Florentine, Manicotti Florentine].
Manufacturer's Name: Virgo Foods.
Manufacturer's Address: Burbank, California.
Date of Introduction: 1985. October.
How Stored: Frozen.
New Product–Documentation: Food Report (Lehmann). 1985. Oct.

7174. Whitman, Joan. comp. 1985. Craig Claiborne's The New York Times food encyclopedia. New York, NY: Times

© Copyright Soyinfo Center 2013

Books (div. of Random House). 496 p. Illust. (line drawings). 25 x 20 cm. [120* ref]
• ***Summary:*** The soy-related entries are as follows: Kecap (ketjap, p. 237): The Indonesian name for soy sauce in its basic form. "Kecap, with its broad uses in Indonesia, became simply 'table sauce' to English-speaking foreigners. By extension, ketchup became the national table sauce in America. See *also* Ketchup."

Ketchup (p. 238): *The New York Times* prefers to spell it ketchup, but catchup and catsup are generally accepted. The late Tom Stobart, in his *The Cook's Encyclopedia*, says that the word came into English 'from the Orient, perhaps from the Malay or Chinese.'

"'You find ketjap benteng or ketjap manis in Indonesian recipes and that is a form of sweet soy sauce,' he wrote. 'Cookbooks of the last century abound with recipes–oyster ketchup (oysters with white wine, brandy, sherry, shallots and spices), mussel ketchup (mussels and cider), pontac or pontack ketchup (elderberries), Windermere ketchup (mushrooms and horseradish), wolfram ketchup (beer, anchovies and mushrooms).'

"There are also ketchups made with walnuts, cucumbers, and many other items that caught some cook's imagination.

"A New Jersey man wrote to me that 'catchup is a Chinese invention and is still called in Cantonese *fan-kei cheop. Fan-kei* is the name for tomato, literally "foreign vine-vegetable" and *cheop* is juice as in *chang-cheop* (orange juice). The truncated word *kei-cheop* or catchup is obtained by dropping *fan.*

Soy Sauce (p. 419-20): Among Chinese soy sauces, dark/black soy sauce is thicker than thin/light because the former contains molasses.

Tofu (p. 451-52): There are said to be 7 kinds of tofu in Japan. "The best book on tofu making I know is *The Book of Tofu*, by William Shurtleff and Akiko Aoyagi. Published in paperback, it contains not only detailed instructions but also five hundred recipes." Note: This book is also listed in the bibliography.

Worcestershire Sauce (p. 483-86): Contains an extensive discussion of the history of Worcestershire sauce. "There are certain names in the world of wine and food that are inextricably linked... indelibly inscribed on the gastronomic roster is Lea and Perrins, makers of the original Worcestershire sauce, 'the original and genuine, from the recipe of a nobleman in the county,' as it reads on the label. The county in question, of course, is Worcestershire, England. The label does not reveal the name of the nobleman nor to this day will the producers of the sauce reveal it.

"The saga of the sauce dates back to the first years of the 1800s, when the governor general of Bengal returned from his post to his native England. He had in his possession a formula for a sauce that had been created in India. One that he had relished at his table and offered to his guests.

"At that time there were two chemists in the English Midlands named John Lea and William Perrins, partners in a then novel enterprise, a 'chain' of chemists shops. Their association had begun in the 1820s. Their main office was in the town of Worcester, in the shire, or county, of the same name.

"The governor general took the recipe to Mr. Lea and Mr. Perrins with a request that they try to reproduce it as closely as possible. The story goes that the chemists produced a concoction that was to their noses and tastes unpalatable. They stored it in the cellar and forgot it.

"Months, perhaps years, later they sampled it once more and found it not only acceptable but haunting in its flavor. Within a short while they were bottling the stuff, and it is a matter of genuine historical record that, without any kind of advertising as it is known today, in a few short years the Worcestershire sauce of Mr. Lea and Mr. Perrins was known and coveted in kitchens throughout the world...

"The incredible haste with which the fame of Worcestershire sauce spread is generally credited to the fact that the manufacturers loaded cases of the sauce on all the ocean liners that plied in and out of English waters. The stewards of the ocean-going liners were 'encouraged' with a few shillings here, a few pounds there, to offer the sauce to the passengers."

Today Lea & Perrins sauce is made at Fair Lawn, New Jersey.

Note: This is the earliest English-language document seen (Jan. 2006) that contains the term "mussel ketchup."

About the author: A portrait photo on the inside rear dust jacket shows Craig Claiborne, who was born in Sunflower, Mississippi, and now resides in East Hampton–at the eastern end of the south shore of Long Island, Suffolk County, New York. Address: East Hampton, New York.

• ***Summary:*** This Thanksgiving, some imaginative vegetarian cooks will mold their tofu in the shape of a turkey. Since 1979, retail sales of tofu and other soy foods (including soy sauce) have increased nearly fivefold in the USA, from about $41 million in that year to $104 million in 1981, rising to about $200 million in 1984–according to Business Trends Analysts (Commack, New York).

A graph from American Demographics shows "soy food sales" from 1979 to 1984. Address: Michigan.

7184. Lee, Stanley. 1985. Brief history of Quong Hop's "Bean Cake" (Interview). *SoyaScan Notes.* Nov. 18. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Wm. Shurtleff made an appointment with Stanley Lee to have lunch together in South San Francisco and talk about the history Quong Hop's fermented tofu.

The product, first made in 1906 in San Francisco, had always had a Cantonese Chinese name ("Fu-Yu") and an English name ("Bean Cake"). The English name was used mostly because of health inspectors and because of the Bureau of Alcohol, Tobacco and Firearms–especially during the Prohibition era (1920-1933) in the USA. There was no tax on the product until Prohibition went into effect.

There have always been inexpensive imports with which Quong Hop has had to compete, except during World War II. Today these were made mostly in Hong Kong (#1), China, and Taiwan (#3). The U.S. market is composed of about 90% imports and 10% Quong Hop–now the only manufacturer in the USA. The red label (regular, with no chili flakes added), is used mostly by restaurants and served mostly with beef. In about 1948 the Caucasian chef at a big Statler hotel in Boston started to use it as a seasoning in spaghetti sauce. Many types of fermented tofu use no alcohol; they just add lots of salt.

Another company on Sacramento St. in San Francisco may have made fermented tofu as early as 1904. Wo Chong also started making fermented tofu on Jackson St. in San Francisco.

From the early days until 1941 it could be packaged in two ways: (1) Pack in a can 4-5 inches tall, or (2) Pack in a cylinder 3 inches in diameter, pour in the solution, then seal the mouth with tough paper and paste. Glass pint jars came later, when World War II started and metal was rationed.

The company name, "Quong Hop," was the name of an old, famous company in Guangdong province not far from Canton. Stanley is the grandson of Quong Hop's founder. Address: Owner, Quong Hop & Co., 161 Beacon St., South San Francisco, California 94080. Phone: 415-873-4444 or 761-2022.

Nov. [6 ref. Jap; eng]
• ***Summary:*** Tofu-gels [slices / kiji] prepared from moderately heated soybean milk, expanded about 3-fold after deep-frying in oil, but one slice made from excessively heated soymilk did not expand. The mechanism of this expansion was investigated: (1) The minimum temperature for Tofu-gel expansion was 85ºC, which is the same temperature for denaturation of 11S protein. (2) The failure of tofu slices to expand was due to the decrease of the air content of soybean milk caused by excess heating of the milk. The air in soybean milk was transferred into tofu slices; it accelerated the vaporizing and resulted in proper expansion. (3) When soybean milk was coagulated at high temperatures, less expansion of tofu slices was observed.

Nov. [14 ref. Jap; eng]
• ***Summary:*** It was found that excess heating of the soymilk used for making aburaage resulted in less expansion of the tofu slices (tofu-gels). Why? (1) The expansion of tofu slices was inhibited by blocking or oxidising reagents for SH groups in soybean proteins, whereas it was accelerated by reducing reagents for S-S bonds. These facts suggests that SH bonds play an important role in the expansion of tofu slices. (2) The tofu slices could not expand significantly when prepared from soybean protein solutions where either SH groups were oxidized into S-S bonds or S-S bonds were reduced into SH groups. However tofu slices prepared by mixing two protein solutions expanded well. This suggests that SH and S-S exchange reactions are certainly involved in the mechanism of the expansion of tofu slices into aburaage. (3) The expansion rate of tofu slices was markedly decreased by heating soybean protein solutions under the conditions where the proteins easily associated or aggregated. On the contrary, the expansion rate was rapidly increased by mercaptoethanol or high urea concentration due to protein dissociation. This suggests that the association or aggregation of proteins by excess heating may prevent tofu slices from expanding when making aburaage.

7197. **Product Name:** Island Spring Tofu Burgers [Oriental Style, Italian Style, or Mexican Style].
Manufacturer's Name: Island Spring, Inc.
Manufacturer's Address: P.O. Box 747, Vashon, WA 98070.
Date of Introduction: 1985. November.
Ingredients: Oriental Style: Tofu (soybeans grown without chemical pesticides or fertilizers; water; bittern or nigari, an extract of seawater; natural calcium sulfate, traditional Chinese ingredient); highfiber tofu (as stated previously, plus soybean fiber); rolled oats; sesame seed; carrot; onion; green onion; soy sauce; ginger; corn oil.
Wt/Vol., Packaging, Price: Two 3-oz (170 gm) burgers per vacuum pack. 16 units per case.
How Stored: Refrigerated or frozen.
Nutrition: Per 3 oz: Calories 210, protein 11 gm, fat 12 gm, carbohydrates 15 gm, sodium 300 mg.
New Product–Documentation: Product Alert. 1986. March. Beachcomber (Vashon, Washington). 1986. Nov. 26. Talk with Yvonne Kuperberg of Island Spring. 1988. June 2. The product was introduced in November 1985 and vacuum packed. Label. 3.5 inches diameter. Self adhesive. Purple, black, yellow, red and green. Illustration of the moon rising over the hills behind a lake or sound. "A Fitness Food from the Pacific Northwest, USA."

7198. **Product Name:** Island Spring Extra Firm Tofu (Vacuum Packed).
Manufacturer's Name: Island Spring, Inc.
Manufacturer's Address: P.O. Box 747, Vashon, WA 98070.
Date of Introduction: 1985. November.
Ingredients: Soybeans organically grown in accordance with chapter 19.86 Sec. 3 revise code of WA state; water; bittern or nigari, an extract of seawater; natural calcium sulfate (traditional Chinese ingredient).
Wt/Vol., Packaging, Price: 12 oz (340 gm) vacuum packed.
How Stored: Refrigerated (34-36ºF).

7201. **Product Name:** Kikkoman Tofu: Soft Soybean Curd [Kinugoshi].
Manufacturer's Name: Kikkoman International, Inc. (Importer). Made in Japan by Kikkoman Corp.
Manufacturer's Address: San Francisco, CA 94111.
Date of Introduction: 1985. November.
Ingredients: Water, soybeans, glucono delta lactone, emulsifier–E471 [monoglycerides?].
Wt/Vol., Packaging, Price: 10.5 oz (297 gm) foil retort pouch inside a paperboard box.
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Per 100 gm: Calories 57, protein 5 gm, carbohydrate 1 gm, fat 4 gm, sodium 2 mg.
New Product–Documentation: Label. 1985. "No Preservatives. Keep in Cool Place–Do Not Freeze." Photo of Japanese-Style Chilled Tofu in bowl on front panel. Recipe on back for Chilled Tofu (Hiyayakko).

Package with Label sent by Dr. Walter Wolf of Peoria, Illinois. 2000. Aug. 5. The "use-by" date is 12 Dec. 1994. 6 by 3 by 1¼ inches. Blue, green, black, and orange on white and blue. Photo of Chilled Tofu cut into 8 pieces on a rectangular bowl with fern design, and the tip of a small fern frond atop the tofu. "High protein. No cholesterol. No preservatives. Sodium free." On the back are recipes for: Creamy corn soup. Tuna-tofu spread. Made by Kikkoman Corp. in Japan. Ingredients: Water, glucono delta lactone, and calcium chloride (coagulating agents).

7202. Levoy, Gregg. 1985. Fast food for the rest of us [McDharma's in Santa Cruz, California]. *New Age Journal* (*Boston, Massachusetts*). Nov. p. 8.
• ***Summary:*** Since 1982 restaurateur Clark Heinrich has been serving up Brahma Burgers (containing soy protein), Big Monks, Dharma Dogs (tofu), I'm Not Chicken (breaded tofu), and Nuclear Subs at his converted '50s style milkshake and burger joint in Santa Cruz, California. His walk-in vegetarian fast food relies heavily on tofu and beans. McDonald's is suing McDharmas for infringement of trademark, their famed prefix "Mc."

7203. **Product Name:** [Soy Burgers / Taifun Hop Sing Tofu & Okara Burgers].
Foreign Name: Sojaboerger / Taifun Hop Sing Gemuesebratling.
Manufacturer's Name: Life Food.
Manufacturer's Address: Wallstrasse 3, D-7800 Freiburg, West Germany. Phone: 0761/50 61 55.
Date of Introduction: 1985. November.
New Product–Documentation: Interview by Anthony Marrese. 1990. March. And price list. This was the company's first product. The original variety was "Full of cracked kernels" (*Kernig, knackig*) with green corn and sunflowers, or soybeans and fresh vegetables; they now make 600/week. In Dec. 1986 they introduced a cheese and paprika variety; they now make 350/week. In April 1989

© Copyright Soyinfo Center 2013

© Copyright Soyinfo Center 2013

they launched a hearty & spicy smoked tofu burger; they now make 400/week. These are also sold to restaurants in either fried or unfried form. Thus in early 1990 make they 1,250/week of three types.

The original name of the product was Sojabörger. But at the same time they used the name Hop Sing on special occasions when they went to present food in the marketplace or in pubs, or give it out at a rock concert. They have an ad with a cook and Hop Sing. It is a soy burger and most of it is okara.

7204. Messenger, Bob. 1985. Prepared Foods 1986 annual trends report: Consumers see the light... and the lean, with a touch of pizzazz. *Prepared Foods* 154(12):46-49. Nov.
• ***Summary:*** One trend discussed is the growing interest in tofu-based foods. "The dairy case is taking on a foreign flavor these days with the arrival of tofu as a bonafide consumer health food. Chinese people have always valued the health benefits of tofu, but it was, for the most part, available only in Chinese-owned retail operations. That has changed.

"Barricini Foods has added two new flavors (wildberry and rum raisin) to its line of Tofulite tofu-based frozen desserts, while Hawthorn Mellody, Schaumburg, Illinois, has introduced Tofait, the first of a line of non-dairy products containing 15-20% real tofu. Available in 8 flavors, Tofait is cholesterol- and lactose-free."

The main concerns among shoppers in 1985 regarding the nutritional content of their foods is 20% want less sugar, 19% want less salt, 18% are concerned with chemical additives (e.g., flavoring, MSG, steroids), 17% worry about the vitamin/mineral content, 14% about the food/nutritional value, 13% want no preservatives, 13% want foods low in fat, 11% want to make sure they get a balanced diet, and 10% are concerned about cholesterol levels in food. Address: Business editor.

7205. **Product Name:** Nasoya Creamy Tofu Dressing [Sesame Garlic, Fine Herbs, or Italian].
Manufacturer's Name: Nasoya Foods, Inc.
Manufacturer's Address: 23 Jytek Park, (P.O. Box 841), Leominster, MA 01453.
Date of Introduction: 1985. November.
Ingredients: Sesame Garlic: well water, Nasoya tofu, coldpressed sunflower oil, wood-aged apple cider vinegar, tahini (sesame paste), rice syrup, organic miso, coldpressed sesame oil, dehydrated garlic, seasalt, natural vegetable gum, dehydrated parsley. Fine Herb: Prepared mustard (vinegar, water, mustard salt, turmeric, spices, natural flavor), herbs (basil, rosemary, marjoram).
Wt/Vol., Packaging, Price: 12 oz glass jar.
How Stored: Shelf stable.
Nutrition: Per 14 gm.: Calories 40, protein 1 gm, carbohydrate 1 gm, fat 3 gm.
New Product–Documentation: See next page. Labels. 1985. 2.75 by 3.25 inch oval. Green, brown, red or orange on white. Vegetables on table illustration. "Non dairy. Nothing artificial." Ad in Vegetarian Times, Aug. 1986, inside rear cover. "Introducing Nasoya Creamy Tofu Dressings and Nasoyanaise." Ad in East West. 1986. Nov. p. 83, and in Vegetarian Times. 1986. Nov. p. 33. "Introducing... 2 New Ways to Enjoy the Goodness of Tofu!" Contains 25% tofu. Letter from Sjon Welters. 1989. July 24. The product pull date is code dated, month of production plus 12 months. The original ingredients have changed. A dill flavor was introduced in about Oct. 1986.

Letter from John Paino of Nasoya. 1990. Sept. 25. The company offices were moved from Mechanic St. Ext. to 23 Jytek Park in Dec. 1984; the plant was moved in March 1985.

7206. **Product Name:** Earthling Tofu Vegetable Burger.
Manufacturer's Name: Pacific Soyfoods.
Manufacturer's Address: 6644 Sexton Dr., N.W., Olympia, WA 98502-9551. Phone: 206-866-9661 or 206-866-9246.
Date of Introduction: 1985. November.
Wt/Vol., Packaging, Price: 8 oz. or 16 oz.
New Product–Documentation: Talk with Peter Lesser of Northwest Natural. 1991. Feb. 8. In about Nov. 1985. he introduced his first tofu burger, the Earthling Tofu Vegetable Burger. He bought the tofu for this burger from Boo Han.

7207. Przybyla, Ann E. 1985. Low calorie salad dressings with... Tofucream bases: Tofucream bases are freeze-thaw stable emulsions made from soy milk tofu and other functional ingredients. *Food Engineering* 57(11):58. Nov.
• ***Summary:*** Tofucream Base, for making "Tofu Salad Dressings," is made by blending tofu, isolated soy protein (used for its functional properties), and hydrocolloids. Tofu dressings made from these non-dairy bases are available in at least 8 flavors. The bases can also be used to create other cholesterol-free, lactose-free, reduced-calorie non-dairy products including frozen desserts (hard pack, soft serve, or novelties), dips, sauces, cookies, and other bakery items (replacing milk). from Yongkeun Joh, Advanced Food Systems, Inc., 69 Veronica Ave., Somerset, New Jersey 08873. A photo shows two jars of generic tofu dressings in Oriental and Ginger flavors. Address: Technical Editor.

7208. Rice, Judy. 1985. Gelled tofu in aseptic cartons: Processor estimates 10-month shelf life in non-refrigerated storage. *Food Processing* (*Chicago*) 46(12):133. Nov.
• ***Summary:*** About Mori-Nu brand tofu, now sold in regular and soft textures, by Morinaga Nutritional Foods, Inc., Los Angeles, California. The company is a newly formed subsidiary of a leading Japanese dairy products manufacturer, Morinaga Milk Industry Co., Ltd. Morinaga has been making and selling tofu in aseptic cartons to 32

© Copyright Soyinfo Center 2013

countries for 7 years. Before that time the company had been packaging its product in plastic containers which required refrigeration, that gave the tofu a 3-month shelf life. Morinaga projects first-year sales in the USA at 7 million packs. A photo shows two packages of "Mori-Nu Fresh Tofu." Address: Assoc. editor.

7209. Saio, Kyoko. 1985. [Tofu processing characteristics of Japanese domestic soybeans: Technical report]. *Shokuhin Sogo Kenkyujo Kenkyu Hokoku* (*Report of the National Food Research Institute*) No. 47. p. 128-49. Nov. [6 ref. Jap; eng]
• ***Summary:*** This technical report is by "Kyoko Saio and the Research Group of Tofu." Japanese domestic soybeans were found to be superior for making both regular and packaged tofu due to the whitish color of the tofu and soymilk they produced, and to the quality of the finished tofu. Address: 1. National Food Research Inst. (Shokuhin Sogo Kenkyujo), Ministry of Agriculture, Forestry and Fisheries, Kannon-dai 2-1-2, Yatabe-machi, Tsukuba-gun, Ibaraki-ken 305, Japan.

7210. **Product Name:** Savory Herb Pâté (With Tahini and Tofu).
Manufacturer's Name: Simple Soyman.
Manufacturer's Address: 4877 North Green Bay, Milwaukee, WI 53209. Phone: 414-264-4133.
Date of Introduction: 1985. November.
New Product–Documentation: Talk with R. Jay and Barbara Gruenwald. 1989. June 12. This product was launched in Nov. 1985, after they moved the business out of their home into the new, present location in July 1985.

7211. **Product Name:** Vegetarian Gourmet Tofu Quiche (Eggless).
Manufacturer's Name: Soy Source (Kenish, Inc.). Appropriate Foods Inc.
Manufacturer's Address: 137 New Hyde Park Rd., Franklin Square, Long Island, NY 11010.
Date of Introduction: 1985. November.
Ingredients: Organic tofu, whole wheat flour, durum semolina, unbleached wheat flour, water, spinach, soy oil, onions, lemon, sea salt, herbs, spices.
Wt/Vol., Packaging, Price: 6.5 oz.
How Stored: Frozen.
New Product–Documentation: Label. 1985. Sept. 3 by 3 inches. Self adhesive. Dark purple on light purple. "Delicious. Quick and Easy. Cholesterol Free. No Preservatives." Kennedy. 1987. New York Times. June 24. Interview with Robert Werz. 1987. Sept. 9.

7212. **Product Name:** Ed & Andy's Original Sweet and Sour Tofu.
Manufacturer's Name: Walker and Wilks Tofoods.
Manufacturer's Address: P.O. Box 3763, Silver Spring, MD 20901.
Date of Introduction: 1985. November.
New Product–Documentation: Label. 1986, undated. 5 by 7 inches. Full color with photo. Przybyla. 1987. Food Engineering. April. p. 74. "First introduced in 1985."

7213. **Product Name:** Ed & Andy's Original Bar-B-Q Tofu.
Manufacturer's Name: Walker and Wilks Tofoods.
Manufacturer's Address: P.O. Box 3763, Silver Spring, MD 20901.
Date of Introduction: 1985. November.
New Product–Documentation: Label. 1986, undated. 5 by 7 inches. Full color with photo. Przybyla. 1987. Food Engineering. April. p. 74. "First introduced in 1985." Talk with Andy Wilks. 1987. Dec. 10. The reformulated version of this was the best seller of their three products, best received in Southern California and Arizona.

7214. Praskin, Laurie Sythe. 1985. The Farm soy history: An overview. Part I. Los Gatos, California. 10 p. Dec. 1. Unpublished manuscript. [Eng]
• ***Summary:*** "In 1971, a unique group of people settled in the Tennessee backwoods to live an alternative lifestyle, committed to living collectively off the land. The community of 200 people came to be known as The Farm and over the years grew to 1,500 residents, gaining international and domestic fame for its community ideals, lifestyle, alternative technologies, [midwifery], and vegetarian diet based on soybeans. Soy technologies practiced and developed on The Farm became the seed for many tofu and tempeh shops that sprang up around the world in the years that followed. Community members started the first [sic, sixth] commercial soy ice cream company, and the first soy 'deli.' Some went on to start several of the major tempeh shops across the United States and Canada and others helped start a network on international soy programs in underdeveloped countries. Innovative recipes developed by Farm members led to the publication of three cookbooks which have made a large contribution to the growing acceptance of soybeans and tofu in the American diet.

"When The Farm was first settled in 1971, most of the people were already vegetarians. There were a variety of reasons for their personal choices: (1) an unwillingness to kill in order to live (feelings which stemmed from religious beliefs similar to the Buddhist religion, as well as pacifist attitudes deepened during the Vietnam War); (2) a growing awareness that meat was too costly to produce and that if more people at lower on the food chain there would ultimately be more food to go around in the world; (3) evidence of the healthful benefits of a vegetarian diet; (4) a belief that the dairy industry practiced cruel and exploitive methods on animals and a reluctance to support that system.

After the community was established, the entire membership decided to adhere to a complete vegetarian [vegan] diet devoid of all animal products, including eggs

© Copyright Soyinfo Center 2013

and dairy. They wanted to create a self-sufficient community, eating primarily what they grew on the land. They also wanted to be an example of how people could eat foods lower on the food chain to help create a larger supply of food in the world. During the search for a nutritionally sound vegetarian diet, they settled on soybeans as the main form of vegetable protein, as soybeans have one of the highest and most complete protein contents and are more versatile than any other vegetable protein. Many of the members had already been eating tofu and other soy products before The Farm, but acquiring these foods in the middle of the Tennessee woods was not an easy job. Soybeans were readily available, as they were used as local cattle food, but the challenge was how to create healthy and appetizing foods from them. Besides the Asian population and some Seventh-day Adventists, there weren't many people in the U.S. at the time actually eating soybeans, let alone trying to use them as the main source of protein.

"There were not many physical resources available as the people arrived with few possessions, lived in buses and tents, and had little capital to work with (a typical Third World situation). Some people owned Corona hand mills and occasionally ground soybeans to make fresh milk or tofu, using the recipe in the Seventh Day Adventist's Ten Talents cookbook. Fearn Instant Soya Powder was purchased and used for making soymilk, tofu, yogurt, and 'soy butter'. Just a few families owned pressure cookers so people cooked large communal pots of soybeans, taking turns 'watching the pot,' since they boiled them for 16 to 20 hours, to be sure they were digestible.

"By 1972 the Farm had its own flour mill that ground soybeans into full-fat soy flour and soy grits. The community was then able to make fresher soymilk, and tofu, as well as add soy flour to baked goods for added protein. They developed a curded soy flour base that was spiced and used as a sandwich spread, and they also baked soy flour 'souffle.'

"During these early days while the diet was still being worked out, the young children were given eggs for their protein source. Margaret Nofziger, the Farm's dietician, wanted to provide the babies and young children with a soy formula as a weaning food. She asked Alexander Lyon, a Farm member with a Ph.D. in microbiology, to research how the community could make the formula. He began an extensive research both in libraries and through correspondence. Fortunately, there were studies available about the uses of soy for human food consumption. Alexander, (Dr. Lyon) contacted Dr. Hesseltine and Dr. Wang of the Northern Regional Research Center in Peoria, Illinois, and Dr. Steinkraus of Cornell University in New York. These researchers provided a treasure of information to Dr. Lyon and to the soy technicians that followed. Other scientists who should be credited for their early and helpful research are Dr. Harry Miller with Loma Linda Foods and Malcolm Bourne with Cornell University.

"All of the information gathered by Dr. Lyon led to the start of the Farm Soy Dairy in 1972. After learning the basic processes involved in soy milk preparation, Alexander began collecting used equipment that could be adapted for the use of making soymilk. The original soy dairy was very small, with a production capacity of 20 gallons of soymilk a day, and expanded over the years as the soy technicians were able to find and add new equipment to their dairy. This dairy became a cross between a Japanese tofu shop and American ingenuity. The Farm Soy Dairy had no capital to start operations and no investors beside the Farm itself. Cash was hard to come by and as with all other commodities on the Farm, the products were distributed freely to community members. For these reasons, the soy technicians had to be creative and imaginative in how they obtained equipment and how they adapted such equipment to their needs. Over the years, they went to auctions, scrap metal yards and used restaurant equipment houses. They bought, bartered and traded for their equipment. They designed their own systems in their welding shop and then re-designed them to make improvements and to increase production. They became a school, learning as they went along. In 1975, Laurie Sythe Praskin, one of the early workers in soy dairy, succeeded Dr. Lyon in managing the operation. Over the next 4 years, with David Handel and Michael Halpin as equipment developers, weekly production increased to 800 gallons of soymilk, 600 lbs. of tofu, 80 gallons of soy yogurt, and a varied amount of soy ice cream." Continued. Address: 17969 Oak Dr., Los Gatos, California 95030.

7215. Praskin, Laurie Sythe. 1985. The Farm soy history: An overview. Document part II. Los Gatos, California. 10 p. Dec. 1. Unpublished manuscript. [Eng]

• ***Summary:*** Continued: In 1975, Farm members started a company to promote the use of soybean products in the America diet. The company, named simply Farm Foods [Farm Food Company], began sales on the East Coast with full-fat soy flour (ground fresh on The Farm), TVP (texturized vegetable protein), Good Tasting Nutritional Yeast, split soybeans, and Tempeh Starter Kits (developed by Cynthia Bates and Dr. Lyon). In 1976, under the management of Leticia Coate and Robert Tepper, Farm Foods began participating in national health food trade shows. At the time, they were one of the only companies representing soyfoods. Along with their packaged products, they sold cookbooks and served free samples of tempeh, TVP chili, and nutritional yeast crackers.

"The products and recipes developed over the years led to the publication of three cookbooks: *The Farm Vegetarian Cookbook* (1975) and *Tofu Cookery* (Oct. 1982), edited by Louise Hagler, and *Tempeh Cookery* (March 1984), edited by Colleen Pride. These books made a major contribution in westernizing recipes previously Oriental in origin. They were available in all natural food stores throughout the country.

© Copyright Soyinfo Center 2013

"The work with soy products on The Farm also inspired members to start two vegetarian restaurants; the Farm Foods Cafe [opened Aug. 1976], in San Rafael, California, managed by Robert Dolgin, was the first "soy deli" in the United States. Everybody's, located in Nashville, Tennessee [opened July 1980], was managed by Judd and Diane Hoffman.

"The acceptance by the public of Farm Foods Cafe was overwhelming, and although it only operated from 1976 to 1977, it pioneered the path for many tofu delis that have followed since. The unique characteristic of this deli was the tofu and tempeh shop producing fresh products located in the rear of the store. The Farm Foods Cafe also became the first [sic] company to market a non-dairy ice cream made from soybeans. This frozen dessert, marketed under the name of 'Farm Foods Ice Bean,' is still being sold in health food stores nationwide.

"In 1977-78, The Farm Foods Cafe closed, and the soy processing equipment was moved to San Francisco. Farm Food Company began wholesaling soy products throughout California under the management of Robert Tepper. They continued marketing Farm Foods Ice Bean, and added tofu salad [like eggless egg salad], 'tofu cheesecake,' a frozen soy yogurt dessert, and the first firm-pressed tofu to hit the California market. In 1980 it was decided to drop the perishable tofu business and concentrate on the nationwide distribution of Farm Foods Ice Bean. The plant in San Francisco was closed, and large scale production began in a Memphis, Tennessee, dairy and ice cream factory. This new location gave the company easier access to East Coast distributors, and they soon established additional warehouses in Connecticut and California.

By 1984, under the management of Ron Maxin and Michael Lee, the weekly production of The Farm Soy Dairy [in Summertown, Tennessee] was 1,000 lb of tofu, 150 gallons of soymilk, 20 gallons of soy yogurt, 20 gallons of soy ice cream, 400 ice cream sandwiches, and 90 lb of tempeh. Today, the Soy Dairy produces an average of 5,000 gallons of soymilk a month for Farm Foods to use in Ice Bean production. The soymilk is shipped by tanker truck to the Ice Bean production plant [in Memphis], and the Farm Soy Dairy also markets its products in Nashville and Columbia, Tennessee.

"The Farm's uniquely controlled vegetarian diet led to two official studies of its effect on the children. In 1979, Dr. Jeffrey Hergenrather, et al., conducted a study on the pesticide levels in the breast milk of vegetarian nursing mothers on the Farm. He submitted a letter of his findings to the editor of the *New England Journal of Medicine,* March 26, 1981. His letter challenged a previous article written by Rogan, et al, (New England Journal of Med. 1980) which stated that 'there are no obvious dietary predictors' of chemical pollutant in human milk. Rogan went on to say 'For certain fat-soluble chemicals, nursing infants can be regarded as living at the top of the food chain and are exposed to much more than background levels.' Dr. Hergenrather's study included 12 women whose breast milk was analyzed for 17 chemical substances. When compared to the seven contaminants studied by Rogan, in all but one of the contaminants, which showed no difference in contaminant levels, the milk of the vegetarian women had lower levels of contamination.

"The second study was conducted by Jean Roberts Fulton in 1980 and was published in the *Journal of the American Dietetic Association.* She studied a group of the Farm nursery school children and found their amino acid and iron intake to be adequate. (The diet was low on calories, however.)

"The innovative methods used by the Farm soy technologists inspired many groups and individuals to start all over the world to train in the Farm Soy Dairy, and many who couldn't come personally were encouraged through correspondence. In 1977, Plenty, the non profit relief organization founded by the Farm, established an international training program whereby people from other countries could come and train in soybean processes and other technologies that The Farm had to offer. The Farm Soy Dairy received its first trainees from Guatemala and Mozambique.

"From the beginning days of the Farm Soy Dairy, the technicians realized the value that soybeans could have in Third World countries. Eventually they were able to share their knowledge and training in the field of soybeans by starting a dairy in an impoverished country. In 1979, Plenty Canada and Plenty USA sent Farm Soy Dairy technicians Laurie Sythe Praskin, Suzy Viavant and Richard Decker to Guatemala to help establish Plenty's first international soy dairy/tofu shop. Other technicians who trained on the Farm have gone on to help start soy programs with Plenty Canada in Lesotho (in Southern Africa, 1979-present), Jamaica (1983-present), St. Lucia (1983-present), and Dominica (1984-present).

"Many of the people who lived on The Farm and trained in the Soy Dairy or with Farm Foods have started their own soy companies or are working in underdeveloped countries. The common goal felt by all has been to provide healthful, delicious foods for all people, rich and poor alike. Because soybean products can be presented as gourmet dishes, yet can also be prepared very simply, they continue to be accepted by all classes of people." Continued. Address: 17969 Oak Dr., Los Gatos, California 95030.

7216. Praskin, Laurie Sythe. 1985. The Farm soy history: An overview. Document part III. Los Gatos, California. 10 p. Dec. 1. Unpublished manuscript. [Eng]

• ***Summary:*** "The Farm soy dairy was started in 1972. The original equipment consisted of a 15 gallon electric coffee pot to cook the [soy] milk, a washing machine [whose spin

© Copyright Soyinfo Center 2013

cycle was used] to extract the milk from the okara, and a peanut grinder to grind the dry soybeans into fine grits. The dry soy grits were added to the boiling water, cooked, and then poured into a bag that was placed in the washing machine. As the washing machine spun, the milk was extracted by the bag by centrifugal force. The soymilk was distributed immediately in glass gallon jars, as there was no refrigeration system available. The capacity of this operation was around 20 gallons a day at this time, the soy dairy was located in the sorghum mill, a split-level, cement block building with concrete floors.

"In 1973, a Farm member's parents donated some used dairy equipment that they had used on their goat farm. The soy dairy made its first technological leap. Included in the equipment was a 45 gal. electric pasteurizer/cooker, a drip system plate cooler, and a 90 gal. refrigerated milk tank. The washing machine was too inefficient and unsanitary, and a simple hand-lever press was constructed, modeled after a Japanese-style press observed by Lesli Jordan in 1973. Lesli apprenticed for one week in a small Stockton Tofu company where she compiled information on procedures for making tofu and age pouches and also took photographs. When she returned to the Farm, her husband Darryl built the soy dairy's first tofu box. The new presses were made from two galvanized wash tubs with holes on the bottom. These were placed on a strong wooden stand and lined with a light cotton cloth bag. Wooden racks were placed on the bottom to keep the bag of the hole, allowing the milk to flow from the tubs freely. The milk was pumped into the bags from the cooker. The filtered milk flowed into buckets, which were then carried and poured into the small holding tank of the plate cooler. The slightly cooled milk was then carried by bucket to the refrigerated milk tank, where it was cooled to 30 degrees Fahrenheit and stored until delivery to the store. The milk was transported in 10 gal stainless steel milk cans to the store where it was distributed. The okara in the bags was pressed to extract all of the milk using a lever system come-along. At this time, the beans were being ground into dry grits at the Farm Flour mill. The capacity of the soy dairy was now 90 gallons of soymeal [not defatted] a day. Occasionally, large blocks of sour milk cheese were made, and 12 to 16 gallons of acidophilus yogurt were made daily. The yogurt was made in one gallon glass jars, incubated in an old refrigerator, and stored in a conventional refrigerator. Tempeh was also being experimented with, using the okara left over from soymilk production. Soy ice cream was being made on a very small scale, using two table top ice cream machines with one quart capacity. Alexander Lyon was still managing the soy dairy. By this time, the Farm was no longer producing sorghum, and the soy dairy had taken over two levels of the three level building. Only cold water was available, so pots of water were carried to the second floor, where they were heated on a stove to be used for cleanup. During the cold winters, a pot belly stove was added to the array of equipment and centered right in the middle of the production room.

"Early in 1975, Alexander left the soy dairy and Laurie Sythe Praskin took over managing production. David Handel and Warren Jefferson stepped in as full-time equipment men to help improve the operation and increase production. Laurie began doing research on how to improve the flavor of the milk, which was very cereal-tasting because of the dry grits. She and David added an industrial Hobart meat grinder to the system and began soaking their beans and grinding them fresh each day. The beans were initially soaked in a bath tub and later in one of the copper lined sorghum tubs. The tub was placed on the second level, so the beans could gravity feed into the grinder. The flavor was greatly improved, but the grinding was very slow and the grind was not very fine.

"They began working on new ideas for a press that could omit the bag and muscle needed to press with the come-along. David devised a system using an upside-down bumper jack mounted over a stainless tank. Inside the tank was a stainless cylinder with holes drilled in the bottom and sides. The milk was pumped or bucketed into the inner cylinder and flowed out the holes when vibrated. The cylinder was vibrated with a rubber mallet. A stainless press plate was placed on top and jacked down to press out all the milk. This system was slow and the okara had to be shoveled out after each batch.

"In late 1975, it was decided to move the soy dairy to The Farm's cannery building so that it would be in a more central location to the Farm's growing population and to make use of the steam boiler that was located there. Even though it had a wooden floor, it was a great improvement for the dairies production. They immediately added some steam jacketed cooking kettles acquired from a scrap yard and production capacity doubled to 150 gallons of soymilk a day. The slow points of operation were now the grinding, separation of milk and okara and cooling of the milk. They began hot blanching the soy beans before grinding for improved flavor. A 150 gallon refrigerated milk tank was added to handle the increase in milk production. While looking for an improved separating system, one that could be continuous, David and Laurie started eyeing some equipment that had been scrapped by one of the Farm's crews. The equipment came from an old evaporated milk plant and included a vibrating separator and a tubular heat exchanger. The separator was converted for the use of the wet soymilk separation. A stainless frame was built to fit in the vibrator with a cloth secured around it. The milk was bucketed and later pumped over the screen while the vibrator was on. The milk flowed through the screen and out the end into a holding tank. The pulp was sprayed with a little water to wash out the milk and the pulp was deposited into buckets. The tubular heat exchanger was converted to be used as a pre-cooler. Cold tap water was run through jacket that surrounded inner

© Copyright Soyinfo Center 2013

stainless tubing that the milk was pumped through. A wet corn masa mill was made by Michael Halpin to be used to grind corn for tortillas and to grind the soybeans for the dairy. Now the grinding time was no problem and production increased to 200 gallons of milk a day. Tofu was still not being made on a community scale as the milk came out of the separator too cold to curd properly. Laurie was also making thirty to forty gallons of yogurt a week." Address: 17969 Oak Dr., Los Gatos, California 95030.

7217. Praskin, Laurie Sythe. 1985. The Farm soy history: An overview. Document part IV. Los Gatos, California. 10 p. Dec. 1. Unpublished manuscript. [Eng]

• ***Summary:*** Continued: "In 1977, Laurie visited her home town in California. She went to visit her favorite Japanese tofu shop and ran into Bill Shurtleff and Akiko Aoyagi outside the closed shop. They were delivering a copy of their *Book of Tofu* to the owner and tofu maker of the shop. Bill took Laurie to the tofu makers' home and helped arrange for Laurie to observe in his shop for one day. Upon returning to the Farm, Laurie immediately set up the Farm's first tofu shop in a small corner of the soy dairy. She set up a very simple shop using one of their cooking kettles and designating it for cooking milk only for tofu. A wash tub was mounted on a stand with a simple lever for pressing out the milk. The tub was lined with a coarsely-woven bag, and a sawed-off whiskey barrel was placed underneath to catch the milk. A finer nylon cloth was stretched over the top to strain out the finer pulp [okara]. Hot milk was bucketed into the press, the bag twisted shut, and a heavy wooden press plate placed on top. The original wooden tofu box was finally in use as well as two additional round stainless boxes made by Michael Lovett. The tofu was pressed with cement blocks or buckets of water. Tofu was made in the whiskey barrel and a 20 gal [gallon] aluminum Hobart bread bowl. The tofu shop's capacity was 200 lb of tofu on a production day. In total, about 600 lb/wk in addition to 800 to 1000 gal/wk of soymilk. Most of the tofu went to people with special dietary needs.

"It seemed very energy inefficient to run a separate tofu and soymilk operation, so technicians started designing a separator that could service both operations. Michael Halpin, one of the Farm's equipment technicians, designed a hydraulic press which cost less than $1500 to build. This was the first large amount of money spent by the dairy for equipment. The inspiration for the money came from the delicious tofu produced in the small shop. Once everyone realized how good it was, the decision to invest community money for improved nutrition followed. The idea of the press was good, but all of the bugs were never worked out. It was supposed to require no bag. The milk was pumped into a stainless cylinder that was drilled with holes and set inside another stainless holding tank. Then with press plate and gasket, the hydraulic ram came down from above, squeezing out the milk. When pressed, there was a trap door at the bottom that was opened, and the pulp pressed right out into a container. The trap door shut, and the press was ready for another batch. The system was supposed to work easily and efficiently. It never did. Gasket failures were a problem, spewing hot soymilk and pulp all over the dairy. In addition, the trap door never worked easily. In an expedient measure to get the dairy back in operation, Laurie removed the cylinder and replaced it with a Japanese pressing sack. The hot soymilk and pulp pumped into the bag which was set down in the stainless holding tank. There was a stainless rack on the bottom to keep the bag off the hole and a stainless plate was set on top of the bag after it was filled. The hydraulic ram came down and pressed the bag. This worked all right, but the bag had to be lifted out by hand, and the position was very awkward and left many sore backs. The milk went directly into a curding barrel or was pumped through the tubular heat exchanger. The capacity jumped to 300 gal of milk and 250 lb of tofu approximately 4 days/wk. At this time, the dairy had concrete floors and was starting to get sheetrocked. Soy yogurt production became unsuccessful because of the close proximity of the cannery, and vegetable contamination was airborne. Tempeh was also in the cannery and experiencing the same difficulties. Ice cream was very popular and being produced in large commercial soft-serve machines. Production of ice cream was varied, but its popularity was unquestionable.

"While the Farm was piecing together its operation, a small settlement of Farm members began in Northern California. In 1976, they opened a small commercial soy deli in California under the management of Robert Dolgin. To supply the deli, a small soy dairy and tempeh shop was set up in the back room. This consisted of Japanese equipment specifically designed for the purpose of making soymilk and tofu. They had a Japanese grinder, 45-gal pressure cooker, and a small, efficient hydraulic press. It was a nice small kit which they took out a loan to buy. The deli's business was excellent and lasted over one year before it closed and relocated to San Francisco (SF) in order to expand production and market products throughout the health food store industry in California. So with more investment and loans and a warehouse in SF, Farm Foods re-opened. The building was fixed up to meet all the strict California codes, and the equipment was improved for increased output. They continued cooking with the 45-gallon pressure cooker but went for a continuous separator. This was a Brown, an orange juice extractor, and a vibrating screen to remove the finer pulp. They got a plate heat exchanger to cool the milk and a state-of-the-art Mark 25 continuous ice cream maker. They were running an extremely sophisticated operation complete with walk-in coolers and freezers. The Farm management council sent many of the Farm's trained technicians, business managers, and distributors out to SF to operate the business. In total, 60 Farm residents moved to

© Copyright Soyinfo Center 2013

support the growing business, which was under the direction of Robert Tepper and Daniel Lloyd. They started the first commercial soy ice cream company that marketed Soy Ice Bean. Laurie Praskin and her husband were sent to help run the shop and perfect the ice cream recipe. In April 1979, they left to work on the Guatemala soy program and were replaced by Michael and Deborah Lovett and Bobby and Michael Bonnickson. Because of the high cost of operating a business in downtown SF and the increased interest of Ice Bean nationwide, Farm Foods decided to move the Ice Bean production to Tennessee. The Farm Soy Dairy purchased the continuous extractor from the SF Soy Dairy and once installed, it immediately increased the production to 1500 lb/day of tofu and 300 gal/day of soymilk–enough for everyone.

"The soy dairy is now under the management of Michael Lee and Ron Maxin and consists of a 400 gallon bean soak tank and a one-and-a-half horse-powered Japanese grinder. Beans are ground with hot water, and the resulting slurry is pumped into one of three 60 gallon stainless kettles. Direct steam injection cooks this milk. When done, it is pumped into the brown extractor. It flows over a second vibrating-screen filter and is gravity-fed to a 45 gal stainless holding tank where it is tapped off into curding barrels or pumped through the same heat exchanger which now has chilled water running through it for more efficient cooling. A chilled water system also provides cold water to cool and store our tofu. When cooled, the tofu is transferred to 40 gal plastic tubs and wheeled into a walk-in cooler where it awaits distribution. (For more information on the Farm Soy Dairy as it is today, contact Ron Maxin or Michael Lee.)" Address: 17969 Oak Dr., Los Gatos, California 95030.

7218. Gibbons, Barbara. 1985. Broccoli's a versatile vegetable that's equally good cooked or raw. *Los Angeles Times.* Dec. 5. p. N47.
• ***Summary:*** The next recipe was adapted from a recipe suggested by David Mintz of New Jersey; he makes and markets Tofutti, a "frozen tofu dessert." The recipe is similar to potato pancakes (*latkes*), but uses protein-rich tofu instead of potatoes. The recipe, titled Hanukkah broccoli-tofu pancakes, calls for "1 pound fresh tofu, drained."

7219. *Times* (*Sebastopol, California*). 1985. Brightsong Foods. Dec. 5.
• ***Summary:*** A large photo shows Richard and Sharon Rose, fashionably dressed. "Brightsong Foods in Petaluma has launched what it's calling 'a revolutionary new concept for tofu.'" "'It marks the first time tofu has been specifically designed for typical American consumers,' said Brightsong President Richard Rose. The new Brightsong Tofu is vacuum-packed like cheese, and sold in a colorful printed box, somewhat like how butter is sold. Enclosed in the box are recipes, coupons and informational sheets. 'We're trying to appeal to a broader range of consumers that currently don't use tofu regularly,' says Rose."

7220. *Asahi Shinbun* (*Asahi Daily News, Tokyo*). 1985. New York saisentan. Tôfu no aisukuriimu [Tofu-based ice creams popular in New York]. Dec. 8. [Jap]
• ***Summary:*** Tofutti is the leader of this popular new rage. Address: Tokyo, Japan.

7221. Friedman, Martin. 1985. New entries crowd health food market: Even more tofu desserts and frozen entrees. *Adweek East* (*New York*). Dec. 9.
• ***Summary:*** Discusses various new products. As "reports of weakening sales of frozen tofu desserts are filtering in, there were a half-dozen new tofu dessert items that were being confidently introduced to the health food market."

"Tofu items are becoming so popular that they have a section of their own at health food shows. Legume's success with frozen entrees is spawning such imitators as Walker & Wilks Tofoods (sweet and sour, Bar-B-Q and teriyaki) and Lamp Lite Natural Foods' six Italian tofu entrees... Harvest Earth Foods offers Tempeh Delites, fully cooked cutlets and sticks that are made from cultured organic soybeans; and Light Foods sampled Light Links (tofu hot dogs) and Tofu Bagel Links. In the frozen dessert arena, Tofu Today presented Tofruzen, while Tofreezi was sampled by Melta [sic, Metta] Tofu Products. Other new low-calorie and low-cholesterol desserts promoted were Imagine Foods' Rice Dream and Nouvelle Sorbet."

7222. Nair, G.K. 1985. MP's leap forward in farm, industry. *Times of India* (*The*) (*Bombay*). Dec. 13. p. 23.
• ***Summary:*** MP stands for "Madhya Pradesh," India's largest state. The western part sits atop the vast Malwa plateau, an archaeologist's paradise. Despite the Bhopal poison gas disaster of 3 Dec. 1984, the worst industrial accident in world history, massive reconstruction and development work are in full swing across the state–sparked by both the private and public sectors. Over 80% of the population (60 million people) is in the farm sector.

"Oilfed, clumsily designated M.P. State Cooperative Oilseed Growers' Federation Limited, has introduced soyabean on a large scale as a cash crop in the fertile Malwa plateau and a few other districts.

Oilfed's main job is to organise the mostly illiterate cultivators into farmers; co-operatives and to develop a processing and marketing mechanism. There are now 513 such co-operatives with a total membership of 58,000 farmers.

Soybean cultivation has been introduced mainly in the wheat-producing areas; the soybeans are grown in the kharif season instead of jowar–which has long brought farmers a miserably low profit. Wheat is a rabi crop.

By contrast, soyabean earns the farmer good money, Rs. 2.75 through the co-operatives, to which he sells the

© Copyright Soyinfo Center 2013

new crop as soon as it has been harvested. Farmers seem genuinely excited about soyabean, in part because he never has to take it to market where middlemen have long fleeced them. The co-operatives now market the soybeans and are in a much better position to get the best possible prices.

Construction of a vanaspati plant with a capacity of 30,000 tonnes per annum has been completed at Churhat (in eastern Madhya Pradesh); it is expected to begin production in Jan. 1986.

Oilfed has started exporting soya meal to West Asian and North African countries at "remunerative" prices. New products such as soya paneer [tofu], soya milk, weaning food, vegetable protein, snacks, and margarine are among the new products it plans to introduce.

7223. Sokolov, Raymond. 1985. Soy, most useful bean: In disguised forms, its use grows in U.S. *Detroit News.* Dec. 13. p. A-1, A-20.
• ***Summary:*** First came soy-based margarine, then soybean oil–which now surpasses corn oil and peanut oil in sales. Then tofu, a soybean curd, began to show up in supermarkets. The latest soy-based product is Tofutti, a trendy alternative to ice cream.

Business Trends Analysts reports that retail sales of soy foods (including the familiar soy sauce) have jumped nearly fivefold since 1979. They exceeded $200 million last year. A body of "evangelical literature has sprung up to educate a carnivorous populace in the mysteries of tofu." *The Book of Tofu,* by William Shurtleff and Akiko Aoyagi, had sold 340,000 copies when Ten Speed Press in Berkeley published a 2nd edition in 1983.

Photos show two workers at The Soy Plant in Ann Arbor: (1) Mark Ducharme cutting tofu. (2) Geoffrey Beck stirring soy milk. Address: Michigan.

7224. Golbitz, Peter. 1985. Re: Eighth draft of tofu standards. Letter to William Shurtleff at Soyfoods Center, Dec. 27. 1 p. Typed, with signature on letterhead.
• ***Summary:*** "Enclosed find my recommendations for changes in the eighth draft of the proposed tofu standards. I have also sent copies to Gary Barat and Ron Ishida."

"I hope your holidays were good and that I will see you before or at the Anaheim meeting in February." Address: Standards Committee Member, Island Tofu Works, 318 Main St., Bar Harbor, Maine 04609. Phone: (207) 288-4969.

7225. *SoyaScan Notes.* 1985. Chronology of soybeans, soyfoods and natural foods in the United States 1985 (Overview). Dec. 31. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** Jan. 2. The soybean crushing industry begins a year of major restructuring as the big get bigger and two pioneers drop out. Ralston Purina announces that it has sold six of its soybean crushing plants to Cargill, Inc. A seventh at Memphis was closed. This removed the company from the soybean commodity business. With this transaction Cargill passes ADM to become America's largest soybean crusher.

Jan. 3. "Myth or Miracle: Debunking the Tofutti Fad" by Mark Medoff published in *Whole Life Times.* The first exposé of Tofutti, which contains very little tofu. Jan. 13 Medoff appears on the Gary Null Show, Natural Living, to discuss his findings for 1 hour on prime time radio.

Jan. 12. A.E. Staley Manufacturing Co. announces that it is basically getting out of the soybean crushing business. It has sold five of its six soybean plants (having a combined crushing capacity of some 275,000 bushels daily) to Independent Soy Processors Co., which is closely affiliated with Archer Daniels Midland. Staley was unable to sell its Decatur facility, which ceased operations indefinitely in Jan. 1984. With this transaction ADM has probably regained a slight lead as America's largest soybean crusher.

Jan. 14-26. Soybean Utilization Workshop held at Soyafoods Research Center in Gannoruwa, Peradeniya, Sri Lanka, sponsored by the Sri Lanka Soybean Project and INTSOY. 24 representatives from 12 developing countries participate. The world's first event of its kind (*Soyanews,* Dec. 1985).

Jan. 25-27. Natural Foods Expo at Anaheim. Soy ice creams steal the show. Tofu standards are debated heatedly at Soyfoods Association board of directors meeting on Jan. 28, especially by Ralston Purina attorney. Board decides funds are too limited to try to hire an executive director for SAA. Jan. 31. Paul Obis, founder and editor of *Vegetarian Times,* is seriously considering buying *Soyfoods* magazine from Doug Fiske. He makes a firm offer in late March.

Feb. "Designer Beans," an excellent overview of the U.S. soyfoods movement and its gourmet connections by Sandy MacDonald, published in *New Age* magazine.

Jan. American Soybean Association introduces SIS (Soybean Information Service), a computerized database focusing on soybean production and marketing, and oil and meal. The earliest record is 1958.

Feb. 21. *Tofutti and Other Soy Ice Creams: Non-Dairy Frozen Dessert Industry and Market,* by Shurtleff and Aoyagi published by The Soyfoods Center. Two volumes, 352 pages. This is the first study of the rapidly emerging soy ice cream market, and of Tofutti.

Feb. 27. "Tofu Products May Be In, but Its Fans Wonder if There's Tofu in the Products" by Trish Hall published in *The Wall Street Journal.* Second major exposé on so-called "tofu ice creams" (such as Tofutti and Gloria Vanderbilt Glace), which contain only a token amount of tofu, as a marketing gimmick.

March 13-14. The theme of the Feb. 27 *Wall Street Journal* article picked up by the NBC evening news and the Today Show. Very positive coverage for tofu. Gary Barat of Legume, David Mintz of Tofu Time, and Gloria Vanderbilt each speak about tofu.

© Copyright Soyinfo Center 2013

March 22. *The Book of Tempeh*, extensively revised second edition by Shurtleff and Aoyagi, published by Harper & Row. New bibliography (374 entries), history chapter, and list of tempeh producers.

March 26. Soyfoods Association's Tofu Standards (7th draft) presented to eight senior officials at the U.S. Food and Drug Administration's Center for Food Safety and Applied Nutrition, in Washington, DC, by Tom Timmins (Head of SAA Standards Committee), Gary Barat (President of SAA), Steve McNamara and Tom Donegan (SAA Food & Drug attorneys). The FDA group hears an hour long presentation on tofu, the standards, and the Soyfoods Association of America.

March. Soyarella (later renamed Soy Mozzarella), a tofu-based cheese, is introduced. It becomes an instant hit. Distributed by Neshaminy Valley Natural Foods of Huntingdon Valley, Pennsylvania, it is labeled as "non-dairy," yet it melts, and it tastes like cheese. Shrouded in secrecy, its manufacturer is unknown and the ingredients are questionable. It is sold in large blocks and labeled at individual stores.

March. American Soybean Assoc. launches a campaign among its members to write USAID and encourage them to cancel support for U.S. programs (such as INTSOY) aiding soybean production in Third World nations. The campaign is successful.

April 1. INTSOY signs a new cooperative agreement with USAID. Their work will henceforth focus on soybean utilization. The shift toward utilization began in 1983 and all work on soybean production and varietal development stopped in Aug. 1986.

April. *Tempe: An Annotated Bibliography*, compiled by Siagian and Sofia in Indonesia. Containing 273 references, it is the first bibliography to introduce the extensive Indonesian-language research on tempeh, the majority of which has been published since 1980.

April 15-16. International Symposium on Tempeh held in Jakarta, sponsored by the Indonesian Ministry of Health. 113 people attend.

April. Central Soya buys Griffith Laboratories' line of protein products.

May 31. Barricini Foods acquires Farm Foods, which then becomes a trade name for Barricini's natural / health foods line of non-dairy frozen desserts, including the pioneering product, Ice Bean, and Barricini Tofulite.

May. Morinaga, one of Japan's largest dairy companies, establishes Morinaga Nutritional Foods, Inc., a subsidiary with offices in Los Angeles, to focus on promoting their long-life silken tofu in America.

May. At the 6th Annual Natural Foods Merchandiser Merchandising Awards, soyfoods do well. Miso Mustard by American Natural Foods and Malteds by Westbrae win gold medals. Ah Soy by Great Eastern Sun wins a silver.

May. Soft Tofu Cheese, a non-dairy cream cheese cultured in miso, launched by Simply Natural, Inc.

June. Tofu Topper launched by Worthington Foods.

June. Ralston Purina publishes its 1985 Consumer Attitudes Monitor. Soy Protein in Foods, based on a nationwide survey of 628 adults. Indicates positive attitudes toward soy protein and soyfoods.

July 19. Shamrock Capital, a private company headed by Roy Disney, buys Central Soya, a publicly owned corporation. Agreement to buy was announced April 2.

July. Soy Supreme, spray-dried tofu powder, launched by Oberg Foods Div. of St. Peter Creamery.

July. Asian Symposium on Non-Salted Soybean Fermentation held at Tsukuba, Japan.

July 31. Tofu Time's sales of Tofutti increased more than sevenfold last year to $17,114,886 as compared with $2,361,391 for the previous year. Net income increased nearly 100-fold to $2,006,451.

July. New Gallup survey on vegetarianism of 1,033 Americans shows that millions are eating less meat and tens of millions agree with the move away from meat. 72% disagree with what used to be the standard notion: "The vegetarian diet is just a fad that will pass." A majority (52%) believe that "no one really needs to eat meat more than once or twice a week."

Aug. The DE-VAU-GE soymilk plant in West Germany starts production. Built by STS, with 4,000 liters/hour of soymilk capacity, they make Granose and GranoVita brands of soymilk.

Aug. Lightlife Meatless Tofu Pups (hot dogs) introduced by Tempehworks / Lightlife Foods of Greenfield, Massachusetts. The product sold nearly $250,000 in the next 10 months.

Sept. Soyfoods Center introduces SOYA, a computerized bibliographic database on soybean utilization, history, nutrition, processing, marketing, and production. Contains 18,500 references from 1100 B.C. to the present.

Sept. 30. Fearn Natural Foods in Illinois sold by Louis Richard to Modern Products, Inc. in Milwaukee.

Sept. 30 to Oct. 4. Tropical Soybean Workshop held at the International Institute of Tropical Agriculture (IITA), Ibadan, Nigeria. Proceedings are published in 1987 as Soybeans for the Tropics. Also this year IITA established a soybean utilization unit.

Sept. Tofulicious, a tofu-based non-dairy ice cream launched by Eastern Food products of Minneapolis. It was developed in conjunction with the University of Minnesota and funded by the Minnesota Soybean Research and Promotion Council. By 1986 it has become the first soyfood product in recent times to be actively promoted by state soybean associations, who sell it at many state and county fairs... where it is a big hit. Through Tofulicious many soybean growers begin to warm up to soyfoods.

Oct. 8th Draft of the Tofu Standards finished, incorporating extensive suggestions from FDA. Compiled by

© Copyright Soyinfo Center 2013

William Shurtleff.

Oct. Mori-Nu brand aseptically packaged tofu introduced by Morinaga Nutritional Foods.

Oct. Cream of the Bean Soygurt, a cultured soymilk yogurt, launched by Cream of the Bean, Inc.

Nov. Kikkoman introduces a long-life tofu in a foil retort pouch, imported from Japan. Poor quality causes the product to be withdrawn. It was re-introduced later.

Dec. Tofu Time starts exporting Tofutti to Japan. The first order by Daiei (a large retailer) of tubs for their parlors, is $350,000. This may be the first major export of a soyfood product (not including ingredients such as isolates) to Japan.

* The International Institute of Tropical Agriculture (IITA) in Ibadan, Nigeria, starts a program to promote processing and utilization of soybeans in Nigeria and throughout Africa. Continued.

7226. *SoyaScan Notes.* 1985. Chronology of soybeans, soyfoods and natural foods in the United States 1985 (Continued) (Overview). Dec. 31. Compiled by William Shurtleff of Soyfoods Center.

• ***Summary:*** Continued. 1985 New Trends:

Dramatic Rise of Tofutti and Other Soy Ice Creams. 1985 will go down in the soyfoods history books as the "Year of Tofutti." Never before in history of the United States has any soyfood product achieved such widespread and sudden popularity or notoriety.

During 1985 at least 50 brands of soy ice cream (many with "Tofu" on the label) were on the market worldwide, most in the USA. And many were made by America's biggest dairy companies. An estimated 2.5% of all frozen desserts except novelties (popsicles, bars, etc.) sold in supermarkets were soy-based nondairy. The result of all this was to introduce tofu and isolated soy proteins to millions of people in a very positive context.

But many of the companies that sold so-called "tofu ice creams," while emphasizing tofu in their product names and marketing programs, actually had surprisingly little (if any) tofu in their products. In fact they contain so little that this marketing gimmick might be misbranding and a deliberate deception of the consuming public.

Rise of Soyfoods in Europe. Thanks to the Belgian Office of the American Soybean Association (ASA), and specifically to the efforts of Michael Martin, Europe's growing soyfoods movement is starting to become organized and active. In March 1984 Martin launched Europe's earliest known soyfoods newsletter, *Soya Foods,* and in September organized the First European Soyfoods Workshop, for which bound proceedings were published. This is the first time in recent decades that ASA has promoted soyfoods (other than soy oil) in the Western World. The strong U.S. dollar has led to a recent dramatic decline in imports of soybeans and soybean meal to Europe for feed and oil use (European rapeseed and sunflowerseed are being substituted), so the ASA is exploring new outlets where soy is unique.

The launching of tofu production and marketing by Switzerland's biggest supermarket chain, Migros, and by Galactina, a large and respected maker of dietetic and pharmaceutical products (including soymilk) is a landmark for tofu in Europe. In early January, *Tages Anzeiger,* one of Switzerland's biggest newspapers, had a special report on tofu, followed on Jan. 9 by a 30-minute TV feature on tofu.

The total number of soyfoods companies in Europe continues to show a steady increase. Many of these are being founded by people interested in macrobiotics. By Jan. 1985 there were 1,113 names on The Soyfoods Center's computerized mailing list of people actively involved with soyfoods in Europe.

At the 1984 ASA soyfoods workshop, Martin reported the following estimates of annual European soyfoods consumption: A table with three columns shows: Soyfood name, consumption, percentage of U.S. consumption.

Soy oil–1.7 million metric tons–38%
Modern soy protein products–40 million kg–28%
Soymilk–9 to 10 million liters–7%*
Tofu–5 to 6 million kg–22%
Tempeh–400,000 to 500,000 kg–50%
Miso–250,000 to 300,000 kg–11%

* U.S. figure includes soy based infant formulas. European figure is not clear on this point.

Note that the population of the USA is about 234 million compared with 489 million for all of Europe (not including the USSR), but 237 million for Northern and Western Europe, where most of these products are consumed.

Rapid Growth of Second Generation Soyfoods. In the 1984 edition of this book, we stated that the three fastest growing soyfoods in the USA (in terms of production increases) were tempeh (33% a year compound annual growth rate), tofu (15%), and soy sauce (14%). But now the picture has changed. In 1984 the fastest growing category was second generation products, ready-to-eat, all-American preparations, especially those based on tofu. The leader in this group is clearly soy ice creams (led by Tofutti), with a production growth rate of roughly 600% a year for the past 1-2 years. Then comes convenience tofu-based entrees such as Legume's products, tofu burgers and tofu burger mixes, and the like. This is the number one way that soyfoods are now entering the mainstream American diet. And the biggest gains are being made by marketing companies, rather than manufacturers. The second fastest growing category may now be imported soymilks, growing at about 40-60% a year. Major New Capital Influx. The following is a brief summary of new capital influx to the soyfoods industry: A table with four columns shows: Company name, date of offering, $ amount, equity or debt; use.

Legume–Oct. 1982–$100,000 net–Equity. For tofu frozen entrees

Legume–Oct. 1982–$100,000–Debt. For tofu frozen

© Copyright Soyinfo Center 2013

entrees

Legume–Nov. 1983–$400,000 net–*Equity. For tofu frozen entrees

Legume–Nov. 1983–$200,000–Debt. For tofu Frozen entrees

Hinode Tofu–Nov. 1983–$2,500,000–Equity For general expansion

Tofu Time–Dec. 1983 $2,760,000 net–Equity. For soy ice cream

Tempehworks–July 1984–$265,000–Debt. For tempeh expansion

Legume–Feb. 1984–$200,000–Debt. For tofu frozen entrees

Legume–Aug. 1984–$1,248,000 net–Equity. For tofu frozen entrees

Brightsong–Dec. 1984–$500,000–Equity. For tofu products

Legume–April 1985–Expecting lots more. For tofu frozen entrees

White Wave–Expecting.

Note: Equity = Sale of equity ownership in the company via stock in a public offering or in a private placement. Debt = Debt financing by taking out a private loan.

How have these companies fared? Tofu Time has done spectacularly well. The value of the company has increased more than five-fold since Dec. 1983, and profits are excellent. Legume, a marketer of low-calorie, cholesterol-free frozen entrees featuring tofu, has had the hardest sledding. A preliminary prospectus by Huberman Margaretten & Straus dated 5 June 1984 stated that from its inception through 31 March 1984, the company incurred aggregate losses of $709,773, including a loss of $18,465 in 1982, then $225,302 in 1983, increasing again to roughly $486,500 in 1984. Legume's common stock had a negative book value; 1984 sales were "a little less than $1 million." Yet the company has excellent products and in early 1985 landed some foods big chains, which could help its bottom line considerably.

Growing International Interest in Tempeh. During 1983-84 Japan became a major tempeh producer. By May 1984 the world's largest tempeh producing company was Marusan-Ai (of Japan), which made 15,150 lb. a week. New marketing and production techniques were pioneered. The full story was described by Shurtleff and Aoyagi in Tempeh Production (1984).

Three Major International Symposia Featuring Tempeh were held: 15-16 April 1984 in Jakarta, Indonesia; 15-17 July 1984 in Tsukuba, Japan; and May 1986 in Honolulu. A special 13-day group study tour on Japanese Food Fermentations, led by Dr. Keith H. Steinkraus, has been organized by the Japanese-run, New York-based Technology Transfer Institute. Tempeh continues to be one of the fastest-growing soyfoods in the USA.

Growing Interest in Spray-Dried Tofu. Eleven articles were published this year on a product that promises to revolutionize the tofu industry. The first and largest manufacturers (St. Peters Creamery and Clofine) are both dairy companies. Spray dried tofu should appeal to the food industry, since it is easy to ship, store, and process.

Dairy Magazines Publishing Many Positive Articles About Soy-Based Dairylike Products. Traditionally the dairy industry has seen dairy analogs as a threat and fought to oppose them. The decades-long struggle against margarine is a good example of this. But now, many small dairies, struggling to survive, are looking for new products. A number (such as St. Peter Creamery and Clofine) have gained a new lease on life by starting production of soyfoods.

Major Changes in the U.S. Soybean Crushing Industry. Narrow crushing margins, a depressed export market for U.S. soybean meal, and poor profitability have led two of America's biggest soybean crushers, the A.E. Staley Manufacturing Company and Ralston Purina, to decide to get out of the soybean crushing business in Jan. 1985. Clearly they view poor profitability as a long term problem, and plan to diversify away from unpredictable agricultural commodities toward the "value added," retail end of the nation's food supply. Staley, in effect, sold its plants to ADM and Ralston Purina sold its to Cargill. In Nov. 1984 Staley acquired CFS Continental, Inc., the nation's second largest supplier to the foodservice industry. Staley, previously the oldest existing soybean crusher in America (since 1922), now relinquishes that honor to ADM. ADM is now the largest soybean crusher in America, but Cargill (which has many overseas plants) is the biggest in the world. These changes have led to a concentration of control in the U.S. soybean crushing industry. Both Staley and Ralston Purina plan to keep their edible soy protein (isolates, concentrates, etc.) operations.

Biotechnology is Emerging as a Major, Promising Factor in future soybean breeding development. Some agricultural experts are predicting that it could usher in the latest agricultural revolution, following the agrichemical revolution of the 1940s and the Green Revolution of the 1960s and 1970s.

The "Calcium Craze" Starts in America, aiding sales of tofu (curded with calcium sulfate), which is one of the best non-dairy sources of calcium.

• ***Summary:*** Contains a market study largely pirated from Shurtleff & Aoyagi's *Soyfoods Industry and Market*. Address: New York.

7229. **Product Name:** Tofu Biscuits (Raisins, Whole Wheat, or Blueberry).
Manufacturer's Name: Green World, Inc.
Manufacturer's Address: Mayfield Stage, Boise, ID 83706.
Date of Introduction: 1985. December.
New Product–Documentation: Interview with James Herrington. 1987. Dec. 30.

7230. *In Business.* 1985. The $40 million tofu dessert market: Thanks to Tofutti, sales of frozen tofu desserts are growing by leaps and bounds. Nov/Dec. p. 35.
• ***Summary:*** About Richard and Sharon Rose (whose photo is shown) of Brightsong Foods in Petaluma. Tofutti is been largely responsible for starting a new industry of tofu frozen desserts in America. This industry has grown from about half a million dollars to $40 million now. "Tofutti's sales alone are about $18 million, says Rose. And it was that exponential growth which convinced him to introduce Brightsong's own tofu frozen dessert line."

After 18 months of test marketing, Brightsong introduced Le Tofu, which is different from all other soy-based frozen desserts because it contains 15% real, organic tofu instead of the more commonly used, processed soy powder. The suggested retail price of Le Tofu is $1.99 per pint.

"In addition to producing pints for the retail market, Brightsong sells dipping tubs for ice cream shops and restaurants; a soft-serve version is also available as well as a powder mix that can be made on premise. Rose predicts sales for Le Tofu will reach $10 million in about 2 years..." Brightsong is marketing Le Tofu overseas in a dry powder form named Concentrate Plus+. Address: Emmaus, Pennsylvania.

7231. Kooij, J.A. van; Boer, E. de. 1985. A survey of the microbiological quality of commercial tofu in the Netherlands. *International J. of Food Microbiology* 2(6):349-54. Dec. [16 ref. Eng]
• ***Summary:*** A survey of the microbiological quality of tofu, carried out in the summer and fall of 1983, examined 154 samples, about 95% of which had an aerobic plate count above 1 million CFU (colony forming units) per gram. In 86% of the samples numbers of Enterobacteriaceae exceeded 1,000 CFU/gm, and in 94% of the samples the number of lactic acid bacteria exceeded 10,000 CFU/gm. *Bacillus cereus* was found in one sample and *Staphylococcus aureus* in another, at levels above 100,000 CFU/gm. *Salmonella* was not found in any of the samples. *Escherichia coli* was found in 36% at levels above 100 CFU/gm, and *Yersinia enterocolitica* in 11% of the samples.

The reasons for this poor microbiological quality are discussed and some recommendations are made, including pasteurization of the tofu after packaging and storage of the end product below 7ºC (44.6ºF) for a limited time.

"In The Netherlands, tofu is produced in about 10 small factories supplying mainly local markets and oriental restaurants, and by some larger factories which deliver the product to stores and markets." Address: Food Inspection Service (FIS), Prinsegracht 50, 2512 GA, The Hague, Netherlands.

7232. **Product Name:** [Tempeh (Fresh, or Canned), and Tofu & Tempeh Pate (Spreads, 8 Varieties)].
Manufacturer's Name: La Sojeria, S.C.
Manufacturer's Address: Carretera de Vic Km. 30, 08180 Moia (near Barcelona), Spain. Phone: (93) 830 1123.
Date of Introduction: 1985. December.
Wt/Vol., Packaging, Price: Can.
New Product–Documentation: Letter from Javier Arocena of Zuaitzo, Spain. 1992. Dec. 14. He knows of three other soyfoods manufacturers in Spain: Natur-Soy, Vegetalia, and La Sojeria, all near Barcelona.

Form filled out by Laura Cami and Mario Rimoldi of La Sojeria. 1993. Feb. 13. Their company began making soyfoods in Dec. 1985. These products were introduced at that time. They now make about 200 lb/month of fresh and canned tempeh. The spreads are preserved in glass, with a twist-on lid, and sterilized.

Leaflet sent by Allan Brown of Noble Bean, Ontario Canada. 1998. Jan. "Tempeh de Soja." Contents of this Spanish-language leaflet: Telephone: 340 43 62. Que es? Cuáles son sus cualidades? Cómo prepararlo? Recipes for: Tempeh frito. Rellenos. Tempeh hervido o al vapor. Tempeh a la crema. Tempeh cacciatore. Allan writes: "These folks make fresh tempeh in Barcelona." They learned how from The Farm and from Allan in Canada. Form filled out by Mario Rimoldi. 2001/07. His company still exists at the above address but he stopped making tempeh in March 1996.

7233. **Product Name:** [Tofu Gelato (Non-Dairy Soy Ice Cream)].
Foreign Name: Tôfu Geraato.
Manufacturer's Name: Pappy Monro.
Manufacturer's Address: Jiyugaoka, Tokyo, Japan.
Date of Introduction: 1985. December.
How Stored: Frozen.
New Product–Documentation: Asahi Shinbun. 1985. Dec.

© Copyright Soyinfo Center 2013

5. Tofu gelato, Italian style ice cream, is sold at a specialty store or restaurant named "Pappy Monro" in Jiyugaoka, Tokyo. Flavors are plain, mocha, matcha (green tea), maron (chestnut), and okura. Prices: single scoop of 100 gm is 180 yen, double scoop of 200 gm is 300 yen, and pint takeout is 800 yen. There is a choice of 6 toppings, including almond and chocolate. Color brochure. 1986, undated. "Everyday Gelato. Pappy Monro." The product was developed by an Italian named Maurizio Curati (born 7 Dec. 1953), a color photo of whom is shown. He has restaurants at Jiyugaoka and Shibuya.

7234. Ransom, Ruth. 1985. Alternatives to four food groups: Meal plan. *Vegetarian Journal* (*Baltimore, Maryland*) 4(12):2. Dec.
• ***Summary:*** "A. Protein Foods: 1-2 servings per day. One serving equals: 1½ cups cooked dried beans or peas. 8 oz. tofu. 4 ounces tempeh. 2 cups fortified soy milk. ½ cup almonds, cashews, walnuts, pecans..."

Note: On page 1 we read: Editors: Debra Wasserman, Charles Stahler. Ruth Ransom, R.D. P.O. Box 1463, Baltimore, MD 21203. (301) 752-VEGV. Address: R.D. [Registered Dietitian].

7235. Sokolov, Raymond. 1985. Tofu or not tofu. Is it nobler to consume bean curd or to eat meat in a protein-deficient world. *Natural History* 94:86, 88, 89. Dec. [1 ref]
Address: Freelance writer with interest in history and preparation of food.

7236. **Product Name:** [Grinioc Grain and Tofu Burgers (Rice, Millet, or Bulgur)].
Foreign Name: Grinioc: Galettes de riz (millet, or blé) aux légumes.
Manufacturer's Name: SOY (Société Soy).
Manufacturer's Address: Plateau de l'Ardennais, 91590 Cerny, France. Phone: (6) 457.52.01.
Date of Introduction: 1985. December.
Ingredients: Rice: Whole grain rice* (66%), legumes (15%): Peas, tomatoes, onions, hot red and green peppers, soya, sunflowerseed oil, spices and aromatics. * = Organically grown.
Wt/Vol., Packaging, Price: 200 gm.
How Stored: Refrigerated.
Nutrition: Per 100 gm: Protein 3.3%, lipids 10.3%, carbohydrates 19.5%, calories 186.
New Product–Documentation: Leaflet. 1988. Front and back. 6 panels. "Grinioc fresh wholemeal burgers. The best way to eat wholemeal cereals (rice, millet, wheat), as an accompaniment to vegetables or as is when you are feeling a little peckish, Grinioc is actually a complete meal in itself."

Labels for all 3 products. About 1988. 3.5 by 7 inches. Self adhesive. Shows a color photo of one burger/croquette on a plate with garnishes such as shrimp, mushrooms, or sliced tomatoes. Refrigerate at 4ºC.

Letter from Bernard Storup. 1989. March 3. These products were launched in Dec. 1985.

7237. *SoyaScan Notes.* 1985. New Trend: Spray-Dried Tofu Powders (Overview). Dec. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** There were eleven publications during 1985 concerning a product that promises to revolutionize the tofu industry. Many of these articles are in dairy magazines and written with a positive to neutral tone, indicating a surprising acceptance of these potentially competitive products. The first and largest manufacturer (St. Peter Creamery) is a dairy company. It is imperative that standards be developed for tofu, including these new types. Spray-dried tofu should appeal to the food industry since it is easy to ship, store, and process. It could be used to make soy-based cheeses.

7238. *SoyaScan Notes.* 1985. New Trend: U.S. dairy magazines publishing many positive articles about soy-based dairylike products (Overview). Dec. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** Traditionally the U.S. dairy industry has seen dairy analogs as a threat and fought to oppose them. The decades-long struggle against margarine is a good example of this. But now many small dairies, struggling to survive, are looking for new products. A number have thrived by starting production of soyfoods. E.g. St. Peter Creamery, Clofine, etc.

7239. *SoyaScan Notes.* 1985. Chronology of events during 1985 concerning *Soyfoods* magazine, Doug Fiske, Paul Obis, and William Shurtleff (Overview). Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** Jan. 8–Richard "Ira" Leviton visits Soyfoods Center and announces that he had decided to discontinue all involvement with soyfoods and the soy sauce book project. He plans to live in England and to write books about King Arthur, geomancy, etc.

Feb. 8–Doug Fiske writes Shurtleff. He had a long conversation with Paul Obis this morning about Paul's interest in buying *Soyfoods* magazine. Fiske writes "I am cautiously optimistic. I hope it works out. Seems good for all parties and for the industry."

March 22–Paul Obis writes Fiske a 5-page letter (typed, single spaced) that begins: "My decision to buy, or not to buy, *Soyfoods* [magazine] has not been an easy one." He discusses each of his concerns.

March 30–Obis writes Fiske a short letter on *Vegetarian Times* letterhead. "Thanks for your letter. My offer was about the best I could make, given my analysis. I do, in all honesty, wish you well in finding another buyer or backer."

April 1–Fiske and Shurtleff talk by phone about what to do next. Doug wants to cash out, to keep $1,500 in the bank

© Copyright Soyinfo Center 2013

and $2,000 in cash.

April 1–Paul Obis writes Shurtleff a 1-page letter on *Vegetarian Times* letterhead explaining that his letter to Fiske was prompted, in part, by the letter (enclosed) which he received from Fred Rogers, who was Paul's backer. He says Fiske turned down Paul's offer to buy *Soyfoods* magazine.

April 9–Paul Obis writes Fiske a 1-page letter on Family Syndications letterhead. He agrees to purchase *Soyfoods* magazine for $1,000 cash and sends a $100 advance.

April 19–Paul Obis and Fred Rogers visit Soyfoods Center. That evening Shurtleff writes Obis a letter of thanks, but raises two issues about articles he wrote for *Vegetarian Times.*

April 21–Fiske writes Shurtleff that Paul and Fred came yesterday for discussions and to pick up materials. Everything went well.

April 24–Obis writes Shurtleff in response to two issues raised by Shurtleff (Gandhi article and Tofutti article for *Vegetarian Times*). Paul always tried to operate as aboveboard and forthrightly as possible. He notes that we will be working together more closely than ever before [on *Soyfoods* magazine] and he'd like our relationship to be as harmonious as possible. We have important work to do.

June 14–Shurtleff sends Obis a "Chronology of the Development of U.S. Tofu Standards," which they discussed by phone and which Obis asked to see, "for publication in the next issue of *Soyfoods* magazine." He notes that Obis went to the Soyfoods Association meeting in Las Vegas and requested that they resubscribe to the soyfoods clipping service. Shurtleff asks: "When do you think the first issue of *Soyfoods* will be published?"

July 9–Obis writes Shurtleff (on *Soyfoods* letterhead) that after he purchased *Soyfoods* magazine he was offered the opportunity to purchase *Vegetarian Times* as well. He had not expected this.

July 27–Obis and Shurtleff talk by phone. Obis bought *Soyfoods* magazine on July 26. He has wrestled for a long time with the problems of trying to own and publish two magazines. His first goal is to serve God's will. He hopes to have his first issue of *Soyfoods* magazine published as soon as possible.

Nov. 2–Obis writes Shurtleff a 1-page letter on *Vegetarian Times* letterhead. Apparently Shurtleff disagreed strongly with Obis's decision to buy *Vegetarian Times* but Obis feels his decision was the right one. Publishing two magazines requires less than twice as much work as publishing one, and Obis has always felt that *VT* and *Soyfoods* would make a good combination.

Nov. 4–Obis writes Shurtleff a 1-page letter on *Soyfoods* letterhead. He encloses a check for $95 for the magazine's 50% share of the computerized mailing list's maintenance charges from June 1984 to Dec. 1985.

Dec. 9–Fiske writes Shurtleff on San Diego State University, Dept. of Journalism, letterhead. First to say "Howdy" after being out of touch since sale of *Soyfoods* magazine. He is looking into the possibility of pursuing a doctorate in journalism / mass communication.

Dec. 19–Obis writes Shurtleff on *VT* letterhead. "Just to let you know what's happening on *Soyfoods*, I have yet to make a final decision, however the amount of tangible support I have received so far really makes me question the whole thing." He has been disappointed by Shurtleff, Gary Barat, and a woman who was supposed to write (and get paid for) an article on "Advertising and Marketing." Note: Paul Obis never published any issues of *Soyfoods* magazine.

7240. *SoyaScan Notes.* 1985. Development of the book *History of Soybeans and Soyfoods* (Overview). Compiled by William Shurtleff of Soyinfo Center.

• ***Summary:*** 1980 Oct. 22. First Table of Contents for Soyfoods History. I started this book because Nahum Stiskin of Autumn Press refused to let us use material from our tofu and miso books in our next book, titled *Soyfoods,* and its hard to write the history portions of soyfoods. Inspired by Miller and Ford.

Dec. 9. Start to put bibliographic records on 3 x 5 inch file cards.

1981 March 13. Add chapters on Nutrition, National Soybean Processors Assoc., T.A. Van Gundy.

April 26. Add Society for Acclimatization, Li Yu-ying, Horvath, Lager.

May 15. Make Overview into four chapters. Add Soybean Chronology, Sri Lanka, History of Soybean Production, Asian History, Berczeller, USDA.

May 30. Change book title to History of Soyfoods and Soybeans from Soyfoods History.

June 6. Make Chronology Chapter 1. Make History of Soybean Production a separate chapter. Add McCay, Soyfoods Producers in the West (Listing of companies), changed title from Soyfoods History to History of Soyfoods.

August 21. Four Soybean Processors (Staley, ADM, Ralston Purina, Central Soya), Hymowitz, Bureau of Plant Introduction.

Oct. 8. Cargill, Co-op Processors, drop Hymowitz, Soybean Production Pioneers, put Soy oil ahead of flour, change the order of many chapters.

Nov. 3. Change title to *History of Soybeans and Soyfoods.* Put soy nuggets [fermented black soybeans] before miso.

Nov. 7. Set up first 3+2 character cataloging codes for Soyfoods Center library and documents, e.g. Hym-81.

1982 Jan. 2. Brief History of Fermentation East and West.

Feb. 2. Macrobiotics and Soyfoods, Kikkoman.

March 21. K.S. Lo and Vitasoy. Relocate East Asian pioneers at end of Pioneers section.

June 18. Separate Fermented Tofu and Fermented Soymilk.

© Copyright Soyinfo Center 2013

July 22. Separate Soy Oil and Meal from Hydrogenated Soy Oil Products.

Aug. 21. Put all country histories together.

Oct. 25. Start using % instead of percent in Margarine chapter.

Nov. 13. D.W. Harrison.

Nov. 19. Decide to do separate chapter on Lecithin. Retitle each country from "History of Soyfoods in X" to "History of Soybeans and Soyfoods in X."

1983 Jan. 1. Switch from 3-letter codes to 4-letter. Hymo-73.

April 17. Changed "at" to KW = (keyword) on cards.

May 5. Dr. Fearn.

Nov. Added Cereal-Soy Blends at Flour chapter, Iowa State University, History of Soyfoods and Health Foods in Los Angeles.

1984 March. Meals for Millions, SFM-Rodale.

Sept. 22. Added 12 chapters on individual countries. Divided hydrogenation into 3 chapters: Oil, margarine and shortening. Change book's subtitle to "Past, Present, and Future." Structure it into four volumes.

Oct. 31. Completely restructure Soybean Production chapter into 16 parts. Discuss each by decade.

Dec. 26. Ice Cream.

1985 Jan. 19. Change ModProt to ProtMod, ProtIsol, etc.

March 8. Add PPC = Pioneering Protein Companies: Glidden, Rich Products, Gunther, Griffith Labs, I.F. Laucks. 9th. Add the Chemurgic Movement and US Regional Soybean Industrial Products Lab: Industrial Uses of Soybeans. United Nations, History of World Food and Protein, Hunger and Malnutrition.

April 17th. Redo outline, giving each company its own line and bibliography, like Adventists. Print outline vertically. Address: Director, Soyfoods Center, Lafayette, California 94549. Phone: 510-283-2991.

7241. Tofu Shop Specialty Foods (The). 1985. Price increase Jan. 1 (Leaflet). Arcata, California. 1 p. Single sided.
• ***Summary:*** Due to rising operating costs, the prices of all Tofu Shop products will go up approximately 5% starting January 1, 1986.

"Traditional tofu? Did you know that The Tofu Shop in Arcata is one of only a few such traditional-style tofu companies operating successfully in the United States today." They do not make "mass-produced" tofu.

"About The Tofu Shop: Founded in 1980, The Tofu Shop employees eight trained soyfoods workers who produce monthly: 6,000 pounds of fresh, traditional-style tofu, 2,500 tofuburgers, 50 quarts of soymilk, and thousands of tofu cutlets, sausages, salads and desserts. Almost all of our products are distributed right here in Humboldt County!

The Tofu Shop also operates a retail delicatessen near Humboldt State University in Arcata (768 18th Street).

Illustrations show: The front of the deli. (2) The little house on stilts by the ocean, with an Oriental-style roof and a wind-blown tree arching overhead. Address: 768 18th St., Arcata, California 95521. Phone: (707) 822 7409.

7242. **Product Name:** Thinny Thin Tofu (Soy Ice Cream).
Manufacturer's Name: Tom Carvel/Carvel Corporation.
Manufacturer's Address: Yonkers, New York.
Date of Introduction: 1985. December.
Ingredients: Water, corn oil, corn syrup, sucrose, soy protein isolate, mono & diglycerides, cellulose gum, tetra-sodium pyrophosphate, guar gum, polysorbate 80, polysorbate 65, carrageenan, salt, and flavorings.
How Stored: Frozen.
New Product–Documentation: Talk with Mr. Molinari of Carvel Corp. 1985. Jan. 30. Kashrus Newsletter. 1985. Dec. This pareve product is "Chof-K" supervised. Sold at Carvel stores. Whole Life. 1987. Sept/Oct. p. 81. Tofu Fraud of the Month Department. "Thinny-Thin Tofu is manufactured and sold by the Carvel Corporation of Yonkers, New York. It uses the word 'tofu' in the name but doesn't contain any tofu in the actual product."

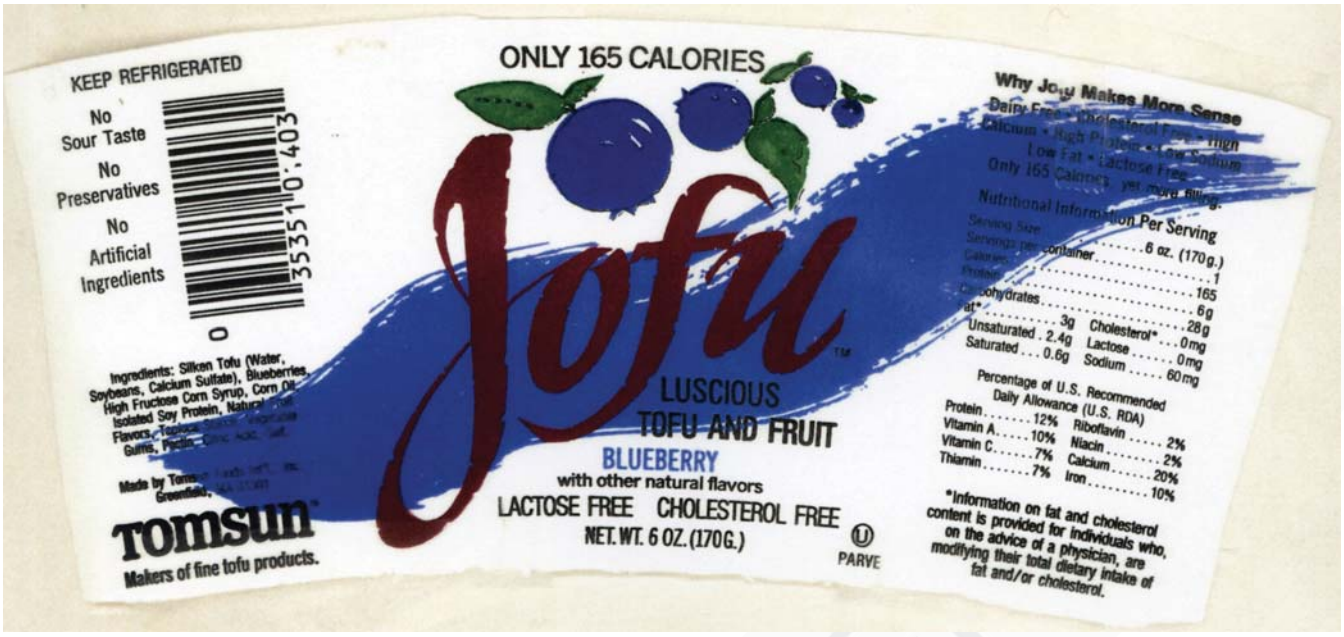
7243. **Product Name:** Jofu (Non-Dairy Non-Fermented Yogurt) [Blueberry, Strawberry, Cherry, Raspberry, Very Berry, Banana-Strawberry, or Orchard Fruit & Nut].
Manufacturer's Name: Tomsun Foods International Inc.
Manufacturer's Address: 305 Wells St., Greenfield, MA 01301.
Date of Introduction: 1985. December.
Ingredients: Blueberry: Silken tofu (water, soybeans, calcium sulfate), blueberries, high fructose corn syrup, corn oil, isolated soy protein, natural fruit flavors, tapioca starch, vegetable gums, pectin, citric acid, salt.
Wt/Vol., Packaging, Price: 6 oz (170 gm) plastic cup with peel-off foil lid.
How Stored: Refrigerated.
Nutrition: Per 6 oz., Blueberry: Calories 165, protein 6 gm, carbohydrates 28 gm, fat 3 gm (of which 2.4 gm unsaturated), sodium 60 mg.
New Product–Documentation: Label (plastic cup). 1986, undated. "Only 165 calories. Luscious Tofu & Fruit. Lactose Free. Cholesterol Free. No sour taste. No preservatives. No artificial ingredients." It is 67% silken tofu. Note: In Japanese there are two words pronounced Jofu but written with different characters. The first means "a lover or paramour." The second means "a mistress or paramour."

Abigail Wilson. 1986. Recorder (Greenfield, MA). Feb. 15. "Tomsun Foods hopes 'Jofu' to be 'food of the future.' p. 3. The product has just been introduced.

Campbell. 1986. Democrat & Chronicle (Rochester, New York). Feb. 19. p. 1A-2A. "Jofu."

Leaflet. 1987. March. "What makes it even better than yogurt? It tastes better. It's cholesterol free. Its real tofu.

© Copyright Soyinfo Center 2013



Its lower in calories. Jofu: Luscious tofu & fruit. Beyond yogurt."

Spot in Prepared Foods. 1986. Aug. p. 198. "'Jofu' is a new chilled, spoonable blend of tofu and fruit. Product contains 165 calories per 6-oz. cup. Jofu contains no cholesterol."

Suzanne Wilson. 1986. Hampshire Life (Northampton, MA). Oct. 31. "Talk about tofu. Behind the scenes at Tomsun." The first Jofu was sold to Massachusetts health food stores in Dec. 1985.

Ad in Vegetarian Times. 1987. July. p. 15. "It's time to go beyond yogurt." Contains a "buy one, get one free" offer.

Talk with Richard Rose. 1987. Dec. He says that Wally Rogers of Bean Machines says that Tomsun can't keep up with demand for Jofu. Jofu is made by just running hot soymilk, isolates, and GDL into a yogurt cup. After Tomsun declared bankruptcy in [April] 1988, Jofu production was moved to a plant in Vermont. They have a basic soymilk production line there and make silken tofu, according to Peter Golbitz.

Poster. 1989. April. "What the man who brought you Dannon yogurt eats for breakfast." A large black-and-white photo shows Juan Metzger eating Jofu.

Peter Golbitz. 1989. Soya Newsletter. July/Aug. "Soya Interview: Tom Timmins, Soyfoods visionary." "During 1985 the company launched Jofu..."

7244. **Product Name:** Tree of Life Spaghetti Sauce with Tofu.
Manufacturer's Name: Tree of Life, Inc. (Distributor).
Manufacturer's Address: 315 Industrial Dr., P.O. Box 410, St. Augustine, FL 32084. Phone: 904-829-3483.
Date of Introduction: 1985. December.
New Product–Documentation: Talk with Donna Detoro at Tree of Life. 1988. Sept. 23. This product was introduced in Dec. 1985.

7245. **Product Name:** Jay and Lisa Sommers Tofu and Tempeh?
Manufacturer's Name: Unknown.
Manufacturer's Address: Latrobe, Tasmania.
Date of Introduction: 1985-1988.
New Product–Documentation: Talk with Trishala Shub. 1998. Jan. 18. As far as she knows, the first people to make tofu commercially in Tasmania were Jay and Lisa Sommers. They started in about 1985-88 in a small factory in Latrobe, near Bernie, in Tasmania. They also made tempeh. Trishala is still in touch with Jay and Lisa, who still live in Tasmania; she will ask them if they will write the story of how they founded Tasmania's earliest known tofu and tempeh manufacturing company. The Sommers later sold their equipment to a church group, which some years later sold it to Trishala and her former husband. She sold the equipment in June 1997 to the people from Organic Choice.

7246. **Product Name:** Tofu Delight (Tofu-Vegetable-Bulgur Salad).
Manufacturer's Name: 21st Century Foods Inc.
Manufacturer's Address: 30A Germania St., Jamaica Plain, MA 02130.
Date of Introduction: 1985.
Ingredients: Incl. tofu, carrots, bulgur wheat, parsley.
New Product–Documentation: Talk with Rudi Canale. 1988. Jan. 4. It is ready to eat. Introduced in about 1985. Rudi is now in Charge. Howard Posner is no longer with the company.

7247. **Product Name:** Original Yuzu Tofu (Soybean Curd

© Copyright Soyinfo Center 2013

Cake).
Manufacturer's Name: Aloha Products.
Manufacturer's Address: 4515 Centinela Ave., Los Angeles, CA 90066. Phone: 213-822-2939.
Date of Introduction: 1985.
Wt/Vol., Packaging, Price: Packed in water in molded plastic tray with heat-sealed, peel-off plastic film lid.
How Stored: Refrigerated.
New Product–Documentation: Talk with Tom Uyehara. 1988. Oct. 24. This product was introduced in about 1985. It is the first commercial yuzu tofu made in America. Yuzu tofu is now fairly popular in Japan. Note: According to *The Book of Tofu* (p. 329): "Yuzu is a fairly expensive citrus fruit similar to a lime, citron, or lemon but slightly larger. The grated or slivered rind and the juice are used for their distinctive, refreshing fragrance and flavor... It is occasionally added to kinugoshi tofu before solidification."

7248. **Product Name:** Tofu Spread.
Manufacturer's Name: American Pride.
Manufacturer's Address: 612 W. Kirkwood, Fairfield, IA 52556.
Date of Introduction: 1985.
New Product–Documentation: Talk with Alex Green. 1988. Sept. 9. This product was introduced in 1985.

Talk with Rick Desmond, partner in American Pride. 1990. Aug. 2. This product belongs to another company. American Pride pays them a royalty to use it.

7249. Betwo Ltd. 1985. Eternity Soy Ice Cream (Poster). 60 Rehov Kikar Malkey, Tel Aviv, Israel. 1 p. Reprinted in Soyfoods Marketing. Lafayette, CA: Soyfoods Center.
• ***Summary:*** "World Premiere! Israel introduces Eternity. The world's first all-vegetable ice cream parlors. A futuristic concept in healthful eating. What is all-vegetable ice cream? Eternity is a rich, creamy, delicious ice cream made fresh daily from calcium-rich soybean milk that has: No cholesterol. No salt. No dairy products. No preservatives. It's Pareve!! We use only the sweetest seasonal fruits, richest tehina [sesame tahini], quality brown sugar, and all natural flavorings. We even have our own Eternity whole wheat ice cream cones! In addition to our calcium-rich soybean ice cream, we also serve tantalizing soybean tofu cuisine–created from soybean milk and prepared in a variety of ways. We offer flavorful rich tofu cream pies; pungent tofu cheeses; smooth, sweet tofu puddings; tasty tofu yogurt; and mellow tofu cottage cheese. Enjoy Eternity all-vegetable ice cream and tofu entrees. We know once you have tried them you will be a friend for Eternity!"

Note: This is the earliest document seen (Sept. 2012) that uses the term "tofu yogurt" to refer to soy yogurt. Address: Tel Aviv, Israel. Phone: 03-363674.

7250. **Product Name:** Herb Tofu.
Manufacturer's Name: Bountiful Bean Plant.
Manufacturer's Address: 2049 1/2 Atwood Ave., Madison, WI 53704. Phone: 608-241-8700.
Date of Introduction: 1985.
Ingredients: Water, organic soybeans, calcium sulfate, nigari (magnesium chloride), herbs, spices.
Wt/Vol., Packaging, Price: 16 oz in plastic tub.
How Stored: Refrigerated.
Nutrition: Per 4 oz: Calories 96, protein 11 gm, carbohydrates 1 gm, unsaturated 6 gm, sodium 17 mg, calcium 229 mg, iron 2 mg.
New Product–Documentation: Label. 1985. 4 by 4.5 inches. Light blue, green and maroon on clear plastic film. Interview with Deborah Bachmann. 1987. Dec. 29.

Label sent by Elizabeth Hanson of Bountiful Bean. 1991. Nov. 12. Same label as above, but company is now located in Ridgeway, Wisconsin 53582.

Leaflet sent by Paul Olson, new owner of Bountiful Bean Soyfoods. 1993. Nov. 19. The company's tofu is curded with nigari and calcium sulfate. The herb tofu contains basil, thyme, granulated garlic, onion powder, and cayenne.

7251. **Product Name:** Rice Pudding Surprise.
Manufacturer's Name: Bountiful Bean Plant.
Manufacturer's Address: 2049 1/2 Atwood Ave., Madison, WI 53704. Phone: 608-241-8700.
Date of Introduction: 1985.
Ingredients: Brown rice, currants, tofu (surprise!), honey, lemon juice, vanilla, almonds, cinnamon, nutmeg, agar-agar, salt.
Wt/Vol., Packaging, Price: 8 oz.
How Stored: Refrigerated.
New Product–Documentation: Interview with Deborah Bachmann. 1987. Dec. 29. Seasonal: sold mostly during November-December. In 1985 it was called simply "Rice Pudding." Ad in East Side News. 1986. Winter. "Rice Pudding Surprise. Chocolate Delite. Carob Delite. Delicious, dairy-free desserts are not only possible–they're available! Healthy holidays." Label. 1985. 2.75 by 1.5 inches. Self adhesive. Red on white. "Non-Dairy."

7252. Burant, Christopher. 1985. Working at the Bountiful Bean. *Mifflin St. Co-op Newsletter.* p. 7-8. [1 ref]
• ***Summary:*** "In 1978 we were selling 350 lb/week of tofu. This year we have been averaging 2,800 lb." Address: Madison, Wisconsin.

7253. Caderas de Kerleau, Anne. 1985. O-tofou, l'honorable tofou [O-tofu, the honorable tofu]. *Lettre de l'ARTS* No. 1. p. 1, 3. [1 ref. Fre]
Address: ARTS, 108 rue St. Honore, Paris, France.

7254. **Product Name:** [Tofu].
Foreign Name: Queso de Soya.

© Copyright Soyinfo Center 2013

Manufacturer's Name: Centro de Soya, Soy Dairy.
Manufacturer's Address: Barrio San Bartolo, Molino Belen, Solola, Guatemala; Apartado Postal 118, 07091 Solola.
Date of Introduction: 1985.
Ingredients: Water, soybeans, coagulant (Epsom salts).
Wt/Vol., Packaging, Price: 1 lb blocks packed in plastic bags, sold at Q. 1.50 per pound.
How Stored: Refrigerated.
Nutrition: Moisture 79.7%. After drying: moisture 4.5%, ether extract (fat) 30.4%, crude fiber 0.12%, nitrogen 9.0%, protein 56.2%, ash 3.7%.
New Product–Documentation: Talk with Laurie Praskin. 1988. Dec. Most of this tofu is sold to vegetarian restaurants that cater to tourists in Panajachel, Guatemala City (Seventh-day Adventist), and Antigua (a big tourist center and the former capital of Guatemala). Letter from Amado del Valle. 1988. March 16. San Bartolo is the name of the indigenous community situated around the Center. It is comprised of 60 houses with 60 independent families. This community has benefited from the potable water project and system and the Centro de Soya through the help of Plenty Canada. Plenty's original idea was for the soy dairy to benefit the community. The community presently buys products from the soy dairy at reduced prices to stimulate production and improve their nutritional status. The Center also gives the community classes on the benefits of soybeans. Q. refers to Guatemala's monetary unit, the Quetzal. The Center does not yet have any commercial labels or legal receipts since it is not yet registered as a commercial enterprise under Guatemalan law.

7255. **Product Name:** [Tofu (from Organically Grown Soybeans, or Non-Organic), and Silken Tofu].
Foreign Name: Tofu: Pate de soja, Kinugoshi-dôfu.
Manufacturer's Name: Daizou SARL.
Manufacturer's Address: 883 Rue de Bernau–Z.I., 94500 Champigny sur Marne, France. Phone: 48 82 39 90 or 47.06.33.71.
Date of Introduction: 1985.
Ingredients: Water, yellow soybeans, sea salt. * Some organically grown.
Wt/Vol., Packaging, Price: 360 gm.
How Stored: Refrigerated.
New Product–Documentation: Form filled out by Anthony Marrese based on an interview with Mr. Hirayama. 1989. Nov. Mr. Sakaguchi is the owner of Daizou and Mr. Takatoshi Hirayama is the tofu production manager. Le Bol en Bois started in the 1970s as probably the first macrobiotic restaurant in Paris. They made tofu for their own use and their outside business grew slowly. In 1985 Tama (an importer and distributor of Japanese natural foods) and Daizou (a food manufacturing company) were made separate business divisions of Le Bol en Bois restaurant and health food store. The three companies employ about 50 people, 6-7 in food production. In 1985 the company introduced three types of tofu: Present production amounts are as follows: Non-organic 4,500 kg/month, organic 500 kg/month, and silken 150 kg/month. Also in 1985 the company started making konnyaku and shirataki [thin konnyaku noodles], and in 1987 they launched mochi.

Talk with David de Korsak. 1990. Jan. 31. David, a Frenchman, worked for this company in Sept. 1987. He did an internship with them, setting up a computer system. The manager was Takatoshi Hirayama. Daizou has about 8 employees total. The tofu company was formerly in the basement of Le Bol en Bois in Paris. They moved when they outgrew that space. They sell mostly to Japanese (in water pack tubs), and their main outlet is at Le Bol en Bois. They use 100-125 kg/day of soybeans to make about 300-375 kg of tofu. They also sell some vacuum packed tofu, made with organically grown soybeans, to 1-2 health food shops in Paris.

Letter from Bernard Storup of Société Soy. 1989. March 3. Daizou was founded by Le Bol en Bois (Paris) in 1985. Mr. Sakaguchi was the first to make tofu in France [Actually, Li Yu-ying was probably the first, in 1911].

7256. **Product Name:** California Nhot Dog (With Tofu).
Manufacturer's Name: East Coast West.
Manufacturer's Address: Fashion Island Mall, California. Phone: 341-4133.
Date of Introduction: 1985.
New Product–Documentation: Talk with Paul Duchesne. 1989. July 31. This man and his wife have been around for 4-5 years. He ran a deli and bakery in a mall selling the Nhot-Dogs (his main product), knishes, bagels, muffins, cookies, cheesecakes, etc. Sold T-shirts and sold his products at fairs. Paul has a menu of his. He might be in San Francisco under California Nhot Dog. Paul has a menu from the place mat, but does not recall the persons name.

7257. **Product Name:** Non-Dairy Soybean Drink (Soymilk) [Plain].
Manufacturer's Name: Eastern Foods Corporation.
Manufacturer's Address: 3235 E. Hennepin Ave., Minneapolis, MN 55413.
Date of Introduction: 1985.
Ingredients: Water, soybeans.
Wt/Vol., Packaging, Price: Quarts and half gallons.
How Stored: Refrigerated.
New Product–Documentation: Labels. 1985. 2.5 by 3.5 inches. Yellow and black on white. "Drink plain or flavor with vanilla, honey, or carob." Letter from Tom Menie. 1988. June. The product was introduced in 1985, in quarts and half gallons.

7258. **Product Name:** Farm Soy Dairy Tofu (Vacuum Pack).

© Copyright Soyinfo Center 2013

Manufacturer's Name: Farm Soy Dairy.
Manufacturer's Address: 156 Drakes Lane (P.O. Box 96), Summertown, TN 38483. Phone: 615-964-2529.
Date of Introduction: 1985.
Wt/Vol., Packaging, Price: Vacuum packed.
How Stored: Refrigerated.
New Product–Documentation: Talk with Michael Lee, owner. 1988. They added vacuum packed tofu in 1985. They use a Smith chamber vacuum packer, 4 cakes at a time, that can pack 250 lb/hour in a 20-second cycle. Then they sell it packed in an attractive outer box. The design is taken from the from of The Farm's Tofu Cookery cookbook.

7259. **Product Name:** Pak Fook Tofu.
Manufacturer's Name: Foodpak Ltd.
Manufacturer's Address: Watson Centre, 16th Floor, 16-22 Kung Yip St., Kwai Chung, Hong Kong.
Date of Introduction: 1985.
New Product–Documentation: Soya Bluebook. 1985. p. 100.

7260. **Product Name:** Hui Ming Tofu.
Manufacturer's Name: Fraser & Neave (Singapore) Pte. Ltd.
Manufacturer's Address: 475 River Valley Rd. Singapore 1024, Singapore.
Date of Introduction: 1985.
New Product–Documentation: Soya Bluebook. 1985. p. 100.

7261. **Product Name:** [Seasoned Tofu (Gourmet Diced with Soy Sauce & Spices, Provencale with Herbs, and Jardiniere with Vegetables)].
Foreign Name: Tofu Gourmet, Tofu Provençale, Tofu Jardinière.
Manufacturer's Name: Galactina Ltd.
Manufacturer's Address: Birkenwej 1-6, CH-3123 Belp, Switzerland.
Date of Introduction: 1985.
Ingredients: Provencale: Herbs from Provence, soysauce, seasonings, and salt.
Wt/Vol., Packaging, Price: 250 gm (8.8 oz) packed in water in molded plastic tray with heat-seal film top and full-color front panel photo. In 1987, 1 kg package for catering.
How Stored: Refrigerated, 6 week shelf life.
Nutrition: Provencale: Protein 11.5%, 6.5% fat, 2.5% carbohydrate. 114 calories/100 gm.
New Product–Documentation: Soyfoods (ESFA). 1987. Jan. "Galactina ready to eat salads. Tofu Nature, Tofu Gourmet, Tofu Provençale, Tofu Jardinière. All these can be eaten hot or cold." Soya Bluebook. 1986. p. 108; 1987. p. 97. Leaflet. 1987. "Es sprach schon immer viel für Tofu. Jetzt gibt es vier gute Gruende mehr, ihn auch zu geniessen." A stunning color brochure of four tofu packages showing some of the best graphics seen up to this time. In German and French.

Letter from Peter Speck. 1988. March 11. "We started 1985 with four tofu varieties, natural tofu as well as three flavored tofus. In 1987 we introduced the same products in 1 kg packages for catering, plus a tofu spread."

7262. **Product Name:** GlobaLite Instant Tofu Mix.
Manufacturer's Name: Global Foods.
Manufacturer's Address: 2881 Parkway Dr., Decatur, IL 62526. Phone: 800-422-2881.
Date of Introduction: 1985.
Ingredients: Isolated soy protein, partially hydrogenated soybean oil, corn starch, gluconic acid.
How Stored: Shelf stable.
New Product–Documentation: Ad. "Just add boiling water and mix in a blender, pour into a mold, chill for an hour and you have tofu which is virtually identical to fresh tofu." Spot. 1987. Soya Newsletter. 1(4):6. "A newly reformulated product." Lists ingredients.

Ad (full page, color) in Vegetarian Times. 1987. Dec. p. 53. Announcing GlobaLite Instant Tofu and GlobaLite Vegetarian Entrees.

7263. **Product Name:** Eggless Egg Salad, Tofu Pot Pie (Meatless), Tofu Walnut Bar, and Tofu Lemon Pie.
Manufacturer's Name: Greenleaf Farm Foods, Inc.
Manufacturer's Address: Delhi, New York.
Date of Introduction: 1985.
New Product–Documentation: Talk with Joe Jaffer. 1989. Sept. 16. In the mid-1980s he owned a bakery in Delhi, New York which was part of Greenleaf and which used tofu in a number of the products. Most were baked products introduced in 1985. Each pot pie was in a little aluminum tin. The walnut pastry contained a considerable amount of tofu. The people who ran the business also ran the "Good Cheap Food Co-op" in Delhi. He distributed these over a wide geographic area. But it was not profitable, so he closed it in late 1986 or early 1987.

7264. **Product Name:** Hera Tofeata Tofu. Soya Bean Curd.
Manufacturer's Name: Haldane Foods Ltd.
Manufacturer's Address: Unit 25, Hayhill Industrial Estate, Sileby Rd., Barrow-Upon-Soar, Leicester, England.
Date of Introduction: 1985.
Ingredients: Water, dehulled soybeans, calcium sulphate (natural coagulant).
Wt/Vol., Packaging, Price: 255.6 gm (9 oz) vacuum pack inside full-color paperboard box. Retails for 65 pence.
How Stored: Refrigerated.
Nutrition: Per 100 gm.: 328 calories, protein 7.8 gm, fat 4.3 gm, 2.3 gm.
New Product–Documentation: Label. 1986, undated. "Fresh, Light. A non-dairy meat alternative. A versatile

© Copyright Soyinfo Center 2013

replacement for meat and dairy products. Keep chilled." Letter from Simon Bailey. 1988. Oct. 10. Haldane joined forces with British Arkady in Feb. 1988 as part of Arkady's Health Food Div. Brian Welsby and Peter Fitch are joint managing directors. Letter from Neil Robinson. 1989. Aug. 7. The three major tofu products in Britain, as far as I know, are (1) Tofeata Tofu by Haldane Foods (Hera), Leicester, England; (2) Cauldron Foods, Bristol, England; (3) Truehealth Tofu by Birchwood Foods, Wrexham, Wales.

7265. **Product Name:** Itona Tofu.
Manufacturer's Name: Itona Products Ltd.
Manufacturer's Address: Itona Works, Leyland Mill Lane, Wigan, Lancashire, WN1 2SB, England.
Date of Introduction: 1985.
New Product–Documentation: Soya Bluebook. 1985. p. 100. Note: Industry observers in 1990 note that this company has always been a bit secretive and is not widely known. They are basically doing the same things they have been doing for years.

7266. **Product Name:** Miso Master Miso-Tofu Dips.
Manufacturer's Name: Just In Foods, Inc.
Manufacturer's Address: Box 541, Route 3, Rutherfordton, NC 28139.
Date of Introduction: 1985.
New Product–Documentation: Leaflet. Back to back, 8½ by 11 inch, 3 color. Reprinted in Soyfoods Marketing. Lafayette, CA: Soyfoods Center. Miso Master. You've got to try these two extraordinary new Miso-Tofu Dips from Miso Master.

7267. Kikkoman International Inc. 1985. Kikkoman tofu. Delicious recipes (Leaflet, with 6 recipes). San Francisco, California. 1 p.
Address: P.O. Box 784, San Francisco, California 94101.

7268. Kikkoman International Inc. 1985. The joy of tofu. Great recipes from the Kikkoman kitchens (Leaflet) San Francisco, California. 3 panels on each side. Each panel: 20 x 9 cm.
• ***Summary:*** Contains recipes for: Hi-Protein Smoothie, Creamy Corn Soup, Tuna-Tofu Sandwich Spread, Spice-Nut Coffeecake, Marco Polo Pasta Salad, Simple Skillet Sukiyaki, Hunan Pork & Tofu Stir-Fry, Raspberry Yogurt Fluff Pie. Address: P.O. Box 784, San Francisco, California 94101.

7269. **Product Name:** Magic Bean Tofu Jerky.
Manufacturer's Name: Larry's Magic Bean Tofu Jerky.
Manufacturer's Address: 1116 East Belmont, Fresno, CA 93701. Phone: 209-485-3759.
Date of Introduction: 1985.
New Product–Documentation: Talk with Larry Barber. 1988. April 4. He sold this product briefly in about 1985 in San Francisco (Rainbow Grocery) and Santa Cruz (Staff Life), but it took him 1 hour to make 1 pound. He is now trying to automate the process and capitalize the company. The product has been off the market for 3 years. He gets his tofu from Brad Kubota of Fresno Tofu Co.

Note: This is the earliest known commercial tofu jerky product. It contained textured soy protein.

7270. *Lettre de l'ARTS.* 1985. La Clef des Champs: Une cuisine cosmopolite et créative [La Clef des Champs: A restaurant featuring cosmopolitan, creative cuisine]. No. 1. p. 4. [Fre]
• ***Summary:*** This French vegetarian and soyfoods restaurant opened in April 1984 at Montauban. Address: France.

7271. **Product Name:** Living Foods Organic Tofu Spread [With Garlic, Dill, or Celery].
Manufacturer's Name: Living Foods (Importer). Made in The Netherlands by Witte Wonder.
Manufacturer's Address: P.O. Box 66, Chichester, W. Sussex, England.
Date of Introduction: 1985.
New Product–Documentation: Label. 1986, undated. 8 inches by 1.5. Purple and black on beige. "A natural, dairy-free, vegetarian spread. Produce of Holland." Letter from Sjon Welters. 1989. July 24. Witte Wonder started private labeling their tofu spreads for Living Foods in 1984 or 1985.

7272. Masson, A. 1985. Le contrôle microbiologique des aliments dans la province de Québec: Compte-Rendu d'un stage effectué au Canada du 3 au 21 Juin 1985 [Microbiological control of food in the province of Quebec: Report of a study conducted in Canada from June 3-21, 1985]. *Swiss Food* 7(11):7-11. [Fre]*
• ***Summary:*** Contains results of microbiological analyses of soymilk, with or without magnesium chloride added, and of tofu. Identification of the pathogenic bacteria in the finished products and raw materials. Gives Canadian norms or standards on the microbiological quality of food products. Address: Univ. Lausanne, Lab. Cantonal, Controle Denrees Alimentaires, Epalinges, Switzerland.

7273. Matsuhashi, T. 1985. [Development of dried-frozen tofu in Nagano prefecture]. *Report of ASPAC* No. 90. [Jap]*
Address: Nagano State Lab. of Food Technology, Kurita, Nagano-shi, Japan.

7274. Mudjisihono, Robertus; Kusman, Nur; Rivai, A. 1985. Pengaruh suhu ekstraksi dan varietas kedelai terhadap mutu yang dihasilkan [The effects of extraction temperature and soybean varieties on the quality of tofu]. *Media Penelitian Sukamandi* (*Indonesia*) 1:26-32. [Ind]*
• ***Summary:*** This journal is published by the Sukamandi

Research Inst. for Food Crops (Balai Penelitian Tanaman Pangan Sukamandi).

7275. Nakayama, T.O.M. 1985. Co-precipitation of peanut and soybean milks to form tofu. *Proceedings of the American Peanut Research and Education Society* 17:56. *
• ***Summary:*** A mixture of 1/3 (weight/weight) peanuts and 2/3 soybeans was used to prepare tofu in a traditional manner, coagulated with calcium sulfate. The resulting curds were shown to reflect the increased contribution of oil from the peanuts. Composition of minerals and protein were similar. Address: Dep. of Food Science, Univ. of Georgia Agric. Exp. Station, Experiment, GA 30212.

7276. Nasoya Foods. 1985. A "tempeh-tation" for healthy sandwiches and entrees (poster). Mechanic St. Ext. (P.O. Box 841), Leominster, MA 01453. 4.25 by 11 inches,
• ***Summary:*** Horizontal, on card stock. A large color photo in the center shows two halves of a tempeh sandwich, with sprouts and lettuce. A black olive and cucumber are on the side. The printing is black on white. "High in protein. Rich in B vitamins." A color photo shows two packages of Nasoya Foods tempeh. Note: Nasoya is now making its own tempeh. Address: Leominster, Massachusetts.

7277. **Product Name:** Tofu Spread [Szechuan, or Dill].
Manufacturer's Name: Natural Alternatives.
Manufacturer's Address: Alexandria, Virginia.
Date of Introduction: 1985.
Wt/Vol., Packaging, Price: 8 oz. plastic tub. Retails for $2.25 (7/92, Maryland).
How Stored: Refrigerated.
New Product–Documentation: Talk with Robert Ashton, owner of Natural Alternatives / Promart. 1992. Sept. 14. He introduced these two products in 1985; his first tofu spreads were launched in 1981.

7278. North Dakota Soybean Council–New state soybean association. 1985.
• ***Summary:*** Damien, John. 1988. "Soybean dessert product cuts out middleman" [cow]. *Sun* (Jamestown, North Dakota). May 16. At the North Dakota Newspaper Convention, samples of Tofulicious, a soybean-based, non-dairy frozen dessert were passed around for taste testing. The North Dakota Soybean Council likes that label and is trying to open a market for Tofulicious in the state.

Soya & Oilseed Bluebook. 2004, p. 24. "North Dakota Soybean Council, 1411 32nd St. SW, Fargo, ND 58103... Founded: 1985. Membership: This is a non-member council. All North Dakota farmers participate in this soybean check-off program."

7279. **Product Name:** Tofu Pizza (On Sprouted Wheat Crust with Dairy Cheese).
Manufacturer's Name: Palomar Mountain Soyfoods.
Manufacturer's Address: Escondido, California.
Date of Introduction: 1985.
New Product–Documentation: Talk with Alex Press. 1990. Feb. 28. He started selling this product in 1985, after he moved to a new location in Escondido. Firm grated tofu was added to the pizza sauce. Then vegetables and cheese were put on top of that.

7280. Park, Y.G.; Park, B.D.; Choi, K.S. 1985. [Changes of ultrastructure of tissues, characteristics of protein, and tofu yield with increased soybean soaking time]. *Journal of the Korean Society of Food and Nutrition* 14(4):381-86. [21 ref. Kor; eng]*
• ***Summary:*** Tofu yield was increased from 45.0% to 55.4% when soaking time was increased from 5 to 24 hours. Address: Dep. of Food Science & Technology, Yeungnam Univ., Gyongsangbuk-do, South Korea.

7281. **Product Name:** [Tofu Salads (German, Russian, Brazilian, Chinese, Hungarian, With Fresh Herbs, or Japanese Style)].
Foreign Name: Tofu–Salate (Deutsch, Russisch, Brasilianisch, Chinesisch, Ungarisch, Mit frischen Kraeutern, Japanisch).
Manufacturer's Name: Pro Natura.
Manufacturer's Address: Elisabetenstr. 10, D-6074 Roedermark, West Germany. Phone: 06074-97437.
Date of Introduction: 1985.
Wt/Vol., Packaging, Price: 330 gm glass.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Leaflet from Tofuhaus Tiefenthal, a distributor. 1988. "No preservatives are used. They are sterilized to make them non-perishable." Letter from Herm. Berief of Tofukost-Werk TKW. 1988. Oct. 27. There is no company named Pro Natura listed in the phone directory in Rödermark. Form filled out by Albert Hess. 1988. Dec. 1. The company started making all their soyfoods in about 1985. E. Rauch is in charge. Gives current address and phone in Rödermark.

Letter from Bernd Drosihn. 1990. May 10. This company is now located at Waldstrasse 9, D-6120 Michelstadt-Vielbrunn, West Germany. Phone: 06066/1479.

7282. **Product Name:** [Tofu Sandwich Spread (Hungarian, or Chinese)].
Foreign Name: Tofu–Brotaufstrich (Ungarisch und chinesisch).
Manufacturer's Name: Pro Natura.
Manufacturer's Address: Elisabetenstr. 10, D-6074 Roedermark, West Germany. Phone: 06074-97437.
Date of Introduction: 1985.
Ingredients: Incl. Tofu, brown rice, cereals, cold-pressed oil, and seasonings.

© Copyright Soyinfo Center 2013

Wt/Vol., Packaging, Price: 180 gm glass.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Leaflet from Tofuhaus Tiefenthal, a distributor. 1988.

7283. **Product Name:** [Tempeh Sandwich Spread (Yugoslavian)].
Foreign Name: Tempeh–Aufstrich (Jugoslawisch).
Manufacturer's Name: Pro Natura.
Manufacturer's Address: Elisabetenstr. 10, D-6074 Roedermark, West Germany. Phone: 06074-97437.
Date of Introduction: 1985.
Ingredients: Incl. tofu, tempeh, spices.
Wt/Vol., Packaging, Price: 180 gm glass.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Leaflet from Tofuhaus Tiefenthal, a distributor. 1988.

7284. **Product Name:** [Tofu Bars].
Foreign Name: Tofu–Stange.
Manufacturer's Name: Pro Natura.
Manufacturer's Address: Elisabetenstr. 10, D-6074 Roedermark, West Germany. Phone: 06074-97437.
Date of Introduction: 1985.
Ingredients: Incl. tofu, cereals, vegetables.
Wt/Vol., Packaging, Price: 190-200 gm vacuum pack.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Leaflet from Tofuhaus Tiefenthal, a distributor. 1988. "Nice as a spread for bread, or cut in strips for use in salads, hot pots, or soups."

7285. **Product Name:** [Tofu Entree "Pasta Asciutta"].
Foreign Name: Tofu–Gericht "Pasta Asciuta".
Manufacturer's Name: Pro Natura.
Manufacturer's Address: Elisabetenstr. 10, D-6074 Roedermark, West Germany. Phone: 06074-97437.
Date of Introduction: 1985.
Ingredients: Incl. tofu, tomatoes, cereals, spices.
Wt/Vol., Packaging, Price: 330 gm glass.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Leaflet from Tofuhaus Tiefenthal, a distributor. 1988. "This famous Italian specialty is made with a base of tofu." Note: In Italian, *pasta asciutta* refers to "macaroni and cheese."

7286. **Product Name:** [Tofu Mayonnaise or Dressing].
Foreign Name: Tofu–Salatverfeinerer.
Manufacturer's Name: Pro Natura.
Manufacturer's Address: Elisabetenstr. 10, D-6074 Roedermark, West Germany. Phone: 06074-97437.
Date of Introduction: 1985.
Ingredients: Contains only 20% fat.
Wt/Vol., Packaging, Price: 300 gm glass.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Leaflet from Tofuhaus Tiefenthal, a distributor. 1988.

7287. Sohn, J.W.; Kim, W.J. 1985. [Some quality changes in tofu on addition of dried okara]. *Hanguk Sikp'um Kwahakhoe Chi* (*Korean J. of Food Science and Technology*) 17(6):522-25. [14 ref. Kor; eng]*
• ***Summary:*** Dried okara (the residue from making soymilk) was added at up to 30% to the soybean water extract used to make tofu. As proportions of okara increased, volume and water holding capacity of the curd were reduced and penetration value increased. Sag value increased up to 20% residue, then decreased drastically to 30%. Overall physical and sensory attributes indicate that 10% residue inclusion would be acceptable. Address: Dep. of Food & Nutrition, Sook-Myung Women's Univ., Seoul, South Korea.

7288. **Product Name:** [Tofu Ice Cream].
Manufacturer's Name: Solnuts B.V.
Manufacturer's Address: Swaardvenstraat 41, P.O. Box 5066, 5048 AV Tilburg, Netherlands.
Date of Introduction: 1985.
New Product–Documentation: Soya Bluebook. 1985. p. 100.

7289. **Product Name:** Tofu Burrito Filling with Red Chile.
Manufacturer's Name: Southwest Soy Foods.
Manufacturer's Address: 2889 Trades West Rd., Santa Fe, NM 87501. Phone: 505-471-8979.
Date of Introduction: 1985.
Ingredients: Potatoes, tofu, onions, red chile, water, shoyu, safflower oil, spices.
Wt/Vol., Packaging, Price: 2 lb pack. Retails for $2.40 (9/90, New Mexico).
How Stored: Frozen.
New Product–Documentation: Talk with Richard Jennings. 1987. Dec. 28. Gave date of introduction. This product is sold only to foodservice organizations.

7290. **Product Name:** Tempeh.
Manufacturer's Name: Soy Power (Marketer-Distributor). Made in South San Francisco by Quong Hop & Co.
Manufacturer's Address: 2811-A Ocean Park Blvd., Santa Monica, CA 90405.
Date of Introduction: 1985.
New Product–Documentation: Talk with Kevin Cross. 1988. Sept. 22. Made by Quong Hop. Introduced in about 1985.

7291. **Product Name:** Soya Nova Herb & Garlic Tofu.
Manufacturer's Name: Soya Nova Tofu Shop.
Manufacturer's Address: R.R. #2 Rourke Road, C.28, Ganges, Saltspring Island, BC, V0S 1E0, Canada. Phone: 604-537-9651.

© Copyright Soyinfo Center 2013

Date of Introduction: 1985.
Ingredients: Incl. tofu, garlic, herbs.
How Stored: Refrigerated.
New Product–Documentation: Letter from Greg Lundh of Silverking Soya Foods in Nelson, BC, Canada. 1990. Dec. 14. Soya Nova Tofu Shop introduced Herb & Garlic Tofu in 1985.

7292. **Product Name:** Soya Nova Tofu.
Manufacturer's Name: Soya Nova Tofu Shop.
Manufacturer's Address: R.R. #2 Rourke Road, C-28, Ganges, Saltspring Island, BC, V0S 1E0, Canada. Phone: 604-537-9651.
Date of Introduction: 1985.
New Product–Documentation: Two early entries in the Soyfoods Center NAMES database: (1) Chris Kodaly, R.R. #1, Mayne, BC, V0N 2U0, Canada. for Debbie Lauzon and Chris Kodaly. 1987. June 4. Nova Food at R.R. #1, Isabella Point Rd., Fulford Harbour, Saltspring Island, BC, V0S 1C0, Canada, is making tofu. Phone: 604-653-9259.

Talk with Greg Lundh of Silverking Soya Foods in Nelson, BC, Canada. 1990. Oct. 20. Soya Nova Tofu Shop makes tofu at R.R. #2 Rourke Rd., C-28, Ganges, Saltspring Island, British Columbia, V0S 1E0, Canada. Phone: 604-537-9651. The owners are Chris and Debbie Kodaly. Saltspring is one of the "Gulf Islands" in the Straight of Georgia between Vancouver Island and southern southwest tip of the mainland of BC. They have been in business for 5-7 years. They started the business themselves and they have been in the same location for at least the last 5 years. They make tofu, herb tofu, and many other soyfood products. They label their products. They make 700 lb/week of tofu (plain and herb), plus soysage, soysage pastries (made by a French pastry chef).

Letter from Deborah Lauzon. 1991. Feb. 6. They moved to Ganges in 1985.

Talk with Silverking. 1992. Sept. They have a new Takai pressure cooker and boiler. They used to make 900 to 1,000 lb/week of tofu, but now they hope to make that much in one day.

7293. **Product Name:** [Tofu, and Seitan].
Foreign Name: Tofu, Seitan.
Manufacturer's Name: Soyalab.
Manufacturer's Address: Florence, Italy.
Date of Introduction: 1985.
New Product–Documentation: Talk with (call from) Marcello Panchetti of Soyalab in Italy. 1993. Oct. 31. This company started making tofu and seitan in 1985. They introduced mochi in 1990, and also make peanut butter, and hazelnut butter. He is interested in starting to make tempeh. The company still makes all these products. They are located outside of Florence at Via B. Cellini 48N, 50020 Sambuca Val di Pesa (Firenze), Italy. But in 1985 they were located at a different address in Florence.

Call from Marco Lamonica. 1993. Dec. 9. They would like to make a soy cheese based on tofu, like TofuRella, which he saw in America. They plan to order a pressure cooker system for making tofu.

7294. Soyfoods company logos. 1985. 1 p.
• ***Summary:*** 1. Tomsun Foods, Inc. (Greenfield, Massachusetts).
2. Island Tofu Works (Bar Harbor, Maine).

7295. **Product Name:** [Tofu Dessert].
Foreign Name: Tofu Dessert.
Manufacturer's Name: Sunrise Market Ltd.
Manufacturer's Address: 729 Powell St., Vancouver, BC, V6A 1H5, Canada.
Date of Introduction: 1985.
Ingredients: Water, soybeans, sugar, calcium sulphate, glucono-delta-lactone.
Wt/Vol., Packaging, Price: 10 oz (300 gm).
How Stored: Refrigerated.

New Product–Documentation: Label. 5.5 by 3.5 inches. Red and white with color photo in middle of yogurt-like tofu surrounded by fruits (kiwi, strawberry, peaches) in a glass cup. "Pasteurized. No preservative." Product name also written in Chinese–Doufu-hwa [literally, tofu flowers]. Form filled out by Peter Joe. 1988. May 20. Gives date.

7296. **Product Name:** [Tofu Puffs].
Foreign Name: Souffles de Tofu.
Manufacturer's Name: Sunrise Market Ltd.
Manufacturer's Address: 729 Powell St., Vancouver, BC, V6A 1H5, Canada. Phone: 604-254-0701.
Date of Introduction: 1985.
Ingredients: Water, extract of soy, magnesium chloride, vegetable oil (canola and soybean). vegetable oil.
Wt/Vol., Packaging, Price: 95 gm (3.25 oz).
How Stored: Refrigerated.
New Product–Documentation: Label. 1987. 4 x 3 inches.

Red and black on yellow. "Fully cooked. Keep refrigerated. Heat and serve." Form filled out by Peter Joe. 1988. May 20. Gives date.

7297. Tajima, K.; Tominaga, S. 1985. Dietary habits and gastro-intestinal cancers: A comparative case-control study of stomach and large intestinal cancers in Nagoya, Japan. *Japanese J. of Cancer Research* (*Gann*) 76:705-16. *
• ***Summary:*** In this case-control study, the authors noted an increased in rectal cancer risk, but not in colon cancer risk in people consuming miso soup (Relative Risk = 2.05, $p < 0.05$). No association was found between tofu consumption and either colon or rectal cancer.

Concerning stomach cancer: Consumption of miso soup or miso was not significantly associated with increased risk of stomach cancer.

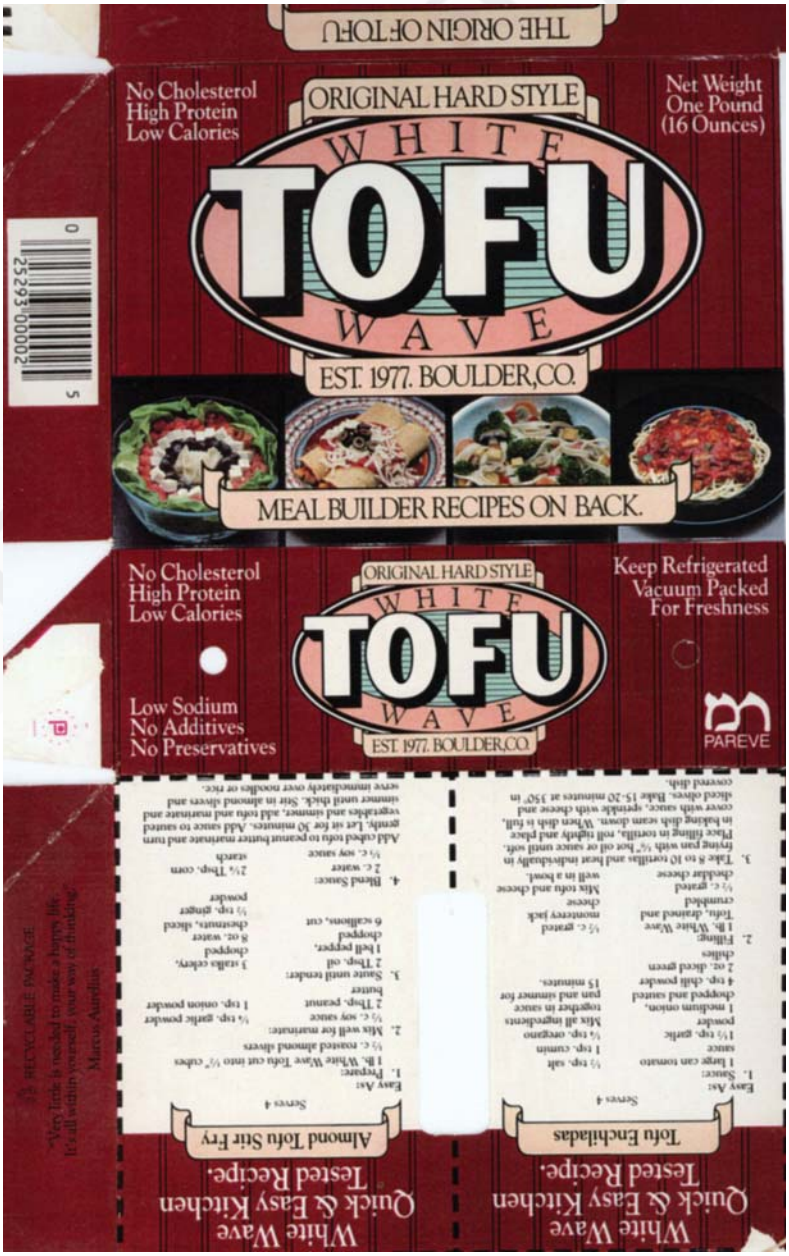
7298. Takai Tofu & Soymilk Equipment Co. 1985. Modern soymilk plant: Makes delicious dairylike soymilk with no beany flavor. 1-1 Inari, Nonoichi-machi, Ishikawa-ken 921, Japan. 4 p. 30 cm. [Eng; Jap]
• ***Summary:*** Manufacturer's catalog. The front and rear covers are black letters on light blue. With 5 inserts including excellent fold-out layouts and floor plans, flow chart, and "Information sheet: Your soymilk production plans."

7299. **Product Name:** [Tofunaise (Tofu Mayonnaise), and Tofu Dressing].
Foreign Name: Tofunaise, Tofudressing.
Manufacturer's Name: Tofurei Wels. Renamed Schoen Tofurei in 1987.
Manufacturer's Address: Prinz Eugen Strasse 1, A-4600 Wels, Austria. Phone: 07242/834222, 78073.
Date of Introduction: 1985.
New Product–Documentation: Price List. 1988. With dates products were introduced. Each product comes in a 210 ml jar.

7300. **Product Name:** Soft Tofu, Firm Tofu, Fried Tofu, Baked Tofu, Tofu Strips (like noodles), Spiced Tofu (Wu Hsiang Doufu Gan), Soymilk.
Manufacturer's Name: Visoy.
Manufacturer's Address: 111 West Elmyra, Los Angeles, CA 90012. Phone: 213-221-4079.
Date of Introduction: 1985.
New Product–Documentation: Talk with Shoan Yamauchi. 1988. Oct. 23. This company is a small, Chinese-run company. Talk with David Ma. 1988. Oct. 24. The company started making all these products in 1985.

7301. **Product Name:** Tempeh Burgers (Marinated).
Manufacturer's Name: Western Soy Complements.
Manufacturer's Address: 1560 Mansfield Ave., Suite D, Santa Cruz, CA 95062. Phone: 408-479-05968.
Date of Introduction: 1985.
New Product–Documentation: Talk with Jeremiah Ridenour. 1988. Aug. 31. This product was launched in 1985.

7302. **Product Name:** Original Hard Style Tofu.
Manufacturer's Name: White Wave, Inc.
Manufacturer's Address: 1990 North 57th Court, Boulder, CO 80301.
Date of Introduction: 1985.
Ingredients: Water, soybeans, naturally occurring gypsum and seawater extract (nigari).



© Copyright Soyinfo Center 2013

Wt/Vol., Packaging, Price: 16 oz vacuum packed inside a colorful outer paperboard box.
How Stored: Refrigerated.
New Product–Documentation: Label (box). 1987, undated. "Meal builder recipes on back (Tofu Enchiladas, Almond Tofu Stir Fry). Est. 1977. Boulder, Colorado. No Cholesterol. High Protein. Low Calories. Low Sodium. No Additives. No Preservatives." Copyright 1985.

7303. **Product Name:** [Smoked Tofu].
Foreign Name: Raeucher Tofu.
Manufacturer's Name: Yamato Tofuhaus Sojaprodukte GmbH.
Manufacturer's Address: Moessingerstr. 41, D-7406 Moessingen 2-Belsen, West Germany. Phone: 07071-71094 or 95.
Date of Introduction: 1985.
How Stored: Refrigerated.
New Product–Documentation: Talk with Klaus Gaiser. 1990. March 12. This tofu was launched in about 1985. It is still one of his best-selling products. He feels that it is the best smoked tofu he has ever seen.

7304. **Product Name:** [Tofu Pâté {packed in glass jars} (Smoked, or Marjoram)].
Foreign Name: Raeucher-Tofupastete, Marjoran Tofupastete.
Manufacturer's Name: Yamato Tofuhaus Sojaprodukte GmbH.
Manufacturer's Address: Moessingerstr. 41, D-7406 Moessingen 2-Belsen, West Germany. Phone: 07071-71094 or 95.
Date of Introduction: 1985.
Wt/Vol., Packaging, Price: Glass jar.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Talk with Klaus Gaiser. 1990. March 12. These products were launched in about 1985.

Talk with Klaus Gaiser. 1990. May 8. This product can be cut into slices. It is more like jelly, and contains agar. It is like a sausage in a glass jar. You can get it out in one piece.

7305. **Product Name:** [Soyburger, and Okara's Croquette].
Manufacturer's Name: Zuaitzo.
Manufacturer's Address: Calle Diputacion 5* Piso, Calle Correria 39 Bajo, 01001 Vitoria-Gasteiz, Spain. Phone: 945/28 86 30.
Date of Introduction: 1985.
Ingredients: Tofu, okara.
New Product–Documentation: Soya Bluebook. 1985. p. 83, 101. Letter from Javier Arocena. "I started to work with soy in 1982 on a family scale and in 1984 on an industrial level. I started to make hamburgers of tofu and seitan in about Nov. 1987, but they didn't sell very well."

7306. Andoh, Elizabeth. 1985. An American taste of Japan. New York, NY: William Morrow and Co. 334 p. + [8] pages of color plates. Illust. by Susan Blubaugh. Color photos by Aaron Rezny). Index. 25 cm.
• ***Summary:*** This is a beautiful, remarkable book by a perfectionist with an intensely curious mind, a woman who really understands (is indeed an authority on) Japanese foods, cookery, language and culture. The illustrations and photos are likewise exquisite.

Contents: A note on the romanization and pronunciation of Japanese. Acknowledgments. An introduction to cross-cultural cooking (including a brief autobiography). At the market, in the kitchen ("A guide to buying and storing Japanese foodstuffs and equipment, plus an explanation of certain Japanese cooking terms and techniques"). The recipes: Soups, appetizers, sushi (in the lingo of the sushi bar, rice is known as *shari* and soy sauce as *murasaki*– literally "purple"), main dishes, side dishes, desserts. Setting the cross-cultural table. Photography credits. Mail-order and shopping guide.

Soyfoods [and sea vegetables] are so abundantly represented that we will only refer the reader to the glossary plus ("At the market, in the kitchen," p. 19-44) and index. In the glossary: Abura agé (fried bean curd). Ao nori (sea herb flakes). Kanten (agar). Kombu (kelp). Miso (fermented bean paste). Miso shiru (also called *omi-otsuke* [a woman's word]). Neri miso (glossy bean-paste sauce). Nori (laver). Soy sauce (The subtle, full-bodied aroma of soy sauce "does fade after several months. Keep opened bottles tightly capped on a dark shelf in your kitchen"). Tofu (bean curd; kinugoshi, momen, yaki-dofu). Usukuchi shoyu. Yaki-zushi nori.

An American who traveled to Japan in 1966 to study Japanese, Andoh married (in 1969) into the Japanese family she visited there. She enrolled in a class at the Yanagihara School of Classical Japanese Cooking, where she studied for six years.

Each recipe has two titles: (1) A long, descriptive title in English with large, bold typeface and title-style capitalization. (2) Under a hairline, the actual Japanese title, in regular capital letters. The modern Hepburn system of romanization is used throughout the book, so that diacritical marks are used consistently with the appropriate words. Page 52: "Light Bean Soup with Slender White Mushrooms and Bean Curd: Enokidaké no Miso Shiru." Page 183: "Bean Curd Tempura with Spicy Scallion Sauce: Agé Dashi-Dôfu."

Note: Use of the terms "bean curd" and "bean sauce" (instead of the now more widely used "tofu" and "miso") in recipe titles, text, and index makes these parts of the book seem slightly imperfect. Address: Japan.

7307. Batt, Eva. 1985. Eva Batt's vegan cooking. Wellingborough, Northamptonshire, England: Thorsons

© Copyright Soyinfo Center 2013

Publishers Ltd. 144 p. Illust. (55 line drawings) by Margaret Leaman. Index. 22 cm.
• ***Summary:*** Across the bottom of the front cover: "The classic vegan cookbook. Recommended by The Vegan Society."

Contents: Acknowledgements. Introduction. Mueslis. Soups and small savouries. Salads and Salad dressings. Ways with vegetables. Main meals. Small savouries. Savoury sauces, stuffings and spreads. Desserts and ice cream. Bread, cakes and buns. Pastry, biscuits and cookies. Miscellaneous. Useful information.

Soy related: In the Introduction are sections on "Soya" (p. 13-14) and "Textured Vegetable Protein (TVP)" (p. 17; several brands are available. "Most come in flavoured and unflavoured varieties, in chunks and mince." This nutritious food is low in fat, "high in protein, economical, easily stored, requires very little cooking, and no waste {bone, skin, gristle or fat} is involved").

Recipes include: Beauty breakfast (with "3 tablespoons vegetable milk" [Plantmilk concentrated soymilk], p. 28). Fresh fruit muesli (with vegetable milk, p. 29). Cream of onion soup (with "2 teaspoons soya flour" and "¼ pint {140 ml} undiluted concentrated vegetable milk," p. 34). Salad cream (with "1 tablespoon undiluted concentrated vegetable milk," p. 41). Tofu mayonnaise (with "4 oz {120 gm} silken tofu," p. 41). Basic nutmeat mixture (with "2 level teaspoons soya flour," p. 54). Curried textured vegetable protein (with "1½ oz {45 gm} unflavoured textured vegetable protein, mince or chunks," p. 55). Mushroom pie (with soya flour, p. 62). Fricassee with mushrooms (with "2 oz {55 gm} tvp mince," p. 63). Savoury steak (with "tvp slices" and "soy sauce," p. 66). Bengal curry (with "1 teaspoon soya sauce," p. 68). Pizza (with "10 oz {285 gm} cooked tvp or tin of soya beans," p. 75). Onion tart (with "Soya sauce," p. 76). Soya fritters (with soya flour, p. 79). Soya burgers (with "2 oz. tvp mince," p. 81). Soya crispie (with soya flour, p. 92). Plamil and banana shake (with "½ pint Plamil vegetable milk"). Soya 'cheese' (cream style) (with "4 oz soya flour," p. 122). Soya 'cheese' (cheddar style) (with "3½ oz Soyolk or other heat-treated soya flour," p. 122). Soya compote (with "2 oz. soya flakes"). Soya milk and/or soya flour are used in many baked goods (breads, cakes, and buns, etc., see p. 99-137).

Note: Eva has basically not yet realized how tofu, tempeh, miso and good-tasting soymilk can transform a vegan diet.

Previous edition published as *Eva Batt's Vegan Cookery,* the first major vegan cookbook ever published, with over 300 recipes, plus practical advice and nutritional information. The "corporate author" is given on OCLC as the Vegan Society.

Plamil Foods put this at the top of its list of recommended vegan cookbooks. "This cookery book is most comprehensive and advises on preparing nutritious appetising meals without meat, fish, eggs or dairy products. Essential nutrients from vegetable sources, planning meals for best food value, savoury dishes, snacks, desserts, cakes, bread, biscuits, sauces, garnishes, etc." Address: Vegan Society, UK.

7308. Bradford, Peter; Bradford, Montse. 1985. Cooking with sea vegetables: A collection of naturally delicious dishes using to the full the bountiful harvest of the oceans. Wellingborough & New York: Thorsons Publishing Group. 144 p. Illust. by Sue Reid. Index. 22 cm. [8 ref]
• ***Summary:*** The Bradfords have spent considerable time studying food in Japan and are especially well qualified to present this vegan, macrobiotic cookbook. It contains definitions of and/or recipes for using tofu, tempeh, miso, natto ("The taste of these sticky fermented soya beans is either loved or hated. It is somewhat like a very ripe cheese"), shoyu (soy sauce), and seitan. Address: UK.

7309. Brody, Jane E. 1985. Jane Brody's good food book: Living the high-carbohydrate way. New York & London: W.W. Norton & Co. xxviii + 700 p. Foreword by Pierre Franey. Illust. (line drawings by Ray Skibinski). Index. 24 cm.
• ***Summary:*** Advocates a diet with more complex carbohydrates and starches–including whole grains and beans.

The section titled "Soy, the queen of beans" has the following contents: Soy protein, the meat of the East. Soy oil, a boon to blood vessels. A selection of super soy foods: Tofu–fast track to soy nutrition, tempeh–a treat from Indonesia, soybean sprouts–growing nutrients, soy flour–a protein boost, textured vegetable protein, for more recipes.

"Soy, the Queen of beans. The soybean may be the single most important food produced in the world today. It is certainly the most versatile." A praiseful introduction to soy protein, soy oil, soy grits, flakes and flour, soy powder (isolate), soy milk, soy nuts, tofu, tempeh, soy sprouts, and textured vegetable protein... by one of America's most widely read food writers.

Dr. C.R. Sirtori and collaborators at the University of Milan found that a diet rich in soy protein is considerably more effective in lowering cholesterol than is the traditional low-fat "prudent" diets. Even when 500 milligrams of cholesterol–the equivalent of two large egg yolks–were added to the soy diet, blood cholesterol levels did not rise, the study showed.

On the inside rear dust jacket is a portrait photo of Jane Brody and a brief biography. Born in New York City, she received her B.S. degree from Cornell University [Ithaca, New York] and her M.S. in Journalism from the University of Wisconsin School of Journalism. She lives with her family in Brooklyn, New York.

Note: This book is not vegetarian; meat, fish and poultry

© Copyright Soyinfo Center 2013

are used extensively, but not as extensively as in many cookbooks. Address: Food writer for The New York Times.

7310. Brown, Edward Espe. 1985. The Tassajara recipe book: Favorites of the guest season. Boston & London: Shambhala. xviii + 225 p. Foreword by Alice Waters of Chez Panice restaurant in Berkeley. Index. 23 cm.
• ***Summary:*** In the tradition of the bestselling *Tassajara Bread Book* and *Tassajara Cooking*, Ed Brown has compiled a new collection of gourmet vegetarian recipes from the kitchens of the well-known Tassajara Zen Mountain Center near Carmel, California. This cookbook contains 12 tofu recipes (mostly entrees; all use firm rather than soft tofu, which has been drained and pressed), 2 soybean recipes, and 1 one miso recipe: Eggs, scrambled tofu, and our latest granola (p. 23). Scrambled tofu (p. 30). Soups & stocks (p. 49). Soy vegetable soup (p. 65). Oriental stock (p. 67; includes tamari. May include soybean sprouts). Tartar sauce with fresh basil (p. 96; for Tofu cutlets). Sesame soybeans (p. 111). Tofu cabbage grill (p. 112). Tofu entrees (p. 139; introduction to tofu and its preparation). Tofu marinade (p. 141). Grilled marinated tofu (p. 142-43). Tofu cutlets (p. 144-45). Tofu teriyaki (p. 146-47). Eleanor's tofu gumbo (p. 148-49). Tofu miso stew (p. 150-52). Alaskan tofu (p. 153-54). Mushroom tofu stroganoff (p. 155-56).

7311. Brown, Ellen. 1985. Cooking with the new American chefs. New York, NY: Harper & Row. 367 p. Illust. Index. 28 cm.
• ***Summary:*** A decade ago the home cook would have had to venture to the nearest Chinatown to buy fresh snow peas, but not such ingredients are increasingly found in the produce section of mainstream American supermarkets and grocery stores.

"Credit for this must go to a great extent to produce wholesaler Frieda Caplan, who along with her daughter, Karen, runs Frieda's Finest, a specialty produce supply house in Los Angeles, known by its lavender-and-black labels." In 1962 she popularized the kiwi fruit by renaming it; formerly it had been the "Chinese gooseberry."

In the produce area, over the past twenty years, Frieda has been responsible for many firsts, including the idea of moving tofu out of the dairy case and into the produce section, next to fresh foods, such as ginner root, with which it would most often be used.

Note: However, in the produce section, tofu was rarely refrigerated to the level required by law.

A recipe for "Chinese crab" (developed by Wolfgang Puck) calls for "2 tablespoons Chinese fermented black beans" (p. 258). Address: Food industry consultant, food writer, restaurant critic, and former food editor of *USA Today*.

7312. Brown, James T. 1985. Harvest of the sun: An illustrated history of Riverside County. Northridge, California: Windsor Publications, Inc. 248 p. See Loma Linda Foods. p. 188-89.
• ***Summary:*** "In the early 1900s Southern and Northern California Seventh-day Adventists were actively working in the areas of diet and health. Some of their efforts resulted in the formation of the Loma Linda Sanitarium and Loma Linda College of Medical Evangelists.

"Loma Linda Foods began in 1906, supplying bakery goods for the sanitarium, the college, and the small community of Loma Linda. It made a variety of baked stone-ground, whole-wheat breads, health cookies, and fruit crackers.

"Demands from residents for the bakery goods grew quickly. They liked the life-style and diet and came to rely on the company for its products. By 1907 increased production required the construction of a separate building, a small white-frame structure located on Anderson Street across from the railroad station in Loma Linda.

"Now there was room for the production of foods similar to Dr. Kellogg's original line of foods as well as experimentation with new lines. Breakfast cereals, meat analogs from soybean and wheat, soy milk, and canned tofu were added, and bakery items became less important over the years.

"In 1933 the name was officially changed to Loma Linda Foods and by 1935 delivery routes brought the firm's products to stores within a 125-mile radius. Since working space was cramped and Loma Linda Foods wanted to concentrate on production of the breakfast cereal, Ruskets, the decision was made to relocate. The company opted for a site next to La Sierra Junior College near Riverside, with the promise of student employment cinching the move. In Nov. 1938 the first section of the present plant began operation."

"Before the relocation sales had totaled $60,000 a year. Sales increased rapidly during World War II, almost doubling during the first 6 months of 1943. Annual sales now total several million dollars..."

"Loma Linda Foods' association with Dr. Harry Miller provided a major impact on its growth. In January 1951 the company took over his International Nutrition Laboratories, Inc., in Mt. Vernon, Ohio. Dr. Miller donated the sales profit to form the International Nutrition Research Foundation at the Arlington plant near Riverside. Under his direction the foundation did much to establish soy foods as a scientifically recognized source of superior vegetable protein for human needs.

"By 1966 the company was producing six types of soy milk, which now accounts for 70% of its market. In the late 1960s Loma Linda Foods adopted a further innovation in the vegetarian protein foods field–spun protein fiber, which it now manufactures."

"From humble beginnings Loma Linda Foods has now grown to employ 250 people in its two plants and to carry a

© Copyright Soyinfo Center 2013

line of 70 products."

Large photos show: (1) The original building and staff in 1925; over the doorway is written "Loma Linda Food Co. Bread and Health Foods. Wholesale Only." (2) The present facility at 11503 Pierce Street, Riverside. Address: California.

7313. Carter, O.G. 1985. Breeding soybeans for special uses. In: R. Shibles, ed. 1985. World Soybean Research Conference III: Proceedings. Boulder, Colorado: Westview Press. xxiii + 1262 p. See p. 374-79. [27 ref]
• ***Summary:*** Contents: Oil quality. Protein: Tofu, soymilk. Oligosaccharides. Cookability. Anti-nutritional factors. Conclusions. Address: Asst. Principal, Hawkesbury Agricultural College, Richmond, New South Wales, 2753, Australia.

7314. Culioli, J. 1985. Les procédés de texturation des matières protéiques végétales: Aspects technologiques [The processes of texturization of vegetable protein materials: Technological aspects]. In: B. Godon, ed. 1985. Protéines Végétales [Vegetable Proteins]. Paris: Technique et Documentation–Lavoisier : APRIA. xxvi + 629 p. See p. 489-522. [99 ref. Fre]
• ***Summary:*** Contents: Introduction. Traditional foods based on textured soy protein: Tofu, dried-frozen tofu, yuba, sufu (fermented tofu), tempeh. The principles of protein texturization. Spinning: Historical, processes, aptitude of proteins for spinning, the texture and structure of spun proteins, the techniques of spinning derived from the Boyer process. Cooking–extrusion. Other processes for texturization of protein. Conclusion. Address: Institut National de la Recherche Agronomique, Station de Recherches sur la Viande, Theix 63110 Beaumont, France.

7315. Diamond, Harvey; Diamond, Marilyn. 1985. Fit for life. New York, NY: Warner Books. xiv + 341 p. Index. 24 cm. Paperback edition published Feb. 1987. 316 p. [204* ref]
• ***Summary:*** Contents: Part I–The principles. Introduction. 1. Diets don't work. 2. Natural hygiene. 3. The natural body cycles. 4. The theory of metabolic imbalance. 5. The principle of high-water-content food. 6. The principle of proper food combining. 7. The principle of correct fruit consumption. 8. The theory of detoxification. 9. Protein. 10. Dairy products. 11. Exercise. 12. You are what you think you are. 13. The most frequently asked questions. Part II–The program. Introduction. 1. Breakfast. 2. Fresh juices. 3. The energy ladder. 4. The *Fit for Life* shopping list. 5. The main-course salad. 6. Life-style guidelines. A four-week example of the fitness life-style. In conclusion. Bibliography.

The only references to soy or soyfoods in the index are: Miso (p. 175; Cold Mountain, Eden, Westbrae), Soy sauce and Tamari sauce (p. 176; low-sodium–Eden, Soken, Westbrae). The text mentions Tofu Sauce (Westbrae). The authors (who live in semi-tropical Los Angeles) advocate high consumption of fruit, and are apparently unaware of tofu and tempeh. The book is near vegetarian but includes the use of fish, seafood, chicken, and turkey (p. 173-74, 237). It advises against the use of dairy products.

The paperback edition announces: "America's all-time #1 health and diet book! Over 3 million copies in print!" Address: Pasadena, California.

7316. Duke, James A.; Ayensu, Edward E. 1985. Medicinal plants of China. 2 vols. Algonac, Michigan: Reference Publications, Inc. 705 p. Introduction by Edward S. Ayensu. 24 cm. Medicinal index (by disease). Common names index. Index to species. No. 4 in the series "Medicinal Plants of the World." [234* ref]
• ***Summary:*** The plants are grouped by family. Two families are tied for containing the largest number of medicinal species: Leguminosae (Fabaceae) and Compositae (Asteraceae) each have 354 species. The soybean (*Glycine max*) is discussed on p. 326-27. "Uses: Leaf: Bruised leaves applied to snakebite. Flower: Used in blindness and opacity of the cornea. Stem: Ashes of stalks applied to granular hemorrhoids or fungus growths on the anus. Fruit: Green hulls chewed to a pulp and applied to corneal and smallpox ulcers. Seed: Chinese herbals suggest that soybean is specific for proper functioning of bowels, heart, kidney, liver and stomach; antidote to *Aconitum* and *Croton.* Root: Decoction astringent. Plant: Bean sprouts ('Ta tou huang chuen') are considered constructive, laxative, resolvent, to help in alopecia [hair loss, baldness], ascites, and rheumatism.

"A salty relish 'Hsien-shih' [salted fermented black soybeans] is made by soaking the beans in water for three days, spreading them to ferment, with salt, ginger, peppers, orange peel, thyme, fennel, and apricot kernels, sealed in an earthen jar, and placed in the sun for one month. This relish is said to be used for ague, bone diseases, chills, colds, cold feet, colic, dogbite, difficulty in breathing, dysentery, fever, headache, marasmus, melancholy, nausea, poisons, and ulcer. Bean ferment (tou huang) is used for rheumatism, especially of the knees. It is chewed to a paste and applied to eczema. Bean curd (tou fu) is prescribed in drunkenness, dysentery, ophthalmia, or swellings. Soy sauce ('Chiang,' 'Chiang yu,' 'Shih yu') is applied to burns, eczema, leprosy, scalds, and sores, and is considered useful in preventing abortion and the hematuria of pregnancy.

"Chemistry: Sitosterol, an anticancer active, replaces diosgenin in some hypotensive drugs. Stigmasterol used to be employed for stiffness. Lecithin derived from soybean may function as a vasodepressor and a lipotropic agent. Soybean oil, with unsaturated fatty acid, is recommended for hypercholesteremia."

The adzuki bean (*Phaseolus vulgaris*) is discussed on p. 336-37, and kudzu (*Pueraria lobata*) on p. 339-40. Address: 1. USDA Germplasm Services Lab., ARS B-001 R-133,

• ***Summary:*** A vegetarian cookbooklet. Soy-related foods are mentioned on the following pages: Miso (sojapasta, p. 6-7). Soy bits / morsels (probably chunks of textured soy flour; Sojabrokjes, p. 12, 32). Soybeans (sojabonen, p. 12, 15). Tempeh (tempé, p. 2, 3-4, 12, 22). Tofu (tahoe, table of contents, p. 3-4, 7, 12, 18, 20, 28).

Also discusses: Azuki beans (adzukibonen, p. 11, 15). Quark (kwark, p. 7). Sesame salt (sesamzout, gomasio, p. 6) Sesame tahini (sesampasta, tahin, p. 6-7)

Note: This is the earliest Dutch-language document seen (Jan. 2005) that mentions azuki beans, which it calls *adzukibonen.* Address: Larensweg 26, 1221 CM Hilversum, Netherlands.

7322. Hsiung, Deh-Ta. 1985. Chinese vegetarian cooking. London: The Apple Press; Secaucus, New Jersey: Chartwell Books. 128 p. Illust. (color). 29 cm.
• ***Summary:*** Every page of this excellent book is in full color on glossy paper, loaded with color photos. Contains over 70 recipes. Contents: Introduction: History of Chinese vegetarian cooking, essential tools and utensils, basic techniques and cooking methods, regional cooking styles (northern, eastern, western, and southern groups), special ingredients and seasonings (with a photo of each), how to plan your menu. Cold dishes. Soups. Quick stir-fried dishes. Braised & steamed dishes. Rice, noodles & sweets.

History (p. 8): "Vegetarian cooking has a long history in China," and Chinese have traditionally been highly aware of it because of their deep interest in the connection "between food and health, whether physical or spiritual." Chinese Buddhists are vegetarians because they abhor the killing of all living creatures.

"Until quite recently, many people believed that vegetarian cooking in China originated in the Buddhist temples, and that it was first introduced into China with Buddhism from India during the reign of the Han emperor Ming (AD 58-75)." However scholars in China have now found that the earliest known mention of vegetarianism on record was during the Zhou Dynasty (beginning ca 1028 B.C.). Other "references also exist in ancient texts all pre-dating the introduction of Buddhism into China by several hundred years."

"It is generally agreed that the development of vegetarianism in China owed more to the introduction of many foreign fruits and vegetables during the Han Dynasty (206 BC–AD 222) than to Buddhism. Many Chinese vegetarians were influenced by the indigenous philosophy of Taoism, which developed the hygienic and nutritional science of food closely related to the basic yin-yang principles. The appearance of bean curd (tofu)–also during the Han dynasty–and many other soy bean products, together with the discovery of making gluten from dough, helped to enrich and further diversify the vegetarian diet."

It is interesting and important to note "that despite their continual introduction, milk and dairy products are, to date, not prominent in Chinese cuisine. Therefore, unlike their counterparts in the West, Chinese vegetarians will not use butter, cheese, or milk in their cooking, and a true Buddhist will eat neither eggs nor fish." However this book uses eggs (p. 33, 40, 64, 78 etc.).

"One of the best known poets of the Southern Song period, Lu You (1125-1210; W.-G. Lu Yu) was a noted vegetarian. He lived to the ripe old age of 86.

The section on ingredients (p. 13-14) includes concise

© Copyright Soyinfo Center 2013

descriptions of: Bean curd (tofu). Gluten. Red bean paste (also called "sweetened red bean paste," p. 124) [azuki, sweet]. Salted black beans [fermented black soybeans]. Sesame seed oil. Soy sauce ("Use Light Soy Sauce which has more flavour and does not discolour the food as much as the Dark or Rich Soy Sauce"). Sweet bean paste or Hoi Sin sauce (Made from soy bean sauce...). Yellow bean sauce ("This thick sauce is made from crushed yellow [soy] beans, flour and salt"). Photos here show (p. 15, 19): (1) Dried bean curd skins [yuba]. (2) Six squares of tofu on a rectangular wooden cutting board, and many cubes of deep-fried tofu on a sieve [for deep frying]. A can of "Black beans with ginger" under the label Yang Jiang Preserved Beans with Ginger." With very few exceptions, the Chinese drink neither water nor tea during the meal; they drink soup instead. A surprisingly large percentage of the recipes in this book call for "bean curd (tofu)."

Soy related recipes: Five spice bean curd (tofu) (with "4 cakes bean curd," p. 34). Hot and sour coup (p. 42). Spinach and bean curd (tofu) soup (p. 43). Deep fried bean curd (tofu) and wood (tree) ear soup (with 50 gm / 2 oz deep-fried bean curd or 1 cake fresh bean curd (tofu), p. 48-49). Dried bean curd (tofu) skin and vermicelli soup (with 15 gm / ½ oz dried bean curd skin [yuba], p. 50-51). Bean curd (tofu) with mushrooms (quick stir fried, p. 68). Stir-fried spinach and bean curd (tofu) (p. 70). Vegetarian chop suey (with tofu, p. 81). Chinese cabbage casserole (with deep-fried or fresh tofu, p. 82, 84). 'Buddha's delight–Eight treasures of Chinese vegetables (with 15 gm / ½ oz dried bean curd (tofu) skin sticks [dried yuba sticks], p. 92-93). Fried gluten (Mianjin, homemade, starting with 2 lb flour, p. 95). Kao fu–Sewed gluten in sweet bean sauce (with 1 tablespoon sweet bean paste or hoi sin sauce, p. 96). Casserole of vegetables (with 1 cake bean curd (tofu), p. 97). Fu-yung bean curd (tofu) (with 1 cake bean curd (tofu), 4 egg whites, and 50 ml / 2 fl oz milk, p. 98-99; Fu yang usually means omelette, but literally means scrambled eggs). Sichuan bean curd (tofu) (with 3 cakes bean curd and 1 teaspoon salted black beans, p. 100-01). San shian–'The tree delicacies' (with 275 gm / 10 oz fried gluten or deep-fried bean curd, p. 104-05). Braised 'three precious jewels' (with 2 cakes bean curd (tofu), p. 106-07). Vegetarian 'lion's head' casserole (with 4 cakes bean curd and 100 gm / 4 oz fried gluten, p. 108-09). Shanghai vegetable casserole (with 2 cakes bean curd (tofu) or 50 gm / 2 oz deep-fried bean curd, p. 110-11. "For some reason, the best vegetarian restaurants in China are found in Shanghai...").

"Rice and noodles provide the bulk of the Chinese meal. The best plain boiled rice is obtained by using only the long grain [white] rice known as patna." Photos show that many dishes are served with a small bowl of white rice. Chow mein–Fried noodles (with 25 gm / 1 oz dried bean curd skin sticks, p. 119). Vegetarian spring rolls (handmade using 1 pack of 20 frozen spring roll skins, p. 122-23).

Note: Many, if not most, recipes call for soy sauce–either light, dark, or both.

About the author (inside rear dust jacket): "Deh-ta Hsiung is a native Chinese who gained his knowledge of Chinese cooking directly from some of the great Chinese chefs. He has made several television and radio appearances in connection with his expertise on Chinese foods and now writes widely on the subject and teaches at Kenneth Lo's Chinese Cookery School [in London].

From Gareth Jones' Food blog (posted 9 Feb. 2011) titled "'Kung Hay Fat Choy' Deh-Ta Hsiung." "Cooking Chinese food at home–complete with wok, steamer and all–took off in the early 1980s. Deh-Ta was at the spearhead of the movement, along with Ken Lo and Chef But from the Ken Lo Cook School. His Chinese Regional Cooking was published in 1979 and was out of print before it got to take off." "Eating Chinese home cooking, for me, is far superior to most restaurant food–dim-sum excluded."

• ***Summary:*** The recipes are arranged by the four seasons. The index contains 43 entries for miso, 39 for tofu, 35 for tamari, 18 each for seitan and tempeh, 3 for natto, and 1 each for Japanese black [soy] beans, and for soybeans (dry).

Also contains entries for amazake, amazake pudding, azuki beans, brown rice, hiziki [hijiki], kuzu, mochi, and sea vegetables. Address: Brookline, Massachusetts.

7327. Legume, Inc. 1985. Annual report. 170 Change Bridge Rd., Montville, NJ 07045. 17 p.
Address: New Jersey.

7328. Lo, Kenneth H.C. 1985. New Chinese cooking school. Tucson, Arizona: HP Books. 288 p. Illust. Index. 28 cm.
• ***Summary:*** On the cover, below the title we read: "An illustrated course in contemporary Chinese cuisine." A gorgeous book, packed with superb color photos on glossy paper. One chapter (p. 98-115), titled "Bean curd and eggs," contains many tofu recipes. Other tofu recipes are scattered throughout the book.

The section titled "Soy beans and bean-based products" (p. 26) gives brief definitions of: Bean curd [tofu], bean curd cheese [fermented tofu], bean curd skin [yuba], salted black beans [fermented black soybeans] ("Cooked, salted and fermented whole soy beans. Mash them with other ingredients or mix into dishes for color" and rich, earthy, piquant flavor), Sichuan chili paste (yellow soy bean paste mixed with dried chilies and their seeds, sugar, and garlic), soy bean paste (crushed soy beans mixed with sugar, salt, and chili), sweet bean paste (made from cooked, puréed, sweetened red beans [azuki]), and yellow bean paste (made of fermented, salted puréed yellow [soy] beans with salt, flour and water). Also contains recipes for: Bean-curd cheese [fermented tofu], p. 88, 89. Bean curd skin [yuba] (p. 200, with color photo of "dried bean curd skin" on p. 18).

Recipes and photos for "salted black beans" [fermented black soybeans] or black bean sauce are: Steamed scallops with black bean sauce (p. 132, 138). Quick-fried crab in black bean sauce (p. 144). Cantonese steamed spareribs with black beans (p. 186, 188). Sliced beef in black bean and chili sauce (p. 201). Ho-fen noodles with beef in black bean sauce (p. 270, 273). Soy sauce is used in recipes throughout the book.

A color photo on the rear dust jacket cover shows Kenneth Lo. His biography, on the inside rear dust jacket, states that he is acknowledged the world over as an authority on Chinese food, and is a graduate of both Peking and Cambridge universities. He is also the founder of one of London's best-known Chinese restaurants.

7329. Lukes, Timothy J.; Okihiro, Gary Y. 1985. Japanese legacy: Farming and community life in California's Santa Clara Valley. Cupertino, California: De Anza College, California History Center Foundation. 156 p. Foreword by Norman Y. Mineta. 22 x 26 cm. 60 photos. Series: Local History Studies Vol. 31. California History Center, Cupertino, California. [175* ref]
• ***Summary:*** A comprehensive work about a Japanese farming community in California from 1895 to 1945. This book was the winner of the Association for Asian American Studies 1987 Book Award "for having made a most significant contribution to the study of the Asian American experience." Pages 23-24 contain a map and legend of San Jose Nihonmachi (Japantown) from 1910 to 1920. Nomitsu Tofu was located on Sixth Street, four doors from Taylor Street.

Japanese farmers first arrived in California's Santa Clara Valley in about 1895. The major theme of this book is their constant struggle. The ideas of inclusion and exclusion, oppression and resistance (the search for self-determination) of this minority group are carefully examined. The inside front cover notes: "Around the turn of the century, clusters of Japanese farms sprang up throughout the Santa Clara Valley, at Alviso, Agnew, Trimble Road, Berryessa, and the

© Copyright Soyinfo Center 2013

West Side (Santa Clara, Saratoga, Los Gatos). Each cluster built a Japanese language school, held picnics and observed Japanese festivals such as New Year's Day, and shared wells, tools, horses, and laborers. Peddlers from Nihonmachi visited those outlying clusters selling Japanese foodstuffs like tofu, miso, and seaweed, and in turn, the farmers took occasional trips to Nihonmachi for entertainment, funerals, and other social gatherings."

Note: A good source of information on farming by Asian-Americans on the Pacific Coast is the periodical *Pacific Rural Press.* Address: 1. Asst. Prof. of Political Science; 2. Director of the Ethnic Studies Program and Assoc. Prof. of History. Both: Univ. of Santa Clara.

7330. McConnaughey, Evelyn. 1985. Sea vegetables: Harvesting guide & cookbook. Naturegraph Publishers, Inc., P.O. Box 1075, Happy Camp, California 96039. xi + 240 p. Illust. Index. 22 cm. [53* ref]
• ***Summary:*** An excellent book by an expert on the subject, with years of experience. Sea vegetables: *Alaria* (wakame). *Analipus japonicus* (fir needle; matsumo in Japan). *Cystoseira* (chain bladder). *Desmarestia* (color changer). *Egregia menziesii* (feather boa). *Gracilaria* (ogo). *Halosaccion* (sea sac; add to soup and stir fries). *Laminaria* (kelp; kombu in Japan). *Macrocystis* (giant kelp). *Nereocystis* (bull kelp or bullwhip kelp). *Pelvetiopsis* (stir fry seaweed) and *Fucus. Pleuroficus* (sea spatula). *Polyneura* (use in soups and as a garnish). *Porphyra* (nori). *Postelsia* (sea palm). *Sargassum* (add to soups). Other sea vegetables. Commercial and imported sea vegetables.

Note: Some recipe titles contain the word "vegetarian," but some also use meat.

Soy-related recipes: Frozen tofu (p. 85). Miso (p. 93). Soybeans (p. 205). Tempeh (p. 71, 72, 81, 82, 92, 94, 96, 155, 179, 205). Tofu (p. 72, 78, 93, 147, 151, 155, 171, 206, 207, 208).

Contains many excellent illustrations (line drawings by Wendy Lou Manley) and photos. Address: Oregon.

7331. McDougall, Mary A. 1985. The McDougall health-supporting cookbook. Vol. 1. Piscataway, New Jersey: New Century Publishers. v + 122 p. Index. 23 cm.
• ***Summary:*** This is a vegan cookbook whose 250 original recipes are designed to support The McDougall Plan, which is a diet low in fat and sodium, high in complex carbohydrates. Since soyfoods are relatively high in fat, they are used sparingly and the recipes are marked by a symbol of a crown. Soy-related recipes include: No gluten bread (with 2 cups defatted soy flour, p. 7). Rice-soy bread (gluten-free) (p. 7). Easy corn bread or muffins (gluten-free) (p. 7-8). Puffs (gluten-free) (p. 8). Carrot corn bread (gluten-free) (p. 8). Plain & simple corn bread (gluten free, p. 9). Tofu-garlic dressing (p. 12). Tofu chili dip (p. 16). Curried tofu dip (p. 16). Best tofu mayonnaise (p. 16-17). Tofu mayonnaise (p. 17). Tofu "TVP" (using frozen tofu, p. 17). Tamari sauce (p. 37). Azuki rice (p. 62). Tofu and vegetables with rice (p. 67). Mu shui tofu (p. 78). TVP sloppy joes (p. 89). Smoothies (non-soy, p. 27; using regular or frozen bananas, apple juice or water, and other frozen or fresh fruits). Tofu cheesecake (p. 108). Apricot tofu pie (p. 108-09). A portrait photo on the rear cover shows Mary McDougall.

Note 1. Not long after this book was published, New Century Publishers changed its name to New Win Publishing, Inc. and moved to Clinton, New Jersey. As of 2000 this book is published by Putnam/Penguin.

Note 2. This is the earliest English-language document seen (Feb. 2005) that contains the term "gluten-free" (or "gluten free"). Address: P.O. 14039, Santa Rosa, California 95402.

7332. Nabben, Alexander. 1985. Soja-Kueche: Vielseitig und gesund [Soya cookery: Versatile and healthful]. Schaafheim, West Germany: Pala Verlag. 144 p. Illust. Index. 21 cm. [Ger]
• ***Summary:*** Contents: Soya, the wonderbean (*die Wunderbohne*). A cultural history of the soybean. A little soybean botany. Soya is versatile. The world market and world hunger. Health through proper nutrition and diet. Product types and buying tips. Recipes. About the author (autobiographical, with photo; he was born in 1953 in Viersen. Since 1978 he has worked in a whole-grain bakery, a soya kitchen, and in a vegetarian restaurant in Munich).

This vegan cookbook contains a large number of tofu and tempeh recipes, as well as recipes for most of the other types of soyfoods. Note the following German terms: *Ganze Sojabohnen* (*getrocknete gelbe Sojabohnen*) = whole dry soybeans. *Vollsojamehl* = Whole soy flour. *Sojasauce* = soy sauce. *Miso* (*Sojapaste*) = miso. *Okara* (*Sojakleie*) = okara. *Tofu* (*Sojaquark oder Sojakäse*) = tofu. *Tempeh* (*Soja-"Brie"*) = Tempeh.

On the last page of the book (p. 144) is an advertisement for Morgenland Naturkost, located at: Auf dem Anger 2, 3410 Northeim 19, West Germany. Phone: 05551-64592. They offer tofu and tofu dishes, seitan and seitan products, and utensils for the production of tofu and tempeh.

Apparently a second edition or printing appeared in 1988 (ISBN 3-923176-35-x). Address: Morgenland Naturkost, Auf dem Anger 2, 3440 Northeim 19, West Germany.

7333. Noh, Chin-hwa. 1985. Traditional Korean cooking: Snacks & basic side dishes. Elizabeth, New Jersey; Seoul Korea: Hollym Corporation. 78 p. Illust. (color). Index (general). Index of Korean recipe titles. 27 cm. [Eng; kor]
• ***Summary:*** This is an excellent cookbook of authentic Korean recipes, each with its Korean name (romanized and in Korean characters). Each recipe is accompanied by numerous useful color photos. The front matter contains

© Copyright Soyinfo Center 2013

an Introduction, Preparation tips, and 2 pages about the healthy Korean diet. Soy related recipes include: Soft bean curd soup (*Sundubutchigae,* p. 10). Seasoned fermented soybean soup (*Ch'onggukchangtchigae,* with 1 cake bean curd and 6-8 tablespoons seasoned fermented soybeans, p. 11 [ch'onggukchang is Korean style natto]). Royal soybean paste soup (*Kungjungdoenjangtchigae,* with 2 tablespoons soybean paste [Korean miso], p. 12). Bean curd casserole (*Tubu Chon-gol,* p. 13). Wrapped bean curd (*Tubussamtchim,* p. 15). Stuffed bean curd (*Tubusobagi,* p. 16). Steamed bean curd (*Tubuson,* p. 16-17). Bean curd in soy sauce (*Tubut'wigimjorim,* p. 18). Salted bean curd and beef (*Tubu Soemgogijorim,* p. 18). Salted beans (*K'ongjorim,* with 1 cup black beans plus soy sauce, sugar, sesame seeds, and sesame oil, p. 19). Cold cooked bean curd (*Tubu Naengch'ae,* p. 22). Bean sprout rice (*K'ongnamulpap,* with 2/3 lb. [soy] bean sprouts, p. 24). Dried radish strips in soy sauce (*Muumallaengijangatchi,* p. 54). Cucumbers in soy sauce (*Oijangatchi,* p. 55). Sesame leaves in soy sauce (*Kkaennipchangatchi,* p. 56). Todok in red sauce (*Todokchangatchi,* with 1 cup soy sauce, p. 56). Fermented soybean lumps (*Meju,* with 18 lb. dried yellow soybeans, p. 62-63). Soy sauce (*Kanjang,* homemade, p. 62-63). Soybean paste (*Toenjang,* homemade, p. 63). Red pepper paste (*Koch'ujang,* homemade, with 2 lb. fermented soybean powder, 6 lb glutinous rice powder, p. 64).

Note 1. This is the earliest English-language document seen (Jan. 2012) that uses the word "ch'onggukchang" to refer to Korean-style natto.

Note 2. This is the earliest English-language document seen (March 2009) that uses the word "Toenjang" to refer to Korean-style soybean paste (miso), or the word "Koch'ujang" to refer to Korean-style fermented red pepper and soybean paste (miso).

The useful Glossary (p. 73-75) contains definitions of: Bean curd (*tubu*). Beans, incl. yellow soybeans (*huink'ong*) which are used to make [soybean] sprouts (*k'ongnamul*), bean curd (*tubu*), soft bean curd (*sundubu*), bean paste (*toenjang*), fermented soybeans for making soy sauce (*meju*), seasoned fermented soybeans (*ch'onggukchang* [*Korean natto*]), soybean flour (*k'ongkaru*), soy sauce (*kanjang*).

Brown soybeans (*pamk'ong*–literally "chestnut beans") are a chestnut brown color and have a smooth chestnut-like texture when cooked.

Black soybeans (*komunk'ong*) are served as a side dish.

Mung beans (*noktu*), used to make mung bean sprouts (*sukchu namul*), etc. Red kidney beans [azuki] (*kangnamk'ong*).

Bean sprouts (*k'ongnamul*) may be grown at home or purchased in the vegetable section of most grocery stores. The large sprouts are from the yellow soybean; the smaller, more delicate sprouts are from the green mung bean.

"Soybean paste (*toenjang*) is a thick brown paste made from a mixture of mashed fermented soybean lumps [soybean koji] (left from making the soy sauce), powdered red pepper seeds and salt. It is used as a thickener for soups and stews and will keep well in the refrigerator.

"Soy sauce (*kanjang*) is a brownish-black salty liquid made by cooking fermented soybean cakes with water and salt. Each household in Korea used to make their own soy sauce in the spring; some still do. These are mild and add good flavor to most any food." Soy sauce is used in cooking and at the table. Japanese "soy sauce is less salty but sweeter than Korean soy sauce.

"Sweet red beans (*p'at*) are small and round and used widely in Korean confections. When cooked and mashed they are sweet and soft textured. This sweet bean puree [Japanese *an*] is used as filling in rice cakes [mochi] and also now in donuts and rolls."

The Glossary also mentions laver (*kim*), a sea vegetable called "nori" in Japan, that is widely used in recipes in this book. No other sea vegetables are mentioned. Address: Munhwa Cooking School.

7334. Noh, Chin-hwa. 1985. Practical Korean cooking. Elizabeth, New Jersey; Seoul Korea: Hollym International Corporation. 214 p. Illust. (color). Index. 27 cm.
• ***Summary:*** Although this cookbook of authentic Korean recipes contains more than twice as many pages as the author's *Traditional Korean Cooking* (214 vs. 78), many of the recipes and photos are identical, as is the front matter: Introduction, Preparation tips, and The Korean Diet. This book contains many more meat dishes.

Most of the soy-related recipes are the same, except there are many new recipes in which "soy sauce" is included in the title; many also contain meat. A complete list of these is given in the Index under "soy sauce." For example: Beef and bamboo shoot in soy sauce (p. 42). Chicken in soy sauce (p. 45). Deep-fried chicken in soy sauce (p. 46). Abalones in soy sauce (p. 104).

The following are recipes for basic soyfoods with many color photos–Page 196: Fermented soybean lumps (*meju;* soybean koji). Pages 196-97: Soy sauce (*kanjang*). Page 197: Soybean paste (*toenjang*). Page 198: Red pepper paste (*koch'ujang*). Address: Munhwa Cooking School.

7335. Ontario Soya-Bean Growers' Marketing Board. 1985. Soybeans: Nature's miracle–teaching unit. Chatham, Ontario, Canada: OSGMB. 33 p. Undated. 28 cm.
• ***Summary:*** This interesting portfolio of materials is designed to teach children in Ontario, Canada, about the growth development of a soybean from seed to mature plant, soybean cultivation, soybean processing and products, the importance of soybeans to Ontario's economy, and the Ontario Soya-Bean Growers' Marketing Board.

Contents: Introduction to teacher's unit. 1. From seed to pod: A brief history of soybeans in Canada, biology of the soybean seed, its germination and seedling growth, soybean

© Copyright Soyinfo Center 2013

nodules and rhizobia bacteria, parts of a young soybean plant, reproductive stages from flowering to maturity, corn heat units, tillage, word scramble.

2. Soybeans–Nature's miracle: A brief history of soybean utilization, ways that soybeans are used, soy oil, meal and soyfoods, recipes, word search. 3. Imports and exports: Importance of soybeans to the economy of Canada and Ontario, how soybeans get to market, The Ontario Soya-Bean Growers' Marketing Board.

A table on page 20 shows "Soymeal consumption by Ontario's livestock and poultry." Hogs consume 45% of the total (the total is 503,000 tonnes), poultry 34%, dairy cattle 20%, and beef cattle 1%. Page 22 notes that the bulk of Ontario's soybean exports (77%) are sold to East Asia–especially Japan, Hong Kong, Singapore, Malaysia, Indonesia, and Korea. Soyfoods are listed and discussed in a positive way, with recipes for: Bran muffins (with soy flour and soy oil). Tofamole (tofu guacamole). Tofu fruit pudding. Tofu shake.

Note: This is the earliest English-language document seen (Dec. 2003) that contains the term "Tofu shake."

The three largest farm crops in Ontario in terms of total area are hay (1,050,000 ha), grain corn (902,000 ha), and soybeans (425,000 ha). Address: Chatham, ONT, Canada.

7336. Patel, John. 1985. Re: Unisoy Milk and By Products Ltd. Letter to William Shurtleff at Soyfoods Center. 1 p. Typed, with signature on letterhead. Undated.

• ***Summary:*** This company plans to make Gold Soy Ice Cream and "Burgers." Note: Mr. Patel died on 5 Nov. 1985. He never became actively involved with the Unisoy company.

Note: This is the earliest document seen (Sept. 2002) concerning Unisoy in England. However the company's first product was not launched until May 1986. Address: 24 Chorlton Dr., Cheadle, Cheshire SK8 2BG, England. Phone: (061) 428-9433.

7337. Predan, Neva; Jelicic, Katica. 1985. Recepti za jedi iz soje [Recipes for meals using soybeans]. Ljubljana, Yugoslavia: Zdravje. 64 p. 20 cm. Series: Zdrava Kuhinja. [Slv]

Address: 1. Ljubljana; 2. Zemuna.

7338. Richie, Donald. 1985. A taste of Japan: food fact and fable. What the people eat. Customs and etiquette. Tokyo, New York, San Francisco: Kodansha International. 112 p. Illust. (some color photos). Index. 27 cm.

• ***Summary:*** This book contains a nice chapter titled "Tofu" (p. 34-41) in which the different types are described including *momengoshi-dofu* ("cotton" tofu) and *kinugoshi-dofu* ("silk" tofu). It also discusses okara, noting: "Now mainly used as livestock feed, it once also nourished one of Japan's greatest scholars. Arai Hakuseki, who lived during the Edo period (1615-1868), proudly related that in his impoverished student days he lived almost entirely on *okara* and that in gratitude he later, rich and famous, gave large sums of money to his charitable tofu maker."

On pages 38-39 are color photos of: "(1) Atsu-age. (2) Koya-dofu. (3) Ganmodoki. (4) Unohana or okara. In Kyoto, this humble food is rounded into balls and sold. (5) *Yudofu* course in a Kyoto restaurant. The course includes yuba tempura, simmered *hiryozu* (known as ganmodoki in the Kanto [Tokyo] area) and *goma* (sesame) tofu. (6) Aburage (two sizes).

Even today, Chinese and Japanese view tofu in very different ways: "... Chinese cooking tends to regard tofu as an additive, as something which enhances something else. The Japanese, on the other hand, relish the taste of tofu itself..." for example as *Hiyayakko* [chilled tofu; summer] or *Yudôfu* [simmering tofu; winter]. Each is seasoned with soy sauce or a soy-based dipping sauce. The names of various popular Japanese tofu recipes are given (p. 40).

"Freeze-dried tofu" is said to have originated one cold night in a temple at the summit of Mount Koya [*Kôya-san*] when a forgetful acolyte left the tofu offering of the day on the altar. The next morning it was found frozen. It was also found that this tofu had a completely different texture from ordinary tofu and it could be kept for a long dried since it contained very little water. This tofu has at least four different names: (1) Koya-dofu. (2) Misuzu-dofu. (3) Shimi-dofu. (4) Kori-dofu.

Note 1. This is the earliest English-language document seen (April 2013) that uses the term *shimi-dofu* to refer to dried-frozen tofu.

A large illustration (p. 40-41) shows tofu being made from the *Kinsei Shokuhin Zukushi Ekotoba* (1805). The basic process has not changed to this day.

The copyright page notes: "The text of this book is based on a series of articles that appeared in *Winds* magazine, 1981-83." "In this book, all twentieth-century Japanese names appear in Western order, and all earlier names appear in traditional order, surname first."

Note 2. There are also chapters on sushi, sukiyaki, tempura, menrui (noodles), onigiri, mochi, tsukemono (pickles), okashi (Japanese sweets, confections). Saké. Ocha (tea). Address: Japan.

7339. Richter, Dr. Joachim; Torre, Ursula della; Richter, Nora. eds. 1985. Tofu Kochbuch [Tofu cookbook]. Verlag Dr. Richter GmbH, D-8000 Munich 82, West Germany. 72 p. Illust. No index. 20 cm. [Ger]

• ***Summary:*** Contains numerous full-page color photos and over 100 tofu recipes and preparation tips. Nora Richter developed and tested the recipes in cooperation with DE-VAU-GE Gesundkostwerk / granoVita. The tofu was made by Tofu Kost-Werk TKW GmbH in 4724 Wadersloh 3, Germany (which now also sells the book).

Contents: Tofu, a delicacy for 2000 years. What one should know about tofu. Varieties of tofu. Buying tips. Cooking tips. The ABCs of tofu preparation. Little recipes for getting to know tofu. Fried tofu (Gebratener tofu). Tofuletten. Salads. Salad dressings. Tofu sauces and dips. Soups and hot-pots. Tofu for stuffing/filling. Tofu dumplings and meat balls (*Nocken, Klopse und Klösse*). Souffles and gratins. Classical tofu recipes from East Asia. Desserts, baked goods, cakes, pastries, and tarts. Address: Munich, West Germany.

7340. Richter, Nora. 1985. Sojakeime Kochbuch: Ueber 100 Gerichte und Zubereitungstips mit Bohnenkeimen [The bean sprout cookbook: Over 100 dishes and tips for preparation with bean sprouts]. Munich, West Germany: Verlag Dr. Richter GmbH, D-8000 Munich 82. 72 p. Illust. (color photos & line drawings). No index. 20 cm. [Ger]
• ***Summary:*** The word *Sojakeime* (meaning "soy sprouts") in the title of this cookbook is deceptive; it is a book about bean sprouts and all of the recipes call for *Bohnenkeime* ("bean sprouts"); not one calls for soy sprouts.

Page 4 states that bean sprouts (*Bohnensprossen*) can also be called *Keimlinge, Sprossen,* or *Sojasprossen.*

The lack of an index makes this book hard to use.

Soyfoods such as tofu (see p. 33) and soy sauce (see p. 33, 62) are also called for in some recipes. The author has written cookbooks in German about many foods. Address: Munich, West Germany.

7341. Sahni, Julie. 1985. Classic Indian vegetarian and grain cooking. New York, NY: William Morrow and Co. 511 p. Illust. Index. 25 cm.
• ***Summary:*** Page 75 discusses clarified butter (*Usli Ghee*) and Indian vegetable shortening (*Vanaspati Ghee*.) Butter in India is called *makkhan,* and *usli* (pronounced OOS-lee, not YEWS-lee) means "real" or "pure." *Usli ghee* has a light caramel color and a heavenly aroma. Since it contains no moisture, it keeps well covered, at room temperature, for several months. Describes how to make clarified butter at home.

Vanaspati means "vegetable." Unlike American shortening which is chalk white, flavorless, and odorless, it is a creamy yellow color and has a nutty aroma very similar to that of *usli ghee*–which is very expensive and for which it is an inexpensive substitute. "Hindu Brahmins and Jains consider this shortening an imposter and scorn the mere thought of eating it. They seriously believe that India's problems today are due to all the adulterated fat (another name for vegetable shortening used primarily by *usli ghee* eaters) consumed by the masses."

7342. Salunkhe, D.K.; Kadam, S.S.; Chavan, J.K. 1985. Postharvest biotechnology of food legumes. Boca Raton, Florida: CRC Press. 160 p. Illust. Index. 26 cm. [25 soy ref]
• ***Summary:*** Contents. 1. Introduction. 2. Seed structure, production, and distribution (Soybean, p. 8-10, 17-18). 3. Chemical composition. 4. Nature and causes of losses. 5. Harvesting, threshing, and drying (Soybean, p. 69-70). 6. Storage. 7. Processing and utilization (Soyfoods, p. 121-36). 8. Food legumes in protein crisis.

Chapter 7, "Processing and utilization," discusses tofu, tempeh, soy flour, soymilk, miso, shoyu, natto, Hamanatto, and cereal-soy blends. Address: 1. Vice-Chancellor; 2. Prof. of Food Science & Technology; 3. Asst. Food Science & Technol. All: Mahatma Phule Agricultural Univ., Rahuri, Maharashtra State, India.

• ***Summary:*** This gourmet vegan cookbook, containing over 250 recipes, uses many soyfoods in its recipes: Tofu, soy sprouts, soymilk (Plamil), miso, soy flour (Soyolk), vegan cheese (nonfermented, made with Soyolk soy flour, margarine, and yeast extract), tofu ice cream, and whole dry soybeans. Address: England.

7344. Scott, David. 1985. Protein-balanced vegetarian cookery. London: Rider Books, Century Hutchinson Ltd. 183 p. Illust. (by Steve Hardstaff). Index. 24 cm. [31* ref]
• ***Summary:*** This book was originally published in 1980, and the latest reference in the bibliography is 1978. A second edition was published in 1985, then a 1987 edition was published in the USA by CRCS Publications, P.O. Box 20850, Reno, Nevada 89515. The author has a poor knowledge of soyfoods, and makes little mention or use of them in this book. He refers to tofu as "beancurd," has a recipe for "Beancurd Burgers," mentions miso and a Miso-Tahini Spread, soy sauce, plus an Sunflower Seed, Soya Bean and Almond Casserole. Pages 160-61, information about soya beans, contains many errors.

• ***Summary:*** Published in 1987 by Thorsons in England as *The Single Vegetarian.*

7347. Whitaker, Julian M. 1985. Reversing heart disease. New York, NY: Warner Books. xviii + 355 p. Introduction by Henry D. McIntosh, M.D. Illust. Index. 24 cm. [166* ref]
• ***Summary:*** An interesting, relatively early book (after Dr. Dean Ornish and Nathan Pritikin in 1979) that emphasizes

© Copyright Soyinfo Center 2013

the important of diet and exercise in treating heart disease. The patient is largely responsible for his or her own health. "The doctor is almost entirely a teacher. The patient carries out the course of treatment."

The author grew up as the son of a doctor. After graduating from Dartmouth College, he "went through the four-year medical course offered at Emory University Medical School in Atlanta, Georgia." After med school, he began a residency in orthopedic surgery. After completing 2½ years of the residency program, doubts began to assail him. "Successful surgeons get their greatest gratification from the drama of surgery; often there is little interaction with their patients. Was that for me? I felt a need for more personal contact with people." So he decided to take off a year or two from his residency, which he fully intended to complete. He moved to California and began to work in the emergency room of a hospital. Soon he began visiting and working with pioneers in the field of curing heart disease. "So that is how a budding surgeon coming from a traditional medical family turned to nutrition and exercise as treatment for heart disease" (p. xxiv). In 1979 Julian Whitaker, MD, opened his institute. As of 2012 is has been renamed the Whitaker Wellness Institute. Their website says: "over the past 30-plus years, we have helped more than 45,000 patients restore their health, safely and naturally."

Contents: Acknowledgments. Introduction. Foreword (by the author). Part I: The American way to die. 1. The American way to die (coronary artery disease is the leading cause of death). 2. Heart disease and modern medicine. 3. Bypass surgery–Pros and cons, risks and benefits. 4. Heart disease is reversible. 5. Our crazy diet. Fat: Inhibitor of oxygen. 7. The process of atherosclerosis. 8. High blood pressure. 9. The cholesterol confusion. 19. Where will I get my protein.

Part II: Reversing the damage. 11. The Institute program (incl. "A typical day at the Institute" and "Observations of the doctor"–he has observed about 2,000 patients as they start and complete this program. He is working to bring diet therapy back into the mainstream of medicine"). 12. The nutrition program. 13. Vitamins and minerals–the controversy. 14. Exercise for a healthy heart.

Part III: The diet–menus and recipes. 15. General principles of diet. 16. How to approach the program. 17. Menus and recipes.

Part IV: Patient testimonials.

A 3-part table (p. 179) shows foods to be avoided (most animal products), foods to be eaten sparingly (coconut, some fish, low-fat dairy, nuts, seeds, soybeans, vegetable oils, and wheat germ; the reason for each is explained in a long footnote), and to be eaten abundantly (beans, fruit, grains, and vegetables).

His recipes include: Hot and cold cereals (p. 218-21). Fruit smoothies. Egg white omelet (p. 225). Rice dinner vegetariana (p. 226). Fillet of sole #1 and #2 (p. 234-35). Tofu mayonnaise (p. 265). Whole wheat bread (p. 268).

Discusses: Ornish, Dr. Dean, p. 131, 138. Pritikin Nathan & Program, p. xxiv, 314. Protein (see index). Soya lecithin (p. 108). Vegetarianism (lots, he favors it, see index). Vitamin and mineral supplements (lots, he favors them, see index).

There two good bibliographies: (1) Suggested recipe books (20 books). Selected references (mostly medical; 146). Address: M.D., National Heart and Diabetes Treatment Institute, Inc., 18800 Florida St., Huntington Beach, California 92648.

7348. Yan, Martin. 1985. Martin Yan: The Chinese chef. Garden City, New York: Doubleday & Company Inc. 179 p. • ***Summary:*** "From the National Public Television Series "Yan Can Cook," now in its sixth season, with 560 shows he has hosted since 1978. One of the show's sponsors is Kikkoman. The recipes in this book are divided by geographical region. "The best way to grasp the diversity of China's cuisine is to consider the land as divided into four major culinary regions [north, south, east, and west], each boasting its own cultural identity. Contents: Introduction. Canton. Szechuan and Hunan. Peking. Shanghai. Nouvelle cuisine.

On pages 8-9 is a gorgeous color photo (2-page spread) showing all the foods and seasonings described in the "Glossary" that follows (p. 11-15). On page 10 is the numbered "key" to the names of items shown on pages 8-9. These include:

Bean curd ("Also known as 'tofu.' Types include: dried [yuba] {in sheets or sticks}; fermented {either red or white and fermented in rice wine}; fresh {in cakes or blocks}; and fried {in small pouches or cubes}. See also p. 79)." Bean paste, sweet ("Sweetened fermented soy bean paste used as a seasoning in many Szechuan and Hunan dishes"). Bean sauce, brown ("Also referred to as yellow bean sauce. Thick sauce made from fermented soy beans"). Bean sprouts ("Tender sprouts from mung beans or soy beans"). Black beans, fermented ("Small, fermented black [soy] beans with pungent aroma and salty taste. Used in Cantonese-style dishes. Sold canned or bulk in plastic bags... Rinse before using"). Hoisin sauce ("Dark brown, thick sauce with a sweet, spicy flavor; made from fermented soy beans, flour, vinegar, sugar, garlic, and spices"). MSG ("... not called for in this book"). Soy sauce. Tofu ("See Bean curd").

A recipe for "Black bean sauce" (p. 32) calls for "¼ cup fermented black beans," 2 tablespoons vegetable oil, 3 cloves minced garlic, 3 tablespoons dry sherry, 2 tablespoons dark soy sauce, 1 tablespoon brown sugar, and 2 teaspoons sesame oil. It is made in a wok.

Contains 9 recipes for tofu (the term now preferred by the author to "bean curd," though he uses both). These include: Crabmeat & bean curd soup (with "1 package {about 1 pound} soft tofu {bean curd}, drained and cut into

© Copyright Soyinfo Center 2013

½-inch cubes," p. 47). Szechwan preserved vegetables with tomato (with "1 package {about 1 pound} firm tofu {bean curd}, drained," p. 77). Vegetarian tofu casserole (with "2 tablespoons fermented bean curd, mashed" and "8 ounces pressed bean curd, cut into thin slices," p. 80). Pressed bean curd with beef (with "1 package {7 ounces} pressed soy bean cake, cut into thin slices," p. 89). Peking pork & mushroom soup (with ½ package firm tofu, p. 108). Tofu & green bean salad (with "1 package {about 1 pound} firm tofu {bean curd}, drained," p. 136, photo p. 151). Shanghai fish soup (with ½ package firm tofu, p. 137). Bean curd family style (with 1 package firm tofu, p. 141). Vegetarian bean curd roll (with "6 dried bean curd [yuba] sheets," p. 155). "Red fermented bean curd" is mentioned on page 10 (no. 48 in list) and as an optional ingredient ("for more exotic flavor") in a recipe for Chinese BBQ pork (p. 38).

On page 79 is a description of the many uses of the soybean, including dark/thick and light/thin soy sauce, tofu (fresh bean curd), deep-fried bean curd, dried bean curd sheets or sticks (yuba), and fermented bean curd [fermented tofu] in red and white versions.

"Dark soy sauce has a heavier consistency and is somewhat sweeter. Its dark color imparts a reddish-brown hue to the foods cooked in it, so it is used in 'red-cooked' dishes. Light soy is an all-purpose soy sauce often used in marinades and in stir-fry dishes." Address: Yan Can & Company, Inc., P.O. Box 4755, Foster City, California 94404.

7352. Christian Nagel. 1985? Tofu-Werkstatt [Tofu workplace (Leaflet)]. Hamburg, Germany. 2 panels each side. Each panel: 21 x 14.8 cm. Undated. [Ger]
• ***Summary:*** Printed black on golden-yellow paper. At top of front panel, logo of a soybean plant growing in a circle. Plus company address and phone number.

Contents: Introduction. The many benefits of tofu: Rich in high-quality protein, excellent for protein complementarity, low in calories, free of cholesterol, rich in vitamins and minerals, easily digestible, extremely versatile in the kitchen.

A table shows the nutritional composition of tofu, soymilk, fried tofu, grilled tofu, okara, and vegetable tofu (*ganmodoki*). Ideas for cooking with tofu (recipe ideas). Use of tofu as a medicine (tofu plaster). Tofu as a possible solution to the world food problem; the protein yield of different foods and animals from 1 hectare of land. Soybeans are #1 and meat gives the lowest yield. References (2).

Note: A subsequent edition of this leaflet was printed before Dec. 1989, with black ink on bluish-gray paper. The content is basically the same, however it is typeset rather than typewritten. The title is "Nagel's Tofu," by Tofu-Manufaktur Christian Nagel GmbH, Osdorfer Landstrasse 4, 2000 Hamburg 52, Germany. Phone: (040) 89 49 37. Address: Osdorfer Landstrasse 4, 2000 Hamburg 52, Germany. Phone: 89 49 37.

7353. **Product Name:** Tofeata Tofu Spicy Burgers.
Manufacturer's Name: Haldane Foods Ltd.
Manufacturer's Address: Unit 25, Hayhill Industrial Estate, Sileby Rd., Barrow-Upon-Soar, Leicester, England.
Date of Introduction: 1985?
Ingredients: Water, tofu (soybean curd), wheat germ, bulgur wheat, rolled oats, sesame seeds, tomatoes, sunflower seed oil, hydrolysed vegetable protein, sea salt, paprika, chili powder, spices.
Wt/Vol., Packaging, Price: 2 burgers weigh 8 oz (227.2 gm).
How Stored: Refrigerated.
New Product–Documentation: Label. 1987, undated. 4 x 7.5 inch box. Color photo with red, yellow, and black design on white. "A blend of tofu (soybean curd) with wheat germ, cereals and spices. By Hera. A ready to eat vegetarian meal. Keep chilled." Soya Bluebook. 1987. p. 96. "Tofeata Tofu and Tofu Burgers."

7354. **Product Name:** Hime Brand Inarizushi-no-Moto: Prepared Fried Bean Curd.
Manufacturer's Name: JFC International Inc. (Importer). Made in Japan.
Manufacturer's Address: S. San Francisco, CA 94080.
Date of Introduction: 1985?

© Copyright Soyinfo Center 2013

Ingredients: Bean-curd (Soy beans, water, calcium sulphate), soybean oil, soy sauce (water, soybeans, wheat, salt), sugar, monosodium glutamate.
Wt/Vol., Packaging, Price: 10 oz (284 gm).
New Product–Documentation: Label (Can). 3 inches high, 3 inches diameter. Color photo of Inari-zushi (Tofu pouches stuffed with vinegared rice) on front. Includes directions for making 15-17 pouches.

7355. Lembaga Kimia Nasional–LIPI (National Chemistry Institution). 1985? Membuat tahu [Preparation of tofu]. Bandung, Indonesia: Kerja Sama, LIPI-INKUD. 18 p. Undated. [Ind]
• ***Summary:*** An informative, practical booklet, with illustrations (line drawings) on every page, showing how to make tofu in Indonesia. With an introduction by Ig. Suharto, director of LKN–LIPI. Address: Director LKN-LIPI, Indonesia.

7356. **Product Name:** [Tofu].
Foreign Name: Tofu.
Manufacturer's Name: Les Artisans de l'Aurore.
Manufacturer's Address: M.F. d'Authon, 04200 Sisteron, France.
Date of Introduction: 1985?
New Product–Documentation: Letter from Stéphane Lalo. 1985. June 7. "Having the inspiration from your books and having started a small scale tofu production, we are now about to expand and to invest in a larger tofu-tempeh-sprouts enterprise to be able to support ourselves." They live in a "new age" village of 5 people from various spiritual backgrounds.

7357. **Product Name:** [Tofu].
Foreign Name: Tofu.
Manufacturer's Name: Tangram Tofurei.
Manufacturer's Address: Schmelzistr. 11, CH-2540 Grenchen, Switzerland. Phone: 06-5-52-1618.
Date of Introduction: 1985?
New Product–Documentation: Letter (fax) from Verena Krieger. 1990. May 31. This company is out of business and has disappeared. There is no way to find out in what year and month they started selling tofu. The contact person was Ignaz Reutlinger.

7358. **Product Name:** Tom Soya Foods Tofu.
Manufacturer's Name: Tom Soya Enterprises (Marketer). Made in Canada by Victor Food Products.
Manufacturer's Address: Toronto, ONT, Canada.
Date of Introduction: 1985?
Ingredients: Water, soya beans, calcium sulfate.
Wt/Vol., Packaging, Price: 500 gm packed in water in molded plastic tray with heat-sealed, peel-off plastic film lid.
How Stored: Refrigerated.
New Product–Documentation: Label sent by Kathleen O'Bannon. 1989. March. Undated. 5 by 4.25 inches. Dark blue, light blue, orange, yellow, and white. Printed on film. Written in French and English. "Fresh soya bean curd. Cailles frais aux feves de soya." An illustration shows a smiling boy resembling Tom Sawyer walking with a straw hat, fishing pole over his shoulder, and rolled up, suspendered jeans.

Letter from Kathleen O'Bannon Baldinger. 1990. March 25. This company was started by Rabbi David Dreben, who was the principal of a Hebrew school in a northern suburb of Toronto. He had the Victor Food Products plant certified to use COR 77 on those products that VFP produced for him. "He marketed his tofu himself, mostly in small stores in the Jewish area of Toronto and in the northern suburbs. He did many cooking demonstrations at various meetings and clubs, encouraging people to use tofu in their kosher cooking. He sold a small quantity compared to the total output of VFP. He died prior to June 1986, possibly during 1985."

7362. Simas, Luiz; Joels, Bobbi. 1986. Re: Miso, tempeh, shoyu, and macrobiotics in Brazil. Letter to William Shurtleff at Soyfoods Center, Jan. 7. 2 p. Typed, with signature on letterhead. [Eng]
• ***Summary:*** "When we returned to Brazil from the USA in Nov. 1981, we decided to hold a series of classes on natural foods processing, including a class on making tempeh at home. (Tempeh was completely unknown around here at that time.) We also began to make tempeh for our own consumption, but ended up setting up a small shop in our apartment. Because of the limited space, our tempeh production never went beyond 50 pounds per month, in spite of the large demand. So after a year or so, as we had originally planned, we handed the business over to a couple of friends who, unfortunately, for many reasons, were not able to continue tempeh production.

"However there is now another group of people making and selling tempeh here in Rio: Jurema and Mariá Paulinho, Rua Raimundo Correia, 27, apt. 504, 22.040 Rio de Janeiro (RJ), Brazil. Phone: (021) 237-7897. We will always be available for providing any kind of information about or classes on tempeh. One of our dreams is to see tempeh introduced in Brazil's tropical northeast, where an incubator would not be necessary.

"At present we are involved in setting up miso and koji production in our house in the mountains of Minas Gerais for the coming year (1986). It's an old dream, but it looks like it will finally come true. At first it will be a small-scale farm-house style production.

"Miso and shoyu, as well as tofu, are soy products with a long history in Brazil, mainly due to the large number of Japanese immigrants in Sao Paulo. There are many shops there and some here in Rio which sell Oriental products, including miso, shoyu, tofu and natto. Nevertheless, they are usually semi-industrialized and include sugar, preservatives, etc. among the ingredients.

"Production and consumption of quality miso, shoyu, tofu and natto only began with the arrival of Tomio Kikuchi, a student of George Ohsawa's and one of the first people to introduce macrobiotics to Brazil. Until today the best known good quality miso and shoyu are the miso and shoyu distributed by Kikuchi's Instituto Princípio Unico. There are, however, other good misos as well.

"Instituto Princípio Unico, Sao Paulo (SP); Arma-Zen Produtos Naturais Ltda., Rio de Janeiro (RJ); Terrazul, Nova Friburgo (RJ).

"We're sure there are many, many small producers of quality miso and shoyu all over Brazil, but we don't know their addresses. There is also a large company which claims to devote part of its production to naturally-fermented miso and shoyu, with no sugar. The company's name is Tozan. Their factory address is: Bairro Carlos Gomes s/nº, Campinas (SP); phones: (011) 278-2495 or (011) 278-5826.

"There are also two individuals who have a lot of experience in making miso and koji at home. They are available to provide information as well. They are: Dr. Sakae Maki, Praia de Botafogo, 428, s/304, Rio de Janeiro (RJ), phone: (021) 266-0503; Edson Hiroshi Seó, Fazenda Escola, 45.260 Poçoes (BA), phone: (073) 431-1108.

"We will continue to give classes on making homemade miso here in Rio, and we plan on eventually turning our small miso shop in the mountains into a school. We will always be available for any type of assistance or information concerning soy products.

"Several years ago the Brazilian Government tried to introduce soybeans in the public's diet. It was a complete fiasco, mainly because of the lack of information on the part of the authorities. They simply tried to introduce soybeans as a substitute for the traditional black (turtle) beans, and soy milk as a substitute for cow's milk. It didn't work." Address: Rio de Janeiro, Brazil.

7363. Jain, Laxmi; Jain, Manoj. 1986. Re: Proposal for a book on "Indian Vegetarian Cooking with Soy Bean." Letter to William Shurtleff at Soyfoods Center, Jan. 8. 3 p. Typed, with signature.
• ***Summary:*** The authors have been working on this project for several years, creating and testing some 150 recipes. Now they are looking for a publisher. A proposed outline of the book and biography of both authors is included.

"Mrs. Laxmi Jain has lived in the United States for the past 18 years. She is interested in actively promoting the use of soybean in India and America and had developed many original recipes. She has lectured and gave demonstrations with OilSeed Federation at various colleges at Indore...

"Mr. Manoj Jain is a medical student at Boston University, USA and is also working on his Masters in

© Copyright Soyinfo Center 2013

Public Health. He has a B.S. in Biomedical Engineering. Some of his achievements have been, first place winner in Massachusetts State Science Fair for his experiment on 'Irradiation of Cellulose', winner of $1000 scholarship, tuition scholarship at Boston University ($30,000), travelling through several countries including Israel and China to study world religions on a full paid scholarship by International Religious Foundation and is a president of Indian Youth Association of Boston. Mr. Jain has held a Research Assistant position at Massachusetts Institute of Technology and has first authored a paper on 'Mathematical Modeling of Human Inner Ear.' As part of his interest in promoting health care and nutrition in Indian villages, Mr. Jain is studying the role of soybean in daily diet. Manoj Jain, age 22, is son of Mrs. Laxmi Jain."

In response, Shurtleff sent them a lengthy History of Soya in India, and Bibliography of Soya in India.

In return the Jains sent numerous recipes plus a chapter titled "Tofu (soy paneer) as a nutritious, economical and tasty substitute for paneer." Address: 83 Fullerbrook Rd., Wellesley, Massachusetts 02181.

7364. Storup, Bernard. 1986. Re: Moving Société Soy to the center of France. Letter to William Shurtleff at Soyfoods Center, Jan. 8. 1 p. Handwritten, with signature. [Eng]
• ***Summary:*** "Just a few word to wish you a Happy New Year and the best of everything in 1986. Françoise, Jean, and I are just fine. We are on the way to move to the center of France, into a new shop at the end of the summer 1986. It will be near the mountains and near the best quality water in France, in St.-Chamond–St. Etienne." Address: 16 Avenue de le République, 91590 Arpajon, France.

7365. Cook, Anne. 1986. Soybean farms look East for big profits from shrimp. *News-Gazette* (*Champaign, Illinois*). Jan. 11.
• ***Summary:*** Karl Sera, a native of Japan, has managed the American Soybean Association's Tokyo office for 15 years. Japan now imports about 174 million bushels of soybeans, 88% of them from the USA. Ten million cakes of tofu are sold each day in Japan. Sera believes the biggest growth area for soybean use in Japan is in feeding livestock. Japanese poultry and dairy cows are not presently getting the optimum amount of protein; the poultry need the protein from 20 million more bushels of soybeans and the dairy cows from 11 million more bushels. Though fish presently accounts for less than 1% of the feed industry, Sera thinks it has huge potential–especially in feeding shrimp. Dan Akiyama, a native of Hawaii and recent Texas A&M graduate, will soon leave for Singapore to tell industry representatives about a better, faster way to grow shrimp. Akiyama said the high cost of shrimp is linked to 4 main factors: low survival rates in the wild (less than 1%), increasing demand, decreasing supplies, and the expensive diet shrimp farmers now feed their 'livestock.' The current feed now costs $1,000 to $4,000 per ton; with more soy it will cost $400 to $600 a ton. It takes about 100 days for a crop of shrimp to mature for market. Akiyama stresses that raising shrimp is just like any other livestock business, but its under water.

In Asia and South America, where shrimp farming is growing the most rapidly, producers use about 7,500 tonnes/year of soybean meal for shrimp feed. Akiyama believes that when industry leaders see the advantages of feeding more soy, that market is likely to expand to 375,000 tonnes.

In Japan, it takes longer for new agricultural ideas to be put into practice because they do not have an agricultural extension system as we do in the USA. Address: Staff writer.

7366. Peterson, Marguaret. 1986. Tofu: It booms in new, 2nd-generation foods. *Sacramento Bee* (*California*). Jan. 13. p. D1, D7.
• ***Summary:*** Discusses Sacramento Tofu, Light Foods, and Brightsong.

7367. Lee, Susan Hem. 1986. Re: History of making and selling tofu in Trinidad. Letter to William Shurtleff at Soyfoods Center, Jan. 15. 2 p. Typed, with signature.
• ***Summary:*** "For two years or more I have been supplying tofu, single handedly, to various health food stores and individuals. On an average I have been producing 70-80 pounds per week. I have also been producing tofu burgers (approx. 10 doz. per week) as well as traditional Yuletide food known as pastels which is like the Mexican tamale.

"I have been making tofu in our laundry room at home, where counters and 2 large burners have been installed and I imported a one gallon Waring blender. I sell tofu at TT$6.50/lb.

"I first became interested in making tofu as a vegetarian mother. I was first taught how to make tofu by a visiting English dietitian, then I read "The Book of Tofu" by William Shurtleff and Akiko Aoyagi, and the final chapter entitled "Sending Tofu to the Four Directions" convinced me I wanted to try to make tofu for a living.

"Through Rex Lassalle (macrobiotic teacher), who was opening his macrobiotic shop and consultancy at this same time, I was able to import organic soy beans from Oak Feeds, Miami, Florida, at about TT$3.00/lb. Eventually I was able to purchase locally grown, government subsidized soy beans from the government agricultural station at approx. TT$1.30/lb.

"At that time the TT$ was valued at TT$2.42 for US$1.00. In December of 1985 the TT dollar was devalued to TT$3.65 per US$1.00.

"Buying soy beans through the agricultural station has been a profitable situation for me.

"However the government agricultural station's priority is to maintain seed stock to supply farmers and therefore only grow a small quantity of beans, the surplus of which I

© Copyright Soyinfo Center 2013

purchased, approx. 1,000 lbs. This supply lasted me about 4-5 months. (The government has attempted for years to interest local farmers to grow soy beans but have been unsuccessful.)

"I then attempted to import soybeans once again from Oak Feed through an import agency and by the time the US$16, 50 lb. sacks of beans arrived in Trinidad the CIF price was TT$177.00. That shipment was purchased before the devaluation. I now find it impossible to import soy beans in this way.

"At this point in time my husband (he works for a computer company) and I are considering the possibility of starting a soy food related business.

"We write to you to hear your point of view;"

"Our National Flour Mills will be importing soy beans for making oil in October of 1986 and there is the possibility of buying beans from them." Address: #5 Sunny Acres, off Sam Boucaud Rd., Santa Cruz, Trinidad, West Indies.

7368. *Daily Hampshire Gazette* (*Northampton, Massachusetts*). 1986. Greenfield tofu firm being reorganized [Tomsun Foods has merged into Tomsun Foods International]. Jan. 23.
• ***Summary:*** The new firm's chairman is Juan Metzger, founder of Dannon Yogurt. The company produces nearly 3 million pounds of tofu each year.

bag. "Prepared according to a traditional Japanese recipe. A fresh soya specialty. Store at 4-8ºC. Member of the Natural Food Assoc. (Bundesverband Naturkost e.V.)."

7375. **Product Name:** [Tofu Burger–Deep-fried].
Foreign Name: Tofu-Burger–Frittiert.
Manufacturer's Name: Byodo Naturkost GmbH.
Manufacturer's Address: Hirschbergstr. 9, D-8000 Munich 19, West Germany. Phone: (089) 16 85 70.
Date of Introduction: 1986. January.
Ingredients: Soybeans, water, vegetables (Carrots, zucchini, soy sprouts) in varying proportions by weight, whole oats, whole wheat, brown rice, sesame seeds, sunflower seeds, spices, soy sauce (shoyu), sea salt, nigari coagulant (traditional Japanese). Ingredients predominantly organically grown.
Wt/Vol., Packaging, Price: 130 gm plastic bag.
How Stored: Refrigerated.
New Product–Documentation: Letter from Anthony Marrese. 1990. March 22. Based on a March 21 interview with Bernd Steyer. The company started in 1984, when they started to make their own tempeh. Letter (fax) from Harry Whitford. 1990. May 11. "In the fall of 1985 we started making our own tofu after a scandal: We had been buying tofu from Sapia to make our burgers for the Munich market. But he bought conventionally grown beans and sold the tofu as bio [organic]!"

Label sent by Anthony Marrese. 1990. April 15. 5 by 2.25 inches. Green on yellow, printed on front and back of plastic bag. "A nutritional soya specialty (Eine vollwertige Soja-Spezialität). Store at 4-8ºC."

7376. **Product Name:** [Vegetable Tofu].
Foreign Name: Gemuese-Tofu.
Manufacturer's Name: Byodo Naturkost GmbH.
Manufacturer's Address: Hirschbergstr. 9, D-8000 Munich 19, West Germany. Phone: (089) 16 85 70.
Date of Introduction: 1986. January.
Ingredients: Water, soybeans*, carrots*, leeks*, spices, herb salt. * = Organically grown.
Wt/Vol., Packaging, Price: 175 gm plastic bag.
How Stored: Refrigerated.
New Product–Documentation: Letter (fax) from Harry Whitford. 1990. May 11. "In 1986 we also started making Vegetable Tofu (in German Gemuese-Tofu), which is tofu with chopped veggies pressed into it–ready to fry. Somewhere along the way we started to make tofu to sell also. I don't know when."

Label sent by Anthony Marrese. 1990. April 15. 3 by 2.25 inches. Green on yellow, printed on front and back of plastic bag. "Ready to fry. A fresh soy specialty product. Versatile: Fry or bake. Marinate or steam. Use cold in salads, or with breads, etc. Store at 4-8ºC."

7377. Frentz, Jean-Claude. 1986. Le tofu [Tofu]. *Filiere Viande* [*The Meat Industry*] 9(85):49-50. Jan. [1 ref. Fre]
• ***Summary:*** This article, in a meat industry magazine, begins: This mysterious product, whose origin is lost in the mists of time, actually seems to be going through renewed interest. Already well known and appreciated in the United States, on the West coast in particular, it has appeared in Europe, and, more precisely, in France.

Discusses the composition of tofu and the processes used to make it. A table gives the nutritional composition of the following: Tofu, firm tofu, (*tofu ferme*), soft or silken tofu (or perhaps tofu cutlets *tofu "flanc"*–it's water content is higher than that of regular tofu), tofu burger (fried), soymilk, grilled tofu, dried-frozen tofu, okara, dried yuba, pressed tofu, whole dry soybeans.

Concerning the journal title *Filière Viande*, the word *filière* normally means the thread, the path that leads to discovery. However here it is being translated as 'meat industry.' When advancing anti-meat arguments, one can speak of *la filiere viande sur le gril* ("The meat industry on the grill")–a sort of play on words. Address: Directeur technique, Soussana SA, France.

7378. **Product Name:** [Tofu, Smoked Tofu, Tempeh, and Tofuburger].
Foreign Name: Tofu, Tofu Fumé, Tempeh, Galette: Petit Roti Végétal.
Manufacturer's Name: Gaec de La Lix: United Macrobiotic Company.
Manufacturer's Address: 32260 Tachoires–Seissan, France. Phone: 62.65.35.04.
Date of Introduction: 1986. January.
New Product–Documentation: Form filled out for Anthony Marrese. 1989. Sept. These four products were introduced as follows with the amount presently produced shown in parentheses: Tofu (80 kg/week) and Soyaburger (800 pieces/week), Jan. 1986. Smoked Tofu (8 kg/week), June 1986. Tempeh (40 kg/week), Oct. 1986. Anthony visited the community in mid-Oct. 1989 and noted: "They are a small group similar to Terre Nouvelle, but doing more with soya. Very nice kitchen production (see color slide), which is growing. They sell through markets and through 10 stores, which helps them to educate people. They are all Germans who came to France about 5 years ago mainly because land prices were lower in France. They also make small quantities of miso (experimental stage) and 4 kg/week of koji for amazake and miso.

Labels for all 4 products. 1989. 4 by 2.75 inches. Each photocopied with black handwritten letters on pastel color paper, and each with the Nature et Progres logo indicating organically grown. Each label has a description of the food on the back.

For details and an update to 1989 see the letter from Gaec de La Lix: United Macrobiotic Company to Anthony

Marrese, of Sept. 1989.

7379. **Product Name:** Tofu Biscuit Delight (Sandwich Filled with Seasoned Broiled Tofu).
Manufacturer's Name: Green World, Inc.
Manufacturer's Address: 7825 Federal Way, Boise, ID 83706. Phone: 208-344-4743 (or 343-3967).
Date of Introduction: 1986. January.
New Product–Documentation: Interview with James Herrington. 1987. Dec. 30. Tofu is brushed with or marinated in soy sauce, then broiled, and placed in a sliced tofu biscuit. The building has a new address but its location has not changed. James is still in his late teens.

7380. Jain, Laxmi; Jain, Manoj. 1986. Tofu as a nutritious and economical substitute for paneer. Presented at Conference of Soybean Oil Processors Association. Held Jan. 1986 at Bhopal, India. *

7381. Moore, Waveney Ann. 1986. Selling flab-free goodies to dieters in New York [Sweet Victory, Tofu Glace, and Tofu Lite]. *Food Distributors Magazine*. Jan. p. 59.
• ***Summary:*** Tim Metzger, vice president of Sweet Victory, sells Glace Lite and Tofu Glace at two shops in Manhattan. Glace Lite is 98% fat free and 99% cholesterol free with 80 calories per 4 oz. Tofu Glace, cholesterol free, 80-100 calories per 4 oz. Sweet Victory started June 1984.

7382. *Packaging.* 1986. American-style tofu pack [from Kikkoman]. Jan. p. 12.
Address: Des Moines, Illinois.

7383. Plenty Canada. 1986. The Soya Centre (Calendar). Castries, St. Lucia.
• ***Summary:*** This is the head of a calendar, 8½ by 11 inches. On the top three-fourths of the page is a large black-and-white photo of the Soya Centre, looking from the outside in through two open doors–on each of which is written "Soya Beans" in large diagonal letters, above an illustration of a soya bean plant. Inside are about 10 local black people. On the back right is a food retail counter and snack bar, staffed by several women. On the back wall is a blackboard with a price list and menu written on it in chalk.

On the bottom quarter, in large black letters is written "The Soya Centre" in an arch. A laughing Santa Claus on the left is holding the word "The." Below the arch is written the Center's address: "19 Grass St., Castries, St. Lucia. Tel: 26421." To the right of the arch is a line drawing of a dove, and below it: "With the Compliments of Plenty Canada and the Staff of the Soya Centre." The calendar itself is missing.

Talk with Maya Clarke of Ontario, Canada. 1998. June 25. Maya worked for 7 years as a nutritionist and soyfoods instructor/technician for Plenty Canada at this Soya Centre in St. Lucia. She remembers this calendar well but does not have a copy. "There could possibly be one in the Plenty archives" at Lanark, but she is not too sure. Plenty made a calendar like this for two years, and this was the first of the two. It was designed by Plenty and printed in Castries (the capital city, by the person who prints *The Voice* newspaper) in December 1985 and presented on 1 Jan. 1986 as a New Year's gift to the Center's popular customers and friends. The calendar had a photograph as the head, then one page for each month below. The soya bean plants on the two big doors were painted by a Rastafarian man named Papa. Many of the people shown in the picture, the same as those who came to the Centre, were Rastafarians, who are vegetarians (very important) and consider themselves members of the lost tribe of Israel. They esteem Marcus Garvey, who they consider one of their forerunners. Note: *Webster's Dictionary* (1985) defines Rastafarian (derived from *Ras Tafari*, the precoronation name of Haile Selassie), a word first used in 1955, as "an adherent of Rastafarianism." The latter word, first used in 1968, is defined as "a religious cult among black Jamaicans that teaches the eventual redemption of blacks and their return to Africa, employs ritualistic use of marijuana, forbids the cutting of hair [it is worn in long braids called dreadlocks (first used in 1960)], and venerates Haile Selassie as a god."

The Soya Centre, which was constructed specifically for this purpose by the team just before Maya (John Baranni and Christine Kilgour from Plenty with local labor), was located in the middle of a black ghetto in Castries, and there were lots of social problems in the area. In the back of the Centre was a soyfoods factory. The factory was used to train all the people who subsequently opened up soyfoods businesses in St. Lucia. "What went on with soyfoods in St. Lucia was very significant–much more so than what happened in Jamaica, etc. At any given time, up to ten local people worked (for pay) at the Centre. The Centre was self-sufficient, so the money from the foods they sold went to pay the workers. Two guys would start very early in the morning (about 4:00 a.m.) to make soymilk and tofu. Then a crew of ladies would come in about 7:00 a.m. and use the tofu and soymilk to make second generation products from soymilk, tofu, and okara–such as "bakes" (like a little doughnut) and "accras" (like a fritter, in which the traditional salt cod was replaced by okara). The use of okara made the products more affordable. Tempeh was made at time, but it did not catch on as well as tofu and soymilk, and it was somewhat hard to get the spores. "Tofu caught on almost immediately "The local people just took it up; they just seemed to know what to do with it." Soymilk ice cream was one of the most popular products. Soymilk, imported soy flour, and okara were use to make little breads. Many people would bike or walk to the Centre to buy tofu in bulk over the counter–which was also a snack bar. The Centre was both a business and an education/training center. Many local Seventh-day Adventists came to cooking classes at the center, and Maya also taught classes

© Copyright Soyinfo Center 2013

in their churches, schools, and homes. Maya remembers that one day a 13-year-old kid named Sooner knocked on the door of the Center at 7 o'clock in the morning and said to her: "I want to know everything there is about soyfoods." She happily invited him in, and began to teach him. For a while there was a "Comments Book" at the Centre; in it people wrote soy poems and soy songs–some of which Maya still has.

At one time some 10-12 soyfoods businesses were started in St. Lucia by local people who had first trained at Plenty Canada's Soya Centre. About 6 of those businesses are still in operation. A good example is La Soyarie. The reasons the others did not survive had nothing to do with local acceptance of soyfoods; they failed largely for reasons related to money or business management skills.

St. Lucia is a very small (27 miles long) independent country; It was granted self-government by the British in 1967 and attained independence on 22 Feb. 1979. The population is about 160,000 (1998). About 90% of the population is of African descent, with a small minority of Europeans and a few Carib Indians. Bananas are the chief crop. The official language is English, but Creole is the language most widely spoken. It is largely an oral culture.

Note: This is the earliest calendar seen (Oct. 2001) that mentions soy. Address: 19 Grass St., Castries, St. Lucia. Phone: 26421.

7384. **Product Name:** Gloria Vanderbilt's Glace with Tofu (Bars on a Stick) [Chocolate Coated Wildberry Supreme, Double Chocolate, or Chocolate and Cream].
Manufacturer's Name: Seligco Food Co. Frusen Gladje Ltd.
Manufacturer's Address: 424 E. John St., Lindenhurst, NY 11757.
Date of Introduction: 1986. January.
How Stored: Frozen.
New Product–Documentation: Washington Post Magazine. 1986. Jan. 19. With photo of boxes. $1.89 for 6.

7385. Sig, Marie. 1986. Soja: la protéine du futur [Soya: The protein of the future]. *Physic.* Jan. p. 32, 34-35, 110. [Fre]
• ***Summary:*** A brief introduction to tempeh, miso, tamari, tofu, soymilk, and soy flour from a macrobiotic viewpoint. One recipe is given, from the forthcoming French-language book, *Mysteries and Secrets of Soya*, by C. and L. Clergeaud. Address: France.

7386. **Product Name:** [Deep-Fried Tofu with Nuts].
Foreign Name: Nuss-Tofu, fritiert.
Manufacturer's Name: Sojatopf. Renamed Soto in April 1989.
Manufacturer's Address: Friedrich-Ebert-Str. 40, D-8323 Trostberg, West Germany. Phone: 08621-62538.
Date of Introduction: 1986. January.
Ingredients: Incl. tofu, hazelnuts, tamari.
Wt/Vol., Packaging, Price: 200 gm vacuum pack.
New Product–Documentation: Letter (fax) from Harry Whitford. 1990. May 30. Gives full details on product based on interview with Gerhard (Oskar) Schramm. Tofu with hazelnut pieces pressed into it is marinated in tamari, then deep-fried. On 1 Jan. 1990 the company moved to Wolfbergerstr. 47, D-8211 Breitbrunn am Chiemsee, West Germany.

7387. **Product Name:** Homestyle Tofu Dessert (Puddings) [Chocolate Royale, or Carob Mint].
Manufacturer's Name: Sonoma Specialty Foods.
Manufacturer's Address: 2317 Bluebell Dr., Santa Rosa, CA 95403. Phone: 707-525-8822.
Date of Introduction: 1986. January.
Ingredients: Chocolate Royale: Tofu (organic soybeans*, water, calcium sulfate), cocoa, fructose, soy oil, tapioca, pure vanilla. * Grown in accordance with CA H&S Code 26569.11.
Wt/Vol., Packaging, Price: 4.5 oz in plastic cup.
How Stored: Refrigerated or frozen.
New Product–Documentation: Label. 1987. 3 inches diameter. Red and black on white lid. "Cholesterol & Lactose Free." Soy Power. 1987. Catalog. 4.5 oz. Interview with Benjamin Hills. 1987. Sept. 7. Chocolate Royale introduced in Jan. 1986, Carob in Aug. 1986, Cherry Berry in about August 1987. New Labels in April 1988. 3 inches diameter. "Non-Dairy. Cholesterol Free. Nutritious. Natural. Kosher. Ready to Eat." Spot in Health Foods Business. May.

Talk with David Burns. 1991. April 10. The company introduced a new label for the chocolate and cherry-berry flavors in March 1991. They hope to have the new label for the strawberry out by June 1991. The vanilla pudding is not yet ready.

7388. **Product Name:** Soya Kaas (Cheese Alternative Containing Casein) [Mozzarella Style].
Manufacturer's Name: Soya Kaas, Inc. A subsidiary of Swan Gardens, Inc. Distributed by American Natural Snacks.
Manufacturer's Address: Manufacturer: 218 Laredo Dr., Decatur, Georgia 30030. Distributor: P.O. Box 1067, St. Augustine, FL 32085.
Date of Introduction: 1986. January.
Ingredients: Soy milk, soy oil, calcium caseinate, tofu, salt, lecithin, citric acid, guar, annatto (natural color).
Wt/Vol., Packaging, Price: Seven-pound deli blocks and 12-ounce consumer sizes. 12 oz. retails for $3.89 (1986/06, at Real Foods, San Francisco, California).
How Stored: Refrigerated.
Nutrition: Per 1 oz.: Protein 6.7 gm, fat 5.6 gm, carbohydrates 1.8 gm, calories 78, sodium 168 mg.
New Product–Documentation: Ad in Natural Foods Merchandiser. 1986. April. p. 13 and Sept. p. 61. "Soya

© Copyright Soyinfo Center 2013

Kaas. The delicious, nutritious alternative to cheese. Available in consumer packages or deli blocks. Cholesterol free. Lactose free." A photo shows the product label. "Manufactured by Soya Kaas, Inc. for American Natural Snacks, St. Augustine, FL 32085."

Leaflet (2-sided, color, 8½ by 11 inches). 1986. "Soya Kaas. The Delicious, Nutritious Alternative to Cheese." On the front is a large block of the sliced cheese alternative on a cutting board atop a purple and black table cloth. To its upper left are red and green bell peppers and a pizza. To its lower left are cubes of the cheese with purple grapes and red apples on a gold plate. To its right is the grated cheese with a grater. On the back are three recipes using Soya Kaas: Chicken a la Kaas, Pita Pizza, and Eggplant Lasagna. The nutritional information per ounce is given but Soya Kaas' ingredients are not listed.

Marc Medoff. 1986. "Whole frauds in the news: Will the *real* soy Mozzarella please stand up (that is, if there is one)." *Whole Life* (New York City). June. p. 82-84. Contains a critical discussion of Soya Kaas for appearing to be a non-dairy product when it actually contains casein. The actual label for Soya Kaas: Mozzarella Style, taken from a wholesale block of Soya Kaas, is reproduced 4 inches square; the ingredient listing is shown.

Spot in Food Distributors Magazine. 1986. Oct. American Natural Snacks of St. Augustine, Florida, introduces Soya Kaas, billed as a natural alternative to mozzarella. Unlike the cheese, Soya Kaas contains no cholesterol and is lactose free. "Soya Kaas is available in seven-pound deli blocks and 12-ounce consumer sizes. Stickers and shelf talkers are available. American Natural Snacks also is known for its nationally distributed Carafection line, which consists of carob and date sweetened bars (Almond Crunch, Cashew Coconut Crunch, Plain, Mint and Crispy Crunch) as well as a variety of bulk candies.

"The firm also manufactures Rice Crisps and Original Honey and Mint Honey Grahams, an interesting desert and snack product."

Talk with Richard Rose. 1988. Jan. 7. He thinks this is the best soy-based cheese on the market, although it contains casein. Richard McIntyre probably makes the soymilk for this cheese himself and he probably uses fresh (rather than dry) tofu, which he also probably makes.

Talk with Richard McIntyre, founder and owner of Swan Gardens, Inc. 1988. Nov. 23. His company developed this product, then launched it in Dec. 1985 and Jan. 1986. See interview.

Dec. 1988. "Fresh soy milk" is listed as the first ingredient. The manufacturer is Swan Gardens.

Talk with Richard Rose. 1990. Nov. 26. Pacific Foods of Tualatin, Oregon, sells soymilk to Richard McIntyre for use in making Soya Kaas.

Note: At least one person has tried to visit this plant using the given street address and was unable to locate it. The local police knew of no such street name and it did not appear on any maps of the area.

Letter from Atlanta Kashruth Commission. 1993. Dec. 12. Soya Kaas products are produced under the Orthodox Rabbinical Supervision of the Atlanta Kashruth Commission. The plant in which these products are made is located at 6029 Lagrange Blvd., Atlanta, Georgia 30336.

Label for Soya Kaas Mozzarella Style. 1992 (Copyright). 4.5 by 3.5 inches. Green and red on white. "No cholesterol. Lactose free." The list of ingredients reads: "Tofu (organic* soy milk, calcium sulfate), casein (a milk protein), soy oil, sea salt, lactic acid, natural flavor, lecithin. * Organic ingredients are grown and processed in accordance with the California Organic Foods Act of 1990."

Note: This is the earliest commercial soy product seen (March 1998) made or marketed by Soya Kaas or American Natural Snacks.

7389. **Product Name:** Chocolate Fudge Tofu Glace (Non-Dairy Soy Ice Cream).
Manufacturer's Name: Sweet Victory.
Manufacturer's Address: New York.
Date of Introduction: 1986. January.
Wt/Vol., Packaging, Price: One pint cartons.
How Stored: Frozen.
New Product–Documentation: W.A. Moore. 1986. Food Distributors Magazine. Jan. p. 59. "Selling Flab-Free Goodies to the Dieters in New York." Quick Frozen Foods International. 1986. Oct. p. 48.

7390. **Product Name:** Tofu-Vegie Burgers.
Manufacturer's Name: Wildwood Natural Foods of Santa Cruz, Inc.
Manufacturer's Address: 1560 Mansfield Ave., Suite D, Santa Cruz, CA 95062. Phone: 408-476-4448.
Date of Introduction: 1986. January.
Ingredients: Wildwood Tofu (organic soybeans grown without synthetically compounded pesticides or fertilizers in accordance with Section 26569.11 of the California Health and Safety Code, filtered water and nigari), any of the following fresh vegetables (carrots, onions, celery, kale, or potato), garlic, pure expeller-pressed hi-oleic mono-unsaturated safflower oil, unrefined peanut oil, sea salt.
Wt/Vol., Packaging, Price: 6.5 oz vacuum pack.
How Stored: Refrigerated.
Nutrition: Per 3.25 oz.: Calories 205, protein 15.4 gm, fat 10.8 gm, carbohydrates 11.5 gm, Vitamin A 3396 I.U., calcium 115 mg, iron 3 mg, sodium 271 mg.
New Product–Documentation: Talk with Jeremiah Ridenour. 1988. Aug. 26. The company started making Tofu Burgers in January 1986. Label. 1986. 3.25 inches diameter. Red on yellow. Logo of birds flying over a forest silhouette. "Complete protein. 25% fresh vegetables. Great flavor. Cholesterol free. Easy to prepare: Heat in toaster,

© Copyright Soyinfo Center 2013

microwave, or on a barbecue. Serve hot or cold or as an appetizer or with your favorite burger garnishes and enjoy."

Label sent by Billy Bramblett. 1990. Round. Red on yellow. Logo of birds flying over a forest silhouette. "Complete protein." "25% fresh vegetables."

Label sent by Billy Bramblett. 1998. July. He says this product was introduced in 1986, and made at Wildwood's plant in Fairfax.

7391. **Product Name:** Tofu of the Sea with Dulse Sea Vegetable.
Manufacturer's Name: Wildwood Natural Foods of Santa Cruz, Inc.
Manufacturer's Address: 1560 Mansfield Ave., Suite D, Santa Cruz, CA 95062. Phone: 408-476-4448.
Date of Introduction: 1986. January.
Ingredients: Organic soybeans grown in accordance with Section 26569.11 of the California Health and Safety Code, filtered water, dulse sea vegetable, nigari.
Wt/Vol., Packaging, Price: 10 oz.
How Stored: Refrigerated.
New Product–Documentation: Talk with Jeremiah Ridenour. 1988. Aug. 26. The company started production in Jan. 1986. The dulse is layered into the curds in the forming boxes. It has a strong purple dying action. Label. 1987. 2.5 inches diameter. Blue on white. Logo of birds flying over a forest silhouette.

7392. Durfee, Roy. 1986. Santa Fean offers recipe for health: Fortunes of his soyfood business ride on growing public awareness of tofu, tempeh. *Journal* (*Albuquerque, New Mexico*). Feb. 2. p. G1, G4.
• ***Summary:*** Jennings bought Southwest Soyfoods in July 1982. He now makes about 1,500 lb/day of tofu and has 6 employees. The tofu retails for $0.89 to $1.39.

Note: Talk with Richard Jennings. 1989. Aug. 22. He has renamed his company to The Food Plant. His main product is organic salsa. Soyfood products include tofu, tofu tamales, and a burrito filling. He stopped making tempeh in about June 1986. Photos show: Two workers making tofu tamales. Richard Jennings operating a soymilk extractor.

7393. *SoyaScan Notes.* 1986. Tally and analysis of clips from Soyfoods Clipping Service (Overview). Feb. 6. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** The Soyfoods Center received from Luce Press Clippings a total of 311 clips on the subject of soyfoods during the ten weeks from 17 Oct. 1985 to 6 Feb. 1986. These clips were on the following subjects: Tofu 130 clips (41.8% of total), soy ice creams 83 (26.7%; including 49 clips on Tofutti), tofu second generation products 17 (5.5%), whole dry soybeans 17 (5.5%), modern soy protein products 10 (3.2%, incl. isolates and concentrates), soy oil 10 (3.2%), soymilk 9 (2.9%), miso 8 clips (2.8% of total).

7394. *Toronto Star* (*Ontario, Canada*). 1986. Tempeh new to Toronto. Feb. 6. p. F5.
• ***Summary:*** "Soy based foods are available at more and more restaurants, specialty stores, and supermarkets, in response to a growing demand for lighter and meatless protein foods. For example, there has been a rapid rise in the popularity of tofu (soybean curd) and tofu based products.

"Once only for 'those who dare,' tofu is now available in all major supermarkets and in many major restaurants in Toronto.

"Moving quickly on the heels of tofu is tempeh, and Indonesian culinary delight."

Two varieties of tempeh (traditional soy tempeh and a

© Copyright Soyinfo Center 2013

lighter grain tempeh) is now being made by Soy City Foods in Toronto. They are served at: (1) Vegetarian Restaurant, 542 Yonge St.; (2) West End Vegetarian Restaurant, 2849 Dundas St. West.

Gives a recipe for Barbecued tempeh.

7396. Pedrick, Ed. 1986. Clofine spray-dried tofu: Development and production (Interview). Conducted by William Shurtleff of Soyfoods Center, Feb. 11. 1 p. transcript.
• ***Summary:*** Clofine is a dairy products ingredient company, not a retailer, that started in 1902. Clofine spray dried tofu was first sold commercially in about February, 1985. They make tofu from whole soybeans or soy flour, curd the soymilk with calcium sulfate (not GDL) and press in cloths to make a regular tofu (not a silken tofu), standardize the solids then spray dry it. Clofine is an office in New Jersey. They do not own plants, but they work with people who own plants. Pedrick has worked with two plants in developing spray-dried tofu. Address: Clofine Dairy & Food Products, P.O. Box 335, Linwood, New Jersey 08221.

• ***Summary:*** Fire destroyed the Island Spring packing plant early Saturday morning. Address: Washington.

7398. Wilson, Abigail. 1986. Tomsun Foods hopes 'Jofu' to be 'food of the future.' *Recorder* (*Greenfield, Massachusetts*). Feb. 15. p. 1.
• ***Summary:*** Tomsun Foods Inc. has introduced Jofu, a new soybean product that the company expects will more than double its sales this year. Free of dairy products and cholesterol, Jofu is "low in sodium and fat, high in calcium, iron, and protein, contains 'loads' of fruit, looks and tastes like yogurt, but lacks the sourness. Tomsun has been planning the birth of Jofu for nearly a year...

"Jofu is now for sale at Foster's Supermarket and Food Mart, making western Massachusetts the test market for what Tomsun hopes will become a product with a multi-million dollar profit, said Susan Friedman, advertising and promotion director at Tomsun... 'We call it "beyond yogurt." It's a dairy-free yogurt.'"

Tomsun has hired 20 people during the past year, bringing its payroll to 60. To accommodate the product, Tomsun plans to expand into a neighboring building now leased by Electric Motor Sales and Service. That building will house office space, equipment, and storage. Address: Staff reporter.

7399. Karlen, Michael. 1986. Re: New developments at Soyana. Letter to William Shurtleff at Soyfoods Center, Feb. 16. 4 p. Handwritten. [Eng]
• ***Summary:*** The company recently moved to this new address with a lot more space and modern equipment. They have started to sell soymilk and soy yogurt, and also to make Tofu Ravioli and Spaetzli (pasta), in addition to their organic nigari tofu. "The general situation looks promising with Migros, Co-op, and Galactina making their own new products, like tofu ice cream, tofu bread (still in test market), and soy dessert. I believe that 1986 could become a year with another major step toward general acceptance of soy products in Switzerland... More and more of the 13 big milk processing cooperatives are getting involved in the soy business... The whole situation is really exciting." Address: Friedensgasse 3, Postfach 8039, Zurich, Switzerland. Phone: 01-202-8997.

7400. Campbell, John. 1986. Jofu: An alternative to yogurt. *Democrat and Chronicle* (*Rochester, New York*). Feb. 19. p. 1A-2A.
Address: Staff.

7401. *Christian Science Monitor.* 1986. Bland bean curd makes a tasty dish. Feb. 19.
• ***Summary:*** Largely a recipe for Sweet and Sour Tofu provided by Tomsun Tofu Company.

• ***Summary:*** The first shop of its type in Japan, it is linked to the Daiei Group's Captain Cook.

7403. Biggs, Marcia. 1986. Who's hot. *Michigan: The Magazine of the Detroit News.* Feb. 23. p. 22.
• ***Summary:*** A color photo shows cousins William Guest and Edward Patten of Gladys Knight and the Pipps. They are founding American Tofu in Detroit to make NJOY, a frozen tofu dessert. It will be sold mainly in the Midwest.

7404. *Los Angeles Times.* 1986. New products: Tofu used as protein-rich potato topping (Advertorial). Feb. 27. p. K18.
• ***Summary:*** In this "Special advertising supplement," this disguised ad states: "Tofu, a source of protein to more than 1 billion people a day, is low in carbohydrates and saturated fats and contains no cholesterol.

"Tofu provides 10 usable grams of protein for every 100 calories, according to Hinoichi, one of the leading tofu brands in Southern California."

© Copyright Soyinfo Center 2013

Hinoichi offers three types of tofu, each with a different texture and uses: Soft (kinugoshi), regular (medium-firm Japanese style), and firm (Chinese style).

A recipe for Tofu-topped baked potatoes is given. A photo shows the dish, ready to eat.

7405. Bhatnagar, P.S. 1986. Current aspects of soybean in India. Paper presented at International Convention of "Prospects for Soybean Utilization." 25 p. Feb. Organized by Soyabean Processors Assoc. of India on 15-16 Feb. 1986 at Indore, MP, India. [11 ref]

• ***Summary:*** Contents: Introduction. Soybean in India. Production potential in India. Place in cropping system: Will not affect groundnut production since optimum soil and climatic requirements of the two crops are not the same. Progress of research. Utilization: Food uses of soybean, food uses of soya oil, potential food uses in India (defatted soya flour, tofu, soy beverages, frozen desserts). Major constraints (to development of soybean in India).

Oilseed production in India is about 12 million tonnes. In addition, India imports 1.5 million tons of edible oil at a cost of about 10,000 million rupees a year to provide only 11 mg per person per day, which is less than the recommended [by whom?] 18 gm per day. This the importance of the soybean in India become overwhelmingly apparent.

The soybean is also a good source of high-quality, low-cost protein, yielding 2-3 times as much per acre as traditional Indian pulses and at a much lower price per unit weight.

"Farmers have liked soybean because of its low input requirements for labour and nitrogenous fertilizers and wider adaptability. Due to its ability to fix atmospheric nitrogen in the soil, more than its own requirement, the fertility of the soil is improved and the crop following soybean yields better. About 30-40 kg of nitrogen per ha is saved for the succeeding crop."

"Although black soybean has been cultivated for ages in the low hills of the Kumaon and Garhwal regions of Uttar Pradesh as well as in the foothills of the Himalayas and is some scattered pockets of Central India, the crop, strangely enough, had not become popular in the sub-continent."

Tables show: (1) Average yield, oil and protein content of soybean and other pulse crops in similar conditions in India. The other crops are pigeon pea (*Cajanus cajan*), black gram (*Phaseolus mungo*), cowpea (*Vigna sinensis*), green gram [mung bean] (*Vigna radiata*). Soybean has by far the highest yield, oil, and protein content.

(2) Biological value of protein from selected commodities: The commodities are egg, soybean, corn, wheat flour, rice (milled [white]). The values are Biological Value, Protein Score, and Net Protein Utilization.

(3) Targeted and actual cultivation (ha) as well as production (tonnes) in India under the centrally sponsored scheme for soybean development (1978-1984, in 7 states).

(4) Estimated area potentially available for soybean in Madhya Pradesh and Uttar Pradesh. (5) Indigenously bread released varieties of soybean (19 varieties). Five columns show: (1) Name of variety. (2) Whether released by central or state variety release committee. (3) Area of adaptability. (4) Duration (days to maturity) (5) Yield potential (quintals per ha; 1 quintal = 100 kg). (6) Recommendations on package of practices for soybean cultivation in India. (6a) Important food uses of soybean. (7) Composition of defatted soya flour. (8) Protein and energy densities of some cooked foods and commercially available soya flours. (9) Chemical properties of wheat flour, animal protein (egg and milk) and soya flour. (9a) Protein per cent (by weight) in different food products (incl. may soy products). (10). Net protein utilization of different food commodities. (11) Composition of nutrients in 100 gm of different types of tofu. (12) Composition of whole cow milk and soya beverages. Address: Project Coordinator, All-India Coordinated Research Project on Soyabean (ICAR), G.B. Pant Univ. of Agriculture & Technology, Pantnagar, UP, 263145, India.

7406. deMan, J.M. 1986. The growing importance of plant proteins in food. *Notes on Agriculture* (*Guelph, Ontario*) 20(1):13-14. Feb.

• ***Summary:*** "If we look at the list of promising candidates for new foods of the future, soybean appear to be the best answer... Soy proteins are already widely used as food ingredients, e.g. in bread, and it appears certain that slowly but surely plant proteins will continue to play an increased role in the food supply." Soybeans and soy flour are among the least expensive sources of protein, and an acre of land can produce more protein from soybeans than from any other conventional farm crop. Table 3 shows the price of a kilogram of protein from various sources in 1984 in Guelph, Canada: Soybeans $1.11. Wheat $2.14. Bread $17.00. Milk $17.14. Ground beef $24.66. Tofu $25.00. Cheese $40.00. Yoghurt (dairy) $62.56. Sirloin steak $74.06. Address: Dep. of Food Science, Ontario Agricultural College, Univ. of Guelph, ONT, Canada.

7407. *Eiyo to Ryori* (*Nutrition and Food, Tokyo*). 1986. Daizu, daizu seihin: Mijika na tanpakushitsu-gen [Soybeans and soyfoods: A protein source which is close at hand]. Feb. p. 22-34. [Jap]

• ***Summary:*** A collection of recipes, each accompanied by a color photo, using tofu, deep-fried tofu pouches, tofu cutlets, dried-frozen tofu, boiled soybeans, tofu burgers (ganmodoki), okara, and yuba. Address: Japan.

7408. Honer, Clem. 1986. New potential for soy: Soy isolates open doors for soy-based yogurts and other products. *Dairy Foods.* Feb. p. 60.

• ***Summary:*** The use of soy protein isolates instead of whole soymilk may allow more dairy processors to cash in on the

© Copyright Soyinfo Center 2013

growing consumer demand for cholesterol- and lactose-free products. To make a non-fermented yogurt-like product, soy protein "isolates are dispersed in water and blended with vegetable oil, lecithin, corn syrup, sodium citrate, and other ingredients. The product is then HTST pasteurized at 180ºF and homogenized at 2,500 psi during the first stage and 500 psi at the second stage. At 176ºF, one percent glucono-delta-lactone (GDL) is added. Coagulation occurs as the GDL slowly releases gluconic acid."

7409. **Product Name:** Legume Meatless Pepper Steak with Kofu (fresh wheat gluten) and Noodles.
Manufacturer's Name: Legume, Inc.
Manufacturer's Address: 170 Change Bridge Road, A-4, Montville, NJ 07045. Phone: (201) 882-9190.
Date of Introduction: 1986. February.
New Product–Documentation: Talk with Gary Barat. 1986. March. Legume introduced this product at the Natural Products Expo at Anaheim in Feb. 1986. Ad in Natural Foods Merchandiser. 1986. Oct. p. 110. "A Break from Steak." Spot in East West. 1986. Dec. p. 12. "Wheat meat market." This all-natural frozen entree uses kofu (also known as seitan or wheat meat).

Talk with Lenny Jacobs of East West Journal. 1990. Sept. 10. Legume bought the wheat gluten for this product from Upcountry Seitan in Lenox, Massachusetts.

Talk with Sandy Chianfano of Upcountry Seitan. 1991. Nov. 16. Legume bought kofu (fresh wheat gluten) not seitan, from her company for this product. "I told Barat I didn't think it was a good product to start with. You should put it in either your Mexican line or your Italian line. You're mixing a grain with a grain, and it doesn't even look good. He had Celentano's make the finished product. He didn't put the money into promoting it that he had planned to so it fizzled out."

7410. **Product Name:** Nasoyanaise (Tofu-Based Mayonnaise).
Manufacturer's Name: Nasoya Foods, Inc.
Manufacturer's Address: 23 Jytek Park, (P.O. Box 841), Leominster, MA 01453.
Date of Introduction: 1986. February.
Ingredients: Nasoya tofu (well water, organic soybeans, natural nigari type coagulant), cold-pressed sunflower oil, well water, rice syrup, wood-aged apple cider vinegar, prepared mustard (vinegar, water, mustard, salt, turmeric, spices, natural flavor), seasalt, natural vegetable gum.
Wt/Vol., Packaging, Price: 14 oz jar, 12 per case.
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Per 1 tbsp, 14 gm.: Calories 40, protein 1 gm, carbohydrate 1 gm, fat 4 gm.
New Product–Documentation: Soyfoods. 1983. Summer. p. 52. "Nasoya Restyles Tofu Dips." This product, originally named Soyannaise, was introduced in December 1979; Label. 1985. 9.25 by 2.25 inches. Paper. Red, white, blue and light yellow. "Made with fresh tofu. Less than ½ the calories of mayonnaise. No cholesterol. No sugar. 100% natural. Low sodium. Use Nasoyanaise right from the jar as a delicious alternative to other spreads and dressings in your favorite salad or sandwich, on vegetables, fish, baked potatoes and more. Nasoyanaise will add a special wholesome richness to your favorite recipes." Ad in Vegetarian Times, Aug. 1986, inside rear cover. "Introducing Nasoya Creamy Tofu Dressings and Nasoyanaise." Ad in East West. 1986. Nov. p. 83, and in Vegetarian Times. 1986. Nov. p. 33. "Introducing... 2 New Ways to Enjoy the Goodness of Tofu!" Food Report (Lehmann). 1986. Feb.

7411. **Product Name:** Harvest Light Tempeh.
Manufacturer's Name: Northern Soy Inc.
Manufacturer's Address: 30 Somerton St., Rochester, NY 14607. Phone: 716-442-1213.
Date of Introduction: 1986. February.
Ingredients: Organically grown soybeans, filtered water, apple cider vinegar, live tempeh culture.
Wt/Vol., Packaging, Price: 8 oz vacuum packed. Not frozen. Steamed.
How Stored: Refrigerated, 45 day shelf life.
New Product–Documentation: Manufacturer's catalog. 1987. Oct. Talk with Andy Schecter. 1988. Feb. 17. This is the brand for their steamed, vacuum packed, non-frozen tempeh. The separate brand idea started with their vacuum packed tofu; previously all of their tofu had been fresh and unpackaged in bulk.

7412. Rocheman, Marc. 1986. Les aliments fermentés derivés du soja [Fermented foods derived from soya]. *Biofutur* No. 43. p. 34-42. Feb. [8 ref. Fre]
• ***Summary:*** Gives the composition and nutritive value of various soy products: tofu, fermented tofu (sufu), miso, natto, shoyu, and tempeh. Describes the possibilities for use of koji, as a source of proteases and peptidases, in the production of these fermented foods.

7413. Sims, Pat. 1986. "Tofu Pups." Weenies of the New Age. *American Health.* Jan/Feb. p. 105.
• ***Summary:*** "Tofu Pups (launched in Sept. 1985) are totally vegetarian, contain no nitrates or cholesterol and have only half the fat and less than one-half the sodium of beef franks. Price: $2.59 for an 8-pack."

7414. **Product Name:** [Tofu Burger (With Sesame)].
Foreign Name: Tofu-Burger (Sesam).
Manufacturer's Name: Sojarei Ebner-Prosl.
Manufacturer's Address: Augasse 2, A-2500 Baden bei Wien, Austria. Phone: 02252/85101.
Date of Introduction: 1986. February.
Ingredients: Soybeans, millet, rolled oats (from controlled

© Copyright Soyinfo Center 2013

cultivation), whole wheat flour, vegetables, herbal salt, herbs, spices.
How Stored: Refrigerated.
New Product–Documentation: Brochure sent by Sojarei Ebner-Prosl. 1989. Oct. 12. "Fresh products." "Tofu patties in various sizes and flavors" (Tofu-Laibchen in verschiedenen Grössen un vielen Geschmacksvarianten). Note: The tofu burger apparently has no added bread crumbs like a laibchen.

Label, received 1989. Oct. Red, black, green, and white on yellowish orange. 1.75 by 3.75 inches. Made purely from plants (rein pflanzlich), of high quality. Without chemical preservatives, artificial colorings or flavorings. Logo is a green soybean plant against a white circular background. In the company's Jan. 1989 catalog this product is called Tofu-Burger, is described as a crisp patty with basil and sesame, precooked. It sells retail in 75 gm weight.

7415. **Product Name:** [Tofu Ravioli (with Bolognese Sauce, or with Cheese Cream Sauce)].
Foreign Name: Tofu-Ravioli (an Sauce Bolognese, or an Kaese Rahmsauce).
Manufacturer's Name: Soyana.
Manufacturer's Address: Friedensgasse 3, Postfach 8039, CH-8002 Zurich, Switzerland. Phone: 01-202-8997.
Date of Introduction: 1986. February.
Wt/Vol., Packaging, Price: 400 gm.
New Product–Documentation: Letter from Michael Karlen. 1986. Feb. 16. They now sell soymilk. Brochure. 1986. Soyana. The Future has begun. 10 panels. Blue and white. In German. Tofu Ravioli. Without flesh. Ready to eat; just warm in a pan. Keeps without refrigeration. Whole-grain, organically grown. Two varieties. The sauce Bolognese is made with tomatoes and Soyana soy protein [TVP].

7416. **Product Name:** Tofu Master Tofu [Firm, or Soft], and Tofu Master Gourmet Tofu.
Manufacturer's Name: Tofu Masters, Inc.
Manufacturer's Address: 102 Hymus Rd., Scarborough, ONT, M1L 2C9, Canada. Phone: 416-752-0161.
Date of Introduction: 1986. February.
Ingredients: 1. Soymilk, calcium sulphate; 2. Water, soybeans, calcium sulfate and/or magnesium chloride.
Wt/Vol., Packaging, Price: 1. 500 gm; 2. 10.6 oz (300 gm).
How Stored: Refrigerated.
Nutrition: 1. Per 100 gm.: Protein 7 gm, fat 3 gm, carbohydrates 1 gm, calories 58, sodium 2 mg, potassium 97 mg. 2. Per 4 oz (113 gm): Calories 120, protein 16 gm, carbohydrate 4 gm, fat 6 gm, cholesterol 0, sodium 0, potassium 180 mg. Percentage of U.S. RDA: Protein 26, calcium 45, iron 10.
New Product–Documentation: Talk with Kathleen O'Bannon. 1990. March 7. Label sent by Kathleen O'Bannon. 1990, March. 5.25 by 4.25 inches. Green, yellow, black, and red. Printed on film. Logo of a stylized rayed sun.

• ***Summary:*** The high since 1964 was 93.5 cakes (in 1967) and the low was 83.3 cakes in 1974.

7422. Alpine, Lisa. 1986. Tofu business is down to earth. *Fax* (*The*) (*Fairfax, California*). March 18-31. p. 9.
• ***Summary:*** This is an interview with Paul Orbuch and Bill Bramblett, who run Wildwood Natural Foods. Paul and Bill are described as "super business people" who love Fairfax–which is why they have kept their business there, even though it has recently expanded and lower rents can be found in the industrial section of San Rafael. Wildwood, which put Fairfax on the map as the "Tofu capital of the world," has its roots in Fairfax. "Around 1978, the Good Earth health food store on Bolinas Rd. wanted to start selling their own sandwiches. So Paul Duchesne of Fairfax began making them in the Sleeping Lady Cafe kitchen. He created the brown rice and tofu sandwich which was his best seller and is still tops on the Wildwood orders today. As an offshoot to that success, Paul D. expanded his orders to include the other health food stores in the area.

"Bill Bramblett was the breakfast cook at the Lady and sampled many of Paul's sandwiches. He suggested that they join forces and start aggressively selling them in other parts of the Bay Area. Bill wasn't fooling around. He invested money and rented the space at 135 Bolinas Rd. with the idea of also manufacturing Tofu.

"Meanwhile Paul D. went to Boston [Massachusetts] to study macrobiotics with Michio Kushi, and Chris Smith took over his sandwich delivery business. Chris came up with the name Wildwood and Bill looked in the dictionary to see if it fit. Wildwood: 'a wood lane in its natural state.' Everyone decided it worked.

"Chris then went off to Boston to study and Paul D. returned to operate the sandwich making and get the Tofu production off the ground with Bill.

"After reading 'The Book of Tofu,' Bill and Paul D. realized it was no minor venture and in order to buy the equipment they would need more capital. Paul Orbuch and Frank Rosenmayr joined as investors and plans were drawn up to change the building to fit their needs. There was a lot of opposition from the town planning commission and private areas that held things up for four months. The permit complications and the necessary approval of the town planning commission pushed Bill to an impassioned plea in front of the town council that 'making sandwiches is a quiet business and bread is soft and acoustic.'

"During the first six months they lost money and the partners started taking an even more active interest in the business. Paul Duchesne stepped back and Bill took over the books and got a computer. Paul O. focused on production, distribution, product development and the graphics while Frank remodeled the facilities and put his management skills to work. Slowly, through organization, they formed a solid foundation for their business.

"The delivery routes grew and other fresh food companies started using Wildwood for their distribution.

© Copyright Soyinfo Center 2013

Today, outside distribution accounts for a healthy percentage of their business. They deliver to over 200 wholesale customers, three to six times a week. Wildwood has grown tremendously in the seven years since its conception and now includes two manufacturing locations for their wholesale business and a retail deli, all located in Fairfax."

"Why did they expand from a wholesale business to a retail Deli? 'The Deli is the lab where we can find out what is going to be popular in health food,' explained Bill."

"'The Deli gives us a chance to create new products and a way to serve them in other locations,' added Paul."

7423. Gage, R. 1986. Ice cream taste-alike made from field peas. *Globe & Mail* (*Toronto, ONT, Canada*). March 25.
• ***Summary:*** Tofu Treat, a non-dairy frozen dessert, is made with tofu that is made from peas rather than soybeans, by Thai Foods Ltd. of Winnipeg. Address: Winnipeg, MAN.

7424. Norman, Bill. 1986. Chinese to begin building Joliet plant. *Journal* (*Kankakee, Illinois*). March 26.
• ***Summary:*** "The People's Republic of China will begin building its first manufacturing facility in the United States next month when construction begins on 'Cathay Foods, Inc.' at Joliet, Illinois." The new firm will make soy sauce and tofu.

7425. Steiner, Mary P. 1986. Tofu, tempeh also good in dinner entrees: Third of series. *News* (*Bluffton, Ohio*). March 27.
• ***Summary:*** This is the third part of a series on a class in Bluffton Family Recreation class in cooking with whole foods. "The instructors include many recipes using tofu and tempeh, both of which are soybean products." Gives recipes for: Almond tofu. Chili con tofu. Tempeh stroganoff. Orange pudding. A photo shows Hans Houshower stirring tofu in a wok.

7426. **Product Name:** [Bean Curd (Chinese Style, Silken)].
Manufacturer's Name: Chinese Style Bean Curd.
Manufacturer's Address: 106 Jawatta Rd., Colombo, Sri Lanka. Phone: 582-796.
Date of Introduction: 1986. March.
Ingredients: Soya, glucose, etc.
Wt/Vol., Packaging, Price: 400 gm plastic bag retails for Rs. 18/50.
How Stored: Refrigerated, 3 day shelf life.
New Product–Documentation: Label. 1988. 4 by 3 inches. Black on white paper. Form filled out by Jane Gleason. On 18 March 1988 she talked with Mr. Chao, the producer. This is a "silken" type tofu made from soybeans imported from the People's Republic of China, which is said to give it a taste superior to that made from local beans. It is a competitor of Boncheese. Mr. Chao uses 500 kg/month of soybeans. He pays 40-50 Rs/kg for his imported beans. Demand is stable. People buy his product mainly for the good taste.

7427. *East West.* 1986. The best & worst natural foods. East West's first annual awards. March. p. 83-86.
• ***Summary:*** "Frozen non-dairy desserts. Best hard-serve product: Rice Dream by Imagine Foods of Palo Alto, California. Leaves all the soy products with their squabbles about tofu content and soy isolate use in the dust." Address: Massachusetts.

7428. **Product Name:** Tofu Salad, and Tofu Hummus.
Manufacturer's Name: Fresh Tofu Inc.
Manufacturer's Address: 900 Line St. (P.O. Box 1125), Easton, PA 18042. Phone: 215-258-0883.
Date of Introduction: 1986. March.
New Product–Documentation: See next page. Talk with Gary Abramowitz. 1989. Aug. 21. These products were introduced in about March 1986, after he had been with the company for about a year, but it could have been late 1985.

7429. **Product Name:** Firm Tofu (Doufu), Soft Tofu (Sui Doufu), Soymilk (Dou-nai), and Pressed Tofu (Doufu-gan).
Manufacturer's Name: Golden Gate Tofu.
Manufacturer's Address: 1265 Griffith St., San Francisco, CA 94124. Phone: 415-822-5613.
Date of Introduction: 1986. March.
How Stored: Refrigerated.
New Product–Documentation: 1987. Talk with Richard Rose. 1988. Aug. Bob Chen is the cousin of Maung Ming of Mighty Soy. The company is at Hunters' Point. Talk with Bob Chen. 1988. Aug. 16. He was born in Calcutta, India, of Chinese parents, and raised in Burma. Golden Gate is his first tofu company, and he started it from scratch in March 1986, with three products. He added pressed tofu in late 1986. Today he sells mostly to the Chinese market but some to health food stores.

Label for Soft Tofu purchased at a grocery store in Chinatown, Oakland, California. 1992. Oct. 28. 4.5 inches square. Red, blue, and white on clear plastic film. Illustration of a large red gate. Ingredients: Soy bean, water, 1/10 of 1% natural calcium sulphate. 16 oz water pack.

Form filled out and faxed by Robert Chen. 1998. July 2. The company is still in business; the address and phone number are unchanged.

7430. **Product Name:** Tofu for You (Non-Dairy Frozen Dessert Dry Blends).
Manufacturer's Name: Ingredient Technology Corp. (ITC), Ingredient Systems Div.
Manufacturer's Address: Chicago, Illinois.
Date of Introduction: 1986. March.
Ingredients: Base containing all dry ingredients plus corn sweeteners, vegetable oil, spray dried tofu, soy protein

© Copyright Soyinfo Center 2013

isolate, natural fruits and flavorings, lecithin, stabilizers, emulsifiers.
Wt/Vol., Packaging, Price: Sold in bulk.
How Stored: Shelf stable.
New Product–Documentation: Food Processing. 1986. March. "Non-dairy Frozen Desserts from Tofu Blend Base." This is a non-dairy frozen dessert based on powdered tofu.

7431. **Product Name:** Island Spring Tofu Dressing (Salad Dressing) [Blue Cheese, Ranch-House, or Fruit].
Manufacturer's Name: Island Spring, Inc.
Manufacturer's Address: P.O. Box 747, Vashon, WA 98070.
Date of Introduction: 1986. March.
Ingredients: Blue Cheese: Soybean oil, water, tofu, blue cheese, distilled vinegar, fructose, salt, whey protein concentrate, spices, xanthan gum, garlic.
Wt/Vol., Packaging, Price: 12 fluid oz bottles.
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Per tablespoon: Calories 81, protein 70 mg, carbohydrate 2 gm, fat 8 gm, sodium 126 mg, cholesterol 80 mg, lactose 0 mg.
New Product–Documentation: Food Report (Lehmann). 1986. March. Beachcomber (Vashon, Washington). 1986. Nov. 26. Labels. 1986. 7 by 2.25 inches. Blue, salmon pink, and yellow. Shows sun or moon rising over mountains and water. "A fitness food from the Pacific Northwest U.S.A."

7432. Leonard, Tom. 1986. The emperor's tofu. Let the highest standard be your guide. *East West.* March. p. 16-17, 19-20, 22. [1 ref]
Address: Massachusetts.

7433. *Nasoya Newsletter.* 1986. In search of excellence. March. p. 1.
• ***Summary:*** In June 1985 John Paino and Bob Bergwall, the two co-founders of Nasoya, visited Japan to look for tofu making equipment for their new plant. Late that fall, they ordered a system from Sato Shoji Co. of Tokyo. "In February, 7 large trailers arrived with our new equipment, which will be operational by the first week of April, 1986." Four styles of tofu will be exclusively water packed.
Address: Leominster, Massachusetts.

7434. **Product Name:** Nature Break Tofu Dressing (Reduced Calorie) [Italian, Herb, French, or Thousand Island].
Manufacturer's Name: Nature Break. Div. of the Estee Corporation.
Manufacturer's Address: Parsippany, NJ 07054.
Date of Introduction: 1986. March.
Wt/Vol., Packaging, Price: 8 fluid oz glass bottles.
How Stored: Shelf stable.

7435. **Product Name:** The Soy Deli Tofu-Tempeh Burgers.
Manufacturer's Name: Quong Hop & Co.
Manufacturer's Address: 161 Beacon St., South San Francisco, CA 94080. Phone: 415-873-4444.
Date of Introduction: 1986. March.
Ingredients: Organic tofu, organic tempeh, fresh carrots and onions, sesame seeds, sunflower seeds, currants, safflower oil, sea salt, garlic powder.
Wt/Vol., Packaging, Price: 7 ox (199 gm) vacuum pack.
How Stored: Refrigerated.
Nutrition: Per 3.5 oz.: Calories 268, protein 18.6 gm, carbohydrate 9.3 gm, fat 17.3 gm.
New Product–Documentation: Leaflet. 1986. 8½ by 11 inches, color. "There is Quality & Variety after 80!" Shows all products. Pre-cooked, they are quick and easy to prepare by toasting, broiling, frying, or microwaving. Labels (front and back). 1987. 5 inches square. Orange and brown on white film. "High in protein. No cholesterol, contains no meat. Pop 'n serve."

Product Alert (Naples, WY), 1986. March 17. "27. Misc. foods." Soy Deli Tofu-Tempeh Burgers were spotted "at a recent health food show."

7436. **Product Name:** The Soy Deli Pacific Tempeh Burger [Original, or Marinated].
Manufacturer's Name: Quong Hop & Co.
Manufacturer's Address: 161 Beacon St., South San Francisco, CA 94080. Phone: 415-873-4444.
Date of Introduction: 1986. March.
Ingredients: Marinated: Organic soy tempeh, water, shoyu (natural soy sauce), lemon juice, natural herbs and spices, safflower oil.
Wt/Vol., Packaging, Price: 7 oz (199 gm) vacuum pack.
How Stored: Refrigerated.
Nutrition: Marinated: Per 3.5 oz. Calories 247, protein 18 gm, carbohydrates 12.1 gm, fats 13.75 gm, sodium 13 gm, vitamin B-12 2.2 mg.
New Product–Documentation: Labels for both. 1987. 3.5 inches diameter. Front and back. Front is full color, with orange, yellow and red lettering. Photo of a round burger with onions rings on top, on mushrooms, lettuce and tomato. "Pop 'n Serve. Meatless. Delicious. High Protein. No Cholesterol. Good food in minutes."

7437. **Product Name:** The Soy Deli Garden Salad (Tofu-Based Eggless Egg Salad).
Manufacturer's Name: Quong Hop & Co.
Manufacturer's Address: 161 Beacon St., South San Francisco, CA 94080. Phone: 415-873-4444.
Date of Introduction: 1986. March.
New Product–Documentation: Leaflet. 1986. 8½ by 11 inches, color. "There is Quality & Variety after 80!" Shows all products. Label reads: "Great for sandwiches and dips. A cholesterol-free egg salad substitute."

7438. **Product Name:** The Soy Deli Cottage Salad (Tofu-Based Non-Dairy Cottage Cheese).
Manufacturer's Name: Quong Hop & Co.
Manufacturer's Address: 161 Beacon St., South San Francisco, CA 94080. Phone: 415-873-4444.
Date of Introduction: 1986. March.
New Product–Documentation: Leaflet. 1986. 8½ by 11 inches, color. "There is Quality & Variety after 80!" Shows all products. Label reads: "Great for sandwiches and dips. A cholesterol-free cottage cheese substitute."

7439. **Product Name:** The Soy Deli Pacific Tempeh.
Manufacturer's Name: Quong Hop & Co.
Manufacturer's Address: 161 Beacon St., South San Francisco, CA 94080. Phone: 415-873-4444.
Date of Introduction: 1986. March.
Ingredients: Water, organically grown soybeans, tempeh starter (Rhizopus oligosporus).
Wt/Vol., Packaging, Price: 8 oz vacuum pack.
How Stored: Refrigerated.
Nutrition: Per 4 oz.: Calories 190, protein 20 gm, carbohydrates 14 gm, fat 9.7 gm, sodium 10.5 mg, vitamin B-12 2.5 mg.
New Product–Documentation: Note: Pacific Tempeh was acquired by Quong Hop & Co. in South san Francisco on 1 July 1984. Label. 1987. 3.75 by 4.25 inches. Full color, with orange, yellow and red letters. Photo of a dish of fried tempeh on rice. "Cultured soyfood. Delicious. High protein. Easy to cook. No salt."

7440. Robeznieks, Andis. 1986. Frozen foods: Nutritious and convenient [Worthington Foods, Legume, and Walker & Wilks Tofoods]. *Vegetarian Times.* March. p. 39-41.
• ***Summary:*** Ed Walker, a long-time teacher of transcendental meditation, has been testing his recipes for the past 8 years on groups of meditators. Tofoods currently has 3 entrees and will add 5 more this year. Last year Center for Science in the Public Interest evaluated 360 frozen entrees for taste and nutrition. Two by Legume, Inc. were in the top five: Tofu Bourguignon and Sesame Ginger Stir-Fry.

7441. **Product Name:** Tofu Dressing [Tofu Tahini, or Poppyseed].
Manufacturer's Name: San Diego Soy Dairy.
Manufacturer's Address: 2965 5th Ave., San Diego, CA 92103.
Date of Introduction: 1986. March.
New Product–Documentation: Talk with Gary Stein. 1989. Feb. 17. He recalls that this product was launched in about March 1986. Both flavors are still sold.

7442. Shon, Dong-Hwa; Lee, Hyong-Joo. 1986. [Stability of protein colloids in a mixture of cheese whey and soy

© Copyright Soyinfo Center 2013

milk]. *Han'guk Nonghwa Hakhoe Chi* (*J. of the Korean Agricultural Chemical Society*) 29(1):83-89. March. [23 ref. Kor; eng]
• ***Summary:*** Studies the parameters affecting the colloidal stability of whey and soybean proteins, characteristics of tofu-type gel formation, effects of heat treatment, and salt composition on colloidal stability, and effects of heat treatment on storage stability. In experimental types of tofu made from a mixture of whey and soymilk, calcium in the whey precipitated the soy proteins and disrupted gel formation, resulting in curds of poor texture. Numerous dialysis tests were conducted. Address: Dep. of Food Science & Technology, College of Agriculture, Seoul National Univ., Suwon, South Korea.

7443. **Product Name:** Sombrero Joe (Mexican Flavored Sloppy Joe with Tofu).
Manufacturer's Name: Simple Soyman.
Manufacturer's Address: 4877 North Green Bay, Milwaukee, WI 53209. Phone: 414-264-4133.
Date of Introduction: 1986. March.
New Product–Documentation: Talk with R. Jay and Barbara Gruenwald. 1989. June 12. This product was launched in March 1986. It is used as a filling for tacos, burritos, or enchiladas.

7444. Winter, Dorothy. 1986. The substitute foods industry–New directions. Business Communications Co., Inc., 9 Viaduct Rd., P.O. Box 2070C, Stamford, CT 06906. 186 p. March. Report No. GA-052. *
• ***Summary:*** Table of Contents lists the following: The Tofu Market Scene. Description, Manufacturer's and their products. Markets, sales, and outlook. Tables: Percentage of Tempeh Sales by Type. Largest Tofu-Tempeh-Miso Manufacturers in the U.S., 1984. Tofu/Tempeh/Miso Industry in the United States, 1984 and 1990. Much of this material seems to be taken without permission from *Soyfoods Industry & Market* by Shurtleff & Aoyagi.

Other chapters: The role of protein in substitute foods, Meat (extenders and analogs). Dairy substitutes. Regulation in the substitute foods industry. Address: Stamford, Connecticut.

7445. **Product Name:** [Yves Tranches Deli Slices. Bologna Style].
Foreign Name: Style Saucisson de Bologne.
Manufacturer's Name: Yves Natural Foods (Yves Fine Foods Inc.).
Manufacturer's Address: 1138 East Georgia St., Vancouver, BC, V6A 2A8, Canada.
Date of Introduction: 1986. March.
Ingredients: Tofu (soybeans, nigari, water), pure vegetable oil, wheat gluten, dried [egg] albumen, wheat germ, nutritional yeast, spices, hydrolysed vegetable protein, natural hickory smoked flavor, natural color, beet powder, sea salt, guar gum.
Wt/Vol., Packaging, Price: 6 oz (165 gm) vacuum packed. 155 gm retails for $2.29 (8/91).
How Stored: Refrigerated, 28 day shelf life. Or frozen.
New Product–Documentation: Label. 1987. 3.5 inch diameter. Self adhesive Yellow, red, and black. Self adhesive. A second self-adhesive label on the back lists ingredients, in black only. Company name is Yves Fine Foods Inc., Vancouver, Canada V6B 1G4. Soy Power Co. 1987. Catalog.

Label. 1991. Aug. new design. 4.5 by 5.5 inches. Plastic. Red, blue, white, and tan. "Yves Deli Slices do not contain any animal products and are prepared with fresh organic tofu."

7446. *Toyo Shinpo* (*Soyfoods News*). 1986. Ima buumu yobu Haiga Tôfu to wa... Taisei Sangyô ga kaihatsu. Eiyô-ka mo amami mo subete baizô. Kongo wa zenkoku tenkai e [What is soy sprout tofu, whose sales are booming? Taisei Sangyo developed it. The nutritional value and sweetness are doubled. They plan to market it nationwide]. April 1. p. 5. [Jap; eng+]
• ***Summary:*** The product, invented by Katsushi Oguchi, President of Taisei Sangyo, of Okayama prefecture, is produced and marketed by three companies now. Taisei makes the sprouting machine. The product is easier to digest than regular tofu.

7447. *Toyo Shinpo* (*Soyfoods News*). 1986. Iwa Shimizu no aji ga ikiru. Gokayama (Toyama-ken) no tôfu [The taste of firm tofu made with mountain spring water is still alive at Gokayama in Toyama prefecture]. April 1. p. 7. [Jap; eng+]
• ***Summary:*** The tofu from this village, located in an isolated area, is so firm you can carry it by a rice straw rope.

7448. *Toyo Shinpo* (*Soyfoods News*). 1986. In shoppu Kuge ga kaiten. Nichii Fujidera-ten. Fureeku No. 1 tôfu o takaku hyôka. Nakamuta no puranto ga yakudô [New-style tofu shop, using Nakamuta plant, in the Nichii supermarket in Fujidera. It uses Flake No. 1 soy flakes to make tofu, and is selling it freshly fried to customers]. April 1. p. 3. [Jap; eng+]
• ***Summary:*** This new approach is succeeding well.

7449. *Toyo Shinpo* (*Soyfoods News*). 1986. Haigyôsha wa 1800 sha (59 nendo). Shinki san nyûgyôsha 1100 sha mo. Kôseisho chôsa tôfu seizôgyôsha-sû wa 26,032 [In 1984 in Japan 1,797 tofu companies went out of business and 1,067 started business, for a net decrease of 730. Total number of tofu companies is 26,032]. April 1. p. 1. [Jap; eng+]
• ***Summary:*** On average, there was 1 tofu shop for every 4,619 Japanese people. Also, there were 949 natto companies, down 1.86%.

7450. Jones, Irmarie. 1986. Local firm finds joy in tofu. *Recorder* (*Greenfield, Massachusetts*). April 2. p. 15.
• ***Summary:*** Tomsun has become the largest non-Oriental-owned tofu manufacturing company in the world, and it has expanded its product line accordingly to include Tomsun won-ton and egg roll wrappers, fresh noodles, ginger soy sauce, five spice powder, and tofu burgers. Tomsun also makes firm and soft tofu, herb tofu and spicy tofu, plus Jofu, the first chilled, spoonable blend of tofu and fruit. Tomsun now sells more than 3,000,000 lb/year of tofu. Gives a recipe for Sweet apple egg roll surprise. An illustration (line drawing) shows labels of the first 5 products listed above. Address: Staff reporter.

7451. Harrison, Slater. 1986. Re: Work of the Mennonite Central Committee (MCC) with soybeans in Bangladesh. Letter to William Shurtleff at Soyfoods Center, April 3. 1 p. Typed, with signature on MCC letterhead. [1 ref]
• ***Summary:*** George Horlings' book [report] on soybeans in Bangladesh–summarizing his work and that of others on soybean utilization and production–should be published within 2 months.

A Japanese nutritionist, Dr. Yoshimiko Kobayashi (a soyfoods expert), is now helping MCC; she is with a volunteer organization of Japanese doctors.

Bob Burns got 9 large seeded vegetable type soybeans for "edamame." He planted them and got a second generation of quite a few more. Both Bob and Slater make tempeh regularly. Several immigrants from Hong Kong are making tofu in Dhaka. Address: c/o MCC, P.O. Box 5, Maijdi Court, Noakhali, Bangladesh. Phone: 317065 or 316461.

7452. Hower, George. 1986. Tofu: Brightsong Foods markets more than 90 soy products. *Press-Democrat* (*Santa Rosa, California*). April 6. p. 1E, 8E.
• ***Summary:*** Richard Rose discovered the late 1970s that his frequent respiratory illnesses were caused by a severe allergy to dairy products. He was a vegetarian and dairy products made up a major component of his diet. But when he substituted tofu for dairy products he felt he took a step toward eliminating illnesses he had suffered since childhood. At first they were simply tofu consumers, buying their tofu at a company near Ukiah. Later they bought the company.

In 1982 they moved the company–Brightsong Foods–to Petaluma to be nearer the Bay Area market and transportation, and in 1984 their company received the backing of a venture capital firm. Article contains large photos of the inside of the Brightsong plant and its equipment.

7453. Hansen, Judy. 1986. Soybeans go across the street, across the country. *Herald* (*Saint Peter, Minnesota*). April 7. p. 1B.
• ***Summary:*** St. Peter Creamery and Oberg Foods Co. make Soy Supreme in Minnesota. Dennis Anderson, plant manager, notes that the company succeeded by taking dairy technology and applying it to the soybean. They start with whole soybeans (hulls on) and end with a dried powder. They also make a dried tofu. The company has been processing soybeans for 18 months [i.e. since Nov. 1984]. They apparently make Farm Foods Ice Bean, a photo of which is shown.

7454. Brodsky, Mark. 1986. Finnsugar Biochemicals and makers of GDL or glucono-delta-lactone (Interview). *SoyaScan Notes*. April 17. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Four companies make GDL: Finnsugar, Fujisawa in Japan (1,000 to 1,500 tons/year), Pfizer, and Roquette in France. In this country, it is all imported from Ireland. ADM uses Finnsugar's GDL. Calcium gluconate will work as a tofu coagulant and add calcium, but it is very expensive. GDL works by hydrolysis. It breaks down into gluconic acid, nothing else. Finnsugar Biochemicals (formerly Fermco Biochemicals) is a subsidiary of the Finnish Sugar Co., Ltd. of Finland. Its GDL is called Glucofin B, sold as white crystals. It also coagulates milk protein. A product specs sheet spells it glucono-delta-lactone, sold in 25 kg bags.

Talk with Louis Hong of Mei Shun Tofu Products Co, in Chicago; he makes tofu using GDL. 1991. Nov. 19. Finnsugar has been sold to Genencor International. Pfizer has been sold to PMP Fermentation, which may be related to DM. Both expect to be out of GDL for the next 3 months. Address: Finnsugar West, 217 W. Alameda Ave., Suite 202, Burbank, California 91502. Phone: 312-640-1112.

7455. Golbitz, Peter. 1986. Re: Tofu standards comments and association bylaws. Letter to Judith Walker, Executive Director, Soyfoods Association of America, 1101 Connecticut Avenue, N.W. Suite 700, Washington, DC 20036, April 17. 2 p. Typed, with signature on letterhead.
• ***Summary:*** Peter is a little distressed over the lack of contact Judy has had with the Association's leadership to date. He and Ron Ishida, as members of the tofu standards committee donating their valuable time, he and Ron Ishida have been frustrated over the lack of respect shown them while trying to do their work for the association (unreturned phone calls, etc.). Obviously something needs to be done to improve this situation. Possibly this could be an agenda topic for the April 28th meeting, when a majority of the board will be present. Address: Board of Directors Member, Standards Committee Member, Island Tofu Works, 318 Main St., Bar Harbor, Maine 04609. Phone: (207) 288-4969.

7456. Farrington, Sharon. 1986. A touch of tofu temptation. *Washington Post*. April 20. p. A1.

© Copyright Soyinfo Center 2013

• ***Summary:*** "Tofu is one of those foods we wish we liked because it is so good for us. A bean curd made from a milky extraction of soy beans, tofu is somewhat like a mild custardy cheese." Gives a recipe for Spicy Sichuan tofu, a variation on the classic Sichuan dish named Ma Po Doufu. It calls for "3 cakes firm bean curd,..."

7457. Golbitz, Peter. 1986. Re: Tofu standards and board of directors meeting. Letter to William Shurtleff at Soyfoods Center, April 22. 1 p. Typed, with signature on letterhead. Address: President, Island Tofu Works, 318 Main St., Bar Harbor, Maine 04609. Phone: (207) 288-4969.

7458. *Los Angeles Times.* 1986. New products, convenience foods: Hinoichi offers tofu in three varieties (Advertorial). April 24. p. L23.
• ***Summary:*** In this "Special advertising supplement," this advertorial states: Hinoichi offers three types of tofu, each with a different texture and uses: Soft (kinugoshi), regular (medium-firm Japanese style), and firm (Chinese style).

A recipe for Tofu Mexican vegetable dip is given. A photo shows the dish, ready to eat.

7459. Paterson, Katherine. 1986. The enduring essence of Kyoto: A return visit after nearly 30 years' absence finds the streetcars gone but the city's spirit intact. *New York Times.* April 27. p. XX15.

7460. Bailey, Simon. 1986. Re: Work with tofu and tempeh in Trinidad. Letter to William Shurtleff at Soyfoods Center, April 28. 1 p. Typed, with signature.
• ***Summary:*** "I hope you received my letter dated 11th March. I didn't receive a reply yet so am writing again in the meantime.

"I'm British and since mid-1984 have been in Trinidad Cooking natural foods and beginning to make tempeh on a small scale. In conjunction with tofu producer, Susan Lee Hem, I am seeking to communicate more about soyafoods, improve and increase production of tempeh and act as a focus for farmers interested in growing beans in Trinidad. I would like to receive information about establishing a Soyafoods Centre here.

"If you have names and addresses of any tempeh producers in Surinam those would also be useful. Also any information on suppliers of soyabeans in Brazil, Venezuela, or Belize."

"I would like to obtain the professional edition of The Book of Tempeh, please let me know the price.

"With the original letter I sent some U.S. currency with a request for Tempeh pamphlets and a media package.

"Once again, I trust you received it and await a reply

"Best wishes, Simon Bailey." Address: c/o Valdez, 21 Sun Valley Dr., La Pastora, Upper Santa Cruz, Trinidad, West Indies.

7461. Robertshaw, Nicky. 1986. Says bacterial contamination heads FDA concerns. *Supermarket News.* April 28. p. 4A.
• ***Summary:*** "Microbiological contamination is the Food and Drug Administration's top priority, said FDA's chief food-safety official, citing the outbreak of *Listeria monocytogenes* in cheese this year and of salmonella in Jewel Cos. milk last year."

Sanford Miller, director of FDA's center for food safety and applied nutrition said in an interview that "regarding food safety the pendulum is swinging away from concern about food additives, pesticides and chemicals in the food supply and toward bacterial contamination... He gave yogurt and tofu as examples of products particularly susceptible to contamination."

7462. St. Anthony, Neal. 1986. Tofulicious helps dish up healthy portion of market. *Star and Tribune* (*Minneapolis, Minnesota*). April 28.
• ***Summary:*** Leonard Lee, head of Eastern Foods, was born on 4 Sept. 1938 in Inchon, Korea. In 1979, armed with nearly $1 million commitment of venture capital from Control Data Corp., he resigned from his $36,000 a year job to devote full time to his tofu business. The company has high hopes for Tofulicious, a non-dairy ice cream, which sells for $1.79/pint, versus more than $2.00 for Tofutti and other competing brands. Lee owns 53% of his Eastern Foods Co., which employs about 40 people. Control Data owns 30%. Gives a history of his career: 1961 graduated from the national university in Seoul with a degree in physics; 1966 earned an accounting degree from Univ. of South Carolina; 1969 began to work for Control Data Corp.; 1971 opened an imported food store in Minneapolis, Minnesota; 1978 started making tofu; 1980 built a 16,000 square foot complex at 3235 E. Hennepin Ave. Address: Minnesota.

7463. American Natural Snacks. 1986. Soya Kaas: The delicious, nutritious alternative to cheese (Ad). *Natural Foods Merchandiser.* April. p. 13.
• ***Summary:*** The top three-quarters of this striking, full-page color ad, in Rembrandt colors, shows an attractive table setting. A natural-wood cutting board is set on a black and purple table cloth; on the board are a block and slices of the cheese, next to sliced rounds of green bell peppers, whole red bell peppers, and small whole mushrooms. In the upper left is a pizza on a wooden serving board. To the lower right is the grated cheese in a silver cheese grater. To the lower left are cubes of the cheese on a burnished metal plate with purple grapes and two red apples.

The text (white on purple) near the bottom of the ad reads: "Cholesterol free. High in calcium with lactose removed. No preservatives or artificial ingredients. Perfect for pasta and pizza... super in salads and sandwiches. Mozzarella style–just the first in an exciting new family of

© Copyright Soyinfo Center 2013

products to be introduced in 1986. Available now in 7 lb. deli blocks. Manufactured by Soya Kaas, Inc. for American Natural Snacks."

Note: This is the earliest English-language document seen (March 2007) that uses the registered trademark "Soya Kaas" to refer to a Western-style soy cheese, or that mentions American Natural Snacks. Address: P.O. Box 1067, St. Augustine, Florida 32085. Phone: 904-825-2057.

7465. Bassett, Barbara. 1986. That's tofu! *Bestways*. April. p. 34-36. Cover story.
• ***Summary:*** "A food that's high in protein, inexpensive, easy to store, needs no cooking, has little fat and no cholesterol, low sodium, good in both sweet and savory dishes?... This month we feature recipes that give a small idea of the scope of this marvelous food. Enjoy!" Seafood bundles. Sweet & sour sauce. Bean-curd-bulgur "cutlets." Tofu parmegiano. Tofu Florentine. Tofu dip picante. Bean curd Bombay (with Garam masala). Tofuberry tart (tofu filling with berry topping). Address: California.

7466. Bhatnagar, P.S. 1986. All India Coordinated Research Project on Soybean (Indian Council of Agricultural Research). National seminar & seventeenth annual workshop: Proceedings & technical programme 1987-87. G.B. Pant University of Agriculture & Technology, Pantnagar-263145, India. iv + 247 p. Held 22-25 April 1986 at MACS (Maharashtra Assoc. for the Cultivation of Science) Research Institute, Pune, Maharashtra, India. No index. 27 cm.
• ***Summary:*** Recommendations concerning food uses of soybeans include: A domestic market for defatted soy flour should be created. The production and use of tofu, soy beverage, and full-fat flour in weaning (human and cattle calves) should be encouraged. Utilization research is taking place mostly at Sehore (oil, flour), Pantnagar (flour, milk, oil, isolate, tofu), and Bangalore (tempeh, soy yogurt, soy cheese). A directory of researchers is given at the back of the proceedings. Address: Coordinator, All-India Coordinated Research Project on Soyabean (ICAR), G.B. Pant Univ. of Agriculture & Technology, Pantnagar, UP, 263145, India.

7467. Bhatnagar, P.S. 1986. Soybean research and development in India–Diagnostic analysis of constraints and future strategies. In: P.S. Bhatnagar, comp. 1986. National Seminar & 17th Annual Workshop. Proceedings & Technical Programme: G.B. Pant Univ. of Agriculture & Technology. iv + 247 p. See p. 4-29. [11 ref]
• ***Summary:*** Today almost all of India's defatted soybean meal is being exported to affluent countries for use in livestock feeding. This amount increased from 140,420 tonnes in 1981-82 to 432,819 tonnes in 1984-85. In the latter period the meal, selling at 1,968 rupees/tonne earned India 851 million rupees of sorely needed foreign exchange. The author emphasizes the need for a program to utilize soy flour (especially defatted) in India. Address: Coordinator, All-India Coordinated Research Project on Soyabean (ICAR), G.B. Pant Univ. of Agriculture & Technology, Pantnagar, UP, 263145, India.

7468. **Product Name:** Dry Mix Plus (Powdered Instant Version of Mix Plus+ for Frozen Tofu Desserts) [Chocolate, Vanilla, Strawberry, Peanut Butter, Banana, or Coffee].
Manufacturer's Name: Brightsong Foods.
Manufacturer's Address: 100-A Poultry St. (P.O. Box 2536), Petaluma, CA 94953.
Date of Introduction: 1986. April.
Ingredients: Incl. sugar, vegetable fat, spray-dried tofu, stabilizers.
How Stored: Shelf stable.
New Product–Documentation: Dairy Foods. 1986. April. p. 81. "A plus for tofu." "Dry Mix Plus, a powdered, instant mix for frozen tofu desserts, is being billed as the first unflavored tofu frozen dessert mix designed specially for small- and medium-volume ice cream manufacturers." The product, which can be made on either batch or continuous freezers, contains real spray-dried tofu (instead of soy protein isolates), plus sugar, vegetable fat, and stabilizers. Only water and flavoring need to be added to the mix. It is "said to sell for 30 to 50% less than the cost of various liquid soft-serve tofu frozen dessert mixes."

March/April. [Fre]
• ***Summary:*** ARTS was founded in 1981 in the south of France at St. Paul de Mamiac, in the Tarn by a group of people interested in soyfoods and soybeans. The production part was called Sojadoc. The goals were: Promotion of soybean production in southern France. Research on and promotion of new soyfoods products. The support of small soyfood producers. Collaboration with groups having similar interests. Friends are now in Rwanda and the Côte d'Ivoire pursuing similar goals. They also plan to publish a newspaper titled Soja-Soyfood, continuing the 4 issues of La Lettre de l'A.R.T.S.

The headquarters (*siège social*) of ARTS is at Presbytère de Saint Paul de Mamiac, 81140 Penne du Tarn, France. The secretariat is at 108 rue Saint Honoré, 75001 Paris, France. Phone: (1) 42.60.27.09.

7471. Dietrich, Barbara. 1986. The Supreme Bean [Soy Supreme, St. Peter Creamery, and Oberg Foods]. *FarmFutures.* April. p. G.
• ***Summary:*** The process for making Soy Supreme (soymilk powder or spray-dried tofu powder) was developed by E.B. Oberg, founder of Oberg Foods Co. "The sole manufacturer, St. Peter Creamery Inc. of St. Peter, Minnesota, sold 500,000 pounds of the product in 1985, a spokesman says. And plans are to quadruple production this year."

7472. **Product Name:** Hinoichi Soy Drink [Plain, Original (Dairylike), Mocha, or Chocolate].
Manufacturer's Name: House Foods & Yamauchi, Inc.
Manufacturer's Address: 526 Stanford Ave., Los Angeles, CA 90013. Phone: 213-624-3615.
Date of Introduction: 1986. April.
Ingredients: Mocha: Water, whole soybeans, corn sweetener, corn oil, soy oil, coffee extract, cocoa, caramel color, mono and diglycerides (prevents oil separation), sodium citrate (emulsifying salt), calcium carbonate (calcium source), salt, dipotassium phosphate (regulates acidity), carrageenan (stabilizing salt [sic]), artificial and natural flavors.
Wt/Vol., Packaging, Price: Pure-Pak cartons, with 3-week shelf life.
How Stored: Refrigerated.
Nutrition: Per 6 fl. oz Mocha: Calories 150, protein 4 gm, carbohydrates 25 gm, fat 4 gm, sodium 95 mg, cholesterol 0.
New Product–Documentation: Ad in Rafu Shimpo and/or Kashu Mainichi. 1986. In Japanese. "Hinoichi Soy Drink. New product. Healthful beverage fresh and delicious." Talk with Harry Tanikawa. 1986. Nov. 15. The product was launched in April 1986 in Pure Pak cartons. These four flavors, targeted only to the Asian-American market, are scheduled for nationwide distribution in a foil pouch sometime in 1987. Labels. 1987. Pure Pak pint cartons for each flavor. Three or four colors on white (Blue, red, and beige for Original; Dark and light brown, red and peach for mocha; Chocolate brown, red and beige for chocolate). On side panel: "Enjoy Hinoichi Soy Drink: a delicious non-dairy alternative." Note: In the Plain product, the only ingredients are water and soybeans. Per 6 fl. oz. serving it contains 85 calories, 6 gm protein, and 80 mg or Visit HFYI plant in Los Angeles. John Yamauchi is in charge of this product. On sale at Yaohan Japanese supermarket in Los Angeles. 1988. Oct. 23. For 32 oz. sizes: Plain retails for $1.19 and mocha for $1.29. For 16 oz.: Original retails for $0.59 and mocha for $0.69.

7473. **Product Name:** Island Spring High Fiber Tofu (Water Packed).
Manufacturer's Name: Island Spring, Inc.
Manufacturer's Address: P.O. Box 747, Vashon, WA 98070.
Date of Introduction: 1986. April.
Ingredients: Water, Soybeans grown without chemical pesticides or fertilizers; bittern or nigari, an extract of seawater; natural calcium sulfate (traditional Chinese ingredient).
Wt/Vol., Packaging, Price: 16 oz.
How Stored: Refrigerated.
New Product–Documentation: Talk with Luke Lukoskie. 1987. Oct. 19. The okara is added back into the product. No commercial outside soy fiber is added. Talk with Yvonne Kuperberg of Island Spring. 1988. June 2. This water packed product was launched in April 1986. Label. 5 by 4 inches. Film. Blue, black, pink, and green. Illustration of the clear sun or moon rising over the hills behind a lake or sound with a drooping spray of plum blossoms in upper left. "A Fitness Food from the Pacific Northwest, USA."

tofu and dairy yoghurt.

7475. **Product Name:** [Tofu].
Manufacturer's Name: M. Gonin Martial.
Manufacturer's Address: Saint-Quentin sur Isere, 38210 Tullins, France. Phone: 76.93.60.21.
Date of Introduction: 1986. April.
New Product–Documentation: Le Compas. 1986. March-April. No. 26. p. 32.

This is the earliest known commercial soy product related to Innoval.

7476. Medoff, Marc. 1986. A guide to the best tofu "cheesecakes" in New York. *Whole Life.* April. p. 52-61.
• ***Summary:*** "Over the past few years there has literally been a tofu cheesecake revolution going on in New York City's natural foods restaurants, as top local chefs have been working overtime to come up with the perfect tofu cheesecake." Thirteen restaurants now offer them. "In terms of nutritional quality, all are far superior to any real cheesecake, although some are healthier than others. All of the cakes we rated were completely free of animal products. No dairy or eggs at all. None used sugar, white flour or any artificial or highly processed ingredients. The tofu cheesecake rated tops was made by Tokyo-born Keiko Ikeda (a woman; a large photo shows her holding her winner) at *Shojin*, 23 Commerce St. Phone: 989-3530. There wasn't even a close second. Keiko makes five varieties of toppings on one standard tofu cheesecake: strawberry, strawberry grape, strawberry kiwi, blueberry, and raspberry. The pies are baked fresh each day that the restaurant is open and are sold by the slice ($2.75 plain, $3.00 with topping) or by the pie ($17.00, eight slices, orders must be placed one day in advance). Keiko says one key is spending a lot of time squeezing the water out of the tofu before using it. The ingredients are: Tofu (nigari, firm), lemon juice, corn oil, vanilla, maple syrup, sea salt, organic whole wheat flour, organic whole wheat pastry flour, water, cinnamon, fresh fruit.

The second prize went to the two types of tofu cheesecake baked by Ricardo Williams at *Whole Grain* (7 West 19th St. Phone: 206-7518). The plain variety is probably the closest in taste to real cheesecake out of all the ones sampled. Ingredients: Tofu (fresh, firm), lemon juice, vanilla extract, almond extract, agar, maple syrup, toasted almonds, rolled oats, apple juice, blueberry kanten [agar].

Pretty much tied for second was the exceptionally good Tofu Pie made by master chef Alan Hoffman at the downtown *Souen* (pronounced SUE-en; 210 6th Ave. Phone: 807-7421). Ingredients: Tofu (firm, made by The Bridge), maple syrup, rice syrup, tahini, lemon juice, salt, vanilla, whole wheat pastry flour, whole wheat flour, whole fruit, agar, fruit juice. Louis Fellman, now president of Soy Delites (P.O. Box 56, Matawan, New Jersey 07747. Phone: 201-583-8907) developed an early tofu cheesecake at Spruce Tree Bakery. For more than a year Soy Delights "has been producing six varieties of the best commercially available tofu cheesecake we've seen. Fellman's Tofu Cream Pies are sold throughout New York by the slice (about $1.65 for 5 oz.) and by the pie (about $4.50 for 20 oz.) in natural food stores, supermarkets, and many restaurants. Photos show: Fellman with two of his Tofu Cream Pies. Alan Hoffman of Souen with a fresh batch of tofu pies. Margaret Bullard, the tofu cheesecake queen at Country Life. A rare photo shows two men preparing the late great "Tofu Teasecake" at *Angelica Kitchen.*

A half-page sidebar (p. 60) is titled "Tofu Cheesecakes–Gone But Not Forgotten." "The first commercially available (on a large scale) tofu cheesecake sold in the United States was put out by the *Sprucetree Baking Company* of Baltimore, Maryland. Sprucetree began marketing their two varieties of non-dairy tofu cheesecakes (strawberry and blueberry) way back in 1976. The product was sold in stores along the east coast and as far west as West Virginia, and enjoyed a good deal of popularity. Sprucetree founder and current President Howard Grundland recalled that his product was a first, and attracted a faithful following. But in 1983 a number of technical problems arose (including the fact that Sprucetree could not get a dependable supply of kosher tofu) and the company had to suspend its cheesecake production." Grundland says he would like to re-introduce his tofu cheesecake. "Anyone interested in buying into *Sprucetree* or just buying one of their original recipe tofu cheesecakes, can contact: Sprucetree Baking Company, 4200 Mortimer Avenue, Baltimore, Maryland 21215. Phone: (301) 358-8040.

"Another great tofu cheesecake that hasn't been around for a while is the Tofu Teasecake" that use to be a dessert favorite at *Angelica Kitchen* (42 St. Mark's Place. Phone: 228-2909)." Angelica owner Leslie McEachern and her staff stopped making it a couple of years back, feeling that it was too hard to digest and a bad food combination.

"And finally, the recently-gone-out-of-business *Cauldron* [Caldron] had a very good tofu cheesecake with fruit kanten topping..." Address: Editor and Publisher of Whole Life magazine.

7477. Medoff, Marc. 1986. Tofu cheesecake contest turns into Tofu cheesecake massacre. *Whole Life.* April. p. 61.
• ***Summary:*** The first-ever Tofu Cheesecake Bake-Off Contest exploded into complete chaos on March 29, 1986, at the Marriott Marquis Hotel as event organizers apparently badly miscalculated how to coordinate the contest. The resulting scene resembled a cross between a cattle stampede and a group scream therapy session. Members of the audience rushed the stage to grab slices of pie from the hands of startled judges as they ignored the repeated pleas for order. The winner of the contest was a tofu cheesecake made

• ***Summary:*** Paneer, the indigenous variety of cheese popular in north India, has been made from soybeans. Coagulate soymilk (6% solids) at 75ºC using citric acid. Hold and cool the coagulum, remove the whey, press the curd, hold the curd blocks in cold water, and finally drain off the water. The product can be use to make vegetarian curries. Address: Dep. of Food Science & Technology, G.B. Pant Univ. of Agriculture & Technology, Pantnagar, Nainital 263 145, UP, India.

7480. Shurtleff, William. 1986. Chronology and analysis of the U.S. tofu standards: One viewpoint. Soyfoods Center, P.O. Box 234, Lafayette, CA 94549. 15 p. April. Unpublished manuscript. [1 ref]
• ***Summary:*** Chronology of key early dates: 1979 Feb. 9– Judith Rubenstein, acting as Institutional Consultant for the New England Soy Dairy, initiates a correspondence with Carol Tucker Foreman, Director of Child Nutrition Programs, USDA, on the subjects of tofu standards and acceptance of tofu in USDA Child Nutrition Programs, including the School Lunch Program. Four letters are exchanged between February and August 1979.

1979 June 29–FDA headquarters personnel draft an internal memorandum in which the agency's views on tofu and its attributes are set forth. Publication of a "pull date" on tofu packages is encouraged.

1979 July 23–Judith Rubenstein (see above) writes the Commissioner of the U.S. Food and Drug Administration (FDA) requesting that the FDA establish a standard of identity for tofu. She notes that Audrey Maretzski, Director of Nutrition and Technical Services for USDA, suggested that FDA give top priority to this issue. Issues of imitation tofu products and bacterial contamination are raised.

1979 July 25–In *Tofu and Soymilk Production*, Shurtleff and Aoyagi, directors of The Soyfoods Center, attempt to define the basic types of tofu and their composition.

1981 Jan. 20–Ronald Reagan is inaugurated as president of the United States. The regulatory climate in Washington, DC, begins to shift toward less federal regulation, and more encouragement for industries to regulate themselves.

1981 April–The USDA decides to establish tofu standards and to publish them in *Federal Register,* but this plan is dropped in September, amid controversy over changes in the school lunch program.

1982 July 19–In *Soyfoods Industry and Market: Directory and Databook*, Shurtleff and Aoyagi include a 5-page section titled "Soyfoods Terminology and Standards," which contains detailed information on tofu.

1983 March 14–The Connecticut Agricultural Experiment Station, in Bulletin No. 810, titled "Quality of Tofu and Other Soy Products," reports high bacterial and coliform counts. A virtual expose revealing the tofu industry's poor quality control and concomitant vulnerability, the report gets widespread media coverage and hurts sales of New England and New York tofu companies.

1983 July 25–Tom Timmins, president of Tomsun Foods Inc., having seen the need for tofu standards in the aftermath of the Connecticut report and as a prerequisite for acceptance of tofu in school lunch programs, speaks to the Soyfoods Association of America's board of directors at Denver, Colorado, about problems with sour and often undated tofu in America. The board asks Timmins to be head of a Soyfoods Association Standards Committee, and to appoint people to work with him in the development of standards.

1983 October 12–Timmins sends a 4-page survey letter concerning soyfoods standards to the 18-person Soyfoods Association Standards Committee that he has appointed.

1983 November–Various members of the Soyfoods Association discover that David Mintz, CEO of Tofu Time, Inc. and maker of Tofutti brand soy ice cream, is using *no tofu* in his product, although he has repeatedly appeared on national TV and radio programs displaying and talking at length about tofu, thus implying that his product uses it as a major ingredient. On Nov. 11 Shurtleff writes Mintz and strongly-worded letter threatening to report the matter to the FDA and the Securities and Exchange Commission (Mintz is about to launch his first public stock offering) if Mintz fails to stop such deceptive practices. Mintz's attorneys quickly notify Shurtleff that Mintz promises to put tofu back into Tofutti. Shurtleff, seeing the need for tofu standards to stop this sort of consumer deception, becomes active in the standards development.

1984 March 2–Based on responses to his October 1983 survey, Timmins drafts preliminary 3-page tofu standards (2 pages of which are microbiological standards), that he circulates to the Soyfoods Standards Committee, inviting comments. March 6, William Shurtleff expands these, keys them into The Soyfoods Center word processor, and returns them promptly to Timmins.

1984 Feb.–Timmins and Shurtleff draw up a ten-step

© Copyright Soyinfo Center 2013

set of procedures and a time line for appointment of a Tofu Standards Committee, development of two drafts of tofu standards, and final approval by the Soyfoods Association Board of Directors in July 1984.

1984 March 29–*First Draft of Tofu Standards,* 15 pages and double spaced, is compiled by Shurtleff on his word processor. As is inevitable with a document of this type, a basic philosophy that shapes the standards has begun to emerge. Essentially it attempts to balance the varied (and often conflicting) commercial interests of the various groups involved with the standards in a way that is as fair as possible to all, considers existing historical precedents and FDA laws, and allows tofu to develop and modernize in the way that it has been since the 1930s. One of the major questions that arises at the outset is whether or not the use of isolated soy proteins (isolates) should be allowed in tofu and, if so, under what conditions and with what labeling requirements. Readers of the first draft are polled on this question and the response is 17 to 4 in favor of allowing isolates, as long as each product is appropriately labeled.

In this first draft, the term "second generation" is first applied to soyfoods in the section titled "Naming Second Generation Commercial Food Products Containing Tofu."

By this time, Stephen H. McNamara, a food and drug specialist with the Washington, DC, law firm of Hyman, Phelps & McNamara is actively serving as an advisor on the standards, reviewing each draft, and making many helpful suggestions. Tom Donegan, of the same law firm, is also helping.

Subsequent drafts of the standards: 1984 June 16–Second draft. Nov. 1–Fourth draft. 1985 March 6–Sixth draft. March 20–Seventh draft, which is submitted to the FDA for comments. Then begins a serious inter-industry conflict over the standards which is documented throughout the rest of this document. Initiated by Ron Ishida, an attorney hired by Azumaya, this conflict ended up destroying the standards and preventing their adoption and implementation. 1985 Oct. 3–Eighth draft, incorporating all FDA suggestions.

A 2-page appendix to this document, titled "The Modernization of Tofu in Japan," gives a brief chronology of the many changes in the way of manufacturing "traditional tofu" from the 1930s to the present. It challenges the idea that "traditional tofu" is widely made today. Address: Soyfoods Center, Lafayette, California.

7481. Soppe, Fennie. 1986. Jonathan, Histoire d'un boucher reconverti. Interview de Jos Van De Ponseele [Jonathan. History of a reconverted butcher. Interview with Jos Van De Ponseele]. *Compas* (*Le*) (*France*) No. 26. p. 14-16. March/April. [Fre]

• ***Summary:*** It all started in 1974, when Jos's wife experienced serious health problems. There were suspicions of lung cancer. She went to Switzerland for care, and had a fever of 38-40ºC for 6 months without improvement. One day someone gave them a small book about natural foods. She then began to eat macrobiotically and her fever disappeared after 3 months.

At the beginning, this diet was not at all attractive. The food was very poor, and Jos began to ask himself questions and to read books on the subject. He learned that it wasn't a bad diet at all. Not wanting to have to prepare two types of food, he started to eat the same diet as his wife. His health did not improve much, but he found he had the capacity to work much more, and a need for less sleep. His days started at 6:00 A.M. and ended between 11:00 P.M. and midnight.

Upon seeing the results, he began to think and live differently. In the long run, the work at the butcher shop worried him. He no longer ate meat, but he was still selling it. That wasn't logical. He then decided to sell organic meat products at the butcher shop, and they sold very well. However that was a form of hypocrisy.

You must understand that at that time, macrobiotic people in the area were very fanatical. Meat was considered bad, in fact a poison. A more moderate viewpoint was needed; a bit of meat in itself is not bad, but its consumption in large quantities can present problems.

Jos opened two natural food shops in succession, and they were a success in part because he had experience in running a business. He tried to sell his butcher shop, which was very large. Through his new shops he met people who wanted to stop eating animal proteins, but they knew of no replacement. Back then, you could not find any tofu, or seitan, just beans. When a person decides to change her diet, she cannot fully benefit from the proteins in beans: the process is too slow. This made it hard for a person to change his or her diet.

Jos attended a seminar conducted by Michio Kushi at Drogen (Germany). They talked about these problems. Michio spoke to Jos about miso and tamari, and advised him to come to Boston, Massachusetts, where he could learn and see everything for himself. He did. Indeed miso and tamari were available, but they were made in a foreign country. He was somewhat deceived in the early days. Most of the products came from Japan. At the same time, he worked at the famous macrobiotic restaurant The Seventh Inn. He became friends with a Japanese person and they worked together making seitan. Finally, he started commercial production with two Americans.

Tofu was very well known, but it was made in [Boston's] Chinatown. The Chinese did not want to show others how to make it, but they were allowed to look. This interested him very much.

Upon returning to Belgium, after his studies in Boston, Jos began commercial production of seitan. At the beginning people were very closed. They thought that one should consume only beans. Their fanaticism seemed very natural to them, but that made it very difficult for Jos to survive economically by making only seitan. He started by

© Copyright Soyinfo Center 2013

producing 500 gm a week of seitan for Souen, a macrobiotic restaurant in Gent [Gand]. He urged the restaurant to serve seitan to each customer so that it would become well known. That was successful. After several months, the natural food stores began to order seitan from him; that was his goal. Subsequently he began to make fresh organic tofu. He encountered new opposition when he suggesting sterilizing the tofu, which would cause loss of vitamin C, etc.

People got to know seitan but they were getting tired of it, so now he has the seitan burger between two buns, with onion and lettuce. They are also thinking about introducing seitan brochettes and seitan in sauces. The starch left over from making large quantities is used in making soups, spreads for bread, goulash, etc.

How did his customers react initially to all this? They thought he was crazy–in 3 ways. (1) They thought macrobiotics was folly; (2) Who but a fool would sell a butcher shop that was doing so well, employed 16 persons, and was the first to sell organic meat with great success. They thought that America had made him lose his head; (3) They thought artificial meat was absurd and would not sell. But these people have changed their opinions as things have developed.

His best invention is seitan sold sterilized in jars; it is now a very successful product. He is also very proud of his tofu burgers (*les beignets, les ganmos;* made from tofu, sesame seeds, onions, mushrooms, and arrowroot), his sauces, and his mushroom tarts. Neither his soy croquettes nor his carob products sell well. His basic products are seitan, tofu, and mochi (made according to a traditional Japanese recipe). The company will soon focus more on exporting it products, especially to Germany, followed by France (starting in 1987) and Austria. He has created a company in France named Jonathan France (La Comba 24620, Les Eyzies. Phone 53.06.94.68), directed by Frenchmen, because it is very difficult to export to France; he has been trying for 2 years.

Black-and-white photos show: (1) A portrait shows Jonathan, with a large beard, rimless glasses, and thinning hair. (2) Twenty-three of his sterilized products in jars, which have a shelf-life of 2 years. Among these are Sojapastei, Sojaboont Jes, Azukiboont [Azuki bean] Jes, Brown Rice Casserole with Seitan, and Tofu Salade. The company is studying a tempeh spread for bread. The company now has 16 employees, including 3 in stores an a representative. Most of the employees like this food. Not all are macrobiotic but most have changed their diet, usually without fanaticism.

The company's name Jonathan comes from the name of the book *Jonathan Livingston Seagull* (Jonathan Le Goëland), about a seagull who wants to live differently. Jos believes that vegetable proteins can play an important role in world hunger. His dream, which he hopes to realize, is to establish small food companies in Zaire, Rwanda, and all of southern Africa. "For example, a small tofu machine can produce 800 to 1,000 cakes of tofu/day. I would like these people in poor countries to be able to make tofu themselves."

Jos is not a vegetarian. He still likes meat and eats it in small quantities, often fish or organic meat. He has 3 children. Address: Pays-Bas (Netherlands).

7482. **Product Name:** [Light Tofu Burgers {Low-fat, Cooked without Oil} (Italian-Style, Chinese-Style, and Breaded)].
Foreign Name: Croque Tofu Léger: Galettes Fraiches de Soja (Italienne, Chinoise, Gratinée).
Manufacturer's Name: SOY (Société Soy).
Manufacturer's Address: Plateau de l'Ardennais, 91590 Cerny, France. Phone: (6) 457.52.01.
Date of Introduction: 1986. April.
Ingredients: Garlic and Fines Herbs: Tofu (water and soybeans*), rolled oats*, soy sauce, garlic and fines herbs (3.4%), sunflowerseed oil, spices. * = Organically grown (issus d'agriculture biologique).
Wt/Vol., Packaging, Price: 2 x 100 gm patties.
How Stored: Refrigerated.
Nutrition: Per 100 gm: Protein 15.4 gm, lipids 9.6 gm, carbohydrates 7.8 gm, calories 179.
New Product–Documentation: Labels sent by Bernard. April 1989. Croque Tofu Léger. 4 by 7.75 inches. Red, brown, and green on white. Printed on poly bag. Nature et Progres logo. Text in French and Dutch. Two burgers are vacuum packed side by side behind the one label. "Reheat at low heat without oil in an oven or frying pan." A simple illustration (line drawing) on front the panel shows vegetables.

Letter from Bernard Storup of Société Soy. 1990. June 6. Tof'in was introduced first (in 1986) and Croque Tofu Léger came second (Feb. 1987). They are the same product but the packaging for each was different.

7483. **Product Name:** [Tof'in Tofu Burgers {Precooked without Oil} (Garlic and Fines Herbes, Provençale with Tomato & Onions, or Forest Mushrooms)].
Foreign Name: Tof'in (Ail/Fines Herbes, Provençale, Forestière).
Manufacturer's Name: SOY (Société Soy).
Manufacturer's Address: 1 rue du Crêt de la Perdrix, 42400 Saint-Chamond, France. Phone: 77.31.24.42.
Date of Introduction: 1986. April.
Wt/Vol., Packaging, Price: 2 x 100 gm cakes in vacuum pack.
How Stored: Refrigerated, 28 day shelf life at 4ºC.
Nutrition: Per 100 gm.: Protein 11.6 gm, fat 8.8 gm, carbohydrates 8.1 gm, calories 158.
New Product–Documentation: Soyfoods (ESFA), 1987. Jan. "Launched at SIAL (Oct. 1986). Tofu cakes, precooked without oil, containing different vegetables, spices, and seasonings. Must be heated before serving, and can be

© Copyright Soyinfo Center 2013

included in snacks or the main meal instead of animal proteins. The three flavors are Garlic & Herbs, Provençale, and with Mushrooms.

Letter from Bernard Storup. 1989. March 3. Tof'in (low fat tofu burgers, cooked without fat) in 3 flavors (Garlic & Fines Herbes, Provençale, and Forestiere) were introduced in April 1986 and discontinued in March 1988. Three other flavors (Italienne, Chinoise, and Gratinée) were introduced in Sept. 1988, which see.

Letter from Bernard Storup of Société Soy. 1990. June 6. Tof'in was introduced first (in 1986) and Croque Tofu (deep-fried burgers) came second (Feb. 1987). They are the same product but the packaging for each was different.

Talk with Bernard Storup. 1990. June 13. Tof'in (pronounced toe-FEEN) was packaged for supermarkets. It was the same as Croque Tofou, but not the same as Croque Tofou Léger, which came in Italienne, Chinoise, and Gratinée flavors. Tof'in was discontinued about 2 years ago. Then 18 months later the company launched, for supermarkets, a product named Dorés de Soja, which is the same as Tof'in (i.e. deep-fried).

Letter from Bernard Storup. 1990. Dec. 26. This product was not deep-fried. It was prepared without fat.

7484. **Product Name:** Lite Chef Tofu Mixer [Pasta Italiano, Rancheros Fiesta, Mandarin Almond Stir-Fry, California Burger, or Shanghai Sweet 'n Sour].
Manufacturer's Name: Sunfield Foods (Distributor). A Sunmark Company.
Manufacturer's Address: 8155 Hampshire St., St. Louis, MO 63123. Phone: 314-832-7575.
Date of Introduction: 1986. April.
New Product–Documentation: Ad in Whole Foods. 1986. April. p. 41. "Lite Chef Introduces a World of Taste to Tofu, and a World of Profit for You." Ad in Natural Foods Merchandiser. 1986. Oct. p. 46. "Tofu. Traffic!" Leaflet. 8½ by 11 inches, color. "Tofu. Terrific!" Note: This line was first introduced by Essential Foods in 1984. Pasta Italiano 240 calories, Rancheros Fiesta 280, Mandarin Almond 310, California Burger 190 calories. Size: 3.8 to 5.5 oz. Retail: $1.99. Soya Newsletter. 1987. Sept/Oct. p. 6. These are now called Life Chef Entrees (which see). The newest "quick and easy" dinner is Shanghai Sweet 'n Sour. Talk with Craig Ramsell. 1989. March 14. The Lite Chef line of products was discontinued in about Sept. 1988, after a large production run, shortly before Sunfield was acquired by Barbara's Bakery. Barbara's was not interested in buying the line.

7485. **Product Name:** Tofu.
Manufacturer's Name: Tai Foods Inc.
Manufacturer's Address: Muir St., Winnipeg, MAN, Canada. Phone: 204-694-0484.
Date of Introduction: 1986. April.
New Product–Documentation: Boughton. 1987. Small Business (Canada). Dec. p. 12, 14. "Tai Foods Tries for Tofu Converts."

7486. **Product Name:** Tofu Treat (Non-Dairy Soy Ice Cream) [Strawberry, Chocolate, or Vanilla].
Manufacturer's Name: Tai Foods Inc.
Manufacturer's Address: Muir St., Winnipeg, MAN, Canada. Phone: 204-694-0484.
Date of Introduction: 1986. April.
How Stored: Frozen.
New Product–Documentation: Boughton. 1987. Small Business (Canada). Dec. p. 12, 14. "Tai Foods Tries for Tofu Converts."

7487. **Product Name:** [Soy Sprout Tofu].
Foreign Name: Haiga Tôfu.
Manufacturer's Name: Taisei Sangyo.
Manufacturer's Address: Okayama Prefecture, Japan.
Date of Introduction: 1986. April.
New Product–Documentation: Toyo Shinpo (Soyfoods News). 1986. April 1. p. 5. The product, invented by Katsushi Oguchi, President of Taisei Sangyo, of Okayama prefecture, is produced and marketed by three companies now. Taisei makes the sprouting machine. The product is easier to digest than regular tofu.

7488. **Product Name:** Tofutti Cuties (Snack Size Soy Ice Cream Sandwiches) [Vanilla, or Chocolate].
Manufacturer's Name: Tofutti Brands Inc. (Marketer).
Manufacturer's Address: 1098 Randolph Ave., Rahway, NJ 07065.
Date of Introduction: 1986. April.
Ingredients: Water, high fructose corn sweeteners, corn oil, tofu, isolated soy protein, vanilla with other natural flavorings, soy lecithin, guar seed gum, cellulose gum, carrageenan, carob bean gum, salt. Wafer Ingreds: Enriched bleached flour, sugar, vegetable shortening, corn sugar, caramel color, corn syrup, cocoa, leavening (sodium bicarbonate, ammonium bicarbonate), modified corn starch, salt, artificial flavor, lecithin.
Wt/Vol., Packaging, Price: 3/93. 360 gm paperboard box (45 gm per sandwich).
How Stored: Frozen.
Nutrition: Per Cutie (1.5 oz plus 2 wafers): Calories 130, protein 2 gm, carbohydrate 21 gm, fat 5 gm, sodium 110 mg.
New Product–Documentation: Spot in Dairy Foods. 1986. March. Snack-sized (1.5 oz) frozen sandwiches made with vanilla or chocolate Tofutti between two non-dairy chocolate wafers. Two Labels. 1987. Sent by Donna Haverstock, Director, Consumer Nutrition Center. Color leaflet. 1988 Tofutti Cuties. "Parevine nondairy frozen dessert snack size sandwiches." Shows Labels. 8 sandwiches per pack.

Product with Label purchased at Trader Joe's (Concord, California). 1994. April 15. $1.79 for a pack of 8 Vanilla

sandwiches. Package (copyright 1992) is 6 by 4 by 2.25 inches. Dark blue, light blue, red and brown on white. "No milk. No butterfat. Lactose free. Cholesterol free. 8 snack size. Vanilla sandwiches. Nondairy frozen dessert."

7489. **Product Name:** [Tofunaise (Tofu Mayonnaise) (Natural, or Lemon)].
Foreign Name: Tofunaise (Naturel or Citroen).
Manufacturer's Name: Witte Wonder Natural Products B.V.
Manufacturer's Address: Gelreweg 4b, 3843 AN Harderwyk, Netherlands.
Date of Introduction: 1986. April.
Ingredients: Tofu 60% (made from soya beans with water and coagulated with nigari), sunflower oil 25%, natural apple vinegar 5%, mustard 5%, natural maize syrup 5%, sea salt and guar binding agent 0.5%.
Wt/Vol., Packaging, Price: 500 ml bottle.
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Protein 5.5%, fat 27.0%, carbohydrates 10.0%, calories per 100 gm = 305.
New Product–Documentation: Letter from Sjon Welters. 1989. July 24. In April 1986 Witte Wonder introduced a tofu-based mayonnaise which was developed by Sjon Welters for Witte Wonder and later adapted and changed by the company. The product is sold in England, Holland, and West Germany. Witte Wonder also private labeled the tofu spreads for Living Foods, starting in about 1984 or 1985. Label. 1986. 7.5 by 2.5 inches. Blue, orange, and silver on white.

Leaflet. 1989. "Tofunaise." In Dutch. Shows half of the label. Tofunaise contains 25% oil. It has 305 calories per 100 gm versus 765 calories for mayonnaise. The address is now Witte Wonder Natural Products B.V., Slachthuiskade 10, 2685 LN Poeldijk, Netherlands.

Leaflet. 1989. "Slasaus, tofunaise citroen, tofunaise naturel. Romige Smaakmakers op Tofubasis." Creamy Taste-makers based on tofu. Tofunaise contains 63% less fat and 60% less calories than mayonnaise. Shows new labels with sliced fresh vegetables on front. The lemon flavor is "fresh and creamy" while the natural flavor is "soft and creamy."

7490. **Product Name:** [Tofu Dressing (Mexican, Herb, or Italian)].
Foreign Name: Dressing op Tofu basis (Mexicaans, Tuinkruiden, or Italiaans).
Manufacturer's Name: Witte Wonder Natural Products B.V.
Manufacturer's Address: Slachthuiskade 10–2685 Poeldijk, Netherlands. Phone: 01749-45999.
Date of Introduction: 1986. April.
Ingredients: Water, tofu* (soybeans, water, coagulant), sunflower oil (cold pressed), dried vegetables and herbs, barley malt syrup, malt vinegar, sea salt, guar gum (as a binder), saffron. * = from organically grown source.
Wt/Vol., Packaging, Price: 300 ml bottle.
How Stored: Shelf stable.
Nutrition: Protein 2.9%, fat 18.1%, carbohydrates 3.6%, calories per 100 gm = 189.
New Product–Documentation: Leaflet. 1989. "tuinkruiden, italiaans, mexicaans Tofu Dressing." Shows 3 white bowls of dressing in front of lettuce, tomato, and cucumber. Inside shows the front of the Label of each, plus a recipe and a photo of the finished recipe. Ingredients and nutritional information are given on the back.

7491. Golbitz, Peter. 1986. Re: Finalizing the tofu standards. Letter to William Shurtleff at Soyfoods Center, May 8. 1 p. Typed, with signature on letterhead.
Address: President, Island Tofu Works, 318 Main St., Bar Harbor, Maine 04609. Phone: (207) 288-4969.

7492. Gupta, Rajendra ("Raj") P. 1986. Re: Selling tofu in Kanpur, India, and soymilk equipment to developing countries. Letter to William Shurtleff at Soyfoods Center, May 9. 1 p. Typed, with signature on letterhead.
• ***Summary:*** "It is not even one year since we started selling tofu to consumers in Kanpur [India] and suddenly every one seems to be interested in soyfoods in India.

"There is a great deal of interest here in our process, and it is likely that we would have a tie up with a few companies for the use of our process. APV Crepaco (USA), APV Texmaco (India) and Kurihara (Japan) have begun making soymilk equipment based on our process. Some companies here are also interested in no-beany soymeal. I am hopeful that my extended stay here (up to the end of Aug. 1986) will help move things at a reasonable pace.

"Godrej, a large business house here, is setting up a 4000 liter/hour soymilk plant with know-how from Kibun and equipment from Alfa-Laval. Kalyan Solvent Extraction Limited is expected to setup a similar size plant with process and know-how from us and equipment considering to go into large scale soymilk production. In addition, we have enquiries from 50 companies keenly interested in setting up small scale tofu and soymilk operations similar to ours in Kanpur. Several of them have made deposits with us of up to Rs. 5,000 for the purpose." Address: Ph.D., Vice President, ProSoya Foods International Inc., 801-275 Slater St., Ottawa, ONT, K1P 5H9, Canada. Phone: 613-237-5814.

7493. State of Wisconsin, Dept. of Agriculture, Trade & Consumer Protection. 1986. Re: Guidelines concerning the bacterial condition and handling of tofu. Letter to Zurkoff Corp., Box 11877, Shorewood, WI 53211, May 9. 3 p.
• ***Summary:*** "Dear Candice: This is a follow-up to our telephone conversation on May 9, 1986. During the conversation you requested the Department's guidelines concerning the bacterial condition and handling of tofu. The Department's Food Division routinely samples a wide

© Copyright Soyinfo Center 2013

variety of foods, including tofu. The bacterial condition of tofu is determined by running analyses for coagulase positive staphylococci, salmonella, coliform, and aerobic plate count.

"There are no bacterial standards for tofu. However, for a food such as tofu to be in full compliance with state food law, bacteriological analysis must be negative for coagulase positive staphylococci, and salmonella and analysis should find less than 10 coliform organisms/gram. We would expect the aerobic plate count to be less than the limit set for pasteurized milk (20,000 organisms per gram).

"To date our analyses of tofu have not revealed the presence of coagulase positive staphylococci or salmonella, however, coliform levels are often significantly greater than 10/gram and aerobic plate counts have frequently exceeded the 20,000/gram guideline by a 1,000 times. In tracing bacterial problems, we have often found the problem is at the retail level. Problems may originate from storing tofu at temperatures greater than 40ºF or in areas where contamination from the soil on raw vegetables is possible or from selling a product which is past its shelf life."

An attached, undated, letter from the Milwaukee Regional Office to Wisconsin food retail stores states: "Current research indicates that the bacterial quality of tofu can only be maintained at temperatures below 40ºF. Therefore, we must ask that tofu be held at a temperature of less than 40ºF. in an area not subject to contamination from adjacent products."

Note: Zurkoff was a broker for Mori-Nu Tofu. Morinaga does not recall what prompted this exchange of letters. Address: Howard C. Richards, Secretary, Southeast Regional Office, 10320 West Silver Spring Drive., Milwaukee, WI 53225.

7494. Becker, Jim, Jr. 1986. Solnuts in America (Interview). *SoyaScan Notes.* May 11. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** Jim, his father (Jim, Sr.), and his brother are working in Wisconsin, employed on a straight salary (no commission) by Solnuts B.V. in the Netherlands. They (Solnuts) have leased a 12,000 square foot warehouse in Houlton, St. Joseph County, Wisconsin, and are importing container loads of their products (dry roasted Solnuts) from Tilburg, the Netherlands. They just add flavors in America. They hope to start production of Solnuts in Wisconsin when their volume hits 1-1.5 million pounds a year. Present imports are 60,000 lb/month.

Solnuts B.V. was founded in the Netherlands in 1977, beginning production that December. The investors are mostly European, but Jim Becker Sr. owns a little stock. Franz van der Marel (elder brother of Jan van der Marel) put the financial deal together. He had a little company called Vollmeyer selling protein foods and importing soynuts from Edible Soy in Iowa. By 1986 they were producing 6 million lb a year of soynuts, which is 5 times the amount made by Edible Soy Products (850,000, which has been constant since the peanut shortage; just one salesman on the east coast). Solnuts BV owns Witte Wonder in the Netherlands. Witte Wonder makes tofu and tofu spreads in sterilized jars. They do not make tempeh. The tofu is sterilized by a continuous process and is said to last 2 years.

Jim Becker Sr. originally worked for Alfa-Laval. He left in 1968 to start his own company Therm Products Co. (spring 1969), which made fluid bed spray driers and instantizers, high fat powders for calf milk replacers, etc. He designed and built the equipment for Edible Soy Products (ESP) in Hudson, IA, the first fluid bed dry roasted soy nut plant in the world. The ESP plant started in Dec. 1970. The research Jim Becker Sr. did to develop the plant was very expensive. The man who put together ESP, George Schulz, formerly had a little company (name unknown) in Los Angeles, California, making oil roasted soynuts in a garage. Also involved in the company were a Chinese man (name unknown), Elmo Herrs (rhymes with "hers"; he was formerly involved with making potato chips), and Roger Graessle (pronounced GRES-ul; he was sales manager and his father was a nut broker for many years). The product looked like Soy Ahoy from Malt-O-Meal.

Blandness: Soynuts take on any flavor that we put with them. Oil roasted soynuts will not do this. Mixed with 50-70% almonds they taste just like almonds. Zero Candy Bar made by Hollywood Candy Company in Illinois contains 60-70% soynuts. They replaced 100% almonds starting 10 years ago. You can't tell it has any soy. This is a key concept. He thinks only 2-3% of the potential is realized...

The ESP process is not patented. There are lots of tricks in the process to make it come out. And there is narrow leeway. Only two ways exist to protect: Patent or keep it locked up. The unique feature is the continuous high-pressure high temperature cooking system, without breaking the nuts up. That was hard to work out and is the secret. It needs to be continuous to go onto the fluid bed. Also it is important to use large soybeans. Now they just use regular soybeans and select the big ones. They say that since 80% are used as ingredients, this doesn't affect sales. They are covered up.

The president of Solnuts Inc., Woud Coster, lives in the USA, a Dutchman here since 1973.

He is not yet making dry roasted. Import container loads from Holland. Just add the flavors. When volume hits 1 to 1.5 million pounds a year they will start their plant.

On 25 April 1986, Becker had sent Soyfoods Center samples of the following products: Soynuts–Whole halves. Soynuts -large, medium, and small diced. Soynut snacks, salted & oiled, barbecue, onion, bacon, curry. Soynut bits–Onion, cheese, barbecue. Krokant [Nut -crunch] SMD. Nut crunch–Hazelnut. Address: Highway 64 North, Route 1, Box 271, Houlton, St. Joseph County, Wisconsin 54082. Phone: 715-549-6366.

• ***Summary:*** Photos show Mori-Nu's regular and soft packages. Advertises free recipe booklets, and contains a recipe for creamy tomato and tofu soup.

7500. *Vashon-Maury Island Beachcomber.* 1986. Tofu fire called accident here. May 22. p. 2.
• ***Summary:*** A fire which destroyed Island Spring's tofu factory Feb. 7 with an estimated $1 million loss was caused by an electrical problem or malfunction, which ignited some paper. Island Spring has since rebuilt at a new location.

Note: The fire destroyed the 4,000 square foot space that Island Spring was sharing with another company and completely halted tofu production. Address: Washington.

7501. Webster, Bob. 1986. Kosher caterer turns tofu into profits. *Daily Commerce* (*Los Angeles*). May 26. Widely syndicated by United Press International.
• ***Summary:*** "A devout Orthodox Jew, Mintz stumbled onto tofu in 1972 when he sought a milk free product to satisfy his kosher customers... Mintz found the answer to his dilemma in a magazine article on tofu." Now he adds, "My weight has gone up as much as my stock."

7502. Beatty, Denise. 1986. 'Lactose intolerant' still need calcium. *Toronto Star* (*Ontario, Canada*). May 28. p. B4.
• ***Summary:*** If you are lactose intolerant, include non-milk sources of calcium in your diet, such as 1 cup cooked beans (soy, kidney, white; 100 mg calcium); ½ cup tofu (soybean curd; 145 mg calcium).

Lactose, the natural sugar in milk, has to be broken down (hydrolyzed) by an enzyme named lactase before it can be absorbed and used by the human body. If you don't have enough of the enzyme to break down / digest the amount of lactose you are consuming, the undigested sugar remains in the intestine, where it can cause diarrhea, cramps, and intestinal gas.

7503. Business Trend Analysts, Inc. 1986. The health and natural food market. 2171 Jericho Turnpike, Commack, NY 11725.
• ***Summary:*** Section VII is titled "The Market for Soyfoods." It is a combination of material taken without permission from Shurtleff & Aoyagi's *Soymilk Industry and Market* (especially the overview on page 96) and little bits and pieces for various sources that fail to give an accurate picture of this market. The report repeatedly speaks of the "soyfoods market" without defining which product types it is including. Part of the information is said to be based on "A special survey of 5,000 households, providing up-to-date information on changing consumer attitudes and buying patterns with respect to soyfood products." The results of this survey include consumption levels by household income, type of retail outlet, geographic region, race, age and presence of children. They project manufacturers' sales of soyfoods to be $499.5 million in 1995, assuming a compound annual growth rate of 15.3% from 1985 to 1995. Generally a disappointing study, especially for the price. Address: Commack, New York.

7504. **Product Name:** [Canned Tofu Kashmir (with Curry

and Fruits), Tofu Spread with Cheese (in a Tube), Tofu Chocolate Crème, and Tofunaise (in a Tube)].
Foreign Name: Tofu Casimir, Spreading Tofu, Tofu Chocosette, Tofunaise.
Manufacturer's Name: Conserves Estavayer S.A. Sold at Migros supermarkets.
Manufacturer's Address: Case Postale 29, CH-1470 Estavayer le Lac, Switzerland. Phone: 037 63 91 11.
Date of Introduction: 1986. May.
Wt/Vol., Packaging, Price: Can or tube.
New Product–Documentation: Letter from M. Jaccard and A. Dillier of Conserves Estavayer. 1988. June 27. Each of these 4 products were introduced in 1986 and discontinued in 1987.

7505. Escueta, Elias E.; Bourne, M.C.; Hood, L.F. 1986. Effect of boiling treatment of soymilk on the composition, yield, texture and sensory properties of tofu. *Canadian Institute of Food Science and Technology Journal* 19(2):53-56. May. [23 ref. Eng; fre]
• ***Summary:*** Soymilk was boiled for 0, 12, 30, and 60 minutes before coagulation with calcium sulfate to make tofu. A texture profile and analysis was performed on the product obtained. Hardness and gumminess increased slightly up to 12 minutes of boiling but decreased significantly after 30 and 60 minutes of boiling. Chewiness decreased significantly after 30 and 60 minutes of boiling. Springiness was not affected by boiling. Cohesiveness increased slightly after 12 minutes boiling and then decreased slightly but not significantly after 30 and 60 minutes of boiling. Composition and sensory qualities of tofu were not significantly affected by the length of time soymilk was boiled prior to coagulation. Address: Inst. of Food Science, Cornell Univ., Geneva, New York 14456.

7506. **Product Name:** Tofu Flavors (Eight Flavor Bases for Use in Tofu Frozen Desserts) [Apple, Berry, Lemon, Butter Pecan, Pineapple-Grapefruit, Strawberry, Chocolate, or Rum Raisin].
Manufacturer's Name: Eskimo Flavors. Div. of Eskimo Pie Corp.
Manufacturer's Address: 530 E. Main St., Richmond, VA 23219. Phone: 804-782-1885.
Date of Introduction: 1986. May.
New Product–Documentation: Food World (Columbia, Maryland). 1986. May. The company has introduced 8 new flavor bases for use in tofu frozen desserts. The bases themselves contain no soy. The company also makes Eskimo Chocolate Drink, a premium non-dairy chocolate drink; Shaw Barton Digest. 1986. 14(26):16. June 27. "Eskimo Flavors Has Eight New Flavor Bases for Tofu Frozen Desserts." Modern Dairy (Toronto, ONT). 1986. June.

7509. **Product Name:** [Tofu Stew].
Foreign Name: Tofu-Blanquette.
Manufacturer's Name: Jonathan P.V.B.A.
Manufacturer's Address: Antwerpsesteenweg 336, B-2080 Kapellen, Belgium. Phone: 03/664 58 48.
Date of Introduction: 1986. May.
Ingredients: Tofu (soya-proteins)*, peas*, onions*, carrots*, mushrooms, celery*, seaweed. Sauce: Soya milk*, water, wheat meal*, vegetable fats, soya sauce, seasoning spices. * = biological crop.
Wt/Vol., Packaging, Price: 300 gm.
Nutrition: Minerals 1.4%, vegetable proteins 6.3%, vegetable fats 3.52%, carbohydrates 5%. 76.9 calories (Kcal) per 100 gm.
New Product–Documentation: Label. Received 1988. 6.25 by 5.25 inches. Card stock. Color photo of tofu cubes stewing with various vegetables with item name in white on orange. "Vegetable product." Form filled out by Jos van de Ponseele. 1989. Jan. 11. This product was introduced in May 1986.

7510. **Product Name:** Tofu Mozzarella (Soy Cheese Containing Casein).
Manufacturer's Name: Kononia Foods (Distributor).
Manufacturer's Address: Fresh Meadows, New York. Phone: 718-969-2960.
Date of Introduction: 1986. May.
Ingredients: Tofu (51%), soybean oil, casein, sea salt, citric acid, soy lecithin, guar gum.
Wt/Vol., Packaging, Price: 5 lb loaves.
How Stored: Refrigerated.
Nutrition: Per ounce: Calories 80, Protein 8 gm, carbohydrates 1 gm, fat 4 gm, calcium 120 mg, sodium 170 mg.
New Product–Documentation: Medoff. 1986. Whole Life. June. p. 82-84. "Will the Real Soy Mozzarella Please Stand Up." "Several weeks after Soya Kaas came out, a third 'soy' cheese hit the market, distributed by Kononia Foods of Fresh Meadows, New York [phone: 718-969-2960], called *Tofu Mozzarella* (claiming to be 51% tofu). When *Tofu Mozzarella* first appeared in early May [1986] its labels said 'Non-dairy,' but their ingredient list read: tofu, soybean oil, casein, sea salt, citric acid, soy lecithin, guar gum." A black-and-white photo shows the product.

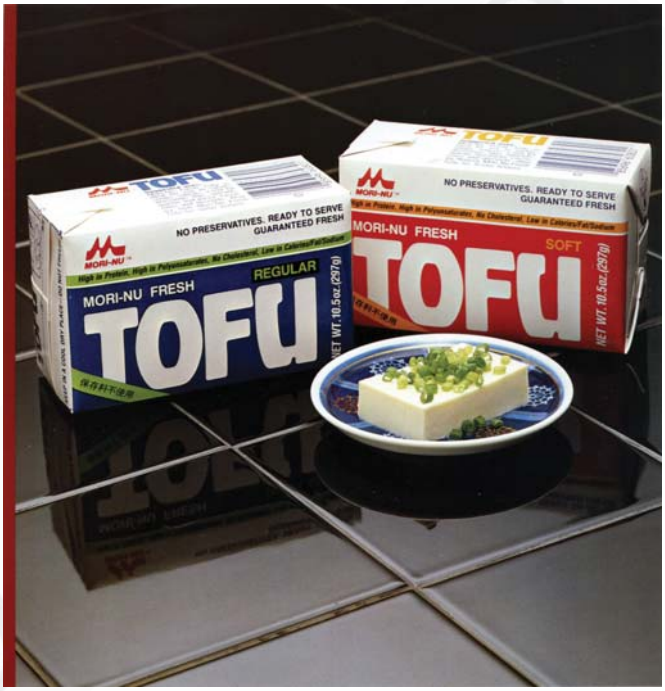
7511. **Product Name:** [Dried-Frozen Tofu].
Foreign Name: Gedroogde Tofu / Koya Dofu.
Manufacturer's Name: Manna Natuurvoeding B.V. (Importer-Distributor). Made in Japan.
Manufacturer's Address: Weerenweg 28, 1161AJ Zwanenburg, Netherlands.
Date of Introduction: 1986. May.
Wt/Vol., Packaging, Price: 200 gm bag. 7 pieces.
How Stored: Shelf stable.
Nutrition: Per 100 gm.: Calories 436, water 10.4 gm, protein 53.4 gm, vegetable fat 26.4 gm, carbohydrate 7.2 gm, calcium 590 mg, iron 9.4 mg, sodium 18 mg.
New Product–Documentation: Manna Bulletin. 1986. May. No. 12. p. 3. A photo shows the package with the Muso brand on it. Note: This is the earliest Dutch-language document seen (April 2013) that uses the term "Gedroogde Tofu" or the term "Koya Dofu" to refer to dried-frozen tofu.

7512. Medoff, Marc. 1986. Tofutti's little secret: This non-dairy dessert contains little or no tofu. *Nutrition Action Healthletter* 13(5):10-11. May. Originally appeared in Whole Life Times, Jan/Feb. 1985, p. 12. [1 ref]
• ***Summary:*** Promoted as a low-calorie, healthy ice cream substitute made from tofu, Tofutti is enjoying huge success. It contain no cholesterol, butterfat, lactose, or preservatives. Actually, the product contains very little tofu. Discusses how the product evolved and what it contains. Also, a comparison of fat and sugars in popular frozen desserts is given.

7513. **Product Name:** Tofu Burger.
Manufacturer's Name: Michigan Soy Products Co., Inc.
Manufacturer's Address: 1213 N. Main St., Royal Oak, MI 48067. Phone: 313-544-7742.
Date of Introduction: 1986. May.
Ingredients: Tofu, brown rice, whole wheat flour, onion, carrot, sesame seeds, oats, sunflower seeds, corn oil, safflower oil, arrowroots, salt, garlic, corn meal, seaweeds.
Wt/Vol., Packaging, Price: 8 oz.
How Stored: Refrigerated.
New Product–Documentation: Blair. 1987. Detroit News. Nov. 4. p. 1E, 2E. Tofu. Talk with Dorothy Hwang. 1988. Feb. 18. This product sells very well. They will soon change the packaging from a tofu tray to a printed paper box. Label. 1987. Dot matrix printed on white gummed label.

7514. **Product Name:** Tofu Salad.
Manufacturer's Name: Michigan Soy Products Co., Inc.
Manufacturer's Address: 1213 N. Main St., Royal Oak, MI 48067. Phone: 313-544-7742.
Date of Introduction: 1986. May.
Ingredients: Tofu, almond soy milk, corn oil, honey, onion, celery, carrot, pickles, garlic, lemon juice, salt, paprika.
Wt/Vol., Packaging, Price: 8 oz.
How Stored: Refrigerated.
New Product–Documentation: Blair. 1987. Detroit News. Nov. 4. p. 1E, 2E. Tofu. Talk with Dorothy Hwang. 1988. Feb. 18. Label. 1987.

7515. Morinaga Nutritional Foods, Inc. 1986. The freshest tofu you can buy... Guaranteed! (Portfolio). 5800 South Eastern Ave., Suite 270, Los Angeles, CA 90040. Ten inserts. 30 cm.



• ***Summary:*** This portfolio, which is both a manufacturer's catalog and a press/buyer's kit, contains 10 separate information sheets, most in color. Mori-Nu tofu comes in a newly-redesigned package. The word "silken" no longer appears on the front panel. Address: Los Angeles, California. Phone: 213-728-4325.

7516. **Product Name:** Natural Tofu (Vacuum Packed) [Firm Style, or Soft Style].
Manufacturer's Name: Natural, Inc.
Manufacturer's Address: 6650 Santa Barbara Ct., Elkridge, MD 21227. Phone: 301-796-3211 (Balt.); 301-621-5388 (DC).
Date of Introduction: 1986. May.
Wt/Vol., Packaging, Price: 16 oz vacuum pack.
How Stored: Refrigerated.
New Product–Documentation: Talk with Larry Betzler. 1988. April 1. This company opened in the spring of 1986. Their first two products were tofu and soymilk made for Betzler's American Soyfood Industries. Betzler taught them how to vacuum pack, using a hot pack process. Eddie Tsai, the manager, is Taiwanese but speaks fluent English. He used to be the production manager at Bud, Inc. The business is

family run and many of the people are professionals; doctors, dentists, etc. Larry helped him to get started. Runs as very clean/sanitary business. Elkridge is a suburb of Baltimore. Eddie was at 5532 Mystic Ct., Columbia, Maryland 21004.

Form filled out and faxed copies of Labels sent by William Tsai. 1998. July 3. Natural Inc., 6650 Santa Barbara Rd., Elkridge, MD 21075. Phone: 888-868-2858. They started making tofu in April 1986. One label is for soft tofu (water pack) and the other is for firm tofu (vacuum pack).

7517. Perez, Oswaldo. 1986. La soya en la alimentacion humana [Soya in human nutrition]. *La Era Agricola* (*Merida, Venezuela*) No. 0. May. p. 14-15. [1 ref. Spa]
• ***Summary:*** Shows how soya makes most efficient use of the earth's ability to produce protein. Address: Granja Tierra Nueva, Aldea San Luis, La Azulita, C.P. 5102, Estado Merida, Venezuela.

7518. **Product Name:** Soya Kaas (Cheese Alternative Containing Casein) [Jalapeño Mexi-Kaas, or Mild American Cheddar Style].
Manufacturer's Name: Soya Kaas, Inc. A subsidiary of Swan Gardens, Inc. Distributed by American Natural Snacks.
Manufacturer's Address: Manufacturer: 218 Laredo Dr., Decatur, Georgia 30030. Distributor: P.O. Box 1067, St. Augustine, FL 32085. Phone: 904-824-8181.
Date of Introduction: 1986. May.
Ingredients: Mozzarella Style: Fresh soy milk, soy oil, calcium caseinate, tofu, salt, lecithin, citric acid, guar gum.
Wt/Vol., Packaging, Price: 12 oz vacuum pack retails for $3.89 (6/86), or 7 lb deli block.
How Stored: Refrigerated.
Nutrition: Per 1 oz.: Calories 78, protein 6.7 gm, fat 5.6 gm, carbohydrates 1.8 gm, sodium 168 mg.
New Product–Documentation: Form Letter from Casey Van Rysdam, V.P. Marketing, American Natural Snacks, Inc., on blue and red company letterhead. 1986. May 1. At the top left of the letterhead is a silhouette of a traditional windmill. Above it is written: Soya Kaas–The delicious, nutritious alternative to cheese." At the bottom of the letterhead: "Distributed by American Natural Snacks, P.O. Box 1067, St. Augustine, Florida 32085. Phone: 904-824-8181." "Lactose Free... although it does contain Calcium Caseinate..." Ad in Natural Foods Merchandiser. 1986. April. p. 13. Full page, full Color. "Soya Kaas. The Delicious, Nutritious Alternative to Cheese."

Leaflet (8½ by 11 inch, color, 2-sided). 1986. "Soya Kaas. The Delicious, Nutritious Alternative to Cheese. Mozzarella Style, Jalapeno Mexi-Kaas, and Mild American Cheddar Style." On the front is an attractive table setting; on a blue and white cloth are a block of sliced Cheddar cheese, cubes of whitish cheese with crackers and a pear on a plate, surrounded by grapes and a stem glass of apple juice. On the back is a photo of the 3 product labels. A listing of the ingredients in each of the 3 Soya Kaas products shows that each contains fresh soy milk as the main ingredient and calcium caseinate as the third ingredient. Note: Nowhere on this leaflet is the consumer told that calcium caseinate is derived from cow's milk.

Medoff. 1986. Whole Life. June. p. 82-84. "Will the Real Soy Mozzarella Please Stand Up (That is, if There is One)."

7521. **Product Name:** Tofutti Love Drops (Soy Ice Cream Full of Crunchy Chocolate-Covered Graham Cookies) [Vanilla, Chocolate, or Cappuccino].
Manufacturer's Name: Tofutti Brands Inc. (Marketer).
Manufacturer's Address: 1098 Randolph Ave., Rahway, NJ 07065.
Date of Introduction: 1986. May.
Ingredients: Chocolate Tofutti: Water, high-fructose corn sweeteners, corn oil, tofu, isolated soy protein, cocoa processed with alkali, soy lecithin, guar seed gum, cellulose gum, carrageenan, carob bean gum, salt. Cookies: Cocoa, enriched flour, high-fructose corn syrup, graham flour, vegetable shortening, baking soda, salt, honey.
Wt/Vol., Packaging, Price: Pints.
How Stored: Frozen.
Nutrition: Per 4 oz.: Calories 230.
New Product–Documentation: Spot in Dairy Foods. 1986. June. p. 38. "Introduced: Spring 1986." "Hard pack Tofutti mixed with chocolate-covered graham-cookie drops. Free of lactose, cholesterol, and butterfat." Associated Press NYC Metro Wire. 1986. Aug. 5. "Tofutti Brands Inc. promotes its new products 'Love Drops' with a horse-drawn carriage trip with Prince Andrew and Sarah Ferguson look-a-likes; Fifth Avenue starting at 59th Street. 12:45 P.M. Coronation takes place at the steps of The New York Public Library."

7522. U.S. Food and Drug Administration, Center for Food Safety and Applied Nutrition, Retail Food Protection Branch. 1986. Definitions–Potentially hazardous food (Leaflet). In: Retail Food Protection: Program Information Manual. Washington, DC. Part 6–Inspection. Chap. 01–Code Interpretations. Number 1-102(q). 15 pages. 9 May 1986. [21 ref]
• ***Summary:*** This is an update, revision, and expansion of similar documents from 1984 and 1985. It contains an update of 1-102 (q)–Soy Protein Products Considered to be Potentially Hazardous Foods (5/23/84). "Question: What are the factors that can be used to determine whether or not a food is potentially hazardous." Contents: Discussion. "Classification of foods: Foods can be classified into two major categories–animal and plant. There are four logical groups within the animal category: (1) meat and meat products, (2) poultry and eggs, (3) fish and fishery products, and (4) milk and milk products. Likewise there are four groups within the plant category: (1) cereals and cereal products, (2) sugar and sugar products, (3) vegetables and vegetable products, and (4) fruit and fruit products. In addition to the eight groups, there are lesser groups that include products such as spices, flavoring materials, nutmeats and synthetic ingredients. Practically all foods in the animal category are potentially hazardous. That is, they are typically encountered in a form capable of supporting the rapid and progressive growth of infectious or toxigenic microorganisms or the slower growth of *Clostridium botulinum."* Exceptions are then listed.

"It is the plant products category that causes much of the confusion and uncertainty. These foods are widely believed to be non-potentially hazardous. Yet foodborne illness data clearly establish that such foods are sometimes in a form capable of supporting the rapid and progressive growth of disease organisms or the slower growth of *C. botulinum*... Already interpreted to be potentially hazardous are baked or boiled potatoes and moist soy protein products."

Evaluation factors: "It is necessary to consider the intrinsic and external factors which affect microbial growth. The intrinsic factors vary by product and include nutrient content, water activity measured as available moisture (a_w), hydrogen ion concentration (pH), biological structure, oxidation-reduction potential (Eh), osmotic pressure and natural antimicrobial constituents. The external factors which can influence bacterial growth include but are not limited to temperature, oxygen, time, light and added antimicrobial agents. Also important is the synergistic or competitive interaction of the various microorganisms present in the product.

Nutrient content: Microorganisms, like other living things, meed three basic groups of nutrients: (1) Basic chemical elements such as carbon, hydrogen, sulfur, nitrogen, sodium, potassium, calcium, magnesium, and iron; (2) Vitamins such as B-1 (thiamine), B-2 (riboflavin), B-6 (pyridoxine), biotin, pantothenic acid and folic acid; (3) A source of energy. This is usually obtained through the process of oxidizing carbohydrates (glucose, fructose, lactose, sucrose, raffinose, or complex starches) and proteins.

Water Activity (a_w): This is an index of the available moisture in a food. It is defined as the ratio of water vapor pressure of a food to the vapor pressure of pure water at the same temperature. Water would, therefore have a water activity of 1.000. Each microorganism has an optimum and a minimum water activity for growth. The minimum ranges from 0.86 for *Staphylococcus aureus* to 0.96 *Pseudomonas aeruginosa.* Fresh meat, poultry, fish, and tofu typically have a water value of 0.99 or greater. FDA and USDA consider foods with a water activity of 0.85 or below to be not potentially hazardous.

Hydrogen ion concentration (pH): Most microorganisms grow best at a pH between 6.6–7.5. Each microorganism has a maximum, and optimum, and a minimum ph at which it will grow. The minimum (acidic) is about 4.0 (for *Staphylococcus aureus* and *Salmonella*). The FDA and USDA have established 4.6 as the level at or below which foods should not be considered potentially hazardous. The maximum (alkaline) is about 10.0 for *Bacillus subtilis.* [Note: The pH of fresh tofu is typically 6.5-7.5].

Biological structure: "One fresh plant food has historically been associated with foodborne illness–seed sprouts. Germinated soybeans have caused illness due to

© Copyright Soyinfo Center 2013

contamination with *Bacillus cereus.* The more commonly encountered sprouts–mung beans and alfalfa–have been shown to support the growth of both *Salmonella sp.* and *Yersinia enterocolitica*... Many foods in the plant category have caused foodborne illness outbreaks after heating. Some examples are: Bean curd (tofu)–*Yersinia enterocolitica."*

Other intrinsic factors. External factors. Interaction of intrinsic and external factors. Measuring water activity and pH. Measuring other factors. Redefinition: "Based on the information in this and related interpretations, it seems appropriate to redefine the term potentially hazardous food as follows: 'Potentially hazardous food' means any food or food ingredient, natural or synthetic, in a *form* capable of supporting (1) the rapid and progressive growth of infectious or toxigenic microorganisms or (2) the slower growth of *C. botulinum."*

Interpretation. Note. References. Address: 200 C Street S.W., HFF-342, Washington, DC 20204. Phone: 202-485-0140.

7523. **Product Name:** [Yakso Tofu Spread (Onion, Cucumber, or Carrot)].
Foreign Name: Yakso Tofuspread (Ui, Komkommer, Wortel).
Manufacturer's Name: Yakso.
Manufacturer's Address: Netherlands.
Date of Introduction: 1986. May.
Wt/Vol., Packaging, Price: 215 gm jar.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Manna Bulletin. 1986. May. No. 12.

7524. Bailey, Simon. 1986. Notes on soya in Trinidad & Tobago. Upper Santa Cruz, Trinidad, W.I. 2 p. June 1. Unpublished typescript.
• ***Summary:*** "Soyabeans do not have a long history here. It is not clear whether any of the indentured Chinese immigrants coming to Trinidad about 150 years ago brought any soya with them and there is certainly now no evidence of cultivation on any considerable scale by the Chinese community."

There seem to have been two soyabean experiments by the Ministry of Agriculture. The first [in 1913] failed from poor management. The second, "initiated and originally funded by the Government of West Germany, included variety trials at the Chaguaramas Agricultural Development Project (ADP) and has resulted in the annual maintenance of germplasm for the varieties Pelican Improved & Jupiter. The seed has been grown for about ten years using a mechanised methods with a yield much lower than US averages. The ADP produced a recipe booklet in 1977 encouraging the use of soya by Trinidadians and incorporating soyafoods in recipes with a local flavour. The recipes rely mainly on the use of boiled (or pressure-cooked) soyabeans. There does not seem to have been any investigation by the ministry into the use of traditional soyafoods (e.g. tofu, tempeh etc).

"Sales of soyabean seed to farmers from this source have been slight. Small amounts may have been purchased out of curiosity & for backyard use and user response is not effectively monitored. In the last few years there have been some demand from consumers for beans surplus to ADP's requirements although ADP's brief is to produce seed for farmers. There are signs that, since the failure of the 85-86 crop due to poor storage and low germination of seed, the ADP project may be abandoned altogether unless a policy decision is taken to reactivate it.

"At the same time an oil extraction plant is being constructed by National Flour Mills, a government subsidiary, on the Port of Spain waterfront to handle cargos of imported soyabeans for production of cooking oil & secondary products; the presscake to be used for livestock feeds, replacing existing imports of defatted soya.

"In the marketplace we can find soya/beef burgers, dehydrated soya chunks, fortified powdered "Soyamel", some surrogate boxed and canned soyafoods (imported by Seventh Day Adventists) and the raw beans themselves. Susan Lee Hem has sold tofu on a small scale until recently, but at present all of her tofu production is going into pastelles, a steamed, corndough-wrapped local snack food. I am catering with, and selling, tempeh also on a small scale. The levels for acceptance for soya and vegetarian food in T&T are high, due partly to the dietary codes of Hindus, Adventists & Rastafarians and it is out of these groups that the majority of "health food" businesses have been formed." Address: c/o Valdez, 21 Sun Valley Dr., La Pastora, Upper Santa Cruz, Trinidad, West Indies.

7525. Domitz, Lynne. 1986. "Soysage" maker offers a healthful alternative. *Messenger* (*Athens, Ohio*). June 1.
• ***Summary:*** A photo shows Nancy Hauber, founder and operator of Golden Soy Foods, 26½ East State St., Athens, Ohio. She is posing with equipment she uses to make "soysage, a soy-based, vegetarian sausage substitute." A vegetarian since 1977, she graduated from Ohio University in 1978 (with a degree in elementary education) and started her company 2 years ago. She also makes a tofu-based dill salad dressing and a tofu sandwich spread.

7526. Dosti, Rose. 1986. Culinary SOS: Low-fat, low-cholesterol, low-cost tofu is high in public interest. *Los Angeles Times.* June 5. p. M22.
• ***Summary:*** In this column Dosti replies to questions about recipes for readers: One finds the Tofu Fillet Sandwich served at Follow Your Heart restaurant to be really delicious. Dosti answers: "Dear Mrs. S.D.: Tofu is slowly winning more and more friends because of its low-fat, low-cholesterol, low-calorie, and low-cost assets.

Contains a recipe for Tofu fillet sandwich. Address:

Times staff writer.

7527. Devasia, T.K. 1986. Soybean can bring revolution in nutrition. *Free Press Journal* (*Indore, India*). June 8. p. 7.
• ***Summary:*** In India, a large number of children die every day of malnutrition. But nutritious foods are too expensive for the poor "Health administrators and researchers are working overtime to find a solution to this problem. Soyabean as been found to be the single best answer as it is cheap and nutritious. Its nutritional merits have been established beyond doubt by researchers all over the world.

"Agricultural scientists and medical practitioners at Indore feel that soyabean can bring about a revolution in this field of nutrition." Although Madhya Pradesh produces about 85% of all soyabeans produced in India, "a large share of the production goes as cattle feed, for extracting milk and other industrial uses. The State Government... has not done anything to promote human consumption."

"The most simple form of soyafood is soya milk, which contains 4.4% protein compared with 2.9% in cow's milk and 1.4% in breast milk. Soyamilk can be easily prepared at home. Approximately 10 liters of soymilk can be prepared from one kilogram of dry soyabeans. It becomes much more acceptable if mixed in equal proportions with cow milk.

The soymilk can be used for making tofu by causing curds to form, then straining with a cheese cloth. There is a perennial shortage of cow milk in urban areas. Farmers can produce and market soymilk on a small scale to be consumed the day it is made.

A sidebar titled "Plan to popularise soya foods in rural areas" explains that "Manoj Soni, a resident of Mhow and student of Boston University Medical School, USA, has conceived a plan to popularise the use of soya foods in the rural areas of the state. Under the project he has selected and trained 15 village health workers from selected villages in Indore tehsil. These in turn will educate the masses about the soya products." "Soni, who was inspired by his mother in undertaking the project, feels that soyabean holds great promise for the rural and urban population."

"Soni, his mother, and Mrs. Pushpa Pandey have prepared 150 recipes of soys food, which will be published soon... Soni has been given funds under the Smith-Kline Packman medical scholarship."

Photos show: (1) Manoj Soni. (2) Mrs. Pushpa Pandya delivering a lecture on soyabean foods to the village health workers at Rau near Indore. Address: India.

7528. Tepper, Robert. 1986. Tofutti and Tofulite are the only two national brands of soy ice cream left (Interview). *SoyaScan Notes.* June 9. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Gloria Vanderbilt's Glace is off the market. McQueen's is gone. Tofait is regional, in the midwest centered in Illinois, and is probably the third largest brand. Tofulicious is sold only around Minneapolis, Minnesota. Tofruzen is also local to regional.

7529. Freligh, Becky. 1986. Local tofu makers offers something to suit all tastes [Brooks Jones of Cleveland Tofu Co.]. *Plain Dealer* (*Cleveland, Ohio*). June 10. p. 1-C, 5-C.

7530. Forman, Gail. 1986. Where's the beef? Just substitute bean curd skin. *Washington Post.* June 15. p. K1, K6.
• ***Summary:*** Special to the Washington Post: Bean curd has a 2,000 year history [sic] as a dietary staple all over East Asia and recently it has developed a following in the United States. Less well known is a relative of bean curd called "bean curd skins."

Before the coagulant is added to hot soy milk to make bean curd, "a thin skin forms on top, much like the skin that forms when cow's milk or cream is heated... This very thin skin, carefully lifted off and hung up to dry, is called tiem jook [sweet dried yuba] by the Chinese, yuba by the Japanese. In English it goes by the various names of bean curd skin or tofu skin, bean curd sheets and bean curd robes."

Note: This is the earliest English-language document seen (Oct. 2012) that uses the word "robes" or the term "bean curd robes" to refer to yuba.

The thinner the bean curd sheets, the better. Oriental groceries stock them in various dried forms: flat sheets, rolls, folded sticks, strips, circles, and small triangles. They are brittle and break easily, but last almost indefinitely without refrigeration. Some grocery stores now also sell fresh and frozen bean curd skins, which are easier to handle and more flavorful than dried.

Bean curd skins first became widely used millennia ago in Chinese Buddhist vegetarian cuisine, where they were used in place of meat–as in mock Peking duck. They are widely used as wrappers of almost any small packet of tasty ingredients. Steamed bean curd sticks [dried yuba sticks], made of rolled or folded sheets, add substance to a bowl of vegetable broth.

Contains the following recipes, from various restaurants, for using bean curd skins: China Harbor lobster roll (a good way to stretch a small amount of lobster). Meat stuffed bean curd skins (calls for "2½-inch square pressed bean curd"). Yellow birds (vegetarian). Mock Peking duck (vegetarian). Bean stick soup. Steamed fish with bean curd sticks (calls for "2 ounces bean curd sticks, broken into 2-inch sections"). Fukien stuffed shrimp in bean curd skins. Buddha's delight (vegetarian).

Note: This very creative article is the first to mention the word "yuba" in a major American newspaper. Address: Japan.

7531. Newbury, Raymond Eugene. 1986. The FDA position on the use of the terms "tofu" and "bean curd" on product

© Copyright Soyinfo Center 2013

labels (Interview). *SoyaScan Notes.* June 15. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** 1. Tofu has no common or usual name. In other words, there is no documented proof that the term "tofu" is widely recognized by most American consumers, and that they realize it is a product made from soybeans. 2. Therefore its label must bear an "appropriately descriptive term," such as "soybean curd," on the principal display panel. 3. Tofu is still primarily an ethnic food and a great deal of it is purchased by ethnic consumers (Japanese, Chinese, Koreans, Indonesians, etc.) who speak a variety of languages and call the product by a variety of names. 4. Only a carefully conducted consumer survey would allow the FDA to determine what the common or usual name really is."

Note: Another high-level FDA official said on this point in a separate phone call: "You don't need a survey to determine a common or usual name. It's long term consumer usage and understanding. A survey is only one device, but it certainly is not the only way of determining this. For example if 99% of all dictionaries, cookbooks and ordinary references showed that a single term was used, you could reasonably conclude that that was the common or usual name. Consumers determine what is the common or usual name of a food." See also our Oct. 1989 interview with Judith Riggins of the FDA.

"It is a good idea for a company to submit a proposed label to the FDA before having it printed. We will examine it and if we feel it is acceptable we will issue a 'letter of no adverse findings.' The company should keep that letter, and if another branch of the FDA ever issues a 'notice of adverse findings,' the original letter and label should be presented; they will be carefully considered and it is 'very unlikely' that they would be overridden. If we make a mistake, we usually correct it." Address: Deputy Director, Div. of Regulatory Guidance, Food and Drug Administration, Center for Food Safety and Applied Nutrition, 200 C Street, S.W., Room 5001, HFF-314, Washington, DC 20204. Phone: 202-485-0187.

7532. *New England Business* (*Boston, Massachusetts*). 1986. From tofu to Jofu. June 16.
• ***Summary:*** Tofu: "When you put it on our plate, it sort of sits there quivering while a milky liquid runs off. Like so many disgusting things, it is healthful. Food processors have, for a number of years and with little success, tried to come up with a way to make it into something people might actually want to buy and eat.

"Now a Greenfield, Massachusetts, company, Tomsun Foods Inc., is taking another shot at it. They call it Jofu, and it's touted as the first 'chilled, spoonable blend of tofu and fruit.' The company says Jofu is high in protein, calcium and iron and low in calories and sodium. It also tastes good, they say."

7533. *Toyo Shinpo* (*Soyfoods News*). 1986. 7 mm kaku no Tsubu Dôfu. Nihon Biinzu kongetsu kara shinhatsubai [Firm tofu in 1/4 inch cubes. Nihon Beans starts to sell it this month]. June 16. p. 1. [Jap; eng+]
• ***Summary:*** This diced, firm lactone silken tofu is packed in a polypropylene container. A convenience food, it can be used in Mabo Tofu, miso soup, etc.

• ***Summary:*** The two Pips are William Guest and Edward Patten, who have teamed with Aubrey Bell. NJOY will be distributed by the ice cream division of Stroh Brewery. Address: Detroit, Michigan.

7541. **Product Name:** Tofu, Soymilk, and Tofu Ice Cream.
Manufacturer's Name: Basics (The). Renamed Kootenay Soyfoods in May 1989. Renamed Kaslo Soyfoods in Feb. 1990. Renamed Silverking Soyafoods in Oct. 1990.
Manufacturer's Address: Box 933, Kaslo, BC, V0G 1M0, Canada. Phone: 604-353-7726.
Date of Introduction: 1986. June.
How Stored: Frozen.
New Product–Documentation: Talk with Greg Lundh, owner. 1988. Aug. 9. He started making tofu and soymilk in Sept. 1986, and introduced a tofu ice cream shortly thereafter. The latter was an instant hit. All of his tofu is made with nigari and delivered fresh to the homes of his 125 customers in his Volkswagen van. Most customers have standing orders. He features service and freshness. The business is very small but growing. Talk with Greg Lundh, owner. 1988. Aug. 24. The company started making tofu and soymilk in June 1986. They started making the ice cream in about August 1986. Greg delivers his own products door to door.

Talk with Greg Lundh, owner. 1989. April 28. He now makes 300 lb of tofu a week, one day a week, using a boiling water grind. Still delivers door to door. His company is still unregistered. His only competitor in the interior of British Columbia, Okanagon Soyfoods, went out of business 10 days ago. Now he wants expand from a large blender up to a grinder.

Talk with Greg Lundh. 1990. Oct. 20. His company has been renamed 3 times, as shown above.

7542. Belleme, Jan; Belleme, John. 1986. Cooking with Japanese foods: A guide to the traditional natural foods of Japan. East West Health Books, 17 Station St., Brookline, MA 02146. xi + 220 p. Illust. Index. 25 cm. [45 ref]
• ***Summary:*** A good study from a macrobiotic viewpoint, with more than 200 macrobiotic recipes. The authors studied in Japan and speak Japanese. Contents: Foreword. Acknowledgements. Introduction. Fermented Foods: miso, shoyu, tamari, brown rice vinegar, sake, mirin, koji, amazake, pickles, umeboshi, ume su, medicinal teas, ume extract, bonito flakes, natto. Noodles: cooking noodles, udon, soba, somen, clear noodles. Grains, incl. rice, mochi, seitan, fu gluten cakes, hato mugi [*hatomugi*] (Job's tears), rice syrup, rice bran. Vegetables: shiitake, daikon, Hokkaido pumpkin, Chinese cabbage, burdock, jinenjo, lotus root. Sea vegetables: kombu, nori, wakame, hijiki and arame, kanten (agar). Beans: azuki beans, black soybeans, tofu. Condiments: kuzu, dark (toasted) sesame oil, goma (sesame seeds), tekka, shiso momiji (shiso leaf condiment), wasabi. Teas. Cooking utensils. Appendix: Composing meals, pronunciation guide, suppliers. Bibliography.

Amazake (p. 39-45). Contains a ½ page description plus good instructions for making basic amazake (thick "pudding" and thinner beverage), both from glutinous ("sweet") rice. Also recipes for Vanilla Amazake Pudding, Amazake Cream Puffs, Neapolitan Parfait, Carob Amazake Brownies, Bob's Coconut Amazake Macaroons, Amazake Bread (yeasted), and Unyeasted Amazake Bread. Perhaps the most lengthy information on amazake available in English up to this time.

Hato mugi ("Job's tears," p. 93) "resembles barley, but it is actually a member of the rice family. An easily digestible whole grain with only the tough outer husk removed, hato mugi contains less vitamin B-1 than brown rice but approximately twice as much protein, iron, vitamin B-2, fat, and slightly more calcium." It has long been used in China and Japan as a medicinal food, "for strengthening the stomach, purifying the blood, and restoring health. Since it is so effective in helping the body to discharge toxins, people who are sick and weak, and women who are pregnant, nursing a baby, or menstruating should eat it sparingly." Address: Rutherfordton, North Carolina.

7543. **Product Name:** Mozzarella Style Tofu-Rella (Organic Tofu-Based Cheese Analog with Casein).
Manufacturer's Name: Brightsong Foods.
Manufacturer's Address: 100-A Poultry St. (P.O. Box 2536), Petaluma, CA 94953.
Date of Introduction: 1986. June.
Ingredients: Organic tofu, soy oil, casein (milk-free protein), salt, citric acid, soy lecithin, guar gum.
Wt/Vol., Packaging, Price: 8 oz. Plastic wrapped.
How Stored: Refrigerated.
New Product–Documentation: Label. 1986, undated. 2.5 by 4 inches. Red on white background. "A delicious, natural, nutritious cheese alternative. 51% of Tofu-Rella is organic tofu. Contains NO cholesterol, artificial ingredients or lactose." The ingredient listing deceptively describes casein

© Copyright Soyinfo Center 2013

as "milk-free protein." Reprinted in Soyfoods Marketing. Lafayette, CA: Soyfoods Center.

News release. 1986. Sept. "New Tofu 'Cheese' from Brightsong." Tofu-Rella, a mozzarella cheese-like product containing 51% tofu, "is the first non-dairy cheese to contain large amounts of real tofu instead of soy powders... It looks, tastes, smells, slices, grates, melts, and even burns like real cheese, but contains no artificial ingredients, cholesterol, or lactose!... Compared to whole milk mozzarella cheese, Tofu-Rella contains 33% more protein, 11% fewer calories, 43% less fat and none of the lactose or cholesterol."

Letter from Richard Rose. 1987. Aug. 29. Medoff. 1987. Whole Life. Sept/Oct. p. 82. The company's earlier label has been changed. Rose acknowledged his error and realized his definition of casein "just served to confuse more than enlighten." Subsequent labels of Tofu-Rella were changed to call casein a "pure protein derived from milk." The product now also contains full nutritional labeling. "The information now on Tofu-Rella labels represents the most extensive disclosure statements we've seen to date on a casein-containing soy cheese substitute, and he [Rose] is to be lauded for that." Article contains a copy of the new Label.

TofuRella purchased at Trader Joe's in Concord, California. 1994. April 26. Both the Mozzarella and Cheddar flavors retail for $2.89/lb. On the shelves above each product is a colorful hand-made sign (shelf talker) giving the product name and stating "Dairy Free," even though the products contain casein. The products are now marketed by Sharon's Finest in Santa Rosa, California. Richard Rose says (April 27) that these shelf-talkers are made by Trader Joe's and that he (Richard) has asked them more than once not to describe TofuRella as "Dairy Free."

7544. **Product Name:** Tofu (15 kinds, incl. Doufu-gan, Fried Tofu), and Soymilk.
Manufacturer's Name: Calco of Dallas.
Manufacturer's Address: 714 N. Justin Ave., Dallas, TX 75211. Phone: 214-331-6122.
Date of Introduction: 1986. June.
New Product–Documentation: List of Tofu and Sprout Manufacturers. 1989. Louis Wang, owner. Talk with Calco of Dallas. 1989. Nov. 13. They started business in 1983. Tofu types include fried tofu, deep-fried tofu balls, etc. They also make alfalfa sprouts, wonton skins, egg roll skins, noodles. Letter (fax) from then talk with Louis Wang. 1998. Sept. 28. His company is now named Dallas Calco; it changed from Calco of Dallas about 10 years ago. His first name may also be spelled Luis, which is the Spanish spelling. He started making soy sprouts in 1983, then tofu and soymilk on 19 Aug. 1986.

Talk with Louis Wang. 2001. March 15. On 1 Jan. 2001 he moved into a new facility at 2726 Barge Lane, Dallas, Texas 75212. His offices and factory are in the same place.

7545. **Product Name:** Tofu, Extra Firm Tofu, Fried Tofu [Cutlets, or Pouches].
Manufacturer's Name: China Express.
Manufacturer's Address: 1324 E. 8th St., Tempe, AZ 85281. Phone: 602-966-7633.
Date of Introduction: 1986. June.
How Stored: Refrigerated.
New Product–Documentation: Talk with Richard Jennings. 1987. Dec. 28. Gave date of introduction as end of 1985 or 1986. He was making egg roll skins etc. for a year or 2 before that. He will sell for less than his competition no matter what, whether he makes a profit or not. His products are widely sold in Los Angeles. This company, run by a Chinese man Tony Lee, is underselling Southwest Soyfoods and probably also Hinoichi in Los Angeles. This is one of the Chinese-run companies that is hurting Hinoichi. It is now so inexpensive to ship a semi load of food from Phoenix or Tempe to Los Angeles (only $200) that Tempe has become a low-cost manufacturing suburb of Los Angeles. Talk with Tony Lee. 1987. Dec. 28. Gave introduction date. The company also makes bean sprouts and pasta, and has a produce line.

7546. deMan, J.M.; deMan, L.; Gupta, S. 1986. Texture and microstructure of soybean curd (tofu) as affected by different coagulants. *Food Microstructure* 5(1):83-89. [13 ref]
• ***Summary:*** Scanning electron microscopy is used to evaluate the microstructure of tofu. Among the 5 coagulants studied, 0.75% calcium sulfate and 0.4% glucono delta lactone (GDL) appeared to be most suitable for making tofu of high bulk weight and smooth texture. Address: Dep. of Food Science, Univ. of Guelph, Guelph, ONT, Canada N1G 2W1. Phone: 519-824-4120 x 2515.

7547. *Grocers J. of California* (*Los Angeles*). 1986. Hinoichi Tofu [New consumer education program]. June. Address: Los Angeles.

7548. **Product Name:** Light Tofu Browners, Sausage Style (Meatless Sausage).
Manufacturer's Name: Light Foods Inc.

© Copyright Soyinfo Center 2013

Manufacturer's Address: St. Louis, MO 63017.
Date of Introduction: 1986. June.
Ingredients: Water, tofu, TVP (textured vegetable protein), soyoil, egg whites, salt, natural herbs and spices, honey, tamari, wheat gluten, malt powder.
New Product–Documentation: Poster. 1986. "No cholesterol, no MSG, no sugar, no meat." Spot in Natural Foods Merchandiser. 1987. March. p. 99. Adweek East. 1987. April 6. Soya Newsletter. 1988. Sept/Dec. A new smaller size, (8 links in a 12-oz. package) was introduced in late 1988. Address is now 613c Broadmoor, St. Louis, Missouri 63107. Ingredients include water, tofu, TVP, soy oil, salt, honey, soy isolate, malt powder, and natural herbs and spices.

7549. Medoff, Marc. 1986. Whole frauds in the news: Will the *real* soy Mozzarella please stand up (that is, if there is one) [Soyarella, Soya Kaas, and Tofu Mozzarella]. *Whole Life.* June. p. 82-84.
• ***Summary:*** Three brands of "soy" cheese are being sold in New York City and "large numbers of consumers are unwittingly purchasing what they believe to be 'non-dairy' products, when in fact, they are being deceived. Since the first purported 'soy' cheese appeared on the market in early 1985, a peculiar shroud of secrecy has hung over the entire subject of who is actually manufacturing these products and what their ingredients are."

The first soy cheese to be introduced was Soy Mozzarella (now named Soyarella), "which was being 'test marketed' in three states and distributed by Neshaminy Valley Natural Foods of Huntingdon Valley, Pennsylvania. Neshaminy officials at that time told *Whole Life* they didn't know who made the stuff... Soyarella was an instant hit. It's initial ingredient list was a purist's dream; soy milk, water, soy oil, vegetable gum, vegetable renin, salt and nigari. Made from all natural ingredients, and claiming to be totally non-dairy, Soyarella was a smash among macrobiotics, vegans, orthodox Jews and individuals with an intolerance or allergy to regular milk products. It tasted like cheese, and most importantly, melted when heated–just like normal mozzarella cheese. It was a natural food dream come true."

In March, 1986, a second competing product, named Soya Kaas, began to appear in local New York health food stores. Manufactured by American Natural Snacks of St. Augustine, Florida, it arrived in large blocks, and was then sliced into individual servings, in much the same way as Soyarella. Soya Kaas looks, tastes, and melts like Soyarella, but unlike Soyarella, it lists an ingredient named calcium caseinate. "Calcium caseinate is a derivative of casein, which is a protein obtained from cow's milk. Cow's milk to be precise... *Soya Kaas* does not claim to be a non-dairy product, although the labels on the large blocks imply otherwise. 'The Delicious, Nutritious Alternative to Cheese' and the words 'Mozzarella Style' adorn their red, white, and blue stickers. The problem is that the people producing *Soya Kaas* do not provide individual ingredient labels for their distributors to give to natural foods stores, the way *Soyarella* does. Therefore it's been left up to each retailer to decide how packages of *Soya Kaas* should be labeled.

"Several weeks after Soya Kaas came out, a third 'soy' cheese hit the market, distributed by Kononia Foods of Fresh Meadows, New York [phone: 718-969-2960], called *Tofu Mozzarella* (claiming to be 51% tofu). When *Tofu Mozzarella* first appeared in early May [1986] its labels said 'Non-dairy,' but their ingredient list read: tofu, soybean oil, casein, sea salt, citric acid, soy lecithin, guar gum. Casein is the principle protein of cow's milk that is one step closer to actual milk than calcium caseinate. Kononia made up its own labels... Unfortunately the United States Food and Drug Administration (FDA) has a problem with their labeling practices. Herman Janiger, Consumer Affairs Officer at the FDA told *Whole Life* that the use of calcium caseinate or casein as an ingredient in a product without identifying its source, or claiming the product is 'non-dairy,' runs counter to FDA guidelines. 'The FDA recommends that a product that uses calcium caseinate as an ingredient (*Soya Kaas*) identify the source, which in this case is milk. If they don't, the ingredient list could be misleading to consumers. Without identifying it as coming from milk, makes the ingredient list unclear,' Janiger told *Whole Life."*

"While *Soya Kaas's* labels may only violate an FDA guideline, the labels that have appeared on *Tofu Mozzarella* have probably violated federal law, according to Janiger. 'Casein is one step closer to milk, and therefore the FDA has determined that a product having casein it cannot call itself a "non-dairy" product,' he told *Whole Life.* Janiger was careful not to pass final judgement [sic, judgment] on *Tofu Mozzarella* ingredient labels before actually seeing the product, but he said such an item appeared to be in violation of the Federal Food, Drug and Cosmetic Act as a misleading and misbranded food product. Violators are subject to fines."

Whole Life spoke with Pearl Steinbuch and Daniel Freedman, who run Kononia Foods and began distributing up to 350 lbs a week of *Tofu Mozzarella* in New York stores on May 1. They said they would drop the claim of "non-dairy" from their label in early June. Medoff had only talked to distributors of these cheeses, but Kononia put him in touch with an individual named Bob Savar in Cherry Hill, New Jersey, an independent broker who sells the Tofu Mozzarella to them as well as along the east coast. "We asked Savar who made the *Tofu Mozzarella,* and where he got it. He would only tell us that it was made by a company that was 'part of a large conglomerate in New York.' Savar would not tell us who or where this company was, only that they did not want any publicity."

Photos show four different labeled soy cheese products. The actual label for Soya Kaas: Mozzarella Style, taken from a wholesale block of Soya Kaas, is reproduced 4

© Copyright Soyinfo Center 2013

inches square; the ingredient listing is shown. Under the heading "To learn nothing," the names and addresses of the three cheese distributors are listed. Three federal and state government agencies are also listed and the reader is encouraged to complain.

Note: This is the earliest English-language document seen (March 2007) that uses the registered trademark "Soyarella" to refer to a Western-style soy cheese. Address: Editor and publisher, Whole Life, New York.

7550. **Product Name:** Tofu, Fried Tofu, Soymilk Curds, Soybean Sprouts, and Soymilk.
Manufacturer's Name: M.S.B. Food Enterprises, Inc.
Manufacturer's Address: 430 Casanova St., Bronx, NY 10474. Phone: (212) 617-6700.
Date of Introduction: 1986. June.
How Stored: Refrigerated.
New Product–Documentation: Order for tofu books from, then talk with Michael Lee, V.P. Gomé Tofu Inc. 1996. Nov. 14. His father, John Lee, a Korean-American, started M.S.B. Food Enterprises in 1986 in the Bronx to make different foods from soybeans using all natural processes. Their main products in 1986 were regular tofu, fried tofu, soymilk curds (*sun tubu*), soybean sprouts, mung bean sprouts, and a small amount of soymilk. In 1992 they introduced *doen jang* (pronounced TEN-jang, Korean Soybean Jang, like miso). MSB Food Enterprises is the parent company for a number of smaller companies, all of which make soyfoods. In 1995 they started a new division, Gomé Tofu Inc., to make tofu specially for the Caucasian American market. In December 1995 the company moved to a new address: 710 Longfellow Ave., Bronx, NY 10474. Phone: (718) 617-4105. The company's main market is still Korean-Americans in the tri-state area (New York, New Jersey, and Connecticut).

Form filled out and Label sent (faxed) by Mike Lee of M.S.B. Food Enterprises / Gômi Tofu. 1998. July 7. The address and phone number are unchanged from 1996. The company began making tofu in June 1986. One label is in Korean and the other in English. The text on the English label states: "Tofu–Original. Excellent meat substitute. More protein and calcium than meat or milk! New! Go natural... Its good for you! Gômi. Easily digestible. Cholesterol free. Low fat food. It blends in beautifully! Slice to fry or broil it. Dice it raw for salad. Mash or whip it to make an inspiring dish! No preservatives. All natural. Keep refrigerated. Change water daily after opening." Note: Gômi means "garbage" in Japanese.

7551. **Product Name:** Nature's Way Slim & Trim (Diet Shake) [Vanilla Cookie, Chocolate Sundae, or Orange Dream].
Manufacturer's Name: Nature's Way Products, Inc.
Manufacturer's Address: 10 Mountain Springs Parkway, Springville, UT 84663. Phone: 800-441-3535.
Date of Introduction: 1986. June.
Wt/Vol., Packaging, Price: 28.83 oz composite container.
How Stored: Shelf stable.
Nutrition: Per serving: Calories 225, protein 15 gm, fat 3 gm, fiber 2 gm, and 18 amino acids.
New Product–Documentation: Ad in Bestways. 1986. July. Rear cover. "Be Some Body." "Introducing the great tasting new diet shake made from protein-rich tofu. A complete 225 calorie meal." Spot in Vegetarian Times. 1987. July.

7552. **Product Name:** Tofu Sandwich Spreads [Garlic, Paprika, Celery, Dill].
Manufacturer's Name: Organic Trading Co. (Importer). Made in The Netherlands by Witte Wonder.
Manufacturer's Address: 10a St. George's Place, Brighton, E. Sussex, BN1 4GB, England. Phone: 273-571772.
Date of Introduction: 1986. June.
Wt/Vol., Packaging, Price: 220 gm glass jar retails in England for £1.09.
How Stored: Shelf stable, 12 month shelf life. Refrigerate after opening.
New Product–Documentation: CSP form filled out by Simon Bailey. 1988. Sept. 28.

7553. Owen, Sri. 1986. Indonesian food and cookery. 2nd edition, revised and enlarged. Prospect Books, 45 Lamont Rd., London SW10 0HU. 268 p. First edition was 1976. Illust. by Thao Soun. Index. 23 cm. [20 ref]
• ***Summary:*** In the chapter titled "Essential ingredients" are sections on "Kecap or soya sauce" (p. 42-43) and tauco (p. 44). Also contains a chapter titled "Tahu and tempeh" (p. 216-28) with good information and recipes on tofu and tempeh. Address: Mustika Rasa, 96 High St., Wimbledon Village, London SW19 5EG. Phone: 01-946-7649.

• ***Summary:*** Contents: Introduction: The traditional tofu man with his horn and bicycle. What is tofu? Flow chart of the tofu making process. Members of the tofu family (varieties of tofu). How to store tofu. Eating right and staying healthy. Table showing nutritional composition of different types of tofu. History of tofu. Cooking with tofu (six recipes).

Note: This is the earliest document seen with the phrase "The meat of the fields" in the title. Much of the information in this article is taken, with permission, from *The Book of Tofu*, by Shurtleff & Aoyagi. Address: Los Angeles writer.

7555. **Product Name:** [Okara Burger].
Foreign Name: Okaraburger.
Manufacturer's Name: Sojatopf. Renamed Soto in April 1989.
Manufacturer's Address: Friedrich-Ebert-Str. 40, D-8323

© Copyright Soyinfo Center 2013

Trostberg, West Germany. Phone: 08621-62538.
Date of Introduction: 1986. June.
Ingredients: Incl. okara, tofu, hazelnuts, tamari.
Wt/Vol., Packaging, Price: 80 gm vacuum pack.
New Product–Documentation: Letter (fax) from Harry Whitford. 1990. May 30. Gives full details on product based on interview with Gerhard (Oskar) Schramm. On 1 Jan. 1990 the company moved to Wolfbergerstr. 47, D-8211 Breitbrunn am Chiemsee, West Germany.

7556. Stein, Margery. 1986. The winning formula: Ten years of testing and tasting made David Mintz a millionaire. *Success!* June. p. 28-32. Cover story.
• ***Summary:*** In 1969 he opened Mintz's Buffet on Manhattan's trendy Upper East Side... "One day I read about tofu in a health food magazine. When I saw the words 'looks like cheese but its not,' I said, 'That's what I've been looking for.' My antenna went up." Mintz made a trip to Chinatown, bought several buckets of bean curd, and went into his kitchen to experiment. "Plans for franchises are proceeding–more than 800 would-be owners are already in Tofu Time's files... A tofu TV dinner is in the works, along with cookies, biscuits, pastas, breads, sauces, dips, drinks, yogurts, low-fat and sugarless Tofutti, and a tofu patty that tastes like a a hamburger."

7557. **Product Name:** Tofu Mozzarella (With Casein).
Manufacturer's Name: Tree Tavern Products.
Manufacturer's Address: 1133 Seagull Lane, Cherry Hill, NJ 08003.
Date of Introduction: 1986. June.
Ingredients: Tofu (51%), soybean oil, casein, sea salt, citric acid, soy lecithin, guar gum.
Wt/Vol., Packaging, Price: 5 lb loaves.
How Stored: Refrigerated.
Nutrition: Per ounce: Calories 80, Protein 8 gm, carbohydrates 1 gm, fat 4 gm, calcium 120 mg, sodium 170 mg.
New Product–Documentation: Medoff. 1986. Whole Life. June. p. 82-84. "Will the Real Soy Mozzarella Please Stand Up." "Several weeks after Soya Kaas came out, a third 'soy' cheese hit the market, distributed by Kononia Foods of Fresh Meadows, New York called *Tofu Mozzarella* (claiming to be 51% tofu). When *Tofu Mozzarella* first appeared in early May [1986] its labels said 'Non-dairy,' but their ingredient list read: tofu, soybean oil, casein, sea salt, citric acid, soy lecithin, guar gum." Kononia put Medoff in touch with an individual named Bob Savar in Cherry Hill, New Jersey, an independent broker who sells the Tofu Mozzarella to them as well as along the east coast. "We asked Savar who made the *Tofu Mozzarella,* and where he got it. He would only tell us that it was made by a company that was 'part of a large conglomerate in New York.' Savar would not tell us who or where this company was, only that they did not want any publicity."

7558. *Toyo Shinpo* (*Soyfoods News*). 1986. Katei de tsukuru tôfu, Hikikko Setto [Make tofu at home using the Hikikko Kit]. July 1. p. 1. [Jap; eng+]
• ***Summary:*** An Osaka-based company, Kansai Toki, makes a machine for grinding dry soybeans to a flour, which can then be used with a tofu kit (hinoki forming box, nigari coagulant, pressing sack, lining cloth; cost 2,500 yen, not including grinder/mill) to make tofu at home. The mill can also be used to grind shiitake mushrooms, niboshi (dry fish), rice, wheat, buckwheat, corn, coffee, konbu seaweed, and herbs.

7559. *Yomiuri Shinbun* (*Yomiuri Daily News, Tokyo*). 1986. Tôfu no junsui-sa de jinsei-kan kae sai-shuppatsu [Because of the purity of tofu, he changed his outlook on life and started a new career (Michael Horne now makes tofu in Australia)]. July 7. [Jap]
• ***Summary:*** Michael Horne has started to make tofu in Australia at Mt. Coolangbura, Bombala, New South Wales 2632. A photo shows Horne cutting tofu in a forming box with a woman in the background.

Michael went to Japan with his parents in 1971; he stayed for 8 months. After graduating from the university, he attended law school for 3 years. But he disliked being a lawyer, so he gave up that career and dropped out for 5 years until he saw books on tofu production and miso production at his parents' home. He made some tofu successfully at home, then started a tofu shop, while his wife baked bread to sell. Their home in the mountains is located 100 km from their nearest customers. He had a steady tofu business by 1983. Address: Japan.

7560. Sieber, R. 1986. Tofu–eine Konkurrenz fuer Milchprodukte? [Tofu–competition for milk products?]. *Deutsche Milchwirtschaft* 37(28):877-81. July 9. [33 ref. Ger]
• ***Summary:*** Contents: Introduction. Production of tofu. Production of quark. Nutritional-physiological comparison of tofu with quark. The microbiological quality of tofu. The use of tofu and quark in the kitchen. 7. Consequences for dairy farming. Summary. Address: Eidgenossisch Forschungsanstalt fuer Milchwirtschaft, CH-3907 Liebefeld-Bern, Switzerland [Federal Research Inst. for Dairy Farming].

7561. *Cheese Reporter* (*Madison, Wisconsin*). 1986. Cheese, other foods being packaged to look like yogurt. July 11. p. 13.
• ***Summary:*** According to The Lempert Report, cheese, tofu, and soy ice creams are being packaged to look like yogurt–a $665 million market at retail–in hopes of capturing the growing segment of calorie- and nutrition conscious

© Copyright Soyinfo Center 2013

consumers. Soygurt, made by Cream of the Bean in Gurnee, Illinois, is sold in a 6-ounce container for $0.85. Brown Cow, a New-York dairy will soon be launching Soy-O soy yogurt; a 6-ounce container will retail for $0.69 and will soon be available in vanilla-almond, banana-strawberry, and spiced apple flavors. Tomsun Foods of Greenfield, Massachusetts, is testing Jofu, a tofu yogurt that is sweetened with high fructose corn syrup and has the consistency of sour cream. Jofu is currently available in Northeastern supermarkets in flavors such as banana-strawberry, orchard, and chocolate-mousse. A 6-ounce container will retail for about $0.70.

7562. Consultancy Bureau. 1986. Classified ad: Newly prepared feasibility reports. *Times of India* (*The*) (*Bombay*). July 11. p. 17.
• ***Summary:*** "Dear entrepreneurs! Avail of our help in setting up your plant through our project feasibility cum market survey reports."

An alphabetical bulleted list of more than 20 reports follows. These include: "Shaving cream. Soya cheese (tofu). Soya flour. Soya oil. Sanitary wares..." Price Rs. 350/- each.

Note: This also appeared in the Aug. 3 (p. 10), Oct. 8 (p. 23) and Oct. 27 (p. 2) issues of this newspaper. Address: I-333, Narania Vihar, New Delhi–110028.

7563. Diamond Group. 1986. Display ad: Soyabean milk beverages paneer yoghurt plant. *Times of India* (*The*) (*Bombay*). July 16. p. 10.
• ***Summary:*** "Offers are invited from manufacturers and suppliers of machinery / technical consultants, by a public limited company of repute for setting up a 30 M.T. [metric tonne] per day (10,000 M.T. per year) capacity plant in Rajasthan for manufacture of soyabean milk, beverages, paneer, yogurt etc. Please write to:

"Technical director, Diamond Group." Address: B-27-A, Alaknanda, Pocket B & C, New Delhi-110 019.

7564. Wilson, Abagail. 1986. Tempeh Works making money–but not a profit. *Recorder* (*Greenfield, Massachusetts*). July 18.
• ***Summary:*** Tempeh Works had sales of $550,000 in 1985 and Michael Cohen anticipates they will reach $650,000 in 1986. "The company's potential is proven but money is scarce. Cohen has been able to secure $325,000 in seven years in both state and federal loans. But while the money helped him buy property and move into a new facility, most of it could not be used to meet two critical needs of his business: marketing and working capital." He has found that money for R&D is impossible to find.

"The single financier who invested $50,000 in Tempeh Works for a high-risk venture–Tofu Pups, a soybean hotdog with no cholesterol or nitrates–gave birth to a product that in one year has brought in 65 percent of the company's sales."

Cohen now plans to raise $500,000 through a public stock offering. Half that sum will go to marketing.

7565. *Toyo Shinpo* (*Soyfoods News*). 1986. Tôfu ten no imeeji ga kawaru. Fasshonaburu tenpo [The image of tofu shops is changing. A fashionable shop (Okura-ya in Arakawa, Tokyo)]. July 21. p. 10. [Jap; eng+]
• ***Summary:*** This shop started in 1914, but recently the exterior was changed to resemble a sushi parlor, and sales tripled. He sells natural nigari tofu. Now customers buy his tofu and products as gifts (instead of the usual confections). Contact: Tadao ISHIBASHI, President, Okura-ya, Minami Senju 5-36-11, Arakawa-ku, Tokyo-to, Japan. Tel. 03-801-6958.

7566. Sarault, Catherine. 1986. Nutritious tofu: A curious food. *Bulletin* (*Norwich, Connecticut*). July 23.
• ***Summary:*** Tomsun Foods International of Greenfield, Massachusetts, claims to have about 75% of the New England tofu market. Tomsun makes about 3.5 million lb/year of tofu, which (reportedly unlike many other companies) it pasteurizes. Contains 3 recipes: Shoup's lentil soup (with tofu). Tomsun's luscious cheesecake. Tomsun's sweet and sour tofu.

7567. West, Janet. 1986. San Jose firm makes tofu the old fashioned way [Kenny Nozaki of San Jose Tofu Co.]. *San Jose Business Journal* (*California*). July 28. p. 1, 18.
• ***Summary:*** Chester Nozaki, age 29, is waiting anxiously to replace his father, Ken Nozaki, age 53, as the owner of the San Jose Tofu Co. A photo shows Ken Nozaki in the foreground ladling curds in to a tofu pressing box while Chester stands in the background tasting tofu. Ken Nozaki has been running one of the only hand-made tofu operations in the Bay Area for almost 40 years. Last year Nozaki's company sold $80,000 in tofu and Japanese retail food products. Nozaki makes about 420 blocks of tofu a day at $1 a block, while competitor Azumaya makes 24,000 a day for as low as 53 cents a block. A major competitor is Fuji Tofu Co., owned by Mr. Kake, located just one block away. Fuji started out making tofu by hand 25 years ago, but they switched to a four-step automation process when "the manual way became too time consuming." Fuji also sells its tofu for $1 a block. Cheser Nozaki plans to modernize and partially automate the store's equipment and marketing strategy. He also intends to improve his Japanese so he can communicate with the majority of the store's customers.

7568. Stein, Margery. 1986. Versatile tofu is main ingredient in Mintz' millions. *Journal* (*Milwaukee, Wisconsin*). July 29.
• ***Summary:*** "Part relentless entrepreneur, part eccentric chef, part mad scientist, Mintz worked alone night after night in his laboratory* for 10* years, measuring, mixing, testing, tasting... "I'd been thinking about the problem when one day, I read about tofu in a health-food magazine*. When I saw the

© Copyright Soyinfo Center 2013

words “looks like cheese but it is not” I said, “That’s what I’ve been looking for.” My antenna went up.’ Mintz made a trip to Chinatown*, bought several buckets of bean curd, and went into his kitchen to experiment. Out came such tofu-filled goodies as croissants, cheesecake, even imitation sour cream. Mintz was definitely onto something and the store’s sales shot up to $1 million...

“This emphasis on excellence pervades Mintz’s life. Behind his desk at the firm’s Rahway, New Jersey, New Jersey headquarters stands a case of 100 tiny leather-bound books on ethics printed in Hebrew... One spring day in 1980, Mintz finally put together his winning formula. He spent a couple more years preparing the product for market, and then, in May 1982, he delivered 5 gallons of Tofutti to a Manhattan [New York] health-food store. ‘I dropped it off by myself and got a parking ticket,’ he recalls. ‘When I got back to my one-room office in Brooklyn, there was this message on my machine: ‘It’s selling well. Bring more!’ That was my most exciting moment.’ Tofu Time went public in Dec. 1983. Since then, the stock has tripled in value and split three times, making the Tofutti tycoon, with his controlling interest of 51%, worth more than $20 million on paper. The firm has relocated to the larger facility in Rahway...” A photo shows a youthful looking Mintz with loosened tie holding a cone of Tofutti. Note: This story contains several errors, starting with the title; in the summary, each is marked with an asterisk.

7569. Gay, Julie. 1986. Farmfest visitors to get opportunity for a taste of Tofulicious [at Minnesota Soybean Growers Association]. *Agri News* (*Rochester, Minnesota*). July 31.
• ***Summary:*** The Minnesota Soybean Growers Assoc. will be offering a taste of Tofulicious frozen dessert. As many as 16 county soybean organizations are expected to participate and feature the Tofulicious at local events such as county fairs. The frozen dessert first appeared in the Twin Cities last summer. Address: Minnesota.

7570. *Los Angeles Times.* 1986. Tofu maker celebrating first year in United States. July 31. Part 8. p. 38.
• ***Summary:*** About Morinaga Nutritional Foods, maker of Mori-Nu tofu. A photo shows Yasuo Kumoda and Art Mio with the tofu. Address: California.

7571. **Product Name:** Vive (Frozen Tofu Dessert).
Manufacturer’s Name: Allied Foods Ice Cream Co.
Manufacturer’s Address: England.
Date of Introduction: 1986. July.
How Stored: Frozen.
New Product–Documentation: Food Trade Review. 1986. 56(7):343. July. “Vive, frozen tofu dessert, launched by Allied Foods Ice Cream Co. in UK.”

Talk with Ray Pierce of Genice Foods Ltd. 1994. Feb. 8. Genice had nothing to do with making this product. Ray was a director of Allied long before they ever made any soya products. The product was very “down market” [low quality], using inexpensive ingredients and lots of artificial ingredients.

7572. American Soybean Association. 1986. Soya Bluebook ‘86. St. Louis, Missouri: American Soybean Assoc. 278 p. July. Index (bold face type indicates advertiser). 22 cm.
• ***Summary:*** Contents: Index of advertisers (p. 4). Soybeans: Your profit opportunity, by Dr. Kenneth L. Bader, CEO, ASA (p. 5). Organizations (by country, within each country alphabetically): For each gives the name, address, contact person, year founded, number of members, objectives and activities, publications. Countries are: USA, Australia, Austria, Bangladesh, Belgium, Brazil, Canada, England, Germany (Federal Republic of), Finland, France, Hungary, India, Indonesia, Italy, Ivory Coast, Japan, Malaysia, Mexico, Netherlands, Norway, Philippines, Portugal, Senegal, Spain, Sweden, Taiwan, Turkey, Yugoslavia, Zaire, Zimbabwe. U.S. agricultural education, research & extension (by state; mainly state agricultural / land-grant colleges), ASA international offices and world regions (colored world map and photo of each country director), government trading agencies.

Soy directory: Oil extraction plants / refineries (alphabetically by state in USA, then by country), soyfoods / edible soy products manufacturers (lecithin, soy flour, soy grits, soy protein concentrates & isolates, textured soy protein, binders, extenders, simulated meat products, soy oil products {margarine, shortening, cooking / salad oil, salad dressings}, soyfoods–beverages [soymilk], frozen desserts, soy sauce, tempeh, tofu, whole soybean snacks {soynuts}, other soy-based foods), within each product by country, producers of soy products for industrial manufacturers (by products, etc.): Industrial lecithin, industrial soy flour / soy protein, industrial soy oil, soy sterols and tocopherols, soybean fatty acids.

Soybean manufacturing support industries: Manufacturing equipment & supplies, soybean processing equipment & supplies, manufacturing services. Marketing and auxiliary services: Brokers, financial services, forwarding agents, marketing consultants, trading companies, transportation, warehousing–export / import.

Soy statistics (tables & graphs): Soya conversions [weights & measures], metric conversions, temperature conversions. U.S. soybean planting and harvesting dates (by state). U.S. soybean acreage, yield and production, 1925–1985 (by year). U.S. soybean planted acreage by state (1970–1985). U.S. soybean harvested acreage by state (1970–1985). U.S. soybean yield by state (1970–1985). U.S. soybean production by state (1970–1985). U.S. soybean production major crops (1920–1985): One graph each for soybeans, corn, wheat, and cotton. U.S. harvested acreage of major crops (1920–1985): One graph each for the big 4. U.S. yield per acre of major crops (1920–1985): One graph each

for the big 4. Argentine soybean area, yield and production by province (1975-1986). Brazilian soybean area, yield and production by province (1975-1986). Canadian soybean production: Acreage, yield, production, farm price and value (1950-51–1984-85). Canadian soybean production and utilization (1950-1984, year beginning Aug. 1): Production, imports, supplies, exports of beans, processed for oil and meal, soy oil produced, soybean oilcake produced. World soybean production: Area and production in specified countries and the world total (1980/81–1985/86). Soybean production by major countries (one graph, 1925-1985): U.S., Brazil, PRC [China], Argentina. Share of world soybean production [percentage] by major countries (one graph, 1925-1985): Big 4. Soybean acreage by major countries (one graph, 1925-1985): Big 4. Share of world soybean acreage [percentage] by major countries (one graph, 1925-1985): Big 4. U.S. soybeans: Supply, disposition, acreage, yield and price (1970–1986). Soybean usage in the U.S. for crush and exports (one graph, 1925-1985, million bushels). U.S. soybean exports: Percent of total usage (one graph, 1925-1985). Argentine soybeans and products (oil and meal): Supply and disposition (1975/76–1986/87). Brazilian soybeans and products (oil and meal): Supply and disposition (1975/76–1986/87). Prices of U.S. soybeans, No. 1 yellow: Average price per bushel, Illinois country shipping points (by year and month, 1950–1984, dollars). Prices of U.S. soybeans received by farmers: Average price per bushel (by year and month, 1950–1984, dollars). U.S. soybean price support operations (1945-1985, incl. CCC). U.S. soybean crop value: U.S. and major producing states (1925-1985): Illinois, Iowa, Indiana, Ohio, Missouri, Minnesota, Arkansas. Fold-out color map of U.S. soybean acreage by county. U.S. farm marketings of soybeans: Percent of open market farm sales by month (1975/76–1984/85). Map of U.S. soybean processing plants. Value of U.S. soybean products per bushel and crush margin (1950-1984): Soy oil, soybean meal, soybean price (received by farmers, No. 1 yellow Illinois), margin (ditto). U.S. soybean meal: Prices paid by farmers–44% protein, dollars per 100 lbs, by year and month (1950-1984). U.S. soybean meal: Average wholesale price–44% protein, dollars per ton, bulk Decatur, Illinois, by year and month (1950–1984). U.S. soybean meal: Beginning stocks, production, exports and domestic disappearance, by year and month, thousand short tons (1978/79–1984/85). U.S. soybean cake and meals: Supply, disposition and price (1977-1985): Soybean, cottonseed, linseed, peanut. Major world protein meals: Supply and utilization (1981/82–1985/86; Production, exports, imports, consumption, ending stocks): Soybean, cottonseed, rapeseed, sunflowerseed, fish, peanut, copra, linseed, palm kernel. World major oilseeds: Supply and utilization (1981/82–1985/86). World major vegetable and marine oils: Supply and utilization (1981/82–1985/86). Prices of U.S. soybean oil: Soy oil, domestic crude, average cents per pound in tank cars at Midwestern mills, by year and month (1950/51–1984/85). U.S. soybean utilization, by year (1960-1984): Food–Shortening, margarine, cooking and salad oils, other edible, total. Nonfood–Paint and varnish, resins and plastics, fatty acids, other inedible (incl. soap), total. Total domestic utilization. U.S. soybean oil value as percent of total soybean value (1930–1985). Note: Peaked at about 55% in 1930, fell to about 32% in 1980-81. U.S. soybean oil: Supply, disposition and price (1960-1985). U.S. edible fats and oils: Supply and disappearance (1978-1985): Coconut, corn, cottonseed, lard, palm, peanut, soybean, sunflower, tallow (edible). U.S. exports of soybeans, by year and month (1953–1984). U.S. soybean exports by port and country of destination (Sept. 1984–Aug. 1985): Ports are–St. Lawrence Seaway, Lakes, Atlantic, Gulf (by far the largest), Pacific, Interior. U.S. exports: Soybeans–Volume of exports by country of destination (in metric tons) and total value (1981–1985). U.S. exports: Soybean oil–Volume of exports by country of destination (in metric tons) and total value (1981–1985). U.S. exports: Soybean oilseed cake and meal–Volume of exports by country of destination (in metric tons) and total value (1981–1985). Map of U.S. soybean exports by port areas: Sept. 1984–Aug. 1985 (1,000 bushels). U.S. exports of soybean, cottonseed and sunflowerseed oils: U.S. commercial and P.L. 480 exports–Volume of exports by region and country of destination (in metric tons) and total value (1979/80–1984/85; year beginning in October). U.S. exports: Soybean oil–P.L. 480, Title I and III, volume (in metric tons) and value (in $1,000) by country of destination (FY 1981–1985). U.S. exports of soybean and cottonseed oils: U.S. commercial and P.L. 480 exports (1950–1984, million lbs; incl. P.L. 480 as a percentage of the whole). Brazilian exports of soybeans and products to major countries (1,000 metric tons; 1976-1984). Graph of soybean & product exports by major countries (U.S., Brazil, Argentina) (soybean equivalent; 1970-1985). Graph of world share of soybean & product exports by major countries (U.S., Brazil, Argentina) (1970-1985). Note: U.S. share has fallen from 95% in 1970 to about 50% in 1984.

Glossary: General terms, soy protein terms. Standards & specifications: NSPA, Association of American Feed Control Officials (AAFCO), USDA (definitions and grades). Index. Address: P.O. Box 27300, St. Louis, Missouri 63141.

7573. Bean Supreme Soyfoods. 1986. Price list. P.O. Box 78 084, 1 Wallingford St., Grey Lynn, Auckland, New Zealand. • ***Summary:*** The company makes Tofu, Tempeh, Cottage Spread, Soymilk, Soysage, and Non-Dairy Frozen Dessert. Address: Grey Lynn, Auckland, New Zealand.

7574. **Product Name:** Bean Supreme Cottage Spread (Non-Dairy Tofu Cottage Cheese).
Manufacturer's Name: Bean Supreme Soyfoods.
Manufacturer's Address: P.O. Box 78 084, 1 Wallingford

© Copyright Soyinfo Center 2013

St., Grey Lynn, Auckland, New Zealand.
Date of Introduction: 1986. July.
New Product–Documentation: Manufacturer's price list. 1986. July. 250 gm size.

7575. Bean Supreme Soyfoods. 1986. Tofu (Leaflet). Box 78-084, Grey Lynn, Auckland 1, New Zealand. 3 panels each side. Each panel: 21 x 10 cm. Undated.
• ***Summary:*** Printed with purple ink on beige paper. On the front panel, below the large, bold letters "Tofu," is written (on a purple background): "High protein. No cholesterol. Low fat. Low calorie. Ingredients: Soybeans, water, natural coagulant (nigari). No preservatives. The bottom half of panel 1 is about "Bean Supreme tofu." Panel 2 contents: Nutritional content. Low fat and cholesterol. Weight watchers. Vitamins and minerals. Storage. Let's eat... There are 11 recipes, starting with Chili con tofu, accompanied small illustrations from *The Book of Tofu*, by Shurtleff & Aoyagi. After the last recipe: "Bean Supreme Soyfoods: manufacturers of Tofu / Tofu Cottage Spreads, Tempeh–Fermented Soybean Cake. Below that is an order form for 4 books on tofu and tempeh. Address: Auckland, New Zealand.

7576. **Product Name:** [Tofu Croquettes].
Foreign Name: Tofu-Kroketten.
Manufacturer's Name: Christian Nagel Tofumanufaktur.
Manufacturer's Address: Oelkersallee 14a, D-2000 Hamburg 50, West Germany. Phone: 040/89 49 37.
Date of Introduction: 1986. July.
Ingredients: Tofu*, millet (*Hirse*)*, onions*, nori, soy sauce (*Sojasauce*), rolled oats (*Haferflocken*)*. * = Organically grown (*aus kontrol. biolg. Anbau*).
How Stored: Refrigerated.
New Product–Documentation: Form filled out by Christian Nagel. 1988. Product introduced July 1986. They now make 120-160 kg/month. Label. 1988. 4 by 3 inches. Black on beige. Handwritten.

Label sent by Anthony Marrese after visit to Christian Nagel in Hamburg. 1989. Dec. Black on red. Handwritten. No weight is given.

7577. Cox, Peter. 1986. Why you don't need meat. Wellingborough, England and New York: Thorson's Publishing Group. 237 p. July. Illust. 20 cm. [40+* ref]
• ***Summary:*** A convincing, health oriented popularization of the case against meat. Contents: Acknowledgements. Introduction. 1. Connections. 2. Meat-eaters vs. wheat-eaters. 3. Meat, you and cancer. 4. Breaking free! 5. Eating your heart out. 6. There's junk in your joint. 7. How not to wreck a marriage. 8. The deadly duo: Diabetes and hypertension. 9. How to get high on fibre. 10. A view into hell [the slaughterhouse]. 11. What every body needs. 12. The baby that eats five people. 13. Changes. Appendixes: 1. Using the nutrition checker. II. Resource directory.

Soya milk, soya beans, tofu, tempeh, tamari and miso are mentioned in the nutritional tables and resource directory.

Cox, who was the first chief executive of the Vegetarian Society of the United Kingdom, is very familiar with both the scientific and popular literature on the subject.

Thorsons states in an ad: "There is mounting scientific proof that the meat we eat today actually *causes* heart disease, cancer, obesity and other degenerative diseases. The author exposes the black market in animal growth hormones, looks at the unregulated use of antibiotics in animal feed, and shows why a meat-oriented diet can actually be nutritionally deficient." A portrait photo on the rear cover shows Peter Cox.

Note: According to Vegetarian Times (Sept. 1987, p. 35), this book "has become a best seller in the U.K. and was selected by the Booksellers' Association of Great Britain as 'best paperback non-fiction campaign.'" See this issue of VT for more on Cox, Chrissie Hynde, and Reprieve! Address: First Chief Executive of the Vegetarian Society of the UK, England.

7578. **Product Name:** Tofu (Vacuum Packed), Tofu Sloppy Joe, and Tofu no-Egg Salad.
Manufacturer's Name: Fresh Tofu Inc.
Manufacturer's Address: 900 Line St. (P.O. Box 1125), Easton, PA 18042. Phone: 215-258-0883.
Date of Introduction: 1986. July.
New Product–Documentation: Talk with Gary Abramowitz. 1989. Aug. 21. The company bought a vacuum packaging machine in about July 1986 and added a 1 lb packaged tofu to their bulk tofu. At about the same time they launched a Tofu Sloppy Joe, the only product of theirs that has ever failed. In Sept. 1986 they introduced a Tofu No-Egg Salad.

• ***Summary:*** About Tomsun Foods Inc. and Nasoya Foods. John Paino says that Tomsun is focusing on products for the dairy section, whereas Nasoya has chosen to remain in the produce section. "Both companies have branched out into tofu-based 'second-generation' products"–in hopes of reaching a wider market. These include salad dressings, soy mayonnaise or Soyannaise, and tofu burgers.

"'Nasoya has been more conscious of purity over the years because of their macrobiotic background. It gives them a philosophical attitude to water, coagulant and soybeans that translates into high quality, and they present their product that way,' says William Shurtleff, author of 'The Book of Tofu' and director of the Soyfoods Center in Lafayette, California."

Tofu is made from soy milk, "mixed with the coagulant nigari–a residue of dried seawater imported from Japan–and compressed."

Photos show Tom Timmins (age 40) with Jofu and John Paino with his tofu products. Address: Massachusetts.

7587. Gowland, Hermione. 1986. Wheat gluten bears a remarkable resemblance to real meat. *Guardian* (*England*). Aug. 8. p. 14.
• ***Summary:*** The corner stones of the Buddhist vegetarian cuisine called Shojin Ryori "were beancurd [tofu], beancurd skin [yuba], and wheat gluten" [fu].

7588. Spencer, Colin. 1986. Tofu is like a blank sheet of paper on which you write. *Guardian* (*England*). Aug. 8. p. 14.
• ***Summary:*** The article begins: "Tofu is soy bean curd. There are now many brands on sale,..." Morinaga makes a silken tofu from Japan; it can be stored outside the refrigerator. Another fairly soft tofu from Japan is made by Kikkoman. "The definitive book on the subject has long been *The Book of Tofu* by William Shurtleff and Akiko Aoyagi."

7589. Barnett, Mark; Barnett, Gail. 1986. Four Rivers. *Washington Post.* Aug. 10. p. SM26-27.
• ***Summary:*** This is a review of the restaurant Four Rivers, 184 Rollins Ave., Rockville, Maryland. "Even more delicate (perhaps bland to some tastes) are the cold bean sprout rolls, sushi-pretty, in which fresh, crisp sprouts are rolled in a very thin tofu skin [yuba] and served with a hot peanuty sauce." Also tasty is the tofu and greens soup. Address: Japan.

7590. Legler, Gretchen. 1986. Its tofu-mania. Soybean dessert treat is gaining popularity as ice cream alternative [Tofulicious from Eastern Foods Corp. in Minneapolis]. *AgWeek* (*Grand Forks, North Dakota*). Aug. 18.
• ***Summary:*** Jim Palmer, executive director of the Minnesota Soybean Growers Assoc., said the group sold 2,200 four-ounce cups of Tofulicious at the Farmfest. In the year that Eastern Foods has been making Tofulicious about 30,000 lb of tofu, soy oil, and soy protein isolate has been turned into 30,000 and 50,000 lb of the frozen treat.

"Current activities include a newsletter, a public relations program, and standards setting. The association also sponsors special soyfood pavilions at trade shows.

"Judith A. Walker, a Smith, Bucklin executive, is Executive Director. Smith, Bucklin has offices in Chicago, Washington, D.C. and Los Angeles and is the largest association management firm in the country with 132 association clients." Address: Washington, DC.

7592. Kurylko, Diana. 1986. Transforming tofu into profits: Montville-based Legume Inc. seeks niche with frozen foods. *Daily Record* (*Morristown, New Jersey*). Aug. 31.
• ***Summary:*** Contains a brief history of Legume. A photo shows Gary Barat feeding a tofu dish to his wife, Chandri. Legume went public in 1982 and now has 10 different tofu frozen dishes in the freezer sections of more than 6,000 supermarkets in the Northeast and health food stores nationwide. The vegetarian dinners have sold fairly well. Sales grew from $117,000 in 1982 to $1.8 million last year. In fiscal 1987 Legume will spend about $1 million advertising on AM radio stations and in magazines including McCalls, Shape, and American Health. "Since going public, however, Legume has yet to turn a profit. Legume had sales of $1.85 million for the fiscal year ended June 30 [1986], versus sales of $850,000 in 1985, but suffered a loss of $1.1 million last year compared with a loss of $450,000 during fiscal 1985. Gary predicts sales could double in 1987. The stock is trading over-the-counter for 35 cents a share," up from 10 cents a share when Legume went public. It has traded as high as 65 to 70 cents a share. Address: Staff.

7593. *Dairy Field.* 1986. Accepting tofu in America: Is tofu on the brink of becoming the big seller in supermarkets. Aug. p. 34-35.

• ***Summary:*** Discusses Bunge Edible Oil Corp.'s Tahiti Tofu Bar, a frozen tofu dessert. This bar was developed by Sun Blends Co., Cleveland, Ohio, which is looking for processors to make and sell its tofu products.

7596. *Food Engineering.* 1986. Reduction of cholesterol achieved in tofu meats. 58(7):61-62. Aug.
• ***Summary:*** Walker and Wilks of Tofoods Co. are making Bar-B-Q Tofu, Sweet and Sour Tofu, and Tofu Teriyaki, frozen entrees having a shelf life of 9-12 months. These meat replacers are discussed with respect to the growing popularity of tofu entrees, in part for health reasons. To overcome the problems of the binding capabilities of tofu, basic mixtures of 35-50% tofu and 20% meat are recommended.

Other popular uses of tofu include salad dressings (see *Food Engineering*, Nov. 1985, p. 58) and as an egg substitute. Last fall, Fantastic Foods (Novato, California) introduced Tofu Scrambler Mix. The cook adds the mixture to fresh tofu, then cooks it for a few minutes. The result resembles scrambled eggs.

A photo (courtesy of Advanced Food Systems) shows products made by combining meat and tofu with other ingredients.

7597. *Food Engineering.* 1986. Sea and soy proteins spark analogs, blends. 58(8):91. Aug.
• ***Summary:*** "By acquiring the Griffith soy protein concentrate line (April 1985) and the Staley concentrate line (Feb. 1986), Central Soya is now the nation's only supplier of soy protein concentrates." Also discusses Ralston Purina custom isolated soy proteins, Grain Processing Corp.'s Frostline tofu mix, Dreamy Tofu from Giant Foods, Tofu For You (a non-dairy frozen dessert based on powdered tofu) from the Ingredient Systems Div. of ITC, spray dried tofu from St. Peter Creamery and Clofine Dairy Products, creamy tofu dressings and Nasoyanaise from Nasoya Foods.

7598. Hagler, Louise. 1986. Tofu quick & easy. Summertown, Tennessee: The Book Publishing Co. 96 p. Illust. Recipe index. Color photos. 23 cm.
• ***Summary:*** This is a vegetarian (but not a vegan) cookbook. Contains 100 new recipes. Contents: Introduction: Nutritive values, cooking time. Care & handling: Purchasing tofu, measuring tofu, marinating tofu, useful kitchen tools, freezing tofu. Breakfast or brunch (14 recipes). Dips and spreads (16 recipes). Salads and salad dressings (32 recipes). Soups (12 recipes). Main dishes (37 recipes). Desserts (24 recipes). Each recipe is accompanied by a nutritional analysis showing the content of calories, protein, fat, and carbohydrates. The 11 attractive color photos of tofu recipes greatly enrich the book. Address: Summertown, Tennessee.

promotion. 5(9):3. Aug.
• ***Summary:*** Discusses Iowa soyfoods companies: Alex Green of American Pride Tofu Co. (Fairfield), makes 15,000 to 20,000 lb of tofu a month. Don Alger of Iowa Nuts Inc. (Spencer) says the company was founded in about June 1986. They grow the soybeans then buy them back in bulk as soynuts to package them in a 5 oz can and 1.5 oz foil packs, and distribute them. Plans are to market 400,000 lb the first year. The Iowa Chip is an extruded mixture of 90% corn and 10% soybeans developed at Iowa State Univ. using an Insta-Pro extruder. Grain Processing Corp. of Muscatine makes a soy ice cream. Miller Farms Food Co. of Cedar Falls has a portable soymilk plant built on two 45-foot trailers. It can produce up to 2,000 gallons of soymilk a day. INARI Ltd. in Michigan has made Super Soynuts since 1976. A new product is soynut butter with less calories per ounce (only 157) than peanut butter. Address: Iowa.

7601. **Product Name:** Island Spring Tofu Cookies [Spice Currant with Almonds, or Chocolate Chip].
Manufacturer's Name: Island Spring, Inc.
Manufacturer's Address: P.O. Box 747, Vashon, WA 98070.
Date of Introduction: 1986. August.
New Product–Documentation: Talk with Yvonne Kuperberg of Island Spring. 1988. June 2. This product, announced in Product Alert in August 1986, was test marketed but never formally launched. Form filled out by Yvonne Kuperberg. 1988. Oct. 1. Labels are no longer available.

7602. *Kurowassan* (*Tokyo*). 1986. Tôzai tôfu jijô [The tofu situation, east and west]. Summer. p. 4-5, 100-09. Special issue (Bessatsu). [Jap]
• ***Summary:*** This colorful article has 4 parts: 1. High-class tofu in Nagasaki that costs ¥1,000 and is sold in a wooden box. 2. Shônan-mame–Hiko's tofu steak. 3. American tofu cookbooks (four). 4. Favorite tofu recipes from readers. A color photo (p. 5) shows a traditional tofu maker selling tofu from a wooden box on the back of his bicycle. Address: Japan.

7603. **Product Name:** Firm Tofu, Regular Tofu, and Tofu Noodles.
Manufacturer's Name: Louie Foods International.
Manufacturer's Address: 471 S. Teilman Ave., Fresno, CA 93706. Phone: 209-264-2745.
Date of Introduction: 1986. August.
New Product–Documentation: Talk with Jay Louie. 1988. April 4. His is basically a large mung bean sprout company. He started making tofu in about 1986. He does not make soy sprouts because there is not enough demand.

Letter from Jennifer Yuen of Yan Can Cook in Foster City, California. 1991. Nov. 21. Her husband's family owns a small but growing company, Louie Foods International in Fresno, that manufactures Chinese noodles and tofu. Thirty years ago, Mrs. Louie started the company by growing bean sprouts in coffee cans to support their small income. Now the company has grown and is supplying bean sprouts, noodles, and tofu to the whole San Joaquin Valley.

Form filled out and leaflet sent by Jay Louie. 1998. July 21. Louie Foods International, 471 So. Teilman Ave., Fresno, CA 93706. Phone: 209-264-2745. The area code will change to 559 from 209 on 1 Nov. 1998. Leaflet (undated) titled "Louie Foods International." Very professional and attractive. Black and white, with many photos and recipes. The company makes Louie's Firm Tofu, Louie's Soft Tofu, plus Won Ton Wrappers, Egg Roll Wrappers, Chop Suey Mix, Bean Sprouts, and Fresh Noodles.

7604. McNamara, Stephen H. 1986. Surimi, tofu, & fat-free foods vs FDA label rules. *Food Processing* (*Chicago*) 47(8):77. Aug.
• ***Summary:*** Negative nomenclature: The FDA believes that "soybean curd" is or should be the common or usual name for tofu. McNamara feels it "may sound to the American consumer like spoiled food." This article was based on a talk given by McNamara, a photo of whom is shown.

7605. Medoff, Marc. 1986. Whole frauds in the news: Tofutti Brands Inc. *Whole Life.* Aug. p. 65.
• ***Summary:*** "Mintz, whose products are mostly sugar and oil, with a little added tofu for publicity reasons, landed a spot on the CBS Morning News last July 9 appearing on their "Making it in the USA" segment. Mintz used the opportunity to shamelessly promote a number of his deceptively labeled products and acknowledge he's literally become obese taste-testing the junk he makes."

7606. **Product Name:** Natural Prepared Entrees: Tofu Burger.
Manufacturer's Name: Natural, Inc.
Manufacturer's Address: 6650 Santa Barbara Ct., Elkridge, MD 21227. Phone: 301-796-3211 (Balt.); 301-621-5388 (DC).
Date of Introduction: 1986. August.
Ingredients: Nigari tofu, carrots, cabbage, onions, celery, okara, soymilk, sesame seeds, sunflower seeds, soybean oil, sea salt, spices.
Wt/Vol., Packaging, Price: 7 oz vacuum pack.
How Stored: Refrigerated.
New Product–Documentation: Label. 1986, undated. "Completely vegetarian. All natural. No preservatives." Talk with Larry C. Betzler of American Soyfood Industries. 1988. April 1.

Traditional Foods: Some Products and Technologies. 292 p. See p. 209-15. Aug. Presented at the UN University Workshop on "Traditional Food Technologies: Their Development and Integrated Utilisation with Emerging Technologies." Held June 1983 at CFTRI, Mysore, India.
• ***Summary:*** Contents: Soybean food technologies: Traditional but local products include Rokujo-dofu (made in a small mountainous region of Yamagata prefecture), Hoshi Abura-age or Kanso Abura-age (made in Matsuyama city, Ehime prefecture), Yuba (made fresh mostly in Kyoto), and Shimi-dofu (made in cold, mountainous regions of northern Japan). Emerging soybean food technologies related to traditional foods: Soymilk (tonyu), Daizu-no-Hana (developed by Asahimatsu Shokuhin; marketed with help from Takeda Yakuhin Kogyo; a flowchart is given). Traditional foods prepared from vegetable products: e.g. Tofu derivatives. Address: National Food Research Inst., 2-1-2 Kannondai Yatabe, Tsukuba, Ibaraki 305, Japan.

7609. Shah, F.H. 1986. Fermented foods of Pakistan. In: V.H. Potty, et al. eds. 1986. Traditional Foods: Some Products and Technologies. 292 p. See p. 44-48. Aug. Presented at the UN University Workshop on "Traditional Food Technologies: Their Development and Integrated Utilisation with Emerging Technologies." Held June 1983 at CFTRI, Mysore, India. [7 ref]
• ***Summary:*** In the section titled "Fermented foods from different raw materials," the subsection on Legumes states that "Soybean meal, left after extraction of oil, can be used for producing a variety of foodstuffs," including soy yogurt, soy-cheese (tofu, apparently fermented–based on chapter title), and tempeh.

Concerning "Soy-cheese: Cheese produced from soybeans has cream white colour, delicate flavour, pleasant taste and texture. It is a low-cost high quality protein, free from cholesterol and with minimum amount of saturated fats." Address: Food Technology and Fermentation Div., PCSIR Laboratories, Lahore, Pakistan.

7610. **Product Name:** [University Tofu].
Foreign Name: Daigaku Tôfu.
Manufacturer's Name: Taishi Foods Co. Ltd.
Manufacturer's Address: Furukawa City, Japan.
Date of Introduction: 1986. August.
How Stored: Refrigerated.
New Product–Documentation: C. Tsukamoto, et al. et al. 1991. "A process for the removal of glycosides during tofu production and an evaluation of the marketability of the final product." p. 47-51. This tofu, made by a special process and containing a low level of glycosides, has been sold since Aug. 1986 in Sendai city, Japan. On a taste panel test of 27 consumers living in Sendai city, it received significantly higher scores than both soft and firm tofu for taste, flavor, smoothness, and overall acceptability.

7611. **Product Name:** Original Pizsoy (Whole-Wheat Non-Dairy Pizza Made with Tofu Mozzarella [Which Contains Casein]).
Manufacturer's Name: Tree Tavern Products.
Manufacturer's Address: P.O. Box 1314, Cherry Hill, NJ 08034. Phone: 609-667-1763.
Date of Introduction: 1986. August.
New Product–Documentation: Ad in Whole Foods. 1986. Aug. p. 59. Oct. p. 80. Also in Natural Foods Merchandiser. 1986. Oct. p. 80 and Dec. p. 19. "The naturally delicious alternative to pizza." "Made with Tofu Mozzarella." A photo shows the product label.

Leaflet (color, 2-sided, 8½ by 11 inches). 1987. "The Naturally Delicious Alternative to Cheese Pizza–Without the lactose, cholesterol, butterfat, sugar and heavy doses of sodium and calories." The front shows a large color photo of the package. The back describes how the product is made, and gives ingredients and nutritional analysis. But nowhere is the consumer told that casein, a key ingredient in Tofu Mozzarella, is derived from cow's milk.

Talk with a reporter. 1990 Nov. Robert Savar says he developed the first soy cheese in America. First he developed a regular whole-wheat pizza with regular cheese. Then he wanted to developed Pizsoy with soy cheese. This led to his work on soy cheese.

7613. Watanabe, Tokuji. 1986. Traditional foods: Their values, problems and research and development. In: V.H. Potty, et al. eds. 1986. Traditional Foods: Some Products and Technologies. 292 p. See p. 201-08. Aug. Presented at the UN University Workshop on "Traditional Food Technologies: Their Development and Integrated Utilisation with Emerging Technologies." Held June 1983 at CFTRI, Mysore, India. [7 ref]

• ***Summary:*** Contents: Introduction (ways of classifying traditional foods). Structural characteristics of traditional food industries in Japan. Traditional food processing technologies. Problems and reevaluation of traditional foods. New food processing technologies applied to traditional foods. Technologies applicable to traditional foods. Assessment in modernization of traditional food production. Some activities related to traditional foods. Conclusion.

Traditional foods can be classified as staple or non-staple, fresh or processed (processing technologies include fermentation [e.g. miso, soy sauce, natto], salting, acidifying, drying after freezing [kori-tofu], sun-drying, fractionation [tofu], fabrication [ganmodoki], simulation of animal foods [soy milk, ganmodoki, su-ho-tai made from yuba in China]), animal or vegetable origin, and region or national production.

In Japan, rice consumption is decreasing year after year. It is thus not surprising that consumption of traditional foods closely associated with rice production are also decreasing. The reevaluation of traditional foods and their advantages and disadvantages are discussed. New food processing and packaging technologies are being applied to traditional foods, including tofu, miso, natto, and koji. Recently a method has been found to extend the shelf life of natto beyond the traditional 1-2 day period. Miso has been freeze-dried.

"Another application of a new process for the traditional foods is the emulsion curd which is a semi-solid mixture with definite proportion of soybean protein, oil and water. It keeps its form without flow. Even the dried or frozen product recovers its original texture by hydration or thawing. Therefore, it is used as a substitute in dried or frozen *Tofu*. Regular *Tofu* cannot recover its texture once it is frozen or dried...

Miso can be enriched with vitamin B-2 and calcium, and its salt content lowered. Since 1980 the Laboratory of Food Science at Kyoritsu Women's University has been conducting a research survey on traditional foods and dishes in Japan in cooperation with the Cooking Research Laboratory. "This project consists of three components: (a) survey of the present status of traditional foods on local basis at respective regions by visiting prefectural research organisations–universities and colleges; (b) sending questionnaires to students for seeking information on the position of the traditional foods in the dietary patterns of individual homes and also to obtain their comments on the future prospects of the local traditional foods; (c) and documentation regarding local traditional foods, followed by classification according to preparation or cooking method for analysis. On the basis of the collected data, the relationship between each local traditional food and its natural, cultural and historical background has been studied and published in the university's journals. More efforts are being made to identify the reasons as to why and how some traditional foods have survived in certain regions, while the others have disappeared or reached the verge of extinction.

"Another related activity is the one carried out by Ajinomoto Company, a major food manufacturer in Japan, which has got the modern audio-visual media, video-tapes and 36 mm-films. Their team has been documenting the processing of some selected traditional foods like *Tofu, Yuba, Fu* and such other foods as demonstrated by professionals by using the old traditional methods and facilities. This would help in the documentation of traditional technologies before they disappear in the event of modernisation of such foods. Such tapes and films have been made available by the company...

"Traditional foods, especially those of plant origin, are prepared by such complex multi-step processes as to be called 'products of human wisdom.' Therefore there is so much to learn from such products if serious attention be paid. Indeed they have great potential for developing new food industries." Address: Kyoritsu Women's Univ., Tokyo, Japan.

7614. Yin, Zong Lun. 1986. Development and industrialization of traditional food production in China. In: V.H. Potty, et al. eds. 1986. Traditional Foods: Some Products and Technologies. 292 p. See p. 191-200. Aug. Presented at the UN University Workshop on "Traditional Food Technologies: Their Development and Integrated Utilisation with Emerging Technologies." Held June 1983 at CFTRI, Mysore, India.

• ***Summary:*** Under "Oilseeds, Soy products," the author discusses soymilk, soybean curds (tofu; soft tofu is popular in south China and hard tofu in North China), fried bean curd, smoked bean curd, "stink" flavoured bean curd, soymilk skin sheet [yuba], dried soymilk skin sticks [dried yuba sticks], fermented bean curd or soy cheese, and soybean powder.

Under "Condiments," soy sauce is discussed. Note: This is the earliest English-language document seen (Oct. 2012) that uses the term "soymilk skin" or "soymilk skin sheet" to refer to yuba, or that uses the term "dried soymilk skin sticks" to refer to dried yuba sticks. "These products form an important part in a vegetarian's diet and are used in conjunction with other ingredients to prepare imitation meat and fish like products for vegetarian dishes" (p. 194).

"Soymilk is a very popular breakfast beverage. In order

© Copyright Soyinfo Center 2013

to supplement milk supplies and also meet the special needs of those who, for some reason cannot drink milk, processing factories have been set up with relatively large-scale production capacities for soymilk. With the same distribution pattern as milk, soymilk is supplied to various catering departments, schools, kindergartens, nurseries and families. The process employed for soymilk ensures destruction of trypsin inhibitor and effective deodorization to reduce the unpleasant bean-taste...

"Fermented bean curd or soy cheese can be produced by the fermentation of bean curd. The fermented bean curd may differ in shape (square bits, cubes), colour (white, red), flavor and smell; the products can also be steeped in seasoned rice wine or preserved with drags of rice wine. Sometimes they contain added pepper, rose leaves or shrimp spawn. The traditional production procedure is very subtle. The aging process requires high levels of skill and experience. The product is liable to break down and careful handling is needed. Presently, a new type of fermented bean curd in the form of paste which is more amenable to handling and packaging, and consuming has appeared on the market. However, this product does not conform to Chinese traditional eating habit and is, therefore, now [not?] widely accepted, either for nutritional value or flavour. Soy cheese has a great potential for development...

"In several baby food recipes, soybean constitutes an important source of protein. The well known milk substitute 5410 formulated during the 1950s contained soybean powder as the main ingredient. Formula 5410 has proved to be a success in terms of its nutritional value. It has become the basic recipe for many milk substitutes. Some factories use spray drying process to produce instant blended milk powder consisting of soymilk, milk and other ingredients; they have gained some technological and financial benefits. In recent years, there has been a continuous flow of such products into the market.

"Based on previous research efforts, and in conformity with China's present situation, work is being done to develop an oil-containing concentrated soy protein. The techniques involved have certain positive characteristics. The end product can be a liquid for direct use as a food ingredient or a spray-dried powder for the formulation of dry-mixes." Address: Research Inst. of Light Industry, Beijing, People's Republic of China.

7615. Terhune, Virginia. 1986. Tofu looks to repeat yogurt's success: Firm tries spot on dairy counter. *Sun Chronicle* (*Attleboro, Massachusetts*). Sept. 3.
• ***Summary:*** "Most people know that soybean-based tofu is good for you–the only problem is that many people in this country don't like the taste of it. A tofu manufacturer from Greenfield, Massachusetts, says he has the answer–Jofu–a new product blending tofu and fruit into a yogurt look-alike. 'It's unique in the world,' said Tom Timmins, president of Tomsun Foods International, which put the product on the local market about a month ago. At least three flavors–strawberry, raspberry and blueberry–are now available in the dairy sections of Star markets and Stop & Shop supermarkets... Although Jofu is sweetened with high-fructose corn syrup... it is still lower in calories than most flavored yogurts... Tomsun's move into the dairy section is considered a major departure from most manufacturers who market their tofu through the produce section."

The other major tofu maker on the East Coast, Nasoya, does not plan to compete with another yogurt-like product. Unlike Tomsun, Nasoya claims to use only organically grown soybeans in its tofu. Nasoya recently invested $1 million in new automated for making tofu, in anticipation of future sales. "Nasoya, founded 8 years ago, predicts sales of between $2 and $3 million in 1986. Tomsun, which is one year older, expects sales of $4 to $5 million this year. Both companies have hired former yogurt executives to develop and market new products... Nasoya hired John Lee, former marketing manager for Colombo, as well as Sjon Welters, new product manager from the Netherlands." Address: Staff writer.

7616. *Times of India* (*The*) (*Bombay*). 1986. City notes: Golden Proteins. Sept. 6. p. 10.
• ***Summary:*** Golden Proteins solvent extraction plant at Sahibabad (100 tonnes per day capacity) has started commercial production. The first trial runs took place during March and April, 1986.

The company's public issue of Rs. 75 lakhs [7.5 million rupees] in Dec. 1985 was oversubscribed.

The company "plans to increase its solvent extraction capacity to 400 tonnes per day and to diversify into other soya products like winterised buteroil [?], margarine, soyacurd, silken tofu, flavoured [soya] milk and cheese, besides producing hard oils, detergents, soaps and cosmetics."

7617. Arocena, Javier. 1986. Re: Brief history of the soyfoods company Zuaitzo in Spain. Letter to William Shurtleff at Soyfoods Center, Sept. 10. 2 p. Typed, without signature on letterhead. [Eng]
• ***Summary:*** "I've been working for the last 4 years making tofu, seitan, and tempeh, in a craftsman way, in the North of Spain, in the Basque country. Unfortunately in all of Spain we are only two people making those kind of products, even if slowly, slowly, people are asking us more and more for them every day. I have graduated in biology, and so have a background in what I am doing. I've really found myself useful for the rest of the world, and enjoy my life and work... I'd like to ask if there is any possibility of working for a short time (a summer or a month) in a place where I could learn how to make miso, tamari, natto, sufu, and soynuts." Address: Zuaitzo, Correria, 39–01001 Vitoria-Gasteiz, Spain.

7618. *Toyo Shinpo* (*Soyfoods News*). 1986. Mukashi no dôgu de, dô dô to... Kurama no otôfuya-san. Tanaka Tôfu-ten [Tanaka Tofu Shop in Kurama, near Kyoto, uses old-fashioned tools to make tofu in the dignified, traditional way]. Sept. 11. p. 4. [Jap; eng+]
• ***Summary:*** The shop's owner, Kazushi Yamamoto, is 28 years old.

7619. Wygent, Debbie. 1986. Old farm produces a new protein [Warren Reynolds at Green Valley Farms]. *Local News* (*West Chester, Pennsylvania*). Sept. 14. p. C-2, C-6.
• ***Summary:*** Warren Reynolds, age 26 and a vegetarian for 6 years, now makes tofu. His Green Valley, once a dairy farm, no longer keeps any animals. Photos (by Bill Stonebeck) show four steps in the tofu-making process: (1) Warren Reynolds pours soaked soybeans into the hopper of a grinder, where they will be ground (with added water) to a smooth puree. (2) Liquid nigari being poured onto a stainless steel paddle above the surface of a vat of hot soy milk. The nigari makes the soymilk curdle–resulting in pure white curds floating in yellow whey. (3) Susie Macunga cuts a large block of tofu (on a table) into individual bricks / cakes. (4) A hand in a plastic-glove holding a brick of tofu; it can be refrigerated and wrapped for storage.

7620. Bhatnagar, P.S. 1986. Summary of the present situation with soya in India. Tape prepared for William Shurtleff at Soyfoods Center, Sept. 15–in reply to specific questions. 3 p. transcript. Unpublished manuscript.
• ***Summary:*** William Shurtleff was away (on the East Coast doing library research) during this team's visit to Soyfoods Center (Lafayette, California), so Akiko took care of them. William left questions about soy in India which he asked them to answer.

All visitors in his team were impressed with Soyfoods Center and its work–"overwhelmed."

Soybean has a bright future in India. The increase in acreage from 300 ha in the late 1960s to the present 1 million speaks for itself. Initially there were several obstacles. The most important opposition was from India's groundnut lobby. The groundnut is an important oilseed in India. When soybean was introduced, they feared it might replace groundnut. Various people expressed apprehension. They said: Soybean is not good for health, it has toxins and soybean trypsin inhibitors (which are very widely discussed), antinutritional factors, and cause flatulence. They will disturb the commodity balance, etc.

But with time and effort, it has been established that these were not valid criticisms. Soybean would not disturb the commodity balance, as the land required would not be suited for groundnuts. Since all food is well cooked, there is no problem with trypsin inhibitors. Chickpeas, and green and black gram also cause flatulence, but no one bothers about it, They have been eaten since time immemorial.

With these facts: (1) The lobby against soy weakened. (2) At the same time the Indian government realized the importance of soy, especially in decreasing imports of edible oil.

Initially black seeded soybeans were cultivated in India from very early times. Then yellow soybeans were introduced in late 1960s to 1970s to use as a low cost source of protein. Farmers grew it but could not sell it so they stopped. For a while it looked as if soybean would never take off in India. However, then the edible oil industry saved the day. Expansion of acreage has been mainly a result of its use for oil. (3) An oil industry grew up and created a market. (4) The agricultural feasibility of growing soybean in different parts of the country was established, as was its economic viability and place in cropping system... through the All-India Coordinated Project on Soybeans.

Then more industry and new expanded cultivation.

Madhya Pradesh is the center of soybean cultivation and industry. New entrepreneurs are now also going there since the supplies are established. But now soybean acreage is saturated in Madhya Pradesh. However, a little is still available. Now his efforts are to expand areas that are not reaching their full potential.

A cause of worry now is that most of (95% of) the soybean protein (defatted soybean meal) is being exported as livestock feed. This situation is rather dangerous. The Indian oil industry is dependent on foreign countries. If the soybean meal were not sold abroad, the Indian industry would crumble. So the need is to develop products in India based on defatted flour and popularize these. To do this, there are two essentials: (1) The cost of the product should be low compared to other similar products. (2) The taste should not be drastically different from traditional products. Indian food habits are very conservative, orthodox, and rigid. Also, use of the whole soybean must be encouraged in soya dairylike products at the home, village, and cottage industry levels.

Among soya dairylike products, tofu is one product that will definitely become popular subject to (1) High quality. (2) The profit margin is so small that the price difference between tofu and milk panir is small. He prepared some panir for us. Panir is very popular, especially in North India. All who can afford it would like to buy it. It is used for many curries, snacks, and other dishes. All are considered to be luxury dishes. Only the rich can afford them. The cost of panir is about $3 per kilogram, or 36 rupees per kilogram. Average monthly income is 250-300 rupees per month in India. As a result, only a few in the upper middle class can afford it. Tofu must sell for 7-8 rupees per kilogram. He calculated tofu production cost to be 3-4 rupees per kilogram. He feels this will catch on rapidly in North India.

With this in mind, many entrepreneurs have shown interest in tofu and soymilk. One big plant, Noble Soya, is

© Copyright Soyinfo Center 2013

starting in Bhopal. Another is United Soya. Plants are also planned in Kanpur and Delhi. So tofu has a good future. But Dr. Bhatnagar's worry is that small producers are making a poor quality product, which turns off consumers forever. Already many people have developed a negative prejudice. He also noticed this prejudice about soy in the USA.

To summarize: Prospects to narrow the oil gap are bright. The future of soy as food is also bright.

Tempeh has not yet been tried in a sincere sense, but he feels it has a good future.

In India, isolates, concentrates, and lecithin are now being extracted on a very small and limited scale. In a few areas, soy is taking land way from rice cultivation. Due to a slump in the international market for soybean meal, farmers' prices dropped, which led to a decrease in acreage the next year. It seems temporary. Government has set a minimum support price. On the initiative of Rajeev Gandhi, a technical mission of oilseeds has been established. The main goal is to increase oilseed production in India. Imports are now huge. India should become self sufficient in oilseeds, as she has become self sufficient in food grains. Soybeans are included in the mandate of this technology mission. Increase of production is planned, in both horizontal (area) and vertical (yield, presently very low–0.7 metric tons per hectare) growth. There will be a new thrust with government support.

The main idea is to reduce, then cut, foreign dependence on soya as (1) imported oil, and (2) imported meal. Solution: use defatted soybean meal for foods in India, and use whole soybeans in dairylike soybean products.

Closes with thanks to Akiko. He will send Bill some of the papers Bill needs. He looked though his manuscript briefly and made some suggestions. Send it to him for a careful read after the next update. He will check with literature he has in India. Let him know of companies that make plants for soy oil and lecithin, etc. He wants Akiko to come to India too. Address: PhD, Coordinator, All-India Coordinated Research Project on Soyabean (ICAR), G.B. Pant Univ. of Agriculture & Technology, Pantnagar, UP, 263145, India.

7622. *Marketing* (*Toronto, Ontario*). 1986. And for dessert, there's peas. Sept. 15.
• ***Summary:*** Tofu Treat, a non-dairy frozen dessert, is made with tofu that is made from peas rather than soybeans, by Thai Foods Ltd. of Winnipeg. Address: Canada.

7623. Weiner, Michael A. 1986. Cholesterol in foods rich in omega-3 fatty acids. *New England J. of Medicine* 315(13):833. Sept. 25. [4 ref]
• ***Summary:*** Weiner considers soybeans and tofu to be good non-marine sources, that do not contain the cholesterol found in fish oil sources. Other good cholesterol-free sources are walnuts, wheat germ, rapeseeds, soy lecithin, common beans, butternuts, and seaweed. Clara Felix adds: Omega-3s are most widely found in plants from cold climates. They make the cell walls flexible. Eskimos can withstand cold best and their diet is richest in them. Northern beans have a higher content than southern beans. Plants can convert omega-6 to omega-3 fatty acids by adding another double bond. Address: 2 Oakland Dr., Port Washington, New York 11050.

7624. Stein, Margery. 1986. Tofu tycoon never quits. *Star* (*Wilmington, North Carolina*). Sept. 27.
• ***Summary:*** "Just about everybody eventually gave up on David Mintz. And for good reason. Part relentless entrepreneur, part eccentric chef, part mad scientist, Mintz worked alone night after night in his laboratory for 10 years–measuring, mixing, testing, tasting. Mintz was after the formula for a frozen, tofu-based dessert, Tofutti."

"Tofu might not seem to be the stuff of which fortunes are made. It is a bland, spongy substance that comes from cooking and then pureeing soybeans into curd... But Mintz, 54, saw potential in tofu. Indeed he waxes rather eloquent on the subject. '"Who is a wise man?" asks Solomon rhetorically. "He who sees what's going to be born." That's the way I was about Tofutti. I could imagine what it would be. And I knew it would be big.'

"A Large, comfortable man with a quiet but driven manner, Mintz was farsighted enough to realize that the public was hungry for alternatives to heavy, rich foods. He was also bold enough to make and market his curd confection on a spectacularly large scale."

"I never hesitated to spend the money" Mintz. Address: Success! Magazine.

• ***Summary:*** Soybeans and their products are discussed briefly, including their composition, manufacture, and uses. Products mentioned are green vegetable soybeans (unreife Sojabohnen), whole dry soybeans, soy protein, soy oil, lecithin, defatted soy flour, soy protein concentrate, soy nuts, soy sprouts, soymilk (Sojamilch), tofu (Sojaquark), soy sauce (Sojasosse), and fermented tofu (Sojabohnen-Käse, sufu). The application of German dairy product laws to soyfoods is discussed. Address: Chemiedirektor a. D., Beratender Lebensmittelchemiker, Robert-Steiger-Str. 110, 8909 Krumbach, Germany.

7629. Bernd Lehmann International Consultants. comp. 1986. Erste internationale Tofu-Produkt-Praesentation: Tofu 86 [Report of the First International Tofu Products Expo, Seminar, and Buffet: Tofu ‘86]. Postfach 10 41 07, D-2000 Hamburg 1, West Germany. 17 p. Held on 24 Sept. 1986 at the Sheraton Hotel, Arabellastr. 6, Munich, Germany. [Ger]
• ***Summary:*** Held in Munich with 100 attendees, the conference was sponsored by Bernd Lehmann, International Consultants on the occasion of the IKOFA conference. It featured three speakers, a soy product exhibit (samples were flown in from around the world), and a tofu-based delicatessen buffet at which 24 recipes (12 warm and 12 cold) and were served. Many of these were prepared from Galactina or USA tofu or soy products. The proceedings list all recipe names and ingredients (in German).

The one day program (11:00 AM to 2:30 PM) was as follows: 1. Introduction by Dr. Siegfried Domin. 2. “Tofu: Production, characteristics, and advantages” by Dr. Peter Speck of Galactina. 3. Presentation of products for sampling from the USA, Japan, and Switzerland. 4. Tofu Buffet Lunch. 5. “The most interesting tofu new product developments from America” by Domin. 6. “European tofu products” by Speck. 7. “Development of the tofu market in Switzerland” by Ulrich Bringold of Galactina (see translation). 8. Discussion. Address: Munich, West Germany.

7630. **Product Name:** Dry Le Tofu (Powdered Instant Non-Dairy Soft Serve Mix).
Manufacturer’s Name: Brightsong Foods.
Manufacturer’s Address: 100-A Poultry St. (P.O. Box 2536), Petaluma, CA 94953.
Date of Introduction: 1986. September.
Ingredients: Incl. Spray-dried tofu.
How Stored: Frozen.
New Product–Documentation: Letter from Richard Rose. 1987. Sept. 17. This later became Sharon’s Finest Tofu Frozen Dessert Mix. Main ingredient was spray-dried tofu.

7631. Bringold, Ulrich. 1986. Entwicklung des Tofu-Marktes in der Schweiz [Development of the tofu market in Switzerland]. In: Bernd Lehmann International Consultants, comp. 1986. Report of the First International Tofu Products Expo, Seminar, and Buffet: Tofu ‘86. 17 p. See p. 10-11. Held on 24 Sept. 1986 at the Sheraton Hotel, Arabellastr. 6, Munich, Germany. [Ger]
• ***Summary:*** Since 1983, Bringold has been product manager at Galactina. He is one of the pioneers of European tofu marketing. The development of the Swiss tofu market can be divided into 4 large stages. 1. Tofu in the Reform trade (Reformhandel, Health food stores). In 1981 tofu began to be made and sold without much media coverage in alternative food stores and Reform Houses. The users were predominantly vegetarians and alternative types. In 1983 total Swiss production was about 120 tonnes.

2. The start of the mainstream food trade (Lebensmittelhandel). In 1983 the first mainstream food stores began to sell tofu. In 1984 Galactina AG conducted a regional market test with such stores using a fresh pasteurized tofu. An attractive package, numerous recipes and suggestions for use, and extensive sampling of prepared dishes in the stores were the principal items of the promotional campaign. This introduced tofu to environmentally- and health-conscious normal consumers. The success in sales surpassed all expectations of both the manufacturers and the stores.

3. The conquest of the mainstream market. Then came the real breakthrough. The two leading retail chains, Migros and Co-op started to carry tofu. The rest of the trade followed their example, so that by the end of 1985 all major food stores, as well as the Reform Houses and many drug stores carried at least one brand of tofu. This was possible because of (1) an intensive marketing campaign simultaneously by several manufacturers, (2) a fortunate acceptance and its own marketing activities by the food trade, (3) the media’s taking up the theme, and especially (4) the open attitude of a sufficiently large target public.

© Copyright Soyinfo Center 2013

4. Tofu gets flavor. Observers of tofu have remarked that it is now where yogurt stood 20 years ago before it was flavored. In 1986 flavored tofu products were introduced. There are now more than 20 flavored products on the market, from seasoned tofu to Tofu Raviolis, Tofu Sandwich Spreads, Tofu Bolognaise, and Tofu Goulash. Even tofu ice cream and desserts.

After reaching the steps of the New York Public Library, the "Royal Couple" crowned David "Prince Mintz of Tofu." Mintz provided 10,000 cups of Tofutti Love Drops to the noontime throng.

7634. Fukushima, Danji. 1986. New development in the process of traditional soyfoods in Japan. In: F.G. Winarno, ed. 1986. International Soyfoods Symposium. xiv + 403 p. See p. 21-57. Held 16-18 Sept. 1986 in Jogyakarta, Indonesia. [22 ref]
• ***Summary:*** Contents: Abstract. Soy milk. Tofu. Soy sauce. Miso. Natto.

Table 1 (p. 28) shows changes in the size of the soymilk market in Japan from 1979 to 1985. For each year there are statistics for the amount of soymilk sold (in kiloliters), the ratio of that amount to the amount sold during the previous year, the total retail value in yen, the ratio of the retail value that year to the value the previous year, and the ratio of the retail value that year to the value in 1979. The amount of soymilk sold in million liters is as follows: 1979–6.5 million liters. 1980–12.0. 1981–25.2. 1982–54.3. 1983–111.5. 1984–84.013. 1986–55.354.

Also contains a detailed analyses of the off-flavors in soymilk. These off flavors are brought about through the hydrolysis of the glycosides by the Beta-glycosidase contained in soybeans. Contains 46 figures, including many photos, flowcharts, and equipment designs. Address: Food Research Inst., Kikkoman Co. Ltd., 339 Noda, Noda City, Chiba prefecture, Japan.

7635. Fukushima, Danji. 1986. Preservation of traditional soy products. In: F.G. Winarno, ed. 1986. International Soyfoods Symposium. xiv + 403 p. See p. 267-93. Held 16-18 Sept. 1986 in Jogyakarta, Indonesia. [25 ref]
• ***Summary:*** Contents: Abstracts. Soy sauce and miso. Soy milk, tofu, and their related products. References. Address: Food Research Inst., Kikkoman Co. Ltd., 339 Noda, Noda City, Chiba prefecture, Japan.

7641. Nyenhuis, Jacquelyn R. 1986. Tofu for two: Tantalizing dishes made from the world's healthiest form of protein lend an ancient Oriental staple a truly American flavor. *Saturday Evening Post* 258:16-17. Sept.
• ***Summary:*** Contains 5 recipes.

7642. **Product Name:** Organic Tofu [Plain].
Manufacturer's Name: Oasis Wholefoods.
Manufacturer's Address: Unit 3C, Dart Complex, Steamer Quay Rd., Totnes, South Devon, England. Phone: 0803-865076.
Date of Introduction: 1986. September.
Ingredients: Fresh soya milk (water, soyabeans), nigari (bittern).
Wt/Vol., Packaging, Price: 227 gm.
How Stored: Refrigerated.
New Product–Documentation: Letter from Simon Bailey. 1988. Oct. 10. Company name is now Oasis Wholefoods. Phone: 0803-863167. They now make Organic Tofu (plain & smoked), Tofuburger, Organic Tempeh. In Dec. 1987 Francis Checkley sold the company to I.J. Mohammed.

Letters from I.J. Mohammed. 1991. Sept. 30 and Oct. 13. This product was introduced in Sept. 1986. "I was the original tofu maker. Lifestream Wholefoods, owned by Mr. Francis Checkley, did not make or sell any soyfoods; they only sold nutritional yeast imported from America. Lifestream occupied part of the Unit 3C complex. In Dec. 1987 Francis Checkley sold his share of the ownership of Oasis Wholefoods to me, so that I owned 100% of Oasis, as I still do. I felt like the father of the new project and Mr. Checkley was basically my financier. As far as I know Lifestream Wholefoods are no longer trading." Label sent by I.J. Mohammed. 1991. Sept. 30. 3 by 2 inches. Pea green on yellow. Illustration of palm trees. "A source of protein, calcium, phosphorus, potassium & all essential amino acids."

7643. *Plenty Bulletin* (*Summertown, Tennessee*). 1986. Jamaica soy. 2(3):1-3. Fall. [5 ref]
• ***Summary:*** "Recently, the Jamaican Government has launched an aggressive agricultural program (titled 'AGRO 21') which is designed to boost production of foods that can be grown locally, in order to decrease the need for precious foreign exchange... Consequently, soybean production has been conceived as one of the top priorities by the Ministry of Agriculture. Ironically the plan focuses on the use of soybeans to provide cooking oil and animal feed... With the participation of the Israelis and other foreign investors, soybeans are fast becoming one of the major field crops on the island...

"In 1983, Plenty USA's sister organization, Plenty Canada, established an agricultural project on the north-central coast of Jamaica. Craig Bialick, an agronomist and soy foods technician who had worked 3 years with Plenty's soy projects in Guatemala in the late 1970's, was hired by Plenty Canada for the Jamaica project.

"Craig spent 15 months in Jamaica, June 1984-September 1985... He organized a school lunch program and set up a soy foods processing training center in Claremont, St. Ann. He also carried out numerous 'soy demonstrations' wherein local participants were taught how to prepare soy foods using only the facilities available in their home kitchens. 107 of these public demonstrations reached over 6,000 people from 4 different parishes on the island. Typical locations were schools, churches, clinics, youth clubs and weekly markets."

The Country Farmhouse Project in Kingston, Jamaica is run with the help of two Jamaican young people, Rasino D'Aguilar and his wife, Mohi. This small-scale cottage industry, which has been in business for 1 year on a shoestring budget, makes soy ice cream, tofu, soy mayonnaise, and a variety of okara burgers. Some of their products are sold at a weekly market sponsored by the Jamaica Vegetarian Society.

Photos show: (1) Jamaican kids making soy ice cream in Kingston. (2) Rasimo D'Aguilar preparing soymilk for making tofu at the Country Farmhouse kitchen in Kingston, Jamaica.

weighing tofu. (3) The village spring, which Plenty Canada tapped and piped clean water to the village for drinking, cooking, and irrigation. Address: Plenty Canada, R.R. 3, Lanark, ON K0G 1K0, Canada.

7645. Rice, Judy. 1986. E-B sterilization & new product marketing–Main themes at aseptic conference. *Food Processing* (*Chicago*) 47(9):73-75. Sept.
• ***Summary:*** About the Aseptipak '86 convention in Atlanta, Georgia–the fourth annual aseptic packaging conference.

In the section titled "Aseptic tofu" Art Mio discusses Morinaga Nutritional Foods. It wasn't until 1984 that Morinaga began investigating the possibilities of setting up an office in the USA. Morinaga Nutritional Foods, Inc. was formed as a subsidiary of the Japanese dairy products manufacturer, Morinaga Milk Industry Co., and established a base office in Los Angeles (California) in May 1985. In October 1985 the company began to roll-out its aseptic tofu in the USA. The Produce Marketing Association (PMA) helped Mio to meet face to face with tofu buyers across the nation. He discovered the tofu had reached every corner of the U.S. supermarket industry, but that buyers "all had handling and spoilage problems with the plastic tub, water-packed, poly film-sealed tofu. All indicated an interest in a non-spoilable, refrigeration-not-required tofu. Of course, most couldn't believe it."

Mio concluded by noting that although most of Morinaga's sales are still with their Asian trade, supermarket sales as a percentage of total sales are steadily growing. A photo shows Art Mio.

7649. **Product Name:** Antonio's Simply Natural Tofu Pasta (Non-Dairy Fresh Frozen Pasta Made with Tofu) [Tofu Cheese Ravioli, Tofu Cheese Manicotti, Tofu Cheese Stuffed Shells, Tofu Linguini, Tofu Spinach Fettuccine, Tofu Vegetable Cavatelli, or Tofu Cheese Tortellini].
Manufacturer's Name: Simply Natural, Inc.
Manufacturer's Address: P.O. Box 295, Norma, NJ 08347. Phone: 609-691-5866.
Date of Introduction: 1986. September.
Wt/Vol., Packaging, Price: 16 oz plastic containers, 12 per case.
How Stored: Frozen.
New Product–Documentation: Ad in Natural Foods Merchandiser. 1986. Oct. p. 18. "So Who Needs Cream Cheese Any More? Mama Would Approve. We did it! Simply Natural has created for you the first, premium quality, non-dairy fresh frozen pasta made with tofu. We've combined it with our Soft Tofu Cheese (launched in May 1985) to come up with five exciting new products–Tofu Cheese Ravioli, Tofu Cheese Manicotti, Tofu Cheese Stuffed Shells,..." A photo shows two packages of "Soft Tofu Cheese." Around the edges of this ad is written "Soft Tofu Cheese.'

Spot in Soyfoods Newsletter. 1987. 1(4):6. Added Tortellini. Brochure. 1987. Oct. "Discover the New Simply Natural and Rediscover Natural Cuisine." Introduces Soyalite (formerly Soft Tofu Cheese), Pasta Lite (formerly Tofu Pasta), and Miso Dressing. Explains why the names were changed and shows Labels. Red on white. 4 pages.

Note: This is the earliest English-language document seen (March 2007) that uses the term "Tofu Cheese" to refer to a Western-style soy cheese.

7650. Speck, Peter. 1986. Tofu: Herstellung, Eigenschaften und Vorteile [Tofu: Production, characteristics, advantages]. In: Bernd Lehmann International Consultants, comp. 1986. 7658. Downing, T. 1986. Jofu fighting shelf wars at supermarkets. *Enterprise* (*The*) (*Brockton, Massachusetts*). Oct. 12.
• ***Summary:*** The company has spent about $750,000 this year on advertising Jofu. Tomsun is going public next month with over-the-counter sale of one million shares. Tomsun's 1985 sales (of all products) were $2.8 million.

7659. *Toyo Shinpo* (*Soyfoods News*). 1986. Zenkoku shuyô toshi no tôfu seihin nenkan kônyû kingaku [Annual amount and value of tofu consumed per household in Japan, by cities]. Oct. 21. p. 1-2. [Jap; eng+]
• ***Summary:*** In 1985 the average household bought 88.5 cakes of tofu costing 7,337 yen. The average price/cake was 79.6 yen. Compared with 1970 the number of cakes rose 0.5%, the amount spent rose 3.05-fold, and the cost of one cake rose 2.88 fold. In 1985, of the total money spent on soyfoods per household (13,435 yen), 58% was spent on regular tofu, 30.2% on fried tofu (pouches and burgers), 12.3% on natto, and 2.8% on other soyfoods. Cities with the highest consumption of tofu per household are Morioka (122.7 cakes), Toyama (115.7), Kagoshima (105.1), Kokushima (105.0), Tottori (102.3). Tokyo is in 29th place with 87.5 cakes.

In 1985, foods with the fastest growing consumption per household compared with 1970 were: coffee and cocoa +116.6%, prepared foods +63.9%, processed meats 47.0%, raw meats 35.4%, foods eaten away from home +34.6% and oils/fats +34.5%. Those decreasing the most rapidly are: rice -34.3%, processed seafoods (e.g. kamaboko) -29.0%, fresh fish and shellfish -21.1%, eggs -13.4%, milk -10%, soyfoods -3.7%.

with the healthiest image. Natto is 6th and tofu is 11th]. Oct. 21. p. 1-2. [Jap; eng+]
• ***Summary:*** The healthy image ranking, based on a survey of 1,000 households in October 1985. Conducted by Shokuhin Sangyo Center in Tokyo (Toranomon. Tel. 03-591-7451) and titled "Health and Food." 1. Sardines (340 points out of a possible 1,000), 2. Shirasu (the young of sardines, 298), 3. Process cheese (259), 4. Real fruit juice (241), 5. Umeboshi salt plums (227), 6. Natto (227), 7. Natural cheese (225), 8. Brown rice (218), 9. Honey (210), 10. Tofu (204), 11. Wakame (sea vegetable, 197), 12. Soymilk (196), 13. Yogurt (193), 14. Sesame oil (181), 15. Konnyaku (180), 16. Cow's milk (180), etc.

7661. *Times of India* (*The*) (*Bombay*). 1986. City notes: Universal Solvex. Oct. 25. p. 10.
• ***Summary:*** Universal Solvex, incorporated in 1982, will enter the capital market on May 26 with a public issue of 6.1 lakh [610,000] equity shares of Rs. 10 each. The company is presently implementing a project in Piliphit, Uttar Pardesh, for the manufacture of vegetable oils using solvent extraction; the plant has an annual capacity of 36,600 tonnes in terms of rice bran, soyabean, salseeds, oilcakes. Trial runs are expected to start in December, with commercial production shortly thereafter.

In the north, this is the first soya plant with state of the art double rotary extraction technology from Extractions Technik, West Germany, the world leader in designing plants for vegetable oil extraction.

The company plans to add a refinery and then to diversify into winterised edible soya oil, soya milk, curd [tofu] cheese, and lecithin.

• ***Summary:*** A summary of *Soyfoods Industry and Market: Directory and Databook* by Shurtleff and Aoyagi. Shows that the U.S. tofu market has grown at 15% a year since 1978.

7663. Wilson, Suzanne. 1986. Talk about tofu: Behind the scenes at Tomsun. *Hampshire Life* (*Northampton, Massachusetts*). Oct. 31. p. 6-8, 11-12.
• ***Summary:*** Tomsun Foods now makes 3.5 million lb/year of tofu. To make Jofu, a non-fermented yogurt-like product, silken tofu is homogenized, cooled, mixed with a stabilizer, corn oil, and fructose, cooked to consistency of pudding, cooled, and mixed with fruit in a fruit feeder. More than $1 million has been spent over the past 2.5 years to develop Jofu. Jofu is sold in 6-ounce cups. Weekly production is 150,000 cups. Slogan for the ad campaign is "Beyond Yogurt." The first Jofu was sold to Massachusetts health food stores in Dec. 1985.

• ***Summary:*** Discusses history of the soybean, cultivation and composition, the world industry for soybean production, consumption, and products, world production of soy oil and competing oils, trends in the use of soy products (incl. soymilk and soymilk products, soy sauce, tofu, miso, and tempeh; table based on Shurtleff & Aoyagi 1983), results of Hamburg poll (American Soybean Assoc. 1982) on attitudes of German consumers toward qualities and use of soya (e.g., price, nutritional value, good protein source, versatile, healthful, recommended by a doctor, good for young people), conclusion. Address: American Soybean Assoc., Hamburg, West Germany.

7665. **Product Name:** Tofu [Oriental (4-piece pillow shapes), Soft, or Firm]. Fried Tofu Puffs. Soymilk (Sweetened).
Manufacturer's Name: Fully, Inc. Renamed Fully Foods by Sept. 1998.
Manufacturer's Address: 400 N.E. 67th, Bay D, Miami, FL 33138. Phone: 305-758-3880.
Date of Introduction: 1986. October.
New Product–Documentation: Letter from Manny Wong. 1989. Sept. Talk with Manny Wong. 1991. May 16. His company started in Miami in Feb. 1978 making mung bean sprouts. In 1983 they diversified into soy sprouts. In Oct. 1986 they moved into a larger building at their present address in Miami (400 N.E. 67th) and added a new division to their company, to make tofu and soymilk. In October they introduced three textures of tofu: Oriental (Chinese style), Soft (Japanese style), and Firm (American style). The American style is firmer than the Chinese style. At the same time they introduced Fried Tofu Puffs and a sweetened soymilk. His father-in-law started this tofu business in New York as Fong-On on Mott Street in the 1930s. There was an owner buyout and the company name was been changed to Fong-Inn, and then to its present name Fong-Inn Pastry. As of May 1991, the company has little competition in Miami. They consume 6.5 tons/month of soybeans.

Gonzalez-Pando, Miguel. ed. 1996. *Greater Miami: The spirit of Cuban enterprise.* Fort Lauderdale, Florida: Copperfield Publications, Inc. This book (p. 168) discusses Fully, Inc. a soyfoods company in Miami, Florida. The founder, Manny Wong, and his bride, Sylvia, moved back to Miami in 1978 and launched Fully, Inc. with his brother-in-law Dennis Marr.

Form filled out by Manny Wong. 1998 Sept. 3. The company name is now Fully Foods. Manny's family comes from Cuba. He now says he started making tofu in April 1987. Accompanying the form is an article about his

© Copyright Soyinfo Center 2013

company, with a photo of Manny, his wife and 3 children.

7666. Greene, Barbara S. 1986. Richard T. Alberti: Turning pasta into profits. *Business J. of New Jersey Magazine* (*Jamesburg*). Oct. p. 113-15.
• ***Summary:*** "Richard T. Alberti figures there's a lot of dough to be made in the pasta business. That's why he signed on last year as head of Famiglia Industries Inc., producers and distributors of a quality line of pasta and sauces." In 1984 nearly $1,200 million worth of pasta was sold nationwide. However as of 31 Oct. 1985 Famiglia was $1.4 million in the red. However Alberti, now the chairman and CEO of Famiglia, hopes to change all that by turning pasta into profits. "He might be just the man to do it, too, based on his track record. As the former executive vice president for franchising Tofutti Brands Inc., Alberti was largely responsible for the company's Tofutti frozen dessert success story. Alberti guided the nationwide distribution of Tofutti and watched sales climb from $300,000 to $17 million in less than two years.

"In 1985, a small group of investors called the Walnut Capital Group wooed Alberti away from Tofutti, presenting him with the challenge of improving Famiglia's sales. In March, Famiglia raised $2.7 million through an initial public offering.

"For the very nutrition-conscious, Famiglia plans to offer Tofu Classics, tofu-filled pasta products, including ravioli, manicotti, stuffed shells and crepes. A note in the company's prospectus states that the cholesterol- and lactose-free tofu, or soybean, products elicited a favorable response when they were introduced at a consumer food show earlier this year at the Nassau Coliseum.

"The unusual thing about Famiglia's products is that they will all be certified kosher." A photo shows Alberti.

7667. **Product Name:** Gunther Enzyme-Modified Soy Proteins.
Manufacturer's Name: Gunther Products Div., A.E. Staley Manufacturing Co.
Manufacturer's Address: 2200 E. Eldorado St., Decatur, IL 62525.
Date of Introduction: 1986. October.
New Product–Documentation: Spot in Prepared Foods (Chicago). 1986. Oct. "Enzyme modified for action and tofu to beat. For the very latest in trends, Staley instant dry tofu products offer the characteristics and properties of fresh tofu with all the versatility of dried products."

juice concentrate, gum tragacanth, salt, spices, lecithin, carrageenan, natural flavor.
Wt/Vol., Packaging, Price: 12 fluid oz jar with metal twist-off lid.
How Stored: Shelf stable.
New Product–Documentation: Ad in Natural Foods Merchandiser. 1986. Oct. p. 14. "Legume is Growing... Your Profits Will Too. Stay Healthy and Wealthy." Ad in Vogue. 1987. Jan. Ad in Natural Foods Merchandiser. 1987. March. p. 59. "Indulge Yourself! Legume Light Dressings and Light Mayo Spread have only 1/5 the calories of traditional salad dressings, are all natural–and no cholesterol at all... It gives a dazzling taste to tuna salad... Or spoon it on poultry or fish. At Bloomingdale's." "Has 75% fewer calories than the leading mayonnaise and 40% fewer calories than the leading light mayonnaise" [Note: Impossible].

7674. **Product Name:** Legume Tofuffin (Tofu Muffin) [Raisin Bran, or Blueberry].
Manufacturer's Name: Legume, Inc.
Manufacturer's Address: 170 Change Bridge Road, A-4, Montville, NJ 07045. Phone: (201) 882-9190.
Date of Introduction: 1986. October.
Ingredients: Blueberry: Whole wheat flour, honey, tofu, water, blueberries, soybean oil, non-aluminum baking powder, baking soda, salt, cinnamon.
Wt/Vol., Packaging, Price: 4¼ oz individually wrapped in cellophane envelope. Retails for $0.99 each.
How Stored: Unrefrigerated and perishable.
New Product–Documentation: Ad in Natural Foods Merchandiser. 1986. Oct. p. 14. "Legume is Growing... Your Profits Will Too. Stay Healthy and Wealthy." Leaflet, color, 8½ by 11 inches. "Tofuffin–The Meal in a Muffin. The moistest, most delicious muffin you've ever had the pleasure of eating."

Spot in Natural Foods Merchandiser. 1987. March. p. 115. "Muffin mania." "Legume has revolutionized the ordinary muffin and created the Tofuffin... which comes frozen and may be displayed on your countertop, where it has a 6-day shelf life."

7675. **Product Name:** Legume Double Delicious Mousse Pies (with Tofu) [Double Chocolate, or Lemon Orange].
Manufacturer's Name: Legume, Inc.
Manufacturer's Address: 170 Change Bridge Road, A-4, Montville, NJ 07045. Phone: (201) 882-9190.
Date of Introduction: 1986. October.
Wt/Vol., Packaging, Price: 10 inch, 38 oz size.
How Stored: Refrigerated.
New Product–Documentation: Leaflet: Cafe Legume. No mention of tofu in the blurb.

7676. **Product Name:** Marjon Tofu Yogurt [Raspberry, Strawberry, or Tropical Fruit].
Manufacturer's Name: Marjon Specialty Foods.
Manufacturer's Address: 3508 Sydney Rd., Plant City, FL 33566.
Date of Introduction: 1986. October.
Ingredients: Incl. silken tofu, yogurt cultures.
Wt/Vol., Packaging, Price: Plastic cup with peel-off foil top.
How Stored: Refrigerated.
New Product–Documentation: Paugh. 1986. Journal (Jacksonville, FL). Oct. 8. "Marjon Tofu Yogurt Surprises Journal Panel with Taste." Product Alert. 1986. Oct. 13. "A confusion of products. How can 100% tofu be yogurt?" Soya Newsletter. 1988. July/Aug. p. 12. The product was on and off the shelf in Florida supermarkets within a few months. The expenses of stocking the product in the dairy department of supermarkets were more than the company could bear. The company was required to buy back any product that didn't sell.

Talk with Marcia Miller of Marjon. 1993. April 28. To make this product they curded rich soymilk with nigari in a large vat to make silken tofu, then they added a bacterial culture, homogenized it, and let it culture overnight. She loved the product but when they tried to sell it next to dairy products, no one in the store wanted to cooperate. The company lost $250,000 on the venture.

7677. Medoff, Marc. 1986. Independent lab tests prove Soyarella hoax; Large quantities of casein found in so-called "soy" cheese. *Whole Life.* Oct. p. 54-56. [2 ref]
• ***Summary:*** "An eight-month *Whole Life* investigation has determined that the highly popular 'soy' cheese substitute called Soyarella is in flagrant violation of state and federal law for failing to disclose that casein, an animal product, is one of its primary ingredients." The product contains about 15% casein, though the ingredients listed on the label (a photo of which is shown) are "soy milk, water, soy oil, vegetable gum, vegetable renin, salt." James Harper and Nature's Best of Osseo, Michigan, are strongly suspected of being the "source" for Soyarella. Neshaminy Valley Natural Foods of Huntingdon Valley, Pennsylvania, is the exclusive agent for distribution in the northeast.

Note: This is the earliest English-language document seen (March 2007) that uses the term "cheese substitute" to refer to a Western-style soy cheese.

7678. **Product Name:** Tofu Manicotti.
Manufacturer's Name: Michigan Soy Products Co., Inc.
Manufacturer's Address: 1213 N. Main St., Royal Oak, MI 48067. Phone: 313-544-7742.
Date of Introduction: 1986. October.
Ingredients: Cooked whole wheat manicotti. Pasta, tomato, tofu, spinach, onion, mushroom, garlic, ginger roots, soy oil, honey, sherry, arrow roots, salt, pepper, spices, basil, parsley, and oregano.

© Copyright Soyinfo Center 2013

Wt/Vol., Packaging, Price: 8 oz.
How Stored: Refrigerated.
New Product–Documentation: Blair. 1987. Detroit News. Nov. 4. p. 1E, 2E. Tofu. Talk with Dorothy Hwang. 1988. Feb. 18. Label. 1987. Dot matrix printed on white.

7679. Moll, Lucy; Barrett, Mariclare. 1986. Then and now: Authors of the best [vegetarian] cookbooks. *Vegetarian Times.* Oct. p. 26-31, 46, 54. [10 ref]
• ***Summary:*** Includes: The Hurd's and Ten Talents, Ed Brown and The Tassajara Recipe Book, Francis Moore Lappé and Diet for a Small Planet, Louise Hagler and The Farm Vegetarian Cookbook plus Tofu Cookery, Annemarie Colbin and The Book of Whole Meals, Mollie Katzen and The Moosewood Cookbook, William Shurtleff & Akiko Aoyagi and The Book of Tofu, Laurel Robertson and Laurel's Kitchen, Kathy Hoshijo and Kathy Cooks Naturally, Anna Thomas and Vegetarian Epicure. Address: Chicago, Illinois.

7680. **Product Name:** Nasoya Creamy Tofu Dressing [Dill].
Manufacturer's Name: Nasoya Foods, Inc.
Manufacturer's Address: 23 Jytek Park, (P.O. Box 841), Leominster, MA 01453.
Date of Introduction: 1986. October.
Wt/Vol., Packaging, Price: 12 oz glass jar.
How Stored: Shelf stable.
New Product–Documentation: Letter from Sjon Welters. 1989. July 24. The dill flavor was introduced in about Oct. 1986.

7681. *Schrot & Korn* (*W. Germany*). 1986. Im portrait: Soyastern und tofu [A portrait: Soyastern and tofu]. Oct. p. 18. [Ger]
• ***Summary:*** Soyastern is one of the oldest tofu companies (Tofurei) in Germany. It all started in 1982 in the rooms of a former butcher shop in Siegburg. A collective of 3-4 people, who previously had worked mostly with their heads, it began to produce tofu in small amounts. There was a strong demand from natural food stores (*Naturkostläden*) and it soon became a full-time job. In 1985 they moved to larger quarters in Köln (Cologne). Contains 9 photos of the Soyastern production process and plant. Schrot und Korn is a natural foods magazine. Address: Cologne, West Germany. Phone: 02 21/170 15 81.

7682. S.D. 1986. Duel lait/soja, où en est-on? [The duel between milk and soya: Where are we?]. *RIA–Technicien de Lait.* Sept/Oct. p. 12-15. [3 ref. Fre]
• ***Summary:*** On page 1 is a large cartoon showing a startled dairy cow, standing beside a pail of milk, watching the invasion of an army of upright snake-like or sprout-like creatures, each with slanted eyes and wearing a conical Chinese-type hat, and bearing a banner "Yellow Peril." The large text reads: At this time of milk quotas, imitation milk products and their derivatives make French dairy producers afraid. France has adopted a very restrictive policy toward them, while the European Commission insists that they be allowed to be sold freely."

An estimated 60,000 tonnes of imitation products are consumed today in the EEC. A French law of 24 June 1934 prohibits in France the production, sale, import, or export of all products that imitate cream, cheese, powdered milk, condensed milk, ice cream, etc. The French Ministry of Agriculture still supports this law and demands strict regulation of imitation dairy products. The European Commission's position advocating free trade and freedom of choice for consumers was first set forth in the spring of 1984 and upheld in April 1986. The regulation of imitation products within the EEC varies widely. Belgium is the most liberal. The UK and Ireland allow these products but place emphasis on labeling. Denmark, Germany (RFA) and the Netherlands are opposed to imitation products but make allowances for things like coffee whiteners. Italy and France are not much concerned. France and Luxembourg prohibit them firmly.

But it is difficult to define exactly what products are imitations. The problems started in 1869 when the Frenchman Hyppolitte Mauries [sic, Hippolyte Mège] was issued a patent for margarine. Soymilk ("lait de soja," a term which is clearly a misnomer) is one of the clearest imitation products; 9-10 million liters were consumed in the EEC in 1983. This is not much compared with 30,000 million liters of cow's milk. Tofu can be used as a substitute for meat and fish. An estimated 5,000 tonnes are consumed yearly in the EEC, not much, but the market seems to have a promising future in part due to tofu's excellent nutritional properties. Yet it can also be used in place of milk and cheese. The main tofu makers in France are Sojadoc and Soy (in Cerny). Soy uses soybeans grown organically in southwest France. Labels of 3 of Soy's products (Croque Tofou in Leek/Ginger, Mushroom, and Emmenthal flavors) are shown. In the USA the tofu market is making rapid progress, growing at 15-20% a year and having 181 producers.

Coffee whiteners are also a problem. In the USA 100,000 tonnes are made. In the UK, Carnation has 80% of the market and is the sole producer in Belgium. In the UK production has grown 20% a year, from 2,850 tonnes in 1978 to 6,700 tonnes in 1984. Still another problem is imitation cheeses. In the USA in 1984 they represented more than 5% of the total cheese market, estimated to grow to 12.5% by 1990.

Little by little soy-based imitation products are gaining ground. Recently soyfoods producers have organized the European Soyfoods Association to defend their interests against unfriendly regulators. They held a conference at Dravail on 13-14 March 1986. The association is headquartered in Paris and Philippe Vandemoortele of Alpro

is its head. Its secretary general is Guy Coudert, director of communication and marketing at ONIDOL, the French national interprofessional oilseeds organization (Organisation Nationale Interprofessionelle Oléagineux). Address: France.

7683. Shurtleff, William. 1986. The man who introduced David Mintz to tofu and soy ice cream: Pesach Lazaroff. Soyfoods Center, P.O. Box 234, Lafayette, CA 94549. 4 p. Oct. Unpublished manuscript.

• ***Summary:*** This fascinating account, based on a written chronology of events that Lazaroff began to keep in the summer of 1979, sets the record straight on when and how Tofutti came into being. Pesach Lazaroff introduced Mintz to tofu in the summer of 1979. In 1985, during three in-depth interviews with William Shurtleff, Mintz said that he had first learned about tofu in 1976-78 from a "Jewish Hippie" (i.e. Lazaroff). Yet in 1984 Mintz was announcing he had first heard of tofu from a magazine article in 1972, then two years later he pushed this date back to 1971–some 8 years before the fact.

In the summer of 1979 Lazaroff spent over 100 hours working with Mintz as a consultant. That August he left New York and went to work for Al Jacobson, owner of the Garden of Eatin' in Los Angeles. There he observed how Jacobson would run a soy ice cream mix (made for him elsewhere) through a soft serve machine. In California, Lazaroff's eyes were opened to the numerous successful soy ice creams. Above all, he first realized that soy ice cream had tremendous potential if it was marketed properly.

At the end of November 1980, Lazaroff returned to New York and first told Mintz about soy ice cream. Mintz had seen various pareve soy ice creams before this but had not liked their flavor. Lazaroff offered to show Mintz how to make a soy ice cream only if Mintz agreed to a partnership. Finally, in February 1981, according to Lazaroff, the two reached a firm verbal partnership agreement, though nothing was written down and no percentage figures were discussed. Then Lazaroff first showed Mintz how to make soy ice cream. The one and only batch was made with soymilk. It did not turn out well. This was the first and last time Mintz ever watched Lazaroff make a soy ice cream. Mintz had never made a soy ice cream before that. It is not clear whether or not Lazaroff ever mentioned using tofu in an ice cream. Lazaroff had never previously used tofu in making a soy ice cream. According to Lazaroff, three months after Mintz had first seen soy ice cream made, he changed his mind about the partnership. In early 1987 Lazaroff sued Mintz. In mid-May of 1987 they settled out of court. Part of the settlement was that its contents could not be revealed by either party.

It is clear from numerous other publications that David Mintz first began to make soy ice cream in early 1981. For example, the three earliest publications seen about Mintz (Sylvia Porter, Aug. 1980; Richard Leviton, Oct. 1980; Jewish Times, Feb. 1981) each give detailed listings of deli products Mintz said he was making from tofu, but none of them mention tofu. The earliest publication seen that mentions Mintz making a soy ice cream was written by Megan B. Murray in June 1981. She notes that he was making 275 gallons of tofu ice cream a week. These dates fit perfectly with Lazaroff's story. Address: Lafayette, California.

7684. **Product Name:** Les-Cal Tofait Lite (Low-Calorie Non-Dairy Soy Ice Cream) [Chocolate Mocha, Apples 'n Spice, Mountain Berry, Lemon Chiffon, or Cookies and Cream].
Manufacturer's Name: Tofoods, Inc.
Manufacturer's Address: 1827 Walden Office Square, Schaumburg, IL 60195.
Date of Introduction: 1986. October.
How Stored: Frozen.
New Product–Documentation: Leaflet. 1987, undated. 8½ by 11 inches. Color. "Introducing Delicious, Non-dairy Tofait. Made with Real Tofu. The Tofait Family Originals. The entire family collection of delicious new "good for you" non-dairy originals are here!" Lieb. 1987. Dairy Foods. March. p. 32. "A Terrific Time for Tofu." Several months ago the company introduced Les-Cal Lite Tofait. Lists flavors; Kingma. 1987. Soya Newsletter. 1(3):11.

7685. **Product Name:** [TK Skewered Tofu with Field Mushrooms].
Foreign Name: TK–Tofu–Bratspeiss mit Champignons.
Manufacturer's Name: Tofukost-Werk TKW GmbH.
Manufacturer's Address: Siemensweg 1, D-4724 Wadersloh-Diestedde, West Germany. Phone: 02520-1300.
Date of Introduction: 1986. October.
Ingredients: Tofu, mushrooms, moist breading, dry breading.
Wt/Vol., Packaging, Price: Each skewer weighs 120 gm. There are 42 skewers per 5.04 kg plastic bag with surrounding carton.
How Stored: Refrigerated, 6 months shelf life at 18ºC. Or frozen.
Nutrition: Protein 10.5%, water 79.3%, fat 3.4%, pH 5.8, ash 1.1%, carbohydrate 13.2%, energy 77.8 calories/100 gm.
New Product–Documentation: TKW color products catalog. 1988. April. Photo of three skewers on a silver plate. These are ready for frying by a foodservice organization. The alternating tofu cubes and mushrooms are pierced with a wooden skewer, breaded, and deep-frozen. Note: In German, the word "Champignon" refers to a specific type of mushroom (Pilz), i.e. the common or field mushroom, of the genus *Psalliota.*

7686. Tomsun Foods, Inc. 1986. Its time to go beyond yogurt (Ad). *Whole Life.* Oct. p. 59.

© Copyright Soyinfo Center 2013

• ***Summary:*** The top half of this full-page ad states: "Jofu is here. Luscious. Creamy. And loaded with fruit. Jofu is made from tofu, so it's lower in calories, yet more filling. And, unlike yogurt, it has absolutely no cholesterol, no lactose (it's dairy free), and no sour, yogurt taste. You'll love it from your first, fruit-filled spoonful. Jofu is also lower in sodium and saturated fats, but high in calcium, protein, iron and vitamins.

"It's got less of what you don't want and more of what you do. Jofu. In 11 great fruit flavors. You'll find it in the dairy section, Just beyond yogurt."

Below the text is a photo of a carton of Jofu, surrounded by fruits and nuts. The front panel of the carton reads, from top to bottom: "Only 165 calories. Jofu: Luscious tofu and fruit. Strawberry. Lactose free. Cholesterol free." Below the photo is a manufacturer's coupon: "Buy one, get one free." Address: Greenfield, Massachusetts.

7687. *Vegetarian Times.* 1986. Imitation cheese raises suspicions in natural foods world. Nondairy labeling scrutinized. Oct. p. 6-7. [1 ref]
• ***Summary:*** Soyarella, an early soy cheese, claimed to be dairy-free but it was not. Now two other imitation mozzarella soy products, Soya Kaas and Tofu Mozzarella, have joined Soyarella on store shelves, but both contain products derived from milk. Casey Van Rysdam of American Natural Snacks, the distributor of Soya Kaas, does not believe an imitation mozzarella product can be made without calcium caseinate to hold it together. Bob Savar, the distributor for Tofu Mozzarella, says it is possible to make his product without caseinate but it doesn't melt. Note: This is the second earliest publication that mentions Soya Kaas. *Kaas* is the Dutch word for cheese.

Part II of this article examines some labeling problems and improprieties related to casein and caseinates. "Nondairy" is not an FDA term. A number of states with large dairy lobbies came up with the term, according to Judith Riggins of the U.S. Food and Drug Administration. These states required products made with added casein to be differentiated from dairy products. The FDA decided not to oppose these state laws if the ingredient statement bears the term "milk derivative" in parentheses after the word casein. However vegans who choose not to consume dairy products for ethical reasons have been left feeling deceived.

7688. Yoshinaga, George. 1986. Horse's mouth: Remember tofu. *Kashu Mainichi* (*Los Angeles*). Nov. 3. p. 1. [Eng]
• ***Summary:*** The Hinoichi plant near Little Tokyo was previously owned by Ken Osaki, who sold it to the Yamauchi family from Hawaii, who used their experience from the Hawaii operation in mechanizing the making of tofu. According to a news release just received from Hinoichi, "the one big change in the tofu industry came in the way it was dispensed at the retail level.

"Remember how they used to leave tofu in a large can filled with water and everyone who wanted to buy tofu used to stick their hands into the water to grab the cakes of tofu? There was no facility to wash one's hands before dipping into the can and no other way to grab the tofu without the use of one's hands. I wrote a column about it one day, commenting on how unsanitary it was that a food product which was generally eaten raw could be handled in such a fashion. Somehow the article was read by someone from the city's health department and a new regulation was passed requiring tofu to be packaged in individual containers... I recall the manufacturer of tofu was not too happy with the extra expenses required to not only buy the packaging material but also in setting up machinery to package it." Address: 915 E. First St., Los Angeles, California 90012-4083. Phone: 213-628-4686.

7689. Sugarman, Carole. 1986. Two to square off for the tofu trade [Sam Sung and Wang Ja in Washington, DC]. *Washington Post.* Nov. 12. p. E12, E14-15.
• ***Summary:*** Henry and Kim Salazar's Sam Sung sells 8-10,000 lb of tofu daily. But Wang Ja is entering the market with a $550,000 high technology tofu system that can make 20,000 lb of tofu in a six hour span. Address: Washington, DC.

7690. Demos, Steve. 1986. Deal to acquire Soyfoods Unlimited, Inc. New developments at White Wave (Interview). *SoyaScan Notes.* Nov. 13. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Steve plans to finalize the deal to acquire Soyfoods Unlimited (a tempeh maker in San Leandro, California) on Thursday, Nov. 20. Then he plans to go to India for a 25-day meditation intensive.

Why does he want to buy Soyfoods Unlimited? Mainly to get a distributorship in the California market, to establish White Wave's name and market position in California, and, above all, to get other White Wave products out there. Lonnie Stromnes will continue to work at Soyfoods Unlimited. Steve will visit California soon. Shurtleff invites him to visit Soyfoods Center (which is also in the Bay Area).

Steve's business is doing well. Tempeh sales are up 30% this year. He now sells more units of tempeh than of tofu. People in Boulder like it better. White Wave is strong and growing steadily. Address: Boulder, Colorado.

7691. Seminar on Traditional Foods and Their Processing in Japan. 1986. Tokyo: NODAI Research Institute, Tokyo Univ. of Agriculture. 4 p. Held on 13-25 Nov. 1986 at Tokyo University of Agriculture, Tokyo, Japan.
• ***Summary:*** This document, which is an announcement of the seminar, contains two parts: (1) The 1-page introductory letter (28 cm), and (2) The 3-page Agenda (26 cm). The proceedings were published in 1987, edited by Fujiharu

© Copyright Soyinfo Center 2013

Yanagida.

The Agenda gives the opening session (Room A): Chairman I. Uritani. 11:00–11:30. Opening address by the chairman of organizing committee, Dr. Izuru Yamamoto, Director, Nodai Research Inst. Welcoming address by Dr. Takao Suzuki, President, Tokyo University of Agriculture. Address by representative of Japan Society for the Promotion of Science. (JSPS). Address by the president of the Society for Agricultural Education–Research Development Abroad (SAEDA), Dr. Jiro Sugi, Emeritus Professor, Tokyo Univ. of Agriculture.

11:30–11:45. Keynote address, Dr. Hiroyasu Fukuba, Professor, Ochanomizu University.

The following soy-related papers, which were published in the 1987 proceedings, are cited separately: Onchom, by Dedi Fardiaz. Miso, by Hisao Yoshii. Tofu, by Tokuji Watanabe. Indigenous fermented foods in Nepal, by Tika Karki. Improvement in traditional soy sauce fermentation, by Sri Hartadi. Address: Tokyo, Japan.

7692. *Vashon-Maury Island Beachcomber.* 1986. $6.5 million expansion planned for tofu firm [Island Spring of Vashon, Washington]. Nov. 13.
• ***Summary:*** Last week Lukoskie announced the $6.5 million one year expansion plan. Investment from the Edward Lynch Co. will enable the firm to grow from its present 27 employees to 60. Construction of a new 30,000 square foot factory is now underway on Vashon Island. Lukoskie began making tofu in a 14-by-14 foot former goat shed at Cove, on the island.

7693. Tanikawa, Harry. 1986. Recent developments at House Foods and Yamauchi Inc. (Interview). *SoyaScan Notes.* Nov. 15. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Their soymilk was launched in April 1986 in Pure Pak, named Hinoichi Soy Drink, in 4 flavors: Plain, original (with fructose and oil added), mocha, and chocolate. It is sold only in the Los Angeles area in Asian-American food stores. It will never be sold in natural food stores. Pure Pak limits geographical distribution.

House Foods and Mr. Yamauchi now each own 50% of the company. It seems like a happy marriage. Mr. Yamauchi is still very involved in the daily operation of the business. They dropped the parfait before the partnership. Address: Los Angeles, California.

7694. Burum, Linda. 1986. Breakfast in Chinatown and other Asian spots. *Los Angeles Times.* Nov. 16. p. S106.
• ***Summary:*** The section titled "Japanese" begins: "Amid the jangle of downtown traffic, A Thousand Cranes is an oasis of flagging civility." This lovely, calm restaurant, with its own stylized Japanese garden, is in the New Otani Hotel, at 120 S. Los Angeles St., Los Angeles. Dressed in a classical kimono, the waitress brings breakfast on a lacquered tray. On it is a covered bowl of miso soup, plus rice and other delicacies. "One may select from several other *okazu* (the things to eat with rice) such as squares of delectably garnished and very fresh *tofu* or *natto,* a little mound of flavorful fermented bean" [sic, beans].

"A jar of *umeboshi,* the mouth puckering tiny sour plums known as nature's own mouthwash, is placed on each table; one of these cleanses the palate."

The section titled "Chinese" begins with a visit to Yi Mei, a very good traditional Chinese bakery in Monterey Park (near downtown Los Angeles), known for its "Northern-style breakfasts centering on large bowls of soy milk that may be ordered slightly sweetened or seasoned with a dash of sesame oil and salt. Look around and watch everyone dipping *yu t'iao,* long, airy fried buns that resemble unsweetened crullers, into their soy milk." The crullers soak up the soy milk, then everyone noisily (its impossible to do this quietly) eats the crullers.

7695. Nugent, Meg. 1986. Scientist [J. Yavelow] extols "beanefits" of lentils, limas, tofu. *Star-Ledger* (*Newark, New Jersey*). Nov. 16.
• ***Summary:*** The Bowman-Birk Protease Inhibitor is said to prevent conversion of normal cells to cancer cells.

7696. Donahue, Christine. 1986. Tofutti's Mintz is trying to keep sales from melting: Futuristic new Ketchum commercials as viewers "What was ice cream?" *Adweek.* Nov. 17. p. 68. Also run in Adweek's Marketing Week, Nov. 10, p. 1, 24.
• ***Summary:*** Mintz is trying to rebuild his distribution system. In August 1986 Pillsbury's Haagen-Dazs stopped distributing Tofutti. Since 1984 two-thirds of Tofutti has been distributed by Haagen-Dazs, with 99% going to grocery stores. Tofutti claims to have 95% of the "frozen tofu" market.

7697. Tam, Alan. 1986. Re: The tofu industry in New Zealand. Letter to William Shurtleff at Soyfoods Center, Nov. 18. 2 p. Typed, with signature on letterhead.
• ***Summary:*** Alan's company started making tofu about 8 years ago (1978). Note: See Alan's letter of 2 May 1985 in which he says that he initially made tofu on a small scale, making it for friends and family only. But in "recent years" he has been making it on a commercial scale. It is not clear to which phase this 1978 date refers.

His company's current tofu production averages about 1,000 pounds week.

Alan knows of only three commercial tofu manufacturers in New Zealand. Bean Supreme in Auckland makes 1,000 to 1,500 lb/week. Sun Hing Foods Co. in Wellington (founded 1978) makes 1,000 to 1,200 lb/week. SoySource Tofu in Christchurch makes about 500 lb/week. Addresses of the first two companies are given. Address: P.O.

© Copyright Soyinfo Center 2013

Box 14-213, Kilbirnie, Wellington 3, New Zealand. Phone: (04) 877 313.

7698. Corcoran, Annysa. 1986. Zakhis make tofu their business. *Journal & Courrier* (*Lafayette, Indiana*). Nov. 24.
• ***Summary:*** Doris and Victor Zakhi of Fort Wayne, Indiana, would like to Westernize tofu. They are vegetarians and the founders of Zakhi Tofu, a small, family-operated business. Doris (age 55) is also a painter and Victor (age 56) works in the computer offices of General Telephone Co. They've recently introduced sloppy joes.

7699. *Beachcomber* (*Vashon, Washington*). 1986. Versatility is what sells tofu. Nov. 26.
• ***Summary:*** A large photo shows all Island Spring products, including soymilk, firm and extra firm tofu, Tofu Ranch House Dressing, Tofu Dessert (ice cream), Tofu Burgers, and Tofu Frozen Dessert Mix. Address: Vashon, Washington.

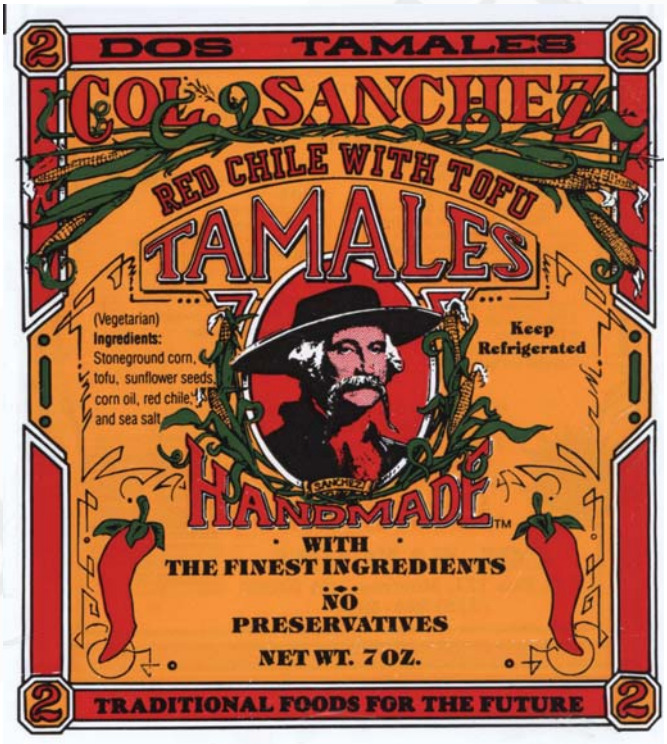
7700. *American Family Physician.* 1986. Americans may love to eat but certain foods definitely don't show up on their grocery lists... Nov. p. 23. Summarized as "Hated Foods" in Medical Self-Care. May/June 1987. p. 11. [1 ref]
• ***Summary:*** "When asked what foods they hate, 35 percent of Americans listed tofu as their least favorite food, followed by liver with 34 percent. The next most disliked foods on the list are yogurt (29 percent), Brussels sprouts (28 percent), lamb (24 percent) and prunes (24 percent), according to a recent Roper poll."

7701. Barrett, Mariclare. 1986. The cook's glossary of soyfoods. *Vegetarian Times.* Nov. p. 28-35. [10 ref]
• ***Summary:*** Gives good definitions, with a full-page color illustration by Emily Soltanoff, of: Soybeans, soynuts, soy flour and grits, soy oil, textured vegetable protein, soymilk, okara ("the pulp that remains after the soymilk has been strained"), soy yogurt and soy cheese, tofu, fermented soyfoods, tempeh, miso, natto, soy sauce.

The article begins: "For 60 seconds on a national television commercial, a small, round soybean rolls past a lineup of infant formula, bread, pizza, chili, salad dressing, ice cream [Tofutti], soymilk and cubes of tofu; meanwhile the narrator intones, 'The newest development in nutrition is actually one of the oldest foods known to man.' Through advertising, the concept of soyfoods is brought home to millions of Americans by the soy giant, Archer-Daniels-Midland Company." Address: Staff.

7702. Barricini Foods Inc. 1986. Barricini Foods develops new tofu-based non-dairy yogurt-type snack (News release). Oyster Bay, New York. 2 p. Nov.
• ***Summary:*** Tofulite is a tofu-based spoonable snack with active yogurt cultures. It is fermented. Note: As of Feb. 1989 this product, though widely announced, had not been launched. Address: Oyster Bay, New York.

7703. **Product Name:** Red Chile with Tofu Tamales.
Manufacturer's Name: Col. Sanchez Foods.
Manufacturer's Address: 1889 E. Alpha #18, Glendale, CA 91208. Phone: 818-244-8500 or 818-241-3939.
Date of Introduction: 1986. November.
Ingredients: Stoneground corn, tofu, sunflower seeds, corn oil, red chile, sea salt.
Wt/Vol., Packaging, Price: 6 oz plastic bag. Retails for $1.79.
How Stored: Refrigerated.



New Product–Documentation: Label (plastic bag). 1986, dated. 5 by 6.5 inches. Red, green, black, and white on yellow background. "Dos tamales. Handmade with the finest ingredients. No preservatives. Traditional foods for the future." One 1986 label is from Santa Fe, New Mexico and another is from P.O. Box 171, Montrose, CA 91020. Phone 818-244-4999. By 1987 net weight is 7 oz. Talk with Martin Roth. 1989. Aug. 17. This company is run by Kathryn Bennett, who originally started Southwest Soyfoods.

Talk with Kathryn Bennett. 1989. Aug. 28. After selling Southwest Soyfoods to Richard Jennings she tried to find a job without success. So in about 1983 she decided to start another food company, which she named Col. Sanchez Foods, in Glendale, California, at the address shown above. Kernel Sanchez had been the brand for the tamales she made at Southwest Soyfoods; since Richard Jennings never used it, she felt free to use it again. This was the company's first product. It was an improved version of the

© Copyright Soyinfo Center 2013

original Southwest Soyfoods tamale. For a while in 1986 the company tried to make tamales in both California and New Mexico (P.O. Box 2881, Santa Fe, NM 87504) but this didn't work out since the people who were making them in New Mexico did not do a good job. So the New Mexico operation was shut down and production was consolidated in California. The company is now located at P.O. Box 5015, Santa Monica, CA 90405. Phone: 213-396-2228. This is the only soyfood product that Col. Sanchez. Foods has made. They also sell blue corn chips. Next month they plan to introduce a taco filling and a Texas style chili & beans, each with seitan, soy flour, and soy sauce. This fall Kathryn will also publish a cookbook titled *Col. Sanchez' All American Traditional Foods Cookbook*, containing many soyfood recipes.

The company is now very active with environmental and food quality issues. All grains are organically grown, spices are non-irradiated, and they support seed banks of traditional seeds. Leaflets. 1989. 8½ by 11 inches. Color photo. One is titled "Southwestern Cuisine" and the other is titled "Col. Sanchez Foods." Both show 3 types of tamales and 2 types of burritos, including a red chile with tofu tamale, a chicken tamale and a turkey burrito.

7704. Dawson, Barbara M. 1986. Vegetarian spa resorts to innovative purchasing. Murrieta Hot Spring's typical weekly grocery order might include 1,000 pounds of tofu. *Restaurants & Institutions* (*Des Plaines, Illinois*). Nov. p. 172.
• ***Summary:*** In a 6-month period, Murrieta purchased 23,400 pounds of tofu, or 130 lb/day. The San Diego Soy Dairy sells 4,500 lb of tofu a week, 25% of it to Murrieta. Popular dishes include tofu links (hot dogs) marinated in almond oil, liquid aminos, ketchup and mustard, and grilled on the barbecue. Breakfast features a scrambled tofu dish blend in with almond oil.

Note: As of Aug. 1991 Murrieta Hot Springs is closed and a mess, with broken windows, no owner, and facing receivership.

7705. Evans & Co., Inc. 1986. Prospectus: Tomsun Foods International, Inc. 300 Park Ave., New York, NY 10022. 46 p. Nov.
• ***Summary:*** Tomsun Foods and Jofu are going public. Offering 425,000 units, each unit consisting of 2 shares of common stock ($0.10 par value per share) and one common stock purchase warrant. Company hopes to raise $3.8 million. Proposed NASDAQ symbols TMSN (common stock). Address: New York.

7706. Honer, Clem. 1986. Minnesota's soy-blend specialist: St. Peter's transition from country creamery to specialty-ingredient supplier. *Dairy Foods.* Nov. p. 49-51.
• ***Summary:*** Stanley Davis, president of St. Peter Creamery in St. Peter, Minnesota, had the foresight to guide his company away from the declining market in butter and skim milk powder (they stopped producing these items in 1977), and into the expanding market for soy-based ingredients. Dried soy milk and dried tofu now make up about 80% of this company's soy product sales, with each accounting for an equal share. The remaining 20% of St. Peter's soy product sales consist of wet blends. The company recently had to build a new specialty, computerized drying and blending plant at Lake Norden, South Dakota, to keep up with sales growth.

The company processes soybeans like a milk product rather than a grain product. start with whole soybeans, which are extracted, homogenized, and dried in 7 minutes. The soy oil is encapsulated to prevent further oxidation.

7707. McMath, Bob. 1986. Hot products: Japanese foods 'stir' up interest. *Food & Beverage Marketing.* Nov. p. 12, 60.
• ***Summary:*** Soyfoods included in the Kikkoman instant soup mix line are Osuimono (Japanese Clear Broth), Aka Miso Soup (Soybean Paste Soup–red), Shiro Miso Soup (Soybean Paste Soup–white), Tofu Miso Soup, and Wakame Soup (Seaweed Soup, a color photo of which is shown). Each packet contains 3-4 individual servings and retails for $1.19 to $1.39.

7708. Nasoya. 1986. Introducing–2 new ways to enjoy the goodness of tofu! Nasoya Creamy Tofu Dressings and Nasoyanaise (Ad). *East West.* Nov. p. 83.
• ***Summary:*** A full-page glossy color ad. The three flavors of Creamy Tofu Dressing are Sesame-Garlic, Fine Herbs, and Italian. "Out miracle ingredient is tofu–fresh organic tofu made right here at Nasoya." Includes a 25¢ coupon in the lower right corner. Address: Leominster, Massachusetts 01453. Phone: (617) 537-0713.

7709. **Product Name:** Natural Prepared Entrees: Tofu Nuggets.
Manufacturer's Name: Natural, Inc.
Manufacturer's Address: 6650 Santa Barbara Ct., Elkridge, MD 21227. Phone: 301-796-3211 (Balt.); 301-621-5388 (DC).
Date of Introduction: 1986. November.
Ingredients: Water, organic soybeans, nigari (magnesium chloride), soybean oil.
Wt/Vol., Packaging, Price: 7 oz vacuum pack.
How Stored: Refrigerated.

7710. **Product Name:** Natural Prepared Entrees: Vegi Burger.
Manufacturer's Name: Natural, Inc.
Manufacturer's Address: 6650 Santa Barbara Ct., Elkridge, MD 21227. Phone: 301-796-3211 (Balt.); 301-

621-5388 (DC).
Date of Introduction: 1986. November.
Ingredients: Nigari tofu, carrots, cabbage, onion, celery, potato, yam, okara, soymilk, sesame seeds, sunflower seeds, soybean oil, sea salt, spices.
Wt/Vol., Packaging, Price: 7 oz vacuum pack.
How Stored: Refrigerated.
New Product–Documentation: Talk with Larry C. Betzler of American Soyfood Industries. 1988. April 1. Eddie Tsai, the Taiwanese manager, makes Tofu Burgers and Veggie Burgers for Larry.

7711. *Soyfoods Report.* 1986. ProFiles: Golden Soy Foods, Inc. Fall. p. 11-12.
• ***Summary:*** Hauber, a vegetarian for 10 years, started the company in 1986 making Soysage in her kitchen.

7712. **Product Name:** Tofu.
Manufacturer's Name: Tacoma Tofu.
Manufacturer's Address: 11018 Bridgeport Way S.W., Tacoma, WA 98499.
Date of Introduction: 1986. November.
New Product–Documentation: Talk with Ron Johnson, owner. 1987. Nov. 13. He now makes 500 lb/day of tofu. Wife is Japanese. Sells it mostly to Japanese Americans.

7713. **Product Name:** Deep-Fried Tofu (Ganmodoki, Atsuage, or Namaage).
Manufacturer's Name: Tacoma Tofu.
Manufacturer's Address: 11018 Bridgeport Way S.W., Tacoma, WA 98499.
Date of Introduction: 1986. November.
New Product–Documentation: Talk with Ron Johnson, owner. 1987. Nov. 13. His wife is Japanese. Sells his tofu mostly to Japanese Americans under these names.

7714. Tofu Shop Delicatessen (The). 1986. Thanksgiving specials (Leaflet). Arcata, California. 1 p. 28 cm. Single sided.
• ***Summary:*** Handwritten, with an illustration of The Tofu Shop, on pillars and with a tree growing overhead, at the edge of the ocean. "Tofu-Turkey: Deli 5 lb. 'birds' made from the freshest tofu, fully stuffed, basted, and baked. Tastes like the real thing and the leftovers are delicious. No animal products. Price–$12.95, with $5.00 non-refundable deposit. Pre-order.

"Traditional stuffing: All natural with whole-wheat croutons, mushrooms, tofu trimmings and select vegies and spices. Price–$1.75 / qt. Pre-order.

"Pumpkin tofu pie: Large 9" pie serves eight. A delicious dessert with whole wheat crust, free of dairy and eggs. Price–$5.75. Pre-order.

Ordering & pick-ups: Order deadline: Mon. Nov. 19. All pick-ups: Wed. Nov. 21.

"This year. Save the bird & eat it, too!" Address: 768 18th St., Arcata, California. Phone: 822-7490.

7715. **Product Name:** Tofu-Turkey, Traditional Stuffing, Pumpkin-Tofu Pie.
Manufacturer's Name: Tofu Shop Delicatessen (The).
Manufacturer's Address: Arcata, California. Phone: 822-7490.
Date of Introduction: 1986. November.
Ingredients: Tofu (soybeans, water, nigari). Stuffing: Wholewheat seasoned croutons, parsley, celery, onions, mushrooms, carrots, tofu, miso, okara, soy margarine, tamari, sage, paprika, basil. Basting: Tamari, soy margarine, garlic, onions, sage.
New Product–Documentation: Leaflet (28 cm, single sided) sent by Matthew Schmit. 1986. 7719. Potter, Michael. 1986. History of Eden Foods: Building a soymilk plant in America (Interview). *SoyaScan Notes.* Dec. 12. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** On 1 August 1986 it was announced that a major new joint stock company, named American Soy Products, had been established to produce Edensoy soymilk in Saline, Michigan, 30 miles west of Detroit, at a new state-of-the-art manufacturing and packaging facility. Michael Potter played a major role in conceiving and pulling together this innovative, exciting, and promising new venture. In July 1983 Eden Foods launched their first Edensoy soymilk, made by Marusan Ai in Okazaki, Japan. It soon proved to be a great success. When Potter began to talk with Marusan Ai about building a soymilk plant in the USA, he found that they were wary. In 1982-83 Marusan had had extensive discussions with Hinode Tofu Co. in Los Angeles, California, about a soymilk joint venture, but the talks eventually broke down over small points; Marusan felt they had wasted a lot of time and money to no avail. So Potter focused on Muso. With competition eating into their domestic Japanese health food market, a venture in America looked promising. Yet neither Eden nor Muso had the capital to build a soymilk plant in America. Enter Kawatetsu Shoji, better known as Kawasho International. A big New York based firm with money, influence, power, and experience in international business and joint ventures, they were looking to diversify out of coal, steel, and other commodities, into branded foods. They already knew Eden Foods (they had been financing their growing Edensoy imports and inventories from Japan) and they liked the fact that Eden knew Japan and seemed to have a solid, growing product. Kawasho's endorsement of the project was enough to overcome Marusan's reluctance. And with Marusan came Seikensha, the Tokyo based company that had built Marusan's state-of-the-art soymilk equipment. The historic joint venture package, called American Soy Products, was officially founded in June 1985.

Gross investment in the new company was $10 million. Percentage ownership was Marusan Ai 25%, Kawatetsu Shoji (Kawasho Intl.) 25%, Muso 15%, Seikensha 10%, and Eden Foods Inc. 25%. The chairman of the board was Michael Potter of Eden Foods and the president was Mr. Hiroyasu Iwatsuki, Marusan's soymilk manager, who soon moved to Michigan to go to work.

Each partner had a unique and valuable set of skills to offer. As before, Eden Foods would continue to be responsible for marketing, selling, and distributing all soymilk made by the new company. Kawasho would oversee administration and financing. Marusan would take care of soymilk production. And Muso would coordinate international sales. Seikensha, which has patents on key pieces of soymilk manufacturing equipment, would supply the plant equipment.

Open houses in mid-September were attended by the media and a host of state dignitaries, including the Director of Michigan's Department of Agriculture, who called the new plant "a perfect marriage of high technology and the area's farming." These events, and additional promotion done by a newly-hired, local marketing and advertising firm named Group 243, gave the project extensive, very positive publicity. Widespread color print media advertising, focusing on Edensoy's new larger size package, was also started.

In late October 1986 the sparkling new 22,000 square foot stainless steel plant at Saline (12 miles northeast of Clinton and just south of Ann Arbor, in the southeast corner of Michigan) started test runs, which were carefully monitored by the FDA for 6 weeks. Both the Japanese soymilk equipment and the Swedish low-acid Tetra Brik packaging lines were said to be the most modern of their kind in the world. The company had spared no expense to "do it right." Japanese technicians now living in Saline were training American counterparts.

The factory and land had cost $2.3 million and equipment cost $4.3 million. The company committed $700,000 for startup costs, $1.8 million for marketing funds, and $700,000 for working capital. By November 1986 most of this money had been spent.

The new Edensoy was packaged in both regular (250 ml or 8.45 fl. oz. for $0.59) and large (1 liter for $1.99) Tetra Brik cartons, in plain, carob, and vanilla flavors. The new prices were significantly lower than before. For example, in 1984 (when it was historically least expensive) Edensoy in a 6-ounce retort pouch had retailed for $0.69 to $0.79, or an average of 12.3 cents per ounce. The new 250 ml (8.45 fl. oz.) pack retailed for only 7.0 cents per ounce (down 43%), while the liter size (33.8 fl. oz.) retailed for only 5.9 cents per ounce (less than half the retort pouch, and 16% less than the 250 ml pack). Yet compared with cow's milk at 54 cents per quart (32 fl. oz.) or 1.7 cents per ounce, the Edensoy

© Copyright Soyinfo Center 2013

products are still 3.5 to 4.1 times as expensive per ounce; a much lower ratio than in 1984 but still quite high.

A cornerstone of Eden's food procurement policy since 1973 was the support of local farmers. And Saline was in the heart of Michigan's soybean country. The estimated 85,000 bushels a year of soybeans used to make Edensoy will all be grown on contract with individual Michigan farmers located within a 10-mile radius of the plant. Beeson variety soybeans will be used; though low yielding for farmers, they have a low-oil, high-solids composition and give excellent soymilk. Numerous standard grade parameters will also be specified. Growers will typically receive premiums of 15-30% over conventional markets. By mid-1987 American Soy Products (ASP) hopes to start using organically grown soybeans.

One nice by-product of the new ASP plant was the fact that it was the only plant and Tetra Brik line located in that part of the USA especially designed to package low-acid foods; there were only two others in the entire country, both on the West Coast, and used mostly to pack milk. Thus a host of other companies, wishing to have their own low-acid products packed on Tetra Brik machines, started to line up to use ASP's equipment. This sort of contract packing would serve as an important source of income and keep the packaging operation running 24 hours a day.

ASP's initial run is scheduled to produce 100,000 packages of 250 ml equivalent. The company's first year sales goal is $5,000,000 produced on 2 shifts. But the first problem is to fill the 20 truckloads that were back ordered.

In November Eden Foods decided that on 1 Jan. 1987 they will stop serving as a wholesale distributor to retail stores in the Midwest (10% of their total business), drop 150 products, and serve as a master distributor, selling only through other distributors. This will allow additional attention to be paid to American Soy Products. Still big marketing and distribution questions remain: Will ASP use brokers? Go direct? Go through grocery distributors? Who does ASP see as their stiffest soymilk competition? Vitasoy and Sunsoy?

What about future plans? A French label for the Canadian market. Organic soybeans. The use of a grain (such as brown rice, barley, etc.) in the Edensoy formula. A cautious attempt to break into the mass market via super markets, but only after careful test marketing in specific areas. Eventually other similar plants in other parts of the United States.

American Soy Products and the new Edensoy are the most exciting soymilk ventures of 1986, and ones that the industry will be watching closely. Address: President, Eden Foods Inc., Clinton, Michigan.

Application filed 5 Aug. 1985. See also Japanese Patent 84-239,688 (FSTA 84-11-14). Application also filed in Japan on 3 Sept. 1984. [7 ref]
• ***Summary:*** Nigari or magnesium chloride, a natural coagulant used in the preparation of tofu, gives very rapid coagulation. Other coagulants such as calcium sulfate and glucono-delta lactone give less rapid coagulation, easier mixing, and a softer curd, but have inferior flavor. If soymilk is mixed with a wheat germ dispersion (which has been prepared from fresh wheat germ homogenized at 95ºC) before addition of the nigari or magnesium chloride, the wheat germ slows the speed of the coagulation and allows sufficient time for the curd to mature into a delicious product of even texture. Variations in the ratio of soybean to wheat germ in the suspensions allow different products to be made, e.g., tofu or bean curd, "a dessert pudding" or a "dressing or yogurt substitute." Address: Hiratsuka, Japan.

• ***Summary:*** Illustration caption: "Here's an architect's idea of what the new $37,000 square foot Island Spring tofu factory now under construction near the K2 [ski] plant will look like. Part of a $6.5 million expansion plan, it will house another 30 or so employees as the firm expands sales of some product lines nationwide. The firm plans to add its own laboratory in the new building." "Partly that expansion was made possible by a state matching grant to build a $425,000 water tank for fire protection near K2." Address: Washington.

7728. *SoyaScan Notes.* 1986. Chronology of soybeans, soyfoods and natural foods in the United States 1986 (Overview). Dec. 31. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** Jan. Ron Ishida, an attorney with no previous knowledge of tofu, working for Azumaya Inc. (South San Francisco, California), rewrites the Tofu Standards without authorization. They have already gone through 8 drafts. This creates a crisis.

Jan. Soymage, the first casein-free soy cheese, is introduced by Soyco Foods.

Jan. *Soyfoods: The Journal of the European Soyfoods Association* (*ESFA*) begins publication from Paris. Philippe Vandemoortele of Alpro is president of the association and Guy Coudert is editor of the periodical. The association plans to organize a soyfoods conference every 2 years. But the journal is discontinued after 3 issues.

Jan. Tomsun Foods is reorganized, changing its name (for the fourth time) to Tomsun Foods International. The firm's new chairman is Juan Metzger, founder of Dannon Yogurt. The company produces nearly 3 million lb. of tofu a year.

Jan. First Tofutti Shop opened in Japan by Daiei Co. Inc, Japan's largest retailer. Shop sells non-dairy soy-based ice cream and related snacks.

Feb. 7. Fire destroys Island Spring tofu plant in Vashon, Washington, with an estimated $1 million loss.

Feb. Soya Kaas, an imitation cheese containing soymilk and casein, launched by American Natural Snacks, a marketer. The manufacturer is Swan Gardens of Georgia.

Feb. Jofu, a tofu-based, non-dairy, nonfermented, yogurt-like product, sweetened with fruits, launched by Tomsun Foods International of Greenfield, Massachusetts. The product is a hit, grossing nearly $400,000 in its first 32 weeks on the market.

Feb. Barricini Foods has its first public stock offering. Raises $1.5 million, gross to use in marketing Tofulite and Ice Bean soy ice creams.

Feb. Central Soya purchases Staley protein line, including Mira-Tex, Procon, and Textured Procon brands.

Feb. ASA hires Jim Guinn as technical director of soybean quality programs. Soybean quality is an area of growing interest, with two parts: 1. The traditional area of soybean condition, concerning grades, damage, foreign material, etc. 2. The newly emerging area of soybean composition and its relation to grades. New measurement technologies make it likely that soybeans may soon be sold based on their composition of oil and protein. Both effect exports and price.

March 5. Pesticide control now tops the Environmental Protection Agency's list of most pressing problems, announces *The New York Times* (and *Soybean Digest,* June/July). Stricter pesticide laws are enacted.

March 7. Richard E. Lyng of California becomes U.S. Secretary of Agriculture, replacing John R. Block. Policies remain unchanged.

April 18. Wm. Shurtleff, in charge of compiling the original tofu standards, submits a strong criticism of the illegitimate Ishida draft in the form of a detailed chronology of the development of the tofu standards.

April. Tofu cheesecake revolution in New York City profiled by *Whole Life.* Thirteen restaurants now offer them.

May. Tofutti Love Drops (chocolate covered graham cookie drops) launched by Tofutti Brands with much fanfare.

May. Nasoya's new million-dollar automatic tofu-making system, imported from Sato Shoji in Japan, begins operation.

June. Increasing consumer deception by "soy cheese" manufacturers. Whole Life publishes "Whole Frauds in the News: Will the Real Soy Mozzarella Please Stand Up (That is, If There is One)," an exposé of mislabeling involving Soyarella, Tofu Mozzarella, and Soya Kaas (though the latter brand is not at fault). Argues that it is deceptive for

© Copyright Soyinfo Center 2013

health food stores to call a product "non-dairy" if it contains casein (milk protein), even though FDA rules allows such a designation. In Oct. Whole Life shows that "Independent lab tests prove Soyarella hoax; Large quantities of casein [19.6%] found in so-called soy cheese." Soyarella had previously been marketed as casein free.

July. Ralston Purina Co. starts publication of Nutrition Overview, a newsletter focusing on soy protein and fiber.

July. Soyfoods win big in 7th Annual Natural Foods Merchandiser merchandising awards: Gold: San-J tamari and shoyu. Silver: Fantastic Foods' Tofu Scrambler and Tofu Burger, Westbrae Natural miso soups. Honorable mention: Walker & Wilks frozen entrees, White Wave boxed tofu.

July. Vitasoy reintroduces it line of reformulated and repackaged soymilk products, originally launched in 1984. They contain more solids and nutrients, and are sweetened with barley malt instead of maple syrup.

July. A Roper poll in the U.S. finds that tofu is the "most hated" food. 35% of a sample of 2,000 adults checked it on a list of foods said to be disliked, ahead of liver (34%), yogurt (29%), Brussels sprouts (28%), and prunes (24%). Results do not vary significantly by age, but tofu dislike is somewhat less among those with higher incomes. The poll results are very widely publicized, and are even the subject of a question on the TV program Jeopardy (in early 1988)–and its rerun! These findings suggest both a widespread awareness of tofu and a split image: Some like it and others don't.

Aug. Kikkoman's new shoyu plant starts operation in Chitose, Hokkaido, in northern Japan. The first product was shipped on 30 Jan. 1987.

Sept. 9. American Soy Products Inc. plant dedicated in Clinton, Michigan. A $10 million joint venture between Eden Foods and four Japanese companies (Kawasho, Marusan, Muso, Seikensha), construction on the plant began in Oct. 1985. It will make Edensoy soymilk in Tetra Brik cartons. The first products are shipped in November.

Sept. 19. Tofu standards passed by Tofu Standards Committee in San Francisco, after all committee members except Shurtleff agree to start with a blank slate in drafting new standards–thus erasing years of work by hundreds of people. Shurtleff resigns in protest, arguing that this is a violation due process. Shortly thereafter Barricini and Ralston Purina also refuse to give final approval. Tofu standards are stalled indefinitely after many years of hard work.

Sept. 24. First International Tofu Products Expo, Seminar, and Soyfoods Buffet, held in Munich, West Germany. Sponsored by Bernd Lehmann International Consultants. 100 people attend.

Oct. Supersoy brand soymilk introduced to America by Mitoku USA. It is made by Kibun Health Foods Co. in Japan.

Oct. Ralston Purina sells its domestic agricultural products business, Purina Mills. Total sales for 1986 were $5.5 billion.

Nov. Island Spring announces $6.5 million investment from Edward Lynch Co. to finance an expansion plan. Construction of a new 30,000 square foot factory is now underway on Vashon Island.

Dec. 1. White Wave of Boulder, Colorado, acquires Soyfoods Unlimited, a tempeh manufacturer of San Leandro, California. This makes White Wave America's largest tempeh manufacturer.

Dec. 8. Central Soya purchases 7 of 9 Bunge processing plants. ADM is now estimated to control 30% of U.S. crushing capacity followed by Cargill (25%), Central Soya (20%), and other (25%).

Dec. Tomsun Foods International nets about $3.45 million in its first public stock offering. Most of the funds will be used for sales and marketing of Jofu, and to repay $800,000 in debts. Total Tomsun sales in 1986 were about $3.1 million.

Dec. Haagen-Dazs will drop Tofutti and start distributing Barricini Tofulite, a non-dairy frozen dessert.

Dec. Brightsong Foods is named as one of the top ten food innovators for 1986 by Food & Beverage Marketing magazine. In fact, Brightsong is listed first!

Dec. Tofruzen Inc., a soy ice cream marketer from Englewood, Colorado, raises $1.6 million in a public stock offering. Sales of Tofruzen in fiscal 1986 were $91,000, rising to $158,000 in 1987, and $213,000 in the first quarter of 1988.

Dec. Edible Soy Products in Hudson Iowa is sold to Solnuts of Tilburg, The Netherlands, and renamed Solnuts, Inc. The Hudson and Tilburg plants are the only ones in the world that dry roast soybeans to make soynuts.

Dec. More than 60,000 Italian farmers harvested nearly 25,000 hectares (61,700 acres) of soybeans this year. Italy is now Europe's largest soybean producing country, followed by France. Five years ago, Italy produced virtually no soybeans. The Ferruzzi Group is the leading promoter, helped by hefty subsidies from the EEC.

1986 New Trends:

So Called Tofu Cheeses. Eight new soy cheeses were launched during 1986, many with the term "Tofu" in the product name. Many have been shrouded in mystery, with the names of the manufacturer and ingredients often not disclosed. There has been much consumer deception, mislabeling, and several attempts to conceal the fact that they usually contain casein, the protein in cow's milk.

Soy Yogurts and Yogurt-Style Products. The leader in this exciting new category is Jofu from Tomsun Foods. The two basic types are fermented soymilk products (e.g. Cream of the Bean, Soy-O), and non-fermented tofu-fruit blends (e.g. Jofu).

Move to Manufacturing Soymilk in America. The rising cost of soymilk imports is making them unprofitable. Domestic production, which obviates shipping U.S. soybeans

© Copyright Soyinfo Center 2013

to Japan, then shipping the beans and water back, will have major, beneficial long-term Edensoy, Ah Soy, and Westbrae Malteds. Still imported are Vitasoy (from Hong Kong, whose exchange rate is tied to the dollar) and Sunsoy (from Belgium).

The declining value of the dollar against the yen starting in late 1985 led to a steady rise in soymilk prices. But the combination of domestic production and larger size packages (see below) has led to a drop in soymilk prices during 1986. For example, Edensoy, selling for 6 times the price of dairy milk per unit volume in early 1984, was selling for only 3.5 to 4.1 times as much in late 1986, a drop of about 37%.

Soymilk Switches to Tetra Brik Cartons and Liters or Quarts. Edensoy, Westsoy, and Ah Soy have all switched to Tetra Brik cartons this year. Lower total manufacturing and shipping cost is the main reason. The liter/quart size was pioneered in the U.S. by Alpro/Vamo Foods/Sunsoy, and followed by Edensoy, Ah Soy, and Vitasoy. These counterparts of dairy milk in quarts suit the needs of regular soymilk users by offering a more economical price per unit volume plus greater convenience. Soymilk may be the first liter-size Tetra Brik product to succeed in America.

INTSOY is doing outstanding, pioneering work with soyfoods and soybean utilization in the Third World and America. Research is focusing on extrusion cooking, extruder-expeller processing for small-scale oil expression, and fresh green soybeans. Since April 1987 the INTSOY Newsletter has become one of the best soy-related publications available.

Morinaga Long-life Silken Tofu becomes a major force in the U.S. tofu market. Traditional manufacturers consider the product a major threat to their markets. Azumaya has hired an attorney who spends considerable time causing troubles for Morinaga.

7729. Dunn, Carolyn; Liebman, Michael. 1986. Plasmid lipid alterations in vegetarian males resulting from the substitution of tofu for cheese. *Nutrition Research* 6(12):1343-52. Dec. Summarized in American Health, July 1987. p. 144.
• ***Summary:*** Blood cholesterol levels of 12 lacto-ovo vegetarian men, ages 20-48, were analyzed for 3 weeks as tofu was substituted for cheese. During another 3 weeks the volunteers passed up tofu for Monterey Jack cheese. In each period they ate a daily total of 2.5 oz cheese or 12 oz tofu, each containing about 240 calories. After the tofu phase, the subjects' mean cholesterol levels dropped an average of 16 mg/dl. No significant changes occurred during the cheese consumption phase. The increase in the ratio of polyunsaturated to saturated fatty acids from 0.9 (cheese period) to 1.8 (tofu period) appeared to be the primary mediator of the cholesterol lowering response associated with tofu consumption. Address: Dep. of Food & Nutrition, Univ. of North Carolina at Greensboro, Greensboro, NC 27412.

7731. *Food & Beverage Marketing.* 1986. Will tofu market reach $500 million by 1990? Dec. p. 15. [1 ref]
• ***Summary:*** A search of Marketing Intelligence Service's ProductScan database shows that in 1984 only 18 tofu-based products were introduced. In 1985 this jumped to 31 and through the end of August 1986, to 35. This number could reach 55 to 60 in the current year, according to tofu-product companies. If so, this would amount to approximately 2.4% of all new food products monitored by MIS in 1986. By far the greatest number of tofu based products are found in the dessert category, with 13 new products through the end of August.

7732. *Food & Beverage Marketing.* 1986. The F&BM 10: Leading innovators of 1986 [Brightsong]. Dec. p. 18-19.
• ***Summary:*** Brightsong is listed first! "The California-based firm is staking its claim on the popularity of tofu, considered one of the hot growth categories for 1987... Brightsong is changing the nature of its business from a production-oriented company to a product development firm. While still marketing its own product line, Brightsong is licensing the formulation and production processes of several tofu based products. Through these efforts, Rose explains, he has been able to expand his business on an international basis–adding Japan, Australia, and China to its roster." Address: New York.

7733. Haytowitz, David B.; Matthews, Ruth H. 1986. Composition of foods: Legumes and legume products. Raw, processed, prepared. *USDA Human Nutrition Information Service, Agriculture Handbook* No. 8-16. 156 p. Dec. See p. 126-152. By Nutrition Monitoring Division. [29 ref]
• ***Summary:*** Data are presented for 133 legumes and legume products. Of these, only 53 were included in *USDA Agriculture Handbook* No. 8, published in 1963. The following soy-based foods are included: Simulated meat products (bacon, meat extender, and sausage), raw soybeans, cooked boiled soybeans, roasted soybeans, dry-roasted soybeans, soybean products: miso, natto, tempeh, full-fat soy flour (raw, and roasted), defatted soy flour, low-fat soy flour, defatted raw soy meal, fluid soy milk, soy protein concentrate, soy protein isolate, soy sauce (shoyu, tamari, and HVP), raw tofu (firm {p. 147}, regular, dried-frozen/koyadofu, and fried) [Note 1. Tofu is called "tofu" and at "Soybean curd" it says, see "tofu." Note 2. Footnote 2 states that the calcium content of tofu curded with calcium sulfate is 683 mg/100 gm, compared with 205 mg/100 gm for

© Copyright Soyinfo Center 2013

tofu curded with nigari. As of May 1997 Soyfoods Center believes that both these values are far too high; the two figures should be about 159 mg/100 gm (range 128-168) and 45 mg/100 gm respectively], okara, salted and fermented tofu (fuyu).

For each food the following information and number of values are given: Vertically: Proximate (7 values), Minerals (9), Vitamins (9), Lipids (Fatty Acids [Saturated (9), Monounsaturated (5), Polyunsaturated (7)], Cholesterol, Phytosterols), Amino acids (18). Horizontally: Amount in 100 gm edible portion (mean, standard error, number of samples), amount in edible portion of common measures of food (e.g. ½ cup or 1 cup), amount in edible portion of 1 lb of food as purchased.

Minerals include calcium, iron, magnesium, phosphorous, potassium, sodium, zinc, copper, and manganese (not aluminum).

Vitamins include ascorbic acid, thiamin, riboflavin, niacin, pantothenic acid, vitamin B-6, folacin, vitamin B-12, vitamin A.

Amino acids include tryptophan, threonine, isoleucine, leucine, lysine, methionine, cystine, phenylalanine, tyrosine, valine, arginine, histidine, alanine, aspartic acid, glutamic acid, glycine, proline, and serine.

For Adzuki beans (raw, cooked boiled, canned sweetened, and Yokan {yôkan–sugar-sweetened confection}) see p. 24-27.

For peanuts (all types raw, cooked boiled, oil-roasted, dry-roasted, Spanish raw, Spanish oil-roasted, Valencia raw, Valencia oil-roasted, Virginia raw, Valencia oil-roasted) see p. 109-18. For peanut butter (chunk style, smooth style), defatted peanut, and low-fat peanut flour, see p. 119-22. Address: USDA Human Nutrition Information Service.

7734. Kariya, Tetsu; Hanasaki, Akira. 1986. Daizu to nigari [Soybeans and nigari]. *Oishinbo* No. 7. p. 105-30. Dec. [1 ref. Jap]
• ***Summary:*** Adult comic books are very popular in Japan. The title of this 28-issue series, *Oishimbo* (ISBN 4-09-180757-7 CO379 P500E), is a made-up word, which means something like "People who love delicious things." It is a play on the word *Kuishimbo*, which means "glutton." This story is about Henry James Black who comes from Los Angeles, California, to study tofu in Japan. He visits a famous tofu restaurant, which has been in business for 300 years [Sasa-no-yuki], and complains that the tofu they make is not very good. The owner, getting upset, asks "How do you know?" He answers, "I studied tofu in America," then shows the owner a copy of *The Book of Tofu* (p. 116). Later he visits a traditional Japanese tofu shop that makes nigari tofu; here he becomes an apprentice. Details of the traditional process for making nigari tofu are shown in detail in cartoon form.

Note: This appears to be a take-off on the tofu research of William Shurtleff in Japan during the early 1970s. Shurtleff wrote *The Book of Tofu*. Address: Yokyo, Japan.

7735. **Product Name:** Creamy Miso Dressing [Sesame, Mustard, or Vinaigrette].
Manufacturer's Name: Simply Natural, Inc.
Manufacturer's Address: P.O. Box 295 (Evelyn and Gershel Avenues), Norma, NJ 08347.
Date of Introduction: 1986. December.
Ingredients: Sesame: Organic light miso, unrefined sunflower oil, filtered water, apple cider vinegar, barley malt, toasted sesame oil.
Wt/Vol., Packaging, Price: 12 oz jar.
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Sesame, Per ounce: Calories 86, fat 1.5 gm, sodium 136 mg.
New Product–Documentation: Spot in Vegetarian Times. 1987. March. p. 67. These feature mellow miso. Leaflet. 1987. Shows Label. These dressings are made from the mellow white miso in which their Soft Tofu Cheese is fermented. Brochure. 1987. Oct. "Discover the New Simply Natural and Rediscover Natural Cuisine." Introduces Soyalite (formerly Soft Tofu Cheese), Pasta Lite (formerly Tofu Pasta), and Miso Dressing. Explains why the names were changed and shows labels. Red on white. 4 pages. Ad in Vegetarian Times. 1988. May. p. 58. "Everything Your Heart Desires."

7736. *SoyaScan Notes.* 1986. New Trend: So-called "tofu cheeses" introduced (Overview). Dec. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** At least 8 new soy cheese products have been launched during 1986, many with the term "Tofu" in the product name. Many have been shrouded in mystery, with the names of the manufacturer and ingredients often not disclosed. There has been much consumer deception, mislabeling, and attempts to conceal the fact that they usually contain casein.

7737. *SoyaScan Notes.* 1986. New Trend: Soy yogurts and yogurt-style products (Overview). Dec. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** At least 7 new soy yogurt products have been introduced this year, worldwide. The leader in this exciting new category is Jofu from Tomsun Foods. The two basic product types are non-fermented tofu-fruit blends (e.g. Jofu), and fermented soymilk products (e.g. Cream of the Bean, Soy-O).

7738. Zakaria, Fransiska; Muchtadi, Tien Ruspriatin. 1986. The role of tofu processing in development and the alleviation of malnutrition in West Java. *Food and Nutrition Bulletin* (*United Nations Univ.*) 8(4):32-41. Dec. [16 ref]
• ***Summary:*** The contribution of tofu to the diet, especially

© Copyright Soyinfo Center 2013

of low-income families in West Java, is reviewed. Suggestions are made for technological improvements (sanitation, production efficiency, yield, and diversification of soy-cake [tofu] utilization, chiefly as a food supplement).

"In West Java, as is common in Indonesia, people first buy rice as their staple food. If they have money left, they then buy other foods. Those that are generally chosen, in order of price from the cheapest to the most costly, are salted fish, tofu and fermented soybean products such as tempe and oncom, vegetables, fresh fish and other seafoods, poultry, milk and milk products, and meat and meat products." In West Java, people with an income of less than $40/month consumed 20 gm/person/day of tofu; the amount increased to 50 gm for those earning $100-$200/month, but was about 45 gm for those earning $300-$400/month. In West Java, tofu contains an average of 10.45% protein, compared with 17.0% for tempeh. Tofu and tempeh contribute 53% of the protein from side dishes in the diet of West Javanese people with incomes of less than $40/month, and 44% of the side dish protein for those with incomes of $100-$200/month. Address: Food Technology & Development Center (FTDC), Agricultural Univ., Bogor, Indonesia.

7739. **Product Name:** Ganmodoki, Abura Age.
Manufacturer's Name: Aloha Products.
Manufacturer's Address: 4515 Centinela Ave., Los Angeles, CA 90066. Phone: 213-822-2939.
Date of Introduction: 1986.
New Product–Documentation: Visit to Yaohan supermarket in Los Angeles. 1988. Oct. 23. All tofu products stocked are made by this company and House Foods & Yamauchi. Talk with Tom Uyehara. 1988. Oct. 24. These products were launched in 1986.

7740. **Product Name:** [Tofu].
Foreign Name: Tofu.
Manufacturer's Name: Atlantis Tofurei.
Manufacturer's Address: Insterburgerstr. 7, D-6454 Bruchkoebel, near Frankfurt, West Germany. Phone: 06181/71438.
Date of Introduction: 1986.
New Product–Documentation: Interview with Bernd Drosihn of Soyastern. 1987. Nov. 30. He says they started in 1986 and make about 200 kg/week of organic nigari tofu. May be 300-400 kg/week.

7741. Bean Supreme. 1986. Tofu, tempeh, soysage: Quality vegetable protein (Poster). P.O. Box 78084, 1 Wallingford St., Grey Lynn, Auckland, New Zealand. 59 x 42 cm.
• ***Summary:*** This large, glossy poster, dark purple on white, shows a sliced chub of soysage, two packs of tempeh, add a cake of tofu plus a knife, some soybeans, and a prepared dish. At the lower left: "Bean Supreme–The protein source. All natural. Cholesterol and lactose free. Low sodium. Low calories. No preservatives." Address: Auckland, New Zealand.

7742. **Product Name:** Hickory Smoked Tofu (Salad Bar Pack).
Manufacturer's Name: Central Soy Products.
Manufacturer's Address: 7 W. 14th St., Lawrence, KS 66044. Phone: 913-843-0653.
Date of Introduction: 1986.
Ingredients: 1998/07: Filtered water, whole soybeans, mignesium chloride (*Nigari*) and natural smoke flavor.
Wt/Vol., Packaging, Price: 3½ lb vacuum pack.
How Stored: Refrigerated.
New Product–Documentation: Talk with Jim Cooley. 1998. July 14. In 1986, shortly after he got his vacuum packing machines, Jim introduced smoked tofu in a larger salad bar pack containing 4 x 14 oz pieces weighing 3½ lb total.

7743. **Product Name:** Tofu Cream, and Tofu Glaze (Dry Mixes for Low-Calorie Non-Dairy Frozen Desserts).
Manufacturer's Name: CFFF Inc. (Calo Foods, Flavors & Fats). Subsidiary of Reach Associates.
Manufacturer's Address: 75 South Orange Ave., South Orange, NJ 07079. Phone: 201-763-3644.
Date of Introduction: 1986.
New Product–Documentation: Talk with Mel Wolkstein. 1988. Sept. 27. The products were introduced in 1986. Both contain tofu.

7744. Cole, Michael. 1986. Soya Health Foods Ltd. Company profile. Unit 4, Guinness Road, Trafford Park, Manchester M17 1AU, England. 4 p.
• ***Summary:*** Michael Cole is an entrepreneur, born in Manchester, England. The company was formed in 1984 in Manchester. The factory is sited in Trafford Park Industrial Estate and was the first to be built for the sole purpose of Soya Milk manufacture. The company is headed by Mr. M.S. Arora (Chairman), Mr. M.P. Cole (Managing Director), and Burns Anderson p.l.c. (Financial Controllers). Production of Soya Milk began in January 1985. The Sunrise brand is currently being sold throughout the 2,500 independent health food shops and in many supermarkets. The company has 5 products. Their soymilk is private labeled for 5 other companies. Soya Health Foods Ltd. has also been established in Australia and New Zealand, with its own private labels (milk in New Zealand and Burgers, Ice Cream, and Dessert in Australia). Address: Manchester, England.

7745. **Product Name:** [Tofu].
Manufacturer's Name: Consuma B.V.
Manufacturer's Address: P.O. Box 175, Christiaan Huygensstraat 10, 2265ZH Bleiswijk, Netherlands.
Date of Introduction: 1986.

© Copyright Soyinfo Center 2013

New Product–Documentation: Soya Bluebook. 1986. p. 107-08.

7746. **Product Name:** [Deep-Fried Tofu Cutlets, and Deep-Fried Tofu Pouches].
Foreign Name: Atsu-agé, Aburagé.
Manufacturer's Name: Daizou SARL.
Manufacturer's Address: 883 Rue de Bernau–Z.I., 94500 Champigny sur Marne, France. Phone: 48 82 39 90 or 47.06.33.71.
Date of Introduction: 1986.
New Product–Documentation: Form filled out by Anthony Marrese based on an interview with Mr. Hirayama. 1989. These two products were introduced in 1986.

7747. **Product Name:** Tofu Pasta.
Manufacturer's Name: Dayspring Soyacraft Corporation.
Manufacturer's Address: 626 Esquimalt Rd., No. 5., P.O. Box 7285, Station D., Victoria, BC, V9A 3L4, Canada.
Date of Introduction: 1986.
New Product–Documentation: Soya Bluebook. 1986. p. 111.

7748. Eastern Foods Corp. (Distributor). 1986. What is Tofulicious? Better taste than Tofutti and better for you (Leaflet). Minneapolis, Minnesota. 1 p. Single sided. 28 cm. • ***Summary:*** Compared with Tofutti vanilla with walnuts, the same Tofulicious product has 35% less calories, 60% less fat, 80% less sodium, and 750% more calcium. Plus it costs less. Address: 3235 E. Hennepin Ave., Minneapolis, Minnesota 55413.

7749. **Product Name:** [Fried Tofu, Tofu with Herbs, Tofu Burgers (With Sea Vegetables, With Seitan)].
Manufacturer's Name: Fonte della Vita S.r.L. (La).
Manufacturer's Address: Via Circonvallazione 87, 12049 Trinita (Cuneo), Italy.
Date of Introduction: 1986.
New Product–Documentation: Talk with Michael Brenger, production manager at Fonte della Vita. 1990. July 18. These products were introduced after the move to Trinita in April 1986. They are now located in the same place but the address has changed: Via Monviso 18, 12049 Trinita.

7750. **Product Name:** Soft Tofu (Curded with Calcium Sulfate).
Manufacturer's Name: Giant Tofu.
Manufacturer's Address: 300 Morse St., Washington, DC 20002. Phone: 202-546-0333.
Date of Introduction: 1986.
How Stored: Refrigerated.
New Product–Documentation: Talk with George Chong, owner. 1998. Feb. 10. This was their first product, introduced in 1986.

7751. **Product Name:** Tofu Sandwich Spread (Eggless Alternative to Mayonnaise).
Manufacturer's Name: Golden Soy Foods Inc.
Manufacturer's Address: P.O. Box 495, Athens, OH 45701.
Date of Introduction: 1986.
Ingredients: Organic tofu [water, organic soybeans, calcium sulfate (natural coagulants)]. soy oil, cider vinegar, water, honey, salt, vegetable gums, spices.
Wt/Vol., Packaging, Price: 16 fluid oz (1 pint) glass jar.
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Per 1 tablespoon (19 gm): Calories 35, protein 2 gm, carbohydrates 2 gm, fat 2 gm, sodium 100 mg (510 mg/100 gm).
New Product–Documentation: News release. Label. 1987. 10 by 2.5 inches. Orange, blue and white. "Dairy and cholesterol free. A great alternative for mayonnaise. All natural. Low sodium."

7752. **Product Name:** Tofu Dill Salad Dressing.
Manufacturer's Name: Golden Soy Foods Inc.
Manufacturer's Address: P.O. Box 495, Athens, OH 45701.
Date of Introduction: 1986.
Ingredients: Tofu, soy oil, vinegar, shoyu, water, honey, dill, onion powder, black pepper, garlic powder.
Wt/Vol., Packaging, Price: 1 pint glass jar.
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Per tablespoon (17 gm): Calories 40, protein 1 gm, carbohydrates < 1 gm, fat 4 gm, sodium 135 mg.
New Product–Documentation: Label. 1987. 10 by 2.5 inches. Blue, green, yellow, and white. "Dairy and Cholesterol Free. Delicious Dip for Vegetables or Chips. All Natural. Low Sodium." News release. This was apparently the company's first product.

7753. Jaccard, M. 1986. Tofu: Produit et procédé [Tofu: Product and procedures]. *Swiss Food* 8(12a):17-19. [Fre]* • ***Summary:*** A brief study of the process for making tofu and its nutritional advantages. Address: Conserves Estavayer S.A., Estavayer-Le-Lac, Switzerland.

7754. **Product Name:** [Tofu Burger, Tofu Felafel, and Tofu Schnitzel].
Manufacturer's Name: Jerusalem Tofu.
Manufacturer's Address: Moshav Orah, Jerusalem 90880, Israel. Phone: 02-413-809.
Date of Introduction: 1986.
New Product–Documentation: Talk with Susan Ergas. 1989. May 1. The products were introduced in the order shown above. The Tofu Schnitzel was made from frozen tofu, but it was discontinued because she couldn't get kosher soy sauce that satisfied the rabbi.

7755. **Product Name:** Tofu, Tofu-Fa (Curds), Soymilk, Egg Tofu (with Soy), Tofu Pau (Fried Tofu Puffs), Tofu Noodles, Dofu-Gan.
Manufacturer's Name: Kong Kee Food Corp.
Manufacturer's Address: 108 Charlton St., 3rd Floor, New York, NY 10014-3643. Phone: 212-234-5261 or 212-645-3780.
Date of Introduction: 1986.
New Product–Documentation: Talk with George Lin, company representative. 1995. Oct. 23. The company was started in 1986 as a new company by Mr. Ip-Wing Kong. All of the above products were introduced in about 1986.

Form filled out by Ying Kwong. 2010. Nov. 18. The company (the name is the same) is now located at 48-31 Van Dam Street, Long Island City, New York 10191. Phone: 718-937-2746. Person in charge: Ying Kwong. The company still sells soy drinks, tofu (silken, soft, and firm), tofu puffs, and egg tofu.

7756. **Product Name:** Tofu Pies [Blueberry, Double Carob Almond, Tropical Delight, Kiwi Lime, Pumpkin (Eggless)].
Manufacturer's Name: Malaka's Foods.
Manufacturer's Address: Philadelphia, Pennsylvania.
Date of Introduction: 1986.
How Stored: Frozen.
New Product–Documentation: Appropriate Foods. 1987. Catalog. Feb. Talk with Robert Werz. 1987. Oct. 16. She is now out of business.

7757. **Product Name:** [Manna Smoked Tofu].
Foreign Name: Manna Vis-Tofu.
Manufacturer's Name: Manna Natuurvoeding B.V.
Manufacturer's Address: Weerenweg 28, 1161 AJ Zwanenburg, Netherlands.
Date of Introduction: 1986.
New Product–Documentation: Soya Bluebook. 1987. p. 96. Letter from Sjon Welters. 1989. Aug. 10. This product was introduced in 1986. He thinks the name was something like Vis-Tofu, which means "fish tofu," because of the fish they sell in Holland. Sjon always thought the name was a little strange because the product contained no fish.

7758. Matsuhashi, T. eds. 1986. Improvement of community level food processing: The development of 'kori-tofu,' a frozen and dried soybean curd in Japan. In: Jan Bay-Petersen and Norma V. 7759. Nakagawa, A.; Murasawa, H. Assignors to Asahi Foods Company Ltd. 1986. Process of manufacturing bean curd and bean milk. *European Patent Application* 170,507 A2. [Eng]*
• ***Summary:*** For soymilk, the soybeans are dried at room temperature, crushed and dehulled. The resulting particles are soaked, ground, then boiled with steam in a closed container. Foam is removed by application of a jet of steam to the surface. The okara is separated from the soymilk. To make tofu, a coagulant (such as glucono lactone, nigari/bittern, or calcium sulfate) is added to the soymilk.

7760. **Product Name:** Tofu [Silken, Soft, Firm, or Extra Firm].
Manufacturer's Name: Nasoya Foods, Inc.
Manufacturer's Address: 23 Jytek Park, (P.O. Box 841), Leominster, MA 01453.
Date of Introduction: 1986.
New Product–Documentation: Labels. 1986. Printed on film. "Organic. Made with Well Water. High in Protein/Custardy Smooth." Leaflet. 1986. 8½ by 11 inches, color. "Nasoya. America's premium tofu. Made with deep well water. Stoneground organically-grown soybeans. Bright, attractive packages with see-through window."

7761. **Product Name:** Tofu Burger (Uncooked).
Manufacturer's Name: Natural Alternatives.
Manufacturer's Address: 721 T St., N.W., Washington, DC 20001.
Date of Introduction: 1986.
New Product–Documentation: Talk with Robert Ashton, owner of Natural Alternatives / Promart. 1992. Sept. 14. He introduced this product in 1986, after moving from Alexandria, Virginia, to Washington, DC. The product failed because people did not want a burger that they had to cook themselves; the market wanted a precooked convenience burger.

7762. **Product Name:** [Tofu].
Foreign Name: Tofu.
Manufacturer's Name: Nature's Gate Ltd.
Manufacturer's Address: Mivne Taaseya Haradash 76, P.O. Box 029, Dimona 86000, Israel. Phone: 972-7-655-7774. Fax: 972-7-655-7769.
Date of Introduction: 1986.
How Stored: Refrigerated.
New Product–Documentation: Letter from Cocavatiyah Baht Israel, manager, Taste of Life Vegetarian Restaurant, Tel Aviv, Israel. 1999. Dec. 12. With follow-up letter of Jan. 10. This group owns a tofu manufacturing company that makes the tofu sold as tofu and second generation tofu products at the two vegetarian restaurant. The tofu is also sold at about 30 other outlets. Nature's Gate Ltd. started making and

Note: This is the earliest known videotape about soy or tofu owned by Soyfoods Center. Address: Chatham, Ontario, Canada.

7766. **Product Name:** Tofu.
Manufacturer's Name: Prestige Foods Ltd.
Manufacturer's Address: Main Office: 30, Jaora Compound, M.Y.H. Rd., Indore 450021, MP, India.
Date of Introduction: 1986.
New Product–Documentation: Soya Bluebook. 1986. p. 107.

7767. **Product Name:** Pasteurized SoyFresh (Soymilk) [Unsweetened, Natural, Almond, Maple, or Carob].
Manufacturer's Name: Quong Hop & Co.
Manufacturer's Address: 161 Beacon St., South San Francisco, CA 94080. Phone: 415-873-4444.
Date of Introduction: 1986.
Ingredients: Carob: Water, organic soybeans (grown accordance with California Health and Safety Code 26569.11), honey, barley malt, carob.
Wt/Vol., Packaging, Price: 23 fl. oz (1 quart) Pure Pak Carton (Ex-Cell-O Corp. by Weyerhauser).
How Stored: Refrigerated.
New Product–Documentation: Leaflet. 1986. 8½ by 11 inches, color. "There is Quality & Variety after 80!" Shows all products. In Pure-Pak quarts and pints. Labels sent by Quong Hop (Carob, Natural). Note: This is one of America's first commercial refrigerated soymilk products.

7768. **Product Name:** The Soy Deli Baked Savory Tofu. Renamed Savory Baked Tofu by 1999.
Manufacturer's Name: Quong Hop & Co.
Manufacturer's Address: 161 Beacon St., South San Francisco, CA 94080. Phone: 415-873-4444.
Date of Introduction: 1986.
Ingredients: Water, organic soybeans (grown in accordance with California Health and Safety Code 26569-11), tamari soy sauce (water, soybeans, wheat, salt), spices, magnesium chloride (nigari, a natural mineral).
Wt/Vol., Packaging, Price: 7 oz vacuum packed.
How Stored: Refrigerated.
Nutrition: Per 3.5 oz.: Calories 193, protein 23 gm, carbohydrate 5 gm, fat 9 gm.
New Product–Documentation: Leaflet. 1986. 8½ by 11 inches, color. "There is Quality & Variety after 80!" Shows all products. Label. 1986? 5 by 3 inches. Self adhesive. Brown and orange on beige. The Soy Deli brand. "High in complete protein. No cholesterol."

Product (Savory Baked Tofu) with Label purchased at Safeway supermarket in Lafayette, California. 2000. April 16. The 6 oz vacuum pack retails for $3.49. Label (copyright 1999) is orange, green, and black on white. Front panel: "Hand crafted by tofumasters since 1906. All natural. Risk of Heart Disease may be reduced with a daily diet low in saturated fat and cholesterol, containing 25 gm of soy protein. This product contains 25 gm of soy protein per serving. Made with organic soybeans." Top of back panel: "50 mg of isoflavones per serving." Main ingredients: Nigari tofu (Water, whole organic soybeans*, magnesium chloride**), tamari (water, soybeans, salt, alcohol, wheat), spices, granulated garlic, granulated onion. * = Grown and processed in accordance with the California Organic Foods Act of 1990. ** Nigari, a natural component of sea water, primarily magnesium chloride.

7769. **Product Name:** The Soy Deli Baked Five-Spice Tofu.
Manufacturer's Name: Quong Hop & Co.
Manufacturer's Address: 161 Beacon St., South San Francisco, CA 94080. Phone: 415-873-4444.
Date of Introduction: 1986.
Ingredients: Water, organic soybeans, tamari soy sauce (water, soybeans, wheat, salt), spices, magnesium chloride (nigari, a natural mineral).
Wt/Vol., Packaging, Price: 7 oz, vacuum packed.
How Stored: Refrigerated.

© Copyright Soyinfo Center 2013

Nutrition: Per 3.5 oz.: Calories 193, protein 23 gm, carbohydrate 5 gm, fat 9 gm.
New Product–Documentation: Leaflet. 1986. 8½ by 11 inches, color. "There is Quality & Variety after 80!" Shows all products. Label. 1986? 5 by 3 inches. Self adhesive. Brown and dark blue on beige. The Soy Deli brand. "High in complete protein. No cholesterol."

Product with Label purchased at Open Sesame in Lafayette, California. 1995. March 11. Now 6 oz. "Low fat. Cholesterol free. High in complete protein."

7777. **Product Name:** [Soyastern Smoked Tofu with Paprika].
Foreign Name: Soyastern Paprika Tofu.
Manufacturer's Name: Soyastern Naturkost GmbH.
Manufacturer's Address: Osteratherstr. 26, 5000 Koeln 60, West Germany.
Date of Introduction: 1986.
Wt/Vol., Packaging, Price: 250 gm.
How Stored: Refrigerated.
Nutrition: Protein 12.6%, fat 7.5%, carbohydrate 2.0%, 126 kcal/100 gm.
New Product–Documentation: Interview with Bernd Drosihn of Soyastern. 1987. Nov. 30. He is business manager at Soyastern. This product is the company's #3 best seller. Label. 3 by 5.5 inches. Orange, red green, and white. "Soyastern traditional nigari tofu, made purely from plants (*rein pflanzlich*). A piquant soya delicacy, ideal on bread, as an addition to salads, or a crisp pan-fried dish (*Eine pikante Soyadelikatesse ideal auf Brot, als Salatbeigabe oder knuspriges Pfannengericht*)." Note: No mention of it being smoked on the label.

7778. **Product Name:** [Soyastern Mild Smoked Tofu].
Foreign Name: Soyastern mild geraeuchert Tofu.
Manufacturer's Name: Soyastern Naturkost GmbH.
Manufacturer's Address: Osteratherstr. 26, 5000 Koeln 60, West Germany.
Date of Introduction: 1986.
Ingredients: Water, soybeans* (*Soyabohnen*), spices (*Gewuerze*), smoke, sea salt. * = Organically grown (*aus kontrolliertem biologischen Anbau*).
Wt/Vol., Packaging, Price: 250 gm.
How Stored: Refrigerated.
Nutrition: Protein 11.8%, fat 8.3%, carbohydrate 1.0%, 126 kcal/100 gm.
New Product–Documentation: Interview with Bernd Drosihn of Soyastern. 1987. Nov. 30. He is business manager at Soyastern. This product is the company's #4 best seller among its 4 basic products. Label. 3 by 5.5 inches. Beige, brown, and green. "Soyastern traditional nigari tofu, made purely from plants (*rein pflanzlich*). A piquant soya delicacy, ideal on bread, as an addition to salads, or a crisp pan-fried dish (*Eine pikante Soyadelikatesse ideal auf Brot, als Salatbeigabe oder knuspriges Pfannengericht*)." Note: No mention of it being smoked on the label.

7779. **Product Name:** [Spring Roll (Fried and Ready to Eat)].
Foreign Name: Fruehlingsrolle.
Manufacturer's Name: Soyastern Naturkost GmbH.
Manufacturer's Address: Osteratherstr. 26, 5000 Koeln 60, West Germany.
Date of Introduction: 1986.
New Product–Documentation: Interview with Bernd Drosihn of Soyastern. 1987. Nov. 30. He is business manager at Soyastern. This is the company's #2 best seller among its ready to eat "Frischeprodukte." It is sold on the counter, and is not refrigerated.

7780. **Product Name:** Tofu Dessert (With Fruit).
Manufacturer's Name: Sunrise Market Ltd.
Manufacturer's Address: 729 Powell St., Vancouver, BC, V6A 1H5, Canada.
Date of Introduction: 1986.
New Product–Documentation: Talk with Michael Weiner. 1987. Dec. 16.

7781. **Product Name:** [Tofu Cutlets].
Foreign Name: Cotelettes de Tofu.
Manufacturer's Name: Sunrise Market Ltd.
Manufacturer's Address: 729 Powell St., Vancouver, BC, V6A 1H5, Canada. Phone: 604-254-0701.
Date of Introduction: 1986.

© Copyright Soyinfo Center 2013

Ingredients: Water, extract of soy, calcium sulphate, magnesium chloride, vegetable oil.
Wt/Vol., Packaging, Price: 300 gm (10.6 oz).
How Stored: Refrigerated.
New Product–Documentation: Label. 1987. 3.5 x 2.5 inches. Red and black on beige. Form filled out by Peter Joe. 1988. May 20. Gives date.

7782. **Product Name:** [Tofu Curry Pâté, Tamari Pâté, and Walnut/Prune Pâté, Smoked Tofu].
Foreign Name: Karry Paté, Tamari Paté, Valnoed/Sveske Paté.
Manufacturer's Name: Thomas Tempeh.
Manufacturer's Address: Soendergade 2, DK-4340 Toelloese, Denmark.
Date of Introduction: 1986.
New Product–Documentation: Talk with Thomas Andersen, founder of Thomas Tempeh. 1990. May 24. On 1 Jan. 1986 he moved the business to Soendergade 2 in the city of Toelloese, Denmark. The business was still named Thomas Tempeh. He quickly added Tofu Pâtés and Smoked Tofu to his product line.

7783. **Product Name:** [Tofu].
Foreign Name: Tofu.
Manufacturer's Name: Tofu Unisoya.
Manufacturer's Address: 1020 St. Regis, St. Isidore, QUE, J0L 2A0, Canada. Phone: 514-454-3938.
Date of Introduction: 1986.
New Product–Documentation: Talk with Yvon Tremblay and Richard Milon. 1987. Dec. 11. Unisoya was started in 1976 by Norbert Argiles. It was one of the first tofu shops in Quebec. Their tofu was sold in Montreal. Argiles worked for 10 years then burned out. He sold the company, which still exists. The present owner is Mr. Real Beaulieu, a farm family.

7784. **Product Name:** [Smoked Tea-Time Tofu, Herb Tofu, Paprika Tofu].
Foreign Name: Geraeucherter Jausentofu, Kraeuter-Tofu, Paprika-Tofu.
Manufacturer's Name: Tofurei Wels. Renamed Schoen Tofurei in 1987.
Manufacturer's Address: Prinz Eugen Strasse 1, A-4600 Wels, Austria. Phone: 07242/834222, 78073.
Date of Introduction: 1986.
New Product–Documentation: Price List. 1988. With dates products were introduced. The smoked tofu, 170 gm, is marinated, pre-baked and cold smoked for breads and baking. The herb tofu and paprika, each 150 gm, are spreads.

7785. Toho Bussan Kaisha, Ltd. 1986. Company profile. Nihonseimei Shimbashi Building 3 floor, Shimbashi 1-18-16, Minato-ku, Tokyo 105, Japan. 13 p. Manufacturer's catalog. [Eng]
• ***Summary:*** Established in 1947, this trading company employed 147 people in Jan. 1986. One affiliate was Tokyo Tofu Co. Ltd., Chiba, Japan. The soybean and oilseeds dept. trades soybeans and sells a tofu manufacturing plant and its related materials (dried tofu powder). Note: The latter is probably spray-dried soymilk for making tofu. Address: Tokyo, Japan.

7786. **Product Name:** Tofu Savvy products: Boloney, Salsa, Curry, and Spice-Seed.
Manufacturer's Name: VegPro Co.
Manufacturer's Address: Brighton, Massachusetts.
Date of Introduction: 1986.
Ingredients: Incl. tofu.
New Product–Documentation: Talk with Johnny Weissman. 1992. March 31. In about 1986, based on the success of his Weissman's Original Tofu Sausage (6 oz), he introduced a new Tofu Savvy line of products (starting with a 3-lb Boloney), each in a 2-3 lb loaf shape like a meatloaf, and sold to delis. He buys his tofu from a tofu maker in Massachusetts. With names like Tofu Salsa Savvy (bulgur and tofu), Curry (with brown rice and veggies), Spice-Seed, and Boloney, these are offshoots of the tofu sausage, but they involve a highly proprietary process that John has developed. Delis sell the sliced loaves for use in sandwiches.

7787. **Product Name:** Westbrae Natural Tofu Sauce.
Manufacturer's Name: Westbrae Natural Foods (Importer). Made in Japan.
Manufacturer's Address: 4240 Hollis St., Emeryville, CA 94608. Phone: (415) 658-7521.
Date of Introduction: 1986.
Ingredients: Johsen Shoyu (water, soybeans, wheat, salt), malt syrup (corn, sprouted barley, water), cider vinegar, honey, sesame oil, natural gum stabilizers (tragacanth, xanthan), ginger, cayenne.
Wt/Vol., Packaging, Price: 12.7 fluid oz (375 ml).
How Stored: Shelf stable.
New Product–Documentation: Label. 1986, undated. 5 by 3.5 inches. Paper. Brown, tan, blue, green, black and white. Mt. Fuji logo illustration. Meant to be used as a seasoning for tofu.

7788. **Product Name:** Tofu [Vacuum Packed].
Manufacturer's Name: Wildwood Natural Foods of Santa Cruz, Inc.
Manufacturer's Address: 1560 Mansfield Ave., Suite D, Santa Cruz, CA 95062. Phone: 408-476-4448.
Date of Introduction: 1986.
Ingredients: 1998: Filtered water, organic soybeans (grown and processed in accordance with the California Organic Foods Act of 1990), nigari (magnesium chloride, a natural firming agent).

© Copyright Soyinfo Center 2013

Wt/Vol., Packaging, Price: 10 and 20 oz vacuum pack.
How Stored: Refrigerated.
New Product–Documentation: Letter from Jeremiah Ridenour. 1985. Dec. 30. "I have recently come into a relationship with the principals of Wildwood Natural Foods [of Fairfax, California]. Our new company is Wildwood Natural Foods of Santa Cruz, Inc. I am building a small scale cauldron type plant to produce fresh tofu for Wildwood's needs and for secondary product development work."

Talk with Jeremiah Ridenour. 1988. Aug. 26. The company started production in June 1985, making tofu and soymilk. They have a 100-gallon steam jacketed cooker, a Japanese roller extractor, and some cheese equipment. They hope to use more American-made dairy equipment and less Japanese equipment. The company is growing very rapidly. Wildwood owns a fleet of trucks.

7789. **Product Name:** Teriyaki Baked Tofu (Organic).
Manufacturer's Name: Wildwood Natural Foods.
Manufacturer's Address: 31 Bolinas Rd., Fairfax, CA 94930. Phone: 415-459-3919.
Date of Introduction: 1986.
Ingredients: 1998: Wildwood Tofu (filtered water, organic soybeans grown in accordance with the California Organic Foods Act of 1990, nigari {magnesium chloride, a natural firming agent}), soy sauce, rice vinegar, tomato paste, rice wine, fruitrim (fruit juice, natural grain dextrins), brown rice syrup, garlic ginger, garlic powder, safflower oil, ginger powder, arrowroot.
Wt/Vol., Packaging, Price: 6.0 oz. Retails for $1.99.
How Stored: Refrigerated.
New Product–Documentation: Wildwood Natural Foods price list. 1995. Jan. 9.

Original Label sent by Billy Bramblett. 1998. July. He says this product was introduced in 1989.

7790. **Product Name:** Natural Touch Tofu.
Manufacturer's Name: Worthington Foods, Inc.
Manufacturer's Address: 900 Proprietors Rd., Worthington, OH 43085. Phone: (614) 885-9511.
Date of Introduction: 1986.
New Product–Documentation: Soya Bluebook. 1986. p. 107.

7791. Yingnan, Y.; Songlin, Y. 1986. A study of the etiological factors in gastric cancer in Fuzhou city. *Chinese J. of Epidemiology* 7:48-50. *
• ***Summary:*** Suggests that soyfoods may lower risk of stomach and prostate cancer. Consumption of tofu was associated with a significant decrease in risk from stomach cancer.

7792. Better Home Society. 1986. Tezukuri tôfu, okara ryôri [Homemade tofu and okara recipes]. Beta Homu Kyokai, 1-15-12 Shibuya, Shibuya-ku, Tokyo, Japan. [Jap]*
• ***Summary:*** We can sell this book to tofu makers for only 200 yen. Lots of new okara recipes. Address: Tokyo, Japan.

7793. Chan, Sucheng. 1986. This bittersweet soil: The Chinese in California agriculture, 1860-1910. Berkeley: University of California Press. xxv + 503 p. Illust. Index. 28 cm. [200+* ref]
• ***Summary:*** A marvelous, very original, in-depth study. In Chapter 3, titled "Feeding the miners," table 7 (p. 83) lists "Merchandise stocked in a Chinese store, Camanche, Calaveras County, 1865." Listed along with rice, tea, and salt are "25 lb. of China beans, $2.50; 20 lb. of China peas, $1.00."

Page 84 notes that a great variety of food was imported by Chinese into California. "Robert Spier examined the records of the Customs House at San Francisco and found that as early as 1852, shipments of food arrived from Hong Kong consigned to Chinese firms in San Francisco. Items listed on the invoices included... salted beans [probably fermented black soybeans], dried bean curd... and vinegar."

See also Jan. 1988 Soyfoods Center interview with the author. Address: Univ. of Calif. at Santa Cruz.

7794. Chang, Wonona W.; Chang, Irving B.; Kutscher, Austin H.; Kutscher, Lillian G. 1986. Chinese dessert, dim sum & snack cookbook. New York, NY: Sterling Publishing Co., Inc. 160 p. Illust. (color photos). Index. 26 cm.
• ***Summary:*** "Many of the dessert recipes in this book have been prized as family treasures for generations and are authentic; others have been adapted to the Chinese cuisine by the addition of oriental ingredients..." (p. 7).

The "Guide to ingredients" has interesting entries for "Bean curd or tofu (*dow foo*)" and "Bean filling, sweet (*Cantonese: dow sa*) (*Mandarin: do sa*)" ("Color: red {kidney beans [azuki]}, green {mung beans}. Available form: canned. When available: most commonly at Chinese New Year. Where purchased: Chinese bakery or grocery," p. 13), and for "Hoisin sauce (Red seasoning sauce) (*hoy sin joing*) (*hai hsien jiang*)" (p. 16).

Desserts: Doughnut slices with Chinese flavors (with "sweet bean paste" [probably *an*], made with azuki beans, p. 33). Glutinous (sweet) rice cake (with "1 lb. black bean paste (dow sa)," p. 33). Fried bean paste pancake (with "4 oz. bean paste," p. 40). Lychee peach tofu cooler (with "8 oz. tofu," p. 56). Soybean milk (homemade recipe with "1 cup soybeans," p. 58). Red bean paste ice cream (with "1 cup sweetened red bean paste" [azuki], p. 64). Lychee tofu custard (with "8 oz. tofu," p. 91). Strawberry tofu pudding (with "6 oz. chilled tofu," p. 91). Peach tofu custard (with "8 oz. tofu," p. 93). Mandarin oranges with tofu (with "6 oz. Chinese-style tofu," p. 93). Ginger sweet red bean dessert / spread (with "½ cup sweet bean paste" [azuki], p. 106). Orange tofu icing (with "12 oz. tofu," p. 107). Sweet red bean dessert sauce (with "½

© Copyright Soyinfo Center 2013

cup sweetened red bean paste" [azuki], p. 110).

Dim sum and snacks: New Year dumplings with sweet black bean paste (with "½ cup sweet black bean paste (*dow sa*)," p. 113). Bean paste sesame balls (with "sweet black bean paste," p. 118). Dow sa won ton ("Prepare the same as Fried Won Tons {p. 139} except use *dow sa* (black bean paste) as a filling... Dow sa is available at Chinese bakery shops, p. 140).

About the authors (p. 146). Address: 1-2. Morristown, New Jersey; 3-4. Scarsdale, New York.

7795. Colbin, Annemarie. 1986. Food and healing. New York, NY: Ballantine Books. 351 p. Foreword by Robert S. Mendelsohn, M.D. Index. 23 cm. [207* ref]
• ***Summary:*** A very interesting, wholistic look at food trips and philosophies–with a preference for macrobiotics. Discusses miso, natto, tempeh, and tofu. Pages 169-72 discuss beans, including soybeans. Beans are said to be contractive, acid-forming, warming, and a buildup food. "Folklore has it that appreciable quantities of soybeans and their products, especially tofu, can lower, or cool, sexual energy. Research done at the universities of Illinois and Kansas has shown that soybeans may interfere with the absorption of zinc. As zinc is one of the minerals most strongly associated with the healthy functioning of the sex glands, this bit of folk wisdom appears realistic."

Chapter 12, titled "Food as Medicine," discusses healing foods and tells how to prepare them, including miso soup (p. 253; contractive, alkalinizing, warming, breakdown). Miso soup is considered a good food to help cure the common cold, to neutralize the negative effects of excess sugar consumption, and to combat problems of inflammation of the digestive tract (ulcers, colitis, spastic colon, etc.); ulcers are problems of excess acidity.

Chapter 14, titled "The Effects of Food on Sex," notes that "Scientific studies have found that individual foodstuffs have an effect on sexuality via their chemical constituents... soybeans (including tofu) contain traces of antithyroid factors; as the thyroid regulates sexual desire, activity, and fertility, when consumed in large enough quantities these foods could possibly inhibit sexuality by lowering thyroid energy. Oriental folk rumor, which I've been unable to verify, has it that tofu 'cools the sex organs' and is used by monks for the specific purpose of aiding them in maintaining celibacy. In this light, it's interesting to note that the traditional Japanese diet, high in thyroid-depressing soybean products, also contains appreciable amounts of seaweeds, rich in thyroid-stimulating iodine."

In the Foreword, Dr. Mendelsohn writes: "Coming from a background of modern medicine, I, as well as hundreds of thousands of other M.D.s, was carefully educated in nutritional ignorance–indeed in disdain for food. The hospital 'dietician' was not–and is not even today–a teacher of physicians. The dietician's traditional purpose in life has always been to serve as a 'referral' for a patient who bothered the physician with too many questions about food. The very title of this book *Food and Healing* represents a joining of two concepts that most doctors regard as unrelated."

A photo (p. 351) shows Annemarie, who was born in Holland and brought up in Argentina on a European vegetarian diet. After her arrival in the United States in 1961, she was introduced to macrobiotics. She lives in New York City with her two daughters, and directs the Natural Gourmet Cookery School there. Address: 365 West End Ave., New York City, NY 10024. Phone: 212-580-7121.

7796. Committee for Soybean (The). 1986. The Philippines recommends for soybeans. Los Baños, Laguna, Philippines: Philippine Council for Agriculture and Resources Research and Development. 111 p. Technical Bulletin Series No. 14A. Revision of 1976 edition. [51 ref. Eng]
• ***Summary:*** Written by The Soybean Committee (Dr. Florendo C. Quebral, a plant pathologist at UPLB, chairman), this work focuses on recent technologies for soybean production. A foreword by Ramon V. Valmayor, Executive Director of PCARRD, notes: "The importance of soybean has been stressed continuously. To encourage its widespread production, the Ministry of Agriculture and Food (MAF) launched the Soybean Production Program in Mindanao. Likewise, PCARRD initiated and coordinated the implementation of Soybean Pilot Production Project in 1983 to demonstrate the feasibility of growing soybean profitably in Luzon."

Contents: Foreword. Acknowledgments. The Soybean Committee. Introduction. Production management. Marketing. Soybean cropping system. Crop protection. Seed production. Processing and utilization: Raw materials for industry, soybean as food. References. Appendixes. List of tables. Lists of figures.

Table 1 shows soybean production in the Philippines from 1974 to 1985. Area in hectares grew from 2,780 ha in 1974 to a peak of 11,250 ha in 1976 and was 8,479 ha in 1985. Production grew from 2,214 tonnes in 1974 to a peak of 11,466 tonnes in 1982 and was 8,430 tonnes in 1985. Yield grew from 0.80 tonnes/ha in 1974 to a peak of 1.05 in 1982 and was 0.99 in 1985. Local production does not begin to supply local demand. In 1984 380,691 tonnes of soybeans and products were imported. Most of the imports were soybean meal.

Table 2 shows imports and exports of tausi (salted, fermented soybeans), oil cake (huge imports), soy sauce (large exports), soy oil (refined; large imports), soybean paste, taho (soymilk curds, often sold topped with a little brown sugar), bean cheese (tokwa [tofu]), hypoallergenic soy food, crude soy oil. Page 50 shows all current uses of soybeans in the Philippines, and p. 51 gives the nutritional composition of Philippine soyfoods. Note the terms Geerligs

© Copyright Soyinfo Center 2013

cheese (Tahu; 92.7% moisture and 2.9% protein), Soybean curd (Tahuri; 61.3% moisture and 11.4% protein), Fermented soybean cheese (Tausi; 51.5% moisture and 13.8% protein), and Soybean cheese (Tokwa; 77.0% moisture and 12.9% protein).

Recipes are given for preparing soy sauce (p. 53), miso, tahu (soymilk curds, p. 59), tokwa (soybean cheese, or firm tofu), tao-si (salted, fermented soybeans [fermented black soybeans]), soybean milk (p. 61), and soybean coffee. Descriptions are given for sufu (p. 62), tempeh, soy flour and grits, soy protein concentrates and isolates.

Note: In the section on nutritional composition, two words are incorrectly defined. The term "Tahuri" actually refers to tofu in brine, and "tausi" refers to salted, fermented soybeans.

Appendix E (p. 90+) contains recipes for green vegetable soybeans, whole dry soybeans, soy sprouts Address: PCARR.

7797. Conil, Christopher; Conil, Jean. 1986. The secrets of tofu. London: W. Foulsham & Co. Ltd. 128 p. Illust. Index. 19 cm. Also sold by Avery Publications in New York, starting in Oct. 1990.

• ***Summary:*** This vegetarian cookbook contains over 65 recipes and 25 color photos of dishes. A photo on the title page shows the authors (both men). Contents: Introduction. 1. Tofu and soya. 2. How to make tofu. 3. Soups. 4. Starters. 5. Main dishes. 6. Snacks. 7. Desserts.

About the authors (autobiographical): Jean Conil was executive chef at the Arts Club in London until his retirement in March 1986. He is also principal of the Jean Conil Academy of Gastronomy and president of Master Chefs. To date Jean Conil has written over 100 books on all aspects of food and cookery including Haute Cuisine, Tour de France Gastronomique and Cuisine Végétarienne Française. He is consultant to Multinational Food Industries and to Cauldron Foods, Bristol.

Christopher Conil is a graduate of the National School of Bakery and a master baker whose ovens are to be found in Southend, England.

"The author is grateful to Mr. Peter Fagan for his technical advice and help in the preparation of this book, and to Cauldron Foods for supplying tofu products used in testing all the recipes." Address: 1. Master Chef; 1. Master Baker. Both: England.

7798. Cross, Doris. 1986. Diet recipes from Doris' kitchen. Published by the author, 1111 West Eskridge, Stillwater, OK 74075. 139 p. Recipe index. 22 cm.

• ***Summary:*** Two years ago the author lost 100 pounds on Diet Center's Reducing Diet. Since then she has been working as a Diet Center Counselor in Stillwater. This cookbook (which is not vegetarian) contains Mori-Nu Tofu in more than half its recipes. Page 6 contains an endorsement for Mori-Nu Tofu. "All of the recipes in this cookbook were created and tested with Mori-Nu Tofu. I found it to be fresher and lighter in taste and texture than any other tofu I have used." Tofu is a major ingredient in Non flour zucchini caraway bread, Banana bread, Strawberry cheesecake, Sour cream cake, Strawberry cake, Banana-Almond cake, Hawaiian delight, Lemon chiffon dessert, Sloppy Joe dip, Cinnamon apple dip, Taco chicken dip, Yasmine's Malaysian dip, Bacon and horseradish dip, Pineapple and curry dip, Chopped spinach dip, Tofu spread or dip, Tofu potato salad, Quiche, Tofu burgers, Chicken fruit salad, Chicken dumplings, Lemon pie, Strawberry pie, Polynesian pie, Blueberry pie, Raspberry pie, Mocha pie, Berry pie, Summer lemon chicken salad, Tofu pancakes, Tofu ice cream, Pimento spread, Cream of chicken soup, Trout chowder, Eggnog. The eighth printing of this book was April 1988.

Art Mio notes that Sibyl Fergusan, the founder of Diet Center, had a cookbook that contained some tofu recipes. Doris tried some of these and told Art (in her Oklahoman southern accent) that she "had to run to the sink and spit it out." Address: Stillwater, Oklahoma.

7799. Durston, Diane. 1986. Old Kyoto: a guide to traditional shops, restaurants, and inns. Tokyo, San Francisco: Kodansha International. 240 p. Foreword by Donald Richie. Illust. (photos by Lucy Birmingham). Indexes (by type of shop; alphabetical list of shops). 19 cm. [17 ref]

• ***Summary:*** "A completely revised version of the classic guidebook to Kyoto, with a foreword by Donald Richie. Down the cobbled paths and behind the tranquil noren curtains of Kyoto, the old way of life goes on, nurtured in the restrained furnishings of the traditional inns and in the old shops where fine handmade items still add a touch of quality to life. Since the first edition appeared in 1986, this lovingly written travelogue-cum-guidebook has become de rigueur for knowledgeable travelers seeking to find 'the real Kyoto.' With 51 maps and over 120 photos of the living heart of this ancient capital–and a vanishing way of life. Each shop featured in the book is accompanied by a photo showing its front and a map showing its location" (from the publisher).

Tofu is mentioned on pages 9, 30, 53, 55, 116, 121 (Okutan), 123, 147, 158, 193, 201, 234, 239.

Miso is mentioned on pages 53, 100, 123 (dengaku), 147, 179, 213, and 233.

Yuba is mentioned on pages 30, 59, 61, 147, and 234. Natto is mentioned on pages 49, 183, 233, and 239.

Shôjin ryôri, the vegetarian [actually vegan] food served in Buddhist temples, was also developed in Kyoto from its prototype, fucha ryôri, brought from China by priests. Yuba, uncooked wheat gluten (nama-fu), and tofu are all part of shojin ryori (p. 30).

Fuka (p. 50-52) is a shop that specializes in making wheat gluten, including *nama-fu*, the chewy variety, that is

© Copyright Soyinfo Center 2013

made from half regular wheat gluten and half glutinous rice flour (*mochi-gome*). Wheat gluten is an important part of the vegetarian diet of Zen monks.

Iriyama Tofu (p. 53-55) makes tofu (*momen-dôfu*) in the traditional way, using nigari as a coagulant. The owners (Mr. and Mrs. Iriyama) are 9th generation tofu makers, working in a 120 year old building. Using a charcoal fire they make grilled tofu (yaki-dôfu). They also make deep-fried tofu pouches (*o-age*) and tofu balls (*hiryôzu*).

Note: This is the earliest English-language document seen (April 2013) that contains the term *hiryôzu;* it refers to Kyoto-style deep-fried tofu treasure balls.

Yubahan (p. 59-61) makes yuba in the traditional way using a wood fire and soybeans cooked over an old clay *kamado* stove. "No clocks or timers are involved." Tomizo Asana is the 9th generation yuba maker. "Yubahan started making yuba in 1716, but all family records were destroyed in the huge fire of 1864 that destroyed much of the city."

Takasebune (p. 98-100) specializes in tempura, with a tempura dinner (*tenpura teishoku*) including a "generous bowl of miso soup."

Tamatomi (p. 116-17) offers teppin-age (a fry it yourself tempura meal) and oden stew (with tofu).

Okutan (p. 120-23), inside the north gate of famous Nanzen-ji temple, is famous for its tofu cookery. It has served *yudofu* (fresh tofu simmered in a big ceramic pot over a charcoal fire, with a shoyu dipping sauce) for 12 generations and 300 years. Side dishes include vegetable tempura and tofu dengaku.

Nakamura-ro (p. 136-38) is famous for its tofu dengaku (with miso).

Bunnosuke-jaya (p. 142-44) specializes in amazake.

Ikkyû-an (Ikkyu-an, p. 145-47) serves fucha ryori (Chinese-style vegetarian temple food, including sesame tofu, tofu dengaku. It is named after the famous Zen monk and priest Ikkyû Sôjun {Ikkyu Sojun}).

Takocho (p. 158), 100 years old with 15 seats at the counter, features oden stew with tofu.

Ichiwa (p. 178-80) which makes rice cakes (mochi) and abura mochi (cakes of glutinous rice flour dough that are charcoal grilled on green bamboo skewers then dipped into a sweet miso sauce).

Isoda (p. 181-83, 41 Shimomonzen-cho, Murasakino, Kita-ku, southeast of Daitoku-ji. Phone: 075-491-7617) is said to be the best and oldest maker of Daitokuji natto in Kyoto; their fermented black soybeans are sold in a small wooden box. After Daitoku-ji "was destroyed in the Onin Wars (1467-77), an eccentric Zen priest named Ikkyû supervised the reconstruction of the temple and became its 47th (and most celebrated) abbot. According to legend it was Ikkyu who introduced the Chinese Buddhist recipe for this compact, high-protein treat" for mendicant Zen monks. The original recipe, which is still used at Isoda, is described. Because warm weather and natural sunlight are necessary, Daitoku-ji natto can only be made during the summer months, most often in August after the rainy season has abated. Even Sen no Rikyu, the famous Japanese tea master, is said to have been an ardent fan of the salty morsels–which are still served with ceremonial tea. Chûgo Isoda, the present owner, is a 17th generation maker of Daitokuji natto. He and his wife work together during the hot summer making the fermented black soybeans. A full-page photo shows Mr. Isoda mixing a shallow tub of the dark fermenting beans. Daitoku-ji natto are also mentioned on page 49.

Nishiki (p. 197-99) is famous for its kaiseki ryori. "Every month the ingredients are completely changed to match the season." One dish is karashi-dôfu ("mustard tofu").

Sagano (p. 201-02) serves simmering tofu (*yudôfu*) in the bamboo forest just south of Tenryu-ji temple.

The excellent "Glossary" (p. 230-32) includes entries for: Amazake, fu (wheat gluten), kaiseki, miso, mochi, nattô (fermented soybeans), oden, o-hagi, shôjin ryôri, sukiyaki, tofu, yuba, yûdofu. Address: Kyoto, Japan.

7800. Elliot, Rose. 1986. The vegetarian mother and baby book. New York, NY: Pantheon Books. vii + 261 p. Index. 24 cm.

• ***Summary:*** A complete guide to nutrition, health, and diet during pregnancy and after–with easy recipes for mother and baby to enjoy together. The author "is one of England's most popular cookbook writers, a radio and TV commentator, and a columnist. A vegetarian since the age of three, she is also the author of *Vegetarian Dishes from Around the World* and *The Festive Vegetarian.*" She has also raised three children according to the principles described in this book. Contents: Part I: A vegetarian diet for healthy mothers and babies. Part II: Recipes. Appendix. A. Summary of Nutrients: Where they are and what they do. B. How it all adds up: Analysis of one day's vegetarian menus. C. Recommended daily dietary allowances for women.

In Part I, the author recommends that if soy milk is used, it should be fortified with riboflavin (vitamin B-2), and calcium. Regular soymilk provides a little (0.5 mg/cup) of zinc. In Part II, soy-related recipes include: Miso pick-me-up (p. 99; with watercress). Tofu dressing (p. 110). Soybean salad (p. 127). Curried soybean and apple spread (p. 137). Soy sausages (p. 159; made with cooked whole soybeans). Soy and walnut loaf (p. 160; made with cooked whole soybeans). Mushroom and tofu quiche (p. 175). Tofu fritters with lemon (p. 186). Creamy tofu and almond topping (p. 203; for use like heavy cream with desserts). Whipped tofu topping (p. 204). Tofu ice cream (p. 218). Vegan yogurt (p. 219; made with soy milk; fermented).

In the Sept/Oct. 1994 issue of *Vegetarian Journal*, Reed Mangels, PhD, RD, an expert on vegetarian nutrition, says that this is her favorite book on pregnancy for vegetarian women. Address: England.

7801. Furuta, Kenji. 1986. Shoyu making in Japan. *Farming Japan* 20(2):58-61. Special issue: Processed foods of soybeans. [Eng]
• ***Summary:*** "From April 1980 to April 1982, I stayed in Nepal as a member of the Japan Overseas Cooperation Volunteers (JOCV). In these months, I was engaged in the study, trial production and diffusion of processed foods at the country's Central Food Research Laboratory, Food Research Section.

"Soon after I arrived at my post, I began studies on shoyu production. In my office at the Laboratory, there was a staffer named Baidya [sic, Achutananda Vaidya]. Mr. Baidya had just returned from Japan, where he received training, chiefly on the production of miso (soybean paste) and shoyu (soy), at the Prefectural Experiment Station of Shoyu and Miso in Akita for about nine months. He was much interested in the processing of soybeans; he had learned the technique of making tofu (bean curd) from my predecessor and operated a business for making and selling tofu. He was very eager to adapt the technique he learned in Japan to the situation in Nepal and to introduce it to his country. I felt sympathy with his enthusiasm and decided to cooperated with him.

"There were three types of soybeans, whose appearance differed from one another, found in Nepali markets: white, brown and black and small-grained ones... These soybeans are planted on footpaths between rice and dry fields or on fields alternately with corn. Nepalis eat several kinds of beans, but as to soybeans, they take them roasted with corn only between meals."

In July 1980 the author and Mr. Vaidya began experimental production of soy sauce in Nepal using 4 different methods. The best results were obtained using hand-made koji and whole soybeans. The resulting shoyu was very favorably received. Soon they increased the scale of their experiment so that they could make about 100 liters of shoyu per batch.

They also conducted a survey to try to estimated the demand for shoyu in Nepal. Some of the Japanese and Chinese restaurants in Kathmandu used soy sauce imported from Japan or India. Indian soy sauce tastes entirely different from Japanese shoyu; it is probably unfermented HVP soy sauce. When asked to try Japanese-made shoyu, restaurant owners always preferred it to Indian-made soy sauce. From their survey they estimated that there was a demand for at least 20,000 liters of shoyu per year in Nepal–the actual demand, they felt, might be several times or even many times this amount.

"A Nepali, who heard of our shoyu making experiment, visited us to see the work. This man later wrote a letter to me and said that he began a shoyu making business on a small scale. I helped my Nepali friend making shoyu in Pokra. He owns a hotel there, a tourist resort about 110 kilometers west of Kathmandu. And after one year since then (I had returned home already) Mr. Baidya helped him with the final process of shoyu making in my place." In March 1985 Mr. Vaidya came to Japan, invited by the Rotary Club in Akita and Aomori, to receive further training in soybean processing. The author an Mr. Baidya met in Japan and renewed their friendship. Address: Ex-member of the Japan Overseas Cooperation Volunteers (JOCV).

7802. Gandjar, Indrawati. 1986. Soybean fermentation and other tempe products in Indonesia. *Mycologia Memoir* No. 11. p. 55-66. Chap. 4. (C.W. Hesseltine and Hwa L. Wang, eds. Indigenous Fermented Food of Non-Western Origin. Berlin & Stuttgart: J. Cramer.) Previously published in 1981 in USDA Miscellaneous Publication FL-MS-333. [14 ref]
• ***Summary:*** Contents: Introduction. Kecap (Indonesian soy sauce). Taoco (Indonesian chiang, a yellowish-brown porridge that is very popular in Western Java). Soybean tempe (*tempe kedelai*). Tempe gembus (okara tempe). Non-soybean tempe–made from velvet beans (*tempe benguk*), jack beans (*tempe koro pedang*), winged bean (*tempe kecipir*), pigeon pea (*tempe gude*), wild tamarind (*tempe lamtoro*), peanut presscake (*tempe bungkil kacang*), and coconut presscake (*tempe bongkrek*).

"Tempe is an important source of protein in the Indonesian diet. At present the intake of soybean tempe per person per day is within the range of 40 to 50 g while the recommendation is 100 g per person per day... The awareness of the people that soybean tempe is nutritious results in a higher demand of this product. In the city of Jakarta, about 6000 tonnes of soybeans are processed monthly; 2500 tonnes for soybean tempe [tempeh], and 3500 tonnes for tahu [tofu]."

Table VI shows the nutritional composition of some leguminous seeds and tempe products. Table VII shows the amino acid content of the seeds and the tempeh of 4 non-soybean legumes. Address: Dep. of Biology, Faculty of Mathematics and Natural Sciences, Univ. of Indonesia, Jakarta, Indonesia.

7804. Guinness, Patrick. 1986. Harmony and hierarchy in a Javanese kampung. Singapore, Oxford, New York: Oxford University Press. xvii + 191 p. Illust. Map. Index. 22 cm. A Publication of the Asian Studies Association of Australia. [65* ref]

• ***Summary:*** "The majority of Java's urban residents live in off-street neighborhoods called *kampung.* These have shown over the years a remarkable ability to absorb the expanding city population.

This is a study of the social relations in a slum squatter community in the large Indonesian city of Yogyakarta.

Page 54: Wahyono, an entrepreneur, was born in Lodok in 1946, the son of a shoemaker who was also born in the kampung. The history of his attempts to find work is given. By 1976, he and his wife, worked for the same employer in the Yogyakarta region. With the birth of their third child in 1976, "Wahyono encouraged her to stay at home and cook a few cakes for sale in the kampung. She had studied cooking after completing primary school, the only formal education she received. Her cakes (*martabat, lumpiah, risolas, tahu kuning*) proved popular among neighbours and she began to leave her products with streetside shops for sale."

When this too proved successful Wahyono left his job in 1978 to concentrate on marketing his wife's cooking.

Note 1. In Indonesian, the word *kuning* means "yellow." Turmeric is sometimes used to color foods yellow.

Note 2. This is the earliest document seen (July 2012) that mentions *tahu kuning,* which is pressed or firm tofu with a yellow exterior. Address: Research Fellow, Dep. of Anthropology, Research School of Pacific Studies, Australian National Univ.

7805. Hesseltine, C.W. 1986. Future of fermented foods. *Mycologia Memoir* No. 11. p. 303-16. Chap. 17. (C.W. Hesseltine and Hwa L. Wang, eds. Indigenous Fermented Food of Non-Western Origin. Berlin & Stuttgart: J. Cramer.) Previously published in 1981 in USDA Miscellaneous Publication FL-MS-333. [11 ref]

• ***Summary:*** Contents: Introduction. Positive factors for increased use of fermented foods. Trends in production of fermented foods. Factors that may effect the wider use of fermented foods in the West. Literature cited. Address: USDA/NRRC, 1815 N. University St., Peoria, Illinois 61604.

7806. Horne, Kibbey M. 1986. Chinese food for the modern Marco Polo. San Francisco, California: Chinese Materials Center Publications. vii + 270 p. Plus 11 unnumbered leaves of plates. Illust. (color). Map (color). 19 cm. Series: Asian Library Series No. 43. [6 ref]

• ***Summary:*** This book "is an attempt to present Chinese food as the Chinese view it." It is not a cookbook, but rather the kind of book that Marco Polo would have found very useful as he first encountered the food of China.

Page 6: The term 'putrid' embraces, "among other things, cheese (which most Chinese abominate as an inedible Western curiosity) and 'stinky' bean curd, a Ningpo specialty which some Chinese love it and many others do not."

Page 15. "Another Ningpo specialty, specialty, which appeals to a much more limited circle of Chinese and almost no Westerners at all, is Stinky Bean Curd. This is fermented bean curd which smells rather like a stout cheese which has gone off. When cooked it disperses a strong odor in all directions and to considerable distance."

Chapter 9, titled "Meat," begins by discussing the meat radical (*rou*). It then notes (p. 68): "There is one interesting case in which the entire meat character is used as the radical, and applied to something which is not meat at all, although it is a principal source of protein for the poorer Chinese: *dou fu."* It is used less frequently in terms like *dou fu yi* 'bean curd skin' [yuba]. The term "bean curd" appears on 13 pages in this book.

The character *su* means "plain," as in the word *sutsai* "vegetarian" (p. 92). The English word "vegetarian" appears on 6 pages in this book.

Three chapters near the end of the book are very interesting and useful. Each is a long table having four columns: Chinese character(s), Mandarin, English, and Cantonese–but in a different order for each chapter. The three chapters are: (1) "Mandarin glossary" (p. 173+), sorted alphabetically by the romanized Mandarin word. For

© Copyright Soyinfo Center 2013

example: 1 Cc, fu, curd, fu; or 1 Cc (Chinese character), nau, brains, nou; or 1 Cc, mau, hairy, mou. 2 Cc, ru fu, fermented bean curd, yu fu (p. 189, 243). (2) "English glossary" (p. 197+). (3) Cantonese glossary (p. 221-45).

"The author, a linguistic anthropologist, was educated at Choate, Harvard, West Point, Heidelberg and Georgetown. He has spent a fourth of his life overseas as an Army officer, traveler, and researcher. For the last twelve years he has been the director of International Programs for The California State University, one of the world's largest university systems." A color photo on the rear cover shows the author. Address: California.

7807. Hoshijo, Kathy. 1986. The art of dieting without dieting! Recipe and guidebook. The Self-Sufficiency Association, 2525 South King St., Honolulu, Hawaii 96826. Or: P.O. Box 1122, Glendale, California 91209. xiv + 729 p. Illust. Index. 24 cm.

• ***Summary:*** A whopper of a cookbook, with 300 easy-to-prepare lacto-vegetarian recipes (no eggs) from the star of the PBS television series "Kathy's Kitchen." Kathy has 6 healthy children (see color photo on rear cover) and 5 years of experience on television teaching Americans how to eat healthy foods. Each recipe contains a detailed (full-page!) nutritional analysis.

This book contains a wealth of recipes using soyfoods. For example, the index lists 57 recipes for tofu and tofu mayonnaise, 13 recipes for tempeh, 9 recipes for yuba, 6 recipes for miso, and 4 recipes for soybeans (including soymilk). One section titled "Soyfriends" (p. 63) explains: "In eliminating meat from my diet, one food that has become a real friend in the kitchen is soybeans and by-products made from soybeans. From a nutritional standpoint, soybeans are a good nutritional replacement for meat as they are the only legume which contains all essential amino acids... Soybeans by themselves have a Net Protein Utilization about equal to that of beef and chicken." Address: Honolulu, Hawaii; and Glendale, California.

7808. Hunt, Janet. 1986. The compassionate gourmet: The best of international vegan cuisine. Wellingborough, Northamptonshire, England: Thorsons Publishers Ltd. 160 p. Illust. Index. 22 cm.

• ***Summary:*** An excellent vegan cookbook, written for animal lovers. Soy-related recipes include: Avocado tofu pâté (p. 31). Celery miso pâté (p. 36). French bean salad with tofu dressing (p. 66). Tofu curry (Thailand; p. 74). Tofu and vegetable pakora (p. 86). Tofu layered casserole (p. 96). Tomato flan with tofu (p. 104). Tofu Lemon flan (p. 137). Yogurt dessert (made with cultured soya milk, p. 140). Rhubarb fool (dessert in soya milk, p. 141). Maple pancakes (with soya flour, p. 149). Walnut tofu balls (p. 156).

At least one recipe uses Holbrook's Worcester Sauce–a Worcestershire-type sauce without animal products. Many recipes call for soy sauce or soya milk, and some for canned soy or nut "sausage." Page 9 lists a number of special ingredients including Direct Foods Protoveg (soya "meat"), Infinity Foods (distributors [in Brighton, at Sussex University]) Soya mayonnaise, Lotus Foods TVP (soya "meats" in a varieties of forms and flavors), Plamil concentrated soya milk (use diluted as a milk, undiluted as a cream), and Tomor Margarine (the author's favorite of the many vegan margarines now available in the UK). In all recipes, each ingredient is listed twice in side-by-side columns: once in its Imperial (metric) form and once in its American form, e.g. 385 ml soya milk, 1 1/3 cup soya milk. A number of recipes call for the use of alcohol (whiskey, brandy, etc.). The author has written at least 14 other books on vegetarian or wholefood cookery. Address: England.

7809. Hyun, Peter. 1986. Man sei!: the making of a Korean American. Honolulu, Hawaii: University of Hawaii Press. xiii + 186 p. Plus 3 unnumbered pages of plates. Illust. No index. 22 cm.

• ***Summary:*** *Man sei!* means "Long live Korea." In this autobiographical sketch, the author describes what it was like growing up in occupied Korea under Japanese rule. "Peter was born in Hawaii in 1906, but grew up in Seoul, Korea, where his father, the Reverend Soon Hyun, was one of the leaders of the Korean independence movement struggling against Japanese colonial rule. In Seoul, at age 12, he took part in the nonviolent March First (1919) uprising for independence and freedom; a year later, he and his family escaped to join his father in Shanghai. There, his father and other patriots, established the Korean Provisional Government in Exile. When Peter was age 17 the family moved to Hawaii.

Page 142: He is discussing his life (at age 15) of hunger, poverty and cold in Nanking, China. "Whenever Umma sent me a little money, I would go to the store and buy a jar of preserved tofu–salted beancurd–which I would take with me to the dining room. When the Chinese students finished eating and the table had been picked clean, I would order my precious jar of salted tofu. And because there was always some left-over rice, I could sit alone and leisurely eat three more bowls of rice, spiced with tofu.

Page 31: In Korean, soybean sprouts are known as *kong-na-mul.*

Page 73: *Bee-bim-pap* is a traditional Korean dish made of rice mixed with marinated meat, bean sprouts, and pickled radish; it is "seasoned with soy sauce and sesame oil."

Page 89: They served us bowls of steaming rice gruel (*jook*) "with soy sauce and roasted peanuts in separate dishes."

"That was how I survived."

On the rear dust jacket is a photo of Peter Hyun and a brief biography. A longer biography appears on the next to last page, under "About the author." Address: Oxnard,

7810. Island Tofu Works. 1986. Market Research & Product Development Specialists for the Soyfoods and Health Foods Industry (Leaflet). Bar Harbor, Maine. 1 p. Front and back. 28 cm.
• ***Summary:*** "Island Tofu Works was originally founded in 1980 as a manufacturer of tofu and other related soyfoods products. Its success in product development and production, and the rapidly growing and changing soyfoods market, led to the company's decision to take its hands-on experience, and combine it with in-depth and ongoing market and product research to become *a market research and food product development company that specializes in soyfoods.*

"Our company's product development experience includes soymilks, spray-dried soymilk powders, tofu or soy-based desserts, yogurts, ice creams, meat and cheese analogs, flavored tofu products, tofu dips and dressings." Address: 318 Main St., Bar Harbor, Maine 04609. Phone: (207) 288-4969.

7811. Kondo, Sonoko; Stoumen, Lou. 1986. The poetical pursuit of food: Japanese recipes for American cooks. New York, NY: Clarkson N. Potter. 296 p. Illust. by Etienne Delessert. Index. 25 cm.
• ***Summary:*** A very artistic, attractive, and authentic book with superb (imaginative and lyrical) illustrations. The section titled "Staple foods you will need" (p. 17-20) discusses soy sauce, konbu and nori seaweeds, sesame seed paste (*atari-goma;* "Most Americans may be more familiar with the Middle Eastern version called tahini paste... Used in making salad dressings and dips"), miso, and sesame seeds. Soy-related recipes include: Grilled tofu with miso (Dengaku; p. 37). Sesame tofu (p. 38; no soy). Tuna sashimi and green onions with miso (p. 40). Daikon radish with lemon miso (p. 42). Cauliflower florets with miso (p. 42). Basic miso soup (p. 51). Clam miso soup (p. 51). Daikon radish miso soup (p. 52). Vegetable and chicken miso soup (p. 52). Tofu and wakame seaweed suimono (p. 53). Fried rice with tofu and vegetables (p. 89).

Chapter 7, titled "Tofu & egg dishes" includes (p. 103-17): Tofu in Kamakura. Description of different types of tofu: Silken, firm, grilled, pouches, deep-fried, fritters (*ganmodoki*), freeze-dried (*koya-dofu*), how to press tofu. Chilled tofu with ginger sauce. Braised koya-dofu with pea pods. Cold-day tofu. Vegetarian "chicken" tofu (with frozen tofu). Dragon's head (*hiryozu*). Tofu from the sea (*Kenchin-mushi*). Tofu gratinée. Stuffed tofu. Scrambled tofu. Tofu treasure bags. Vegetarian "burger." Egg tofu delight (*tamago-dofu;* no soy).

Beans for breakfast (*natto;* p. 125). Braised konbu seaweed, soybeans, and konnyaku (p. 128). Hijiki seaweed with tofu (p. 129). Stuffed tofu sushi (*Inari-zushi;* p. 157). Snapper tempura with asparagus and miso (p. 174). Marinated cod in miso sauce (p. 179). Seaweed, chicken, and vegetables with creamy miso (p. 185). Steak miso (p. 190). Sukiyaki (p. 206). Shabu shabu (p. 208). Vegetarian nabe (with tofu, p. 211). Sea and mountain (with miso sauce, p. 212-23). Winter nabe (with tofu, p. 214). Udon-suki (with tofu, p. 216). Tofu apple cake (p. 244). Chapter 15 (p. 260-71) is menu plans, by season and time of day.

The glossary (p. 272-82) includes: Agar-agar, azuki beans, konbu seaweed, kuzu, miso paste, nori seaweed, rice cakes (*mochi*), sesame seed oil, sesame seeds, soybeans–fermented (*natto*), soy sauce, tofu, tonkatsu sauce (with dark soy sauce), wakame seaweed. Address: Los Angeles, California.

• ***Summary:*** A German-language edition of her 1978 English-language book. Address: Massachusetts.

7813. Leneman, Leah. 1986. The international tofu cookery book. London and New York: Routledge & Kegan Paul. 122 p. Illust. by Megan Dickinson. Index. 20 cm.
• ***Summary:*** Contents: Introduction. Types of tofu readily available: Morinaga silken tofu, Japanese instant silken tofu ("House" brand, soya milk powder and a coagulant), medium tofu, Chinese tofu, converted Japanese tofu, firm tofu (and address of 4 makers of vacuum-packed firm tofu in UK–Cauldron Foods, The Regular Tofu Co., Paul's Tofu {organic}, and Bean Machine). More unusual forms of tofu: Fermented tofu, dried-frozen tofu, deep-fried tofu, bean curd sticks or sheets [yuba]. General notes: Quantities, tofu mayonnaise, soya yogurt, American measurements. Making tofu at home. Table of metric equivalents. British- and American-style dishes (More than 100 recipes). Mexican-style dishes. The Mediterranean. Asia. Desserts.

A discussion of the author and her works appears on the half-title page at the front of the book. Address: 19 Leamington Terrace, Edinburgh EH10 4JP, Scotland.

7814. Lu, Henry C. 1986. Chinese system of food cures: Prevention & remedies. New York, NY: Sterling Publishing Co., Inc. 192 p. Index. 23 cm. [11 ref]
• ***Summary:*** Chapter 7, titled "Legumes, grains, oils and seeds," discusses the following: Small red bean (adzuki bean): Edema, beriberi, jaundice, diarrhea, discharge of blood from anus, carbuncle swelling, mumps, cirrhotic ascites (p. 107). Bean curd (tofu): Pink eyes, diabetes, periodic diarrhea, sulfur poisoning (p. 111). Yellow soybean: Malnutrition in children, diarrhea, abdominal swelling, underweight, getosis (p. 111). Black soybean: Edema, beriberi, jaundice, rheumatism, muscular cramps, lockjaw, drug poisoning. Soybean oil: Gastric ulcer, duodenal ulcer,

intestinal obstruction. Soy sauce: Promotes digestion (p. 112).

Note: Although he was born in Taiwan, Dr. Lu was quite skeptical of traditional Chinese medicine. But during this twenties he developed an ailment that resisted every form of Western medical treatment. In desperation, he traveled to Taiwan and Hong Kong to consult with Chinese specialists. The results changed his life. A traditional Chinese doctor cured him in a few months. Dr. Liu already held a PhD in education and philosophy from the University of Alberta. But at age 32 he decided to change his field. He began by translating the *Nei Jing* (*Yellow Emperor's Classic of Internal Medicine*) into English. He went on to translate 25 other Chinese medical books into English, including 7 books on acupuncture that are now listed as required texts by the Board of Acupuncture examiners. In 1972 he began practicing traditional Chinese medicine and acupuncture. In 1986 he founded the Academy of Oriental Heritage (in Vancouver, British Columbia), which now (1999) has 15 full-time teachers and more than 100 students. Address: Academy of Oriental Heritage, P.O. Box 35057, Station E, Vancouver, BC V6M 4G1, Canada.

7815. Ludlow, Rose Budd. 1986. Total health and food power: Principles of healthful living and outstanding vegetarian recipes from Glendale Adventist Medical Center. Santa Barbara, California: Woodbridge Press. 239 p. Illust. Recipe index. 23 cm.
• ***Summary:*** Section 1 of this book consists of 18 chapters on Seventh-day Adventist principles of healthful living. Part 2 contains more than 200 vegetarian recipes from the Glendale Adventist Health and Medical Center. Soy-related recipes include: Soybean waffles (p. 118). Corn chowder with imitation Baco-Bits (p. 127). Lemon juice-soy mayonnaise (with soy milk powder, p. 149). Gado-gado salad (with fried tofu, p. 165). Tofu salad deluxe (p. 171). Chinese-style sautéed tofu (p. 185). Fried tofu patties with eggs and vegetables (p. 192). Leafy Chinese tofu (p. 196). Soy-cheese patties (with tofu, p. 206). Soy-cheese scallops (p. 207). Tofu balls or cutlets (p. 210). Tofu balls with tartar sauce (p. 210). Tofu with mushroom sauce (p. 211). Tofu and brown rice casserole (p. 212).

Many recipes also use meatlike products made by Seventh-day Adventist food companies; a list is given on p. 174. These include Soyameat (p. 162), Meatless Chicken (p. 167), Nuteena (p. 200, 213), Vege-Burger (p. 211, 214). Address: Consulting Dietitian, Formerly, Director of Dietary Service, Glendale Adventist Medical Center, Glendale, California.

7816. McCarty, Meredith. 1986. American macrobiotic cuisine. Turning Point Publications, 1122 M Street, Eureka, CA 95501-2442. 110 p. Illust. Index. 28 cm. [6 ref]
• ***Summary:*** Page 7 and Chapter 7, titled "Beans and Soyfoods," give basic descriptions of tempeh, miso, soy sauce, soymilk, and tofu. Recipes include Summer's Mixed Vegetable Quiche (with tofu), Tofu Egg Foo Young, and Baked Tempeh with Lemon-Mustard Sauce. Tofu recipes elsewhere in the book include Green Goddess Dressing, Nutty Noodle Bake, Pasta Patricio, and Sour Cream. Also contains information on sea vegetables. Address: Eureka, California. Phone: 707-445-2290.

7817. McDougall, Mary A. 1986. The McDougall health-supporting cookbook. Vol. 2. Piscataway, New Jersey: New Century Publishers. iii + 157 p. Index. 23 cm.
• ***Summary:*** This is a vegan cookbook whose 250 original recipes are designed to support The McDougall Plan, which is a diet low in fat and sodium, high in complex carbohydrates. Since soyfoods are relatively high in fat, they are used sparingly and the recipes are marked by a symbol of a crown. Low sodium soy sauce is used in many recipes. Soy-related recipes include: Scrambled tofu (p. 2-3). Tofu salad dressing (p. 7-8). Dijon tofu dip (p. 9). Onion soup dip (with tofu, p. 9). Dilly tofu dip (p. 9-10). Miso soup (p. 39). Creamed tofu soup (p. 41). Tempeh Creole (p. 62-63). Rice-tofu stuffing mix (p. 88). Tempeh and grain casserole (p. 91). Tofu loaf (p. 96-97). Baked tofu cubes (p. 97-98). Spinach-tofu burgers (p. 99-100). Where's the meat loaf? (with tofu, p. 101-02). Oat burgers (with tofu, p. 102-03). TVP stuffing mix (p. 109). Okara cookies (p. 126). Tofu banana pudding (p. 132). The section titled "Update on ingredients" (p. 133-35) includes a description of: Worcestershire sauce (Sharwood's–natural and without anchovies), umeboshi plum sauce, tamari or soy sauce, okara, tempeh, kombu, and tahini. A portrait photo on the rear cover shows Mary McDougall.

Note: Not long after this book was published, New Century Publishers changed its name to New Win Publishing, Inc. and moved to Clinton, New Jersey. As of 2000 this book is published by Putnam/Penguin. Address: P.O. 14039, Santa Rosa, California 95402.

7818. Morinaga Milk Industry Co. Ltd. 1986. Morinaga. Shiba 5-33-1, Minato-ku, Tokyo 108, Japan. 22 p. Undated. 28 cm. [Eng]
• ***Summary:*** This glossy color manufacturer's catalog contains an interesting 2-page chronology of the company titled "Briefing history of Morinaga Milk." The company was founded in 1917. The first commercial product was Morinaga Drymilk–whole milk powder with sucrose. In 1953 the Morinaga Central Research Laboratory was founded–the same year as the "Morinaga Incident" in which 186 infants died after consuming Morinaga infant formula accidentally contaminated with arsenic.

The section titled "Exporting long life tofu–Owing to the technology of aseptic packaging" states: "The first long life tofu was exported in 1978 and in the following year, the Ministry of Science and Technology Prize was awarded to

© Copyright Soyinfo Center 2013

Morinaga's outstanding aseptic manufacturing technology. Since then, long life tofu has been exported to 32 countries and has received a fine reputation. Patents were granted in the U.S., the biggest export market. And in [May] 1985, for the rapidly growing American market, Morinaga Nutritional Foods, Inc. was established in Los Angeles. In 1977, Beech Nut California Corporation, a joint venture with Beech-Nut Foods Corporation was founded.

Note: This is the earliest English-language document seen (April 2013) that uses the term "long life tofu" to refer to aseptically packaged lactone silken tofu. Address: Tokyo, Japan.

7819. Nix, Janeth Johnson. ed. 1986. Sunset vegetarian cooking. Menlo Park, California: Lane Publishing Co. 96 p. Illust. Index. 28 cm.

• ***Summary:*** Written and compiled by the editors of Sunset Books and Sunset Magazine, this attractive and inviting lacto-ovo vegetarian cookbook was first published in 1981 under the titled *Menus and Recipes for Vegetarian Cooking*, edited by David E. Clark, It contains over 185 tempting recipes plus many superb full-page color photos, and illustrations (line drawings) by Kathy Parkinson of various vegetables. The subtitle on the cover only reads: "Nutritious recipes with flavor and imagination."

Chapter 1, titled "Going Vegetarian," gives a good introduction to the subject. It begins: "We've heard many reasons for going vegetarian. Some people are just looking for a change of pace from meat and potatoes. Some want to save money. Some want the health advantages of a low-cholesterol, high-fiber diet. Other have religious or philosophical reasons for not eating meat. And there are also those who want to do something about the global food problem.

"But whether you want to save money, save your heart, save animals, or save the world from food shortage, you'll need good recipes that sustain your interest in going vegetarian. And good recipes are the heart of this vegetarian cook book."

In answer to the question "Don't I need meat for protein?" it responds: "No. By weight, soybeans and cheese are better sources of protein than meat and fish. In terms of protein quality, eggs and milk rank above meat. By combining grains and legumes, you can create a protein of higher quality than meat or fish." The theme of combining proteins from complementary sources to increase protein quality is emphasized. Soybeans are said to have the best quality protein of any food from the plant kingdom, providing "virtually complete protein" with "no limiting amino acid"–a "near-perfect protein source." (p. 9-10, 49).

In a table titled "Nutrition-packed Foods" the following soy-related foods are listed as good sources: Soybeans for thiamin (vitamin B-1), niacin, vitamin B-6, folacin, calcium, and iron. Tofu for niacin and calcium.

Soy-related recipes include: Soybean soup, bistro style (p. 30). Vegetarian Joe (Like sloppy Joe, with tofu, p. 44). Cooking beans (incl. soybeans, p. 49; "Refrigerate while soaking, boil for 3 to 3½ hours." Adding salt to the soak water is said to help beans absorb water evenly). Sweet & sour soybeans (p. 51). Sesame tofu sticks (in teriyaki sauce, p. 59). Savory vegetables and tofu (p. 61). Herbed tofu sauce (p. 69). Address: Menlo Park, California. Phone: 415-321-3600.

7820. Photographs of the Arcata Tofu Shop in Arcata, California (1985-1986). 1986. Arcata, California.

• ***Summary:*** Eleven color photos (most 3½ by 5 inches), numbered with captions, were sent to Soyfoods Center on 24 Sept. 2002 by Matthew Schmit, founder and owner of the Arcata Tofu Shop. The first three photos were taken in 1985; the rest in 1986. They show: (1) One Arcata Tofu Shop character and four Arcata Co-op characters marching with "sandwich-board" signs in the annual "Rhododendron Parade" in Eureka, California (situated on the Pacific Ocean, just a few miles south of Arcata). The tofu sign is a giant lid of a package of Fresh Tofu. (2) Another of the two giant tofu tubs marching in Eureka. (3) Tisa Lucchesi (left) and Shawn White standing by a stone wall at Houda Point north of Arcata, with the Pacific Ocean in the background. They are dressed (one Japanese style) to symbolize the transmission of "tofu wisdom" from East Asia to North America. In front of

© Copyright Soyinfo Center 2013

them is old Spinning Kitchen tofu-making equipment, except for the wooden forming box made by Olof Brentmar.

(4) View from street after remodeling of The Tofu Shop: Specialty Grocery and Deli with large wooden sign over blue awning. Arcata Juice Company is on left and Hunan Village Chinese Restaurant on right. (5) A closer view of front of The Tofu Shop on same day with shop crew (6 people) standing in front, behind a newly carved street sign (by Daniel Schmit) on sidewalk. (6) Deli worker Carol Seiman displays three Fresh Tofu Pumpkin Pies on wooden counter. (7) Deli worker Helen with big special catering job of sushi rolls on a tray and in boxes. (8) Deli worker Shawn White (with a big smile) in a kitchen readies tofu veggie patties for display. (9) Matthew Schmit (with a big smile) standing beside new "Bean Machines" (BMI) stainless steel grinder / disintegrator. (10) Back porch of Tofu Shop and front door of Melanie Patrick's Eighteenth Street Bakery (wholesale only). (11) Matthew Schmit, dressed in white apron and chef's hat, standing at front counter of Tofu Shop specialty grocery and deli (no sit-down). Address: Arcata, California.

7821. Rachim, Abdul. 1986. Indonesia: Notes on the soybean food industry under producers' co-operatives in Indonesia. *CGPRT* No. 4. p. 244-54. Includes 7 tables and figures.
• ***Summary:*** Contents: Background. Indonesian soybean foods. Fermented products: Tempe, oncom, tauco, kecap. Non-fermented products: Tofu, soymilk. Function and role of Kopti (and BULOG). Traditional processing industry: Current situation of small-scale home industry, further studies on the food industry / marketing system.

The Food Balance Sheets of the Central Bureau of Statistics show that 90% of Indonesia's soybeans are used for food. Most of the human consumption is in the form of a variety of popular processed foods: tempe, tahu (tofu), tauco, and a number of other less popular foods: soybean sprouts (tauge), sere in Bali, yuba, soybean milk, fried soybeans (eaten as a snack), beans boiled in the pod (also a snack), and the beans cooked as a vegetable or as an ingredient in soups. Only one factory (Sari Hasuda, in Yogyakarta) produces soybean milk. It is enriched with nonfat dried milk, vitamins, and minerals.

To coordinate and improve the economic viability of the small tofu and tempeh producers, a cooperative system, called Kopti (*Koperasi Produsen Tempe dan Tahu Indonesia;* Indonesian Tempe / Tofu Processors' Co-operative) was founded in 1979. The main function of Kopti is to procure and distribute soybeans to its members, the number of which has increased from 25 in 1980 to 286 in May 1985. It handles about 407,160 tons/year. The purchase price of soybeans is as follows (Rupiah/kg): From USA 415, from China 425, from Indonesian farmers 475-80. Certificate [certified] seeds cost 550-75.

Tofu, tempe, kecap, tauco and oncom processing is primarily done in small factories. 3 studies have been made on the size of these factories and the quantities they process: as part of the 1974 Industrial Census of the Central Bureau of Statistics (CBS); by Winarno, et al., in 1976; and by the study team on Soybean Commodity System (SCS) in the Garut area of West Java in 1984. The findings of these 3 studies are presented in Table 2.

"We should be cautious in comparing their results, however, because of biases in the collection of the information. The CBS study, for instance, was part of an industrial census, which divided processors into two categories: small-scale industries (5-19 labourers), and home factories (1-4 labourers, some of whom may be family members). However, there may also be wide variations in the industry in different parts of the country.

"Despite these limitations, it seems that the volume of soybean processed by each unit has increased appreciably, probably reflecting a favorable growth of the industry. Yet the number of labourers per unit has remained small, and is probably diminishing. This may be because of the use of mechanical crushers or dehullers for both tempe and tofu productions." Address: Research Asst., ESCAP CGPRT Centre, Bogor, Indonesia.

7822. Schaefer, Mary Jane. 1986. The phytic acid and trace mineral content of soybeans and their effects on tofu texture. PhD thesis, Iowa State University. 145 p. Page 4366 in volume 47/11-B of Dissertation Abstracts International. [187 ref]
• ***Summary:*** Dissertation supervisor was J.A. Love. Only 39% of the iron in soybeans was recovered in soymilk. Of the copper in soymilk, 37% was lost in the whey during tofu making. The components of soybeans that were found to be the best indicators of tofu texture were iron and phytic acid, which were related to tofu fracturability (r=0.73) and elasticity (r=0.82), respectively. In finished tofu, lipid was best related to tofu cohesiveness (r=0.92). Thus a low-fat tofu would expect to break easily. Address: Iowa State Univ., Ames, Iowa. Presently: Dep. of Human Nutrition, Univ. of Missouri, 217 Gwynn Hall, Columbia, MO 65211. Phone: 314-882-4288.

7823. Spivack, Ellen Sue. 1986. The Johnny Alfalfa Sprout handbook. Johnny Alfalfa Sprout, P.O. Box 294, Lewisburg, PA 17837. 94 p. Illust. No index. 22 cm. [17 ref]
• ***Summary:*** The section titled "Super soy sprouts" (p. 21-22) describes several methods for sprouting soybeans at home. Chapter 2 describes many different seeds that can be sprouted, including lentils, alfalfa, sunflower seeds, wheat berries, fenugreek, radish, buckwheat, millet, common legumes (incl. peas, soybeans, aduki), amaranth, and quinoa.

Chapter 3, titled "Recipes for simple meals with sprouts" contains vegetarian recipes that call for the use of soymilk (p. 44, 46-47), tofu (p. 51-52, 55, 59), miso (p. 51, 59), sesame tahini or ground sesame seeds (p. 53, 72), non-

© Copyright Soyinfo Center 2013

dairy soy cheese (p. 60). A photo on the inside rear cover shows the author and her husband (a professional sprouter) gathering sprouts. Address: Lewisburg, Pennsylvania.

7824. Stidham, Martin. 1986. The fragrant vegetable: Simple vegetarian delicacies from the Chinese. Los Angeles, California: Jeremy P. Tarcher, Inc. x + 224 p. Illust. Index. 24 cm.

• ***Summary:*** Chapter 3 (p. 57-84), titled "'Meat without bones'–Tofu," contains 3 preparatory techniques and 16 recipes. Chapter 4 (p. 85-98), titled "More 'meat without bones'–Pressed tofu," contains two basic recipes for pressed and spiced pressed tofu plus 9 additional recipes. "The highly odiferous 'stinking' tofu (*chou doufu*) is made by fermenting tofu or pressed tofu, or allowing it to grow moldly, then deep-frying it. Usually eaten with a hot sauce, this is available at movable carts..." (p. 58).

"The dense cakes are fermented to become tofu 'cheese' (see Chapter 1) as well as 'stinking' tofu..."

Chapter 5 (p. 99-126) titled "'Duck,' 'chicken,' and other specialties," first discusses the basic ingredients in making these traditional meatlike products (Bean curd sheet [pressed tofu sheets], bean curd skin [yuba], and bean curd sheet noodles), then gives numerous recipes, many containing soy. Chapters on fried gluten, soups, and fruit and nut desserts follow. Soy sauce, "green soybeans" [green vegetable soybeans], soymilk, soy sprouts, and soy-pickled cucumbers are also mentioned.

The author, a graduate of Northwestern University, lived in East Asia for over 10 years, first as a student at National Taiwan Univ. in the Graduate Inst. of Chinese Literature, and later as a translator of short stories, poetry, and novels. "A long-standing interest in the cuisines of the region, especially vegetarian, has taken him into home, restaurant, and temple kitchens. He has studied privately with instructors from the area's well-known cooking schools, including Wei-Chuan and Pei Mei's, besides being tutored in special techniques by tofu makers and manufacturers of other Chinese specialty food items."

7825. Takahashi, Kuwako. 1986. The joy of Japanese cooking. Tokyo: Shufunotomo Company, Ltd. 311 p. Illust. (some color photos). Index. 27 cm.

• ***Summary:*** An excellent book with especially good descriptions of Japanese ingredients. Contents: Dedication. Foreword. Introduction. Part I. Japanese ingredients. Seasonings in Japanese cooking. Utensils and equipment. Tableware. Measurements and equivalents. Basic techniques: Making soup stock (*dashi*), cooking rice, preparing fish, boning chicken, cutting vegetables, broiling, poaching, steaming.

Part II. Seafood. Chicken. Eggs. Beef. Pork. *Tofu* (bean curd). Vegetables, dried and manufactured foods.

Part III. Appetizers (*zensai*). Soups. Salads (*aemono*). Casseroles (*nabemono*). Rice. Pickles. Desserts and Japanese sweets.

Part IV. Menu planning. Sample menus with preparation schedules. Part V. Making tea. Serving sake.

A color photo (p. 15) shows six different soyfoods made from soymilk: 1. Deep-fried soybean puffs (*age* or *aburage*). 2. Fried tofu cutlet (*atsu-age* or *nama-age*). 3. Tofu patties (*ganmodoki*). 4. Soymilk film, dried (*yuba*). 5. Bean curd cake (*tofu*). 6. Freeze-dried tofu (*Kôya dofu*).

Note 1. This is the earliest English-language document seen (April 2013) that uses the term *Kôya dofu* to refer to dried-frozen tofu.

The section titled "Japanese ingredients" (a superb glossary, with many entries accompanied by an illustration {line drawing}, p. 17-32) includes: Bean curd cake (*tofu*), incl. regular tofu (*momen dofu*), soft tofu (*kinugoshi dofu*), Ever-Fresh Silken Tofu (aseptically packaged), instant tofu, firm tofu (Chinese style). Tofu products: Deep-fried soybean puffs (*agé* or *aburage*), fried tofu cutlet (*atsu agé* or *name agé*), freeze-dried tofu (*Kôya dofu*), grilled tofu (*yaki dofu*), tofu patties (*ganmodoki*). Beans: Red beans, dried (*azuki*), soybeans, dried (*daizu*), soybeans, fresh (*eda mamé*). Bean pastes: Bean paste, fermented (*miso*), sweet bean paste (*azuki an*). Soymilk film, dried (*yuba*). Soy sauce (*shoyu*).

The glossary also discusses: Horseradish, Japanese (*wasabi*), konnyaku, kombu, umeboshi, kabocha, daikon (4 forms), glutinous rice (*mochi gome*), red bean rice (*sekihan*), pounded rice cake (*mochi*), rice wine lees (*sakekasu*), rice wine lees pickles (*narazuke*), perilla (*shiso*), seaweeds (*hijiki, nori, yakinori, small sized nori, wakame, ao nori*), sesame seeds (*goma*), sweet rice wine for cooking (*mirin*), wheat gluten cake (*fu,* incl. *nama fu, yaki fu, and matsutake fu*).

The section titled "Seasonings in Japanese cooking (another superb glossary, p. 33-37) discusses: Soy sauce, incl. Regular soy sauce (*koikuchi shôyu*), light soy sauce (*usukuchi shôyu*), tamari soy sauce (darker and thicker, made from fermented soybean and brine in the Nagoya area. "It is not saltier than regular soy sauce but has a richer flavor, thicker taste, and some people prefer tamari as the dipping sauce for sashimi... Note 2. In the USA the name 'tamari' is mistakenly used for natural soy sauce which is not tamari"), white soy sauce (*shiro shôyu*), milder soy sauce (contains less salt). A table showing the nutritional composition of five different types of Japanese soy sauce is given. Combinations of soy sauce and mirin: Teriyaki. Miso (incl. *kome miso, mugi miso, mame miso,* mixing of miso types).

Use the good index to see how each of the ingredients mentioned above are used in recipes.

A good biography of the author is appears in the Foreword and on the inside rear dust jacket (with portrait photo). The author was also very active in introducing ikebana (Japanese flower arranging) to the Bay Area and the USA. Address: Japan and Berkeley, California.

7826. Tofu Shop (The). 1986. Soyfood specialties: Fresh–natural–nutritious–delicious (Leaflet). Arcata, California. 1 p. Single sided. 28 cm.
• ***Summary:*** This marketing flyer is printed with black ink on light brown paper. Each of the following is described in one of six equal-sized rectangular boxes (2 rows of three each), each with a Japanese crest: (1) Handmade tofu & soymilk. (2) Baked tofu cold-cuts. (3) Light tofu salads. (4) Delicious tofu desserts. (5) Tempeh (new!). (6) About our products. Address: 768 18th St., Arcata, California 95521. Phone: (707) 822 7409.

7827. Tofu Shop Specialty Foods Company (The). 1986. Price list. Arcata, California. 1 p. Single sided.
• ***Summary:*** At the top left is an illustration of a dragon in a circle. At the top right is an illustration of a tofu shop on stilts on a cliff by the ocean, with a tree arching over the top–all in a diamond. “Fresh prepared natural foods since 1977.”

The Tofu Shop now makes 39 products in seven categories: (1) Tofu, organic nigari: 14 oz water-pac, bulk pounds, bucket deposit. (2) Soymilk, organic: Natural unflavored (pint, quart, half gallon, or gallon), vanilla-maple (1/3 quart or quart), carob-barley (1/3 quart or quart). (3) Cold cuts, pre-baked: Tofu-vegie patty tray (3), 10 oz, tofu-vegie patty bulk (12 minimum). Marinated tofu cutlet tray (5), 8 oz, marinated tofu cutlet bulk (12 min). Tofu sausage patty tray (6), 8 oz tofu sausage patty bulk (12 min). (4) Combo’s: Tofu-cutlets ‘n rice, 8 oz. Tofu-sausage ‘n pasta, 8 oz.

(5) Deli salads: Eggless-tofu (5 oz or 2 quart). Potato-tofu (5 oz or 2 quart). Tahini-tofu (5 oz or 2 quart). Corn pasta primavera (4 oz or 2 quart). Brown rice ‘n vegies (4 oz or 2 quart). Sea palm & bean sprout (4 oz or 2 quart). Tabouli (4 oz or 2 qt).

(6) Desserts: Cocoa-carob mousse, 5 oz. Maple-almond charlotte, 5 oz. Pina colada pie (6 oz or 9 inch). Pumpkin pie (6 oz or 9 inch). Address: 768 18th St., Arcata, California 95521. Phone: (707) 822 7409.

7828. Tofutti Brands Inc. 1986. An inside look at Tofutti. Rahway, New Jersey. 16 p.
• ***Summary:*** Contains complete nutritional analyses for the following products: Hard pack pints (Vanilla, Chocolate Supreme, Wildberry, Vanilla Almond Bark, Vanilla Love Drops, Chocolate Love Drops, Cappuccino Love Drops; calories range from 200 to 230 per 4 oz), Soft Serve (Regular, Hi-Lite Vanilla, Hi-Lite Chocolate; calories 90 to 158), and Single Serving Novelties (Vanilla Cuties, and Chocolate Cuties). Shows illustrations of cartons for Tofutti Pops and Tofutti Moms (“Smooth Tofutti bars on a stick dipped in delicious chocolate”) scheduled for introduction in 1987. Address: Rahway, New Jersey.

7829. Tsai, S.-J. 1986. Productivity and quality characteristics of Chinese tofu. In: Owen R. Fennema, Wei-Hsien Chang, and Cheng-Yi Lii. eds. 1986. Role of Chemistry in the Quality of Processed Foods. Westport, Connecticut: Food & Nutrition Press, Inc. 336 p. See p. 278-89. [2 ref]
• ***Summary:*** Contents: Types of tofu in Taiwan. Yield of tofu. Properties of tofu. Different coagulants related to tofu. Tofu productivity from soy flours of various particle sizes. Quality characteristics of tofu products obtained from soy flours of various particle sizes.

“This book, which is the result of a Conference held August 6-10, 1984 in Taipei, Taiwan, is an attempt to improve communications and cooperation between food scientists in the United States and Taiwan.” Address: Prof., Dep. of Food Science, National Chung-Hsing Univ., 250 Kuokuang Rd., Taichung, Taiwan.

7830. Tsuji, Shizuo; Hata, Koichiro. 1986. Practical Japanese cooking: Easy and elegant. Tokyo, New York & San Francisco: Kodansha International. 151 p. Illust. (color photos by Yoshikatsu Saeki). Index. 31 cm.
• ***Summary:*** A beautiful, elegant book. M.F.K. Fisher says of this book (rear dust jacket): “The recipes are clear and easy to follow, and the illustrations are especially delightful, truly top high-style Japanese simplicity. Messrs. Tsuji and Hata have given us the best of the old and the new.”

The Preface, by Shizuo Tsuji (born in 1948) notes that the many-faceted Japanese “cooking tradition relies heavily on two primary ingredients–delicate bonito stock (*dashi*) and, not unexpectedly, soy sauce. Most, if not all, dishes call for one or both.” The recipes generally call for either “dark soy sauce” [koikuchi] or “light soy sauce” [usukuchi].

Soy related: Squid and asparagus with mustard miso sauce (... *karashi su miso ae*, with “5 Tbsps nonsweet white miso paste,” p. 19). Tofu, pork, and vegetable soup (*Kenchin jiru*, with “1 block regular {‘cotton’} tofu, about 10 oz {300 gm}, p. 24). Pureed corn soup (with “2 Tbsps nonsweet white miso paste,” p. 24). Miso soup with pork and vegetables (*Buta jiru*, p. 25). Yellowtail teriyaki (*Buri teriyaki*, p. 35). Simmered mackerel in miso (*Saba miso-ni*, p. 37). Tofu as a possible ingredient (p. 38). Deep-fried trout in vegetable sauce (Tofu can be added to the sauce to give the dish more volume, or tofu can easily be substituted for the trout, p. 39). Stuffed spiny lobster (“In place of egg, softened miso can be used in the filling,” p. 40-41). Squid teriyaki (*Ika teriyaki;* the teriyaki sauce includes mirin, sake, dark soy sauce, and tamari soy sauce, p. 44). Shrimp and leeks with mustard-miso sauce (... *karashi-su-miso kake*, p. 48). Grilled beef (with tamari soy sauce in Lemon-soy dipping sauce {Ponzu}, and dark soy sauce in sesame dipping sauce, p. 50-51). Grilled beef with miso (*Gyuniku miso-yaki*, with “4 Tbsps Red Miso Sauce {p. 85},” p. 54). Nagasaki-style braised pork (*Buta kaku-ni*, with “1 cup {250 gm} unpacked okara {tofu pulp} or milk, optional,” p. 58).

The section titled "Tofu" includes: Simmered tofu (*Yudofu,* with "2 blocks tofu, about 20 oz {600 gm} total," p. 71). Night-dried tofu with chicken sauce (*Ichiya-dofu tori soboro ankake;* regular tofu is allowed to freeze overnight to give it a different texture, p. 72). Simmered tofu dumplings (*Ganmodoki uma-ni,* p. 73-74). Deep-fried tofu (*Agedashi-dofu,* p. 75). Scrambled tofu (*Iri-dofu,* p. 76). White salad (*Shira-ae,* p. 77). Tofu sandwiches (*Tofu hakata-ni,* p. 78-79). Tofu hamburger steak (with miso, p. 80). Freeze-dried tofu with egg (*Koya-dofu tama-jime,* p. 81).

Grilled eggplant (*Taki-nasu,* with Soy-ginger sauce, p. 84). Deep-fried eggplant with miso sauce (*Nasu dengaku,* with Red Miso Sauce, p. 85). Turnip with ginger-miso sauce (*Furo-fuki kabura,* with 1 cup Red Miso Sauce, p. 88). Chinese cabbage and deep-fried tofu (*Hakusai usuage uma-ni,* with "4 pieces thin deep-fried tofu {*usuage*}, about 3 oz (80 gm) total," p. 90). Deep-fried and simmered acorn squash (*Eikon sukasshu no age-ni,* with "2 blocks thick deep-fried tofu {*atsuage*}, about 5 oz {150 gm} total," p. 93). Simmered soybeans (*Nimame,* with "1 cup {120 gm} dried soybeans;" "The real secret... is to allow the beans a long pre-soak before beginning to cook," p. 94). Vegetables with white sesame dressing (*Goshiki yasai gomashirasu-ae,* with 1 block regular tofu, p. 96). Mixed rice (*Kayaku gohan,* has "thin deep-fried tofu" as an alternative ingredient, p. 100). Scattered sushi (*Bara sushi,* with "1 cake freeze-dried tofu {*Koya-dofu*}, about ½ oz {15 gm}," and "2 Tbsp dark soy sauce," p. 106-07). Thick roll sushi (*Futo-maki-zushi,* with "2 cakes freeze-dried tofu {Koya-dofu}, about 1 oz {30 gm} total," p. 113). Inari sushi (*Inari-zushi,* with "10 pieces thin deep-fried tofu {*usuage*}, each about 3 inches {8 cm} square, p. 114-15). Udon noodles with deep-fried tofu (*Kitsune udon,* with 4 pieces thin deep-fried tofu, p. 120). Sukiyaki ("... actually only appeared on the horizon of Japanese cuisine some one hundred years ago," with "½ block regular {'cotton'} tofu," p. 122-23). Oden stew (*Oden nabe,* with "4 blocks thick deep-fried tofu," p. 124-25). Seafood pot (*Yose nabe,* with 1 block regular tofu," p. 126-27). Deep-fried mixed kebabs (*Kushi-katsu,* with 1/3 cup Worcestershire sauce in the Dipping sauce, p. 132-33).

The section titled "Ingredients" (p. 144-49) has a photo and excellent description for each entry, including: Ginger (fresh). Ginger (red vinegared). Ginger (sweet vinegared). Green seaweed flakes (*ao-nori*). Hot yellow mustard (*karashi*). Kelp (*konbu*). Kelp (salted) (*shio-konbu*). Mirin. Miso paste (Sweet white miso, nonsweet white miso, red miso). Nori seaweed. Pickled plums (*umeboshi*). Rice cakes (*mochi*). Rice vinegar. Saké. Sesame seeds (white, black, or brown). Seven-spice pepper. Shiitake mushrooms. Shiso leaves. Soba noodles. Somen noodles. Soybeans (fresh young) (*edamame*). Soy sauce (dark, light, tamari). Tofu (freeze-dried) (*Koya-dofu, kori-dofu, or shimi-dofu*). Tofu (fresh). Tofu (thick deep-fried). Tofu (thin deep-fried). Udon noodles. Wakame seaweed. Wasabi horseradish ("has a tingling hotness that goes straight to the nose").

About the authors (inside rear dust jacket, with small color portrait photos of each): "Shizuo Tsuji is president of the Ecole Technique Hôtelière Tsuji, the largest culinary school in Japan. It comprises three divisions, whose total enrollment currently exceeds three thousand. At the main school, which offers intensive courses in Japanese, French, Italian, and Chinese cooking, aspiring chefs receive the training necessary to become professionals. At the Ecole Supérieure de Pâtisserie Tsuji students may perfect their confectionery techniques. The Centre de Perfectionnement in Liergues, France, accepts those desirous of completing their education with firsthand experience in Europe." All classes are conducted in Japanese. He is author of the classic book *Japanese Cooking: A Simple Art* (1980, in English). Address: Tsuji Professional Culinary Inst., Osaka, Japan.

7831. *Union* (*The*) (*Arcata, California*). 1986. North Coast news: AEDC reports loans to council.
• ***Summary:*** The Arcata Economic Development Corp. last week announced two new business loans. "The Tofu Shop received a $12,000 loan to purchase new equipment and do leasehold improvements on the shop. An already existing $3,000 loan was restructured... The Tofu Shop has three full-time employees and expects to add one more when the remodeling is complete."

7832. Wakeman, Alan; Baskerville, Gordon. 1986. The vegan cookbook: Over 200 recipes all completely free from animal produce. London and Boston: Faber & Faber. 298 p. Index. 22 cm. [28 ref]
• ***Summary:*** The 200 recipes in this cookbook demonstrate that a vegan diet can be rich and varied and reach the highest culinary standards. Within each chapter (e.g. main dishes, or soups) the recipe are listed with the quicker, cheaper, or simpler ones first and the slower, more expensive, or more elaborate ones last. A nutritional analysis per serving is given with each recipe.

Soy-related recipes include: Tofu stir-fry (p. 63). Tofu chips with walnuts and olives (p. 105). Vanilla dessert (with soya milk, p. 147). Caramel Cream Pudding (with tofu, p. 153). Orange and Chocolate Mousse (with soya milk, p. 154). Banana tart (with soya milk, p. 157). Chocolate tart (with soya milk, p. 158). Banana curd cake (with tofu and soya milk, p. 160). Lemon cheesecake (with tofu and soya milk). Rum and chocolate cheesecake (with tofu and soya milk, p. 162). Basic plain sauce (with soya milk, p. 166). Lemon curry sauce (with soya milk). Custard (with soya milk, p. 175). Hot chocolate sauce (with soya milk, p. 176). Tofu dressing (p. 181). Yoghurt salad dressing (with cultured soymilk yogurt, p. 182). Mayonnaise with soya milk (p. 185). Tahini spread with miso (p. 192). Scrambled tofu and herbs on toast (p. 254). Lassi (Traditional Indian sweet or salty yoghurt drink, p. 256). Soy sprouts (p. 262).

© Copyright Soyinfo Center 2013

Many recipes call for the use of soy sauce or soya milk (especially desserts, dairylike products, or cream sauces), and tofu is used as an ingredient in many recipes in which it does not appear in the recipe name (e.g. Bulgur bake, p. 59; Mushroom pie, p. 88). In all recipes, each ingredient is listed twice in side-by-side columns: once in its Imperial (Metric) form and once in its American form, e.g. 385 ml Vegan Yoghurt, ½ cup.

One excellent chapter titled "The Alternative Dairy" (p. 231-50) is designed to tempt even the most determined cream addict. It contains descriptive sections on soya milk, margarine, tofu, vegan yoghurt, and vegan ice-cream, followed by recipes for: Vegan single cream. Vegan double cream. Vegan sour cream. Vegan piping cream. Cashew cream. Coconut cream. Vegan yoghurt (2 methods). Plain ice cream. Banana ice-cream. Pineapple ice-cream. Chocolate ice-cream. and Peach sorbet.

Appendixes include: 1. Notes on vegan nutrition. 2. Seven reasons to be a vegan (health, economic, ecological, altruistic {world hunger}, compassionate (to animals), ethical {what right do we have to kill animals?}, spiritual). 3. Useful addresses. 4. Selected bibliography. 5. Abbreviations and measures. 6. Glossary of unusual ingredients: Incl. demerara sugar (dark brown, often used raw), miso, soya flour, soya milk, soya sauce, tofu. Address: England.

7833. Wang, Hwa L. 1986. Uses of soybeans as foods in the West with emphasis on tofu and tempeh. *ACS Symposium Series* No. 312. p. 45-60. Robert L. Ory, ed. Plant Proteins: Applications, Biological Effects, and Chemistry (American Chemical Society). [34 ref]
• ***Summary:*** Similar to her article titled "Tofu and tempeh as potential protein sources in the Western diet" (March 1984). Address: Northern Regional Research Center, Agricultural Research Service, USDA, Peoria, Illinois 61604.

7834. Yee, V.; Wellington, G.H.; Olek, A.; Steinkraus, K.H. 1986. Production of a white wine and a protein-rich soy flour by yeast fermentation of soybean slurry, soybean milk and whey from tofu production. *Acta Biotechnologica* 6(3):209-14. [17 ref]
• ***Summary:*** "A dry white wine with an alcoholic content of 10 to 14% v/v was produced by yeast fermentation of slurried ground soybeans, soybean milk and whey from tofu production. Wines from whey and soybean milk were judged by a 20 member taste panel to be acceptable and comparable to a commercial chablis control. Chemical analysis indicated that the high fat and protein contents of soybeans do not cause a problem in the production of wines from soybeans as the lipids and proteins are precipitated by the acid and alcohol formed during the fermentation. The lees recovered following fermentation were dehydrated and ground to a flour having an enriched protein content due to the yeasts and an improved flavor resulting from the yeast fermentation." Address: Inst. of Food Science, Cornell Univ., Geneva, New York 14456.

7835. Zhang, Desheng. 1986. 200 recipes for the doufu devotee. Beijing, China: Women of China. 206 p. + 12 unnumbered pages of color plates. Illust. (photos by Cheng Jingjing). 18 cm. Series: Women of China special series. [Eng]*
• ***Summary:*** These 200 tofu recipes are by Zhang Desheng.

7836. Hoefer, Hans; Lueras, Leonard; Chung, Nedra. 1986-. Korea. 4th ed. Hong Kong: APA Productions. 321 p. Illust. (some color). 23 cm. *
• ***Summary:*** "... rice deliciously mixed with soy sprouts..." (p. 158).

"Enthroned in an earthen jar by the back wall, the House Site Official reigns over everyone and everything within the walls. Other gods reign atop storage jars filled with [chili] pepper and soy pastes–in the kitchen..." (p. 238).

The section on "Food & drink" states: "More common table vegetables–such as mung and soy beans, spinach, lettuce, and black sesame leaves–a typically grown in the back yard garden." A spicy hot seafood soup, called *mae-un-t'ang* "usually includes a good portion of firm, white fish, vegetables, soybean curd (*tubu*), red pepper powder, and an optional poached egg" (p. 267).

Directed by Hans Johannes Hoefer; produced, edited, and designed by Leonard Lueras and Nedra Chung.

7837. **Product Name:** Tofu Carob Drink Mix (Dry Mix).
Manufacturer's Name: Magic Mill. A Div. of CI. Made in the USA by Great American Foods.
Manufacturer's Address: 1911 South 3850 East, Salt Lake City, Utah. Phone: 801-972-0707.
Date of Introduction: 1986?
Ingredients: 100% organic cane juice, partially hydrogenated soy oil, cereal solids (from corn), carob powder, calcium carbonate, tofu, sodium caseinate, sea salt, natural color, natural flavors, carrageenan, soy lecithin.
Wt/Vol., Packaging, Price: 27.6 oz (784 gm) can. Retails for $7.95 (7/90, California).
How Stored: Shelf stable.
Nutrition: Per 8 oz (28.1 gm): Calories 130, protein 2 gm, carbohydrate 20 gm, fat 5 gm, cholesterol 0 mg, sodium 150 mg.
New Product–Documentation: Product with Label purchased at Adventist Book Center, Pleasant Hill, California. 1990. July 8.

Talk with Magic Mill. 1990. July 11. These products were introduced in about 1986. They are selling well. Magic Mill was founded in about 1986. The company's best-selling products are the Magic Mill Grain Grinders/Mills. Steve Storey was with the company but he no longer is. Jim Harrison was the founder and present president. Great

© Copyright Soyinfo Center 2013

American Foods makes the product, and Magic Mill markets it. The parent company is named Constellation Incorporated. It was started before 1986 by Jim Harrison. Its divisions are Magic Mill International and Great American Foods. All three companies are located in the same building.

7838. **Product Name:** Vitasoy Tofu Pasta.
Manufacturer's Name: Mandarin Enterprises Ltd.
Manufacturer's Address: No. 13-12200 Vulcan Way, Richmond, BC, V6V 1S8, Canada.
Date of Introduction: 1986?
New Product–Documentation: Talk with Michael Weiner. 1987. Dec. 16.

7839. **Product Name:** [Tofu].
Foreign Name: Tofu.
Manufacturer's Name: Morgenland Pflanzenkost.
Manufacturer's Address: Kurze Strasse 1, D-3406 Lenglern, West Germany. Phone: 05593-774.
Date of Introduction: 1986?
New Product–Documentation: Interview with Bernd Drosihn of Soyastern. 1987. Nov. 30. He says they started in 1986 and make about 200 kg/week of tofu. Gives company name as Morgenland Tofu (Göttingen). Manufacturer's catalog. 1987. Kleine Warenkunde. Yellow. 4 pages. Describes each of the 13 soyfood products. The tofu is handmade in the traditional way without automatic pressing or preservatives.

7840. **Product Name:** [Vegetable Tofu].
Foreign Name: Gemuese Tofu.
Manufacturer's Name: Morgenland Pflanzenkost.
Manufacturer's Address: Kurze Strasse 1, D-3406 Lenglern, West Germany.
Date of Introduction: 1986?
New Product–Documentation: Manufacturer's catalog. 1987. Kleine Warenkunde. Yellow. 4 pages. Describes each of the 13 soyfood products.

7841. **Product Name:** [Fried Tofu].
Foreign Name: Tofu-Bratschnitten.
Manufacturer's Name: Morgenland Pflanzenkost.
Manufacturer's Address: Kurze Strasse 1, D-3406 Lenglern, West Germany.
Date of Introduction: 1986?
New Product–Documentation: Manufacturer's catalog. 1987. Kleine Warenkunde. Yellow. 4 pages. Describes each of the 13 soyfood products. "These ready to eat tofu slices are dipped in shoyu, fried, then lightly de-fatted."

7842. **Product Name:** [Smoked Tofu (With Arame Sea Vegetables, or Chopped Mushrooms)].
Foreign Name: Raeucher-Tofu.
Manufacturer's Name: Morgenland Pflanzenkost.
Manufacturer's Address: Kurze Strasse 1, D-3406 Lenglern, West Germany.
Date of Introduction: 1986?
New Product–Documentation: Manufacturer's catalog. 1987. Kleine Warenkunde. Yellow. 4 pages. Describes each of the 13 soyfood products. "Prepared with sea salt and arame sea vegetables or chopped mushrooms. Cold smoked with juniper, spruce needles, and beech tree sawdust, etc."

7843. **Product Name:** [Tofu Meatballs].
Foreign Name: Tofuletten.
Manufacturer's Name: Morgenland Pflanzenkost.
Manufacturer's Address: Kurze Strasse 1, D-3406 Lenglern, West Germany.
Date of Introduction: 1986?
New Product–Documentation: Manufacturer's catalog. 1987. Kleine Warenkunde. Yellow. 4 pages. Describes each of the 13 soyfood products. In German a "Bulette" is a meatball, or rissole. These are made from tofu, soy bran (okara?), rice, whole wheat grits, vegetables, herbs, and seasonings. Sold in packs of 6.

7844. **Product Name:** [Hazelnut Tofu].
Foreign Name: Haselnuss Tofu.
Manufacturer's Name: Morgenland Pflanzenkost.
Manufacturer's Address: Kurze Strasse 1, D-3406 Lenglern, West Germany.
Date of Introduction: 1986?
New Product–Documentation: Manufacturer's catalog. 1987. Kleine Warenkunde. Yellow. 4 pages. Describes each of the 13 soyfood products. This is the newest Morgenland creation. Made with roasted nuts chopped into large pieces.

7845. **Product Name:** Sunrise Tofu and Vegetable Pies [Chinese Vegetables, Ratatouille, or Celery & Peppers].
Manufacturer's Name: Soya Health Foods, Ltd.
Manufacturer's Address: Unit 4, Guinness Rd., Trafford Park, Manchester M17 1UA, England. Phone: 061-872-0549.
Date of Introduction: 1986?
New Product–Documentation: Poster. 1986. New from Soya Health Foods Ltd. Sunrise Tofu and Vegetable Pies. Filled with Sunrise Tofu and Fresh Vegetables. Ready Baked in Wholemeal Pastry. 100% free from cholesterol and animal products.

Note: *Webster's Dictionary* defines ratatouille (a French term first used in about 1877) as: "a seasoned stew made of eggplant, tomatoes, green peppers, squash, and sometimes meat."

7846. **Product Name:** Firm Tofu, Tofuburger, Tofu Pasty, Okara Bread.
Manufacturer's Name: Soyfoods Ltd.
Manufacturer's Address: Wheathampstead House, The

© Copyright Soyinfo Center 2013

Old Brewery, St. Albans, Herts. AL4 8DS, England. Phone: 0664-60572.
Date of Introduction: 1986?
New Product–Documentation: Letter from Simon Bailey. 1988. Oct. 10. Paul Jones has moved from his Wheathampstead House address to 66 Snow Hill, Melton Mobray, Leicestershire, LE13 1PD, England. Same phone. He doesn't make tempeh. But he now makes Firm & Soft Tofu, Tofuburger, Tofu Pasty, and Okara Bread.

Talk with David de Korsak. 1990. Jan. 31. David, a Frenchman, worked for this company in England from Oct-Dec. 1987 and May-June 1989. The first time he made tofu and the second time he made okara bread and burgers. They also made a seasonal Christmas Cake with tofu. The company moved to Melton Mobray in about 1985. It sells to about 80-85 retail outlets in London. The company is very small. Paul and his wife and one driver are the only full-time employees.

7847. **Product Name:** [Tofu Burgers].
Foreign Name: Tofuburgers.
Manufacturer's Name: Svadesha R. Urban.
Manufacturer's Address: Ostpreussenstr. 22, D-8000 Munich 81, West Germany. Phone: 089 / 93 90 05.
Date of Introduction: 1986?
How Stored: Refrigerated.
New Product–Documentation: Talk with Svadesha R. Urban. 1990. June 13. This product was introduced after he moved to Ostpreussenstr. 22.

7848. **Product Name:** [Spice Tofu].
Manufacturer's Name: Svadesha R. Urban.
Manufacturer's Address: Ostpreussenstr. 22, D-8000 Munich 81, West Germany. Phone: 089 / 93 90 05.
Date of Introduction: 1986?
Wt/Vol., Packaging, Price: Plastic tubs.
How Stored: Refrigerated.
New Product–Documentation: Talk with Svadesha R. Urban. 1990. June 13. This product was introduced after the company moved to Ostpreussenstr. 22. It is no longer sold. It was made by mashing cooled tofu with cooled fried onions, curry, and spices.

7849. **Product Name:** [Tofu Spring Rolls].
Foreign Name: Tofu Fruehlingsrollen.
Manufacturer's Name: Svadesha R. Urban.
Manufacturer's Address: Ostpreussenstr. 22, D-8000 Munich 81, West Germany. Phone: 089 / 93 90 05.
Date of Introduction: 1986?
How Stored: Refrigerated.
New Product–Documentation: Talk with Svadesha R. Urban. 1990. June 13. This product was introduced after the company moved to Ostpreussenstr. 22. It is now the company's fifth best-selling product.

7850. **Product Name:** [Tofu Slices {Marinated in Shoyu then Fried}].
Foreign Name: Tofu Schnitten.
Manufacturer's Name: Svadesha R. Urban.
Manufacturer's Address: Ostpreussenstr. 22, D-8000 Munich 81, West Germany. Phone: 089 / 93 90 05.
Date of Introduction: 1986?
How Stored: Refrigerated.
New Product–Documentation: Talk with Svadesha R. Urban. 1990. June 13. This product was introduced after the company moved to Ostpreussenstr. 22. It is now the company's fourth best-selling product. Sliced tofu is laid and marinated in shoyu for 1-2 days, then deep-fried. No bread crumbs are used as a coating.

7851. **Product Name:** [Tofu Slices Stuffed with Sauerkraut].
Foreign Name: Sauerkraut Schnitten.
Manufacturer's Name: Svadesha R. Urban.
Manufacturer's Address: Ostpreussenstr. 22, D-8000 Munich 81, West Germany. Phone: 089 / 93 90 05.
Date of Introduction: 1986?
How Stored: Refrigerated.
New Product–Documentation: Talk with Svadesha R. Urban. 1990. June 13. This product was introduced after the company moved to Ostpreussenstr. 22.

7852. **Product Name:** [Tofu Spread with Tempeh].
Foreign Name: Tofu Pastete mit Tempeh?.
Manufacturer's Name: Svadesha R. Urban.
Manufacturer's Address: Ostpreussenstr. 22, D-8000 Munich 81, West Germany. Phone: 089 / 93 90 05.
Date of Introduction: 1986?
How Stored: Refrigerated.
New Product–Documentation: Talk with Svadesha R. Urban, company founder. 1990. June 13. After moving to Ostpreussenstr., he introduced new versions of the product, one with herbs and one with tempeh. He also started selling tempeh, which was made by Byodo Naturkost.

7853. **Product Name:** Fried Bean Curd (Aburaage).
Manufacturer's Name: Tokyo Food Processing Corp. Affiliate of JFC International.
Manufacturer's Address: 40 Varick Ave., Brooklyn, NY 11237.
Date of Introduction: 1986?
New Product–Documentation: Soya Bluebook. 1987. p. 110.

7854. **Product Name:** [VFP Organic Tofu: Fresh Soya Bean Curd].
Foreign Name: VFP Tofu Organique: Caillé Frais aux Fèves de Soya.

© Copyright Soyinfo Center 2013

Manufacturer's Name: Victor Food Products, Ltd.
Manufacturer's Address: 102 Hymus Rd., Scarborough, ONT, M1L 2C9, Canada. Phone: 416-752-0161.
Date of Introduction: 1986?
Ingredients: Water, organically grown soya bean, magnesium chloride (chlorure de magnesium).
Wt/Vol., Packaging, Price: 500 gm packed in water in molded plastic tray with heat-sealed, peel-off plastic film lid.
How Stored: Refrigerated.
New Product–Documentation: Label. undated. 5 by 4.25 inches. Orange, green, yellow, and white. Printed on clear plastic film. Written in both English and French.

7855. Pratt, Dan. 1987. Ice Bean, Tofulite, and Tofutti (Interview). *SoyaScan Notes.* Jan. 1. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** "Tofulite is preferred to Tofutti in every taste test that I have ever seen results on." Tofutti is too sticky and for some people too sweet. The name Ice Bean, coined in a moment of jest, is now a liability, but it's hard to switch. The main ingredient differences between Ice Bean and Tofulite are: Ice Bean is sweetened with honey and made with fresh soymilk. The "Tofu Flavors" of Ice Bean contain tofu and are sweetened with fructose. Tofulite is made with 15% real tofu plus some isolates, and sweetened with sugar. Address: Barricini, Oyster Bay, New York.

7856. *Washington Post.* 1987. The mood foods. Jan. 6. p. H11.
• ***Summary:*** Some scientists believe that foods can be divided into two groups: (1) Relaxing foods. (2) Motivating foods. The 2nd group, which make you alert, motivated, and efficient, stimulate the brain chemicals norepinephrine and dopamine, and include tofu (bean curd), dairy products, eggs, and lean meat. Relaxing foods, which make you feel sleepy, stimulate the brain neurotransmitter serotonin; they include all sugary foods and pasta.

7857. Hahn, Barbara. 1987. A soybean success story. Tofu factory finds market right at home [Ashland Soy Works]. *Courier* (*Grants Pass, Oregon*). Jan. 12.
• ***Summary:*** Ashland Soy Works, owned by Diana Muhs, was started 5 years ago. They make about 1,800 lb of tofu a week, plus soy milk, Tophoria (tofu ice cream), baked tofu, and tofu loaf.

7858. Matsuura, Masaru. Assignor to Kikkoman Corp. 1987. Process for production of sterilized packed tofu. *U.S. Patent* 4,636,398. Jan. 13. 4 p. Application filed 2 Jan. 1985. Application also filed in Japan on 13 Jan. 1984. [5 ref]
• ***Summary:*** Process for production of sterilized packaged tofu. Soymilk is mixed with coagulant, filled into the container, sealed, and heated to simultaneously effect sterilization and coagulation. Address: Noda, Japan.

7859. Cushman, Deborah. 1987. ISU researcher [Walter Fehr] is Calvin Klein of designer beans. *Des Moines Register* (*Iowa*). Jan. 14. p. 1T, 10T.
• ***Summary:*** New varieties are low in linolenic acid, high in stearic acid, high in protein (Vinton, for tofu), small seeded for sprouts, and large seeded for soynuts and miso.

7860. Frick, Elaine E. 1987. The soybean has its American roots in the South. *Record* (*Columbia, South Carolina*). Jan. 14. [2 ref]
• ***Summary:*** Soy sauce, made in Georgia by Samuel Bowen, was sold by Z. Kingsley at his store in Bedon's Alley. Also about Benjamin Franklin and Samuel Bowen.

7861. Frick, Elaine E. 1987. Soybeans: South Carolina's ugly duckling gets exciting when it changes. *Record* (*Columbia, South Carolina*). Jan. 14. p. 1B, 2B.
• ***Summary:*** In 1969 the South Carolina Soybean Board was created. In 1984 soybeans were the state's top income-producing crop.

7862. Crump, Constance. 1987. Tofu cooperative voluntarily files for bankruptcy [Rosewood Farms may buy The Soy Plant's assets]. *Ann Arbor News* (*Michigan*). Jan. 20. p. A3, A6.
• ***Summary:*** Production is continuing under an arrangement with Rosewood Farms, according to Rosewood owner Bruce Rose.

7863. Burros, Marion. 1987. Not-so-natural foods: The tofu alternative. *New York Times.* Jan. 24. p. 10.
• ***Summary:*** "Natural foods have gone big time."
"Tofu was supposed to be a nutritious alternative to ice cream, but some tofu-based desserts, like yogurt before them, have more calories than ice cream. What is more, despite tofu in the name, there are frozen tofu desserts with very little tofu."

7864. *Puget Sound Business Journal.* 1987. Vashon tofu tycoons build new plant. Jan. 26. p. 1-2.
• ***Summary:*** The 11-year old company will expand production space to 37,000 square feet from the current 4,000. The company has annual sales of over $1 million according to the Pacific Northwest Specialty Foods Association. They plan to expand distribution to the rest of the West Coast.

help fit tofu into the convenience-oriented American diet... Consumers who wish to receive a year of the Newsletter can do so by enrolling in the Mori-Nu Health for Life Club ($2.00).” Address: California.

7866. **Product Name:** Tophoria (Tofu-Based Non-Dairy Ice Cream).
Manufacturer’s Name: Ashland Soy Works.
Manufacturer’s Address: 280 Helman St., Ashland, OR 97520.
Date of Introduction: 1987. January.
How Stored: Frozen.
New Product–Documentation: Hahn. 1987. Courier (Grants Pass, Oregon). Jan. 12.

7867. **Product Name:** Barbecue Baked Tofu.
Manufacturer’s Name: Ashland Soy Works.
Manufacturer’s Address: 280 Helman St., Ashland, OR 97520. Phone: 503-482-1865.
Date of Introduction: 1987. January.
Ingredients: Tofu (water, organically grown soybeans, natural magnesium chloride or nigari: a derivative of seawater), tomatoes, molasses, honey, apple cider vinegar, chili powder, prepared mustard (vinegar, water, mustard, salt, turmeric, spices), soy oil, tamari (soy sauce), onion, garlic, parsley, liquid smoke.
Wt/Vol., Packaging, Price: 8 oz.
How Stored: Refrigerated.
New Product–Documentation: Label. 1987. 4 by 3 inches. Red and brown on white. Talk with Diana Muhs. 1988. Feb. 10.

7868. **Product Name:** Tofu Nuggets.
Manufacturer’s Name: Bud, Inc.
Manufacturer’s Address: 1100 Wicomico St., Baltimore, MD 21230.
Date of Introduction: 1987. January.
Ingredients: Organic nigari tofu, sunflower seeds, sesame seeds, sea salt, spices, soybean oil.
Wt/Vol., Packaging, Price: 8 oz.
How Stored: Refrigerated or frozen.
New Product–Documentation: Label. 1988, Jan. (dated). 3.5 by 3 inches. Card stock. Red and pink on white. Under English product name is the Chinese name: Chin wei cha doufu. “Keep refrigerated. Serving suggestions: Heat and serve or mix with salad, stir-dry with vegetable, or use it as an ingredient in soup.” Logo says: “Soyfoods for a healthy world.”

7869. **Product Name:** [Tofu Kiss (Low-Calorie Non-dairy Frozen Dessert)].
Foreign Name: Tofu Kiss.
Manufacturer’s Name: Cygne d’Or. Distributed by Maho Distribution.
Manufacturer’s Address: Cerny, France.
Date of Introduction: 1987. January.
Ingredients: Tofu from soja, maize sugars, mashed fruits.
Wt/Vol., Packaging, Price: 85 ml, 1 liter or 2 liters.
How Stored: Frozen.
New Product–Documentation: Soyfoods (ESFA). 1987. Jan. “Creamy and delicious as an ice cream, Tofu Kiss is not an ice cream. It’s a frozen dessert, 100% made with natural products chosen for their low calorie content. Little fat and sugar. Advantages: dietetic but greedy product.”

Soya Bluebook. 1987. p. 92. This product is made for Maho by Cygne d’Or in Cerny. The general manager of Maho is Pierre Maitre. The address of the distributor, Maho (an affiliate of Aixagri) is now given as 4 Place Jeanne d’Arc, 13100 Aix en Provence, France. Phone: 33/42/264444

Letter from Bernard Storup of Société Soy. 1990. March. This company worked with Sojadoc in 1986-87 to make a “light” soy ice cream using soymilk made by Sojadoc. The product was rather poorly distributed and was discontinued at least 2 years ago.

7870. **Product Name:** Eastern Flavor Dim Sum or Pot Sticker (Stuffed Dumpling in Wonton Skin) [Vegetable, Shrimp, or Mushroom].
Manufacturer’s Name: Eastern Foods Corp. (Distributor).
Manufacturer’s Address: 3235 E. Hennepin Ave., Minneapolis, MN 55413.
Date of Introduction: 1987. January.
Ingredients: Vegetable: Wheat flour, soy bean protein [isolate], soy bean oil, soy bean curd (soy beans, water, calcium sulfate), green onion, onion, spinach, water, soy sauce, sesame oil, ginger, salt, black pepper. Note: Shrimp is same ingredients except shrimp is listed first.
Wt/Vol., Packaging, Price: 7.94 oz (225 gm). Package of 15 retails for $1.89 to $2.49.
How Stored: Frozen.
New Product–Documentation: Label. 1987. 6 by 9 inches. Gold, red, and blue on clear film. “Microwave Oriental Snack. Fully Cooked. Keep Frozen. Microwaves in 3 minutes. Vegetable Recipe.” Talk with Mr. Lee. 1987. Nov. 11. Product was introduced in January 1987. It contains no okara and is now the company’s main focus of energy.

7871. **Product Name:** Eastern Flavor Dim Sum or Powza (Stuffed Dumpling in Raised Round Dough) [Vegetable, Shrimp, or Mushroom].
Manufacturer’s Name: Eastern Foods Corp. (Distributor).
Manufacturer’s Address: 3235 E. Hennepin Ave., Minneapolis, MN 55413.
Date of Introduction: 1987. January.
Ingredients: Vegetable: Wheat flour, soy bean protein [isolate], soy bean oil, soy bean curd (soy beans, water, calcium sulfate), green onion, onion, spinach, water, soy sauce, sesame oil, ginger, garlic, salt, black pepper, yeast.

Note: Shrimp is same ingredients but shrimp listed first.
Wt/Vol., Packaging, Price: 7.94 oz (225 gm). Package of 15 retails for $1.89 to $2.49.
How Stored: Frozen.
New Product–Documentation: Label. 1987. 6.5 inches square. Gold, red, and blue on clear film. "Microwave Oriental Snack. Fully Cooked. Keep Frozen. Microwaves in 3 minutes. Vegetable Recipe." Talk with Mr. Lee. 1987. Nov. 11. Product was introduced in January 1987. It contains no okara and is now the company's main focus of energy. Brochure. 1987. Percentage of households owning Microwaves: 1982 28%, 1987 65%, 1990 79% (Source: Amana study 1986). Dim Sum is grazing food.

7872. *Food Processing* (*Chicago*). 1987. Tofu development services for test markets. 48(1):60. Jan.
• ***Summary:*** Brightsong Foods of Petaluma, California, has developed over 90 tofu-based products since 1980. Brightsong offers product development services specializing in a wide variety of tofu products to food processors. "Services offered include process and/or product development, licensing, incorporation of tofu into current products, current product improvement, and R&D consulting. Products which can offer quick market introduction and benefits include frozen desserts, yogurt, puddings, salad dressings, dips, beverages, and dry products–all based on tofu."

7873. *Gourmet.* 1987. Gastronomie sans argent [gastronomy without money]. 47:63-64, 98-100. Jan. [Eng]
• ***Summary:*** Includes a discussion of tofu.

7874. Hinman, Bobbie; Snyder, Millie. 1987. Lean and luscious. Prima Publishing & Communications, P.O. Box 1260, Rocklin, CA 95677. 450 p. Jan. Foreword by Harold Selinger, M.D., Director, Heart Inst. of West Virginia. 22 cm. Spiral bound.
• ***Summary:*** This book was originally self-published in May 1985 by the authors (Hinman-Snyder Productions, Charleston, West Virginia). The new subtitle states: "Over 400 easy-to-prepare, delicious recipes for today's low-fat lifestyle. Each recipe includes at-a-glance nutritional breakdown." This low-calorie cookbook is very similar to the original edition. The tofu recipes have the same names and are on the same pages. Address: 1. Maryland; 2. West Virginia. Phone: 916-624-5718.

7875. *J. of the American Dietetic Association.* 1987. New products and services: Tofulicious. 87(1):102. Jan.
• ***Summary:*** Gives the nutritional composition of this soy ice cream. Each 4-ounce serving contains only 150 calories and 2 gm of protein. Tofu is the main ingredient.

7876. Jain, Manoj. 1987. Educating health workers and villagers in India on the dietary use of soybean. Boston, Massachusetts. 14 p. Jan. Unpublished manuscript. [10 ref]
• ***Summary:*** The soybean today has become one of the prominent crops in Madhya Pradesh (M.P.), India. The soybean is economical and easily available in Madhya Pradesh. One kilogram of soybeans, which makes ten liters of soy milk, costs Rs. 4.00 (U.S. $0.40) in the retail market. Hence, soy milk costs Rs. 0.40/liter while cow milk costs Rs. 4/liter. Similarly, the price of tofu is one tenth that of curdled cow milk. Cow milk is often in shortage, especially during the summer months, while soybeans can be available all year.

The study had three objectives. 1. Developing an educational and training program for rural workers on the uses of soy products especially soymilk. 2. Conducting a training program for rural workers. 3. Having health workers do demonstrations in 15 villages. The educational and training program was developed at the Mahatma Gandhi Memorial Medical College, Indore, M.P. The sessions were held at Bharatiya Grameen Mahila Sangh (BGMS), a non-profit voluntary agency. Villagers response to each food was different. They tried the following: Roasted and fried soybeans, soy halwa [halva] (sweet cake), soy chutney, soy milk, okara, tofu, and soy yogurt. This field study conclusively reveals that soybeans have a tremendous potential in India. Address: Boston, Massachusetts: Boston Univ. School of Public Health.

7877. Kjellker, Monica. 1987. Continuous soyfoods production from whole soybeans. *Soyfoods* (*ESFA*) 1(1):21-24. Jan.
• ***Summary:*** A description of the Alfa-Laval process for making tofu and soymilk. Contents: 1. Towards continuous processing: General food industry, soy processing. 2. Continuous production of soyfood: Soybean/water extraction, final products from soybean/water extract (soy beverage, tofu). 3. Automation in food industry: Development in automation, why automation?, automation levels, continuous soy processing.

Note: The author has an MSc in Chemical Engineering. Address: Product Manager, Soy Processing Dep., Alfa-Laval, Lund, Sweden.

7878. Making tofu at The Soy Plant in Ann Arbor, Michigan (Photographs). 1987.
• ***Summary:*** These fifteen color photos (each 3½ by 5 inches) were sent to Soyfoods Center in 1979 by Bruce Rose of Rosewood Products Inc. (Ann Arbor, Michigan) in The Soy Plant scrapbook. A handwritten note reads: "Random shots. Dec. 1986 & Jan. 1987. Adam & curd area. Rick & beans. Rebecca Morris. Adam & Jim." All photos are taken throughout the inside The Soy Plant tofu factory at 711 Airport Blvd., Suite #1, Ann Arbor, Michigan 48104. They appear to have been shot at clean-up time, since many people

© Copyright Soyinfo Center 2013

are spraying, washing, and scrubbing equipment. Three photos show a person in the room where sacks of soybeans are stored.

Note 1. In Jan. 1987 The Soy Plant voluntarily filed for Chapter 7 bankruptcy. In April 1987 Rosewood Products purchased the plant's equipment for $2,000.

7879. **Product Name:** Vegetarian Nature's Patties Burger with Tofu [Original, or BBQ].
Manufacturer's Name: Nature's Path.
Manufacturer's Address: 9451 Van Horne Way, Richmond, BC, V6X 1W2 Canada. Phone: 604-278-4584.
Date of Introduction: 1987. January.
Ingredients: Tofu (organic soybeans, nigari, water), soya protein, sunflower seeds, brown rice, potato, rolled oats, sesame seeds, walnuts, gluten, tomato, onion, pimento, carrots, peppers, celery, sunflower oil, Engevita nutritional yeast, herbs and spices, tamari soy sauce, psyllium seed, molasses, dijon mustard.
Wt/Vol., Packaging, Price: Family size 10 x 3.3 oz patties, or 4 x 3 oz patties. Each is a plastic bag.
How Stored: Frozen.
Nutrition: Per 100 gm: Calories 236, protein 17.4 gm, carbohydrate 22.9 gm, fat 12.0 gm, sodium 185 mg, potassium 185 mg, fiber 1.5 gm.
New Product–Documentation: Leaflet. 1987, undated. 8½ by 11 inches, color. "Nature's Path Vegetarian Nature's Patties with Tofu. Contains no animal fats, eggs, dairy products, nitrates, or cholesterol. Succulent non-meat patties. 17% protein." Spot in Soya Newsletter. 1987. 1(4):6. "Made with tofu (17%) and a wide selection of grains and vegetables. Contains no egg or dairy products." Label. 1988. 10 by 5.5 inches. Plastic bag. Red, black, and blue on white with color photo of burger and vegetables.

Letter from Rick Furdal, manager. 1988. April 4. They have moved to #170-2540 Simpson Rd., Richmond, BC V6X 2P9. Their restaurant, Woodlands Natural Foods, 2582 West Broadway, Vancouver, BC V6K 2G1 (Phone: 604-733-5411) makes over 100 fresh soyfoods recipes on a rotational basis.

7880. **Product Name:** Organic Tofu Burgers.
Manufacturer's Name: Oasis Wholefoods.
Manufacturer's Address: Unit 3C, Dart Complex, Steamer Quay Rd., Totnes, South Devon, England.
Date of Introduction: 1987. January.
Ingredients: Organic brown rice, tofu, carrots, onions, sunflower seeds, okara, garlic, shoyu, sea salt, vegetable oil, spices.
Wt/Vol., Packaging, Price: 160 gm.
How Stored: Refrigerated.
New Product–Documentation: Letter from Simon Bailey. 1988. Oct. 10. Company name is now Oasis Wholefoods. Phone: 0803-863167. They now make Organic Tofu (plain & smoked), Tofuburger, and Organic Tempeh. In Dec. 1987 Francis Checkley sold the company to I.J. Mohammed.

Letter from I.J. Mohammed. 1991. Sept. 30. This product was introduced in Jan. 1987. There is only one type/flavor. Label sent by I.J. Mohammed. 1991. Sept. 30. 2.5 inches diameter. Pea green on yellow. Illustration of palm trees. "Ready for eating hot or cold."

7881. **Product Name:** Tofu Muffin Mix (with Dried Tofu).
Manufacturer's Name: Pennant Products.
Manufacturer's Address: P.O. Box 23630, Rochester, NY 14692.
Date of Introduction: 1987. January.
Ingredients: Real dried tofu, whole wheat flour, bran, oats, spice-nut flavor.
Wt/Vol., Packaging, Price: 50 lb bags.
How Stored: Shelf stable.
New Product–Documentation: Spot in Food Engineering. 1987. Jan. "All Natural Ingredients for Muffin Mixes." Spot in Baking Industry. 1987. Feb.

7882. Perez, Oswaldo. 1987. Preparacion del queso de soya o tofu [Preparation of soy cheese or tofu]. *La Era Agricola* (*Merida, Venezuela*) No. 1. Jan. p. 9-10. [Spa]
• ***Summary:*** A brief overview based on *The Book of Tofu* by Shurtleff & Aoyagi. Address: Granja Tierra Nueva, Aldea San Luis, La Azulita, C.P. 5102, Estado Merida, Venezuela.

7883. **Product Name:** [Tofu (Soft, Medium, or Firm; Vacuum Packed in 3 weights)].
Manufacturer's Name: Sojadoc. Affiliate of Cooperative Occitane.
Manufacturer's Address: Zone Industrielle La Viscose, 81000 Albi, France. Phone: 63-45-46-45.
Date of Introduction: 1987. January.
Wt/Vol., Packaging, Price: Vacuum packed, 200 gm, 400 gm, 3,500 gm. The latter in parallelipipedic loaf vacuum pack.
How Stored: Refrigerated.
Nutrition: Per 100 gm: Moisture 75 gm, total solids 22.7 gm, protein 12.1 gm, lipids 3 gm (which which linoleic acid is 60%), total soluble carbohydrates 0.8 gm, ash/minerals 1.4 gm, calcium 47 mg, sodium 3 mg, phosphorus 53.7 mg, potasium 175 mg, magnesium 182 mg.
New Product–Documentation: Soyfoods (ESFA). 1987. Jan. "Packaging: parallelepipedic loaf vacuum packed. Weight: 3 kg 500. Specifications: product white colored with a fine structure. Composition: water 75%, soya 25%."

Soya Bluebook. 1987. p. 96.

Manufacturer's brochure. 1987. In French. "Sojadoc tofu: New source of vegetable protein. The products of French soybeans. Soymilk (Tonyu) and Tofu. The company is now Sojadoc S.A. With capital of 1,100,000 French francs. Located in Albi. Shares of the company are now owned as follows: Cooperative Occitane 51%, Sofiproteol

© Copyright Soyinfo Center 2013

15%, Sofirem 5%, Jacques Isnard (General director) and Alain Lacombe (Commercial director), and others 29%. The president and general director is Claude DeVelle. Also part of this group is Alidoc (which makes soy-based animal feeds) and Prolea (which does research on soy food uses).

A single insert sheet describing the company's tofu gives a flowchart of the production, 8 general dietetic and nutritional characteristics, 8 technical characteristics, it composition (75% water, 25% soja, traces of salt), detailed composition (see above), and its uses: charcuterie (pates, terrines, sausages), plats cuisinés and plats surgelés (quiches, pizzas, etc.), sauces (bechamel, mayonnaise, salad dressings), meat dishes, and pastries and desserts (bavarois, desserts glacés, biscuits).

7884. *SoyaScan Notes.* 1987. New Trend: Increase in breeding of soybeans for specialized uses, including special food uses such as tofu, miso, and soy sprouts (Overview). Jan. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** This is part of the larger trend toward value added products and toward tailoring soybeans for export to food manufacturers in Japan. The new breeding work is being done by various countries (such as Canada and the USA), and by many universities, agricultural experiment stations, and private seed breeding companies within the USA. U.S. soyfoods companies will definitely benefit for this trend and should keep close track of new developments.

7885. *Soybean Digest.* 1987. Breeding [soybeans] for special markets. Jan. p. 28.
• ***Summary:*** Walter Fehr is a member of a team of Iowa State Univ. food technologists and plant breeders that developed methods for producing high-yielding varieties with high protein or high stearic acid oil. The high protein is good for tofu. A soybean with low linolenic acid doesn't need to be hydrogenated.

7886. **Product Name:** Soymage (Casein-Free Non-Dairy Cheese) [Cheddar, Mozzarella, Monterey Jack, or Jalapeno].
Manufacturer's Name: Soyco Foods. Div. of Galaxy Cheese Co.
Manufacturer's Address: R.D. #3 North Gate Industrial Park, P.O. Box 5204, New Castle, PA 16105. Phone: 800-441-9419.
Date of Introduction: 1987. January.
Ingredients: Tofu, soy protein isolate, soy oil, sea salt, citric acid, soy lecithin, guar gum, brewer's yeast, natural flavoring, natural coloring.
Wt/Vol., Packaging, Price: 12 oz package in plastic wrapper secured at each end with a metal clip. Retails for $3.99. Also in 5 lb deli loaves, or 20 lb blocks.
How Stored: Refrigerated.
Nutrition: Per 1 oz.: 85 calories, protein 3 gm, carbohydrates 2 gm, fats 7 gm, sodium 140 gm. Plus 25% of the U.S. RDA for calcium.
New Product–Documentation: Note: This is the earliest known soy cheese made by Galaxy Foods. Letter/Order from Angelo Morini, General Manager, Galaxy Cheese Co., Rt. 18, Big Beaver Center, Beaver Falls, Pennsylvania 15010. 1979. Dec. 7. He orders 1 copy of *Tofu & Soymilk Production.*

News release. 1987. Feb. 2 p. "Soymage: A casein-free cheese alternative." Angelo Morini, president of Galaxy Cheese Co., claims that this is "the first totally casein-free, non-dairy cheese alternative. This is the answer for those who love cheese flavor but avoid dairy products." It comes in four flavors and "has a wonderful, light texture; shreds and slices beautifully." The ingredients are listed. It is Kosher, Pareve, and free of cholesterol and lactose. Robert H. Savar is the exclusive broker. The company also makes a cheese analog called Formagg, based on casein and soy oil, but with no soy protein products. Industrial Laboratories Co., Denver, Colorado. 1987. Feb. 9. "Outside laboratory analysis of Soymage." Soymage, made by Soyco Foods, contains no casein. Ad in Natural Foods Merchandiser. 1987. March. p. 51. "Introducing Soymage. The World's First Totally Casein Free Cheese Alternative." Cheese Market News. 1987. March 20. "Soymage cheese alternative is casein free." Letter from Linda D. Stephens, sales representative, of Soyco Foods. 1987. April 17. "Soyco Foods, a division of Galaxy Cheese Company, is introducing a new line of cheese substitutes targeted towards the health food consumer and those who are allergic to most dairy products such as cheese." For more information call toll free 1-800-441-9419. Product Alert. 1987. April 27. "Four flavors of a new tofu-based cheese alternative have recently been introduced by Soyco Foods." Spot in Florida Grocer (Miami). 1987. May. Spots in Dairy Foods, Dairy Field, and Vegetarian Times, all June 1987. Label reads: "Kosher–Pareve. 100% casein free. The natural cheese alternative."

Ad (full page, color) in Vegetarian Times. 1987. Oct. p. 27. "Soymage. The Vegetarian's 'Cheese' Choice. Dairy Free." The product is sold in chubs in mozzarella, Cheddar, Monterey Jack, and Jalapeno flavors. Talk with Richard Rose. 1988. Jan. 8. This is the only non-dairy casein-free soy cheese. Richard finds it to be a very poor quality product; it is waxy and doesn't melt.

7887. *Soyfoods* (*ESFA*). 1987. Seen at the SIAL food show. 1(1):30. Jan.
• ***Summary:*** This show was held in Oct. 1986 at Paris. Sojadoc presents Tofu and Tonyu (soymilk). At SIAL Société Soy of France launched Soyeux (a new dessert in vanilla and chocolate flavors), and Tof'in (tofu cakes precooked without oil in 3 flavors: Garlic & Herbs, Provençale, and with Mushrooms). Cygne d'Or confectionery launched Tofu Kiss (a tofu based non-dairy frozen dessert, distributed by Maho Distribution). Galactina introduced four ready-to-eat

© Copyright Soyinfo Center 2013

tofu salads (Tofu Nature, Tofu Gourmet, Tofu Jardinière, and Tofu Provençale). Address: Paris, France.

7888. *Soyfoods* (*ESFA*). 1987. ESFA objectives. 1(1):31. Jan. • ***Summary:*** 1. To prevent consumer deception, ESFA encourages soyfoods producers to establish voluntary standards for the various soyfoods. 2. To work with regulatory agencies in laying out the basis of requirements for the soyfoods on labeling, marketing, and health issues. 3. To provide reliable information to dietitians, press people (the media), and generally speaking to all people looking for information on soyfoods. 4. To promote utilization of soyfoods for their food value. "By soyfoods, we refer among others to the oriental traditional products directly derived from the soybeans, such as soybean milk, tofu, tempeh, soya sauce, and soybean sprouts."

Those interested in joining the European Soy Foods Association should contact Guy Coudert, ESFA, 12 Avenue George V, 75008, Paris, France. Subscriptions to *Soyfoods* magazine (published by ESFA), 4 issues per year, are 300 French francs. Address: Paris.

7889. Soyfoods Center. 1987. The world's most comprehensive source of information on soybeans and soyfoods. 1100 B.C. to the 1980s. SOYA computerized bibliographic database on soybean utilization, processing, history, marketing, production, and nutrition. P.O. Box 234, Lafayette, California. 6 p. Jan. Also issued in condensed form as a 1-page news release. Manufacturer's catalog. • ***Summary:*** Gives details on the new computerized SOYA database, which contains listings for 17,500 publications. Many of the more recent records also contain abstracts. The cost of a search on the database starts at $75. Address: Lafayette, California.

7890. *Successful Farming.* 1987. Tofu-quality beans earn 40¢ premium for Illinois growers. 85(2):18. Jan. • ***Summary:*** "Tom Pearcy has been paying northern Illinois soybean growers as much as 40¢ a bushel premium over the Chicago Board of Trade soybean price... He's contracting with approximately 300 growers to produce high-quality, identity-preserved beans which he cleans and exports directly to Japan.

"These beans are used to make tofu–and are sold to major manufacturers in Japan." Address: Des Moines, Iowa.

7891. **Product Name:** Lite Lite Tofutti (Low-Calorie Non-Dairy Ice Cream) [Hard Pack: Chocolate Vanilla Twirl, Applejack Vanilla Twirl, Cappuccino Vanilla Twirl, Strawberry Vanilla Twirl, Chocolate Strawberry Twirl, Vanilla Chocolate Strawberry, Orange Sorbet & Vanilla, Tutti Frutti Sorbet & Vanilla, Keylime Sorbet & Vanilla].
Manufacturer's Name: Tofutti Brands Inc. (Marketer).
Manufacturer's Address: 1098 Randolph Ave., Rahway, NJ 07065.
Date of Introduction: 1987. January.
Ingredients: Applejack: Water, corn sweeteners, sucrose, tofu, isolated soy protein, concentrated apple juice, vanilla, applejack liquor, cellulose gum, natural flavors, guar seed gum, carob bean gum, salt.
Wt/Vol., Packaging, Price: Hard pack pints.
How Stored: Frozen.
Nutrition: Per 4 oz. serving: Calories 90, protein 2 gm, fat less than 1 gm, carbohydrate 20 gm, sodium 80 mg.
New Product–Documentation: News release. 1987. Jan. 28. 2 p. "Tofutti Brands Inc. Announces a Revolutionary Breakthrough, Lite Lite Tofutti, a New 90 Calorie Dessert [per 4-oz serving]. A typical 4-ounce serving of ice cream contains approximately 250 calories and 14 grams of fat. The first 90-calorie, 98% fat-free frozen dessert with no cholesterol and no lactose." Also low in sodium. Beck. 1987. Boston Globe. Sept. 2. It is even lower in calories than ice milk or frozen yogurt, which average 200-250 calories/cup. Six Labels. 1987. Sent by Donna Haverstock. Color leaflet. 1987. "Tastes like you're cheating." Shows read and white carton/Label against a background of fruit. Lists 8 flavors. Article in The Record (Hackensack, New Jersey). 1988. March 7. Lite Lite Tofutti and Ice Bean both sell for $2.49 a pint. Steve's Ice Cream, a premium dairy ice cream, is $2.09 a pint.

Tofutti Brands 1991 Annual Report. 1992. April. Lite Lite Tofutti has only 90 calories per serving. It is distributed nationally in pints, cans, and soft-serve mix. Flavors include Neapolitan, Deep Chocolate Fudge, Swiss Mocha Coffee, and Special Strawberry.

7892. **Product Name:** Lite Lite Tofutti (Low-Calorie Non-Dairy Ice Cream) [Soft Serve: Cool Vanilla, Chocolate, Wild Strawberries, Cappuccino, or Applejack].
Manufacturer's Name: Tofutti Brands Inc. (Marketer).
Manufacturer's Address: 1098 Randolph Ave., Rahway, NJ 07065.
Date of Introduction: 1987. January.
Ingredients: Water, corn sweeteners, sucrose, tofu, isolated soy protein, cellulose gum, all natural flavorings, guar seed gum, carob bean gum, salt.
Wt/Vol., Packaging, Price: Soft serve.
How Stored: Frozen.
Nutrition: Per 4 fl. oz.: Calories 90, protein 2 gm, carbohydrates 20 gm, fat < 1 gm, sodium 80 mg, potassium 20 mg, phosphorus 30 mg, no cholesterol or lactose.
New Product–Documentation: News release. 1987. Jan. 28. 2 p. "Tofutti Brands Inc. Announces a Revolutionary Breakthrough, Lite Lite Tofutti, a New 90 Calorie Dessert [per 4 oz serving]. 7893. Vandemoortele, Philippe. 1987. Editorial. *Soyfoods* (*ESFA*) 1(1):2. Jan.
• ***Summary:*** Contents: What are soyfoods? Why was the Association founded? What will the Association do to achieve its goals. What can a member expect from the Association?

"Soyfoods cover all products deriving from the whole soybean produced according to a traditional process and manufactured into soya milk, tofu, tempeh, miso, soya sauce, soya sprouts and other products. Why was the European Soyfoods Assoc. founded? Until only a few years ago, only industrial soya protein such as defatted and fullfat flour, concentrates, isolates, and textured protein were used in the food industry. They are mainly used for their functional properties rather than for their nutritional characteristics." Now there is a growing interest in soyfoods. The ESFA will organize a Soyfoods Conference every 2 years. Address: President of the ESFA (European Soyfoods Assoc.).

7894. Wang, H.L. 1987. Tofu and soybean milk production. *Soyfoods* (*ESFA*) 1(1):9-17. Jan.
• ***Summary:*** Discusses all the major processing variables including soaking, soybean to water ratio, extraction, heat treatment, separation of soymilk from insoluble residues, coagulation temperature and mode of mixing, soybean variety, proximate composition, and microbiological quality.

Dr. Wang was born in China and came to this country after graduation from the National Central University, Nanking. She received her PhD in Biochemistry from the University of Wisconsin, Madison, in 1952. She worked intermittently for 10 years in the field of nutrition and at the Marquette University Medical School, Milwaukee, and at the Univ. of Wisconsin Medical School. In 1963 she joined the NRRC as a research chemist. Address: USDA NRRC, Peoria, Illinois.

7895. **Product Name:** Westbrae Natural Malteds [Carob Malted, Vanilla Malted, Cocoa-Mint Malted, Almond Malted, or Caffeine-free Java Malted].
Manufacturer's Name: Westbrae Natural Foods (Marketer). Made in Los Angeles by House Foods & Yamauchi, Inc.
Manufacturer's Address: 4240 Hollis St., Emeryville, CA 94608. Phone: (415) 658-7521.
Date of Introduction: 1987. January.
New Product–Documentation: Ad in Vegetarian Times. 1987. April. p. 1. "Malteds... thicker and richer than ever–half the fat of a shake! A non-dairy delight. Five delicious flavors. Organic soybeans. Grain sweetened [rice syrup]." No gums or carrageenan are used to enhance thickness. Spot in Soya Newsletter. 1987. 1(3):6. Note: Introduced in 1984 and imported from Japan. In Jan. 1987 the product started being made, packaged, and retorted for Westbrae by House Foods & Yamauchi Inc. in Los Angeles.

7896. **Product Name:** Tofu Spread [Dill, Celery, Garlic, or Paprika].
Manufacturer's Name: White Wonder Natural Products (Importer). Made in the Netherlands by Witte Wonder.
Manufacturer's Address: 709 7th St., Hudson, IA 50643. Phone: 319-988-3811.
Date of Introduction: 1987. January.
Ingredients: Dill: Fresh tofu* (made from soya beans with filtered water and coagulated with nigari), filtered water, soybean oil, barley malt syrup*, apple vinegar*, dill, guar vegetable binder, herbs, seasalt. * = Organically grown.
Wt/Vol., Packaging, Price: 8 oz (220 gm) glass jar.
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Dill: Per 1 tablespoon (14 gm): Calories 25, protein 0.8 gm, carbohydrates 1.2 gm, fat 2.0 gm, sodium 40 mg (320 mg/100 gm).
New Product–Documentation: Label. 1987. 9.5 by 1.25 inches. Black, green, and tan on white. "Delicious taste. Low calorie. Contains organic ingredients. No cholesterol. No sugar. Low sodium." An illustration (line drawing) on the front panel shows a traditional tofu master (taken from *The Book of Tofu* without permission). "White Wonder emerged from the pioneering activities of a group of consciously living people. We believe in producing healthy, nutritious, and good tasting food products which are made using only the finest organic or natural ingredients." Soyfoods Center product evaluation. 1 May 1988. Herb. Delicious, but a little rich on oil. Soya Bluebook. 1987. p. 95. Soya Newsletter. 1987. Nov/Dec. p. 6. Talk with Ruth Young. 1988. Sept. 15. The product was first sold in America in Jan. 1987. It is imported from Witte Wonder in the Netherlands.

Leaflet (glossy color, 2 panels each side, each panel 10 x 14 cm) sent by White Wonder Natural products, Hudson, Iowa. 1988. Sept. 22. "Tofu Spread: Contains organic ingredients."

7897. *Toyo Shinpo* (*Soyfoods News*). 1987. Kôji-kin baiyô okara aji, kaori, shokkan ryôkô. Okara shori ni idomu. Okara hanbaagu tanpaku na aji de katasa yoshi (ryo) [Culturing okara with koji molds. The taste, fragrance, and texture are good. Processing okara by chilling. Okara hamburger–light taste and good firmness]. Feb. 2. p. 2. [Jap; eng+]
• ***Summary:*** In this experiment, raw okara, white rice, bran, and konnyaku powder were cultured with koji molds (*Aspergillus oryzae*), *Rhizopus* molds (*kumonosu kabi*), and

© Copyright Soyinfo Center 2013

one other type. Afterwards, the mixture was used in deep-fried tofu burgers (*ganmo*), croquettes, and hamburgers. The best results occurred when ground pork was mixed in to make a hamburger. The end product had a light taste and a nice firm texture.

7898. Fritschner, Sarah. 1987. Don't let nerdy image keep you from tofu. *Times* (*Louisville, Kentucky*). Feb. 11. Also in the Journal (Knoxville, TN). Feb. 18.
• ***Summary:*** Marketing Intelligence Services says that tofu is a $95 million market, but pure tofu still accounts for 2/3 of this. Yet tofu remains an enigma for most Americans.

7899. Lytel, Laurie. 1987. Soy Plant bankruptcy: collectivism gone haywire. *Crain's Detroit Business.* Feb. 16. p. 1, 6.
• ***Summary:*** The collective, established in 1976, filed for Chapter 7 bankruptcy in early January. The company has lost money for at least 4 years, the result of disorganized management. Last year's revenues were $168,000 and expenses $180,000. The company makes 8,500 lb/week of fresh tofu, plus tempeh and soymilk.

7900. Burros, Marian. 1987. Restaurants: Cantonese fare that's unusual. *New York Times.* Feb. 17. p. C22.
• ***Summary:*** This is a review of the Cantonese Chinese two-star restaurant Lan Hong Kok Seafood House (131 Division Street). Recommended dishes include: Crabs with black bean sauce. "Braised bean curd with vegetables and black mushrooms." The dim sum of black beans.

Other excellent dishes: Maryland crabs sautéed with black beans [probably fermented black soybeans]. Stuffed bean curd. Bean curd mixed with black mushrooms.

7901. *Irish Times* (*Dublin*). 1987. Plenty of products on the boil. Feb. 17. p. 17.
• ***Summary:*** "The Food Technology Business Unit in the Food Centre at Raheen is a place where people can come and try out their food ideas, while at the same time receiving basic business training." About 20 people are presently working on projects.

Lin Thakker, who trained as a nurse in England before coming to Limerick with her husband six years ago, is supplying the public in Limerick with foods she ate growing up in Japan. "Her first product was tofu, a fermented bean curd [sic], which has a mild flavor and which can be used instead of cheese." She first had the idea when she saw the high price of imported tofu. Now she also makes fresh soya milk, vegetarian pizzas and vegetarian burgers." She sells all of these to hotels and fastfood outlets as well as to wholefood shops.

Note: Tofu is also occasionally called "soybean curd." It is not fermented, and is very different from "fermented tofu," which is rarely found in Japan.

7902. Sugisawa, Ko; Matsumura, Y.; Taga, K.; Sengoku, K.; Nagatome, Y. Assignors to House Food Industrial Company Ltd. (Higahsi-Osaka, Japan). 1987. Process for preparing tofu. *U.S. Patent* 4,645,681. Feb. 24. 5 p. Application filed 27 Feb. 1985. [2 ref]
• ***Summary:*** Example 1. Soymilk containing 10.5% solids was charged into a reserve tank and 0.25% by weight of GDL (glucono delta-lactone) was added as a coagulant after the milk was boiled for 1-2 minutes. The mixture was allowed to stand for 20 minutes to form a curd. A similar type of curd weighing 3 times as much was then added to this tank, and the mixture was agitated to crush it into small pieces. The mixture of the pieces of curd and milk was then charged into heat-resistant plastic containers, sealed, and heated in water at 85ºC for 40 minutes. The resulting tofu resembled Momen Tofu. The process allows for the use of isolated soy protein as an option. Address: 1-2, 4-5. Nara, Japan; 3. Neyagawa, Japan.

7903. *1,001 Home Ideas.* 1987. Tofu. Feb. p. 66, 68, 70-72.

7904. **Product Name:** Tofu Cream Chie (Non-Dairy Cream Cheese).
Manufacturer's Name: 21st Century Foods Inc.
Manufacturer's Address: 30A Germania St., Jamaica Plain, MA 02130.
Date of Introduction: 1987. February.
Wt/Vol., Packaging, Price: 8 oz retails for $1.19.
How Stored: Refrigerated.
New Product–Documentation: Posner. 1987. 21st Century Whole Foods Cook Book. Inside rear cover. They get all the tofu they use from Nasoya (4/87). Leaflet. 1987. "Tofu Cream Chie. Music to the Palate." 8 by 11 inches. Full color. Shows many appealing uses of the product.

7905. **Product Name:** Sno-e Tofu Non-Dairy Beverage Mix (With Sodium Caseinate) [Plain, or Cocoa].
Manufacturer's Name: Abersold Foods.
Manufacturer's Address: 3240 Explorer Dr., Sacramento, CA 95827. Phone: 916-366-3199.
Date of Introduction: 1987. February.
Ingredients: Cereal solids (from corn), soy oil, dehydrated tofu, soy protein isolate, calcium fortifications (calcium carbonate, tri-calcium phosphate, calcium chloride, calcium sulfate), sodium caseinate, sea salt, carrageenan, natural flavors.
Wt/Vol., Packaging, Price: Dry powder in 5.2 oz foil packet, makes 2-quarts. Retails for $1.25. 2 lb economy size makes 4.9 gallons for $9.00. Only sold by mail order. Add $3.00 per order for processing and UPS postage.
How Stored: Shelf stable.
Nutrition: Per 8 oz. serving: Calories 90, protein 2 gm, carbohydrates 10 gm, fat 5 gm, sodium 120 mg. Percent of

RDA: Calcium 30%.
New Product–Documentation: Ad in Vegetarian Times. 1987. June. p. 16 "A tasty option to drinking milk. NO Dairy Allergies! NO Cholesterol! LOW fat and salt! LOW in Calories! It really looks and tastes like milk! Free sample." Similar ad in New Age Journal. 1987. Sept/Oct. p. 92. Spot in Soya Newsletter. 1987. 1(4):6. Talk with Vance Abersold. 1988. March 10. The product was launched in Feb. 1987. See separate interview with him. The calcium fortifiers settle when the milk stands. He used the sodium caseinate because it is a standard ingredient in the food industry, and this ingredient makes the product taste much better. Ad in East West. 1988. Feb. p. 17, and in Vegetarian Times. 1988. March p. 24 and May p. 21. 2/3 page. Picture of a cow with its head through a "No" sign. "Wholesale prices through direct mail. Only $1.25 for 2 quarts... It really looks and tastes like milk." For a "free sample" send $2 to cover shipping and handling. This company gets our "Questionable Product of the Year Award." A product aggressively marketed as non-dairy that contains sodium caseinate made from cow's milk. An incorrect ingredient listing "cereal solids (from corn)" and refusal by the company on two occasions to return phone calls enquiring about this. A "free sample" offer that requires you to send $2. A product that sells for $1.25 per 2 quart package but which requires that you pay an additional $3.00 "processing" fee not included in the company's price comparisons with other products. How deceptive can you get?

7906. Appropriate Foods, Inc. 1987. Eat Appropriately! [Catalog and price list]. 292 Liberty Ave., Brooklyn, NY 11207.
• ***Summary:*** The following lines are carried and distributed: Appropriate Foods, New York Soy Deli, The Soy Source, Emperor's Best, Cedar's Mediterranean Foods, Grainaissance (amazake and mochi), Infinity Foods (amazake puddings), Integrity Baking Co., Jofu, Maine Coast Sea Vegetables, Malka's Foods (Blueberry Tofu Pie), Miso Master, Nasoya Foods, New England Country Dairy, Ray's Seitan Wheat Meat, Soya Kaas, Stonyfield Farms (Yogurt), Sunshine Burgers. Address: Brooklyn, New York.

7907. Beddows, C.G.; Wong, J. 1987. Optimization of yield and properties of silken tofu from soybeans. II. Heat processing. *International J. of Food Science & Technology* 22(1):23-27. Feb. [8 ref]
• ***Summary:*** "The effect of various heat treatments on the yield, protein content, and physical form of silken tofu was investigated. Better quality and yields were obtained when the macerated soybean slurry was filtered prior to heating and a defined rate of heating was used with stirring. The optimum coagulation temperature was 75-80ºC." Address: Dep. of Applied Sciences, Leeds Polytechnic, Leeds LS1 3HE, England.

7908. Beddows, C.G.; Wong, J. 1987. Optimization of yield and properties of silken tofu from soybeans. III. Coagulant concentration, mixing and filtration pressure. *International J. of Food Science & Technology* 22(1):29-34. Feb. [17 ref]
• ***Summary:*** The coagulation and post coagulation treatment of tofu preparation was examined with respect to bulk yield, protein and solid recovery, and texture. The optimum calcium sulfate concentration is 9-10 mM (= millimolar) for soybean protein yield and texture. The stirring speed during coagulant addition was found to be critical and the optimum for protein conversion, net yield, and texture is 240-280 revolutions per minute. The optimum filtration pressure is 4-6 g per square cm. Address: Dep. of Applied Sciences, Leeds Polytechnic, Leeds LS1 3HE, England.

7909. Beddows, C.G.; Wong, J. 1987. Optimization of yield and properties of silken tofu from soybeans. I. The water:bean ratio. *International J. of Food Science & Technology* 22(1):15-21. Feb. [22 ref]
• ***Summary:*** "The extraction phase of the preparation of silken tofu was investigated and the ratio of beans:water was shown to be very critical in terms of the amount of protein extracted and the properties of the tofu. In the range 9-14:1, 10:1 gave the best result. Extraction at 8:1 and making up to 10:1 gave much poorer results, but maceration at 8:1 followed by a further extraction at 2:1 gave a better quality tofu. The time of maceration was shown to have a pronounced effect on the amount of protein extracted." Address: Dep. of Applied Sciences, Leeds Polytechnic, Leeds LS1 3HE, England.

7910. Ismunadji, M.; Zulkarnaini, I.; Somaatmadja, S. 1987. Nutritional disorders of soybean in Indonesia. *CGPRT* No. 10. p. 167-74. Feb. J.W.T. Bottema, F. Dauphin, and G. Gijsbers, eds. Soybean Research and Development in Indonesia. [11 ref]
• ***Summary:*** Nutritional disorders of soybean are common in Indonesia. Visual symptoms, such as leaf chlorosis (potassium deficiency), stunted growth, and malformation of leaves are often observed in the field. Molybdenum and phosphorus deficiencies, aluminum toxicity, and acid mineral soils (corrected by careful liming) are common problems on specific soil types.

Soybean is the most important grain legume crop grown in Indonesia. It is used for food and feed and plays an important role in the Indonesian diet as a source of protein. Soybean protein is much cheaper than protein from animal sources. Soybean-based food such as tempe, tahu, soy sauce and taucho are very popular. Indonesia is not yet self-sufficient in soybean and imports are close to a half million tons/year. The Government is promoting soybean production by acreage expansion and intensification. Address: Bogor Research Inst. of Food Crops (BORIF).

7911. Kijima, Hiromachi. 1987. Tôfu gyôkai no genjô to atarashii ugoki [The Japanese tofu industry and market: Current status and recent trends]. *Daizu Geppo* (*Soybean Monthly News*). Feb. p. 24-30. [Jap]
• ***Summary:*** Nationwide, 28.2% of all tofu sales is from regular (momen) tofu, 22.5% is from deep-fried tofu pouches (aburaage), 19.9% is from lactone silken tofu, 13.8% is from regular silken tofu, 4.7% is from grilled tofu, and 10.9% is from other types (mainly deep-fried tofu cutlets and burgers).

Among large manufacturers, 24.8% of all tofu sales is from regular (momen) tofu, 18.3% is from tofu pouches (aburaage), 24.8% is from lactone silken tofu, 15.1% is from regular silken tofu, 4.1% is from grilled tofu, 7.1% is from tofu cutlets (nama-age), and 5.8% is from other types (mainly deep-fried tofu burgers). Address: Zenkoku Hoso Tofu Kyokai, Senmu Riji.

7912. **Product Name:** [Cheese Tofu, Curry Tofu, Peanut Tofu, Sesame Tofu].
Manufacturer's Name: Kobayashi Shokuhin.
Manufacturer's Address: Okubomi 2025, Kitahara-cho, Owari Asahi-shi, Aichi-ken, Japan. Phone: 05615-3-2714.
Date of Introduction: 1987. February.
New Product–Documentation: Toyo Shinpo. 1987. Feb. 11. p. 3. President Masakazu Kobayashi has started test marketing these 4 innovative varieties of tofu.

7913. **Product Name:** [Nigari Filled Silken Tofu Made with Cold-Pressed Soymilk].
Foreign Name: Namashibori Jûten-dôfu.
Manufacturer's Name: Marutsune.
Manufacturer's Address: Urashingiri 2-3, Ushida-cho, Aichi-ken, Japan. Phone: 0566-81-1141.
Date of Introduction: 1987. February.
New Product–Documentation: Toyo Shinpo. 1987. Feb. 11. p. 3. To make this tofu, unsoaked soybeans are ground with water, then the soy slurry is pressed before cooking, while it is still cold, to separate the soymilk from the okara. No defoamer is used in cooking, and the resulting filled silken tofu is coagulated only with nigari. None of the typical GDL is used. The president, Mr. Kondo, went to China to study the cold pressing technique. "The tofu is delicious."

7914. Medoff, Marc. 1987. Whole frauds in the news: "Soy" cheese update and Brightsong Tofu-Rella. *Whole Life.* Jan/Feb. p. 31. [1 ref]
• ***Summary:*** A so-called "soy cheese" named organic Tofu-Rella is made for Brightsong Foods in Petaluma. The label (which is printed in 5½ tall) deceptively calls casein "milk-free protein" in its Mozzarella-style cheese. But casein *is* milk protein. Ingredients are "Organic tofu, soy oil, casein (milk-free protein), salt, citric acid, soy lecithin, and guar gum." The label states that 51% of Tofu-Rella is organic tofu. Address: New York.

7915. *Monthly New Food Products in Japan.* 1987. Dessert Mixes. Tofu or soy protein based dessert mixes are new from Morinaga Co. in Japan. 12(2):14. Feb. *
• ***Summary:*** The bean jam mixes yield an azuki bean jelly type dessert after chilling. Address: Japan.

7916. Murata, K.; Kusakabe, I.; Kobayashi, H.; Akaike, M.; Park, Y.W.; Murakami, K. 1987. Studies on the coagulation of soymilk-protein by commercial proteinases. *Agricultural and Biological Chemistry* 51(2):385-89. Feb. [5 ref. Eng]
• ***Summary:*** 17 proteinases from microorganisms, plants, and animals were tested as coagulants for soymilk. Those which did coagulate soymilk were bromelain, papain, trypsin and proteinases from *Bacillus amyloliquefaciens, B. subtilis, B. polymyxa, Streptomyces griseus, S. caespitosus, Aspergillus oryzae, A. sojae, Endothia parasitica, Rhizopus* species, and *Mucor miehei.* Ineffective were rennin, pepsin, and proteinases from *Aspergillus saitoi.* Soymilk clotting activity fell as the pH rose from 5.9 to 6.7. Temperature optima for the enzymes varied from about 50ºC for *Rhizopus sp.* to 85ºC for *Bacillus subtilis* and *B. thermoproteolyticus* and as high as 95ºC for papain. Address: Research Development Sect., Kibun Food Chemifa Co. Ltd., Takinogawa 7-38-15, Kita-ku, Tokyo 114, Japan.

7917. **Product Name:** Calci-Fu Non-Dairy Tofu Milk Drink.
Manufacturer's Name: Nature's Plus. Div. of Natural Organics, Inc.
Manufacturer's Address: 10 Daniel St., Farmingdale, NY 11735. Or Long Beach, California. Phone: 213-494-2500 or 516-293-0030.
Date of Introduction: 1987. February.
Ingredients: Incl. calcium.
Wt/Vol., Packaging, Price: 19 gm individual serving packet retails for $0.95, or 22-serving can retails for $8.95.
How Stored: Shelf stable.
New Product–Documentation: Product Alert. 1987. April. Soya Newsletter. 1987. March/April. p. 7. A dry mix, fortified with 1200 mg of calcium per serving. Talk with company. 1988. Feb. 17. Product is still being sold.

7918. **Product Name:** Calci-Fu Non-Dairy Tofu Chocolate Shake.
Manufacturer's Name: Nature's Plus. Div. of Natural Organics, Inc.
Manufacturer's Address: 10 Daniel St., Farmingdale, NY 11735. Or Long Beach, California. Phone: 213-494-2500 or 516-293-0030.
Date of Introduction: 1987. February.
Wt/Vol., Packaging, Price: 25 gm individual serving packet retails for $0.95, or 22 serving can retails for $9.95.

© Copyright Soyinfo Center 2013

How Stored: Shelf stable.
New Product–Documentation: Product Alert. 1987. April. Soya Newsletter. 1987. March/April. p. 7. A dry mix, fortified with 1200 mg of calcium per serving. Talk with company. 1988. Feb. 17. Product is still being sold.

7919. **Product Name:** Soyboy Tofu Burgers.
Manufacturer's Name: Northern Soy, Inc.
Manufacturer's Address: 30 Somerton St., Rochester, NY 14607. Phone: 716-442-1213.
Date of Introduction: 1987. February.
Ingredients: Harvest Light Tofu (filtered water, organically-grown soybeans, natural calcium chloride nigari–a natural mineral coagulant, not a preservative), red miso (water, rice, soybeans, salt), carrots, dried onion, sesame seeds, sunflower seeds, spices, guar gum, carrageenan.
Wt/Vol., Packaging, Price: 6.25 oz 2 burgers per package.
How Stored: Refrigerated, 45 day shelf life. Or frozen.
Nutrition: Per burger (3.125 oz.): Calories 180, protein 14 gm, carbohydrate 4.3 gm, fat 12.5 gm, sodium 350 mg.
New Product–Documentation: Manufacturer's catalog. 1987. Oct. Gives ingredients. Talk with Andy Schecter. 1988. Feb. 17. Launched in Feb. 1987. Label. 1987. 3.25 inches diameter. Red, green, and black on yellow. "All natural meatless entrees. Cholesterol-free. No preservatives and nothing artificial. Precooked for your convenience."

7920. **Product Name:** Organic Tofu [Smoked], Organic Tempeh.
Manufacturer's Name: Oasis Wholefoods.
Manufacturer's Address: Unit 3C, Dart Complex, Steamer Quay Rd., Totnes, South Devon, England.
Date of Introduction: 1987. February.
Ingredients: Cultured soya beans.
Wt/Vol., Packaging, Price: 8 oz (227 gm).
How Stored: Frozen.
New Product–Documentation: Letter from Simon Bailey. 1988. Oct. 10. Company name is now Oasis Wholefoods. Phone: 0803-863167. They now make Organic Tofu (plain & smoked), Tofuburger, Organic Tempeh. In Dec. 1987 Francis Checkley sold the company to I.J. Mohammed.

Letter from I.J. Mohammed. 1991. Sept. 30. The smoked tofu was introduced in Feb. 1987 and the organic tempeh in Aug. 1987.

Label for Organic Tempeh sent by I.J. Mohammed. 1991. Sept. 30. 4 by 8 inches. Green on yellow. Illustration of palm trees. "Cultured soya beans. Low in saturated fats. High in protein. Cholesterol free. Salt free." Three recipes are given in condensed form in small type.

7921. **Product Name:** Tofu, Pressed Tofu, Herbal Tofu, and Tempeh.
Manufacturer's Name: Okanagan Soyfoods.
Manufacturer's Address: Lumby, BC, Canada. Phone: 604-547-2257.
Date of Introduction: 1987. February.
New Product–Documentation: Talk with company. 1989. March 7. Talk with Greg Lundh. 1989. April 28. This company went out of business 10 days ago. Greg Warry of BC started the company. He bought a lot of equipment, then couldn't make the payments. He sold the company in the autumn of 1988 to his ex-partner. Several people ended up running it; a man named John from California, who had an Oriental wife, and a lady named Bee (Beatrice Berry?). Talk with a lady who hopes to buy the company. 1989. Oct. 30. Okanagan Soya Foods, located in a small place out in the country and run by Beatrice Berry, now makes about 2,000 cakes/month of tofu. The new owners want to make about 2,000 cakes/week when they start.

7922. **Product Name:** Tofu Lasagna, and Tofu Pizza [Super Veggie, Soy Cheese, or Spinoccli].
Manufacturer's Name: San Diego Soy Dairy.
Manufacturer's Address: 1330 Hill St., Suite B., El Cajon, CA 92020. Phone: 619-447-8638.
Date of Introduction: 1987. February.
New Product–Documentation: Talk with Gary Stein. 1989. Feb. 17. He recalls that these products were launched in about Feb. 1987.

7923. Savar, Robert. 1987. Company / industry news (News release). P.O. Box 1314, Cherry Hill, NJ 08034.
• ***Summary:*** "Robert H Savar–broker for Tree Tavern Whole Wheat Pizzas, Goldberg's Gourmet Spicy-Hot Meatless, Ziegler's Apple Juice, and the Original Pizsoy–has been appointed the exclusive broker by Soyco Foods of New Castle, Pennsylvania, for 'Soymage,' a non-dairy, casein-free cheese alternative. Introduced in January, 1987, 'Soymage' is said to be the world's first natural casein-free cheese alternative.

"For the past three years, since selling Pizza Naturally, a company he founded in 1978, Savar has worked as an independent sales rep. In addition to his brokering activities, Savar has owned his own health foods store, worked as a buyer and director of operations for two health foods store chains, and he has worked as a sales rep for a national vitamin company.

"In May of 1986, Savar, working with a food technologist, helped pioneer a unique natural cheese alternative made from 51% Tofu and is a partner in the company which markets this product under the Soy Good label as well as various other private labels."

Note: This is the earliest English-language document seen (March 2007) that uses the term "cheese alternative" to refer to a Western-style soy cheese. Address: Cherry Hill, New Jersey. Phone: (609) 354-8036.

7924. **Product Name:** [Tofu Spread].

© Copyright Soyinfo Center 2013

Foreign Name: Lang Tzu.
Manufacturer's Name: Sojatopf. Renamed Soto in April 1989.
Manufacturer's Address: Friedrich-Ebert-Str. 40, D-8323 Trostberg, West Germany. Phone: 08621-62538.
Date of Introduction: 1987. February.
Wt/Vol., Packaging, Price: 200 gm glass jar.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Letter (fax) from Harry Whitford. 1990. May 30. Gives full details on product based on interview with Gerhard (Oskar) Schramm. "The German name sounds like Lao Tzu (The Chinese sage) but means 'grab it.' A very delicious spread with a hearty yeastflake [nutritional yeast]-tamari type taste reminiscent of liverwurst." On 1 Jan. 1990 the company moved to Wolfbergerstr. 47, D-8211 Breitbrunn am Chiemsee, West Germany.

7925. *Soya Newsletter* (*Bar Harbor, Maine*). 1987. Soy-based yogurt and yogurt-like products market growing quickly. Jan/Feb. p. 1, 4.
• ***Summary:*** Estimates that retail sales of non-dairy yogurt-type products reached approximately $1.75 million in 1986, and predicts sales of these products will easily hit $5 million in 1987, and will double that figure by 1988. No fewer than 7 companies have entered this rapidly evolving market. Tomsun Foods International, Cream of the Bean, Brown Cow West, Bud Inc., Natural Inc., and Marjon Specialty Foods. Barricini Foods is about to enter.

Note: Dairy yogurt and cheese are the only two products made from cow's milk that have shown substantial growth in the last 10 years in America.

7926. *Soya Newsletter* (*Bar Harbor, Maine*). 1987. Tofu standards accepted by Association board. New standards could have wide-spread impact on tofu products market. Jan/Feb. p. 1, 3.
• ***Summary:*** Standards were accepted 19 Sept. 1986 by Tofu Standards Committee. Soy ice creams must contain 15% tofu to use the term "tofu" in the product name.

7927. *Soya Newsletter* (*Bar Harbor, Maine*). 1987. Miso enters prepared foods market. Jan/Feb. p. 6.
• ***Summary:*** American Miso Co., founded in 1980, sold 500,000 lb of miso in 1986. Its 8 varieties are now widely used in second generation products, such as tofu salad dressings, soft tofu-based "cheese," fancy mustards, condiments, and a spaghetti sauce.

7928. *Soya Newsletter* (*Bar Harbor, Maine*). 1987. Tomsun Foods International nets $3.46 million from public offering. Jan/Feb. p. 5.
• ***Summary:*** In mid-December 1986, Tomsun grossed $4.25 million in its first public stock offering. It expects to net $3.46 million. Total sales have grown from $1.25 million in 1981 to $3.1 million in 1986. For the 32 weeks ending 9 Aug. 1986, 58% of sales were from tofu, 21% from Jofu (yoghurt-style product), 18% from Oriental pasta and condiments, and 3% from tofu burgers. Projected uses of the new funds are 43% for sales and marketing, 23% for repayment of $800,000 debt, 8.7% for expansion of Jofu, 7.2% for R&D, and 18% for working capital.

7929. *Soya Newsletter* (*Bar Harbor, Maine*). 1987. Island Tofu Works moves into the information age–becomes Soyatech. Jan/Feb. p. 3.
• ***Summary:*** Founded in 1979, Island Tofu Works stopped production of tofu in 1984 and began a product development service. On 1 Jan. 1987 they began doing business under the name of Soyatech. "Soyatech offers their clients a full range of services including product and process development, proto-type and finished product work, product analysis, market research and development and informational seminars on the soyfoods industry and market. In addition to these activities, Soyatech also publishes a bi-monthly newsletter on the soyfoods industry–Soya Newsletter."

Note: This is the earliest document seen (Feb. 2003) that mentions Soyatech.

7930. *Soya Newsletter* (*Bar Harbor, Maine*). 1987. Continuous system for making dried tofu [from Precision Drying Systems of New Jersey]. Jan/Feb. p. 7.
Address: PDS, P.O. Box 3322, Princeton, New Jersey 08543.

7931. *Soya Newsletter* (*Bar Harbor, Maine*). 1987. Bean Machines unveils continuous cooker. Jan/Feb. p. 7.
• ***Summary:*** Capacity is 300 gallons of slurry per hour at 230ºF. Address: BMI, 390 Liberty St., No. 2, San Francisco, California 94114.

7932. *Soya Newsletter* (*Bar Harbor, Maine*). 1987. Sales of Tofu Pups sizzle. Jan/Feb. p. 6.
• ***Summary:*** First introduced in Aug. 1985, Tofu Pups (like hot dogs) sold nearly $250,000 in the next 10 months. A 12 ounce package retails for $2.49. Michael Cohen's company is now called Lightlife Foods, formerly Tempehworks.

7933. **Product Name:** Braised Tofu.
Manufacturer's Name: Wildwood Natural Foods.
Manufacturer's Address: 31 Bolinas Rd., Fairfax, CA 94930. Phone: 415-459-3919.
Date of Introduction: 1987. February.
Ingredients: As of 1998: Wildwood tofu (filtered water, soybeans organically grown in accordance with the California Organic Foods Act of 1990, nigari/magnesium chloride, a natural firming agent), onions, celery, carrots, water, tomato paste, honey, rice vinegar, rice syrup, rice wine, scallions, arrowroot, garlic, ginger, salt, toasted sesame

© Copyright Soyinfo Center 2013

oil.
How Stored: Refrigerated.
New Product–Documentation: Talk with Jeremiah Ridenour. 1988. Aug. 26. This product was introduced about 18 months ago (1987). It is braised on a grill and served with a sauce.

Label sent by Billy Bramblett. 1998. July. He says this product was introduced in 1987, and made at Wildwood's plant in Fairfax.

7934. Wollschlager, William P. 1987. Re: Refrigeration of tofu, a potentially hazardous food. Letter to Arthur Z. Mio, National Sales Manager, Morinaga Nutritional Foods, Inc., Los Angeles, California, March 3. 1 p. Typed, with signature on letterhead. [1 ref]
• ***Summary:*** This is a response to Mr. Mio's letter of 26 Feb. 1987 to Arthur Banks, requesting clarification of Banks' letter of Feb. 13 regarding refrigeration of tofu. "Foods which have been adequately commercially processed and remain in their unopened hermetically sealed containers are not considered to be in a potentially hazardous form and, therefore, require no refrigeration. This can apply to tofu.

"Where moist protein products do not meet these criteria, they are considered potentially hazardous food and must be maintained at safe food temperatures of 45ºF or below or 140ºF or above." Address: Principal Food Consultant, Retail Food Protection Branch, FDA Center for Food Safety and Applied Nutrition, Washington, DC 20204.

7935. *Gateway* (*Gig Harbor, Washington*). 1987. Tofu: Try it! March 4.
• ***Summary:*** A photo shows 3 packages of Sun Luck brand water-packed tofu.

7936. Cushman, Deborah. 1987. Tofu: Soy to the world. *Des Moines Register* (*Iowa*). March 11. 1T, 12T.
• ***Summary:*** The Register announced its first tofu recipe contest. 84 recipes arrived. The two big categories of recipes submitted were tofu desserts (including 7 cheesecakes) and tofu Oriental (11 stir fries). Ellen Ross, a farmer's wife from Underwood, Iowa, won with "For Goodness Sake Cinnamon Rolls" and "Tofu Sandwich."

7937. Zalesky, Roy. 1987. For Bar Harbor couple tofu manufacture leads to research in soyfoods. *American* (*Ellsworth, Maine*). March 12.
• ***Summary:*** In 1980 Sharyn Kingma and Peter Golbitz sold some gold jewelry, bought $1,000 worth of used restaurant supplies–pots, cookers, stoves, blenders -and set up shop in their kitchen. Their company, Island Tofu Works, started out making 100 lb of tofu a week but within a couple of months they were doing 300 lb. "We would like to, one day, become the soyfoods industry's leading source of information and data worldwide. Soyatech is presently doing research and development for more than 10 major food companies."

7938. Smith, Susan. 1987. From tofu to Tofruzen. . . White Wave of Boulder finds uses for soybeans. *Daily Camera* (*Boulder, Colorado*). March 17.
• ***Summary:*** Founded in 1977, White Wave now has 25 employees and expects revenues of $1.6 million in 1987, growing to $5 million by 1990. It is America's largest producer of tempeh. Tofruzen Inc. of Denver recently raised $1.6 million in a public stock offering. White Wave plans a public stock offering later this year. Address: Camera Business Writer, Boulder.

7939. *Jewish World* (*W. Palm Beach, Florida*). 1987. Kosher expo: Putting kosher on the map. March 19.
• ***Summary:*** "But the word–and the taste–on everyone's lips at the gala affair seemed to be tofu. The once lowly soy product has evidently made it big in the kosher world." TofuBurgers and Jofu from Tomsun Foods International of Greenfield, Mass.

7940. *Toyo Shinpo* (*Soyfoods News*). 1987. Shôwa rokujû nen no gyôshasû. Tôfu gyôsha 25,429 ken. Genshô keikô tsuzuku ga genshôritsu wa teika. Nattô wa 926 gyôsha (zennen hi 2.4% gen) [There were 25,429 tofu manufacturers in Japan in 1985. Although the number of manufacturers continues to decrease, the rate of decrease is slowing. There were 926 natto manufacturers (2.4% less than last year) in 1985]. March 21. p. 3. [Jap; eng+]
• ***Summary:*** The number of tofu manufacturers in Japan dropped in 1985 to 25,429. That is 603 less than last year (2.32% less). But the rate of reduction is also decreasing–from 3% to 2.1%. The number of natto manufacturers in Japan fell to 926. That is 23 less than last year (2.42% less). There were also fewer new tofu makers in the country than in previous years. Graphs in the article compare the number of new manufacturers with those who went out of business.

7941. Ransom, Kevin. 1987. Soy Plant hits profit trail with tofu dogs. *Crain's Detroit Business.* March 23. p. 3, 33.
• ***Summary:*** Bruce Rose, president of Rosewood Products Inc., an Ann Arbor distributor of health-food products, is now calling the shots at The Soy Plant, a tofu producer mired in Chapter 7 bankruptcy proceedings since January, with $37,900 of debts. Rosewood has been distributing the Soy Plant's tofu for 6 years. Rose plans to install $85,000 of new tofu equipment and to concentrate on "higher margin prepared products" such as "tofu dogs, soysage, and missing egg salad." Address: Detroit, Michigan.

7942. Storper, Barbara. 1987. Think frozen tofu is healthy? Think again. *Boston Herald.* March 25. [1 ref]
• ***Summary:*** "Tofutti may contain nearly twice as much fat per serving as regular vanilla ice cream, with 50-70% of

Tofu-den nya sunda och smala linjen.

Tofu
Lindström

Tofubiffar med rödbetor och kapris.

Endast 130 kalorier per biff.

Färdiglagade
Värm i ugn under lock i 200°, 15 min.

6 biffar, ca 6 portioner. 400 g.

Tofu
Indisk curry

Tofubiffar med ärter, morötter och indisk curry.

Endast 140 kalorier per biff.

Färdiglagade
Värm i ugn under lock i 200°, 15 min.

6 biffar, ca 6 portioner. 400 g.

Tofu
marinerad

Smaksatt och färdiglagad tofu som passar utmärkt färsk, grillad eller ugnsgratinerad.

God i soppor, grytor och sallader eller på smörgås.

Endast 137 kalorier per 100 g

400 g.

Tofu
burgare

Tofubiffar med morötter och selleri.

Endast 130 kalorier per biff.

Färdiglagade
Värm i ugn under lock i 200°, 15 min.

6 biffar, ca 6 portioner. 400 g.

Tofu
naturell

Tofu är annorlunda och spännande. Ett näringsriktigt alternativ till kött, fisk och mycket annat. Naturligt fri från laktos, mjölkprodukter, salt, socker, gluten och kolesterol.

Vegetabilisk och lättsmält.

Endast 122 kalorier per 100 g. *400 g.*

Fem spännande och läckra alternativ till kött och fisk. Näringsriktiga och kalorisnåla tack vare den hälsobringande Tofun.

Framtidens vettiga mat är här. Smaka den nya sunda Tofu-linjen och bli mätt på ett lätt sätt.

Ät gott och må bra.

Säljes på Åhléns i Stockholmsområdet och i hälsokostbutikerna.
Kylvara.

yogurt we have tasted. Excellent. Our favorite flavors were lemon, blueberry, and apple. Comments: Like the flavor. Dislike the use of cane sugar and gelatin, excess wheying off, a little chunky in some flavors. At $0.65 for 6 oz ($0.108/oz) it is considerably more expensive than most of its dairy counterparts. Lucerne low fat is $0.061/oz (56% as costly), Dannon low fat is $0.071/oz (66% as costly), Yoplait high fat is $0.107/oz.

Doreen Lee. 1987. Adweek East. May 4. Spot in Food & Beverage Marketing (NY). 1987. June. Spot in Soya Newsletter. 1987. 1(3):6. The product was on the market for only a few weeks, then was withdrawn because of shelf-life problems and never re-launched, despite huge development costs. Advertised as "California's answer to yogurt."

Note: To make this product a mixture of hot soymilk, gelatin, and a little calcium lactate is homogenized then run into cups, where it is cooled until it sets up. There is really no silken tofu in the product, and the coagulant is really gelatin. As of 1988 most of the product is said by a reliable source to contain preservatives, which are not yet listed on the label. At one point Azumaya came quite close to licensing rights to the product to Kraft Foods. The radio ads never were aired. The product was in stores only briefly. There were persistent contamination problems in production at various points in the process. If it were produced clean, it would have a 6-8 week shelf life. They installed a quasi clean room, but they never got it under control, though the counts were often less than 10 since the product was an ideal culture medium. Travis Burgeson was in charge of quality control. It was a disaster. Bill left for Hawaii and they agreed to take the product off the market.

Leaflet. 1989, dated. "Cook your way to the Caribbean. Free recipes inside." 3.5 by 5.5 inches. 8 panels. Full color with photos. Inside text reads: "Guess what's in this creamy, fresh fruity treat. It's not yogurt. It's not cholesterol. It's not a lot of calories. Guess again. It's tofu like you've never tasted." Create your own original recipe using Stir Fruity and win a 7-day cruise for 2 to the Caribbean.

1990. Jan. 20. Free samples of 6 flavors of Stir Fruity are being given away at Lucky supermarket in Lafayette, California. It is sold in racks on a huge bed of ice near the produce case with the freshly squeezed juices and sliced fresh fruits, not in the dairy case. The price of a 6 oz. carton is $0.67 versus about $0.45 for dairy yogurts. The ingredients are the same except that the last ingredient now is "potassium sorbate to maintain freshness." The foil lid (purple on white) reads: "Stir Fruity. No cholesterol. Low calorie. Dairy free. Creamy tofu treat. Low sodium."

1990. June 27–Safeway now has Stir Fruity in the produce case next to the cabbage.

1993. June 19. Lucky supermarket in Lafayette now sells about 10-12 cases of Stir Fruity per week in the produce case. The nearby thermometer reads 42ºF. At nearby Safeway supermarket, the Stir Fruity is also in the produce case, next to rhubarb, but not on a bed of ice. Flavors: Mandarin orange, black cherry, raspberry, and strawberry.

1993. Nov. Lucky supermarket in Lafayette, California, stops carrying Stir Fruity. They say that sales are too slow. Talk with person from Azumaya. 1996. June 17. Stir Fruity was discontinued about 2 years ago. It didn't sell well enough. Azumaya will soon becoming out with a Tofu Dessert in two flavors (Sweet, and Almond).

7951. Brown, Judy. 1987. Suiting America's tastebuds: The new American soyfoods. *Whole Foods.* March. p. 37-40, 42-43. [1 ref]
• ***Summary:*** An overview, drawing heavily (with acknowledgment) on Shurtleff & Aoyagi's *Soyfoods Industry and Market* for statistics. Address: Alban & Associates, San Francisco, California.

7952. *Dairy Foods.* 1987. A terrific time for tofu: The once-lowly bean curd is featured in a variety of new products. 88(3):32-33. March.
• ***Summary:*** Tofoods has been marketing Tofait since late 1985, 120 cal/6 oz. Several months ago they introduced Les-Cal Lite Tofait, (100 cal/4 oz.) and calcium-fortified Tofait Creme Drink $1.49/quart 140 cal/8 oz. "Thicker than milk, although not as thick as a milk shake." Tofait is cheaper than Tofutti $2.19-2.49/pint, and Barricini's Tofulite $1.99-2.39/pint.

7953. **Product Name:** Chocolate Fiber Float.
Manufacturer's Name: Energy Factors, Inc.
Manufacturer's Address: 8300 Ulmerton Road #A-2, Largo, FL 34641. Phone: 800-654-2347.
Date of Introduction: 1987. March.
Ingredients: Calcium caseinate, tofu, soy protein, cellulose (insoluble fiber), fructose, lecithin, bee pollen, papaya, carob, natural flavors, vitamins, minerals.
Wt/Vol., Packaging, Price: 12 oz.
How Stored: Shelf stable.
Nutrition: Per serving (2 heaping teaspoons): Calories 55, fiber 1.6 gm, carbohydrates 6.4 gm, protein 3.0 gm, fat 2.4 gm.
New Product–Documentation: Label. 1987. Brown on white. "Protein and fiber in its most delicious and satisfying form. Calcium enriched nutritional fiber drink with tofu & guar." Interview with Susan VerHage of EFI. 1987. Sept. 14.

7954. **Product Name:** The Great Tofu Cookie.
Manufacturer's Name: Health Valley Natural Foods.
Manufacturer's Address: 700 Union St., Montebello, CA 90640.
Date of Introduction: 1987. March.
Ingredients: Barley flour, natural fruit & fruit juices of peaches, pineapple, apples and pears, tofu, oats, soybean oil, soy lecithin, pure vanilla, baking soda.

© Copyright Soyinfo Center 2013

Wt/Vol., Packaging, Price: 6¼ oz (117 gm), paperboard box.
How Stored: Shelf stable.
New Product–Documentation: Leaflet. 1987. 8½ by 11 inches, color. "These moist, chewy cookies are the first ones made with protein-rich tofu..." Label reads: "High energy cookies with mixed fruit. Fruit juice sweetened. No added sugar or salt. Wheat free."

7955. Imuda, Ikuyo. 1987. Jidai o sakidori suru tenpe ryôri. Machi no chiisana resutoran kara [Tempeh recipes that are ahead of their time, from Healthy Kan, a small natural foods restaurant in Tokyo]. *Daizu Geppo* (*Soybean Monthly News*). March. p. 39-41. [Jap]
• ***Summary:*** The restaurant is two blocks (3 minutes) from the Ichigaya Station on the Sobu Line in Tokyo. Phone: 263-4023. Tempeh recipes include "Tempeh jiru teishoku" (¥800). Tempeh is a tasty, nutritious soybean food from Indonesia. The menu includes "Brown rice, soup with fried tempeh, side dishes." The restaurant also serves a tofu cheesecake for ¥300. Address: Restaurant owner and nutritionist.

7956. **Product Name:** [Long Life Tofu].
Foreign Name: LL Tôfu.
Manufacturer's Name: Kyoto Tanpaku K.K.
Manufacturer's Address: Senryo Matsu-cho 200 banchi, Yoko Oji, Fushimi-ku, Kyoto-shi, Japan. Phone: 075-622-3161.
Date of Introduction: 1987. March.
New Product–Documentation: Toyo Shinpo. 1987. March 21. p. 1. *LL Tofu: Gessan 40 man cho o mokuhyo* [Long Life Tofu: Kyoto Tanpaku plans to produce 400,000 cakes a month]. They are distributing the tofu through one of the largest Japanese publishers, a company related to Nihon Shûpan. The tofu sells for ¥100 per 250 gm cake. The tofu can last 6 months without refrigeration, at room temperature, and up to a year with refrigeration. It is aseptically packed so it can be fed to babies and to those who are ill. The tofu has a nice sweet taste and comes in a microwavable container. The company is planning to produce a mini-size cake of tofu (150 gm) and natural nigari tofu in the same long life packages. Shows a black-and-white photo of the front panel of the label.

Talk with Yoshimasa Yamashita, president of Kyoto Food Corp. USA. 1991. Jan. 24. This tofu company was founded in 1966 (Showa 41) in Kyoto by Mr. Yasuo Hachijin (who is still the active owner), but they were doing something with tofu 10-15 years before that. Their main products have always been fresh tofu and agé. They started as a small company making tofu by hand. They grew big by making delicious tofu. Their original address was different from their present one. They have no financial or other connection with Kyoto Food Corp. USA. [Yet note: 1. Interview with Wataru Takai of 9 Oct. 1989. 2. Yasuo Hachijin, founder of Kyoto Tanpaku, is an investor in Kyoto Food Corp. USA].

7957. Manuel, Paciencia C.; Huelgas, Romeo R.; Espanto, Leina H. 1987. Adoption of soybean in Lupao, Nueva Ecija, The Philippines. *CGPRT* No. 7. xvi + 57 p. March. Contains 50 tables. (Regional Co-ordination Centre for Research and Development of Coarse Grains, Pulses, Roots and Tuber Crops in the Humid Tropics of Asia and the Pacific, Bogor, Indonesia). Summarized in Palawija News. 1987. 4(1):10-11. March. [9 ref]
• ***Summary:*** This report describes and analyzes the performance of farmers participating in a package of technology program. Constraints to better yields were lack of water during vegetative growth, the occurrence of pests and diseases, and seed supply.

Some 70-90% of the Philippines' domestic production and imports of soybeans is used for animal feeds. Imports have risen sharply from 136,000 tonnes (metric tons) of soybean meal in 1979 to 291,000 tonnes in 1983. Imports of whole soybeans are small: 30,000 tonnes in 1983. Domestic soybean production in 1983 was a mere 8,000 tonnes.

In human foods, soybeans are most widely used as a coffee substitute. Only small amounts are used to make tofu, soy sprouts, and soy sauces. In 1983 the Philippine Government launched a program to develop soybean production to offset rising soybean meal imports. "The target was to be 130,000 hectares planted to soybean in 1986-1987 with a projected yield increase from 1.2 tonnes to 1.8 tonnes by 1986-1987. The programme aims at approximately 50% self-sufficiency in soybean in 1986-1987."

In Lupai it was found that 34% of the sample farmers participating in the soybean program achieved yields lower than 500 kg/ha of dry grain. Yields conforming to the national average of 1.2 tonnes/ha were reached by 20% of the participants. "The case study in Lupao permits the conclusion that the present recommended package of technology needs further adaption [adaptation] to farm-level practices; in particular, careful assessment of the place of soybean in the cropping calendar is necessary."

Contents: 1. Introduction; 2. The Farmer and His Environment; 3. Farmer Evaluation of the Pot (Package of Technologies); 4. Economic Evaluation of the Pot Trials; 5. Constraints to Soybean Production; 6. Conclusions and Recommendations. Address: 1. Agricultural Economist, Asst. Prof. & Project Leader, Dep. of Agroc. Economics, UPLB-CDEM, College, Laguna 3720, Philippines.

• ***Summary:*** "At SIAL this year, 5 soyfoods companies

© Copyright Soyinfo Center 2013

will present their products. For a sector this small, this is important, and it indicates that the sector is in full growth." Four companies are Soy, Sojadoc, Daizou, and Lima N.V. Daizou was created in 1985 by the Japanese restaurant Le Bol en Bois, one of the first to sell tofu in France. Daizou makes only 50-100 tonnes/year of specifically Japanese products. The Société Soy, founded in 1980 [sic, actually 1982], is busy transforming tofu into new foods. This year it launched the new tofu yogurt-like dessert Soyeux. Its new plant at St. Chamond (Loire) has a capacity of 7 tonnes/day of tofu, or 1,500 tonnes/year. In June 1986 the society Sojadoc in Albi took the same step, changing from an artisans production of 10 tons/year of tofu to large scale (1,500 tonnes/year) production of tofu and soymilk over the next 3 years from an investment of 12.5 million French francs. Lima-France, affiliate of a Belgian company, is at Lot-et-Garonne. Jan Kerremans is their miso master, making about 70 tonnes a year.

In 1983 about 10 million liters of soymilk were consumed in Europe, compared with 30,000 million liters of dairy milk. Guy Coudert of the European Soyfoods Association estimates that by the year 2000 some 25,000 tonnes/year will be consumed in France. Address: France.

7959. **Product Name:** Instant Tofu Mix (Makes GDL Silken Tofu).
Manufacturer's Name: Mikado Foods Inc.
Manufacturer's Address: 4710 41st St. N.W., Washington, DC 20016.
Date of Introduction: 1987. March.
Ingredients: Soymilk powder, glucono delta-lactone coagulant.
Wt/Vol., Packaging, Price: 2.29 oz foil packet in a paperboard box. Makes 600-700 gm tofu.
How Stored: Shelf stable.
New Product–Documentation: News (Beloit, Wisconsin). 1987. March 10. "Make Fresh Tofu at Home." Add water, cook for 5 minutes, add coagulant, let stand for 30 minutes in any shaped container. Sold mail order.

7965. Nasoya Foods, Inc. 1987. Nasoya tofu cookbook. Okara Press, Leominster, MA 01453. 40 p. March. No index. 22 cm.
• ***Summary:*** Contains 75 meatless tofu recipes compiled by the Nasoya kitchen staff. Nasoya was founded in 1978. The roots of the name are Natural and Soy.

Contents: Tofu, an introduction. Styles of tofu. Nutritional benefits of tofu. How to buy and store tofu. General serving suggestions. Salads. Soups. Entrees. Desserts. Dressings and dips. Glossary. Address: Leominster, Massachusetts.

7966. *Prepared Foods* (*Chicago*). 1987. Non-dairy tofu products [from Rose International]. March.
• ***Summary:*** Rose International's tofu ingredients used in a range of "dairy" applications: dry tofu soft-serve mix powders (just add water), frozen tofu dessert concentrate, soy yogurt, tofu imitation cheeses and soymilk. "Soy-O" yogurts have been marketed under license from Rose.

7967. Rose, Richard. 1987. The facts on tofu and calcium. *Vegetarian Times.* March. p. 6. [1 ref]
• ***Summary:*** There are two kinds of calcium sulfate. The dihydrous form, commonly called gypsum, is the one used as a tofu coagulant. The anhydrous form, Plaster of Paris, is not. Calcium sulfate is a pure and natural earth mineral, used as a tofu coagulant in China since ancient times. Address: Brightsong Foods.

7968. Société Soy. 1987. Les recettes légères au tofou de Soy [Light recipes for tofu from Société Soy]. 1 rue du Crêt de la Perdrix, 42400 Saint-Chamond, France. 78 p. March. Illust. Index. 17 x 12 cm. [Fre]
• ***Summary:*** This attractive, saddle-stitched book, containing 6 full-page color photos of recipes both promotes the company's products and gives French tofu recipes. Contents: Description of each of the company's products with nutritional analyses (p. 1-20). How to make tofu at home (p. 20-21). Suggestions for using tofu (p. 22-23). Tofu recipes (p. 24-76): Salads, soups, sauces, entrees (incl. skewered/brochettes, crepes, croquettes, fricadelles, gratin, lasagna, moussaka, omelet, pizza, quiche, tart/flan, spaghetti, souffle, timbale), desserts. List of recipes, in order by page number (not an index). Address: Saint-Chamond, France.

7969. **Product Name:** [Tofumé Smoked Tofu].
Foreign Name: Tofumé.
Manufacturer's Name: SOY (Société Soy).
Manufacturer's Address: 1 rue du Crêt de la Perdrix, 42400 Saint-Chamond, France. Phone: 77.31.24.42.
Date of Introduction: 1987. March.
Ingredients: Water, soybeans (23.4%), soy sauce, spices, and aromatics.
Wt/Vol., Packaging, Price: 200 gm poly bag, two per bag.
How Stored: Refrigerated.
Nutrition: Per 100 gm.: Calories 129, protein 13.1 gm, fats 8.2 gm, carbohydrates 0.6 gm.
New Product–Documentation: Full-color English-language leaflet. 1988, undated. Smoked tofu with spices. Letter from Bernard Storup. 1989. March 3. This product was launched in March 1987 and is still on the market. Label. 1989, received. 8 by 4 by 1.5 inch paperboard box. Red, yellow, green, and brown on light yellowish beige. "Recipes for two inside. Preparation based on soya. Smoked on a wood fire. Easy to cook. The green protein (La proteine verte). Store at +4ºC. Order our recipe book by sending 20 French francs in postage stamps." Color illustration on cover of diced smoked tofu with vegetables, cheese, and shrimp. Color recipe on the back.

Label. 1989. 4 by 7.5 inches. Brown, green, red, and yellow on white. Printed on poly bag. "Fresh tofu smoked on a wood fire. Tofu, a food balanced in protein 16.1%, lipids 9.2%, and carbohydrates 1.6%, is prepared by SOY from the best organically grown soybeans." Shows the Nature et Progres logo indicating organically grown ingredients.

7970. **Product Name:** [Tofast Soya Spread (Salmon, Mushroom, Roquefort, or Garlic and Fines Herbes)].
Foreign Name: Tofast: Pâté a Tartiner (Saumon, Champignons, Roquefort, Ail/Fines Herbes).
Manufacturer's Name: SOY (Société Soy).
Manufacturer's Address: 1 rue du Crêt de la Perdrix, 42400 Saint-Chamond, France. Phone: 77.31.24.42.
Date of Introduction: 1987. March.
New Product–Documentation: Leaflet. 1988. Front and back. 6 panels. "Tofast Soya Paste. Soya Spread. Whenever you are feeling peckish or between friends, Tofast is a light paste eaten on toast. We offer you salmon or mushroom Tofast as first courses, as dessert, Tofast Roquefort or garlic and fine herbs on toast." Letter from Bernard Storup. 1989. March 3. These products were launched in March 1987. The

© Copyright Soyinfo Center 2013

Roquefort and Garlic/Fines Herbes were discontinued in Jan. 1988.

7971. Soyatech. 1987. Soyatech launches Soya Newsletter (News release). 318 Main St., P.O. Box 84, Bar Harbor, ME 04609. 3 p. March.
• ***Summary:*** "'Retail sales in the soyfoods industry have risen from $20 million in 1978 to nearly $150 million in 1986,' said Soyatech President Peter Golbitz, 'yet no one was covering the industry in a way that could provide professionals in the marketplace with concise, accurate and timely information. During 1986 alone, over $30 million was invested in the soyfoods industry in the U.S. and at least 60 new products were introduced into the marketplace. Based on our own work and research, I believe that retail sales of soyfood products will hit $500 million by 1990 and will easily top $1,000 million within a decade.'"

"Peter Golbitz and Sharyn Kingma, principals of Soyatech, founded Island Tofu Works in 1979. A regional manufacturer and distributor of tofu and tofu products, within 3 years, the company had become the largest producer and distributor of tofu and tofu-related products in northern New England. 'We stopped producing tofu in 1984,' said Kingma, 'because ITW's growth required that we move our operations out of Maine'... Over the past years, Soyatech has developed a number of new tofu products including non-dairy frozen desserts, puddings and milk drinks, and tofu-based salad dressings, cheese and meat substitutes."

Note 1. Concerning the date that Island Tofu Works was founded: In a 1986 leaflet titled "Market Research and Product Development Specialists for the Soyfoods and Health Foods Industry," Island Tofu Works gave its founding date as 1980.

Note 2. The term "northern New England" apparently refers to Maine, New Hampshire, and Vermont. It must exclude Massachusetts, where two much larger tofu manufacturers (Tomsun and Nasoya) are located.

Note 3. According to *Soyfoods Industry and Market* (4th ed., 1984) retail sales of soyfoods in the USA were valued at $465.2 million in 1983 and growing at about 10% a year. Thus the prediction that they will reach $500 million by 1990 is puzzling. Address: Bar Harbor, Maine. Phone: 207-288-4969.

7972. Soyco Foods, a Division of Galaxy Cheese Co. 1987. Introducing Soymage: The world's first totally casein-free cheese alternative (Ad). *Natural Foods Merchandiser.* March. p. 51.
• ***Summary:*** This full-page color ad shows four chubs of Soymage in four different flavors. "Soymage is the answer for the millions of people who love cheese but want to avoid dairy products. 100% natural. Cholesterol free. Lactose free. Casein free. Non-dairy. Low sodium. Soymage comes in four delicious flavors: Mozzarella, Cheddar, Monterey Jack, Jalapeno, in 12 ounce packages, 5 pound deli loaves, and 20 pound blocks. Ingredients: Tofu, soy protein isolate, soy oil, sea salt, citric acid, soy lecithin, guar gum, brewer's yeast, natural flavoring, natural coloring."

Note: This is the earliest document seen (March 2000) concerning Galaxy Foods or Soyco Foods (which makes cheese alternatives containing soy). Address: P.O. Box 5181, New Castle, Pennsylvania 16105. Phone: 1-800-524-0922.

7973. STS–Soya Technology Systems Ltd. 1987. Membrane filtration for soymilk products. 11 Dhoby Ghaut #11-06, Cathay Building, Singapore 0922. 8 p. March.
• ***Summary:*** Contents: Membrane filtration. Ultrafiltration. Reverse osmosis. Membrane structure/membrane material. Membrane filtration in the food industry. Application of ultrafiltration to soymilk base. Why use ultrafiltration? Products. Concentration of soymilk. Concentration of acidified and coagulated soymilk. Yields. Spreads. Processed tofu/soy paneer. Soy cheese. Production processes for soy spreads, processed tofu, and soy cheese. Processing plant for UF processed tofu. Example of material balance for processed tofu. Address: Singapore.

7974. **Product Name:** Szechuan Baked Tofu.
Manufacturer's Name: Surata Soyfoods.
Manufacturer's Address: 302 Blair Blvd., Eugene, OR 97402.
Date of Introduction: 1987. March.
Ingredients: Tofu (organically grown soybeans, water, nigari), E.V.K. Szechuan Sauce (soy sauce, vinegar, water, salt, toasted sesame oil, cooking sherry, arrowroot, herbs, spices).
Wt/Vol., Packaging, Price: 8 oz in poly bag.
How Stored: Refrigerated.
New Product–Documentation: Label. undated. 2.5 by 3.25 inches. Red, silver, and black on white. "An Oregon Cooperative. Hot & Spicy." A second label, same size and color, received June 1988 and said to be introduced in March 1987, has the following ingredients: "Surata Tofu (organically grown soybeans, water, nigari), Szechuan Sauce (water, soy sauce, vinegar, toasted sesame oil, cooking sherry, herbs and spices, carob bean gum, carrageenan)."

Form filled out by Shevah Lambert. 1990. July 2. Surata now makes 300 lb/month of this product. He says production started in July 1988, but in Jan. 1991 says that the product was actually introduced in March 1987.

7975. **Product Name:** [Tofu Spread for Bread (Spicy with Herbs in a Roll)].
Foreign Name: Tofu Brotaufstrich (Pikant und wuerzig in einer Rolle).
Manufacturer's Name: Tofukost-Werk TKW GmbH.
Manufacturer's Address: Siemensweg 1, D-4724 Wadersloh-Diestedde, West Germany. Phone: 02520-1300.

© Copyright Soyinfo Center 2013

Date of Introduction: 1987. March.
Ingredients: Tofu: Tofu, water, soy oil, vegetable fat, plant protein products, starch, spices & seasonings, yeast extract, sea salt, vitamin yeasts, cane sugar, grape sugar.
Wt/Vol., Packaging, Price: 125 gm or 30 gm sausage-shaped rolls, 8 rolls per carton.
How Stored: Refrigerated, 42 day shelf life at 8ºC.
Nutrition: Tofu: Protein 9.2%, water 72.4%, fat 14.3%, pH 5.1, ash 1.4%, carbohydrate 1.5%, energy 172 calories/100 gm.
New Product–Documentation: Form filled out by Hermann Berief, owner. 1988. Jan. Lists 2 products. TKW color products catalog. 1988. April. Shows Labels. Red, green, and gold on white. Rolls are gold. Packed in a handsome flip-top display box.

7976. **Product Name:** [Tofu-Burger (In a Roll)].
Foreign Name: Tofu-Burger, in einer Rolle.
Manufacturer's Name: Tofukost-Werk TKW GmbH.
Manufacturer's Address: Siemensweg 1, D-4724 Wadersloh-Diestedde, West Germany. Phone: 02520-1300.
Date of Introduction: 1987. March.
Ingredients: Tofu, soybeans, rice, wheatgerm, flaxseeds (linseeds), starch, seasonings, sea salt.
Wt/Vol., Packaging, Price: 500 gm sausage-shaped rolls, 7 rolls per carton.
How Stored: Refrigerated, 60 day shelf life at 8ºC.
Nutrition: Protein 10.3%, water 65.7%, fat 5.1%, pH 6.0, ash 2.1%, carbohydrate 10.7%, energy 130 calories/100 gm.
New Product–Documentation: Form filled out by Hermann Berief, owner. 1988. Jan. Lists 4 products. TKW color products catalog. 1988. April. Shows Labels. Black on orange-yellow. Rolls are red.

7977. Warshaw, Hope. 1987. Tofu: Try it! *Diabetes 87* (*New York, NY*). Winter. p. 14.
• ***Summary:*** Tofu's nutrients and calories can be counted in different ways. Three ounces equal one Lean Meat exchange (CAL 61, PRO 7 gm., FAT 4 gm., CHO 2). Or four ounces equal 1½ Lean Meat exchanges or one Medium-Fat Meat exchange (CAL 82, PRO 9 gm., FAT 5 gm., CHO 3 gm.). "CHO" stands for carbohydrate, not cholesterol. Address: Diabetes Treatment Center, Waltham/Weston Hospital and Medical Center, Massachusetts.

7978. **Product Name:** Westbrae Natural Tofu Imitation Mayonnaise.
Manufacturer's Name: Westbrae Natural Foods.
Manufacturer's Address: 4240 Hollis St., Emeryville, CA 94608. Phone: (415) 658-7521.
Date of Introduction: 1987. March.
Ingredients: Pressed safflower oil, tofu, brown rice syrup, lemon juice, cider vinegar, sea salt, natural spices.
Wt/Vol., Packaging, Price: 1 pint glass jar.
How Stored: Shelf stable.
Nutrition: Has 1/3 fewer calories and fat than mayo made with eggs, less sodium, and none of the cholesterol.
New Product–Documentation: Spot in Natural Foods Merchandiser. 1987. Dec. p. 49. Spot with label photo in Vegetarian Times. 1988. Feb. Label reads: "25% less fat & calories, No egg. No cholesterol. Low sodium." Spot says: "Its smooth, nongrainy texture makes it great on sandwiches, and just right for deli items like potato salad." Spot with photo in Health Foods Business. Feb. Interview with Westbrae. 1988. March 4. The product was initially launched in March 1987, then pulled because of production problems. It was re-launched in November 1987.

7979. **Product Name:** Tempeh Temptations: Marinated Tempeh Filets.
Manufacturer's Name: Western Soy Complements, Inc.
Manufacturer's Address: Santa Cruz, CA 95062.
Date of Introduction: 1987. March.
Ingredients: Soybean tempeh (made with organic soybeans and brown rice according to CA Health and Safety Code Section 26569.11), shoyu (a natural soy sauce), fresh ginger, garlic, spices, peanut or safflower oil.
Wt/Vol., Packaging, Price: 7 oz vacuum packed. Retails for $1.69 (8/88 Berkeley, CA).
How Stored: Frozen.
New Product–Documentation: Label. 1988. 2.5 by 3.25 inches. Orange, black, and white. "A cutlet. A burger. For salad. Stir fries. Heat 'n' eat. Complete protein. Delicious cold, too! Perfect for toaster or microwave." Talk with Jeremiah Ridenour. 1988. Aug. 31. This is a fried and marinated product that was launched in March 1987.

Product with Label purchased at Safeway supermarket in Lafayette, California. 1990. Dec. 3. The ingredients have changed: Soy-rice tempeh is used instead of soy tempeh, and canola oil instead of peanut or safflower oil. It is now a 6 oz. vacuum pack that retails for $1.79.

7980. **Product Name:** Santa Cruz Tempeh. Soy-Rice [Three Seed with Sunflower, Sesame & Poppy Seeds].
Manufacturer's Name: Western Soy Complements.
Manufacturer's Address: 1560 Mansfield Ave., Suite D, Santa Cruz, CA 95062. Phone: 408-479-05968.
Date of Introduction: 1987. March.
Ingredients: Organically grown* soybeans, filtered water, organically grown* brown rice, sunflower seeds, sesame seeds, poppy seeds, brown rice flour, Tempeh culture (R. oligosporus), vinegar. * = Organically grown in accordance with section 26569.11 of the California Health and Safety Code. safflower oil.
Wt/Vol., Packaging, Price: 8 oz vacuum packed. Retails for $1.59 (8/88 Berkeley, CA).
How Stored: Frozen.
New Product–Documentation: Products with Labels

© Copyright Soyinfo Center 2013

purchased in Berkeley, California. 1988. Aug. 30. 2.75 by 5 inches. Black, white and brown. "A cultured soyfood. Preparation: Use as a protein-rich staple food: slice, fry, bake, or steam. Season to taste. Occasional black or grey spots are part of the tempeh culture and not indicative of spoilage."

Note that this company is at the same address as Wildwood Natural Foods of Santa Cruz.

7981. *Crain's Detroit Business.* 1987. Soy Plant sold to Ann Arbor firm [Rosewood Products, Inc.]. April 13.
• ***Summary:*** Rosewood's $2,000 offer was the only bid for the assets, which consisted of outdated tofu processing equipment. Rosewood has been leasing the equipment and making tofu since The Soy Plant filed for bankruptcy in January. Address: Michigan.

7982. Azumaya Inc. 1987. Introducing the yogurt of the future... (its not yogurt) [Stir Fruity] (News release). 1575 Burke Ave., San Francisco, CA 94124. 11 p. April 23. Press kit.
• ***Summary:*** The news release (from Torme & Co.) announcing Stir Fruity is titled: "Next generation yogurt isn't yogurt at all. Nutritious tofu finally breaks through Western taste barriers." 86% of yogurt users who tried the product expressed "high purchase intent" and 65% of non-yogurt users said they would buy Stir Fruity. "Stir Fruity will begin reaching Northern California dairy cases starting April 1987. The company is supporting the Stir Fruity introduction with an ad campaign, "California's Answer to Yogurt," that concentrates on radio in three California markets: San Francisco, Fresno and Sacramento." Stir fruity, after 8 years of testing and tasting, represents a true "flavor breakthrough." It is lower in calories (160 vs. 200-300 for even low-fat yogurts), low in saturated fats, contains no cholesterol, and is an excellent source of calcium. Azumaya, founded in 1937 and now America's "largest producer of tofu and Oriental pastas," with annual sales are over $6 million, has over 80 employees and produces over 30,000 pounds of tofu a day in its modern 40,000 square foot plant. Includes biographies of Bill Mizono (president) and Travis Burgeson (V.P., marketing). Mizono is given credit for the company's rapid growth. Azumaya went national in the 1980s after starting to pasteurize their tofu. Their products are now found in 6 of the 8 largest U.S. supermarket chains, including Safeway, Lucky Stores, Jewel, Kroger, and Stop & Shop. Address: San Francisco, California.

7983. Alfa-Laval South-East-Asia Pte. Ltd. 1987. Food Processing Research & Development Centre (Leaflet). Singapore. 2 panels each side. Each panel: 30 x 21 cm. April.
• ***Summary:*** A glossy color leaflet. Within the centre is a complete Soy Pilot Plant which includes grinding, fiber separation, deaeration and deodorization. "Starting from dry or soaked [soy] beans a soybase product can be produced. The base can then be further processed to soymilk, soy yoghurt, tofu, etc. Also other types of raw materials than soybeans can be used." A moderate fee is charged to use the 600 square meter centre. Contains many color photos of the equipment, soymilk, and several packages.

Note 1. Letter from Monica Kjellker Gimre, R&D manager, Alfa-Laval, Singapore. 1990. Sept. 3. This undated leaflet was first published in April 1987.

Note 2. This is the earliest English-language document seen (May 2006) that uses the word "soybase" to refer to a concentrated form of soymilk, containing 9-12% total solids / dry matter, from which regular soymilk or soymilk products can be made by adding water, flavors, sweetener, etc. Prior to this time, Alfa-Laval used the term "soybean extract" instead of soy base. Address: R&D manager, Alfa-Laval South East Asia Pte. Ltd., 11 Joo Koon Circle, Singapore 2262. Phone: 86 22 711.

7984. **Product Name:** Tofu [Chives, and Garlic].
Manufacturer's Name: Bean Machine.
Manufacturer's Address: Grymych, Wales, UK.
Date of Introduction: 1987. April.
New Product–Documentation: Carolyn Rees. 1987. April. Soyfoods (ESFA). "The Bean Machine story" The tofu is made largely by hand at the rate of 60 lb every 2 hours. The soymilk is curded with calcium sulfate. The company presently makes a range of three flavors of tofu, plain, chives, and garlic. The tofu is put into round presses and cut into two sizes, 227 gm and 454 gm, then vacuum packed in bags.

Letter from Simon Bailey. 1988. Oct. 10. Ceased trading.

7985. **Product Name:** Pasties (With Tofu Filling) [Regular, or Curry].
Manufacturer's Name: Bean Machine.
Manufacturer's Address: Grymych, Wales, UK.
Date of Introduction: 1987. April.
Ingredients: Dough: Incl. wholemeal flour. Filling: Incl. tofu, vegetables, soy sauce, spices.
How Stored: Frozen or refrigerated.
New Product–Documentation: Carolyn Rees. 1987. April. Soyfoods (ESFA). "The Bean Machine story." Pasties can be sold in different forms such as cooked and then frozen, raw and frozen, or fresh baked. They are ready to eat, and are mainly bought by cafes.

7986. **Product Name:** Somozas (Whole Meal Pastry Pouch With Tofu Filling).
Manufacturer's Name: Bean Machine.
Manufacturer's Address: Grymych, Wales, UK.
Date of Introduction: 1987. April.
Ingredients: Dough: Incl. wholemeal flour. Filling: Incl.

© Copyright Soyinfo Center 2013

tofu, vegetables, soy sauce, curry, and raisins.
How Stored: Frozen.
New Product–Documentation: Carolyn Rees. 1987. April. Soyfoods (ESFA). "The Bean Machine story." "A samoza is a whole meal pastry pouch or Indian origin... The name somoza comes from the name samoza, but we thought soyamoza is definitely a more appropriate name. The product has been discontinued due to lack of people and problems of distribution."

7987. **Product Name:** Tofu Bites (Marinated Deep-Fried Tofu Cubes).
Manufacturer's Name: Bean Machine.
Manufacturer's Address: Grymych, Wales, UK.
Date of Introduction: 1987. April.
Ingredients: Incl. tofu, tamari, flour, spices, oil.
New Product–Documentation: Carolyn Rees. 1987. April. Soyfoods (ESFA). "The Bean Machine story." "The Tofu bites are a cube of tofu marinated in tamari and tossed in a flour and spices mixture. They are cooked by deep frying and are delicious with salad."

7988. Bringold, Ulrich. 1987. Tofu Swiss success story. *Soyfoods* (*ESFA*) 1(2):23-24. April. [Eng]
• ***Summary:*** This paper was presented in Munich in Sept. 1986. Details are given in that document. Contents: Introduction. Tofu in health food shops. Tofu in food retail outlets. Tofu test market in Bern–August–December 1984 (The Co-op of Bern placed the 16 largest supermarkets at Galactina's disposal; pasteurized fresh tofu was tested). Publicity. Results. The conquest of food distribution (Migros and Co-op). Tofu becomes tasty. The future. Address: Galactina AG, 3123 Belp, Switzerland.

7989. Business Communications Co., Inc. 1987. Mass merchandised "healthy" foods. 25 Van Zant St., Norwalk, CT 06855-1781. 162 p. April. Price: $1,500.
• ***Summary:*** In this expensive ($1,500) market study, there is a chapter titled "The Soyfoods Market," which has the following segments: Summary of market segment. The tofu market. Soy-based frozen desserts. Soy-based beverages. Soy-based yogurt-like products. Other soy-based prepared foods. Fermented soy products. "A move toward the consumption of convenient, good-tasting foods with a healthful image is the food trend of the eighties. There is a strong relationship between healthful foods and the consumer's need for convenience. In the future, food manufacturers can expect the growth of 'healthy' foods to outpace that of the total food market, as more consumers pursue a healthful lifestyle...

"BCC defines the 'healthy' food market as those segments of food categories that are generally accepted by the consumer as having a healthful image. Total retail sales of all product segments included in this analysis were estimated to have reached $88 billion in 1986." Address: Norwalk, Connecticut. Phone: 203-853-4266.

7990. **Product Name:** NûTofû (Soy Cheese with Casein) [Mozzarella, Cheddar, Jalapeno, Herbs 'n Spices, or Swiss].
Manufacturer's Name: Cemac Foods Corp.
Manufacturer's Address: 90 West St., New York, NY 10006. Phone: 212-964-8740.
Date of Introduction: 1987. April.
Ingredients: Tofu, soybean oil, casein (protein), sea salt, citric acid, soy lecithin, guar gum.
Wt/Vol., Packaging, Price: 8 oz, 5 lb. or 20 lb.
How Stored: Refrigerated.
Nutrition: Per 1 oz.: Calories 85, protein 7 gm, carbohydrate 1 gm, sodium 230 mg, calcium 85 mg.
New Product–Documentation: Ad in Natural Foods Merchandiser. 1987. April. p. 9. "Cholesterol free. Lactose free. Shred it for Pizza. Slice it for Mozzarella recipes. Good for you and your customers. The tofu products you use like cheese." In the ingredients listing, after the word casein is written "(protein)" rather than the more informative and honest "(milk protein)" Spot in Cheese Market News (Chicago). 1987. Aug. 14. NuTofu is 51% tofu. Cemac Foods is a manufacturer of cheeses and cheese analogs. Leaflet. 1987, Oct. "NuTofu Satisfies Your Taste for Cheese." Made in Philadelphia by Cemac Foods Corp., New York, NY 10006. Three flavors available (no Cheddar). Spot in Food Engineering. 1987. Oct. Swiss is now a flavor. Ad (black and white, 7.5 by 5.5 inches) in Natural Foods Merchandiser. 1989. April. p. 88. "Good for you and your customers. The tofu products you use like cheese."

7991. **Product Name:** Island Spring Fettuccine, Linguine, Spinach Fettuccine.
Manufacturer's Name: Island Spring, Inc.
Manufacturer's Address: P.O. Box 747, Vashon, WA 98070. Phone: 206-622-6448.
Date of Introduction: 1987. April.
Ingredients: Fettuccine: No. 1 enriched durum semolina flour, organic tofu (water, soybeans organically grown and processed in accordance with Section 26569.11 of the California Health and Safety Code, calcium sulfate, glucono delta lactone). No preservatives added.
Wt/Vol., Packaging, Price: Six 10 oz packets per case.
How Stored: Refrigerated or frozen.
Nutrition: Fettuccine: Per 4 oz.: Calories 316, protein 14 gm, carbohydrates 58 gm, fat 3 gm, sodium 7 mg. No cholesterol or lactose.
New Product–Documentation: Island Spring Inc. Fact sheet and price list. 1988. A pasta maker makes the final product using Island Spring tofu. Label for Fettuccine. 1988. 4 by 6 inches. Green, white and red on black. Sketch of an impressionistic 3-color heart. "We've replaced the eggs with nutritious, cholesterol-free tofu!"

7992. **Product Name:** [Tofu Salad (Soya-Vegetables): Garlic, Special, and Smoked].
Foreign Name: Tofusalat (Soja-Gemuese), Salade de Tofu (Soya-Légumes), Tofusalade (Soja-groenten).
Manufacturer's Name: Jonathan P.V.B.A.
Manufacturer's Address: Antwerpsesteenweg 336, B-2080 Kapellen, Belgium.
Date of Introduction: 1987. April.
Wt/Vol., Packaging, Price: Jar.
New Product–Documentation: Label. Received 1988. 4 by 3.5 inches. Card stock. White, gold, and black on orange. "Tofu Salad. Natuur. Nature. Naturell. Natural. Also comes in garlic, special, and smoked. Ingredients (in 4 languages): Tofu (soya proteins)*, sunflower oil*, water, arrow-root, vegetable extract, sea-salt, herbs, spices. * = organically grown. Product weight = 100 gm. Nutritional composition: Vegetable proteins 8.3%, vegetable fats 13.9%, ash 1.62%, carbohydrates 2.3%, 168 calories (Kcal) per 100 gm." Label. Received 1988. 10.5 by 1.25 inches. Glossy paper. Orange and black on a pastoral background with sea gull and duckling. Additional ingredients include (organically grown) carrots and parsley. Note that we have 3 labels for Tofu Salad from Jonathan, probably from different periods. Form filled out by Jos van de Ponseele. 1989. Jan. 11. These flavors were introduced in April 1987.

7993. Kingma, Sharyn. 1987. Spray-dried powders expand tofu market. *Soya Newsletter* (*Bar Harbor, Maine*). March/April. p. 3.
• ***Summary:*** The first study of the rapidly expanding new market for spray dried tofu powders. The largest manufacturers are Clofine Dairy & Food Products, St. Peter Creamery (Oberg's Soy Supreme), the Gunther Products Div. of A.E. Staley Mfg. Co., and Nasoya Foods. Clofine is said to be the first company to make such a product. These powders cost $0.95 to $1.65 per lb. Golbitz of Soyatech estimates that 1-2 million pounds were used in 1986 (the equivalent of 5-10 million pounds of fresh tofu), and he predicts that "close to ten million pounds will be sold in 1987."

7994. Kuwahara, M.; Nakano, H. 1987. Soybean in Japan. *Eurosoya* No. 5. p. 5-7. April. [1 ref. Eng]
• ***Summary:*** In 1984 Japan consumed 4,810,000 tons of soybeans. Of the total, 82% is used for oil and meal production, 17% for foods, and the rest (1%) as feed for livestock. 95% of the soybeans used are imported, mainly from the USA (92%) and China (7%). The soybeans from China and Japan, which are higher in protein and lower in oil, are used for traditional foods. Domestic production is small and these soybeans are expensive. They are processed to make tofu (38%), miso (24%), natto (10%), and other foods (11%), while the remaining 17% is used for home cooking.

Soybean breeding started in 1910 in Japan; pure line selection from many local varieties was the main method. After about 1930 cross-breeding became the main method. In 1935 soybean breeding started at the experiment stations of the Ministry of Agriculture, Forestry, and Fisheries (Norinsho). Today there are 5 such stations with a soybean breeding laboratory and 3-5 breeders per lab. From north to south they are Chuo and Tokachi in Hokkaido, Kariwano in Tohoku, Chushin in Nagano, and Kumamoto in Kyushu. Yet from 1950 to 1980 soybean yield increased only slightly, to 1.5 tonnes/ha from 1.3 tonnes. Japan's largest seeded soybean is Tanbaguro; 100 seeds weigh 70 gm. It is preferred for cooking. The smallest is Nattoshoryo; 100 seeds weigh 8-10 gm. It is traded at high prices for natto production.

For decades the Japanese government, for political reasons, has subsidized rice production. But after the late 1970s, when production far exceeded domestic consumption, the government decided to reduce rice acreage and promote the cultivation of other crops, especially soybeans, barley, and wheat in the drained paddy fields (converted upland fields), which accounted for 62% of the soybean cultivated area in 1985, totaling 134,000 ha. Address: Lab. of Soybean Physiology, National Agriculture Research Center, Tsukuba, Ibaraki 305, Japan.

7995. **Product Name:** Tofu Franks.
Manufacturer's Name: MGM Brands.
Manufacturer's Address: 59 Howden Rd, Unit H., Scarborough, ONT, M1R 3C7, Canada. Phone: 416-752-6600.
Date of Introduction: 1987. April.
New Product–Documentation: Talk with company. 1988. March 2. He says Stephen Yu of Victor Foods is out of business! Tofu Masters was an interim company name.

7996. *Mori-Nu Healthy Times* (*Los Angeles*). 1987--. Serial/periodical. Morinaga Nutritional Foods, Inc., 5800 S. Eastern Ave. #270, Los Angeles, CA 90040. Bimonthly. Susan Bucher, editor. Vol. 1, No. 1. April, 1987. Published for the members of the Mori-Nu "Health for Life" Club.
• ***Summary:*** Each issue, typically 4 pages, discusses the merits of tofu and Mori-Nu silken tofu. See spot in Grocers Journal of California, April 1987; Talk with Susan Buchér, editor. 1988. Jan. The first issue was April 1987. Circulation is now 5,000. 99% of that is paid ($2.00/year). Most of those polled use tofu in casseroles, stir fries, and shakes.

Talk with Susan Buchér. 1988. Sept. 8. Circulation is now 10,000. The annual subscription rate increased to $3/year from $2/year in about May. In Jan/Feb. 1989 title changed from Healthy Times to Healthy Life. The volume numbering started over again at 1. Format changed to 6 p. from 4 p. Recipes and coupons are now included in the magazine. Address: Los Angeles, California.

7997. **Product Name:** Spray-dried Tofu Powder [Coagulated with Calcium Sulfate, or Glucono Delta-Lactone].
Manufacturer's Name: Nasoya Foods, Inc.
Manufacturer's Address: 23 Jytek Park (P.O. Box 841), Leominster, MA 01453.
Date of Introduction: 1987. April.
Ingredients: Tofu.
Wt/Vol., Packaging, Price: Sold in 50 lb bags to food processors.
How Stored: Shelf stable.
Nutrition: Protein 38%, fat 19%, carbohydrate 36%, moisture 3%.
New Product–Documentation: Kingma. 1987. Soya Newsletter. March/April. p. 3, 11. Nasoya is the first manufacturer of traditional tofu to enter this promising new product arena. Soya Bluebook. 1987. p. 95. Talk with John Paino. The calcium sulfate powder was introduced in Jan. 1987 and the GDL in June. Both products are doing quite well. At the time, Nasoya decided to diversify into the industrial food ingredients market, selling to food processors.

7998. *New Age Journal* (*Boston, Massachusetts*). 1987. New rule for tofu: Keep your eyes on the curd. March/April. [1 ref]
• ***Summary:*** A one-sided view and summary of the new tofu standards. "And indeed there are rosy projections for soyfoods. Peter Golbitz and others predict that the industry's current annual sales of $150 million will skyrocket to $500 million by the early 1990s. The key, he and others in the SAA agree, will be luring the large food companies–with their hefty advertising budgets–into the fray. And that, he says, is why less restrictive standards were so important." SAA's decision not to require specific labeling for tofu made with hexane "could confuse consumers who do not routinely read ingredients lists, concedes Golbitz."

7999. Przybyla, Ann. 1987. Driving forces behind 1986 new food introductions. *Food Engineering* 59(4):61, 71, 74. April.
• ***Summary:*** New food products containing tofu increased from 28 in 1985 to 49 in 1986, according to Marketing Intelligence Service. Mentions Le Tofu, Jofu, and Tofoods Tofu Entrees.

8000. Rahman, Majeedah. 1987. Belize nutrition education project. Project Coordinator, 526 44th St., Oakland, CA 94609. 5 p. April. Unpublished manuscript.
• ***Summary:*** The most complete report on this proposed project and its origins. Dr. B.K. Rai of the Caribbean Agricultural Research and Development Institute (CARDI, a non-profit, non-governmental organization working to promote agriculture in the Caribbean), has done research on soybeans and is enthusiastic about the nutritional benefits of soyfoods. He is based in Belmopan. Address: Project Coordinator, Oakland, California.

8001. Rees, Carolyn. 1987. The Bean Machine story. *Soyfoods* (*ESFA*) 1(2):8-10. April.
• ***Summary:*** "In the bad winter of 1981, the founders of Bean Machine were cut off by snow with only a jar of soybean and little else. They had a soybean recipe book written by a community farm [The Farm] in Tennessee and decided to have a go at making Tofu.

"They found others who believed in the same ideas and started the Bean Machine in their kitchen, at home. From there the business expanded in a little Welsh village. As demand grew more people came to work, and it became a full fledged cooperative.

"In 1984, our founders had to leave us, sadly, because of illness, but their example and courage was and is now an inspiration to us all...

We are now 9 full time members. The first two years of existence were very difficult; breaking down resistance to the product, finding a market, and solving distribution problems used up most of the Bean Machine scanty resources."
The company decided to focus on second generation tofu products. They obtained a Regional Aid grant to help fund an expansion program. Tofu is sold vacuum packed in 227 and 454 gm sizes. They produce 60 lb/tofu every 2 hours. The company's product range includes Soysage, Soyanaise, Burgers (with okara and rice), Pasties (with tofu filling), Somozas (pouches filled with tofu), Tofu Bites (deep-fried marinated tofu cubes), and Soysage Burgers. "We hope to do an iced bean [soy ice cream] when the grant comes through. Then we will get the facilities and soon we shall be expanding to a bigger premises, in Grymych, where the Bean Machine is now, which is ideal for us.

"A third of the Bean Machine profit will go towards a third world organization." Address: A principal of The Bean Machine, Crymych, Wales.

8002. **Product Name:** Better Than Milk? (Powdered Tofu-Soymilk Blend) [Natural, Chocolate, or Carob].
Manufacturer's Name: Sovex Natural Foods, Inc. (Marketer-Distributor).
Manufacturer's Address: 9104 Apison Pike, Box 310, Collegedale, TN 37315. Phone: 800-227-2320.
Date of Introduction: 1987. April.
Ingredients: Natural: Maltodextrin, soy oil, calcium carbonate, dehydrated tofu, sodium caseinate [from cow's milk], sea salt, natural flavor, cyanocobalamin (vitamin B-12).
Wt/Vol., Packaging, Price: 27 or 21 oz can with reusable plastic lid.
How Stored: Shelf stable.
Nutrition: Per 8 fl. oz (liquid): Calories 90, protein 2 gm, carbohydrates 10 gm, fat 5 gm, cholesterol 0 mg, sodium 120

mg, lactose 0 mg.
New Product–Documentation: Ad in Natural Foods Merchandiser. 1987. June. p. 20. Ad in Bestways. 1987. July. p. 9; Sept. p. 12. 8½ by 11 inches. Color. "Tofu naturally. Luscious tofu non-dairy. 3 rich-n-creamy flavors. Rich in calcium. Just add water."

Label sent by Maryann Brkich of Walnut Creek, California. 1992. Oct. 14. 6.75 by 13 inches. Brown, yellow, white, and black. Photo of a glass of milk and a small bottle of milk on a breakfast table next to a bowl of cereal. "Naturally Tofu. Delicious Tofu Non-Dairy. Rich-n-Creamy Natural. Makes 8 quarts. All natural. No cholesterol. Natural B-12. Rich in calcium. Lactose free. Just add water. Scoop inside." The 21 oz can now retails for $8.95. Sovex is now at Box 2178, Collegedale, Tennessee 37315.

8003. *Soya Newsletter* (*Bar Harbor, Maine*). 1987. Soyfoods Association holds annual meeting in Anaheim. March/April. p. 4.
• ***Summary:*** Work is proceeding on tofu standards and a tofu "Seal of Approval." President Barat appointed Peter Golbitz chairman of the Standards Committee, and asked Yvonne Lo and Sjon Welters to serve on the committee. Tom Timmins was appointed chair of the Membership Committee.

8004. *Soya Newsletter* (*Bar Harbor, Maine*). 1987. White Wave acquires Soyfoods Unlimited. March/April. p. 4.
• ***Summary:*** The acquisition took place on 1 Dec. 1986. Manufacturing will be consolidated at White Wave's plant in Colorado. Soyfoods Unlimited's offices in California will serve as a sales and distribution center for both companies' products. "White Wave, founded in 1977, now employs 25 people and distributes tofu and tempeh products nationwide." Sales were over $1 million in 1986, and expected to be $1.6 to $2 million in 1987. "The company recently signed an exclusive 5 year supplier agreement with Tofruzen, a Colorado-based distributor of nondairy frozen desserts."

8005. *Soya Newsletter* (*Bar Harbor, Maine*). 1987. Morinaga publishes Healthy Times. March/April. p. 5.
• ***Summary:*** The bimonthly newsletter is for members of the Mori-Nu Tofu "Health for Life" Club. The first issue was April, 1987.

8006. *Soya Newsletter* (*Bar Harbor, Maine*). 1987. Rose International formed. March/April. p. 5.
• ***Summary:*** Richard and Sharon Rose founded Rose International in March 1987. Brightsong Foods ceased to exist on 1 June 1987. Brightsong was a developer, manufacturer, and marketer of tofu products. Rose International in Petaluma, California, will provide "services to food manufacturing and marketing companies using tofu and soy as key ingredients in new products. "In short, Brightsong was a soyfoods manufacturer. Rose International will be a soyfoods marketer, without their own manufacturing plant.

8007. **Product Name:** Tofu Supreme.
Manufacturer's Name: Tofu Ice Bean.
Manufacturer's Address: Australia.
Date of Introduction: 1987. April.
New Product–Documentation: Soyfoods (ESFA). 1987. April. p. 28. "Tofu Supreme is a non-dairy dessert made by Tofu Ice Bean of Australia. It contains no butterfat or lactose. This product is representative of several frozen desserts made from Tofu that are entering the marketplace."

8008. Vandemoortele, Philippe. 1987. Editorial. *Soyfoods* (*ESFA*) 1(2):2. April. [Eng]
• ***Summary:*** "Since Alpro Belgium pioneered a new soymilk six years ago, many things have changed. The new soya milk with a nice taste and a high nutritional value of 3.6% protein attracted a lot of consumers. In a few years, the total European market increased from 500,000 litres to the today's estimation of 15 million litres. But also the number of producers grew and companies such as Celnat (France), Sapov (France), Soya Health Food (England), Soyana (Switzerland), DE-VAU-GE (Germany) and recently Cacoja (France) started to produce soya milk. The total capacity of the 4 largest producers amounts to 60 million litres which is 4 times more than the market volume...

"We are on the verge of a boom for soyfoods. Manufacturers will need the technology to make quality soymilk, tofu and other soyfoods... But this will not be enough; marketing is essential to make sure that our products fill a need and please the consumer."

8009. Yu, Byung Pal; Iwasaki, K.; Gleiser, C.; Masoro, E. 1987. Influence of dietary soy protein on longevity and age related disease processes (Abstract). Abstract of a paper presented at the 71st Annual Meeting of the Federation of American Societies for Experimental Biology.
• ***Summary:*** In a 2-year study, rats fed soy protein had far less kidney damage than rats which consumed casein (milk protein). Yu notes that tofu is highly recommended by clinicians and health care personnel as a protein source. Many older Americans suffer from kidney failure. "The proper selection of a protein source may yield a treatment for the chronic renal failure patient, one which is as effective as protein restriction, but without its risks." See also: Food Chemical News. 1987. April 6. p. 25-26; and JAOCS. 1987. June. p. 825. Address: Dep. of Physiology, Univ. of Texas, Health Science Center, 7703 Floyd Curl, San Antonio, TX 78284. Phone: 512-567-4400.

8010. *Jewish Press* (*Brooklyn, New York*). 1987. Juan Metzger to speak at [Jewish] Vegetarian Conference. May 1.
• ***Summary:*** The conference will feature samples of kosher

© Copyright Soyinfo Center 2013

vegetarian food products. Robert Tepper of Farm Foods & Barricini will also speak. Metzger was head of the Dannon Company from 1959 to 1981.

8011. Raposa, Laura. 1987. Tofu maker drives toward $10 million in annual sales. Company profile [of Tomsun Foods International]. *Boston Herald.* May 3.
• ***Summary:*** Tomsun produces 60,000 to 70,000 lb/week of tofu and 25,000 cases/week of Jofu. In 1986 Tomsun sold $4 million worth of tofu and tofu products. The development of Jofu began in 1984 after a phone call to Timmins by Metzger, who was looking for a way to expand Dannon Yogurt's product line. The prospectus for a public stock offering hit the streets on 12 December 1986. $4.3 million was raised. It is now considered not nearly enough. The three Jofu markets are: lactose intolerant, watching fats or cholesterol, dislike sour taste of yogurt. Regular yogurt users won't give it up. Marketing strategy: less-more. "It's got less of what you don't want and more of what you do." In 1980 Community Development Finance Corp invested $100,000 in the form of equity and loaned the company $100,000.

8012. Lee, Doreen. 1987. Azumaya's intro: Tofu with taste [Stir Fruity]. *Adweek West.* May 4.
• ***Summary:*** "Stir fruity, a light creamy blend of 80% silken tofu, 15% real fruit, and 5% flavoring and syrups made its debut in Northern California supermarkets last week as the first tofu-based snack food. And if positive early tests hold true, the company hopes to spoon up a tasty $4 million in first-year sales...

"The challenge is overcoming tofu's bland image. 'Tofu is not a well understood product,' says vp/marketing Travis Burgeson. 'We're finding that the nutritional image is very strong, but the uncertainty about taste is a big question for people. That's what our ads address.'

"To start, Azumaya is putting $800,000 into a Northern California radio campaign from freelancer John Crawford. Spots feature consumer interviews, a takeoff on Bob Marley's reggae tune *Stir It Up,* and the tongue-in-cheek ending line 'It's tofu. But what the heck, try it anyway.'

"Azumaya plans to increase the budget to include TV and print as it expands distribution to Southern California and the East next year."

8013. Burgeson, Travis. 1987. Stir Fruity (Interview). *SoyaScan Notes.* May 8. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Stir Fruity represents the first real change in the yogurt case of supermarkets on the West Coast since Dannon put fruit in the bottom of yogurt. There are basically three reasons people do not like most dairy yogurt: it is too sour, it contains cholesterol, and it contains lactose. Stir Fruity has none of these problems. Various people were asked to taste Stir Fruity, then asked if they would buy the product, 86% of yogurt users said either definitely or probably, and 65% of non-yogurt users said either definitely or probably.

The key to their promotional commercial (developed by John Crawford based on Bob Marley's reggae song titled "Stir it Up") will be to be humorous with tofu, to make it friendly. They admit: It's not yogurt. Its also non-dairy and not sour. They now to pitch it to the black community where lactose intolerance is high. Calcium lactate is the coagulant. Jofu product quality has improved over the past year. Jofu has the fruit stirred in, where Stir Fruity has the fruit on the bottom. One problem is that Stir Fruity is not as white as would be ideal. Address: Azumaya Inc., 1575 Burke Ave., San Francisco, California 94124.

8014. Dixon, Jim. 1987. Tofu and tortillas on the line: Ota Tofu Co. *Willamette Week* (*Portland, Oregon*). May 14.
• ***Summary:*** Third generation members of the Ota clan continue a business started in 1918 [sic, 1911]. Aileen Ota says their tofu retails for $0.75/lb. Note: This is the earliest known tofu company in Oregon.

8015. Gluck, Peggy Isaak. 1987. Ex-kosher caterer creating an empire based on tofu. *Northern California Jewish Bulletin* (*San Francisco, California*). May 15.
• ***Summary:*** What's next from the Tofutti king? Research at headquarters is moving away from desserts, though Lite Lite Tofutti on a stick is already on the drawing board, and into other areas–a cheeseless cheesecake and meatless meatballs, which will be cholesterol free and low in fat.

8016. Lafayette, Jon. 1987. Jofu asks consumers to go 'beyond yogurt.' *New York Post.* May 19.
• ***Summary:*** Brief history of Metzger's work. Tomsun Foods Intl. had sales of $3.1 million last year. The Jofu ad campaign says "It's time to go beyond yogurt." Tomsun will spend $1.3 million on radio and newspaper advertising to introduce Jofu. Metzger hopes company sales will rise to $5 million this year.

8017. Hoffman, Sandy. 1987. Details on the Roper poll showing tofu is America's most hated food (Interview). *SoyaScan Notes.* May 20. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** This survey was conceived of and paid for by The Roper Organization, largely as a fun consumer interest item to get some publicity for Roper. It was conducted in April-May 1986 and published in July 1986 in Roper Reports, which is published 10 times a year; a subscription costs $22,000/year. This survey interviewed 2,000 adults nationwide over age 20 in their homes. They were given a list of 17 foods that various people say they dislike. "Would you please read down the list and call off those foods, if any, which you personally hate to eat in any form because you dislike them." Some 35% of the respondents mentioned

© Copyright Soyinfo Center 2013

tofu, making it "America's most hated food." Other hated foods included liver (34%), yogurt (29%), Brussels sprouts (28%), lamb (24%), prunes (24%), spinach (22%), and lima beans (22%). The rest were single digits. Some 19% of the respondents had no foods they disliked.

Demographically, there was no significant differences in tofu dislike by age; both younger and older people disliked it about equally. Those with higher incomes disliked it slightly less.

Roper has an omnibus, which is hooked to every survey, composed of numerous questions. Any organization can submit one question at a cost of $1,800 and the results are for that organization's eyes only.

Roper and Gallup were founded in the early 1930s as a market research firm. Address: The Roper Organization, 205 E. 42nd St., New York, NY 10017. Phone: 212-599-0700.

8018. Burum, Linda. 1987. Rosebrock's tofuburgers. *Los Angeles Times.* May 31. p. 95-96.
• ***Summary:*** If you think the words tofu and burger don't belong in the same sentence, sample Rosebrock's tofuburgers before making your decision final. These subtly seasoned, meatless patties are good by themselves and even more delightful in various presentations. Try the pestoburger. (Rosebrock's has hosted numerous pesto contests with renowned local chefs, and they do known their pesto.) Or sample the knock-your-socks-off garlic sauce on the Maliburger. The whole-wheat rolls are substantial yet not too heavy. And should you show up with someone for whom meaty meals are required, Rosebrock's does a mean chickenburger. Rosebrock's Tofuburger Cafe, 1697 Pacific Ave., Venice, California, (213) 450-9169. Open daily.

8019. Asano, Mitsuo; Okubo, K.; Igarashi, M.; Yamauchi, F. 1987. Tôfu no hinshitsu ni oyobosu dappaijiku oyobi namashibori no eikyô [Effects of removing the seed coat and hypocotyl, and pressing without heating, on the quality of tofu]. *Nippon Shokuhin Kogyo Gakkaishi* (*J. of the Japanese Society of Food Science and Technology*) 34(5):298-304. May. [17 ref. Jap; eng]
• ***Summary:*** Soybean glycosides (saponin A group, B group, daizin [daidzin], and genistin), which give an undesirable bitter or astringent taste, are found in the soybean hypocotyl. The effects on the quality of tofu of removing the seed coat and hypocotyl, and pressing the tofu without heating, to remove the glycosides, were studied using texture profile analysis, scanning electron microscopy, transmission electron microscopy, and sensory evaluation. Tofu made only from cotyledons was firmer than that made from whole soybeans. Oil droplets were evenly dispersed in cotyledon tofu, whereas they cohered in whole soybean tofu and seemed to impart an oily taste. The saponin fractions were analysed by thin layer chromatography and high performance liquid chromatography. The most undesirable component (saponin A group) was less in cotyledon tofu than in whole soybean tofu. Cotyledon tofu received a higher sensory evaluation score (based on color, taste, and texture) than whole soybean tofu. Therefore tofu makers should consider removing the soybean hypocotyl before making tofu. Address: Faculty of Agriculture, Tohoku Univ., Amamiya-machi, Tsutsumi-dori, Sendai-shi, Miyagi 980, Japan.

8020. **Product Name:** Tofu Spreads [Tofu La Mexicana, Tofu Smoked Bluefish].
Manufacturer's Name: Blue Twine Farm.
Manufacturer's Address: Polly Dan Road, Burlington, CT 06013. Phone: 203-589-3593.
Date of Introduction: 1987. May.
Ingredients: Tofu La Mexicana: Tofu, cream cheese, jalapeño peppers, dehydrated bell peppers, fresh garlic, sea salt, spices.
Wt/Vol., Packaging, Price: 8 oz, 1 lb and 2 lb plastic tubs with pressure sensitive labels.
How Stored: Refrigerated, 3-5 week shelf life.
New Product–Documentation: Karen E. Olson. 1988. Bristol Press (Connecticut). Sept. 19. p. 1, 5. Cipah Shapiro makes tofu spreads using herbs grown in her organic garden. She produces 40-50 lb/week of spreads.

Talk with Cipah Shapiro. 1988. Dec. 28. She has been an organic gardener for many years. She started making these products in the fall of 1983. Most contain cheeses. Two of her products are sold year-round (Tofu La Mexicana and Smoked Bluefish), then there are six new flavors each season, for a total of 26 products a year. All labels contain a calorie count. She buys her tofu from Nasoya. She wants to keep the business small, for her enjoyment and to keep quality high.

Letter with Labels sent by Cipah Shapiro. 1988. Dec. 29. Gives the date that each product was introduced. "By early 1987 I made the 'Tofu Smoked Bluefish' and 'Tofu La Mexicana' available on a year-round basis."

8021. Chikaarashi, Shigeru. 1987. Tônyû seizô ni kôteki na shokuhin no seihô to seizô sôchi [The process and equipment used for making an ideal foodstuff for use in producing tofu]. *Japanese Patent* 61-48900. 1,378,742. 3 p. [Jap]
• ***Summary:*** A patent for making whole (non-defatted) soy flakes, which can then be used in making soymilk or tofu. The last page contains a detailed diagram of the equipment. Address: Shin-Kotoni 6-jô, 2-6-17, Kita-ku, Sapporo, Japan.

8022. **Product Name:** Tofulicious Chocolate Covered Dessert Bars (Soy Ice Cream Novelties) [Dutch Chocolate, or Vanilla Almond].
Manufacturer's Name: Eastern Foods, Inc.
Manufacturer's Address: 3235 E. Hennepin Ave., Minneapolis, MN 55413.
Date of Introduction: 1987. May.

© Copyright Soyinfo Center 2013

Ingredients: Vanilla Almond: Water, corn sweeteners, partially hydrogenated soybean oil, tofu (soybeans, water, calcium sulfate), isolated soybean protein, tapioca dextrin, natural flavors, calcium carbonate, microcrystalline cellulose (cellulose gel), cellulose gum, mono and diglycerides, carrageenan. Coating: Coconut oil, sugar, cocoa, cocoa (alkali treated), lecithin, vanillin.
Wt/Vol., Packaging, Price: 2.5 fluid oz bar, 10 fluid oz per package, in paperboard carton.
How Stored: Frozen.
Nutrition: Per 2.5 oz. bar: Calories 180, protein 2 gm, carbohydrate 16 gm, fat 12 gm, sodium 28 mg. 11% of RDA for calcium.
New Product–Documentation: Labels. 1987. Paper box. 2 by 4 by 7 inches. Full color. Four bars per box. "Non-Dairy Frozen Dessert. No Cholesterol & Lactose Free. Great Taste... That's Good for You." Kingma. 1987. Soya Newsletter. 1(3):10. Talk with Mr. Lee. The product was introduced in May 1987.

8023. *Florida Grocer* (*Miami, Florida*). 1987. Products and partners [Simply Natural, Inc.]. May.
• ***Summary:*** "Principals Bob Pirello and Christina Hayes who founded Simply Natural, Inc. are shown with a variety of new tofu-based products, including a patented "Tofu Cheese," fresh frozen Tofu Pastas, and miso based salad dressings." The products are all non-dairy.

8024. *Florida Restauranteur* (*Hollywood, Florida*). 1987. David Mintz. The Prince of Tofu. May.
• ***Summary:*** "In 1972, while searching for a milk substitute for kosher desserts, pastries, pies, and sauces, David Mintz discovered this soy bean product... For nine years, Mintz worked in the back kitchen of his store creating tofu recipes. After developing a cookbook full of dishes using tofu... Mintz invented Tofutti, which he introduced to the public in 1981."

8025. *Food Trade News* (*Ardmore, Pennsylvania*). 1987. Tofu cheese maker is growing simply naturally. May.
• ***Summary:*** Simply Natural formally opened in October 1986. Bob Pirello, while vice president of a major Philadelphia advertising agency, had run a natural foods catering service and taught macrobiotic and natural foods cooking. Christina Hayes worked for 3 years as a graphic designed for a major Miami advertising agency and 3 years as owner-operator in food advertising and package design. Tofu cheese, now patented, involves an aging process. It is now sold in many chain stores.

• ***Summary:*** Bernie began producing tofu in 1980. Now he also makes soy sprouts and soymilk. Born in Laos, he was named the 1986 Alaskan Minority Small Business Person of the Year. Address: Alaska.

8027. **Product Name:** Light & Creamy Blue Cheese Dressing (Originally Called Golden Soy Tofu Blue Cheese Salad Dressing).
Manufacturer's Name: Golden Soy Foods Inc.
Manufacturer's Address: P.O. Box 495, Athens, OH 45701.
Date of Introduction: 1987. May.
Ingredients: Organic tofu (water, organic soybeans, calcium sulfate), soy oil, real dairy blue cheese, water, apple cider vinegar, raw honey, nutritional yeast, dried onion, salt, vegetable gum, spices.
Wt/Vol., Packaging, Price: 16 fluid oz (1 pint) glass jar retails for about $3.40.
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Per 1 tablespoon (19 gm): Calories 50, protein 2 gm, carbohydrates 2 gm, fat 4 gm, sodium 120 mg.
New Product–Documentation: Product Alert. 1987. April 27. "Golden Soy Tofu Blue Cheese Salad Dressing." News release. 1987. Aug. 12. "Cholesterol free, low calorie, low fat." Label. 1987. 10 by 2.5 inches. Light blue, dark blue, yellow, and white. "Low cholesterol. Low fat. Low sodium. Rich and creamy. All natural. No preservatives."

8028. **Product Name:** Light & Zesty Onion Dip (Originally Called Golden Soy Onion Dip).
Manufacturer's Name: Golden Soy Foods Inc.
Manufacturer's Address: P.O. Box 495, Athens, OH 45701.
Date of Introduction: 1987. May.
Ingredients: Organic tofu (water, organic soybeans, calcium sulfate coagulants), water, dried onion, soy oil, apple cider vinegar, shoyu (water, soybeans, wheat salt), raw honey, whole wheat flour, nutritional yeast, dried parsley, salt, vegetable gum, spices.
Wt/Vol., Packaging, Price: 16 fluid oz (1 pint) glass jar retails for about $3.40.
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Per 1 tablespoon (19 gm): Calories 45, protein 1 gm, carbohydrates 2 gm, fat 3 gm, sodium 170 mg.
New Product–Documentation: Product Alert. 1987. April 27. "Golden Soy Onion Dip." News release. 1987. April 20. The product will be released in May. News release. 1987. Aug. 12. "Cholesterol free, low calorie, low fat." Ads in Natural Foods Merchandiser. 1987. Oct. p. 35. Label. 1987. 10 by 2.5 inches Blue, gray-green, yellow, and white. "Dairy free and no cholesterol. Delicious dip for vegetables & chips. All natural. No preservatives."

of food films and their application]. *Shokuhin Kogyo* (*Food Industry*) 30(10):26-31. May. [Jap]
• ***Summary:*** The films contain, for example, tofu, soybean oil, rice flour, fish tissues, spinach, or curry powder. Address: Japan.

8030. Jacobs, Barbara; Jacobs, Leonard. 1987. Cooking with seitan: Delicious natural foods from whole grains. New York, NY: Japan Publications. 256 p. Foreword by Aveline Kushi. Index. 26 cm. [16 ref]
• ***Summary:*** "Seitan is cooked and flavored gluten that has been extracted from [high-gluten] wheat flour. It is very rich in protein, while being extremely low in fat and calories... The traditional Japanese way of seasoning seitan is to cook it in a broth using kombu sea vegetable, natural soy sauce, and fresh ginger root. This... is the one taken for granted as the 'standard seitan flavor' by commercial seitan makers and most people who are familiar with seitan. Many other mixtures of seasonings can be added to the basic seitan broth. Several earlier books on wheat gluten have been written, generally by Mormons.

This book offers you the history, nutritional information, a variety of preparation techniques, and hundreds of recipes that will allow you to convert wheat into a delicious and nutritious food. Especially suited for vegetarians who are interested in high-protein substitutes for animal foods.

Contents: Acknowledgments. Introduction: About wheat gluten, gluten, commonly asked questions about seitan. Getting started. Creating seitan from wheat flour (at home in 30-40 minutes). Using the seasonings. Additional methods of cooking. Appetizers. Soups. Main dishes and casseroles. Side dishes. Salads. Sauces, dressings and marinades. Condiments. Sandwiches. Desserts. From the pantry. Sample lunch and dinner menus. Appendix: 1. All about saving and using wheat starch. 2. Storing uncooked seitan. Storing cooked seitan. 4. Commonly encountered problems and some solutions. Nutritional information. Questionnaire for readers. About our ingredients (discusses natural soy sauce, and soymilk). Glossary (includes fu [dried gluten], miso, natural soy sauce or shoyu, soymilk, tamari, tofu). Bibliography.

Recipes containing soyfoods include: Miso soup with fu and wakame (p. 79). Miso-lemon dressing (p. 171). Tangy miso-tahini sauce (p. 180). Tofu spread with variations (p. 181). Seitan-tofu paté (p. 181-82). Tofu "feta cheese" (p. 192-93). Miso-tahini sauce or spread (p. 209).

When Michio and Aveline Kushi started the Seventh Inn Restaurant in Boston in 1971, they introduced seitan, a food that George Ohsawa had popularized in Japan, especially among macrobiotic people. Yumie Kono taught the chefs, one of whom was Lenny Jacobs, how to make seitan (p. 5).

The Introduction (p. 17-18) states: "Seitan is a food with a long history. Although not widely known in the West, it was traditionally eaten in China, Korea, Japan, Russia, the Middle East, and probably many other countries that grew wheat. In America, the Mormons and the Seventh Day Adventists made gluten and used it on a regular basis... The name *seitan* comes to us from the Japanese, who have prepared cooked wheat gluten for hundreds of years... Some natural foods industry insiders think seitan will become the 'tofu of the '80s.'

"Seitan was introduced to the U.S. natural foods industry about sixteen years ago [1970] when a Japanese variety, shrink-wrapped and quite dry and salty, was first imported. There had been several other varieties available from vegetarian groups, primarily the Seventh Day Adventists and the Mormons. Chinese restaurants have also been preparing wheat gluten for many years. The Chinese call it *mien ching,* or *yu mien ching.* Chinese restaurants often refer to it as 'Buddha Food,' claiming that it was developed by Buddhist monks as a meat substitute. There is also a dried wheat gluten available in Oriental food markets called *fu* by the Japanese and *k'ao fu* or *kofu* by the Chinese."

In the USA, about 130,000 pounds of seitan are made each year. The market is growing rapidly. Current U.S. seitan manufacturers are: 1. Upcountry Seitan in Lenox, Massachusetts, the largest known producer in America, which makes about 600 lb/week and distributes it in 6 states. The company, started about 3½ years ago (counting from Jan. 1987, i.e. founded in about mid-1983) by Win Donovan, is now owned and operated by Wendy Rowe and Sandy Chianfoni. They get a yield of 1.33 (i.e. 90 pounds of flour result in 120 pounds of seitan). 2. Rising Tide Natural Market in Long Island, New York. Michael Vitti has been making seitan for 6 years. About 1/3 of his production is bought by another company for use in making sandwiches. 3. Grain Dance in San Francisco, California. Ron Harris has been making seitan for 8 years and is currently selling 250 lb/week in 8 oz. packages. 4. Creative Kitchens in Miami, Florida. Yaron Yemini has been making seitan for 3 years. and has seen a 5-fold increase during this time. He now makes 120 lb/week. His yield is 0.7. 5. The Bridge in Middletown, Massachusetts. The company was founded in March 1981 by Roberto Marrocchesi and Bill Spear. They were making seitan by Oct. 1982. Steve Lepenta now makes 400 lb of cooked seitan each week and claims that sales have doubled in the past two years. 6. Maritime Foods in Portland, Maine. Rosemary Whittaker makes 50 lb/week of seitan. 7. Real Foods of Towson, Maryland. Sharon Warren has been making seitan for 6 years and now makes 150 lb/week.

Reviewed by Linda Elliot in East West. June 1987, p. 94. Note: Talk with Lenny Jacobs. 1990. Sept. 10. There has been little growth in the U.S. seitan industry since the book was published in May 1987. Problems with price and quality. If seitan is frozen, after defrosting it can become spongy and soggy. Address: Massachusetts. Phone: 617-232-1000.

May.
• ***Summary:*** Discusses tofu standards, Brightsong Foods, Nasoya Foods, Clofine Dairy & Food Products, Soyco Foods (Div. of Galaxy Cheese, P.O. Box 5181, New Castle, Pennsylvania 16105), St. Peter Creamery Inc. (Div. of Oberg Foods, 119 W. Broadway, St. Peter, Minnesota. Makes spray dried tofu powder from soymilk coagulated by adding calcium sulfate. Its protein level is 38% and moisture is 5% maximum. pH is 6.7–7.0% in a 10% solution. Fat is about 18%). ADM, Ralston Purina, Rose International, Soyatech.

Soyco Foods makes Soymage, "a new cheese alternative," which is casein free and non-dairy. It is sold in four flavors: Cheddar, Mozzarella, Monterey Jack, and Jalapeno. "It has a light texture and shreds and slices readily." The ingredients and packaging information are given. The company has been making a cheese substitute named Fromage (TM), based on casein and soy oil, which comes in about 20 flavors. Soymage was developed for people who want a completely non-dairy cheese substitute.

Photos show: Tomsun Jofu (in the carton and in a dish ready to eat). Nasoya creamy tofu dressing (3 flavors in bottles). Address: Chicago, Illinois.

8032. **Product Name:** [Regular Tofu, Herb Tofu, and Tofu with Dehydrated Vegetables].
Foreign Name: Tofu Nature, Tofu Fines Herbes, Tofu au Legumes.
Manufacturer's Name: Les Aliments Tarasoy Ltée (Tarasoy Foods Ltd.).
Manufacturer's Address: 3455 Local D rue Isabelle, Brossard, QUE J4Y 2R2, Canada. Phone: 514-659-6586.
Date of Introduction: 1987. May.
Wt/Vol., Packaging, Price: 450 gm vacuum pack.
How Stored: Refrigerated.
New Product–Documentation: Talk with Helen Wan, sales manager. 1995. May 26. This was one of the company's first products, launched in the spring of 1987. The vacuum packaging gives the product a longer shelf life. Regular (plain) tofu is now the company's number 2 best-selling product.

8033. Madison, Deborah; Brown, Edward Espe. 1987. The Greens cookbook: Extraordinary vegetarian cuisine from the celebrated restaurant. Toronto and New York: Bantam Books. xx + 396 p. Index. 26 cm. [37 ref]
• ***Summary:*** Contents: Foreword, by Marion Cunningham. Introduction by Deborah Madison. Preface to the recipes by Edward Espe Brown. Salads. Soups and stocks. Sandwiches and breads. Pizzas. Pasta. Gratins, stews, and casseroles. Tarts and timbales. Filo pastries, fritattas, crepes, and roulades. Companion dishes. Sauces, relishes, and butters. Desserts. Appendix: Seasonal menus, wines and vegetarian food, glossary of ingredients (incl. nutritional yeast, miso {red miso, white miso}, tamari and soy sauce), useful kitchen tools, bibliography.

Soy-related recipes include: Miso soup (p. 63). Grilled tofu sandwich (p. 121). Tofu salad sandwich (p. 122). Vegetable brochettes with marinated tofu (p. 302). Marinated tofu (with "1 or 2 packages firm tofu, 14 to 18 ounces each" and "½ cup tamari soy sauce," p. 304).

8038. *Technocrat* (*India*). 1987. Great Shake: Soya milk success. May. *
• ***Summary:*** "On the 27th of April, Noble Soya, a company promoted by Godrej, launched its premium Milk Shake–Great Shake, in Bombay. After promising feedback from both Delhi and Pune markets, Dr. A.S. Alyar, the brain behind the concept, is very hopeful that it will be a hit in this market, too." Great Shake is soya milk that is flavoured. The soyamilk is processed using Kibun's special deodorizing process. Soymilk can be used whenever dairy milk is used and has a wide range of applications. It can also be processed into products such as tofu, a soft cheese. Tofu provides a base for a variety of snack foods such as tofu burger, tofu scramble, tofu ice-cream and others. Soyamilk can be used to make desserts and puddings.

8039. **Product Name:** Tofu, and Tofu Spread.
Manufacturer's Name: Tousoy Ltd.
Manufacturer's Address: 65 Weston Park, Hornsey, London N8 9TA, England.
Date of Introduction: 1987. May.
New Product–Documentation: Letter from Mrs. C. Tong. 1987. March and May. Letter from Simon Bailey. 1988. Oct. 10. The company now also makes a tofu spread.

8040. Tremblay, Yvon. 1987. Le tofu en restauration et institution [Tofu in restaurants and institutions]. *Restocafe–Quebec* 1(8):5. May. [Fre]
• ***Summary:*** The author argues for wider use of tofu in these places. Address: Quebec, Canada.

8041. **Product Name:** Tofunaise (Non-Dairy, Eggless Mayonnaise).
Manufacturer's Name: White Wonder Natural Products (Importer). Made in the Netherlands by Witte Wonder.
Manufacturer's Address: 709 7th St., Hudson, IA 50643. Phone: 319-988-3811.
Date of Introduction: 1987. May.
Ingredients: Tofu, sunflower oil, malt syrup, apple vinegar, mustard, sea salt, guar vegetable binder.
Wt/Vol., Packaging, Price: Glass jar.
New Product–Documentation: Soya Newsletter. 1987. Nov/Dec. p. 6. Talk with Ruth Young. 1988. Sept. 15. The product was first sold in America in May 1987. It is imported from Witte Wonder in the Netherlands. Leaflet (glossy color, 2 panels each side, each panel 10 x 14 cm). 1988. Nov. "Tofunaise." Product Alert. 1989. Jan. 23.

8042. Pozel, Lynda. 1987. Local products: Unique to the north coast. *Tri-City Weekly, Northern Humboldt edition.* June 9.
• ***Summary:*** Matthew Schmit started making tofu in Colorado in 1977 after tasting it for the first time when he was in Arcata visiting his sister. Later when he moved to this area planned to leave tofu-making behind him. But being unable to find work, he evaluated his skills and turned, once again, to tofu making–a decision he seems pleased he made. He puts in 50-60 hours a week. And he *does* make tofu, turning over a ton of organic soybeans into 7,000 pounds of tofu each and every month. About 2,000 pounds of the tofu produced is turned into salads, dessert, sausage, patties, and cutlets. Most of the 7,000 pounds of tofu produced each month is sold in Arcata and Eureka. Tofu lovers all have their favorite ways to use tofu, Matthew's personal favorites are baked, marinated cutlets and tofu burgers. Address: [Nutritionist, Arcata Co-op].

8043. Daum, Peggy. 1987. Stable staple: LA firm touts tofu that stays fresh on the supermarket shelf. *Journal* (*Milwaukee, Wisconsin*). June 10.
• ***Summary:*** Julia Weinberg [sic, Steinberg], who runs a food styling business, is traveling on behalf of Morinaga Nutritional Foods of Los Angeles. Generally people first think of using tofu in stir-fry recipes. But she has developed recipes for Creamy Tofu Tarragon Salad Dressing or Dip, Eggless Salad, and Tofu Burgers. A photo shows Steinberg, who visited Milwaukee to talk about tofu.

8044. *Soybean Update.* 1987. American Soybean Association and three Indonesian groups organizing soyfoods workshop in Jakarta July 16 to promote first class image for soyfoods. June 15. p. 3.
• ***Summary:*** The Indonesia Hotel and Restaurant Association, the Food and Beverage Association, and the University of Trisakti are joining forces with ASA. Staff from leading hotels, restaurants, and caterers are expected to attend. They will learn innovative ways to incorporate soyfoods such as tempeh and tofu into menu items. First class restaurants rarely feature soyfoods.

8045. Kuwata, Tamotsu; Suginaka, Yutaka; Ohtomo, Hideo. Assignors to Meiji Milk Products Company Ltd. (Tokyo, Japan). 1987. Method of producing calcium-enriched aseptic soy bean curd. *U.S. Patent* 4,673,583. June 16. 7 p. Application filed 21 Feb. 1986.
• ***Summary:*** Note: This is Japanese Patent 85-069105. In this new coagulation system, the coagulant is introduced in the pre-sterilization process and results in a calcium enriched aseptic tofu. The new coagulant is a $Ca(OH)_2$-sucrose addition compound named calcium saccharate. It serves as an alternative to glucono delta lactone (GDL) or bittern (magnesium chloride and magnesium sulfate). It allows aseptic processing of the curd without flavor loss or texture deterioration. In a given sample, 30-100 mg per 100 gm calcium saccharate is added to soymilk, the resulting curd is sterilized and the pH adjusted to 5.7–5.9 with citric or ascorbic acid. The curd is then filled into containers, which

© Copyright Soyinfo Center 2013

are sealed and heated for 20-60 minutes at 75-95ºC. Address: Japan.

8046. Kennedy, Shawn G. 1987. A soy-based business flourishes in Brooklyn [Appropriate Foods]. *New York Times.* June 24. p. C6.
• ***Summary:*** Robert Werz, a carpenter, started making tempeh patties in a corner of the kitchen of a friend's catering business. After 6 months he set up in Nassau County. Today, with 6 employees, he produces about 10,000 lb/month of tempeh. Half is sold to health food distributors and half delivered to 100 stores in Metro New York. The company also makes soymilk and tofu products (quiches, tortellini, and salads). In March the company moved from Franklin Square, Long Island, to an East Brooklyn Industrial Park; there was more space at lower rent.

When Mr. Wertz became a vegetarian more than 14 years ago [i.e., before 1970], the only place he could buy tofu was in Chinatown. Appropriate Foods is owned by Robert Werz and Shelley Martin.

8047. Probber, Jonathan. 1987. The soybean eaters: Everybody is a suspect. *New York Times.* June 24. p. C1, C6. Living section.
• ***Summary:*** Central Soya has $1,370 million annual sales. L.D. Williams, head of the chemurgy division, recalled the early 1970s. "Positioning textured soy protein as an extender was a mistake which set the industry back. The cost saving image just didn't fly." Dan Reuwee of the American Soybean Assoc. notes: "We haven't done much in this country on promoting soy foods, because the livestock industry is our biggest customer. We don't want to promote meat substitutes."

Worthington Foods Inc. (of Worthington, Ohio) has yearly sales of $34 million. The Morningstar Farms line accounts for 55-60% of total sales, has grown at 15-18% over the past 4 years, and is sold in 80% of U.S. supermarkets. Their market is divided between those age 50 and over having cholesterol concerns and those age 25 to 40 who don't eat meat.

William Shurtleff is director of Soyfoods Center, a "clearinghouse for information on soy products" in Lafayette, California. He believes that tofu will follow the same growth pattern that yogurt did in the USA, building slowly then growing rapidly when larger food companies begin to apply their marketing clout. Tofu is a $75-$100 million/year industry growing at about 15% a year, according to Shurtleff.

8048. Probber, Jonathan. 1987. "Tofu Trust" in Indiana is a cottage industry [Zakhi Soyfoods, Inc.]. *New York Times.* June 24. p. C6.
• ***Summary:*** Victor and Doris Zakhi of Fort Wayne have produced tofu for 6 years. They now make 840 lb/week, plus tofu salad, hamless salad, tofu Reuben, and a scrapple-like breakfast product. They have invested $110,000 in their company.

8049. Dobkin, William S. 1987. Kensington executive pioneers tofu product [David Alan Kirsch and Jofu]. *Great Neck Record* (*New York*). June 25.
• ***Summary:*** In 1969, when the FDA banned cyclamates, Kirsch was president of No-Cal. He sold the company to Canada Dry. Now he is vice president in charge of marketing for Tomsun Foods International, Inc.

8050. *Los Angeles Times.* 1987. Mori-Nu Tofu is food choice for runner in quest of record on 2,000 mile course. June 25.
• ***Summary:*** Mary Margaret Goodwin, an ultra-distance athlete, will run 2,000 miles alone in the Himalayan foothills. "Goodwin, a long-time tofu advocate and vegetarian, has been named director of the Mori-Nu Health For Life Club." A photo shows Goodwin with Yasuo Kumoda (general manager of Morinaga) and Arthur Mio (national sales manager).

8051. Asinof, Richard. 1987. Raising cash through connections. Tomsun's ploy: Food industry stars who believe in tofu. *Venture.* June. p. 82-83.
• ***Summary:*** The stars are Juan E. Metzger, founder of Dannon Yogurt, and David Alan Kirsch, former president of No-Cal Corp. With their help Tomsun, in 14 months, raised $750,000 in private placements of stock to 40 individuals, and $4.5 million in an IPO held in December 1986. Metzger and his father, Swiss immigrants, started Dannon in the Bronx, New York, in 1942 with another partner. In 1959 Beatrice Foods gave $3 million in stock for the company. Metzger left in 1981, and got together with Timmins in 1982. Tomsun had lost money in 3 of its first 5 years. Much of its operating capitol came from a $200,000 infusion (half of which was a loan) in 1980 from a state funded agency, Massachusetts Community Finance Corp. Metzger now owns 9% of Tomsun and receives a $60,000 salary.

8052. **Product Name:** [Soybean Spread with Herbs].
Foreign Name: Soja-Aufstrich Kraeuter.
Manufacturer's Name: Christian Nagel Tofumanufaktur.
Manufacturer's Address: Osdorfer Landstrasse 4, D-2000 Hamburg 52, West Germany.
Date of Introduction: 1987. June.
Ingredients: Soybeans* (*Sojabohnen**), onions*, sea salt (*Meersalz*), herbs (*Kraeuter*), lactic acid bacteria (*Milchsaeurebakterien*), sunflowerseed oil (*Sonnenblumenoel*). * = Organically grown.
Wt/Vol., Packaging, Price: 200 ml.
How Stored: Refrigerated.
New Product–Documentation: Label. 1988. 3 by 2 inches. Black on white. This product is made from Soja Quark. Note

© Copyright Soyinfo Center 2013

that on 1 Aug. 1986 the company moved to this new address in Hamburg.

8053. **Product Name:** [Smoked Tofu].
Foreign Name: Geraeucherter Tofu. Renamed Tofu–Geräuchert by Dec. 1989].
Manufacturer's Name: Christian Nagel Tofumanufaktur.
Manufacturer's Address: Osdorfer Landstrasse 4, D-2000 Hamburg 52, West Germany. Phone: 040/89 49 37.
Date of Introduction: 1987. June.
Ingredients: Tofu aus kontr. biolg. Anbau, Meersalz, Buchenrauch [beech smoke].
Wt/Vol., Packaging, Price: 250 gm.
How Stored: Refrigerated.
Nutrition: Per 100 gm: Calories 72, protein 8.5 gm, fat 4.5 gm, carbohydrate 1.5 gm.
New Product–Documentation: Form filled out by Christian Nagel. 1988. Jan. Product was introduced in June 1987. They are now making 400 kg/month. Label. 1988. 2.3 by 3 inches. Brown on white.

Label sent by Anthony Marrese after visit to Christian Nagel in Hamburg. 1989. Dec. Named *Tofu–Geräuchert.* Nicely printed self-adhesive label. 7 x 8.5 cm. Black, blue, green and beige on white. 250 gm.

8054. Diamond, Harvey; Diamond, Marilyn. 1987. Living health. New York, NY: Warner Publications. xviii + 446 p. Index. 24 cm. [423* ref]
• ***Summary:*** This extensively documented, hardcover book, published by Warner after *Fit for Life*, became *Fit for Life II.* It is a book based on the philosophies of Natural Hygiene and a vegan diet, free of all animal products, and rich in fresh fruits and fruit juices. In the process, the author's negative attitude toward tofu (expressed in *Living Health*) changed into a positive one. They found that tofu was a very alkaline food.

At Acknowledgments: "Special mention must also be made of the great health reformers, our mentors and predecessors, who under extreme pressure and persecution fought the battle for freedom of choice in health care: Isaac Jennings, Russell Trall, John H. Tilden, Sylvester Graham, Florence Nightingale, Herbert M. Shelton, and all those others far too numerous to mention."

Concerning tofu, in the chapter titled "Questions frequently asked," Harvey Diamond writes: "What about tofu? There is good news and bad news. You know why tofu has no smell and no flavor unless you add garlic, onions, tamari, etc.? Because it is processed at a heat so intense that nothing alive could possibly survive and the process is repeated *three times!* Tofu is absolutely devoid of any nutrients whatsoever. The contention that tofu is a good source of protein is as truthful as the contention that the moon is made of green cheese. Now the good news. People generally eat tofu because they are trying to move away from flesh foods and tofu helps them do that. *Great!* Tofu is so much less harmful than flesh foods that I would wholeheartedly support you in doing so. But do so with the idea in mind that you will eventually give up tofu as well, or at least cut back on it. It is merely a filler food. Just as with meat, tofu should not be eaten more than once a day, and should be properly combined."

The book also contains a recipe for Miso and vegetables soup (p. 376-77). In the index, there is no listing for soy- (including soymilk or soy sauce), tamari, or tempeh.

Chapters 2 and 3 tell about the authors (autobiographical): Harvey was born in 1945. He had severe stomachaches and frequent colds starting when he was a child. He was extremely thin. From age 18-22 he served in the U.S. Air Force and his last year of duty was spent in Vietnam. His weight ballooned up to 202 pounds but his piercing stomachaches did not go away. His father died of stomach cancer at age 57. At this turning point, Harvey decided to devote all his time to learning about how to become healthy. After long searching, he discovered Natural Hygiene in 1970 in Santa Barbara, California. In one day, after learning the one simple principle of proper food combining, his stomachaches went away (they have never returned) and he soon lost 50 pounds. "So I studied Natural Hygiene on my own, reading every book I could get my hands on pertaining to the subject and involving myself with people in Santa Barbara who had incorporated its principles into their life-styles. Three years later I established myself in Los Angeles, continuing my studies while I counseled people informally on Natural Hygiene... After eight years of independent study much to my excitement and delight, a complete course on Natural Hygiene principles finally became available in 1978" from the American College of Health Science. In Feb. 1983 Harvey received his PhD in nutritional science from this unaccredited college.

Marilyn was born in about 1944. Starting in the 1950s she began to suffer severely from a spastic digestive tract. At age 20 she underwent knee surgery in New York, a turning point in her search for health. By the time she was in her mid-twenties, she was married with two children, but the pain from her stomach spread to her back, so she began to take the painkiller Valium regularly. In 1971 she moved from New York to Los Angeles and began to change her lifestyle and diet. "I used whole grains, cut down on alcohol, and became very uncomfortable with my dependency on Valium." So she stopped taking the drug. In 1975 she met Harvey in Venice, California, where he was working at a produce store. She was ill and desperate, having suffered for over two decades with her digestive tract pain. Two months later they were married, and later they had a child. After going through a painful process of detoxification and withdrawal from Valium, Marilyn became the picture of health.

8055. Golbitz, Peter. 1987. Tofu producers face increased competition, low prices. Growth for most companies slow but steady. *Soya Newsletter* (*Bar Harbor, Maine*). May/June. p. 5, 7, 9.
• ***Summary:*** Profiles of Tomsun Foods (excluding Jofu, they made 60,000 lb/week of tofu in 1986, 61,500 in 1987, 80% sold in supers, $0.99-1.19/lb), Nasoya Foods (42,000 in 1986, est. 65,000 in 1987; 70% in supers at $0.99/lb), Sam Sung (45,000 lb/week; 50% in supers), Swan Gardens, Mu Tofu (retail price: $1-1.25/lb, 60% in natural/health food stores), White Wave ($0.89-$1.20/lb, 60% to supers), Azumaya (150,000 lb/week, up 12% over 1986, 90-95% to supers, $0.69-79/lb), Hinoichi (125,000 lb/week, growing at 5% per year; $1.00/lb), Morinaga (sales have more than doubled since Oct. 1984 and are close behind those of Azumaya and Hinode, 50% in supers, 45% in Oriental markets, 5% in natural/health food stores, $1.43/lb), Quong Hop (50,000 lb/week, mostly to natural/health food stores).

This study does not attempt to estimate the size of the U.S. tofu market, but does forecast slow, steady growth. "In summary, overall sales of plain tofu in the near future should look very much like the recent past–slow and steady growth at approximately 10% a year. More small companies will go out of business or will be absorbed by larger manufacturers, and larger companies will increase the size of their markets from local to regional and from regional to national." Address: Soyatech, Bar Harbor, Maine.

8056. Johnson, Kirk. 1987. Hidden fats in whole foods diets. *East West.* June. p. 62-68.
• ***Summary:*** A full-page table (p. 65) titled "How the substitutes stack up" shows total fat and serving size for the following categories: Dairy products. Substitute dairy products. Meat. Substitute meat products. Frozen dinners. Miscellaneous. The substitute dairy products include: Tofu Cream Chie (21st Century). Soya Kaas (soy cheese from American Natural Snacks). Tofutti (Tofu Time). Le Tofu (Brightsong Foods). Ice Bean (Farm Foods). Tofu, silken (Nasoya). Tofu, soft (Nasoya). Tofu, firm (Nasoya). Soybean margarine (Willow Run). Soymilk (Edensoy). Soymilk (Health Valley). Soymilk (Vitasoy).

Substitute meat products include: Fakin' Bacon (Tempehworks). Tofu Wieners (Yves). Tofu Pups (Tempehworks). Vegie Burger (Bud, Inc.). Tofu Burger (Bud, Inc.). Gardenburger (Wholesome & Hearty). Tofu Sausage (Vegetable Protein Co.). Tempeh, 3-grain (Tempehworks). Seitan ("wheat meat").

Meatless frozen dinners include: Tofu Lasagna (Legume). Meatless Pepper Steak with Kofu & Noodles (Legume). Sweet and Sour Tofu (Legume).

Miscellaneous products include: Nasoyannaise (Nasoya Foods). Salad dressing, Creamy Tofu (Nasoya). Miso.

8057. **Product Name:** [Jonathan Tofunaise (Tofu Mayonnaise, Natural and Lemon)].
Foreign Name: Jonathan Tofunaise (Natuur, Nature and Citroen, Citron).
Manufacturer's Name: Jonathan P.V.B.A.
Manufacturer's Address: Antwerpsesteenweg 336, B-2080 Kapellen, Belgium. Phone: 03-664 58 48.
Date of Introduction: 1987. June.
Ingredients: Tofu (soya proteins)*, virgin sunflower oil*, corn syrup, apple vinegar, mustard, sea-salt, guar, saffron. * = Organically grown.
Wt/Vol., Packaging, Price: 300 gm glass jar.
Nutrition: Proteins 7 gm, fats 28 gm, glucides 7 gm, salt 0.32 gm. 285 calories (Kcal) per 100 gm.
New Product–Documentation: Label. Received 1988. 7.5 by 2.5 inches. Glossy paper. Aqua, gold, and black on a white background with small, color photo of vegetables. Form filled out by Jos van de Ponseele. 1989. Jan. 11. This product was introduced in June 1987.

8058. **Product Name:** [Jonathan Dressing (Tofu, Hot, or Napoli)].
Foreign Name: Jonathan Dressing (Tofu, Hot, or Napoli).
Manufacturer's Name: Jonathan P.V.B.A.
Manufacturer's Address: Antwerpsesteenweg 336, B-2080 Kapellen, Belgium. Phone: 03-664 58 48.
Date of Introduction: 1987. June.
Ingredients: Tofu Dressing: Water, tofu (soya proteins)*, virgin sunflower oil*, malt barley syrup*, mixed vegetables, malt vinegar, sea-salt, natural lactic acid, garlic powder, mixed herbs, vegetable gum. * = Organically grown.
Wt/Vol., Packaging, Price: 300 gm glass jar.
Nutrition: Proteins 2.9 gm, fats 18.1 gm, glucides 3.6 gm. 189 calories (Kcal) per 100 gm.
New Product–Documentation: Label. Received 1988. 7.5 by 2.5 inches. Glossy paper. Green, gold, and black on a white background with small, color photo of vegetables. Form filled out by Jos van de Ponseele. 1989. Jan. 11. This product was introduced in June 1987.

8059. **Product Name:** [Jonathan Tofu Dressing].
Foreign Name: Jonathan Tofudressing (Soya).
Manufacturer's Name: Jonathan P.V.B.A.

Form filled out by Jos van de Ponseele. 1989. Jan. 11. This product was introduced in June 1987.

8060. Jonathan P.V.B.A. 1987. Jonathan, pioneer and trendsetter in the field of natural food (Leaflet). Kapellen, Belgium. 1 p.
• ***Summary:*** This is an English translation of the text of a press conference at the start of the company's campaign to make prepared meals based on seitan and tofu. Address: Antwerpsesteenweg 336, B-2080 Kapellen (near Antwerp), Belgium. Phone: 03-664 58 48.

8061. Kingma, Sharyn. 1987. Soy-based nondairy frozen desserts face hot competition. Marketers meet challenge with new products. *Soya Newsletter* (*Bar Harbor, Maine*). May/June. p. 1, 10-11.
• ***Summary:*** The market (wholesale value) grew from $2.6 million in 1983, to $21 million in 1985, with $22 million projected for 1987, or approximately $44 million at the retail level. This is less than 1% of the $5,000 million retail market for ice cream products. Companies profiled are Tofutti Brands, Barricini Foods, Eastern Foods, Brightsong, Tofu Today, Tofoods, Giant Foods, Soyworld (Hawaii). In 1986 Barricini sold about $2 million of Tofulite and $1 million of Ice Bean. Sales in 1987 are expected to be 3-5 times those in 1986. Address: Bar Harbor, Maine.

8062. Legume, Inc. 1987. Annual report. 170 Change Bridge Road A-4, Montville, NJ 07045. 14 p.
• ***Summary:*** For the fiscal year ended 30 June 1986, the company showed a net loss of $1.289 million on sales of $1.646 million. The previous year, the loss was $0.801 million on sales of $1.07 million. Gary and Chandri Barat are each earning $65,000 a year salary. Contains a history of stock offerings. Address: New Jersey.

8063. Lindner, Anders. 1987. An introduction to soybean uses. *North European Food and Dairy Journal* No. 6/87. p. 210-15. June. [Eng; Ger; Dan]
• ***Summary:*** Of the 95 million tons of soybeans produced worldwide in 1986, an estimated 75 million tons were crushed, 15 million tons were stock, and 5 million tons were processed without crushing to make human foods. Of the soybeans crushed, 54 million tons became meal and flour, while 13 million tons became oil. Oriental soyfoods can be divided into those originating from traditional soymilk (tofu, yuba, soybean drinks, okara) and fermented products (soysauce, tempeh, miso). Modern soymilk can be formulated to make dairylike products or concentrated by ultrafiltration to make a host of new products. Lists German and Danish names for all basic soyfoods. Each is described briefly. Advantages of using soybeans as a basis for products are discussed with emphasis on biotechnological advances. Address: Soya Technology Systems (STS), Ltd., Singapore.

8064. **Product Name:** [Tofu Noodles (Chinese, or Japanese Style)].
Foreign Name: Hosonuki Tôfu.
Manufacturer's Name: Machida Shokuhin.
Manufacturer's Address: Hisasawa 46-1, Fuji-shi, Shizuoka-ken, Japan. Phone: 0545-71-3833.
Date of Introduction: 1987. June.
Wt/Vol., Packaging, Price: 188 gm retails for 230 yen.
How Stored: Refrigerated.
New Product–Documentation: Toyo Shinpo. 1987. July 1. p. 6. Mr. Yukio Machida is the company president. The product was launched on 20 June 1987.

8065. **Product Name:** Spray Dried Soymilk (Sold to Food Processors).
Manufacturer's Name: Nasoya Foods, Inc.
Manufacturer's Address: 23 Jytek Park (P.O. Box 841), Leominster, MA 01453.
Date of Introduction: 1987. June.
Wt/Vol., Packaging, Price: 50 lb bags.
New Product–Documentation: Soya Bluebook. 1987. p. 98. Talk with John Paino. 1988. Feb. 15. This is a different product from their two types of spray-dried tofu. It is sold in 50-lb bags.

8066. **Product Name:** [Neo-Soya Powder {Finely Pulverized Whole Soy Flour from Dehulled Soybeans for Making Tofu}].
Manufacturer's Name: Nihon Soya Bean Powder Co. Ltd.
Manufacturer's Address: Kyoto, Japan.
Date of Introduction: 1987. June.
New Product–Documentation: Soya Newsletter. 1987. 1(3):6-7. This powder is used in the Showa Boeki Mini Tofu Plant.

8067. Okubo, Kazuyoshi. 1987. Tôfu no seizô-hô to sono bussei: Fukami seibun kyodô kara [Manufacturing method for and physical properties of tofu: Behavior of unpleasant taste components]. *Nyu Fudo Indasutori* (*New Food Industry*) 29(6):73-83. June. [25 ref. Jap]

• ***Summary:*** They manufacture second-generation tofu products and market and distribute many products made by others, including Quong Hop, Soyco (soy cheeses), Eastern Foods, White Wave, Tofruzen, Barricini (Ice Bean), Grainaissance Mochi, John's Juices, etc. Address: Santa Rosa, California.

8071. *Soya Newsletter* (*Bar Harbor, Maine*). 1987. Nasoya Foods' investment in new machinery pays off with increased sales. May/June. p. 8-9.
• ***Summary:*** Nasoya recently acquired a modern 22,500 foot facility and invested over $1 million in new, large-scale automatic tofu making equipment from Sato Shoji Co. in Japan. In June 1985 partners Paino and Bergwall journeyed to Japan in search of a new system. The system arrived in Feb. 1986 and was operational by May. The company's sales of tofu jumped nearly 50% from 1985 to 1986, and first quarter sales in 1987 are 60% higher than for the same period in 1986. Annual tofu production (in pounds): 1980 (600,000 lb), 1981 (625,000), 1982 (950,000), 1983 (1,144,000), 1984 (1,300,000), 1985 (1,560,000), 1986 (2,080,000), 1987 (3,400,000). The latter figure is 65,300 lb/week.

8072. *Soya Newsletter* (*Bar Harbor, Maine*). 1987. Mini tofu plant introduced to U.S. market [by Showa Boeki Co. Ltd. of Osaka, Japan]. May/June. p. 6-7.
• ***Summary:*** It uses a special whole grain soybean powder (called Neo-Soya Powder) in place of whole soybeans. The finely pulverized power yields a silken tofu with no okara.

8073. *Soya Newsletter* (*Bar Harbor, Maine*). 1987. [Who made America's first spray-dried tofu?]. May/June. p. 2. Letters to the Editor.
• ***Summary:*** "Clofine Dairy & Food Products, Linwood, New Jersey, began their first production run of tofu powder in October, 1983, and shipped their product soon thereafter. St. Peter Creamery first began spray-drying soymilk powder in late 1984, and began producing their spray-dried tofu powder during the summer of 1985. It appears that Clofine was first with the tofu powder by almost two years."

8074. **Product Name:** Soyco (Imitation Cheese Made with Tofu & Casein) [Mozzarella Style, Cheddar, Monterey Jack, Jalapeno].
Manufacturer's Name: Soyco Foods. Div. of Galaxy Cheese Co.
Manufacturer's Address: R.D. #3 Northgate Industrial Park, P.O. Box 5181, New Castle, PA 16105. Phone: 800-441-9419.
Date of Introduction: 1987. June.
Ingredients: Tofu, soy oil, casein, sea salt, citric acid, soy lecithin, guar gum.
Wt/Vol., Packaging, Price: 12 oz in plastic wrap.
How Stored: Refrigerated.
New Product–Documentation: News release from Soyco Foods. 1987. June. "'Soyco: A soy cheese with flavor." 2 p. "Soyco is made from tofu, soy oil, and casein, a dried skim milk protein. It has 26% less calories and 29% less fats than traditional cheeses, no cholesterol and no lactose." Soyco comes in 4 flavors: Cheddar, Mozzarella, Monterey Jack, and Jalapeno. It is available in 12 ounce packages, 5-lb deli loaves, and 20-lb blocks. Soyco Foods also makes Soymage, a non-dairy tofu based cheese with no casein. Label. 1987, undated. 2 by 3 inches. Brown and red on yellow. "The natural cheese alternative. No cholesterol, no lactose, reduced calories, reduced sodium. Contains no artificial ingredients." Reprinted in Soyfoods Marketing. Lafayette, CA: Soyfoods Center. Ad in Soya Newsletter. 1988. Jan/Feb. p. 10. "Two delicious soy cheeses from Soyco Foods." Soyco contains casein and tofu; Soymage is dairy free with no tofu. Contact Albert Morini. P.O. Box 5204, New Castle, Pennsylvania 16105.

8075. **Product Name:** Life All Natural Dressing & Dip with Tofu [Regular, Avocado, or Garlic].
Manufacturer's Name: St. Giles Food Co., Ltd.
Manufacturer's Address: St. Giles House, Sandhurst Rd., Sidcup, Kent DA15 7HL, England.
Date of Introduction: 1987. June.
New Product–Documentation: Labels. 1987, undated. Imported by Liberty/Ramsey Imports, Gourmet Products Division, Universal Foods Corp., 66 Broad St., Carlstadt, New Jersey 07072. Phone: 201-935-4500. Spot in Natural

Foods Merchandiser. 1987. June. p. 54. Tofu Dressing, Garlic & Tofu Dressing, Avocado & Tofu Dressing. Letter from Simon Bailey. 1988. Oct. Full address. Gives company name as St. Giles Foods Ltd. The product is free of salt and sugar.

8076. **Product Name:** [Breaded Tofu for Frying (Cutlets with Bread Crumbs, or Grated Coconut; Little Slices, or Burger Patties)].
Foreign Name: TK–Tofu -Bratscheibe, paniert mit Paniermehl/Kokosraspeln; Staebchen, Paniert; Burger, Paniert.
Manufacturer's Name: Tofukost-Werk TKW GmbH.
Manufacturer's Address: Siemensweg 1, D-4724 Wadersloh-Diestedde, West Germany. Phone: 02520-1300.
Date of Introduction: 1987. June.
Ingredients: Cutlets: Tofu, moist breading, dry breading.
Wt/Vol., Packaging, Price: Cutlets: 50 pieces, each 115 (or 110) gm in plastic bag in a carton. Each piece is 150 x 15 x 15 mm.
How Stored: Refrigerated, 6 months shelf life at 18ºC. Or frozen.
Nutrition: Bread crumb type: Protein 9.8%, water 69.0%, fat 3.1%, pH 5.8, ash 1.4%, carbohydrate 13.2%, energy 120 calories/100 gm.
New Product–Documentation: TKW color products catalog. 1988. April. Photo of each item on a silver plate. These are ready for frying by a foodservice organization. The Little Slices are 25 gm each, 200 per 5 kg carton, and contain 11.3% protein. The burgers are 60 gm each, 96 pieces per 5.76 kg carton. Burger ingredients are tofu, soybeans, rice, wheatgerm, linseeds, starch, seasonings, seasalt, moist breading, dry breading. They contain 9.8% protein.

8077. **Product Name:** [TK Firm Tofu Cubes (10 mm or 30 mm)].
Foreign Name: TK–Tofu gewuerfelt in 10 mm und 30 mm.
Manufacturer's Name: Tofukost-Werk TKW GmbH.
Manufacturer's Address: Siemensweg 1, D-4724 Wadersloh-Diestedde, West Germany. Phone: 02520-1300.
Date of Introduction: 1987. June.
Ingredients: Water, soybeans.
Wt/Vol., Packaging, Price: 5 kg per plastic bag in surrounding carton.
How Stored: Refrigerated.
Nutrition: Protein 12.1%, water 78.0%, fat 3.6%, pH 5.9, ash 0.6%, carbohydrate 0.7%, energy 84.4 calories/100 gm.
New Product–Documentation: TKW color products catalog. 1988. April. Color photo of cubes on a silver plate. These are ready for use by a foodservice organization. "Tofu is a food that resembles quark, is firm enough to cut and is rich in protein. Tofu cubes are ready to be used is various salads, from sour to sweet, or as an ingredient in soups or hot pots (Eintopf). You can also fry tofu cubes golden brown in soy oil, season them with onions, paprika, soy sauce, curry, and garlic powder, mix them with rice or pasta dishes, or serve them in a sauce with potatoes."

8078. **Product Name:** Curried Rice Salad with Tempeh.
Manufacturer's Name: Western Soy Complements.
Manufacturer's Address: 1560 Mansfield Ave., Suite D, Santa Cruz, CA 95062. Phone: 408-479-05968.
Date of Introduction: 1987. June.
New Product–Documentation: Talk with Jeremiah Ridenour. 1988. Aug. 31. This product was launched in June 1987 for the Santa Cruz market. It Sept. he started private labeling it for Wildwood Natural Foods. Label. 3 by 2 inches. Metallic red and black on gold. Logo of birds flying over a forest silhouette. "Ready to eat foods, naturally."

8079. **Product Name:** [Tofu with Lactic Acid Calcium].
Manufacturer's Name: Yazaki Shokuhin, Ltd.
Manufacturer's Address: Tomioka 1432, Tomiaka-shi, Gunma-ken, Japan. Phone: 02746-2-0009.
Date of Introduction: 1987. June.
New Product–Documentation: Toyo Shinpo. 1987. June 18. p. 11. Tofu containing lactic acid calcium is being targeted at the children's market by Yazaki Shokuhin of Tomioka, Gunma-ken, Japan. Mr. Kazuo Yazaki is the president of Yazaki Shokuhin, Ltd. Includes photos of the packaging and store front.

8080. Probber, Jonathan. 1987. Enhancing tofu. *New York Times.* July 1. p. C2.
• ***Summary:*** Tofu is low in calories and fats, and "totally without cholesterol. That is the good news. The rest is not bad: just uncertain. What you have, quivering on the kitchen counter, is a one pound brick of white, flavorless material that is about 70 percent water. You can do absolutely anything with it... Whatever one does to it, flavor and texture will need to be imparted." Recipe for Curried Tofu in Pita Bread.

packaged soymilks from CAC (*Coopérative Agricole de céréales de Colmar*). Photos (p. 1) show: (1) Five aseptically packed products in this new Bioforme soymilk line. (2) M. Rochet, director of CAC. "Tofu and soymilk (*lait de soja*) are still essentially typical products of the network of dietary stores (*magasins diététiques*). However, here and there, in large-scale classic distribution, soy beverages and desserts are now appearing. And this is not the end, would seem to say the directors of CAC, which is going to invest in an ultramodern unit for producing "soy juice" (*jus de soja*). Despite the appearance of the Bioforme line, it is more than industrial clients that the cooperative is eyeing. And they are not alone. Alfa-Laval now makes soymilk plants, and has already installed a dozen worldwide. One at the Guangdong Cannery, Canton province, China, now produces about 20,000 liters/day of natural, bland high-quality soymilk. A similar unit is installed in Alsace by CAC, which had a total turnover of 750 million French francs in 1986 with its various operations, is basically in cereal grains. As part of a diversification campaign they have become involved with soya. Several factors led to this choice. Soybeans are grown in Alsace and production has expanded from only a dozen ha in 1985 to 250 ha in 1986 and an expected 3,000 ha in 1987. The plant is important in crop rotations, enriching the soil with nitrogen. It is a major crop worldwide, and though extensively researched is not well known by most. Finally, for marketing, its nutritional characteristics make it "the new food for the year 2000."

The new Alfa-Laval plant is completely automated from grinding the grains to cleaning the line; one person can operate it. It cost 11 million francs. The Bioforme line includes aseptically packaged soymilk (in chocolate and natural flavors) and desserts (in vanilla and chocolate flavors). In Jan. 1987 the unit was capable of producing 1,500 liters/hour of soymilk containing 4% protein. In the last 4 months the plant has produced some 200,000 liters of finished products, which may be about 10% of the French market.

A sidebar discusses tofu and Société Soy which makes Croq-tofou, Cacoja, and Sojadoc S.A. The shares of Sojadoc are owned as follows: Cooperative Occitane 51%, Sanofi 15%, Sofiproteol (Sofiprotéol) 15%, les Charbonages de France, the two founders, and some private investors 29%. A photo (p. 14) shows the soymilk equipment used at Issenheim. The products are sold in Tetra Briks (packed by a neighboring dairy), and in Doypack (the company is going to acquire a Thimmonier machine). "Well, is soya the new food for the year 2,000?" Address: France.

8083. *Tribune* (*Lea, Minnesota*). 1987. U of M studies soybean uses [Dr. William Breene, University of Minnesota, St. Peter Creamery, and Soy Supreme]. July 6.
• ***Summary:*** Breene has been testing a soybean powder called Soy Supreme. It can be reconstituted into many potential products, such as yogurt-type and frozen dessert products. To make the powder, soybeans are heated as they are ground. The hulls are also ground and added back. Then they add water to it to get 19% solids, spray dry it, and grind it back into a powder. The result is a full-fat soybean product with all the fiber in it. They make another version, which is dehulled. A Chinese food scientist, Shan Wen Lin, who just received his PhD from Reading Univ. in England, will do soybean utilization research with Breene for a year. "There is more and more talk of tagging the price of soybeans to their protein content." Address: Minnesota.

8084. Ishizuka, Waichi; Aoki, Ryochi. Assignors to Taiyo Yushi K.K. (Yokohama, Japan). 1987. Method of producing cheese-like emulsified food. *U.S. Patent* 4,678,676. July 7. 5 p. Application filed 4 Oct. 1984. Application also filed in Japan on 4 Oct. 1983. Corresponds to Japanese Patent 83-185697. [5 ref]
• ***Summary:*** Tofu (3-30%) made from deodorized soymilk is mixed with 5-40% animal/vegetable oils or fats, 0.1-10% of heat coagulable protein (such as egg whites), and 0.1-5% of stabilizer (such as carrageenan, gelatin, guar gum, pectin, locust bean gum, xanthan gum, dextrin, or starch). The mixture is blended and deaerated, then heated for protein gelation and sterilization. The product is an imitation cheese (spread-type soft, semi-hard, or hard) with good body and texture. Address: Yokohama, Japan.

8085. Sugisawa, Ko; Matsumura, Y.; Sengoku, K.; Nagatome, Y. Assignors to House Food Industrial Company Ltd. (Higahsi-Osaka, Japan). 1987. Process for preparing tofu charged into a container. *U.S. Patent* 4,678,677. July 7. 5 p. Application filed 3 June 1985. [4 ref]
• ***Summary:*** Note: This is Japanese patent 84-138481. Soymilk is prepared in the conventional way and a fast-acting coagulant (magnesium chloride) or a slow-acting coagulant (GDL) is added. However, in order to delay coagulation of the soymilk until after it has been charged into containers, a coagulation delaying compound (e.g. sodium pyrophosphate, hexametaphosphate, or polyphosphate) is added and the mixture subjected to high pressure homogenization at 30 kg/sq. cm., between 2 and 30 minutes after addition of coagulant. The homogenized soymilk is subsequently filled into containers and allowed to set. The resulting tofu has a good taste and texture. Address: Nara, Japan.

8086. Puckett, Susan. 1987. Tofu does the trick. Bean curd rises above its reputation [Brooks Jones of Cleveland Tofu Co.]. *Plain Dealer* (*Cleveland, Ohio*). July 8. p. 1-E to 3-E.
• ***Summary:*** Cleveland Tofu Co. makes about 8,000 lb/week of tofu in an old milk bottling plant on White Ave. in Cleveland Heights. The company began 8 years ago.

8087. Shrikhande, Fiona. 1987. Soya milk. Only tentative sips [Noble Soya in India]. *BusinessIndia.* June 29/July 12. p. 32.
• ***Summary:*** When Noble Soya had its first public stock offering in 1986, it was over-subscribed 20 times, largely because of the backing of the powerful and respected Godrej (pronounced go-DRAY) and Bhiwandiwalla groups, but also because of the bullish market sentiment and the great success of Frooti, a new beverage sold in Tetra Pak cartons. Noble Soya's product called Great Shake, was test marketed in Hyderabad in Feb. 1987 and launched there and in Pune in March. Initial sales were slow, behind other beverages in Tetra Pak cartons such as Frooti (3,000 crates/day in Bombay), Amul milk (2,000), Volfruit (600), and Great Shake (570 or less). Factors that hurt the product's launch were late entry into the market (initially scheduled for late 1986), lack of public awareness of soya (those who know it perceive it as "a low food value and a source of poor quality oil"), the product's initial slightly chalky taste (now said to be rectified), and the poor image of Sipso, an earlier soymilk launch.

Noble Soya also has plans to introduce other soyfood products by year end: tofu and several extruded foods such as soups and breakfast cereals. The company is taking a long-term perspective and it is strong financially. "Considering that a number of other companies like Britannia, Amrit Soya, Kalyan Solvents, and Kothari General Foods have plans to enter the soya-based processed food market, it looks like soya does have a future." Address: India.

8088. Indo Prosoya Foods Ltd. 1987. Display ad: Soya paneer (tofu) & milk. *Times of India* (*The*) (*Bombay*). July 14. p. 12.
• ***Summary:*** "Technology, training & plants available–for small entrepreneurs. Project cost: Ranging from 5 to 30 lacs [lakhs].

"Profitability: 30%–50% of the project cost P.A. [Per Annum].

Apply giving full particulars to: Indo ProSoya Foods Ltd."

Note 1. "Agrawal" (also spelled "Agarwal") refers to a large and influential community in India. Traditionally, the Agrawals have been a trading community in northern India, although in modern times they follow other professions as well. People from the Agrawal community are very successful entrepreneurs and said to control a large portion of India's private sector and have a major influence on India's economy. Being a trader community traditionally, the Agrawals have produced many of the most successful entrepreneurs in India.

Note 2. The word "milk" here refers to soyamilk.

Note 3. Letter (e-mail) from Raj Gupta of ProSoya Inc., Ottawa, Ontario, Canada. 2010. Aug. 29. Raj has never seen or heard of this ad, and neither he nor ProSoya in Canada designed or paid for it; it might have been placed to sell the Takai plant that the company owned. That Takai plant was located at Panki, Kanpur. The equipment was later liquidated and sold to a company in south India who has been using it for tofu production. Raj does not know which company used it and where. Indo ProSoya Foods went out of business in 1987. Address: Net House, Uptron Estate, Panki, Kanpur [Uttar Pradesh] 288-822 (Agrawal).

8089. Ferrara, Patricia. 1987. Fancy foods turn light. *Home News* (*New Brunswick, New Jersey*). July 19. p. G1-G2.
• ***Summary:*** The trend that yuppies of the world have been spearheading, lighter foods, expensive top quality takeout items, is on the move to mainstream America. Legume of New Jersey has introduced four selections of their world class Tofu Chocolate. Tofu replaces the milk in the milk chocolate. Quinoa is the most nutritious of all grains, containing 16.2% protein.

8090. McCoy, Frank. 1987. Mr. Yogurt takes a chance on tofu [Juan E. Metzger and Jofu]. *Business Week.* July 20. p. 115.
• ***Summary:*** A good history of Metzger's work with yogurt and Tomsun Foods. In 1942 Metzger, his father, and another partner founded Dannon Yogurt in New York. When Beatrice Foods bought Dannon in 1959 for $3 million they kept Metzger on as president. Now this marketing whiz, who is still youthful in his thinking, "has taken on the task of carving out a sizeable market for a food people love to hate–tofu. It's only a matter of time, he figures, before his new tofu snack, Jofu, will sweep the country."

"Tomsun's development costs helped produce a $1.5 million loss on $3.1 million sales last year. Although Metzger has gotten Jofu into such big chains as New York's D'Agostino Supermarkets Inc., he recently had to shelve a $1.5 million ad campaign for lack of money. So he's concentrating most of his marketing muscle on getting Jofu into more dairy cases. He expects Tomsun to double sales this year and to become profitable by 1988. Metzger is once again banking on America's preoccupation with health. The slogan for Jofu could well be his own: 'Go beyond yogurt.'"

A photo shows Juan Metzger, age 68, holding his 3-year-old son, Joe, on his shoulders. Beside them is his second wife. He didn't have to look far for a product name for Jofu. Metzger named Jofu after his son.

8091. Truck, Julie. 1987. New tofu bar hits freezer (From Tofruzen Inc.). *Advertising Age.* July 27.
• ***Summary:*** The three year old company [formerly named Tofu Today] is reluctant to tout its product's tofu base or health benefits. Tofruzen reports 1987 first quarter sales of $167,000, more than its entire sales last year.

8092. *Toyo Shinpo* (*Soyfoods News*). 1987. Pari de mitsuketa

honmono no tôfu. Munôyaku daizu tsukai parikko ni apiiru [Real tofu made in Paris with organically-grown soybeans and it appeals to the Parisians]. July 31. p. 13. [Jap; eng+]
• ***Summary:*** Mr. Noboru Sakaguchi, age 59, has a tofu shop located in Champaigny–only 20 minutes away from Paris. The shop opened 3 years ago and is called Daizou. The majority of the employees are French. Sakaguchi employs a Japanese plant manager, Mr. Takatashi Hiroyama, age 39. Mr. Sakaguchi also has a health foods store and restaurant, Le Bal en Bois. This is the parent company of Daizou. They produce about 1,000 cakes of tofu (1 cake = 380 gm) a day. Of these, 200 are made with organically grown soybeans and are vacuum packed. The company also uses regular soybeans from Canada and organically grown ones from the U.S. They use nigari in their tofu manufacturing process. They have been experimenting with silken tofu (kinugoshi) and have done market studies with some newly developed soymilk mayonnaise. Their tofu sells for 7 French francs per cake wholesale, and 9-12 francs retail. They sell their organic tofu for the same price as the regular cakes as a method of introducing it into the market. Right now, their big enemy is water that is too alkaline.

8093. Del Valle, Amado. 1987. Update on the Plenty Soy Project in Guatemala. San Bartolo, Solola, Guatemala. 2 p. Unpublished manuscript. [Eng]
• ***Summary:*** Thanks to the interest of the executive director of Plenty, Canada, the project reinitiated its activities in the middle of 1985. The three objectives are: 1. Agricultural, to develop and teach Guatemalan farmers to grow suitable soybean varieties. 2. Educational, to teach families and organizations soyfoods nutrition and recipe preparation. 3. Industrial, running the soy dairy in the community of San Bartolo, and making soymilk, tofu, soy ice cream, soy flour and soy coffee. From Jan. 1 to July 22, 1987 the soy dairy has produced 3,777 gallons of soymilk, 3,308 pounds of tofu, 865 gallons of soy ice cream, and 5,600 paletas (ice cream sticks), that have been sold in 4 areas of Guatemala. Address: Solola, San Bartolo, Guatemala.

8094. Gleason, Jane. 1987. Survey of consumers and extension personnel who have been trained in home-level soy processing. *Soybean Marketing in Sri Lanka, Monthly Report.* July. p. 1.
• ***Summary:*** Soyfoods are desired by many vegetarians and because they are less expensive than fish, eggs, and meat, for which they are seen as an alternative. They are not seen as a substitute for other legumes. Every person interviewed purchases TVP (or Soya Meat) on a regular basis. Those with low incomes purchase it for its economy and taste, and even those with more money who can afford fish and meat buy it for its taste. "This product has become very well integrated into Sri Lankan diets." The soyfoods taught at the SFRC training program are not as often consumed on a regular basis. The soyfoods most often prepared at home by extension workers are pittu, roti, and the soy mixture; tofu, tempeh, and soymilk are less likely to be prepared. Regular consumers are less likely to prepare soyfoods at home. For rural people the major constraint on soyfood preparation is inaccessibility of ingredients. Soy flour and soy splits are not available anywhere outside of Gannoruwa. Products in which there is the most interest if they were available are soy-fortified kola kanda (an indigenous drink made of rice flour, green leaves, and coconut), soy dhal, and snack foods. Soy flour is liked in roti and string hoppers.

8095. Hapgood, Fred. 1987. The prodigious soybean. *National Geographic* 172(1):66-91. July.
• ***Summary:*** Superb photos and an interesting original color painting done by artist James Gurney, in the style of Norman Rockwell, shows more than 60 products containing soybean ingredients (both food and industrial). But, except for the first 2 pages, the text of this far-ranging article is mediocre to embarrassingly erroneous; even the *National Geographic* editors didn't like it, but Hapgood refused to correct his many errors. For example, large bold print at the top of the first page reads: "For centuries Chinese have called the Soybean 'Yellow Jewel' or 'Great Treasure.' Now this prodigious bean is seen by some as a weapon against world hunger." Note: This is the earliest English-language document seen (July 2007) that uses the term "Yellow Jewel" or "Great Treasure" to refer to the soybean.

Superb photos by Chris Johns show: (1) Selling tofu in China. (2) Harvesting soybeans with combines. (3) A tractor suspended high over the hold of a cargo ship loaded with soybeans. (4) Making koji at Kikkoman. (4) 42 different colors and shapes of soybean seeds. (5) Henry Ford on 2 Nov. 1940 wielding an ax against a car trunk lid made from a highly resilient soybean-derived plastic. (6) Yuba drying over pans of soymilk. (7) A Japanese woman with her dried-frozen tofu drying under the farmhouse eaves. (8) Favorite Japanese soyfoods dishes: Dengaku, Simmering tofu, yuba, and miso dumplings. (9) Hatcho miso in vats with stones piled high on each in an earthquake-proof pyramid shape. (10) *Mame-maki* (bean-throwing ceremony) at Setsubun, held each February in Japan; the beans are thrown from small wooden measuring boxes (*masu*). (11) The *hari-kuyo* ceremony for broken needles in Tokyo. (12) A martial arts master and former Shaolin temple monk in China testing his strength by plunging his arm elbow-deep into a soybean-packed barrel. Address: Boston.

8096. **Product Name:** Homestyle Tofu Vegetarian Sandwiches [Tofu "Garden," Tofu "No Egg" Sub, or Tofu "No Cheese"].
Manufacturer's Name: Homestyle Foods (Formerly Sonoma Specialty Foods).
Manufacturer's Address: Santa Rosa, CA 95403.

© Copyright Soyinfo Center 2013

Date of Introduction: 1987. July.
Ingredients: "No Cheese": Whole wheat bread, Cheddar and Jack soy cheese, avocado, cucumber, sprouts, eggless mayonnaise, mustard, mild pickled peppers.
Wt/Vol., Packaging, Price: 7.5 oz, plastic wrapped.
How Stored: Refrigerated.
New Product–Documentation: Labels. 1987. 2 by 3 inches. Green on white, or black or blue on yellow.

8097. **Product Name:** [Taifun Smoked Tofu].
Foreign Name: Taifun Geraeuchertes Tofu / Raeuchertofu.
Manufacturer's Name: Life Food.
Manufacturer's Address: Stuehlinger Strasse 9, D-7800 Freiburg, West Germany. Phone: 0761/50 61 55.
Date of Introduction: 1987. July.
Ingredients: Tofu (organic), natural soy sauce, smoke (from birch and juniper), herbs, wine vinegar.
Wt/Vol., Packaging, Price: 200 gm vacuum pack.
How Stored: Refrigerated.
New Product–Documentation: Label sent by Anthony Marrese. 1990. March 22. 3 by 2.25 inches. Green, black, yellow, and orange red on beige. Logo of yellow circle. Refrigerate at 2-7ºC. They now make 60 kg/week.

8098. Moore, Waveney Ann. 1987. Tofu, the food people love to hate. Plain tofu is now being dressed for success, making appearances in hot dogs, sausages, lasagne and frozen desserts. *Food Distributors Magazine.* July. p. 52, 54, 56, 58. [1 ref]
• ***Summary:*** Largely an interview with Peter Golbitz, based on information published in *Soya Newsletter.* Sales of tofu prepared foods totalled about $4-5 million retail. Soymilk retail sales grew from $3 million in 1983 to $12 million in 1985. "From 1983 to 1986 about 80% of the soymilk was imported from Japan. The other 20% came from Belgium and Hong Kong." The price was about $18 a gallon, expected to fall to $3 a gallon.

8099. Rottenberg, David. 1987. Innocence lost: How Tom Timmins, a son of the sixties, is turning tofu into the keystone of an empire. *Boston Magazine.* July. p. 51-57.
• ***Summary:*** One of the best articles written on developments during the 1980s for Tomsun Foods, Timmins (with two large photos), Juan Metzger, and David Kirsch. Last year Timmins sold $3.1 million of tofu. Jofu grossed nearly $400,000 in its first 32 weeks on the market. Jofu is now sold in 11 flavors, 5 honey sweetened. With the help of Evans & Company, a New York City underwriting firm, Timmins took Tomsun Foods public with a $4.25 million stock offering. And he is pouring $1 million of new capital into a new product, Jofu, a tofu-based "spoonable snack" resembling yogurt. Timmins' goal is a 7% share of the $1,000 million a year U.S. yogurt market.

The company headquarters is now located at 247 Wells St. in Greenfield, Massachusetts. Seven employees (including Timmins, who has 4 kids) work here, and another 68 work down the road at the factory–which uses more than a million pounds of soybeans a year. Timmins notes: Our product philosophy is completely vegetarian. Not because we're vegetarians–I'm not anymore–but that's our niche, that's who we are."

"One day in 1979 Juan Metzger, founder of Dannon Yogurt, called Tom Timmins. Metzger, it seems, had been intrigued by a *Wall Street Journal* article on tofu that mentioned Timmins. Might be something in tofu for Dannon, Metzger thought. Metzger had just achieved his goal of national distribution of Dannon Yogurt. Now he was thinking about expanding his product line. Would Timmins be interested in selling soy dairy to Dannon? Metzger wondered. Meetings were held and preliminary studies made. The plan was to have Timmins package tofu under both his label and that of Dannon. Dannon would provide Timmins with national distribution and, according to Metzger, 'in 6 to 12 months, if we were still on friendly speaking terms and the product showed promise, I would get Beatrice Foods [Dannon's parent company] to buy that company for Dannon and make it a Dannon subsidiary and keep [Timmins] as head man.' In the end, however, Beatrice Foods nixed the deal. It didn't want its most profitable subsidiary sinking money into a new and potentially risky venture. But during the negotiations Metzger and Timmins discovered that, although they were nearly 30 years apart in age, their goals and thinking were similar.

"Two years later Beatrice sold Dannon for $84 million to a French company, BSN-Gervais-Danone. Metzger quit and joined forces with another food executive, his friend David Kirsch, whose family had just sold its No-Cal soft-drink business to Canada Dry for over $75 million. They formed a food consulting company they called Metzger, Kirsch Associates.

"So when Timmins started thinking about taking his company national, he called in Metzger, Kirsch, which had just the kind of big-time expertise he needed. And in 1983 they struck a deal: Juan Metzger and David Kirsch became Timmins's partners. Instead of salaries, Metzger and Kirsch each received approximately 13 percent of the company's stock, with Timmins retaining 22 percent. The rest of the stock was distributed among other employees and investors. Metzger became chairman of the board; Timmins president and chief executive officer; and Kirsch, senior vice president."

"One of the first big changes was in the name: New England Soy Dairy, established by Timmins in 1978, became Tomsun Foods in 1983." They then set out to develop a "spoonable snack" which, like yogurt, "permitted value-added pricing... And so the Dannon success story became the paradigm for Tomsun." They named the product Jofu, in part since both Timmins and Metzger have young sons named

© Copyright Soyinfo Center 2013

Joe. Now Tomsun Foods is making 11 flavors of Jofu, 5 of them sweetened with honey.

"The partners allocated a third of the $4.5 million raised in their public stock offering last December to advertising. Half a dozen radio commercials created by the New York City advertising firm Calet, Hirsch and Spector are already touting Jofu as a snack 'beyond yogurt." Tomsun is targeting college students, who are thought to be more open to new foods, and spoonable snacks suit the collegiate lifestyle.

"Jofu is now sold in about 80 supermarket chains in the Northeast..." It is sold right next to the dairy yogurt. Now Jofu is spawning imitators. Six other soyfoods companies, including Brown Cow West, Bud, and Cream of the Bean, already have yogurt-like tofu products in supermarkets, and more are planning their own entries. "To date, Jofu is the only yogurtlike food that is not cultured."

The Massachusetts Community Development Finance Corporation, a state agency that assists small businesses, was one of the first investors in Tomsun Foods; they sunk in $200,000, which has since been paid back. Charles Grigsby, the president of this finance corporation, says: "Tomsun Foods has been a remarkable little example of how to grow a company. He adds that Timmins "is one of those people who remarkably has gone from a promoter/entrepreneur to a sound manager. Often people can't make that transition."

Timmins' story is the story of those who came of age in the 1960s. While he was at Notre Dame (class of 1967), the movement against the Vietnam war was in full swing. When his local draft board rejected his pleas for conscientious objector status, he fled to Montreal [Quebec], Canada. But he returned, his girlfriend became pregnant, so he worked for the post office for a year, then back to the farm in Iowa for a year and briefly to jail. "By then Timmins was a vegetarian, but that didn't stop him from going to work for a chicken-canning factory; he had two children to support." The first real job he liked was a $100-a-week position as manager of the Yellow Sun natural foods co-op in Amherst. In 1975 his marriage broke up. He left the co-op and got married again. He and his second wife soon moved to Brattleboro, Vermont, where he was one of America's largest independent distributors of natural foods, now called Stow Mills [but in 1975 named Llama Toucan & Crow]. Within a year Timmins was longing to go into business for himself. In the fall of 1976 he returned to the Amherst, Massachusetts, area where he started the Laughing Grasshopper Tofu shop with two friends, Richard Leviton and Kathy Whelan. "The first year we were working seven days a week, 10 hours a day–around the clock eventually."

"But after two years Leviton and Whelan got fed up with the grind and sold their shares to Timmins for $10,000. Once again Timmins picked up stakes. He moved himself and his family to Greenfield, incorporating his business there under the name of New England Soy Dairy. Though Timmins was a genuine marijuana-smoking, draft-dodging, long-haired member of the Woodstock generation, his beard went in 1977. His long hair went in 1979. His communal management style backfired in 1983, when his employees started unionizing. But today Tomsun is third largest tofu manufacturer, after House Foods and Yamauchi, Inc., and Azumaya, Inc., two California-based companies whose primary market is Asian American. But Timmins, now age 41, has no intention of staying in third place. His number one goal is national distribution–which he thinks will take 4 to 5 years to accomplish–even though it took Juan Metzger 17 years to achieve that at Dannon. His second goal is $100 million in annual sales.

8100. **Product Name:** Sharon's Finest Tofu-Rella (Tofu-Based Cheese Alternative with Casein) [Monterey Jack Style, Jalapeño Jack Style, and Mild Cheddar Style].
Manufacturer's Name: Sharon's Finest. Div. of Rose International (Product Developer-Marketer).
Manufacturer's Address: P.O. Box 2687, Petaluma, CA 94953-2687. Phone: 707-778-7721.
Date of Introduction: 1987. July.
Ingredients: Mild Cheddar style: Real Tofu, soy oil, casein*, sea salt, citric acid, lecithin, natural flavor, guar gum, annatto seed for color. *Casein is the protein in nonfat milk. It is free of cholesterol, lactose and rennet, and is what allows this tofu product to be so similar to cheese.
Wt/Vol., Packaging, Price: 8 oz vacuum pack. Retails for $2.29.
How Stored: Refrigerated. 6 months shelf life if unopened.
New Product–Documentation: Product Fact Sheet. 1987. States that Tofu-Rella "contains 51% real tofu" but Richard Rose (the developer) says that it contains 4 gm of spray dried tofu and 18 gm casein. He is allergic to dairy products, so rarely eats it. Soyfoods Center product evaluation: 1989, Feb. 19. Delicious, and it melts just like dairy cheese.

Labels. 1988. April. 3 inches square. Red and orange, green, or blue on white. The product name is written "Tofu-Rella." "Cholesterol free. Lactose free. Nothing artificial. Use just like cheese... Made expressly for Sharon's Finest." Note 1. This is one of the first labels for cheese alternatives which explained clearly that casein comes from milk (see ingredients listing). Note 2. There is no mention of "Rose International" on the label.

New Labels. 1990. March 1. For Monterey Jack and Jalapeño Jack styles. 4 inches square. Self adhesive. One label each for front and back of package. Black and one other color on white. Illustration of two bamboo stalks with leaves. The front panel states: "Made with organic tofu. No cholesterol. Low in saturated fat. 8 oz." Back panel: "Thank you for buying Tofu-Rella..."

Product with Label purchased at Trader Joe's in Concord, California. 1993. Oct. 11. 2.5 by 3 inches. Red and blue on white. Price: $2.89/lb. The ingredients listing notes that "Casein is protein from nonfat milk."

© Copyright Soyinfo Center 2013

Leaflet (8½ by 11 inch, black, purple, and green on tan kenaf paper) sent by Patricia Smith from Natural Products Expo West (Anaheim, California). 1994. March 10-13. "Product information. Sharon's Finest Healthy Alternatives." "TofuRella. The original tofu-based cheese alternative, and still the best! Lower in fat and free of cholesterol, it comes in 5 delicious flavors. Melts, shreds, stretches, and tastes just like cheese." Talk with Richard Rose, president of Sharon's Finest. 1994. April 21. This product was first sold under the Sharon's Finest brand in July 1987. The same product was introduced in June 1986 by Brightsong Foods (the forerunner of Sharon's Finest) in Petaluma, California. It was in July 1987 that Sharon's Finest was formed as a division of Rose International. Sharon's Finest was also a consumer brand. This was Sharon's Finest's first and flagship product. By that time Richard thought that his company would be getting into cheeses in a big way. Rose International was phased out in about 1989. FDA just finished reviewing all of Sharon's Finest's labels and they gave Richard permission to continue using the terminology "Cheese Alternative" instead of "Imitation Cheese" (which the FDA would have preferred). Richard thinks his company might have been the first to use the term "Cheese Alternative." Now most companies are using this same term. FDA allows foods to be labeled "Nondairy" even if they contain casein, caseinates, whey, or whey protein concentrates.

8101. *Soybean Digest.* 1987. Tofulicious–Checkoff research has its just desserts. A good taste that's good for you–and low in calories and fat–comes to you courtesy of soybean checkoff research. June/July. Supplement. p. 4.
• ***Summary:*** Tofulicious began as a research project at the University of Minnesota, funded by state soybean farmers. Minnesota Soybean Growers Assoc. executive Jim Palmer helped coordinate the research with U of M food scientist Dr. William Breene. One of Breene's students, upon graduation, went to work for Eastern Foods Co. in Minneapolis, the manufacturer. Thom Menie, Vice President for Sales and Marketing, says the company is expanding distribution of the five flavors of Tofulicious. The company also makes Dim Sum, a microwavable Oriental snack containing tofu, soy protein, and soybean oil, will soon be available nationwide. A large black-and-white photo shows the front of a carton of Tofulicious brand Non-Dairy Frozen Dessert.

8102. *Soybean Digest.* 1987. Tofu: Ancient protein for modern times. June/July. Supplement. p. 4.
• ***Summary:*** New tofu makers are popping up from coast to coast in the USA. More than 150 companies are making $100 million worth of tofu a year. In supermarkets, tofu can be found in everything from burgers to hot dogs, from entrees to desserts. A "designer line" of tofu-based frozen desserts sports the name "Gloria Vanderbilt" on the label.

8103. *Soybean Digest.* 1987. New tofu product draws bead on yogurt market: Tofu's nutritional and health benefits make it almost too good to be true. June/July. Supplement. p. 4.
• ***Summary:*** Jofu is a new tofu-based yogurt-like product introduced by Tomsun Foods Inc. of Greenfield, Massachusetts. After 2½ years of research and development, it will be sold initially in New York City and the northeastern United States, It comes in eleven flavors and has only 169 calories per 6-oz cup. Tomsun uses about 50,000 bushels of soybeans annually in the production of tofu.

8104. STS–Soya Technology Systems. 1987. Soymilk processes/products (Leaflet). Singapore. 1 p. Single sided. 28 cm.
• ***Summary:*** Roughly half of the products are made using ultrafiltration (UF), which can be used to remove water or selectively remove food components (such as oligosaccharides). A "cast tofu or paneer" is made using a 2-stage UF concentration. Address: 11 Dhoby Ghaut #11-06, Cathay Building, Singapore 0922.

8105. **Product Name:** Tofait Yog (Tofu-Based Non-Dairy Yogurt) [Blueberry, Raspberry, Strawberry, Cherry, or Strawberry-Banana].
Manufacturer's Name: Tofoods, Inc.
Manufacturer's Address: 1827 Walden Office Square, Schaumburg, IL 60195. Phone: 312-397-3825.
Date of Introduction: 1987. July.
New Product–Documentation: Leaflet (8½ by 11 inches, full color). 1986. March. Reprinted in Soyfoods Marketing. Lafayette, CA: Soyfoods Center; Lieb. 1987. Dairy Foods. March. p. 32. "Tofoods next introduction will be Yog, a tofu-based yogurt-like product that the company hopes to have in supermarket dairy cases this spring. A naturally-cultured, vitamin-enriched, Swiss-style product." Lists flavors. Talk with Walter Woodbury. 1988. Sept. 22. The company has ceased all its tofu and soy operations. The Tofait Yog was delicious but it never sold more than 4 cases/week in stores. Charles Chase is no longer with the company. These were excellent products (the Tofait ice cream and drinks) but they were ahead of their time, as was tofu, which the Midwestern housewife perceives as an unattractive white fatty blob in the produce section. She doesn't even want to try it. They developed and in January 1987 announced with a color poster non-dairy Tofait Sour Cream, Creme Cheese, and Snack Dip... made with real tofu. But these never made it to the market.

Hawthorne Mellody has been a pioneer in healthful soft serve frozen yogurt since 1970. Recently they reformulated it from a healthy product to one that tastes just like ice cream and sales increased 36 fold.

8106. **Product Name:** Tofu-Sausage 'n Pasta (Also called Sausage 'n Pasta Combo).

© Copyright Soyinfo Center 2013

Manufacturer's Name: Tofu Shop (The).
Manufacturer's Address: 768 18th St., Arcata, CA 95521. Phone: 707-822-7409.
Date of Introduction: 1987. July.
Ingredients: Baked sausage made with tofu, tamari, spices and sunflower oil; pasta salad made with corn macaroni, fresh vegetables, olive oil, red wine vinegar, tamari, spices, and salt.
Wt/Vol., Packaging, Price: 8 oz (226.8 gm).
How Stored: Refrigerated.
New Product–Documentation: Label. 1987. 3.5 x 1.5 inches. Self adhesive. Red on yellow. "A simple meal from the Tofu Shop. Ready to eat or reheat." Illustration of the shop on stilts on a cliff over the ocean.

8107. **Product Name:** Tofu-Cutlets 'n Rice (Also called Cutlet 'n Rice Combo).
Manufacturer's Name: Tofu Shop (The).
Manufacturer's Address: 768 18th St., Arcata, CA 95521. Phone: 707-822-7409.
Date of Introduction: 1987. July.
Ingredients: Baked tofu marinated in tamari, garlic, kelp and lemon; organic brown rice salad with fresh vegetables, almonds, vinegar, olive oil, tamari and spices.
Wt/Vol., Packaging, Price: 8 oz (226.8 gm).
How Stored: Refrigerated.
New Product–Documentation: Label. 1987. 3.5 x 1.5 inches. Self adhesive. Green on yellow. "A simple meal from the Tofu Shop. Ready to eat or reheat." Illustration of the shop on stilts on a cliff near the ocean.

8108. Tomsun Foods, Inc. 1987. It's time to go beyond yogurt (Ad). *Vegetarian Times.* July. p. 15.
• ***Summary:*** A full-page black and white add. "Jofu is here. Luscious. Creamy. And loaded with fruit." A large photo shows a cup of Jofu surrounded by fruit. At the bottom of the ad is a "Buy one, get one free" coupon.

8109. **Product Name:** [Flower-Shaped Tofu (Salt Plum, Beefsteak Leaf, Wakame, Sesame Seed)].
Foreign Name: Hanagata Tôfu (Ume, Shiso, Wakame, Goma).
Manufacturer's Name: Yamaguchi Tofu-Ten.
Manufacturer's Address: Royal Center, Sone-machi 2475-1, Takasago-shi, Hyogo-ken, Japan.
Date of Introduction: 1987. July.
How Stored: Refrigerated.
New Product–Documentation: Toyo Shinpo. 1987. July 1. p. 6. This tofu shop's innovative products are getting popular.

8110. Helmuth, Daine S. 1987. Tofu: No cholesterol, low salt content. *Journal-World* (*Lawrence, Kansas*). Aug. 3.
• ***Summary:*** In the Douglas County (Kansas) Fair Tofu Cooking Division, there are four categories of tofu dishes: 1. Appetizer. 2. Main dish. 3. Dessert. 4. Smoked tofu. All entries must be accompanied by a written recipe.

8111. Currim, Mumtaz. 1987. The sweet 'n' sour palate: The big bite. *Times of India* (*The*) (*Bombay*). Aug. 9. p. SM2.
• ***Summary:*** It's easy to prepare Chinese vegetarian food; just use tofu (soyabean curd) in place of meat.

It's the all-important sauces and seasonings that give Chinese cookery its unique taste–like light and dark soya sauces, black bean paste. These are now available at delicatessens. So also is tofu, although tofu is also make locally and sold fresh.

Contains a recipe for Braised mushrooms with bean curd, which calls for "4 squares bean curd." "Soya sauce" is called for in most of these recipes.

An illustration (line drawing) shows a Chinese dragon standing upright.

8112. Haren, Chuck. 1987. Small, village-scale equipment for making soyfoods (Interview). *SoyaScan Notes.* Aug. 13. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** A company originally named Laredo sells a very nice, compact, table-sized unit. He thinks they have sold some of their machines in Costa Rica and in perhaps Cuba. He has no idea how many machines they have sold in total; he hasn't been in touch with them for about 18 months.

Note: Roberto H. Moretti, the man who invented the first Mechanical Cow, is a rather famous food science professor in Brazil.

Shurtleff: What have been some of your and Plenty's most successful soyfoods projects in the Caribbean?

Haren: Plenty's emphasis is on small, village-type systems. Transferring technology that will work for individuals or small groups in a kitchen or slightly larger scale. They have projects on St. Lucia, Dominica, and Jamaica. Dominica, which has the 2nd to lowest per capita income in the region after Haiti, has an excellent project. Chuck has been able to stay there for 3 years, which provides continuity, and many other expatriates have also worked there. The program is an education program, a "soyfoods training center." The local people develop products and some of these products are sold to support the program and also to test the marketability of each product. They are working in the public education system, teaching in an adult education program, and some in the primary schools. They do field demonstrations for groups of farmers who are starting to grow soybeans. Four years ago they started an agriculture program by doing the INTSOY variety tests. The chose several varieties that worked well and are working to maintain seed strains of those. They started in Roseau, the capital city in Dominica, then after several years farmers took over the program and formed a cooperative as a business. It is a marginal business but it is providing all of them with income. They work with people

© Copyright Soyinfo Center 2013

who have relatively little education and come from a low socioeconomic class. Most of the foods are sold directly from a kitchen rather than being distributed. One good product is called an Akra, which simulates a product made with imported, dried codfish. It is a mixture of flour and "tokara"–which is tofu and okara curded together. It uses all the pulp when making tofu; no okara is separated out or unused. It is whole bean tofu without the okara removed. The finished product is somewhat like a fried croquette but it is in the form of balls. They have also developed smoked tempeh, which simulates smoked fish. They do a fish spread with tokara. Its amazing to see the different products these people come up with and like.

In Guyana, when people were experimenting with soyfoods in the 1960s and 1970s, they developed tokara. Many talented people left during the rough political period and became part of CARDI, Caribbean Agriculture Research & Development, which is on each of the islands. Plenty is presently working with 5 groups in Dominica. Plenty calls them "food processing kitchens" and they operate on a small commercial basis with about 2-5 people each; they provide paying jobs and good food for people.

The biggest commercial success has been on St. Lucia, where they are selling 800 EC a day in Castries.

Plenty started out in 1983/04 and was receiving only a year of funding at a time–mainly from CIDA (Canadian International Development Agency). Plenty has to find 1 dollar of matching funding for every 3 dollars they get from CIDA. It has been geared toward education, agriculture, and food processing on Dominica, Jamaica, and St. Lucia. Its about helping people to become more independent in many ways. Plenty's programs are, of course, all vegetarian. We need to develop more small-scale technology that is geared to the needs of developing countries. Big projects often knock hundreds of people out of work.

Plenty has an "education center" (called Plenty Soya Center) with a tofu and soymilk plant on Dominica. They have a small stone grinder obtained from Okita. Stainless-steel pots and tile bathrooms. Its in a bigger building, 40 x 60 feet. They teach home processing (for classes), village-level processing (the most popular), and small industrial processing. Programs can range from a few days to 3 months in length. About 150 people have participated in programs at the Plenty Soya Center on Dominica over the past 3 years. In the government adult education program, 200-300 people have taken an 8 week course (1 day a week for 2 hours). People learn how to make soymilk, tofu, and tempeh at home. They Plenty develops recipes with them, and finally they develop recipes on their own. All the classes have 15-20 people in them, and a lot of them have to pay. Finances is the major problem that prevents people from going on to start a business. They are dealing with a lot of very low income people. But interest in small commercial companies owned by Caribbean people is growing. The programs are still in the infant stage, but Chuck can see the day that soyfoods will become important in the Caribbean. Plenty's work in Dominica began in the spring of 1983–say April or May. On each island, it started with the INTSOY's soybean variety tests. In the fall of 1983, about October, Plenty did INTSOY soybean trials on Jamaica, St. Lucia, and Dominica. At the same time they were planting their soybean trials, they began to do village soymilk classes in making foods. They would hand out ½-lb or 1-lb packets of soybeans and instructions to people who showed interest and came forward to talk about it–which was considerable. A lot of people have tried growing soybeans on a small scale. The challenge is to make soybean cultivation more commercially viable for the farmers. Making the soybeans into soyfoods for sale helps to make the soybean cultivation more viable. In the Caribbean, agricultural laborers are paid $1.00 to $1.25 an hour. Plenty usually pays a little bit above the going rate.

Chuck was in Lesotho at the end of 1984. He received a letter from a person at Ibadan inviting him to come to Nigeria to teach soyfoods. In Zambia, the government is publishing a soy agriculture newsletter is being published monthly. One of Plenty's best agriculturists, Darryl Jordan, is now in Ethiopia, where he has been for 3 years; he formerly worked in Guatemala with Alan Praskin. Darryl got a job with the Catholic Relief Services–the official international humanitarian agency of the Catholic community in the United States–coordinating their big agricultural program in Ethiopia.

The marriage of Farm Foods with Barricini seems to have worked out very well. It was a great idea to put those two companies together. Farm Foods knows how to make the foods and Barricini's got the money and knows how to market them. They haven't compromised their quality. Robert Tepper is doing an excellent job–taking soy ice cream mainstream in America. Like Tofutti. Chuck is going to Canada after he spots at several other places in the USA. Norman Ayerst and group in Toronto is developing a tofu wiener and they have go the price down almost to the price of meat wieners.

INTSOY will be holding a conference next summer on soybean processing for developing countries. INTSOY has been forced to discontinue their program of teaching farmers overseas how to grow soybeans–which end up competing with American soybeans.

There is a lot of politics in the Caribbean too. Jamaica had this whole program set up to grow their own soybeans because they had a soybean crushing plant which used soybeans imported from Mexico and the United States. The new prime Minister of Jamaica, Edward Seaga (in office from Nov. 1970 to Feb. 1989) has basically shut down the agricultural part of the program. "Once you can show people a way to support themselves and their families making soyfoods or growing soybeans, the idea will spread like wildfire." That is the crying need in developing countries.

8113. Miller, Bryan. 1987. Restaurants: Midtown Greek and Chinatown. *New York Times.* Aug. 14. p. C22.
• ***Summary:*** This is a review of the Cantonese Chinese restaurant Oriental Town Seafood Restaurant (14 Elizabeth St., south of Canal St., New York City). Recommended dishes include "Deep-fried bean curd."

A good way to start "is with the golden bean curd cubes holding morsels of shrimp in the middle. They are delicious with some coriander-flecked soy sauce. Every Chinese family in the house seems to be eating a special, giant steamed oysters smothered in black-bean-and-ginger sauce." Also served was "Squid in black bean sauce."

8114. Crosby, Ann. 1987. Japanese cooking the tofu way [Kobayashi's Tofu in Ontario, Oregon]. *Argus Observer* (*Ontario, Oregon*). Aug. 17.
• ***Summary:*** Kuni and Vickie Kobayashi have been operating this tofu company for 5 years. Formerly J. Kanetomi was the longtime proprietor. Kuni now makes 600-800 lb/week of tofu.

8115. Hickey, Colin. 1987. Tofu–It's made from America's number one crop [Profile of Nasoya Foods, Inc.]. *Westford Eagle* (*Acton, Massachusetts*). Aug. 20. Also in the Enterprise (Marlboro, MA).
• ***Summary:*** Nasoya was founded by John Paino and his brother-in-law Bob Bergwall. They had been college roommates and lived on a farm outside the city. There they made all their own food. The first supermarket chain to sell their tofu was Stop and Shop. They now import their soybeans from Ohio and Iowa. Only 5 people are required to run their modern plant.

8116. Kavanagh, John. 1987. ANF [Australian Natural Foods] hopes for a soy cash-cow. *Business Review Weekly* (*Sydney, Australia*). Aug. 21.
• ***Summary:*** This publicly owned biotechnology company was launched two years ago. "Now it appears to be turning back on its high tech potential to enter the cut-throat beverage market... This week ANF launches Excel, Australia's first fresh soymilk product. ANF will produce 100,000 liters/week at its Sydney factory during the initial phase and hopes to take production up to 500,000 liters a week." United Dairies will handle distribution. David Glasheen is working on a number of new soy products including tofu, yogurt, and custard. Most of the soymilk products now available are imported. Sanitarium's So Good, aimed at the mass market, is doing well.

8117. Lemieux, Sylvie. 1987. Le tofu à tout faire [A taste for tofu]. *Circulaire* (*La*) (*Quebec, Canada*). Aug. 22. [Fre; Eng]
• ***Summary:*** "Tofu is gradually gaining favor here in Quebec." Address: Quebec, Canada.

8118. Pyrtle, Brett. 1987. Yogurt look-alike has roots in area soybeans [Jofu from Tomsun Foods]. *Free Press* (*Mankato, Minnesota*). Aug. 26.
• ***Summary:*** Tomsun Foods buys all its soybeans used to make Jofu from Joel Rabbe's North Country Seeds in Trimont, Martin County, Minnesota, which is 1,300 miles from the food plant. These beans, preferred for their high protein content, are not organically grown. The trucks pick up loads of Jofu on the return run. Rabbe is encouraging local stores to sell Jofu. Address: Minnesota.

8119. Robbins, Carolyn. 1987. Tomsun stock plunges after first public sales. *Union-News* (*Springfield, Massachusetts*). Aug. 26.
• ***Summary:*** When the company went public in December 1986 the stock sold for $10 a unit. Yesterday it sold for $4. For the 6 month period ended June 20 Tomsun reported a loss of $1.5 million, or 6 cents a share on sales of $1.8 million. Jofu is selling at the rate of 8,000 cases a week. The company is purchasing more machines to produce Jofu and has hired a new production manager.

8120. Crowley, Katie. 1987. Markets expand with new [industrial] uses for agricultural products. *Sentinel* (*Fairmont, Minnesota*). Aug. 31.
• ***Summary:*** New industrial uses for ag products have been on the increase for years. One of the most notable has been ethanol, a corn based fuel used as a petroleum-based gasoline substitute or extender. U.S. ethanol production has tripled in the last five years. Soy oil is being used as a dust suppressant and in printing inks. Traditionally, government funded research has been designed to increase production and yields. Now it must shift from production to utilization, so that new efforts will generate new markets instead of larger surpluses. Address: Minnesota.

8121. Bowles, Willa Vae. 1987. The soy revolution! *Total Health.* Aug. p. 24-29. See followup in Oct. issue, p. 55. [1 ref]
• ***Summary:*** Soybean exports during the last fiscal year amounted to $11,000 million. They help keep the U.S. trade deficit, almost $170,000 million in 1986, from rising even higher. Tofu mixed 50/50 with any nut butter makes a fluffy spread for added protein and reduced fat and calories.

8122. **Product Name:** [Tofu].
Foreign Name: Tofu.
Manufacturer's Name: Carlos Planes.
Manufacturer's Address: Tortugitas, a suburb of Buenos Aires, Argentina.
Date of Introduction: 1987. August.
Ingredients: Soybeans, water, coagulant.
How Stored: Refrigerated.

© Copyright Soyinfo Center 2013

New Product–Documentation: Letter from Carlos Planes of Buenos Aires. 2000. Sept. 21. He has been making tofu since 1987. He presently makes and markets two products: Vacuum packaged tofu and marinated deep fried tofu (both organic). They are distributed to health food stores in Buenos Aires. His present address appears to be: Av. Libertador 2690–8ºB, 1636 Olivos, Buenos Aires. No company name is given.

Letter (e-mail) from Carlos Planes. 2012 Feb. 17. A detailed history of his work with soyfoods and the history of his company, starting in 1987 (in both Spanish and English)–which see.

Visit with Carlos Planes at Soyinfo Center in Lafayette, California. 2012. Feb. 23. His original company had no name. It was located in Tortugitas, a suburb of Buenos Aires, Argentina. Documents related to this first tofu product he brought and gave to Soyinfo Center: (1) Two typed recipes for this tofu, titled *"Tofu Soyana. 100% natural. Sin colesterol. Sin grasas saturadas. Contiene los 8 aminoacides esenciales"* [Free of cholesterol and saturated fats. Contains the 8 essential amino acids]. The recipes are for: Tarta de chocolo y tofu [Chocolate & tofu tart]. Relleno de espinacas y tofu [Spinach & tofu relleno].

(2) Three tofu recipe leaflets (21 x 10.5 cm, undated), with the words "Soyana Tofu" and two illustrations (a man sowing seed, and a woman) at the top of each one. Address across bottom: Soyana, Productos de soja. Calle 35 no. 635, San Martin Prov. de Buenos Aires. Tel. 752-1926. A 4th leaflet titled "Soyana Tofu: La clave para una nueva cocina."

(3) Recipe and information leaflet for Soyana Tofu (3 panels, printed front and back, undated but after Sept. 2000). Made from organic soybeans. Not transgenic [Not genetically engineered].

(4) Design for first vacuum packed label. Soyana Tofu. Calle 35 no. 635, San Martin Prov. de Buenos Aires. Two illustrations (of a man sowing seeds, and a woman). 400 gm. 12 x 15 cm. He never used this label.

(5) First actual vacuum packed (no water) label. Launched in 1994. Soyana Tofu: Queso de Soja. Address: Alvear 1754, San Martin, Prov. de Buenos Aires. 6.5 x 5 cm. Red, white, green and black on yellow. Made from organic soybeans. Shelf life: 30 days at 4ºC.

(6) New larger label introduced in about 1996. Preprinted on a plastic bag for vacuum packing. 19 x 14 cm. 350 gm net weight. Same colors as last label. On the left is a tall green stalk of bamboo. On the back of the bag, printed in green and red, are several recipes, list of ingredients (organic soybeans, water, calcium chloride), and consumer information.

(7) New label introduced in about 1998-99. Green, red and black on yellow. Preprinted on vacuum pack bag. 18 x 13 cm.

(8) His most recent tofu label (which he did not bring) was introduced in about 2006. The tofu is made from certified organic soybeans.

(9) Organic certification. Green and black on white. 30 x 21 cm. Date of certification: 15 July 2011. By: Organización International Agropecuaria, Av. Santa Fe 830 () Acassuso, Buenos Aires. His tofu (*queso o pasta de soja*) is certified organic.

8123. Chon, Deson. 1987. Chôsen daizu ryôri [Korean soyfoods recipes]. *Daizu Geppo* (*Soybean Monthly News*). July/Aug. p. 32-37. [2 ref. Jap]
• ***Summary:*** Gives numerous popular recipes for using whole dry soybeans, soy sprouts, and tofu. Address: Moranbon Aji no Kenkyujo Shocho, Rigaku Hakase.

8124. **Product Name:** Homestyle Tofu Dessert (Pudding) [Cherry Berry].
Manufacturer's Name: Homestyle Foods (Formerly Sonoma Specialty Foods).
Manufacturer's Address: 2317 Bluebell Dr., Santa Rosa, CA 95403. Phone: 707-525-8822.
Date of Introduction: 1987. August.
Ingredients: Tofu (organic soybeans*, water, calcium sulfate), fruit concentrate, soy oil, natural cherry and raspberry flavor, tapioca, natural beet extract, lemon, and vanilla. * Grown in accordance with CA H&S Code 26569.11.
Wt/Vol., Packaging, Price: 4.5 oz in plastic cup.
How Stored: Refrigerated.
Nutrition: Per 2.25 oz.: Calories 75, protein 2.5 gm, carbohydrates 8 gm, fat 2 gm, fiber 0.3 gm, sodium 0.2 gm, cholesterol 0.
New Product–Documentation: Label. 1987. 3 inches diameter. Red and black on white lid. "Cholesterol & Lactose Free." Soy Power. 1987. Catalog. 4.5 oz. Interview with Benjamin Hills. 1987. Sept. 7. Cherry Berry introduced in about August 1987. New Labels. 1988. 3 inches diameter. "Non-Dairy. Cholesterol Free. Nutritious. Natural. Kosher. Ready to Eat." Spot in Vegetarian Times. 1988. Oct. Also shows Carob Mint and Chocolate Royale flavors. Talk with David Burns. 1991. April 10. The company introduced a new label for the chocolate and cherry-berry flavors in March 1991.

8125. **Product Name:** Island Spring Aurora Delight (Tofu Ice Cream) [Vanilla Almond, Cherry Amaretto, Chocolate Truffle, Peanut Butter, Caffe Jamaica]. Formerly named Island Spring Frozen Tofu Dessert.
Manufacturer's Name: Island Spring, Inc.
Manufacturer's Address: P.O. Box 747, Vashon, WA 98070. Phone: 206-622-6448.
Date of Introduction: 1987. August.
Ingredients: Vanilla almond: Water, organic tofu (water, soybeans, organically grown and processed in accordance with section 26569.11 of the Calif. health and safety code,

© Copyright Soyinfo Center 2013

calcium sulfate); high fructose corn sweeteners, lightly salted roasted almonds, corn oil, natural unsalted almond butter, pure vanilla, vegetable gums (guar gum, carrageenan).
Wt/Vol., Packaging, Price: 8 pints per case.
How Stored: Frozen.
Nutrition: Vanilla almond: Per 4 fl. oz.: Calories 260, protein 4 gm, carbohydrates 27 gm, vegetable fat 15 gm, sodium 70 mg, calcium 47 mg. No cholesterol or lactose.
New Product–Documentation: Island Spring Inc. Fact Sheet and Price List. 1988. Brochure. 1988. Frozen Assets! "There's no product like it–The premium dessert that stands alone–cholesterol free, low sodium & all natural. Aurora Delight." Gives photo of package plus ingredients and nutritional information for each flavor. "Here's to healthy self-indulgence." Note: The name was changed to this name from Island Spring Tofu Frozen Dessert in Aug. 1987.

8126. **Product Name:** Kikkoman Tofu: Soybean Curd (In Retort Pouch) [Firm, or Soft].
Manufacturer's Name: Kikkoman International, Inc. (Importer). Made in Japan by Kikkoman Corp.
Manufacturer's Address: 50 California St., Suite 3600, San Francisco, CA 94111. Phone: 415-956-7750.
Date of Introduction: 1987. August.
Ingredients: Water, soybeans, glucono delta lactone and calcium chloride (coagulating agents).
Wt/Vol., Packaging, Price: 10.5 oz (297 gm) foil retort pouch inside a paperboard box. Retails for $0.75 each at Diablo Foods (Lafayette, California)
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Per 5.25 oz. firm: Calories 100, protein 9 gm, carbohydrates 1 gm, fat 7 gm, sodium 0 mg. Soft: Calories 90, protein 7 gm, carbohydrates 1 gm, fat 6 gm.
New Product–Documentation: Spot in *Food Processing*. 1987. June. p. 87. "Tofu shelf-stable in retort pouches." A large color photo shows the package.

Temptingly Easy Recipes for Kikkoman Tofu. 1987. May. Six panels. 8½ by 11 inches. Full color. Contains recipes for Hunan Pork & Tofu Stir Fry, Simple Skillet Sukiyaki, Salad Nicoise with Tofu, Deluxe Chicken & Fruit Slaw, Glazed Meatloaf Special, Hot & Sour Soup with Tofu, Chocolate-Banana Pie, and Orange Smoothie.

Brochure. 1987. May. "Tofu." 8½ by 11 inches, 2 sided. The front shows a stylish black plate of tofu cubes, meat, and vegetable stir fry. In the background is a cake of Kikkoman tofu partly cut into cubes. All is set in a black table. The back states: "Kikkoman firm tofu fits today's healthy lifestyle. It means healthy profits, too. A color photo shows a package of Kikkoman Firm Tofu. "One serving of Kikkoman Firm Tofu has: 50% fewer calories and 40% less fat than a quarter pound cooked hamburger; 50% fewer calories than 1 cup of cottage cheese; 35% more protein than 1 large egg...

"Kikkoman Firm Tofu is packed in a special foil pouch and pasteurized to protect its fresh flavor and delicate texture.

"Special Features: High protein, low calorie; NO cholesterol & NO sodium; NO preservatives; creamy, firm consistency; helpful recipe information on the package; competitively priced; made with Kikkoman's uncompromising standard of quality."

Labels. 1988. 5.75 by 3 by 1.25 inch paper box. Firm is red, black, orange, and green on white. Front panel has a photo of tofu in a Chinese-style stir-fried dish. "High Protein. No Cholesterol. No Preservatives. Sodium Free. For stir-frys, salads, desserts... Keep in a cool place. Do not freeze." Back panel contains a stir-fry recipe for Chicken & Vegetables with Tofu. Soft is blue, green, orange, and black on white. Front panel has a photo of cubes of chilled tofu on a square dish. Recipes on back for Creamy Corn Soup and Tuna-Tofu Spread.

Talk with Art Mio of Morinaga. 1987. Dec. 7. Kikkoman is selling their new tofu, which is much better quality than

© Copyright Soyinfo Center 2013

their original product, to Azumaya for distribution. It is sold in the produce section, where most of America's tofu is still sold. But the nutritional composition statement is curious. The fat content is much higher and the carbohydrate content much lower than would be expected from a product made from whole soybeans. Soyfoods Center product evaluation. 1988 May 1. Comparing Azumaya, Mori-Nu, and Kikkoman tofu, we preferred them in that order. Kikkoman's tofu is much better than its original product launched in 1985, which we found inedible. Talk with Terumitsu Hattori, VP of R&D, of Kikkoman, San Francisco. 1988. May 25. This tofu was relaunched in August 1987. Recipe booklet. 1988. June. "Kikkoman firm tofu presents recipes for today's healthy lifestyle." Contains 5 recipes: Savory vegetable dip. Extra creamy beef stroganoff (with 3/4 lb steak). No meat stuffed shells. Chile corn bread. Molded pink lady.

Poster displayed at Yaohan department store in Los Angeles. 1988. Oct. 23. 11½ by 21½ inches. "Kikkoman Firm Tofu." Full color. Shows the package, product on a dish, and a veggie-meat stir fry.

Both textures purchased at Diablo Oriental Foods. 1989. Aug. 27. Soyfoods Center taste test (Soft): Poor flavor and texture, strong beany flavor, but better than their previous product.

Talk with Morinaga Nutritional Foods. 1994. March 18. Morinaga in Tokyo is now packaging this product for Kikkoman. The first batch arrived in the USA in Nov. 1993.

8127. **Product Name:** The Barat Bar (Chocolate Made with Tofu Instead of Milk) [Plain, with Almonds, with Almonds and California Raisins, or Truffle with Pralines].
Manufacturer's Name: Legume, Inc. (Marketer-Distributer).
Manufacturer's Address: 170 Change Bridge Road A-4, Montville, NJ 07045. Phone: (201) 882-9190.
Date of Introduction: 1987. August.
Ingredients: Plain: Granulated cane juice [Sucanat], chocolate liquor, cocoa butter, tofu powder, soya lecithin (a natural emulsifier), pure vanilla.
Wt/Vol., Packaging, Price: 2 oz. Retails for $1.59.
How Stored: Shelf stable.
Nutrition: Per 2 oz. bar: Calories 340, protein 3 gm, carbohydrates 27 gm, fat 24 gm, sodium 45 mg. Calcium 15% of U.S. RDA, iron 25%.
New Product–Documentation: Four Labels. 1987. Ferrara. 1987. Home News (New Brunswick, New Jersey). July 19. p. G1-G2. Labels include inside printed wrapper for each bar (a photo of Chandri and Gary Barat is on each inside wrapper), print paper box that goes around some bars, and pink and black shelf display box which holds 12 Barat Bars.

Poster. 1987. "The Barats of Legume... they're making history! America's nouvelle tofu chocolate. The world's first tofu chocolate bar–Non-dairy–No white sugar–Cholesterol free!" Sweetened with Sucanat, organic evaporated sugarcane juice. Note: *Webster's Dictionary* defines truffle as "2: a candy made of chocolate, butter, and sugar shaped into balls and coated with cocoa." These expensive, upscale candies often have a soft center containing a liqueur. Distributed nationally by Richtor Brothers. Also in Natural Foods Merchandiser. 1988. Jan. p. 15.

Ad in Whole Foods. 1988. April. p. 86. "Barat Tofu Chocolate. Color your world with The Healthy Passion!" Shows a Manhattan skyline with two huge pink Barat Bars dominating the scene. Health Foods Business. 1988. May. "Tofu chocolate bars."

Environmental Nutrition. 1988. July. Calling itself, "America's nouvelle tofu chocolate," the Barat Bar sounds great at first glance. It is non-dairy chocolate for people who are lactose intolerant, it's cholesterol-free, contains no refined white sugar, is high in iron, and provides 15% of the U.S. Recommended Daily Allowance for calcium. The nutritional labeling, however, reveals that 64% of the Barat Bar's 340 calories come from fat; more specifically, cocoa butter–the same fat found in regular chocolate bars. Spot in Living Well. 1988. Aug/Sept. "How sweet it is. Chocolate that's good for you?"

Interview with Chandri Barat. 1988. Oct. 28. The first sales were made in August, 1987. Shape. 1988. Dec. p. 54. Chocolate with a twist. "Don't mistake this for diet candy. Barat Tofu Chocolate has 160 calories per ounce and 62% calories from fat. Elegantly wrapped in gold foil and brightly colored boxes, Barat Tofu Chocolates make great gifts."

Spot in New York Post. 1989. Feb. 20. Shows a large photo of a child in a yarmulke (Jewish skullcap) holding a Barat Bar and wrapper. During Kosherfest "Yonah Weingarten, 2, knew what he wanted. He left the lox, sneered at schmaltz, and passed on pickles to nosh on a king-sized kosher candy bar." Spot in Seventeen. 1989. March. "Health: Attention chocoholics! Do you believe a good dose of chocolate makes you feel better? You may be right! Nutritionists have found that when you eat chocolate, your brain responds by releasing a chemical called serotonin, which appears to control many physiological functions–and makes you feel happy." Spot in Gourmet Today. 1989. March/April. p. 39. "Tofu Chocolate." Spot in Female Body Building and Weight Training. 1989. May. "Food. Turn a sweet-toothed addiction into a healthy passion."

Talk with Chandri Barat. 1989. Nov. 10. Under pressure from the FDA they will rename the product Barat Chocolate with Tofu. Sucanat costs about $0.80/lb versus $0.28 for white sugar. See also similar 1 oz. product made Barat, Inc.

8128. Mans, Jack. 1987. Azumaya Inc. Old line soy processor introduces new desserts. This 50-year-old soy processor produces a variety of Oriental products, including a newly introduced soy-based frozen dessert. *Prepared Foods.* Aug. p. 58-60.

"The Barat Bar"—The World's First Tofu Chocolate Bar—Non-Dairy—No White Sugar—Cholesterol-Free!

With the same integrity and love that created Légume's Frozen Entrées and Light Dressings, Chandri and Gary Barat now bring you America's Nouvelle Tofu-Chocolate. By replacing the milk in chocolate with Tofu and the refined white sugar with Sucanat® (unrefined granulated cane juice — a complex carbohydrate, rich in vitamins and minerals), they've given chocolate a new distinction worthy of their personal name — The BARAT BAR — NON-DAIRY, NO WHITE SUGAR, CHOLESTEROL-FREE — Old World flavor with New World nutrition for the healthy gourmet.

THE BARATS and THE BARAT BARS
—get to know them in 4 delicious flavors: Plain, Almonds, Almonds and California Raisins, Truffle with Pralines.

Légume, Inc., 170 Change Bridge Road, Montville, NJ 07045 • (201) 882-9190

nation's largest supermarket chains. They began to look at a yogurt-like product 12 years ago. The plant has 3 soymilk lines that process about 1,100 lb/hour of soybeans. Stir Fruity is made from silken tofu, which is heated, cooled, blended then pumped into a refrigerated tank in an antiseptic room. Fruit (15% of the product) is filled first, followed by the flavored tofu. Address: Chicago, Illinois.

8129. McSweeney, Daniel. 1987. Consumer survey 1987. *Whole Foods.* Aug. p. 25-29.
• ***Summary:*** Percentage of 600 natural foods consumers surveyed who purchased a certain type of soyfood product during the years 1985, 1986, 1987. NA = Not Available. Tofu: NA, 85.1%, 83.4%. Miso: 50.0%, 71.1%, 69.7%. Soymilk: NA, 40.4%, 54.4%. Nondairy Frozen Desserts: 37.6%, 44.6%, 46.0%.

8130. **Product Name:** Fresh Tofu.
Manufacturer's Name: Plenty Canada Soya Utilization Project.
Manufacturer's Address: 88A Kotugodella Vidiya (Postal Box 95), Kandy, Sri Lanka.
Date of Introduction: 1987. August.
Ingredients: Soya milk, magnesium sulphate.
Wt/Vol., Packaging, Price: 200 gm plastic bag. Retails for Rs. 3/-.
How Stored: Unrefrigerated and perishable.
Nutrition: 8% protein.
New Product–Documentation: Form filled out by Jane Gleason. On 23 March 1988 she visited the Plenty Canada Soya Food Centre. For details see Chocolate Milk (Aug. 1987).

8131. Pollard, Jean Ann. 1987. The new Maine cooking. Lance Tapley, Publisher, P.O. Box 2439, Augusta, ME 04330. 288 p. See p. 22-24, 94, 202-15, 221. Illust. Index. 28 cm.
• ***Summary:*** Mostly recipes, arranged by season, including tofu (13), tempeh (6), miso (1), plus how to make tofu at home. Address: Winslow, Maine.

• ***Summary:*** Soymilk and Tofu Products: 1986-1987 Market Report is scheduled for publication in the fall of 1987. It will cost $795, or $695 if ordered before 30 Sept. 1987. Note: This report was never published. Only one prepaid order was received and the Golbitz family was about to have a baby.

8135. *SoyaScan Notes.* 1987. New Trend: Tofu Sales level off. Profits low from fierce competition (Overview). Aug. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** The growth areas for tofu in America seem to be spray dried tofu, sold to industrial food processors, and second generation products.

8136. *SoyaScan Notes.* 1987. New Trend: Soyfoods manufacturers become distributors and/or brokers of many other products (Overview). Aug. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** Appropriate Foods seems to have started this concept, distributing other companies' non-competing products in February 1982, continuing until the present. Quong Hop began its Soy Deli concept in May 1983; it included soyfoods made by other companies. Sonoma Specialty Foods started distributing other companies' soyfoods in August 1985. Soy Power does the same thing. In some cases (not including Quong Hop), the manufacturer and the distributor keep separate books. Wildwood Natural Foods then took the same route.

8137. **Product Name:** [Tofu Patties (Vegetable, Cauliflower, Grain)].
Foreign Name: Tofu Roestling (Gemuese, Blumenkohl, Getreide).
Manufacturer's Name: Tofukost-Werk TKW GmbH.
Manufacturer's Address: Siemensweg 1, D-4724 Wadersloh-Diestedde, West Germany. Phone: 02520-1300.
Date of Introduction: 1987. August.
Ingredients: Cauliflower: Tofu (water, soybeans), cauliflower, wheat grits, vegetables, lemon juice, plant protein extract.
Wt/Vol., Packaging, Price: 250 gm or 500 gm.
How Stored: Refrigerated.
Nutrition: Per 121 gm: 8.5 gm protein, 5.7 gm fat, 9.9 gm carbohydrates, 124.9 calories.
New Product–Documentation: Labels. 1987. The 500 gm size is 4 by 3 inches. Dark green on yellow. "Made purely from plants (Rein pflanzlich). Röstling in Scheiben, schneiden und braten." The 500 gm size was introduced in Aug. 1987 and the 250 gm size in Nov. 1987.

8138. **Product Name:** Tofutti "Better Than Cheesecake" (Non-Dairy Gourmet Cheesecake) [Brownie, Blueberry, Pineapple, Chocolate, Classic Extraordinaire, Blueberry Dream, Chocolate Brownie.].
Manufacturer's Name: Tofutti Brands Inc. (Marketer).
Manufacturer's Address: 1098 Randolph Ave., Rahway, NJ 07065. Phone: 1-800-225-0332.
Date of Introduction: 1987. August.
Ingredients: Tofu, partially hydrogenated soybean oil, corn oil, corn syrup solids, wheat flour, sugar, carob bean gum, mono- and di-glycerides, carrageenan, salt, natural flavor.
Wt/Vol., Packaging, Price: 3.5 lb, 9 inch diameter. Four to a case.
How Stored: Frozen.
Nutrition: Per 2 oz. 10 servings per container: Calories 160, protein 2 gm, carbohydrate 16 gm, fat 10 gm, sodium 110 mg.
New Product–Documentation: Crain's New York Business. 1987. Aug. 31. p. 7. "Recently the company began to distribute a non-dairy cheesecake in New York." Baking Industry. 1987. Nov. Gives 4 flavors. Talk with Donna Haverstock, nutritional consultant for Tofutti Brands. 1988. Jan. 4. It is called "Better Than Cheesecake." She read the ingredients. Contains no dairy products or lactose. Color leaflet. 1988. Finally! The rich, creamy, delicious taste of cheesecake without cholesterol. "Better than Cheesecake." nondairy gourmet cake. Cholesterol free. Lactose free. No butterfat. Lower in calories than premium cheesecakes. Shows a wedge of the chocolate-brownie cheesecake being served. It seems that the last three flavors replaced the first four at a later date, perhaps in 1988. Also ingredients seem different: Water, tofu, partially hydrogenated soybean oil, corn oil, isolated soy protein, corn sweeteners, sucrose, graham cracker, egg whites, wheat flour, corn starch, lemon juice, guar seed gum, carob bean gum, carrageenan, yeast, natural and artificial flavors, monoglycerides, cellulose gum. Another color leaflet. 1988. Shows four whole cheesecakes. Each wedge divided by vertical piece of paper. Spot in USA Today. Feb. 12. Lifeline: Takes the Cake. "'I'm thrilled, I'm delighted,' was leggy Mary Hart's reaction to the thrilling and delightful news that she'd been named Cheesecake Girl for Better Than Cheesecake, a dessert made from tofu. Tofutti is looking for other Cheesecake Girls, who win a week's supply of Better Than Cheesecake." Article in The Record (Hackensack, NJ). 1988. March 7. A 26 oz Sarah Lee Strawberry French Cheesecake costs about $3.79, while Tofutti's "Better Than Cheesecake" costs $15 for a 53 oz cake, or about twice as much per ounce.

Bergen Jewish News (Pararmus, New Jersey). 1988. June 23. Article entitled, "To the rescue come new Tofutti products, kosher & parve". The crowning achievement of current food technology is undoubtedly "Better Than Cheesecake." Spot in Food & Beverage Marketing. 1988. June. With photo.

8139. Sakai, Tadaaki. 1987. Method of freezing foods. *U.S. Patent* 4,689,963. Sept. 1. 5 p. Application filed 2 July 1986. 2 drawings. [8 ref]
• ***Summary:*** Describes a relatively simple and inexpensive method for freezing perishable foods such as tofu, so that weight loss and quality deterioration are minimized. A refrigerant passes through pipes in the bottom of a tank, which contains a shallow layer of brine. Articles to be frozen are placed (but not submerged) in the cooled brine, whereupon freezing begins from contact with the cold base of the tank via the brine. The frozen foods do not stick to the base of the tank because of the presence of the brine. Address: 39-8 Yamadanishi 3-chome, Suita-shi, Osaka, Japan.

8140. Thompson, Sharon. 1987. Tofu is gaining acceptance as a healthful meat substitute. *Herald-Leader* (*Lexington, Kentucky*). Sept. 2.
• ***Summary:*** Martin Downer had had sinus problems and four surgeries. He used to be A McDonald's fan; he craved fast food. But friends convinced him that a change of diet would be beneficial to his health.

First he gave up soft drinks and sugar. Two years he stopped eating meat and dairy products. Today his sinus problems are gone. "I can breathe through my nose," he proclaims. Address: Food writer.

8141. Fuller, Kathy. 1987. Milford biologist says eat a lot of beans: Cancer researcher [Jonathan Yavelow] takes his legumes seriously. *Delaware Valley News* (*Frenchtown, New Jersey*). Sept. 3.
• ***Summary:*** In 1981 Yavelow isolated the Bowman-Birk Protease Inhibitor as a natural inhibitor of cancer. Soybeans contain the highest concentration of this protein. He used to share a lab with Walter Troll a professor of environmental studies at NYU Medical Center. For 10 years before Yavelow joined him, Troll had been doing research with laboratory produced chemical protease inhibitors (substances that block the transformation of normal cells into cancer cells). Mice whose bare skin was coated with a cancer causing agent then coated again with a trypsin inhibitor would not grow tumors. Yavelow got the same result substituting an extract from tofu. A photo shows Yavelow, who is an Assoc. Prof. of Biology, Rider College, Lawrenceville, New Jersey 08648.

8142. Hills, Benjamin. 1987. Surata Soyfoods, Brightsong, Sonoma Specialty Foods, and Homestyle Foods (Interview). *SoyaScan Notes.* Sept. 7. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Early soyfoods at Surata were tofu (1977) and tempeh (1979); no soymilk or okara products. Benjamin left in June 1980, just before they moved out of the basement location. He was working to set up White Crane as a

maker of second generation soyfoods with Martha Wagner and Reggie Norton, but the deal fell apart. After working for Bean Machines and Fantastic Foods, he worked for Sonoma Specialty Foods which took over marketing and distribution for Brightsong's Cottage Salad and Curry Salad. They are now sold under the "Sharon's Finest" brand, not under Brightsong. He is not sure why Brightsong dropped Brightsong. Brightsong no longer has a plant or warehouse.

Robert Dolgin is still an owner of SSF, comes in several days a week, but is burned out on food, and divorced from Connie. Robert lives in Occidental (as does she and their 4 kids) and has made a lot of money in real estate. Drives a BMW with a cellular car phone. The company is loosely run. David Burns is trying to take in national and divide it into two. SSF will be the distributor, and Homestyle Foods the manufacturer. SSF no longer makes tofu. Their main competitor is Wildwood. Address: Sonoma Specialty Foods, 2317 Bluebell Dr., Santa Rosa, California 95401. Phone: 707-527-7716; Bus. 707-525-8822.

8143. *Washington Post Co.–Syndicated.* 1987. Bloom County (Cartoon). Sept. 7.

• ***Summary:*** This 4-part cartoon begins with Steve Dallas (punk lawyer) sitting on a low stone wall, wearing a necktie, with a cigarette hanging out of one side of his mouth. Oliver (the little black computer nerd with big glasses) walks up atop the wall (so their heads are at the same height), holding two ice cream cones. Steve: "Did ya get me 'Pistachio Nut' like I told ya?" Oliver: Steve... I have an improvement over ice cream."

Facing Steve, Oliver continues: "On the right, fresh frozen yogurt. On the left, cold creamy tofu."

Oliver: "I have seen the future of frozen dessert... and it is yeast culture and bean curd.

In the last frame Oliver has one ice cream cone smashed into his face and the other squashed down on top of his head. He says to himself: "Kicking and screaming will the foolish be dragged into the 21st century."

Note: Tofutti was becoming popular nationwide at about this time.

8144. Shurtleff, William. 1987. History of Appropriate Foods Inc. and The Soy Source. Lafayette, California: Soyfoods Center. 3 p. Unpublished manuscript, based on a interviews with Robert Werz, Sept. 9.

• ***Summary:*** "Appropriate Foods was founded by Robert Werz in the fall of 1980 as a tempeh manufacturer. Born on 29 Dec. 1952, he had been a vegetarian since about 1970. Quite early he developed an affinity for soyfoods. He had been enjoying tofu since the early 1970s, when it was only available from Chinatown. He first heard about tempeh in 1975 from a friend in California, then first tasted it in about 1977. In 1979 he began to make tempeh part time at home in Sea Cliff, New York, for himself and a few friends while working as a carpenter and a boat builder. He also sold some of this tempeh to one store, Rising Tide, as a test market.

"In 1980 Werz decided to try making tempeh as a part time business. So in October 1980 he founded Appropriate Foods, Inc. He rented a small kitchen (down 2 long flights of stairs in the Bayside Jewish Center) from a friend who was a kosher caterer in Bayside, New York. Commercial production of Tempeh Brothers Tempeh started there in Nov. 1980. When Werz first made tempeh at home and at the temple, he had a partner, David Sibek; friends called them "tempeh brothers." Hence the product name. The only other tempeh sold in the area was that made by The Tempeh Works in Greenfield, Massachusetts.

"In the spring of 1981 Werz and Sibek decided to make tempeh a full-time business. They were distributing their products to about 10 health food stores and making about 20 pounds of tempeh each batch, 200 pounds a week. So they rented an old meal packing plant, complete with tile walls and floor drains, at 137 New Hyde Park Rd., Franklin Square, Long Island, New York.

In Feb. 1982 tempeh production started at the new location, and soon the company had two small distributors in New York. But now there were 12 tempeh brands on the market. In about June the distributors dropped 'Appropriate Foods' products. So they built an insulated box in the back of a pickup truck and began to deliver their own products. From this painful experience Werz learned a key lesson: "In the food business, distribution is everything." If a company does not have control over the distribution of its products, it is extremely vulnerable.

Werz and Sibek quickly realized that they had to expand their product line, so in June 1982 they started making three new products: (1) Tempeh Brothers brand Soyfurters, a cake of tempeh sliced lengthwise into 4 sticks, marinated, and seasoned with liquid smoke, to sort of resemble hot dogs; (2) No Cow brand Soymilk (the soybeans were ground in a motor-driven Corona mill) in plain, cinnamon-honey, and carob-honey flavors; and (3) Tempeh Brothers brand Tempehburgers.

In the summer of 1982 the company added Tempeh Brothers brand Super Tempeh and Soy-Rice-Sesame Tempeh, and dropped the Soyfurters. Dave Sibek left in early 1983."

"In Feb. 1984 Werz and a partner, Shelley Martin, started a second business, The Soy Source, to allow Appropriate Foods to start selling their products, under The Soy Source Brand, to supermarkets. Their first products were shoyu (Japanese-style soy sauce) and tamari (wheat-free soy sauce). The first new tofu product in the new line (launched in Feb. 1985) was Perfect Pasta brand Tofu Tortellini (frozen). The tofu was purchased from Nasoya and the product made by the pasta maker. In Sept. 1985 Vegetarian Gourmet Traditional Pot Pie with Tempeh and Tofu Quiche, both frozen, were added to the new line."

© Copyright Soyinfo Center 2013

"On 1 Dec. 1986 Appropriate Foods completed its move to a larger building in the East Brooklyn Industrial Park at 292 Liberty Ave., Brooklyn, New York. Production began there in March 1987. In mid-March four new tempehs were launched as gourmet items, with silver and gold labels, under the Emperor's Best Brand: Garbanzo Tempeh (with no soy), Soy & Amaranth Tempeh, Rye-Caraway-Soy Tempeh, and Brown Rice Tempeh (with no soy). A nice article in the *New York Times* (24 June 1987) noted: "Today, with six employees, the company produces about 10,000 pounds of tempeh a month. About half is sold to health food distributors and the rest is delivered to about a hundred stores and restaurants in the metropolitan area.

"As of September 1987 products made under the Appropriate Foods brand include Soy Tempeh, Super Tempeh, Soy-Rice-Sesame Tempeh, Tempeh Burgers, Soymilk, and Tofu Salads. Garbanzo Tempeh and Amaranth Tempeh are sold under the Soy Source gourmet brand. Soy Source is still an independent company with its own books. The distribution arm of the company, called Appropriate Foods Distributing, is trying to broaden its line. The future seems to lie in 'crossover products,' sold in supermarkets."

The company is now one of America's largest tempeh manufacturers. They have developed many innovative tempeh and tofu second generation products. Address: Lafayette, California.

8145. *Sun* (*New Carlisle, Ohio*). 1987. Tofu sausage may be next new meat product. Sept. 9.
• ***Summary:*** Herbert W. Ockerman, Professor of Animal Science at Ohio State University, put tofu in sausage to replace pork fat. The product contains 32% tofu, 35% pork, 15% beef, 13-16% moisture, and a small amount of salt, sugar, corn syrup, and curing ingredients. When cooked, the tofu sausage had 23% less fat and 5% more protein than all-meat sausage.

8146. *Toyo Shinpo* (*Soyfoods News*). 1987. 61 nendo no tôfu shôhi tôkei [Tofu consumption figure in 1986 is 5.29% lower than last year. Natto consumption is up]. Sept. 11. p. 4. [Jap; eng+]
• ***Summary:*** This is the first time in 23 years that tofu consumption per family per year has gone down 2 years in a row. In 1987, the Japanese people bought the least amount of tofu in 10 years. Naha (Okinawa, Japan) was first in the amount of household income spent on tofu, while Morioka was the top in the number of cakes sold per family (118 cho). The top selling location for deep-fried tofu pouches and burgers (*aburage* and *ganmo*) was Fukui while sales dropped in Kobe.

Natto, on the other hand, reached the highest number of packets bought per family in history. In Mito, families spent an average of ¥5700 on natto in 1987–a new record. Included in the article are two graphs giving figures of how much tofu per family per year was bought in the period 1977-1987, and how much tofu was bought per family per month in the period 1985-1987.

8147. *Toyo Shinpo* (*Soyfoods News*). 1987. Zenkoku shuyô toshi issetai atari no nenkan kônyû kingaku oyobi sûryô (1986–Showa 61 nen) [Quantities of soyfoods purchased per household in major Japanese cities in 1986]. Sept. 11. p. 5. [Jap; eng+]
• ***Summary:*** The top ten cities for tofu consumption and the number of cakes (*cho*) sold per household in 1986:
1. Morioka 117.94; Toyama 113.10; Fukushima 109.30; Tokushima 104.82; Tottori 102.93; Matsue 100.36; Yamaguchi 99.26; Aomori 98.87; Kagoshima 98.40; Matsuyama 96.68.

The top ten cities for natto and the amount spent per capita in 1986: Mito, ¥5,705; Fukushima, ¥4,168; Utsunomiya, ¥4,040; Aomori, ¥3,874; Morioka, ¥3,742; Sendai, ¥3,372; Akita, ¥3,335; Maebashi, ¥3,197; Yamagata, ¥2,775; Nagano, ¥2,650.

8148. Rahman, Majeedah. 1987. The Belize soyfoods and nutrition education project (Interview). *SoyaScan Notes.* Sept. 13. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Majeedah got interested in nutrition in about 1969, when she started working with the Breakfast for Children Program run by the Black Panthers in Oakland. She then went to work for a community program called Akbar that fed breakfast, lunch, and dinner to 350 children.

Majeedah, who started the project, was first introduced to soyfoods in about 1970 by two black American twins, who had become Rastafarians. They were making and selling tofu burgers and tofu enchiladas in the San Francisco Bay area, mainly at flea markets. They went to Belize and made a little soymilk and soynuts for children at one of the primary schools. To start their program, they received a little financial help from REACH, an organization in Stancreek, south of Belmopan, Belize.

During the 1970s Majeedah became a Black Muslim. Elijah Muhammad believed that his followers should not eat soybeans because they were fit only for animals. That has changed recently. "Your Black Muslim Bakery" on San Pablo Ave. in Oakland now makes tofu burgers at its restaurant and bakery. In 1980 Majeedah transferred to U.C. Berkeley from College of Alameda and studied health and law, focusing on how law affected health. She got an undergraduate degree in social science and law. In 1981 she started an MPH program and also started to work at the U.C. Cooperative Extension, Expanded Food and Nutrition, Education Program.

In 1985 Majeedah attended the Women's Conference in Kenya. Right after that, in December 1985, she went to Belize (formerly British Honduras) to show some films.

© Copyright Soyinfo Center 2013

While there, because she was interested in nutrition, she noticed deficiencies of protein and vitamin A. She returned in January 1986, paying her own way, to study the nutritional situation further. She fell in love with the country, the blend of ethnic groups, the lovely scenery. She had been a vegetarian for about 15 years (partly because she is Islamic and doesn't eat pork) and began using soyfoods about 8 years ago. So she noticed that a few farmers were growing soybeans for animal feed. She met with the minister of health, the nutritionist, and got permission to do some further studies at the hospital. In February 1987, after 8 trips to Belize, the project mentioned above was finally approved by the Belize government.

The project, which will run from June 1986 to June 1987, has 3 components: 1. Nutrition education, the most important, directed at the general public and health centers. Will train 1 person from each of 7 districts to be a nutrition education assistant. They will train others. 2. Get young farmers to form a cooperative and grow soybeans on the 25 acres of land. There is a trend away from farming in Belize. Presently (she thinks) all of Belize's soybeans are grown domestically; none are imported. The Mennonites in Belize grow most of the soybeans. They came from the U.S. (during the Civil War) and from Germany, and they own a lot of farm land. 3. A breakfast and lunch program from some schools in Belmopan, the capital. They are renting a 3-bedroom house in Belmopan and they have turned it into a nutrition education center plus a soy dairy to make soymilk for two schools, 2 times a week. They hope the Minister of Education will expand the program. The soymilk will be served to kids at school as a snack. Address: Project Director (nutritionist), 526 44th St., Oakland, California 94609.

8149. Purdy, Penelope. 1987. Tofu treat a marketing challenge: Tofruzen cuts calories, cholesterol. *Denver Post* (*Colorado*). Sept. 16.
• ***Summary:*** A. Jay Boisdrenghien (pronounced like "boys drinkin") is the founder of Tofruzen, Inc. an Englewood, Colorado, firm that developed and markets Tofruzen, a non-dairy frozen dessert made from tofu. The company went public in December 1986. Tofruzen, which comes in 8 pint flavors and 3 types of chocolate covered bars, is sold by about 1,200 supermarkets. 90% of the company's products are made by White Wave in Boulder and 10% by Robinson Dairy and Jackson Ice Cream in Denver. Boisdrenghien has owned Scientfoods, a specialty grocery in Englewood, since 1971. Sales of Tofruzen were $91,000 in fiscal 1986 and $158,000 in 1987 (ending March 31). The first quarter of fiscal 1988 showed sales of $213,000. In mid-August Tofruzen settled a lawsuit with Frusen Gladje Ltd., which sued Tofruzen Inc. for infringing on its trademark. A photo shows Jay Boisdrenghien and Steve Levy with their tofu treats. Address: Colorado.

8150. Karas, Thomas. 1987. Tofu in Germany, Soyastern, and Heuschen (Interview). *SoyaScan Notes.* Sept. 21. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Soyastern started making tofu in about December 1983, and is now the largest tofu manufacturer in West Germany. They now make 4,000 kg/week and sell it for DM 5/kg. Their other tofu products include Tofu & Herbs, Smoked Tofu, Paprika Spiced Tofu, Tofu Burgers. A Tofu Mayonnaise will be launched soon. Company is growing at 40% a year. Second largest in Germany is Yamato Tofuhaus GmbH. Heuschen in the Netherlands in the largest in Europe. They use Sermi, a new coagulant, which may be lactic acid, for their tofu is sour but inexpensive, DM2/kg. All other Dutch tofu companies except Morgenstond have quit; they can't compete with Heuschen's prices. DE-VAU-GE now makes their own soymilk. They used to buy from Alpro. But they buy tofu from Heuschen. Address: Soyastern Naturkost GmbH, Osterather Str. 26, 5000 Cologne/Koeln 60, West Germany.

8151. *Maine Times* (*Topsham, Maine*). 1987. Tofu snafu: Hit and run. Sept. 25.
• ***Summary:*** "Charles and Kathleen Waldron of Strong, Maine, were only 5 weeks into their new tofu making business when a hit-and-run driver demolished their fledgling operation at the corner of routes 4 and 145... The Waldrons had been using equipment from a Belfast man and were pressing out 600 pounds of the soybean curd each week, when the accident brought the operation to a standstill. Damage was estimated at $10,000. They had insurance on the building but not on the equipment." Address: Maine.

8152. Maurice, Maggie. 1987. Tofu: A vegetable protein and taste chameleon that's good for you. *Herald* (*Bellingham, Washington*). Sept. 28.
• ***Summary:*** Legume, founded by Chandri and Gary Barat, developed America's first line of frozen entrees based on tofu. Chandri (age 36) and Gary (43) are vegetarians who eat tofu at home at least 3 times a week. "A college dropout in the 1960s, Gary rented a large organic farm outside of Burlington, Vermont, and ran it for 5 years. He was the New York kid turned farmer, tilling the soil, driving a tractor, and becoming a vegetarian. Returning to New York, he started marketing 'pillow furniture.' Then in 1977, his world changed radically. A rare infection damaged a heart valve and he had open-heart surgery. He recovered on his sister's farm in Florida. Adjoining her property was a tofu plant. He became fascinated with the process of changing soybeans into curds and whey.

He met Chandri when they worked together on a research project. Gary was looking for a protein alternative to hamburger. A graduate of Syracuse University, she worked on a PhD at Boston College and spent a year studying in India. Married in 1982, they baked tofu muffins, sweet pies,

© Copyright Soyinfo Center 2013

and quiches in their New York apartment and sold them from a cart at street fairs. Eventually they moved to Montclair, New Jersey, opened an office in Caldwell, and found a co-packer in Verona who produces and packages their frozen entrees. The baked goods were dropped in favor of the frozen products. Address: Washington.

8153. Aoki, Hiroshi. 1987. Kôri-dôfu to kenkô [Dried-frozen tofu and health]. *Daizu Geppo* (*Soybean Monthly News*). Sept. p. 14-17. [3 ref. Jap]
• ***Summary:*** Gives a brief history of dried-frozen tofu. Discusses tests showing that it lowers serum cholesterol in humans. Address: Nagano-ken Kori-dofu Kogyo Kyodo Kumiai, Senmuriji.

8154. Dabaji, Michel. 1987. Une cooperative invente le soja a boire [A cooperative invents soya to drink]. *Tertiel* No. 29. p. 20-21. Sept. [Fre]
• ***Summary:*** Soya is rich in nutrients and the agricultural cooperative of cereals at Colmar (la coopérative agricole de céréales de Colmar, CAC) has made a "milk" and even a cheese from it. A photo shows Eugène Stahl, president of the cooperative, and Claude Portal. In Sept. 1985 Maurice Rochet, assistant director of CAC, assisted at a conference at Albi dedicated to soya, a crop being strongly developed in the south of France. There he met Julian Foot, an engineer from Alfa-Laval. At Albi, Rochet realized the many nutritional advantages of soymilk (*jus de soja*). In May 1986 the cooperative launched the Bioforme brand. One year later, the production unit, which had cost 11 million French francs, was making a line of soymilk and desserts. Around the factory, 3,000 ha of soybeans has been planted (the members of the cooperative are growing these but it took effort to convince them to do so). And in several months a tofu production line will begin operation. Address: France.

8155. *Dairy Field.* 1987. Creamy Tofu [Jofu]. Sept.
• ***Summary:*** Jofu is available in seven sugar-sweetened varieties, including cherry, banana-strawberry, and lemon. It is also available in five honey-sweetened varieties: Tropical fruit, peach, orange, orchard fruit & nut, and strawberry fruit cup. Address: Birmingham, Michigan.

8156. Gumport, Bob. 1987. Confection Connection. The Fancy Food Show in New York. Legume. *Gourmet Retailer* (*North Miami, Florida*). Sept. p. 51, 80.
• ***Summary:*** The Legume booth was one of the most popular at the show among both professional buyers and the Press. The company's new and nutritious tofu chocolate bars "enjoyed a terrific reception at the show."

8157. House Foods & Yamauchi Inc. 1987. Hinoichi tofu recipe cards. It happens all the time. 526 Stanford Ave., Los Angeles, CA 90013. 7 recipe cards.
• ***Summary:*** Recipes include: Tofu Mexican Vegetable Dip, Hot-Tofu Spinach Salad, Tofu Pizza, Tofu Broccoli-Corn Casserole, Tofu-Topped Baked Potatoes, Tofu Mexican Casserole, Tofu Tartar Sauce. Address: Los Angeles, California.

8158. *Inoculum* (*L'*). 1987. La société Sojadoc: une démarche originale et innovante [Sojadoc: An original and innovate step]. July/Sept. p. 31. [Fre]
• ***Summary:*** Sojadoc, now an affiliate of the Coopérative Occitane, has started a factory at Albi, France, for making tofu and soymilk (tonyu). Discusses the characteristics and uses of these two soyfood products. Tofu contains 12 to 16% protein, and soymilk 2.8 to 3.6%. Address: ONIDOL, France.

8159. Jain, Laxmi; Jain, Manoj. 1987. Indian soy cuisine: A delicious and nutritious innovation. American Soybean Assoc., 541, Orchard Road #11-03 Liat Towers, Singapore 0923. 48 p. 21 cm.
• ***Summary:*** Contents: Introduction. Basic soy preparations (soy flour, milk, soy paste, soy yogurt, tofu). Soy appetizers. Soy vegetables and pulses (many tofu recipes). Soy breads and rice. Soy raitas, chutneys and salads. Soy desserts. Soy drinks and ice cream.

Biography–"Mrs. Laxmi Jain, a native of India, has lived in the Boston area for the past 18 years. She has been actively promoting the use of soybean in the diet in India and America. She has developed original recipes, and has lectured and given demonstrations with the Oil Seed Federation in India. Her recipes have been published in local newspapers in both the U.S. and India. Note that this book was published by the American Soybean Association.

"Mr. Manoj Jain is a medical student at Boston University, and is also working on his Masters in Public Health. He has a B.S. in Biomedical Engineering. Mr. Jain also received a Smithkline Beckman Fellowship to research the possible uses of soy foods in the Indian diet. With his mother, Mrs. Laxmi Jain, Mr. Jain has developed numerous recipes and analyzed them for their nutritional content and delicious taste." Address: Boston, Massachusetts.

8160. Park, Yang Won; Kobayashi, H.; Kusakabe, I.; Murakami, K. 1987. Purification and characterization of soymilk-clotting enzymes from *Bacillus* sp. K-295G-7. *Agricultural and Biological Chemistry* 51(9):2343-49. Sept. [9 ref]
• ***Summary:*** Enzymes I and II, both serine proteases which have a high soymilk-curding activity, were produced from Bacillus species. When purified, they were found to be homogeneous by polyacrylamide gel electrophoresis (PAGE) at pH 4.3. Both enzymes gave optimum coagulation of soymilk at 65ºC, were stable at 45ºC, and were most active at pH 5.8. Both were more sensitive to calcium ion

concentration that to bromelain. Address: Inst. of Applied Biochemistry, Univ. of Tsukuba, Ibaraki 305, Japan.

8161. *Plenty Bulletin* (*Summertown, Tennessee*). 1987. Business school grads help build soy dairy in the Caribbean. 3(3):1-4. Sept.
• ***Summary:*** A food processing kitchen and soy cafe was constructed on the northeast coast of Dominica on the Carib Indian Reserve by locals with help from 8 MBA volunteers from the Wharton School of Business [at the Univ. of Pennsylvania in Philadelphia]. Carib farmers are now selling soybeans to the Plenty Soy Center in Roseau, Dominica's capital. Each week the Center produces 100 lb of tofu, 25 lb of soysage, 20 lb of tempeh, 30-50 gallons of soy ice cream, and 30-40 gallons of soymilk. Most of these soyfoods are sold through two co-ops that are managed by Plenty-trained Dominican staffs: the Ebeneezer Women's Co-op in Marigot and the Kairi Soy Co-op on the outskirts of Roseau.

At the Soy Development Center in Roseau, Plenty Canada offers 2 six-week classes each year in home, village, or small industrial scale soyfoods processing. The staff also conducts two 16-hour training courses on other parts of the island mainly for home preparation of soyfoods. Fifteen farmers are growing ¼ acre each of soybeans. In Jamaica, Country Farmhouse Lifeline, a soyfoods production center in Kingston, makes 150 lb/week of tofu.

8162. **Product Name:** Tofu Roti (Tofu & Vegetable Filling Rolled in a Chapati).
Manufacturer's Name: Plenty Canada Soya Utilization Project.
Manufacturer's Address: 88A Kotugodella Vidiya (Postal Box 95), Kandy, Sri Lanka.
Date of Introduction: 1987. September.
Ingredients: Roti (Chapati): White wheat flour (3/4), soya flour (1/4), vegetable oil, salt. Filling: Potatoes, tofu, onions, chilies, spices, curry leaves.
Wt/Vol., Packaging, Price: Each roll, 12 inches long, retails for Rs. 4/-.
New Product–Documentation: Form filled out by Jane Gleason. On 23 March 1988 she visited the Plenty Canada Soya Food Centre. For details see Chocolate Milk (Aug. 1987). Adapted from a local recipe.

8163. Saegusa, Kyoko. 1987. Tônyû to amazake de tsukuru hyôka roisu kuriimu [Royce Cream frozen dessert made with soymilk and amazake]. *Gendai Nogyo* (*Modern Agriculture*). Sept. p. 106-10. [Jap]
• ***Summary:*** Kyoko and her American husband, who live in Tempe, Arizona, use soymilk, amazake (which they make from Cold Mountain koji), tofu, and various flavorings to make what they call Royce (Rice + Soy + Ice) Cream frozen dessert for use at home. She also makes yuba. One of the longest articles seen up to this time on amazake. Contains three pages with 11 color photos showing how to make amazake and soymilk. Letter from Kyoko Saegusa. 1988. March 21. Her current address: 2040 S. Forest Ave., Tempe, AZ 85282. Phone shown above. Address: 2025 S. Forest Ave. #3, Tempe, Arizona 85282. Phone: 602-966-8397.

8164. **Product Name:** Sharon's Finest Dry Tofu Frozen Dessert Mix (Formerly Concentrate Plus+).
Manufacturer's Name: Sharon's Finest. Div. of Rose International (Product Developer-Marketer).
Manufacturer's Address: P.O. Box 2687, Petaluma, CA 94953-2687. Phone: 707-778-7721.
Date of Introduction: 1987. September.
Ingredients: Spray-dried tofu, corn syrup solids, vegetable gums.
Wt/Vol., Packaging, Price: Industrial packing.
How Stored: Shelf stable.
New Product–Documentation: Talk with Richard Rose. 1988. Feb. 15.

8165. **Product Name:** Sharon's Finest Tofu Nog (Non-Dairy Eggless Egg Nog).
Manufacturer's Name: Sharon's Finest. Div. of Rose International (Product Developer-Marketer).
Manufacturer's Address: P.O. Box 2687, Petaluma, CA 94953-2687.
Date of Introduction: 1987. September.
Ingredients: Incl. tofu, honey.
Wt/Vol., Packaging, Price: Pint Pure-Pak cartons.
How Stored: Refrigerated.
New Product–Documentation: Product Alert (Naples, New York). 1987. Sept. 21. "Sharon's Finest, a division of Rose International, is marketing Tofu Nog for the holiday season." This beverage is "free of eggs, containing tofu instead, and is sweetened with honey. The 'all natural' drink has no cholesterol, saturated fats or lactose; it's lower in calories, fat and salt than regular egg nog. Pint size milk-type cartons will be available nationally in natural food stores this season."

Talk with Richard Rose. 1987. Nov. 13 and 15. Sweetened with honey, it is sold in pint-sized milk-type cartons. The name "Sharon's Finest" was introduced in Sept. 1987.

Spot in Health Foods Business. 1987. Dec. "Tofu Cheese. Rose International has introduced a tofu cheese and nog." Contact "Rose International, P.O. Box 2687, Petaluma, California 94953-2687."

8166. **Product Name:** Sharon's Finest Cottage Salad (Non-Dairy Tofu Cottage Cheese).
Manufacturer's Name: Sharon's Finest. Div. of Rose International (Product Developer-Marketer).
Manufacturer's Address: P.O. Box 2687, Petaluma, CA 94953-2687.
Date of Introduction: 1987. September.

© Copyright Soyinfo Center 2013

Ingredients: Tofu, soy oil, onion*, dill weed*, citric acid, sorbic acid, salt. * = Dehydrated.
Wt/Vol., Packaging, Price: 8 oz.
How Stored: Refrigerated.
New Product–Documentation: Talk with Richard Rose. 1987. Nov. 13. Ascorbic acid is used to reduce spoilage (molding). Label. 1987. "A delicious nondairy treat. This Curry Salad conforms to the Diet Center maintenance diet, and provides 1 protein allowance and 1 oil allowance per container. Available only at Diet Centers and selected fine natural food stores. Kosher Pareve." Label. 1988, July. 4.5 inches diameter. Plastic tub lid. Red and blue on white. "Delicious, non-dairy, low in calories. This Cottage Salad conforms to the reducing diet, and provides 1 protein serving and 1 oil serving (2 tea.) per container. Each container contains 280 calories and 250 mg sodium." Talk with Richard Rose. 1088. July 27. Cottage Salad is now selling 3,000-4,000 lb/week, exclusively through Diet Centers. It is made by Sonoma Specialty Foods.

8167. **Product Name:** Sharon's Finest Curry Salad.
Manufacturer's Name: Sharon's Finest. Div. of Rose International (Product Developer-Marketer).
Manufacturer's Address: P.O. Box 2687, Petaluma, CA 94953-2687.
Date of Introduction: 1987. September.
Ingredients: Tofu, soy oil, soy sauce, mustard, spices, citric acid, garlic, onion, sorbic acid, salt.
Wt/Vol., Packaging, Price: 8 oz.
How Stored: Refrigerated.
New Product–Documentation: Talk with Richard Rose. 1987. Nov. 13. Ascorbic acid is used to reduce spoilage (molding). Label. 1987. "A delicious nondairy treat. This Curry Salad conforms to the Diet Center maintenance diet, and provides 1 protein allowance and 1 oil allowance per container. Available only at Diet Centers and selected fine natural food stores. Kosher Pareve."

8168. Snyder, Harry E.; Kwon, T.W. 1987. Soybean utilization. New York, NY: Van Nostrand Reinhold Co. xii + 346 p. Illust. Index. 23 cm. An AVI Book. [381 ref]
• ***Summary:*** Contents. Preface. 1. Production, marketing, and sources of information: Introduction, agricultural production, marketing, sources of information. 2. Morphology and composition: Morphology, chemical composition. 3. Processing of soybeans: Preparation, flaking, expellers, solvent extraction, oil refining, protein products. 4. Quality criteria for soy products: Protein and oil products. 5. Functional properties of soy proteins: Interactions of soy proteins with water, interactions of soy proteins with lipid, foaming, commentary on functionality. 6. Nutritional attributes of soybeans and soybean products: Inherent attributes of soybeans, changes due to processing.

7. Oriental soy food products: Traditional nonfermented soybean food products, traditional fermented soybean food products. 8. Soybean-supplemented cereal grain mixtures: Protein-rich food mixtures containing soy flours, composite flours containing soy flour, cereal blends containing soybeans. 9. Soy protein food products: Baked goods, meat products, dairy products, other foods containing soy protein. 10. Soybean oil food products: Salad and cooking oils, mayonnaise, and prepared salad dressings, shortenings, margarines and related products, soybean lecithin products. 11. Grades, standards, and specifications for soybeans and their primary products: Grades of soybeans, specifications for soybean meals and flours, trading specifications for soybean oils, specifications for lecithins, standards for the use of soy protein products in other foods. References in each chapter. Glossary.

This book is well written (though largely a repetition of previous works) in the area of modern soy protein products. It is weak and poorly researched in the area of "Oriental Soy Food Products," which comprises only 1 chapter (22 pages) of the total, making the book unbalanced. The author of this chapter seems to be almost completely unaware of the many major developments in the Western world during the past 10 years.

Note the following Korean soyfood terms: Fresh soybean = Put Kong. Toasted soy powder = Kong Ka Ru. Soy sprouts = Kong Na Moal. Soymilk = Kong Kook or Doo Yoo. Yuba (Soymilk film) = no name. Tofu (Soy curd) = Doo Bu. Tempeh (Fermented Whole Soybeans) = no name. Natto = Chung Kook Jang. Soy sauce = Kan Jang. Miso (Soy Paste) = Doen Jang. Fermented tofu (Fermented Soy Curd) = no name. Fermented okara (fermented soy pulp) = no name.

Note the following Chinese soyfood terms: Fresh soybean = Mao-Tou. Toasted soy powder = Tou-Fen. Soy sprouts = Huang-Tou-Ya. Soymilk = Tou-Chiang. Yuba (Soymilk film) = Tou-Fu-Pi. Tofu (Soy curd) = Tou-Fu. Tempeh (Fermented Whole Soybeans) = no name. Natto = no name. Soy sauce = Chiang-Yu. Miso (Soy Paste) = Chiang. Fermented tofu (Fermented Soy Curd) = Su-Fu. Fermented okara (fermented soy pulp) = no name.

Note: This is the earliest English-language document seen (Nov. 2012) that uses the term "Toasted soy powder" to refer to roasted soy flour. Address: 1. Prof., Food Science Dep., Univ. of Arkansas, Fayetteville, AR; 2. Principal Research Scientist, Div. of Biological Science & Engineering, Korea Advanced Inst. of Science and Technology, Seoul, South Korea.

8169. **Product Name:** [Tofu Ravioli, Tofu Tortellini].
Foreign Name: Tofu–Ravioli, Tofu–Tortellini.
Manufacturer's Name: Tofuhaus Tiefenthal.
Manufacturer's Address: Hauptstrasse 13, D-6719 Lautersheim, West Germany. Phone: 06351-43718.
Date of Introduction: 1987. September.
Ingredients: Tortellini: Dough: Whole wheat grits, water,

© Copyright Soyinfo Center 2013

sea salt. Filling: Smoked tofu, tofu, bread crumbs, walnuts, roasted onions, shoyu, sea salt, and aromatic herbs (basil, Tapenade, parsley, etc.).
Wt/Vol., Packaging, Price: 250 gm vacuum pack.
How Stored: Refrigerated.
New Product–Documentation: Leaflet. 1988. "These two products are made using our tofu by the firm G. D'Angelo GmbH in Saarlouis." Form filled out by Albert Hess. 1988. Dec. 1. This product was introduced in Sept. 1987.

8170. **Product Name:** Jofu (Non-Dairy Non-Fermented Yogurt. Honey Sweetened) [Tropical Fruit, Peach, Orange, Orchard Fruit & Nut, or Strawberry Fruit Cup].
Manufacturer's Name: Tomsun Foods International Inc.
Manufacturer's Address: 305 Wells St., Greenfield, MA 01301.
Date of Introduction: 1987. September.
New Product–Documentation: Spot in Dairy Field. 1987. Sept. "Creamy Tofu." With color photo. Talk with Peter Golbitz. 1988. Sept. 16. Tomsun did introduce honey sweetened Jofu.

Leaflet from Tomsun Foods International Inc. and Wildwood Natural Foods. 1989. Oct. "Jofu–Healthier than ever." Honey-sweetened Jofu is now available in the following flavors: Strawberry, Raspberry, Blueberry, and Peach. Talk with Richard McKelvey. 1990. Dec. 11. He thinks the honey-sweetened Jofu was launched in late 1986 or early 1987.

8171. **Product Name:** Tofu-Vegie Treasure Balls.
Manufacturer's Name: Wildwood Natural Foods of Santa Cruz, Inc.
Manufacturer's Address: 1560 Mansfield Ave., Suite D, Santa Cruz, CA 95062. Phone: 408-476-4448.
Date of Introduction: 1987. September.
Ingredients: Wildwood Tofu (organic soybeans grown in accordance with Sec. 26569.11 of the Calif. health and safety code, filtered water and nigari), any of the following vegetables (carrots, onions, celery, mushrooms, kale or potato), garlic, pure expeller-pressed hi-oleic mono-unsaturated safflower oil, unrefined peanut oil, and sea salt.
Wt/Vol., Packaging, Price: 6.8 oz vacuum packed. Retails for $1.95 (8/88, Berkeley, CA).
How Stored: Refrigerated.
New Product–Documentation: Talk with Jeremiah Ridenour. 1988. Aug. 26. The company started making Treasure Balls in Sept. 1987. These are also sold to restaurants. Product with Label purchased at Berkeley Natural Grocery Co., California. 1988. 3.5 by 2 inches. Gold and red. Silhouette of a wild wood with birds. "Serve hot or cold, in a sauce or as an appetizer." Six balls, each 1.5 inches in diameter. Curry flavor. Soyfoods Center organoleptic test: 7.

8172. Kelly, Gerald R. 1987. Island dining: Fast needn't mean junk. *Martha's Vineyard Times* (*Vineyard Haven, Massachusetts*). Oct. 8.
• ***Summary:*** Mark Ripa is the proprietor of Vineyard Natural Foods, where over 50 different sandwiches are made every day for sale to regular customers or passers by. The standard soup is miso soup. Lynn Burkhart, who creates the gourmet part of the store, plans to serve Tofu Vegetable Pies, a kind of quiche made without eggs, and a light bean and spinach soup made with tempeh–a soybean product. The menu features Indonesian curried tofu. Ripa says "that soy milk is the natural food store's bestseller because of the number of people who cannot–or will not–tolerate milk from cows."

Photos show: (1) The Smoothie bar inside the store. (2) The menu, showing the ingredients in Indonesian curried tofu.

8173. *Rafu Shimpo* (*Los Angeles, California*). 1987. Tofu Festival Oct. 10 [in Los Angeles sponsored by Hinoichi]. Oct. 8.
• ***Summary:*** The Tofu Festival will be held at Japanese Village Plaza in Little Tokyo. Other sponsors include Numano Shoji Ltd. and Yatai Sushi Inc. An improvisation theater group called "Cold Tofu" will present Charlie Chan Blues Band and demonstrate tofu cooking. Los Angeles artists will also demonstrate Hinoichi tofu sculpturing.

8174. Druding, David. 1987. Re: Article on tofu coagulants. Letter to Bill Shurtleff & Akiko Aoyagi at New-Age Foods Study Center, Oct. 12. 1 p. Typed, with signature on letterhead.
• ***Summary:*** David is enclosing a 2-page draft article he has written titled "Tofu coagulants" and dated Oct. 1987. Address: Summercorn Foods Inc., 401 Watson, Fayetteville, AR 72701. Phone: 501-521-9338.

8175. *Telegraph-Forum* (*Bucyrus, Ohio*). 1987. Tofu trade team from Japan visits. Oct. 13.
• ***Summary:*** The 21 member team representing the Japan Tofu Assoc. was told by ASA that they could ship high-quality Ohio soybeans to Japan in the hundreds of containers that now return to Japan empty after bringing parts to Ohio's Japanese auto makers. The containers would assure high quality soybeans for human food use and assure farmers a premium price for their soybeans.

8176. Miller, Harry, Jr. 1987. Early work with soyfoods in China. Current work with Miller Farms Food Co. and Solait (Interview). Conducted by William Shurtleff of Soyfoods Center, Oct. 15. 2 p. transcript. [1 ref]
• ***Summary:*** He is now writing a book on his lifelong work with soyfoods around the world. The original 1936 soymilk in China was named Vetose Soya Milk. There was also an Acidophilus Vetose. The soy ice cream was only for the

© Copyright Soyinfo Center 2013

staff and patients at Adventist hospitals. It was made by Henningsen Produce Co. in Shanghai. They made gluten steaks that contained tofu and various yuba meat analogs. He played with Jethro Kloss' kids but is not sure whether or not Kloss ever had a company making commercial soy products. He thinks perhaps Kloss did have such a company some place in Pennsylvania. Address: c/o Miller Farms Food Co., Cedar Falls, Iowa.

8177. Reed, M.H. 1987. New Chinese entry in Eastchester: Dining out. *New York Times.* Oct. 18. p. 936 (WC_29).
• ***Summary:*** This is a review of the Chinese restaurant Lotus King (30 Mill Road, Eastchester). Among the recommended dishes are: "Sautéed pompano in bean paste and bean curd sauce." Also good is the house soup, full of seafood and bean curd [tofu]. And "Sautéed spinach, embellished with a bit of fermented bean curd, a lovely touch."

8178. Lukoskie, Luke. 1987. Recent developments at Island Spring, Inc (Interview). Conducted by William Shurtleff of Soyfoods Center, Oct. 19. 1 p. transcript.
Address: P.O. Box 747, Vashon, Washington 98070. Phone: 206-622-6448.

8179. Pirello, Robert J. 1987. Process for preparing a tofu cheese and product. *U.S. Patent* 4,701,332. Oct. 20. 4 p. Application filed 15 Nov. 1985. [8 ref]
• ***Summary:*** A tofu brick is coated with a mellow white miso and aged to produce a smooth and compact texture after which the miso is scraped from the brick and the brick is soaked in fresh water to remove the salt. The brick is then whipped until a creamy texture is achieved. Address: 932 Pine St., Philadelphia, Pennsylvania 19107.

8180. Lindner, Anders. 1987. The world soymilk market and Soya Technology Systems (STS) (Interview). Conducted by William Shurtleff of Soyfoods Center, Oct. 21. 7 p. transcript.
• ***Summary:*** This far-ranging and very interesting interview discusses new soymilk developments in India with Noble House Great Shake, Godrej, and Amrit, and in Germany with DE-VAU-GE's big plant. Ultrafiltration offers an innovative new way to automate tofu production, already being tested by Island Spring. Major competitors for soymilk equipment (especially Alfa-Laval) are discussed, and details on the four plants that STS has sold in Germany, India, France and USA (Island Spring). A step by step description of the STS soymilk process is given. STS and Danish Turnkey Dairies were recently purchased by APV Baker, a big British baking equipment company.

Concerning the four plants that STS has sold: "Our biggest and most successful plant was sold to DE-VAU-GE, a Seventh-day Adventist food company in Lueneburg (near Hamburg), Germany. They started production in August 1985 and make Granose and GranoVita brands soymilk, sold mainly in the UK and West Germany, but also in Scandinavia and France. The plant is running at full capacity, which is 3,000 liters per hour of finished soymilk (3.5% protein), or 50,000 liters a day. They currently only make two products. Labels for the UK market read Granose Soya Milk (4 flavors) and Granose Soya Dessert (3 flavors of custard puddings gelled with natural carrageenan, a seaweed extract). Both products are packed in half liter or liter aseptic Tetra Brik cartons. The plant is doing very well, selling all it can make. This is the only one of the four that has started operation.

"We have also sold a plant to Island Spring (Vashon, Washington), which may be the next to start production. The capacity is also 3,000 liters/hour of soymilk base.

"Amrit in India should be in production by mid-1988. Their plant has the same basic capacity as the plant in Germany, but since their soymilk will contain only 2.25% protein, the actual output will be 6,000 liters per hour, which is larger than Germany. They will make both beverages and foods, mainly a paneer type cheese. The beverages will contain Indian flavorings.

"Our fourth plant is in France, but I am not allowed to divulge the name of the company until the product is on the market. They plan to make only liquid soymilk.

"Alfa-Laval installed their first European plant (a small one) in France this year, billing it as the "soymilk development center of Europe, the first plant on the continent" as if our large DE-VAU-GE plant did not exist." Address: STS, Singapore.

8181. Lindner, Anders. 1987. The world soymilk market and Soya Technology Systems (STS) (Interview). Conducted by William Shurtleff of Soyfoods Center, Oct. 21. 7 p. transcript.
• ***Summary:*** "On 21 Oct. l987 Anders Lindner, on a trip of the USA, visited the Soyfoods Center (SC). The following interview was conducted by William Shurtleff.

"SC: STS started five years ago, and in that time you have traveled the world, visiting every potential customer, and sold four soymilk plants. What major changes or trends have you seen in the world soymilk market during that time?

"STS: You must look at one region at a time. In the United States there is definitely an increased interest in and awareness of soymilk. Soyfoods are relatively well known. In Europe there has been a big increase in the number of enquiries about soymilk from all countries. The number of larger companies that have contacted us has also increased.

"Africa is still a dark continent as far as soymilk goes, with the possible exception of Nigeria, where we have a number of quotations pending, awaiting approval for foreign currency. This could take time.

"Looking at Asia, in India there was almost a frenzy of interest several years ago and we still get enquiries every

© Copyright Soyinfo Center 2013

week. The government gave permission to build many new soybean crushing plants. Soybean production is now over a million tons, and it is still not enough. So the price of soybeans is rising, which raises soymilk prices. But I'm not as optimistic about the future of soymilk in India today as I was 6 months ago. India's first major soymilk plant, established by the Noble Soya House group in Bhopal, has not been as successful as everyone had hoped it would be. Two of India's best known companies, the Great Eastern Shipping Company (also called the Bhiwandiwalla Group) and Godrej, backed the new company, which greatly bolstered public confidence in the project. Each owned 24% of the private limited company and the rest was publicly owned. Great Eastern provided financing and put a number of their very best people in the top management positions. Godrej, which is *the* marketing company in India par excellence, provided distribution and marketing. They specialize in soaps. Alfa Laval supplied the plant and Kibun sold their technology know how. Production began in January 1987 and it had all the signs of being a very, very good project. Their soymilk, named Noble House Great Shake, comes in four flavors (chocolate, strawberry, mango, and American ice cream flavor, basically a vanilla) in 200 ml Tetra Brik cartons. I have heard it said that the products were not well formulated, the timing was poor, the prices were too high, and the products were marketed as a clearly Western-style of foreign product. The project got lots of big media publicity, but much of it was not favorable, we are sorry to say. Today the plant runs only about 2 hours a day.

"We have sold a plant to Amrit Soya and Protein Foods Ltd., owned by the Amrit Company, an old company. They are in Ghaziabad, Uttar Pradesh, on the outskirts of New Delhi and are expected to start production in mid-l988. This will be India's largest soymilk plant with a capacity of 6,000 liters/hour.

"Back to Asia, when we established STS we located ourselves in Southeast Asia, thinking that with the large consumption of soybean drinks there it would be quite simple to sell plants to make soybean milk as well. But that has not been the case. I find the food processing companies there extremely conservative. Our strategy now is to show the companies in East Asia that our concept works in the USA and Europe.

"China has been a disappointment. They seemed to be more interested in soymilk plants a few years ago.

"So generally speaking, the climate has gotten better, especially in Europe and the United States.

"SC: Has your strategy or basic approach for selling STS soymilk plants changed during this period?

"STS: Yes, it is changing now. We are expanding our product range by offering processes for other soymilk-based foods. Formerly we thought of ourselves as selling primarily liquid soymilk. Now we are offering process lines for tofu, ice cream, dressings, dips, spreads and other dairy analogs, plus what we call 'semi-products.' These are non-consumer, industrial food type products such as concentrated soymilk or curds for use as ingredients by food processors. We are investing in R&D on these. I think we will find new uses for our soymilk base, including new ways of making traditional products, dairy analogs, powdered products, and truly new products.

"SC: Have you made any major technological developments?

"STS: Yes. we are now offering an ultrafiltration system as part of our soymilk system. This is an important technological innovation. It allows you to concentrate soymilk by removing water without adding heat (thus preserving the good flavor of the product) or to remove certain components from the soymilk, such as oligosaccharides or perhaps trypsin inhibitors or lipoxygenase enzymes, using membranes. More important, it can help in automating tofu production. The soymilk base goes into the ultrafiltration plant, where it is concentrated. Coagulant is injected into the line and mixed. Rectangular cakes of tofu are chopped off as they come out the exit end. Luke Lukoskie at Island Spring has been a pioneer in developing these processes using a pilot plant, with an ultrafiltration unit, that we loaned him. This technology seems to have a very promising future for processing soymilk in the West, and for making soya panir (fresh curds) in India. There is not enough cow's milk in India to go around, and most of it is sold in the cities. I think soya panir will undersell dairy panir in India.

"SC: Which company do you feel is your strongest competitor?

"STS: Our main competitor everywhere is Alfa Laval. After that, but much less, some of the Japanese companies such as Marusan-Seikensha and Mitsubishi. Given that we had just installed the largest soymilk plant in the Western world for De-Vau-Ge in Germany, I was surprised to note that Eden Foods in America chose Marusan-Seikensha without ever contacting us at all. Marusan seems to have only one English speaking person in the entire company, Mr. Tominaga. Mitsubishi competed with us selling systems in India and Nepal. Takai never seems to be in competition with us. Vandemoortele is no longer supplying systems, though the huge plant they built in Ambatolampy, Madagascar (35 million liters/year capacity) is still in operation. The company, Lalasoa SA (Societe Anonym) is run by a woman named Regina.

"SC: Could you tell us a little about the four plants that you have sold?

"STS: Our biggest and most successful plant was sold to De-Vau-Ge, a Seventh-day Adventist food company in Lueneburg (near Hamburg), Germany. They started production in August 1985 and make Granose and Granovita brands soymilk, sold mainly in the UK and West Germany, but also in Scandinavia and France. The plant is running

© Copyright Soyinfo Center 2013

at full capacity, which is 3,000 liters per hour of soymilk base (4.7% protein). This is 4,000 liters per hour of finished soymilk (3.5% protein), or 50,000 liters a day. They currently only make two products. Labels for the UK market read Granose Soya Milk (4 flavors) and Granose Soya Dessert (3 flavors of custard puddings gelled with natural carrageenan, a seaweed extract). Both products are packed in half liter or liter aseptic Tetra Brik cartons. The plant is doing very well, selling all it can make. This is the only one of the four that has started operation. we have also sold a plant to Island Spring (Vashon, WA), which may be the next to start production. The capacity is also 3,000 liters/hour of soymilk base. Amrit in India should be in production by mid-1988. Their plant has the same basic capacity as the plant in Germany, but since their soymilk will contain only 2.25% protein, the actual output will be 6,000 liters per hour which is larger than Germany. They will make both beverages and foods, mainly a panir type cheese. The beverages will contain Indian flavorings." (Continued). Address: STS, Singapore.

8182. *Beachcomber* (*Vashon, Washington*). 1987. Tofu revolution to proceed, problem settled; no sale [at Island Spring]. Oct. 22.
• ***Summary:*** This week Luke Lukoskie struggled to advert an advertised sale of $3,891,800 worth of tofu making equipment Friday. The public sale was to "satisfy obligations" according to the public notice an attorney published in a Seattle newspaper without Lukoskie's consent. A power struggle was taking place. The company was founded 11 years ago by Lukoskie and Sylvia Nogaki in a westside woodshed. She went on to be a business writer and continues as a minor stockholder. After Lukoskie married Soon "Suni" Kim, a Korean-American graduate food technologist, sales expanded. With the help of Cal Tech graduate Cliff Brown, the Lukoskies developed machinery to make tofu continuously. An investor was found to pay for a $6 million leap in to national and perhaps international production and marketing.

The U.S. subsidiary of an international food machinery maker made the production line model of the continuous production machine. It now stands on the island in crates awaiting completion of a new 37,000 square foot building near K2. Production in the new plant is expected to start in early 1988. Address: Washington.

8183. Coyner, Barbara. 1987. How Americans dine. *Parade.* Oct. 25. p. 51.
• ***Summary:*** Notable points from the answer key: 1. The percentage of our disposable income spent on food for the home hit an all-time low of 10% last year. 2. Nationally, we ate 15 quarts of ice cream per person per year with a favorite flavor of vanilla (31%) and chocolate (8%). 5. Our yearly intake of some 15 pounds of fish per person is up 30% in the last 20 years. Tuna is still the favorite selection. 7. 38% of U.S. men skip breakfast. 8. Pizza is easily America's ethnic favorite, taking 53% in popularity. 16. Italian and Chinese cuisine rank as the preferred ethnic choices (overall).

8184. Schecter, Andy. 1987. Early history of Northern Soy (Interview). *SoyaScan Notes.* Oct. 26. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** The Zen Center kitchen at Rochester, New York used to import tofu from Toronto [in Ontario, Canada]. Then in about 1975 Jay Thompson, who worked in the kitchen, saw an article by William Shurtleff in *Mother Earth News* offering a free chapter from a book in progress describing how to make tofu. When the chapter arrived, the kitchen crew started making tofu in the Zen Center kitchen. The tofu makers were Jay Thompson, Martha (last name unknown), Greg Weaver, Greg Mello, and Andy Schecter. They would make about 20 pounds of tofu once or twice a week.

After 3-4 months they moved the operation in the basement of the Zen Center, where it was more efficient. Again they made about 20 pounds of tofu a batch, at least once a week and during sesshins [sic] as often as 2-3 times a week. All of the tofu was consumed within Zen Center. None was sold commercially.

Then in late 1976 Greg Mello and Greg Weaver started talking about starting a commercial business independent of Zen Center and outside of it. They took their tofu to Oriental food stores and the owners showed interest. So they bought a large stainless steel cooking pot and other utensils. But in late 1976 there were some arguments, so Greg Weaver suggested that Greg Mello do it alone. So they parted.

At that point Andy Schecter was planning on leaving the Zen Center staff. He got together with Greg Mello and they found a 900 square foot space at 277 North Goodman Street in Rochester. In January 1977 they established the company called The Tofu Shop and began construction of the plant. They bought an oil-fired boiler, built a platform for the cooking pot, built presses, curding barrels, etc. In May 1977 production began. Their first product was tofu, followed shortly by a generic (unbranded, unlabeled) soymilk in plain and carob-honey flavors, put up in quart canning jars.

In late 1977 Greg Mello decided to leave. So in January 1978 Andy brought in Greg Weaver. In mid-1978 Weaver and Schecter realized that tofu sales were slow since most people did not know what it was or what to do with it. So they decided to open a soy deli to introduce prepared tofu dishes to the public. Weaver took charge of the deli, which opened in November 1978 under the name "The Tofu Shop" at 686 Monroe Ave. The startup costs were about $20,000. Since the manufacturing branch of the partnership was now without a name, they decided to call it Northern Soy. And since Schecter felt that he would need more managerial help in running Northern Soy, he brought a third partner, Norman Holland, in around November 1978.

© Copyright Soyinfo Center 2013

The three partners all owning two businesses didn't get along very well, so they decided to separate the two businesses. Weaver would own the deli as an independent business, while Schecter and Holland would own Northern Soy. Since the name The Tofu Shop legally belonged to Northern Soy, Weaver was asked to find another name. After briefly trying "The Tofu Gardens," he settled on "The Lotus Cafe." This deli, the fifth soy deli to open in America, was a pioneer in developing delicious tofu and tempeh recipes and marketing them in an attractive way. Featured in a cover story in the first issue of Soycraft (later Soyfoods) magazine (summer 1979), it offered both sit-down (20 seats) and take-out service, featuring hot vegetarian lunches and dinners. By 1982 it was the largest soy deli in America in terms of average weekly sales ($4,800) and maximum weekly sales ($6,500). Names of 30 of its most popular tofu and tempeh recipes are given in the books *Tofu & Soymilk Production* (1979) and *Report on Soyfoods Delis, Cafes & Restaurants,* both by Shurtleff and Aoyagi.

Tempeh production was started [in about Nov. 1977] by Earl Lepper in his home. Then at some point in 1979 or 1980 he moved the operation into a corner of The Tofu Shop. Eventually he decided to sell his tiny business to The Tofu Shop so he could move to California.

The Lotus Cafe closed in August of 1984 or 1985, in debt and after Weaver's unsuccessful attempt to sell it. Weaver went to work for a computer literacy firm. All 3 are still bachelors. Address: 30 Somerton St., Rochester, New York.

8185. *Farm & Country* (*Toronto, ONT, Canada*). 1987. Asians buying plenty: Soy. Oct. 27.
• ***Summary:*** Ontario has captured 66% of Singapore's 41,000-tonne market (soybean). Yet out of Japan's 500,000-tonne annual imports for tofu manufacture, Ontario supplies less than 3,000 tonnes. Canada applies more rigorous grade standards than the U.S., but Canada needs better beans, not just better grading. Buyers believe that American beans are higher in protein. Address: Ontario, Canada.

8186. Rose, Richard. 1987. Re: Personal observations on soyfoods at Natural Foods Expo in Philadelphia. Letter to William Shurtleff at Soyfoods Center, Oct. 28. 1 p. Typed, with signature on letterhead.
• ***Summary:*** Show trends: Many new companies introducing many new soyfoods, some very high quality in concept and execution. Established soy companies now entering such as Miller Farms and Witte / White Wonder. The Soyfoods Pavilion seemed to have less both space and be more spread out. The only Legume product at the show was the tofu chocolate bar (will the Barat Bar save Legume?). Tomsun Foods did not have a booth. Ice Bean was the only soy frozen dessert there. A proliferation of soy cheeses, aseptic soymilks, glass-packed spreads, meat analogs. Nasoya will be making Simply Natural's tofu/miso spread for them; it has just been patented. Simply Natural's tofu cheese is now called Soyalite, and their pasta is Pasta Lite. Little-seen regional companies were there, including Michele's and Northern Soy. Paul Obis adds: Many at the show were lamenting the apparent failure of Jofu. They have spent all their money.

The Rose International letterhead states: EasyLink Mailbox 62978515. Telex 990027 (Rose Intl UQ). Address: President, Rose International, P.O. Box 2687, Petaluma, California 94953-2687. Phone: 707-778-7721.

8187. **Product Name:** Tofulite (Tofu-Based Non-Dairy Yogurt-Type Snack).
Manufacturer's Name: Barricini Foods Inc.
Manufacturer's Address: Oyster Bay, New York.
Date of Introduction: 1987. October.
How Stored: Frozen.
New Product–Documentation: Spot in Food Engineering. 1987. Jan. "Tufu [sic, Tofu] non-dairy yogurt is lower in fat." *Tofulite* is a new tofu-based, non-dairy yogurt snack from Barricini Foods Inc., Oyster Bay, N.Y. The product will be marketed as a spoonable snack with active yogurt cultures. It is lactose and cholesterol free." It is a cultured/fermented food; Dairy Foods. 1987. March. p. 32. "Tofulite Yogurt will be available later this year." Food Distributors Magazine. 1987. April. The new yogurt-type snack is Barricini Foods' first major expansion from its initial base of non-dairy frozen desserts–Tofulite and Ice Bean.

Interview with Robert Tepper. 1987. Aug. 31. This is a fermented soymilk. Not yet out. Note: As of early 1989 this product had not been launched, and may never be.

8188. Bradner, Norman. 1987. Soybeans for the food market. *Seed World* (*Des Plaines, Illinois*). Oct. p. 44.
• ***Summary:*** Thailand imports nearly 100,000 tonnes/year of soybeans for food use. Japan imports 65,000 to 70,000 tonnes of small beans to make natto. Natto beans can be less than 5 mm in diameter and have a yellow cotyledon and hilum. For tofu, soymilk and miso, importers want high protein, low oil, maximum water soluble proteins, low phytate, high 11S protein fraction, large seed size and high sugar content. But a variety judged good one year can be deemed unsuitable the next. Environmental conditions during seed development play a significant role in determining the final chemical composition. Address: Pulse Breeder, King Agro, Inc., Chatham, Ontario, Canada.

• ***Summary:*** The best summary seen to date of the new view of fats. Cholesterol levels that were once considered

© Copyright Soyinfo Center 2013

normal are now regarded as dangerously high. There is now a national campaign to measure cholesterol levels in every American adult and urge those on the high side to seek medical help. New findings have forced a reexamination of dietary recommendations. Saturated fats have been shown to be twice as instrumental as dietary cholesterol in raising blood cholesterol levels, while unsaturated fats help lower these levels. Now we are being advised to lower consumption of both types of fat. The American Heart Assoc. recommends that no more than 30% of our daily calories should come from fats, with at most 10% from saturated fats. Cholesterol intake should be limited to 250-300 mg/day, the amount in one large egg yolk. Blood cholesterol levels should be under 200 mg/ml.

And cholesterol is only half the story. At least as important are the amount of the different kinds of cholesterol-carrying proteins in the blood. Two kinds, LDLs and VLDLs (for low- and very-low-density lipoproteins) promote cholesterol rich deposits in arteries, which in turn can trigger heart attacks and strokes. But a third kind, called HDLs (high-density lipoproteins), cleanses the blood vessels of fatty deposits and flushes cholesterol out of the body. Aerobic exercise raises HDLs. HDLs are not found in foods. The two most saturated fats in the American diet are vegetable fats: coconut oil and palm kernel oil. They raise cholesterol levels and clog coronary arteries faster than animal fats. You do not need the protein in red meat for strength. The strongest animals in the world (elephant and ox) are total vegetarians. Strong muscles are built by exercise. The meat industry has an ongoing campaign to reduce the fat in its products by changing feeding practices, breeding leaner animals, and encouraging retailers to trim fat more closely. This year, for the first time, fat contents will be included on packaged meat labels. Cheese, high in fat, is not a good meat substitute. Choose soybeans or tofu instead. Address: Science writer, New York Times.

8190. Brown, Judy. 1987. Soynuts: Creating another niche for soybeans. As an ingredient and snack food, this crunchy soybean shines. *Soya Newsletter* (*Bar Harbor, Maine*). Sept/Oct. p. 1, 8, 11.
• ***Summary:*** Total U.S. production of soynuts is estimated at 6 to 7 million lb/year. Solnuts, Inc. is the world's largest producer and distributor, with plants at Hudson, Iowa, and Tilburg, Netherlands. Solnuts produces about 2 million lb/year of dry roasted soynuts, 95% of which is used as a food ingredient by manufacturers. The company's line includes whole soynuts, pieces, grits, and flour. Wholesale prices range from $0.40-70/lb. Solnuts new sister company, Witte Wonder in Poeldijk, Netherlands, makes a line of second generation tofu products. INARI Trading Co. in Lansing, Michigan, founded in 1976, produced 500,000 lb of oil roasted soynuts in 1986. They are the only producer of confection-coated soynuts and soynut butter in the U.S. Principal markets are other food producers and repackagers. Their soynuts come in a variety of flavors, seasonings, and coatings. Wholesale prices are $0.64-71/lb. Soynut marketers include Lee Seed Company in Inwood, IA, and Iowa Nuts Inc. in Spencer, IA.

8196. Golbitz, Peter. 1987. Is it time for Tofuggets [Tofu Nuggets like Chicken McNuggets]. *Soya Newsletter* (*Bar Harbor, Maine*). Sept/Oct. p. 2.
• ***Summary:*** Chicken McNuggets have been so successful that they have transformed the broiler industry. Why not introduce the same concept, using tofu instead of chicken? Address: Soyatech, Bar Harbor, Maine.

8197. Haumann, Barbara. 1987. Expanding soybean markets, uses. *J. of the American Oil Chemists' Society* 64(10):1369, 1372-79. Oct.
• ***Summary:*** Value-added products and soybean varieties tailored to produce specific end products are among the promising developments envisioned to expand markets for U.S. soybeans. Keith Smith, staff vice president of research for the American Soybean Association (ASA) said, "Aquaculture–raising fish such as shrimp, catfish and trout–is a growing industry in the U.S. and abroad." Smith went on to say that the switch from mainly production research to more utilization research occurred eight to nine years ago, and that 60% of ASA's total research money in the past 6 years has gone for utilization research.

Genetic research is working to improve the fatty acid content of soybean oil. Work is also under way to develop a quick, low-cost method to determine oil and protein content. Other work includes trying to lower levels of linolenic acid in the oil. At Purdue Univ. in Indiana, research geneticist Niels Nielsen of the USDA's Agricultural Research Service (ARS) is trying to develop soybean lines free of lipoxygenase enzymes. Soymilk and flours produced from the new seeds are rated significantly better in flavor and aroma. Professor Nielsen and his research group are trying to "improve the nutritional quality of the major soy storage proteins by increasing sulfur amino acid content." He noted that the methodology has resulted in doubling and tripling the methionine content. At the University of Kentucky, David Hildebrand is also working on genetic engineering of soybeans.

Brazil, the second largest producer of soybeans, has evolved as the largest exporter of soybean meal and oil. The other top producers are China, in third place; Argentina, in fourth; and India, which recently made the top five. Indonesia is in 6th. Italy's production has grown substantially in recent years to make it the most important soybean-producing area in Europe. Other European producers include France and Spain. According to Oil World Annual published by ISTA Mielke, West Germany, the top 10 soybean oil producers for 1986/87 (in tonnes) were the following: U.S. 5,430,000; Brazil 2,538,000; Argentina 780,000; Japan 715,000; China 679,000; West Germany 521,000; The Netherlands 488,000; Spain 421,000; Italy 350,000; and Mexico 336,000.

ANPA (American Newspaper Publisher's Association) began seeking alternative sources to petroleum for ink seven years ago due to problems with petroleum supplies. Four years ago, with fluctuations in supplies and price, ANPA began considering the use of soybean oil ink. ANPA has filed a soy ink patent application and has begun licensing major ink manufacturers to make it. The first ink manufacturer to produce the ink, colored and black, is General Printing Ink, a division of Sun Chemical Corp., located in Carlstadt, New Jersey. One advantage of soy oil ink is that it is environmentally nonhazardous, which could reduce waste disposal problems. It also eliminates dependence on petroleum. There is less "ruboff" and the same amount of ink will print more pages. One drawback is that black ink made

© Copyright Soyinfo Center 2013

from soybean oil costs more than traditional black ink. Oil content in newspaper ink averages about 70%.

In the March 4, 1987 *Federal Register,* the U.S. Federal Grain Inspection Service (FGIS) ruled that soybean and other edible oils may be used to control grain dust in elevators. A U.S. Patent, licensed to Industrial Fumigant Co., is held jointly by Harold N. Barham and Harold N. Barham Jr. of Seed Technology of Texas. The patent was filed in 1978. Kinsella, director of the Institute of Food Science at Cornell Univ. said that another research interest was in the area of omega-3 fatty acids. It may desirable to develop soybean cultivars with high omega-3 fatty acid levels. John W. Erdman Jr. of the Univ. of Illinois' Dep. of Food Science and co-worker Angela Poneros want to nail down the factors that lower zinc bioavailability. He said, "We want to find out why this happens and if we can increase it."

Meanwhile, at INTSOY, team member Sing-Wood Yeh and others are working in the field of soybean dairy analogs. Tofulicious, a non-dairy frozen dessert, was developed through research coordinated by University of Minnesota food scientist William Breene and funded by the Minnesota Soybean Research and Promotion Council. Abroad, ASA has been promoting soy-fortified foods. For instance, in Venezuela three years ago, ASA launched an education program for consumer groups and government agencies on the benefits of soy protein. As a result, soy-fortified foods are available in Venezuela's major supermarkets, and demand for soy protein has increased to more than 48,000 pounds per month.

Soybean researchers are also working on standardization of NIR (near-infrared spectroscopy) as a measure of protein and oil content in soybeans. NIR already is successfully used to measure grain and forage composition. If NIR were adopted as a standard by the industry, soybeans eventually could be purchased based on protein and oil content.

8198. **Product Name:** Lenny's ToChip.
Manufacturer's Name: Lenny's ToChip.
Manufacturer's Address: 86-18 Union Turnpike, Glendale, NY 11385. Phone: 718-847-3924.
Date of Introduction: 1987. October.
Ingredients: Stoneground corn, Nasoya tofu, oil (sunflower, safflower, or unhydrogenated corn), sea salt.
Wt/Vol., Packaging, Price: 1.5 oz., 5 oz., or 12 oz.
How Stored: Shelf stable.
Nutrition: Per 1 oz. (28 gm): Calories 140, protein 4 gm, carbohydrates 15 gm, fat 6.5 gm, sodium 123 mg (435 mg/100 gm).
New Product–Documentation: Leaflet. 1987. Developed by Lenny Shore, a vegetarian chef. Patent pending. Spot in Whole Foods. 1988. Feb. p. 58. Spot in Natural Foods Merchandiser. 1988. Feb. p. 62. "Tofu corn chips." I phoned 1988. Sept. 19. Phone has been disconnected.

8199. **Product Name:** New Tofu Link Specials (Meatless Hot Dogs with Soy Cheese).
Manufacturer's Name: Light Foods Inc.
Manufacturer's Address: St. Louis, MO 63303.
Date of Introduction: 1987. October.
Ingredients: Water, real Tofu, isolated soy protein, non-hydrogenated vegetable oil, cheddar style soy cheese (fresh soy milk, soy oil, calcium caseinate, fresh tofu, natural flavor, salt, lecithin. citric acid, guar gum, annatto (natural color)), rice syrup, natural spices, salt, beet powder, tamari (natural soy sauce), barley flour, locust bean gum, natural flavors, onion powder, garlic powder, natural spice oils.
New Product–Documentation: Poster. 1986. Sept. "Tofu 'n Cheese Links. Made with Real Tofu and cholesterol free soy cheese. No cholesterol, no MSG, no sugar, no meat." Poster. 1987, undated. "Higher Still... With natural imitation soy cheddar cheese." Talk with Bob Davis. 1988. March 26. These feature soy cheese, sort of like Oscar Meyer's meat counterpart. Talk with Lauraine Davis. 1988. Aug. 28. These are made with Richard Rose's soy cheese. Leaflet. 1988. April. 8½ by 11 inches. Black on light blue. "On the rise... Now you want a link with no animal ingredients, non-hydrogenated oil, less fat, maybe a rice syrup sweetener instead of honey, and an even better flavor. Introducing the New Tofu Light Links, and New Tofu Light Link Specials, with natural imitation soy cheddar cheese." Leaflet. 1988. April. 8½ by 11 inches. Blue and red on beige. "Higher still..." Gives ingredients for New Tofu Light Links, and New Tofu Light Link Specials.

8200. **Product Name:** Lightlife Party Pups (Meatless Frankfurters. Cocktail Size Tofu Pups). Renamed Tofu Party Pups by Feb. 1988.
Manufacturer's Name: Lightlife Foods, Inc.
Manufacturer's Address: P.O. Box 870, Greenfield, MA 01302.
Date of Introduction: 1987. October.
Ingredients: Same as Tofu Pups.
Wt/Vol., Packaging, Price: Approximately 24 per 12-oz. package. Retails for $2.99-$3.19.
How Stored: Refrigerated, 45 day shelf life.
Nutrition: Per 1 oz.: Calories 62, protein 6.2 gm, carbohydrates 1.1 gm, fat 3.6 gm, sodium 104 mg.
New Product–Documentation: Ad in Natural Foods Merchandiser. 1987. Oct. p. 93. Soya Newsletter. 1987. Sept/Oct. p. 6. Spot in Natural Foods Merchandiser. 1987. Dec. p. 49. Label reads: "Reduced sodium. No nitrates. No cholesterol. Cholesterol free. All natural. Made with real tofu." New Label. 1988. 3.5 by 4.5 inches. Red on yellow. "Cholesterol free. All natural. No nitrates. Lower in fat. Lower in sodium."

Talk with Michael Cohen. 1991. Sept. 17. This product died rather soon after being launched.

8201. Medoff, Marc. 1987. New soy cheese best yet to hit market. *Whole Life.* Sept/Oct. p. 79-80, 82.
• ***Summary:*** Sharon's Finest brand FREE, a new non-dairy cheese made for Rose International, contains no casein. "They've managed to create a soy cheese that is about as close to real dairy cheese as any we've seen to date... Indeed its similarity to real cheese is startling." A U.S. patent is pending on the product's formulation and process. The product's cheese-like qualities result from the interaction of ingredients, rather than from any one in particular. It contains 70% organic tofu, far more than any other soy cheese on the market. It will be marketed as tofu that is like cheese, rather than as a soy cheese per se. Also the Tofu-Rella labeling has been improved.

Galaxy Cheese Co. now makes Le Creame Formagg (a cream cheese substitute) and Le Creame Formagg Cake (a cheeseless cheesecake), but these cholesterol-free products contain no soy protein; The butterfat is removed from dried skim milk protein and replaced with partially hydrogenated soy oil. They are said to contain 35% less calories than real cheesecake, 70% less saturated fat, and 6 times as much calcium.

And "guess who else is about to jump into the market. It's that tofu rapist himself, Tofutti king David Mintz. That's right. Whole Life has obtained a letter signed by Mintz... that states his company is planning to come out with a line of casein-free soy and tofu cheeses in the not-too-distant future. Based on Mintz's track record of manufacturing fraudulently labeled junk food and trying to pass it off as healthy fare, we expect no better from his newest venture. We hope we're wrong but we've yet to see one product put out by Mintz that we'd feed to a dog, let alone a human being." Shows labels for Free and Tofu-Rella.

8202. **Product Name:** Tofu.
Manufacturer's Name: MGM Brands.
Manufacturer's Address: 59 Howden Rd, Unit H., Scarborough, ONT, M1R 3C7, Canada. Phone: 416-752-6600.
Date of Introduction: 1987. October.
New Product–Documentation: Talk with company. 1988. March 2.

8203. **Product Name:** Michele's Original Dressing (With Tofu).
Manufacturer's Name: Michele's Original.
Manufacturer's Address: 6441 Haverford Rd., Philadelphia, PA 19151. Phone: 215-474-8636.
Date of Introduction: 1987. October.
Wt/Vol., Packaging, Price: 8 oz. Retails for $1.99.
How Stored: Frozen.
New Product–Documentation: Spot in Natural Foods Merchandiser. 1987. Oct. p. 23. "Tofu Dressing." The company specializes in Gourmet Tofu Products. Manufacturer's catalog. 1987. "Enjoy on salads and in sandwiches. A wonderful marinade for tofu, fish and chicken." 8 oz. Richard Rose review. 1987. Oct. 28. "Bland, uninspiring."

Talk with Michele D'Ambrosio, founder and owner of Michele's Original. 1992. Sept. 21. She is not sure what product this product is–it may have been her Tofu Tahini Dressing.

8204. **Product Name:** Michele's Marinated Tofu.
Manufacturer's Name: Michele's Original.
Manufacturer's Address: 6441 Haverford Rd., Philadelphia, PA 19151. Phone: 215-474-8636.
Date of Introduction: 1987. October.
Wt/Vol., Packaging, Price: 9 oz. plastic tub. Retails for $1.99.
How Stored: Refrigerated.
New Product–Documentation: Spot in Natural Foods Merchandiser. 1987. Oct. p. 23. The company specializes in Gourmet Tofu Products. Manufacturer's catalog. 1987. "The sauce is blended with fresh basil and garden herbs." Developed by Michele J. D'Ambrosio, who started experimenting in 1978. Broker is Margolis & Company, Inc., Philadelphia. Richard Rose review. 1987. Oct. 28. "Bland, uninspiring."

Talk with Michele D'Ambrosio, founder and owner of Michele's Original. 1992. Sept. 21. She introduced this product in 1980. That same year she moved her business out of her home in Havertown to a delicatessen at the address shown above, and introduced a dressing with sesame and hummus. The marinated tofu is chunks of tofu marinated in the sesame dressing. You can sauté it, put it in a pita pocket, use it atop a salad, mix it into an omelet, etc.

many based on tofu, tempeh, and soybeans. These foods are introduced in a section on legumes (p. 20-21). Soy-related recipes include: Tofu salad I and II (p. 71). Tofu potato salad (p. 72). Tofu vegetable soup (p. 76). Tofu tomato soup (p. 78). Tofu sandwiches (p. 80-81). Tofu pita pizzas (p. 81).

In the recipe section on Main Dishes, a section titled "Tofu, tempeh, and soybeans" (p. 84-99) contains: Cashew-carrot Parmesan (with tofu). Far East fried rice (with tofu or tempeh). Savory tofu casserole. Tofu-vegie pie. Oriental tofu. Tofu-mushroom pot pies. Tofu quiche. Tofu pizza. Tempeh stuffed eggplant. Soybean-mushroom pilaf. Soyburgers with mushroom stuffing. Tempeh Parmesan. Tofu lasagne. Tofu macaroni and cheese. Sesame tofu. Crepes with tofu-ratatouille filling (p. 112).

Diabetes mellitus affects about 11 million Americans. There is no known cure. "Proper diet is the cornerstone for any successful diabetes management plan. Generous intakes of starchy foods rich in fiber are essential to good diabetes control."

8208. Murrieta Foundation. 1987. Murrieta Hot Springs vegetarian cookbook. Revised and expanded including Spa Cuisine. Summertown, Tennessee: The Book Publishing Co. 232 p. Color plates. Index. 23 cm.
• ***Summary:*** This is a vegetarian (but not a vegan) cookbook. The index contains listings for 26 tofu recipes, 5 miso recipes, and 2 tamari recipes. There are definitions of "liquid aminos" (HVP), miso, tamari, tempeh, and tofu. Many of the recipes are favorites from the Oasis Restaurant at the Hot Springs, where the three basic lacto-ovo vegetarian diets (as taught by Dr. Randolph Stone, 1890-1982, founder of Polarity Therapy) are The Purifying Diet, The Health Building Diet, and the Gourmet Vegetarian Diet. Address: Murrieta Hot Springs, California.

8209. **Product Name:** Soyboy Tofu No Baloney.
Manufacturer's Name: Northern Soy, Inc.
Manufacturer's Address: 30 Somerton St., Rochester, NY 14607.
Date of Introduction: 1987. October.
Ingredients: Real tofu (filtered water, organically-grown soybeans, natural calcium chloride nigari–a natural mineral coagulant, not a preservative), isolated soy protein, herbs & spices, natural flavorings, onion powder, garlic powder, sea salt, vegetable gums, liquid smoke.
Wt/Vol., Packaging, Price: 8 oz vacuum packed.
How Stored: Refrigerated, 35 day shelf life. Or frozen.
New Product–Documentation: Manufacturer's catalog. 1987. Oct. But not yet launched. Label. 1987. 3.5 inches diameter. Red, green, and black on yellow. "All natural meatless entrees. Cholesterol free. No preservatives and nothing artificial." Talk with Andy Schecter. 1988. Feb. 17. Launched in Oct. 1987.

Talk with Andy Schecter. 1991. Feb. 5. This product was discontinued for a while then re-launched in 1990.

8210. Northern Soy Inc. 1987. Products: Names and ingredients. 30 Somerton St., Rochester, NY 14607. Manufacturer's catalog.
• ***Summary:*** Lists 8 tofu or tempeh products, Soyboy or Harvest Light brands. Address: Rochester, New York.

8211. **Product Name:** Old Chicago Deep Dish Pizza-Lite (Made with Soya Kaas Soy Cheese and Whole Wheat).
Manufacturer's Name: Old Chicago Foods.
Manufacturer's Address: P.O. Box 690, Petaluma, CA 94953. Phone: 707-762-6194.
Date of Introduction: 1987. October.
Ingredients: Sprouted wheat, organic whole wheat flour, mozzarella style soy cheese, mushrooms, olives, bell peppers, olive oil, tomatoes, corn oil, honey, salt, yeast, spices.
Wt/Vol., Packaging, Price: 6.5 oz individually wrapped pizza, boxed 12 to a case.
How Stored: Frozen.
New Product–Documentation: Leaflet. 1987. Red on grey. Talk with Andy Berliner. 1988. March 7. This is one in a line of their Whole-Wheat Deep Dish pizzas, sold at health food stores. It was launched in Oct. 1987. Recently sprout wheat (in the crust) has become the main ingredient, and the soy concentrate (the last ingredient in the original formulation) has been dropped. They originally used Soya Kaas, but may soon use another brand. Spot in Whole Foods. 1988. Aug. p. 59. Still made with Soya Kaas.

Soya International. 1990. April/June. p. 23. Lists newer version of the same product. Retails for $2.30. Address is now P.O. Box 449, Petaluma, California 94953. Contact: Lorraine Ottens.

8212. Ontario Ministry of Agriculture and Food. 1987. Soybean buyers mission from Japan, Hong Kong, Malaysia, Singapore, October 10-20, 1987. Toronto, Ontario, Canada: Ontario Ministry of Agriculture and Food. 23 p. 30 cm. Saddle stitched. [Eng]
• ***Summary:*** Contents: Mission members (with a photo of each). Itinerary. Japanese market for edible soybeans. General uses of edible soybeans in Hong Kong, Malaysia and Singapore. List of major importers in Asia (by country). Ontario soybean suppliers. Role of the Ontario Soya-Bean Growers Marketing Board (Chatham, Ontario).

This conference, which took place in Toronto, Chatham, and Harrow, Ontario, Canada, was sponsored by OMAF in Toronto. On the mission were 6 buyers from Japan (Takeya Miso Co., Asahi Industries [tofu maker], Takano Foods Co. [natto maker], Dah Cong Hong, Wako Shokuryo Co., and Gomei Shoji Co. [the last 3 is each an importer and wholesaler]), 2 from Hong Kong (Amoy Industries Ltd., and Chung Hing Co.), 3 from Malaysia (Sin Yong Huat

© Copyright Soyinfo Center 2013

Enterprises Sdn. Ltd, Yeo Hiap Seng (Malaysia) Ltd., and Chop Lee Kit Heng), and 2 buyers from Singapore (Eng Huat (S) Ltd. and Chop Hin Leong). Mike Hojo of OMAF/ Tokyo was the mission leader.

The Japanese soybean market is about 5 million tons a year. Of this: Oil crushing 4,036,000 tons. Food 849,000 tons (17% of total), and feed (not crushed) 70,000 tons. From 1982 to 1986 domestic Japanese soybean production has decreased from 168,000 tons to 147,000 tons, while imports have increased from 4,344,000 tons to 4,857,000 tons. Demand for food soybeans has increased from 803,000 tons to 849,000 tons. Tofu, miso, and natto account for more than 94% of the total utilization of edible soybeans, roughly as follows: Tofu 500,000 tons, miso 200,000 tons, natto 100,000 tons.

In 1986 some 89.9% of Japan's soybean imports came from the USA, followed by China (6.7%), and Brazil (2.65%). That year the least expensive soybeans came from Brazil (US$219.86/ton), followed by USA ($221.36), China ($236.06), and Canada ($277.50). Note that Canadian soybeans are 25.3% more expensive than those from the USA. Chinese and Canadian soybeans are most widely used to make foods. Large Chinese soybeans are used to make tofu, medium sized for miso, and small for natto. Of the soybeans imported from the USA, 80-85% are imported from oil crushing because of their high oil content. The remaining 10-15%, or approximately 700,000 tons are food soybeans from Iowa, Ohio, or Michigan. Called "IOM" soybeans, they are used mainly to make tofu. Brazilian soybeans have a high oil content and are used for oil crushing only. The ocean freight cost for a 20-foot container shipped to Tokyo is as follows: USA west coast $1,000. Toronto, Canada $1,800. USA East Coast $2,000. Brazil $2,100. Argentina $2,500. But a large percentage of regular soybeans are loaded directly into ships, and travel at lower freight rates. Exports of food soybeans from Canada to Japan rose from 10,000 tons in 1979 to 26,000 tons in 1986, while those from China rose from 267,000 tons in 1979 to 323,000 tons in 1986.

Very detailed preferred characteristics are given for soybeans to make miso (6 characteristics), natto (5), and tofu (5). Canadian soybeans are recognized as superior to Chinese and American soybeans for food use. This is one reason they command a relatively higher price.

Hong Kong imports 28,100 tons/year of soybeans, and 63% of these come from Canada, followed by China (35%), and the USA (1.8%). Malaysia and Singapore import 124,800 tons/year, and 53% of these come from the USA, followed by Canada (31.7%), and China (8.2%). Most of the food soybeans in Malaysia and Singapore are used to make soymilk and tofu.

Soymilk: Vitasoy dominates the market in Hong Kong, whereas in Malaysia and Singapore the leading manufacturers are Yeo Hiap Seng, Cold Storage, Lam Soon, and Nestle. Soymilk consumption is increasing in these 3 countries, and in neighboring countries. Soymilk makers believe there are four requirements for their products' success: It must taste good, must be priced competitively with soft drinks, must be perceived as a health food, and must be marketed properly.

Bean curd sheets and sticks [yuba] are very common snacks and dishes in Hong Kong, Malaysia, and Singapore. Manufacturers consider only Chinese and Canadian soybeans for these products. Canadian soybeans produce whiter soymilk and thus whiter yuba. However the larger size of Chinese soybeans results in a larger yield. Manufacturers normally blend 60% of Canadian soybeans with 40% of Chinese soybeans to obtain a higher output of whiter sheets.

Major Japanese soybean importers include: Da Chong Hong (Japan) Ltd., Gomei Shoji Co. Ltd., C. Itoh & Co. Ltd., Mitsubishi Corp., Kanematsu-Gosho Ltd., Nichimen Corp., Marubeni Corp., Mitsui & Co. Ltd., Nissho Iwai Corp., Okura & Co. Ltd., Toyo Menka Kaisha Ltd., Wako Shokuryo Co. Ltd. Address: Ontario, Canada.

8213. Shurtleff, William. 1987. History of White Wave, Inc. Lafayette, California: Soyfoods Center. 11 p. Oct. Unpublished manuscript, based on interviews with Steve Demos from June 3 to Oct.

• ***Summary:*** A detailed history of this pioneering, very creative, and rapidly growing company. Contains production and sales statistics at each major phase of growth. Early days: White Wave was founded and started making tofu in September 1977 by Steve Demos in Boulder, Colorado.

Born on 24 April 1949 in Philadelphia, Pennsylvania, Demos attended Bowling Green State University in Bowling Green, Ohio, majoring in political science and philosophy and graduating in the fall of 1970. He was introduced to tofu in the summer of 1970, when he was traveling in a van in northern California with a friend, who bought some at an Oriental food store. Demos found it to be a good source of protein, and liked the flavor.

Right after graduation Demos took two trips to India. During the first in 1971, with Pat Calhoun, he became a vegetarian after witnessing the meat bazaar in Afghanistan. In early 1972 he took a longer trip to India, again with Pat Calhoun. It included 10-day Buddhist meditation course with a teacher from Burma, Goenka, who became his spiritual teacher. He also lived for 1-3 months in a cave near Rishikesh (in the foothills of the Himalayas in northern India), doing Hatha Yoga and meditation. There were monkeys in the forest trees, tame peacocks, a stream 10 yards in front of the cave that dropped into a bathing pool, and many sadhus (Indian holy men) practicing in other caves nearby. Then in 1974 he started a health food store [named Touch the Earth] in La Haska, Pennsylvania, where he grew acquainted with many new foods such as miso, sea vegetables, and *gomashio* (sesame salt). After 9 months he sold the store and returned to India again. He was now

© Copyright Soyinfo Center 2013

actively involved in meditation.

After that trip, Demos started living on the East Coast in New Hampshire. By 1974 he began buying tofu in Boston, Massachusetts, then made it a few times in the kitchen and used it in cooking for a yoga studies group, which had purchased a farm. He was in charge of food and he had learned how to make tofu from the *Ten Talents* cookbook. In March 1976, after a trip to India, he was in Santa Barbara, California, at a 76-day meditation retreat with teacher Robert Hover. He made tofu, starting at 4:00 each morning in a commercial kitchen, for 100-150 people, using *The Book of Tofu.* During this retreat Demos conceived of and developed the idea of starting a tofu company, including the name and logo. Three months later he found himself, a hippie with long hair, in Boulder, Colorado. He had an idea but no capital, and was living on food stamps. By good fortune he met a man named Anton Rogers (a talented architect and builder), who loaned him $2,000 startup capital, after having known him less than a month. So in the summer of 1977 Steve began buying equipment for making tofu. His new company was not yet officially established or registered–though he probably opened a checking account at a local bank.

Demos started making tofu at White Wave on 27 September 1977. "At 11:30 a.m. I sold my first block. I'm staring at the astrological chart which sits next to my desk. That was when I translated the effort to a dollar." The company began as a sole proprietorship, located in very small (300 square foot) rented quarters at 1738 Pearl Street in Boulder, Colorado. The front one-third of the shop was used for a retail deli and the back two-thirds for food production. From day one, the tofu was made from organically-grown soybeans. Each 14-ounce block of tofu was sold, floating in water, in Chinese food take-out cartons. For details on White Wave's early use of organically grown soybeans, see SoyaScan interview with Steve Demos (Aug. 1998). The first batch of tofu was used to feed the participants in a ten-day meditation retreat in Boulder.

One direct competitor was the Spinning Kitchen, which had started 9 months earlier, in about January 1977. They had the Boulder market locked up when White Wave started.

White Wave had three products from the opening day: Nigari Tofu, Black Walnut Mushroom tofu, and Lemon Herb tofu. The latter two innovative flavored tofus were made by mixing the natural flavorings into curds at a specific point before pressing. Shortly White Wave expanded into making sandwiches, which led to salads, drinks, pies, cakes, and muffins. One of the first stores in Boulder to sell Steve's tofu was Green Mountain Grainery, owned and run by Bruce Macdonald. Pat Calhoun (formerly Demo's wife), arrived in December from the Pacific Coast Bakery in California, bringing all their recipes. Recipes for baked goods (such as cinnamon rolls and cookies) were adapted.

By early 1978 soymilk (plain, honey-sweetened, or carob-maple) was introduced, sold out of a jet spray juice cooler or in quarts, and also used to make Coconut Cream Pie and Tofu-Agar Pies filled with various fruits (apples or whole strawberries, peaches, or blueberries). At about the same time the okara from the tofu started to be used to make one of America's earliest brands of Soysage. This spicy Vegetarian Soysage (shaped like a sausage) was distributed with the tofu. Before long White Wave was making a host of delicious and innovative tofu deli products which were sold only at the Pearl Street deli. These included Macro Pizza with Tofu, Mexican Entrees, Okara Granola, and Tofu Dogs and Sauerkraut (very firm tofu cut into long rectangles and marinated broth). Soy Sannies (Miso-tahini Sandwiches) were also sold at nearby health food stores.

To help attract customers, the deli also sold an assortment of then largely unknown food products: 10-15 varieties of Japanese and American miso, many sea vegetables, shoyu, kudzu, umeboshi plums, and the like, many of the same products Demos had sold 4 years earlier at his health food store in Pennsylvania. Most of these were of great interest to macrobiotic devotees, though Steve had little personal interest in that subject.

Tofu was quickly recognized as a tremendously versatile, all-American ingredient. Now new people started coming into the company. Some were cooks and they helped to develop new products. In 1978 White Wave began to distribute a number of its most popular deli-type products to other retailers. These were among America's earliest commercial second generation tofu products: Missing Egg Salad (America's first, named by Trudy Stuart), Tofuna Salad (Vegetarian Tuna Salad), and Tofu Turnovers (with spinach and feta cheese filling). Other innovative second generation products sold or used only at the Pearl Street deli included Tofu Treats or Creamies (in banana-coconut, peanut-carob, or carob mint flavors), Miso Salad Dressings (hearty or mellow), and Tofu Mayo (eggless mayonnaise used in the Missing Egg Salad). Address: Lafayette, California.

8214. Shurtleff, William. 1987. History of White Wave, Inc. (Continued–Document part II). Lafayette, California: Soyfoods Center. 11 p. Oct. Unpublished manuscript, based on interviews with Steve Demos from June 3 to Oct.
• ***Summary:*** Continued: At the same time White Wave started making nut and seed products in the same little shop, starting with gomashio (sesame salt), tamari-coated sunflower seeds and almonds, and nut butters.

Just a year after opening, White Wave was forced to expand out of the tiny Pearl Street shop by the demand for its deli products from outside retailers, such as Arati and other natural food stores in Boulder. Demos recalls:

"We acted with very little foresight. It was more like 'What do you want to do today? Let's make something new.' Finally we couldn't get out the front door. We had to step over the top of buckets of tofu, presses, and boxes used to deliver our little Chinese fish cartons of tofu, stacked up so

© Copyright Soyinfo Center 2013

high we couldn't see out the window. It was chaotic. We were making money and business was booming, but we were only paying ourselves $1.42 and hour."

On 28-30 July 1978 a meeting of tofu manufacturers from across the USA was held in Ann Arbor, Michigan. The meeting was organized by Steve Fiering, Jerry MacKinnon (plus coworkers at The Soy Plant) and Bill Shurtleff, and hosted by The Soy Plant. Steve attended this historic meeting, and ended up rooming with Tom Timmins, head of the New England Soy Dairy. "I thought I was rooming with one of the idols of the industry. Just by virtue of association, I was going to do well." At this meeting the Soycrafters Association of North America (SANA) was established, with Larry Needleman as executive director of the new trade association. Steve was elected to be one of six members of SANA's steering committee. Various photos of the meeting show Steve, with long hair and mustache, leading and participating in the discussions. A yellow lined sheet titled "Tofu Sales" was circulated to all attendees; Steve wrote that White Wave was making medium-firm bulk and packaged tofu, which wholesaled for $0.65 and $0.74 per pound, f.o.b. plant. Several days after the Ann Arbor meeting, William Shurtleff and Wataru Takai visited Demos, and saw how he made tofu at his tiny shop on Pearl St. in Boulder. They sampled and enjoyed the various creative offerings in the deli, and Shurtleff took home a label from each product.

At Walnut Street: In September 1978, after just a year at Pearl Street, the tofu company had long since outgrown its minuscule 'back room' space. So manufacturing operations were moved to a 3,000 square feet converted warehouse at 3869 Walnut Street. It felt like they had moved into a castle, with ten times as much space. Now there was great pressure to expand the business to use up the extra space. The company began to make new products (such as tempeh, ice cream, and new deli foods) and look for new markets.

The deli remained at Pearl Street, and was given a new name, The Cow of China (a term from *The Book of Tofu*). The name "White Wave" was reserved for the tofu manufacturing company. But there was only one set of books, under White Wave. The company now changed to a partnership, with seven equal partners, all active. Demos was president and Pat Calhoun did the bookkeeping, and only these two were interested in meditation.

Right after the move, to announce The Cow of China as a retail outlet and its vegetarian deli products, Demos did his first real advertising, using three charming posters. The first read: "White Wave Through the Cow of China Offers Food from The Kingdom of Plants. We make it all here in Boulder. 100% Dairyless." It then listed 14 soyfoods plus some non-soy desserts, almond-, cashew-, and peanut butters, and tahini. A second poster showed a soybean, with head, tail, and legs like a cow and dotted lines to delineate the choice butcher cuts. But instead of rump roasts and flank steaks were Soysage, Miso Dressings and the like. A third showed Jack, standing under a giant beanstalk, about to trade in his cow for the magical beans at which he is gazing in wonder. The caption: "We've got an alternative. White Wave Soy Dairy." The latter two posters were used as catalog advertisements with a growing number of natural food distributors.

The tofu plant now consisted of an open kettle, VCM grinder, and hand press for the curds on the end of a swinging levered bar. White Wave started to deliver product to some Denver health food stores and in late 1978, not long after the move to Walnut Street, they landed their first supermarket chain, King Soopers supermarket chains, which began to order 100 cases. As business expanded, so did the need to improve packaging and marketing, and to control costs.

New packaging: White Wave couldn't get its tofu into supermarkets unless it was sold in water-packed film-sealed plastic tubs (trays); the Chinese carry-out food/fish cartons were not acceptable. So Demos bought a little hand-packing machine that allowed one person to pack one block of tofu at a time in water in a plastic tray, then seal the tray with a film lid. Steve remembers first using this machine at the Walnut St. plant. Initially, he would seal the tofu tray with clear, unprinted film, then run one of their oval labels (the one with a hint of green color in it, used previously on the Chinese cartons) through a gluing machine (which was less expensive than buying pre-glued labels), and slap the label on the clear plastic film. This was White Wave's "first true commercial mass market package." The new marketable package led to many new accounts. After King Soopers the company got into the City Markets chain, then about a year later into Safeway, followed by a host of other chains in outlying areas. As business expanded, White Wave could afford pre-printed film labels for its tofu in plastic trays. The label design, though rectangular, was basically the same as the old oval. The ingredients new read: "High protein soybean cake contains: Soybeans grown without the use of herbicides or pesticides, filtered water, and nigari (salt bitterns). No more no less!" Soon a variety of textures were available: Extra firm press, firm organic, extra firm, and sift.

New sources of soybeans: White Wave had made its tofu from organic soybeans from day one. When the company first moved into Walnut Street, they were still buying these soybeans from Green Mountain Grainery in Boulder. But in the fall of 1978 Steve drove to a meeting of the Organic Growers Association in Iowa. He spoke about the demand for organic soybeans and met Marvin Kurpkeweight, who was already growing soybeans organically in eastern Nebraska. Steve visited Marvin's farm and contracted with him to buy organic soybeans direct from the farmer. Address: Lafayette, California.

Soyfoods Center. 11 p. Oct. Unpublished manuscript, based on interviews with Steve Demos from June 3 to Oct.
• ***Summary:*** Continued: White Wave's tofu production was growing nicely. It rose from 120,000 lb. in 1978 (2,308 lb/week), to 179,000 lb. in 1979 (3,442 lb/week, up 49%), to 279,000 lb. in 1980 (5,365 lb/week, up 56% over 1979).

In February 1979 a major new product line was started: tempeh. Chip McIntosh was the first tempeh maker, followed by Chris O'Riley. An old kitchen refrigerator, warmed by light bulbs, was used as the incubator. The first two products were Soy Tempeh and Soya Rice Tempeh, the latter being America's first multi-ingredient, soy-and-grain tempeh.

At about the same time, a third new product was launched: Polar Bean. It was a soymilk based non-dairy frozen dessert, made in a soft serve machine but sold in hard-pack pints. The first flavor was Banana-carob. Later strawberry, chocolate, carob mint, and orange flavors were added. In about 1984 a soft serve version called Polar Softie was introduced but did not prove successful.

Also in 1979 Richard Leviton visited White wave and the Cow of China, and did an in-depth study of their operations and products, published in the 1979 issue of *Soycraft* magazine. Soyfoods sold both at "The Cow" and for wholesale distribution to other retailers included: Organic Nigari Tofu, Soymilk (Honey-Vanilla or Carob-Maple), Soysage, Tempeh, Missing Egg Salad, Tofu Mayo, Baked Savory Tofu Cutlets, Sweet Bean Tofu Pie, Miso Salad Dressings (Mellow or Hearty), and Tofu Treats or Creamies (Banana-Coconut, Peanut Carob, or Carob-Mint; squares of creamy baked tofu blend on a healthful oats-coconut-flour crust).

Other ready-to-eat items sold only at "The Cow" included Soysage Pate, "Macro" Pizza (with tofu), Tofu Spinach Dill Turnovers, Tofu Cinnamon Rolls, Hot Tofu Meatballs and Meatball Sandwiches, Sloppy Joe Sandwich (made with TVP), Tofu Cream Cheese & Black Olive Sandwich, Tofuna Sandwich (like tunafish), Strawberry Tofu Pie, Soy Sesame Bars, and Tofu Butternut Squash Pie. In mid-1979 bulk recipes for about ten of these products were published, with permission, in *Tofu & Soymilk Production* by Shurtleff and Aoyagi.

Leviton noted: "The Cow of China is surely one of the nation's most ambitious and energetic soyfoods companies." It was just about breaking even with weekly gross retail sales of $1,000, three-fourths of which came from soyfoods. Concerning the growth of the still totally unmechanized little company Demos, now the self-styled "beneficent dictator," always frank and candid, added:

"It was a hell of a struggle, especially for an undercapitalized small business. But I certainly wouldn't discourage anybody because we started with nothing, and we've been going since then, and we've been able to make it all meet. We've just rigged, we've improvised, we've done everything imaginable, as I'm sure many other people in this industry have. We cut our salaries back, we did without a lot, but its own momentum kicked in. I suppose we consider ourselves alchemists in turning sweat into money. So, let me express my gratitude to everybody and everything, seen and unseen, who have helped us pull this together."

In August 1979 Gary and Chandri Barat arrived in Boulder and spent several days studying the Cow of China. They had met Demos at the Second Annual Soyfoods Conference in Amherst, Massachusetts (July 26-29, 1979). They were driving around the country, studying tofu and developing a business plan in preparation for starting a soyfoods company, which later became Nature's Inn, then Legume. As they studied The Cow of China and Demos invited them for dinner several times. He and his wife, Ginny, served a tofu spinach feta pie and mushroom caps stuffed with tofu. Later Barat told Demos more than once how much this visit has influenced him in starting a company based on tofu entrees. The lineage of Legume's early products (Tofu Cream Pies, Tofu Spinach Pies) can be traced back to The Cow of China.

Barat encouraged White Wave to do a feasibility study on converting The Cow of China into a fast food restaurant named The Family Diner and moving into a vacated A & W root beer stand three blocks from The Cow in a very attractive location. The study was done, a potential menu was developed, bu financial backing did not come through.

A White Wave catalog published in December 1979 included several new products: Doufu (extra firm Chinese style tofu), Savory Baked Tofu, and Tamaried Nuts and Seeds (Almonds, Cashews, Spanish Peanuts, Sunflower Seeds, Nut Mix).

The Cow of China deli was doing well. By February 1980 sales were $1,700 to $2,000 a week and there were often lines out the door. By the summer of 1980, according to *Soyfoods* magazine, the Cow of China had been renamed the Good Belly Deli, with the slogan "Real Food, Real Fast" and White Wave was producing 7,500 pounds of tofu and tofu products a week. The new deli, an expanded and Americanized version of "The Cow," continued to serve as an excellent showcase for the White Wave's innovative ready-to-eat soyfood products. Working with a friend who was an advertising agent, Demos had dropped the line of assorted health foods (miso, sea vegetables, etc.), expanded the deli items, and installed a stand-up counter bar to eat at and a few tables and chairs. Formerly it had been all takeout. Hot and cold fast food was served. The deli attracted lots of business (there was still usually a line out the door), the products were very innovative and they were praised by the natural foods community in Boulder. Address: Lafayette, California.

on interviews with Steve Demos from June 3 to Oct.
• ***Summary:*** Continued: But White Wave was growing by leaps and bounds, as were sales of tempeh and Polar Bean soy ice cream. White Wave was doing all its own delivery in its own trucks to Boulder and Denver. And the business had not been capitalized, except for one new $3,000 loan that brought in a silent partner. A loan of $4-5,000 was outstanding from the IRS, in unpaid taxes

The Good Belly Deli lasted only 5-6 months. Though it was doing well and was probably making money (though the financial records were poor), it increasingly became a thorn in Demos' side, for it was getting out of control. It was a drain on his time and energy, more than he could handle, and it seemed to be less important than the manufacturing end of things. So one day in the spring of 1981 he walked in and announced that he was closing a business that had lines around the corner. He wanted to focus on his main goal: to become the largest tofu manufacturer in his region. In retrospect it was a good decision, but he adds, "We were operating on a lot of idealism in those days, and not much practical business sense." In October 1980 White Wave changed from a partnership to a corporation, with 5 active and one silent stockholders.

After closing the deli, the first real money came into the company. With a bank loan, they paid off the IRS, then soon paid back that loan. Then in the fall of 1981 Demos landed a $69,900 SBA loan (SBA approved a bank loan) to buy new equipment and $100,000 worth of equipment from Mountain High, a public company which made ice cream and yogurt, and needed to get out of their Boulder ice cream plant at North 57th Court.

At North 57th Court: In September 1981 White Wave moved again, this time to Mountain High's former ice cream plant in an industrial park at 1990 North 57th Court. *Soyfoods* magazine reported that Demos threw a huge "factory-warming" party for several hundred friends and customers, serving Polar Bean and many favorite tofu and tempeh recipes. This represented a huge, key expansion. The square footage increased six to seven-fold, initially to 6,000 square feet including 22,000 cubic feet of walk-in cold storage space. Big new equipment was purchased with the SBA Loan. The number of stockholders was now reduced to three: Demos, Pat Calhoun, and Chip McIntosh. The business was able to survive because of loans. Demos cut his hair.

The percentage of sales generated by the various product lines was tofu 50% or more, ice cream 10-15%, tempeh 20-25%, and nut butters 10-15%.

For several years Demos had been urging King Soopers to move his product out of the produce section into the dairy section. In mid-1982, after studying a report on "The Tofu Market: Overview of a High-Potential Industry," published in May 1981, King Soopers made the move, in part due to customer demand. Initially sales were unchanged, since customers couldn't find the product. But there was a big advantage to King Soopers: no shrinkage from spoilage because of the lower temperature. The margin initially went down to 15%, the same as for dairy products. This brought the price down. Later they got smart and raised the margins for tofu. Not it's higher than milk but still less than produce. "I'm glad to see them making lots of money on our products," noted Demos.

In May 1983 White Wave made a major decision: to vacuum package their firm tofu. They bought a used Tiromat vacuum packager from a beef-jerky company in Los Angeles. Thereafter everything went wrong, so much that that one machine "almost broke the company's back." Demos later called it "the curse of the devil," and his production manager would often ask only half in jest, "Do you think we are sitting in vacuum packaging hell?" They found that tofu is a very difficult product to vacuum pack, though firm tofu is easier than soft. They concluded that 30% of the problems were caused by the machine, 30% by the product, and 30% by the operator, "and the rest was absolute karma." The process was very unforgiving, as was the machine's maker, which gave White Wave almost no support. They tried to disown the fact that Demos got stuck with a lemon. So White Wave had to solve all the problems by themselves.

Tempeh was now doing very well. In about 1982 White Wave began to make its own starter culture in order to get better quality control and save money: Alexander Lyon, who happened to be in town, spent a week teaching them the intricate process for $100. They also began to sell all tempeh frozen, after steaming. The product line was steadily expanded. By 1983 the company had introduced a Tempeh Burger and 5 Grain Tempeh (with soybeans, millet, wheat, oats, and barley). By 1984 the burgers were the company's best-selling tempeh product (48% of tempeh sales), followed by frozen soy tempeh (28%), soy & rice tempeh, then 5-grain tempeh. Accounting for one-fourth of White Wave's sales in 1984, tempeh was now the company's most profitable line of products. Making 5,850 pounds a week, White Wave had become America's second largest tempeh producer (after Quong Hop & Co.) and distribution had reached California. In fact, tempeh had now passed tofu as White Wave's most important product.

Polar Bean was also doing well. In 1984 it won a silver award in the annual Natural Foods Merchandiser contest, and that summer a Polar Pal ice cream sandwich was introduced.

"By 1983-84 White Wave broke the 10,000 pounds-of-tofu a week barrier and became a regional company, shipping tofu via many distributors throughout the midwest: Chicago [Illinois], Detroit [Michigan], Dallas [Texas], Salt Lake City [Utah], and Phoenix [Arizona].

Financial Crisis and Recovery: For most of its history, White Wave had been profitable, with plenty of cash and good financial records. Though the move to North 57th Court

© Copyright Soyinfo Center 2013

quadrupled their overhead, the company continued to make money for the first 2 years there, running a very tight ship. Then they started to encounter major equipment problems: a compressor breakdown and major non-stop vacuum packager nightmares. A maintenance team had to be hired. White Wave was growing into a company that needed management, but the sales volume could not support that. Sales were good, profits were small, and overhead was skyrocketing. This led to a slow tailspin, losing $1,000 a month during 1983-84. These were not considered major losses but the upward trend had been reversed.

By August 1984 White Wave was $40,000 in debt and people were burned out. Decisive action was needed. In September Demos hired Lester Karplus to take charge of daily operations while he started to do a business plan to raise equity. But in the following months losses increased dramatically, to $10-$15,000 a month. White Wave lost a total of $60,000 during the next 6 months. Finally in February 1985, amidst his first real crisis, Demos fired Karplus and McIntosh, and took over the whole company himself. His four-part strategy was cut overhead to the bone, bring in new cash quickly, hold creditors at bay as long as possible, and implement a system of data collection (which Karplus had helped develop) to generate better production and financial reports. Address: Lafayette, California.

8217. Shurtleff, William. 1987. History of White Wave, Inc. (Continued–Document part V). Lafayette, California: Soyfoods Center. 11 p. Oct. Unpublished manuscript, based on interviews with Steve Demos from June 3 to Oct.
• ***Summary:*** Continued: First, he laid off all managers (who were not producing day-to-day results). Future plans were put on hold.

In October 1984 Jason Bois, who had been around the health food business for many years, approached White Wave to discuss having White Wave make him a soft serve soy ice cream. Demos advised against soft serve, but when Bois persisted, Demos developed a new soft serve formula for him, containing tofu and spray dried soymilk. Launched in January 1985 and marketed under the name Tofruzen, they failed within four months, for lack of a market. Bois quickly returned to Demos and beseeched him to develop Tofruzen in hard pack pints so that Bois could use these products to raise equity capital in a public stock offering. Demos had all the hard-pack formulas for Tofruzen developed in 30 days, using an improved version of his Polar Bean as the base mix but with totally new flavors (chocolate, strawberry, vanilla-almond). After Tofruzen launched the new products mid-1985, they realized that they didn't really own anything. So Demos, with some unexpected luck and seeing a way to bring in new cash quickly, proposed Tofruzen buy the title to the formulas for $25,000 cash, plus $25,000 in 6 months, plus interest. And White Wave would have an extensive supply contract. Tofruzen agreed.

In December 1985 Tofruzen, Inc. raised $1.6 million net in a public stock offering, and at that time paid White Wave its first cash. Tofruzen Bars followed in May 1987 and low-calorie Tofruzen Light in August. Once Demos saw that Tofruzen would be a successful product, he downplayed marketing of his Polar Bean. Tofruzen sales rose from $91,000 in fiscal 1986 to $158,000 in 1987.

Shortly after Karplus left, White Wave started selling its tofu in a colorful box. Karplus served as an agent to negotiate with advertisers and designers. The new package helped sales.

In mid-1985, to consolidate its business focus and bring in more cash, Demos sold White Wave's nut butter business to an employee for $35,000. White Wave retained 5% interest in the company, which is now called Naturally Nuts.

To turn the tide of losing money and get some badly needed breathing space, Pat Calhoun came up with a plan where she and Demos would call all the creditors and say, "Either we file bankruptcy or you allow us to pay off our debts to you over a one year period." All creditors agreed to this plan.

In July 1985, the moment of truth, the turning point, arrived. The company was $100,000 overextended (60 days behind in payments) and could not borrow money. Everyone was disheartened. Demos and Calhoun started regular sitting meditation again, recommitting himself to spiritual practice as central and profitability as essential. He recalls, "Once I got my priorities straight, things started to go well." Within 90 days White Wave had started to generate a positive cash flow. By mid-1986 the $100,000 debt had been paid off, and White Wave was once again accumulating cash and savings.

Demos decided to try his approach on another company, Soyfoods Unlimited Inc., a major tempeh manufacturer, which he had been offered an opportunity to buy. Having started tempeh production in February 1981 in San Leandro, California, Soyfoods Unlimited had grown to be America's third largest tempeh manufacturer by 1984, Soyfoods Unlimited was now heavily in debt. White Wave didn't have any extra money, but the offer made sense as a way to get distribution for White Wave products in California and the West Coast, and to increase production volume. So on 1 December 1986 White Wave made its first acquisition. The buyout took place over a period of time, with some cash down. By mid-1987 Soyfoods Unlimited had been turned around and was a profitable, wholly owned subsidiary. White Wave owned all the stock and had signed a supply agreement with Soyfoods Unlimited to supply them with everything. This acquisition, with all tempeh production for both brands done at White Wave in Boulder, helped boost weekly output to 17,000 lbs. a week by the fall of 1987, making White Wave the biggest tempeh manufacturer in the USA. Growth of tempeh was strong and its future looked very promising.

White Wave has long been one of America's most innovative tempeh companies, in part because of its faith in

© Copyright Soyinfo Center 2013

the potential and future of tempeh. Tempeh continued to be the company's most profitable product. During 1985-88 the tempeh line was expanded with a number of original and delicious varieties: Quinoa (6/85), Lemon Broil (10/86), Amaranth and Sea Veggie (both 3/87), Peanut Sesame (3/88), and Teriyaki Burger (8/88). These also gave his product line more shelf space, a key consideration.

At King Soopers and Safeway, White Wave now had three shelves with tofu and tempeh right in the middle of the dairy section.

Tofu production was also strong, averaging 15,000 lbs. a week in mid-1987. A future high priority was the plan to pasteurize their tofu to give longer shelf life. After several years of selling tofu vacuum packed in a box, White Wave introduced a water pack without the box for the Asian-American market and some Caucasians since they are not used to the vacuum pack, and they prefer softer tofu, which cannot be vacuum packed.

By mid-1987 White Wave was back into high gear and growing nicely. Their space grew from 6,000 to 20,000 square feet. White Wave was one of the few Caucasian-run soyfoods companies that has been able to grow without selling most of the company. Demos' family has supported him to a large degree. He had borrowed roughly $25,000 from friends and family. The company still owed one-third on its SBA and Mountain High loans, and some to family. Assets were now about $300,000 and liabilities are $200,000. Since May 1987 White Wave had money in the bank and a growth rate above 30%. The 1987 sales projection was $2 million, of which 8-14% was expected to be profit.

In December, projected revenues for 1988 were $3 million. The company was in the midst of a private placement offering for $500,000 and the banks had approved equipment loans for $600,000. They have put in a bid to purchase an old (built in 1978) meat processing house on 2.4 acres in Boulder.

The Future: New products to be launched in 1989 include several meat analogs (tofu hot dogs/franks, due in March, aimed at the mainstream market concerned with cholesterol) and a soy yogurt.

Demos has set a number of goals for White Wave. First, to become the major primary soyfoods ingredient manufacturer in the region, and to maintain a profit margin of at least 10%.

Second, to make the concept of a clearly delineated and identified "Soyfoods Section" in the dairy case, succeed at King Soopers and Safeway. Set off with plastic dividers between yogurt and milk products, the section would be filled out with second generation soy products. This new concept would allow him to compete with larger tofu manufacturers (such as Azumaya and Hinode) who are lower priced but sold in the produce section. Address: Lafayette, California.

8218. Shurtleff, William. 1987. History of White Wave, Inc. (Continued–Document part VI). Lafayette, California: Soyfoods Center. 11 p. Oct. Unpublished manuscript, based on interviews with Steve Demos from June 3 to Oct.
• ***Summary:*** Continued: Third, after (and only after) the Soyfoods Section concept does succeed, to approach other chains with the same idea and ultimately to get into the whole Kroger chain of 400 stores in the Midwest.

Fourth, to develop new tofu-dairy blends to reach the mainstream. For example, a vacuum packed tofu sold next to cheese, that tastes like cheese (it doesn't have to melt); it could be mixed with cheese or flavored like cheese. Or a tofu cheesecake made of half tofu (or tofu cream cheese) and half cream cheese, that was virtually identical in flavor and texture to all-dairy cheesecake but was lower in cholesterol, saturated fats, and calories.

Fifth, to give major attention to tempeh product development. Demos thinks that tempeh represents a vast future potential because Americans like it better than tofu (though it is largely unknown), it offers good profitability, and the competition is not as severe as with tofu. Address: Lafayette, California.

8219. **Product Name:** Soft Soyalite (Non-Dairy Cream Cheese) [Garlic, Herb, Onion/Chive, or Plain]. Formerly named Soft Tofu Cheese.
Manufacturer's Name: Simply Natural, Inc.
Manufacturer's Address: P.O. Box 295, Norma, NJ 08347.
Date of Introduction: 1987. October.
Ingredients: All: Organic tofu, organic miso. Herb: Italian seasoning (Oregano, basil, savory, thyme, rosemary).
Wt/Vol., Packaging, Price: 8 oz plastic tub.
How Stored: Refrigerated.
Nutrition: Per ounce: Calories 43, sodium 167 mg, fat 2.3 gm, carbohydrates 1.6 gm, protein 3.8 gm.
New Product–Documentation: Leaflet. 1987. Oct. Shows label. "A non-dairy cheese substitute." Label. 1987. 4 inches diameter. Green and purplish red on white "Simply Natural Gourmet Soy Foods Soft Soyalite. Plain. A Non-Dairy Cheese Substitute. Only 43 calories an ounce!" Brochure. 1987. Oct. "Discover the New Simply Natural and Rediscover Natural Cuisine." Introduces Soyalite (formerly Soft Tofu Cheese), Pasta Lite (formerly Tofu Pasta), and Miso Dressing. Explains why the names were changed and shows labels. Red on white. 4 pages. Leaflet. 1988. "We're back... And better than ever! Better price. Better shelf life. Better packaging. Better flavors. Super summer discount thru 31 Aug. 1988." Ad in Vegetarian Times. 1988. May. p. 58. "Everything Your Heart Desires."

Product Alert. 1988. May 23. "After extensive research and market surveys, Simply Natural, Inc. of Norma, NJ, has decided to rename and reformulate its Soft Tofu Cheese product. It is hoped the new name, Soyalite, will end the confusion behind the old product name–is it cheese, tofu or

© Copyright Soyinfo Center 2013

a combination. Soyalite has approximately half the calories, 43 per ounce, of soft dairy cheeses. Packaged in an 8 oz tub, this spread and/or dip has been reformulated so it has a more 'velvety', smoother texture. Four varieties are available, Plain and Herb are reformulations of the original tofu cheese product while Onion/Chive and Garlic are new additions to the line."

8220. **Product Name:** Pasta Lite (Non-Dairy Fresh Frozen Pasta Stuffed with Soft Tofu Cheese) [Ravioli, Tortellini, or Stuffed Shells]. Formerly Antonio's Simply Natural Tofu Pasta.
Manufacturer's Name: Simply Natural, Inc.
Manufacturer's Address: P.O. Box 295, Norma, NJ 08347.
Date of Introduction: 1987. October.
Ingredients: 100% whole durum wheat, tofu, Plain Soyalite, parsley, basil.
Wt/Vol., Packaging, Price: 12 oz multi-colored sealed plastic bags.
How Stored: Frozen.
Nutrition: Ravioli: per 2 oz: Calories 139, sodium 3 mg, fat 1.8 gm, protein 7 gm, carbohydrates 22 gm. Note: Tortellini contains 150 calories and Shells 77 calories per 2 oz.
New Product–Documentation: Leaflet. 1987. Oct. Shows Labels. "Simply Natural. Gourmet Soy Foods." Ad in Vegetarian Times. 1988. May. p. 58. "Everything Your Heart Desires."

8221. *SoyaScan Notes.* 1987. New Trend: Many of the new soyfoods are being developed and marketed as all-American and fun: Tofu and tempeh burgers, tofu hot dogs, soymilk shakes, soy ice creams, tofu chocolate bars (Overview). Oct. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** This is part of the larger trend of the Americanization of soyfoods.

8222. *SoyaScan Notes.* 1987. New Trend: Europe's hottest new soyfood product, smoked tofu, is almost unknown in America (Overview). Oct. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** Recent European visitors and letters to the Soyfoods Center have praised the new varieties of smoked tofu made by many European tofu companies. They are surprised that this product is not better known in America. The earliest known commercial smoked tofu was produced in France in 1911 by Chinese soyfoods pioneer Li Yu-ying. In 1974 Komatsugawa Tofu in Japan made a smoked tofu inside a deep-fried tofu pouch, sold in oil in a sardine can. The earliest known smoked tofu in the Western world was introduced in June 1984 by L'Herberie in Montreal, Quebec, Canada. All of the recent European brands have been introduced since 1986. They are made in England (Caldron Foods, Regular Tofu Co., Full of Beans Soyfoods), Germany (Soyastern, Morgenland Pflanzenkost, Christian Nagel Tofumanufaktur), Netherlands (Manna Natuurvoeding, Heuschen-Schrouff B.V.).

8223. Sun Huan; Ling Yi-Lu; Gai Jun-Yi. 1987. Cropping systems and research with soybeans in China. In: S.R. Singh, K.O. Rachie, and K.E. Dashiell. eds. 1987. Soybeans for the Tropics. New York: John Wiley & Sons. xx + 230 p. See p. 119-24.
• ***Summary:*** Soybeans have probably been cultivated for 4,000 to 5,000 years in China. "As a native to the country, 'shu' (the local name for soybean) has been found inscribed on tortoise shells from the Shang Dynasty (from about the 16th to the 11th century BC). In the *Book of Songs*, one of the five Chinese classics, 'shu' appeared in 7 of 305 songs written between the 11th and 7th centuries BC.

"Soybean seeds have been discovered several times in relics unearthed in archaeological studies. In 1959, large amounts of yellow-seeded soybean weighing 18-20 gm were found in Shanxi Province, dating back 2,300 years. In 1980, some carbonized soybean seeds were found in Jilin Province, dating back about 2,600 years.

"China led the world in soybean production and export until 1954." Before World War II, 8 to 10 million tonnes of soybeans were produced in China each year, accounting for 82-90% of the world's total production.

Because of the destruction in China caused by World War II, and later the civil war [1946-1949], soybean production fell to its lowest level in 1949. During the 1950s, average annual soybean production was more than 9 million tonnes but the government favored policies to promote cereal grains [rice, wheat, etc.] and soybean production eventually became unprofitable. In 1947, for example, Chinese farmers were paid only CNY (Chinese yuan renminbi) 32.4 per 100 kg.

Three institutes in China are devoted solely to soybeans: they are within the Heilongjiang, Jilin and Anhui academies of agricultural sciences.

Table 1 shows Soybean area, yield and total production in eight provinces of China (in million tonnes). In descending order of production they are: Heilongjiang 288.5, Henan 128.0, Anhui 91.5, Jilin 88.0, Liaoning 69.5, Shandong 64.5, Jiangsu 52.0, Heibei 25.0. Address: 1. Soybean Inst., Jilin Academy of Agricultural Sciences, Gongzhuling, China; 2. Nanjing Oilseed Crops Lab., Jiangsu Academy of Agricultural Sciences, Nanjing, China; 3. Nanjing Agricultural Univ., Nanjing, China.

8224. **Product Name:** Lite Chef Entrees. Casual Meals (Dry Mixes) [Chili Rio Grande, Country Barbecue, or California Burger].
Manufacturer's Name: Sunfield Foods (Distributor). A Sunmark Company.
Manufacturer's Address: 8155 Hampshire St., St. Louis, MO 63123. Phone: 314-832-7575.

© Copyright Soyinfo Center 2013

Date of Introduction: 1987. October.
New Product–Documentation: These dry mixes require the addition of firm tofu and water. The California Burger was formerly one of the Lite Chef Tofu Mixes. Soya Newsletter. 1987. Sept/Oct. p. 6.

8225. **Product Name:** Lite Chef Entrees. Quick and Easy Dinners (Dry Mixes) [Pasta Italiano, Rancheros Fiesta, Mandarin Almond Stir-Fry, or Shanghai Sweet 'n Sour].
Manufacturer's Name: Sunfield Foods (Distributor). A Sunmark Company.
Manufacturer's Address: 8155 Hampshire St., St. Louis, MO 63123. Phone: 314-832-7575.
Date of Introduction: 1987. October.
New Product–Documentation: These dry mixes require the addition of tofu and water. Formerly named Lite Chef Tofu Mixes. Soya Newsletter. 1987. Sept/Oct. p. 6.

8226. **Product Name:** [Tofu Convenience Products].
Foreign Name: Tofu-Convenineceprodukte TK.
Manufacturer's Name: Tofukost-Werk TKW GmbH.
Manufacturer's Address: Siemensweg 1, D-4724 Wadersloh-Diestedde, West Germany. Phone: 02520-1300.
Date of Introduction: 1987. October.
New Product–Documentation: Form filled out by Hermann Berief, owner. 1988. Jan. Lists 4 products.

8227. *Whole Foods.* 1987. L.A. firm to handle PR for Morinaga. Oct. p. 27.
• ***Summary:*** Morinaga Nutritional Foods Inc., Los Angeles, California has retained Mahoney/Wasserman & Associates to handle its promotions and public relations activities. Described as the third largest tofu product in unit sales, Mori-Nu is distributed nationally by Morinaga.

8228. **Product Name:** [Sour Marinated Deep-Fried Tofu].
Foreign Name: Essig Age.
Manufacturer's Name: Yamato Tofuhaus Sojaprodukte GmbH.
Manufacturer's Address: Rittweg 11/1, D-7400 Tuebingen–Hirschau, West Germany. Phone: 7071-71094.
Date of Introduction: 1987. October.
Ingredients: Incl. deep-fried tofu pouch, vinegar, soy sauce, spices.
New Product–Documentation: Talk with Klaus Gaiser, President of Yamato. 1990. March 12 and May 8. This product was introduced in about 1987. "Age" is written Japanese style with no acute accent over the e. It was marinated in vinegar, soy sauce, and spices. This product was one of the first 2 products introduced after the move to Hirschau, along with Hirschauer Laible.

8229. **Product Name:** [Fried Tofu Marinated in Soy Sauce and Spices].
Foreign Name: Hirschauer Laible.
Manufacturer's Name: Yamato Tofuhaus Sojaprodukte GmbH.
Manufacturer's Address: Rittweg 11/1, D-7400 Tuebingen–Hirschau, West Germany. Phone: 7071-71094.
Date of Introduction: 1987. October.
New Product–Documentation: Talk with Klaus Gaiser, President of Yamato. 1990. March 12 and May 8. This product was introduced in about autumn 1987. The tofu was first marinated in soy sauce and spices, and then deep-fried.

8230. Zee, J.A.; Bourgeois, M.; Boudreau, A.; Breton, R.; Jones, J.D. 1987. Utilisation de la féverole dans la fabrication du tofu [Utilization of fava beans (broad beans) in the manufacture of tofu]. *Canadian Institute of Food Science and Technology Journal* 20(4):260-66. Oct. [28 ref. Fre; eng]
• ***Summary:*** Describes the optimal process, chemical composition, nutritive value, texture, and organoleptic properties of this product usually made from soybeans. Faba bean tofu was darker in color (beige), less firm, and slightly more bitter in taste than soybean tofu. Optimum yields of tofu from fava beans (also called "broad beans," *Vicia faba*) was 66.8% by weight and 44.8% of the protein, obtained with a bean:water ratio of 1:10. Increasing the amount of coagulant decreased the protein yield. GDL (glucono delta-lactone) gave the tofu a very pale color, but the protein yield was less than with other coagulant salts. Address: Dep. of Nutrition Humaine et de Consommation, Centre de Recherche en Nutrition, Université Laval, Quebec, QUE, G1K 7P4 Canada.

8231. Blair, Betty J. 1987. Tofu. In casseroles, chili, and desserts, this amiable food fits into all tastes. *Detroit News.* Nov. 4. p. 1E, 2E. [1 ref]
• ***Summary:*** Dorothy Hwang, owner of Michigan Soy Products in Royal Oak, has a doctorate in chemistry from the University of Kansas and was a research associate in chemistry for 14 years at Wayne State University. She opened her tofu business 5 years ago. Since then sales have tripled; she now makes 2,000 lb/week of tofu. She uses some of this to make tofu burgers, salads, and a frozen manicotti entree. She is marketing a tofu coconut pudding, which she may soon make herself. She also takes special orders for tofu cheesecake, cakes with tofu frosting, and tofu cream pies, including pumpkin.

8232. Thompson, Keith. 1987. Jacob Hartz Seed Co. (Interview). *SoyaScan Notes.* Nov. 4. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Hartz was purchased by Monsanto in April 1983. They have been doing research on soybeans suited for soyfoods for 10 years. The director of research Curtis Williams (formerly at Louisiana State Univ. for 6 years) began in the mid-1970s to develop a very popular natto

© Copyright Soyinfo Center 2013

variety, that was released in 1980. Proprietary varieties for seed were first released in 1984. Univ. of Illinois and Iowa State are also doing food bean research. Soybean production in the South has shrunk 46% in the last 6 years, to 12 million acres from 22 million. A soybean containing no trypsin inhibitor was developed 2-3 years ago but there has not been much interest in it.

There are three lipoxygenase enzymes: L1, L2, and L3. There is a Japanese patented process for removing both L2 and L3, using backcrossing. Hartz has lines that are free of L1 or L2 or L3 or L1 + L3. Lipoxygenase removal seems to offer big promise for improved soymilk and tofu beans. Hartz is the only commercial seed breeder in the U.S. doing work on maturity group IX and X, now that Hinson has closed down his tropical variety development in Florida. Hartz has a global outlook. He is sorry that INTSOY is no longer doing varietal development; they were a great source of information. Daylight insensitive is also called "juvenile characteristic." It takes 1 bushel of seed to plant an acre of soybeans. Address: Food and Export Manager, P.O. Box 946, Stuttgart, Arkansas 72160.

8233. Jalonen, Wendy. 1987. Tofu tussle. Phony ad causes flap at Vashon Island tofu firm. *Puget Sound Business Journal.* Nov. 8.
• ***Summary:*** A classified ad running for more than a week in Seattle papers said a public sale was being held to satisfy a $4 million debt. Lukoskie says no such debt exists. The phony ad was apparently the result of a power struggle that may have prompted Island Spring's major investor to sever its financial ties with the company. Island Spring employs 34 people and last year did $1 million sales out of its 4,000 square foot plant. The new $6.5 million plant, which will make Island Spring the largest tofu producer in America, was backed by Edward Lynch Co., a Vancouver (Washington) investment firm that also owns Naturally Northwest.

Chuck Eggert, vice president of Edward Lynch, said his company severed its relationship with Island Spring and does not currently have an investment in the Vashon Island company. Lukoskie said that loss of Edward Lynch's backing will slow completion of the new plant, but other investors are interested in funding the company. Lukoskie plans to capture 20% of the $100 million domestic market for tofu and other soy products in the next couple of years.

Note: This is the earliest document seen (Feb. 2003) concerning soyfoods in connection with the company that would soon become Pacific Foods of Oregon. Address: Seattle, Washington.

8234. Armstrong, Julian. 1987. Tofu or not tofu: It's hot then cold. *Gazette* (*The*) (*Montreal, QUE, Canada*). Nov. 11. p. E-3.
• ***Summary:*** A lavish and colorful buffet featuring tofu was served at the 19-hotel Canada Pacific chain. "Montreal tofu guru and cookbook author Yvon Tremblay and the Chateau Champlain's executive chef, Alain Monod, had produced a delicious variety of cold hors d'oeuvres, hot main courses, and cooling desserts..." The best dish was a curry (see recipe).

8235. Lee, Leonard L. 1987. Eastern Foods Corporation and Tofulicious (Interview). *SoyaScan Notes.* Nov. 11. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** His Eastern Foods Corp. presently makes about 10,000 lb/week of tofu; the capacity is 5,000 to 7,000 lb/day. They also make egg roll and wonton skins. An expensive Pillsbury executive was hired to make a big splash with Tofulicious. It flopped and almost killed the company. He now wants to start importing a line of traditional natural foods from Korea with a classmate (incl. ramen, noodles, crackers, rice vinegar) and to enter the health food, gourmet, and military markets. He is now importing dim sum and has set up a branch in Korea. Line name: Naturally Koryo. He tried to export Tofulicious to Japan, developing a cheerleader point of purchase ad; it flopped. Address: Minneapolis, Minnesota.

8236. *Toyo Shinpo* (*Soyfoods News*). 1987. Okara kara jinzô niku tsukuru. Nihon Powder Kankoku de gôben seisan kaishi. Yasukute fûmi batsugun. Gyôkai no chûmoku atsumeru shin shôhin [Making an artificial meat from okara. Nihon Powder starts a joint company in Korea. The meat is inexpensive and tastes great. It is the new food which is getting the attention of the industry]. Nov. 11. p. 2. [Jap; eng+]
• ***Summary:*** Mr. Koichi Yoshida is the president of Nihon Powder, Uchikanda, Chiyoda-ku, Tokyo, Japan. Phone 03-256-7931. Nihon Powder has decided to produce artificial meat made from okara on a large scale in Korea starting in January 1988. They established a joint company with Hoko Shokuhin (a protein food company in Korea). Nihon Powder has ¥36,000,000 invested in the new joint company or 49% of the control. Together they make a product which is better tasting than any artificial meat made from soy. The new product has a better texture and flavor than other such products. They process okara by adding calcium chloride to it and tofu coagulants to make a fresh tofu chunk. The tofu undergoes an ice-cold temperature ripening process, and is then processed using 2 screw-extruders to make a meatlike product. Before this process can be used though, soybean hulls must be removed to produce a good texture soy imitation meat. Fortunately, the manufacturers use an enzyme which breaks down the bean hulls, allowing them to use okara in their processing.

Okara is such a big problem in Japan that the phrase okara pollution (*okara kogai*) was invented. Some of the tofu makers are very concerned about the build-up of this okara waste. The Nihon Powder company has also invested another

¥180,000,000 to make a plant (320 square meters of space) on 16,500 square meters of land which is scheduled for completion in November of 1987.

8237. Cloud, Jon. 1987. Breeding soybeans for food uses in Canada, the Organic Crop Improvement Association, new developments with okara, and Soy City Foods (Interview). Conducted by William Shurtleff of Soyfoods Center, Nov. 15. 2 p. transcript.
• ***Summary:*** Jon Cloud has done much work on breeding soybeans for food uses, especially for tofu. He started the Organic Crop Improvement Assoc. (OCIA) in Canada. It is now in 6 countries and 22 states in the USA. OFPANA has not progressed. He is doing exciting new work with soy mash overseas, with Griffith Labs. Soy City Foods is a corporation that is worker owned. Address: Soy City Foods, Toronto, ONT, Canada.

8238. *Toyo Shinpo* (*Soyfoods News*). 1987. Shin gyôkoki ni toiawase tsuzuku. Nigari 100% kinugoshi ni tekiô. Tôyô Plant [Inquiries continue for new coagulating machine which is suited to make silken tofu using 100% nigari]. Nov. 21. p. 7. [Jap; eng+]
• ***Summary:*** Mr. Ikeba is the president of the Toyo Plant (K), Matsue 4-27-6, Edogawa-ku, Tokyo, Japan. Phone 03-655-0111. You can now make 100% nigari silken tofu with the touch of a button! One can also use it to make soft tofu, momen, age-kiji etc. What is it? It is the all-mighty coagulating machine. The company is planning to have demonstration classes because they are getting a lot of enquiries for this machine.

8239. Dunne, Mike. 1987. Japanese delicacies enhanced by warm, intimate atmosphere. *Sacramento Bee* (*California*). Nov. 22. p. EN20.
• ***Summary:*** A review of the Robata Grill & Sushi on Sunrise Boulevard in Sacramento. The idea is inspired by an ancient custom of the Ainu fishermen of Hokkaido, Japan's northernmost island.

"As soon as guests are seated, they are welcomed with hot, wet hand cloths and a small bowl of edamame–steamed, lightly salted fresh soybeans still in the pod, the Japanese equivalent of beer nuts, meant to be eaten casually as guests peruse the menu or sip a cup of sake or glass of beer. Just tear off one end and press or suck out the plump, delicate and wholesome peas [sic, beans]."

The menu also includes Sukiyaki, with tofu. Address: Bee Reviewer.

8240. Drosihn, Bernd. 1987. The German and European tofu markets. Soyastern and its products (Interview). Conducted by William Shurtleff of Soyfoods Center, Nov. 30. 2 p. transcript.
